BORDEN APPEALS FOR ANGLLO-AMERICAN UNITY

England and United States are Able to Command Peace of the World if They Act Together—Premier Endorses League of Nations

By Courier Leased Wire London, Thursday, Nov. 28. (By the Associated Press).—Sir Robert Borden, Canadian Premier, speaking at the annual Thanksgiving Day banquet of the American Society to-day, approved of the plan to form a League of Nations, but insisted that England and the United States are able to command the peace of the world by acting together. He said: "Let us have a league of nations, if it can be realized, but at least let us have the understanding and unity of purpose and action between the two world-wide English-speaking commonwealths, which will save humanity in years to come from the unbearable horror, suffering and sacrifice of a war such as this."

upon them. "By their overwhelming power and unopposed influence, neither nation can divorce itself from these responsibilities. Let no minor considerations, no petty rivalry and no unworthy distrust divide those, who, united, can command the world's abiding peace." America's share in winning the war was praised by Viscount Chanda, Japanese ambassador to Great Britain. The Earl of Reading declared that Great Britain would, in the future, join in celebrating Thanksgiving Day in memory of America's achievements in the war. The banquet was the most elaborate held by the society since 1914. Representatives of nearly all the associated nations were present.

EAGLE PLACE WANTS BETTER CAR SERVICE

Request Municipal Railway to Run Cars Every Ten Minutes—Other Matters Considered by South Brantford Improvement Association

A meeting of the South Brantford Improvement association was held last evening at the King Edward school, this being the first meeting of the society since the subsiding of the influenza epidemic. The members learned with regret that Mr. Jarvis, who was appointed secretary at the last meeting, had passed to the Great Beyond after a short illness from influenza. President Billo commented on the set back the society had received from the epidemic, and the fact that more residents of the Parkdale section did not take advantage of the meetings, which are of mutual benefit to anyone residing in this community. The report on the fall race was discussed and laid over pending the report of the Board of Health. The dyke question was next, and it was moved by Dr. Robinson and seconded by Mr. T. Sleeth that the local improvement committee be a delegation to meet the board of works on Thursday next, regarding the unsafe condition of the Eric avenue dyke. The question of the River Road dyke was broached and although this is a vital matter and should be attended to without delay, no expression of the meeting was taken with regard to same as the owners and residents of the properties directly abutting the dyke were conspicuous by their absence. A member asked the pertinent question, why the Main line, Eagle Place and Market street railway cars do not make connection. A spirited discussion followed, during which it was stated that the Eagle Place line was the revenue producer, and as such was entitled to a ten-minute service, which would connect with the ten-minute service on the main line. The consensus of opinion was that the traffic manager, if such a

person existed, was not onto his job, as main line cars are permitted to start while passengers, who wished to make connections, were alighting from other cars, and these patrons sometimes had to wait for 15 minutes. A resolution was unanimously adopted that the secretary be instructed to write the Municipal Railway commission that the residents desire a ten-minute service and that this service be put in operation without delay, they being sure that this service will mutually benefit both the patrons and the revenue of the Brantford Street Railway. The association was pleased to notice that a start had been made to utilize the gravel on the Eric avenue boulevard, near the tail race, and hoped that this roadbed would soon be seeded down by the parks board. A comment was made that the pruning of the trees throughout this section had been very creditably accomplished this fall, and a desire that this be continued every year was voiced. The meeting discussed garbage collection, and it was stated that the collectors dumped the contents of the receptacles into a large basket and spilled refuse in doing this. This practice is objectionable and unsanitary. It was pointed out that a sum of money was spent on pamphlets dealing with the care and disposal of garbage, by the city last Spring. One of the chief rules was to keep the receptacle covered. This was never carried out by Mr. Garbage Collector, who forgot to replace the lid. A resolution moved by Dr. J. W. Robinson and seconded by Mr. Stoppus, was unanimously carried, that the present system of garbage collection was far from satisfactory. The question of a new secretary was presented and the meeting was of the opinion that someone should be secured in Parkdale, but it was not felt desirable to leave this matter in abeyance, and James D. Ansell was asked to resign charge of the treasury and assume the duties of secretary. Ald. Symons and Simpson were present and took active part in the various discussions on civic matters. With the approaching municipal elections it was hoped that the schools would be available for polling booths, as the usual arrangements as experienced in the past are totally inadequate and embarrassing, especially when having to stand in line during cold or inclement weather. With ladies voting these conditions should not be tolerated, and the remedy suggested itself in the public school buildings which have a telephone and requisite conveniences which are essential to casting the ballot in a proper manner. A cordial invitation was extended to all

BROTHER OF LOCAL MAN IS KILLED

Sixteen Year Old John Carney Met Death in Fall From Train

By Courier Leased Wire Woodstock, Ont., Nov. 29.—The horribly mutilated body of Jack Carney, a well known local young man, was found this morning about three miles east of the city on the Grand Trunk Railway. He had been on a visit to his brother in Brantford and it is supposed fell off the train on the return trip. He was about 16 years of age. The young man referred to above came to Brantford Monday morning to visit his brother, Thomas Carney, 80 Gildson street. He left yesterday morning for Paris, and was returning to his home last night when he met his death. He was in his seventeenth year, and was the son of Mr. and Mrs. Carney of Oxford street, Woodstock.

SAYS GERMAN FLEET SHOULD STILL FLY FLAG

Hun Admiral Objects to Beatty's Order to Strike Colors

BEATTY REPLIES By Courier Leased Wire London, Nov. 28.—Admiral von Reuter, commander of the German fleet, which surrendered to the Allies on November 21, has protested against the order of Admiral Beatty of the British fleet, directing that the German flag be hauled down. He states that, according to an admiralty statement, that internment in a British harbor, is, under the terms of the armistice, equivalent to internment in a neutral port, where, in accordance with precedent, flags are allowed to remain hoisted. He adds: "I esteem it unjustifiable and contrary to international custom to order the striking of the flag on German ships. Moreover, in my opinion, the order to strike the flag was not in keeping with the idea of chivalry between two honorable opponents."

COMMUNIST SENTENCE DISAPPROVED

"I Would Rather Hang Than Be Condemned to Living Grave," Says Mooney

UNIONS THREATEN Labor Strike in Seattle Not Affected by Commutation

By Courier Leased Wire San Francisco, Nov. 29.—The death sentence of Thomas J. Mooney, convicted of murder in connection with the bomb explosion which killed ten people here July 22, 1916, during a preparedness day parade, having been commuted to life imprisonment by Governor Stephens last night, Seattle strikers had been planned for December 2 by labor organizations as a protest against Mooney's execution, which was set for December 13. Whether these proposed strikes now will be carried out, labor leaders here were unable to say to-day. "From his cell Mooney issued a statement protesting against commutation of his sentence. "I would rather hang," he said, "than be condemned to a living grave." Mooney also appealed to labor leaders to continue their efforts in his behalf. Of the five persons indicted for murder in connection with the bomb explosion, only two have been convicted—Mooney and Warren K. Billings, a machinist. Billings was sentenced to life imprisonment. Mrs. Rena Mooney, wife of Thomas Mooney, and Israel Weinberg, a "jitney" bus driver, were acquitted, and Edward D. Nolan, a machinist, never has been brought to trial. Many trial grew charges of irregularities on the part of District Attorney Charles Fickert who conducted the prosecutions. He brought two persons applying for clemency from President Wilson to Governor Stephens, and laboring men in many parts of the world interested themselves in the case. A report touching on the case, was the objective of \$19,000, and it is hoped to raise that sum in the envelope collection to be taken up in the city churches on Sunday. INVASION OF BALTIC PROVINCES IS URGED

Bolshevik Leader in Northern Russia Exhorts His Followers—Plan to Obtain Provisions by Invasion

By Courier Leased Wire Helsinki, Finland, Thursday, Nov. 28.—The commander of the Bolshevik army in Northern Russia has exhorted his followers to invade the Baltic provinces to obtain provisions. It is reported that German troops have partially abandoned the Narva front, and are asking that they be returned to Germany. German forces which have been at Duraberg, 110 miles southeast of Riga, are leaving. Russian prisoners of war, who have returned to the city, are causing serious disorders. The new cabinet of Estonia is of strong Socialist proclivities and is supported by a labor council, which is dominated by the Bolsheviks. The situation there is said to be very grave and speedy help is necessary. Many trial grew charges of irregularities on the part of District Attorney Charles Fickert who conducted the prosecutions. He brought two persons applying for clemency from President Wilson to Governor Stephens, and laboring men in many parts of the world interested themselves in the case. EX-EMPEROR TO RETURN TO GERMANY

Revolution is Being Managed by Officers of the High Command

DOOMED TO FAILURE Movement Must Soon Collapse—Kaiser to Resume His Throne

By Courier Leased Wire London, Nov. 29.—Bulletin.—The former German Emperor contemplates an early return to Germany to reclaim his throne, according to news received in London through a neutral source of high standing, says The Daily Mail. The newspapers adds that the revolution in Germany is being managed by officers of the German high command with a view to eventually causing its collapse, and the triumphant return of the former Emperor to Berlin. Some of these officers, in civilian clothes, have been recognized in the streets of Berlin. Many of them are reported to be dressed as workmen.

DEMAND SOFT'S DISMISSAL

Berne, Thursday, Nov. 28.—The Socialist council of Munich has telegraphed to the executive committee of the Berlin Socialist council, demanding the dismissal of Dr. W. S. Solff, foreign minister, Philipp Scheidemann, minister of colonies, and Matthias Erzberger, who, it has been announced, will conduct negotiations preliminary to signing a treaty of peace. The telegram also invites the Berlin council to overthrow a government which continues to place such persons in important positions.

HOLLWEG ASKS INVESTIGATION

London, Nov. 29.—Dr. Bethmann-Hollweg, imperial German chancellor at the outbreak of the war, is eager for an investigation into his share of the original ultimatum, according to a statement he has made in The North German Gazette of Berlin, as quoted by the Central News' correspondent at Copenhagen. The former chancellor, in his statement refers to the German relations regarding the war's origin and protests against the publication of fragmentary extracts from documents and the deductions made from these. He admits that Germany was not surprised at Austria's action regarding Serbia, but declares he was not aware of the text of the ultimatum before it was dispatched, and when he saw it he regarded it as too sharp both in its tone and as to the demands made.

EX-CHANCELLOR SAYS HE IS ANXIOUSLY AWAITING THE DAY WHEN HIS CASE MAY BE JUDGED BY AN IMPARTIAL GOVERNMENT TRIBUNAL

"I will admit our errors," he adds, "but will not allow ourselves to be forced to make untrue confessions." Berlin Hard Hit. Berlin, Nov. 29.—(By the Associated Press)—The vital statistics of Berlin, the publication of which heretofore has been prohibited, are now available. They disclose the most catastrophic effect of the war's privations on the people of Berlin. The excess of births over deaths was 12,766 in 1916 there was an excess of deaths over births of 4,446, and there were 15,397 more deaths than births in 1917. These figures do not include the soldiers who died at the front or in hospitals. The total number of deaths in 1917 was 7,000 more than the previous year, despite the fact that Berlin's population had decreased 70,000.

PPRESBYTERIAN CONFERENCE IS BROUGHT TO CLOSE

Afternoon and Evening Sessions Under Auspices of Forward Committee

MOVEMENT ENDORSED Miss Mitchell Told of the Women's Work in Western Canada

At the afternoon session of the Presbyterian Conference under the auspices of the Forward Movement in Zion Church yesterday, Miss Mitchell, the representative of the Women's Missionary Society, gave a vivid description of the work being undertaken in the Western Provinces of the Dominion...

The women in the Presbyterian hospitals in the West are also doing a great work. These valiant women travel all over the territory which is little inhabited as nurses and administrators to the sick...

A great work is being done among the Orientals in British Columbia where, of the male population, one in every three is an Oriental. An instance of this work is of an old Chinese man, who, after having been converted, declared himself willing and anxious to teach the children of his race.

Rev. A. McGillivray. The next speaker was Dr. Alex. McGillivray, Toronto, the superintendent of Sunday School work. The speaker first told the session that his work amongst the children of the church had always yielded him a great measure of satisfaction. The church's greatest work is among the children and Canada's greatest asset is the children for this reason one of the main works of the church should be for its children and young people...

tended church and only 40 per cent. of the children of Canada who claim to be Presbyterians attend Sunday school. This shows the urgent need of Sunday school work.

Dr. McGillivray finally appealed to the people to make every effort to obtain results for the ministry. At the end of the afternoon session a resolution was passed thoroughly endorsing the action taken at the last General Assembly, and appointing a committee, with the Rev. Mr. Gordon as convener, to consider the question of the Forward Movement and to lay it before the next meeting of the General Assembly, which will be held at Ingersoll on December 10th, when definite plans will be laid for the furthering of the object arrived at in the Forward Movement.

Rev. Mr. Campbell opened the evening session with devotional exercises. Three stanzas of the hymn, "All hail the power of Jesus' name," was sung, the twentieth psalm was read and prayer was conducted. The first speaker of the evening was Dr. Donald McGillivray, editor of the Christian Literature Society of China, and probably the most distinguished English speaking missionary in China to-day.

China, another of the countries that need missionaries, is progressing but slowly. This is best demonstrated by the fact that only recently the Chinese Government bought a great quantity of opium, which had been grown on British soil, and instead of giving it to her people to smoke, she destroyed it and thereby probably saved many lives.

Canada must act as the good Samaritan by sending to these heathen lands not only wheat, but also missionaries to lend them a hand for advancement in their spiritual education. The speaker closed his address by stating that we were rebuilding France, which had been devastated in the past four years, but China had needed rebuilding for centuries.

After Dr. McGillivray's speech the hymn "Stand Up, Stand Up for Jesus" was sung. Stewardship. Dr. Alex. McGillivray next spoke on the subject of stewardship, which means the guarding, the honoring and the keeping of a trust committed to us. The greatest trust which we are given is the trust of life and the soul. At one time when the speaker went to visit a mother whose son had been killed in France, the mother said, "My boy lived the Higher Life, a German bayonet or exploding shell may have killed my boy, but they could not reach his soul."

burden of the responsibility for all that we do to our neighbor to sin and we can use our influence to induce them to righteousness. "All we are asked to do is His bidding. We do not have to bear the responsibility of the outcome. For it comes out well for He knows best, and we will have our final reward," declared the speaker.

Dr. Dvds. of Queen's University of Kingston, was to have spoken on "The Dedication of Our Faith," but owing to the lateness of the hour Dr. Dvds did not give his address. This was deeply regretted by all present. The conference closed with pronouncement of the benediction. The attendance at the evening session was as large as could be expected.

MURDERED FISHERFOLK.

How the Germans Made Dutch Orphans. During the summer months Holland's fishing fleet suffered great losses through the persistent German attacks upon it. In spite of all protests these attacks continue on the thinnest of pretences. The Dutch shipping council, an official court, publishes an account of how a Dutch lugger was sunk by a German submarine in such a brutal manner that three fishermen were killed.

"As the fishermen were lowering the boat to leave their ship a shot from the German submarine struck the ship close to the spot where they were busy killing three of their number. The submarine continued firing. The man who fired stood behind a shield and the shells were passed to him from the sidding tower. Our boat was riddled with shot and quite leaky," runs the testimony of the survivors. "We stopped the holes as well as we could with the cork from a life belt and with bits of bacon — we always keep some bacon in our boat for eventualities. We kept on bailing out the water, using a boat belonging to one of our dead comrades for the purpose. Meanwhile we saw how our lugger was shot down; it sank straight down with mast upright. When the lugger was gone the submarine crew turned their attention to us; they looked at us through a spy-glass, then sailed away, leaving us to our fate. It was difficult to keep our leaky little craft afloat; we bailed and bailed for seven hours, when at last we saw another lugger and rowed toward it with all our might and were taken on board. The skipper of the lugger held a council with us as to what to do with the dead. In order to prove they had been shot, we thought it best to take them to Holland, so we sailed the bodies and the lugger set sail for Ymuiden."

Several of the fishing boats were sunk because they had drifted a few yards into the "danger zone" — a zone which has been illegally prohibited by Germany. Other ships have been "spurious veranakt," so no tales could be told of how and wherefore. In the cases where it is possible to compare the Dutch with the German stories they differ widely; for instance, some fishermen brought to Ymuiden after being picked up relate that the Germans plundered their ships and even took away their watches and clothing from them, and, even more, took away all provisions, so that the men in the open boat had nothing to eat and no covering, except their clothes they were wearing at the moment of the sinking of their ship — minus their oil-skin coats, which were also "requisitioned" by the defenders of the "freedom of the seas?" The German version of the same occurrence says that the fishermen were allowed ample time to collect their belongings and to stow provisions into the boat before the ship which they had left was sunk. It is for those who know something of German methods to make a choice from the two narratives.

Six months ago there were already over 2,000 orphans of fishermen murdered by the submarines in Holland, and a special fund was being raised to provide for them. By the recent outrages the number of orphans is steadily being increased, and the hatred against the ruthless slayers is ever growing among the fishing population of Holland.

A Poor Scholar. Parents who despair of their children may, says Outlook, find consolation in this story about Liebig, the famous chemist, from Prof. Swift's "Psychology and the Day's Work": On one occasion when the school director visited young Liebig's class and heard his veritable recitation, he told him that he was the plague of his parents. What could the ever do? The boy replied that he was going to be a chemist. The director laughed uproariously. The boy's father finally withdrew him from school because he could not keep up with his class. In his next years Liebig said that the cause of his inability to do the class work was that his auditory memory was weak—he could retain little or nothing that he heard.

Holds "All-Four" Record. A correspondent of Collier's who was under shell fire on Hill 212 in the battle of the Oureq says: "I think it was the ninth or tenth shell that for the fraction of an instant fully convinced me that I was through. The explosion turned me quite over where I lay flat, all butted up. At the end of forty or fifty minutes the captain decided that we might duck, one at a time. We rolled out of the shell-hole on all fours for an old wall a hundred yards away. I don't know what the all-four record for a hundred yards is, but I think I hold it."

To Subscribers in Arrears

Paper Controller Orders Cutting Off of Unpaid Subscriptions!

Mr. R. A. Fringle, K. C., the Paper Controller of Canada, has issued an order, effective January 1, 1919, which says: "2. Discontinue sending paper within three months after date of expiration of subscription, unless the subscription is renewed and paid for."

There are many other restrictions imposed, but this one is the most important. Therefore, between now and the end of the year The Courier's subscription list must be overhauled and put on a paid-in-advance basis, in order to comply with a governmental order.

Accounts have already been sent out to those in arrears, but subscribers do not need to wait for a "dink" to spur them to action. The date on the label affixed to the paper sent to mail subscribers, tells the story. City subscribers can learn how their subscription stands by referring to their last receipt. The reason for this regulation of the Paper Controller is that it is the practice of some publishers to send their newspaper until ordered stopped, and this practice frequently means a failure to collect anything for subscriptions in arrears, in which case there is a virtual waste of paper. It is to prevent paper waste that the new regulation has been decided on.

The manufacture of paper consumes labor, wood, coal, chemicals and transportation facilities, and every ton of paper saved means just so much labor, raw materials, chemicals, fuel and transportation available for urgent war needs. For these reasons the Government insists that paper shall be saved, and proposes that only those who pay for their publications shall receive them.

Under these regulations The Courier will have no choice in the matter of dealing with subscriptions in arrears for over three months. Send in your subscription at once. Do not delay, the collectors call regularly on city subscribers. Keep your account up-to-date.

CHAPTER LXXXVII

Brian Talks of His Hopes and Disappointments to Mollie.

Things did not work out entirely to Mrs. Clayborne's satisfaction. This was principally due to the fact that Ruth did not lend herself in any way to the schemes her aunt had planned. Of course Mrs. Clayborne had said nothing of them; she was far too shrewd to make a faux pas of that kind. But whenever possible she advocated accepting Mollie's invitations, and was tactfully insistent when speaking of him to Ruth.

But Ruth was in love with Brian. Her work done she was far happier with him than to be at the opera or anywhere else with others. So she managed to evade most of the things Mollie proposed, and to do it in such a way he could but acquiesce.

Brian had tried his best to be natural before Ruth's aunt; but always there was a little constraint in their intercourse, a forced pleasantness, that was obvious to both of them—and to Ruth.

"Don't act afraid of Auntie," she said to Brian one day. "She won't eat you."

"I'm not afraid of her but somehow I feel all the time that she blames me for your going to work; that she disapproves of me as a husband for her niece," putting his feelings into words for the first time in many weeks.

"Nonsense! I don't deny Aunt Louisa felt so at first. You remember her letters. But she's all over it now that she sees what my work is, how whappy I am in doing it; how cozy we are, and how nicely we are getting along. Then too, dear Auntie knows that I love you, that we are happy together. I think she never quite knew how much I cared before." Ruth blushed as she confessed her love for her husband. She was naturally diffident where her affections were concerned, and no to-

ten did she say as much.

"Just the same she doesn't like me. It would have pleased her better if you had married a man like Mandel. She's gone daffy about him, by the way she talks."

"It isn't that Brian, Ruth patiently explained. "It is because he is so kind to me, makes my work so pleasant. And that employees were terribly overworked and so miserable. She's found out she was wrong. I am so happy that she has, and that when she goes home she will feel different about us and about my working."

"Then, I wish while she is here you would come with me to the shop with her. It seems strange that you never have met my boss," she finished with a smile.

"I don't know why I should meet him! He'd most likely patronize me—or try to."

"Oh, no he wouldn't Brian. He isn't that kind. Really he isn't. Then I wish you to show you my desk. The nice, quiet corner where I can keep to myself."

"Perhaps—some day I'll drop in," he returned, and Ruth had to be contented. He would make no further concession.

It had been two weeks since Mrs. Clayborne arrived, and she was beginning to talk of going home. While she had not been able to do as she wished about throwing Ruth with Mandel, she was not at all disheartened.

"Time, fate and proximity have been known to accomplish wonders," she said to herself. "They are much together, he loves her. He'll not give up easily."

Unfortunately on the very day that Mrs. Clayborne left for home, Ruth was once more sent out of town on a commission. Brian at once flew to Mollie King for sympathy.

"I've had to be on my good behavior all the time Mrs. Clayborne was with us, then just as I might be comfortable again off Ruth goes and leaves me alone with Rachel. It isn't fair to a fellow!" he stormed.

"Of course it isn't. It is Ruth going to stay long this time?"

"How do I know; two days or two weeks! It's all one to her, so long as she is pattering over that decorating business. I tell you Mollie, it has got to stop! I want a home, my wife's society when I go home and— I might as well say it—I want child-like other men. Honest, Mollie, I don't care a rap for fancy things, for all the fuss about eating and the house. I just want to be comfortable and feel well—like I do with you and I don't. I can't eat when I think that Ruth is working, that she is away. These decorations and working for that firm mean more to her than I do. I suppose I shouldn't have asked her to marry me until I had gone further in my profession. At least until I had made more money. But I did, and that part can't be helped. But I'd rather have a little three room flat down here in the village, with Ruth fussing up messes in a kitchenette like yours, and a kiddie running to meet me than to live as we do." He laughed a little then said, "There I feel better! I've got that out of my system. Now come on, we'll go out to dinner."

That evening Mollie was more gentle, more sympathetic than ever before. Brian's talk of a home and kiddies had affected her more than he perhaps had either realized or intended.

An Eccentric Genius.

In reminiscences of Lafcadio Hearn, by his wife, a Japanese, the following things that were disliked by the erratic genius are enumerated: "He disliked liars, abuse of the weak, Princes Albert coats, white shirts, the city of New York, and many other things." He was fond of the sea and of swimming, of "lonely cemeteries" of ghost stories, of Martinique, and of such mundane things as breakfast and plum pudding.

Glorious Days.

Perhaps one of the most biting things the enemies of the Hohenzollerns in Germany are doing, at the present time, is the recalling of the Kaiser's remark on the occasion of his accession, thirty years ago, "I will lead you into glorious days." It is pretty difficult for a people subsisting on quarter rations, and wearing paper-soled shoes, to imagine these days glorious. At all events, what they want now is some one to lead them out of the days Wilhelm led them into.

Getting Back Three Million Dollars

THE PAPER CONTROLLER for Canada a few weeks ago added \$12 a ton to the price of news print paper—the kind used in printing the Courier. This addition, following closely upon several previous increases authorized by the Paper Controller, has meant to Canadian newspaper publishers a total increased publishing cost, in the matter of paper alone, in the past eighteen months, of three million dollars. This very considerable sum Canadian publishers must recover from their customers, their readers and advertisers.

In connection with the earlier increases the readers of many daily newspapers have been required to pay \$1 or more per year for their newspapers, while the subscription price, of very many weekly newspapers has been increased from 50 to 100 per cent. In many cases still further increases will be necessary.

But all the three million dollars increase in paper costs cannot be loaded on readers; some of this sum must come from the advertisers—this in the form of increased advertising rates. Advertising rates in Canada are, generally speaking, much lower per thousand in circulation than in the United States. Speaking on this point the editor of Marketing, a Canadian advertisers' newspaper published in Toronto, says in his last issue: "In meeting the Canadian publishers' calls for higher rates, advertising buyers should not fail to recognize that for years they have benefited by the publisher's undervaluation of his space, and should be the more willing on that account to recognize the present necessities." To all of which The Courier agrees.

LADY'S ONE PIECE DRESS.

Very new and different in this design which goes a long way toward saving material. No. 8794. The dress hangs straight from the shoulders, but a narrow cord girdle or a belt may be used to draw it in at the waistline. The closing is on the shoulder, as the dress slips on over the head. The square neck is bound with contrasting material and the drop shoulder seams are finished in the same way. The sleeves are rather odd in design, having long pieces which turn back in cuff effect. Satin serge, tricotine, wool jersey or chiffon broadcloth may be used for this dress, which requires only a small amount of material for making.

The lady's one piece dress pattern No. 8794, is cut in four sizes—36 to 42 inches bust measure. Width at lower edge of skirt is 1 1/2 yards. The 36 inch size requires 3 3/4 yards 36 inch and 1/2 yard 36 inch contrasting material.

BRITAIN'S DAY IN THE STATES.
 Time was, and not so very long ago either, when twisting knots in the tail of the British lion was quite a popular pastime in the United States. The writer remembers some years ago an incident in Detroit when that city attempted to start an annual fair after the pattern of the Toronto Industrial. There was bunting flying all over the city in honor of the inaugural day and one enthusiast on a residential street flung a Union Jack to the breeze from a second storey window. Pretty soon a hostile crowd gathered, but the owner obstinately refused to take in the emblem. Finally police persuasion prevailed and the cause of the trouble was removed. It was an incident characteristic of that period, an outcropping of the mistaken and misleading idea of the Old Land conveyed by Uncle Sam's school books and of a feeling largely kept up by politicians with a particular eye on the Irish vote.

The recent war has largely changed all that and now there has come the recent announcement that our neighbors will observe Saturday, December 7th, as "Britain's Day" in recognition of the services rendered to civilization by the British Empire during the recent hostilities. Elaborate preparations in this regard are being made all over the Union. Every town and city will fly the Union Jack and demonstrations will take place in which speeches and music are to have their part. In addition special services will be held in the churches on the Sunday following. It is very gratifying to note this improved feeling and the hope will be general that never again will the old bitterness be revived by either word or deed.

ABOLISHING MONEY.
 It is proposed by the Russian revolutionists to felonize payment of wages in money, and to make direct exchange of products for labor. To do this, trade is to be nationalized and centralized, and traders, merchants, bankers and everybody "eliminated." Having abolished obedience and chastity, the thorough demoralization of the Russians is to emancipate the bolsheviks from poverty. In Petrograd, the centre of the new economic reform, the workman on a six-hour basis, with no prying time-clock to take the joy from life, has kept well ahead of the fall in the purchase power of the rouble. Details of the new order of things have not yet been disclosed. It would seem, however, points out the Wall Street Journal, New York, that a direct exchange of six hours' work at, say, bolt riveting, or metal working, or at an unskilled occupation such as sewer digging, for the great variety of commodities which are consumed in the average household, will of necessity call for some sort of middle-paper, and some kind of middle-man to issue it.

Without some species of substituted exchange, the scheme presents problems in primitive social economy, which may overshadow the soviet itself. To complete a shopping tour with two hand-cured hides as the coin of the new republic or a few pork chops for small change would not leave much time for recreation. Even were it possible to centralise all merchandise in one storehouse, serious differences of opinion as to parities of value would develop right on the spot between the workman whose labor called for neither preliminary training nor present mental action, and the less fortunate skilled artisan. To find a common denominator of value would be the question.

THE ROGERS BANQUET
 Among the seven hundred who attended the complimentary dinner in Toronto last night to Hon. Mr. Rogers, there was only a slim representation of the members of the Dominion and Ontario Houses. The truth of the matter is that most public men still feel that many matters of vital and far reaching importance have yet to be grappled with and settled in connection with the war, and that under the circumstances it is still inadvisable to draw tight party lines. Mr. Rogers did not, as some expected, make any slashing attack on Sir Robert Borden and the Union Gov-

ernment. What he did do was to declare that Liberalism had nothing to offer in the solution of the problems now facing Canada, whereas the Conservative party had never failed to successfully meet big emergencies. In this respect, he urged the continuance of the National Policy, a proper recognition of labor and the active development of markets. He also denounced idle, rich speculators who in the West particularly, had many millions of acres of virgin soil tied up.

Lt.-Col. J. A. Currie, M.P. for Simcoe North, who is known as the head of a "Ginger" group in the Dominion House, had on the most war paint. He referred to the fact that Sir Wilfrid Laurier, Hon. Mr. Fielding and Hon. Mr. Scott had declared the party truce to be at an end, and exclaimed: "We are not going to allow the reactionaries to take charge of the government and take away everything we have fought for." If Governments were not run on party lines, the inevitable outcome would be factional elements, which did not make either for continuity or stability of purpose.

It may be said of the entire affair that it constituted a vent valve for the proectors, without minimizing the quite general feeling that there is still much for a Union Government to accomplish.

NOTES AND COMMENTS.
 There was a bear hunt in Central Park, New York, for one of that brand of animal that had escaped from its cage. Bruin was finally lassooed just in the same manner as other "Brewins" during this period.

That Christmas shopping. You know you are going to do some. Then, why not now?

Brantfordites have never yet failed in a generous response to any worthy object. The fund on behalf of flu sufferers is still over \$3,000 short of the objective and it is up to each citizen to give a final altogether pull which will land the appeal well over the top.

It is said that the efforts of the ex-Crown Prince to appear in a jolly mood are simply "sheepish grimaces." He evidently fully realizes that the Allies have got his goat in proper style.

A Christian Soldier: "A Minister" asks, "Can a man be both a soldier and a Christian?" General Gordon was looked upon as a Christian of heroic type. And certainly he was a true soldier. Doubtless there are wars of aggression, wars of extension of territory, and wars of commercial gain, in which a Christian, knowing the aims and motives of the war, could not conscientiously engage. But a Christian may certainly fight in defence of home and country, and in defence of oppressed and helpless people, and for great principles of liberty and justice.

Assassin Ended the Life of Count Stephen Tisza
 Typical Magyar Autocrat

TYRANNY had no greater friend than Count Tisza, the former Hungarian Premier, whose life was ended by a bullet from an assassin's revolver two days before the Austrians made unconditional surrender to the terms of the Allies. Count Stephen Tisza, typical as a Magyar magnate, was the best-hated man in Hungary. His political opponents of his own rank fought duels with him; those of inferior rank tried to assassinate him. One of the three whom he met on the "field of honor" in 1913, and wounded, was Count Michael Karolyi, now President of the Revolutionary National Council. The last unsuccessful attempt to assassinate him was on Oct. 16, when Leitner, an official of the Food Department, drew a revolver on him, but was prevented by the count's chauffeur from using it.

Tisza was a powerful man, both physically and mentally; his patriotism, while limited to the magiate class, was ambitious. His one aim was to promote the greatness and glory of Hungary. Austria and even Germany he regarded as mere pawns in his game. He made use of the

COUNT STEPHEN TISZA.
 late Archduke Francis Ferdinand by having him agitate the scheme of a tritune monarchy made up of Germans, Magyars, and Slavs in place of the dual monarchy, believing that the new government would be centralized at Budapest rather than at Vienna. The whole scheme of Balkan policy was his—to prevent the states there from growing strong or forming a league, for the benefit of Russia against Turkey.

He was Premier of Hungary in 1914 and was quick to see the opportunities offered by the assassination of the Archduke Francis Ferdinand, the heir presumptive, at Sarajevo. It is said that he at once communicated privately with friends at the Wilhelmstrasse and the result was the famous conciliatory German Kaiser's military family at Potsdam in the first week in July, when plans were made for united German and Austro-Hungarian action in case Russia intervened to save Serbia.

Although Count Berchtold was then Austro-Hungarian Foreign Minister, it is said that the ultimatum to Serbia, delivered by Baron Gied von Gieslingen, the Austro-Hungarian Minister at Belgrade, on July 23 was largely Tisza's work.

Born in Budapest in 1861, Tisza had, since he entered politics as a clerk in the Ministry of the Interior in 1882, exercised a power far beyond his official offices. He was first Premier from 1903 to 1906, and then from 1912 to May 23, 1917.

Up to the time of his retirement last year he fought in Parliament for the Teutonic alliance and the continuance of the war until that alliance won. A year ago, however, he began to speak of the alliance as a burden and the war as being prolonged by Germany. He began to favor autonomy for the nationalities of Hungary.

At the end of September, 1918, when the probability of a separate peace of Austro-Hungary had become obvious, he was one of three Hungarian statesmen called to Vienna to advise the Emperor, the others being Counts Andrássy and Apponyi. Both were his inveterate political foes, both had accused him of being the German Kaiser's agent. On the other hand, Andrássy's admiration for Great Britain and Apponyi's for the United States were well known.

ORGANIZING.
 One of the most enthusiastic meetings held in the Brantford Club was staged at noon today (Friday), when some 45 or 50 members of the new Kiwanis club met at luncheon, and listened to an address by Mr. F. G. Hassard, of Toronto, vice-president of the International Kiwanis club, and chairman of the Speaker's committee of the Toronto Kiwanis club.

The meeting was in the nature of a preliminary to the organization of the club in Brantford, and the optimism of the new member was great. On Friday next it is expected that the national organizer, Mr. Brown, of Buffalo, will be present; and that at least 60 members will be ready to accept the creed of the Kiwanis club, for the advantage of themselves and of their community.

OVERSEAS TRAVEL

According to advices which have been received by the government at Ottawa, it will be harder than ever for women to get to Europe, now that peace and the reconstruction period have come. A story sent out from Ottawa that all restrictions to travel had been removed, whereas only those to and from the United States were concerned, has caused a sudden onset for passport. A lot of women want to go over and join their husbands who are at the front, while others would make tours of the devastated countries. The passport privilege to those engaged in V. A. D. and Red Cross work will no longer be extended, nor will young ladies intending to marry soldiers be allowed to go over. The bridegroom must hold their souls in patience.

GOOD RESPONSE

The response of the employees of the H. & B. system in connection with the Victory Loan of 1918 has been splendid, a local official told The Courier to-day. "The objective set was high, but they more than measured up to it. It was thought to be practically impossible for any Canadian railway to get 75 per cent of their employees to subscribe 70 per cent of the annual payroll. The T. H. B. record is 96.05 per cent of the employees, 14.00 per cent of the payroll."

LAI D AT REST

MISS PERLEY
The funeral of the late Miss Elsie Perley took place yesterday afternoon from her home, 16 Wellington street. Rev. Dr. Mackenzie conducted a service at the house and afterward at Grace church, where many friends had assembled to pay a last tribute to one who had endeared herself to so many. The pall-bearers were Messrs. W. N. Dewar, D. Henwood, E. C. Kilmer, J. W. Sheppard, H. F. Leonard and D. J. Waterous. Many beautiful floral tributes testified to the esteem in which the deceased was held. At a meeting of the Police Commission this afternoon, it was decided to apply to the city for a further appropriation of \$2,100 for current expenses. A war bonus was voted to Chief Slemin, and it was decided to take out memberships in the Y.M.C.A. for all members of the force.

TO BUILD SEWER

The works department have advertised for men, and as soon as they are obtained the work on the Morell street storm sewer will be commenced as the city engineer's department is prepared to go ahead. In the meantime, sewer on Murray street is being finished.

CRITICISM UNFOUNDED

The criticism that has been passed regarding the Brantford emergency hospital is without foundation, declare officials in charge. The fact of the matter is that of the patients that have died in the hospital during the flu epidemic, thirty-six had been in the building less than 24 hours, and had passed the crisis and were dying when they were admitted to the hospital. Another case is recalled of a patient who was brought in to the hospital last night and died this morning. The unfair criticism that has been made in the city is very detrimental to the spirits of those in charge, who have done their best under the circumstances.

CONCERT HELD

A very enjoyable concert was held last night by the Oxford St. Methodist church, when the following program was rendered: Readings, Mrs. Smith, Miss Constand, Mr. Fryer; solos, Misses Moodie and Wilson, Messrs. After the concert, those who acted as entertainers were given a social evening. There was a splendid attendance, and those present expressed themselves as having thoroughly enjoyed a pleasant evening.

Food Board is Modifying its Regulations

The Canada Food Board is loosening up in its regulations, a business man who is in touch with Ottawa, stated to The Courier to-day. The restrictions on the use of white sugar will remain in force, but the ban which has been on icing sugar for the past eight months, is to be lifted, and the manufacture of this commodity will again be permitted, so that housewives can ice their Christmas cakes and bakers and confectioners likewise.

Doughnuts and cutlers may be made once more, provided only vegetable fats are used in their manufacture. The ban on animal fats is still in force. Candy makers can use their appointment of sugar for the Christmas trade if they wish, provided they are willing to take a chance on getting a further supply after January 1.

BENEFIT CONCERT WAS A SUCCESS

Massey-Harris Employees' Association Held Delightful Entertainment

There was scarcely a vacant seat in the Grand Opera House when the curtain was rung up on the concert given by the Massey-Harris Employees' Benefit Association last night, and the few seats which were then unoccupied filled up before the evening was many minutes old. Brantford music lovers have a reputation for fastidiousness which dreads the heart of an amateur performer, but the most fastidious had nothing but praise for the quality of every number on the program at last night's entertainment. From first to last, the musical selections were rendered with admirable skill and precision, while the vocal numbers displayed equal merit throughout. Every number, in fact, blended with its fellows to complete the harmony and success of the evening. High congratulations are due the committee in charge of the entertainment upon the degree of excellence attained.

Mr. Thomas Findlay, of Toronto, president of the Massey-Harris Company of Toronto, was the guest of honor of the evening, and during the intermission between the first and second parts, addressed a few words of welcome to the audience and of congratulation to the committee in charge. He also praised the work which had been done by the Employees' Benefit Association in caring for employees of the company who had suffered during the influenza epidemic. Those who were ill had been visited, and provision was made to care for them when such was needed. Mr. Findlay was high in his praise of such Christian services on the part of the association.

The executive of the association is as follows: Chas. E. Johnson, president; L. A. Lundy, first vice-president; R. Fletcher, 2nd vice-president; F. Grobb, treasurer; J. R. Harper, secretary; S. G. Macdonald, E. E. Uptgrove, auditors; W. Moyner, C. Carroll, J. Goodred, J. Sherritt, F. Field, J. Druhart, C. Muir, J. Stewart, E. Stuart, E. Sherry, D. Cooper, W. Cooper, Mrs. Richardson.

The following were patrons of the concert: W. F. Cockshutt, M. P., J. Powell, S. B. Chadey, James Brown, Franklin Grobb, R. D. Johnson, E. C. Tench, J. Dunn, R. Scarfe, Col. F. A. Howard, A. K. Bunnell, E. Moulie, T. H. Preston, J. T. Whittaker.

Mr. T. Darwin, the accompanist of the evening, and the orchestra under the leadership of Mr. Mason, were admirably efficient, and added in no small measure to the success of the evening. The program in full follows:

Part I.
Violin solo, Adagio and Moto Perpetuo (Ries) Miss Marjorie Jones; duet, "Springtime" (Newton) Miss H. Cunningham and Miss H. Hurley; songs, Boys of the King (Emerson) (Aimes), Mr. E. A. King Victor Emmanuel Tells of the Sacrifices Made by Italy in the War

THE representative of Le Matin to whom the King of Italy recently granted an interview describes the impression made upon him by King Emmanuel as one of goodness, earnestness, and simplicity. This was a man, he declares, who was acquainted with facts, not phrases, and whose clear thinking formed its estimate of things and of men. For 39 months, he affirms, the King has not failed to go up daily to the lines and to encourage his soldiers by his presence and his words.

The economic and moral condition of Austria-Hungary was naturally the subject with which he was most concerned, and he seemed, the writer declares, to be wonderfully well informed. He knew by report how things were inside the enemy countries and his own daily experience showed him what the physical and moral condition of the combatants was.

It must not be thought, the King said, that there was the same solidarity between the rear and the front in Teutonic countries as in the democratic nations. There was, on the

KING VICTOR EMMANUEL.

contrary, a barrier between them. The soldiers did not know what was going on in their towns and villages. They were subject to a severe discipline, which their leaders maintained harshly, and the only newspapers they read were those which were carefully selected and controlled. How, the King asked, could they share in the political turmoil of the interior?

In reply to a tribute as to the fighting of the Italian soldiers on the Piave, the King said that, indeed they had done well. The effort Italy had made deserved to be known, he added, for she had given her children glory in the war. King Victor Emmanuel, declared there were no men of military age to be seen in the country, except those who were unfit for service; the fields were being tilled by women and children and men past military age. The class of 1900, the equivalent of the French class of 1920 had been in the line for months, he declared. They had, in fact, mobilized all their effectives without restrictions of any kind. Nor, said the King, had the financial effort been any smaller, without speaking of the industrial and economic efforts which the country has made in spite of the difficulties arising from the absence of raw materials needed for war manufactures.

These words of the King of Italy, the writer declares, contained truths which should be known, for this nation, which had spontaneously entered a war which was not imposed upon her, had had to face sacrifices which had been doubled by the defection of Russia.

Guns.
There is no known 75-centimetre gun. If there were its bore would be more than 29 inches. The famous French 75-millimetre gun has a bore a little less in size than the American 75-centimetre gun, being approximately 2.95275 inches; the German 77-millimetre is a little larger than the American, being approximately 3.03149 inches. French and American shells could be used in the German 77-millimetre guns, probably with little or no change, while German and American shells could not, probably, be used in the French 75's without remanufacturing.

A Famous "Nom de Plume."
It is probably quite new to most people that the nom de plume "Gyp" of the well-known French novelist, was taken from a Dickens novel. Such is, however, the case. Gyp is the little dog Jip of David Copperfield, with the J changed into a G, so that the initial letter might be the same as that of the Christian name of Countess Sybille Gabrielle Marie Antoinette de Martel de Janville, the lady who in so well known to the French reading world as "Gyp."

His Explanation.
"Before we were married," the English wife complained, "you always engaged a cab when you took me anywhere. Now you think the tram-car is good enough for me."
"No, my darling," replied her husband, "I don't think the tram-car is good enough for you; it's because I'm so proud of you. In a cab you would be seen by nobody, while I can show you off to so many people by taking you in a tram-car."

Restoration of Natural Resources to Western Provinces Hardly Worth While

By Courier Leased Wire Regina, Nov. 28.—The Dominion Government if they have decided to return to the Western Provinces their natural resources, attached so many strings that it seems scarcely worth while bothering further with the problem at present, was the statement made to-day by Hon. W. H. Motherwell, Minister of Agriculture in Saskatchewan, on his return to Ottawa.

They Used to Call Him Grandpa; Now They Call Him Kid Mr. J. A. McCrea, a well known resident of San Francisco, who was called Daddy and Grandpa on account of his white hair, but who darkened it with a simple home-made mixture, recently made the following statement:

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair and make it soft and glossy. To a half pint of water add one ounce of bay rum, a small box of Orlex Compound and 1-4 ounce of glycerine. These ingredients can be bought at any drug store at a very little cost. Apply to the hair twice a week until the desired shade is obtained. This is not a dye, it does not color the most delicate scalp, is not sticky or greasy and does not rub off. My friends now call me 'Kid'."

ITALY WAS HARD HIT BY INFLUENZA

An Epidemic of Grippe Intensified Difficulties of Food Supply. By Courier Leased Wire Rome, Monday, Nov. 25.—The epidemic of grippe in Italy during October and November added to the difficulties of the food supply, Dr. Silvio Crespi, the food minister, declared in the Chamber of Deputies to-day, in a statement regarding the food situation. During this period, he stated, about one-third of the personnel of the railways have been victims of the malady, complicating the situation just at a time when the Italian offensive was in progress and the effective transportation of supplies through efficient railway service was indispensable. The remaining railwaymen, however, by redoubling their effort, had succeeded in making up the deficiency in labor.

CHILE WANTS WARSHIPS. By Courier Leased Wire Santiago, Chile, Wednesday, Nov. 27.—After a meeting of the ministers to-day with military and naval authorities, it was semi-officially stated that it had been agreed that Great Britain be asked to give up the two dreadnoughts under construction in England for Chile at the beginning of the war and taken over by the British Government. It appears that the Chilean Government's policy concerning the Peruvian incidents has been decided upon. The dispute, it is held, was not one provoked by Chile, which is only maintaining firmly the national respect and dignity.

FRANCE PLANNING TRADE CAMPAIGN

An Economic Offensive Will Be Carried on When Peace Comes. By Courier Leased Wire Paris, Sunday, Nov. 24.—(Delayed).—Jules Cels, who was recently appointed under secretary of public works and transport, says in an interview with L'Information that extensive plans are being formed for economic offensive, by which French activities after the war will be commensurate with those exerted by the nation during the struggle. Projects before various committees include reorganization and extension of railway, steamship and canal routes and electric power plants and the elaboration of works at docks and ports. "Studies are being made of a plan for a great international railway route from Bordeaux to Odessa," he says. "There is also a committee studying the project of constructing a tunnel under the English channel and another through the Vosges Mountains, west of Alsace."

Watt, the treasurer of the Australian Government, stating that in view of the fact that another wheat harvest is due and will require payments aggregating at least \$10,000,000, the Australian wheat board considers it desirable to sell one million tons of wheat at a minimum price of 75 pence (approximately \$1.18) per bushel, provided that Australia is permitted to compete in the world markets and is able to reserve the rest of the wheat supply on hand.

CITY OF MONS GAVE GEN. CURRIE MEDAL

Canadian Commander Honored Before Leaving the Scene of His Last Victory

By Courier Leased Wire
With the Canadian Corps, Nov. 24.—(By J. F. B. Livezey, Canadian Press correspondent.)—(Delayed in transmission).—Before leaving Mons, which the Canadians captured just before the armistice was signed, Sir Arthur Currie, the commander of the Canadian Corps, was presented by the city with a medal in gold specially struck in his honor and inscribed as a souvenir of the liberation of the city by the Canadian Corps. Replicas will be distributed among the troops who participated. Men of the First Canadian Division were given a great reception upon their entry into the city of Nivelles on their march to Germany. Leisure has been granted the men for visits to Waterloo and the historic battlefields in the neighborhood, and a considerable contingent of Canadian officers attended the official entry of the King and Queen of the Belgians into Brussels.
The published plans for the demobilization of the Canadian army have not been received with enthusiasm as the men hoped and believed that they would have an opportunity of returning to their bases as members of the fighting units with which they have so long been associated.

"Instead of this," one western soldier put it, "we are to return not as soldiers at all, but as a mob of farmers or bakers or clerks, which our country apparently wants to get rid of as quickly as possible. I and thousands like me wanted to march into our home town with our regimental flag waving and the band playing the fighting battalion that won fame on every field from Ypres to Cambrai, where the Canadian arms have been engaged."

INFLUENZA HAS LATER DANGERS

Particular Care Needed When Patient is Convalescent, Says Expert

The influenza convalescent who has apparently recovered from the disease and is yet in a strangely weak and depressed condition should be the object of particular care, according to Dr. Louis I. Harris, director of the Bureau of Preventable Diseases of the New York Health Department. In the opinion of Dr. Harris the after care of the influenza patient is most important. The operation of the patient coupled with the willingness to see that the weakness and depression are a part of the disease itself has spent its force, is a big factor in effecting a complete return to full health. On the other hand the determination to ignore this debility and call for the frequently bring serious consequences upon the patient.

"The subject of the after effects of influenza," said Dr. Harris "is one of particular interest to the scientist at the present time.
First, and perhaps the most momentous condition to be considered is the striking depression, mental, nervous, and physical, complained of by most patients. Those attacked by the disease with moderate severity are almost always afflicted with this depression, which should be recognized and dealt with. Those who have had mild cases of the epidemic are little affected by depression, and their quick return to health and strength gives rise to the belief that influenza is trivial. On the contrary, influenza in its after effects is anything but trivial, and calls for the application of rules and common sense and sanitation which are the fruit of years of experience.

"Tonic treatment, well chosen diet and great care in not becoming over-tired or allowing the body to be chilled are necessary. Eggs may be eaten, but not more than two a day, for the average adult. Of course it must be remembered that in many cases this disease tends to direct its force against the kidneys, and therefore we instruct patients to avoid eating a great amount of meat, eggs or beef extracts. Eggs, soft-boiled, poached or beaten raw, are advisable in limited number. The raw eggs should always be well agitated before taking.

"When Good Food is Bad
"With milk and eggs as a foundation the patient should eat food containing food, including meat, fish, and vegetables, simply prepared. Frying, for instance, is out of the question. Good food prepared in an unsuitable manner becomes bad food, especially if this to be noted in the cases of convalescence from influenza, for the disease often manifests itself in vomiting, and in intestinal and gastric disturbances, and it is important not to weaken the digestive function by the eating of poorly prepared food, or even the

best of food in ill-advised quantities. The quantitative distribution of food-stuffs should be so adjusted as not to overtax the stomach, but the patient should eat generously and frequently.
As a tonic to build up the blood and stimulate the shattered nerves, Dr. Williams' Pink Pills are unsurpassed. These pills actually make new, rich, red blood, which reaches every organ and every nerve in the body, improves the appetite, strengthens digestion and drives away the feeling of weariness and depression always following an attack of influenza or influenza. Those who give Dr. Williams' Pink Pills a fair trial will be amply repaid by the new health and strength this tonic medicine always gives.

"LOVE WATCHES"
Florence Deshon, Vitagraph star achieved popularity on the speaking stage in Broadway productions before coming to motion pictures. Her work in "The Auction Block" and "The Judgment House" recommended her to Albert E. Smith, president of Vitagraph, and he engaged her on a long term contract to appear in Blue Ribbon Features, which she has registered most effectively as leading woman with Harry Morey. She has an important role in "Love Watches," the Vitagraph Blue Ribbon Feature which will be seen at The Brant Theatre, Saturday matinee only. Corinne Griffith is the star, taking the role of Jacqueline Cartaret, made famous by Billie Burke. Others in the supporting cast are Edward Burns, Julia Swayne Gordon, Denton Vane, Alice Terry, and Charles Stevenson.

AT THE GRAND
When Manager Gus Hill some years ago, decided to transfer the famous cartoon characters, Mutt and Jeff from the confines of the newspapers to the stage, there were many doubting folks who were ready to proclaim that these two noted personages would never be funny outside the

pages of the dailies where their mirth provoking propensities won both fame and fortune for their creator, "Bud" Fisher, that Mr. Hill's judgment has been as far-reaching as it has been effective, has been demonstrated as the public has already seen. Probably no production of the many he has sponsored since he entered the show business has been as successful as those in which these world-renowned pair have figured. Each season he has surrounded the two in some sort of musical play until to-day their advent is looked upon with as much importance as the coming of our daily food. And why not? Everybody likes to laugh and forget their troubles, especially just now when there is so much real tragedy in the world. At the Grand Opera House, Monday, December 2nd.

THE BRANT
Pauline Frederick, the noted dramatic star, is seen at the Brant the last of this week in her latest production "Her Final Reckoning," a powerful drama dealing with the experience of a beautiful Russian gypsy girl. The picture offers Miss Frederick a role of unusual strength, to which she does full justice. The scenic effects in the production are especially striking. Lyle and Harris, "The Ginger Snaps," have a clever comedy offering, and introduce some excellent musical numbers. Together with at least one original novelty. The opening episode of the new serial, "Hands Up," featuring Ruth Roland,

seems with exciting moments from beginning to end. The scene is laid in the extreme west, in the land of the ancient Aztecs. A Mutt and Jeff cartoon comedy is an added attraction on the program, as is also the second episode of the showing how Canada cares for her wounded men.

THE REX

The ramifications of the German spy are thoroughly exposed in "The Claws of the Hun," a Paramount picture in which Charles Ray appears at the Rex the last three days of this week. Ray appears in another of the virile roles which won him fame, and has the support of a strong cast. Denton and Charlotte appear in a refined novelty offering, which does not lack pep for a single moment from beginning to end. The thrilling western serial "A Fight for Mill House," which is featuring William Duncan and Edith Johnson, is brought to a close. "Are Married Policemen Safe?" is the title of a Fox comedy, and the picture goes on in two reels, to answer the question of propounds.

OVERSEAS FOLLIES

The "Overseas Follies" company, composed of returned soldiers, who are appearing at the Grand to-night, arrived in the city this morning. Their presence in Brantford is under the auspices of the social committee of the G. W. V. A., and the local veterans are attending the performance in a body to-night, with their wives.

ALLIES WILL DEMAND KAISER BE EXTRADITED

Will Call on Holland to Surrender Person of William Hohenzollern

COUNTER REVOLT? Wilhelm Has Friends in Germany Who May Start Something

London, Friday, Nov. 29.—The Entente Allies have decided to demand that Holland surrender the former Emperor of Germany to justice, according to the Daily News.

London, Nov. 28.—A dispatch to the Daily Mail from Amsterdam, Holland, says the stories regarding the

former German Emperor's princely surroundings and big dinner parties and similar functions are not altogether true.

The most striking feature of the daily life of William Hohenzollern, the correspondent continues "is the mass of correspondence to which he devotes most of his mornings," and apparently unrestricted by the Dutch Government, he is kept accurately informed of every development in Germany and elsewhere, and is reported to be able to keep in pretty close touch with the other side of the frontier.

The correspondent says he learns on good authority that the Netherlands Government considers the former Crown Prince the only dangerous intriguer, the former Emperor's day being regarded as ended.

It is commonly reported at Amsterdam, the correspondent declares, that William Hohenzollern will not be there long, but it is uncertain whether he will go.

London, Nov. 28.—"It would be a great mistake to suppose the Kaiser is done with; he has many adherents in Germany who are quite resolved not to take the recent defeat lying down," is the opinion given by The Daily Mail's correspondent at The Hague by a Dutch citizen who spent the whole period of the revolution in Bremerhaven, and now has returned to Holland.

The returned Dutchman estimates the proportion of loyalists to revolu-

IN A VILLAGE BEHIND THE FRENCH FIGHTING LINES. The picture shows a company of Orléansais resting in a comparatively undamaged village. It is a rare thing to find a town or village in the war zone which the Germans have left in so good a condition.

tionists as one to two, and he says a large number of soldiers are what might be called "true to the Kaiser."

It must not be imagined, he insisted, that the German army, although smaller than before, has ceased to exist. On the contrary he represents it as very much in existence, and moreover, commanded by Generals devoted to the Emperor's cause.

The correspondent's informant did not doubt that something in the shape of a counter-revolution would be attempted before long. He said the red flag is still freely displayed in Bremerhaven, but he heard that it had almost disappeared in the Rhine district.

Can Be Extradited Paris, Nov. 28.—William Hohenzollern can be extradited, in the opinion of Professor Balthézy of the Paris law faculty, who explains that his guiding principle is that when there is an apparent conflict between law and common sense, the solution is always found by following the latter.

The theory that a political crime is any crime inspired by purely political motives, the Professor declares, has long been abandoned. He notes that Belgium in 1856, classes recidives among common law criminals. Crimes such as the assassination of President Carnot of France and King Humbert of Italy were inspired by political motives, he points out, and yet the authors of them were executed.

The atrocities ordered by former Emperor William, the Professor continues, are condemned even in a

state of war by international law, and constitute common law crimes. To maintain that they are not, because the object for which they were committed was political, is, he argues, an absurdity.

BANK OF ENGLAND.

By Courier Leased Wire London, Nov. 28.—The weekly statement of the Bank of England shows the following changes: Total reserve, decreased, £92,000; circulation, increased, £675,137; other securities, increased, £1,112,000; other deposits, increased, £1,075,000; public deposits, increased, £759,000; notes reserve, decreased, £5,000; Government securities, increased, £841,000.

The proportion of the bank's reserve to liability this week is 15.48 per cent; last week it was 15.20 per cent. Rate of discount, five per cent.

LABOR PARTY'S WARNING.

By Courier Leased Wire London, Nov. 27.—In an election manifesto, the British Labor party warns the coalition government against opposing the new European democracies and demands the immediate withdrawal of Allied forces from Russia, free trade, the nationalization of land, mines, railways, shipping, armaments and electric power. The party also demands that taxes be levied on capital and that there be a complete abolition of conscription.

MOONEY'S SENTENCE IS COMMUTED

Was Convicted of Complicity in Bomb Outrage at San Francisco

Sacramento, Cal., Nov. 28.—The sentence of Thomas J. Mooney, sentenced to be hanged on December 12 for the deaths of 14 persons killed by a bomb explosion in San Francisco during a parade in July, 1916, was commuted by Governor W. D. Stephens to night to life imprisonment. Court action to save Mooney from the gallows was exhausted by the prisoner, the Supreme Court of the United States having recently decided it could not review the case.

Threats of a national strike in case the Governor did not intervene had been made in various parts of the country and some time ago it was reported that President Wilson had written the Governor to see that Mooney suffered no injustice. The trial judge had also requested a new trial for Mooney.

CARING FOR PRISONERS. By Courier Leased Wire Paris, Nov. 28.—Edouard Ignace, under secretary for military justice and military pensions, announced in the Chamber of Deputies to-day that parliamentary commissioners would be appointed to witness the execution of the clauses of the armistice relating to war prisoners. Meanwhile, the under secretary said, automobile convoys and revictualing trains under guard would be despatched to the various concentration camps for war prisoners. The chamber of deputies passed without a roll call an order of the day, expressing confidence that the confidence would enforce the execution by Germany of the armistice clauses concerning food for prisoners and the repatriation of the soldiers.

Gotha and Victoria streets, Hackney, have been incorporated under the name of Warneford street in honor of a British airman who destroyed a Zeppelin.

WHISKEY RUNNERS FIGHT POLICE

By Courier Leased Wire
Toledo, O., Nov. 28.—Two men are dead, several others wounded and seven Detroit men are under arrest following a gun battle here last night between railroad police and 15 or more whiskey runners from Michigan, a dry state.

The dead are:
L. L. Cracken, 30 years old, a railway employe, and Tishon Lawachik of Detroit.
The battle opened when the police saw the men carrying sacks over their shoulders in a railway yard in the outskirts of the city and stopped them, suspecting them of being bootleggers. The dead whiskey runner was identified by papers in his pockets.

The sacks carried by the men were filled with whiskey.
Don't think because you have taken many remedies in vain that your case is incurable. Food's Sarsaparilla has cured many seemingly hopeless cases of scrofula, catarrh, rheumatism, kidney complaint, dyspepsia and general debility. Take Food's.

CROSS FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! See if tongue is coated, breath hot or stomach sour

"California Syrup of Figs" can't harm tender stomach, liver bowels

Every mother realizes after giving her children "California Syrup of Figs" that this is their ideal laxative because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish, or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels and you have a well, playful child again. When the little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember a good "inside cleanser" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful to-day saves a sick child to-morrow. Ask your druggist for a bottle of "California Syrup of Figs" which has directions for babies, children of all ages, and grown-ups printed on the bottle. Beware of counterfeiters' and here, so don't be fooled. "At the genuine made by California Fig Syrup Company."

FELT LIKE MUSCLES WERE TIED IN KNOT

That is Exactly the Way Tindall Says His Rheumatism Acted

Felt Like Muscles Tindall... "I had never taken a dose of Tanlac in my life till some six weeks ago, but I have received more benefit from the three bottles I have just finished than from all the other medicines I have taken put together, said George R. Tindall, of 5002 13th Ave., South, Seattle, Wash., U. S. A., the other day.

"For several years," he continued, "I suffered terribly from muscular rheumatism and kidney trouble. The muscles of my right arm would draw up at the elbow, and feel like they were tied in a knot. I had no appetite and the little I forced down did not do me much, if any, good. My kidneys worried me night and day, I had an awful time trying to get down my spine, and my back right over my kidneys would hurt me so bad that if I stooped over it would almost kill me to straighten up again. I couldn't rest well at night, and many a time I would wake up at midnight and never sleep another wink the balance of the night, then my back would start hurting so bad that I could hardly get up out of bed.

"I guess I have taken most every kind of medicine sold without getting a bit of relief, and I was in mighty bad shape when I decided to see if Tanlac would help me. Well, I can honestly say that I haven't had an ache or a pain since shortly after I started on Tanlac. I sleep like a log at night and my wife tells me that I'm liable to eat us both out of house and home if I keep on with the appetite Tanlac has given me. I feel so well and hearty in every way that I have told the boys down at the ship yard how much good Tanlac has done for me, for I hope that my experience will be the means of helping others who may have troubles like I had."

Tanlac is sold in Brantford by Robertson Drug Store, in Paris by Apo Ltd., in Mt. Vernon by A. Yoemanns; in Middleport by William Peddie; in Onondaga by Neil McPhadden.

WILSON PREPARES MESSAGE.

By Courier Leased Wire
Washington, Nov. 28.—With all arrangements completed for his trip to Europe next week, President Wilson worked for several hours to-day on his message to Congress, which, many officials believe, will contain the first announcement of the delegation selected to attend the peace conference. In some quarters the impression still prevails that the names of the delegates would be made known this week, but it seemed more probable that these would be announced first in the address the President will read before the joint session Monday or Tuesday.

AMERICAN AIRMEN.

Paris, Nov. 28.—(Havas Agency). At a dinner given last night by American aviators in honor of their French comrades in the air service, it was announced by the Under Secretary of Aviation that of 240 American pilots in the Lafayette squadron, sixty lost their lives. Many of the most noted French airmen, including Lieut. Rene Ponce and Captain Heuteaux as well as Italian aviators, were present at the dinner, which was of the most cordial and intimate character.

NOTICE

Increase in Subscription Rates Commencing Dec. 1, 1918

The subscription rates of the Brantford Daily Courier and the Brantford Daily Expositor, commencing December 1st, 1918, will be as follows:

Delivered in Brantford and Vicinity, 45c. per month
By the year, Paid in Advance, \$5.00 per annum
By Mail, " " 4.00 per annum
Single Copies, 2c.

After publication of this notice, payments in advance on subscriptions will only be accepted to December 1st at the old rate, after that at the new rate.

This advance in subscription rates has been made necessary by the tremendous increase in the cost of white paper, the price of which has recently been fixed by the Paper Controller at Ottawa. By this one item alone thousands of dollars are added to our annual cost of production, and in addition, labor, presses, stereotype supplies, type and all other items of expense have enormously advanced in price during the last few years.

Even at the new rates the Brantford papers are only now charging prices which have been in force for some time back on almost all the other daily newspapers published in this section of the Dominion. In many cities the subscription rates are very much higher.
