THE LATEST COMPETITIVE TESTS BY THE UNITED STATES AND CANADIAN GOVERNMENTS SHOW ROYAL BAKING POWDER SUPERIOR TO ALL OTHERS IN PURITY AND LEAVENING STRENGTH

Split-Log Drag Competition

A prize of \$25.00 offered by F. E. Cox, editor of the Outlook, to encourage experiments with the Split-Log Drag in Annapolis County.

At the session of the Municipal Council held at Bridgetown on April 16th, 1907, a resolution was passed unanimously approving of the "Outlook" competition and asking road surveyors in their sections to encourage the experiments with the drag under this competition.

In the Ontario competition the government is assisting by allowing the Good Roads Commissioner for the province, A. W. Campbell, to act as judge. Warden W. G. Clarke and deputy Warden J. J. Buckler have shown their interest in road improvement in Annapolis county by consenting to act as judges in the "Outlook" competition. They will inspect each piece of road in the county upon which the drag is operated in May and again in October and award the prize according to the improvement made.

HOW TO MAKE AND USE THE DRAG.

In the inventor's own words we give instructions for making the drag:—
The two halves of a split log, about seven feet long and ten or twelve inches thick, are set on edge thirty inches apart, both flat sides to the front. The cross pieces are wedged to two-inch auger holes bored through the slabs. In other respects the cut is self explanatory. If working a clay or gumbo road, it is advised to put iron (old wagon tire, or something of that sort) on lower edge of drag at end of six months; for softer soil, at end of twelve months.

The inventor has prepared the following road dragging "enthusiasm," telling how to make and work the drag.

Would it not be better to plow the road before dragging?
No. Plowing gives a soft foundation. Plowing the middle of the road is a relic of the old dump scraper days.
What do you do when there are deep ruts in the road?
Drag them. If you drag when the surface is quite loose and soft, you will be surprised how soon the ruts will disappear.
How do you get the dirt to the middle of the road?
By hauling the drag slantwise, with the end that is toward the centre of the road a little to the rear of the other end.
But suppose the road is too narrow? First drag the wheel tracks. After three or four rains or wet spells, plow a shallow furrow just outside the dragged part. Spread this over the road with a drag. Only plow one furrow. You may plow another furrow after the next rain. At each plowing you widen the roadbed two feet.
How many horses do you use?
Two, generally; three if it is just as handy; four when breaking colts—a good solid team in the centre, and a colt on each side; two men on the drag one to drive, the other to control the colts.
How do you drain the road?
If the earth is pushed in the middle of the road continually, the road will drain itself.
Why not make the drag out of plank?
You can, and do good work, but the split log is the best. The plank drag is not so stiff.
Why not make the drag of heavy, sawed timber?
Because drags so made have a tendency to slip over the bumps.
Don't you grade up the road first?
No. The grading is done with the drag, gradually. By so doing, the road is solid all the time, and is built on a solid foundation.
What does it cost to drag a mile of road a year?
The cost is variously estimated at from one to three dollars.
How do you keep the drag from dodging around sideways?
By not loading it too heavily. If a drag dodges around the earth you are moving, it is because it is overloaded.
Will the dragged road stand heavy hauling?
Yes and no. A dragged road will stand more heavy hauling than an undragged road, but not so much as a macadamized or well kept gravel road.
Don't you drive too fast. Don't you get on the drag and ride. Don't be particular about material; almost any log will do. Don't try to drag with one piece; use two.
SOME FEATURES OF THE DRAG.
It may be used almost as soon as the frost is out of the ground (the earlier the better the results), and is continued throughout the season after each rain. The road therefore is always smooth and round so it sheds rain and snow water. The dust nuisance is also reduced by the use of the drag. It is used while the roads are still muddy and before the fields are dry enough to work. It only costs from \$1.00 to \$3.00 to make a drag and from \$2.00 to \$3.00 a season to drag

Bridgetown Branch, H. H. Johnston, Manager

Death of Jacob Fash.

Well-Known Real Estate Dealer of Fall River, Mass.

After a very short illness, which had not been regarded as threatening, Jacob Fash, the well-known real estate broker and auctioneer, died at his home, 549 Osborna street, Monday afternoon. He had been complaining of lameness for several days before he was obliged to take his bed, Saturday evening, but was about the city, Saturday, and, to all appearance, was as well as usual. On Sunday no sign of a decline was observed, but heart failure speedily developed, Sunday night, and the patient passed away, Monday, after ten hours of unconsciousness. He was in the 64th year of his age.

Mr. Fash was a native of Hampton, Nova Scotia, and was born on Feb. 9, 1844. He learned the trade of ship and general carpenter, and had worked a short time at his trade when he came to Boston at the age of 21. While in the employ of Boston contractors, he helped construct one or more of the fire stations in this city, which are also police stations. Before settling in Fall River he had married Miss Jennette Works, of New Sharon, Maine, who survives him. Their surviving children are Miss Alice M. Fash, principal's assistant at the Robeson school, and Frank E. Fash, principal of the school at Steep Brook, and Chester W. Fash. Two brothers and a sister of Mr. Fash, all residing in Nova Scotia, mourn his death.

The deceased was employed in the construction of Borden block and the Central Congregational church, and from about 1887 until eight years ago he carried on a business as contractor and builder in this city. His time had since been occupied in the business of a real estate broker and auctioneer.

Mr. Fash was a member of the Second Baptist church, of Friendly Union Lodge, No. 164, I. O. O. F., Anawan Lodge, K. of P., and Volunteer Colony, No. 117, U. O. P. F. He was a quiet, genial, social person, and was highly esteemed in all his relations. He was connected with the management of the Troy Co-operative Bank, serving as a member of the security committee.

Olive Branch Division.

The attendance of members at Olive Branch Division on Monday evening last was encouragingly large, and one new member was initiated. A lively debate was carried on respecting the comparative advantages of country and of city life in preserving the best interests of young people. A large majority decided in favor of country life. On next Monday evening Rev. W. H. Warren will deliver a lecture outlining the life and labors of John B. Gough, the famous temperance orator. It is expected that the Division will resolve itself into an open session at 8.30 o'clock, so as to admit to this lecture any non-members who may desire to be present.

Municipal Council

(Continued)
Wednesday Morning.

Council met at nine o'clock. All Councillors present. Minutes read and approved.

Ordered that the delegation from the Town of Annapolis Royal be heard.

COMMUNICATION OF J. M. OWEN.
To the Warden and Councillors of the Municipality of the County of Annapolis, in Session Convened.

Gentlemen:
At the annual meeting of the Annapolis Royal Board of Trade held on the 4th day of January, 1906, the following resolution was passed by the Council of the Town of Annapolis Royal: "It having come to the notice of this Council that the Ferry service between this Town and Granville Ferry is in a very bad condition, so as to greatly interfere with the public convenience and as the Board of Trade are taking steps towards seeing what can be done for the betterment of matters; be it resolved that this Council is in entire sympathy with the movement of the Board and that a committee be appointed from this Council to act in conjunction with the Board of Trade to approach the County Council and to confer with that Council with the endeavor that something be done towards making a better service for the public and that Mayor R. L. Hardwick and Councillors McCormick, Dargie and J. H. Edwards be that Committee."

After the reading of said resolution the matter was discussed and the following resolution passed: "That whereas during the past year, the Ferry service between Granville and Annapolis has been of such an unsatisfactory nature as to seriously interfere with the business relations between the two places, and the slips have been from time to time in such bad repair as to be really dangerous; therefore resolved that this Board of Trade request the County Council to take immediate steps to have this service carried on in such a way as in this advanced age such two important towns are entitled to."

At which a Committee consisting of the Warden and Councillors Fitch and Porter and the respective Committees of Council and Board of Trade of Annapolis Royal and discussed the matter of said slips, but to the present, I am unaware of any report having been by them made, and although more than a year has now elapsed, nothing has been done for the improvement of the slips, and consequently they have been steadily becoming in a worse condition, and persons and animals passing over them are liable to accident and injury and those whose duty it is to keep these slips in safe and serviceable condition, liable for damages sustained owing to their bad condition.

In consequence of the premises a joint Committee of the Annapolis Royal Board of Trade and of the Council of the Town of Annapolis Royal has recently been appointed to again bring this matter to your notice at your present session and urge upon you the absolute necessity for the immediate repair and restoration of said slips from their present decayed and dangerous condition.

Submitted to you herewith is a copy of the report of Mr. Louis Whitman, Civil Engineer, appointed by our local government to examine said slips, with a copy of his plan for their rebuilding and estimate of the cost thereof.

I address this letter to your Honorable body with the hope that you may without further delay, take the necessary steps to put said slips in proper condition and that it may not be necessary for the Council of the Town of Annapolis Royal and the Annapolis Royal Board of Trade to take any further action in the matter.

I am, Mr. Warden and Gentlemen, Your obedient servant,
J. M. OWEN,
President of the Annapolis Royal Board of Trade, and Mayor of the Town of Annapolis Royal.

Ordered that the matter of repairing the Ferry slips, Annapolis and Granville Ferry be left in the hands of the committee on Tenders and Public Property and the Warden, to take immediate steps to put the slips in satisfactory repair.

Upon reading the petition of Isaac S. Jones and upwards of twenty others freeholders of the county of Annapolis asking that a public road and

landing may be laid out from the highway along the east side of Deep Brook to the most convenient spot near the mouth of Deep Brook on land owned by John Dimars and the counter petition of George Dimars and upwards of twenty others freeholders of the county of Annapolis praying that said petition be not granted, and praying that a committee be appointed to locate and lay out a public landing on the line between the above mentioned James R. Vroom and Walter Purdy, the report of the commissioners Weston Harris, John D. Purdy and Edward Winchester and the minority report of Edward Winchester, ordered that the consideration of same be indefinitely postponed.

Ordered that in the matter of the Scott Act prosecutions the Inspector be entitled to draw upon the treasurer for legitimate expenses and that all fines collected shall immediately be paid to the Municipal Treasurer.

Ordered that J. Edward Keans and B. W. Schaffner be assessors for Ward No. 7.

Upon reading the report of the Finance Committee the same was on motion received and adopted. The following is the report.

SUNSHINE FURNACE

UNBREAKABLE FIRE-POT

The lower portion of a fire-pot is usually nearly or partly filled with dead ashes, leaving the live, red-hot coals in the upper part. The result is that the upper portion expands much more than the lower.

This uneven expansion causes a strain too great for a one-piece fire-pot to stand. Sooner or later it will split, allowing precious heat and sickening gases to escape.

But the fire-pot of the Sunshine is constructed to meet this condition. It is in two sections. The upper half expands as much as necessary, independently of the lower. When cool, it contracts back to its original size, fitting to the lower half perfectly.

And this strong, unbreakable, gas and heat-tight, two-piece fire-pot is just one of the many superior features of the Sunshine.

RELIEF FROM RHEUMATIC PAINS.
"I suffered with rheumatism for over
two years," said Mr. Rolland Curry, a
patrolman, of Key West, Fla. "Some
times it settled in my knees and lamed
me so I could hardly walk, at other
times it would be in my hands and
feet so I was incapacitated for duty.
One night when I was in severe pain
and lame from it my wife went to the
drug store here and came back with a
bottle of Chamberlain's Pain Balm. I
was rubbed with it and found the pain
had nearly gone during the night. I
kept on using it for a little more than
two weeks and found that it drove
the rheumatism away. I have not had
any trouble from that disease for over
three months." For sale by W. A.

MAKING CHARACTER
What the Y. M. C. A. Stands for—
The Predilections of Its General
Secretaries.

Thomas Longboat ran at Boston as
a member of the Toronto West Young
Men's Christian Association. His sen
sational achievement in breaking the
world's record for the distance natu
rally draws attention to the organiza
tion whose colors he bore to victory.
Of course, there is no need in dwelling
on the moral side of the young man.
A. save to say that athletics is not
cultivated more than the intellectual
and moral side of the young man. The
main desire of the organization is to
make young men that will stand the
strain, young men with a character
rather than a reputation. The general
secretaries usually are found of men of
this type, and their fondness often ex
tends to household articles. For exam
ple, when the secretary of the Victoria
Y. M. C. A. wanted a piano some
three years ago he bought a Goulay.
He was looking for character rather
than reputation, for then the Goulay
was not well known. Now, however, it
has both character and reputation.
The instrument has been so thorough
ly satisfying that he recommended his
board to purchase a Goulay, when
nineteen other instruments were under
the notice of the directors. His recom
mendation was accepted, and recently
the firm of Goulay, Winter & Leeming
received the following letter from him:
"The piano arrived safely a few days
ago, and we have just had it set up. It
stood the long cold journey well
and is in splendid tune. Our directors
are justly proud of it, and think it
away ahead of all competitors."
Other Y. M. C. A. officials in other lo
calities are also looking for character
in a piano is indicated by the follow
ing letter from the secretary of the
Edmonton branch: "The piano arrived
in first class order. It came through
the coldest of the winter and landed
here without showing the least sign of
an effect from the cold upon either
case or action."

HAD HIS EAR TORN OFF.
Fred L. Fuller Suffers Greatly While
Doctors Work Over Him—Jammed
By Car Door.

Truro, April 17.—Fred L. Fuller,
manager of the Nova Scotia govern
ment farm at Bible Hill, Truro, suf
fered a serious accident this morning
while loading stock on the cars at
Truro station. There was a defect in
the car door, in which he was fasten
ing the cattle. An iron strap, as a
stay, was bent outward, he was look
ing up the track as an engine and
other cars passed. The moving train
caught the projecting iron and brought
the car door to with force, jamming
Mr. Fuller's head, bruising one cheek
and jaw and tearing off one ear. As
soon as possible he was removed to a
doctor's office. The ear was reattached
by stitching and his other wounds
dressed. So quickly was the work done
that Mr. Fuller will suffer no perma
nent injuries. He remained under the
doctor's hands two hours, and with
stood the stitching of his ear without
administration of anaesthetics.

sale and was purchased by James
Rooney.
Yesterday W. J. Brown, his brother,
Samuel Brown, and wife, left Kentville
for Halifax and embark from there
this week for Belfast, Ireland. A large
number of friends bade them adieu
and wished them a pleasant journey
and a return to Nova Scotia at a
future date. Mr. Brown has resided in
Kings Co. the past eleven years and
has been universally esteemed.

Business is booming at Kingstons
with its five stores, viz. W. Figgott, F.
Smith, F. Northrup, M. & E. Power,

H. D. Woodbury will soon be attract
ing a great deal of attention.

enterprising men.

Dr. Mason Sheffield died suddenly at

removed to St. John where his life
has since been spent.

VERDICT FOR THE HERALD.
Mayor Macleith, of Halifax, Loses
Suit Brought Against That Paper
For Libel.
Halifax, April 21.—The jury on Sat
urday brought in a verdict in favor of
the Halifax Herald in the suit for libel
brought against it by Mayor R. T.
Macleith, who is agent of the de
partment of justice for Nova Scotia.
The Herald charged Macleith with re
ceiving "\$4,115 graft" in connection
with transfer of properties for the new
round house site in this city. William
Dennis, managing director of the Her
ald, who wrote the article complained
of, admitted under oath that the
charge was not in accord with the
facts, and it was shown in the evi
dence that Macleith received only five
hundred dollars for legal services in
searching the titles and making the
transfers of the properties in question.
No evidence was offered by the defense
to show that this charge was excessive.
It is expected that an appeal will be
taken on the ground that the verdict is
contrary to the weight of evidence.

Death of an old time Printer
(Digby Courier.)
The death of Thomas S. Robinson
occurred at his home in Barton at five
o'clock Tuesday morning, after a linger
ing illness, aged 64 years. The de
ceased was an old time printer, having
learned his trade with the late Mr.
Gidney, on the old Free Press which
was published at Bridgetown many
years ago. Later he went to the
United States, where he served in the
Civil War and was wounded while on
active duty. He was second Lieutenant
in the same regiment that the late
Capt. Augustus Annand served in and
was very popular among his comrades.
A number of years ago he returned to
Nova Scotia, purchased property at
Barton, Digby Co., and resided in that
village until his death. He was well
liked by all who knew him, was of a
charitable disposition and will be much
missed by his relatives and friends. He
is survived by a widow (his second
wife) and a grown up son. The latter
is at present in a Massachusetts Hos
pital suffering with a broken limb. He
also leaves two sisters in Barton, Mrs.
James Farnham and Mrs. Cozeman.
The remains passed through Digby via
yesterday's express and were interred
in the family lot at Bridgetown. The
Courier loses by the death of Mr.
Robinson a valuable friend and wishes
to extend its deepest sympathy to the
bereaved relatives in this county and
elsewhere.

Nervous
Prostration
IT IS WORRY THAT KILLS, NOT WORK
Work without worry usually tends to
prolong life. On the other hand, worry,
with or without work, is fatal, because
it uses up what the Doctors call the
"Leucithin," a phosphorized fat which
is the chief constituent of the brain and
nervous system—a waste which, if not
stayed in time, means complete ner
vous wreck. The evident moral is
"don't worry"—advice easy to give,
and in these days of stress and strain
practically impossible to take. The
alternative is: find some way of re
placing the wasted Leucithin—the
essential element will be found in
its most perfect, palatable and assimil
able form in
FERROL
an emulsion of Cod Liver Oil and
Phosphorus (phosphorized fat) together
with iron, the recognized blood builder
—making FERROL the ideal nutrient it
claims to be.
For the prevention or treatment of
nervous prostration FERROL is abso
lutely irreplaceable—it is safe, sure and
speedy.
The formula of FERROL is freely ex
posed, consequently
"You Know
what you take"
S. N. WEARE, BRIDGETOWN, N. S.

You have heard of biscuits—and
read of biscuits—and even biscuits—but
you don't know biscuits—until
you try Mooney's Perfection Cream
Sodas. They are everything that
the ideal biscuits should be.
The air-tight, moisture-proof
package brings them to you fresh,

These are the days when the dis
contented farmer's fancy lightly turns to
thoughts of moving. The great railway
system of the west floods the mails
with manuals setting forth the beauties
and virtues of this and that region,
each claiming to be, par excellence,
the home seeker's paradise. Agriculture
has, in this respect, taken the place of
mining. In former times the "new
country" that offered the most attrac
tions to settlers from a distance was
that in which gold was taken out of
the ground in big yellow nuggets or
infinitesimal dust; in these later days,
the search is still for a quick fortune
but the medium exploited is the grow
ing crop, which can be turned into
gold—or greenbacks—by the slower pro
cess of planting, cultivating and har
vesting, and the pioneer has now for
his emblems the gang-plow and the
reaping machine, instead of the pick
and pan. Now, the advertising cir
culars teem with prints in which the set
tler's comfortable homestead and hap
py family are shown projected against
fields of heavy headed grain, trees
growning under apples and peaches,
proportionately as large as water
melons, and the cattle of a thousand
hills grouped in a pen by the side of
the railroad, awaiting rapid shipment
to markets where buyers stand in line,
longing for the chance to draw fat
checks in payment. While these pictures
attract the eye, few, if any, have ever
bettered their condition much by leav
ing our own fair country, and the
most of those who have left would
only be too glad to be back.

FOR GOOD ROADS.

The subject of good roads being sec-
 ond to none in the interests of Annapolis
 County, we have pleasure in giving
 considerable space on the front
 page of this issue to an article on the
 Split-Log Drag Competition inaugu-
 rated by F. E. Cox, editor of the Out-
 look, as we believe it will be the
 means of giving a stimulus towards
 the improvement of our country roads.
 We trust that there will be so wide-
 spread an interest in the competition
 that our roads from one end of the
 county to the other will give evidence
 of the merits of this method of road
 construction. By this system we may
 escape the rough roads which have
 been our portion under the statute
 labor system, making driving in June
 a penalty rather than a pleasure, and
 adding tons to the burden of the load-
 ed teams and loss of time and discom-
 fort to the long suffering driver nearly
 all the year through. The drag has
 been introduced in Ontario with excel-
 lent results and is spoken of by pro-
 gressive journals of that province in
 terms of high praise as a road imple-
 ment.

THE BRIDGETOWN RIFLE ASSOCIATION.

Minutes of meeting of Bridgetown
 Rifle Association held April 27th, 1907,
 Captain H. L. Bostin in the chair and
 a number of members of the club
 present.
 The minutes of the last meeting were
 read and approved.
 A letter from Col. LeCain was read
 accepting the invitation of the club to
 the Annapolis County Rifle Association
 to shoot their annual matches on the
 Bridgetown range. These matches will
 be held August 9th next.
 A letter from Major Elliott was also
 read notifying the club that he expected
 to be here next Tuesday to inspect
 repairs required to rifle range.
 It is suggested that a picnic be held
 on the range the day of the county
 shoot and Messrs. Cann, Dixon and
 Foster were appointed a committee to
 arrange for the same.
 On motion Guy Phinney, of Melvern
 Square was elected to membership in
 the club.
 On motion the Captain and Sec-
 retary were directed to enter one or two
 league teams according to the prospect
 for a second team.
 On motion it was ordered that a
 regular official record of the scores
 made during the practice days be kept,
 register keepers to be appointed. H.
 Meeting adjourned.

MENZIES-MARSHALL.
 A very pretty wedding took place
 at the home of Mr. and Mrs. Robert-
 son Marshall on the evening of Wed-
 nesday, April 10th, at half past eight
 o'clock, when their second daughter,
 Gertrude Cameron, was united in mar-
 riage to John T. Menzies, of Sydney,
 Cape Breton, by the Rev. J. B. Giles,
 assisted by the Rev. Mr. Morison. The
 bride, who was given away by her
 father, made a lovely appearance
 gowned in gray silk with modlin veil
 and carrying a shower bouquet. They
 were unattended and entered the par-
 lor to the beautiful strains of Mendel-
 sohn's wedding march played by Miss
 Edward Marshall, of Round Hill,
 cousin of the bride. After the young
 people had received hearty congratula-
 tions and good wishes from their
 friends, a choice collation was served.
 The presents were numerous and cost-
 ly. The bride's travelling suit was of
 brown broad cloth with picture hat,
 and coat to match. The happy couple
 left on the 12th for Sydney, where
 they will in future reside.

The Bridgetown Importing House

We have opened this week all makes, sizes, and qualities of Corsets.

New Carpets, Rugs, Squares, Floor Oil Clothes, and Curtains now open; and while we assert that without doubt, it will be found to be the choicest stock and best value Bridgetown has ever before had, we want customers, one and all, to call and see for themselves, in order that we may prove the truth of the above assertion. You will believe if you see, and you will save if you buy.

Our new stock of Ladies' Underwear, Blouses and Wash Suits are now opened. All imported direct from The Allen Manufacturing Co., whose fits and workmanship excel. Customers who had their goods from us last season will testify of their excellence.

Our Dress Goods trade is doubling this season because of the great values our customers are finding in them.

Our store is being filled from corner to corner, from floor to ceiling, with a class and assortment of the most desirable goods for this season's demands. If you cannot walk or drive send us your orders by mail.

We have some goods left, which must make way for our new arrivals.

Do not overlook our Curtains, 3 1/2 yards long and 60 inches wide, at \$1.00 cash per pair; worth \$1.50.

Our past record is a proof to customers that they can rely upon the highest price the year round, that the market affords, for their butter and egg at our store.

Performance follows promise in this store. It is sure as night follows day.

Millen Buckler, of Dalhousie, has at work probably the first splicing drag in the County. Dr. Armstrong saw it in operation yesterday and reports excellent results, heavy cuts being quickly removed to leave a smooth even surface.

The annual meetings of the Boards of Commissioners for Annapolis County will be held in the Court House at Annapolis Royal on Monday, May 13th, at eleven o'clock a. m., in the Fairview Hotel in Lawton on Tuesday, May 14th inst, at half past ten o'clock a. m.

A sudden death occurred on the D. A. R. express at night on Thursday. Sylvester Schofield, a passenger from Kentville, where he had been visiting relatives, en route for his home, St. Paul, Minn., suddenly expired from heart failure. He was accompanied by Mrs. Schofield, who, after having the body embalmed, continued with it on her sad journey.

The latest from Dr. Trotter is that he is still in the hospital in Toronto, and although not suffering severe pain, is very weary. The piece of bone that was removed has been sent for microscopic examination by a pathologist, but so far he has not reported, and they are still in suspense as to the nature of the tumor, but are hoping that it may not be malignant. The surgeon, Dr. Starr, is very hopeful.

It is understood that an agreement has been reached between Canada and Britain, whereby British newspapers and periodicals will come to Canada at greatly reduced rates. Postmaster-General Lemieux will likely give the details of the arrangement in Parliament and to the public at once. The decision reached at the Congress in Rome to carry letters of one ounce, instead of half an ounce for two cents from Canada to Britain will take effect at once, instead of in October as previously arranged.

The Young Men's Social Club is, to our minds, a move in the right direction, and should be encouraged by the citizens. There had been considerable talk in the past in regard to a Y. M. C. A. but after waiting with no indications of its materializing some of the young men talked the matter over and started this club. At the present time their quarters are rather small but in the near future they hope to have a more suitable place in which to meet, and with the proper encouragement their is no reason why their hopes should not be realized. In the meantime they will be thankful for contributions of money, games, magazines, papers, etc. Help them along.

Be it enacted by the Governor, Council and Assembly, as follows:—

1. Section 71 of Chapter 71 of the Revised Statutes, 1900, "The Towns Incorporation Act," is hereby repealed and the following substituted therefor:

71. (1) Every person shall be qualified to vote at an election of Mayor or Councillor who

(a) Is a British subject of the full age of twenty-one years or upwards, and

(b) Is registered on the list of voters under the provisions of "The Nova Scotia Franchise Act," including women on said list, and

(c) Has fully paid his rates and taxes of all kinds for the previous year at least ten days before the day for nominating candidates.

(2) Before delivering a list of voters to a presiding officer for the purpose of an election of Mayor or Councillor under the provisions of said Chapter 71, the Town Clerk shall strike off such list, by scoring the same with red ink, the name of every person who has not complied with sub-section (c) of section 71 of said Chapter 71 as hereby amended.

This Act entitles poll tax payers to a vote previously denied to them.

WILL KISSING BE PROHIBITED

The Osculatory Process Denounced by Scientists as Extremely Dangerous—How the Danger Can be Removed.

A keen discussion is being carried on by some of the best scientists as to the danger and "crime" of kissing, led by Dr. Somers, Health Officer of Atlantic City, and Dr. Nalpasse, of the Medical Faculty of Paris. They charge the kiss with spreading grippe, scarlet fever, measles, mumps, whooping cough, typhoid fever, diphtheria, erysipelas, meningitis, tuberculosis, and many infectious skin diseases. They suggest legislation on the subject, and the posting of notices in railway stations, street cars and other public places, but they say it would be useless to post signs on verandahs, in cosy corners, porches, shady nooks, or moonlit lawns. They also propose compulsory legislation for methods of disinfection of the mouth and purifying the breath, especially with a view to the protection of the innocent babies who are particularly subject to infection. The greatest and most effective purifier and germ destroyer known to medical science for the mouth, throat and breath, as well as for the blood, stomach and lungs, is Psychine, that triumph of the medical world that is attracting almost universal attention because of the wonderful results attending its use. One of its recent triumphs is told as a matter of experience in the following brief statement:

Dr. Slocum Co.
I am sending you photo and testimonial here-with for your great remedy PSYCHINE. Your doctor had given me up as incurable after 30 years of age when I took PSYCHINE. The doctor had given me up as incurable because my lungs and every organ of the body were terribly diseased and wasted. Friends and neighbors thought I'd never get better. But PSYCHINE saved me. My lungs have never better since, and Psychine is a permanent cure.

MRS. LEZZIE GARDNER,
215 Bathurst St., London, Ont.

Psychine, pronounced Si-keen, is said to be the most wonderful of all disease and germ-destroying agencies. For building up the run-down system and curing all forms of stomach troubles and diseases of the chest, throat and lungs or head, it is simply unapproachable. It is a reliable home treatment. KILLED WHILE BURNING
BROWN TAIL MOTH NESTS.

While burning brown tail moth nests in Manchester, N. H., on Friday of last week, Thomas Dolan, of Cypress street, Brookline, was killed by coming in contact with high-tension electric wires. He fell 45 feet from a tree and died while on the way to the hospital in a police ambulance. He was engaged with other expert climbers and entomologists employed by a Boston firm, which is under contract with the city to destroy the brown tail moths with which Manchester is infested. The other men engaged in the work became terror-stricken at their comrade's fate, and two gangs, numbering nearly twenty-five men, stopped work. Dolan was about twenty years old, and leaves a father, mother, two brothers and a sister living on Cypress street.

PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Inventors and others who desire to secure patents in Great Britain, France, Germany, United States, Canada, Japan, etc. etc. Write to us for particulars. Address: The Patent Office, 11, Abchurch Lane, London, E.C. 4, U.S.A.

The accounts sent home from the West of severe hardships undergone by many Cornwallis natives during the past winter, should help to make present residents of this Province more contented to remain in their mother country, where a comfortable living is more easily obtained. A former bank manager of Kings county writes that during the coldest weather of this past winter he was obliged to travel three miles for water supplies.—Ex.

It is high time, as an American writer urges, to attempt criminal action against railway directors in case of accident primarily due to their own gross negligence. In what other way can they be roused to an adequate feeling of personal responsibility for the lives of helpless people who trust themselves in their hands? A railway company has no business to take the and then slaughter them with defective lives of passengers into its keeping rails or broken flanges.

Rep. Dandero, of Chelsea, is a striking example of a self-made man. He is the first Italian that has been in the Maine legislature for many years. He landed in New York in 1871 and started to work for some contractors. Thirty years ago he was a peanut and banana pedlar. He saved his money carefully and today owns one of the biggest stock farms in this section, on which are 40 head of thoroughbred Guernseys. He was selectman of Chelsea for five years.

Nearly every one of us is figuring on having a fine time just ahead when we get fixed, and this vision is just ahead of us when we fall asleep. To live is the now and enjoy the present is the work of a philosopher.

A STATESMAN'S JUDGE.
Dr. Leeson Tells Some Unpublished History of Northwest Rebellion.

A finally appreciative and illuminating review of the life and work of the late Mr. Justice Street is contributed to the current issue of The University of Toronto Monthly by ex-President Leeson, a life-long friend and associate of the deceased jurist. The article contains some very interesting references to incidents in his life which have not hitherto been given publicity, especially in relation to his important public services he performed as chairman of the Northwest Half-Breed's Claims Commission appointed in 1855.

The question of the commission was to make lists of persons entitled to land grants in compensation for their dispossession at law by the Dominion when it assumed sovereignty in 1870. The Government at the time of the appointment of the commission was not prepared with any definite policy regarding the plan of allotment, and Mr. Street was left to do the best he could, and if the half-breeds did not come in to accept their claims no blame could attach to him or his associates for their failure. Just at this juncture, on March 27, 1865, news arrived at Ottawa that the smouldering discontent among the half-breeds of the Northwest had burst into flame, and a conflict had taken place at Duck Lake. That same evening Mr. Street was asked that they be given authority not only to make lists, but to give each half-breed as he applied to land his scrip. Sir John promptly concurred, and the commission left Ottawa for Winnipeg on April 7 clothed with this added authority. After the first interview with half-breeds at Commissioners they were also given power to allot land as well as to give scrip for so much money with which land could be purchased at a dollar per acre.

At the next session of the commission after much difficulty one of the half-breed women was persuaded to accept scrip for her land claim. This scrip was immediately turned into money by sale to the agent of a Winnipeg banker. The suspicious and alarm of the Indians were quieted by this tangible evidence. The news quickly spread among the assembled half-breeds. The work thus successfully begun by the commission was conducted successfully to its close, and hundreds of half-breeds and their Indian friends were prevented from joining the rebel forces under Riel.

So successful, says Dr. Leeson, was the whole mission that it deserved the name of the Peace Commission, and its achievements are entitled to take rank with those of the military heroes under General Middleton. It should not be forgotten, however, that the commission would have proved a lamentable failure had it not been clothed with the powers which Mr. Street's foresight secured when he was the point of leaving for the Northwest.

Dr. Leeson also narrates a few incidents from the story of the commission's work illustrative of the diplomacy and good judgment of Mr. Street in dealing with the half-breeds at a time when lack of caution, firmness or knowledge of Indian customs would have had very serious results in fomenting further trouble in the sparsely settled west. For instance, at one of the first sessions he first set to make a kite for the youngsters—the first kite flown in the Northwest—and this kindly act was followed by his sending to Winnipeg for a couple of footballs, with which he taught the boys the mysteries of the Association game. Kettle could have been more effective in raising the goodwill of the excited and resentful Indians.

A Scientist's Criticism of a Comic Book For Children.
Charles Monselet, a Frenchman of letters, published a comic "scientific dictionary" for the benefit of children, who found no little amusement in his old accounts of things in the animal world which were perfectly familiar to them, but which were described in a rather fantastic way in M. Monselet's book.

The editor of a certain scientific journal, however, was much surprised and shocked at M. Monselet's ignorance when he took up the book, and he wrote an article about it in his paper, which ran as follows:
"A certain M. Monselet has published a dictionary for the use of children, which contains definitions showing the most extraordinary ignorance, such as the following:
"Serpentine—A little fish without any head which lives in oil."
"Another definition:
"Serpentine—A bird somewhat resembling the pigeon, generally green when it is not red or yellow or blue. Location sometimes lives to be a hundred years old, except when they are stuffed, and then there is no limit to the length of their life."
It happens that the parrot is not a pigeon at all and never has the colors that M. Monselet gives to him, and, in fact, that M. Monselet knows of more of natural history than he has grains of common sense."

FOR AN ALL-EMPIRE CABLE
Principal Gordon Outlines Scheme For Gathering News of the Empire.

"Those of us who are Imperialists are not so because of a desire for gain, neither is it a desire for militarism, but it is a desire for a closer union, and for a more friendly intercourse among the various dominions and possessions of the Crown."
Principal Gordon of Queen's University when addressing the Empire Club in Toronto recently, Principal Gordon pointed out how little, after all, Canadians knew of the other possessions of British rule, and how few of the Canadian people were well informed of the various parts of the Empire. He said that it was not necessary to give instances. The Canadian press, excellent as it was, did not supply the information required by Canadians relative to British colonial affairs. What news the Canadian newspapers had was largely gathered and supplied by agencies which catered to other than British people. What was required to insure a better knowledge of each component part of the empire was, first, an all-British cable service constructed and operated by the Governments interested, and the establishment of bureaus to act as news centers in Australia, New Zealand, South Africa, Canada and other parts of the empire.

What Imperialists desired was that the cable now running from Vancouver to Australia should be supplemented by one connecting three other sections of cables. The first section should be from Australia to Nova Scotia, and across Canada to Vancouver to join the Pacific cable. The second section should be from Nova Scotia, India, New Zealand and New Zealand to Cape Town, and from Cape Town to the West Indies, with branches from these latter islands to Nova Scotia, and to Great Britain. This was the proposal which Sir Sandford Fleming had outlined, and for which he was still so loyally working, even though he was eighty years of age. There had been two plans suggested for the gathering of the news—that that of the Government of each colony should gather such news of interest and importance as would be of value to all readers, and second, the establishment of an organization of lines of the Associated Press, which there surely could be no serious difficulty in the way of the formation of a great bond of union, and a greater opportunity of presenting the news of the Empire to the world.

The influence of this proposed operation would be to bring Australia, India and New Zealand into closer contact with the West Indies, which it properly should form a bond of union between the parts of the Empire, and to the gathering and giving information which would be valuable in trade and commerce. The cost of such a cable would be about twenty-five million dollars, not a sum which should prevent its construction by a new empire.

Skin Disease is Blood Disease
"Fruit-a-lives" clean the blood of all impurities and clear the complexion.

Pimples and Blisters—Redness—Boils—Eczema and other inflammations of the skin—mean impure Blood. A person with a complexion always suffers from poor digestion—non-action of the bowels (or Constipation) and often the kidneys are weak. These unhealthy organs cannot rid the system of the waste matter. It is this waste—taken up by the blood and carried to the skin—that ruins the complexion. "Fruit-a-lives" cure all skin troubles because they cure the kidneys and bowels. "Fruit-a-lives" cause the eliminating organs to do their proper share of the work of ridding the system of waste. This purifies the blood—and instantly the pimples and blotches disappear, and the complexion clears. "Fruit-a-lives" cure skin troubles when everything else fails. "Fruit-a-lives" are fruit juices, intensified, and combined with valuable tonics and antiseptics. They are without doubt the greatest blood purifier in the world. 50c. Box—\$1.00. At all druggists.

OBITUARY

LIZZIE A. SABEAN.

On Thursday, the 11th inst., the home of Mr. and Mrs. Charles Sabean, West Paradise, was saddened by the death of their second daughter, Lizzie, at the early age of 21. The deceased who had been a sufferer from tuberculosis, was confined to her bed upwards of three years. During this long time she was gentle and patient, and bore all her sufferings without a murmur. Death came to her as a welcome messenger, and she was ready to say, "Yea though I walk through the valley of the shadow of death, I will fear no evil, for thou art with me, Thy rod and staff comfort me." The funeral took place on Saturday, the remains being interred in the Paradise cemetery. She leaves a father and mother, one sister and one brother, to mourn the loss of a kind and affectionate daughter and sister.

HENRY MERRY.

At New Albany, on the 28th inst., Henry Merry, aged seventy-nine years, passed to his eternal rest. Four of his children arrived a few hours before his death. The deceased will be much missed in Albany as a good citizen and true Christian. He leaves to mourn their loss nine children. One son, Thomas, with whom Mr. Merry lived, has the homestead; the other sons and daughters all reside in the States. The funeral was held on Tuesday, April 30th.
