## A GOOD CRICKET GAME

In Which Kentville Won Over Wolfville By a Narrow Margin

A friendly game of cricket between the Wolfville and Kentville teams was played on the Campus here on Saturday afternoon.

The game was closely contested and was won by a narrow margin by the visitors. Kentville went first to the bat and were retired for 67 runs, Doll, J. Miller and Sinnett doing the batting. Wolfville then went to bat and succeeded in putting up a score of 64 runs. For the Wolfville eleven good batting was done by Bauld, Schurman and Lavelle, Schurman who began his cricket experience last summer, and Lavelle made a fine stand and for a time it looked as if the partnership could not be broken, but unluckily for the home team Schurman was run out. Until the close, however, it was apparently anybody's game and the result was eagerly watched for by the spectators. The best of feeling prevailed and the game was full of interesting situations. Following is the score:

Kentville	
J. Miller, c. Robinson, b. Bauld	12
T. Miller, b. Schurman	1

## VALLEY TENNIS LEAGUE

Tennis is getting more popular every year in the Valley and this year a league has been formed consisting of teams from Wolfville, Windsor and Kentville. Some interesting matches are being looked forward to. The following is the schedule of games as they are proposed to be played:

July 8—At Windsor: Kentville vs Windsor.  
July 22—At Wolfville: Windsor vs Wolfville.  
July 29—At Kentville: Wolfville vs Kentville.  
Aug. 19—At Windsor: Wolfville vs Windsor.  
Aug. 26—At Wolfville: Kentville vs Wolfville.  
Sept. 9—At Kentville: Windsor vs Kentville.

## A CONTEMPORARY COMMENT

The Pictou Advocate is one of Nova Scotia's ablest and most enterprising newspapers. In its last issue the editor reproduces in full our editorial of week before last regarding the taxation of travelling peddlars selling printing, preceding it with the following comment:

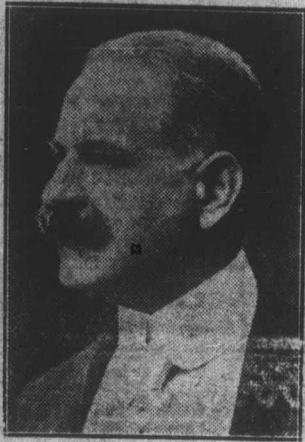

"Two very enterprising young men, the Davidson brothers, of Wolfville, installed some up-to-date machinery in their printing plant, devoted their energies to turning out a good paper and good printing and, for the benefit of their local merchants, preached the doctrine of 'buy at home'." The other day they woke up to the fact that the local merchant was strong for the doctrine of buying at home for the other fellow, but not so strong for the same doctrine himself, that the local merchant believed that any peddler or traveller who came to town selling in competition with him should pay a license, but that there was no necessity for 'the traveller or peddler of printing to pay a license.

The Davidsons developed a grouch and they gave expression to the grouch in their paper in the following terms:

## MARRIED

At Portland, Maine, on June 24th, by the Rev. Henry Stiles Brady, Miss Edythe Scott Read, formerly of Wolfville, was an ited in marriage to Mr. Thomas Loraine Arbuckle, of Somerville, Mass. After a short trip to the West, Mr. and Mrs. Arbuckle will be at home in Semerville, Mass., and later in the season they will visit Nova Scotia.

## WAS FRIEND OF ALLIES.

Take Jonescu, former Premier of Roumania is dead. He was one of the most potent influences in Roumania's entry into the great war on the side of the allies.

## PORT WILLIAMS HAPPENINGS

Rev. O. N. Chipman and wife are spending their three weeks vacation in Truro and Lawrencetown.

Messrs. A. B. Rand, Geo. Dodge, T. Lockwood and Roy Chipman left on Saturday for a motor trip to Yarmouth, returning on Monday.

Miss Hanson went to Yarmouth on Friday for a few days vacation.

Miss Alice Lockwood came from Halifax on Saturday to spend the week end with her mother, Mrs. Margaret Lockwood.

Mrs. Patterson, of Calgary, Alta., with her three sons, is visiting her parents, Mr. and Mrs. B. Chase.

Mrs. Almena Cogswell, of Worcester, Mass., is the guest of her aunt, Mrs. Bedford Chase.

Mr. James Hanson, of Halifax, spent the week end with his mother, Mrs. Lucy Hanson. Miss Eleanor Hanson of Amherst is spending her vacation with her grandmother here.

Miss Broome, of Kingston, North Carolina, is the guest of her friend, Miss Gwendolyn Fullerton.

Mr. and Mrs. Lew Thompson spent July 1st with friends in Wolfville.

The public schools closed here last week. The public examination was held on Friday previous and showed good and thorough work in both schools. Miss Coleman (primary), of Aylesford, will return to the work for another year, while Miss Edmond's (who goes West to teach) place will be filled by Miss Wade.

Dr. Manning, of Wolfville, has supplied the pulpit of the Baptist Church for two Sundays, during the absence of their pastor.

Rev. Ross Collins, who has lately returned from Oxford University, Cambridge, England, where he has been doing research work, spent the week end in Halifax where he supplied at Fort Massey Presbyterian Church. His brother Charlie lately graduated with honors from MacDonald College, while another brother Wylie took his M.A. this year at Acadia and will enter Harvard in the fall. Mr. and Mrs. Collins are justly proud of their three sons who are all distinguishing themselves along particular lines of education.

The Tuxis Boys with a few girl friends spent July 1st picnicing at Starr's Point. Miss Rand accompanied them as chaperone.

Mr. D. Hoag spent the week end with his family here, who are the guests of Mrs. Hoag's parents, Mr. and Mrs. C. A. Campbell.

Roy Chipman left on Monday for Quebec, where he will be engaged in surveying for the summer.

Mr. J. Medfin, of Halifax, has been the guest of Mr. and Mrs. Silas Gates for a couple of weeks.

Miss Bernice Sproule, of Halifax, who is visiting her friend, Mrs. Howard Burbridge, favored the congregation of the Baptist Church with a vocal solo on Sunday evening.

Miss Mildred Faulkner, who has been attending the Halifax Business College, spent July 1st at her home here.

Miss Dorothy Leslie is the guest of her friend Miss Madeline Elliot.

Mr. and Mrs. Campbell and Mrs. R. Newcombe left on Monday to attend the funeral of their sister, Mrs. G. Cunningham, of Antigonish, whose very sudden death occurred on Sunday evening.

The heavy rains have interfered greatly with the strawberry picking. Dr. Fullerton shipped on Monday 105 crates (3360 boxes) and had the rain not hindered would have had heavier shipments. He has now seven acres under cultivation.

Mrs. Justin Gates and family have taken a cottage at Evangeline Beach for a couple of weeks.

There has been a plentiful rainfall during the past week and the country is now looking exceedingly well.

## Interesting Sports on Dominion Day

Wolfville High School Defeats Kentville Academy—Athletic Events Keenly Contested

From the standpoint of attendance the Athletic Meet at the Campus on Dominion Day was not the success that was hoped for but in every other particular it was decidedly successful. Every event of the program was keenly contested and most interesting. The weather was all that could be desired and those who attended witnessed real sport.

Mr. C. B. Russell, Director of the Memorial Gymnasium, who had the management of the affair in hand, was most untiring in his efforts, and he was ably assisted by Mr. E. Percy Brown, Principal Silver and other citizens. The Scout Band, under the direction of Mr. John Crowell, furnished excellent music which added not a little to the success of the undertaking and the enjoyment of those present.

The chief event of the morning was the ball-game between Wolfville High School and Kentville Academy, which started at 9.30 o'clock and was a decidedly good one resulting in a win for Wolfville by a score of 10 to 3. Both teams played good ball but the home team displayed a greater confidence in itself.

The visitors were at bat first, only to be struck out thrice by Munro, Wolfville's promising young pitcher. Wolfville had no better luck in the same inning and in Kentville's half of the next frame they slammed out two hits, a single and a double, and the first run came in. Again in the third the outfield juggled the ball and Kentville crossed the plate again. This ended the visitors' scoring until the seventh when Pike scored on the first baseman's error.

Wolfville tallied their first score in the third when Don Munro hit a single, stole second and scored on Wallace's sacrifice. Two more came in the 4th when the home team hit four singles and another run was chalked up in the sixth as Munro hit a slashing double over the right fielders head. The winners took advantage of wild throws in the lucky seventh and three men scored. Three men also tallied in the eighth which brought the score up to ten.

The game was a thriller up to the seventh when the locals put the game on ice. In the 2nd Redden hit a home run to center field. In the 3rd Redden hit a home run to left field. In the 4th Redden hit a home run to right field. In the 5th Redden hit a home run to center field. In the 6th Redden hit a home run to left field. In the 7th Redden hit a home run to right field. In the 8th Redden hit a home run to center field. In the 9th Redden hit a home run to left field.

Don Munro pitched a fine game for the locals, striking out twelve of his opponents, and walking four; while Lightie struck out 8 and walked one. Line-up: Kentville—Spinney cf; Barnaby c; Calkin rf; Hiltz 1b; Leitch lf; Lightie p; Redden ss; Pike 3b; Cohen 2b.

Wolfville—Bentley 2b; Russell cf; J. Burgess 1b; Munro p; Gould 3b; Eaton rf; D. Munro p; Wallace lf; R. Burgess ss.

Umpire, Arthur Brown.

The committee was disappointed that at the afternoon sports there were no outside competitors. It was fully expected that the Meet would have been an inter-school affair in which Kentville, Canning and Hantsport would have been represented. Although these failed to put in an appearance the Wolfville school furnished plenty of competitors and a full afternoon of good, clean sport was enjoyed with the following results:

In connection with the Meet a public meeting was held on Wednesday afternoon at the Opera House, the free use of which was generously furnished by Mr. Mason for the purpose. Mayor Sutherland presided and good music was furnished by an orchestra composed of Miss Miriam Coit, at the piano; Leicester Coit, saxophone; Arthur Brown, cornet; and William Taylor, drums. On the platform besides the chairman were Mr. C. B. Russell, Principal Silver, Mr. E. Percy Brown, and Mr. B. O. Davidson, president of the Civic club, under the auspices of which the meet was held. All these gentlemen made fitting addresses and Mr. Russell, assisted by Principal Silver, presented the prizes—ribbons to the winners of the different events. Preceding the program motion pictures were presented and much enjoyed by the young people especially. The films for these were generously loaned for the occasion by the Managers of the Strand Theatre, Kentville, and Messrs. H. Y. Bishop and Edson Graham very kindly undertook their transportation from and back to Kentville in time for use in the evening. There was a fairly good attendance of grown people in spite of the very disagreeable state of the weather and the children turned out in force. Those present particularly enjoyed the remarks of Mayor Sutherland, Principal Silver and Mr. Russell and much credit is due these gentlemen as well as to Scoutmaster Brown for the efforts put forth to secure the success of the undertaking. It is hoped that the Athletic Meet may be made an annual affair in Wolfville.

Miss Jennie Thompson, of Brooklyn, N. Y., is spending the summer with her sister, Mrs. S. W. Fullerton.

## HONOURED BY KIWANIS.

At the closing session of the International Kiwanis Convention which was held in Toronto, George H. Ross, Commissioner of Finance for the City of Toronto was unanimously elected to the Presidency.

## DEATH OF ESTEEMED WOLFVILLE LADY

The death of Mrs. Margaret A. Armstrong, widow of the late J. F. Armstrong, of Wolfville, occurred on Wednesday morning at the Victoria General Hospital, Halifax, where she had been for some weeks undergoing treatment.

The deceased was 56 years of age and was the youngest daughter of the late James Harris, of Lower Wolfville. Her early married life was spent in Pensacola, Fla. Many years ago Mr. and Mrs. Armstrong returned to the old family home in Wolfville where the deceased has since resided. Her husband predeceased her some years ago and she is survived by one son, Mr. J. F. Armstrong, Jr., of Seattle, Wash., who returned home some weeks ago and was with his mother at the end; one brother, Mr. F. B. Harris, of Lower Wolfville, and one sister, Mrs. James Currie, now residing in Los Angeles, California. Mrs. Armstrong was a lady held in high esteem and her passing will be mourned by a host of sorrowing friends. She had been in failing health during and since last winter but her condition was not thought to be serious until a few months ago when she went to Halifax to consult a specialist. Since going to the hospital she has gradually failed until the end came on Wednesday morning. The remains, accompanied by the bereaved son, were brought to Wolfville yesterday morning and taken to her late home on Main Street from which the funeral will be held today at 2.39 p. m.

## SCHOOL BOARD MEETING

The regular monthly meeting of the School Board, which was held at the Council Chamber on Monday evening was not a very important one. All the members were present.

The following bills were read and passed:

Flo. M. Harris, \$12.60  
J. & A. MacMillan, 22.84  
H. E. Blakeney, 7.00  
Wolfville Fruit Co., 2.75  
R. W. Ford (petty cash), 2.21  
E. J. Delaney, 199.81

It was decided that the summer vacation be extended until Tuesday, Sept. 5th.

The matter of the proper grading of the school-grounds was again up for discussion and it was decided to have the work done as soon as possible.

Considerable time was spent in discussing the purchase of the coal supply for the current year and it was finally decided that Commissioner Vaughn, who at a former meeting was appointed to secure prices on same, should give local dealers an opportunity of competing when quotations from outside places had been received.

## WHY?

Why do people otherwise intelligent, keep cats, when the following charges have been proved against them?

(1) Each cat kills a great number of valuable insect-eating birds each year, especially at the time when the young birds are leaving the nest.

(2) Cats make a most diabolical noise at night, waking healthy people from sound slumber and keeping nervous people awake all night.

(3) Cats are the frequent carriers of diseases.

If in spite of these facts cats must be kept why does not the town license them the same as dogs?

Why does not the town see that roving, homeless cats are destroyed?

Why not shut them up during the breeding season of our valuable birds?

A LOVER OF BIRDS.

Prof. J. Arthur Esty, of Lafayette, Indiana, with Mrs. Esty and son, arrived in Wolfville on Saturday to spend the summer with Mrs. Murray, Linden ave.

## TOWN COUNCIL

Holds Regular Monthly Meeting—Fire Alarm to be at Last Installed

Mayor Sutherland and all the Councilors were present at the regular meeting of the Council on Wednesday evening. The various committees through their chairmen reported on the work done by the different departments during the month.

Coun. Young stated that \$467 had been expended on the streets for improvements in various parts of the town. This included operations at the corner of Prospect street and Central avenue, cleaning Main Street, mowing grass and weeds in gutters, repairing bridges, etc. In the discussion which followed it came out that \$2847 had been expended in this department so far this year.

For the Water Committee Coun. Peck reported an expenditure during the month of \$45.80. Concerning the application of Mr. H. Troyte-Bullock to have the water extended to his property outside the town limits the committee asked that the responsibility for the decision should be assumed by the Council. It was reported that a settlement had been made with the Trask Co., and that a tower had been at last secured for the new fire-alarm and would be erected at the rear of the electric-light station. Coun. Peck also gave an interesting account of a recent visit to the water-shed lands and of conditions there.

Coun. Wheaton, for the Sewer Committee, reported that \$7.25 had been spent during the month and referred to the overflow of the sewer at some points on Front street, owing to the recent heavy rains.

Coun. Whidden, for the Police Committee, reported that \$65 had been collected in license fees and \$21.80 in fines during the month and that \$50 had been expended on account of that department.

Coun. Cox, for the Finance Committee, reported on the receipts and expenditures during the month and that the credit balance at the bank at the end of June amounted to \$3606.97.

A petition was read from a number of the citizens of the vicinity, asking that a street-light be placed at the corner of Seaview avenue and the street connecting it with Locust avenue. It was decided that the matter be laid over until the next meeting.

The following bills were read and ordered paid:

Burton Croft, \$12.00  
Victoria General Hospital, 46.80  
J. E. Hales & Co., 4.51  
Halifax Herald, 18.00  
H. E. Blakeney, 7.72  
J. C. Mitchell, 2.25  
R. W. Ford (petty cash), 32.37  
Flo. M. Harris, 38.30  
Davidson Bros., 18.48  
F. MacAvity & Son, 150.74  
Wm. Stairs, Son & Morrow, 29.48  
E. J. Westcott, 1.65  
J. J. Taylor & Co., 630.05  
Aubrey Dakin, 6.00

Coun. Whidden referred to the present unsatisfactory manner of dealing with the payment of accounts and suggested a method that would much facilitate this business. (THE ACADIAN would respectfully call the attention of the Council to the bye-law relating to the matter.)

The application of Mr. E. J. Westcott for permission to install a free-air tank in front of his place of business was read and granted subject to certain restrictions.

Mr. Herbert Stairs, who was present, asked permission to address the Council with reference to the regulations of motor vehicle traffic in Wolfville, and urged that the law should be strictly enforced. The matter was discussed at some length but no action was taken and the Council adjourned.

At a meeting of the Building Committee which followed application was read from Mr. J. H. Balsor for permission to erect a bungalow on Ernscliffe avenue, and was laid over until another meeting for investigation.

## IF?

If the rain continues and the pump at the artesian well can be kept going there ought not to be any great danger of a water famine in Wolfville this summer.

If the street authorities continue to drain the rainfall in the middle of our sidewalks pedestrians are bound to find the way hard.

If dancing keeps increasing in popularity in Wolfville and vicinity as it gives evidence of doing, somebody must be prepared to pay the piper.

If it keeps on raining and the hollows in our sidewalks are not filled up and the water turned off, the ladies will be obliged to make a change in their mode of footwear.

**MEDICAL TEMPERANCE**

As for alcoholic liquor in shock Dr. H. C. Wood, of the medical school of the University of Pennsylvania said long ago—"I am perfectly sure that a large dose of alcohol in shock puts a nail in the coffin of the patient."  
 Alcohol is dangerous in shock because it robs the body of heat, and a decrease in temperature is the thing to be most avoided in shock. The patient must be covered warmly, the limbs rubbed with hot flannels, hot water bottles or electric pads put around him, and warm drinks given as soon as he can swallow, hot milk being the best.  
 For heart failure beef extract is a useful stimulant, also hot drinks of any kind. The very act of swallowing the spittle it is now known will start the heart action. The application quickly of alternating hot and cold to the heart and to the spine is approved as a measure of great value.  
 For exposure to cold, warm blankets, hot drinks as soon as they can be swallowed and a hot bath where possible is a good treatment. The warmth of other bodies will be needed when away from other means of heating. Alcohol may kill as it reduces the temperature. Travellers in cold regions have thoroughly learned this. All authorities on snakebite now say that many men have died from whiskey given who might have recovered from the bite.  
 The American Medical Association in 1917 passed resolutions against the use of alcohol both as a beverage and as a medicine. Those physicians who continue to prescribe whiskey in the face of scientific condemnation of this drug do it because they make money from the prescription, or because of personal liking for this agent, or from blind adherence to old notions.  
 The researches of science have shown it to be a heart depressant, not a stimulant; a breaker down of body tone instead of a tonic; a poison, not a food in any true sense. Instead of its being a preventive of disease it has been proved to be a hindrance to the formation of anti-bodies by its poisonous action on the white blood-cells whose work it is to destroy infectious germs. It is known now absolutely that alcohol weakens resistance to disease. Many persons might have escaped death by the influenza had they known and heeded this teaching of science.  
 It is not only because science has revealed the truth about alcohol that it is being abandoned as a therapeutic agent, but also because now the physician has available many drugs that were unknown years ago.

**"SIX MONTHS AGO"**

**"It's hard to realize that six months ago I couldn't walk across the floor and now I am so well!"**  
 "I have never been very strong but the heat of summer was too much for me. This and the fact that my husband was out of work and I had to work day and night to keep from starving, left me a physical wreck. Luckily my husband was able to get a good job just when I had to go to bed. I tried everything I could think of to get strong, but each day I seemed to be getting weaker and weaker. I was reduced to a skeleton, I couldn't eat or sleep, I had no strength left and finally I was so weak that in trying to cross the floor one day I collapsed. I was so ill and weak that I didn't care whether I lived or died. And then I heard about that marvellous preparation—Carnol. A friend of mine had used it with wonderful results and as it had done so much for her, I decided to try it. The results were nothing less than miraculous. In two weeks I was able to get up and walk about the house. My appetite had returned. I was actually hungry. I could sleep when I went to bed, something I had not been able to do for months. I have already taken six bottles of Carnol and I am still taking it. I weigh more today than I ever weighed before in my life. I sleep like a child. I am never tired and my skin is as clear and my cheeks as rosy as a girl's. I bless the day I heard about Carnol." Mrs. K., Toronto.

**HOUSEHOLD HINTS**

When you begin to find worms sprinkle on the cabbage black pepper.  
 Equal parts of wood ashes and salt will mend a crack in a stove; just moisten with water.  
 A hot shovel held over varnished furniture will take out white spots.  
 A mop wrung as dry as possible from water in which has been put a spoonful of ammonia will clean the sick room floor.  
 Put a pinch of salt in milk when fresh and it will not sour so quickly.  
 I find a common putty knife very useful around the sink for many purposes, such, for instance as getting into corners, scraping dishes, etc.  
 Try making your own shelf paper. Cut strips of white oil cloth the desired width. Scallop the edge by tracing around a spool on wrong side of cloth. Be sure the spool is on the very edge each time. Its only necessary to trace half way around the spool. I find a silketeen spool the best. This is easily kept clean and looks neat.  
 Milk and butter can be kept cool if the dishes that hold them are covered with a wet cloth. As the cloth dries, wet it again, or keep it wet by setting the dishes in a pan of water with the ends of the cloth always in the water.  
 Cover the tiny tray under the burners of your gas range with newspaper; if anything boils over it is very easy to put in a clean one.  
 To remove smoke stains from kettles, rub well with kerosene and afterwards wash as usual.  
 Within the month three more weekly papers and one daily have gone out of business which is the surest evidence the subscription prices cannot come down.

**NOVA SCOTIA WILL LOSE TWO SEATS**

There Will Be 244 Members in House After the Next Re-distribution  
 OTTAWA, June 29.—There will be 244 members in the House of Commons after the next re-distribution, according to the revised population figures for Canada, which have been given out by the Dominion Bureau of Statistics. This is an increase of nine members over the present House.  
 The distribution of the members among the Provinces in the present House and after re-distribution will compare as follows, on the basis of these figures:

Province	New House	Present House
Quebec	65	65
Nova Scotia	14	16
New Brunswick	11	11
P. E. Island	4	4
Ontario	81	82
Manitoba	17	15
Saskatchewan	21	16
Alberta	16	12
British Columbia	14	13
Yukon	1	1

The chief increases in membership are, as were expected, in the Prairie Provinces, which will send eleven more members to Parliament after re-distribution than they do now. The decreases are in Nova Scotia and Ontario. The Province which gets the largest increase is Saskatchewan, with five, while Alberta is a close second with four.  
 It is not certain whether the Yukon will retain its separate representation after re-distribution. That territory was first given a member by Act of Parliament in 1902. At that time there was a population of 27,219 in the territory, but at the present time it is only 4,157.  
 According to an announcement made by the Premier at the close of Parliament, a re-distribution bill will be introduced at the next session in January.

**"THREE MUSKETEERS" GIVES "DOUG" HIS GREATEST CHANCE**

Never Was There a Story That Fitted Fairbanks as this Dumas' Tale  
 When Douglas Fairbanks filmed "The Three Musketeers" he fulfilled the ambition of his life. Undoubtedly no vehicle is so typically Fairbanksian or offers so fine an opportunity to play upon the entire gamut of things histrionic as does this, his sixth United Artists Production.  
 The film version of "The Three Musketeers" is based not only upon the famous novel of Alexander Dumas, but also upon the memoirs of D'Artagnan himself. In fact, much of the material upon which the "business" of the photoplay is built, much that gives it the human touch, was found in D'Artagnan's memoirs and not in the novel, although it was from Dumas' story that the foundation stones for the picture plot were obtained.  
 There are many reasons which give authority to the bid for everlasting fame made on behalf of this photoplay. First of all, the Dumas' novel and the memoirs of D'Artagnan embody the greatest wealth of filmable material ever uncovered. Only the imagination of a Dumas could devise the amazing experiences participated in by those four inseparable comrades, D'Artagnan and the Three Musketeers, Athos, Porthos and Aramis. And the part of the dashing D'Artagnan is made to order for the indomitable "Doug".  
 Some people's lives would be much simplified if they could be divorced before they were married.  
 In the year 1754 a monk planted two coffee berries in the garden of a monastery in Rio de Janeiro, Brazil. From that little beginning has come the enormous coffee production of Brazil supplying most of the world's needs today.

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.  
 Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.  
 This is also generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.  
**A NOTE TO MERCHANTS**  
 Advertising costs you nothing—it is paid for by the profits on increased sales.  
 Advertising is easy—it is simply saying in writing what you say to the customer in your shop. Turn over stocks quickly, if you would make more money.

**The Telephone Gets A Quick Decision**

It's not often a business transaction of any importance is put through without a lot of bargaining, without adjustments and modifications of offer and acceptance.  
 In an out-of-town affair of the sort the bargaining can, of course, be conducted by letter writing. But at what an expense in delay and anxiety!  
 The telegraph is a still more expensive way of conducting such negotiations even if the delay is less pronounced.  
 The Long Distance Telephone is the only logical means of fixing up the transaction.  
 A Telephone Talk has all the flexibility of a face-to-face interview: it permits of modifications on both sides being easily made, and you know at once if you are on or off with the deal.

#### WHEN TO KILL WEEDS

Weeds are most readily killed while they are young and before seeds have matured. A single pigweed may form 100,000 seeds; some weeds have been known to mature over a million seeds per plant. A seedling weed is easy to kill, a mature weed is hard to kill, while several thousand weeds allowed to mature and foul the land may cause many years of labor.

One of the best places to kill young weeds is in the seed bed. In grain fields thousands of young weeds can be dragged out of the young grain by the use of a spike-tooth or drag harrow, or with a weeder. Surface cultivation of the soil after harvest will cause the germination of a multitude of weed seeds and the seedlings can be grazed off or will be killed by frost. It is a mistake to allow weeds to mature seeds; for instance, it is frequently profitable to cut a weedy grain crop before the weeds mature seeds and use the crop for hay. Likewise, a weedy hay crop should be cut early.

The value of preventing weeds from going to seed can easily be demonstrated in permanent pastures. Mowing the pasture while the weeds are in early flower will cause a gradual decrease in the number of weeds present and a corresponding increase in growth of the pasture grasses.

#### IT'S ALL IN THE STATE OF MIND

If you think you are beaten, you are - If you think that you dare not, you don't. If you'd like to win but you think you can't, It's almost a "cinch" that you won't. If you think you'll lose, you've lost. For out in the world you find Success begins with a fellow's will. It's all in the state of mind.

Full many a race is lost / Ere even a step is run, And many a coward falls Ere even his work's begun, Think big and your deeds will grow; Think small, and you'll fall behind; Think that you can and you will; It's all in the state of mind.

If you think you are outclassed, you are: You've got to think high to rise; You've got to be sure of yourself before You can even win a prize. Life's battles don't always go To the stronger or faster man; But soon or late the man who wins Is the fellow who thinks he can. -Selected.

#### HOW TO TELL HOW LONG THEY ARE MARRIED

If he wants her to read aloud and she will—one year. If she tries to make him go out alone in the evening, but he just won't—under six months.

If she tries to make him stay home in the evening and he positively won't—five years.

If he talks shop and she listens—under six months. If he says that her mother is an "old darling" and her father a "brick"—one week.

If she says that she would like to know the family better—one week.

If he insists that a friend come out home to meet the "best little woman in the world"—one month.

And then if he says: "No, no; I won't bother to 'phone. The little lady will be tickled to death to see us"—one month or less.

If she says that she would like to go through that fascinating factory of his—three months.

If she actually goes—one month.

If he is perfectly contented to sit right home by the fire—under one year or over ten.

If she is perfectly contented as above—under one month.

If she is wholly satisfied that the man she fell in love with is the man she married—a couple of weeks.

If they play golf together, the full 18 holes, and arrive at the club house smiling—scandal; they aren't married at all.

Big advertisers all over the country are increasing their appropriations. They expect to make money out of their advertising investments.

#### MY OWN TOWN

Breathes there a man with soul so dead, that never to himself hath said, This is my own, my native town? . . . It suits my inner feelin's fine, to think along this sort of line, and no fresh guy, can call me down. I've allers knew that civic pride should fill the village dweller's hide, and leave no space fer slacker stuff. I'll sight ye to our City Hall, our Churches, Schools, our streets, an' all,—which shows that we keep up to snuff! I hate to see a ball'wick all littered up with boards an' brick, a-cryin' out in vain fer paint. It hurts to see the wimmen-folks a-peelin' spuds or artichokes,—pretendin' somethin' that they ain't. . . . The village corporation lends a smart distinction to its friends, who allers hold some sheers of stock. . . . You'll notice public spirit here, from up about our Mayor's cheer, to the husky babies in our block! You might select our well-groomed streets, as fittin' place to spread the eats, if you should like to dine in town . . . but goeh,—of course you wouldn't dare—the wheels of progress, rollin' there, would spill yer drinks an' knock ye down!

#### AND THE MORAL IS—

Methuselah ate what he found on his plate And never as people do now, Did he note the amount of the calory count. He ate it because it was chow.

He wasn't disturbed as at dinner he sat Destroying a roast or pie, To think it was lacking in granular fat Or a couple of vitamins shy.

He cheerfully chewed every species of food Untroubled by worries or fears, Lest his health might be hurt by some fancy dessert, And he lived over nine hundred years. —New York Tribune.

## MOVIE IDOL TO DO A MOUNTAIN-CLIMBING MARATHON

CHARLIE, THE CUT-UP

MT. WAPTA IN THE CANADIAN ROCKIES, TESTS THE CLIMBER'S SKILL

CHARLIE CHAPLIN wants to make a picture in the Canadian Pacific Rockies. In preparation of such a picture he plans to spend his next vacation in tramping over those mountains; no little patch-work climbing for Charlie, but a hike right across the Rockies. He is convinced that in the Canadian Pacific Rockies he will find the ideal location for a big picture, something that will make the movie fans sit up on the edges of their seats. While the Comedy King has not a personal knowledge of Canada's wonderland, he is by no means ignorant of its possibilities and beauty. Among the books

which he studies during his leisure hours are three huge volumes filled with Canadian data and pictures and with their contents he is thoroughly conversant. The Chaplin Canadian pictures will be along entirely new lines; the familiar popular and somewhat overworked red-coated Mounted Police will not be featured, but something as interesting is promised. The mirth-provoking Charlie has his serious hours, too, and a keen business sense that is put to work in seeing that the public gets what the public wants. He has a story in view in which the greater part of the action occurs in picturesque parts of Quebec and Manitoba.

Visitors to the Rockies during the next few seasons may expect to meet Charlie on out-of-the-way mountain trails. They may fail to recognize in the knickerbockered, efficiently shod young climber, the baggy-trousered, spay-footed screen favorite, but it will be Charlie Chaplin getting a close-up of the wonders of the Northland, the wonderland that he means to put on the silver screen for the delight of the adoring public. Devotees of Chaplin antics are already anticipating joy in seeing upon the screen, their idol's acrobatic efforts at mountain climbing and hair-breadth adventures in the regions around Banff and Lake Louise.

### WHERE WERE THE FLAGS?

There was a scarcity of bunting in Wolfville on Canada's birthday, which was surely not commensurate with the loyalty of our people. True many citizens were out of town for the day but that should not have prevented the flying of flags and an appropriate decoration of residences and business places in honor of the occasion. There were some commendable exceptions, however, and THE ACADIAN desires to give credit where credit is due. We hope when Dominion Day comes around again to see a decided improvement made in this particular. Because the war is a thing of the past is surely no reason why we should neglect the flag or cease to remember that Canada has yet claims upon us. We have a number of flagpoles but in every instance these were empty last Saturday, and visitors to our town as well as residents naturally wondered why. Even the flag-staff over the Town Hall made no response in honor of the day which ought to mean so much to every loyal citizen of Canada. Why?

### WOLFVILLE BOY MARRIED AT FRAMINGHAM, MASS.

The following item taken from a Framingham, Mass., paper under date of June 16th, will be read with interest by friends of Mr. Curry, who is the son of Capt. Elias Curry, of this town:  
A pretty home wedding took place last night at the home of Mr. and Mrs. C. R. Vollmer, 95 Winthrop street, when their daughter, Miss Dora Alice Vollmer, became the bride of Scott Vernon Curry, also of Framingham.  
In the presence of fifty friends and relatives from Framingham, Holliston, Somerville, Boston, Nantasket, Arlington, Newton and Philadelphia, the happy couple were joined in wedlock by Rev. Reginald Pearce of St. Andrew's Episcopal church.  
Miss Norma Clafon of Holliston acted as ring bearer and Miss Alta Hamilton of Framingham was the flower girl. There were no other attendants. The bride's gown was of white crepe with a tulle veil caught with orange blossoms. The bridal bouquet was of roses and lilies of the valley. The wedding march from DeKoven was played by Miss Anna Groce.  
A reception followed, after which Mr. and Mrs. Curry left for a short wedding trip and upon their return will reside on Queensbury street, Boston.  
The bride is a graduate of the Framingham schools and is well known as a soloist at the First Parish Universalist church at Somerville. She formerly sang at the Holliston church. The groom is first aid instructor of the New England Tel. Co. in the Framingham district. He is a veteran of the World war, having served as a first lieutenant in the 11th Regiment of Cavalry, U. S. A. He is now a first lieutenant in the 110th Regiment of Cavalry, Mass. National Guard.

Mr. and Mrs. Percy Turner, of Kentville, have been spending a few days at the home of Mrs. Vernon Gould.  
Mrs. Gordon Allen returned last week from a visit to her parents in Harmony, Queen Co.

One of Wolfville's clever young sons, Mr. George Nowlan, son of the late Councillor C. R. Nowlan, who was recently admitted to the bar of this province, has set up an office in this home town for the practice of his profession. Mr. Nowlan has taken rooms in the building occupied by THE ACADIAN where he will be pleased to meet any who desire his services. He is a graduate of Acadia who saw considerable service in France during the war and has already made a reputation as a debator in college and a pleasing platform speaker. THE ACADIAN, with a host of other friends, wishes our young townsman a successful career.  
Principal Silver and members of the High School held a picnic at Evangeline Beach on Wednesday of this week. The weather was not favorable but it is understood a good time was had. The party went on the morning train and returned by the 6.17 train in the evening. Later Principal Silver chaperoned his pupils at a theatre party.

### THE GREAT SUNDAY SCHOOL PICNIC

The Sunday Schools of Wolfville are uniting for their annual picnic at Oak Island on Wednesday, July 12th, inst. The members of each school are requested to assemble at 9.30 a.m.—the Baptists, Methodists and Presbyterians on their own Church grounds; the Anglican and Tabernacle Schools at their respective Halls and the Roman Catholics at Mrs. Delaney's.  
Conveyances will be on hand to carry officers, teachers and scholars to the Picnic Grounds, where a programme of supervised sports and other entertainment has been arranged. It is not deemed wise to have children under seven years of age accompany the older scholars to Oak Island, unless accompanied by parents. Provision is being made for them at Wolfville, on the same date, where they are promised an excellent time.  
All interested are asked to note the following conditions which the committee in charge desire to have strictly observed: (1) The Picnic is free to only bona fide Sunday School Scholars. (2) Each basket containing refreshments should be labelled with the name of its owner. (3) Carry the Picnic spirit with you and do your utmost that everyone may enjoy the "glorious twelfth."  
THE ACADIAN begs to acknowledge with thanks the receipt from Dr. J. A. M. Hemmeon, now in Montreal, of two interesting newspapers, namely The West Indian, published on the island of Grenada

Bathing caps and shoes at Rand's. Just received at Rand's latest Victor records. Come and look them over.

Mr. and Mrs. A. M. Wheaton and Mr. and Mrs. A. V. Rand motored on Saturday last to Chester, returning home on Sunday by way of Halifax.

Do not look for MORSE'S TEA on the bargain counter. You will never find it there. It's a standard and sells at face value always. Has done so for over fifty years.

The winners in the various events of the Interscholastic Athletic Meet who were not able to be present at the meeting on Wednesday afternoon will receive their prize-ribbons on applying at the office of THE ACADIAN. The names appear in the report of the Meet this week.

We, the members of the "S.S.S." class of St. John's Sunday School (Anglican) do hereby challenge any other organized girls' Sunday School class to a game of Baseball (Indoor) to be played at Oak Island on the day of the Sunday School Picnic, July 12th, 1922.—J. Stewart, Pres.

Commencing Saturday, July 1st, Dominion Atlantic train No. 97 leaving Halifax at 3:20 P. M. (Standard Time) daily, except Sunday, will run through to Annapolis. Returning, train No. 96 will leave Annapolis at 5:30 A. M. (Standard Time) daily, except Sunday, for Halifax.

Grand Pre and the sections adjoining, which have had no resident physician since the death of Dr. Henry Chipman, of honored memory, has been selected by G. K. Smith, M.D., as a field of practice. Dr. Smith's professional card appears in the regular column in THE ACADIAN this week. We wish him much success.

Rev. F. J. Armitage, of Windsor, a former esteemed pastor of the Wolfville Methodist Church, was the preacher last Sunday at both services, his pulpit in Windsor being supplied by Rev. Mr. Hemmeon. Rev. Mr. Armitage, who is one of the brightest men in the conference, has been transferred to Oxford for the ensuing ministerial term.

News was received this week that a former esteemed resident of Wolfville, Rev. J. B. Merrill, who now resides in Sackville, N. B., had suffered a paralytic stroke on Sunday morning last. Last advice stated that he was resting comfortably and his many friends will join THE ACADIAN in wishing him a speedy recovery. Rev. Mr. Merrill is 75 years of age.

The services at the Tabernacle during the summer are being very effectively conducted by Mr. Adams, a student last year at Acadia Academy. Mr. Adams is an earnest and practical speaker and both the Sunday and mid-week meetings are being well attended. Mrs. Adams is an accomplished musician who renders valuable assistance in furnishing good music for all the services.

Those in charge of the Athletic Meet on Dominion Day depended on a collection taken on the grounds on that day to pay the expenses of the undertaking. Owing to very many people being out of town the attendance of grown people was not large and the result was a considerable shortage of funds. Those who desire to assist in the work by a small contribution will please hand it in to B. O. Davidson, chairman of the committee.

In connection with the meeting of the Halifax Presbytery at Kentville on Tuesday public meetings were held, addressed by ministers who were in attendance. At St. Andrew's church the meeting which was presided over by the pastor, Rev. G. W. Miller, was addressed by Rev. Dr. Ross, of Fort Massey church, Halifax, who gave an interesting and able address on the work of the church in general and the duty of its members regarding the future of Canada and its people.

**NEWS FROM CHURCH STREET**

Miss Gertrude Eaton, of Lower Canard, is having a delightful house party in form of a 1916 Acadia re-union. Among the guests are Miss Esther Clark, M.A., of Fredericton, who has been taking post-graduate work at Oxford, England; Dr. Lillian Chase, who has just recently graduated from Toronto University; Miss Hettie Chute, M.A., of Waterville; Miss Mildred Schurman, M.A., of Wolfville; Miss Paige Pineo, of Dartmouth; Miss Ruth Woodworth, of Alma Ladies College, Ont.; Miss C. Layton, of Truro. Miss Evelyn Eaton trained nurse from Royal Victoria Hospital, Montreal, is home and assists her sister with this brilliant company.

On May 25th, to Mr. and Mrs. Arthur Avery, Church Street, a son—Stanley Austin.

Dr. Lillian A. Chase stepped off the train at Port Williams on Saturday, July 1st. After a short vacation she proceeds to Philadelphia where she has an opportunity for further work in her chosen profession.

Mrs. Cecil Woodworth, of Church St., has the St. Paul's Kentville W. M. S. at her home Friday for their monthly meeting.

**BOY'S WORK NOTES**

The competition between patrols came to an end on July 1st. The rivalry has been keen and four of the groups have done especially good work coming out so closely together that even those in charge had no idea who would win until the last week. The final results were Methodists, 117 points; No. 3 Baptists, 112 points; Anglicans, 104 points; Presbyterians, 84 points. The winners were particularly strong in Church and Sunday School attendance. Their skill in games also contributed to their win. The Anglicans (Crusaders) made a record for "good turns", with splendid attendance. The Methodists will be given the long promised trip to Chester, the No. 3 Baptists will be given the use of the new boat at Camp as a second prize, while the Anglicans and Presbyterians each have a canoe under construction. The results of this competition have been most interesting and have resulted in largely increased Church and Sunday School attendance. In two cases the attendance increased from about 54% to 96%.

It is hoped that the final game of the inter-patrol baseball league can be played at the big Sunday School Picnic on Wednesday, July 12th, and that the cup presented by the D. & M. people can be awarded on that day.

Mrs. Bird and little daughter, of Moose Jaw, Sask., and Mrs. Fish, of Megantic, Quebec, arrived on Monday on a visit to their mother, Mrs. C. F. Stewart.

Dr. and Mrs. Morley, of Johns Hopkins University, Baltimore, friends of Mrs. R. DeW. Archibald, are spending a week in town. They have the unique distinction of having three sons all Rhodes Scholars, the eldest of whom is the distinguished writer, Christopher D. Morley.

# MOTORS AND MOTORING:

A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

## AUTOMOBILE ASSURANCE IS GOOD INVESTMENT

### Car Owner is Protected in Event of Accident

While police statistics prove that the fault in approximately 80 per cent. of so-called motor accidents is not the motorist's, still, under inequitable laws that still obtain in most, if not all, of the provinces, the onus is placed on the motorist of disproving guilt. However guiltless the motorist may be, it is not infrequently impossible for him to establish legally his innocence. Litigation, in any event, is a costly matter, both in money and time. As the cost of automobile insurance seldom exceeds the cost of retaining a solicitor and of court fees, motorists generally would be well advised to take out automobile insurance. Consider: Last year alone more than one car in every forty in Toronto was stolen. Your car may be next.

With a hazard of one chance in six of having one's car in an accident and more than one in forty of having it stolen during the year, automobile insurance at double cost would seem cheap. Few motorists can afford to have a judgement of several thousand dollars imposed on them as a result of an accident, yet the only way to eliminate such a possibility is to insure against it. The Toronto statistics are employed as a basis of expectancy in the foregoing because they are so conservative. Had Montreal records for the past year been taken the anticipating picture would be roughly a 50 per cent. black one.—By W. Basil, in Canadian Motorist.

## NECESSITY FOR IMMEDIATE INSPECTION

If the car will not coast freely with gears or clutch disengaged, it indicates binding in bearings of the front wheel or some part of the rear axle. Usually the cause is due to the brakes, which have not been set so that the bands are free of the brake drum.

## THE EMERGENCY BRAKE

To become familiar with the location and "feel" of the lever it is advisable for motorists to use the emergency brake occasionally in ordinary driving. This is suggested so that, in the event of an emergency, there will be no fumbling in using it. Also, this occasional use will reveal when the brake is out of order.

## NEW RINGS AND OIL LEAKS

It frequently happens that after new piston rings have been installed for the express purpose of stopping oil leaks, the condition continues just the same. It may be necessary to lap in the rings for a really satisfactory job. If the cylinder has been worn out of round, it will be necessary to fit the ring to the altered shape and lapping is necessary.

## ALUMINUM PAINT AND SHORT CIRCUITS

Aluminum paint can be used in brightening up many parts of the car, but when applying it to parts of the electric system see that none of it is used or very near terminals, as it may cause a short circuit.

## Automobile Insurance

Then sound indemnity can be obtained for collision losses sustained by the assured or a member of the assured's family.

Avoid the consequences of a collision that brings a court summons, a trial, a judgement and perhaps complete financial disaster by insuring with this local agency of the Hartford Fire Insurance Company. Complete protection is provided.

## MORE CARE, FEWER THEFTS

If the owner will exercise reasonable care in taking the key of his car with him when leaving it, even for a short time, he will reduce to a minimum the chances of having his car stolen. But this does not necessarily mean that his auto will not be stolen, for crooks sometimes outwit even the most careful owners. A crook may watch a car for weeks until he becomes thoroughly familiar with the habits of an owner. The crook learns how long the owner leaves his car at certain places. He may be able to get a key that fits it and thereby get away with his booty rather easily.

A crook may have an accomplice who works with him. The accomplice may come along at a prearranged time and with the help of the crook/tow the car away as though it were disabled and was being taken to a garage for repair. What auto thieves do with stolen cars depends upon the motive of the thief. Usually the thief is bent on securing a financial reward for his work. He may take the car to a garage where he changes the license number and the engine number. He may paint it some new color. He may alter the external fixtures. The result the owner would find hard to recognize. Then the crook will undertake to sell his newly acquired machine for what he can get which is apt to net him a good profit on the deal.

## BREAK ADJUSTMENT

When the car owner has installed on his vehicle a winter body of any type he should remember that he has added considerable weight to the vehicle. For this reason it is necessary that he carefully adjust the brakes to care for the added burden. Neglect of the obvious precautions causes many motor rear end collisions in city driving and may contribute to serious accidents.

An eye specialist says green quiets the nerves. This is especially true if it's the long green.

## SPRINGS AND SPRING OIL

A graphite oil or even flake graphite mixed in with the regular oil helps materially in oiling the springs as this will not work out from between the leaves as quickly as regular oil.

After the springs have been lubricated between the leaves, make it a point to put some oil on the sides of the springs periodically and you will find that you will ride much easier and there will be much less danger of breakage.

You will find on the market many kinds of spring covers, the idea or purpose of all of them being the same, namely, that of keeping dirt and water away from the springs and a constant supply of oil next to the springs so that it will work in between the leaves all the time, thereby keeping them lubricated and making the car ride at its best.

Just a word here in regard to the shackle bolts might not be amiss. In order that the springs may bend, these shackles must be tipped and this makes a twisting action on the shackle bolts. If these are too tight or not lubricated the same hard car riding will be experienced as with springs that are not lubricated. Therefore, these should not only be regularly oiled, but kept just tight enough so that they will not rattle and at the same time have free action for the proper operation of the springs.

## PROPER PLACE FOR FEET

Operators who make a habit of resting the feet on the clutch and brake pedals will wear out the clutch collar, making it noisy, and sometimes cause the brakes to drag. The best position is to have both feet near the pedals ready for instant use.

## STONE BRUISES

A stone bruise in a tire casing is a break in the fabric, usually inside the casing, caused by striking a protruding stone or other object with the tire while riding it too soft or deflated. To prevent stone bruising, maintain the proper air pressure in the tire.

## GRINDING OFF TIRE TREADS

Any man who caught himself cutting his tire tread with a file would voluntarily apply for admission to the nearest retreat for the feeble-minded. Yet the same man will lock his brakes and slide ten feet and think nothing of it. So many motorists confuse their tires with skates, and checking the car slowly by closing the throttle with the clutch engaged, they wait until they are right in the middle of an emergency and then jam on the brakes. They never stop to consider these little slides with the brakes locked until they notice spots where the tire tread is worn through to the fabric. Even where the tread is not scraped through to the fabric, tire men point out that there are flat places left in the tread. Then, as the car proceeds, these flat places, they explain, pound away on the road like a flat-wheeled trolley, killing the mileage in the tire.

**DUNLOP MEANS BIG TIRE MILEAGE**

## Dunlop Double-Life, High-Mileage Cord and Fabric Tires Will Save You More Money Than Ever

Compared to a few years ago tire users are getting easily double—and even more than double—the mileage in the tires of to-day.

Ten, twelve and fifteen thousand miles are just average mileages to-day. And the records on the road show that Dunlop Cord Tires and Dunlop Fabric Tires are even exceeding these mileages.

With Dunlop big mileage you have rock-bottom prices and paramount tire quality—tire quality that is accepted as standard to-day, and which other makers are vainly striving to duplicate.

When you can get a tire with prestige back of it like **DUNLOP**, and with practically an unlimited guarantee, why chance your life on a second-rate tire at any price?

In Dunlop Cord Tires you have "Traction" and "Ribbed" to choose from.

In Dunlop Fabric Tires you have "Traction," "Ribbed," "Special," "Clipper," "Plain."

SIMON-PORTER

WINDSOR, June 30.—At the Masonic Home last evening the first wedding in the history of the Home was celebrated when Rev. F. S. Kinley, of the Baptist church united in matrimony Miss Mary Inez Porter and George Gordon Simon, of "Annsdale", Grand Pre. The ceremony was performed in the room of the bride's invalid father, I. W. Porter, Masonic Home, formerly of Wolfville. Only the immediate relatives and a few intimate friends were present. The bride was dressed in a blue tricotine suit and wore a becoming hat of corresponding shade, and she carried an arm bouquet of roses.

After the ceremony Mrs. Richardson, Matron of the Home, entertained the guests to an informal reception and afterwards the guests drove to the home of Mrs. C. P. Smith, for a second reception. The bride and groom followed by the best wishes of their friends motored to their home at Grand Pre.

There were many beautiful and useful presents including a handsome cheque from the groom. The bride has for several years been a popular teacher on the staff of the Windsor Academy. At a shower given in her honor last week by Mrs. C. S. Dimock and Mrs. C. P. Smith she was presented with an appreciative address by Principal Smith, and a gift of eighteen pieces of French ivory besides numerous presents of china, linen and silver.

MORSE-SEALEY

KENTVILLE, June 28.—This morning at eight o'clock a pretty wedding was celebrated at the residence of the bride's parents, Mr. and Mrs. James Sealey. Main street west, when their daughter, Susie was united in marriage to Harry R. Morse, son of Mr. and Mrs. J. E. Morse, Kentville. The Rev. A. M. Bent, pastor of St. James' Episcopal church, performed the ceremony in the presence of immediate relatives. The rooms were magnificently banked with flowers and ferns. The bride, who was given in marriage by her father, looked most charming in a graceful gown of brown taffeta and Spanish metallic lace, with hat to correspond. She carried an exquisite shower bouquet of yellow roses. Miss Marion Sealey, B. A., sister of the bride, in a simple gown of brown Canton crepe was a lovely bridesmaid. P. R. Robinson, of Halifax, supported the groom. The wedding march was beautifully rendered by Miss Ethel Sealey, becomingly attired in a charming frock of apricot crepe. The bride's mother wore a superb gown of black Canton crepe. After the ceremony the guests repaired to the dining-room where a dainty breakfast was served.

The happy couple left by motor to entrain for Upper Canadian cities where they will spend their honeymoon. A large collection of beautiful gifts evince the popularity of the young couple, and the high esteem in which they are held. The groom's gift to his bride was a diamond and platinum ring. Among the out-of-town guests were Mr. and Mrs. J. H. Morse, Halifax; and the Misses Foster, St. John, N. B. Mr. and Mrs. Morse, on their return will reside at Crescent Avenue, Kentville.

**HOW TO FOOL MOSQUITOES**

DETROIT, June 29.—Wear dark clothes if you wish to avoid mosquitoes, says a bulletin issued by the department of health here. This applies only to the night time. Mosquitoes are attracted particularly by light stockings and trousers, according to the bulletin.

**MISS MACPHAIL, M. P., HANDS BACK \$1,500**

Remains True to Denunciation of Increase in Sessional Indemnity

OTTAWA, June 30.—It was because long before she became a Candidate in the last election she had denounced very strongly the increase in the sessional indemnity that Miss Agnes MacPhail, M. P., yesterday turned over \$1,440 of her sessional indemnity of \$4,000 to Hon. W. S. Fielding, Minister of Finance.

In effect, she was returning \$1,500, the sixty dollars being income tax on the amount. "I am quite convinced that \$2,500 is not enough for a man who devoted himself to serving his country," Miss MacPhail explained. "What I did object to, was the time when the indemnity was increased and the circumstances. Our men were overseas and the great cry was economy."

"That was why I would not accept the \$4,000. If I had known the procedure in time I should have put forward my bill for a decrease in the indemnity. As it was I saw it would never get through, so I withdrew it rather than risk the remarks that I was playing to the gallery. "I am glad the \$1,500 is gone. I did not want to touch it."

"I have no condemnation for any one else, but I do think there is no use of Sir Lomer Gouin, Mr. Fielding or Mr. Crerar, or any other man, no matter how great, preaching economy unless we can give the people a lead in economy and show the sincerity of the idea. Anybody can use \$4,000. A man with a family, away from home and business, probably needs it."

"But the sessional indemnity is not a salary. It is a mark of appreciation given by the country for service."

**WHY SHOULD I ADVERTISE?**

A press agent, travelling ahead of a circus, called on the owner of a general store, the only merchant in a little town. "Brother," he said, "when the show gets in town we'll have the usual parade. And I want to sell you advertising space during the parade."

"Whereabouts," the storekeeper asked. "On the elephant. He's the greatest thing in the procession. I'll paint your name on each side of the elephant, and there won't be a man, woman or child for miles around who won't see your ad." "There's not one of 'em don't know me already," the merchant replied, "and, what's more, they all trade here. Why should I advertise? I don't need it."

The circus man reflected. He looked up the street and decided that he was stumped. Then, he looked down the street as far as the church. Then he turned to the storekeeper.

"Nice church down there," he said; "how long has it been there." "Forty years, I guess," said the merchant, "most everybody around here is a member."

"That church has been there forty years," said the circus man, "and most everybody in town belongs, and yet they ring the bell every Sunday morning."

The cheapest looking thing at a bargain counter is a man waiting for his wife to get through.

**TIP BURN OF POTATOES**

This disease is first seen on potato plants about the latter part of July, with the most severe effects from the middle of August to the first week in September. The leaves exhibit a burning at their tips and margins, later the whole top withers and the plant dies prematurely. This condition is most noticeable in hot, dry, windy weather and particularly during period of dry and sunny weather following rain.

With regard to the cause of this disease, there is much difference of opinion, and several agencies have been suggested as responsible for the burning of leaves. The effect of excessive evaporation of water from the surface of leaves in extreme heat and sunshine with the consequent death of certain cells in the leaf, has been suggested as the cause of tip burn. Other authorities claim to have definitely demonstrated that the potato leaf hopper is the cause of tip burn; thus the name "hopper burn", which is also applied to this disease. More recent investigators associate the leaf hopper with the disease, but claim that there is some "specific", either normal or extraneous, which is transmitted by the leaf hopper and is the direct cause of the burning of the potato leaves. This was shown by the fact that tip burn could be produced by inoculating macerated leaf hoppers into potato leaves.

The regular Bordeaux mixture spray has been found to be beneficial in the control of this disease. Those believing in extreme heat and sunshine as the principal causal agency, associate this control with the layer of Bordeaux mixture on the leaf acting as a protection from severe evaporation. Others claim that it destroys the hopper and again the spray is also supposed to act as a deterrent for the hoppers.

In any case the Bordeaux mixture has been demonstrated as capable of arresting the development of the burning and this is but further proof of the importance of careful and systematic spraying of potato plants.
