

# The Farmers of the West Are the Richest Agricultural People in the World

SIR THOMAS SHAUGHNESSY.

Montreal, Sept. 24.—Sir Thomas Shaughnessy returned from his annual inspection trip to the West today. "Everybody in the West appears satisfied," said the Canadian Pacific railroad president, "and there is no reason why they should not be for the farmers of the West are the richest agricultural people in the world. The grain crop will be a bountiful one, but the wet weather is retarding the harvest and delaying the movement of the crop and this will mean a very short shipping season. We made ample preparations for the harvest before it was ready and under the existing conditions we can only do the best we can. I do not anticipate the difficulties some of our friends are predicting regarding the movement of the grain from the West. Of course there will be a tremendous rush—I trust we will always have that—but with a reasonable degree of patience everything will work out all right in the end."

Asked about the suggestion of The Grain Growers' Guide, that rates via the south should be secured, Sir Thomas replied: "We have heard so many fears expressed in the past that there must be an extraordinary condition in the grain traffic that we have become rather accustomed to it and realize that many people are given to exaggeration. There will be difficulties, of course, as there are always difficulties in connection with the handling of so much grain during the short season before the close of lake navigation but I do not anticipate there will be anything of a serious nature."

LEVENTH YEAR—No. 176

### SIR RICHARD CARTWRIGHT, STALWART LIBERAL STATESMAN, DIES IN HARNESS, SUDDENLY

SIR RICHARD CARTWRIGHT, WHO DIED YESTERDAY

Devoted Fifty Years of an Active Life to the Betterment of Canada; Sketch of His Career; Tributes of Notable Canadians to His Memory

**KINGSTON, Sept. 24.**—Sir Richard Cartwright died at 11:25 this morning. Heart failure was the immediate cause of death. Last Thursday he had been operated on for stragulated hernia, which had been troubling him for the last five years. He was believed to be progressing favorably but took a turn for the worse a couple of hours before his death.

Sir Richard was born at Kingston, December 4, 1835. He was educated at Trinity College, Dublin. Elected member of Canadian parliament for Lennox and Addington in 1867.

Was member for Lennox from 1867 to 1878. He left Conservative party in 1873. Was finance minister of Mackenzie government 1873-1878. Knighted in 1879. Member for West Huron from 1878 to 1887. Member for South Oxford from 1887 to 1904. Became minister of Trade and Commerce in Laurier government in 1896. Honored with G.C.M.G. in 1907. Leader of the senate in 1904. Was leader of the opposition in the senate in 1911. The funeral will take place from the family residence, "The Maples" at Cartwright's Point, on Thursday afternoon to St. Marks Anglican church.

### HALF A MILLION WORKERS WILL JOIN IN GENERAL STRIKE IN BELGIUM

**Brussels, Sept. 23.**—A great general strike is projected by the Socialists in support of universal suffrage amendment to the constitution. Hostilities against the government, which has refused its face against the desired legislation will begin in November. Half a million workers, it is estimated, will be involved in the strike, which it is proposed shall last six weeks at a cost to their funds estimated at ten million dollars.

The railways, the postal and telephone services, mines, docks, arsenals, factories and workshops of all kinds are to be involved in what its promoters contend will be a bloodless campaign. Women seem as earnest as the men in the propaganda which reaches throughout Belgium. Promises of substantial financial support have been received by the committee, chiefly from the United States, France, Holland, Germany, Sweden and elsewhere, and arrangements have been completed, according to the same authorities, to send forty thousand children to temporary homes in the north of France on the declaration of the strike.

Winnipeg, Sept. 24.—At the Conservative convention of the constituency of Macdonald, Alex Morrison of Carleton Place was chosen as the candidate of the party for the election, which falls on October 15. Mr. Morrison is president of the Conservative association of the constituency, and is a prominent farmer with distinctly protectionist leanings. His name has been mentioned for some time in connection with the vacancy, and it was thought that a representative of the farmers would make a better showing than some one from the city. The meeting was afterwards addressed by the nominee, Sir Alexander Balfour, and Aime Bonard, M.P.P.

### Tidings of Great Joy: The Bank of Montreal Will Loan Miss Calgary Two Million Dollars

Final negotiations for the loan of \$2,000,000 to the city of Calgary by the Bank of Montreal were closed yesterday at 4:15 p.m. and City Treasurer Burns now has "the money in his pocket and prepared to spend it," to quote him.

While the closing of the loan, secured by debentures which have been issued for some time, but which were still undisposed of on the London market, a number of improvements, halted for lack of funds, and indebtedness incurred will be immediately disposed of.

Just how the loan will be apportioned between the various by-laws has not been definitely settled, and will be the subject of a session of the commissioners and executive, either today or tomorrow morning.

At the session Comptroller Wood will submit a tabulated statement showing the amount of funds necessary to complete the more important improvements as well as an apportionment of the amounts required for other purposes. The purpose of this statement is to guide the executive department in making provisions to take care of all obligations demanding immediate attention and reserving sufficient of the loan to meet emergencies coming properly within its scope.

It is the opinion of Mayor Mitchell and Treasurer Burns that although the debentures of certain by-laws were given as security there is no provision compelling the application of the funds to these alone. Of the funds secured, \$1,500,000 will be applied immediately to meeting obligations already contracted and \$500,000 will be utilized to meet expenses between now and January 1 and the first few days of the new year.

Among the matters that will receive immediate attention, says Mayor Mitchell, will be the completion of water main extensions and improvements doing away with dead ends. Other improvements will follow in turn.

With the completion of the water extension improvements, a cut in the insurance rates for business property is looked for. This has been promised by the board of underwriters as soon as certain improvements are carried out. Already there has been a cut of 15 per cent. in residence rates, and it is believed the business rate will be lowered accordingly.

Now that Treasurer Burns can handle the cheques book a general rush is expected at the city hall to collect deferred payments for which creditors of the city have been awaiting the closing of the present negotiations.

### NO PROTESTS RECEIVED ON LIGHTING SCHEME

Southeast Calgary Will Determine if Lines Are to Enter Its Boundaries

City Ready to Extend Service as Soon as Bylaw Receives Ratification

With the expiration Monday of the time limit in which protests might be filed against the installation of ornamental lighting within the district bounded by Eighth, Eighth and Ninth avenues and Fourth street east and Fourth street west, all that is now necessary to permit the work to proceed is the third reading of the bylaw at the next session of the city council.

City Electrician Brown said yesterday that should the bylaw find no delay in passage he will be able to complete the work on Eighth avenue this fall, an event which will be ready to proceed with the work.

The total cost of construction will be \$9,067,500.

Ornamental standards, are to be erected on Eighth avenue with mast-poles on ornamental brackets. This estimate of cost is based upon property owners bearing all the cost of construction and the city bearing all upkeep charges.

Upkeep and current for ornamental standards will cost the city \$12,325, and for upkeep of mast-poles \$2,200, or a total of \$14,525 per annum.

The system of ornamental lighting as proposed in the improvement of the city, which has been in operation since it was employed in many of the large cities which have discarded the old one-pole are light for the cluster lights on ornamental brackets.

During the pendency of the question as yet no protests have come in, and the matter now lies with the city council, which will be disposed of next Monday evening.

### WILL VOTE ON THE CARLINE EXTENSION TODAY

With Third Reading of Bylaw Ornamental Lighting Plans Will be Carried Out

Can Complete Work on Eighth Avenue Before the Winter Months Arrive

South East Calgary will today vote on the bylaw extending the Calgary street car system into the corporation.

Under the bylaw Calgary is given the right to construct the line or lines of electric railway from a point in the city of Calgary at the crossing of the Fifth Meridian with the main line of the C. P. R. in a south-easterly direction to the city limits, referred to as the junction.

Should the bylaw carry the city of Calgary is ready to begin at an early date to extend the system into the southern corporation.

### INTERURBAN DESIRES A REPAIR SHOP SITE

Application to Purchase 13 Acres in Breckenridge Addition Heard Tomorrow

Matter Once Referred Back to Secure Fuller Details of Company's Plans

Among the questions that will come before the city and new industries committee at the city hall tomorrow afternoon at 4:30 will be the application of the Alberta Interurban Railway for 13 acres of land in the Breckenridge addition, desired for repair shop purposes. The application was referred back to the committee some time ago in order to ascertain the nature of the enterprise and its extent.

Another matter that will engage the committee will be the report of R. W. Couture, C. E., on coal deposits and the railway project to the Hitchwood and Bankhead districts.

Upon Mr. Couture's report will depend whether or not further steps will be taken by the city looking to the development of the fields and the construction of a rail line to transport coal to Calgary. It is estimated that \$2,000,000 would be necessary to carry out the railway project, and there are those who believe the city would undertake the enterprise as a business investment.

### WHAT THE GREAT WEST DID YESTERDAY

In Calgary: Five stock companies, with a capital of \$250,000, were formed in Calgary this month.

In Winnipeg: Construction has been started on a \$100,000 warehouse. The Canadian Highway Association meets in Winnipeg in October.

In Port Williams: A wire-fence company purchases a site and will erect a plant in the near future. The first shipment of new grain this year left Port Williams last week. It was spring wheat and graded No. 1 Northern.

### NEW CITY HALL FOR LONDON

London, Ont., Sept. 24.—The city council tonight decided to buy the Spencer property at the corner of Dundas and Wellington streets as a site for the new city hall, paying \$45,000.

### FATHER OF DEAD GIRL COMES TO CLAIM HIS DAUGHTER'S REMAINS

Insists That Grace Inthout Did Not Fire the Shot Which Sent Two Into Eternity

Parent's Straightforward Story Unshrouds Much of the Mystery of Queen's Tragedy

Girl Was Pretty and Popular and Had Many Admirers in Her Home Town

THE only mourner at the funeral of Grace Inthout and Billy Inthout in Calgary this morning is Grace Inthout's father, Mr. J. B. Inthout, of Washington, for this purpose, in spite of all but irrefutable evidence of his daughter's participation in the double tragedy, at the Queen's Hotel last Friday night, he retains his faith in her innocence.

He is a rather small man with a thin, light moustache; there is nothing in his appearance to distinguish him from thousands of other hard-working fathers in Calgary. He is a man of common sense, middle-aged, whose ordinary straightforwardness and natural trust in and affection for his dead daughter, makes his position the more pitiful.

There is nothing about the carriage and deportment of Henry Inthout to suggest mystery, or to provoke curiosity. He is one of those parents up and down America who are bowed down under the sins and misdeeds of their children, and who, in the face of their own grief, are unable to see the error of their ways.

The tragedy which put Billy Inthout beyond the reach of the arm of the law, and cut short the life of his young wife, wrecks his final misgivings, and has grayed hairs of this helpless, lonely father and the grieving mother waiting in Washington.

The father's story.

Mr. Inthout arrived in Calgary yesterday and his straightforward story has unshrouded much of the mystery of the unfortunate affair, although he himself cannot understand why his daughter should have done such a deed, he cannot bring himself to a realization of her crime.

No matter what letters she may have written, or what she may have said, I will never believe that Grace shot Inthout," he says. "And in explaining the motive, man and woman, he says that he has intimate knowledge of her disposition and habits. "She was a very timid girl and never in her life discharged a firearm that I am aware of."

This is the father's loyal and natural belief.

The police think otherwise. They do not think it likely that the man could put two bullets through himself and then turn the gun on her. Either of the two shots in his chest would have taken effect immediately.

Girl Bought the Gun.

And it was the girl who purchased the gun in the store of Mrs. Martin's store. According to the evidence of the assistant, it was bought by her and she paid for it with money from her own purse.

Mr. Inthout's story of his daughter's girlhood is not an unusual one. She married Inthout against his wishes, but the home she made was open to her, and she was a favorite with her father and mother, and a popular girl in her home town.

The only reason by which he can account for her participating in the suicide pact was that Grace was in constant terror of her husband, and he forced her through her love for him, to participate in the deed.

Grace Inthout was pretty and popular, and among her admirers were two men, one Duro, proprietor of a moving picture show who headed with the Inthout family. Duro disappeared a long time ago, and there is a suspicion that Inthout killed him, alleging that he had shot Grace. It is thought that she believed Inthout guilty of this crime.

Mr. Inthout has no information that Duro is dead other than that he returned from the letters of Inthout on his return home. Duro disappeared a long time ago, and there is a suspicion that Inthout killed him.

Billy Inthout is the correct name of the dead man. His father died last year, and his insurance money was divided amongst his sons. Young Inthout's share was \$2,000. Previous to receiving this legacy, Inthout lived for two years in Garfield, employed as a telegraph operator. He made the acquaintance of Grace unknown to her parents, and while in Garfield there were no complaints of him, and those who knew him there spoke well of him.

After receiving his legacy, he departed for Oregon, and it was here that he began to get into trouble. The money did not long remain in his possession, and he was soon in reduced circumstances. He was back in need of money several times this summer, and received loans from friends as well as from Grace.

"They met again," said Mr. Inthout, "and fell in Spokane, where he was working and where my daughter went to learn the millinery business. They decided to get married several months before the event took place, and Grace wrote us of her intention of marrying him. I was very much against it, but she would have her own way, and as she was so young, I could not prevent it. The wedding took place in Spokane on August 20.

Shortly afterwards he left for Spokane. (Continued on Page 9)

### RAILROAD MATTER BEFORE BOARD OF TRADE

Councillors and Barristers Will Seek Information on Western Dominion Line

Details of Proposed Enterprise as Yet Carefully Hid From Public

WHOSE railroad and where it will enter Calgary will furnish the subject-matter at the special meeting of the council on the board of trade this afternoon when efforts will be made to glean further information as to the plans of the Western Dominion railway, which has submitted a route map to the city for approval.

Incidentally, Messrs. M. S. McCarthy, solicitor for the Canadian Northern railway, and Mr. R. B. Bennett, K.C., M.P., will seek the same information and endeavor to learn what it is all about.

The mystery surrounding the advent of the road was as deep as ever yesterday, no one apparently in a position to know, having anything to give out.

Thursday afternoon at 4:30 o'clock, the railway and new industries committee of the city will meet for the purpose of considering the route map and outline the extent of information desired before the city gives its sanction to the proposed route.

### NEW BUILDINGS PLANNED FOR GOVERNMENT

Architects Asked to Submit Plans for New Group of Buildings

Space Urgently Needed to Conduct Routine Business

Ottawa, Sept. 24.—The architects of Canada and the empire are to be invited to make plans for a new departmental building or group of buildings, to be constructed along the bank of the Ottawa river west of the parliament buildings.

The land has been acquired by the government and the former owners are now being settled with by agreement or arbitration.

Space is urgently demanded by the departments of the government in Ottawa, which have been scattered through the office buildings of the city in an effort to find room for them.

The late government was about to erect a big official building on Sussex street, but before a contract could be let they lost authority to close the bargain.

Some years ago the Liberal government had a competition among architects for a departmental building. The prizes ran up into the thousands, and most of the architects of Canada competed.

The results were disappointing, or a score of plans submitted, three were awarded prizes, but none were thought good enough to build from.

It is stated that Canadian architects have made great progress since that time, and that such a competition today would produce some splendid designs.

It is probable that the first prize will be twenty-five thousand dollars, and the competition will be limited to architects and architectural firms of Canada and Great Britain.

### NO GOOD COULD COME FROM TURKO-BALKAN WAR

That is the Opinion of the Diplomats of England, France and Russia

As Told to the Serbian Foreign Officials in a Call Made Yesterday

Belgrade, Serbia, Sept. 24.—No benefit could be obtained by the Balkan nations from a war with Turkey, according to a declaration said to have been made by the diplomatic representatives of Great Britain, France and Russia during a call at the Serbian foreign office today.

The Stampa is the authority for the report of the foreign diplomats' action, and it adds that the powers at the same time expressed their intention of inducing Turkey to introduce early reforms in Macedonia.

In spite of the official denials that there is any prospect of hostilities, the Serbian war office continues to purchase large quantities of food supplies.

### INTERESTING BRITISH CAPITAL IN THE BIG CANADIAN WEST

C. P. R. Has Adopted New Policy; Exploiting West Among the Rich of Britain

British Capitalists, Financiers and Members of Parliament Are Being Interested

Several Hundred Prominent Men Have Been Brought into West by Season's Work

THE C. P. R. has adopted a new policy of advertising for western Canada, and the promise of immediate returns is being fulfilled in the rapid settlement of the Columbia Valley this year. The new policy is one of interesting English capitalists, financiers and members of parliament, whose personal interest and influence extend over a considerable district, in the opportunities of the new country. Of several hundred hotel visitors from England who passed through Calgary and Banff this year, a large majority have been directly interested by members of the C. P. R. staff in England. The campaign to attract the personal influence of these people has been prosecuted vigorously by J. M. Gibbon, head of the advertising department in England. Mr. Gibbon is now in Canada on his annual tour of the west, and returned to Calgary yesterday after a trip up the Columbia Valley.

One of the results of this personal campaign among financiers and capitalists, says Mr. Gibbon, is the rapid settlement of the fruit lands in the Columbia Valley. Every English visitor of the past year has returned to the old country with definite first hand information for the people of his district, and has proved one of the best possible advertisers for the country. Of the incoming settlers into British Columbia fruitlands, the greater number has been induced to settle here by their friends or landlords in the old country, who have been impressed with the opportunities of the new land.

At the fair at Wintereport, which is 90 miles from a railway, over 100 were in attendance this year. This settlement has been effected within one year. With the opening up of the spring a very large influx of English settlers will augment this number considerably.

A land company has also been organized in Eastern Ontario, and a campaign to interest Eastern Canadian investors is keenly inaugurated.

### SLOW PROGRESS ON G. T. P. WEST OF EDMONTON

Vancouver, B.C., Sept. 24.—Investigation just made by a representative of the Tribune, a newspaper of Port George, shows that comparatively little work is being done on the Grand Trunk Pacific between that town and west of the town of Edmonton. On account of a shortage of labor and supplies, many of the camps have been closed down.

Winnipeg, Sept. 24.—At the Conservative convention of the constituency of Macdonald, Alex Morrison of Carleton Place was chosen as the candidate of the party for the election, which falls on October 15. Mr. Morrison is president of the Conservative association of the constituency, and is a prominent farmer with distinctly protectionist leanings. His name has been mentioned for some time in connection with the vacancy, and it was thought that a representative of the farmers would make a better showing than some one from the city. The meeting was afterwards addressed by the nominee, Sir Alexander Balfour, and Aime Bonard, M.P.P.

# The Farmers of the West Are the Richest Agricultural People in the World

SIR THOMAS SHAUGHNESSY.

Montreal, Sept. 24.—Sir Thomas Shaughnessy returned from his annual inspection trip to the West today. "Everybody in the West appears satisfied," said the Canadian Pacific railroad president, "and there is no reason why they should not be for the farmers of the West are the richest agricultural people in the world. The grain crop will be a bountiful one, but the wet weather is retarding the harvest and delaying the movement of the crop and this will mean a very short shipping season. We made ample preparations for the harvest before it was ready and under the existing conditions we can only do the best we can. I do not anticipate the difficulties some of our friends are predicting regarding the movement of the grain from the West. Of course there will be a tremendous rush—I trust we will always have that—but with a reasonable degree of patience everything will work out all right in the end."

Asked about the suggestion of The Grain Growers' Guide, that rates via the south should be secured, Sir Thomas replied: "We have heard so many fears expressed in the past that there must be an extraordinary condition in the grain traffic that we have become rather accustomed to it and realize that many people are given to exaggeration. There will be difficulties, of course, as there are always difficulties in connection with the handling of so much grain during the short season before the close of lake navigation but I do not anticipate there will be anything of a serious nature."

### Tidings of Great Joy: The Bank of Montreal Will Loan Miss Calgary Two Million Dollars

Final negotiations for the loan of \$2,000,000 to the city of Calgary by the Bank of Montreal were closed yesterday at 4:15 p.m. and City Treasurer Burns now has "the money in his pocket and prepared to spend it," to quote him.

With the closing of the loan, secured by debentures which have been issued for some time, but which were still undisposed of on the London market, a number of improvements, halted for lack of funds, and indebtedness incurred will be immediately disposed of.

Just how the loan will be apportioned between the various by-laws has not been definitely settled, and will be the subject of a session of the commissioners and executive, either today or tomorrow morning.

At the session Comptroller Wood will submit a tabulated statement showing the amount of funds necessary to complete the more important improvements as well as an apportionment of the amounts required for other purposes. The purpose of this statement is to guide the executive department in making provisions to take care of all obligations demanding immediate attention and every cent of the loan to meet emergencies coming properly within its scope.

It is the opinion of Mayor Mitchell and Treasurer Burns that although the debentures of certain by-laws were given as security there is no provision compelling the application of funds to these alone.

Of the funds secured, \$1,500,000 will be applied immediately to meeting obligations already contracted and work done. The \$500,000 remaining will be used to meet expenses between now and January 1 and the first few days of the new year.

Among the matters that will receive immediate attention, says Mayor Mitchell, will be the completion of water main extensions and improvements going away with dead ends. Other improvements will follow in turn.

With the completion of the water extension improvements, a cut in the insurance rates for business property is looked for. This has been promised by the board of underwriters as soon as certain improvements are carried out. Already there has been a cut of 15 per cent. in residence rates, and it is believed the business rate will be lowered accordingly.

Now that Treasurer Burns can handle the check book a general rush is expected at the city hall to collect deferred payments for which creditors of the city have been awaiting the closing of the present negotiations.

### NO PROTESTS RECEIVED ON LIGHTING SCHEME

Southeast Calgary Will Determine if Lines Are to Enter Its Boundaries

City Ready to Extend Service as Soon as Bylaw Receives Ratification

WITH the expiration Monday of the time limit in which protests might be filed against the installation of ornamental lighting within the district bounded by Seventh, Eighth and Ninth avenues and Fourth street east and Fourth street west, all that is now necessary to permit the work to proceed is the third reading of the bylaw at the next session of the city council.

City Electrician Brown said yesterday that should the bylaw find no objection he will be able to complete the work on Eighth avenue this fall, as everything is ready to proceed with the work.

The total cost of construction will be \$8,057.50.

Ornamental standards are to be erected on Eighth avenue with magnetic arcs on ornamental brackets. This estimate of cost is based upon property owners bearing all the costs of construction and the city bearing all upkeep charges.

Upkeep and current for ornamental standards will cost the city \$12,825, and for upkeep of magnetic \$5,200, or a total of \$18,025 per annum.

The system of ornamental lighting as proposed in the improvement is similar to that employed in many of the large cities which have discarded the old one-pole arc light for the cluster lights on principal thoroughfares.

During the pendency of the question as yet no protests have come in, and the matter now lies with the council and may be disposed of next Monday evening.

A BACHELOR SUCCEEDS

General Sir Robert Baden-Powell, founder and chief of the Boy Scout movement, has been considered a confirmed old bachelor. At the age of 57 is engaged to marry Olive Symes, daughter of Mr. and Mrs. Harold Symes of Parkstone, Dorset. The wedding will be celebrated before the end of the year. Recently it was said that Lord Kitchener, another bachelor, was likely to wed soon. A. J. Balfour and Lord Haldane are also bachelors.

### WILL VOTE ON THE CARLINE EXTENSION TODAY

With Third Reading of Bylaw Ornamental Lighting Plans Will be Carried Out

Can Complete Work on Eighth Avenue Before the Winter Months Arrive

South East Calgary will today vote on the bylaw extending the Calgary street car system into the corporation.

Under the bylaw Calgary is given the right to construct the line or lines of electric railway from a point in the city of Calgary at the crossing of the Fifth Meridian with the main line of the C. P. R. in a south-easterly direction to the city limits, referred to as the junction.

Should the bylaw carry the city of Calgary is ready to begin at an early date to extend the system into the southern corporation.

### WHAT THE GREAT WEST DID YESTERDAY

In Calgary: Five stock companies, with a capital of \$250,000, were formed in Calgary this month.

In Winnipeg: Construction has been started on a \$60,000 warehouse to be located on the Canadian Highway Association meets in Winnipeg in October.

In Port William: A wire fence company purchases a site and will erect a plant in the near future.

The first shipment of new grain this year left Port William last week. It was spring wheat and graded No. 1 North-west.

### RAILROAD MATTER BEFORE BOARD OF TRADE

Councillors and Barristers Will Seek Information on Western Dominion Line

Details of Proposed Enterprise as Yet Carefully Hid From Public

WHOSE railroad and where it will enter Calgary will furnish the subject matter at the special meeting of the councillors of the board of trade this afternoon, when efforts will be made to glean further information as to the plans of the Western Dominion railway, which has submitted a route map to the city for approval.

Incidentally, Messrs. M. S. McCarthy, solicitor for the Canadian Northern railway, and Mr. R. B. Bennett, K.C., M.P., will seek the same information and endeavor to learn what it is all about.

The mystery surrounding the route of the road was as deep as ever yesterday, no one apparently in a position to know, having anything to give out.

At 4:30 o'clock the board of trade met in the city hall, and the councillors of the board of trade met for the purpose of considering the route map and the extent of information desired before the city gives its sanction to the proposed route.

### NEW BUILDINGS PLANNED FOR GOVERNMENT

Architects Asked to Submit Plans for New Group of Buildings

Space Urgently Needed to Conduct Routine Business

Ottawa, Sept. 24.—The architects of Canada and the empire are to be invited to submit plans for a new departmental building or group of buildings to be constructed along the bank of the Ottawa river west of the parliament buildings.

The land has been acquired by the government and the former owners are now being settled with by agreement or arbitration.

Space is urgently demanded by the departments of the government in Ottawa, which have been scattered through the office buildings of the city in an effort to find room for them.

The late government was about to erect a big official building on Sussex street, but before a contract could be let they lost authority to close the bargain.

Some years ago the Liberal government bought a competition among architects for a departmental building. The prizes ran up into the thousands, and most of the architects of Canada competed.

The results were disappointing. A score of plans submitted, three were awarded prizes, but none were thought good enough to build from.

It is stated that Canadian architects have made great progress since that time, and that such a competition today would produce some splendid designs.

It is probable that the first prize will be twenty-five thousand dollars, and the second prize will be ten thousand dollars.

NEW CITY HALL FOR LONDON

London, Ont., Sept. 24.—The city council tonight decided to buy the Spencer property at the corner of Dundas and Wellington streets as a site for the new city hall, paying \$45,000.

### FATHER OF DEAD GIRL COMES TO CLAIM HIS DAUGHTER'S REMAINS

Insists That Grace Inthout Did Not Fire the Shot Which Sent Two Into Eternity

Parent's Straightforward Story Unshrouds Much of the Mystery of Queen's Tragedy

Girl Was Pretty and Popular and Had Many Admirers in Her Home Town

THE only mourner at the funeral of Grace Burnell Inthout and Billy Inthout in Calgary this morning is Grace Burnell's father. He has come from Garfield, Washington, for this purpose, and in spite of all but irrefutable evidence of his daughter's participation in the double tragedy at the Queen's Hotel last Friday night, he retains his faith in her innocence.

He is a rather small man with a thin, light mustache; there is nothing in his appearance to distinguish him from thousands of other hard-working fathers, in Calgary. He is a more or less commonplace, middle-aged man, whose ordinary straightforwardness and natural trust in and affection for his dead daughter, makes his position the more pitiful.

There is nothing about the carriage and department of Henry Burnell to suggest mystery or to provoke curiosity. He is one of hundreds of parents up and down the province who bowed down under the sins and misfortunes of their children—a lonely, broken-hearted man, unsupported in his grief by the Calgary Cemetery with the bullet-wound of her own hand in her breast.

The suicide pact which put Billy Inthout beyond the reach of the arm of the law, and cut short the life of his young wife, wrecks its final miseries over the fast fading hairs of this lonely, lonely father and the grieving mother waiting in Washington.

The Father's Story.

Mr. Burnell arrived in Calgary yesterday and his straightforward story has unshaken the much of the mystery of the unfortunate affair, although he himself cannot understand why his daughter should have done such a deed, and he cannot bring himself to a realization of her crime.

"No matter what letters she may have written or what the circumstances may be, I will make believe that Grace shot Inthout," he says loyally. "And in explanation, he advances his own knowledge of her character and habits. "She was a very timid girl and never in her life discharged a firearm that I am aware of."

This is the father's loyal and natural belief.

The police think otherwise. They do not think it possible that the man should put two bullets through the chest of the assistant, it was bought by her father and paid for it, with money from her own purse.

Mr. Burnell's story of his daughter's death is not an unusual one. She married Inthout against his wishes, but the home at Garfield was always open to her and she was a favorite with her father and mother, and a popular girl in her home town.

The only reason by which he can account for her participating in the suicide pact was that Detro was a constant terror of her husband, and he forced her through her love for him, to participate in the crime.

Grace Burnell was pretty and popular, and among her many admirers was one Detro, proprietor of a moving picture show who boarded with the Burnell family. Detro is supposed to have killed Inthout, alleging that he had about Grace. It is thought that she believed Inthout guilty of this crime. Mr. Burnell has no information that Detro is dead, other than that gathered from the letters of Inthout on his return he will immediately like steps to find out whether Detro lives.

Inthout Correct Name.

Billy Inthout is the correct name of the dead man. His father died last year, and his insurance money was divided amongst his sons. Young Inthout's share was \$25,000. Previous to receiving this legacy, Inthout lived for two years in Garfield, employed as a telegraph operator. He made the acquaintance of Grace unknown to her parents, and while in Garfield there were no complaints of him, and those who knew him there spoke well of him.

After receiving his legacy, he departed for Oregon, and it was here that he began to get into trouble. The money did not long remain in his possession, and he was soon in reduced circumstances. He had a very large influx of money several times this summer, and received loans from friends as well as from Grace.

"They met again," said Mr. Burnell, "and he fell in Spokane, where he was working and where my daughter went to learn the millinery business. They began to get married several months before the event took place, and Grace wrote us of her intention of marrying him. I was very much against it, but she would have her own way, and as she was of age, I could not prevent it. The wedding took place in Spokane on August 20.

Shortly afterwards he left for Spokane. (Continued on Page 9)

### Steel and Ornamental Iron Plant To Utilize Six Acres of Territory Will Be Erected During Autumn In Manchester Industrial Addition

Mr. J. Roydon Estey on Way From East, Where Plant and Stock Have Been Purchased and Final Details Have Been Completed; Acquires Additional Ground

Negotiations With Toronto Firm May Bring Manufacturing of All Material for Western Consumption to Calgary; Breaking of Ground for Plant Will Start Shortly

WITH the granting by the city of an additional 50 days' option on Lot 3, Block 2, Manchester Industrial addition, thus assuring the applicant Lots 1, 2 and 3 of the same addition, or six acres, ground will shortly be broken for the erection of the plant of the Western Steel and Ornamental Iron Works, Limited, which, in making application for the renewal of the option held on this lot, informs the city that the corporation will have its plans erected this fall.

The application was made by Mr. J. Roydon Estey, who promoted the enterprise, and Mr. Estey explained that the reason for being compelled to renew his option before completing the final deal was his inability to reach Calgary before it expired. However, he expects to arrive shortly and close up the deal, his application having been accompanied by a substantial cheque.

During his stay in the East Mr. Estey has been purchasing equipment and stock and this, it is said, will be in the city within a short time.

Negotiations are now in progress with a large ornamental steel and iron firm of Toronto, looking to the manufacturing in Calgary of all the product for Western consumption.

This would entail the employment of a large number of men and add materially to the payroll the new enterprise will supply when the works are completed.

The new company was granted a provincial charter at the last session, and Mr. Estey says it is ready now to complete all details and erect the plant.

### RICHARDSON IN FIELD WITH PROGRESSIVE POLICY

Well Known Manitoba Politician in Contest in MacDonald

Advocates Wider Markets, Including Increase in British Preference

Hon. Frank Oliver Taking Stump for His Candidature

Winnipeg, Sept. 24.—R. L. Richardson has announced his acceptance of the nomination for the constituency of MacDonald tendered him at a convention held in Carman two months ago, and has issued an address to the electors defining his policy.

He announces that he accepts the nomination for reciprocity and free trade of the law, and make a strong plea for wider markets. He advocates a gradual increase in the British preference "until free trade exists between the Mother Land and her Canadian daughter." He also stands for steady tariff reduction on all the necessities of life.

Hon. Frank Oliver will take part in the MacDonald campaign in support of R. L. Richardson. He will speak at the meeting in St. Francois Xavier Thursday evening and in St. James on Saturday evening.

### NO GOOD COULD COME FROM TURKO-BALKAN WAR

That is the Opinion of the Diplomats of England, France and Russia

As Told to the Serbian Foreign Officials in a Call Made Yesterday

Belgrade, Serbia, Sept. 24.—No benefit could be obtained by the Balkan nations from a war with Turkey, according to a declaration said to have been made by the diplomatic representatives of Great Britain, France and Russia during a call at the Serbian foreign office today.

The Statute is the authority for the report of the foreign diplomats' action, and it adds that the powers at the same time expressed their intention of inducing Turkey to introduce early reforms in Macedonia.

In spite of the official denials that there is any prospect of hostilities, the Serbian war office continues to purchase large quantities of food supplies.

### SLOW PROGRESS ON G. T. P. WEST OF EDMONTON

Vancouver, B.C., Sept. 24.—Investigations just made by a representative of The Tribune, a newspaper of Port George, shows that comparatively little work is being done by the Grand Trunk Pacific between that town and Redwood, west of Edmonton, on account of a shortage of labor and supplies, many of the camps have been closed down.

### HALF A MILLION WORKERS WILL JOIN IN GENERAL STRIKE IN BELGIUM

Socialists Plan Big Move in Support of Universal Suffrage Amendment to Belgian Constitution Now Before Belgian Parliament

Brussels, Sept. 23.—A great general strike is projected by the Socialists of Belgium in support of universal suffrage amendment to the constitution. Hostilities against the government, which has resolutely set its face against the desired legislation will begin in November. Half a million workers, it is calculated, will be involved in the strike, which it is proposed shall last six weeks at a cost to their funds estimated at ten million dollars.

The railways, the postal and telephone services, mines, docks, arsenals, factories and workshops of all kinds are to be involved in what its promoters contend will be a bloodless campaign. Women seem as earnest as the men in the propaganda which reaches throughout Belgium. Promises of substantial financial support have been received, the committees of officials aver, from the United States, France, England, Germany, Sweden and elsewhere, and arrangements have been completed, according to the same authorities, to send forty thousand children to temporary homes in the north of France on the declaration of the strike.

### HIGH TARIFF FARMER WILL RUN IN MACDONALD

Alex. Morrison, of Carman, Selected by Conservatives

Winnipeg, Sept. 24.—At the Conservative convention of the constituency of MacDonald, Alex. Morrison of Carman was chosen as the candidate of the party for the election, which falls on October 12. Mr. Morrison is president of the Conservative association of the constituency, and is a prominent farmer with distinctly protectionist leanings. His name has been mentioned for some time in connection with the vacancy, and it was thought that Morrison would make a better showing than some one from the city. The meeting was afterwards addressed by the nominee, Sir Redmond Roblin, W. Sanford Evans, and Aime Renaud, M.P.

NO PARTYISM IN CITY AFFAIRS

The local Conservative organization, according to reports, is rather inclined not to enter a party into the municipal field, which shows wisdom on the part of the gentlemen at the head of the party, both as individuals and as members of a party.

No right thinking man believes that conditions in the city would be improved by the introduction of party politics into municipal affairs. Some members of the party which is temporarily in the stronger position may believe that the party would be benefited for the time being, by getting control.

As a matter of fact, the party in control, being always on trial before the people, would probably lose more than it would gain even if it controlled the municipal administration. The local Conservatives who object to bringing partyism into the municipal campaign are not only wise as citizens but they are discreet party men.

THE LATE SIR RICHARD CARTWRIGHT

One of the greatest figures in public life in Canada passed away when Sir Richard Cartwright died. We like to regard him as a typical Canadian of the better kind. He was a man of great ability, probably the best debater who ever addressed the speaker in a Canadian parliament, a strong campaigner, and a capable administrator.

Though he supported Sir John A. MacDonald for a time, he was always a Liberal of the Liberals. He was even an advocate of advanced Liberal principles. His grandfather, in the early days, was in the forefront in the battle for some sort of representative government.

Sir Richard Cartwright left the Conservative party at the time of the Pacific scandal. For the next twenty years he was a dominant factor in the Liberal party. He was the strongest advocate of unrestricted reciprocity, which later on he described as an extreme measure prescribed for a very desperate condition of affairs. His activity brought down upon him the most virulent campaign of abuse that was ever heaped upon any public man in Canada.

He was a great Canadian. He was closely associated with public affairs during his whole life. He was a factor for good in public affairs. Canada is much better because of his energetic and devoted life.

MR. BENNETT'S ELEVATORS

Certain newspapers in this Western country have recalled the fact that the Conservatives in the house attempted to amend the Manitoba Grain Act giving the elevators the preference over the farmers and placing the farmers in a worse position than at present in the matter of getting cars to market their grain, and have referred to it again now that Mr. Bennett, the only Conservative member for Alberta and the ablest Conservative member in Western Canada, has secured control of all the grain elevators in this country.

No person has criticized Mr. Bennett unfairly because he has secured control of the elevators. It would be much better if the country would take

control of the elevators. Mr. Bennett promised government ownership of grain elevators, but he has not fulfilled his promise and he does not intend to fulfill it. But if we are to have trusted owned elevators, there is no particular reason why Mr. Bennett should not be at the head of the trust.

But Mr. Bennett is a member of parliament. At the last session of the Dominion house, the party which Mr. Bennett supports undertook to give certain advantages to the elevators at the expense of the farmers. Mr. Bennett supported his party in this unwise policy. Mr. Bennett has announced that he will introduce into the house at the approaching session some of the legislation which he failed to get through last session. If he brings in the grain act again he will ask parliament to sanction a change which will benefit Mr. Bennett's trust at the expense of the Western farmers.

It is not unreasonable then that newspapers interested in the progress of this Western country should have some anxiety about the attitude of Mr. Bennett in this very particular matter.

HOSPITAL ACCOMMODATION

In the meantime Calgary is greatly in need of hospital accommodation. As a matter of fact the conditions are shameful. The General Hospital has about fifty more patients than it can conveniently accommodate. The Holy Cross hospital is turning away many deserving cases daily because it cannot extend its accommodation.

In the meantime the city council is engaged in a highly interesting theoretical discussion upon the respective merits of a city owned or a private owned hospital.

The need of increased accommodation is very pressing. The emergency exists and in a very decided and positive manner. Conditions are not only disgraceful but they are alarming. The question is, what is to be done about it? This is hardly the time to start in on any long discussion about the policy of public ownership of general hospitals.

Some relief should be given at once. The city could very well grant some temporary assistance to both hospitals and then decide more leisurely upon a permanent hospital policy.

LANDS FOR THE PROVINCES

In the advance notices of the approaching session of the Dominion parliament, special reference is made to the navy bill and to a Bank Act which will be introduced for the consideration of the members.

Nothing is said about Mr. Borden fulfilling his promise to hand over the public lands to the provinces, which was made some time ago and merely remains a promise and is likely to remain a promise.

Mr. Borden in his campaign in Western Canada insisted that he would turn over the public lands to the provinces as soon as he took office. He made a time limit too and he announced his policy right in this city in words which could not be misunderstood. But he has allowed the time limit to elapse and he has done nothing further than permit his subordinates to make use of the promise in the attempt to bribe the electors to vote against the Sifton and Scott governments.

But the electors of Saskatchewan and Alberta have declared quite clearly that they cannot be taken in in any such manner. They look upon a promise as a promise. They remember that the promise was given without qualification and they expect that it will be carried out in the same manner. They have shown their scorn for little men like the leader of the opposition in Alberta, who have urged the premier to violate his promise in order to gain a questionable party advantage. They expect that some action will be taken at an early date, and if such action is not taken soon they will consider themselves deceived. Mr. Borden is due to make a move at the approaching session.

BEST PUBLICITY AGENT

The municipally owned Calgary street railway is the best publicity agent that Calgary or any other city has. It has paid it way from the beginning and its wonderful success is attracting the attention of different cities throughout Canada, United States and Europe. That is the kind of publicity that goes home.

The Kansas City Star prints an interesting sketch of the Calgary street railway, with the display heading "Calgary met the problem. A public owned street car system paid from the beginning. With fares practically the same as those advocated by Mayor Jost, the profits have grown with each month."

A very full description is given of the Calgary system, of the enterprise of the city, of its rapid expansion and of the success of the street railway. The street railway system is the best publicity agent which we have and the best feature of it is that it brings us in a very fine revenue every month, whereas the other publicity agents are expensive luxuries and for the most part useless.

EDITORIAL NOTES

The city council and all others interested should give all manner of encouragement to the City Planning Commission, not merely because Edmonton or any other city is taking energetic action, but because it is good business for Calgary to take such action.

R. L. Richardson is the Progressive candidate in the bye-election in Macdonald riding. He is not a very loyal party man and in his checked political career he has been in many party camps, but he is a vigorous fighter and will put up a battle that will make the high tariff people worry all the time.

Across the line the honorable gentlemen who are campaigning for high office are referring to one another as "four-flushers," "squealers" and that sort of thing, which rather indicates that the campaign there is rather a warm one.

Calgary University will start on Monday with very good quarters, an excellent staff of professors and a fairly good attendance. Very few of the great world universities started in a more promising manner.

LETTERS TO THE EDITOR

Defends the River Bow

Editor, Albertan: I cannot allow a gross libel on a perfectly innocent party to pass without an emphatic denial. I refer to the statement which appeared in your evening contemporary that the Bow was a "treacherous" river which baffled the most deeply laid plans of eminent engineers.

W. G. BLYTH M. MOT. C.E.,
Inspecting Engineer
Department of the Interior
British Columbia Fruit.

Editor, Albertan:—In your issue of 20th inst. under heading "British Columbia Fruit Discriminated Against," appears an article purporting to be an interview with Mr. W. T. Broad, of Summerland, B.C., in which he reviews—from the standpoint of a B.C. fruit grower—the serious situation of the fruit growers of his province, in the matter of disposing of their fruit crop.

At the close of his interview he gives an instance in point of a car of B.C. fruit that had been consigned to some merchant in Carstairs, who, after they flatly refused to accept delivery of the goods, had taken the fruit to the market in Carstairs, inferring that these merchants discriminated against the B.C. car because it was home grown produce.

And to prove to Mr. Broad that the fruit from his province is not being discriminated against, I am in a position to know that these same dealers are regular buyers direct of B.C. fruit and vegetables, and find the goods quite suitable for their business.

And the action of the Vernon Fruit Co. in the merchants' case, in Carstairs that if they did not accept this particular car, which they had not ordered, they would have it peddled at less than the market price to consumers, is not one which would commend itself to the average retailer. It is a case of a merchant, certainly, having an adverse effect on B.C. fruit.

A RETAILER

Public School Grounds
Editor, The Morning Albertan: I would like to make a suggestion through your columns in the hope that it may take root in the mind of someone with sufficient ability to present it properly so far as to compel action by the proper authority.

There is a lower set of living more or less of the nature of a slum, in the vicinity of the city hall, where the expenditure of public funds, and a few other things, which Calgary merchants and manufacturers are so anxious to have, are being expended.

There would be no need of encroaching upon playground space. The areas involved would be a mere dipper when compared with the thousands of dollars that are wasted every year by the city authorities and property owners through ignorance of the habits and needs of ornamental trees and shrubs.

There is nothing more vital to this great northwest than that the rising generation be taught how to correct the mistakes of the men and women of today regarding the culture of the green and shrubs.

Rome, on her seven hills, surmounting Tibur's flow: Is not more favored than Calgary with her Bow and Elbow, Twin arteries flooding to her pulsating heart.

Opportunity for her adornment is here, and should be seized. The best way, the surest way, the cheapest way to embrace the opportunity is to teach the youth of today, as a part of their common school education, at least the fundamentals of the how, when and why of plant life and culture. The best way to teach is by demonstration and the best way to learn is by observation and experience.

A teacher of the art of planting shrubs would be kept busy the year around, and caring for trees and ground. As much of the teaching would be out-of-door demonstration, many schools could avail themselves of the chance to learn something about plant culture. Classes of school children could be taken to the various parks and the sites of trees and shrubs or defects from whatever cause noted and instruction given as to the proper remedy.

Ruth Chesters Lucky Friday, the 13th.

A True Want Ad Storyette

(Copyright, 1912, De Forest Porter)
With the passing of June, Ruth Chesters' daily routine in the busy town of Shirley were at an end. With the passing of June, Ruth Chesters felt that much of her happiness was also passing.

Each girl exclaimed with delight at the view from every side of the verandah, and Ruth sat close to Mrs. Beach, who was chaperoning the party, and confided in her that she found the life monotonous and weary and that she longed for something to do which would help financially at home.

"My dear, of all the girls I know, I think you have the most to be thankful for in this lovely country home and the quiet of the beautiful hills. You want to be useful and help your father's household, and I am sure that any of your rooms for summer vacations to city girls who must spend their vacations somewhere, I will be glad to have you at home, although we lived only in the suburbs. I was able to earn enough for a trip to Europe by carrying out a similar plan. If your father approves, you can do the same here." Then Mrs. Beach told Ruth how to write an attractive advertisement to be inserted in the Want Ad department of three city newspapers.

LUKE McLUKE SAYS

One thing in favor of cool weather is that it acts the air on the body to display their dirty elbows.

The men are beginning to die for overcoats, but the girls will be comfortable in what they wear last July.

Women are not in such great danger as the purists would claim. A woman who mingles her own business is seldom molested on the street, and no man will flirt with a girl unless she acts as though she wanted him to flirt.

No matter how much a woman admires her husband, she will see to it that she has a horrible crayon barrette of his features is framed and placed in the parlor, so that posterity may shudder.

One day a man invented a device that kept kimono and house dresses fastened in front, but he stayed to death.

The only way I see for the girls to get their skirts any longer is to wear the dear things as they wear them in pairs.

IS ACCUSED OF KILLING
Danville, Ky., Sept. 24.—Mrs. Helen Williams Lane, wife of three months, was arrested today charged with killing her husband, Charles Lane, at their home here. Lane was shot twice. Lane was 66 years old and his bride 54.

The Absolute Necessity of Proper Corseting

NEVER before has there been a time when so much was dependent upon the corset. Dressmakers, modistes, women of fashion everywhere have come to realize the absolute importance of the up-to-date corset. A mis-fitting, poorly made, out of fashion corset will defeat the most cleverly designed costume.

The very latest corset creations, as shown at "The Bay" are indeed marvels of corset craft. Especially is this true of the superb new Bon Ton and Royal Worcester models. They are not only fashioned after the newest lines, but the designers have left no detail unattended, are perfect in comfort and worn with ease, sitting, standing or walking.

We mention today some of the new models.
Style 238—Bon Ton Corset, low bust, very long skirt and back, six hose supporters; boned with wunda-bonn; batista, white only; sizes 18 to 30. Price \$6.75

The Admiration of All Paris Creations in New Hair Goods

No part of a ladies' toilet is so essential to her appearance as her head-dress. And particular women appreciate when buying hair goods the services of a saleslady who thoroughly understands the art of matching hair correctly, the question of the most desirable and becoming style of each individual and so on. This is the superior service rendered patrons of this store, and the real satisfaction kind.

Particular Women Will Appreciate The "Reynier" Glove of Quality

To those who are not familiar with the name "Reynier" we might say that it stands for the finest quality in Gloves. The "Reynier" Glove was awarded the "grand prize" at Paris in 1900, and every season since the makers have attempted to better it in anything its quality and make up. Little wonder then if we speak of this brand as supreme among the many styles of gloves in our Glove Section. Dainty women everywhere find Reynier Gloves meet the requirements of an all-round glove for practically every occasion. During the process of their manufacture at Grenoble, France, these fine products undergo 57 operations before being pronounced perfect, and this should be pretty good evidence of the scrupulous care used in making them.

Perhaps you haven't seen the Reynier yet, in which case you could not do better than call today and make their acquaintance. We have a very complete range of colors and sizes, and just read how reasonably priced they are. Today, per pair \$1.25, \$1.50 and \$1.75

Shoe Beauty For The Woman of Fashion

TO THE WOMAN of refinement and good taste, the fashionable new footwear will appeal strongly. They have been selected from among the samples of many noted makers for their style, splendid workmanship and high quality.

It is almost sufficient then, for us to say that these shoes are New York and American makes and styles, and that we considered them good enough to offer our most particular clientele.

Then there's the celebrated "Sil-Kid" Shoe for women. An American shoe enjoying an immense popularity. These we have in the newest models and most desirable leathers. \$4.50 to \$6.50

Correct Styles In New Fall Skirts

JUST a word as to what's what in skirt fashions for the coming season, from this authoritative style centre. Narrow skirts still prevail and their vogue will probably continue. All the new skirts we are showing, however, permit of perfect freedom in walking, be it in back or sides, which are closely stitched down to better preserve a silhouette of perfectly straight lines.

Outing skirts of tweed, diagonals and straight cloths are going to be very popular, as well as whipcords and serges. See the varied collection we have gathered here for Calgary's best dressers.

Another striking model from \$5.50 to \$15.00 Riding Skirts, of tan khaki of excellent quality, well made and finished throughout; cloth guaranteed to be thoroughly sponged, shrunk and stretched with silk, embodies all the conveniences of a correct and proper riding garment. Splendid value \$6.50

HUDSON'S BAY COMPANY

1100-1200 FINE

CORSETS

The Best Corsets at the Price of Ordinary Corsets. Why not clothe your form with the best there is in Corsets when you can have the best for little more than ordinary Corsets?

Why not clothe your form with the best there is in Corsets when you can have the best for little more than ordinary Corsets? We stock all the best makes, such as Madam Lyr, Redfern, Warner, Gossard, Smart Set, Nemo, La Diva, D. & A., and Compton's C.C. & A. Grace.

DIVINE SARAH SAYS THE SUFFRAGETTES ARE WRONG

London, Sept. 24.—Women and politics formed the subject of an interview with Sarah Bernhardt on her arrival in London. The actress made an interesting comparison of the temper of men and of women, and contrasted the suffragettes on the ground that there is a nobler opening for feminine activity in art, music and literature. She said that she had met many men who differ much from that of women. The latter are charming, but they do not create any subject of enthusiasm in America. Men are enthusiastic auditors, and it is the same thing in politics. Voting does not mean real politics, and cabinets and parliaments are better without women. Art, literature and the drama are living and passionate, and that is why women are needed at their side. The modern woman is an increasing power all over the world, and there are many openings where she might wield a divine influence. At one time men confined their influence too much to the home. It was a glory often, but frequently was an unimpressive subjugation. Women were too restricted in the past century, but now they are happily emancipating themselves. "I am prejudiced for art, it is true, because politics offer nothing worth while to the nature of woman. The vote? Yes, that might well be allowed to women, for it is really ridiculous to see a great artist deserted from voting while a man who knows nothing about weaving a staircase is allowed the franchise."

20 People Received Something For Nothing

As a result of reading our ad. in The Morning Albertan. This is not an everyday happening, but all who read our ads. every day will make by taking advantage of our many specials offered therein TODAY WE MENTION

- HEATING STOVES: The "Perfection" Heater is the best and largest assortment in Calgary to choose from. Prices \$9.00 and up.
OIL HEATING STOVES: Without any doubt the best. Prices \$4.50 to \$9.00.
BUCKSAWS: You need one now for cutting up wood. 3 styles \$9.00, \$6.00 and \$1.00.

McDonald; second councillor, G. Kelly; third councillor, E. Harvey; secretary-treasurer, J. B. McGuire.

"Best Yet" Social: The "Best Yet" social, the first of the Westbourne Baptist church of the season, lived up to its name. The temple of everyone present had the "best yet" time. There was a

Parlow-Nelson: The nuptials of Miss Florence Nelson, only daughter of J. E. Nelson, and Arthur Vernon Parlow, younger son of William H. Parlow, were solemnized at the Pro-Cathedral of the Rev. Charles Horne officiating.

The bride wore a modish navy blue tailored serge suit with black tulle hat trimmed with an ostrich bandeau and black spray with touches of cerise. She carried a crocheted lace hand bag. Her bridesmaid, Miss Marjorie Parlow, sister of the groom, was in a cream tulle dress with picture hat, and carried a beautiful bouquet of roses. The bride was given away by her father, J. E. Nelson.

Mrs. Nelson, mother of the bride, wore a pretty gown, combining black tulle and lavender satin. Miss Marjorie Parlow, the groom's mother, donned for the occasion a blue tulle, champagne gown, tastefully trimmed.

The groom's attire was a black tulle suit with white shirt, white tie, and a cream tulle waistcoat. The bride's bouquet was given away by her father, J. E. Nelson.

plendid turnout, and about sixteen dollars was made to be devoted to church work. An especially good program was arranged. It included a piano duet by Misses Spiny and Thornton, a vocal solo by Miss McCall, a piano trio by Miss C. Smart, Miss M. Smart, and Mr. Smart, a vocal solo by Mrs. Cotton, a vocal solo by Mrs. Torrie, a vocal solo by Mrs. Smart, a vocal solo by Mrs. MacGregor, a vocal solo by Miss Maggie Smart, a duet by Mr. Smart and Mr. Walker. During the evening refreshments were served.

Ladies' Aid "At Home" The Ladies' Aid of Olivet Baptist church had a pleasant social function yesterday afternoon, when they entertained the members of the congregation at a tea, given at the home of Mrs. G. E. Hovell, Royal Bank. Cook, in a toilette of soft grey silk, with black jet passementerie adornment, and Mrs. (Rev.) MacLean, in a dainty gown of tan shimmering silk, received the visitors. The tea table was presided over by Mrs. Patterson, and Mrs. Durr, Miss Cook, and Mrs. MacPherson assisted in serving. Mrs. J. Bishop sang pleasingly, and Mrs. M. A. MacLean rendered a piano solo, which was much enjoyed by those present. The tea table was decorated with flowers of the season effectively arranged with smilax.

A Post-Nuptial Reception. Mrs. W. J. Clarke, of Thirteenth avenue west, held her post-nuptial reception on Monday afternoon at a large number of friends called. The hostess wore an elaborate gown of cream satin, draped with Spanish lace, while her mother, Mrs. Baile, of Edmonton, who assisted in receiving, donned for the occasion a fashionable gown of grey satin, with black jet passementerie. Mrs. J. Miqueron poured tea, and Mrs. R. Saunders poured coffee. Mrs. Mahoney cut the ices, Miss Clarke, Miss O'Neill, and Mrs. Craig, assisted in the tea room. The tea table decorations carried out a color scheme of pink, pink, and pink, with pink carnations, in a cut glass basket on a lace doyle, centered the table. The electroliers had pale pink shades. Miss Evelyn Miqueron was the door attendant.

A. M. C. Reception. A reception was given by the officers of the American Women's Club at the home of the president, Mrs. H. W. Ranlett, yesterday afternoon. It was well attended, the members of the club being splendidly represented. A marked degree of sociability distinguished the occasion. The house was prettily decorated for the occasion, color scheme of green and white, carried out by pink, pink, pink, chrysanthemums and carnations. The lights were turned on for the occasion, and the effect was very pretty. The guests were welcomed by Miss Ranlett, while Mrs. Baile, of Edmonton, Mrs. Leverton said that "everybody met everybody." Mrs. Merriman and Mrs. Zwerber poured coffee, and Mrs. Parlow and Mrs. Leverton poured tea. Mrs. F. T. Campbell, Mrs. Theobald, Miss Worcester, Miss O'Neill, Mrs. Baile, Mrs. Leverton, Mrs. Strick and Mrs. H. B. Wright assisted in serving.

AN AFTERNOON TOILETTE—A gracefully draped dress, carried out in two shades of mignonette green. Soft lawn edged with pleated ruffles forms the collar and wrist flits.

Knex Ladies' Aid The Ladies' Aid of Knex church will meet in the Sunday school room of the church this afternoon at 3:30. After the business session a social half-hour will be spent. A full attendance is requested.

Wesley Methodist Church The Ladies' Aid society of Wesley Methodist church will give an "at home" in the church parlors this afternoon at 3 o'clock. The ladies of the congregation are invited to be present.

Hebrew Bait The third annual grand charity event of the Hebrew Ladies' Aid will be held in Al Hajar Temple on October 6. Dancing will commence at 8 o'clock and supper will be served.

Banquet at Bridgeland The Ladies' Aid society of Bridgeland Methodist church will give a banquet in the church on Thursday at 8:30 p.m. for the members and friends of the congregation. Mr. Smart's orchestra will provide the music.

There's a direct and effectual way to secure desirable roomers, a way that many have proven by practical experience—use the Want-Ads.

STORK SWOOPED DOWN ON C. P. R. EXPRESS TRAIN Left Little Girl Baby With Wife of Regina Postmaster

Toronto, Sept. 24.—Elora Kerr is the name of a little one born yesterday on C. P. R. car Elora, en route to Toronto. The mother is Mrs. R. Kerr, wife of the assistant postmaster at Regina, and she was on her way to her Toronto home, Silver Birch avenue. Mrs. Kerr was taken ill at Coldwater, and Dr. Farley, of Stratford, a passenger, was called in attendance.

The physician was afforded the privilege of naming the newly-born, and all agreed that the name of the sleeper would be appropriate. On the arrival of the train here, an ambulance met Mrs. Kerr, who was accompanied by her sister. The passengers in the sleeper gave the mother ten dollars as a gift from her baby's first associates.

To maintain this Ruthenian spirit some require funds. To help raise these the Presbyterian women of Calgary are giving an "At Home" at the residence of Mrs. Carson, 526 Fourth street west, on Friday afternoon from 3:30 to 6:30. It is hoped it will be well patronized, and that a liberal collection will be forthcoming.

WORK OF WOMEN AMONG WESTERN MISSIONS Annual Meeting of Managers of Women's Missionary Society

Toronto, Sept. 24.—With an unusually large attendance the thirty-first annual meeting of the board of managers of the Women's Missionary Society of Canada was held at the Central Methodist church. The various officials reported a marked increase in both membership and interest throughout the Dominion, and especially in the western provinces, where the increase was phenomenal.

Mrs. N. A. Powell, of Toronto, the statistical secretary, reported that the total number of auxiliaries was now 11,922, with 222 chapters and 812 mission bands. The total membership had increased substantially, being 61,627. The financial report for the year, 1911-12, showed that the total income for the year was \$143,759.57, and Mrs. W. W. Ogden, treasurer of the central fund, reported receipts with a balance on hand of \$30,890.21.

Mrs. Dr. Briggs, of Toronto, presented the report of the supply committee for Toronto and British Columbia, and Mrs. Chittick for Nova Scotia. The reports showed that many orphanages, hospitals and other institutions had been maintained through the generosity of the society, as well as those of the general mission board, had received instruments to assist them in their work. The missionaries in the poorer fields were most gratefully acknowledged.

Optimism is mostly recklessness.

THE HEART DEPARTMENT

Queer Sideglances on Matrimony It is in the belief of the majority of men that they will marry, and the story books phrase it, "Live happily ever after." Out of a hundred letters sent to a short period, I am undecided whom to choose. I am therefore appealing for your motherly advice on this matter as I know you can put me right and will act according to your discretion. Enclosed.

Better not marry either one of them, Lucille, until you know them better. You could not possibly be in love with either one of them when you do not know which one you care for the more.

The Distances His People. "Dear Miss Libbey: I am much troubled over a young man. I love him with all my heart, but I don't think he loves me as I do him. The only thing in his family I don't like any more is his folks. They are all crazy about her. I don't believe in that kind of people, as I would like every one to like me and I would like to say the same as others, but I can't stand the way they are and I don't like to say they are rich and trying to make people believe they are rich when people know better. I don't stand for much. Should I let him keep asking that way? Please give me a good answer, as I am waiting for it. "Royaline."

It is a mistake to dislike any one, particularly the people of the men you expect to marry. Jealousy shows a weakness in character and means nothing but sorrow for the person who makes a mistake. Being sufficient cause for a wife to gain her freedom. Quite as many more hold that the blight of matrimonial happiness. Many of those who are in love with a man, should like to but prudently forbids. Whoever heard of a woman finding fault with her husband? Please give me a good answer, as I am waiting for it. "Royaline."

One married through spite to spite a rival who she had quarreled. She finds that the spite has come home to roost. "Royaline."

A young woman wedded to please her friends. She is now in a deplorable practical joke upon her in furthering marriage. There are letters by the score from women in deplorable plight, who are in love with a man, but who are not getting on with him. They are in love with a man, but who are not getting on with him. They are in love with a man, but who are not getting on with him.

Grand Opera Songs. For three days out we had perfect weather, with perfect comfort. The ocean was the deepest blue and the sky the most wonderful shade. But on the fourth day out the sea began to have deep wells and mountains, with a deep roll, over which our splendid steamer played a gentle sea.

Hungry at lunch time and not warmed by the experience of previous days, I ate too much lunch—too many faints.

## The Maple Leafs, International Baseball League Champions

TORONTO BALL CLUB CHAMPIONS OF THE INTERNATIONAL LEAGUE FOR THE SEASON OF 1912.—From left to right, standing: Maxwell, Stricklett, O'Hara, Lush, Isaacs, Bernstein (business manager), Bragie (captain), Dalton, Curtis, Druce. Sitting: Graham, McConnell, Rudolph, Meyer, Kelley (manager), McCaffery (president), Tim Jordan, Fitzpatrick, Holly, Shaw and Bemis.

### "PAL" BROWN MAY BECOME ALBERTA FARMER

Lightweight Boxer, who is Also Minnesota Agriculturist, in Hands of Real Estate Men Never Saw So Much Wheat Grown Upon an Acre of Ground as in Sunny Alberta Says Tommy Burns' Fame as Promoter Has Spread All Over the United States

Burns has been added to the list, you just watch the boxers tumbling head over heels to come to this country to box for him.

But although Brown is a farmer as well as a boxer, no one who was not acquainted with the facts would suspect that either one was true. A casual observer would say that he would be an ideal usher in a large church. He is a neat dresser, the cut of his clothes bespeaking acquaintance with the best New York tailors.

But these glad rags will be discarded this afternoon in favor of ring togs for Burns will begin training for his battle, which is two weeks distant. He will work out at Cappy Smart's gymnasium at the Central fire hall every afternoon at 3.30. His training will all be done in public, and those interested are invited to stroll down that way this afternoon to get a line on the man who expects to do what no one has yet been successful in doing—deliver a KO punch on the point of the jaw of "Fighting Dick" Hyland.

Calgary "B" CHAMPIONS

Str. May I be allowed to correct an error that appeared in this morning's paper in the account of the cricket game?

Calgary "B" are reported to have played seven games and lost one, whereas they have not lost a game so far. My records show Calgary "B" as the winners of the City League (although two more games have to be played) won, on Saturday week, face an eleven picked from the remaining city teams, this being the wind-up of the league for the season.

Trusting you will give space to this explanation.

I am, Yours truly,  
NORMAN M. PLUMMER,  
Hon. Sec. City Cricket League.

### Rugby Notes

The Tigers will practice tonight at 5:30 at Mewata Park.

The Tigers will run a special excursion to Edmonton on October 5, the date of their game with the Eskimos. The fare for the round trip will probably be less than five dollars.

William Buckle, Sherman has donated the use of his roller rink for indoor practice to the Tiger team. This will enable the champions to practice at times when the weatherman is inclined to object.

Dame Rumer states that Bob Watt, the popular trainer of the Tiger rugby team, has seriously considered retiring in double harness. Bob refused to be interviewed on the subject, and would not give the date of the happy event, but whenever it is and whoever it is, the Tigers are anxious to offer congratulations.

It is reported upon good authority that Noel White will be out for practice with the Tigers from this time forth. Noel is some taller and a general handy man to have around, and has the reputation of being the best man at stopping the opposition on any team west of the Great Lakes.

If a man ever felt the humiliation of being sent off the field for tactics not approved of by the referee, that man is the manager of the Junior Kings. Squib was sent off three times during the game on Saturday between the Tigers and Y.M.C.A., which is more times than he has ever, in all the years of playing, been ruled off a football field.

Don East Squib played the game for five years, a couple of which were with the Argos of Toronto. During these five years he was sent to the penalty bench but once.

Up until last Saturday, Squib had been sent off the field in Alberta but once, this occasion being last year in Edmonton, in a game with Deacon White's pet.

Last Saturday Squib broke all records, and spent about half of the time on the side lines.

Squib makes no effort to explain his superabundance of pugnaciousness, but states solemnly that it is "never again" with him. Hereafter Squib intends to be about as talkative as a dead mule at a funeral service, which will detract considerably from the excitement of the game.

The Y.M.C.A. team had another good workout last night at Mewata Park in preparation for Saturday's game at Hillhurst, with the Eskimos. Every man was out for the practice, and the back division showed up to a much better advantage. Several changes will be made in the back division for Saturday's game. Jenkins is off with a sore shoulder. He should never have played last Saturday with it, but now is much worse and he has to keep out of the game for a while. Wark O'Grady is moved back to center half, and will be supported by the choice of J. Roughton, Cliff Roughton, Nichols and Fred East. The latter is a speedy player, conversant with the American game, and who is rapidly catching on to the Canadian article. He is very speedy on his feet, a good kicker, and a daring tackler. McLean, who was hurt in last Saturday's game, is out again, and will be in his regular position.

After the practice last night, Bryan O'Grady, the captain, took the players down to the "X" and talked to them in chalk for some time.

### SPORTING - FACTS - AND - FANCIES

THE British Olympic committee in preparing for the Olympic games at Berlin in 1916, will adopt an elaborate plan of encouraging athletics in the schools. The committee as a whole are opposed to the idea of specializing similar to the American team, holding, quite properly, that in doing so, they would get away from the proper spirit of the games. They will, however, encourage athletics among those scholars who will likely be old enough to show, in 1916.

Down East, some live wire sport scribes are telling an unsuspecting public that the Ottawa College rugby team, when they appear on the field for their game with Queens on October 5, will show the latest fashion in suits. They are to discard the proverbial canvas vest and adopt the light jersey. We don't want to be hard, but just as a rude awakener, we do want to tell our Eastern friends, that our own Charlie Colville has his "Y" team arrayed in such in Calgary, and has already played a game in Ottawa, and also that he has been used in, Canada, the medals should be pinned on Charlie's manly breast.

A few weeks ago in these columns, we predicted that the time was not far distant when the

### MUNICIPAL LABOR BUREAU RECEIVING SUPPORT

Number of Excellent Firms Co-Operating With the New Institution

William Georgeson Wants the Dominion Government to Establish National Bureau

During the short period of its existence the Bureau has met with great support from employers and employees. 98 of whom have given registered support to the firm given without the C.P.R., Norton Griffiths Construction Co., Riverside Lumber Co., Carter Halls, Aldinger Canadian Stewart Co., the C.N.R., Pryce Jones, Hudson Bay Co., the Great West Sashery and the Diamond Coal Co.

Very satisfactory replies are being received from Provincial Boards of Trade, as to co-operation, sending in monthly reports and labor conditions, and help in minimizing winter unemployment.

Sir George Asquith, the leading government authority on labor laws, and labor exchange, together with Lady Asquith, paid a visit to the Bureau last week. His keenest interest in every detail of organization was given without the least hesitation. He stated that apart from the accommodation which is limited and does not provide for waiting unemployed, he would suggest no improvements and would give unqualified praise.

The Financial News, the Bialto and other London papers have already referred to the Bureau in eulogistic terms. The Canadian News of London has written asking for weekly or fortnightly notes as to the dolours of the Bureau.

The Rt. Hon. Walter Lough, M.P., during his stay in Calgary, discussed at some length with Miss Wileman the plan of organization and future possibilities as to the extension of the work and co-operation with the Mother Country. Mr. Lough has promised his hearty support to the movement.

Mr. Boose, secretary of the Royal Colonial Institute is another very hearty supporter of the project.

At the recent meeting of the Associated Board of Trade at Meese Jaw, Mr. W. Georgeson brought up and successfully carried without one dissenting voice, a powerful resolution asking for a labor bureau system for the Dominion.

To reap a harvest of return from the Wants, use them in supplying the needs of the household and of business in buying, selling, renting, hiring, exchanging and in many other ways.

### Yesterday's Scores in the Big Leagues

AMERICAN LEAGUE

White Sox Won a Game.

St. Louis, Sept. 24.—Chicago won the first game of a doubleheader from St. Louis here this afternoon, 4 to 2, and tied with St. Louis, 2 to 2, in the second contest, which was called at the end of the tenth, on account of darkness. In the first game Chicago mixed hits with errors, while Walsh was effective in all but two innings. The second game was a pitcher's battle between Chicago's ... 001 102 206-6 12 0 St. Louis ... 001 000 010-2 3 0 Detroit ... 000 100 201-7 12 0 Detroit ... 100 000 000-3 8 4 Batteries: Blanding and O'Neill; Lake, Antonson and Onslow and Koeber.

At Boston, first game—New York ... 400 100 000-5 14 0 Boston ... 001 100 000-2 4 1 Batteries: McConnell and Williams; Bedient and Carrigan.

Second game—Called at the end of the eighth inning on account of darkness: New York ... 000 100 00-1 9 0 Boston ... 001 000 02-3 9 1 Batteries: Caldwell and Williams; O'Brien and Thomas.

NORTHWESTERN LEAGUE

Victoria ... 2 2 0  
Portland ... 2 2 0  
Batteries: Kankheiser, Kaufman, McCreary and Meek; Bloomfield and Harris.

Tacoma ... 3 8 2  
Seattle ... 2 10 4  
Batteries: Crieger and Crittenden; Thompson and Whaling.

Vancouver ... 4 5 2  
Spokane ... 2 2 0  
Batteries: Clark and Lewis; Kraft and Devost.

### BRITISH PEER INVESTS HALF MILLION IN B. C. LANDS

Lord Jelsey Buys 24,000 of Farm and Dairy Land Near Fort George

London, Sept. 24.—One of the largest individual land sales ever effected in this country has just been completed here. The purchaser is Lord Jelsey, a famous coal mine owner and one of the wealthiest Liberal peers of Great Britain. His lordship has purchased nearly 24,000 acres of mixed farm and dairy farming land in the vicinity of Fort George for which he paid \$450,000. Captain Hulton, who was responsible for the Southland and Desborough deals, is negotiating for a sale to a Dutch merchant of 50,000 acres in Saskatchewan.

## MONTREAL WILL DUMP SNOW INTO TRUNK SEWERS

Problem of Disposing of Snow Has Finally Been Solved

Montreal, Sept. 23.—The problem of disposing of the snow which has perched the city fathers more and more as the growth of the city made necessary the removal of dumps to a greater distance from the centre of the city, has, it is thought finally been solved. As presented to the city council today and accepted by them, it calls for the enlargement of the openings in trunk sewers so that the snow may be dumped into them. Should this scheme which will be much in the nature of an experiment this winter, be successful, it will mean a great saving to the city, for in years when the snowfall is considerable upwards of \$150,000 is spent on the removal of snow from the streets on which the tramways run.

## FOLLOWS FASHION SET BY HER CLOSE FRIENDS

Washington Girl Throws Over Her Fiance, a Congressman, Just Before Marriage

Late Representative Theron E. Catlin Left in the Cold by Miss Merriam

Washington, Sept. 24.—Theron E. Catlin, the representative from Missouri recently unseated from congress for scattering the sheets freely to secure a selection finds that matrimony never comes singly. Young, handsome and wealthy, he finds that Miss Laura Merriam, whom he was engaged to marry, has become the fiancee of another man. Miss Merriam one of the society beauties here, is the third Washington girl to have enough to change her mind at the foot of the altar. The engagement of Miss Merriam to Mr. Catlin was announced early in June, and the announcement that it was broken off by mutual consent was made by the parents of the young lady two weeks ago.

## Who Set the Pace

The other two Washington girls who acted similarly were Miss Collins, who broke her engagement to Robert Beeson, Jr., several days before the date set for the marriage, and Miss Carol N. O'Leary, who, after brilliant fiancée Capt. Aheya, of the king's own regiment, travelled all the way from Kingston, Jamaica, to Detroit, broke her engagement the day before her marriage, giving no other reason but that she thought she would not be happy. A short time afterward she became the bride of Mr. Harry Brooks, a child-hood sweetheart.

The romance of Representative Catlin and Miss Merriam was a pretty one. Shortly after the young representative took his seat in congress he attended the horse show in Washington, and he was standing in the aisle of the horse on which Miss Merriam was riding, bucked the hurdles, reared and jumped the fence, and the representative barely escaped being trampled.

## Shows Off Her Riding

It was only the fine horsemanship of Miss Merriam that averted an accident. She forced the horse back over the railing and made him take the hurdles many times. Representative Catlin immediately sought an introduction and danced in her honor. The most notable one, and one which took the lead in all bachelor affairs of the season was given at the old Manor House in Washington. The dinner was served at fresco and the guests danced on the green.

Miss Merriam, it had often been said, resembled a beautiful golden butterfly in the training table which he has instituted, as it will keep the men under his eye and develop more spirit de corps than it is ever separated and in different houses. He hopes to have a big squad on the training table which will include all the men of the second team, and has secured a line-up that will give the same attention to the second team as the first, and thus build up new material for years to come. This is the number of the trick plays will be used in the American game will be given a try-out to see whether they will be adaptable to the Canadian style of rugby. With these trick plays a well trained back division and a team in good condition, Shaughnessy hopes to hand the championship of 1912 for good to McGill.

## Rough Riders Turn Out

Ottawa, Sept. 23.—There is no earthly chance that the Ottawas should be in a shape for their game with the Tigers of Hamilton on October 5, says a local expert. The Ottawas are in a local rut, and are not starting practices early. The rebels are back in the field and had a good practice yesterday. About fifteen players were in uniform, including Wilkinson, Galaroff, McLaughlin and Charlie Fleming.

## Would Not Be Happy

"I think I would not be happy if I married, and I think that that is one thing we have a right to change our minds about," I admit, says a young Newberry and thought she was brave to break her engagement the day before the wedding rather than make two people miserable in the future. If more girls felt as we do there would be fewer divorce cases. I think it is better to tell the truth than to regret it afterward.

## A Coterie of "Buds"

She made her debut on Thanksgiving Day, 1894, at a large tea given for her honor by her father and mother, former governor of Minnesota, and Mrs. William H. Merriam. She belonged to a notable coterie of buds, who were called the "big six," composed of the most prominent and wealthy debutantes of that year and who had been playmates since earliest childhood. These were Miss Marguerite Draper, Miss Eudora Clover, Miss Sophy Johnson, Miss Mary Macaulay, Miss Gladys Hinchley and Miss Adelaide Heath.

## RUSSIAN MINISTER HAS CONFERENCE WITH KING

## SMALL BOY KILLED HIMSELF

Davidson, Sask., Sept. 23.—Arthur Kershaw, a lad of ten years, living eighteen miles west of here, accidentally shot himself Saturday morning while carrying a gun. He was brought into town a couple of hours later, but he could not be revived sufficiently to be operated upon. He succumbed on Sunday.

## SPORT

### EASTERN RUGBY GOSSIP

McGill Has Championship Visions

Montreal, Sept. 23.—Condition, speed and tackling—upon the trinity Frank Shaughnessy, newly appointed coach of McGill University, hopes to build up a Dominion championship rugby team from the red and white.

In Frank Shaughnessy, McGill has a coach of proven and tried ability. "Shag" started his career at Notre Dame University, playing quarter for their first team in the western conference circuit against such strong teams as Michigan University, Chicago and Minnesota. From quarter he shifted to end, the American outside wing. In 1907 he played in Ottawa in the old Northern League. In 1910 he took over the management of the Roanoke Virginia League team, handling this class competition up to last season, when Fort Wayne, of the Central League, a class B circuit, drafted him. Shaughnessy landed his club from the place into the first position and earned the name of a stern disciplinarian.

He learned the Canadian game while in Ottawa, and as he has made his home in that city has had the chance to renew his acquaintance with it every fall. In fact "Shag" knows more about the Canadian game than he does about the American game, having had the opportunity of watching its development since 1897. The new coach will pay particular attention to the three requirements stated above. Every man who hopes to make the team will have condition first and foremost. Speed and tackling ability come second in point of importance. "I do not care for a player who is slow and bulky," he declares. "If he cannot tackle, or will not remain away from tobacco, liquor or late hours, he can't play this season."

Upon tackling and speed Shaughnessy places great stress. "I saw Varsity play, and I saw some fine teams," he says. "I will work to get a team composed of good tacklers can beat them. A heavy team would have no chance. I want to build up a defensive team. Bucking is of very little use, for unless you have the ball close to the line you can gain little by it. Whoever ever a team can take the ball forty yards by straight bucking, I do not care if we have no heavy men, providing the line man can tackle and get on under the ball. Tackling will stop the backs every time and Varsity are not particularly strong outside of their back division and their inside wing line."

Again Varsity we will want the line to be up under the ball and tackling without a miss. That will win the game. I will work to get the men out who can follow up-tack and tackle when they get there."

Shaughnessy placed great faith in the training table which he has instituted, as it will keep the men under his eye and develop more spirit de corps than it is ever separated and in different houses. He hopes to have a big squad on the training table which will include all the men of the second team, and has secured a line-up that will give the same attention to the second team as the first, and thus build up new material for years to come. This is the number of the trick plays will be used in the American game will be given a try-out to see whether they will be adaptable to the Canadian style of rugby. With these trick plays a well trained back division and a team in good condition, Shaughnessy hopes to hand the championship of 1912 for good to McGill.

Shaughnessy expects to find the toughest battles with Varsity this season. He considers College a dangerous team, and a number of the trick plays will be used in the American game will be given a try-out to see whether they will be adaptable to the Canadian style of rugby. With these trick plays a well trained back division and a team in good condition, Shaughnessy hopes to hand the championship of 1912 for good to McGill.

Bert Allison is looking after the Varsity Old Boys in their game against Varsity at the Stadium on September 28, and has secured a line-up that will give the same attention to the second team as the first, and thus build up new material for years to come. This is the number of the trick plays will be used in the American game will be given a try-out to see whether they will be adaptable to the Canadian style of rugby. With these trick plays a well trained back division and a team in good condition, Shaughnessy hopes to hand the championship of 1912 for good to McGill.

Past reputations will not go with Frank Shaughnessy, McGill's pro coach, who has issued an ultimatum to every player on the team that promises to put lots of "pep" into the collegians. He has systematized the practice and training and says no player who has not regularly participated in them will be considered in choosing the team. Friends of Billington, the famous McGill halfback, who is holidaying in England, have asked, telling him of Shaughnessy's ultimatum, and asking him to shorten his holiday, so as to be back in time to play for the team on October 5th.

Parkdale held their first turnout on Saturday, and any doubts as to where Hugh Gall would play this season were annihilated when the former Varsity star turned out in uniform, including the gray cap, with the Paddlers. Parkdale will practice again tomorrow afternoon at Victoria College, and it is expected that several other ex-Varsity players will be on hand.

"Dutch" Burton, of the Hamilton Tigers, is greatly pleased with the addition of Billy Young to the team. "Dutch" claims that he has never seen any centre scrimmage get the ball out faster than Young does. The R. M. C. training and game this fall will certainly bolster-up a point where the Tigers have been weak.

At the general meeting of the Petrolia O. R. F. U. Junior Club, it was unanimously decided to defend the title and then in English. Although considerable new material will be required. With good coaching and practice they intend to make a big fight to retain the honors.

Next George, the former St. Michael player, is now in Waco, Texas, and therefore will not be with Ottawa College this fall. It is doubtful also if "Dutch" will attend Ottawa College.

A tackling dummy will be installed at Aura Lee by the T. R. and A. A. Club. Several St. Michael players may turn out with this club, including Reaume, the star outside wing.

The Alerts have kicked Locke, the fullback, who was with Queen's the last two years and who was acknowledged to be one of the best backs in the Intercollegiate Union.

Nether Ross Centre nor Norm Clark, of the Hamilton Alerts, have turned out in practice, and the management are getting anxious.

## SECRETARY NAGLE SPEAKS FOR WORLD-WIDE PEACE

Welcomes Delegates to International Congress of Commerce

Says Brotherhood is an Essential in Perfecting Trade Relations and World Peace

Boston, Sept. 24.—Brotherhood is an essential factor in perfecting international trade relations and world peace, was dealt upon today by Secretary of Commerce and Charles Nagle, in an address of welcome to the visiting delegates to the fifth international congress of chambers of commerce.

"What we want to establish," said Mr. Nagle, "is such a basis, so intimate commercially and subsequently socially, that no country a party to our congress, will permit controversy because it cannot afford to have it."

In his judgment, results of just such congresses as these are far more important than agreements favored as a result of diplomatic negotiations. You represent legitimate self interest. The questions today throughout the world are largely industrial. Controversies that arise will originate from that interest and if you succeed in establishing the rules of the game that will obtain in your dealings, the main cause of friction and controversy will have been removed."

Greetings also were extended to the congress by Governor Foss, on behalf of the state, Mayor Fitzgerald, for the city, Harry A. Wheeler, vice-president of the international congress of chambers of commerce of the United States, and Edward A. Fiene, of Boston, vice-president of the international congress in French and then in English.

With a report on the reform of the calendar, particularly as to the establishment of a fixed day for Easter, read by President Canon Legrand, the formal program was taken up.

Dr. T. S. Dickie Dead  
London, Ont., Sept. 23.—Dr. T. S. Dickie, professor of anatomy at the medical school of the Western University, here, was found dead in one of the buildings this morning by the janitor. He was lying on the floor and one of the gas jets was wide open. He had also shot himself. On a note found under the door was written:

"Do not open the door until someone calls to you. The gas comes from it off immediately, and excise me for causing all this trouble."

Dickie came here from Belfast, Ireland, a month ago. No cause for the suicide is known.

## PERKINS WANTS HILLES CALLED BEFORE SENATE

Washington, D. C. Sept. 24.—Senator Clapp has received a letter from Geo. W. Perkins, asking that Chas. B. Hilles, chairman of the Republican National committee be called before the senate committee investigating campaign expenditure to "testify fully as to his charges" that Col. Roosevelt had "spent millions of dollars of harvesters trust money."

Senator Clapp today stated that Mr. Hilles undoubtedly would be called before the committee, but would be questioned not alone upon that reported statement, but upon the general subject of campaign contributions.

**EVERYWHERE IN CANADA**

**Eddy's Gaslighters**

Are the only matches made in Canada specially for lighting Gas lamps and stoves. They are 4 1/4 inches long with a silent strike anywhere-tip. All users of gas should use Eddy's Gaslighters constantly. You can't burn your fingers with them, because they are not near the flame when lighting gas and besides the cost is not so great as when using ordinary matches.

For Sale Everywhere.

## COLONIZING SCHEME TO SETTLE THE NORTH

### War-Scarred Veteran Would Arrange for Trek of Statesmen Into the Peace

### Plan is That Every Settler Must Have \$2,000 in Cash Before Joining Colony

Edmonton, Sept. 24.—With the idea of bringing to Canada and settling in the Peace River district a colony of settlers from the states of Kansas, Nebraska, and Missouri, Sergeant Major Gustav E. Schoof is today making his headquarters at the Alberta provincial and federal authorities to learn if he can be guaranteed location for his colony.

The millionaires of the proposed settlers will be German, Norwegian and Swedish. All of them have farmed in the United States for a sufficient period to become naturalized and to have saved up the sum of \$2,000 which is the minimum they must have before they will be allowed to settle in the proposed colony. He has made his plans to leave in two or three years before there is a railway there, and they must have enough to carry them along until that time.

Has the Wanderlust. Major Schoof's scheme is not a money-making one for himself. He has plenty of money himself, and owns a big ranch near Clareholm and one in Texas. Besides being a farmer on a large scale this army man is a soldier of fortune, and during the week he spent in Edmonton will deliver lectures to the students of Alberta college, the public school children, and the citizens generally. Tomorrow night he will speak in the Metropolitan church, south side.

Although holding his high office in the Alberta Mounted Rangers, Major Schoof was unable to resist the many take part in an active battle. The old memories of the Boer wars, Major Schoof's scheme is not a money-making one for himself. He has plenty of money himself, and owns a big ranch near Clareholm and one in Texas. Besides being a farmer on a large scale this army man is a soldier of fortune, and during the week he spent in Edmonton will deliver lectures to the students of Alberta college, the public school children, and the citizens generally. Tomorrow night he will speak in the Metropolitan church, south side.

Major Schoof left Fort Macleod in Alberta for his regular leave and was giving a series of lectures in Edmonton. While there the uprisings started in Mexico, and after many reported that Major Schoof was allowed to fight with the federalists. So he immediately saddled his horse and was ready for battle.

Major Schoof tells many interesting tales of the Mexican people, and was giving a series of lectures in Edmonton. While there the uprisings started in Mexico, and after many reported that Major Schoof was allowed to fight with the federalists. So he immediately saddled his horse and was ready for battle.

## EDMONTON LABORERS ON STRIKE FOR MORE PAY

### Two Hundred City Employees Ask for Thirty-Five Cents an Hour

### City Engineers and Telephone Departments Affected by the Strike

Edmonton, Sept. 23.—Demanding an increase in wages of five cents an hour, some two hundred laborers employed by the city went on strike this morning. The city engineers and telephone departments are affected by the strike. In the city engineers' department about 150 men have quit work. These were employed in digging holes and trenching in general manual labor. Twenty-five men, employed by the telephone department on outdoor construction work on wires and cable installations, also have gone on strike.

### Escaping Prisoner Captured in North

### Jumped From Moving Train; Was Taken Near Killam

Edmonton, Sept. 23.—J. D. Ross, the bogus stock inspector, who is accused of working the Fort Saskatchewan district, fleeing the law, and who jumped from the moving train at Jarvis, while he was being taken to the Constable Teley of the R.N.W.M.P. When caught Ross had a shotgun in his possession, which he was endeavoring to trade for a revolver.

### Real Estate Activity (Special to Albertan)

Brooks, Alta., Sept. 24.—Ten thousand dollars worth of residential property, mostly C. P. R. sub-division stuff, was sold in Brooks last week. Real estate activity commenced with the taking off of the crop.

### Wheat Around Brooks is Largely No. 1 and 2

Brooks, Alta., Sept. 24.—The Alberta Pacific Elevator Company will build new elevator.

### James Gildea Run Over by Train; Killed

Edmonton, Sept. 24.—James Gildea, a laborer on the Grand Trunk Pacific near Clover Bar, was run over shortly before noon today while riding on the rear end of a ballast car that was attached to engine No. 53. Gildea's left arm and left leg were severed from his body, and he died twenty minutes after the accident occurred.

### Roosevelt Enters the Solid South to Talk

Chandler, Okla., Sept. 24.—With his arrival in Oklahoma today, Col. Roosevelt began the last stage of his continental tour which will take him through the south. He will spend a week in the southern and southeastern states.

## MEDICINE HAT ALSO HAS TYPHOID TROUBLES

### Isolation Hospital Will be Improved and All Persons Affected Sent There

### Hospitals Are Full of Patients and it is Necessary to Make Special Arrangements

(Special to Albertan.) Medicine Hat, Sept. 24.—The number of cases of typhoid fever in the city is increasing. Saturday a case was discovered in a small school in this district. Thirteen foreigners were living in the place, and one of them was suffering from a bad case of typhoid.

### Steel on C. N. R. Main Line Stretching Out

### Track is Laid as Far as Pembina Where Steel Bridge is Being Built

### Heavy Tunnelling Necessary in British Columbia; Edmonton Yards Enlarged

Edmonton, Sept. 24.—Steel on the main line of the Canadian Northern railway will stretch the summit near May, according to A. T. Fraser, district engineer of the C. N. R., who has just returned from a trip west as far as Tete Jaune Cache.

### Secretary McLean Leaves for the Northland

### Will Visit Grande Prairie and Peace River for the Government

(Special to The Albertan.) Edmonton, Sept. 24.—Hon. A. J. McLean, the provincial secretary, left yesterday morning for the north country. He will be in at least a month investigating conditions and prospects. He goes in the interests of the Government, and also, partly to discover for himself the true facts of those dazzling reports heard from time to time.

### Lacombe Headquarters of Strong Institution

### Alberta Provincial Land Agencies Has Good Backing

Lacombe, Sept. 23.—Lacombe has been made the headquarters of a strong financial institution which promises to be something new in its line. The Alberta Provincial Land Agencies, Ltd., has been incorporated with a capital stock of \$50,000, all of which has been subscribed by about a dozen of the leading financiers and agriculturists of Central Alberta.

### Wheat Around Brooks is Largely No. 1 and 2

### Alberta Pacific Elevator Company Will Build New Elevator

(Special to Albertan.) Brooks, Alta., Sept. 24.—The Alberta Pacific Elevator Company announces that a new elevator will be built in Brooks at once to take the place of the present inadequate one, so that the big crop harvested in the district tributary to Brooks can be properly handled.

### James Gildea Run Over by Train; Killed

Edmonton, Sept. 24.—James Gildea, a laborer on the Grand Trunk Pacific near Clover Bar, was run over shortly before noon today while riding on the rear end of a ballast car that was attached to engine No. 53. Chandler, Okla., Sept. 24.—With his arrival in Oklahoma today, Col. Roosevelt began the last stage of his continental tour which will take him through the south. He will spend a week in the southern and southeastern states.

### Edmonton Laborers Demand More Pay

Edmonton, Sept. 24.—Sixty laborers, represented by a committee of six, waited on the mayor and commissioners this morning and laid before them their demand of an increase in pay from 30 to 35 cents an hour, an eight hour day, and time and a half for overtime.

### Real Estate Activity (Special to Albertan)

Brooks, Alta., Sept. 24.—Ten thousand dollars worth of residential property, mostly C. P. R. sub-division stuff, was sold in Brooks last week. Real estate activity commenced with the taking off of the crop.

### Wheat Around Brooks is Largely No. 1 and 2

Brooks, Alta., Sept. 24.—The Alberta Pacific Elevator Company will build new elevator.

## EDMONTON TELEPHONE HAS PROVEN ITS WORTH

### After Heavy Capital Expenditures It Will Show a Profit This Year of \$5,000

### The Rental Receipts Average \$16.68 Per Phone and Operating Cost \$15.69

Edmonton, Alberta, September 24.—In spite of extraordinary expenditures during the past year, due largely to the tremendous increase in the number of subscribers, and the consequent necessity of additional equipment, Edmonton's telephone system will show a substantial surplus at the end of the financial year, and will incidentally prove another argument in favor of public ownership of utilities.

### Steel on C. N. R. Main Line Stretching Out

### Track is Laid as Far as Pembina Where Steel Bridge is Being Built

### Heavy Tunnelling Necessary in British Columbia; Edmonton Yards Enlarged

Edmonton, Sept. 24.—Steel on the main line of the Canadian Northern railway will stretch the summit near May, according to A. T. Fraser, district engineer of the C. N. R., who has just returned from a trip west as far as Tete Jaune Cache.

## MEDICINE HAT VICTIM OF SHOOTING MAN HUNZAK

### William Velitis Much Improved; Witnesses Say He Was Not the Aggressor

### Story Told by Those Who Saw the Trouble is All Against the Man Hunzak

(Special to Albertan.) Medicine Hat, Sept. 24.—His consideration for others, the fear that if he did not act someone would be shot, is apparently the reason why William Velitis is now in the hospital suffering from severe gun wounds, which in the end may cause his death. This is the latest explanation of the Sunday night shooting at the old Stair Crossing, a mile from Reddick. It was told by the witnesses at their examination at the Mounted Police barracks this evening. In telling his story the prisoner gave the impression that he was preventing an attack upon himself when he shot at Velitis. In telling his story the prisoner gave the impression that he was preventing an attack upon himself when he shot at Velitis.

**FORTHCOMING MUSICAL EVENT**  
The visit of England's great organist, Gatty Sellers, in the Central Methodist church on Thursday evening next, September 26, is arousing widespread interest. Gatty Sellers, the great organist-composer, was born in 1877, and received his training at Petersburg Cathedral, and from a well known professor of the Royal Academy of Music, London. It was through being heard in Switzerland, however, that he obtained his first engagement at the Queen's Hall, London, in 1902, and since that time he has been heard in many of the great churches of Europe, and in the same series of concerts as Paderewski, Kubelik, and Hans Richter, etc. Well known as a composer, one of his compositions was selected as a test piece at the national band contest at the Crystal Palace for performance by the massed bands in Europe were with Albert Busch, M. Gatti, and in the same series of concerts as Paderewski, Kubelik, and Hans Richter, etc. Well known as a composer, one of his compositions was selected as a test piece at the national band contest at the Crystal Palace for performance by the massed bands in Europe were with Albert Busch, M. Gatti, and in the same series of concerts as Paderewski, Kubelik, and Hans Richter, etc. Well known as a composer, one of his compositions was selected as a test piece at the national band contest at the Crystal Palace for performance by the massed bands in Europe were with Albert Busch, M. NEW WANDERER COMES INTO THE WORLD

Fifty Million Dollar Son Born to Mr. and Mrs. Alfred Gwynne Vanderbilt

Fabulous Wealth That Will One Day Come to New Heir, a Bunch of Millions

Baltimore, Sept. 24.—The stark has brought a \$50,000,000 baby son to Mr. and Mrs. Alfred Gwynne Vanderbilt. The birth, at Botolph, Surrey, England, was announced in a cablegram received this morning by Mrs. C. Hazelton Becher, mother of Mrs. Vanderbilt, and formerly Mrs. Marquess of Emsay.

CONDITIONS IN GRANADA BEGGAR DESCRIPTION

Rebels Have Turned on Helpless Non-Combatants, Women and Children

Washington, Sept. 24.—Conditions in Granada, Nicaragua, are worse than those which existed in the Congo and in the Putumayo district in Peru, according to state department representatives.

Had \$50,000 Pin Money

Captain Emerson, father of the present Mrs. Alfred Vanderbilt, has a fortune of \$50,000,000.

\$21,000 IS DONATED TO HOME RULE CAUSE

Philadelphia Meeting is Productive of Substantial Finance.

CLUDES POOL SEARCHERS

Brettonwoods, N. H., Sept. 24.—A deluged cavalry of searchers for John M. Keenan, the fugitive, has been ordered to the mountains since Wednesday.

New York Stocks

Table with columns: New York, Sept. 24, After backing and filling with a narrow range for the first four hours today, the market suddenly resumed its upward course.

GYPSY THE BLOOD NOT THE BOLD MAN PICTURED

Dangerous Man to Contend With, But a Coward, Says New York Detective

Tells Story of How Little Man Gave the Gangster an Awful Beating

New York, Sept. 24.—Jesse Bremer, formerly a lieutenant of detectives, and now head of a detective agency, arrested "Gyp the Blood" on the two occasions he was sent to prison.

PAVING PROBLEMS OF WEST ARE SOLVED

Enough Asphalt in the North to Pave the Whole Province of Alberta

No Occasion to Resort to Macadam, Says J. H. Russell, English Expert

Either One, or Course

Of course, we give either numeral or decimal punctuation in the printing of figures.

That implies "wise anticipation," which is one of the principles of scientific management.

We give a combination of numerical and decimal punctuation in the same machine.

A new idea, of course, but it is one that is used a great deal in practice.

Burroughs Adding Machine Co. C. W. HIGGINS, Sales Mgr. P. O. Box 68 WINNIPEG, MANITOBA

WILLOW CITY

Gateway to Wonderful Peace River Country and Rich Cariboo Mining District

Is located on the main line of the Grand Trunk Pacific and Pacific & Hudson Bay Railway, at the Junction of the Fraser and Willows Rivers, British Columbia—the very heart of thousands of acres of the most fertile and productive land in the world.

Many who bought lots in Willow City for \$100 have resold them for \$1,000, others who bought a little better located at \$200 have resold them for \$2,000.

The same history will be repeated at WILLOW CITY, where the great natural advantages are repeated and supplemented.

Buy NOW in WILLOW CITY and reap the big profits of early buying. WRITE TO: PACIFIC BOND & LAND CO., 602 Pacific Building, Vancouver, B.C.
