The law prohibiting the capture of white fish is now in force.

Some Tom Tom Ferguson was up in welland trying to aid his comrade in arms, the "Hero of Fort Erie. But it was no use, the Dr. was beaten.

Mr. P. C. ALLEN is selling his bankrupt stock of blank books very cheap. Great bargains are being given at his store and at Mitchell & Mallory's old stand.

LADIES' BENEVOLENT SOCIETY.—A meeting of this Society will be held at Dr. Keating's next Saturday afternoon, at half-past two o'clock. A full attendance of the members is requested.

The village of Southampton has submitted a by-law to grant to the Wellington Grey and Bruce Railway Co., \$1,800. This grant is to get the station located at a particular place.

The Bruce Herald says that Messrs. Hugh, Thomas, James and Andrew Wilcove, brothers, and farmers on the Durham Road, in the vicinity of Walkerton, threshed as the result of this year's product, 2,800 bushels of grain.

POST OFFICE ROBBERY.—The Democratic post office was robbed on Tuesday night, and a money letter, containing \$600 taken. The thief proved to be a young man residing in Demoreville, who was arrested and all the money recovered.

ACCIDENT ON THE CHICORA.—A telegram from Sarnia mentions that the steamer "Chicora" struck on a rock in Bear Lake and sunk, but was afterward raised and taken into port at Sault Ste. Marie. Her cargo is said to be badly damaged.

STANLEY, the discoverer of Livingstone, arrived in New York by the Cuba on Wednesday, and was escorted up the bay by delegations from the Geographical Society and Herald Club.

The polling on the by-law granting a bonus of \$70,000 to the Ontario and Quebec Railway took place on Wednesday in the town of Perth, and resulted in the by-law being carried by a large majority. The vote stood, yes 168, nays 28.

It is now alleged that the operators of the recent grain corner in Chicago committed a gross fraud by contriving, with the aid of false bottoms to their bins, to show an apparent bulk of grain largely in excess of that really in store.

On Wednesday night a fire broke out, and entirely consumed, the Newmarket brewery. By the exertions of the firemen, and the circumstance of a favourable wind prevailing, the fire was confined to the building in which it broke out.

St. Paul's Church, Yorkville, was on Wednesday morning the scene of a fashionable wedding, the high-contracting parties being Mr. Thomas Becket, of Quebec, and Miss Naomi, second daughter of the Hon. D. L. Macpherson, of Toronto. There was a great flutter among the fashionables on the occasion.

TORONTO.—The first fall of snow in Kingston has drawn forth the usual notice about the nuisance of boys coating down all sidewalks having sufficient inclined planes, and the police magistrate has issued his mandate against the practice. (We hope to see the same edict issued in Guelph against the same dangerous practice.)

Y. M. C. A.—The regular weekly meeting of this Association will be held in their rooms this evening at the usual hour. As business of some importance is to be brought before the meeting it would be desirable to have a full attendance of the members. An essay will be read by Mr. Wm. Anderson, subject: "Self-culture." We would remind the members that the fees for the present half year are now due, and it is desirable that they should be handed in as soon as possible.

CHANGE OF GAUGE ON THE G. T. R.—This Company after changing the gauge between Buffalo and Sarnia, was enabled on Monday to run its express trains from Sarnia direct to New York without delay, as the ferry steamers at Fort Erie and Sarnia are quite sufficient for the carriage of a whole train at once, the Sarnia steamer being large enough to convey twenty-one loaded freight cars at one trip. In order to accommodate the rolling stock to both gauges, machinery has been provided at Stratford whereby the through cars are lifted bodily from the narrow gauge trucks and transferred to broad gauge trucks, and vice versa, so that the break in the gauge at that point will be attended with a little delay and inconvenience to passengers as possible.

FIRE IN BRANTFORD.—On Wednesday morning a fire broke out in the Glasgow tea warehouse, on the market square, west side, owned by Mr. John E. Wier. When the alarm was sounded, and it became known that the fire was in the heart of that block, hundreds of the citizens hurried there, for it is well known that the locality abounds in groceries, wines, liquors and drug stores, all being, of course, of very combustible material. Twenty minutes after the hose was turned on, the fire upon the ground floor was quenched, and soon after, the fire in the second story, and in the roof of the drug store adjoining was also quenched. This is the severest test the Waterworks system of water works has yet had, and the result was most successful. In Brantford, since its establishment two years ago, the entire losses by fire have not exceeded \$2,500.

Two freight trains collided near Stony Creek on Wednesday, in consequence of the snow storm. No one was hurt. Four oil cars caught fire and delayed the clearing of the track.

BY TELEGRAPH

Large Fire in New York. 5,000 Kegsheads of Tobacco Burned.

Another Fire in Boston. Marshal McMahon and the Presidency of France.

London Policemen Still on Strike. Great Grain Frauds.

New York, Nov. 20.—Perrin & Haines's saw-mill, and Jarvis' tobacco warehouse, Jersey City, containing about 5,000 kegsheads of tobacco, were burned to-night. The loss on tobacco was about \$1,200,000.

Boston, Nov. 20.—Rand & Avery's establishment which was destroyed by fire to-night, employed some three hundred hands, fifty of whom were girls. They estimate their loss at \$250,000.

Paris, Nov. 20. (Evening).—The committee appointed to draw up the address in reply to the message of Thiers on the opening of the Assembly, the appointment of which was moved by Deputy Konrad, has been instructed by the Assembly to inquire into the *modus vivendi* of President Thiers, who will probably attend the meeting of the Committee tomorrow.

All the different parties in the Assembly are holding private consultations. President Thiers will have another conference to-morrow with a delegation from the factions of the Left.

Paris, Nov. 20, (Midnight).—Marshall McMahon refuses the Presidency in case M. Thiers resigns.

London, Nov. 21, (6 a. m.).—The trouble with the Metropolitan Police continues. Seventy Bow Street constables, and thirty-nine Kensington officers have been dismissed from the service.

Boston, Nov. 21.—Among the periodicals destroyed by the Boston fire was the December number of "Old and New," which was nearly ready for delivery; one number of "Little's Living Age," which is entirely destroyed, and between sixty and seventy thousand copies of "Well Spring," which is published semi-monthly.

The publishers of these periodicals had large quantities of paper in stock in the establishments, which was lost; as did J. R. Osgood & Co., Lee & Sheppard, Simpson & Davenport—publishers of the "New England Register"—Gill Publishing Company, of Norwich, Conn.; Iverson, Phinney, Blackman & Co., of New York, and the University Publishing Company, of New York, whose loss is in school textbooks.

New York, Nov. 21.—The Times states that the President of the Atlantic and Great Western Railway Company recently went to Meadville, Pa., seized the books of the Manager of the road, and found a regular system of stealing from the receipts of the road had been practiced for a long time by the manager, M. H. Sweetzer. The latter was confronted with the proofs of his guilt, and resigned, besides paying over \$75,000.

Rome, Nov. 20.—The Prefect of Police of this city has issued an order forbidding the assembling of a meeting advertised to be held here on the 24th inst., in furtherance of the principle of universal suffrage, because he has reason to believe that the meeting is really called in the interest of opposition to the present form of Government at Rome.

It is reported that a second ecclesiastical province of the Roman Catholic Church is to be established in England, with Liverpool as the Metropolitan See.

Chicago, Nov. 21.—A sensation has been created among the grain men by the publication of the fact that when, in August last, in order to test the alleged discrepancy between the quantity of grain actually in store in the elevators in this city, and the receipts in circulation, a measurement of the grain in store was ordered, the proprietors of one of the elevators had false bottoms put in a number of their bins only six inches from the top, and covered them with grain, and they were then measured as full, making a difference of many thousand bushels.

President Thiers has contributed the sum of 1,000 francs for the relief of the sufferers at Boston.

Chancery Court. Thursday, Nov. 20. The sittings of this Court opened this morning at 10 o'clock, before Chancellor Sprague. The counsel in attendance besides members of the local bar, are Hon. E. Blake, Q. C., Messrs. T. Moss, Q. C., Chas. Moss, Fitzgerald, Murray, Toronto; Bowly, Berlin; Miller, Berlin; Laidlaw, Milton; Meredith, London; Matthewson, Brampton.

GARVEY vs. MARTIN.—In this case a bill was filed to set aside a Sheriff's Sale of lands in Esqueuing. An application was made by defendant to postpone the case until next court. Judgment deferred. Hon. E. Blake, Q. C., and Mr. Jas. Watt for plaintiff; Mr. T. Moss, Q. C., and Mr. Laidlaw for defendant.

GOODMAN vs. PARQUHAR.—This case, relative to a dispute concerning a quarry, is in progress as we go to press. Mr. Murray for plaintiff; Mr. Matthewson for defendant.

FIRE IN DARTMOUTH.—On Tuesday night a fire broke out in the hotel belonging to Mr. J. Longhead. It originated in the chimney, and the building was soon over whelmed with flames. Most of the furniture was saved. The building was well insured.

BRUTAL ABORTION CASE IN ROCHESTER.

A Canadian Woman the Victim.

(From the St. Catherine's Times.) On Saturday evening last, Detective Rodgers, of the City of Rochester, arrived in Clifton in search of the body of Esther A. Cole, who died in Rochester. The circumstances of the death and removal aroused suspicion that she had come to an untimely end. These facts were given to Z. B. Lewis, Esq., Coroner, who immediately summoned a jury and had the body exhumed, which had been buried in Drummondville cemetery on Thursday last.

The investigation commenced at W. F. Ellis' Hotel in Drummondville at half-past 2 o'clock p. m. Detective Rodgers, called as a witness, stated that a strong suspicion existed that deceased had come to her death by foul means in the city of Rochester, and produced letters from the authorities there to the authorities here to assist in the investigation. Dr. Mowburn, assisted by Dr. McGarry, were ordered by the Coroner to hold a post mortem examination. George Simpson testified that he was brother-in-law to the deceased, and assisted in the removal of the body from Rochester, that he found the deceased at No. 6, Spencer street, in charge of Mrs. More, (formerly of St. Catharines), that he had learned from her that deceased had died from congestion of the lungs.

The corpse was taken from the house between 10 and 11 p. m. for the station, and was shipped for Niagara Falls at 3:30 p. m. Hiram Bender testified that he received a telegram from deceased, on Friday of the week previous to her death, to meet her in Rochester that day, which he did and found her unable to proceed to Gloverville, and advised her to remain in Rochester until she was better. He accompanied her to a house on Spencer street, No. 6, and left her next day, telling her if she did not get better she must call on Dr. Mowburn, to whom she had received a telegram to go to Rochester, and on his arrival at the gate was met by Mrs. More who told him that she was dead. He found that Dr. White, one of the leading physicians, attended her; went to see him to ascertain the cause of death, and found that an abortion had died of congestion of the lungs. He procured a coffin and had the body brought to Drummondville for interment. Dr. Mowburn testified that had made a post mortem examination of the body of Esther A. Cole and found that an abortion of the most brutal nature had taken place. Dr. McGarry corroborated the last witness.

The friends of the deceased are very much excited, as they had no suspicion of anything of this kind. The jury returned a verdict, "that the deceased, Esther A. Cole, came to her death by an abortion criminally committed by some person or persons to the jury unknown." These facts were immediately telegraphed to Rochester to the authorities, and Mrs. More, her husband, and the servant girl were arrested.

Sad Case of Suicide in Hamilton. About nine o'clock on Wednesday morning a most lamentable occurrence took place in Hamilton, whereby Mr. Robert White, aged 23 years, son of Thomas White, late Collector of the inland Revenue, took his life under distressing circumstances. It appears that he has been engaged in the lumber business in the township of Mulmur, county of Simcoe, and in this business he and his father had a large amount of capital invested. About eight weeks ago, while up in Mulmur at his mill, he fell off a load of lumber, striking on his head, which caused congestion of the brain, from the effects of which he has since suffered at times heavy mental depression. He arrived from Toronto on Tuesday afternoon, in company with his wife, and went to his father's house. During the evening unfavorable symptoms exhibited themselves, and his brother, Dr. White, was called in, remaining with him until all dangerous manifestations had disappeared. On Wednesday morning he seemed a trifle somewhat better, but his father noticed that he was still in a desponding mood, and endeavored to cheer him up before leaving for Toronto, where he (his father) had some business to transact. Shortly after his father had left the house he slipped out, and in a few minutes the report of a pistol was heard from a water-closet in the rear of the house. Not returning soon, an attendant went out and found him quite dead, deceased having shot himself with a revolver through the heart. There are no doubts in the minds of his medical attendants that the melancholy event proceeded from concussion and permanent injury to the brain, caused by the accident. An inquest was held the same afternoon, when the jury returned a verdict to the effect that deceased came to his death by his own hand while rebounding under a temporary attack of insanity, brought on by injury to the brain.

THE ERIE RAILWAY.—It is understood that the directors of the Erie Railway approve of the views of their engineer in reference to narrowing the gauge of that Railway. The report advises that in addition to laying the third rail, that two hundred locomotives and two thousand cars be constructed for the narrow gauge, and that the old rolling stock be thrown aside without repair as fast as it becomes useless. It is further stated that the proposed rolling stock is placed at twenty-one million dollars. It has been clearly demonstrated that there is an actual excess of cost of operating a broad over a narrow gauge of at least 30 per cent. It is believed that four millions annually might have been saved if the road had been constructed upon a narrow gauge at first.

A gentleman who was burned out at a fire in Belfast in 1860, went to Chicago and suffered there, only to try again in Boston and come out a heavy loser by that fire.

Erin Correspondence.

The Rev. Robt. Kennedy died on Tuesday last, from injuries received eight days ago, the nature of which we previously stated. He was buried at Cheltenham on Friday. The Rev. L. Cameron preached from the pulpit from which Mr. Kennedy preached last a most impressive and appropriate funeral sermon from the words, "Blessed are the dead who die in the Lord, &c., &c."

As we stated, Mr. Kennedy had been rather unfortunate in business lately, and being of a most liberal disposition, had little or nothing laid past for the support of his family. A few friends acting upon this point, went and in two or three days, succeeded in raising \$250, and after paying all the expenses connected with the accident, handed Mr. Kennedy the balance, \$155 in cash. We hope that other sections of the country where Mr. Kennedy was known will take up the matter, and do something for the bereaved widow and family.

Mr. Robert Campbell, of this township, with his wife and family, left for North Carolina last week, having sold his property here and bought in that State. Mr. Campbell was one of our very best farmers and a useful member of society. We are sorry that Mr. Campbell should have left us, but hope that he may be successful where he has gone.

Erin, November 19th, 1872.

Planting Trees. The State of Nebraska has set apart the 10th of April in each year to be called "arbor day," as a day for planting trees, prizes being given for the largest number planted. In referring to the matter the Canadian Farmer says— "Why can we not do something like this for Ontario? If our farmers could be encouraged to plant trees around their dwellings, along the road-side, and upon the windward side of their farms, what a beautiful appearance our Canada would soon present. How much more attractive to the stranger from the old world, seeking a home in the new."

Many of the older settled parts of Ontario are becoming almost entirely denuded of wood, and unless something is done serious results will ensue. Let our forests be preserved and let our farmers plant trees as suggested by the Farmer, and in addition to the utility of such a course our country will be beautified and rendered more attractive than ever.

The danger of extempore prayer is that it may degenerate into the ludicrous. Take, for example, the case of an elder who was invited to pray on the day after a battle, and who said: "O Lord, I never saw such a day as this was yesterday, and I don't believe you ever did!" Or take the case of a minister giving praise at harvest time: "We thank thee, O Lord, for thy great bounty," said he, "we thank thee for the fine weather; we thank thee for the bountiful harvest; and that thou hast enabled us to gather in the wheat throughout all this district—with the exception of Farmer in Mills' little harvest covered patch down in the hollow, not worth mentioning." Dean Ramsay—if I remember rightly—tells a yet better story of the same kind. A Highland minister, having been requested by his flock to pray for better weather, and being at the same time warned to be cautious in presenting his petition, because the last time he had prayed for better weather it had become worse, thus expressed himself: "An' noo, Lord, I have a petition to present, but I mair be unco wary o' the wordin' o' t'. Ye ken, Lord, the little state the crop are in, just as if ye saughin', southern, drein' breeze as I save the strae, and winna harm the head; for if ye said a tearin', revivin' thunderin' storm, as ye did the last time I prayed for gude weather, ye'll play the very mischief wi' the aits, and fairly spoil 't'."

Dorothy in this neighborhood will be glad to learn from letters lately received in town that she arrived safely at Fort Garry, after a long and tempestuous journey of three weeks and a day. The voyage from Collingwood to Duluth was particularly boisterous, even dangerously so, from the quantity of water the steamer shipped, and occupied the unusually long period of twelve days. As will be seen from the subjoined paragraph, Miss Dorothy has entered upon her duties in the Manitoba Ladies' College, and on Sundays leads the Psalms in the Presbyterian Church, playing the organ as an instrumental accompaniment!

WINNIPEG LADIES' SCHOOL.—This school began this week, with every prospect of success. The present accommodation is exceeded, and another building, in charge of a resident teacher, will be ready in two weeks. The staff of instructors consists of Prof. Bryes, with three lectures a week; Mrs. Bryes, Higher English and French; Miss Dorothy, Music and Singing; Miss Ferris, in charge of the Elementary Department. Winnipeg is fortunate in having a Ladies' School in every respect worthy of any of our Canadian cities.—(Winnipeg Free Press.)

ANOTHER MURDER NEAR BRANTFORD.—An Indian named Robert Davis, of the Township of Tuscarora, was charged by Lucy Seneca, before William Mathewson, Esq., J. P., on Monday, with feloniously killing Mary Seneca, the same place, on or about the 22nd of August last. The investigation of the matter was adjourned for a week without examining any witnesses. The case, it is said, appears very decided. One witness is prepared to swear that he saw the Indian fire the pistol and the young girl fall; also saw the pistol with the scound two or three days previous to the murder, and spoke to the prisoner after he had fired the fatal shot, who threatened to shoot the witness if he said anything concerning the matter. The prisoner, Robert Davis, is now in goal.

Mr. A. B. Smith, one of the senior operators at Hamilton, has been appointed deputy inspector of offices of the National Telegraph Co.

The recent repair to the Submarine Cable between Java and Australia proved conclusively that the ocean is disturbed by currents and other causes at the depth of 1,900 fathoms. Ten years ago it was believed water had little motion below 50 fathoms, but the latest and already abandoned Australian cable tells a very different story.

The Municipal Elections.

As the time approaches for holding the Municipal elections, those who interest themselves in such matters are beginning to speculate on the probable candidates for the different offices in the gift of the people. Time was when in our good town the candidates, especially for the higher offices, were not slow in announcing their intentions and taking the field. We have seen—and that not many years ago—when the town was kept in a ferment for six or seven weeks by opposing candidates and their friends, when ward meetings and public meetings and private caucuses were held almost every night, and when the aspirants for Municipal honours rushed frantically through the town, with book in hand, boring every poor fellow whom they happened to meet, and humbly soliciting his vote and influence. These were the halcyon days of factionists and ward politicians, who daily exhausted their eloquence and arguments in behalf of their pet candidate, and nightly drank deep to his success at some hole-and-corner meeting in some out-of-the-way tavern.

Happily we have outlived all these questionable agencies in the management of our municipal affairs. We have grown more decorous as the town has grown larger. Now a days, for the most part, candidates wait to be asked before they take the field, and the free and enlightened electors, unless on very rare occasions, and in a very few cases, do not lose their senses in the excitement of an election contest. We congratulate all and sundry on the great improvement which has taken place, and express the fervent hope that such a commendable state of things may long continue. At the same time it is to the interest of every ratepayer to see that he gives his influence and vote for the election of representatives at the Council Board, who understand, or who will take the trouble to make themselves acquainted with, our municipal affairs; men in whose judgment we can depend; and whose ability, influence and position will sustain the character of the Council, and be a guarantee to the public that the business of the town will be properly transacted, the duties pertaining to their particular offices efficiently discharged, and its interests faithfully guarded and prudently fostered.

The year on which we will soon enter will be one of the most important in our municipal history. The whole subject respecting the settlement of the indebtedness of Municipalities to the Municipal Loan Fund has been taken up by the Ontario Government, and a measure for finally settling that vexed question will doubtless be brought in during the ensuing session. The Town of Guelph is vitally interested in this matter. The \$80,000 which we borrowed from that Fund were, every cent of it, paid for the construction of a railway which, while it benefited the Town, was also of equal benefit to all the surrounding Townships. We have paid a portion of this loan, and we are in debt for the remainder, and we claim that our case, being an exceptional one—every cent of the money borrowed having been spent on a public railway—merits due consideration at the hands of the Government. Whoever are to represent us in the Town Council should acquaint themselves thoroughly with the whole subject, so that if it is necessary for the Council as a body to take any action in the matter, or bring our claims under the notice of the Government, every member may understand what he is doing, and be able to give a reason for the course adopted. A very large amount of our debentures—a fourth of the whole sum—issued for the construction of this railway, mature during the year on which we will soon enter, and although we have the debentures of other Municipalities maturing about the same time, which will nearly balance those of our own maturing, still it will require judicious financing to get the transaction satisfactory settled. There are other important matters which will also engage the attention of our representatives, and which will require such wise and judicious legislation as will give renewed impetus to the growth and prosperity of the Town.

We have as yet heard of only one gentleman who is likely to be brought forward for Mayor, and that is Mr. Adam Robertson, the oldest Councillor at the Board, and one of our most experienced and efficient representatives. Mr. Robertson is an old and faithful public servant, and has invariably discharged his duties in a most thorough and conscientious manner, to the satisfaction of his constituents and the ratepayers at large. He has never been greedy for office, but when called upon by the people he has never shirked the work, nor refused to give his time and talents for the furtherance of their interests. If such offices are looked upon as the reward for long and faithful services, then Mr. Robertson deserves the honor which attaches to the Mayoralty, and we fully believe that a large majority of the ratepayers will coincide with us in our opinion. We hope that he will allow himself to be brought forward as a candidate, and should he do so, we would fain believe and hope that all parties would unite in electing him by acclamation.

There is not a whisper as yet as to who are likely to be candidates for the offices of Reeve and Deputies, or for Councillors, but no doubt we will hear in good time, when we will be able to discuss their merits and qualifications for the different offices. Let the ratepayers unite in bringing forward only those men in whom they have every confidence, who are able from their experience and judgment to intelligently discuss the questions which may come before them, and whose reputation and standing will give a character and credit to the positions which they hold in trust from the people.

WELLAND ELECTION.—Mr. Thomson's majority is 74, not 68 as first given. The *Globe's* Ottawa correspondent, speaking of the Welland election, says:—"The success of the Reform candidate in Welland, notwithstanding the strenuous efforts of members of the Government to secure his defeat, is sorely vexing to the friends of the Administration here. The Reformers accept it as presaging a greater victory on the floor of the House. Both parties condemn the Government for the extent of Ministerial interference."

A 538 ounce gold nugget was lately found in Australia. It was in the wall of an old trench that was cut about nine years ago, when a large number of men were at work in the locality. The successive rain falls had, with the continuous washing and crumbling away of the soil, brought this handsome little fortune into daylight.

CHAPTER XXVI.
UNDERGROUND—AN URGENT SUMMONS—A MYSTERY.

A horror of great darkness fitly represents the frightful realization into which George Eglantine struggled in a vague, confused way, at an unknown period of time after he had been thrown down the shaft of the disused mine. His first feeling—after recollection had fully asserted itself—was that of wonder. He wondered why the fall down the shaft had not killed him. His limbs were indeed aching with pain, and his head seemed to reel, but his might well proceed from the blow he had received from Captain Gibson or Garret, he did not know which. Excepting a rather large lump on one side of his head, where he had been first struck, he suffered no external injuries. While engaged in groping with his hands, he touched his hat, and this he gladly placed on his head to protect him from a cold air which was coming against him from one direction. He now rose to his knees, and crept slowly forward to the right, groping his hand carefully in front as he went. It was well he did so, for he had not gone half a yard when his hand touched the edge of a cavity, and beyond he could feel nothing. He took up one of the pieces of rock which lay about and checked it over, when, to his horror, he heard it fall down a great depth, and strike with a sudden plunge in the water. "God heaven," he murmured, "had I moved a few inches further in that direction I would have shot down into a fathomless depth." After groping about in the darkness for several hours, feeling his way with a stick which he had providentially kicked against, the air blew stronger in his face, and it had the fresh, delicious smell of the open landscape and its morning fragrance. Traversing the narrow passage with agitated and excited footsteps, he followed several turns and windings, the light growing stronger as he advanced, till, at last, through a mass of overhanging branches, he discovered the sky. Between this and the point where he stood, a mass of rubbish had nearly blocked the passage up, and over this he had to make his way on his knees till he reached the trailing branches of bramble which cast their interlacing stems across the aperture, and forcing these aside with an arm that cared nothing for the prickles, George passed between a narrow cleft of rock into the open air. He was in the ravine, though at a point which he judged to be considerably above Matthew Greigson's cottage. So occupied was George with surrounding objects, that he had forgotten the letter which Lillias had given him, and on feeling in his pockets he discovered that it was still there, and with an unbroken seal. "From Manby," he ejaculated on looking at the address. "Ha, he was to write me when he had anything important to communicate concerning Walley. Good gracious! perhaps this is of the utmost importance." He tore open the envelope, and found the thought amply confirmed.

The trade of the United Kingdom is increasing with unexampled rapidity. In 1871 the imports and exports amounted to £97,900,000 more than in 1870, and of the increased imports, £8,100,000 came from British possessions. Taking the figures all round, the imports of 1871 show an increase of 84 per cent on 1870, and the exports during the same period an increase of 14 per cent.

CASH!

TREMENDOUS SUCCESS!

Ready Pay Principle Victorious!

THE NEW STORE

"CASH" is now doing Double the Amount of Trade for Ready Pay than any Credit Establishment in Guelph is doing.

WHY?

Because for Ready Pay a small profit only is asked, the money is turned over five times when Ready Pay is made, but the credit system entails an extra per centage added in marking goods, in order to guard against bad debts. The man who gives credit cannot buy his goods as well as the man who does not.

WHY?

Because he has to buy his stock on credit, and is thereby deprived of the large saving to be made by buying for cash, but the man who sells for ready pay has the money in hand when he goes to market, and can take every benefit that the trade will offer. Such being the case, who can wonder at the great rush there is going on at present at the new store. "CASH" is creating quite a panic among the slow coaches who have been living at their ease on large profits, and he is now going to make a shaking among the dry bones. Hurry up with your money. Don't forget the spot,

DR. EPPS' MILKY COCOA—**GRATEFUL AND COMFORTING**—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills.—*Civil Service Gazette.* Made simply with boiling water or milk. Each packet is labeled "James Epps & Co., Homeopathic Chemists, London." Also, makers of Epps' Milky Cocoa (Cocoa and Condensed Milk).

Fishish, opium, alcohol, and tobacco are popular poisons which appear to concentrate their action upon the brain, and are powerful causes of nervous disorders in the perversion of the blood. An individual habituated in the use of any of these, if not already too much destroyed, may be repaired under the potent influence of Fellow's Compound Syrup of Hypophosphites, since the disturbances disappear as the condition of the blood improves.

Thousands have been changed by the use of Peruvian Syrup (a protoxide of iron) from weak, sickly, suffering creatures to strong, healthy, and happy men and women, and invalids cannot reasonably hesitate to give it a trial. For Dyspepsia and Debility it is a specific.

COMMERCIAL.

GUELPH MARKETS.
GUELPH, Nov. 21st, 1872.

The supply of wheat, both Fall and Spring, during the past week has been limited; prices remain firm at quotations. Barley is in demand principally for local consumption, and oats bring a ready sale.

Hogs are coming in quantity; the market opened this morning at \$5.00 but before noon \$5.75 was given for a very superior lot belonging to Mr. J. Phin, near Hespeler. This, however, may be regarded as an exceptional price. Packed butter arrives freely, and no less than one or two wagons loaded with this commodity, whose owners had unhitched their horses, in consequence of their early arrival in the morning preventing transactions with the market buyers previous to eleven o'clock. We observed the wood market well supplied throughout the past week, and the demand seems quite equal to the supply.

IF You Have Been an Invalid for years with some Chronic Wasting Diseases of the Lungs, Heart and Kidneys, you need not flatter yourself that medicine is going to cure you immediately. Repair goes on slowly, and time is necessary to build up a broken down constitution. Do not take every nostrum you read about, nor follow the advice of every friend who has a specific to offer you. Procure a remedy scientifically prepared, that is the result of experience, that has a large amount of evidence of sensible people in favor of its reliability, and persevere in its use until the whole system undergoes a radical improvement, and health is restored. **DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA**, a Chemical Food and Nutrient Tonic, will meet your most sanguine expectations, as it combines everything necessary to perfect digestion, nutrition, and the formation of Healthy Blood, and to vitalize all the organs and tissues of the body. Sold at \$1.00 per bottle.

THE GREAT REMEDY FOR CONSUMPTION

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.
