## KILLED NEAR THAMESVILLE

B. J. Robins an English Laborer Meets Death On G. T. R.

HE WAS SHORT-SIGHTED

(From Our Own Correspondent.)

Thamesville, July 22.—At 7.30 this morning, as G. T. R. Sectionman Owens was patrolling the track, he found, about two miles east of here, the body of what was at first supposed to be an unknown man, lying on his back near the grass line, clear of the rails.

Sectionman Owens came back to town, and, accompanied by Coroner S. Stewart, returned to the place of the accident. In the meanwhile others had gathered, among them being Solomon Manning, a prosperous farmer who lives near by, who recognized in the deceased his hired man, B. J. Robins, an Englishman, from Infield, England.

It is said the deceased has a brother, a private banker in Morden, where he himself spent some three years previous to returning to England for a year.

Returning again to Canada, the deceased found employment with Solomon Manning, where he remained till his death. B. J. Robins had informed his employer that he was not going into town Saturday evening, so what he was doing on the track remains a mystery. He was about 30 years of age, of medium height, and had very poor eyesight.

There was found on his person a spectacle case, gun metal watch and leather chain, and a pair of pocket scissors.

After viewing the body it was handed over to Undertaker Best, an inquest being deemed unnecessary.

## WIND, RAIN AND LIGHTNING TERRIFY THE EAU RESIDENTS

Sail boats and Row boats Were Capsized in The Eau And Intense Excitement Reign'd Everywhere For A Time — No Lives Were Lost

Those who went to Erieau yesterday with the intention of spending a quiet Sunday were disappointed. It is safe to say that a more excited lot of people than there were at this popular summer resort could not be found any place yesterday.

At five o'clock in the afternoon the Eau was literally covered with sail boats and row boats. All were having a pleasant time when they saw a storm coming up, and they made directly for the shore. The most of them, however, were too late, and they were caught in one of the strongest wind storms that ever visited the Eau.

Excitement reigned supreme and those on the beach who had relatives on the water were down on the shore anxiously scanning the large waves for some trace of their unfortunate friends. The wind was terrific and the waves came piling on the shore in large sheets.

There were about 30 boats on the water at the time and many of them were given up as lost by the watchers on the shore. Some women screamed, others fainted, and everyone was excited. Sail boats were capsized and row boats were overturned, and the people on the shore could see their friends struggling in the water without being able to go to their assistance. The waves were so high that it was impossible to launch a boat to go to anybody's assistance.

Crown Attorney H. D. Smith and party, consisting of Mrs. Smith, Miss Nan Tackaberry, Miss Mildred Puchard, Frantz and Morris Smith, Dr. R. V. Bay and Fritz Falls were in the "Eric B." the sail boat owned by Mr. Smith. They were out some distance from the shore when they saw the storm coming up. They made for the beach, but the wind caught them before they could make it. An attempt was made to get the sails down, but the main sail would not work, and the boat was capsized. The party clung on to the boat until assistance arrived. They were rescued by Will Fellows in the Togo.

Kingsley Holmes and Miss Greening were out in a sail boat. This boat, too, was capsized and the occupants clung to it until they were rescued.

Three Cleveland men were out in another sail boat. They were making for the shore, and when within about 100 yards of the beach their boat overturned, and they, too, had to be rescued. The other sail boats that were out were all beached. Their occupants found it impossible to do anything else. Capt. Poy had a big party out in his sail boat. He had to run up on the beach. One of the occupants fainted after the whole affair was over. J. G. Kerr beached his sail boat. The lion was another of the sail boats beached.

Three row boats were overturned, but the occupants escaped by clinging on to the upturned boats. Mr. and Mrs. Moore and family were out in a row boat. They were in the whole storm but came through all right. They had an awful experience. A minister from Blenheim was on his way over from Shrewsbury, and went through the whole storm. He, too, came through safely. It was some time before peace was restored even after everyone was brought safely ashore.

A number of young men from Tilbury were out in the lake in a launch. They were unable to make the channel, and had to run up on the beach.

The incident has caused more people than ever to be cautious in going out in a sail boat, and once more Mr. Smith is talking of converting the Eric into a launch.

The wind was followed by rain and lightning and with it all the Eau residents spent a very wild night.

## HELP TO SAILORS

H.S. Clements' New Gas Buoy of Great Service—Lighthouse News Notes

The Lighthouse, July 23.—Com. Baby returned in his yacht La Parra from a pleasant trip to the Sny.

P. Cowley, of Tilbury, brought his family in his launch "Laner."

Commodore Scane, Cap. Stevens and H. S. Clements, M. P., brought their families down and spent a pleasant time on Carter's lawn.

George Chalmers brought his family and some friends in on the Lila B. from Tilbury.

Mr. and Mrs. W. Plummeridge and Mr. and Mrs. McLampman, with some friends, enjoyed a pleasant run in the fine fast launch "Emma."

C. Barfoot and W. Bradden, who have been spending a week here, returned to Chatham on Sunday, taking their canoe with them on the "City."

H. Fitzsimmons brought a number of friends in on his fine launch. Miss Minnie McNaughton is visiting Mrs. Turner at Breezie Times Cottage.

Miss Sager and Mrs. Shaw are visiting Mrs. Johnston at Sanjanuta Cottage.

Mr. Tiffin, of Detroit, is also visiting Mr. Will Johnston.

Mr. Mallory, of Tilbury, took a trip over to the Sny in the O. H. M. with his friends and had a fine time.

Mrs. Knott and Rana were missed at Merry Times Cottage, owing to the illness of Mrs. Joyce. They are expected back soon.

One of the many pleasant outings for the cottagers was given by Miss Annie Bechard, when she entertained her friends last week. The special feature was a turtle soup dinner. Everyone was there and voted her an ideal hostess.

The Messes Churchill, of Windsor, are visiting Mrs. Myers at the Light-house.

Mr. Bagnall took a party over to the Sny. They had a breezy time but got back safely.

H. Cartier took H. S. Clements, M. P., out to see the new range flash light which has been placed in the channel through Mr. Clements' efforts. It is working fine and will be of great assistance to mariners.

H. Philip, with several members of the band, had a pleasant trip down on the "Wack." They treated the cottagers to several selections which were much enjoyed, and afterwards they had a pleasant sail on the lake. On returning they were entertained to lunch by J. Bechard. Mr. Chas. Rutley enjoyed a fine trip with the band boys.

Mrs. J. H. Oldershaw and Lorine are visiting Mrs. Turner at the cottage. Bob Turner had his camera with him yesterday, so look out for what might turn up in the way of pictures.

## TOBACCO IN KENT WANTS THE NAMES

This County will Produce Greatest Crop in the History of this Industry

Hoing is now the order of the day with farmers who raise tobacco. Most of the crop now weeds the cultivator and the hoe to loosen the soil that has been trodden down by the constant passing and repassing of men, horses, and wagons in the drawing of plants and water to set and reset the fields, to say nothing of the tracks of the tobacco setter. In this vicinity the setting, so far as I can learn, is now completed, and most of the crop has been reset the second time. Within a few days I have seen plants which have attained the height of ten inches and a spread of sixteen to twenty inches. This was tobacco that had been transplanted in May; the June setting, of course, is not so large, but gives promise to very soon reach that point. I know of one field that has been set less than a week that started to grow and hoeing commenced within the week. Of all the tobacco I have seen in late years none surpassed this crop in its quick starting to grow. One thing noticeable about this new crop is it is so even and of so dark a green that everyone says: "Tobacco looks nice this year."—Leamington Post.

The following is self-explanatory: To the Editor of The Planet:

I have no desire to engage in newspaper controversy, only just to correct a statement of your reported interview with Clerk Riseborough re Forbes' license.

The statement is made that the temperance party staunchly stand by the Clerk in his attitude.

Now, sir; I repudiate that stigma. Maybe I am only a cipher among temperance people, but I will not allow such an imputation to be recorded against temperance people and go unchallenged.

So, as a temperance man, I protest against the Clerk's action—I will say unmanly—at least unfair—then give the public the names struck off and let the affair be relegated to oblivion.

## TEACHER APPOINTED

On Saturday afternoon a meeting of the Internal Management Committee of the C. C. I. Board was held, at which it was decided to appoint Mr. Ayres to the position of Head Science Master of the Institute, in the place of A. E. Jewett, who goes to Toronto. There were many applications received, but the Board thought that there were none who were better than Mr. Ayres. They will now advertise for a junior science master to fill the position formerly occupied by Mr. Ayres. Every member of the committee expressed his regret at the removal of Mr. Jewett, but they all felt it a compliment that a teacher from the Chatham Institute should be chosen to fill such an important position in Toronto. There were 17 applications for the position here.

## Sunday Wagonette Parties

Arrangements can be made for going to the lake every Sunday during July and August. The wagonette will leave every Sunday morning at about seven o'clock, and any person desiring to take the trip should call up 'phone No. 470. Calls will be made in any part of the city and upon the return in the evening passengers will be taken to their residence. Fare for the round trip 50 cents.

## A BIG DAY FOR EVERYONE

The Baby Show Was An Attractive Feature Of The Picnic

WHITE'S GOOD SHOWING

The sports at the great Pere Marquette picnic on Tecumseh Park Saturday were full of interest. The generous prize list helped to sustain enthusiasm in the many races and contests and for most of the chief events entrants were not lacking. The fat men's open race proved one of the best features of the program. It was a hot contest in a double sense, the rivalry between the contestants and the scorching sun combining in making things uncomfortable for the corpulent sprinters. John W. White was Chatham's representative in the race and the genial John made a most creditable showing, although it was a long time since he had done any running. The race was pulled off by a speedy visitor, J. Bremer, who only won by a few inches from the local man.

The white baby show was not very largely entered but the competition was keen. The cooing babies were danced in a fatherly way by the judges before the delighted crowd as they were brought on the platform by their proud mothers. Baby Meredith carried off the first prize, Baby Lyuk the second and Baby Huestwick the third. The colored babies in the ensuing competition were conspicuous by their absence and the prizes reserved for them consequently went begging.

During the afternoon Fire Chief Pritchard gave the visitors an excellent exhibition run of the brigade to the top of William street. The big crowd which lined the side of the Park were loud in their praises of the horses, men and apparatus and the Chief and his staff must be complimented upon their splendid run. The Regimental Band helped considerably toward making the afternoon the great success it was. Their selections kept the throngs of people in a lively mood and added a martial zest to the proceedings. Owing to the great difficulty experienced by the judges in keeping track of the prize winners the full list of successful contestants was unobtainable. The following carried off first prizes in the events named:

Girls under 14 race—Annie Downey.  
Sack race—Geo. Broener.  
B. of T. R. race—L. Adams.  
Apprentice's race—G. Fallick.  
Hop, step and jump—N. Wright.  
Fat men's race—J. Bremer.  
Engineer's race—J. Austin.  
Ladies' race—Mrs. Hepworth.  
Boys under 14 race—Ross Duncan.  
The B. of T. F. race resulted—J. D. Darraek, 2 H. Tomlinson, 3 J. E. Pembroke.

The following building permits were recently issued by Fire Chief Pritchard:

No. 114—John G. Moore, to erect a one storey frame building on lot 10, north side of Poplar street, cost \$700.

No. 115—Chas. Keller, to erect a verandah on lot 15, block II, east side of William street, cost \$450.

No. 116—John Flook, to erect one and one-half storey frame building on lot 1, west side of Adelaide street, cost \$250.

No. 117—James Watt & Sons, to remodel front of three storey brick building on lot 1, block C, north side of King street, cost \$235.

No. 118—Nap. Pinsonneault, to erect one and one-half storey frame building on lots 55 and 56, south side Pattison avenue, cost \$1,800.

## BUILDING PERMITS

During the electrical storm which passed over this section last night, lightning struck one of the buildings on Larry Howard's farm in Raleigh, resulting in a disastrous blaze. All of the farm buildings, including Mr. Howard's residence, were destroyed. The barn contained the major portion of the early harvest, and only the stock was saved.

The reflection of the blaze was seen from the city last night. The buildings and contents were insured by the London Mutual for \$2,700.

BUILD UP CHATHAM.

On Saturday there were hundreds of visitors in the city. It was the day of the annual excursion of the employees of the Pere Marquette rail.

Many were the exclamations of surprise and wonderment at the beauty of Tecumseh Park, and its excellent fitness as a picnic ground.

Why is Chatham not advertised more extensively as a summer resort? It is safe to say that there is not a prettier or healthier city in the Dominion.

In some cities of far less importance than Chatham, a reception committee is appointed on the civic council, whose duty it is to welcome visitors on such occasions as the one on Saturday.

PEOPLE AND THE PRESS.

"Put it done as a fact," says the Philadelphia North American, "that the man who decries and denounces the newspapers is either an exposed rascal or a person who fears exposure for himself or for his friends."

Words of solemn truth and of urgent, everyday importance to the masses, is the comment of A. T. McDonald, a former Chathamite, in his paper, the Louisville Herald.

But the independent journal, published for the benefit of the public, meets the grafter's early and bitter denunciation. The moment he finds it impossible to bend a paper to his will, he strives to break it. But the really independent paper neither bends nor breaks. It makes friends and wins support in spheres and in attitudes beyond grafters' reach.

**Importance of Hobbies.**  
For the well being and stable balance of every mind it is normally necessary that every man should have some pursuit which shall be unconnected with his business, which he must pursue with absolute seriousness. The hobby may be a game, it may be a collection of some sort (even stamps) or it may be some artistic achievement, and whether a man scarcely attains mediocrity even in it matters not at all, provided he pursues it with the fixed idea that nothing else in the world matters.—London Queen.

**Tree Snakes of Borneo.**  
The flying frogs of the Malays appear to be mythical, but the tree snakes of Borneo are credited with taking flying leaps from the boughs of trees to the ground. It is found that scales on the lower part of the body may be drawn inward so that the whole lower surface becomes concave. The resistance to the air is thus greatly increased and experiments indicate that the snakes do not fall in writhing coils, but are let down gently in a direct line by the parachute-like action of their peculiar bodies.

### Good Blood

Good blood, good health; bad blood, bad health; there you have it. Why not help nature just a little and change the bad to the good? Bad blood to good blood; poor blood to rich blood! Ask your doctor how this applies to Ayer's Sarsaparilla, and how it applies to you! Could anything be more fair?

We have no secrets. We publish J. C. Ayer Co., Lowell, Mass.

**Hearsay Evidence.**  
"See here, Jekely, I'm surprised to find you writing such bitter, cynical things about married life."  
"Well—Benedict, you see, the fact is—"

"Oh, don't apologize. It isn't that. What surprises me is how, not being married, you know all these things."

**Friends.**  
"If a man is friendless it is his own fault."  
"That's right. Why, there are fine fellows standing on every corner who would gladly borrow money from him."

Stupid are they who stoop to folly.

**The Conductor's Mistake.**  
A conductor on the St. Louis and Suburban railroad had such a good run of business Sunday afternoon that he had difficulty in keeping himself supplied with small change. Many passengers who patronized his car handed him dollars and bills of larger denominations in payment of their fares. The conductor, however, managed to get along fairly well until a woman carrying a tiny infant boarded his car. When he approached the woman for her fare she handed him a five dollar bill.

"Is that the smallest you have, madam?" queried the conductor, fearing another stringency in change.

The woman looked at the conductor and then at her baby and made this surprising reply: "Yes; I have been married only twelve months."

**Men, Women and Feet.**  
Tact has always been considered the peculiar attribute of woman. "With a woman's tact," is one of the stock phrases of the novelist. But a writer in one of the American magazines—and his view is upheld by an English magazine which quotes him—upsets this tradition by declaring that men are more often tactful than women.

Men, it is submitted, are swift to know when to speak and when not to speak—and that is why a mediocre man will succeed when even a clever woman will fail, why men are greater in diplomacy, in all things that require finesse. Still it is a question whether men really succeed better in diplomacy. What about the woman who is the "power behind the throne?"

**How the Daisy Was Named.**  
Of all the flowers of the field the daisy is the most appropriately named. Probably not one person in a hundred understands the significance of this little flower. Hundreds and hundreds of years ago it got its name, and in all parts of the world the name means the same thing. The nature lover who named the daisy had in his study of the wild flower observed that it opened its eyes with the opening of the day and closed it with the setting of the sun. So with the simplicity of the true artist he called it the eye of the day, the daisy eye or, as we spell it today, the daisy.

**A Perfect Flying Machine.**  
Gulls are masters in the air. I have watched by the hour birds similar to these following along in the wake of a steamer, but had never before had such chances with a camera. Often they poise, resting apparently motionless on outstretched wing. It is a difficult feat. A small bird can't do it. A sparrow hawk can only poise by the rapid beating of his wings. The gulls seem to hang perfectly still, yet there is never an instant when the wings and tail are not constantly adjusted to meet the different air currents. Just as in shooting the rapids in a canoe, the paddle must be adjusted every moment to meet the different eddies, currents and whirlpools, and it is never the same in two different instants. A gull by the perfect adjustment of its body, without a single flap of the wings, makes headway straight in the teeth of the wind. I saw one retain a perfect equilibrium in a stiff breeze, and at the same time reach forward and scratch his ear.

**Kafir Woman's Courage.**  
One of the first explorers of the interior of South Africa was William Cotton Oswell, a noted hunter and a friend of Livingstone, to whom he rendered important aid. In his biography the following story is given from one of his African letters: An incident highly creditable to Kafir womanhood occurred just as we reached Maloppe. The women, as is their custom, were working in the fields, for they hoe and the men sew. A young man, standing by the edge of the bush, was chatting with them. A lioness sprang on him and was carrying him off, when one of the women ran after her, caught her by the tail and was dragged for some little distance. Hampered by the man in her mouth and the woman behind her, she slackened her pace, whereupon her assailant straddled over her back and hit her across the nose and head with a heavy short handed hoe until she dropped her prey and slunk to cover.

**Curious Land Law.**  
Owners in Belgium Do Not Control Beyond a Certain Depth.  
One of the curious phases of the land law in Belgium is that the earth of a landowner beyond a certain depth does not belong to him. Should the owner of the surface discover a coal or gold deposit underlying his property he must first obtain a government concession: before he can begin mining operations. The land beyond the prescribed depth in which wealth in the ray has been discovered may be conceded to a person other than the surface owner, who may operate under certain government regulations, one of which is that the owner of the surface is entitled to 3 per cent of the value extracted. The mine pays to the government an amount determined by the value and importance of the concession, after which it must pay to the government a sum proportioned to the value of the total extraction. The government names the conditions under which the mines as well as other industrial establishments shall be operated and protects and safeguards the health and lives of the workmen as well as provides for the public safety.

**Is Disease a Crime?**  
Not very long ago, a popular magazine published an editorial article in which the writer asserted, in substance, that all diseases should be regarded as criminal. Certain it is, that much of the sickness and suffering of mankind is due to the violation of certain of Nature's laws. But to say that all sickness should be regarded as criminal, must appeal to every reasonable individual as radically wrong.

It would be harsh, unsympathetic, cruel, yes criminal, to condemn the poor, weak, over-worked housewife who sinks under the heavy load of household cares and burdens, and suffers from weaknesses, various displacements of pelvic organs and other derangements peculiar to her sex.

Frequent bearing of children, with its exacting demands upon the system, coupled with the care, worry and labor of rearing a large family, is often the cause of weaknesses, derangements and debility which the mother is called upon to perform. Dr. Pierce's Favorite Prescription is a remedy for woman's peculiar weaknesses and ailments. It is a master of frequent experience, he says, in his extensive practice, in these cases, to meet with those in which his treatment fails by reason of the patient's inability to abstain from hard work long enough to be cured. With those suffering from prolapse, anteversion and retroversion of the uterus or other displacements of the woman's organs, it is very necessary that, in addition to taking his "Favorite Prescription," they abstain from being very much, or for long periods, on their feet. All heavy lifting or straining of any kind should be avoided. As much outdoor air as possible, with moderate, light exercise is also very important. Let the patient observe these things and the "Favorite Prescription" will do the rest.

**Prisoners Released.**  
Bogota, Columbia, July 21.—The people of Columbia yesterday celebrated the anniversary of their independence, and in honor of the accession the Government released all political prisoners.

**Regular Ostriches.**  
"This, ladies and gentlemen," said the guide, "is a real theatrical chop house. You will notice the signs on the wall, 'Watch your hat' and 'Keep an eye on your umbrella.'"

**Costly, but Lasting.**  
Johnny—What! Only married a year and yet you are so downcast? Wally—Ah, my dear fellow, I never imagined that a wife would prove such a costly article. Johnny—Yes, a wife is a costly article, that's true, but then you must remember that she lasts a man a precious long time.

**Perfection.**  
Briggs—You call on the Dimpletons very often. What sort of children have they? Griggs—Perfect! Best in the world. Briggs—Tell me about them. What are they like? Griggs—Oh, I've never seen them.

**Good Feller.**  
Teacher—Johnny, do you love your enemies? Johnny—Yes!—when I meet 'em all at once!

### Stomach Cramps. COLIC.

THESE are very painful, and their attacks are often sudden and sometimes fatal. The principal seat is in the stomach and bowels, producing severe twisting, cramping pain, and often accompanied by vomiting. If you are troubled in this way, there is only one remedy to cure you, and that one is Dr. Fowler's Extract of Wild Strawberry. It has a record of cures extending over 60 years and we have yet to hear of it failing to either relieve or cure.

Mrs. M. Seward, Bristol, N.B., writes: "I was terribly troubled with cramps for some time and had several doctors attend me, but their medicine did not do me any good. I got two bottles of Dr. Fowler's Extract of Wild Strawberry and they completely cured me. I would not be without it in my house."

**REFUSE ALL SUBSTITUTES. THEY'RE DANGEROUS.**

The minister of industry and labor appoints a state board of mining engineers, authorized to regulate the working of all mines and all establishments considered dangerous or insanitary, whether shaft or open mines, quarries, factories, coke oven plants or briquette works.

We're enthusiastic about Bu-Ju because it does help. People give verbal evidence every day.

It isn't the talking that convinces—but the earnestness—and the cheery smiles of gratitude, which say more than any words. You can't help smiling when you get rid of pain and feel perfectly right. Health smiles—gratitude prompts it.

If you must have something to right the kidneys, use Bu-Ju. But we hope you don't require it. You certainly shan't after giving Bu-Ju the trial we ask. Samples free. Get some.

### Great Mistake of a Fool Photographer

"CONFOUND IT!" exclaimed the proprietor of the regular summer resort on the lake. "Confound it!" he repeated, with an emphasis that made it mean something very much stronger.

"What seems to be the trouble?" asked his wife as she watched him glaring disgustfully at the photographs he held in his hand.

"Oh, nothing, only this fool photographer has made a great mistake, and one of these pictures will have to be taken over again. I wanted to send them all to the engraver's today, and now we shall have to wait several days perhaps before this one will be ready."

"But what is wrong with it? It looks all right from here."

"What is wrong? Can't you see that in photographing our string of fish for the picture 'One Day's Catch' he turned the biggest bass so that the moth eaten place showed plain as day? Now I'll have to go and get out those old fishy things and have all that work done over again! That reminds me that we really ought to send to a city market somewhere and get some fish to taxidermie of. We may find ourselves without an exhibit at all."

Saying which, he went out and turned the hose on the lake.—Chicago News.

**Broken Promise.**  
"You advertise a homelike air about your place, do you not?" asked the guest.

"I do," replied the hotel man.

"You advertise that special effort is made to give a home atmosphere to the dining room, don't you?"

"Yes, sir."

"Then how is it that I have eaten four meals here and at none of them has any one told me that the cook is going to quit, that the milkman is cheating us, that the Browns just must keep their dog out of our flower beds and that I can't expect my dinner to be satisfactory if I do not get home in time for it?"—Judge.

**Too Soon.**  
"I am thirty-five years old," announced a woman of fifty-six at a tea last week.

"And I am twenty-six," said the woman of forty-five. Then, turning to a girl of seventeen who stood near by, she asked, "How old are you, Ethel?"

"Oh," replied Ethel, "according to present reckoning, I'm not born yet."—New York Life.

**Ought to Know Better.**  
"She says there's nothing she enjoys more than a nice love story," said Miss Giggles.

"You surprise me!" exclaimed Henpeck.

### Keeps Up With Times

New Remedy for Stomach Troubles That Will Cure.

In keeping with their custom of always ordering a supply of new remedies as soon as their value has been established, our leading druggists, have obtained a supply of Mi-o-na, a remedy for stomach troubles that absolutely cures and restores lost functions of the digestive organs.

Until recently it was thought that pepsin was valuable in the treatment of stomach troubles, but it is now known that while pepsin aids in digesting meats, it has no effect upon starchy foods, such as potatoes, rice, bread, corn meal, etc. As the majority of stomach troubles comes from indigestion of starchy foods, this makes pepsin absolutely useless in most cases.

On the other hand, Mi-o-na contains no pepsin, acts directly upon the gastric glands, restores the lost functions of the digestive organs, revives flagging nutrition, aids in assimilation of food and, in fact, so strengthens the whole digestive system that you can eat anything at any time without fear of indigestion.

Weakness, nervousness, sleeplessness, headache, pain and distress after eating, and all these result of a weak and faulty digestion. Use Mi-o-na, and all these symptoms will be overcome, and you will have perfect health.

Get a 50 cent box of Mi-o-na tablets to-day.

If you cannot obtain Mi-o-na of your druggist, it will be sent by mail, postpaid, on receipt of price. Write us for advice on your case from a leading stomach specialist which will be sent free. The R. T. Booth Company, Ithaca, N. Y.

What is worth doing at all should be well done, except when you order a beefsteak rare.

FOR PROMOTING UNITY

Empire Could Have Nothing Better Than State-Owned Cables.

Sir Sandford Fleming Urges Scheme at Dinner of London Eighty Club—Free Distribution of Empire News Matter Through Cable Lines Made Self-Sustaining Through Other Business—Liberals Endorse Underlying Idea.

London, July 21.—(C. A. P.)—Sir Sandford Fleming and Hon. N. A. Belcourt were last night guests at the special dinner of the Eighty Club, summoned to hear an exposition of the plan of the empire cable intelligence service.

Sir Sandford urged greater intercourse between the Mother Country and the colonies, as promoting the unity of the Empire. This could be secured by a system of cables entirely state-owned, connecting all parts and affording the free distribution of news information, in addition to being self-sustaining by other business.

Mr. Belcourt and Hon. Colon Campbell spoke in support, pointing out the inadequacy of the present arrangements.

General discussion followed. Many prominent Liberals heartily endorse the underlying idea, which they had heard for the first time. Although recognizing the practical difficulties of working out details, they promised careful consideration.

Honar Greenwood, in moving a vote of thanks to the guests, praised the work of Sir Sandford Fleming in behalf of the Empire. He thought the difficulties and details could be overcome and affirmed that in the heart of the Liberal party there was a warm sympathy with over-sea dominions. Lord Lucas presided and other Canadians present were, W. D. Matheson and Col. Stimson of Toronto.

EMPIRE PREFERENCE BY INDIA.

Would Discriminate Against Three-Quarters of Her Best Customers.

London, July 21.—In introducing the Indian budget in the House of Commons yesterday afternoon, Indian Secretary Morley sounded a warning note on the necessity of excluding India from the field of party politics.

The most engrossing of Great Britain's foreign relations, he declared, were the Asiatic, those involving this country with China, Japan and Russia, which was a great Asiatic, as well as a European power.

Any false step in India would land Great Britain in a confusion infinitely more dire and disastrous than had the false step taken in South Africa.

"India came in the free trade controversy can be put in a nutshell," he declared. "Her prosperity and comfort, the growth of her trade and commerce, the solvency of India hang upon her exports. The United Kingdom takes Europe and the Far East takes 75 per cent. Thus, when the people of Great Britain asked India for preferential duties they were asking her to discriminate against three-fourths of her customers."

Mr. Morley considered the time ripe for an advance in improvement of the system of the Government of India. Everybody knew that there was a new spirit abroad in India. There might be discontent, but there was no disaffection among the people, and the present government of India was in full sympathy with the desires of the people for the introduction of more western ideas.

With this object in view the viceroy was appointing a commission to enquire how far the extension of the representative element in the Legislative Council could be expediently carried out.

The Indian Secretary also said he considered that the natives ought to be given greater access to the higher posts in the administration of India.

Canadian Northern Successfully Tenderers For Railway Bonds.

London, July 21.—In a circular issued by the bondholders committee of the Qu'Appelle Railway, it was stated that unsuccessful negotiations were carried on with the view to selling to the P. R. This proving a failure the offer of the Canadian Northern was accepted.

Mackenzie and Mann, give in exchange for every existing £100, 6 per cent bond £107 in the Qu'Appelle, Long Shore and Saskatchewan Railway and Steamboat Co. 4 per cent debenture stock, not to exceed £1,850,000 in all, having 20 years to run. Principal and interest are guaranteed by the Canadian Northern Railway Co.

Shot Severs Artery.

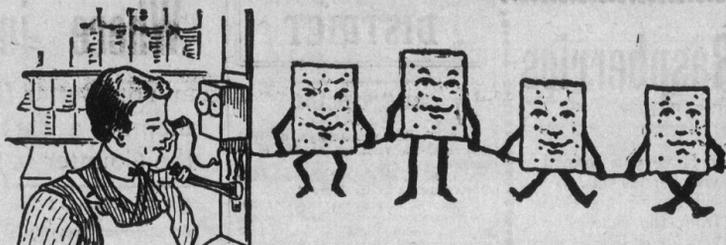

Peterboro, July 21.—Thomas Robertson a lumberman living at Hamilton, was accidentally killed Thursday night at Cedar Lake, Robertson, with Daincourt and Willis Stone, of Peterboro, was scaling timber on the shore of the lake, and in getting out of a canoe, a rifle, held by Daincourt Stone, is reported to have accidentally discharged, the ball passing through Robertson's left thigh and severing an artery. Inside of an hour and a half Robertson died from loss of blood. Deceased was 26 years of age, and leaves a wife and three children.

Sharing With Employees.

Ingersoll, July 21.—The John Morrow Machine Screw Co. have set aside the sum of \$1,600 to be divided among their employees and the employees of the Ingersoll Nut Co., which is under the same management. The generous policy of sharing their profits with their employees was adopted by the company last year.

25,000 Harvest Hands Required.

Winnipeg, July 21.—Manitoba and the west will require from twenty to twenty-five thousand imported harvest hands to handle the crop this year, said W. J. Black, Deputy Minister of Agriculture. Official reports from all parts of the province indicate that the crop will be the heaviest yet harvested.

THE JEWS FOR VICTIMS

Douma Says Government Incited Class Against Class.

Lower House of Parliament Scores Heavily—Expresses Distrust of Ministry and Demands Its Resignation—Calling in Guards—Syrzan Wiped Out by Fire and 35,000 People Are Homeless and Without Food.

St. Petersburg, July 21.—At the opening session of the Lower House yesterday the question of the publication of the address to the country, which President Mourmoutzeff Thursday night decided had not been carried owing to the lack of a quorum, was allowed to go over until Monday.

Without debate the House then adopted a resolution on the subject of the Bialystok massacre, demanding the prosecution of the military and police officials involved, irrespective of rank. Strong indictment.

The resolution, which constitutes a strongly worded indictment of the central Government, which is held responsible for the secret propaganda inciting class against class, says: "Realizing its powerlessness to suppress the revolutionary movement the Government attempts to break it up by inciting one portion of the population against the other, especially selecting the Jews for victims."

The resolution concludes with another expression of distrust of the ministry and a demand for its resignation. May Dissolve. The Bourse Gazette says that an extraordinary council is sitting yesterday afternoon at Peterhoff, with General Count Ignatoff, the noted reactionary, M. Pobedonosteff, former procurator-general of the holy synod, General Trepoff, commandant of the palace; M. Stiechinsky, Minister of Agriculture, and others in attendance discussing the advisability of the immediate dissolution of Parliament.

Calling in Guards. The feeling of general alarm is increased by the fact that all Thursday night guard regiments marched into the city from the camp at Krasnoyarsk. Moreover, it is known several colonels were summoned to the headquarters of the commander of the St. Petersburg garrison, where they received instructions regarding the disposition of the troops in the case of certain eventualities. The evidence seems conclusive that the Government has deliberately prepared for the emergency.

So far as can be ascertained, however, no final decision has been taken at Peterhoff. 35,000 Homeless. Syrzan, Province of Simbirsk, July 21.—The fire which was started here July 19 continued through the most of the day until the whole of the city, with the exception of a small section near the railway station was consumed. The conflagration has rendered 35,000 people homeless, who also are without food.

Montaigne and Marriage.

Montaigne went toward marriage with the quality of cheerful alacrity which would have inspired a journey to the whipping post. "Might I have had my own will," he tells us, "I would not have married Wisdom herself. If she would have had me." No quainter piece of polite literature can be found than the letter which our philosopher addressed to his wife as a kind of necessary compliment on the occasion of the death of an only daughter. And the alacrity with which he delegates to Plutarch the task of consoling her in her affliction testifies to the entire consistency of his habitual claim that the dignity of marriage is best observed when a husband refrains from becoming too fond of his wife. Even in view of this consideration, however, such a brief and refrigerated epistle suggests an amazing degree of reticence in a writer who needs only the turning of a faucet to enable him to pour forth a quenchless stream of ideas on any and every subject from thumbs to immortality.—Martha Baker Dunn in Atlantic.

A Strange Feast. A curious feast is observed by the Mohammedan inhabitants of India in which the origin of the custom known as painting the town red may possibly be traced. It is called the Holi and consists chiefly in the plentiful sprinkling upon all and sundry of a certain red preparation called hol powder. It stains the white clothes of the natives with an ugly, dirty looking red that conjures up before timid eyes dreary visions of bloody fights and giddy nutlines. The powder is made in two shades—the one vermilion, the other rose red—and both are used impartially by the observers of the ceremony, who delight in bedaubing their faces with the powders until they look like strange and hideous denizens of hades come up, still glowing with the fires of that region. Among the better classes this festival is falling into disfavor, for it leads to many unpleasant excesses and had its origin in some decidedly dissipated scene in ancient heathen history.

Gladstone as a "Gape." A reference to "The Corsican Brothers" recalls an amusing story of Mr. Gladstone's visit to the Lyceum when Irving was playing in that drama. Mr. Gladstone at the time was not burdened by the cares of office, and one evening he dropped in at the Lyceum, where he was occasionally accommodated with a chair at the "wings." On this night, however, when the stage was set for the opera ball in "The Corsican Brothers" his curiosity led him into one of the boxes for spectators in the scene. Up went the curtain; Mr. Gladstone was at once described by the pit and greeted with shouts of joy which caused him hastily to withdraw. "This," says Mr. Austin, "was his first and only appearance in the drama outside of the dear old legitimate at Westminster."—Westminster Gazette.

The Wife's Repeach. In an address to a temperance society a lecturer told how drink had once caused the downfall of a brave soldier. In the course of the address he said: "Sometimes, after a delirium, the man would be repentant, humble. He would promise his wife to do better. But, alas, the years taught her the barrenness of all such promises. And one night, when he was getting to be an old man, a prematurely old man, thin limbed, stoop shouldered, with red rimmed eyes, he said to his wife sadly: "You're a clever woman, Jenny, a courageous, active, good woman. You should have married a better man than I am."

A Peculiarity of the Crow. Most birds cannot carry anything which their mounds are too small to contain. The crow is an exception at times. In Vermont, near Manchester, five crows were seen to come down into an apple orchard. They came daily and after a time the owner discovered that they were taking apples from a tree bearing the mellowed fruit. Each crow jammed its closed bill into an apple, raised its head and flew to a tall pine tree, where the fruit was eaten. More remarkable still is the fact that crows will sometimes carry turkey and hen eggs from a nest in the saund manner.

Director Saunders Speaks Glowingly of Western Crop Prospects. Ottawa, July 21.—The following telegram has been received at the Department of Agriculture from Dr. W. Saunders, director of experimental farms, now in the West: "Have seen crops in Manitoba and Saskatchewan to Indian Head. Grain of all sorts well headed and generally very promising. Very fine fields of wheat seen throughout Manitoba. At experimental farm, Brandon, crops are all heavy, food some rust there. Found some rust on leaves, but none on stalks. No rust on oats or barley. Nearly all grain crops seen in Saskatchewan are good, many of them excellent. Wheat, oats, barley and peas on experiments, farm very heavy. Think they are as good as have ever, been seen here. No rust found on any of the cereals. Large excursion here to town of farmers from all points between here and Prince Albert, and west to Moosejaw, and remark that crops of all this year promise to be the best they ever had."

Wheat Fields Changing. Winnipeg, July 21.—Reports from the wheat district say many fields are changing color. It is feared there will be an insufficiency of farm labor. At Portage la Prairie yesterday W. J. McGuire completed cutting his thirty acre field of barley. The grain was dead ripe and very heavy in sheaf. He expects an excellent showing from the separator at threshing time.

Engineer Killed. Three Rivers, Que., July 21.—As the express from Montreal on the C.P.R. was coming into the station here at noon yesterday it ran on to a siding, where the switch was left open, and collided with a box car. The driver jumped, striking a car, and was instantly killed. His name is Grondina.

TORONTO LIVE STOCK. Toronto, July 19.—Receipts of live stock at the City Market, as reported by the railways since Tuesday, were: 90 carloads, composed of 1255 calves, 360 hogs, 995 sheep and lambs, and 300 calves. Prices ranged from \$4.70 to \$5.10, but only one lot brought higher price, the bulk selling around \$4.80 to \$4.90 per cwt. Exported.

Best butchers' sold from \$4.50 to \$4.70, few bringing the latter price; medium butchers' at \$4.25 to \$4.40; common, \$3.50 to \$4; cows \$4.25 to \$3.90 cwt. The butchers' cattle mostly for sale are heavily beefed and steady, weighing from 900 to 1000 lbs, each; the weather being too warm for the thick fat, heavy cattle that were in demand a little while ago.

Feeders and Stockers. H. Murby reports a rather indifferent market for stockers and feeders, there being very few outside buyers present, which is usually the case at this time of the year. The common kind have taken a big slump, with the medium not faring much better. Feeders are not too many of the good kind offered, which are holding their own much better. Mr. Murby bought about 200 head this week, ranging in weight from 500 to 1000 pounds, at the following quotations: Best, 900 to 1000 lb. steers, \$3.90 to \$4.25; best 800 to 900 lb. steers, \$3.80 to \$3.90; medium 800 to 900 lb. steers, \$3.50 to \$3.80; best 600 to 800 lb. steers, \$3.25 to \$3.50; medium stockers, from \$3 to \$3.25; common stockers, from \$2.10 to \$2.60.

Milk Cows. About 40 milk cows and springers were offered on Wednesday and Thursday. Trade was not good, generally speaking, common cows being almost unsalable. It was reported that some farmers shipped their cows home again, good to medium quality cows, \$4 to \$4.50 each; few sold from \$4 to \$4.50 each; medium to good, \$3.50 to \$4; common, \$2 to \$3; inferior, at \$1.75 to \$2 each. Veal Calves. About 300 veal calves were on sale. Good to choice, or rather, the best of those offered, sold readily at as good prices as ever, but the inferior to common light calves were easier in price. The bulk sold at \$4.50 to \$6 per cwt. One lot of ordinary things sold as low as \$5.50. Good mixed milk-fed calves are worth \$6.50 per cwt.

Sheep and lambs are still in excellent demand at firm prices. Exported ewes at \$4 to \$4.40; bucks, \$3.50 to \$3.75 per cwt. Lambs sold at \$7 to \$7.50 per cwt. Receipts of hogs were light. Mr. Harris quotes the market firm, but unchanged, at \$7.70 for select and \$7.45 for lights and fats.

EAST BUFFALO CATTLE MARKET. East Buffalo, July 19.—Cattle—Steady, prices unchanged. Veals—Receipts, 125 head; slow and 25c lower, \$4.25 to \$4. Hogs—Receipts, 3100 head; slow and 10c to 15c lower; heavy and mixed, \$7.00; Yorkers, \$7.05 to \$7.10; pigs, \$7.10; roughs, \$6 to \$6.25; lambs, \$4.50 to \$5; dairies, \$6.75 to \$7. Hogs—Receipts, 18,000; market weak to 10 cents lower; choice to prime, heavy, \$6.75 to \$6.85; medium to good, heavy, \$6.50 to \$6.70; butchers weights, \$6.75 to \$6.85; good to choice, heavy, mixed, \$6.55 to \$6.65; packing, \$5 to \$6.65. Sheep—Receipts, 12,000; market weaker, 25 cents lower; sheep, \$4.25 to \$5.75; yearlings, \$5.20 to \$6.35; lambs, \$5.75 to \$6.25.

NEW YORK LIVE STOCK. New York, July 19.—Receipts—Receipts, 254; all condensed; nothing doing in live call feeding, steady for good cattle, full for others, exports, 150 head. Calves—Receipts, 112; feeding, full steady for prime veal, others dull; veals, \$4.50 to \$4.60; no buttermilk. Sheep and lambs—Receipts, 2867; sheep, steady; prime and choice lambs, a shade higher; medium and steady, common, dull to lower

CZAR MAKES BOLD MOVES

Dissolves Parliament and Sets Russia Back Where She Was Two Years ago

THE STORM IS COMING

St. Petersburg, July 23.—Russia's first experiment in Parliamentary Government came to an ignominious end Saturday night with the promulgation of two imperial ukases, the first dissolving the present Parliament and providing for the convocation of its successor on March 5, 1907, more than six months hence.

The Constitutional Democrats and Intellectuals generally recognize that they have no weapon with which to fight the Government bayonets.

Parliament Dissolved. "According to paragraph 105 of the fundamental laws, we order the Imperial Parliament dissolved and fix the time for the convocation of the newly-elected Parliament for March 5, 1907."

"Regarding the time for the new election to the Imperial Parliament we will later issue special indications."

"The ruling Senate will not fail to take proper measures to place this into effect."

(Signed) "NICHOLAS, Peterhof, July 21."

Extraordinary Security. "The text of the second ukase follows: 'In consideration of a report of the Council of Ministers presented to us regarding the necessity in the future for the preservation of order and public safety in the city and province of St. Petersburg, we consider it necessary to declare in the above city and province, instead of the state, of reinforced security which now prevails there, a state of extraordinary security.'

"The ruling Senate will not fail to take proper measures to place this into effect."

(Signed) "NICHOLAS, Peterhof, July 21."

Sets Russia Back. With these pithy but momentous orders, which were promulgated at 3 o'clock yesterday morning, Emperor Nicholas, by the stroke of the pen, set Russia back to where she stood two years ago, in the full grip of autocracy and irresponsible Government wiping out for six months at least the whole structure of Parliament, created at such cost.

There is but little doubt that the convocation of the new assembly will still further postpone this time, unless new Parliament promises to be more amenable than the present.

The delay in fixing the time for the new elections seems to indicate a decision to change the present basis of suffrage to perhaps a basis of universal suffrage, with which the advisers of the Emperor hope to swamp the educated Liberals, the Socialists and the workmen with the vast mass of peasantry.

The Coming Storm. The only uncertainty is the coming storm—when and where it will break. The advocates of the "Mailed fist" believe that by dissolving Parliament and provoking a collision now they will find the revolutionary leaders not prepared for anything as serious as Moscow, whereas further delay would give the revolutionists the time needed to organize and to continue corruption of the army.

There are no precedents in Russian history for the execution of an order of prohibition, but Monday probably will find the Tauride Palace in the possession of the military and the surrounding streets held by the Emperor's Guards.

The Constitutional Democratic caucus, which had been in session for several hours, adjourned before the news of the dissolution of Parliament was received, but the information already has reached the leaders of the party.

Appeal to Faithful. An Imperial manifesto, issued last night, which has already been a threat and an appeal to the Emperor's millions of mujiks to join in suppressing the revolution under promises of land, summons the "faithful sons of Holy Russia." Many Liberals consider this a direct incitement of the "black hundreds."

In spite of the excitement, yesterday passed with comparative quiet in the capital, and street rioting only began with the advent of darkness. The collisions generally were on a small scale.

Depend on Army's Loyalty. With the imperial ukase dissolving Parliament, the curtain rose upon possibly the last act in the great drama of the Russian revolution. The people and the Government now stand face to face, and upon the loyalty of the army depends the immediate issue.

During Saturday night additional troops were brought to the capital according to plan previously adopted.

The work of gathering in revolutionary agitators began immediately after the ukase placing St. Petersburg in "a state of extraordinary security," was promulgated and hundreds of arrests were made before daylight.

The powers conferred upon M. Von derlaunitz, prefect of police, and M. Zinovief, Governor of the province, are little short of those of petty dictators.

Ready For War. The proletarian organizations have been preparing for months for just such provocation to declare open war. It is impossible to describe the commotion with which the Constitutional Democrats learned the news. Although it has been bruited for the past

three days, the ukase was received by them in blank amazement.

After a hurried secret conference yesterday morning, it was decided, on account of the possibility of the meeting being broken up and the members arrested, that they go immediately to Finland and decide the future course to be pursued, and small groups left yesterday afternoon and evening by train. Whether word was given them to meet at Viborg or Helsinki is not known, but it seems probable that Finland in future Russian history will become synonymous with "the tennis court" of the French revolution.

Even Count Heyden, the leader and other members of the right are understood to have departed. It is quite improbable, however, that Parliament as a body will attempt to formally set up its authority against that of the Government.

General Strike. The Constitutional Democrats and Intellectuals generally recognize that they have no weapon with which to fight the Government bayonets.

The initiative, therefore, will naturally fall to the proletariat. This, the Social Democrats and the Group of Toll in Parliament all along have recognized and the most elaborate preparations have been made to repeal the tactics of the last fall and paralyze the country with a general strike.

But the plans at this time have been perfected with much more deliberation and involve not only the paralysis of cities, telegraphs, railroads and all means of communication throughout the empire, but a complete strike of peasants in the country as well.

It is believed the loyalty of the troops has been so shaken that the military supports of the Government will give way and when put to the test, the army will be divided against itself.

Last night the trains are filled with foreigners departing abroad.

Killing and Mutiny. Tiflis, July 23.—Tartars Saturday destroyed the village of Kaladjsk. Thirty persons were killed.

Katuga, July 23.—Anti-Jewish disturbances broke out in the village of Spasensk. A mob beat Jews and plundered their houses. The troops fired a volley, killing two of the plunderers and wounding many others. Order was restored.

Sebastopol, July 23.—A meeting of 2,500 sailors from the warships here Saturday drew up economic demands for presentation to Admiral Skrydloff. Unless these demands are fulfilled the men say the whole of the Black Sea fleet will revolt.

PLEAD "NOT GUILTY." Edmund Bridant and Mrs. Lillian Miller Remanded Till the 27th.

Toronto, July 23.—Mrs. Lillian Miller and Edmund Bridant—or, to call him by his correct name, Edmund Antoinewere arraigned before Magistrate Kingsford in the Police Court Saturday morning on the charge of causing the death of the latter's wife. They were charged with murder.

The woman was defended by T. C. Robinson, K. C., and R. S. Neville represented the man. A plea of not guilty was entered in both cases, and an adjournment made until the 27th.

After the court proceedings, Mrs. Miller, who was attended by her husband, broke down. In the presence of an officer they had a short talk.

The request of Mr. Neville that the prisoner be allowed to attend the funeral of his wife was refused by Magistrate Kingsford.

CIVIL SERVICE SHUFFLE. Preston Goes to China and Basted May Succeed Him.

Toronto, July 23.—The removal of W. T. R. Preston from the Dominion Immigration Department to that of Trade and Commerce is believed to have been for the purpose of opening the way for an appointment of E. T. Basted to the Deputy Minister of Fisheries for Ontario, who was dismissed from the service for unwarranted partisanship. While in Ottawa last week, Premier Laurier promised Mr. Basted that his case would receive consideration as soon as possible.

Scared to Suicide by Storm. Brockville, July 23.—Fearing that the end of the world was approaching in a violent thunderstorm, Walter Francis, aged 19, a laborer employed as a farmhand by a farmer named Ward, near Lombardy, attempted to commit suicide. He was caught by Ward and was given in charge of a constable, who brought him to the Brockville police court Saturday. The magistrate remanded him for a week. The prisoner is thought to be insane.

G. T. R. Fast Service. Montreal, July 23.—When the betterments are completed between Montreal and Chicago the International Limited will make the run between this city and Chicago in 16 hours. It is also announced that after Saturday the Grand Trunk will operate on the right instead of left hand track following the American instead of the English system.

Received Terrible Beating. Windsor, July 23.—Friday night Samuel Macfarlane, foreman of Scott's lumber mill, was set upon by William Lulier and M. Drouillard, it is alleged, and received a terrible beating. His eyes were put in mourning and his face cut in places. Magistrate Bartlett took his complaint and the two men will be given a hearing next week.

CHEHALIS IS WRECKED

Princess Victoria, Fast B.C. Ferry is Cut in Two by a Tug

LIST OF THOSE DROWNED

Vancouver, B. C., July 23.—Saturday afternoon the Union Steamship tug Chehalis was cut in two by the steamer Princess Victoria, the fast ferry that runs daily between Vancouver, Victoria and Seattle.

The tug immediately sank and of the fourteen on board seven were drowned. The dead:

Dr. W. A. B. Hutton, late registrar of Manitoba Medical College, recently surgeon on board Anglican mission boat Columbia, plying up northern coast. Dr. Hutton was an expert chemist and had made a special study of oyster culture.

Mrs. Bryce, wife of the purser of the steamer Cassiar.

P. J. Chick, formerly purser, recently retired.

Charles Benwell, little son of J. J. O. Benwell of Benwell and Peart, wholesale wine merchants here.

Crawford A. White, deckhand. Two Japanese firemen.

Among the saved were P. G. Shallcross, Capt. House, J. J. O. Benwell, Mr. Bryce, R. N. Rich and three of the crew.

The tug was passing through the Narrows at the entrance of the harbor, en route to Blundell Harbor, with a net interested in oyster beds at that point. The Princess Victoria left her dock one hour late, or the disaster would not have happened. She caught up on the Chehalis in about two minutes, the former going about seven knots and the Princess from eighteen to twenty.

There is no explanation as to how the tug was struck. Both vessels appeared to have sea room if they maintained their courses. Survivors of the Chehalis say the Princess swerved from heavy incoming tide. At any rate the tug was struck six feet from stern on port side and went to the bottom in an instant.

An order for the arrest of Capt. Griffith of the Princess Victoria has been despatched to the capital. Chick and Bryce had large interests in the oyster beds. Mr. Shallcross was organizing a company with a view to exploitation and organized the trip to look over the ground.

TRAIN GOES THROUGH BRIDGE. Judge Townsend of Rossland, Wife and Son-in-Law Killed.

Nelson, B. C., July 23.—The Great Northern express from Northport to this city, about 5 p. m. Saturday, crashed through the bridge at Beaver Canyon. The known dead are:

Judge W. B. Townsend, formerly of Rossland, right-of-way agent for the Great Northern Railway, residing in this city, with his wife and son-in-law, W. B. Smith, Kaslo, bar proprietor on steamer Kaslo.

M. D. Mackinnon, purser, steamer Kaslo.

Seven others are reported more or less seriously injured.

A special train was sent from Rossland with doctors and nurses, and the whole party arrived here about two o'clock Sunday morning.

Two Burned to Death. Hamilton, July 23.—James Call perished in a fire that broke out in his rooms at the rear of 70 South Walnut street, about 2 o'clock Sunday morning and Mrs. Annie Beach, who passed as his wife, died at the city hospital the same morning. J. Cuzner, from whom the couple rented the rooms, discovered the fire and he says that before turning in the alarm he notified the pair, who answered, but were apparently unable to escape. Neighbors tried to rescue them, but were overcome by smoke. Cuzner was painfully burned.

Man Struck by Train. Toronto, July 23.—Stef Robalack, whose address is box car 711, Toronto Junction yards, was struck by C. P. R. train No. 6 about 9 o'clock last night. He was attended by Dr. Clendenning and brought to the head of Bathurst street in a baggage car, and taken to the Western in an ambulance. A rib is broken and head injured.

Torn to Pieces in Shafting. Brockville, July 23.—John Bernier, an employe of the International Paper Co. at Piercefield Mill, was caught on a shaft Saturday and literally torn to pieces. His arms were torn off, his body broken in two, and nearly every bone smashed. It was ten minutes before the shafting, making 200 revolutions per minute, could be stopped. Bernier was unharmed.

Farmer Trampled by Cows. Brockville, July 23.—Milking between two cows, Herber Laing, a farmer living near here, was thrown under the feet of one of the animals, by being kicked from his stool. When rescued, he had been trampled upon severely, two ribs being broken. He was injured internally in the abdomen. The doctors are dubious concerning his recovery.

Drops 100 Feet and Lives. Niagara Falls, July 23.—Thomas Scarffe, who has been in the employ of the Ontario Power Co. Transmission Line, fell over the cliff yesterday and although falling a clear drop of nearly one hundred feet and his body rolling about half that distance, escaped with a fractured shoulderblade and scalp wound. The man came here from Owen Sound.

Eighteen Reported Dead. Charlottetown, N. C., July 23.—Seaboard Air Line passenger train No. 44 collided with extra freight train a mile west of Hamlet yesterday and from 15 to 25 people are reported to have met death. The dead and injured are being taken to Rockingham.

Hoist With Own Petard. Milan, Italy, July 23.—A bomb carried by a workman named Enrico Spada, exploded in his hands Saturday morning, was mortally wounded and his wife, who accompanied him, was seriously injured.
