IV. DECISIONS OF MR. SPEAKER ON QUESTIONS OF ORDER OR PRIVILEGE—RELATIVE TO—

Amendments :

1878.

7. A motion having been made to agree to certain amendments made by the Senate to the Bill relative to the Canada Southern Railway Company, it was proposed to further amend the Bill by inserting certain words. Mr. Speaker decided that the proposed amendment could not be put, inasmuch as it was not consequent upon the amendments under consideration, 149.

IV. DECISIONS OF MR. SPEAKER, ETC.—*Continued.***AMENDMENTS**—*Continued.*

1880–81.

8. Objection to an amendment for the adjournment of the Debate on a question, inasmuch as it was the same in effect as the previous motion: Mr. Speaker decides that the previous motion is out of Order as it contains a recital of reasons for the adjournment of the Debate, etc., 86.

1889.

9. The question of expediency of prohibiting the manufacture, importation and sale of intoxicating liquors, being under consideration, an Amendment was moved, to the effect that the Canada Temperance Act should be amended, so as to permit of electors voting either for or against the Act, or, for the Act, exempting from its operation cider, light wines and beers; and objection having been taken on the ground that it was irrelevant to the subject-matter of the Question, Mr. Deputy Speaker decided that the amendment was irregular, 80.

1890.

10. On a Motion for the second reading of Resolution reported from Committee of Whole amending the Tariff of Customs duties, an amendment was moved to recommit the said Resolutions so as to provide for the branding of cheese, imported for export, with the words "cheese for export, product of the United States." Mr. Speaker ruled the said amendment out of Order, as irrelevant to the question under consideration and not coming strictly under the purview of the Tariff Resolutions, 367.

BILLS:

1877.

11. Motion being made to re-commit a Bill after its third reading; Mr. Speaker decides that it is not in order to move that a Bill be re-committed when it has been read a third time, and the Speaker has proposed the question—"that the Bill do pass", 220.

1878.

12. Objection taken that a Bill to regulate the sale and disposal of bottles used in the manufacture of mineral waters and other drinks ought to have originated in Committee of the Whole (Rule 41); Mr. Speaker decided that the objection was well taken, and that the Bill could not be proceeded with, 146.
13. Objection having been taken that a Bill respecting Promissory Notes and Bills of Exchange imposed a tax, and, therefore, could only be introduced by the Government and with the recommendation of the Governor General; Mr. Speaker explained that Sec. 54 of B. N. A. Act relates only to appropriations, and that the Bill in question did not impose any new burthen, 200.

1880–81.

14. Objection to second reading of the Bill respecting the Canadian Pacific Railway, that the Bill contains provisions for aid in land and works entirely beyond the scope of the Resolutions adopted by the House in Committee of the Whole, etc.; Mr. Speaker decides against objection, 153.

1882.

15. On motion for the second reading of Bill to readjust the representation in the House of Commons; Objection taken on the ground that material alterations had been made in the measure since its introduction, etc.; Mr. Speaker decided that the objection was well taken, etc., 406.

IV. DECISIONS OF MR. SPEAKER, ETC.—*Continued.***BILLS**—*Continued.*

1883.

16. A Motion being made by Mr. Houde, in amendment to a proposed amendment to Motion for third reading of the Bill respecting the *Crédit Foncier Franco-Canadien*, that the Bill be re-committed for the purpose of substituting the words "7 per cent." for "8 per cent.," in Clause 2, Objection was taken on the ground that the Mover had given no Notice thereof; Mr. Speaker decided that the Objection was well taken, and that it was only competent for the hon. member for Centre Wellington to make a similar Motion, since he had given Notice of the same, 118.
17. A Committee of the Whole on a Bill, having risen without reporting, a Motion was subsequently made for the House in Committee to further consider of the Bill; Objection taken to this procedure, also to the Motion being made without notice; Mr. Speaker ruled, "That it was not competent for a Committee to kill a Bill, and that in case of a Bill disappearing from the Orders of the Day, as in the present case, it was the correct practice for a Member to move that it be placed on the Orders of the Day for further consideration on a future day. If the House agreed to this motion, then the Committee should take up the Bill at the stage at which it stood when the Committee rose. In case of such motion, no Notice was necessary under Rule 31, and in accordance with the usage of the English Parliament," 159.

1884.

18. An Amendment being moved on third reading of Bill to amend the *Liquor License Act, 1883*, to re-commit the Bill for purpose of providing for the repeal of the said Act; Objection was taken thereto, on the ground that practically the same Question had been negatived by the House on a previous occasion in the same Session: Mr. Speaker said, that the same question had been before the House on the 18th March, last, and the House decided that "The *Liquor License Act*" should not be repealed, and it would not be reconcilable with that previous decision if the House were now asked to consider the amendment, 462.
19. Objection taken to a motion to substitute the name of one member for that of another as promoter of a private Bill (See *Canadian Pacific Railway, 235*), on the ground that no Notice had been given; Mr. Speaker said that no Notice was necessary under Rule 31, in the case of motions respecting Public or Private Bills after their introduction, and in his opinion the motion came within the terms of the Rule, 238.

1887.

20. A motion being made to place a Private Bill on the Order Paper for consideration in Committee on the same day as reported by Select Committee; and objection being taken thereto on the ground that it was an infringement of Rule 22, Mr. Speaker sustained the objection, 289.

1888.

21. A motion having been made to recommit a Bill for the incorporation of a Railway Company, so as to provide that the Act shall not go into force until the 1st May, 1890, and no Notice thereof having been given, Mr. Speaker decided that under Rule 67 the motion could not be put, 206.

IV. DECISIONS OF MR. SPEAKER, ETC.—*Continued.***BILLS**—*Continued.*

1889.

22. An Amendment having been moved on motion for third reading of the Bill to incorporate the Alberta Railway and Coal Co., to recommit the Bill so as to provide that the rate on coal shall not exceed one cent per ton per mile, and objection having been taken thereto on the ground of want of Notice; Mr. Speaker decided that the objection was well taken and the motion could not be put, 87.
23. Objection having been taken to a motion for the second reading of a Bill to authorize the assessment of salaries of persons employed in the Civil Service, on the ground that any measure imposing a burden on the people or any class thereof should originate in Committee of the Whole and emanate from the Government; Mr. Speaker decided that the objection was well taken, and the Bill could not proceed further, 110.

1890.

24. A Motion being made that 500 copies of a Bill be printed and placed at the disposal of the Committee to which the Bill had been referred (Rule 94 being suspended) and objection being taken thereto on the ground that no Notice had been given, Mr. Speaker decided, That the question could not be put, 276.

COMMITTEES:

1880.

25. A Motion having been made for concurrence in a Report of a Select Committee, a point of order was raised that two days' Notice should have been given in accordance with 31st Rule; Mr. Speaker decided that the objection was well taken and that the Motion could not then be made, 364.

1882.

26. A Motion being made for appointment of a Select Committee, objection was taken on the ground that no Notice had been given of the names of the Committee; Mr. Speaker decided That the Notice of Motion should include the names, and that consequently the motion was irregular, 80.
27. On Motion that the House do go into Committee of Whole to consider a Resolution respecting the inspection of steamboats; objection taken on the ground that the motion did not embody a definite proposition as required by Rule 41; Mr. Speaker decided against the objection, 213.

1883.

28. A Motion being made for the appointment of a Select Committee, objection was taken to the latter part thereof on the ground that no Notice had been given of the names composing the Committee; Mr. Speaker decided that the objection was well taken, and that that portion of the Motion could not be added without the unanimous consent of the House, 82.
29. Motion by Sir John Macdonald, that the 78th Rule of the House as to the Selection of Committees be suspended, and that a Special Committee be appointed, composed of seventeen Members; Objection taken by five Members to the Mover submitting the names to form the Committee; Mr. Speaker decided that the Motion provided for the suspension of the Rule as to the selection of Members; Objection being taken to the suspension of the Rule except by general consent, Mr. Speaker decided that it was perfectly competent, on Notice having been given, as in the present case, for the

IV. DECISIONS OF MR. SPEAKER, ETC.—*Continued.***COMMITTEES**—*Continued.*1883—*Continued.*

majority of the House to suspend the Rule; Certain Members having expressed themselves opposed to serving on the Committee, on the ground that they were opposed to the principle and substance of the matter in the Motion, Mr. Speaker decided, "That the Motion was to suspend the whole Rule, and that the objection of the hon. Members could not be entertained, if the House agreed to suspend the Rule," 128.

1886.

30. A Motion being made to add certain Members to a Select Committee to serve in connection with a particular case referred thereto, without the power of voting, and objection being taken thereto, Mr. Speaker decided that the motion could not be put: "When the question for the appointment of a Committee was before the House, it would have been competent for the hon. Member for Quebec East to have moved, as an amendment to the amendment, the motion he has just proposed. But the question, to which was given precedence as affecting certain Members, has been disposed of, and it is not now competent for the hon. Member, without the unanimous consent of the House—no Notice having been given—to make his present motion to alter the composition of a Select Standing Committee to which the whole matter at issue has been referred," 114.

1889.

31. On Motion for concurrence in a Report of the Debates Committee, an amendment was offered to refer the Report back so as to enquire as to the expediency of granting an indemnity to Messrs. Tremblay and Poirier, discharged; and objection being taken to the regularity of the amendment, Mr. Speaker said that a similar motion was on the Order Paper, and as it was not in accordance with the Rules or Parliamentary usage to take a motion out of its proper place and move it as an amendment to another question, he must, therefore, rule that it could not now be put to the House, 214.
32. A Motion being made to refer back a certain Report of the Printing Committee for further consideration, and objection being taken thereto, Mr. Deputy Speaker ruled the motion out of Order, on the ground that no Notice had been given, 392. See *Committees, Chairman of*

MOTIONS:

1884.

33. Motion that when the House rises at six o'clock (St. Patrick's Day), it do stand adjourned until the next day at 3 o'clock; Objection taken thereto on the ground that no Notice was given; Mr. Speaker said that such a motion required Notice: it was, however, competent for a motion to be made at 6 o'clock, or at any time, that the House do now adjourn, 244.
34. Motion that a certain motion on the Order Paper, (*See Intoxicating Liquors*, 27), be given precedence after Routine on a certain day, 234; Objection taken thereto on the ground that no Notice had been given, Mr. Speaker said that the objection was well taken, and that the question could not be put, 235.

1885.

35. On a motion for concurrence in Resolutions giving a grant of land to the militia serving in the North-West rebellion, Mr. Watson moved an amendment that any militia man who has located a homestead and pre-emption

shall be entitled to the pre-emption free in lieu of the grant; Objection taken, on the ground that it was in effect increasing the burden beyond that recommended by the Crown, Mr. Speaker said the objection was well taken and the amendment could not be put, 627.

1887.

36. A motion having been made for the House to adjourn at a certain hour; Objection being taken thereto on the ground that no Notice had been given, Mr. Speaker decided that the objection was well taken and that the Motion could not be put, 173.
37. **ORDERS OF THE DAY** (1886):—A motion having been made to give precedence to a certain Order of the Day, from day to day until disposed of, objection being taken on the ground that no Notice had been given of the same, Mr. Speaker decided that the objection was well taken, and that the motion could not be put, 53.
38. **PAPERS, READING OF** (1880):—A member having read certain Papers during a debate, and a point of order having been raised, Mr. Speaker decided that Official Papers, when cited, ought to be laid on the Table of the House, 201.

PETITIONS :

1877.

39. On a Petition praying that the duty imposed by the United States on Canadian coal may be neutralized by an equal bounty on all coal sent to the United States, etc., Mr. Speaker decided "That as the granting of the prayer would involve a public charge it cannot be received," 27. Decision reconsidered; "Petitions of a general character, signed by persons other than those immediately interested, and asking for a modification or change of the financial or fiscal policy of the Dominion, on the ground that such change will be beneficial to the country at large, stand precisely in the position of petition asking for an imposition of taxes for general purposes, and may consequently be received by the House," 37.

1880–81.

40. Objection to reception of the Petition of Edmund Ritter, *et al.*, representing that there had been a failure of Justice in the matter of the trial of the Election Petition in the Richelieu Controverted Election case; inasmuch as it was an Election Petition, and the House had divested itself of the right of considering a Petition questioning the return of a sitting Member, Mr. Speaker reserves his decision, 165. Mr. Speaker decided, that the Petition was irregular: 1st. Because it asked the House to sit in appeal of a judgement rendered in conformity with the provisions of the Dominion Controverted Elections Act, 1874. 2nd. Because it was not in compliance with the requirements of 30 Vic., c. 10, "An Act to provide for more effectual enquiry into the existence of corrupt practices at Elections of Members of the House of Commons," nor with those of 42 Vic., c. 6, "An Act to amend an Act to provide for more effectual enquiry into the existence of corrupt practices at Elections." In view of the fact that the Petition was in conflict with the letter and spirit of the law which governs the House in such cases, and did in effect question the right of an Honourable Member to his seat, the objection raised was well taken, and the Petition could not be received, 199.
41. On Irregular Petitions:—See *Petitions*, 4–12.
