THERE appears to be an epidemic of house breaking and petty thieving throughout the country at present. A Vancouver, B. C., despatch says: George H. Cowan will probably get the Vancouver Conservative nomination for the federal house. Cowan was defeated by the late George Maxwell in 1896. He is now city solicitor and has taken a very active part, not only as a civic official, but as a platform speaker, against the Asiatics. Unless either runs on the exclusionist ticket Joe Martin and W. W. B. McInnes are likely to have a big fight for the Liberal nomination. R. G. Macpherson, M. P., will not likely run again. He has almost recovered from his recent illness, though still unable to leave the hospital. Ralph Smith, M. P., has promised the Asiatic exclusionists to support any measure the Dominion Government would bring in against oriental invasion at the coming session.

ANNIVERSARY SERVICES.

UNION SERVICE.

The union service held in the Methodist church, Watford, on Sunday evening last was largely attended, every available seat being occupied. The service was opened by the pastor, Rev. S. W. Muxworthy, Rev. M. Kelly, of the Congregational church, led in prayer, and Rev. Mr. Parsons, of the Baptist church, read the lesson.

The Rev. E. B. Horne, M. A., pastor of the Presbyterian church, based his discourse in Amos 9-7, St. Matthew 6-10, Revelations 11-15.

The theme was, "Religion as an Element in the National Life."

The speaker discussed the question with reference to the present day conditions in Canada. No man is a mere individual. Every human life affects other lives. Every man is born into a varied system of things and owes a duty to the community and the nation of which he forms a part. They are entitled to his best services. God deals with nations as well as individuals as exemplified in the history of Israel. National Life is of the greatest importance. The moral standard of public life in Canada is too low. The essence of National Life lies in the spiritual and not in the material. Israel and Greece stood for great truths, and, although small in territory and population exerted a dominant influence in the world. Religion gives a man his true ideals, tells people what life means and is worth living for. Our conception of God in the future gives us our ideals. The supreme element of National Life is religion. The church in the foundation of National Life, and is to blame of its teachings are ineffective. The pew is not free from responsibility and has its duty to perform. Among the dangers that threaten is the spirit of commercialism and materialism. We owe duties to our fellows as well as ourselves, and should not view everything from the standpoint of personal gain. Extreme partanship was the curse of public life in this country. What do our political parties stand for today? Who could give a rational and reasonable answer? Both political parties are in the pay of the big corporations, who contribute to their campaign funds and can depend upon their support when required. Mr. Horne concluded with a strong plea for independence of party. Stand for living not

dead issues. It is a religious duty to love our country. The country had paid dear for the glad hand and the sunny smile and contrasted the noble sentiments expressed by Abraham Lincoln with the standard of Canada's practical politicians.

WARWICK.

Mr. Wm. McDonald, and family, 9 Sideroad, are removing to Camlachie this week.

There is not much talk of municipal elections so far. It is possible that there will be no opposition to Reeve Auld, but there is likely to be some new aspirants for the Council.

A pleasant social party was held at the home of Stewart Smith, Warwick Village, on Monday evening, when an enjoyable evening was spent by about thirty of the young people of the vicinity.

O. F. Birchard, formerly of Kingscourt, writes from River View, Sask.:—"The first missionary service held southwest of the Elbow in Saskatchewan, was very ably conducted by Rev. Mr. McNab at the home of Mr. Jas. Kelly, sec. 12, Tp. 28, range 6, on Oct. 27th. The text being taken from Matt. 11, 28, where he showed that there is rest for the toiler in this world as well as the hereafter by trusting in the Saviour. There were twenty-five settlers present who were well pleased with the service."

A Plympton Pioneer Gone.

The death of William Brooks, in the 38th year of his age, which occurred at his residence, London St., Wyoming, last Saturday morning, after an illness of but a few days, removes still another of the few remaining pioneers of Plympton. He was a native of Scotland and came to Lanark Co. in his early manhood, shortly after which he removed to this township settling on the townline north west of Marlborough side road upwards of 50 years ago he resided until about 10 years since when he sold his farm and with his family removed to the village, where he purchased the brick residence, corner of Niagara and London St., where he has since resided. He married Miss McNaughton of the 2nd line Plympton, sister of the late Malcolm McNaughton, of Petrolia, who with their daughters, Miss Barbara at home and Mrs. Golding of Detroit, still survive him. He was a member of the Presbyterian church and highly esteemed for his sterling character and unimpeachable integrity in all business transactions for which the old followers of John Knox was noted. Our citizens will miss his familiar form on the street and cheerful greeting as they passed. Even in his retirement he could not forget the industrious habits in which he was raised and was constantly employed working his garden and other employment until his last illness. The funeral, which was held Monday afternoon to the Wyoming cemetery, was largely attended by a large concourse of friends and relatives. The services were conducted by Rev. Gilchrist of Toronto, who is at present in charge of the Presbyterian congregation here. The family have the sympathy of the community in the loss they have sustained.—Topic.

The King's Birthday.

Saturday last, 9th inst., was the King's birthday.

King Edward's full name is Albert Edward. He was born on the 9th of November, 1841, was married on the 10th of March, 1863, at St. George's Chapel, Windsor, to her Royal Highness Princess Alexandra of Denmark, who is still his consort.

His only visit to Canada was in 1860, when he was known as the Prince of Wales, but he travelled incognito as Lord Renfrew, and was accompanied by Sir Edmund Head. While in London he stopped for a time at the present Tecumseh House, where a big reception in his honor was held.

He ascended to the throne in 1901, and was crowned a year later.

Windfall for a Thief.

Port Huron, Mich., Nov. 12.—John Roberts, aged 25 years, waiting to be taken to the Iowa Reformatory for a period of one and a half years for stealing chickens, is heir to \$20,000. Roberts received word that he would get half of an estate of \$40,000 left by an uncle, John Law, who recently died in Stratford, Ont. There are only two heirs. "I guess I won't do much to that after I serve my time," said Roberts today. The will has been filed for probate in Stratford.

Winnipeg, Nov. 13.—The question of a Government system of hail insurance will come before the Legislature at the next session, and it is believed legislation will result, as the farmers are much dissatisfied with present arrangements. This year the loss from hail has been exceptionally heavy, the total amount which the insurance companies will have to pay being \$39,308 on the 951,362 acres insured.

The Cost of Paper.

The consuming public is so used to receiving the information that every kind of raw material has been advanced in price by those who control the supply, that buyers of printing will not be greatly surprised to hear that nearly all kinds of paper have been advanced in price from eight to ten per cent. One week printers receive notice that wood pulp boards have gone up, another week that all book papers have advanced, then comes notification that coated or enamelled papers have been raised in the price, that card board stock is on the incline, and that print paper is to be elevated a notch. This demand for advanced prices in the cost of paper must necessarily fall upon the consumer at large, for the printer has already all the burdens he can possibly carry in the general advance of labor and supplies. Buyers of printing may therefore, reasonably look for an increased cost in all kind of printed matter, and the duplication of orders at former prices is scarcely to be expected to continue.—Montreal Gazette

Sheep and Dogs.

Many farmers urge the objection to the raising of sheep, that the dog nuisance is too great. One man in Ontario County says that his flock of 18 lambs has dwindled to two, and he is going to quit.

No doubt there is a big loss annually to the farmers through the dog nuisance. The attacks are generally made at night, when it is impossible to see the intruders. Many vigilant farmers have used the rifle to advantage, but it is tiresome work and needless worry. Nova Scotia is having serious thoughts over the same question. Dog taxes have been levied by many townships, yet still the nuisance continues.

The fact is, man likes a dog. Certainly they are friends of man and the keeping of them will continue, sheep or no sheep. It is needless for anyone to expect legislation to unnecessarily oppress the owners of dogs. They have a right to a hearing and the tax that prevents useless curs from becoming too common answers all purposes.

How, then, shall we raise sheep? The question must be looked at in the most sensible way. As in the production of everything in agriculture, there is drawbacks, and the survival of the

BOVRIL

Contains the life-sustaining elements of B E E F

Beef extracts contain only the flavor and stimulating elements of beef—the nutritive values are lost in the making. Baron Liebig, the inventor of beef extracts, admitted that. He said "It is but a condiment and stimulant, containing no matter capable of sustaining life."
That is where BOVRIL differs from beef extracts.
BOVRIL does contain the nourishment and life-sustaining elements of beef as well as its rich flavor.
BOVRIL gives strength and nourishment to the invalid. With its help you can make left-over scraps into delicious consommés, bouillons and soups with very little trouble.

industry depends upon the success of battle against the evil. We must have sheep, because they pay. We will always have dogs. Therefore, we must take care of our sheep.

The plan, often rehearsed by Joon Campbell, that veteran sheep breeder of Victoria County, is along the right lines. Take care of the sheep by building a little enclosure, cheaply, made of wire, wherein the sheep can be put at night. These enclosures can be made dog proof, and they can be so placed on hills and on poor spots of the field as to make the land richer at the same time. The labor of attending to this is slight, and after it is done for a few times the sheep come in at night of their own accord. There is more money in sheep than in many other branches of farming. If our farmers' institutes and granges would discuss this question more, and the raising of sheep better understood, the farmers of Ontario would be a long way better off.

Canada Putting Barbed Wire on the Tariff Fence.

In these days of skepticism and heresies, religious, social and fiscal, some are having the light let in upon them and some are opening the windows for themselves. The Grand Rapids Herald, owned by Senator William Alden Smith, publishes a cartoon representing Uncle Sam scaling a high board fence, representing the tariff barrier between this country and Canada, with a huge pack of goods on his back. The inscription is almost appalling, from the standpoint of the average United States senator, for it reads: "Our trade with Canada has increased millions of dollars' worth during the past year. What would it be with the tariff fence removed?" The answer is so obvious that should the offending senator be arraigned by his associates on a charge of rank heresy, he could offer no defense.

The answer is coming in another way and a very effective form, for Canada, instead of seeking modification of the tariff, is inclined to put barbed wire on top of the fence. Not only is she inclined to manufacture the things which she has been accustomed to buy from the United States, but she is preparing to do it with American capital in Canada, furnishing employment for Canadian labor and taxable property for the support of the government. American saw-mills have had to set up in Canada. Now she is on the verge of forbidding the export of wood pulp so that American paper mills which are dependent upon Canadian wood must pull up stakes and remove their plants to the Dominion. This promises to cause

quite an exodus in the next quarter century, and every paper plant of much size represents an investment of \$500,000 to \$2,000,000. And what sort of a road is the American publisher going to travel in the meantime while this readjustment goes on?—Detroit News.

The Doctor of the Future.

Dr. Ewart of London, sighs with so many of his brethren in Great Britain and the United States, over the many physicians and the too few patients. The doctors have seen their best days, he thinks; the profession must "become more and more the servant of the State." No doubt Government must be everything and feel all pulses and look at all tongues. Physicians will be directors of gymnasia and sports or sanitary constables. Everybody's diet will be prescribed by the Government. There will be good health laws, and violators of them will be fined or imprisoned or both. What will become of the specialist? Is he not a monopolist? He must go.—New York Sun.

Old Church Burns.

Montreal, Nov. 8.—The old and historic church at Longue Point, a suburb of Montreal, was destroyed by fire last night. When the caretaker passed through the sacred edifice at 7 p. m. he saw nothing unusual, but an hour later the whole structure was discovered to be on fire by the villagers, and their feeble efforts could do little to stop the flames. The loss will be \$75,000, on which there is an insurance of \$16,000. Some fifteen years ago the same church was partly burned. It was one of the oldest churches in Canada, having been built in 1729, and contained several valuable vestments and a silver altar service that was brought out from France. When the church was burned nothing of this was saved. The church ornaments alone were worth many thousand dollars, and were made more valuable by their historical associations.

The Very Latest.

A young married woman entered a shop and asked to be shown some tablecloths. The salesman brought a pile and showed them to her, but she said she had seen those elsewhere—nothing suited her. "Haven't you something new?" she asked. The man then brought another pile and showed them to her. "These are the newest patterns," he said. You will notice that the edge runs right round the border and the centre is in the middle. "Dear me, yes! I will take half a dozen of them."

Fred McKinnon, a young farmer of Moore township, was arrested by Provincial Detective Sarvis and brought before Magistrate Robert Fleck Friday charged with the theft of some harness from George Andrews and Ernest Brewer neighboring farmers. Evidence was taken and McKinnon was committed for trial.

We have taught over seven thousand dress-making, and guarantee to give one hundred dollars to any one that cannot learn between the age of 14 and 40. You cannot learn dress making as thorough as this course teaches. If you work in shops for years. Beware of imitations as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada and excelled by none in any other country. Write at once for particulars, as we have our rate one-third for a short time.

MR. J. G. Burgess has been urging upon the Petrolia school board the necessity of two examinations for promotion each year, instead of one as it now is. He has a letter which he obtained (through his solicitor) from the Deputy-Minister of Education of Ontario, which plainly states "That each teacher is required to give one promotion at the end of each term." There being two terms in each year, makes it quite clear that we should have two examinations each year in our public schools, as Mr. Burgess has contended.

THE English market is apparently overflooded with horses of all kinds, for buyers there shipping horses to Canada now. The American markets are closed to the Canadian breeder on account of the \$30 a head demanded as duty, and there is no demand for horses in the only other market left—the Northwest. The crops were not up to the standard out in that country, and the farmers won't buy a horse at the present prices of feed. Local horsemen predict that the horse market will slump greatly unless a change comes soon in the price of feed.

ACTION is to be taken by the authorities to prevent the promiscuous distribution from house to house and through the mails of samples of patent medicines. An analysis of all such medicines is demanded before distribution. A leading jeweler of Toronto, was snatched from death by the prompt use of the stomach pump, his violent illness being caused by taking a small tablet sent him through the mails as a "sample." There is also great danger to children, who are attracted by the sugar coating on these tablets and pills.

ONE of our exchanges tells of an old German who had a boy of whom he was very proud, and decided to find out the trend of his mind. He adapted a novel method by which to test him. He slipped into the boy's room one morning and placed on his table a bottle of whiskey, a bible and a silver dollar. "Now," said he, "when dot boy comes in if he takes dot dollar he's going to be a beezin's man; if he takes dot bible he's going to be a preacher; if he takes dot whiskey he's no good, and going to be a drunkard." Then he hid behind a door to see which his son would choose. In came the boy whistling. He ran up to the table picked up the bible and put it under his arm, then snatched up the bottle of whiskey, took three or four drinks, picked up the dollar and put it in his pocket, and went out smacking his lips. The Dutchman poked his head out from behind the door and exclaimed: "Mein Got, he is going to be a politician."

Sea Powers of the World.

The United States is second in the relative order of warship tonnage among the sea powers, according to a statement just issued by the office of naval intelligence, Navy Department. But she will yield second place to France when the ships now under construction by both countries are completed. Great Britain is still the leading sea power of the world, and Japan is fifth. Great Britain leads in the number of first-class battleships, having 52, while the United States has 22, France 19, Germany 22 and Japan 11.

Identified.

The visitor had already spoken at considerable length when he said to the children, whose attention had begun to wander. "And now I want to tell you of a boy I once knew."

"He had a good father and mother," the visitor continued, when he found several pairs of eyes had returned to their survey of his face, "and they did all that lay in their power to make him happy. But the boy was thoughtless and selfish; he frittered away his time and never thought of the future."

"Today, instead of filling an honorable and useful position in life, where do you suppose he stands, children, as a man?" "He stands before us!" shrilled all the little boys and girls, in prompt and joyous unison.

Health is Queen of Beauty.

There is just one royal road to beauty and that is good health. To try to mold a beautiful figure and a pretty face out of an unhealthy body is as impossible as it would be for an architect to build his foundation on a bed of sand. Before you try your beauty exercises to reduce the hips and waist and to fill out the hollows of the neck, stop and think if you have the physical foundations to build on. If you find you are anaemic, exhausted and tired, postpone the beauty exercises and spend your time resting and getting strong. Sleep as much as you can, take long walks, drink lots of water and do not eat many sweets.

A Woman in a Street Car.

"The other day," said a man passenger in a street car, "I saw a woman in a street car open a satchel and take out a purse, close the satchel and opened the purse, and take out a dime, and close the purse, open the satchel and put in the purse. Then she gave the dime to the conductor, and took out a nickel in exchange. Then she opened the satchel and took out the purse, closed the satchel and opened the purse, put in the nickel and closed the purse, opened the satchel and put in the purse, closed the satchel and locked both ends. Then she felt to see if her back hair was all right, and it was all right, and she was all right. That was a woman."—Ladies' Home Journal.

Heart, Throat, Liver and Skin

DR. AGNEW'S FOUR FAMOUS SPECIFICS CURE COMPLETELY THE WORST DISEASES OF THESE PARTS—DREADFUL HEART DISEASE RELIEVED IN THIRTY MINUTES.

Heart disease will affect people differently, but in all cases it must be viewed with great alarm. Dr. Agnew's Cure for the Heart is the one remedy that can be safely depended upon in times of trouble. It will give relief in thirty minutes.

Mr. Thomas Petry, of Aylmer, Que., was troubled with severe heart complaint for five years, the pain, at times, being so severe that he could not attend to business. Every other remedy failed until he tried Dr. Agnew's Cure for the Heart, which gave immediate relief, and his words are these: "I have now taken four bottles of the remedy and am entirely free from every symptom of heart disease."

A cold in the head need not be trifled with, for it is catarrh in an incipient condition, and catarrh is not to be trifled with. Dr. Agnew's Catarrhal Powder, as scores of clergymen, members of parliament, and prominent citizens in the Dominion have borne testimony, drives away a cold in the head like magic, and where this has assumed the shape of aggravated catarrh, producing deafness and throat trouble, it effects a permanent cure.

It is not always safe to take pills for liver trouble. They not unfrequently create other troubles that are serious. Dr. Agnew's Liver Pills, whilst thoroughly certain of removing all liver trouble, give no difficulty either at the time or afterwards. They are pleasant to take and cost only 10 cents.

The faculty that Dr. Agnew has displayed in getting at the seat of trouble is manifest in his Ointment, as in the other three remedies. This contains the elements that give speedy and permanent relief in all skin diseases and is peculiarly effective in curing piles. 35 cents.

What to do Upon Certain Occasions.

If you are impatient, sit down and have a talk with Job.
If you are strong-headed, view Moses.
If you are getting week-kneed, look at Elijah.
If there is no song in your heart, listen to David.
If you are a policy man, read Daniel.
If you are getting sordid, spend a while with Isaiah.
If chilly, get the beloved disciple to put his arms around you.
If your faith is below par, read Paul.
If you are getting lazy, watch James.
If you are losing sight of the future, climb up to Revelation, and get a glimpse of the promised land.

ECZEMA

Skin Itches Intensely, Becomes Hard, Cracks, Bleeding Sores Develop, Pus is Discharged.

The prevalence of eczema is due in every case to the presence of humors and poisonous acids in the blood. These poisons come from fermentation of undigested food in the upper bowel or from discharged fecal matter in the lower bowel. It is a waste of time to employ ointment or washes. No lasting benefit can be had from doctoring the skin when the cause lies in the blood. Rich, pure blood will bring new life to the skin—will surely restore beauty and richness of complexion. Ferruzone is the best treatment. It acts on the blood instantly, acts with a purifying healing effect—neutralizes the acids—destroys the poisons—drives every humor from the blood. So rich and nourishing does Ferruzone make the blood so cool and healthy, that the sores are healed—itchiness is soothed away—every trace of eczema poison removed. If Ferruzone won't cure then nothing will—in all blood disorders its effect is guaranteed. Try Ferruzone, thousands of it has cured—will cure you too. In 50c boxes at all dealers.

HANDS TERRIBLY CRACKED.

Zam-Buk Healed Them.

Over and over again the value of Zam-Buk for chapped and cracked places has been demonstrated. Mrs. Yellen, of Portland, adds her testimony, and says: "My hands were so sore and cracked that I could not put them near water. When I tried to do so they would smart and burn as if I had scalded them. I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk, and the balm succeeded when all else had failed. It closed the big cracks, gave me ease, soothed the inflammation; and in a very short time healed my hands completely."

Hands that are chapped may be restored to the smoothness of health by judicious application of Zam-Buk.

The value of Zam-Buk, either as a protective or a corrective, cannot be over-estimated. A box should be on every dressing table.

Zam-Buk heals sores, cures eczema, skin eruptions, ulcers, ringworm, itch, barber's rash, blood poison, bad leg, salt rheum, abrasions, abscesses, cuts, burns, scalds and all skin injuries and diseases. Of all stores and druggists at 50 cents, or from Zam-Buk Co., Toronto, for price. 3 boxes for \$1.25.

Mistrusted His Ability to Grasp Danger Signal.

There is an old Irishman in Baltimore who for many years was prosperous as a grocer. Not long ago, however, the old fellow lost his all in "a side line," and was compelled to look for a job. Through the influence of a friend he was offered the position of crossing tender at a small railroad station in Maryland.

The Celt looked dubious as the duties of the office were explained to him and the meaning of the various flags were stated.

"In case of danger, you wave the red flag," explained the man told off to instruct Mike.

"Wait a bit," interrupted Mike, with a doubtful shake of the head. "I'm afraid this job 'd be too much for me. I could never trust meself to remember to wave a red flag when there was a green wavy handy."—Harper's Weekly.

One Damage Action.

The November Division Court sittings at Petrolia are to be held next Friday, and at least one interesting action is on the docket. At the instance of Thomas Glass, Messrs. Moncrieff and Wilson have issued a summons out of the court against Petrolia Torpedoes, Limited, claiming \$50 damages occasioned by the recent explosion. The result of this case will be watched closely, as there is a conflict of opinion as to whether or not the company is liable for the damage done.

Jest Ask Dad.

Our family is the queerest one
I'll bet you ever see;
There ain't but one in all the batch
With a good quality,
The rest o' us have lots o' traits,
But all of 'em are bad,
An' if you don't believe me, why,
You jest ask dad.

There's sister Kate an' sister Nell,
Their folks makin' breaks;
They ain't like pa a single bit,
Because they make mistakes.
They ought to have been better with
The trainin' they have had,
But if you don't believe me, why,
You jest ask dad.

Next comes my sisters, Bess and Sue,
With fault of too much style:
They seem to think o' nothin' else,
They talk it all the while.
They keep us in hot water with
Some fool, expensive fad,
An' if you don't believe me, why,
You jest ask dad.

Now last—not least—comes Bill an' me;
Forgettin' o' our trait,
It ain't no habit we've acquired,
It seems to be our fate.
We all take after ma, we do—
No wonder we're so bad—
An' if you don't believe me, why,
You jest ask dad.

SAYS THIS IS BEST

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood?" prints in a recent issue the following:

Fluid Extract Dandelion one ounce;
Compound Saltono, one ounce;
Compound Syrup Sarsaparilla, four ounces.

Shake well and use in teaspoonful doses after each meal and at bedtime.

A well-known physician states that these are harmless vegetable ingredients, which can be obtained from any good prescription pharmacy.

This mixture will clean the blood of all impurities. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Saltono and Extract Dandelion, works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid, and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

BEER BUILDS BODIES

PURITY

Ontario beers are pure, above all else—far more pure than most of the milk sold in cities, because made under conditions of absolute hygiene.

FOOD VALUE

Boiled potatoes contain not nearly the nutriment that is in pure beer; milk will not feed most folks so well, nor digest so thoroughly.

Beer* is better for run-down people than medicine; and for thin-blooded people nothing else will enrich the blood so surely and quickly.

Ask your own doctor if you hadn't better drink beer with your meals.

Selling Cattle at Bargain Prices.

Kingston, Ont., Nov. 12.—A panic has struck the farmers in the rear of Acton, covering the probable shortage of fodder, and there was a wholesale slaughter of stock, meat and hides being sold at most ridiculously low prices—A farmer says more loss to stock has occurred unnecessarily than will take the next five years to redeem. Fodder is fairly plentiful and pasturage has been unusually good all fall, but high prices tempt the farmer to part with his fodder and sell his stock. Beaver hay sells at \$15 a ton and cows from \$5 to \$8 each. Who ever heard of the like before?

Inflammatory RHEUMATISM

Muscular Sciatica and Neuralgia are Cured by "Bu-Ju"

WINDSOR, Aug. 31st, 1904.

"It is with much pleasure that I send you this testimonial, regarding the wonderful benefit I have derived from the use of Bu-Ju Kidney Pills. I have been an invalid for nearly 4 years, with Inflammatory Rheumatism, and was bed-fast until about 6 months ago, when an old friend of the family called to see me, and left me some of your Pills. I began to feel the benefit of them after taking one box. I have continued using them and am now able to get out of bed and dress myself and can go without crutches. Before taking the Pills I was as helpless as an infant and had to be taken care of like one."

JOHN McCULLOUGH.

Sick, weak kidneys are responsible for Rheumatism, Sciatica and Neuralgia. When the kidneys are not well, they won't filter out uric acid from the blood. It is this poison, remaining in the blood and carried to joints, muscles, nerves, that causes the pain. The only way to permanently cure Rheumatism, Neuralgia, Sciatica—is to cure the CAUSE of the trouble—the Kidneys. The only safe, certain way to make sick kidneys well is to take

"Bu-Ju"

"Bu-Ju" never fails—never disappoints. It takes away every trace of the trouble. 3c. a day will cure you if you take Bu-Ju.

Cranston vs. Thomas et al.

The action was tried before Mr. Justice Brinto at the Chatham assizes of Tuesday the 5th of November. The plaintiff, who is a retired farmer, residing in the township of Chatham, sued the defendants who reside in the county of Middlesex, as executors of his late wife, Flora Cranston, to set aside a conveyance made by the plaintiff to the said Flora Cranston, the consideration recited therein being one dollar, of one hundred and fifty acres of land in the Township of Sombra, valued at from \$5,000.00 to \$8,000.00. The plaintiff, who was about 65 years of age at the time of the conveyance complained of, alleged that he was at the time mentally and physically incapable of appreciating the nature of the transaction and that the deed should be set aside as improvident and without consideration. The judgment of the court, was that the action should be dismissed without costs as against the plaintiff, the executors' costs to be paid out of the estate.
 John S. Fraser, Wallaceburg, for plaintiff; Pardee, Burnham & Gurd for the defendants.

SPAULDING—HARPER.

An interesting event took place at high noon on Tuesday the 5th inst., at the home of S. J. Harper, Egremont road, Warwick, when his daughter Annie E., was joined in the bonds of matrimony to Mr. Robert O. Spaulding, of Watford. The ceremony was performed in the presence of nearly fifty invited guests by Rev. Mr. Hosking. Miss Ida Harper, a cousin of the bride was bridesmaid, while Mr. Fred Wynne performed the duties of groomsmen, Bertha Karr, prettily attired, acted as ringbearer, and Miss Mae Stewart, of Forest, played the wedding march. The bride wore a beautiful white silk gown, with silk insertion and lace trimmings, while the bridesmaid was becomingly attired in French mulle. After the ceremony the gathering set down to a sumptuous repast. The groom's gift to the bride was a gold locket with diamond settings; to the bridesmaid a gold brooch with pearl settings and to the flower girl a jewel box. Mr. and Mrs. Spaulding left on the afternoon train from Watford for London and other points, and on

their return will reside in the groom's handsome new residence on Warwick st., Watford.

Typewriting

The speedier a stenographer can typewrite a letter the more valuable she becomes to the busy business man.
 Practice does a great deal, but correct fingering and the "Touch System," which we teach thoroughly, are of paramount importance.
 When the "Touch System" is mastered the operator never looks at the keyboard, but keeps her eyes on her notes. She saves the time lost by the "sight" operator in glancing from notes to keyboard and back to notes again—a considerable item in a day's work and a severe strain on the eyes as well.
 Our large, free catalogue tells more about our stenographer's course and gives much valuable information about the diplomas of the Business-Educators' Association.
 The supply of our graduates is not equal to the demand.

A WOMAN'S ORDEAL
DREADS DOCTOR'S QUESTIONS
 Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free.

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private life, even when those questions are asked by her family physician, and many continue to suffer rather than to submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise sick women more wisely than the local physician.

Read how Mrs. Pinkham helped Delle E. Montreuil, of 114 Latourville St., Quebec, Que.

Dear Mrs. Pinkham:—

"I suffered for eight months with what the doctors called prolapsus, which caused great weakness all over my system, with faint dizzy spells. I kept growing weaker and weaker. I tried several medicines which they claimed would cure my trouble, but nothing was of the least benefit until I tried Lydia E. Pinkham's Vegetable Compound, and this helped me so rapidly that I could hardly believe my good fortune. I would gladly have paid \$25.00 for that first bottle, for it started me on the road to health, and five bottles cured me. I am most grateful for my splendid, robust health, and shall certainly recommend the Vegetable Compound in glowing terms to all my friends and acquaintances, for it is deserving of all the praise I can give it."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

The Load of Hay.

The following story, sent by a contributor, while not being absolutely new, may be in this form, and may interest those of our readers who have never before heard it.

Mr. Smith, a farmer, coming in from the field one day to dinner, found a load of hay upset near his gate, and a young lad working industriously to re-load it.

"Hello, my boy! You've been having bad luck haven't you?" asked Mr. Smith.

"Yessir," replied the boy without pausing in his work.

"Well, come in and have some dinner, then I'll help you load the hay," said Mr. Smith.

"Oh no! I mustn't, father wouldn't like it."

"Oh, pshaw! your father won't care. Come right in and have some dinner. You're hungry, aren't you?"

"Yessir, but I don't think father'd—"

"Of course he wouldn't," declared Mr. Smith. "Come right along and get a good dinner. The work will be all the easier for it."

The boy, hot and flushed, looked longingly toward the house, but repeated, "I don't think, sir, father'd like to have me stop."

However, Mr. Smith, finally overruled the boy's repeated refusals and insisted upon taking him in to dinner.

Throughout the meal the boy seemed uneasy, hunched around in his chair, looked over his shoulder, ate rapidly and was so manifestly uncomfortable that his kind-hearted host pitied him.

"Don't worry about your hay, boy. I'll help you load it. Eat a good dinner."

"I know father won't like it," reiterated the boy.

"He won't care, why should he? You just eat a good dinner and don't worry."

"I'm sure father won't like it," persisted the youth.

"Well!" exclaimed the astonished Mr. Smith. "What kind of a man have you for a father, anyway! Where is he?"

"He's under the load of hay, sir."

The first case to come before the Court was that of Burley vs. G. T. R. The hearing of the accident occupied the attention of the Court Monday afternoon and all day Tuesday. It was an action for damages for the death of the late Alonzo Burley of this town who met his death at London yards while making a running shunt. At noon Tuesday Judge, Jury and Counsel visited the Cromwell street yards of the Grand Trunk and inspected the freight car which fatally crushed the late Conductor Burley. About half past seven o'clock last night a verdict was rendered for the plaintiff for \$1,080.

Geo. Hargrove vs. Lambton Farmers' Mutual Ins. Co. Settled by payment of \$750 by company.
 Geo. C. Gardiner vs. G. D. Robotham, for damages for breach of a hay contract. Settled by payment of \$250.

The action of Quilan vs. DeCoteau and Dooley, resulted in a verdict for the plaintiff for \$75 without costs to be paid by DeCoteau. The judge holding that plaintiff had a priority on piano for the amount paid on it.

Butter From Whey.

Cheese factories in the province are beginning to find a remunerative use for the whey fat, which has in the past been the cause of a nuisance. A number of manufacturers, according to Mr. H. A. Putnam, superintendent of farmers' institutes, are making butter from the fat contained in the whey, which was formerly lost. Some of this butter, which does not differ from the ordinary output of the dairy, has taken prizes over the home-made butter and even over the product of some creameries. One factory proprietor says he has made \$1,500 worth of butter from the whey. It will be only a matter of time before all the factories are utilizing it in the same manner.

The Farmstead.

Our banks are all right. Farmers need not fear our Canadian banks. Panicky people endanger everyone else. More headwork will solve the feed question.

Some people will boast themselves that they do not pull another one down. That is not the question—are you building him up?

It does not look as if farmers will realize too extravagant prices for their red clover seed. Importation from Europe begins when our prices become over \$10.

A farmer near Fox Lake, Wisconsin, became very enraged because some boys borrowed his gate on Halloween and was seized with heart failure, dying shortly afterwards.

Beekeepers will notice that their convention time is approaching. The price of honey is good and the demand for it is increasing, so that bee admirers should take a wholehearted interest in this meeting.

The Fruit, Flower and Honey Show of Ontario will be held this year in Massey Hall, Toronto, as usual. To anyone who has not been there this exhibition will prove a veritable surprise. Its well-arranged collections of fruit, flowers and honey, and its decorations and music, all form a picture to please the eye and delight the soul. Toronto is a central spot and accommodation is good.

The bailing of hay on our Ontario farms this year has become a big business. Farmers who have not sold hay off their farms for years, were tempted by the big prices at present to market it now. Consequently, bailing machines have been purchased in plenty of localities, while many city dealers have sent their presses to the various parts of the country.

THE DEMON, DYSPEPSIA.—In olden times it was a popular belief that demons moved invisibly through the ambient air, seeking to enter into them and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite him. And once he enters a man it is difficult to dislodge him. He that finds himself so possessed should know that a valiant friend to do battle for him with the unseen foe is Parmelee's Vegetable Pills, which are ever ready for the trial.

Philadelphia Crosses Continent Free in Nine Days.

Philadelphia, Nov. 7.—Having broken all records for "deadhead" travel across the continent, William Sufferman 26-years old, reached the bedside of his dying mother here.

Sufferman made the journey from California in less than nine days. He spent nothing for food or car fare.

He started on the receipt of the news that his mother was dying with only his nerve, a determination to see her and 25 cents for capital. The quarter was still jingling in his pocket when he reached the city. The net cost of the trip was nothing.

Sufferman made his journey through beating his way when it was impossible to get a ride otherwise.

FINDING MISS FILSON

By NORA BAYNE

Copyrighted, 1907, by C. H. Sutcliffe.

"Find Miss Filson," directed the "old man," and Andy Brant, with a prompt and respectful "Yes, sir," tucked the letter into his pocket and finished adding the column of figures upon which he had been working.

Had Lowell & Lowell told him to go out and find the north pole Andy would have replied in precisely the same tone and would have started on the trip in precisely the same spirit. Nominally the assistant bookkeeper, Andy Brant was the general utility man. It was he who had given first aid to the injured water pipe with a piece of rubber overshoe and some adhesive tape from his bicycle kit and who had treated the office cat when it had fits.

But the present quest was not so promising. A correspondent had asked that his daughter be located. "We know that she was to have gone to the Y. W. C. A.," wrote the westerner. "No doubt it will be easy to locate her."

Andy grinned as he replaced the letter in his pocket and started for the association office.

The elderly woman in charge was willing to tell what little she knew

"I'M FRANCES ELIZABETH FILSON," SHE EXPLAINED.

when Andy showed his letter as authority. Miss Filson had come to them three months before, but had soon moved to an address far uptown. She smiled approvingly upon Andy as he thanked her. She liked this clean skinned, honest eyed young fellow, and she even unbent so far as to venture the hope that he would meet with success.

Andy's answer was a grimace. Young women had a trick of losing themselves in New York. Miss Filson had left the association three months before. It was not likely that she could endure life in one cheap boarding house for that length of time. Most places were endurable for less than a month.

His suspicions were verified when he reached the uptown address. Miss Filson was dimly remembered by the rosy cheeked servant girl who answered the door. She stayed only two weeks and departed on an express wagon, explaining that she could not trust the driver with the trunk. It was this incident and the fact that she did not leave her new address that fixed her more clearly in the girl's mind than most of those who came and went.

Andy interviewed express wagon drivers in an increasing circle for the remainder of the morning and wound up so conveniently near his own boarding place that he stopped in for lunch.

Mrs. Lennon's establishment was different from the average New York boarding house. Andy had lived there for a year and still liked it. Now that golden haired Bess Saunders had taken up her residence there he was willing to remain indefinitely. Andy was not susceptible, but the first time Bess had come into the stuffy dining room he had fallen in love, so deeply in love that when she had lost her position as stenographer and could not pay her board bills, unknown to Bess, he had arranged with Mrs. Lennon that he would be responsible for the bills until Bess found a new place, when the landlady should reimburse him.

"Any luck?" he asked as she slipped into his seat opposite the girl. She shook her head.

"Well, I have some good news for you," he went on. "Our typewriter is to be married week after next. She's going to quit the job, and the 'old man' says you may have it."

Bess clapped her hands delightedly, and Andy beamed upon her.

"Let's celebrate," he suggested. "I've got an order that I can't fill. Let's go to the matinee, will you? Might as well do that as tramp around town for nothing."

Bess nodded, and Andy sat on the front steps smoking a cigarette and building air castles while the girl dressed. They had only cheap seats in the rear of the balcony, but it was a treat, and occasionally Andy could feel the slight pressure of the girl's arm against his own, emphasizing her nearness. He did not think much of the vaudeville performance. What mattered the accomplishments of the trained seals and the toe dancer when he could lean back with closed eyes and conjure up visions of light house-

keeping with Bess as the housekeeper? He was earning enough salary for two. After all, she need not take that place with Lowell & Lowell.

"Isn't that great?" asked Bess. Andy roused himself with a start to observe the accomplishments of a pair of acrobats.

"Sure thing," he assented. "I was thinking of something bigger and greater."

"What's that?" she demanded.

"I was thinking," he explained, "that perhaps you wouldn't need Miss Austin's place in the office. What's the matter with our getting married? We could get a bit of a flat and live—not board."

Andy's voice made the distinction eloquent, and the girl's gray eyes grew. "But you don't know anything about me," she protested wistfully.

"I know you're the girl I want to marry," he insisted stoutly. "Mrs. Lennon's known me for a year, and the 'old man's' had me working for him for three years. You can write to Brewster and find out the rest about me if you want to. I'm not from Missouri where you're concerned."

There was a sudden darkness as the lights went out for the motion pictures, and in the gloom a tiny hand sought his and was quickly captured.

"Is it yes?" he asked, his breath coming in sharp aspirations.

"I can't write back home," she said softly. "But if you will take me as I am, Andy, it's—yes."

"There's nothing wrong," he declared stoutly, "but if you were a shoplifter I'd marry you just the same." The audience was filing out before the last pictures were thrown on the screen, but he leaned over and kissed her.

"We're engaged," he declared, "but you'll have to wait until Saturday for the ring."

The lights flashed on again, and unwillingly enough Andy gathered up their belongings and prepared to join the departing crowd. The boarding place was but a short distance away, and they decided upon walking. Andy's feet touched the sidewalk, but he felt as though he were in the clouds that dotted the evening sky.

"I don't want you to think I've done anything wrong," whispered Bess. "It isn't that, dear. It's just that I have no family and don't want ever to be reminded of them. My father married a second time, my stepmother and I did not get along well, and I—"

"Lit out," he said. "I don't blame you. Lots of girls won't put up with a secondhand mother. I'm looking for one this very minute—that is, I'm supposed to be," he added.

"That was what took you out of the office this afternoon?"

"Yes. You see, her father buys goods from us, and he wrote Lowell & Lowell to look the girl up and tell her that her near mother had decided to be good and begged the girl to come home. It's too far for him to come and look for her in the busy season, but we're to find her and ship her back to Elton, O."

"Elton?" she echoed. "Andy, is his name Filson?"

"Sure thing. Do you know her?"

"I'm Frances Elizabeth Filson," she explained. "Saunders was my own mother's name."

"That let's me out," sighed Andy. "Why, your father has seven different kinds of money."

"But I am richer, for I have you," she whispered.

"Do you mean it? You still want to marry me now you've won your father back?"

"You know I do," she said reproachfully.

"And to think," mused Andy, "that I was cussing the old man for chasing me out on such a fool job."

Bess laughed. She knew what Andy meant.

EAST LAMBTON LIBERALS.

CONVENTION POSTPONED, SELECTION OF A CANDIDATE UNTIL JANUARY.

Address by Hon. A. J. McKay, F. F. Pardee H. J. Pettypiece and Others.

A convention of the Liberals of East Lambton was held in the Music Hall, Watford, on Friday afternoon.

The President, R. J. McCormick, of Warwick, presided.

On the platform were Hon. A. G. McKay, leader of the Opposition; F. F. Pardee, M. P., West Lambton; H. J. Pettypiece, ex-M.P.P., M. A. Smith, Forest; S. Bailey, Plympton; Dr. Coulter, Petrolia, and others.

The convention had been called so hurriedly on account of it being the only vacant date Mr. McKay had this month, and the roads being in such a bad condition it was thought advisable to postpone the nomination until every section of the riding could be more fully represented.

On motion of M. A. Smith, seconded by S. Bailey it was decided to defer the selection of a candidate until a date in January to be fixed by the President and Secretary, when candidates for both the Commons and the Legislature would be named.

Mr. McCormick stated the object of the meeting. It had been called very hurriedly, and as a result the attendance, while very large, was not as representative as it might be. It had been suggested that the naming of a candidate be left until some later date, when every portion of the riding would be represented. He was perfectly willing that that should be done. The convention could adjourn and then listen to Hon. A. G. McKay. He was certain that the Liberals of East Lambton would be delighted with the new leader. He was a man who had endeared himself to the party in Ontario, and was bound to be a most successful leader. He was a capable politician, one of whom all might well be proud. It was indeed a great pleasure to have him present. He had great pleasure in introducing him to the convention.

F. F. Pardee, M. P., West Lambton, was first called upon. Mr. Pardee paid a high tribute to Mr. McKay's qualities as a leader, and dealt briefly with Dominion issues.

Mr. H. J. Pettypiece, Forest, ex-M. P.P., was the next speaker. He was glad that there was such a large representation at the convention. He gave a resume of his work in the Provincial House. He had made a close study of railway taxation. That was a very live question and was one that should be brought more clearly before the people. He had been charged with deserting his bill in the House, but he denied it absolutely. In fact, it had been said that his defeat had been due to this desertion, he was proud of it, for he would rather stand with his leader and be defeated, than desert him and be a member of Parliament. He had been loyal to his leader. Whatever might be his position in the future, he was bound to insist upon the Government taking up the question of more equitable taxation. He thanked the electors for their generous support during the last general election.

Mr. Duncan White, of Bonasquet, criticized the Whitney Government's policy with regard to education. The members of that Government had shown themselves to be utterly opposed to the interests of the people in this matter. He especially found fault with the abolition of the model school. This school was the poor man's friend, as it gave his children an opportunity fitting themselves for the teaching profession, a profession that was now closed to them, owing to the fact that the new school regulations made a term in the normal imperative. Many a man could send his children through the model and after that they could work themselves through the normal school, or into other professions. Now that door of opportunity was closed to them. This was not fair, and such legislation was not wise. He also appealed for a more equitable revision of the tariff, as it discriminated too much in favor of the manufacturer, and not enough in favor of the farmer, who produced a great part of the wealth of the country.

Hon. A. G. McKay was well received on rising. He thanked them for the generous manner in which his name had been received. In coming to East Lambton he felt that he had come to a constituency that had been and was still a stronghold of Liberalism. He was convinced that after the next general election East Lambton would again send a representative to assist him in his work in the house. Liberalism had always stood by the people. It was the spirit of Liberalism that the people should rule. He congratulated the Liberals of East Lambton in that it had been independent. Liberalism had stood for liberty, truth and right dealing, and the party would ever keep that in view. The party should select good men, men of independent mind and strength of character. Liberalism always took man as a thinking animal, and gave him a chance. In an address of an hour the speaker criticized the record of the Whitney Government dealing with their educational policy, the power problem, reforestation, licenses, and the spoils system and in his closing remarks he paid a splendid tribute to the administration of Sir Wilfrid Laurier, and his colleagues. A most economical management of the nation's affairs had been given. He criticized the petty, peevish, Pecksniffian, criticism of the Conservative party. "I am expecting East Lambton to do its duty," he said in conclusion. "You will send me a representative to help on the cause of good legislation. East Lambton belongs to us and it will come to its own."

Mr. F. G. Inwood, the general secretary for Ontario, made a brief speech, in which he urged the necessity of a good organization. He had great confidence in Hon. A. G. McKay, Ontario had great

confidence in him, and he would be premier of Ontario in a very short time.

The meeting broke up with cheers for Sir Wilfrid Laurier, Hon. A. G. McKay and the King.

BADLY RUN DOWN.

Dr. Williams' Pink Pills Came to the Rescue After Doctors Treatment Failed.

The life of any constant traveller is always a hard one, but those whose work compel them to take long tiresome rides over rough roads, exposed to all conditions of weather, are in constant danger of losing their health. The extreme heat of summer or the piercing winds of winter sap their strength, the kidneys become diseased or rheumatism sets in. What is needed to withstand this hardship is rich, red blood—the pure blood that Dr. Williams' Pink Pills can alone make. These pills are the travellers never-failing friend. Concerning them Mr. George Dalpe, of St. Eloi, Que., says:—"I am a grain dealer and am obliged to make frequent trips, sometimes very tiring. I returned home from one of these trips last summer very much fatigued. I was overheated and tried to cool and rest myself by lounging on the verandah till late at night. I caught cold and the next day I did not feel at all well. I had a headache, pains in my stomach and was very weak. I went to see a doctor but he said I would be alright in a day or so, so I started on another trip. I had not gone far before I felt very ill and had to return home and go to bed. I had chills, headache, pains in my stomach and kidneys. The doctor came to see me, and he said I was overworked. He treated me for several months but instead of improving I continually grew worse. I wasted away almost to a skeleton and really thought I was going to die. One day my wife returned from the village with a supply of Dr. Williams' Pink Pills. She urged me to take them as she said they had been very highly recommended to her. I did so and by the time I had taken four boxes I felt enough benefit to decide me to continue them and I took about a dozen boxes. They fully cured me and today I am able to go about my work without feeling fatigued."

Fatigue, on the least exertion is a sign that the blood is poor. Replace the bad blood with good blood and labor will be a pleasure. Dr. Williams' Pink Pills make pure, red blood. That is why they cure anaemia, rheumatism, kidney trouble, indigestion, heart palpitation and the nerve racking ills of girlhood and womanhood. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Co., Brockville, Ont.

Small Business.

The following item from a London paper shows heartless cruelty on the part of the officials concerned that should cause them to be ashamed to call themselves dispensers of justice.—"Lewis Kennedy appeared before Squire James at the court house Friday charged with vagrancy. When arrested he was going around the country selling little pictures for what people would give him and earning his meals by doing odd jobs. He is deaf and dumb, and communicates with a slate and pencil. When arrested he had some fifteen dollars on him. He claimed that he was doing no harm, and earning his living as best he could.

When the authorities got through with him yesterday he had about enough to pay for one day's lodgings left from his fifteen dollars, and this with winter coming on, and he not as young and resourceful as he used to be."
