## U. S. Congress Votes to Repeal Panama Tolls Exemption—Majority 86

### More Hope of Compromise on Home Rule Since Asquith's Unexpected Move—No Further Resignations

#### N.T.R. GRAFT NOT YET REVEALED TO PUBLIC

Sevigny of Dorchester Lamented That Burns Detectives and Detectographs Had Not Been Employed Some Years Ago—Mousseau Shocked by Revelations.

By a Staff Reporter.  
OTTAWA, March 31.—Some half a dozen speeches were contributed at today's sitting of the house to the long drawn out debate on the N.T.R. The majority of these were delivered by members from the province of Quebec including Mr. Sevigny, the Conservative member for Dorchester, Mr. Lachance the Liberal member for Quebec centre, Mr. Power the Liberal member for Quebec west and Mr. Demers the Liberal member for St. Johns and Ierville.

Mr. F. B. McCurdy who defeated Finance Minister Fielding in Queens and Shelburne said that as a Canadian business man he was sorry that the opposition had confined themselves to abusing the commissioners instead of explaining if possible the startling discrepancy between the estimated cost of the road and the actual cost to the country.

Shocked Even Mousseau.  
The debate was resumed by Mr. Sevigny (Dorchester), who spoke in French. He said the graft in connection with the National Transcontinental was so scandalous as to shock Mr. Mousseau, the member of the legislative assembly of Quebec who figured so prominently in the recent scandals. They had also called forth denunciations from R. L. Richardson, recently the Liberal candidate in Macdonald. In his paper, the Winnipeg Tribune, Mr. Richardson had called upon Sir Wilfrid Laurier, Hon. Clifford Sifton and Hon. George F. Graham to say what they thought of the waste and corruption which had attended the building of the road between Moncton and Winnipeg.

Mr. Sevigny recalled that Sir Wilfrid Laurier in opening the campaign in 1904 in St. John had boasted that he would build a line from Moncton to Winnipeg for \$12,000,000, but now the country found that the bill was not \$12,000,000 but \$180,000,000 and allowing for interest and other losses the bill would amount to \$250,000,000.

Detectograph Needed.  
After reviewing the Davis contracts and the Cap Rouge viaduct, Mr. Sevigny said that it was a great pity that Burns and his detectograph had not been employed some years ago so that

(Continued on Page 3, Column 4.)

#### CONGRESS BY LARGE MAJORITY RESPONDED TO WILSON'S APPEAL TO PRESERVE NATIONAL HONOR

Repeal of Panama Tolls Exemption Carried by Eighty-Six Votes Despite Frenzied Opposition Led by Champ Clark—Fight Shifted to the Senate.

WASHINGTON, March 31.—The house of representatives tonight after one of the most spectacular legislative struggles in the history of the nation, voted to repeal the provision of the Panama Canal act exempting American vessels from the payment of tolls. The vote on the repeal bill was 247 to 161, a majority of 86 votes in support of the personal plea of Woodrow Wilson, president of the United States.

This verdict on the issue which has absorbed congress for many weeks came at the close of a stirring day, made memorable in the annals of the house by a party division which found Speaker Champ Clark, Majority Leader Underwood and other Democratic chieftains lined up in open opposition to the president on an issue which the latter had declared vital to his conduct of the nation's foreign policy.

Real Fight in Senate.  
Today's result was but the beginning of victory for the administration within the party for the first time since democracy took control of the government a year ago. Tomorrow the bill goes to the senate, where the fight will be renewed with all the vigor and determination that attended it in the lower house.

On the final vote 230 Democrats in the house stood by the president giving him in "ungrudging measure" what he had asked "for the honor of the nation" in its foreign relations. Twenty-five Republicans and two Progressives also voted to sustain the president. Fifty-two Democrats followed Speaker Clark and Mr. Underwood to defeat in their steadfast determination that the president was wrong in his decision that toll exemption for American ships is a violation of the Hay-Pauncefote treaty with Great Britain.

Clark's Eloquence Wasted.  
Nothing, it seemed, could stem the tide of administration success. Speaker Clark, for nearly twenty-two years a member of the house, made the speech of his life to forestall what he termed "unquestionable degradation" of the nation. In this he failed, but he did smooth over the party breach with kindly words for his adversaries, praise for President Wilson, and unqualified denial of any vaunting ambition on his own behalf. When he had closed the debate for the opposition to the repeal with an impassioned argument, in which he often departed from his prepared speech,

(Continued on Page 3, Column 5.)

#### To Renew Immigration Ban

OTTAWA, March 31.—It is expected that tomorrow the government will renew the order-in-council which prohibits the immigration into British Columbia of laborers. The order-in-council, which was passed six months ago, expires today. The chief purpose of the order is the exclusion of Hindu laborers.

#### DRAFT BILL TO AID C.N.R. READY

Only Lacks List of Securities to Be Deposited With Government as Collateral.

By a Staff Reporter.

The draft bill which will authorize the Dominion Government's guarantee of Canadian Northern bonds is ready for submission to the cabinet and is said to be complete except in so far as the schedule leaves in blank the list of securities to be deposited as collateral for the protection of the government.

The bill is said to be quite brief and in its way a model of good draftsmanship, credit for which is largely due to Solicitor-General Meighen.

Just when the legislation will be introduced or the formal announcement made by the government to parliament and the country is uncertain. It is generally believed, however, that while the general scope of the agreement will be known within a few days the legislation sanctioning the agreement will not be brought down until after the Easter recess.

#### FIFTY THOUSAND MEN ARE IDLE

Nearly Every Coal Mine in Ohio Has Been Closed for an Indefinite Period

CLEVELAND, O., March 31.—With few exceptions every coal mine in Ohio was closed down indefinitely tonight. Local operators estimate that 50,000 miners are affected.

Recent legislation changing the method of payment of miners from the screen plan to the run-of-mines basis is the cause of the shut down, operators refusing to renew contracts expiring tomorrow until conditions resulting from the new law became more settled.

#### HIGHER FARES ON TOLEDO CARS

Eighty Per Cent. of the Passengers Paid, But Some Are Still Riding Free.

TOLEDO, Ohio, March 31.—Of the Toledo Railway and Light Company reported tonight that approximately eighty per cent. of the passengers today paid five-cent fares. The company continued its policy of allowing all who insisted on paying three-cent fares to ride free.

Negotiations were resumed between the franchise committee of the city council and representatives of the railway company, but no decision was reached on a proposal made by the company that the three-cent fare plan be given a trial, and that the rate of fare hereafter be fixed every five cents.

#### REVENUE OF BRITAIN SHOWS AN INCREASE

Lloyd George's Optimism Proven to Have Been Well Based.

LONDON, March 31.—The treasury statement for the fiscal year seems to justify the much anticipated optimism of David Lloyd George, chancellor of the exchequer, which led him a year ago to decide to meet the heavy increase in expenditures by a natural growth of revenue from the existing taxes, instead of imposing new taxes.

#### FEDERALS OUTNUMBERED FORCE WAS SLAUGHTERED

Four Hundred Men Killed or Wounded in Desperate Conflict.

MEXICO CITY, March 31.—It was learned today that the four hundred Federals who were killed or wounded north of San Luis Potosi on Saturday last comprised practically the entire force commanded by Enrique Perez. They were led into a position where they were forced to fight rebels estimated to number 2,000.

The rebels now control that district, effectually preventing the resumption of railway traffic to the north.

#### MADE A CHILD BORROW MONEY

Masked Man Held Up Old Woman and Granddaughter and Used the House as Refuge.

MONTREAL, March 31.—Edward Belanger and Joseph Roy, suspected of being the two or three masked men who last week forced an entrance into a house at St. Jerome, occupied by Mrs. Guenette, a widow, and her little granddaughter, were arrested in the city today. Anton Verduin, alleged to be third of the hold-up trio, was arrested at St. Jerome on Saturday.

The three accused as said to have compelled the aged woman, at the point of revolvers, to get supper for them, and the little girl to go out to neighbors to borrow money, saying it was for her grandmother. The child returned with \$2, which the bandits appropriated, together with a purse containing about \$10. They sent the woman and child to bed and played cards and smoked and damaged furniture. They slept in the house that night and decamped in the morning.

#### BIG ICE-BREAKER WILL COST MILLION DOLLARS

Is Being Built at Maisonneuve for Dominion Government Service.

MONTREAL, March 31.—Active preparations are going on at the Maisonneuve plant of the Canadian Vickers, Ltd., for the construction of the four to five thousand horse power ice-breaker which the Dominion Government has ordered from that firm, which has invested five million dollars for the purpose of promoting a steel shipbuilding industry in Montreal.

The mammoth steamer, which is to be commenced early in June is expected to be completed and ready for the winter service of 1915-16. It will cost nearly a million dollars.

COMMISSIONER HARRIS.  
Why not provide a team of horses on the Lake Shore road to help farmers draw their heavy loads thru the mud, which is almost impassable, and in which wagons are stalled every day?

#### OUTLOOK GROWING BRIGHTER FOR HOME RULE SETTLEMENT FEDERAL SYSTEM CONSIDERED

#### Larkin May Oppose Premier

LONDON, March 31.—It is reported from Dublin that Premier Asquith is to be opposed in the by-election for East Fife by James Larkin, who as head of the Transport Workers' Union was leader of the strike in Dublin last autumn. In connection with the strike Mr. Larkin was sentenced to seven months' imprisonment in October for inciting to riot, but was later released.

#### MONEY LETTERS IN 'DEAD' OFFICE

New Regulation Causes Thousands of Remittances to Be Held Up—May Re-scind Order.

OTTAWA, March 31.—Thousands of letters are lying in the dead letter office in Ottawa, Toronto and other cities that contain money. That is the reason why they are in the dead office. It is contrary to a regulation recently put in force to send money thru the mail, unless by postal order, cheque, or in a registered envelope. The order was issued to stop the sending of money thru the mails, and the idea was to remove temptation as far as possible from postal employees.

Many retail houses do a good deal of rural business in this way. Many of their customers enclose coins in envelopes and send them thru the post to retail houses. There is no penalty attached to the sending of money thru the mails, but the sending of it is contrary to the regulations, and unregistered letters which are being found to contain money have been sent to the dead letter office.

It is not expected that the order will remain long in force. Strong representations against it have been made to the postmaster-general.

#### FRESH SCANDAL STIRS UP PARIS

Charges Respecting Alleged Deal With Big Naphtha Syndicate Will Be Investigated.

PARIS, March 31.—Another stormy scene occurred today at the meeting of the investigating committee of the chamber of deputies which is inquiring into the reasons for the postponement of the trial of Henri Rochette, charged with swindling operations, culminating in the temporary resignation of the chairman, M. Jaures.

The majority of the committee, the radicals, voted to omit the paragraphs in the report drafted by M. Jaures, finding that M. Caillaux, the ex-minister of finance, and M. Monis, high positions. M. Jaures immediately rose from his seat and left the meeting. Finally the radicals withdrew their votes and M. Jaures his resignation.

The committee will examine tomorrow the members of M. Monis' cabinet of 1911, concerning the allegations made by a provincial newspaper to the effect that Edmond du Mesnil, editor of Rappel, approached a minister, whose name was not given, and told him that Rochette required an adjournment of his trial for six months to enable him to complete the organization of the Baku naphtha syndicate, which would mean a profit of \$2,000,000, of which he was willing to give a share to whomsoever would obtain the postponement. The minister, according to this account, promptly showed M. Du Mesnil the door, and then went to M. Monis and informed him of this fact.

#### Sir Edward Grey's Proposal to Solve Difficulty Received Sympathetically by Both Parties and Conference Later Discussed Plan—Serene Atmosphere in Commons.

LONDON, March 31.—A parliamentary writer observed a few days ago: "This amazing government seems to thrive upon its blunders," and the net result of a crisis without parallel in modern times has been that the debate on the second reading of the home rule bill was resumed today in an atmosphere of unexpected calm with apparently a better prospect of being carried by a cent than ever before.

The Unionists are clearly alarmed at the spectre which the Carsonite methods have raised of an election fought on a platform of "The Parliament vs. The Army." Even the moderate Liberals are anxious to avoid such a struggle which it is foreseen would let loose a flood of passion exceeding even that which attended the agitation to abolish the veto power of the house of lords.

Hence the proposal of Sir Edward Grey, secretary of state for foreign affairs, to the house of commons today of a federal system of government for the British Isles as a solution of the difficulty, which he put forward in a most conciliatory speech. The proposal has been received on both sides of the house with great sympathy, and it is believed will lead to a renewal of the negotiations between the two front benches in the arrangement of an acceptable compromise.

Discussing Settlement.  
The large body of opinion, both inside and outside parliament, supports a settlement on the federal basis and a meeting of about fifty members of the house representing both parties was held today to discuss a settlement.

Viscount Morley's decision not to resign as lord president of the council pleases the Liberals, as at his advanced age it would have meant his permanent retirement from politics and the party would regret to see the veteran statesman retired under a cloud.

#### COURT LADIES IN PARTY PLOT

Officers at Curragh Said to Have Yielded to Blandishments in Resigning Commissions

LONDON, March 31.—Women's intrigues are in no small measure responsible for the action of the Curragh officers, who last week resigned their commissions rather than agree to "shoot loyalist Ulstermen," according to John Ward, the Labor M.P., who made an historic speech in the house last week. It was known he said today, that certain ladies-in-waiting had been for some time passing backwards and forwards between Aldershot and Curragh.

"We knew that these ladies-in-waiting were," he said, "experienced in political intrigue, and we concluded that if they were not operating upon high authority, certainly they were using the influence of the palace for their own party ends."

Ward added that things were going on behind the scenes that would not bear the light of day.

SAULT STE. MARIE, March 31.—According to reports from various points, conditions are favorable to an early break up of the ice. The field in St. Mary's river is rapidly disappearing and the open water extends more than half way across from the Canadian shore and down thru the old channel to Little Lake George.

#### WHAT WOULD YOU DO IN A CASE LIKE THIS?

If You Found Eighteen Thousand Dollars and Started Out With Half a Dozen Friends to Spend It as Quickly as You Could—Figure It Out.

Eighteen thousand dollars in five-cent pieces neatly wrapped in small parcels was picked up on Yonge street at 10 o'clock last night by a man who said his name was Jim Smith and that his address was Podunk. When Smith saw the parcels he nearly threw a fit, but Yonge street was not a fit place to do it, so he refrained until a little later in the evening. Fifteen thousand dollars in five-cent pieces is just \$300,000 nickels, and you can probably imagine how long it would take him to count them all. If you can't imagine, just sit down this morning and figure it out.

Anyway, after he came to, Smith took the eighteen thousand dollars and went down a side street where he sat under one of the hydro lights to count it. As he was half way thru his task several friends came along and suggested that they all go out and have a good time. They filled their pockets with the five-cent pieces and proceeded on their way. First they went to a restaurant and ate thirty-six dollars' worth of cold chicken each, not to mention six or eight thousand dollars' worth of wine they drank to wash it down. It took the cashier at the counter an hour and a half to count the money.

Then they went to a cigar store and bought everything in the place. None of them smoked, but their wives were saving the coupons.

In Trouble Again.  
That loaded them up with a lot of cigars, cigarettes and tobacco for which they had no use, so they stood on a street corner and sold them at half the usual rates. This gave them as much money as they had before they went to the restaurant, and they again were faced with the problem of getting rid of the change.

Each of the friends by this time had made several more, and the money again was divided, so that every one had eight thousand six hundred and thirty-four dollars and fifteen cents. You'll have to figure out again how they divided it so evenly.

They simply had to get rid of the money before some one clapped it, or before half a dozen "fly cops" were put on their trail to make them disgorge. One young man, who seemed to know all about spending money, thought the best way to get rid of it all was to take a taxicab and ride around the city for an hour or so, but the others insisted on some speedier way of getting rid of the nickels. Taxi drivers don't like nickels anyway.

More Eats.  
By this time they all were hungry again, so went to another restaurant and spent about three thousand dollars. They tipped the waitress to six hundred, and she hasn't revived yet.

The taxicab enthusiast insisted on riding in motor cars, so the whole bunch went to a garage and bought a car for four thousand dollars. They tore thru the streets of Toronto at a speed averaging sixty miles an hour, till two of the tires blew out and they were forced to buy new ones. While they were waiting for the new equipment a traffic policeman happened to catch up to them and insisted on taking them to the police station. There they were fined a thousand for speeding, which they paid. Not having any further use for the motor car they presented it to one of the policemen.

One of the party remembered that some of his friends were celebrating at a silver wedding. Fine business. The whole bunch went to the house and showered the happy couple with nickels.

But their supply seemed never to grow smaller. If anyone wants to sit down and figure out any other ways by which they could have spent more money, go to it, but remember this is April Fool.

Superior Acting in "Tants."  
The company presenting C. Haddon Chambers' comedy "Tants" at the Princess Theatre this week, with Miss Barrymore at the head, is of a very superior character. There will be a matinee this afternoon.

**Fancies of Fashion**

**Waistline Is Unseen in New Gowns**

By Madge Marvel

THE "line" of a waistline is the puzzle presented by the newest spring silhouette. The average modish gown makes it an almost negligible quantity. For years woman's waist-line has been roving about in a most independent and freakish manner, but now it seems to have entirely disappeared. First, it went upping down in front at an utterly absurd angle. Then it suddenly took an up-angle, and fixed its habitat under the arms, whereupon we talked much of the grace of Josephine and the charm of the fashions of the First Empire. Again it became a wanderer and settled about the hips. Now—who can accurately locate it?

Its peregrinations the waist-line has grown generous in its size, and the strictly correct and up-to-the-minute figure shows not the least indentation of outline at the place where physiologists have given us reason to believe the feminine waist belongs.

**Corsets Are "Reconstructed."**

Poifet is said to be responsible for its actual and complete disappearance. His gowns have a perfect silhouette line from the collar to the hem. A ring which would fit the shoulders would fit equally well at the waist, the hips and the hem.

Some of the very latest and extreme innovations have a certain lowered blousiness at the waist where a waist ought to be, which gives one a sense of hopelessness when the ultimate location of the waistline is considered. Yet, when were the styles ever more attractive, energetically considered?

While on the subject of "line" it is almost needless to mention corsets. They, too, have the impression of having been lost or melted. They are of the most pliant material, elastic and elastic and silks and satins, batistes and soft brocades. Only enough boning is used to keep the shapeless of the hips.

The hips are still long and anore. At the point where once was the waist-line the corset abruptly ceases. Sometimes, where there is a superabundance of adipose to be restrained, there is a top piece of elastic material which gives a pleasing security. Where the top of the corset ends the modern bralette begins. One year or so ago wearing a bralette was a matter of choice unless the figure was unusually "full," but now it is a necessity. It has become a part of the corset, and as important as the fit of the stays.

These little "soutien gorge," as our Parisians call them, are made of elastic of lace and linen, crepe or silk or held in place by narrow shoulder straps of lace or ribbon and with every suggestion of fullness carefully omitted.

**Mexican Influence Appreciable.**

The new corsets have been destined to meet the exigencies of the dance mania. For there is still present the very evident influence of Terpsichore on the spring. The Mexican influence is the main part of it with all the dancing there is not a natural revolution on the part of the dancers against the extreme of the "dips de danse" and "dips de danse" to permit of the wearing being either comfortable or assuredly graceful.

Many of the summer silks and cottons are the influence of the Mexican situation. Indeed, some of the figures might have been purloined from old Aztec temples, and there is the suggestion of Mexico in the "brocade" boleros and some of the "outing" hats have the high crown which is typical of that agitated country.

In wrens there is a growing tendency toward the cape. Some of the new sporty that they are almost capes, and there are frequently straps which cross in front in the manner of our old golf capes.

**As a Clown Sees Us**

By Harry La Pearl

Premier Clown of the New York Hippodrome.

Our Fashions!

I REGARD the coming of the colored wig as a circumstance of great value, affording a striking example of the stupidity with which we, as a people, worship at the shrine of fashion.

This thing fashion—style—has such a powerful sway that there have been times when I have been tempted to yield some respect to it. Its very omnipotence almost compels me to think there must be something behind it. I have comforted myself with that thought when my wife bankrupted the treasury to lay in an outfit of noble silks and such like when she had much better looking garments in plenty either related to the attic cubby hole or shipped to the poor heather far away.

But I know better now. I have torn off the mask and can demonstrate that this mighty merru Motch is only a big fake! How?

Well, this last break—the colored wig thing—did the trick. I thought to be sure I am as familiar with that I can trace it right back to its source. About 20 years ago clowning, the "white face comedy," as it was called, had reached the apex of its possibilities. Everything that could be done to raise a laugh had been handed to the public in every possible form, and there was a crying demand for something new. Then some one discovered the efficacy of the red wig. After the red wig came the green, then the violet and similar varieties. It was these palled and the "big

**THE SUPREME TEST** :: :: :: **By Michelson**

That is the supreme test—that the OTHER ONE would be ENOUGH to make life complete. You may not hanker for a

**Great Novels in a Nutshell**

James Fenimore Cooper's "The Spy" Condensed by Helen S. Gray

THE scene of this book is laid in the time of the revolution. The Wharton family is divided in allegiance. The son, Henry, is a captain in the British army; the elder sister, Sarah, sympathizes with that side; the younger, Frances, is engaged to an American officer, Maj. Peyton Dunwoodie.

At the outbreak of the war her father sends his money to England and moves his family from New York to Westchester county. With the aid of Harvey Birch, a pedler and neighbor, he is able to get to the British lines. He is captured by the British and taken to a prison. The British find a man with a gun concealed there. A few days after Birch gives the alarm to a few men at Lawton's camp to go at once to the Wharton home, where the captain is spending the evening in disguise on a visit. A severe storm leads a stranger, named Harper, to seek shelter for a day or two with the Whartons.

On leaving, he says that Henry is coming in disguise and has incurred great danger in doing so. He will do whatever he can to help them in return for their kindness. Some American troops arrive. Henry is recognized and taken prisoner. Maj. Dunwoodie is now between the conflicting claims of love and duty.

After a battle with the British, Capt. Birch catches sight of Henry, who had been watching it, and makes pursuit. His horse stumbles and throws his rider just as Birch is almost in his clutches. Birch seizes Lawton's sword and could

**Advice to Girls**

By ANNIE LAURIE

Make-up is not for young girls and, like "Sincere," many need a brother's advice

Dear Annie Laurie:

My brother says that no girl who paints her face is respectable. I know that isn't true, for I have lots of girl friends who paint and powder and make up their eyes, too, and they are good girls. I know it. I don't paint because my brother makes such an awful fuss about it. My mother doesn't believe in it, either, but she wouldn't know "if I did paint, and I would look a whole lot better, all the girls say. I am sallow and dark, and it makes me look sickly. I don't see what harm there would be in my putting a little red on my cheeks, do you? Please answer.

SINCERE

The made-up complexion has come in with the dancing slippers for the street. It will go out when they go out. I hate to see a young girl make up almost as badly as I hate to see a mature woman dye her hair.

There is nothing in the world so beautiful, so attractive and so irresistible as youth, and there is something about a made-up complexion that adds years to any girl.

You'll never be young but once, little girl. Do stay young and girlish and natural as long as you possibly can. Take plenty of baths, plenty of exercise, sleep in a room with the windows open, don't eat cake or candy or pastry—and unless there is something very wrong with you you'll have a skin that is a thousand times prettier than any paint could ever make it.

If he really likes quiet girls with their own complexions, and shows it by paying real attention to them, why you can pay real attention to what he says, for there's some chance

**With the Bark on**

While editors like MSS. to be fat, few do not want the stories to be.

It is all right to paddle your own canoe, but a power boat will travel faster.

"Sheel has one advantage," remarked the man who was to be hung as he put on a plain black suit and did not don a collar, "but this morning I am dressed to kill."

"I am not usually foolish," remarked the man who was to be hung as he put on a plain black suit and did not don a collar, "but this morning I am dressed to kill."

Job was tolerably patient, no doubt, but he never tried to use a telephone when the wires were crossed, nor did he ever wait for an answer to a "rush" message.

**Secrets of Health and Happiness**

**How Zephyrs of Spring May Give You "Pink-Eye"**

By DR. LEONARD KEENE HIRSHBERG

A. B. M. A. M. D. (Johns Hopkins)

THERE was at one time a popular belief to the effect that pink-eye made all water like wine. Deam Cowper of Durham, who was very economical and miserly of his red wine, desecrating one day on the extraordinary performance of a man who had pink-eye, remarked that the poor fellow could see no more than "that bottle."

"I do not wonder at it at all, sir," replied one of the deacons, who was a guest, "for we, who have as yet no pink-eyes, have seen no more than that one bottle all afternoon."

Drink, however, is not the worst or the most frequent source of the eye that is red. Just as a red nose is more often an unwelcome bit of nature's vermilion brushwork than the result of a drink, so pink-eye is more often due to the invisible spirit, which makes man forget love and duty, so pink-eye are gifts of other gods than these.

So Noah, when he anchored safe on the mountain top, his lofty haven, and all the passengers he bore, were on the new world set ashore. He made it next his chief desire to plant and propagate a vine, which since has overtopped and drowned far greater numbers on dry ground. Of wretched mankind, one by one, Than all the Floods before had done.

Actually gooseberry, or strawberry, eyes are the bailiffs of the smoky bar-rooms, the charcoal clubs, the late hours and other excesses. Liquor is blamed, but the other dissipations are more often the cause.

Your true pink-eye is an infection which differs from typhoid fever and other "colds" only as due to several different kinds of contagious, or infectious germs, instead of one specific kind.

Early spring zephyrs are apt to catch you napping. These hushed winds keep no Sabbath. The shrill wall, or the deeply, distant spring sigh, wafts a bit of dust in your eye. This unseen current may have "clean" dirt—dust free from microbes—or it may team with creepy, haunting streptococci.

In either instance the wind cuts you to the quick. That is to say, it cuts a little into your eyeball or eyelid. The ever present pink-eye bacilli, or cocci, are waited into this abrasion with some rough dust.

In fine, if the wind does not vaccinate this pink-eye virus into your visual apparatus, you "rub it in," or scratch it in, with your handkerchief or finger.

The eye is one of the excellent parts of the human constitution. It is as a rule, a very delicate organ, and its knowledge as to the seat of inclinations, hopes, appetites and passions. As the entrance portal to the ego it is the outer world and nature makes itself felt and known to you by way of the eye.

Anything which lowers the efficiency

**Answers to Health Questions**

G. G. Philadelphia—What will remove white spots from the finger nails?

It is first of all necessary to have good health. Constipation, liver trouble, indigestion and other common ailments will give the appearance. If you are afflicted with any of these troubles, you must find a cure before you can hope to improve. Exercise in the open air. Drink plenty of water every day to keep the system well flushed and do not neglect the daily bath, for cleanliness is quite essential.

You can do nothing to remove the white spots from the nails. They will gradually disappear as the nail grows out.

Dr. Hirschberg will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care of this office.

**Useful Hints for the Housewife**

By Ann Marie Lloyd

BARGAINS in foodstuffs are quite as possible and practical as bargains in chiffons. Many clever housekeepers, who enjoy the reputation of being "good managers," watch special food sales with far more interest than they give to sales of wearing apparel.

But before the amateur grabs at the idea of food bargains as the long-for solution of her problem of how to make ends meet in household expenses, let her fully understand what it means to apply the advantage of the ever-alluring bargain to her budget.

It is never good policy to buy anything just because it happens to be cheap. In food supplies such a course is the worst judgment. But it frequently happens that there are sales of staples in household supplies which make considerable savings if a quibble is bought. For example, there are places which have "bargain days," when soap which is regularly 5 cents a bar may be bought at the rate of six or sometimes seven bars for a quarter.

The same rule may be applied to other staples, such as scouring soap and starch and bluing and articles of standard quality.

Other high grade goods, especially canned goods, are frequently sold at a reduction of a few cents, which is well worth saving if one has use for the articles offered.

But the real test of true understanding of taking advantage of food sales lies in knowing what are the right days to get certain foods at market prices. The morning trip to market should always be taken with a menu in mind, which permits one to change the menu of the day if the markets should make it economy to do so.

The capable marketman soon learns which of his customers are competent buyers, and it must be said to his credit that he is usually glad to suggest the vendors that give the best "value for the day. He knows whether the veal or the lamb is the better. But if he does know the veal is excellent and cheap and the lamb is not so prime and expensive, he is not going to force you to take veal, nor is he going to insist that you take the lamb. He knows it the best if you are sure you want the one which is not so good.

**Daddy's Good Night Story**

By GEORGE HENRY SMITH

BRER RABBIT was sitting by the fire one evening reading the Woodland News. The two boys, Jack Rabbit and Billy Bunny, were studying their lessons. By and by the paper fell on Brer Rabbit's lap and he went fast asleep.

Jack spoke to Billy and it woke Brer Rabbit up, and he looked around to see what was the matter. Then he got up and started to put some wood on the fire. "Ouch!" said he.

"What is the matter?" asked Billy Bunny, running to his father's side.

"My foot is asleep," whined Brer Rabbit, limping badly.

"Sit down again," suggested Billy, as he got his pipe for him.

Jack and Billy went back to their lessons and Brer Rabbit went fast asleep. All was quiet for a time and then Jack said to Billy:

"It is time for us to go to bed and it will not do to wake father up. What shall we do?"

"Let's put the alarm clock by father's foot and set it for 11 o'clock. If his foot goes to sleep the clock will wake it up," said Billy.

"Great idea!" said Jack, taking the clock from the mantelpiece. They wound the clock and set the alarm for 11 o'clock and then went to bed. They were fast asleep when suddenly they heard:

"Ting-a-ling-ling-ling-ling!"

It seemed as if the clock would never stop ringing.

Brer Rabbit ran upstairs and when he found the boys awake he said:

"Why did you set that clock?"

"We wanted to wake your foot up when it went to sleep," said Jack.

"Bright boys," said Brer Rabbit as he hopped to his room.

Annie Laurie

Miss Laurie will welcome letters of inquiry on subjects of feminine interest from young women readers of this paper and will reply to them in these columns. They should be addressed to her care this office.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited; H. J. Maclean, Managing Director.

WORLD BUILDING, TORONTO, NO. 40 WEST RICHMOND STREET. Telephone Calls: Main 5308—Private Exchange connecting all departments.

will pay for The Sunday World for one year, by mail to any address in Canada or Great Britain. Delivered in Toronto or for sale by all newsdealers and newsboys at five cents per copy.

Postage extra to United States and all other foreign countries.

The World promises a before 7 o'clock a.m. delivery in any part of the city or suburbs. World subscribers are invited to advise the circulation department in case of late or irregular delivery.

Telephone Main 5308.

WEDNESDAY MORNING, APRIL 1, 1914.

HYDRO-ELECTRIC REPORT.

Anything can be proved by figures, as everybody is supposed to know. The favorite method of abusing a public man is to cook up a statement of the business with which he is connected and set it before those who know nothing about bookkeeping, with round assertions and blood-curdling threats of the results of supporting him.

This method is being tried on the Toronto Hydro-Electric Commission, which has incurred the wrath of The Great Provocateur.

Some time ago the Ontario Hydro Electric Commission suggested that rates be reduced in Toronto. The local authorities in some other places had found it possible to reduce rates, leaving little or no competition, and getting almost the entire patronage of the residents.

So far only the business side of the question is involved. For certain reasons some parties found it necessary to make a political and personal question of the affair as well. It has been represented that the local commission is acting in defiance of Hon. Adam Beck.

Also, that its action has been taken with the object of discrediting Messrs. Drayton, Geary, Sweeney and others connected with the local hydro last year and the year before last. Also, that the local commission is the foe of public ownership.

Also, that the Toronto Electric Light Company's interests are trying to ruin the hydro-electric system thru the local commission. And many other amusing and utterly unfounded statements of a similar nature. They all come from one source, of course.

The facts are fairly simple. The city guaranteed the amount, in several sums, by bylaws, of \$5,120,000, the estimated cost of the system. When debentures to that amount were sold they only brought \$4,698,234.44, or \$2.15 cents on the dollar, and this discount of 16.85 cents on the dollar and expenses, or \$951,765.56, is the amount which the hydro commission is shy of capital to complete its installation.

At the same time it owes that amount to the city as discount on the debentures. A side issue has been raised on this point, to the effect that the debentures were not well sold. As they were not sold when they should have been and had to be placed on a list they could when they were sold, and as they netted more than the Harbor Commission bonds, no valid criticism is possible on this point.

The local Hydro Commission has also to provide for interest, sinking fund, depreciation and so forth. By an arrangement with the provincial Hydro the sinking fund was arranged for in twenty-five annual payments, beginning five years after the start of the enterprise instead of in thirty annual payments from the beginning.

The total amount for these charges up to December 31, is \$259,211.16. From this sum has been deducted the provision for the years 1912 and 1913, and the surplus earnings for each year, leaving a balance of \$94,617.20 due by the Hydro on these accounts to be carried over against future profits.

It is clear that as the debentures sold for nearly a million less than their face value to meet the original estimated cost of the system another \$1,000,000 must be provided. Also a steam reserve is necessary, which will cost another \$1,000,000, unless the ratepayers decide to purchase the T.E.L. Company, which will obviate the construction of another steam reserve plant, the one owned by the T.E.L. Company being sufficient. This \$2,000,000 is a perfectly legitimate requirement, and until the amount be provided it is unreasonable to expect any reduction of rates.

Of course the logical and simple solution of the problem is the purchase of the T.E.L. Company's plant, but the commission has presented its statement without regard to that factor, and hence the fierce attack made upon it, so if by any means it could be shown to be unreliable. If it be reliable, the argument for purchase becomes very strong.

The provincial Hydro Commission

Our Canadian Home

with the efficiency of civic administration in Britain. Every department of the Leeds system of administration came under review and the observations of the committee, on the facts they elicited were frank enough to need no endorsement. The committee in summing up the result expressed their view that the strike had shown the necessity for improved methods of dealing with wages, conditions of employment, housing, labor and other incidents to municipal service.

The special committee went on to recommend the formation of a "Commercial Department," which could collect and collate these particulars. Such a department, it remarked, would probably lead to the establishment of similar departments in other cities and a consequent constant interchange of information regarding actual facts. It is also recommended that a general purposes committee be established as one of the standing committees of the council and entrusted with the general arrangements regarding labor in all departments of the city council.

This it proposed to carry into effect by the appointment of a "commercial manager" to carry out the work above indicated under the direction of the general purposes committee. That would include all matters affecting the appointment, control and dismissal of workmen, wages, hours and conditions of labor, the distribution and supply of labor to the various departments, and the reorganization of departments. The council, it was also recommended, should meet once in each quarter. In several respects this report of the special committee is in close accord with the view repeatedly expressed by The World on the subject of commission government.

LIGNITE'S FUEL POSSIBILITIES. So far as yet ascertained the coal deposits of Ontario are in the form of lignite, at present estimated at about 25,000,000 tons, and found north of the height of land in the descending slope to James Bay. Possibly other fields may be discovered in the same region, but in the meantime Ontario has suffered from its lack of available fuel, and would have continued to suffer but for its wealth of water power that can be transformed into electric light and power. Lignite, however, may not always be unutilizable if the promise held out by a recent investigation into its capabilities, conducted by the United States Bureau of Mines, is fulfilled. For it is shown that lignite can be used as a local household fuel, and in Texas is rapidly gaining favor as a gas producer fuel.

Altho German lignite contains a larger percentage of water than American lignite it has been used extensively for thirty years in the form of briquettes. In the United States this industry is gradually growing, and the product is going into the sections of the country where there are no nearby fields of anthracite or bituminous coal. What the investigation

officers regret is that a number of the briquetting plants established have placed an inferior product on the market and have thus discouraged custom. Mr. C. L. Wright, an official engineer, believes that the result of the investigation will prove of great value to the government as the owner of extensive lignite deposits on public lands and as the largest single purchaser of fuel and, also to all the people resident in the districts where lignite is found.

Views on Independent Journalism. The Telegram: Home rule must be deeply indebted to the continuous and energetic performance of the Globe, Star, World and other Papal zovaves of the anti-Union press.

The Star: The World may do very well in a protracted discussion, with the Telegram about Kane, but it ought to sidestep any dispute with regard to the performance of the Globe, Star, World and other Papal zovaves of the anti-Union press.

The Globe: Carson may be able to raise Cain in Ulster, but his performance is nothing to that of The Telegram and World, which are now raising Kane daily in Toronto.

Thousands of Irish Catholics Would Not Stand for Unfair Treatment of Protestants. President A. T. Hearn of the Ancient Order of Hibernians, issued a statement yesterday on the Irish home rule question, in which he said: "One of the principal objections urged by the Unionists against granting home rule to Ireland is that the Catholic majority is ignorant, bigoted, and priest-ridden, and that life would be intolerable under such conditions. The answer is a thousand times no! There are thousands of men of the world who would freely offer themselves as hostages and cheerfully sacrifice their lives if the Irish Catholic majority dealt justly and ungenerously with their Protestant fellow-countrymen."

AT OSGOODE HALL

March 31, 1914. ANNOUNCEMENTS.

Peremptory list for first appellate division for Wednesday, April 1, at 11 a.m.: 1. Bond B. N. A. v. Elliott (to be continued). 2. Bank B. N. A. v. Haslip (to be continued). 3. Day v. Acme. 4. Re Rebecca Barrett Estate. 5. Re E. G. Barrett Estate. 6. Rowell v. Toronto.

Peremptory list for second appellate division for Wednesday, April 1, at 11 a.m.: 1. Smith v. Haines (to be continued). 2. Blain v. Brampton.

Master's Chambers. Before J. A. C. Cameron, Master. McKean v. Nicholls and Ontario Navigation Co.—E. N. Armour, for defendant, moved for order striking out statement of claim as disclosing no cause of action. E. Hughes for plaintiff. Enlarged until April 1.

Tanner v. Keefer—G. W. Willoughby, for plaintiff, obtained final order of foreclosure, on consent, with costs. Adler v. Verrill—A. G. Ross, for defendant, obtained order, on consent, dismissing action without costs.

Marshall v. Dominion Manufacturing Co.—Smoke (Walton & Co.), for plaintiff, obtained leave to issue writ for service on defendant Patton, in New York. Time for appearance limited to 20 days. Costs in cause. McKay v. Equitable Life Insurance Society of the United States—H. E. Wallace, for defendant, obtained order, on consent, dismissing action without costs.

Griffith v. Dickens—K. W. Wright, for defendant, obtained order dismissing action without costs. Walker-Smith Co. v. Crown Fire Insurance Co.—W. V. Parry, for plaintiff, moved for order for commission to take evidence at Brownwood, Texas. G. H. Sedgewick for defendant. Trial judge reserved for defendant's trial judge and if not disposed of by him, to taxing officer. Trial postponed until return of commission.

Judge's Chambers. Before Middleton J. Re Milson Robinson—E. C. Cattanach, for official guardian and all the parties, obtained order sanctioning sale of infants' land for \$1790. Costs out of fund. De David C. Laur—W. H. Barnum (Aylmer), for M. J. Laur, obtained order declaring D. C. Laur to be a person of unsound mind, and appointing a committee of his person and estate. Reference to local master at St. Thomas.

Langdowne Lumber Co.—T. A. Silverthorne, for C. G. Anderson Lumber Co., moved for winding up order. Reserved. Vansickle—S. C. Wood, for plaintiff, appealed from order of master in chambers, of March 9, dismissing motion for a commission. H. S. White and E. F. Lecker (Hamilton) for defendant Vansickle. Order of master varied by referring question of granting commission to trial judge. Costs of appeal and motion for master reserved to trial judge.

Re Emma J. Moore—F. McCarthy, for infant, who has been her guardian, obtained order for payment out of \$500. Before Kelly J. Macdonald v. Boughner—F. Ayleworth, for plaintiff, on motion for order continuing report of local master to the 15th inst. for infants. Judgment: The findings in favor of Jane Kirk Macdonald and her sister Amelia Kirk Sanders as being heiresses at law to the deceased and against Gertrude Boughner and John Paul Trotter, Jr., are supported by the evidence, and to that extent the report should be confirmed. As to Charles William Williams H. will be referred back to the master to make further enquiries about him.

Single Court. Before Middleton J. London and Western Trust Co. v. G. T. Railway Co.—O. H. King, for plaintiff, in action for damages, F. McCarthy for defendant. E. C. Cattanach for infants. Judgment for plaintiff for \$1500 and costs pursuant to judgment. Defendants to pay in addition funeral and certain other expenses. Amount apportioned equally between widow and infant to be paid into court and then paid out to Austria-Hungarian consul for transmission to Austria.

Williams v. Applegath—A. MacGregor, for plaintiff, obtained injunction restraining defendant from interfering with plaintiff's quiet enjoyment of leased premises at Nos. 177 and 179 Yonge street until April 1.

Appellate Division. Before Meredith, C.J.O.: MacLaren, T. A. Magee, J. A. Hodgins, J. A. Johnston v. Blome—R. McKay, K. C. and C. V. Lango (Hamilton) for defendant. A. M. Lewis (Hamilton) for plaintiff. Appeal by defendants from judgment of Middleton J. of Nov. 19, 1913. Argument of appeal resumed from yesterday and concluded. Appeal dismissed with costs.

Schofield v. Blome—R. McKay, K. C. (Special Correspondence). LUNENBURG, N. S., March 31.—Lunenburg has the most unique scheme of insurance in the Dominion, that is reputed to be the cheapest and least expensive to maintain of the many forms of existing insurance. The Lunenburg fishing industry is one of the greatest sources of revenue to the province; it gives employment to some two thousand men, who are on the eve of departure for the spring trip to the fishing banks. A large sum of money is required to fit out the fishing boats, and the way the money is raised is by the unique scheme of insurance devised last year in the brain of a brilliant fisherman. Each of the 2000 fishermen pays \$1 into a common fund, while each captain pays \$2, and the owners of 125 vessels in the union pay \$10. The payment of the dollar not only makes the fisherman a policyholder but also a shareholder. In case of the member of any vessel, the original insurance society, the beneficiary receives \$500. This low rate of insurance is explained by the fact that the association is not loaded down by a board of directors at big salaries, as the secretary and directors perform their services free, and the result is very satisfactory to the marine policyholders.

BOYS' OWN CLUB. The Boys' Own Club held their second meeting at the residence of Mr. Lloyd Evans, 22 Langley avenue, there being only 15 members present. David, president, opened the meeting with a brilliant address. Future plans were afterwards discussed and several new names were added to the list.

ALL-RED RAILWAY COLDLY RECEIVED

Ottawa Opinion Apparently That No More Transcontinental Lines Are Needed. OTTAWA, Ont., March 31.—Canada has about enough transcontinental railways for the present requirements seemed to be the opinion of the railway committee today when the bill to incorporate the All Red Line Railway Company came up. The proposed route is from Cape Charles, Labrador, to the Pacific north of the National Transcontinental Railway.

W. F. Pickle of Kingston, E. Nesbitt of Oxford, and Hon. Dr. Redington minister of railways, spoke against the project, saying they would oppose the project unless there were assurances that there would be no demand for subsidies and that the line behind the company were able to handle the ore in traffic. The promoters are heard from. The incorporators are Edward Hollander, Prescott, R. H. Palmer and W. R. Stafford, Buffalo; G. A. White and F. Hope, Toronto.

RAILWAY ACTIVITY IN ONTARIO NORTH. SUDBURY, March 30.—This coming summer Key Harbor will be built; over 200,000 tons of ore will be shipped, an increase over former years. The ore is in quantities of coal will be brought in at Key Harbor. Arrangements are being made to handle 100,000 tons of coal.

It is reported that the great concern of Germany have had representatives in the Sudbury district looking into the nickel-producing industry. The interest is due to the fact that 75 per cent of the world supply of nickel comes from Sudbury district.

Some 150 miles of steel have been laid on the Ottawa-Cape Charles line of the Canadian Northern, and it is anticipated that in three or four months the grading will be completed. Numerous enquiries are being received by the traffic and operating departments of the C. N. R. regarding the opening of the line between Bay and Capreol. The lumber industry of Messrs. Mageau and Cousineau putting in a mill at Pisk. The Hamilton Lumber Company expect to ship large quantities of logs from Galea Island. The timber along this line is plentiful, and the pine in McNicoll Township is considered by the lumbermen to be of extremely high quality.

NO NAVAL AID TILL HOME RULE'S SETTLED. VANCOUVER, March 31.—At a meeting of the Vancouver Ottawa Lodge a resolution was passed pledging the members "individually and collectively to oppose to the utmost of our power any movement on the part of the Canadian government towards aiding the British navy until the home rule question has been submitted to the electors of the United Kingdom."

Money Sent for Both Sides. DAWSON, Y.T., March 31.—A largely attended meeting of those in sympathy with the opposition of Ulster to home rule was opened and a large sum of money subscribed to Sir Edward Carson, the supporters of home rule cabled John Redmond a large sum also.

**Olivet Cricketers Have Bright Outlook**

The Olivet Congregational C.C. held a general meeting at the church last evening, and if the enthusiasm which was shown at this time is carried through the season, the team will keep the other members of the league moving. Last season's financial affairs were some \$10 and a balance on the right side of \$3.20 was handed over to the treasurer. Much interest was shown in the election of officers, and plenty of good-natured rivalry was in evidence. The following were the choices for the coming season: Hon. president, Rev. A. Margrett; non. president, A. Robertson; secretary, Mr. Tom; first vice-president, Mr. Beck- insdale; second vice-president, Mr. Wight- man; secretary, F. S. Oakden; vice- captain, Mr. Lyons; committee, Messrs. Oakden, Lyons, Burch, Horwill and Worthington.

It was decided to arrange for an entertain- ment to be given in the church on Tuesday, April 21, and as some good talent has been secured, it is hoped this Toronto cricketers will keep this date in mind. There will be no charge for admission, but a collection will be taken on the opposing teams, and the club col- ors will remain as previously, sky and navy blue.

**CANALITES IN FORM.**

In the T.B.C. Fivepin League at the College Club last night Canalites, the tall end, put over the surprise of which they were when they won all three games from Stanley, and just to rub it in Frank Watson, an ex-Stoney, but now signed with Canalites, was high roller with the big total of 500. Louis Monahan and J. T. White also did good work for the side, succeeded with counts of 427 and 422 re- spectively, while Alex. Boyd was the only batsman in the class with a 422 col- lection. Bidgy Webber, Steve and Ping Strong, former fence batters, also rolled in the opposing teams, and in their pro- showing may be let out to the Kitty League. Scores:

**ST. PAULS AND DAVISVILLE.**

Sporting Editor World: I note from this morning's paper that the letters in St. Pauls' wonderful hockey record, and wish to reply to same. They are no doubt a good junior aggregation, but they are not the champions in the same light when they cannot beat them. There is one team in our league, the M.Y.M.A., as Daviville de- feated them 4 and 3 to 2 in two games out of three. Surely that is suf- ficient and what still proves it is the fact that the sudden death game for the championship was played on their own ice, and they almost refused to play be- cause they could not appoint the referee, and then they say they did not have a congenial referee. Member of Daviville Methodist Club.

**TODAY THEY'RE OFF AT JAMESTOWN**

Owner Garth Has Most For- midable Stable — Talk of a Raid.

NORFOLK, March 31.—There is a movement here to stop, or at least to embarrass, the Jamestown Jockey Club from holding its fifteen-day meeting, which begins tomorrow.

The men behind the new crusade against the track say tonight that they will wait a few days to obtain evidence that the law is violated and then, when perfectly sure of their case, the arrests will be made at once. The officials hope this time to obtain a conviction.

All of the officials who have taken part in previous meetings, with the exception of Mortimer Mahoney, the ringmaster, will be on the job. Mahoney has refused to accept the position. The report is that Mahoney was "lipped off" regarding the proposed movement to make raids on the track, and that he declined to accept his position.

Race horses from Charleston and Jures are arriving daily. The horses from the north will not be permitted to compete against the Charleston and Jures horses, poor as the winter breeders are, because the weather has been backward for early training. The fact that there are no stakes here this spring has caused the owners to ship the better class horses to Maryland, in order to take part at the Havre de Grace meeting.

Many horsemen say that the Jamestown Jockey Club made a mistake in confining the daily program to overnight events. There is not a stake feature on the card.

The stable of William Garth is among the latest arrivals. Mr. Garth has established the most formidable establishment with which he has ever started a season's campaign. Owner Garth has, besides his own collection of horses, which include champions of every age and staple, a number of young horses, mostly young horses, which will race in the black and white stripes of Colonel Rai Park. Rai Park is true that this season the cham- pionship does not depend upon the result, as was the case last April, but that will not make any difference to the enthusiasm that will be shown in the event by the Scottish folk.

These historic rivals is to Glas- wogians, and in a less degree to Scottish sportsmen up and down the country of

**RECORD ATTENDANCE EXPECTED ON SATURDAY ENGLAND V. SCOTLAND**

In deciding the international cham- pionship in the old country this year, fortunately, the question of goal average does not arise. By defeating England and Wales in turn, and then playing a drawn game with Scotland, Ireland placed herself in the classic position for Scotland had previously drawn with Wales and the best that she could possibly accomplish this season with only England to meet to conclude her pro- gram was to obtain four points. As the result of what happened at Cardiff on Monday, England now ties with Scot- land, but the latter has the better record for she is level on goal average, whereas England has still a deficiency, and consequently takes third place in the table, which, brought up to date, is as follows:

P.	W.	L.	D.	For.	Ag.	Pts.	
Ireland	3	2	0	1	6	2	6
Scotland	2	0	1	6	2	3	3
England	2	1	0	2	3	2	3
Wales	2	0	2	4	4	4	4

The only game that now remains to be played is the England v. Scotland match, at New Hampden Park, Glasgow, on April 4, says London Sporting Life. It is true that this season the cham- pionship does not depend upon the result, as was the case last April, but that will not make any difference to the enthusiasm that will be shown in the event by the Scottish folk.

These historic rivals is to Glas- wogians, and in a less degree to Scottish sportsmen up and down the country of

**Golliwogg Knew Old Mike Daly**

CHARLESTON, S.C., March 31.—The stewards of the Charleston Fair and Racing Association, which opened at Palmetto Park, Charle- ston, Dec. 1, 1913, and came to a close March 29, embraced 100 racing days, dur- ing which 600 races were run and \$231,565 was distributed in stakes and purses, re- presenting a daily average of \$2315.

The distribution of the following ten own- ers, headed by H. G. Badwell, won \$4000 or over:

H. G. Badwell	185	22	34	Ampt.
J. O. Talbot	38	15	13	13,157
Beverlyok Stable	8	5	5	6,705
W. H. Jones	11	12	11	11,115
J. L. Holland	11	3	6	5,780
R. F. Carman	14	20	12	5,720
W. H. Hedrick	16	8	1	4,820
J. W. Hedrick	9	18	12	4,800
W. G. Yanke	20	2	6	4,010

Among the following twelve horses that won \$2000 each or over:

Kingling	38339	Two Barriers	32223
Fardner	32345	Robbinston	22710
Anchor	32345	Joe Debold	33485
Lochie	32395	Charley	32345
Dryworth	32275	Old Donald	32645

J. McFarquhar carried off the saddle and girth of the meeting with another ap- prentice, F. Murphy, second, and C. Tur- ner third.

**Hundred Days' Racing At Palmetto Park**

The third winter meeting of the Charleston Fair and Racing Association, which opened at Palmetto Park, Charle- ston, Dec. 1, 1913, and came to a close March 29, embraced 100 racing days, dur- ing which 600 races were run and \$231,565 was distributed in stakes and purses, re- presenting a daily average of \$2315.

**BUNNY HEARNE MAKING GOOD WITH THE GIANTS.**

Manager Kelley is angling for a pitcher or two from the Giants, and while he may get them, it is sure that Bunny Hearne will not be one of the squad. The high southpaw is just striking his stride after a year in the penitentiary, and the correspondents with the Giants speak highly of his work. Hearne finished Sunday's game against Houston, letting the Texas League down without a safe "blow." It was a nip-and-tuck struggle, with Hearne's figures as the work money man among the following twelve horses that won \$2000 each or over:

**BASKETBALL.**

The S.P.S. students defeated a com- bination of Meds and Arts in a fast game of basketball at Central Y.M.C.A. yester- day afternoon. The S.P.S. team, led by P.S. (17), C. Klingman, N. Beacok, F. C. Gage, Burns, Armstrong, Meds and Arts (14); R. Parker, C. Galbraith, F. Farney, C. Shouder, P. Hill.

A score of electric polishing buffers be- gan the finishing touches on the Ameri- can Cup defence yacht Resolute at Bris- tol, L.I., yesterday. Launching is sched- uled for April 17.

**There's Nothing Better For You**

The National Breweries, Limited.

**BUSH A FAILURE TIGERS PREDICT**

**Detroit Players Don't Rate Athletic Star Highly—Base- ball News and Gossip.**

Joe Bush, one of the stars of the Ath- letics during the world's series with the Giants, will not shine as a pitcher in 1914, according to some of the Tigers. The Detroit players' opinion is that Bush caught the Giants when they were falling, and his victory in such an import- ant series gave a false impression as to his real worth.

"Bush pitched some good games against us as well as other teams, last season, but this does not indicate that he will go well in 1914," says Manager J. M. "Red" Egan. "He works some great games, but he was never even a good pitcher."

"Bush, of course, is a different make- up of a man than Works, yet he did not show much natural ability last season as did Works. In his first year in the ma- jors, Bush is very likely to be overcon- fident at the start of his coming season, and he will get this taken out of him. If it is taken out early he may develop. If not, Bush will have a hard time."

"One of the best chances for beating the Athletics is to take advantage of their confidence and play on it. The loss of the pennant in 1913 because they were too confident."

A Montreal despatch says: President Lachemin announced today that he has secured pitcher Ruben Vickers, the occa- sional hurler, who was formerly with Baltimore, but never got on the field with the Louisville Philadelphians, who was the property of the Philadelphia Nationals, was received this morning by the Montreal re- port until June, on account of a law-suit in which he is interested. He is work- ing with the college wall team and will report in good shape. Carlo is also re- ported to be in the city, and is likely to go to the camp soon. Hank Perry, the former Providence outfielder, is looking for the local team.

The Montreal team will break camp about the fifteenth of April, going di- rectly to New York for exhibition games in Bridgeport and Springfield, after which they jump into regular International League schedule, opening at Jersey City.

Rochester Union and Advertiser: It is no secret to Rochester fans to hear that George Stallings thinks he cannot spare any of his men for the Hustlers just now. Stallings is out to get somewhere in the National League race this season. Many a critic has picked the Boston Braves to give the Giants a battle for the pennant, and Stallings, naturally, is not going to run the chance of weakening his club just to help out the Hustlers. Had the Boston Club been allowed to retain Swee- ner, Rochester might have obtained a first sacker. In fact, the fans had it all figured out. "Butcher" Schmidt would be seen in a Rochester uniform again, but such, apparently, will not be the case. It is known that for several weeks the Hustlers' manager and owners have been looking in other directions for a pitcher. It is likely that the manager, Manager Gensel that he did not hope to get a first baseman from Stallings is not surprising. It is likely that the Giants tried to get a couple of pitchers and a catcher. During the exhibition games to be played in the next two weeks, Con- rath and Gansel, between them, can take care of first base, but when the season opens, a regular performer at that sack will be wanted.

According to Billy Flau, secretary of the Atlantic League, there are enough ball players with minor league ambitions around New York to equip a National League. Billy likes to lend a helping hand to all ambitious youths, but finds it inconvenient to answer the requests of ten or ten to fifteen players.

He says the Atlantic League managers have all practically signed contracts with the manager, when he reports May 1. Flau is the father of the Atlantic League, and is located with the complete file of the league, which he originally organized as the New York and New Jersey League.

Navitt, the big Indian backstop signed by St. Thomas stands six feet three inches in his bare feet.

All the dope that an be fathered at this rather unreasonable hour seems to betoken a repetition of the penitentiary of last season. As far as the baseball oracles have been able to read into the minor league events, there is every chance for both the Giants and the Ath- letics to repeat. The training seasons of the big league teams have failed to bring to view any youngster of unusual stuff and resplendent speed. The teams, with but few minor exceptions, will go back into the races this summer with about the same line-up that landed them wherever it did in the season of 1913.

The "Fire" boys have coppered a few and put holes in some of the crews—notably the Phillies—but, as far from this, little in the way of change has been seen. Un- til the next writing, at least, we may de- pend upon seeing the victors of last sea- son come thru again with the same old stuff.

George Stallings is carrying three im- migrants on his team this season. All of them are Cuban, the same being Gon- zales, third baseman, and Logue and Villigon, pitchers.

The sharps are picking Brooklyn and Boston as surprise packages for the first division clubs in the National this year. Hearne will be in the race for Pitts- burg and the Giants.

"Hooks" Wiltse, Giant first-baseman, who figured prominently in the world's series last fall, is thinking seriously of turning pitcher. At least, "Hooks" has been putting over some very neat stuff in the twirling line at training camp this spring, and seems to have mastered the art of the spitter. Wiltse is a southpaw, and it may be that McGraw will encourage him in his new ambition, left-handed spitters being somewhat of a rara avis.—Note—Don't take this seriously.

"Rabbit" Huggins, Cardinal manager, declares that he will depend upon his twirlers to win a place in the race for his team this season. If the Cardinals are to land about the second division, it is up to the pitchers, says Huggins, the rest of the team being all right. Why not put it up to the bat boy or the club physi- cian?

**BOYS' UNION LEAGUES.**

A meeting of the West End section of the Boys' Union League was held at 811 St. Paul St. on Tuesday evening, at which time the eighty-five pound basketball league, four have entered the league. The schedules will be drawn up Thursday of this week at a meeting in West End Y.M.C.A. Teams entering will pay their fees up till that date will be accepted.

The officer representatives were few in number, but arrangements were made for a senior section to include players of between years of age, and an interme- diate league for players under 15 pounds. Entries for these leagues close Tuesday night at 8 o'clock at West End Y.M.C.A.

A Boys' Union baseball meeting will be held Thursday at 8 at the same place when entries will be received for the 85, 100 and 115 pound leagues, and the under- nineteen league.

thing to cheer for in 1914, and it will not be the opposing team. Of course there are a couple of big opposites the pitching staff, but McGraw is said to hold the answer; but he is not saying anything.

Without having an opportunity to look over the heaveys they are expected to pitch they will hardly stand close inspection.

Graham, the Toronto lad, is only a youngster, but he gave great promise last season in Wisconsin, while Kintley and Bradshaw easily got by in the Condition League.

With big breeches in his pitching staff, Kelley is worrying, and is also anxious to secure a right-hand wallop for the right hand to cover the centre space between O'Hara and Kroy.

So far as the injury is concerned, there seems to be nothing lacking in the trio. Dick is still troubled from the after-effects of pneumonia.

THE SNOWBALL.

LIVELY BITS OF BASEBALL GOSSIP

Plenty of Baseball in Ontario—With the Canadian Leaguers—Notes.

Judging from the manner in which baseball in the form of city, town and county leagues is being organized, Ontario, especially in the western section, will see the game thrive in greater proportions than ever has been the experience of the Yankee pastime in Canada.

A league in Kent County comprises cities and towns like Chatham and Thessville, and is sure to gain in popularity, while another league, including towns in and around West Lorne, will also be in existence.

The South Wellington County League is to be reorganized with stronger teams. This league has sent several players to Palmerston.

The Waterloo County League, which has been known as the "Trolley League," is sure to be reorganized, despite the fact that Berlin, last year's champions, will be found in the W.O.B.L. organization.

able interest to that league, as they would form the northern section, along with Mount Clemens and Port Huron. Strathroy, Elmira, Hanover and several other places have already organized town leagues.

It was said that the Federal League teams would have to play practice games among themselves or forego that commonly accepted requisite of spring training. Now the information is waived over the wires that the Springfield Three-1 team will play exhibition games with the St. Louis Federals.

The Ottawa club endeavored to purchase Billy Wright, the hard-hitting outfielder, who went to Erie from the Guelph catfishes. In addition the Senators wanted to throw in a player or two with the purchase price, but apparently Erie only has Wright on a string. Buffalo Internationals being the real owners of the slugger.

Manager Yates of the Hamilton club is to receive assistance from Connie Mack of the Athletics and Jack Dunn of the Baltimore International League club.

Ollie O'Mara, who was offered to Ottawa by Port Wayne last season, and later to Hamilton, is south with the Brooklyn Nationals, and making a great showing at short.

The latest word of Topsy Draper, the former Ottawa pitcher, who was shot up down in West Virginia six weeks ago, is that he is in the hospital in bad shape. One Wright on a string. Buffalo Internationals being the real owners of the slugger.

Ernest Hammond has been signed by the St. Thomas Club. This makes two Hammonds in the circuit, s'n a pitcher by that name on the London roster.

WANT ANOTHER WITNESS. George F. Reid, the young Scotsman, who was arrested outside Loew's Theatre on Saturday evening for disorderly conduct, was yesterday remanded for a week to allow the police an opportunity of bringing forward a civilian witness.

C. M. S. ORGANIZERS. The following gentlemen have been appointed organizers for the Catholic Mutual Benefit Society of Canada in Toronto district: Alexander Curran, branch number 47; Dave Power, branch number 471; and J. Louis Wood, branch number 307.

HAD AUDIENCE WITH POPE. ROME, March 31.—The Pope received in private audience today the Right Rev. Francis A. Gasquet, abbot-president of the English Benedictines, who has recently returned from the United States.

THE BAD BOY. There will be given on Thursday evening in McMurrich School, Ossington avenue, a lecture by Dr. James L. Hughes, former chief inspector of city schools. His subject will be "The Bad Boy."

ROBERT MURRAY DEAD. Robert Murray, for 21 years in the employ of The Toronto Star, died Monday night at Grace Hospital after three weeks' illness. He was a member of the C.O.F., and attended St. Paul's Presbyterian Church. The funeral will take place from the residence, 192 Margueretta street, tomorrow afternoon.

HARBOR BOARD OFFICES. The Toronto harbor board have taken possession of the two top floors of the Otis-Fensom building, just above Front on Bay street. The lower part of the two floors is taken up by the administration offices of the board and the upper floor is occupied by draughting and survey department work.

Speech bubbles include: 'BUT COMEY—LISTEN!', 'NO BUT ABOUT IT STAMP, I'M DEPENDING ON YOU!', 'THAT IS THE LIMIT! GEE WHIZ!!! STILL L-L-L...', 'BUT, SIMP, DON'T WANT TO DO THAT.', 'YOU MUST DO IT, WIFE. THROW EM HARD, AND CALL ME "ROBBER"', 'ROBBER!', 'THAT WILL DO, WIFE!', 'HELLO! COMISKEY? ABSOLUTELY NOTHING DOING! I WOULDN'T BE AN UMPIRE FOR LOVE OR MONEY!'.

TORONTO'S BILL WAS MUTILATED

Private Bills Committee Refused to Grant Many Requests.

LAND EXPROPRIATION Extraordinary Clause Was Killed as Soon as It Was Seen.

It was a badly mutilated bill which the private bills committee handed back to Toronto yesterday after the 24 clause had been severely probed...

The municipal committee was then chosen as the court of appeal for several which were considered too broad in their application to rightly be termed as private bills...

Whether the city and women may in the future operate hand-organs on the city streets, whether residential areas may be set aside and subject to license, will also constitute additional problems for the same committee.

Two clauses were then disposed of in a hurry, and as a result Mayor Hocken will stamp his signature on the 10,000 money for the street line...

George H. Goderham fought the clause which would increase the executive power of the M.O.H. over special classes. In spite of Mayor Hocken's plea that the work be done...

Mr. Hanna's bill will give relief in connection with certain deportations. Border towns in the province are about to be financially in the red...

COCHRANE, March 31.—Thomas Portland, chief of police, has issued a writ in the supreme court at Halleybury against W. J. Bauley, land agent of the T. & N. O. Railway...

Mr. Hanna then said that with all respect for the appreciation of his duties by the members of the House, he must ask him to withdraw his bill.

JOHANNISWALD, Germany, March 31.—The German aviator Linneke, today established a new aeroplane record for height, reaching an altitude of 23,250 feet...

OTTAWA, March 31.—The senate today gave a reading to the bill extending the time for payment of the 5000 of land for South African veterans...

OTTAWA, March 31.—The senate today gave a reading to the bill extending the time for payment of the 5000 of land for South African veterans...

OTTAWA, March 31.—The senate today gave a reading to the bill extending the time for payment of the 5000 of land for South African veterans...

DOCTORS' VIEWS WERE PRESENTED

Some Difference of Opinion Exists on Workmen's Compensation.

DR. GODFREY'S OPINION West York Member Thinks Medical Men Are Being Slighted.

Some difference of opinion exists between physicians who are taking an interest in the progress of the workmen's compensation bill. Last evening in the legislature Dr. Forbes Godfrey of West York and Dr. Ross of Kingston...

Dr. Ross, however, is of the opinion that the doctor would be no worse off under the act than at present. He would be willing to let the act work for a year and then come to a conclusion.

In answering the question, Hon. Mr. Lucas stated that the payment of the fees was not the vital point. What had to be dealt with was the "first aid" situation, in which manufacturers were forced to see that the injured workmen received proper medical attention.

CANADIAN LAWYERS FORM ASSOCIATION

All Provinces Were Represented at Meeting in Ottawa Yesterday.

OTTAWA, March 31.—The Canadian Bar Association, the formation of which has been long the idea of the Hon. C. J. Doherty, minister of justice...

The officers were elected as follows: Hon. President, Hon. C. J. Doherty, minister of justice; Hon. vice-president, Hon. J. A. M. Aikins, K.C., M.P., of Winnipeg; vice-presidents: Nova Scotia, Humphrey Murray, K.C., Halifax; New Brunswick, M. G. Teed, K.C., Fredericton; Prince Edward Island, K. J. Martin, K.C., Charlottetown; Quebec, R. C. Smith, K.C., Montreal; Ontario, James Bicknell, K.C., Toronto; Saskatchewan, James McKay, M.P., Prince Albert; Manitoba, Hon. H. A. Robson, Winnipeg; Alberta, James Muir, K.C., Calgary; British Columbia, Gordon Corbould, K.C., New Westminster; secretary, E. Fabre, West York; K.C., Montreal; associate secretary, W. McCrae, Winnipeg; treasurer, J. F. Orde, K.C., Ottawa.

The council is to be composed of eight members from the bars of Ontario and Quebec and four from each of the other provinces.

GALT'S TAX RATE WILL BE ADVANCED SHARPLY Increase in Cost of Civic Maintenance Has to be Met.

GALT, March 31.—The most important council meeting of the year was held today when the tax rate for 1914 was struck at 26 mills on a stiff assessment. It was conceded to be impossible to conduct the affairs of the town at the rate of last year's rate.

RENFREW, March 31.—Renfrew is now formally committed to a peace celebration in 1915. The council took prompt action when the matter was laid before them, accepting the proposal that Renfrew should be one of the 100 centres in Canada selected for such celebration.

BROCKVILLE HOTELMAN DEAD. BROCKVILLE, March 31.—George McCulloch, proprietor of the Strathcona Hall for the past year, died at his rooms after an illness of two months from heart trouble. He was born at Perth 70 years ago, but most of his life was spent in Brockville. He was formerly freight agent of the Grand Trunk, and eight years ago entered the hotel business. He leaves a widow, four daughters and two sons.

Varsity's Needs Told to House

Sir Edmund Walker and President Falconer Asked for Assistance.

MORE MONEY WANTED High Standard of Education Must Fall Unless Help Comes.

Toronto University stands today at a parting of the ways. One path stretching before points to mediocrity and an uphill fight to grant Ontario students a higher education; the other leads into the first rank of educational institutions on the continent.

There was no hesitation in the statement of plain facts and conditions which Sir Edmund Walker and President Falconer made before the members of the house following a special adjournment of the afternoon session. The chairman of the board of governors spoke unequivocally on the serious state of financial affairs existing and the chief professor made it quite clear that the high standard of education which the province demanded could not be maintained unless the feeding streams were materially increased.

Unfair Process. Sir Edmund traced the attendance at the university from a roll call of 800 to an established patronage of 4000. The flow of students was assured, but the tax was taxing the building capacity in serious measure. There had been no extravagance in the architectural work now under construction, but even so, extensions were imperative. The staff, too, was small and very poorly paid. The "gating" process to which they were being subjected was unfair and did not give those who had a desire of following academic life any encouragement to remain in the university. As the attendance was at present, the governors were raising the suggestion of decreasing attendance by raising the fees for tuition and maintenance in interest charges and maintenance.

Sir Edmund estimated the total expenditure for the coming year at \$1,000,000. The deficit of \$55,000 now standing would be increased to \$120,000. The ground taken by President Falconer was that the success of the university thus far was not due to the governors or to the legislature. The staff was partly responsible, but the demand for higher education. Prospects were bright if they could be realized. In spite of the judicious and the standing attendance has been at a standstill for the past five years and the rate of standing could not well be raised much further.

Expensive System. He showed that the attendance was spread over a great many faculties and that this was an expensive system, that courses were not held in Ontario, that American institutions. Nevertheless the governors had cut down to a point where economy was no longer to be worked. That also the standing attendance at the university the library did not approach those of American competitors.

By a series of comparisons he showed that the Toronto University in Ontario did not stand in the same class with other large ones across the border. Even Iowa, with 2000 students less, showed more of a surplus, and Missouri with 1500 less had an income of \$992,000 in comparison with \$329,000 received in Toronto last year. He concluded by stating that unless the government helped something the day of its strength was past. Unless the university were assured of support the students in search of adequate learning would go elsewhere and the province would be the great loser.

Two dozen members of the house listened to the explanation in silence.

TORONTO MAY BUY LAND TO RE-SELL

City Members Will Draft Form of Clause Giving Power.

The city members in the legislature will work upon a draft form of purchase land either within or without the city limits to be sold to citizens for building purposes.

Special to The Toronto World. GUELPH, March 31.—The building boom, which started very early in the new year, continues, and if the present rate is maintained some records will be broken. The figures show that for the month of March permits amounting to \$24,811 were issued, as compared with \$39,500 for the same month last year. This brings the total for the first three months of the year to \$151,529, as compared with \$56,725 for the first three months last year. The increase is 89.5%.

SUES C.P.R. FOR INJURIES

KINGSTON, March 31.—Thomas White, injured on the C.P.R. when a motor car used by sectionmen struck his leg, will sue the company for damages. He suffered a fractured left leg. He declares the driver of the car showed carelessness and drove at reckless speed. An investigation was held here by Roadmaster Logan and Charles McCulloch, foreman of the section, who claim the car was only running ten miles an hour. White takes exception to this and declares that the car was going not less than 45 miles an hour.

No Cut in Hydro Rates

No reduction in hydro rates was made at the conference yesterday between the provincial and civic Hydro-Electric Commissions.

The civic commission presented a statement showing that hydro rates in Toronto cannot be reduced this year and maintaining a business upon a good financial basis. The need for more working capital was also stated.

GOOD WORK DONE ON NEW ROADS

J. F. Whitson's Annual Report Shows Great Progress in the North.

GROWING SETTLEMENTS Different Industries Are Springing Up All Thru the Country.

According to the report of commissioner J. F. Whitson, who was placed in charge of the \$5,000,000 grant of the legislature for expenditure in development work, an enterprising campaign has been carried on in New Ontario during the year. The report as tabled yesterday in the legislature shows that at a cost of \$1,081,172 above 764 miles of road were put into operation either by new construction or under improvement.

In Timiskaming 274 miles of bush road were cut from the virgin territory and Cochrane, Porcupine and Iron-quois Falls were linked up in a chain of good highways. During the year the work has moved east and west, from Quebec boundary at Keewauwinistowish, and the roads were laid out to serve as many settlers as possible. This work was especially carried out in the districts adjacent to the T. & N. O. and National Transcontinental, where short off-shoots were run for the sake of settlers clustered in the region round about.

It is remarked in the report that the settlement work has been progressing most favorably and that the concentration of population is still going on to settlements here as flourishing as those of Italy River, Halleybury or New Richmond. Absence of the roads in the north are being turned to good account for the different industries in the north. Mining operations in the Kirkland Lake district and Shining Tree gold fields are used largely for the springing up of new settlements and the Nipissing, Thunder Bay and Kenora arteries especially cater to the agricultural traffic.

The estimated for 1914 reach the figure of \$950,000.

TORONTO'S RIGHTS TO BE PROTECTED

Safeguards Inserted in Railway Bill Will Not Be Removed.

OTTAWA, March 31.—Toronto is winner in its fight to prevent the Toronto, Niagara and Western Railway from securing an extension of charter clauses inserted in the bill unless the city's rights are properly safeguarded.

GOODERHAM BILL WAS WITHDRAWN

Proposal for Local Option in Tax Reform Met Sad Death.

George H. Goderham's bill, really a modified form of local option in tax reform, came to a sudden end principally because of Hon. Mr. Hanna's objections to it. Although the leader of the opposition and Allan Studholme, both, were enthusiastic over it, Mr. Goderham withdrew it because of the provincial secretary's objections.

HEIGHT RECORD BROKEN BY GERMAN AVIATOR

JOHANNISWALD, Germany, March 31.—The German aviator Linneke, today established a new aeroplane record for height, reaching an altitude of 23,250 feet. The previous record was held by Leguener, who ascended 20,250 feet last December at St. Raphael. The new record was made by Linneke, who made a new altitude record with one passenger, reaching a height of 18,500 feet.

NO CORRUPTION TO BE ALLOWED

Government and Opposition Join in Putting Good Bills Thru.

PUBLISH CONTRIBUTION All Accounts Will Be Open to Inspection by General Public.

To cleanse provincial politics to the very fountainhead and to relieve both parties in the future from any whisper of electoral impurity the Ontario Government and opposition will go upon record in the legislature in unanimous support of specified bills. One of these prohibits political contributions by corporations, license holders, and public contractors. The other rules that all contributions received in the recognized fashion shall only come through the official agent of the candidate who is interested, and that a detailed statement of any sums given in this way, either as loans gifts or otherwise, shall be submitted to the returning officer within two months after the election can be published by him. In addition all such accounts are to be thenceforth open to inspection after payment of a nominal fee by interested persons.

These measures passed their second reading yesterday and with approval from both sides of the house went to the legal committee for discussion. Bills much of the same import were submitted by Hon. Mr. Stewart and Mr. Rowell, and the merits of each will be embodied in the ultimate legislation.

Little Corruption. The minister in speaking to the second reading of the government measure stated that there had been very little corruption in Ontario for a long time, and that the legislation proposed was not of such pressing necessity, here as in the federal house where the bill was introduced. The bill as suggested would wipe out the suggestion of wrong as to campaign contributions, if this suggestion did exist.

He took the ground that private corporations were really private business enterprises and that a detached business interest was possible. Campaign work naturally demanded support, and expenses were quite proper in the issuing of manifestos and platforms. The law, he thought, would appeal to the public as a good one.

Should Be Broad. The Liberal leader was also so sure of the limited nature of political corruption. He felt that there had been some among the ridings, and whether this was large or small was still a judicial to the country's best interest. There was a difference between a public service corporation and a purely private one and it was not wise to draw a strong distinction. The bill should be broad enough in its sweep to include all corporations in its net.

He spoke of the wisdom of including license holders, and felt that this was a vital part of the bill as referring to the relationship of the House to the government in power. He would recommend that the government measure be strengthened in this particular. He, however, would not have reflection cast on public-spirited citizens who gave of their substance to the benefit of their party.

Mr. Sulman of Kent then moved the second reading of his bill to amend the Ontario Voters' Lists Act. It would change the name of a voter to be transferred from his former polling division to that nearest his home. The speaker gave instances in his own riding where adverse weather had made it impossible for voters to drive in to their polling division and thus prevented their votes being cast. The bill was sent to the municipal committee.

RECIPROcity IN MOTOR LICENSES

Legislation to That End Probably Will Soon Be Introduced.

UNIFORM SPEED LIMIT OWNERS WISH TO BE RELIEVED FROM RESPONSIBILITY FOR CARELESS DRIVERS.

A determined demand will be made in the legislature this year for legislation to promote reciprocity in motor licenses between Ontario and the United States. For some time this matter has been under discussion in the cabinet, and although some opposition has been encountered the automobilists are confident of concessions this year.

God. H. Gooderham of South Toronto is the sponsor of the bill containing the suggestions of the Ontario Motor League, as laid before the provincial secretary some weeks ago, and the above clause occurs in it. Provision is also made for a uniform rate of twenty-five miles per hour as a cross country speed limit, with the local bylaws reducing it to a minimum of fifteen if the limits of the municipality are clearly defined by signboards. It is also sought by a clause to relieve owners from the responsibility of careless drivers, unless they are clearly defined by signboards. It is also sought by a clause to relieve owners from the responsibility of careless drivers, unless they are clearly defined by signboards.

GOVERNMENT LINE MAY BE EXTENDED

T. and N. O. Commission Considering New Scheme Costing a Million.

A Northern Ontario Railway project, which, it is understood, is to receive serious consideration by the Timiskaming and Northern Ontario Railway Commission, and which will involve an initial outlay of a million dollars has been brought forward. The new project means a connection between the T. & N. O. Railway and the Canadian Northern Railway at Gowganda Junction, with an interchange of running rights and traffic, and would result in the T. & N. O. gaining an entrance into Sudbury. It is as a result of the proposed extension of the T. & N. O. from Elk City to Gowganda that the new plan has been put forth. After five surveys had been made a suitable route to Gowganda was found, in which the twenty-seven miles to be covered could be constructed at \$24,000 per mile, or at a total cost of about \$650,000. The commission have hesitated at outlining so large a sum on a branch line and those who are vitally interested in seeing the line built have come forward with a plan, it is believed, that would justify its construction.

ENTRANCE TO SUBWAY

Connection Would Be Made With C. N. R. and C. P. R. Lines.

Direct Connections. This is to extend the T. & N. O. from Elk City thru Gowganda to Gowganda Junction, where connection could be made with the Canadian Northern transcontinental line. The procuring of running rights over this line from Gowganda Junction into Sudbury would give that centre the much wanted direct connection with the T. & N. O. and the big Northern Ontario territory served by that railway. It would also put it into direct connection with the National Transcontinental via the Ontario Government road to Cochrane. By the adoption of this project the T. & N. O. would also get a direct connection with the Canadian Pacific transcontinental line at Sudbury. The additional distance to be constructed would only be twenty miles, making a total of forty-seven miles of steel to be laid. This right of way cost of the project at a million dollars, as compared with the figure of \$650,000 for the extension from Elk City to Gowganda Junction.

It is said there is another plan also under consideration, whereby an extension would be made to connect with the C.P.R. and running rights secured into Sudbury over that road.

FINANCIAL BENEFIT FOR BORDER TOWNS

Hon. Mr. Hanna's Bill Will Give Relief in Connection With Certain Deportations.

Border towns in the province are about to benefit financially in the relief from certain duties they now experience in the deportation of insane immigrants. Hon. Mr. Hanna brought in a bill in the legislature yesterday which enables towns which have paid expenses incurred in the new apprehension and commitment to collect from the municipality in which the patient was last resident prior to his coming in. At the present time all towns which such apprehension occurs are forced to foot the bill.

Another act brought in at the same time confirms an order-in-council to the hospital for the insane at Mimico, for the use of reformatory industries.

STOPPED SOCIALIST

BERLIN, March 31.—An attempt to distribute Socialist literature in front of St. Mary's R.C. Church was frustrated. As the congregation were leaving service a foreigner prepared to distribute leaflets. One of the priests investigated the nature of the literature and found it Socialist. The man was ordered to leave the neighborhood immediately, which he did.

AT YOUR WIDOW'S SERVICE

The holder of any Imperial Life policy may direct that after his death the Company shall act as trustee of the proceeds of his insurance. For instance:

He may specify that interest only on the proceeds shall be paid to his widow during her lifetime leaving the principal sum intact for distribution to other dependents after her death.

And he may arrange that the interest shall be paid her in either monthly, quarterly, yearly, half-yearly or yearly instalments.

While in the calculation of the instalments a definite rate of interest is guaranteed, such payments in the case of participating policies will be increased by sharing in the interest which the Company earns in excess of this guaranteed rate.

This, and several other plans of settlement under which the Company's financial services are available to the beneficiaries under Imperial policies, are explained in our new booklet, "Safeguard Your Legacy." Write now for a free copy. It's most interesting.

Advertisement for Peace Celebration: 'PEACE CELEBRATION... RENFREW, March 31.—Renfrew is now formally committed to a peace celebration in 1915. The council took prompt action when the matter was laid before them, accepting the proposal that Renfrew should be one of the 100 centres in Canada selected for such celebration. The organizing secretary of the movement, came to town to meet some of the representative citizens and to give to them further particulars of what was proposed.'

Advertisement for Brockville Hotelman Dead: 'BROCKVILLE HOTELMAN DEAD... BROCKVILLE, March 31.—George McCulloch, proprietor of the Strathcona Hall for the past year, died at his rooms after an illness of two months from heart trouble. He was born at Perth 70 years ago, but most of his life was spent in Brockville. He was formerly freight agent of the Grand Trunk, and eight years ago entered the hotel business. He leaves a widow, four daughters and two sons.'

Advertisement for Galt's Tax Rate: 'GALT'S TAX RATE WILL BE ADVANCED SHARPLY Increase in Cost of Civic Maintenance Has to be Met... GALT, March 31.—The most important council meeting of the year was held today when the tax rate for 1914 was struck at 26 mills on a stiff assessment. It was conceded to be impossible to conduct the affairs of the town at the rate of last year's rate. The finance committee held a number of meetings dealing with this troublesome question. Galt's population is now over 12,000, and all departments of civic service are increasing in cost of maintenance. Last year the rate was 22 mills and the jump gives a jolt to taxpayers generally.'

Advertisement for Toronto May Buy Land: 'TORONTO MAY BUY LAND TO RE-SELL City Members Will Draft Form of Clause Giving Power... The city members in the legislature will work upon a draft form of purchase land either within or without the city limits to be sold to citizens for building purposes. The speaker gave instances in his own riding where adverse weather had made it impossible for voters to drive in to their polling division and thus prevented their votes being cast. The bill was sent to the municipal committee.'

Advertisement for Building in Guelph: 'BUILDING IN GUELPH IS DECIDEDLY BRISK First Three Months of the Year Show a Large Increase... Special to The Toronto World. GUELPH, March 31.—The building boom, which started very early in the new year, continues, and if the present rate is maintained some records will be broken. The figures show that for the month of March permits amounting to \$24,811 were issued, as compared with \$39,500 for the same month last year. This brings the total for the first three months of the year to \$151,529, as compared with \$56,725 for the first three months last year. The increase is 89.5%.'

Advertisement for Sues C.P.R. for Injuries: 'SUES C.P.R. FOR INJURIES KINGSTON, March 31.—Thomas White, injured on the C.P.R. when a motor car used by sectionmen struck his leg, will sue the company for damages. He suffered a fractured left leg. He declares the driver of the car showed carelessness and drove at reckless speed. An investigation was held here by Roadmaster Logan and Charles McCulloch, foreman of the section, who claim the car was only running ten miles an hour. White takes exception to this and declares that the car was going not less than 45 miles an hour.'

Advertisement for Gooderham Bill: 'GOODERHAM BILL WAS WITHDRAWN Proposal for Local Option in Tax Reform Met Sad Death... George H. Goderham's bill, really a modified form of local option in tax reform, came to a sudden end principally because of Hon. Mr. Hanna's objections to it. Although the leader of the opposition and Allan Studholme, both, were enthusiastic over it, Mr. Goderham withdrew it because of the provincial secretary's objections. Mr. Gooderham in moving the second reading stated that there had been very little corruption in Ontario for a long time, and that the legislation proposed was not of such pressing necessity, here as in the federal house where the bill was introduced. The bill as suggested would wipe out the suggestion of wrong as to campaign contributions, if this suggestion did exist. He took the ground that private corporations were really private business enterprises and that a detached business interest was possible. Campaign work naturally demanded support, and expenses were quite proper in the issuing of manifestos and platforms. The law, he thought, would appeal to the public as a good one. The Liberal leader was also so sure of the limited nature of political corruption. He felt that there had been some among the ridings, and whether this was large or small was still a judicial to the country's best interest. There was a difference between a public service corporation and a purely private one and it was not wise to draw a strong distinction. The bill should be broad enough in its sweep to include all corporations in its net. He spoke of the wisdom of including license holders, and felt that this was a vital part of the bill as referring to the relationship of the House to the government in power. He would recommend that the government measure be strengthened in this particular. He, however, would not have reflection cast on public-spirited citizens who gave of their substance to the benefit of their party. Mr. Sulman of Kent then moved the second reading of his bill to amend the Ontario Voters' Lists Act. It would change the name of a voter to be transferred from his former polling division to that nearest his home. The speaker gave instances in his own riding where adverse weather had made it impossible for voters to drive in to their polling division and thus prevented their votes being cast. The bill was sent to the municipal committee.'

Advertisement for Reciprocity in Motor Licenses: 'RECIPROcity IN MOTOR LICENSES Legislation to That End Probably Will Soon Be Introduced... A determined demand will be made in the legislature this year for legislation to promote reciprocity in motor licenses between Ontario and the United States. For some time this matter has been under discussion in the cabinet, and although some opposition has been encountered the automobilists are confident of concessions this year. God. H. Gooderham of South Toronto is the sponsor of the bill containing the suggestions of the Ontario Motor League, as laid before the provincial secretary some weeks ago, and the above clause occurs in it. Provision is also made for a uniform rate of twenty-five miles per hour as a cross country speed limit, with the local bylaws reducing it to a minimum of fifteen if the limits of the municipality are clearly defined by signboards. It is also sought by a clause to relieve owners from the responsibility of careless drivers, unless they are clearly defined by signboards. It is also sought by a clause to relieve owners from the responsibility of careless drivers, unless they are clearly defined by signboards. The minister in speaking to the second reading of the government measure stated that there had been very little corruption in Ontario for a long time, and that the legislation proposed was not of such pressing necessity, here as in the federal house where the bill was introduced. The bill as suggested would wipe out the suggestion of wrong as to campaign contributions, if this suggestion did exist. WHEAT IS STILL ON DOWNGRADE

Great Crop Outlook Powerful Influence - Other Grains Also Down.

CHICAGO, March 31.—Radical bearish sentiment as to wheat developed today because of the brilliant crop outlook and in consequence of the total lack of exports. The market had no good reaction and closed heavy 7-8c to 1c under last night. Corn finished 1-8c to 1c down and oats 6-8c to 7-8c. In provisions the outcome varied from the decline to an advance of 2-1-2c.

Liquidating sales on the part of the big holders formed an important element in the situation regarding wheat but the downward pressure was by no means confined to prices. In view of further rains over western Kansas, relieving apprehension of drought in that region, the main body of speculators accepted the crop promise as perfect.

Notwithstanding a big falling off in the world's available stock of wheat, no authentic trace could be obtained of any export business being done. The actual seasonal clearances did not include a single bushel of domestic wheat. Furthermore, milling demand was at a minimum and there were increasing quantities of new wheat being offered for sale here to arrive in July.

Corn broke sharply. Corn trade became semi-demoralized as a result of the cheapest offers yet from Argentina. Besides, rail rates west from New York were being cut in some particulars and there was enlargement of the enquiry for corn from the United States from Argentina.

The weakness of corn and wheat was too much for the oat market. Considerable was coming to the United States from India.

Provisions receded with grain. Receipts of farm produce were 400 bushels of grain, 20 loads of hay and 2 loads of straw.

ST. LAWRENCE MARKET. Receipts of farm produce were 400 bushels of grain, 20 loads of hay and 2 loads of straw.

CHICAGO CLEARANCES. Wheat, 19,000 bushels; flour, 21,000 barrels; corn, 2,000 bushels; oats, 11,000 bushels; wheat and flour equal to 114,000 bushels.

LIVERPOOL CLOSE. Wheat futures closed at Liverpool today 1/4d lower; corn, 1/4d lower.

WINNIPEG MARKETS. Open, High, Low, Close. Prev. Close.

CHICAGO MARKETS. Erickson Perkins & Co. (J. G. Beatty), 14 West King street, Toronto, report the following fluctuations on the Chicago Board of Trade:

RICHELIEU FIRMER ALSO BRAZILIANS

Dull Day on Toronto Market With Few Other Changes.

BARCELONA WAS INERT

Mackay Not Helped by Demands for Particulars by Wall Street.

An irregular recovery in Richelieu to over 102 was about all that marked the Toronto market yesterday.

Barcelona was inert and the price was about unchanged. Canners lost its map of Monday and declined 1-2 points with a sale at 51-2.

Mackay common was inactive, and buyers were well below the market. The demand of the New York Exchange for a statement of the company's affairs is not helping the market for the stock.

GENERAL IMPROVEMENT ON LONDON EXCHANGE

LONDON, March 31.—Premier Asquith's move had a cheering effect on the stock exchange today.

Other influences were work on the constructive side. Estimates of the condition of winter wheat indicated an unusually promising outlook.

Money and discount rates were easier. German and Russia secured most of the \$4,000,000 new gold offered in the open market today.

MONEY AND EXCHANGE

Glazebrook & Cronyn, exchange and bond brokers, report exchange rates as follows:

Buyers. Sellers. Counter. N.Y. f.d. 1-16 pm. 3-22 pm. 1/4 to 1/2 %

WINNIPEG, March 31.—Bank clearings for the month of March were \$1,710,153, as compared with \$1,525,120 for the corresponding month last year.

QUEBEC, March 31.—Bank clearings for the month ended March 31 were \$1,500,734, as compared with \$1,611,792 for the same period in 1913.

MONTREAL, March 31.—Bank clearings for the month ended March 31 are as follows: 1914, \$2,124,053; in 1913, \$2,075,728; and in 1912, \$1,936,704.

NEW YORK COTTON. Erickson Perkins & Co. (J. G. Beatty), 14 West King street, Toronto, report the following fluctuations on the New York Cotton Exchange:

Maple Leaf Dividend. The regular quarterly dividend of 1 1/2 per cent. on Maple Leaf Milling preferred has been declared, payable April 15 to shareholders on record on Friday, April 3.

Guaranteed Investments

Guaranteed Mortgage Investments provide: First, absolute security of capital and interest; second, five per cent. interest, paid half-yearly; third, freedom from attention to details of title searching, interest, collection, etc.

Write for booklet, "Mortgage Investments guaranteed."

Trusts and Guarantee COMPANY, LIMITED, 43-45 King Street West, TORONTO, ONT.

NEW YORK STOCKS SHOWED BUOYANCY

Expectation of Early and Favorable Decision Regarding Rates Stimulated Market.

ADVANCE WAS BROAD

Prospect of Large Winter Wheat Crop Contributed to Bullish Enthusiasm.

NEW YORK, March 31.—The extent to which the speculative situation is being up in the freight rates case was indicated by the course of the stock market today.

While the uptum was attributable primarily to the action of the commerce commission, it was influenced fundamentally by the strong technical position of the market.

Other influences were work on the constructive side. Estimates of the condition of winter wheat indicated an unusually promising outlook.

Money and discount rates were easier. German and Russia secured most of the \$4,000,000 new gold offered in the open market today.

C.P.R. LEADER IN MONTREAL RISE

General Gains Were Not Large, However—Richelieu Most Active Stock.

MONTREAL, March 31.—The local market took on a slightly firmer tone today, higher prices in Wall Street, and notably for the interest of this market, higher prices for C.P.R. being the source of the improvement.

MONTEAL, March 31.—Bank clearings for the month ended March 31 are as follows: 1914, \$2,124,053; in 1913, \$2,075,728; and in 1912, \$1,936,704.

Store Opens at 8.30 a.m.

# The Robert Simpson Company, Limited

Store Closes at 5.30 p.m.

More carefully, more elaborately, more completely than ever before we have prepared for Easter and Spring Business. We can promise you some of the most pleasurable as well as profitable shopping you have ever done when you visit the store to-morrow. Come in the morning if you can.

## The Black Hat at Its Best

Just the sort of smart, daring little hat of black that you will see in clever illustrations or fashion drawings. All fascinating lines, quirks and unusual trimmings, yet wearable withal.

Milan Tagels, Peco Tagels, Belgium Lizert Braid Hats are included in the little group of one hundred and thirty black hats offered Thursday, each with a trenchant and speaking style idea of its own.

Nothing could be more practical, more likable. Prices from \$5.00 to \$12.50.

## Easter Shoes

FOR MEN, WOMEN AND CHILDREN.

Over fifty thousand dollars' worth of "Victor" Boots for Men. The most fastidious man will find these boots beyond criticism from every angle. Aristocratic in appearance, of the highest grade throughout, in all the newest lasts and leathers. Make your Easter selection to-day.

"CLASSIC" SHOES FOR WOMEN, MISSES AND CHILDREN.

The women's are made on all the newest lasts for Easter wear, in all the most popular leathers and combinations of leathers. See the new recede toes, kidney heels and cloth tops. The misses' and children's are made in all leathers on the "back to nature" lasts that have made them famous from coast to coast.

WOMEN'S \$3.50 TO \$5.00 BOOTS, \$2.49.

Over 1,000 pairs Button and Laced Boots, in all the new and popular styles, with short, medium and long vamps. The leathers are patent colt, gum-metal, fine yici kid and tan Russia calf. Goodyear welt, flexible McKay and hand-turned soles. These boots are beautifully finished and of the very latest pattern. About 300 pairs are "Queen Quality" samples. Sizes 2 1/2 to 7. Regularly \$3.50 to \$5.00. Thursday, 8.30 2.49

MEN'S \$4.00 TO \$5.00 DRESS BOOTS, \$2.65.

Special purchase of high-grade Patent Colt Dress Boots for Men. The lasts are stylish and popular, and the soles are medium and light weight, put on by the Goodyear welt process. The standard prices of these boots were \$4.00, \$4.50 and \$5.00. Thursday, 8.30, at 2.65

## A French Corsetiere

Mademoiselle Arnal from Paris is with us at present to demonstrate the C. P. a la Sirene Corset, the new model of one of the greatest Parisian corsetieres. The feature of this corset is the perfect grace it gives while preserving the natural curves of the figure. The Ligne Normale, as shown by it, is pliant and modish to a degree.

We invite you to consult Mademoiselle Arnal and have a fitting of the new model as adjusted by her experience and trained judgment.

(Third Floor.)

## A Special in Suits at \$13.85

These suits just received from our own factory, made after some New York copies, in serges and whipcords, smartly tailored that will satisfy misses an' women, beautifully tailored and finished; skirts in a variety of new shapes. Colors are black, navy, brown, grey and tan. Priced 13.85

SAMPLE DRESSES AT \$6.95.

A varied line of silks in bright new shades, kimono or set-in sleeves, dainty lace frilled vests; skirts are over-draped caught in peplum styles; shades are brown, navy, black, mid-blue, Copen, tango, corn and stripe effects. Imported Petticoats of Paillette Silk, extra good wearing quality, in black, navy, emerald, tango and white, made with narrow knife-pleated flounce. Lengths 36 to 42. Thursday 3.50

(Third Floor.)

## Magnificent Showing of Dainty Dress Fabrics

The newest textures, weaves and colorings make us direct from the old world, "Exclusiveness" characterizes our entire showing both of colors, designs and textures. A short list will help you in choosing.

Crepe Suitings, in all-wool or silk and wool, soft and pliable fabrics, in rare spring and summer shades.

Duveltyne—Rich and draping well; beautiful new shades, in plain, broche and cord effects.

Checks are legion and come in every conceivable color combination, including black and white, in the much worn shepherd checks of various sizes, also in overchecks, and checker-board effects. The latter much in demand for "sports" coats. The colors are ingeniously blended to avoid glaring effects.

Brodecloths are in vogue on account of their rich, supple finish and adaptability for the prevailing modes. Shades are shown that blend with checks for "sports" coats.

Gaberline, an innovation in spring fabrics, plain and broche effect, and crepe finish in an exquisite series of half tone and two tone colorings.

Ratines, in all-wool and silk and wool, plain and brocade, a beautiful soft draping fabric in a lovely color range.

WEST OF ENGLAND DIAGONAL SERGE, SPECIAL, \$7.00 TO \$9.00.

4,000 yards of this suiting represents a special purchase from a leading and exclusive serge manufacturer. It is 52 inches wide. Good color range, including navy and black. Thursday special bargain table in our main aisle dress goods department. Regularly \$1.00 per yard. Thursday 65

(Second Floor.)

## Easter Silk Novelties

Featuring express shipments of Silk Crepes, Silk Foulards and new Charmeuse Crepes.

Lovely soft Creped Fascines, beautiful floral effects against dark grounds in distinct crinkly weaves.

Crepe Damas, on the order of a satin broche, but with the crepe finish. Exquisite designs on white, mid and dark grounds, in wild rose cluster effects.

New designs in Printed Crepes, in both ripple and plain weaves. Small regular patterns that are most pleasing in their dainty figures and delicate hues. Champagne, tan, tango, gold and greens are pronounced in the new shipments.

In Silk Foulards selection is now at the best. The variety is great and tends towards exclusiveness. In many designs we order single lengths, and never more than two of the higher priced weaves, thus giving individuality. Our last shipment comprises ranges of rose patterns on grounds of black, navy, green, taupe, tan, brown, Copenhagen and old rose, the floral effects standing out in bold relief.

Charmeuse Satins, Charmeuse Crepes and Meteors, with "Crepe Marlonie," a charming fabric of beautiful finish, continually arrive in new Parisian tones.

(Second Floor.)

## Hosiery and Gloves
