## HUDSON BAY RY. WILL BE PRESSED TO FINISH

Hon. Mr. Cochrane Declares  
Government's Policy, Fol-  
lowing Urgings by Western  
Members of Opposition—  
Steamers May Connect  
Terminus With N. T. R. If  
the Hudson Straits Are  
Impracticable.

### MONK WOULD REFORM CIVIL SERVICE LAW

OTTAWA, Jan. 15.—(Special.)—Hon. Frank Cochrane this evening, in response to the challenge of Hon. Frank Oliver and other members of the opposition, declared definitely that he had ordered the contractor for the Hudson Bay Railway to proceed with the work, and that the government would push the construction of the line to a speedy conclusion. Incidentally he intimated that the information gathered by the late government with regard to the country, the road, the harbor and what they would do with the wheat when they got it to the bay, was of the most meagre kind. An interesting alternative route from the end of the line, if navigation of the Hudson Straits was proved impracticable for grain carriers, was before the government. This was to put on a line of boats from the terminus of the Hudson Bay Railway to the Mat-tawa River in Quebec, whence the grain could be hauled over the national transcontinental.

**Voices of the West.**  
Hon. Frank Oliver declared it was only in recent years that any doubts had been raised as to the navigation of Hudson Bay, and F. L. Schaffner (Bour) cited the fact that, of 750 ships the Hudson Bay Co. had sent thru the Straits, only two had been lost.

Hon. F. D. Monk hinted at a reform of the civil service law, which would place most of both the outside and inside service out of the range of patronage.

The minister of finance, in answer to a question, stated that the mint would begin the production of 65 and 10 gold coins in about a month.

### STOLE \$15,000 IN REGINA ARRESTED FOR THEFT HERE

Sidney O'Connor Charged With  
Stealing from Toronto Roomer  
—Has Explanatory Letter.

Arrested yesterday upon a warrant charging him with theft of \$15,000 from a roomer at a rooming-house in Wilton-street some months ago, Sidney O'Connor was identified as a man wanted in Regina for theft of \$300 and over \$15,000 in securities, consisting of cheques, notes and stock certificates, many of which were more or less readily negotiable. Mention is not made of these were found on O'Connor together with the letter which declares that he had been stolen.

O'Connor roomed at the house in Wilton-street and it is alleged that he stole the \$15,000 from Miss Margaret Smythe, who roomed there at the same time. He went west and came back to Toronto shortly after the New Year. When he was taken yesterday by Detectives Montgomery and Cronin a letter was found on him from J. H. Hoppins, Regina, to one Dougherty, which declared that "Hap" (said to be O'Connor) "blew in there Dec. 31," and that the writer had got him a job with Anderson, Lunney & Co., financial and insurance agents, to whom he had explained some small matters regarding the honesty of the applicant for a position, despite which information he was given the job.

The writer goes on to say "Hap" did not give them half a chance to give him one, for, altho they were quite pleased with his work and he appeared to be getting along splendidly, he lit out on New Year's Day, taking with him the securities and cash before referred to.

Among the papers found on O'Connor were securities amounting to all of \$15,000, there being cheques for amounts as high as \$750, together with notes for even larger amounts and stock certificates in various financial corporations in the west representing even greater amounts.

The Toronto police have notified the Regina City police and the Royal Northwest Mounted Police, who are looking for O'Connor, who is 24 years of age and gives his present address as 161 St. Patrick-street.

### Vive le Docteur.

OTTAWA, Jan. 15.—(Special.)—Monsieur L'Orateur Docteur Spruille may now expect to be elected an honorary member of the Societe St. Jean Baptiste. Hitherto, the speaker has excited a French expression in the orders of the day, several pages off, and has hastily given the high sign to the clerk assisting to act as his understudy.

### "MEN IN RELIGION" MOVEMENT PLANNED

Committee of 100 Local Representatives Will Work With Other Canadian Cities.

Canada is experiencing a new inter-denominational movement. A committee of 100 representatives of the various churches in Toronto will be organized to conduct it in this city. Similar committees in size proportionate to places concerned will be organized from Halifax to Vancouver. It will be publicly launched in September, but it has been definitely decided upon by the authorities of the different churches.

Rev. Dr. Grant of the Presbyterian Home Mission board is prominently identified with the movement. He gave an account of it to The World yesterday afternoon. It is termed the men and religion movement. The plan embraces the foundation of comprehensive interdenominational committees to hold an eight-day men and boys' conference in every city and sufficiently populated town. The conferences will be addressed on all departments of religious work for men and boys by the best qualified experts in the different departments.

The plan was decided upon nearly two years ago, and an international committee of 95 representatives of churches in Canada and the United States was formed. Across the border the plan was put into operation and has been an invariable success. In Canada it was thought well to hold it back, and to concentrate on the laymen's missionary effort. It has now been decided that the time has arrived for the transcontinental series of men in religion conferences to be arranged.

A meeting of the Toronto provisional committee will be held in about two weeks, when some of the leaders in the movement in the United States will be here to give their experience and advice. A general secretary will then be appointed for the Dominion to organize the committees and assist in arranging for the conventions.

Dr. Grant said that no new permanent organization was intended, but an inspirational and educational movement to promote religion among the men and boys of the Dominion.

### Garment Workers Still Out.

The striking garment workers from M. Pullan & Son have come to no settlement with the firm as yet, and state that they will stay out until their demands are granted. Mr. Pullan has offered to make a verbal agreement with his employees, but they will have none of it, they want a written agreement that both parties must live up to.

### Opium Conference at Hague.

THE HAGUE, Jan. 15.—The nineteenth sitting of the international opium conference began to-day with the reading of the final protocol. It is stated that Persia will sign the convention unreservedly.

### May Bank Socialists.

BERLIN, Jan. 15.—(Can. Press.)—The Liberals and Radicals are now tending to steer different courses in the re-ballooting. The Radicals are still planning to cooperate with the Socialists against the Conservatives and Catholics, but the Liberals, hating the Socialists more than they do their old enemies of the right, have declared against the Socialists.

Other re-ballots are expected not only to cut the Socialist gains, but to result in co-operation in the reballoting, which will give the government its desired majority.

## U.S. GOVERNMENT MAY ACQUIRE TELEGRAPHS AND TELEPHONES

Postmaster-General Hitchcock's Recommendation Comes as Apparent Shock to Private Companies Who Assert They Had No Warning — Mr. MacKay's Extreme Pessimism.

NEW YORK, Jan. 15.—(Can. Press.)—Announcement from Washington that Postmaster-General Hitchcock is about to recommend government ownership of telegraph and telephone lines, was received with surprise by officials of the big telegraph and telephone companies here.

"It is a bolt out of a clear sky," declared Theodore N. Vail, president of the American Telephone and Telegraph Co. and of the Western Union.

"Whether the government could run the telegraphs economically or not is very doubtful," continued Mr. Vail. "The experience of Great Britain is not favorable."

Mr. Vail said that there had been no conference on the subject and that not even a suggestion had been made to the companies he represented that such a proposition was being considered by the postmaster-general.

Rufus S. MacKay, Clarence H. MacKay, being asked in regard to the proposition of Postmaster-General Hitchcock that the government take over all the telegraph lines, said: "This would lead to taking over the telephone lines also. . . . The British Government found this to be so, and two weeks ago it took over the telephone lines in England at an enormous expense. The telegraph and telephone lines in this country are worth from \$2,000,000,000 to \$3,000,000,000. This would include the independent telephone companies, owning nearly \$3,000,000,000 of property and having some 400,000 stockholders. I venture to say that they would be operated by the government at great annual loss."

### IMPALED ON CROWBAR.

GALT, Jan. 15.—(Special.)—Charles Walter, aged 28, met with a fatal accident to-day at Preston. He was one of a gang of employees of the Preston Car and Coach Co., and was under a newly built coach helping to move it with a crowbar, when, by a sudden move of the structure, the bar fouled a tie and Walter was impaled, the inch thick iron passing thru his body and protruding a foot at the back. The victim was hurried to the Galt hospital, where later he succumbed to injury.

### BANK EMPLOYEES ARRESTED.

CRAIK, Sask., Jan. 15.—W. S. McKinnon, teller, and C. R. Crawford, manager of the Union Bank here, were arrested here to-day, the former charged with theft and the latter with forgery. The arrests followed an investigation of the bank's affairs, disclosing an alleged shortage of several thousand dollars.

NIAGARA FALLS, Ont., Jan. 15.—(Special.)—A conference will be held sometime within a week by Even Fraser, M.L.A. Wm. German, M.P., and Senator Giddins of the United States, to arrange for introducing legislation towards lighting the cataracts jointly by New York State and Canada, according to an announcement to-day.

## MILITIA USED BAYONETS TO QUELL RIOTOUS STRIKERS

Martial Law Proclaimed in Lawrence, Mass., Following Strike of 15,000 Workers in Woolen and Cotton Mills—Increase in Wages Demanded.

LAWRENCE, Mass., Jan. 15.—(Can. Press.)—Eight companies of state militia, including one field battery, commanded by Col. E. Lorey Sweetser of the Eighth Regiment, placed the mill district of this city under martial law to-night after a day of rioting, due to the strike of 15,000 operatives in the big cotton and woolen mills. At least 15,000 other hands were thrown out of work by the stopping of machinery and by the attacks on the mills by the strikers.

In one instance a company of militia had to charge a mob with fixed bayonets, one boy being probably fatally hurt. Thirty-five arrests of armed rioters were made during the day and a few strikers and mill employees, who were defending the mill gates, were treated for bullet wounds.

## RUSSIA TOYED WITH BRITAIN

Bitter Condemnation of Sir Edward Grey's Policy in Persia at Mass Meeting.

LONDON, Jan. 15.—(Can. Press.)—A resolution protesting against the British Government acquiescing in the Russian action in Persia, was passed by acclamation at a crowded meeting in the opera-house to-night, called by the Persian committee of the house of commons.

James Ramsay MacDonald, M.P. for Leicester, the chief speaker of the evening, declared that W. Morgan Shuster, the American treasurer-general of Persia, who was recently dismissed from office—the man who stood between Persia and dissolution had been thrust out because the British foreign secretary, Sir Edward Grey, could be pushed, twisted, flattered or elongated, just as the Russians wished.

The Americans, said Mr. MacDonald, were beginning to ask whether all these international arbitration treaties were to be made between strong nationalities so that weak nations might be crushed out of existence.

### LIQUOR TRAFFIC IN PORCUPINE.

With regard to the report that there is a big illicit traffic in liquor in the Porcupine district, Supt. Joseph E. Rogers of the provincial police stated yesterday that the records show differently.

## DROVERS AND PACKERS SETTLE DIFFERENCES

### Britain's Strikers Unsettled.

MANCHESTER, Jan. 15.—(Can. Press.)—The conference here to-day between Sir George Askwith, representing the board of trade, and the mill owners and operatives, which it was confidently believed would lead to a settlement of the cotton dispute, in which 250,000 men are involved, was again adjourned, without an agreement having been reached.

LONDON, Jan. 15.—(Can. Press.)—The situation with regard to the proposed strike of coal miners remains unchanged. Out of 850,000 ballots so far cast by the miners on the question of giving notice of a strike on March 1, 282,000 favored a strike. It is reported that the British Government is making tentative arrangements to import American coal for the navy in the event of a strike.

## REVERE HOUSE PREY OF FLAMES

Guests Escape in Early Morning Fire, Which Threatens Serious Spread—Fireman Killed.

BOSTON, Jan. 15.—(Can. Press.)—Boston's most famous hotel, the Revere House, in Bowdoin-square, took fire shortly before 2 o'clock this morning. The first started in the grotto, a dining room on the street floor, and quickly spread up thru the entire six stories. Many guests were carried down ladders by firemen and others rushed from the building thru the smoke, scantily clad.

From the Revere House the fire spread to the hall of the National League on Bullfinch-street, and then to the house of engine company No. 4, on Bullfinch-street. Hotel Rexford, another of the older hosteries, is in danger and the guests have been ordered out.

One fireman is dead. Police officers who went into the Rexford and were driven out by smoke, assert that a dozen or more persons are still in the hotel and it may be that at least a few of these may lose their lives.

## VIADUCT LOSES RIVE ON RECOUNT OF 42 SUBD.

First Day's Work on Sixth Ward Brings to Light Much Carelessness of B. R. O.'s.

In the first day's recount on the Bloor-street viaduct bylaw Judge Winchester succeeded in finding many mistakes in the returns of 42 sub-divisions of Ward Six, which constituted the day's work, but all told these indicated that the majority against the bylaw was increased by nine, and hence, thus far, the recount shows the bylaw to be defeated by 68 votes.

The votes in the contest for the board of control and the viaduct bylaw were counted subdivision by subdivision in alternate order in the morning but in the afternoon the judge announced that the viaduct vote would be recounted first before anything further was done on the controller's contest.

The recount on the board of control contest brought forth no surprises, unless it was the large number of plumpers which J. J. Ward received. Only seven subdivisions were covered, however, and there yet remained 296. At 1 o'clock ex-Controller Spence's standing had not changed, while Controller Church had gained one. Ex-Controller Ward had gained three votes.

Only a few disputed ballots were turned up, and in the case of most of them the judge had no difficulty in deciding how the ratepayers had voted to vote.

The recount will be resumed to-day at 10 a.m.

## Long Conference Results in Compromise—Packers Will Get Allowance of Fifteen Cents a Head First Six Months and Twenty Cents Last Half of Year.

The packers and the drovers have come to a satisfactory settlement of their differences on the Toronto live stock market. It took an all-afternoon meeting and a two-hour conference later on to reach a compromise, but it ended in the best of feeling. The packers were asking for a 20-cent allowance on high-class cattle, and 50 cents on low grade cattle as an insurance for carcasses condemned by the government inspectors as unfit for food. The compromise is a flat rate of 15 cents for the first half of the year and 20 cents the second half on all cattle sold to the packing houses. Dr. Rutherford, the Dominion Live Stock Commissioner, and W. F. Maclean, M.P., acted as between the two sides.

The drovers at their afternoon meeting appointed the following to represent them in the conference: John Black of Bellwoods, A. D. Ames, A. Y. Hall, R. Bates, E. Maybee, S. Hazy, A. W. Talbot, H. F. Kennedy, Hon. James Duff.

With them Dr. Rutherford and Mr. Maclean were associated. The packers were represented at the conference by Messrs. McLean, Woodward, Harris, Nelly, Taylor.

At 5.30 the compromise decided on was reached, and approved by the drovers later on.

Diplomacy Wins Out.  
Conciliation gained another strategic victory over the "fight to a finish" attitude, which a good percentage of the cattle drovers and commission men adopted when their meeting was called to order in the Temple building yesterday afternoon to discuss the differences they were having with the packers. Dr. J. G. Rutherford, veterinary director-general of the Dominion, poured oil on the troubled waters, and in a persuasive address showed that the question at issue was a tremendous one to grapple with. Diplomacy, he said, was required to reach an amicable settlement. The same quarrel was being on in England at the present time and had been going on there for 50 years. Nothing would be gained by selling each other names and passing strongly worded resolutions. Hon. Jas. Duff, provincial minister of agriculture, and W. F. Maclean, M.P., also depicted the seriousness of the problem confronting the cattle dealers, and by quiet, reasonable suggestions brought the tone of the meeting into one of harmony and an earnest wish on the part of everybody to get the dispute settled in the best possible way.

To Samuel Hisey of Creemore, secretary of the Ontario Live Stock Shippers' Association, was also due a considerable amount of the credit for bringing the meeting to such an amicable conclusion. Being intimately acquainted with all the details of the present differences between the packers and drovers he presented the latter's grievances in a very explicit manner. But Mr. Hisey had valuable assistance, and every one of the speakers had good arguments to advance, and good suggestions to make in bringing the trouble to an end. A remarkably able body of men were these cattle dealers that assembled at the meeting yesterday afternoon. They had decided opinions, every one of them, and didn't hesitate to express them.

J. Robert Bates of Shelburne, president of the Ontario Live Stock Shippers' Association, occupied the chair.

Strong Resolution.  
When the meeting was called to order the discussion was precipitated by the reading of the following resolution by A. W. Talbot of Beaverton: "That we as live stock shippers of the Province of Ontario, here assembled, do resent the action of four Toronto packers indicating to us that we shall pay them an impost of at least 38 per cent on all the cattle shipped to the Toronto markets for the purpose of protecting them against any possible loss thru disease not visible to them at time of sale."

"That we consider this a most bitter injustice, considering the fact that the packers have the enormous benefits of the government inspector's approval label, which gives them a marked advantage over the unapproved shippers in their home market, and complete control of the interprovincial trade which easily recompenses them for all losses from diseased carcasses."

"That this meeting stand loyal to our salesmen in opposing this impost, which would eventually take millions of dollars out of the pockets of the shippers and farmers of this fair Dominion and place it in the pockets of a probable combine."

Farmer Responsible.  
"Go slow with that resolution of yours," said Dr. Rutherford. "There

HOPING FOR CLOSER TRADE WITH AUSTRALIA. Hon. Mr. Foster Regrets Delay in Getting on Preferential Basis.

OTTAWA, Jan. 15.—(Special)—A definite statement as to how far the government is prepared to go towards the establishment of closer trade relations with Australia, is contained in a return brought down in the house to-day. This return contains all the correspondence since April of last year, and was moved for by H. B. Ames, M. P. of Montreal.

On Dec. 28 last the minister of trade and commerce wrote to the Hon. Mr. Tupper, the Australian minister, pointing out that Canada had extended her preferential tariff to the British colonies, that South Africa and New Zealand had made some return and that it was expected that the West Indies would follow suit.

"It seems to me," the letter said, "too bad that, with our great state of Dominion of the Pacific, we have not been able long since to arrange our trade on a preferential basis, and I can assure you that Canada is very desirous, both on sentimental grounds and for reasons of mutual advantage, that this anomaly should be removed as speedily as possible."

Want Gold Pro Quo. Further on the letter stated: "We give you already a considerable free list for some of your staple products, and we get no very great return from you now with respect to any of our great staple products. We stand ready to give you a substantial preference upon all articles of export for our articles of export to your country, and a free entrance for some of our natural products. Proposals have been made to exchange your limited preference for a limited preference of entry into our country, but it scarcely seems adequate that we should proceed on so restricted a basis."

The letter concludes with the suggestion that either Australia or Canada make a proposal upon which action could be taken, to be followed by better means of steamship communication.

TO HELP GOOD ROADS. Sir William Mulock has made an offer of \$3000 to the Town of Aurora towards the expense of making Good-road in the town limits a first-class roadway. Aurora is not in the good roads zone.

TORONTO STRING QUARTET. The Toronto String Quartet will give the second concert of the series on Wednesday night, Jan. 17, in the Conservatory of Music Hall, College-st.

THE NEWMARKET CANAL. With four and two-third miles of the Newmarket canal already completed the total cost is already \$460,000, in contrast to the original estimate of \$325,000. Had the work been allowed to proceed the final expenditure would have passed the million mark.

Wrinkles are not strangers to me but when I acquire such disfigurements I regret very much that I am a woman. A well-known society matron confided this to me. I had wondered why she, with her strenuous social duties and late hours could so completely ward off the usual marks of care and despatch. Her answer was, "I don't wear wrinkles in public, nor do I don't wear wrinkles in private, since I've learned what the ordinary woman will do. When I wash my face, I mix the two, bathe my face in the solution and cold cream, and I never tried anything that works so miraculously. My skin is inclined to double, this trouble, I keep in check in the same way."—Emily Dean in "Town Talk."

## Toques! Toques! Toques! 25c

Six-day sale — within the great Semi-Annual Sale — of toques at 25c, beginning Wednesday. Of all headgear for winter wear, perhaps the toque is the greatest favorite for children; it is warm, yet allows full circulation of air, thereby preventing overheating of the head and the ears may be covered without entirely cutting off all hearing, which is a great advantage in this day of auto and other swiftly moving traffic. Too many toques, and stock-taking rapidly nearing is the reason for this offer, and you will do well to come Wednesday and get your club colors, for here are toques not only for children, but for use in hockey, snow-shoeing, ski-ing, skating, etc. Long toques and short hockey toques in pure wool, in both plain and honeycomb stitch, and in a great many plain and combination colors. Sale price ..... 25

## Skates, Skis and Hockey Accessories at Greatly Reduced Prices

Although at the height of the season for these goods, the prices have been reduced, to fall in line with the demands of the Semi-Annual Sale. Here are articles for the rink, the park and the hockey arena, at prices that will prove interesting to all lovers of outdoor winter sport:

"Fearnaught" Hockey Gloves, made with extra heavy thumb and finger protection. Semi-Annual Sale price, per pair ..... 3.00

Fibre Shin Pads with high felt knee pads. Semi-Annual Sale price ..... 1.00

High-Grade Hockey Sticks in right hand only. Clearing, at each ..... 25

Hockey Tube Skates, made on same pattern as McCullough skate, with glass, hard blade. Semi-Annual Sale price ..... 3.75

Bob Skates for beginners, will extend from 6 to 9 inches, made with double blades; they support the ankles. Semi-Annual Sale price, per pair ..... 29

Boys' Hockey Skates, best quality steel and nickel plated, per pair ..... 75

Celebrated "Bolnas" Norwegian Skis, made of extra quality birch, in 6 and 7 foot lengths. Semi-Annual Sale price, per pair 1.00

Best Quality "Bolnas" Skis, made of highest grade hickory in 6 and 7 foot lengths. Price ..... 3.00

Best Grade Canvas Covered Goal Pads, with patent rib to keep guard out from leg. Semi-Annual Sale price ..... 2.50

## Men's Black Persian Lamb Caps, \$4.95

The rule of the establishment to clear all goods in the season for which they were bought is responsible for this remarkable offer, and with furs taking an upward trend this is a good investment. The caps are made of good quality Persian lamb, in the popular wedge shape and lined with black satin. For Wednesday the price is almost half ..... 4.95

## Children's Collarettes, 49c

Warm and comfortable collarettes of white bearskin cloth, well padded and lined with satin, and finished with two ball tassels. Every little girl can have a collarette now for the price is less than half the usual value. Wednesday ..... 49

## Men's Winter Caps, 50c

Extra quality caps in grey, Melton cloth, made in the driver

## Children's Grey Russian Lamb Caps, \$2.00

These dainty and warm caps for children are made in wedge shape, well padded and lined with satin. The skins are all selected and have fine even curl. Priced at two-thirds their regular value for quick clearance, Wednesday ..... 2.00

## Men's Fur Lined Coats at Clearing Price

This is a first-class coat made of pure wool beaver-cloth shell and lined with Canadian muskrat skins that are fully furred and evenly matched. The collar is a rich, dark otter, cut in the notch style. Special clearing price ..... 50.00

## There'll Be a Rush for Men's Overcoats Priced at \$7.95

Ordinarily these coats would sell for twice as much and more, but that's when we had a complete range of sizes in each pattern; now, with two of this line and three or four of that, we just group them and put a price on them that means a quick clearance; they are stylish and dressy single and double-breasted models, most of them with velvet collars, with clean-cut shapely lapels, well formed natural shoulders and easy fitting backs, with centre vent and made in snappy, serviceable tweeds, in new shades of grey, brown and olive; they are well lined and finished. All sizes in the lot. Semi-Annual Sale price ..... 7.95

## Men's Striped Worsted Trousers, \$1.65

Broken lines and odd sizes in Men's Trousers, in good quality worsteds, mostly stripe effects, in medium and dark shades, patterns that go well with any suit, or odd coat. They are well tailored, and finished with durable linings and strong well-sewn pockets. Sizes 32 to 42, but, of course, not all sizes in each line. Semi-Annual Sale price ..... 1.65

## Men's Fancy Vests, 75c

Wednesday we offer a lot of Odd Fancy Vests in Tattersalls and cassimere finished materials, in dark stripe and figured pat-

terns. Very large selection, and priced at ..... 75

## The "Red River" Overcoat for Boys Now \$3.50

Perhaps of all Overcoats for boys, the Red River enjoys the greatest distinction; its snappy and dressy appearance and great warmth recommend it for the little fellows. It is made of a soft navy blue mackinaw cloth, in double-breasted style that buttons close up to chin, the epaulettes on shoulders, pipings in seams, and lining of hood on back are flannel, as is also the lining of the coat. A knitted scarlet woolen sash completes the touch of color that adds so much to this comfortable and serviceable coat. Sizes 3 to 9 years. Reduced price for Wednesday ..... 3.50

## Boys' College Ulsters, \$2.75

Double-breasted Ulsters, with convertible collar, back-centre vent, and wind strap on sleeve, and in dark grey and brown ulster cloth, with linings of Italian cloth. Sizes 24 to 28. These are ulsters that are reduced to almost half for Wednesday. Price ..... 2.75

## Clearing of Boys' Underwear at 25c

The one and only reason for this very low price is that we have not a full range of sizes, for they are now priced much below regular value. They are winter weight Scotch wool garments in a clean, natural shade, with sateen facings to shirts; drawers strongly sewn at the waist and close fitting cuffs and ankles; sizes, shirts 25, 30 and 32, drawers 30, 32 only. Reduced price, each ..... 25

## Clearance of Best Quality Sweater Coats for Boys, 98c

Boys' Sweater Coats in plain and fancy weaves, mostly in Varsity style with rolling storm collar, two pockets, heavy ribbed cuffs and in royal blue, and cardinal with various popular trappings; sizes 7 to 14 years and offered Wednesday at less than

## SINGLE TAX MOVEMENT SPREADING OVER WORLD

### Johannesburg Knows What Vancouver in Accomplishing, But Toronto Seemingly Does Not.

The man who had discovered the secret of "How to be Happy Tho' Rich," who had hunted the bluebird and found it, was introduced to a select company at McConnell's yesterday by Stewart Lyon, president of the Tax Reform League, and the man was Joseph Fels. Fighting for social justice was evidently not a matter to induce grumpiness, said Mr. Lyon, if Mr. Fels was to be taken as a standard. Henry George, Dr. McMillan, Tom Johnson and others who worked for social reform had shown themselves to be unselfish and devoted, and Mr. Fels was of the same stamp. He was one of those who got behind the cause and cherished and showed. He was the kind of a leader they were glad to have in Canada this time. It was about 25 years since the tax reform movement had been inaugurated in Toronto, and one another quarter of a century Mr. Lyon hoped to see all taxes concentrated on land values. Mr. Lyon made a strong appeal to the business men present for tax reform, taking a recent real estate transaction on Yonge-street as a text. Among those present were Murray Geary, Controller McCarthy and Foster, N. W. Rowell, K.C., M.L.A.; Allan Stoddholme, M.L.A.; Senator Jeffrey and W. Douglas. Mr. Fels began by stating that every newspaper man he had interviewed for years was either a single taxer or a socialist, or a little of both, and in no case was he in accord with the policy of the paper to which he belonged. He had been engaged for four years in promoting single tax and he thought no one alive knew the work of Henry George better than himself. "In the last three years 'Progress and Poverty' had been translated into Chinese and was now in its third edition. The single tax was beginning to come in China, and he had just received the

## GRICE-BARRAM CASE

Will Probably Be Concluded To-Day — \$50,000 Asked.

The case of Grice versus Barram, which is being held in the non-jury court at the city hall, will in all probability be concluded this morning. Mr. Grice, a contractor of London, Eng., is suing Mr. Barram, a Toronto attorney, to pay off the alleged liabilities on the General Construction and Dredging Co., in which the plaintiff purchased \$50,000 worth of stock, with the understanding it was to be free of liability. Now Grice claims the stock is encumbered to the extent of some \$34,000.

## BLAYNEY H. SCOTT CONVICTED

Blayne H. Scott, a prominent insurance broker, was sent to jail for 30 days from police court yesterday morning, for theft of \$372 from Walter A. McConnell, for whom he had taken out a policy of \$10,000 in the Continental Life. He converted notes given for the first premium to his own use.

## Liveryman Paid Fine.

Summoned to afternoon police court at the city hall yesterday for littering the lane between his stables and the premises of a confectionery, Patrick Maher, liveryman, of Bloor-st., was fined \$10 and costs, which he paid.

## St. Paul's At-Home.

St. Paul's C. I. and A. A. are issuing invitations for their semi-annual at home, to be held in Oddfellows' Hall, Broadview-avenue, on Friday, the 23rd inst.

## Aid to Marksmanship.

NEW YORK, Jan. 15.—Sergeant Ommundsen, a famous British sharpshooter, who has several times won the King's prize for marksmanship at Bisley, is the inventor of a rifle sighting device which eliminates the necessity of finding the range. It is reported that tests under skirmishing conditions have shown a percentage of hits of 95 as compared with 19 by ordinary sights.

## GRICE-BARRAM CASE

Will Probably Be Concluded To-Day — \$50,000 Asked.

The case of Grice versus Barram, which is being held in the non-jury court at the city hall, will in all probability be concluded this morning. Mr. Grice, a contractor of London, Eng., is suing Mr. Barram, a Toronto attorney, to pay off the alleged liabilities on the General Construction and Dredging Co., in which the plaintiff purchased \$50,000 worth of stock, with the understanding it was to be free of liability. Now Grice claims the stock is encumbered to the extent of some \$34,000.

TRUNK TELEPHONE LINES.

It is almost time that something more definite was coming out from Queen's Park about the trunk telephone system. There is a general understanding during the election that something was to be done. Sir James Whitney had taken his stand on the principle that public ownership was necessary and justifiable in order to break up an oppressive monopoly. On that ground he carried out the hydro-electric legislation. It is on that ground that the appeal comes to him to legislate with respect to trunk telephones. There is no more oppressive, badly abused and irritating monopoly in the province than the present trunk telephone system. An effort has been made to confine the issue in this respect, and to link it up with the local and municipal and private telephone problems. But trunk telephone lines are quite separate and apart from all these, and there is nothing to prevent the provincial government taking over existing trunk lines, and adding to these or extending them wherever they are needed. There are hundreds of private telephone companies all over Ontario and these companies are almost utterly deprived of the convenience and advantage of communication with the cities and towns of the province, as well as with each other. The Bell monopoly has fought every attempt made by the small companies to obtain communication. The railway board has to be called in to secure connection between adjacent lines. The charges for long distance connection for these companies and for the public generally are based on the usual corporation standard—all the traffic can bear.

The Ontario Government, with its own line on the T. & N. O. Road, with its rights of way for the hydro-electric system and other opportunities, could make a beginning in giving the people through Ontario the essential of modern business and farm life, direct communication with all parts of the province. There would be no need to disturb any local company or any local branch of the Bell Company. The trunk lines could be served by government operators and the private companies would lose no time in linking themselves up with the nearest government trunk station. Next to the hydro-electric scheme itself Sir James Whitney could scarcely desire anything more welcome to the people of the province than a publicly-owned trunk telephone system.

UNIVERSITY MILITARY LECTURES.

Opponents of "militarism"—whatever they may mean—cannot or do not say that no provision should be made for the defence of the Dominion from armed aggression. However much it may be deplored, the fact remains that no nation dare accept the risks attending a policy of non-resistance. As an integral state of the British Empire, too, Canada must accept responsibility for a share of the burden of imperial protection. If that is to be carried out satisfactorily on the basis mainly of voluntary service, it must be accompanied by a proper system of military education, consisting both of theoretical instruction and practical training for the citizen soldier. This in no way violates the intonation or encouragement of that sentiment of "militarism" which in its proper meaning is that temper of mind largely due to the cultivation of the profession of arms and the maintenance of standing armies.

As part of a comprehensive system of military education in Canada, the imperial war office and the Dominion militia department have united in undertaking, whenever a university furnishes military instruction, to provide competent lecturers on the art of war. Such a course was given last fall at the University of Toronto, and while it attracted considerable attention and proved highly interesting, the support was not what it should have been. Another course has, however, been arranged and the six lectures of which it is composed, will be given in the lecture room at the chemistry hall at 5 o'clock p.m. on every alternate Wednesday, commencing on Jan. 17. Undergraduates interested in historical studies or who contemplate entering the Dominion service, should make an effort to attend the lectures, which, as will be seen, mainly deal with selected campaigns of importance. The course is as follows:

- 1.—The campaign of 1813 in the Niagara peninsula, Major W. J. Brown (M.B.C.), commanding 9th Battery C.F.A., Jan. 17.
2.—The study of military history, Lt.

Col. J. H. V. Crowe, R.A., commandant R.M.C., Kingston, Jan. 1.

3.—The battle of Mount Royal, American civil war, Major G. G. W. Gordon, Hall, general staff, first division, Feb. 14.

4.—The Austro-Prussian campaign of 1866, Lt.-Col. T. B. Wood, R.G.A., federal staff R.M.C., Kingston, Feb. 28.

5.—Mobilization, Col. W. G. Gwatkin, general staff military headquarters, Ottawa, March 13.

6.—The campaign of Waterloo, Lt.-Col. L. F. Phillips, general staff second division, March 27.

FEDERAL SQUARE.

Something should be done at once by the city hall authorities towards the inauguration of the proposed federal square, upon which the Dominion Government was to erect its new public buildings, and where other similar structures were to be placed. It does not appear that the city and the government are yet definitely committed to the scheme. Mayor Geary states that it will go through, but it should be well to have something in writing to which the officials could look as a guarantee of genuine business. The federal square should not depend for its approach upon the Yonge-street bridge.

Why does not Dr. Hastings proscribe the communistic comb and hair brush when he is about it?

It "old brutality" is the proper term for the treatment of civil servants at Ottawa by the new government, will The Globe kindly supply terms to describe the conduct of the Laurier government when it came into power in 1896, when 700 heads were cut off in a few weeks?

BOOKS FOR PORCUPINE MINERS.

Editor World: I am organizing a traveling library for the purpose of supplying the men who work at the different mines throughout the Porcupine district with good, wholesome reading matter. With this object in view, I would esteem it a great favor if you could thru the medium of your valuable newspaper obtain the co-operation and assistance of your readers, who have a superabundance of good cheap books to donate to such an object. Miners as a class are voracious readers, and the relaxation that reading brings to the body fatigued by the hardest manual labor. The distribution of the books and management of the library will be under the supervision of the Presbyterian, Anglican and Methodist ministers of the district and will be conducted without regard to race, color or creed. Books in foreign languages, also books suitable for Sunday school libraries, will be appreciated and received with thanks. (Rev.) J. A. Fenwick, P.O. Box 188, Porcupine, Ont.

ANNUAL CONVENTION OF SALESMEN.

The annual convention of the salesmen of E. W. Gillett Co., Limited, was held at Toronto from Jan. 3 to Jan. 6. Representatives from the extreme western and eastern points in Canada, and also New York, were in attendance, about thirty-five in all. Business sessions were held during the day, at which various matters of importance were discussed. As it has always been the desire of the company to make these conventions entertaining as well as instructive, the visiting representatives, as the guests of the company, attended performances at the different theatres. On Friday evening a banquet was held at the Hotel Windsor, when the tables had been cleared, the toastmaster, Mr. Wm. Dobie, proposed the toast "To the King," which was responded to by Mr. Holden, Mr. Sinclair of Winnipeg, on behalf of the salesmen, in a few well chosen words presented to Mr. Dobie, the president of the Gillett Co., a very handsome silver desk set as a token of the kindly feeling toward him by the men on the road. After the speech which was given by the singing of "God Save the King" and "Auld Lang Syne" closed a very pleasant evening.

WHEN LIMBS AND CHEST ACHE

Zam-Buk Gives Ease Quickly

Have you got cold in your bones? Have you a bad attack of "general aching"? You know the feeling. Limbs ache, muscles seem to have become tired out, back aches, now and again a twinge of rheumatism strikes you here and there. Your chest feels tight, and there is a pain between your shoulders.

Cold is responsible for this condition, and a vigorous application of Zam-Buk will put you right. Take a hot bath, and then rub your chest and the aching limbs well with Zam-Buk.

Mrs. B. Gorie, 76 Berkeley-st., Toronto, writes: "I cannot speak too highly of Zam-Buk. A few weeks ago I was suffering from a bad cold, which had settled in my throat, chest and limbs. I tried all kinds of remedies, new and old, and found very little relief until I used Zam-Buk. On applying this to my throat and chest I found such ease and relief from the tightness and soreness I determined to use only Zam-Buk. I also rubbed it on my limbs where I felt the rheumatic pains, and in three days from the time I first began applying Zam-Buk I was free from the cold in throat and chest, and also the rheumatism in my limbs."

Zam-Buk will also be found a sure cure for cold sores, chapped lips, frost bites, ulcers, blood-poison, varicose sores, piles, scald sores, ringworm, inflamed patches, babies' eruptions, and chapped hands, cuts, burns, bruises and skin injuries generally. All druggists and stores sell at 50c box, or post free from Zam-Buk Co., Toronto, upon receipt of price. Avoid harmful imitations and substitutes.

May Ralse Rev. Dr. Geggie's Pay. Parkdale Presbyterian Church, Dunn-ave., will to-morrow night vote on increasing the salary of Rev. Dr. Geggie by \$250, to \$3750.

ANTI-SLIDERS TO BE OPPOSED

Sunday Tobogganing Has Many Friends—Comes Before Board of Control To-day.

When the board of control meets at 11 o'clock this morning Mayor Geary with his colleagues will be between two fires. On the one side the Toronto General Ministerial Association with their guns leveled against Sunday tobogganers will be faced, and on the other J. Enoch Thompson and others of the Rational Sunday League. As related in The World yesterday by Rev. Dr. Speer, the case against Sunday slides is that they are an unauthorized desecration of the Sabbath by the civic authorities. Their establishment is understood in ministerial association circles to have been a United States idea introduced in Toronto by the late park commissioner. When the deputation from the Ministerial Association, led by Mayor Geary on Saturday to arrange for to-day's hearing, the informal talk elicited the view that the ministers, that if citizens who desired public tobogganing on Sunday were to have that amusement provided it would be equally right for the city council to provide Sunday tobogganing on the city streets, or even horse races for devotees of those pastimes.

Many prominent citizens have expressed themselves favoring the Sunday tobogganers as legitimate Sunday recreation. Among them are: G. T. Somers, president Toronto Board of Trade; Mrs. Hoessie, president Household Economic Association; Rev. Father Minchin, of the business agents of the labor unions. Rev. T. Crawford Brown says that "no clean sport is in itself harmful. If men would only keep a proper balance in the value of things, I would have no objection to their participating in any legitimate sport on Sunday."

W. K. McNaught, M.L.A., says that being "a Scotchman, brought up in the strictest Presbyterianism, he believes in keeping the Sabbath and everything he can get."

Filled Offices in Shadow of Defeat

Between Dissolution and Election, 650 Appointments Made by Late Government.

OTTAWA, Jan. 15.—(Special.)—A partial return brought down in the house today, in response to a motion by Dr. Edwards of Frontenac, a list of 650 appointments to government positions during the interval between the dissolution of the last parliament and the resignation of the Laurier ministry. Most of these appointments were to lesser offices, and do not fall under service classification. For example, the appointment of the waterways commissioner is given as having been made by an order-in-council, dated Aug. 11, the appointee being Sir George Gibbons, Alex. P. Aime Gifford, commissioners, and Theo. Cote, secretary.

On Aug. 23 the former government by order-in-council, appointed Mr. H. McLeod, W. J. Gear, C.E., St. Arthur Surveor, C.E., as the St. Lawrence River commission.

JAIL VERY POPULAR

Last Year 5675 Prisoners Resided There and Number Will Increase.

The Toronto jail was a rather popular resort, according to the annual report of the property committee yesterday afternoon. The report showed that 5675 prisoners were committed to the jail, and the total days of confinement totaled 128,415. The daily cost of food per prisoner was eight and four-fifths cents. The cost for jail maintenance, exclusive of officials' salaries, was \$46,414. Fines were collected during 1911, which amounted to \$540,124. On Jan. 1, 1912, there were 288 men and 44 women confined in jail, and the report says that there is every prospect for a considerable increase in these numbers next winter.

The property committee asked Commissioner Harris to report on the bridge's notice of motion to the effect that an additional entrance be installed at the James-st. entrance to the city hall.

The Ice Bridge at Niagara Falls. Niagara Falls at this season of the year, when the mighty cataract is fast bound in winter's grip and magnificently beautiful in its garb of ice and snow, is truly a marvelous and inspiring sight.

Fast trains leave Toronto 7:50 a.m., 1:15 p.m., 6:20 p.m. and 7:10 p.m., connecting at Welland with the Michigan Central for Niagara Falls. The service returning is equally as satisfactory in every way.

SPECIAL SALE SQUARE PIANOS.

Can Be Bought on Payment of Seventy-five Cents a Week.

An outcome of the large holiday trade done by the old firm of Heintzman & Co., Limited, 125-127 York-st., Toronto, is an accumulation of square pianos taken in exchange. These include the famous Steinway, Miller & Sons, Heintzman & Co., and others. The firm intend to make a quick clearing of these instruments and have marked them down from \$50 to \$150, pianos that originally sold at from \$250 to \$750. Every instrument has been thoroughly overhauled by Heintzman & Co.'s own workmen before being offered for sale. They may be bought on payment of 75c a week.

IT CUDDLES UP CLOSE.

Anyone who has had the experience of trying to keep a slippery, gurgling, hot water bottle on a sore "tummy" will appreciate the comfort of an Electric Heating Pad. It is the very softest of eiderdown-finished-cloth, and so flexible that it snugly right down into all the corners and stays where it is put. It cannot grow cold, and gives a choice of three heats, easily regulated by a switch. Ask at the Comfort Number—

DANGEROUS BLAZE ON DON ESPLANADE

McColl Building Damaged to Extent of \$15,000—Water Pressure Good.

Fifteen thousand dollars damage was done by a fire which broke out in the engine room of the McColl building at 99 to 104 Don Esplanade yesterday morning, and for a time all the buildings in that neighborhood were threatened so fierce were the flames. The alarm was turned in at 7:25 a.m. by a policeman who saw the blaze from the Queen-street bridge. The water pressure was good, and thus the firemen were enabled to keep the fire to the premises where it originated, but it was terrible work operating the hose in the cold. The building was 100 feet by 150, and was of frame covered by corrugated iron. The ground floor was occupied by Frost & Co., hardware supplies, while the upper floor was leased to the Perfected Music Co. It was owned by A. R. McColl, 238 Carlton-street. All losses are fully insured.

POLICE SEEK CLERGYMAN.

PITTSBURGH, Pa., Jan. 15.—The Rev. W. D. McFarland, former head of the academic department of the Pittsburgh high school, and well known as an educator, is being sought by the Pittsburgh police to-night, in connection with the death in a local hospital of Elsie Dodd Coe, aged 28, who died last Friday. Miss Coe had been Dr. McFarland's secretary, and before her death she made an ante-mortem statement to the police, in which she stated that Dr. McFarland and one Hollin McConnell, who is now employed in the Westinghouse offices in Chicago.

A Sluggish Torpid Liver

Leaves Bile and Other Poisonous Impurities in the Blood.

The Whole System is Cleansed and Invigorated by DR. CHASE'S KIDNEY-LIVER PILLS

Let the liver get sluggish and torpid and there is trouble with all the vital organs. The tongue is coated, the head aches, digestion fails. There is fullness, fermentation, flatulency in the stomach. The bowels are constipated and loose by turns. The kidneys become clogged and inactive. Even the skin tells of the poisoned state of the system by pimples, blotches and liver spots.

The action of the liver must be awakened, and nothing can accomplish this so quickly and so certainly as Dr. Chase's Kidney-Liver Pills.

Let the liver and kidneys alone. It is thru the liver and kidneys alone that the blood can be freed of all its impurities and the morbid matter which collects there when the liver is torpid. Many a suffering man and many a despondent woman has had kidney and liver complaint and kidney derangements by Dr. Chase's Kidney-Liver Pills. By their direct and combined action on both liver and kidneys they have often proved successful when mere kidney medicines have failed. Backache, Kidney Disease, Liver Complaint, Chronic Indigestion and Constipation are thoroughly cured by Dr. Chase's Kidney-Liver Pills. One pill a dose, 2c a box, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

# BADLY HURT BY ENRAGED DRIVER

## James Curran, 13 Years Old, Stole Ride — Expressman Struck Him With Piece of Cordwood.

Thirteen-year-old James Curran, son of Joseph Curran of 72 Hastings-avenue, is in a critical condition at St. Michael's Hospital, and Charles Gallagher, a teamster employed by his brother, an expressman at 40 Sackville-street, is under arrest charged with feloniously wounding the boy.

It is alleged that the boy hooked a ride behind Gallagher's cart in Church-street, near Shuter, yesterday afternoon. The man was annoyed, and picking up a large piece of cordwood, struck the boy upon the head with it, leaving him unconscious and driving off. He was followed by a man in a motor car, who determined to follow him until he should be identified.

Detectives Miller and Sackett set out and rounded up the man about 3 o'clock. He declared that the boy had imputed him and that he had thrown the stick at him. The assault was witnessed by several pedestrians, among whom was Frank E. Elliott, jeweler, 41 East Queen-street, who helped to carry the injured lad to St. Michael's Hospital. The lad's skull is fractured and his condition is very grave.

# DISCREDITABLE IS TREATMENT OF INSANE

## Grand Jury Advocates Special Prison for Those Awaiting Trial—New Ontario Should Have Jail.

"We know of nothing which reflects more discredit upon the community than the treatment of the insane."

The above is the substance of a long report made by the grand jury in its sessions yesterday, and is a pointed criticism of the treatment of the insane in regard to the practice in this city of confining demented people in the Toronto jail, simply because they are insane and for no other reason. The complaint against this medieval process is an old one and has been voiced often, with seemingly but little effect. In the report, the grand jury also pointed out that at present there are nineteen men and five women in jail here for insanity.

The practice of hearing prisoners not yet up for trial, or remanded, with hardened and habitual criminals, was also generally condemned in the report. The jury characterized this process as inhuman and recommended strongly that a proper place adjacent to the city jail be provided for such prisoners.

As only two guards are often in charge at night of sometimes over 300 prisoners, the grand jury pointed out that the number should be increased to properly safeguard the lives of the inmates and the premises in case of fire or other emergencies.

The report touched on the social evil in that it advocated an extension of the present six months' term for disorderly parole to one of two years. "With the parole privilege," the report said, "the six months' term usually imposed on disorderly women is inadequate in so far as moral reformation is concerned, and would suggest a term of two years, with the parole privilege, for those who prove their worthiness."

The overcrowding in all the institutions for the insane was also pointed out, and the grand jury recommended that a special jail for the part of the province was advocated.

#### DYNAMITE JOBS MAPPED BY MYSTERIOUS "PING"

Structures Slated for Destruction by Use of Code—More Witnesses Called.

INDIANAPOLIS, Ind., Jan. 15.—(Can. Press.)—Telegrams and letters signed "Ping" and purporting to contain a code system for giving instructions about viaducts, bridges and buildings that were to be blown up, were read before the federal grand jury to-day in connection with Orly E. McManigal's confession as to who was implicated with him in the dynamite conspiracy.

This signature, according to McManigal, was not that of the McManigals, but was used by another person whom he named. In June, 1910, at Cincinnati, McManigal said, in response to a telegram from "Ping," he went to Cleveland and there blew up a viaduct for which he received \$125, paid him by "Ping" in Toledo. The dynamiter's movements to Pittsburg and his arrangement to have a supply of nitroglycerine stored in an old shop at Rochester, Pa., also were arranged by this person.

The feature of the investigation having to do with the movements of men who, McManigal says, accompanied him to various cities where "open shop" work was to be destroyed, received an impetus by the issuance of subpoenas for new witnesses to-day.

New Witnesses.

The witnesses were ordered called after Oscar Lawler, special assistant to the attorney-general, arrived from Washington and conferred with United States Attorney Miller, who is conducting the enquiry.

W. Murphy, a merchant of Springfield, Ill., is expected to testify to-morrow concerning the dynamiting of his plant on March 8, 1911, six weeks before J. McManigal was arrested. C. M. Riddell, a railroad engineer, and Geo. Wright, also are expected to testify about the destruction on the same night of a viaduct south of Springfield.

All the indictments against W. J. Burns, the detective, and James H. Sack, a special officer from Los Angeles, charging them with kidnaping John J. McManigal last April, were dismissed by the county criminal court to-day.

# Porcupines Show More Stability --- Confidence Is Returning

## Market Adopts Saner Aspect Prices Hold Remarkably Well

### Porcupine Stocks Display a Few Natural Tremors, But Develop Responsible Undertone—More Confident Feeling in Evidence.

World Office,  
Monday Evening, Jan. 15.  
Porcupine securities showed a much more stable undertone in the local market today, a considerably saner aspect being apparent than in the evidence at the close of last week being noticeable, and prices recording a much less erratic action in consequence. At certain intervals, the market underwent a tremor of greater or less extent, but such instances as these did not run into anything like the panic of the previous generally confident feeling was noticeable.

The general sentiment on the street is favorable to the idea that conditions will soon right themselves in the mining market, and that no permanent injury will follow the dramatic shake-out which marked the last few sessions of last week.

At the opening to-day prices showed comparatively little change from the close on Saturday, and while in some of the active issues the downward disposition was in evidence, this was accepted as quite natural, in view of the severe break in prices recently occasioned.

The net result of the transactions of the day was that small declines were shown in the active list. Dome Extension on one time sold as low as 33 1/2, but a marked rally carried the quotation back to 40, and closing bids were at that figure. Vipond lost only a point at 83, and Crown Charter, which bore the brunt of the slump on Saturday, held its own fairly well under the substantial buying which put in an appearance on all the weak spots.

The big issues were subjected to some liquidation, and further adjustments in prices were occasioned. Hollinger was down to 12 1/2, but regained the major part of its loss, and at the close bid five points above that quotation was in evidence. Rea lost three points at 11 1/2, and closed bid three points above that figure.

Quiet dealings were shown in the Cobalts and outside of one or two restricted price changes nothing of importance was evident. The market point on its initial trade, but lost it all before the close. Green-Meehan was under selling pressure and sold down below two cents on Saturday.

The market on the whole was in a somewhat nervous mood, but considering the dramatic shake-up of last week it held remarkably well. A much saner speculative feeling is already in evidence, and the general idea is that there is a good prospect for a recovery in the near future. Prices have undoubtedly got down into low ground, and once the outside speculative movement increases to any appreciable extent, a sharp change in the tendency to prices should be experienced.

### WILL STRENGTHEN THE MINING POSITION.

The Toronto mining markets started in fear and trembling. The announcement of the suspension of a Toronto Stock Exchange firm on Saturday led up to all kinds of rumors, and the names of other firms were passed around as likely to follow in its wake. Ruthless statements were made by irresponsible persons, and even some brokers were inclined to give credence to the rumors. The essence of the business was the passing of the various contracts made on Saturday between brokers. On the Standard Exchange everything passed off satisfactorily, the Dominion Exchange has not yet established a clearing house, and this necessitated a couple of meetings during the day, at which it was stated that the individual arrangements between brokers had developed no weak spots. The semi-panic in mining circles has brought out reasons for protective measures, and the situation should result in an all-round stronger position, which will prove beneficial to brokers and clients alike.

### THE ADVANCE IN COPPER

Average Price Last Year Under That for 1910—Sharp Recovery.

NEW YORK, Jan. 15.—According to the Engineering and Mining Journal, upon whose monthly averages are based prices for electrolytic copper during 1911 was 12.37 cents, the lowest for that year for the preceding year. The average for Lake copper for the year was 12.64 cents, the individual averages for electrolytic during December was 12.52 cents, the highest for any month since January, 1910, when the average was 12.03 cents. The average for Lake during December was 12.68 cents.

Since the first of the year electrolytic copper has sold as high as 14 1/2-cents.

The Market Aeroplaning.

LONDON, Jan. 15.—Eager buying on the tin market here to-day lifted prices \$20 per ton for cash. Seven hundred and fifty tons changed hands. There are persistent rumors that a new international syndicate is about to take over the old syndicate's holdings, and thus further control the market.

### DON'T LOSE YOUR HEAD.

If there is one thing more than another which should be impressed at this time upon the public prone to speculate in mining stocks, it is that there is no occasion for anyone to lose his head. During the last few days the Porcupine securities have passed through a crisis which has not been equalled in their history, but this has been due to outside influences, and has been almost entirely at variance with actual conditions in the mining camp.

Porcupine at the present time is just emerging from its infancy, and with the stamp mills now in course of erection at the bigger properties, there is every reason to believe that the next few months will mark the inception of shipments of gold from the camp. The fact that production of bullion will bring about a decided change of sentiment regarding the status of the camp, and it is only reasonable to believe that it will have a material effect in turning the market into a more favorable channel.

From whatever standpoint viewed, it is to be said that Porcupine, and the Porcupine mines, look better to-day than ever before. The stock market, however, has been put into such shape as a result of recent developments, that it refuses to take cognizance of this fact, and therein lies the true reason for the seeming lack of confidence which has obtained of late.

The next few months are likely to see a resumption of speculative activity such as marked the turning point in relation to Cobalt, when silver shipments were commenced from that district. There is this to be said, however, that whereas silver was produced with very little effort in Cobalt, a gold proposition is essentially different. The methods of procedure are vastly more intricate and call for considerably more time and expense all along the line. The Porcupine camp has been passing thru this inceptive stage during the last few months, and the period of results is now close at hand.

Porcupine is going to come into its own in the near future, and it will not take much to bring about an entire change of sentiment in the stock market. Meanwhile, and until this is brought about, there is no occasion for apprehension. Investors and speculators should sit tight, and absolutely refuse to sell their holdings at the ridiculously low prices now ruling in the exchanges. Time, a very short time, will prove the wisdom of this policy. Above all things, this is no occasion to lose one's head.

### Activity Reigns In Gowganda Belt

Ore Shipments From the Silver Camp—Several Properties Start Work Again.

GOWGANDA, Jan. 15.—While doing assessment work just before the holiday season the Canadian Gowganda uncovered a number of veins which give promise of proving valuable. These veins are on the five west claims and each of them shows silver in rich quantities. The Canadian Gowganda, which is south of Miller Lake, has been operating for several weeks past and about the third of this month it made a shipment of ore of a good quality, extracted during the past two months.

To date the Millerette has shipped 450 tons of ore and concentrates, containing in the neighborhood of 500,000 ounces of silver.

About 200 tons of ore have been shipped by the Miller Lake-O'Brien, containing something over 400,000 ounces of silver.

Work at the Millerette is now being prosecuted at the 200-foot level and the Miller Lake-O'Brien has excellent ore at a depth of 250 feet.

Several other properties in the vicinity of these two are starting operations again, including the Mann, which will make a shipment within a few weeks; the Jacques property, south of the Miller Lake-O'Brien, which has excellent ore at a depth of 150 feet, but this cannot be verified at the present time.

### BRITAIN'S NEW DREADNOUGHT.

PORTSMOUTH, Eng., Jan. 15.—(Can. Press).—The keel plate of Great Britain's twenty-eighth ship of the Dreadnought class was laid today in Portsmouth dockyard. The new vessel is the first to be begun of the five armored ships provided for in the British naval program of 1911-12. She will be completed in the course of the year 1914 and when she has been added to the navy, Great Britain will possess thirty-two Dreadnoughts or super-Dreadnoughts, half of which will be armed with 18 inch guns.

### Excellent Connections for the Sunny South.

To meet the demand of the southern travel which generally takes place this season of the year, the C. P. R. is pleased to inform the public of an excellent connection made at Detroit with the Fere Marquette for Jacksonville and other southern points.

# CEPEEAR

## The Car Shop City of Calgary

### ALL RECORDS BROKEN

The sale of CEPEEAR was opened on October 28th, and five special F. C. Lowes & Co. trains were run from the city to the property. Between 11 a.m. and 6 p.m., \$202,000 worth of lots were sold, five manufacturing firms secured sites for their plants; a hotel, a bank and numerous mercantile houses secured their locations. All records in the real estate history of Western Canada were broken. On October 30th (Thanksgiving Day), the sale of lots was \$168,000, again breaking all records for a two days' sale.

### Alberta Coal Field Comes to Front

Red Willow Coal Company to Start Active Operations—Townsite Laid Out.

STETTLE, Alta., Jan. 15.—(Special).—Active operations on the property of the Red Willow Coal Co., a short distance northeast of here, and within two miles of the C.N.R., are expected to commence very shortly. The company has a block of over 2700 acres of land on which large seams of coal come to the surface. A splendid quality, and a large market awaits the output.

On the property there is also a good quality of clay suitable for brick making. The management is now making arrangements for the purchase of a brick making plant. A splendid market exists for brick throughout Alberta, and this promises to become one of the company's large sources of revenue.

A townsite has already been laid out at the mine, and several lots disposed of. With the working of the company's coal and the operation of a large brick plant Red Willow will furnish the nucleus for one of the rapidly increasing western towns.

### NEW PORCUPINE CONCERN

Subscriptions Already Coming in for Porcupine Gold Peak.

The Porcupine Gold Peak, Limited, will go to subscription on Tuesday, Jan. 23. The subscription books will be only open for the one day, and immediately following the shares will be listed on all the leading exchanges.

The active market is certain to follow.

The directors of the company are well-known and of high standing, viz., G. F. Morrison of the firm of Pellatt & Pellatt; Gideon Grant of the law firm of Johnston, McKay, Dods & Grant; James C. Beatty, governor of the Province of Ontario; and Carl Rappolt, a prominent Swiss financial interests.

Development of the company's properties, which comprise 180 acres, will be under M. B. R. Gordon, M. E., consulting engineer, now in charge of the Cobalt Lake Mines. Four of the Porcupine claims are in Ogden Township, and eight in Turnbull. The first four properties, known as the Weston, Grant, James C. Beatty, and Carl Rappolt properties to show gold.

It is the intention of the company to start development work at once on the Weston property, and to thereby prospect the eight lots in Turnbull. Subscriptions are already coming in for the Gold Peak shares at the office, 401 Traders' Bank Building, and a large volume of applications is anticipated before the opening of the books this day week.
