State Legislature by Vote of 79 to 45 Finds That Governor Misappropriated Party Funds in Order to Play Wall Street Stocks--Wife Makes Eleventh Hour Confession, Stating That She Did it.

ALBANY, Aug. 13.—Governor Wm. Sulzer was impeached at 5.30 o'clock this morning by the Democratic majority in the assembly of the New York Legislature, after an all night session and after his wife had made an eleventh hour effort to save him at the risk of sacrificing her own reputation.

and send the articles to the Speaker's desk with a resolution that they be adopted. A roll call showed the adoption of a resolution by a vote of 79 to 45. A committee was appointed to acquaint the senate with the assembly's action on the impeachment at the meeting of the Senate scheduled for 11 o'clock this morning.

was re-passed unanimously over the governor's veto. Many members, buoyed no longer by the excitement attendant upon the expectation of a roll call on the impeachment resolution, leaned back in their chairs and closed their eyes, and soon there was audible sounds of deep and labored breathing in some of the members' chairs.

The Western Harvest Report

[Canadian Press Despatch] WINNIPEG, Aug. 13.—Weather conditions are again ideal for harvesting operations throughout the West. The day was bright and hot, and districts which had more rain than was wanted during the past few days report hot sun and drying winds. REIGN OF TERROR WHEN THEY PASS THROUGH BUSINESS SECTION.

SWANVILLE, Pa., Aug. 13.—A reign of terror when they pass through business section. The horses, defenceless, proved easy victims. Their driver, Harry Hogen-dobler, vainly tried to free them of their harness. Before he could succeed he was so badly stung he was forced to flee. Others finally ran to the aid of the horses and freed them. Meanwhile others of the swarm scattered themselves throughout that vicinity, and now scores are nursing frightfully swollen arms.

Short Weight On the Market

That market prices in Brantford are as high as in any other city and higher than in most places was the statement made by a wholesaler to-day in reference to recent references in the Courier to the price-fixing tendencies which prevail. Not only are the prices at top level, but the consumers don't receive what they pay for, was another statement made by the wholesaler, whose contention seems to be pretty well established by an experience he had this week in buying potatoes. He purchased five separate lots, supposed to have been three bushels in all. Each of the five lots was from four to 23 pounds short in weight when delivered and weighed at the warehouse. In the case of consumers who have no scales and don't practice the habit of looking after their purchases, potatoes could easily prove a pretty dear commodity. The case reported happened in a mid-week market in this city.

RUBBER ROSES WILL NOT WILT IN SALT WATER

The very latest whim of the summer girl who goes into the surf is a corsage bouquet made of rubber. These rubber posies are remarkably like real ones, for thin rubber is used and the colors are very like those of the natural blossoms. This young woman, garbed in a smart bathing costume of black and white, wears a cap of rose-colored brocaded silk, and in her hands are two pink rubber roses, all ready to be attached to the front of her bathing bodice.

**MONARCH OF THE ROCKIES**

Up to the present year, Mount Robson, the Monarch of the Canadian Rockies, and the highest peak in that magnificent range has only been conquered by one man, Rev. G. R. B. Kinney, of the Canadian Alpine Club who succeeded in reaching the summit of this giant mountain 15,700 feet above the sea level in the year 1910, but this year, in connection with the annual copy of the Canadian Alpine Club in Mount Robson Park, several members of the camp, under the guidance of Conrad Kain, the best of the Swiss guides in Canada, have placed to their record the difficult feat of reaching the summit of the peak.  
For those who are unaware of the location of this great mountain, the following will be of interest: "Mount Robson lies only a few miles North of the valley of the Fraser River, to the west of Yellowhead Pass, through which the Grand Trunk Pacific Railway penetrates the mountain fastnesses on its way to the Pacific Coast. It is visible from the Railway, and it crosses the Grand Fork, a tributary of the Fraser, which runs right around the western base of the great mountain. The view of the mountain from that side is one of the most impressive in the whole range of Alpine scenery. The valley is only some 2700 feet above sea level, in a sheer face of 11,000 feet. The whole of this territory has been set aside by the British Columbia Government as a park preserve, and it is now known as Mount Robson Park, covering an area of 1000 square miles.  
The glaciers in this northern region are truly magnificent and many of the individual peaks are remarkably bold in outline. The mountains being placed to their record the difficult feat of reaching the summit of the peak.  
Because of the foolish people who crowd the world one dares not say much on the subject for fear of being

HOME WEEK

The "old home" week which was first promulgated in order to bring boys and girls back to the scene of former associations, was in its inception, and carrying out, an excellent idea.

Private homecomings of those for years far scattered, are usually a time of sacred, and beneficial reunion, but of recent years in Ontario such events undertaken by municipalities, have unfortunately, in a sense, proved to be periods of much that is undesirable.

Certain elements mistake a friendly "wide open" feeling for one of license, and scenes are enacted which would not for a moment be tolerated under ordinary circumstances.

Guelph had that experience a couple of weeks ago when there was an indiscriminate spirit of hoydenism, and Hamilton is now undergoing a like outbreak. The place has spared no pains from a civic, manufacturers, merchants, and general citizens standpoint. At the expense of many thousands of dollars, buildings have been decorated and illuminated with myriads of colored electric lights, the municipality has been lavish in its street illuminations, and residences even to the extent of the uttermost limits, have been profusely decorated.

In addition there is an exhibition of "made in Hamilton articles," which occupy the old drill hall building, and the new armories to a varied extent almost inconceivable unless by personal visit. The bands and various other attractions are also excellent, but on top of all these things, there has come the irresponsible, not to say rowdy element.

No sane person objects to a little good natured fun, but when that is distorted into hooliganism, it is time for a pause. All women and girls of decent up bringing, rightly hold sacred their self respect, but that cannot be maintained when a section of the class familiarly known as "Tom, Dick and Harry" feel themselves licensed, on the public streets to chuck any one of the fair sex under the chin, and even to put an arm around them.

A self respecting home reunion is all right, but one lacking that element is just as much the other way.

THE CLOSURE

The semi-official announcement from Ottawa that Parliament will not be summoned until after the New Year, and that the 'closure' will be relied upon to force all Government business through in time for an early prorogation, is quite a different tune from that which was played when the 'closure' was being driven through Parliament. Then it was represented as the mildest possible measure intended to do no more than curtail most outrageous 'obstruction.' Now we find it hurled through the air over our heads in the character of a 'club,' quite capable of knocking the opposition speechless.

Montreal Witness (Liberal).—Montreal piffle.

The closure has not been introduced in the Canadian House to stifle discussion any more than it has been in vogue in the British House during a lengthy period for a like purpose. The point is, that after complete debate of a reasonable length with reference to any subject, there should be the power to call for a vote.

Any idea of a club "capable of knocking the Opposition speechless" is absolute moonshine.

Talking against time, when any question has been adequately threshed out, is what is aimed at, and should be aimed at.

THE CASE OF SULZER

It is very rarely, indeed, that the governor of one of the States across the border is impeached, yet this is what has happened to Sulzer of New York at the hands of the Lower House in New York State.

The man had a splendid career as a member of Congress, and finally secured the nomination for governor, and beat out two others, including Strauss, the Roosevelt candidate, a millionaire philanthropist, who gives ice to the poor in summer and coal in winter, and performs other deeds of that kind.

Sulzer is a Democrat, and was supported by Tammany Hall. Since securing office, however, he has thwarted the officers of that famous—or, rather, infamous—organization, and

they swore that they would break him. Perhaps his chief offence in their eyes has been that he has ardently advocated the direct primary and the direct vote. This plan, if adopted, would do away with conventions, and thus remove the great source of power enjoyed by the Tammany bosses.

Whether the impeached man has done anything criminally wrong remains yet to be proved, but the fact has once more been demonstrated that anyone who attempts to buck the "Tiger" in New York is, in vulgar parlance, "up against it."

The following is the complete list of other governors who have been cited: Seth Southell, Colony of North Carolina, 1689, removed.

Charles Robinson, Kansas, 1862, acquitted.

Harrison Reed, Florida, 1868, charges dropped.

William W. Holden, North Carolina, 1870, removed.

Powell Clayton, Arkansas, 1871, charges dropped.

David Butler, Nebraska, 1871, removed.

Henry C. Varnoth, Louisiana, 1872, term expired and proceedings dropped.

Albert Ames, Mississippi, 1876, resigned.

INSANITY.

Some grim facts are contained in the latest report upon the Ontario hospitals for the insane. There were 1,347 admissions during the past year of which 653 were male and 594 female. Of the total 849 were Canadian born, the remainder hailing from a large number of countries. It is difficult to draw deductions from the statistics showing the occupations of those admitted. For instance, it might be reasoned that lack of education, having some effect, direct or indirect, on the state of sanity, would account for the fact that 200 laborers became inmates of Ontario's insane institutions. On the other hand, no less than 436 governesses, teachers, students, housekeepers, nurses, etc., were admitted. Mechanics at outdoor vocations who became inmates numbered 89, and those at sedentary occupations 66. Professional men, such as clergy, doctors, lawyers, architects, civil engineers etc., numbered 20. Insanity made greater inroads into commercial spheres, no less than 88 bankers, merchants, accountants, clerks, salesmen, etc., seeking refuge in the asylum. One might reasonably suppose that agricultural and pastoral pursuits would help to rebuff tendencies to insanity, yet 160 farmers, gardeners, stock men, etc. succumbed. Domestic service accounted for 99 and those with no occupation numbered 66. Miners, marine engineers, railway employees and seamen totaled only 19.

What were the causes of these 1,347 cases of insanity? They may be divided into three broad classes, moral, physical and hereditary. The first accounted for 268 cases, the second for 456, and the third for 623. Of the cases due to moral causes, the largest number, 137, were due to mental strain, worry and overwork, while 66 were due to adverse conditions, such as business troubles and loss of friends. Religious excitement accounted for 17, fright and nervous shock for 23, and love affairs for 26. In the physical class, senility was responsible for 122 cases and alcoholism for 70. The remainder in this class were due to a long list of causes.

NOTES AND COMMENTS

The spectacle of Tammany Hall seeking to hound a man out of public life for alleged wrong-doing, makes Satan reproving sin look like a cheap imitation.

The Toronto Globe in a leading editorial, gravely announces that "Out of office is Liberalism's great opportunity." They didn't do much with that when in power and that's a fact.

A colored gent went on a hunger strike in the jail at Berlin, Ontario, but on the thirteenth day he gave in, and also took in. They probably brought him a plate of chicken and a melon.

The Milwaukee Sentinel rises to remark that it is hard to detect a counterfeit \$10 bill any more, because the average man, with a family to support, can't keep one long enough to notice whether it is bogus.

In Brooklyn a man is married to a woman who owns a factory and he asked her to give him a job in the same. She refused, and as a result he has left her. Beats all how the fair sex are bossing the poor males these days.

A waiting world will be pleased to know that Pavlova, one of the Russian dancers, who have captured London, has apologized for hitting her partner Novikoff. She says the entire thing was an accident, and that

they were now reconciled. In other words Novikoff, who went away off, is Novikoff now.

Hamilton is still boasting that it possesses a mountain. As a matter of fact it has nothing of the kind. The level land dips down to the old lake bed on which the place is situated, and the consequence is that there is no mountain at all. It is only a bluff.

A Brantford man, who was wife was improperly annoyed at the Hamilton home week, promptly and properly knocked the offender down. Then he had to spend a night in the cells and was promptly discharged when arraigned. As for the young man, what is he going to get?

In the executive mansion, where Mrs. Sulzer made last night, what her friends call, her "confession to save her husband, Governor Sulzer sat till almost dawn waiting the verdict of the brightly lighted chamber, five minutes walk away there was no sign of life, when the legislature adjourned. Worn by weary waiting the governor was sleeping. He went to bed before the roll call and was not awakened to be told the news.

"The governor knew pretty well what would be the result," was the only news from the executive mansion. In the light of revelations contained in Mrs. Sulzer's narration yesterday afternoon, Governor Sulzer's friends are inclined to-day to view the ordeal which confronts him with less apprehension than before his impeachment. By confessing that she diverted part of the campaign contributions sent her husband to private purposes without his knowledge, and used them to purchase stocks on Wall street, she has shorn the articles of impeachment of many of their terrors, his friends declare.

Governor Sulzer consented to permit Mrs. Sulzer's declaration to become public late last night only when he found that he could not prevent it, and that it lived as a rumor on the lips of every member of the assembly in the city. A close friend of both Governor and Mrs. Sulzer so asserted to-day.

Mrs. Sulzer must take the witness stand in her husband's behalf before the court of impeachment to tell her story in detail and submit to examination by hostile lawyers, or take the hazard that the impeachers will prove their case, the governor's friends believe. Either her reputation or her husband's, these friends fear, must suffer. They say he will take the stand if she has no other choice. They add that she besought the governor a week ago to permit her to tell her story to the public.

What attitude Governor Sulzer would take in this matter as well as toward the question of vacating his office when the senate should receive the articles of impeachment brought forth wide divergence of views among his friends and opponents to-day. The fishing detailed figures of Canadian municipal loans, amounting to \$205,000,000 while the total assessments borne by the municipalities with number 31, is about \$2,000,000,000.

Width of Roadways. Peterborough Examiner: In a despatch, appearing elsewhere on this page, information is given, showing that in Ontario, the width of roads, or rather driving surfaces, is too great. Mr. McLean, the Provincial Highways expert who has just returned from an investigating tour in Europe, gives some interesting information. He points out that the generally of French country highways are only 24 feet in width, with sidewalks for pedestrians. The French roadways of the 24 ft. width prove ample, he says, for traffic on the main highways. He also adds that the French highways built of macadam, thoroughly drained, are bordered by tall trees, pruned very high to allow plenty of space for air and sunlight.

TAMMANY HALL FIRES GOV. SULZER

(Continued from Page 1) Two hundred spectators, remnant of a throng that surged in overwhelming number through the capitol last night, walked out of the assembly chamber, with the legislators. They had sat or stood up all night to see the governor impeached. The heaviest guard of uniformed police ever sent into the capitol, each armed with night stick and revolver, walked out too, leaving the assembly chamber to solitude.

In the executive mansion, where Mrs. Sulzer made last night, what her friends call, her "confession to save her husband, Governor Sulzer sat till almost dawn waiting the verdict of the brightly lighted chamber, five minutes walk away there was no sign of life, when the legislature adjourned. in case it were contemplated if he should decline to surrender his office. Little credence, however, is placed by his friends in the report that he would resort to such extremity.

Articles of Impeachment. The articles of impeachment based on evidence taken by the Fawley legislative committee, charged that, as Governor-elect William Sulzer, filed a false statement of campaign contributions with the Secretary of State, causing "great scandal and reproach of the Governor of the State of New York," that said statement did not contain all the contributions that had been received by him and that in making and in filing such false statement he was "guilty of wilful and corrupt perjury."

Article three alleges that while governor, Mr. Sulzer "fraudulently induced," Lewis H. Sarecky, Frederick L. Colwell and M. B. Fuller to withhold testimony from the Fawley investigating committee and that in so doing he was guilty of felony.

It is further alleged in the next article that the Governor "practiced deceit and fraud and used threats and menaces," with intent to prevent the committee and other persons subpoenaed from producing books and papers desired by the committee, thereby being guilty of a misdemeanor.

In another article it is charged that the governor in preventing or dissuading Frederick L. Colwell from attending the Fawley committee hearing, the Governor was guilty of a violation of section 2441 of the penal law and was guilty of misdemeanor.

It is further charged that prior to his election the Governor appropriated campaign contributions to his own use, and which were used in stock speculations for his own benefit, and thereby was guilty of felony.

A peculiar helplessness seems to have affected the whole city and the hope of changing existing conditions appears to be flickering out.

TENDERS WILL BE CALLED FOR

In This Way Echo Place People Will Know Cost of Proposed Walk.

Last night a special meeting of the Township Council was held in the office of Township Clerk Smith to consider the passing of a by-law for the construction of the Echo Place sidewalk on the north side of the Hamilton Road. The engineer submitted his report which showed that the estimated cost of the proposed work would amount to \$5,000.

The members of the council discussed the situation and the rate-payers present who were opposed to the proposed work, contended that the engineer's estimate was not high enough. It was then decided to as far as possible verify the engineer's estimate by calling for tenders for the work.

The Township Clerk certified that the petition for the construction of a sidewalk on both sides of Aberdeen Avenue was sufficiently signed. A resolution was passed directing the township engineer to make his report on the petition pursuant to the local improvement act. The council then adjourned to meet Tuesday, September 2.

Met With Accident. Ray Collins, who pitched for the Red Sox in the early part of the season, met with an accident last week while leaving the hall grounds in Worcester, Mass. It appears that he was taking a short cut to a trolley car and tripped and fell, striking his head on a rail. He received a cut on the side of the head and was badly shaken up.

Will Make Merry. Brantford printers will hold their annual picnic at Mohawk Park on Saturday, and they have kindly invited the editorial and news staffs of both papers. Bowling

There are five rinks left in the Telephone City Trophy, viz. T. L. Wood who is playing Frank Read at the Heather Club this afternoon, play starting at 2 o'clock. In this round Mr. D. G. Husband's rink was fortunate enough to draw the bye. Mr. N. Creech, of the Dufferins, is playing the Heather rink skipped by Mr. G. Raymond at the Brantford Club, play commencing at 2 o'clock. The tournament so far has been a great success. Everyone on the committee, the president, Mr. T. L. Wood and the secretary-treasurer, Mr. R. C. Burns, who has acted in that capacity ever since the tournament was inaugurated four years ago, have been indefatigable in their labors. There was a grand feeling of pleasure on the rink skipped by R. Inskater of Paris, carrying away some of the 'jewelry'.

BUILDING HOUSE ALL IN ONE DAY

Unique Performance at Hamilton Centennial--Second Day of Big Week.

HAMILTON, Aug. 13.—Although a house to be built in a day" was one of the announcements made for the Hamilton Centennial Exposition, most people received the announcement without considering what it meant or else idly speculated as to how it could be done.

Last night Hamiltonians were actually witnessing the operation, and though the first sod was turned only at a quarter to five, the building which seen five hours later was already up to within a few feet of the second storey. The brickwork could be seen to grow steadily under the efforts of a small army of bricklayers. The house is in every respect to be equal to the average eight or nine room residences. It will be of two storeys, and the completion of the house means that every detail of steamfitting, plumbing, finishing and furnishing is to be ready within exactly twenty four hours after the work of turning the first sod commenced. It will be possible if the work is done on schedule time for a family to walk in to-morrow night and live there without anything further being required other than getting in provisions.

As the workmen necessarily would be at work all night, powerful arc lights were strung on poles round the building. There were at midnight between 300 and 400 men at work, or ready waiting their opportunity to begin. The carpentering is going on simultaneously with the bricklaying, and as concrete mortar is being used, a concrete mixer is kept constantly at work.

Detail of Construction

The building is approximately 35 by 33 feet, and will have nine rooms. Its foundations are of concrete blocks, and the brick work will be exceptionally heavy, the walls to be 13 inches thick up to the second storey. An outside tier of handsome buff-colored bricks being laid over the regular way with laths and plaster, the heating is to be done by hot water, and the finishings, including the floors, will be of hardwood. James Byers, who is a contracting builder, is in charge of the work, and when seen last night declared that although short of laborers, of whom only forty turned up, while 120 were required, the work is only two hours behind schedule and is now going along at an exceptional rapid speed, so that it does not expect any difficulty in having it complete in time. The house is to be given to the winner of a guessing contest open to everyone entering the grounds, and the winner will be announced at the close of the contest. The building is being erected in Brantford Park and it will probably be moved at some future time.

At three o'clock yesterday afternoon there was not a sign or trace of anything on the grounds. Sharp on the hour, however, the progressive band led a procession of over fifty wagons bearing bricks, lumber, cement blocks and other supplies which were at once placed in their allotted positions and the men, after each had donned a new suit of overalls formed a line about the space for the foundations which had been marked out by this time. Mayor Allan then at 4.45 turned the first sod, and at noon the men commenced to dig. In thirty minutes they had three feet of foundations excavated, and the first blocks were being placed in position.

The work progressed steadily and about 8.30 the corner stone was ready to be laid. The Mayor again officiated, and after a brief speech in which he complimented Ald. Bryers for the excellence with which he had planned each detail, even a lunch counter for the men being set up on the grounds, laid the corner stone bearing the date.

The Old Boys' Day

The second day of the Centennial Celebration was devoted to the Hamilton Old Boys, the official title being "Old Boys and Visitors' Day," and the feature of the celebrations from a spectacular point of view was the Old Boys' procession, in which over 500 people took part. Delegates from the various cities dressed in more or less distinctive manner, and preceded by five bands, paraded around the various streets from Victoria Park to King and Wellington Streets their line of march being crowded with citizens, a large proportion of the city's population turning out to cheer and welcome the visitors.

All the Old Boys were geared in brilliant colors of the Highlander uniform or bright hat bands and

- Children Cry FOR FLETCHER'S CASTORIA

other regalia in keeping with the brilliant colors of the Highlander and Grenadier bands.

The Toronto delegation—one of the largest—occupied the place of honor at the head of the procession, and its members, dressed in white trousers with blue coats and white hats, presented a very smart appearance. The first line of the procession consisted of seven men each carrying a large letter, the aggregate forming the word "Toronto." These were followed by the 48th Highlanders' band, and then the Old Boys to the number of about 200. At the end of the Toronto. The other consisted of a large "hog," one in the shape of a large express wagon carrying the 17 members of the Langlois family from Toronto. The other consisted of a large pigpen, in which was an immense hog, while the sides of the pen bore large banners, one with the words "Don't be rude to-day," the other "We are Hamiltonians, not hogs."

The Ford band followed, forming the advance guard of the Detroit section, and this was succeeded by a number of motor cars. Then came the 13th Regiment band with the Cleveland Old Boys, and following them in order were the 91st Highlanders' band, and the Chicago delegation; the Niagara Falls contingent and the Royal Grenadiers' band from Toronto; while the Rochester and London sections brought up the rear, with delegates in smaller numbers from other places.

Man Attacked by Rats

A working engineer employed at the Hungerford outfall works of the London sewage system, while making his rounds on Tuesday night, saw a large rat on one of the covers. With a wrench which he was carrying the man struck the rat which squealed. Immediately scores of rats appeared and attacked the man ferociously, tearing at his trousers. Taking to his heels the man was pursued by the animals for several hundred yards, but escaped with no worse damage than badly torn clothing.

With the City Police

John Carey, who was a cook at the E. & N. K. construction camp, had his employers before the magistrate for not keeping their contract. The cook had trouble with his cookee, and also his cookees were not satisfactory. The cook threatened to leave if he didn't get an assistant. The company had to pay \$40 and costs.

The case of A. Henderson and Clarence Betts was dismissed. Betts and Henderson were charged with relieving a companion of a few hundred dollars, but it appears that this fellow makes a business of being relieved of money, having done a similar stunt in Woodstock a few weeks ago. The case was therefore dismissed, the defendants being honorably discharged.

High County Constable Kerr arrested at a late hour last night, at Brantford, a man named Russell Winegardner, for attempting to commit rape upon an 11-year-old girl. The case came up in the police court this morning, but was adjourned until to-morrow.

Three drunks who were first offenders were allowed off.

Union of 20,000 Farmers

Addressing a large-attended meeting of the North Wiltshire branch of the National Farmers' Union at Swindon, on Monday, Mr. Colin Campbell, of Newark, president of the general union, said it had now become absolutely necessary that farmers should combine in their own interests. The union had 20,000 members, and he attributed its success largely to the fact that it was free from party politics.

For throwing a lighted lamp at his wife John J. Murphy was sentenced to three months' hard labor at the Cork Police Court.

Obituary

Infant Carter. The sympathy of a large circle of friends is extended to Mr. and Mrs. Thomas Carter, infant son James, aged five months, who died yesterday afternoon. The funeral takes place to-morrow to Mt. Hope cemetery.

When we arrived the streets, though even at that early hour thronged with people, were clean, but on leaving, about 10 p.m., one really wondered how on earth they ever managed it, and every night is the same, I suppose. The floral automobile parade "gizzled out," as some one expressed it—not more than seven or eight decorated cars or floats turning up, where they had hoped for hundreds—but the undertaking, or expense, was too great, apparently, and the few who stuck to the original intention were really works of art and drew forth all kinds of praise. Processions of "old boys" from various places and bands came later in the morning, and in the afternoon the exhibition ball game drew thousands to the cricket grounds.

"Ty" Cobb as special attraction, of course, although splendid play was put up by both teams and the interest of all spectators was kept at concert pitch throughout the game.

But it is at night the revelry begins—small boys with horns, big boys with tin pans and kazoo—bands playing—dinner bells ringing—tin cans banging—dancing on the street and confetti throwing. All around you brilliant and beautiful electrical effects in lighting and decorating, with now and then a searchlight from some tall building—this is Hamilton at night.

We saw no roughness or rowdiness, though there were thousands of people on all the thoroughfares—just a good-natured, noisy, fun-loving crowd with every once in a while an invalid chair or perambulator carefully guarded, and every age and nationality represented. Radials and passenger trains running specials almost every hour and cabs and liveries doing a rushing business. But if they are not all a weary lot by Saturday night I miss my guess.

Some Time in Hamilton To-Day and Some Rows

HAMILTON, Ont., Aug. 13.—Supper train brought fire companies and their supporters by the hundreds. A feature of the big parade to the Jockey Club this afternoon was the appearance of the Hamilton veteran firemen, composed of men who fought fires before the city had a paid dept. They had with them old rescue No. 3, a quaint old fire engine that did service in the early sixties. In contrast with this the modern fire apparatus of to-day, which was also seen in the parade: Trenton, North Toronto, Richmond Hill, Niagara Falls, Milton, Thorold, Oakville, Paris, St. Marys, Burlington, Glen Williams, Welland and many other places were represented. Fifty members of the St. Marys

department refused to parade because the band of the Portland Cement Company, composed of volunteer firemen and which is a non-union organization, was not allowed to march in the procession with the union bands. They promised to carry the matter to the minister of militia and see whether military bands like the 13th and the 61st have any right to belong to a union.

There is bad blood between the Plymouth Cordage Company's band and the town band of Welland. The Plymouth brigade chartered a special on which the other men refused to ride, coming here on the regular. By way of retaliation the Plymouth band refused to parade with the Welland company.

At the grounds this afternoon there was a big programme of games. There will be a spectacular fireworks display on the bay tonight. To-morrow will be Civic Holiday and Military day.

Ring is Found in Woman's Stomach

NEW YORK, Aug. 13.—Policeman Karl of the West 125th street station was passing an apartment house at 359 West 115th street yesterday when a man thrust his head out of a window on the fourth floor and cried, "Police!" Karl ran up to the fourth floor, where he was met by Lorenz Mallai, a provision merchant.

"Come in here, quick," cried Mallai, "a woman here has been demanding money she says I owe her on a check, and because I cannot at this minute pay she has taken my \$300 diamond ring."

Mallai indicated Mrs. Florence Sabagilla, 20 years old, who says she lives at 70 Sullivan street. Mrs. Sabagilla was taken to the station house but a careful search by the maroon failed to disclose the missing ring.

"She swallowed it," moaned Mallai. "I saw her put something in her mouth just before the policeman ran upstairs."

Farmers Have Complaints. MOOSEJAW, Sask., Aug. 13.—The Provincial Agricultural Credits Commission held a session yesterday. In the absence of E. H. Haslam of Regina, who is in Toronto, Hon. George E. Langley acted as chairman. Evidence of well-known local agriculturalists, F. W. Green, Hugh McKellar, J. A. Maharg and M. J. Reilly, went to show that the credit of farmers had materially decreased during the past year. Mortgages were much harder to negotiate on short terms, and personal loans more difficult to secure. ANOTHER TERRIBLE TRAGEDY OR AN ATTACK AT SEA

Canadian Battleship "Red Sox" Attacked by the Kaiser's Ship From Berlin Who Wrecked the Whole Outfit—Captain Wagner Put Clermont in Charge of the Defence But With No Success—The Germans are Still in Canadian Waters and Further Trouble is Expected.

Captain White and his merry Dutch partner sailed into port yesterday and captured the first game of the series. The sea was rough and the sailors had a busy afternoon.

In the sixth Bramble made a cruise around the horn with White, in front of him for two counters. They added another n the seventh.

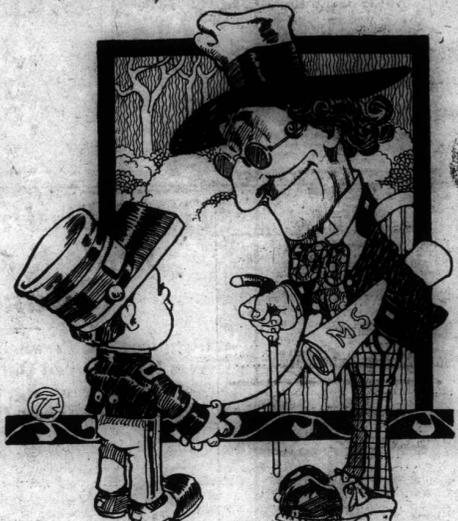

Seven jolly German jack tars rounded the horn while only four of the Brantford crew were able to get into port.

The Red Sox were blanked for the first three innings but got two in the fifth and one in the sixth.

The feature of the cruise was when Captain White got on second.

SCOTT MASTER OF ATHLETICS

For the Second Time During the Series He Beat the Leaders

PHILADELPHIA, Aug. 13.—Scott not only pitched fine ball against Philadelphia today, but his single in the seventh inning with the bases filled scored two runners, and enabled the visitors to win the game, 4 to 2. It was Scott's second victory in the series of four games here, Chicago winning three times to once for the home team. Bodie was very prominent in the visitor's attack. He made a home run, giving him three four-baggers for the series, scored another run after starting the seventh inning rally with a single and sent in Berger in the eighth with a sacrifice fly. Score by Innings:— Philadelphia, 0, 1, 0, 0, 0, 0, 1, 0, 2; Chicago, 0, 0, 0, 0, 0, 0, 0, 1, 2.

EVENED UP SERIES NEW YORK, Aug. 13.—St. Louis evened up the series to-day by de-

feating New York in the final game by 7 to 2. The visitors drove both Schultz and Fisher off the mound, and also hit McCann hard in the sixth. In this inning St. Louis scored four runs on a pass and five hits, all coming with none out. The New Yorks could not get their men around the bases after they got on, both Mitchell and Levernig being ineffective in the pinches. Umpire O'Loughlin ordered Fletcher Mitchell off the field at the end of the fifth inning, after having words with O'Loughlin all through the game. Mitchell made several attempts to get at O'Loughlin and tried to seize his mask. Other players interfered. Manager Stovall last night wired charges against O'Loughlin to President Ban Johnson.

Score by Innings:— St. Louis, 0, 0, 0, 0, 1, 0, 0, 0, 0, 7; New York, 0, 0, 0, 0, 0, 0, 0, 0, 1, 0.

HAMILTON'S ROWING REGATTA

Eleven Different Events Will be Held at the Beach

HAMILTON, Aug. 13.—The Rowing Regatta at Hamilton Beach on Saturday next, which one of the big features of the Centennial sports, is to be held under the auspices of the Provincial Amateur Rowing Association. More than eleven different events will be included in the programme, and the regatta is to be made attractive by the presence of the Woodstock 22nd Regimental Band.

Entries for the races are coming in rapidly, among others a large number from the different Toronto clubs. The Provincial Amateur Rowing Association was formed in Toronto last June, and it proposes holding a regatta each year after the Canadian Henley, varying the place so that persons who are unable to compete in the Henley contests may have a chance. It expects to prove a strong encouragement to rowing in the province.

R. T. Steele, of Hamilton, is the president of the new association, and the other officers are as follows: First Vice-President, W. D. Birchall, Montreal; Second Vice-President, G. A. Murphy, of Toronto; Secretary-Treasurer, J. W. McAllister, Hamilton; Executive Committee, E. H. Pulford and Rev. Mr. Harrison, (Ottawa), R. L. Schram (St. Catharines), W. D. Greer (Toronto Argonauts) and P. J. Mulqueen and J. Thompson of the Don Rowing Club.

The usual specials will be run for the races from Toronto.

TEN THOUSAND WATCHED TIGERS

Detroit Played at Hamilton Yesterday—Good Work Was Done.

HAMILTON, Aug. 13.—The exhibition game staged between the Detroit Tigers and a team composed of Hamilton and Ottawa league players, recognized as one of the stellar attractions of the Centennial Week, brought over 10,000 fans and fannies through the turnstiles at the cricket field yesterday afternoon. Detroit grabbed off the game by a score of 2 to 2, but they were trying all the way. Naturally chief interest centered around the doings of Tyrus Raymond Cobb, and he received a great ovation when he made his appearance on the field. He responded the first time by smashing the first ball served up for a single. In five trips to the plate Cobb collected a triple, two doubles and a base on balls, was nipped in the at-bat at pilfering was nipped in the end, he being an easy out. The rest of the galaxy of stars which comprise the Detroit team were all in harness, and played the entire game. Bush's work at short and the hitting of Moriarity were also features, the latter having a perfect average in four trips to the plate.

Donohue, Hamilton's star twirler, served up the batting food to the big leaguers, and he kept them guessing all the way. The kid received a great ovation when he struck out Sam Crawford, Donohue had three strike outs during the game. House, a recruit, twirled for the visitors. He was touched up for seven hits. Detroit filed to score until the fourth inning, when hits by Cobb, Veach and Gainer sent two runs across. Hamilton evened up in the fourth by scoring twice on four hits. In the sixth the Detroit band walked into a couple of shots for clean hits and sent two more runs across. Twice Hamilton had three men on bases, with but one out, but the necessary clout was not forthcoming. "Jocko" Halligan handled the indicator in good style. Score:

WHICH LINIMENT IS BEST?

For muscular pains and aches a thick oily preparation can't penetrate—that's why Nerviline beats them all—it sinks right in, "wouldn't live without Nerviline in my house," writes J. B. Cottam, of Mastown, N.S. "If you have rheumatism or soreness in the muscles or in fact any need of an honest liniment, Nerviline fills the bill. I can recommend it highly because I have proved that in one application of Polson's Nerviline there is more virtue than in a whole bottle of ordinary liniment." Try one of the large 25c bottles.

Hard Beatings Have Ended Careers of Many Boxing Stars

Instances Are Frequent Where Prize Ring Celebrities Were Forced Out of Sport Following Mauling—Wolcott and Lavigne Two of the Foremost Punishers of Their Day.

"One hard grueling battle often has ended the career of many a game fighter in the prize ring," said the old-time sport. "In the old days especially, when pugilists fought to a finish with bare knuckles and almost beat each other to death, many were seriously injured. Take, for instance that great international battle between John C. Heenan and Tom Sayers. It was fought 44 years ago at Farsborough, England. They battled for 44 rounds, lasting two hours and 30 minutes, when the ropes were cut to save the gallant Sayers from further butchery. "He was beaten almost to a pulp. His eyes were blinded, his nose broken and his face and body covered with bruises. In short poor Sayers was a pitiable sight and was carried from the ring in a helpless condition. This terrible beating really caused Tom to retire from the ring, for he resigned the championship to Tom Hurst, who lost the title to Jim Macie the next year.

"Those were the days when pugilists had to fight in bitter earnest, when broken noses and cauliflower ears were considered marks of honor by the ring followers of England and America. One could fill several books with accounts of London prize ring battles in which men pounded each other to a jelly, but let us come down to more modern gladiators.

"Jim Jeffries put several game fellows out of business by his tremendous punching powers. Tom Sharkey never fully recovered from the terrific punching Jeff gave him in their 25-round battle at Coney Island. Jim smashed the sailor's ribs and battered him so thoroughly that he had to be taken to a hospital. Sharkey never was the same man after that fierce struggle.

"Jim Corbett also received his finish from the giant boiler-maker in a 10-round battle at Frisco, August 14, 1903. After that affair Jim wisely decided that the ring had lost all attraction for him, and he sought the footlights as a softer and more agreeable way of getting the coin.

Put End to Ruhlin "Up to the time that Gus Ruhlin met Jeffries on the coast in 1901 the big German was looked upon as a very likely candidate for heavy-weight honors. But his body punches he received on that occasion not only whipped him, but robbed Gus of much of his vitality. In fact Ruhlin to the day of his death always maintained that his fight with Jeff marked his finish as a receiver of punishment. He fought several times after that, but never with the vim that distinguished

recovering from the effects of a defeat was that of our great Jack Dempsey, the "Nonpareil," when beaten by Fitzsimmons at New Orleans in 1901. Fitz looked like a gorilla that night as he stood head and shoulders over Dempsey. Jack had never seen Bob until the night he faced him in the ring, but even if he had he would not have given away rounds of weight often in his career, and the mere fact of being handicapped in height and reach would not have faced him. Fitz however was a freak, and Dempsey did not realize what he was up against until hostilities commenced.

"As we often maintained, Dempsey was really little better than a welterweight. He could do 142 pounds and get good and fit, and he had stayed in his class might never have suffered defeat. He was the very soul of honor, and no one ever dared suggest such a thing as faking a fight to him. When one of his friends went to Dempsey's corner and hinted that it might be possible to fix matters with Fitz and make it a draw, Dempsey turned on him angrily and said:

"I'll win or lose on the level. Everybody knows the story of the fight, how Fitz begged Jack to quit, but Dempsey refused and told the Australian he must knock him out to win.

SHE TOOK HER FRIENDS ADVICE And Dodd's Kidney Pills Cured Her Son. Straight and Simple Statement Tells of Another Grand Cure By the Old Canadian Kidney Remedy

SPRINGHAVEN, Yarmouth Co., N. S., Aug. 12.—(Special)—Simple and straight to the point is the statement of Mrs Erven C. Trefry, of this place, but it tells of another grand cure by Dodd's Kidney Pills.

"My fifteen-year-old son Angus," Mrs. Trefry states, "suffered from pain in his back, headache, and a pain over his eyes.

The reason they cure rheumatism, backache, gravel, dropsy, Bright's disease, diabetes and kindred diseases, is that these all spring from disordered kidneys.

If you have any of these diseases you haven't tried Dodd's Kidney Pills. Ask your neighbors. They'll tell you Dodd's Kidney Pills always cure them.

**EXPERIENCE OF MOTHERHOOD**  
Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother's routine.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

SPRINGHAVEN, Yarmouth Co., N. S., Aug. 12.—(Special)—Simple and straight to the point is the statement of Mrs Erven C. Trefry, of this place, but it tells of another grand cure by Dodd's Kidney Pills.
