MENERS AT INVERNESS SUDDENLY QUIET WORK GLACE BAY MORE BUSY

**Company Once More Claim
That Situation Shows Im-
provement—No Signs of
Disorder—Soldiers and
Strikers Play Football.**

GLACE BAY, N.S., July 9.—(Special.)—The usual calm that follows the storm obtained at all the Dominion collieries this morning. Quite a number of men were on hand ready to go to work under military protection. Several of the men who were passing thru the gate on their way to work were accosted by U.M.W. men and asked not to go to work, but there was no attempt at interference. The number of men working to-day is larger than on any day since the declaration of the strike, and by tomorrow morning the company expects to have a full complement of men in the mines.

The U.M.W. executive has notified the Nova Scotia Army and Coal Co. that in the event of their furnishing coal to the Dominion Iron and Steel Co. a strike will be declared at the Sydney mines colliery.

A new feature to-day occurred at Inverness. There has been trouble brewing for a fortnight past between the Inverness and Richmond Coal and Rail way Co., controlled by Macdonald and Mann. That week H. McCullough, Mann, president of the U.M.W., who is in Glace Bay as chief organizer of the strike, visited Inverness, accompanied by another organizer, Peter Patterson. They returned to Glace Bay yesterday reporting everything quiet at Inverness. This morning, however, giving any notice to the coal company, one half of the men at Inverness, numbering about four hundred, remaining at work, and only members of the P.W.A. are working to-day.

Disturbances similar to those that have occurred during the past few days at Glace Bay are now feared at the Inverness colliery, which is situated on the other side of Cape Breton Island. There is a strike now on at Fort Hood, 16 miles from Inverness. The cause of the strike at Inverness is the refusal of the company to officially recognize the U.M.W.

Firearms All Bought Up.
Everything is quiet at Glace Bay to-day as far as outward appearances go, but a hundred rifles have been taken from the situation look less bright than it might otherwise appear, there is no need for disquietude. The soldiers have gone into camp and as yet no complete arrangements have been made regarding the disposition of the majority of the militia. The soldiers are in touch with Col. Wadmore to-day, and no doubt arrangements have been made for their distribution. Gen. Drury arrived to-day from Halifax.

All the available revolvers in the town have been bought up. Not only have the small fire-arms been all purchased, but the large consignment of Enfield rifles condemned by the government and sent to Glace Bay a few months ago to be sold at private sale have all found ready purchasers.

The Coal Company's claim that its vast interests in Glace Bay could not be protected by the civic administration, no matter how capable the force at its command, has aroused the indignation of the U.M.W. and correspondence and diplomatic interviews between the two big corporations waxed warm.

There have been several arrests made. One attended with some importance took place at No. 4. A policeman stopped a man from going to work by throwing dry ashes at him. A company's constable arrested the woman, but later on stopped her and arrested a man for interfering with the arrest of the woman. Afterwards it was found that the man arrested was the constable who had no badge on. This morning the town issued a warrant against the company for interfering with its police.

Soldiers and Strikers at Play.
Good feeling exists between the soldiers and the strikers, as evidenced by the football match between the teams from the strike and the soldiers.

The output to-day, according to figures furnished by the Coal Company, was in the neighborhood of 1000 tons. Of this 1000 tons raised at Dominion No. 1. The 2400 tons shipped yesterday was taken in part from the bank heads. All the coal was raised.

MARQUIS OF RIPON DEAD HAD A NOTABLE CAREER

**Elected to British Commons in 1852,
He Filled Many Important
Offices With Distinction.**

LONDON, July 9.—George Frederick Samuel Robinson, the first marquis of Ripon, formerly Lord Privy Seal, died this evening.

George Frederick Samuel Robinson, first marquis of Ripon, was the Nestor of the British Liberal party. Born in London on Oct. 24, 1827, he succeeded his father, the first Earl of Ripon, in 1859, having represented various constituencies in the house of commons from the date of his first election in 1852. From 1859 to 1861 he was under-secretary of state for the colonies, and in 1861 he was appointed secretary for the India office in the same capacity, becoming secretary for the colonies in 1862 and for India in 1866. He held the office of lord president of the council and was chairman of the joint commission for drawing up the treaty of Washington in 1871.

His admission into the Church of Rome in 1874 attracted general attention, all the more so because he had been a member of the Free Masons, to which he had been appointed in 1874. On the return of Mr. Gladstone to office in 1868 Lord Ripon became viceroy of India, a position he filled with distinction and his administration was conspicuous for its sympathetic attitude towards native opinion. In 1886 Lord Ripon became first lord of the admiralty, and acted as secretary of state for the colonies during his long life remained entirely loyal to the Liberal party. Apart from his political duties he took an active part in local affairs and was twice elected mayor of London. He was married in 1885 to the widow Countess of Londonderry, the famous beauty of the Victorian court.

ALARM CLOCK SETS A FIRE. Ingenious Device Resorted To in Effort to Collect Insurance.

VANCOUVER, B.C., July 9.—(Special.)—With an ingenious mechanical device, Duke and Belmont, partners in the jewelry business at Enderby, B.C., started an incendiary fire in their store early on the morning of July 2, according to confession made by Belmont to-day.

When the store was burned the police made an investigation which resulted in Belmont's arrest. He and Duke rigged up an alarm clock in such a way that it would turn an emery wheel. They then placed matches against the wheel and underneath was scattered shavings saturated with oil. The alarm was set for 1:30 on the morning of July 2. It went off on schedule time.

Belmont and Duke were in the nearby Town of Armstrong, and returned to the fire alarm whistle eight miles away. They then returned to the scene of the blaze. The stock was insured for \$2500.

YOUTH DROWNS IN THE HUMBER

**Alex. Dame Lost His Life While
Bathing in the
River Last
Night.**

A drowning occurred in the Humber last night at 9:30, owing to the treacherous nature of the banks of the river. Alexander McDonald, Dame, about 21 years of age, of 100 Wellesley-street, went to swim. The banks of the river are steep and not far from the shore take a turn straight downward, in some places to a depth of 7 feet. Dame got beyond his depth and sank. His companion, who is thought to be a boy named Miller, could not find him.

A young man, who had passed the spot a few minutes before with a lady friend in his canoe, hearing cries, turned back. He dived repeatedly, but could not locate Dame before he was exhausted.

The dragging apparatus and launches were secured at Devin's boathouse. At the lake front, the body had not been recovered up till an early hour this morning.

He was the son of W. H. Dame, photographer, 1008 York street.

When a fortnight ago it was brought before the notice of the civic authorities that life-saving apparatus should be placed along the Humber, said that people on the Humber would have to take a chance.

ACCIDENTALLY DROWNED Prominent Citizen of Gananoque Meets Untimely Fate.

GANANOQUE, July 9.—Hugh Wilson, aged 58, was accidentally drowned to-day, by falling from a dock. His body was found in ten feet of water.

Hugh Wilson was one of the best known business men in this section, having been in the agricultural business here for twenty-five years. He owned considerable property. He is survived by his wife, one daughter, Mrs. Sherrin of Grand Rapids, Mich., and a son, W. J. Wilson, ex-mayor of Gananoque.

Lady Cook to Devote Fortune To Suffragism

Will Bring Her Million to America in Hope of Founding a Woman's Bank.

NEW YORK, July 9.—Lady Francis Cook (Jennie C. Claffin) expects to transfer her whole fortune to this country, devote every penny of it to the cause of "Votes for Women," and die with nothing left to fight over, not even a cent, unless it is a bank for those of the fairer sex who transact their own business and believe in women handling the money of women.

She made her plans known yesterday at her apartment in the Pasadena, when she announced that she was going back to England to arrange her affairs. She declared her ultimate intention is to found a bank and said she didn't know a man in politics whom she would go across the street to vote for, also she emphatically announced her desire to secure the ballot for women.

Lady Cook has recently given an order, in behalf of the National Progressive Women's Suffrage Union, for a tremendous banner to be swung across Twenty-third-street, in front of the headquarters of the organization, No. 152, proclaiming the issue that she will leave or give a fortune estimated at more than \$1,000,000.

The banner will show on one side President Lincoln and on the other the design calls for a likeness of President Taft giving votes to women. Lady Cook hopes to see it in place before she sails next week.

GRAIN LOOKS HEALTHY Reports From Western Provinces Could Hardly Be Better.

Winnipeg, July 9.—(Special.)—Reports received from many parts of the western Canadian spring wheat country show that wheat is already heading out, much good having been done by the heavy rains of the past fortnight.

Generally speaking, the grain is looking exceedingly healthy, and in the districts covering practically all Saskatchewan and Alberta and some parts of Manitoba, it is now quite thirty inches high. With this present condition of the plant, grain yielding a very bountiful harvest, garnered in the time before the early frosts. Just normal weather conditions from now on are all that is required to bring about this result.

In some districts of Manitoba, however, conditions are not quite so promising, especially in the southwest, where seeding was somewhat late, and the tender shoots were checked by a prolonged drought. Good rains have now fallen in those sections, and the grain is rapidly catching up lost ground, but the harvest will probably be a little late, and the yield not above the average.

CRETEAN CRISIS FELL OF UNGER

**M. Hanotaux, Noted French
Diplomat, Who is to Visit
Canada, Shows
Why.**

MONTREAL, July 9.—(Special.)—The Hon. Gabriel Hanotaux, one of the most famous foreign ministers France has ever had, and one of the leading literateurs of Europe, will arrive in Canada towards the end of October as the guest of the Alliance Francaise of Montreal.

A cablegram was received here to-day from Sir Henri Taschereau, the president of the association, now in Paris, saying that he had been successful in making arrangements with the ex-minister to deliver three lectures in Canada the coming autumn, one in Montreal, and also one in Quebec and Ottawa, the subjects to be announced later on.

It will be remembered that Mons. Hanotaux was for a time looked upon in certain quarters as the enemy of the English nation, but when the minister retired from the foreign office it was made plain that in his capacity of foreign minister he had done all in his power to promote an alliance between England and France.

Views on Cretan Situation.
Although he has passed since M. Gabriel Hanotaux held office in the French Government as minister of foreign affairs, he is an historian still keeps in close touch with all questions of international politics. His views, therefore, both as a one-time diplomatist and as a present-day observer and chronicler, on the question of Crete, now pending between Greece, Turkey and the European powers, cannot but be of considerable interest and value, and The N. Y. Herald of to-day quotes him as saying:

"First of all, the Mediterranean question in general is one of the most dangerous Europe has to face at the present moment.

"The slightest impudence or an apparently very unimportant but ill-reflecting movement on the part of any one power might easily kindle a blaze that would develop into a formidable conflagration.

"There is the splendid port of Suda Bay, for instance, upon which covetous eyes have been cast for many years. It is a question of the status of Suda Bay, whether it should be a free port, or whether it should be abandoned either to Greece or Turkey, the immediate and inevitable consequence would be wise to make the island an international quarrel for the control of Suda Bay.

Must Uphold Turkey.
"For the moment Europe would be wise to make the island an international quarrel for the control of Suda Bay. The foreign military contingent might be withdrawn without danger, but the nominal suzerainty of Turkey should certainly be upheld by the presence of European guard ships in Cretan waters.

"There are other Mediterranean questions fraught with equally unfavorable results for the world if not handled with extreme care and prudence. What is the Bagdad Railway but a rival of the Suez Canal? It is a question of the status of the island of Turkey, at least not yet, in view of the unstable condition of the Ottoman empire and government. On the other hand, in my opinion Crete cannot by right and in fact be considered otherwise than as part of Turkey. By right, in virtue of the treaties of Paris and Berlin; in fact, for no other reason because Turkey went to war to defend the island as her possession and re-established her rights by force of arms.

Greece Shouldn't Get It.
"I confess I fall to see why Crete should be given to Greece. I believe if the powers now in office in Turkey they will be responsible for another Greco-Turkish war. It is true the people of Crete are anxious to be annexed to Greece, but I do not see how justification for a step which may precipitate a war. In my opinion the best way to settle the question is by a settlement of the question for three years.

PRIZE CONTEST ANNOUNCEMENT

Owing to the heavy vote being cast, as the close of the second voting period draws near, the Contest Manager finds it impossible to publish the standing of the candidates until Monday, July 12.

U. S. Senator Aldrich.

He is the "man behind" the revision of the United States tariff in the senate. The bill is now back in congress, and The New York World (Democrat) says: "The tariff bill, as adopted by the house, was on the whole as good a measure as could have been expected from a party wedded to high protection. But Sen. Aldrich in the senate bill has practically undone the work of the house. He has raised the most important rates to the old Dingley figures or fixed them even higher. Revision under his management has not been honest; it has not been downward. As the bill leaves the senate, it is a mockery and a betrayal."

Senator LaFollette, "insurgent" Republican, prior to the senate vote, charged that the house bill, when reported by the senate finance committee, carried advances of duties from the Dingley law, which estimated by the importations of 1907 would increase the customs revenues by \$102,000,000 yearly, while the decreases represented only \$66,000,000. The 248 increases thru amendments adopted by the senate on the same basis would total \$146,125,000 annually. The 529 decreases from the Dingley law, he declared, would represent but \$93,525,000 yearly. He charged that the whole tendency of the bill was revision upward, and would disappoint the country.

CONFERENCE COMMITTEE TO DISCUSS THE TARIFF

**Indications Are That There Will
Be Some Lively Discussions
in Congress.**

WASHINGTON, D.C., July 9.—The tariff question has been shifted from both houses of congress to a conference committee.

After one hour and a half of debate, the house to-day, by a vote of 178 to 151, adopted a rule whereby all of the 847 amendments of the senate were agreed to, and the conference required by the senate granted. Eighteen Republicans voted against the rule, and one Democrat for it.

When the house met at noon interest was at fever heat. The leaders on both sides had notified their respective forces to be on hand, in anticipation that the tariff bill would come over from the senate. The summons were responded to almost without exception.

The debate at times waxed warm and disclosed the fact that there were some Republicans in addition to the so-called insurgents who are yet to be pacified before they will give their votes to the final passage of the bill. A feature of the discussion was an appeal by Chairman Payne to his colleagues to send the conferees to the senate unimpeded by instructions. He promised to rigidly exact an explanation of every amendment made by the senate, in order that the house conferees might report back a bill which would meet the approval of the majority of the country at large. His appeal was granted by a large vote.

Mr. Townsend of Michigan declared that in the senate debate of the tariff bill, the house had been openly incited.

Mr. Mann of Illinois declared he would vote against the bill on the conference report if the senate proposition on wood pulp and print paper should be retained. He was applauded on both sides.

Speaker Cannon appointed the following members of the house committee on ways and means to be the house conferees: Payne, New York; Dezell, Pennsylvania; McCall, Massachusetts; Boutelle, Illinois; Calderhead, Kansas;

DELEGATE HAS FEVER, TOO. Belgian Visitor to Congress is Ill in Winnipeg.

WINNIPEG, July 9.—(Special.)—Mlle. Lafontaine, Belgian delegate to the women's quinquennial conference, held recently in Toronto, and who was among the number of visitors to this city, is now in the General Hospital suffering from scarlet fever. The supposition is that Mlle. Lafontaine was exposed to the same source of infection as her excellency, Lady Grey, or contracted the disease in Rideau Hall. Luckily the case is not very severe.

FRAUD ALLEGED. A warrant has been issued by Judge Chouette for the arrest of Major G. Leckie of Sudbury, on the complaint of William Marshall, who alleges fraud in connection with a mining deal. The Grey Sidling Develop- ment Company is the concern involved.

A SUMMER DAY EXECUTION. An old horse, and yet not so old, but of so stout a heart that he worked himself blind at it. He had been blind and branded on the plains of the Canadian west; probably half Clyde, the other half some lighter strain; and, brought up to be a cow pony, he had come east ten years ago or so. His heavy feet, his short stout body, belied his wonderful speed, his ability to go up or down any hill, over most fences, to cut his way thru any herd; but these same points confirmed his ability to kill his share of any load, or go his distance on any road. Of a highly nervous temperament—rather unused to ranching—he grew still more nervous as the blindness came over him, and sent to the pasture field with other horses, he spent his time in keeping in touch with them by a marvellously de- veloped ear for whinnies and the hoof- noise of his fellows. But he must not be left alone, and in fact he was kept up with the bunch he crashed into a tree, breaking in his face bones. The veterinarian could have patched him up, but the nervousness, the fear that he seemed to have of the other quiet, could not be overcome, and the humane act followed, that of dig- ging a hole in the sand hill, a leading of the old horse with his ever alert ears to the edge of it, a gun-shot that he never saw, a noise that he had never likely heard, the quick, sharp close of seventeen years of his usefulness.

2 AUTO RAGERS KILLED IN CRASH

**Tragedy Marks Opening of
Montreal Meet—Speed-
ing Machine Skidded
and Crashed Into
Fence.**

MONTREAL, July 9.—(Special.)—C. K. Bachevalier of Newport, Vermont, and J. T. Wobey of Montreal, a McGill student, were killed at the second annual races of the Canadian Automobile Club on the Blue Bonnets track this afternoon.

Bachevalier was driving a sixty horse power Stearns car in the tangle open race for stock touring cars. Wobey acting as his mechanic.

On the eighth mile, rounding into the back stretch, Bachevalier pulled out to pass Bertram.

What then happened nobody knows. The Stearns was seen to dash into the fence, fly over the embankment and come to a stop forty yards beyond. The two occupants were thrown into the air.

When assistance arrived Wobey was found dead with his neck broken. Bachevalier was still breathing, but was horribly mutilated, one stake having torn out his bowels and another knocked a great gash in his chest. He was placed in an ambulance and rushed to the Royal Victoria Hospital, but died just after being admitted.

The car was the property of Lorne Hale. His entry was refused last night, but to-day, when he secured the services of Bachevalier, who was a science graduate of McGill, it was accepted.

No records were broken in the race. The time made was only fast.

AUTO IN MAD DRIVE STRIKES DOWN CHILD

**Frank Kerr, Aged Eleven, May
Die From Injuries—Car
Owner Not Located.**

Eleven-year-old Frank Kerr lies at the point of death at his home, 1019 East Queen-street, and the police are scouring the city for a man driving a grey automobile, who unless there is a change for the better in the lad's condition will be wanted for manslaughter.

Roadmaster Gordon phoned to the police switchboard at 8:30 last night that he had seen a grey auto, whirling westward in a smother of dust, strike a little boy in the roadway at Queen and Brooklyn-streets, a few minutes before. There were four persons in the car, which made no attempt to slacken speed, and paid no heed to the little, bleeding figure lying very still in the dust of the roadway.

The operator started to work with the signal system and located Main-street and Parliament-streets. He told them of the affair. They started east on Queen-street and at Sumach-street met what they believe to be the car still speeding wildly westward, but with only one man in it. It was close followed by two cars, the number of one of which they say was 3638.

Policeman Scanlon says that the car after striking the little fellow continued west at a terrific rate to McGee-street, where it turned south. He believes that three people got out and the car then continued west to be sighted by the plainclothes men. He says that it bore two numbers and was therefore in all probability a visiting car.

The little fellow, who is a son of James Kerr, who runs a dairy at 1919 East Queen-street, over which he lives, was carried to his home. Dr. Brown was called and dressed his injuries. He believes that the lad is suffering from a concussion of the brain and that his condition is exceedingly serious. Whether the skull is fractured is not ascertained. He has also an abrasion on the leg and a contusion near the spine.

ASQUITH CAUGHT AT LAST. Suffragettes Hand Him Petition, But He Makes No Reply.

LONDON, July 9.—The suffragettes, under the leadership of Mrs. Despard, who tried to picket Premier Asquith's residence in Downing-street, succeeded this evening in presenting their petition to Mr. Asquith in person.

The premier, however, has made no reply.

IDENTIFIED THRU THE WORLD Railway Victim at Napanee Wa. Thomas Ewart of Kingston.

KINGSTON, July 9.—(Special.)—The photograph which appeared in Thursday morning's issue of The Toronto World was the means of identifying the body of the man who was killed on the railway some few days ago at Napanee. The picture and description tallies with that of Thomas Ewart, Jr., son of Thos. Ewart, Portmouth, who has been missing from home several days, and Joshua Ewart and Edward Keiso left this morning for Napanee.

Joshua Ewart returned to-night from Napanee and is satisfied that the body is that of his brother. He did not see the remains as they were buried. The family are inclined to believe in foul play, as his hat was found in Napanee, and the body three miles west of there, but the authorities are satisfied Ewart met with accidental death by falling off the train. The body will be allowed to remain in Napanee Cemetery.

Michael Kennedy, veteran guard at the penitentiary, was reading the World when he recognized the picture. Ewart was in Toronto a few days ago and, upon returning home, went to Napanee.

Fort Erie Entries

PORT ERIE, July 9—(Special)—The fourth day of the summer meeting of the Niagara Racing Association saw another big attendance. It was a good day for the first choice, four of the favorites winning in the handicap. Centre shot won his first race for L. Schoba, who took the filly from Walker in a selling race. John Carroll ran a finished race, winning from a good field, Preston putting up a fine ride on him. A steepchase was on the card, which was won by Dr. Keith, who was the public's worst fall was the race in which Simcoe, who was backed almost off the boards, finished second to John A., beaten by a head.

H. S. Wilson, who owns Bannell, applied to the judge to have his entries accepted, but they would not until after he straightens out with the Handicap Club. He claims that W. G. Wilson has nothing to do with Bannell other than train him. In the sixth race, Guy Gray bid \$500,000 over his entered price. The horse was retained by his owner at \$800. M. Hutchinson claimed the King of the 2nd at \$100 as a means of getting even. N. W. Sproule was fined \$5 for rough riding.

FIRST RACE—Purse \$400, 2-year-olds, 5 furlongs: 1. Galvaca, 103 (McCarthy)..... 2-1 2. Detroit, 107 (Mentry)..... 3-1 3. Puka, 110 (Muggrave)..... 4-1 4. Awanagan, 103 (Deyser)..... 5-1 5. Amateur Baseball

The Post Office ball team met and defeated the Fire Department (Civil Service League) in a fast game of baseball at Lansdowne Park, Thursday. The Post Office team scored 19 to 5. The fire department used four pitchers to try and stop the heavy-hitting post office line, which was of no use as they had their eye on the ball and hit it freely. Crowe the post office pitcher, was in fine form, only allowing six hits and striking twice.

LET US HAVE NO POLITICS IN THE POSTOFFICE.

The complaint in regard to the Coleman postoffice of a political removal is no more against the Liberals now in office than it was against their predecessors, the Conservatives.

There should be no politics in the postoffice in the matter of appointments or changes. To put politics out of the postoffice would be good politics. And the party that does it first will reap the reward.

YONGE STREET WIDENING.

It seems almost impossible to get big ideas into the city hall people. The latest suggestion for the benefit of Yonge-street traffic is to have the street widened to 100 feet.

Every day that passes makes the task of widening Yonge-street more difficult. Before the Confederation Life Building was erected the cost would have been a comparative trifle.

The city council should carry a by-law at once determining that all future new buildings on the east side of Yonge-street between King and Carlton (or Fleet) street, for that matter, shall be set back sixteen feet.

TAXPAYING.

If the city hall had all that it ought to be in matters of policy it would be ungracious not to acknowledge its merits of administration.

Yesterday offered a pleasant sight to the administrator. Temporary receiving booths have been erected in the main hall and the long lines of loyal citizens with their tinted tax bills filled the western section all day.

GERMAN AND BRITISH LABOR CONDITIONS.

Attention is being directed by the local morning and afternoon newspapers that favor free trade to certain letters appearing in The London Daily Mail of imperialistic and tariff reform proclivities.

IRON FOUNDRY PROJECT NOT SUBMITTED TO CITY

But as Council Meeting Has Been Postponed the Delay Isn't Serious.

The mayor had not yet received a formal written offer from the promoters of the iron foundry, who desire to establish the industry on Ashbridge's Bay.

The mayor had expected the board position to be laid before the board of control yesterday, but the document was not forthcoming. It will probably be submitted on Monday or Tuesday, and as the special city council meeting has been postponed from Wednesday until Friday of next week, there is no immediate hurry.

The board of control yesterday agreed not to make any recommendation of appointment to the office of corporation counsel until next September. Corporation counsel has not changed his view that the city should be willing to pay a large salary as a means of securing a high quality of legal talent.

Joseph Harton has withdrawn his resignation as chief of the revenue collection branch. He returned to his post yesterday after a talk with the mayor and city treasurer.

It is probable that a site for the Niagara power transformer station will be selected either in High Park or the neighborhood. The city's objection to garrison commons is that the high voltage wires would have to pass over the exhibition grounds and might cause uneasiness. The other location would, however, cost about \$40,000 more, as there would have to be more underground work and a line loss.

No laundries will be allowed to locate in the face of the objections of residents. The mayor announced this policy in rejecting the application of Pond Bros. Chinamen to establish a laundry at 75 Dundas-street.

The prospect that the first section of the sewer will be completed within the specified period of 400 days seems to be remote. The total length of the section from the corner of Dundas and Jarvis-streets to the west bank of the Don at Wilton-avenue is 6885 feet, and after 50 days' work only 190 feet have been completed. A special digging apparatus used by Godson & Company, contractors, has not been a success, and another plant will be tried.

Defends Stanley Park. Park Commissioner Wilson thinks the representations as to lawlessness in Stanley Park have been greatly exaggerated. He has made enquiries among residents in the vicinity, and can discover no cause for complaint.

Travel Club Going Home. The London Advertiser's Travel Club stepped over in Toronto yesterday on their return from a trip up the Saguenay and other points in Quebec. They were treated to an auto ride of heavy direction, and stop made at Hotel Pentanguishene. Call at City Ticket Office, northwest corner King and Yonge-streets, Phone Main 4209, for further information.

UNION FOR EXPRESS WORKERS Application For Conciliation Board to Be Made First.

MONTREAL, July 9.—There is a movement on foot to organize a union for express workers all over Canada, and the organizer, who was for years connected with the express companies of this city, intends to apply for a board of conciliation under the Lemieux Act.

He will start with the Dominion Express Company, he says. It is claimed that the men now work 12 and 13 hours a day on the wagons and at the stations, and that some of the messengers are on continuous duty as long as 36 hours at a stretch.

Among the demands to be made are the following: 1. Longest run to be ten hours. 2. Nine-hour day for drivers, porters and clerks. 3. Ten days' vacation with full pay. A man may get off

now for a week, but his wages are stopped.

to-day so the output is said to be 400

tons better than that of yesterday.

While the Coal Company and the

company differ widely on the number

of men employed at No. 2, the claim

of the first being 240 for to-day, and

that of the strikers 226, the company's

output figures have not been serious-

ly questioned.

An output of 1500 tons could only be

produced by a gang of workmen num-

bering less than 200 under present con-

ditions. Workmen are of three classes,

overground laborers, underground la-

borers and miners, the latter the cut-

ters, who are the laborer to at-

tend to one cutter, and on laborer

above to attend to the coal raised by

each two cutters. It is estimated that

250 cutters working there would nec-

essarily have to be 250 laborers and

125 surface men, making a total of

625 men.

Under present conditions 250 cutters

would have to haul to 1500 tons, so

it is reasonable to assume that the

company's claim is in the neighborhood

of that of the strikers. The P.W.A. is

than 7000 gallons of oil were ordered

to-day for immediate use on the streets

of West Toronto, Dundas, Annette,

Keen, High Park, Avenue, Weston-

road, Davenport-road and Edmund-

streets are the thoroughfares that are to

receive the first application of the dust

oil. The dust oil is being distributed

by the board this morning about the

clouds of dust in the west

end, and at once ordered the oil

to be secured and the streets sprink-

led.

Peremptory instructions were also

given the owners to have the city

water mains connected with those of

the new ward without delay.

The list of new sidewalks to be laid

includes those of Clendenan

Local Public School Principal Sends

Up Fine Lot of Candidates.

NEWMARKET, July 9.—(Special.)—

One of the most remarkably success-

ful showings made by any public school

in the recent entrance

examinations is that of Newmarket,

under the principalship of Mr. Dale.

Contrary to the usual custom the

principal did not send up simply the

senior, and a few of the best in the

Junior, but every pupil, senior and

Junior, 51 in all, of whom every one

passed. Out of the 51 writing 22 took

honors, and 20 87 per cent. The show-

ing is regarded as remarkable.

AT HANLAN'S POINT

Speedy re-engaged for Another Week, With Other Fine Attractions.

No attraction that has been in Toronto in some years has created so much talk as Speedy, the sensational high diver, who is making his perilous flights thru the air, afternoon and evening, at Hanlan's Point. He has attracted such enormous crowds during the past week that Manager Solomon has seen fit to re-engage him for the week ending July 12.

DR. D. W. SHIER'S NAME NOT ERASED FROM ROLL

Medical Council Thinks His Judgment Was Bad, But Intention Not Criminal.

"That the name of D. Webster Shier, M.D., be not now erased from the register of the College of Physicians and Surgeons of Ontario, but that this matter be again taken up at the next meeting of the council."

The foregoing resolution, moved by Dr. King in amendment of Dr. Gibson's motion to remove Dr. Shier's name from the register, was carried at yesterday afternoon's session of the medical council after a protracted and acrimonious discussion.

Dr. Shier had appeared before them on Dec. 29, 1908, and April 6, 1909. The question arose on the reception of the report of the disciplinary committee of the college, which recited the facts that Dr. Shier had appeared before them on Dec. 29, 1908, and April 6, 1909. The committee reported: "That the allegations of infamously and disgraceful conduct in a professional respect, whereunder himself liable to have his name erased from the register, were proved."

QUEEN REFUSED DOCKED HORSES.

S. H. Terry, speaking at the Audubon Vivisection Congress in London, told the story of long-maned and long-tailed horses being presented by Canadian women to the Queen, which, prior to their despatch were docked by the veterinary. The Queen, who is an opponent of docking, refused the gift, and eventually the horses were returned to Canada, and were replaced at the veterinary's hands by undocked animals.

LINGERING WEAKNESS FOLLOWING DISEASE

Can be Banished by the Wonderful Tonic Powers of Dr. Williams' Pink Pills.

How often it is that the victims of disease—fevers, measles, grippe or any other contagious troubles—are weak and ailing even after the disease itself has disappeared. They do not pick up strength as they ought; remain listless, tired and discouraged. The reason for this is that the blood has been impoverished by the ravages of the disease through which the victim has passed. Strength will not return until the blood is enriched. The blood can be enriched by no other medicine so quickly and so surely as by Dr. Williams' Pink Pills for Pale People.

GREY COUNTY OLD BOYS.

The annual excursion of the Grey County Old Boys' Club, held at Owen Sound, was a success. Tickets will be good for three days and a special train will leave the Union Station Saturday morning, July 12. The secretary, Jackson J. Little, 46 West Adelaide-street, will give particulars.

GETTING RID OF WITNESS CHARGE AGAINST BONIFACE

Alleged That Brockville Hotelman Tried to Induce Indians Not to Testify.

BROCKVILLE, July 9.—(Special.)—The institution of a prosecution some time ago by the license inspector against H. Barker, proprietor of the Windsor Hotel, and his bartender, Alfred Barker, for selling liquor to Mike Bero, an Indian, has resulted in some funny complications, one of which sent H.C. Barker to trial today on a charge of attempting to get witnesses out of the way.

The hotelman was fined in police court. He cried the case on an appeal to Judge Macdonald, and new evidence furnished by the prosecution showed that Barker had dickerings with Mike Bero, another Indian, who visited St. Regis on Dominion Day, and passed the word around that it would be dangerous for the Indians to go to Brockville and give evidence at the appeal hearing.

By the boys was meant "Bero" and two other Indians, named Hall and Turo. Bero fixed \$10 as his price to give Brockville a wide berth. Leaf did not have the money and accordingly came along and testified accordingly, repeating his story as told in the police court.

Tentative Support Rendered To Prevent Demoralization

Supporting Interests Continue to Furnish Timely Assistance to Wall St.—Cobalts Overshadow Regulars at Toronto.

World Office, Friday Evening, July 9. In the absence of business in the regular speculative securities at the Toronto stock market more attention is being paid to Cobalts. These practically comprised nine-tenths of the business of the exchange to-day.

The speculative side of the market, with the exception of the mining issues, was if anything easier. While there appeared to be a scarcity of stock, prices did not respond to this idea, and occasionally bidders were met with offerings at around the low figures.

The South American Traction shares are still under pressure, both Rio and Sao Paulo selling lower to-day than yesterday.

Domestic speculative shares were steady and in most instances where transactions developed advances occurred. Nova Scotia Steel, Dominion Steel and American Coal were all stronger, although the business in them was quiet.

A good demand is still reported for the investment issues and there was considerable buying of Consumers' Gas to-day at from \$24 to \$24.50. Good orders are in the market for the bank stocks, but prospective buyers appear to be confident that there is a sufficient floating supply of these to satisfy the demand without bidding up prices.

The market as a whole lacks snap and future prices are entirely dependent upon the possibility of further liquidation, particularly so in the more speculative issues.

Wall Street Pointers. Tariff bill passed the senate last night. Joint conference of house and senate expected to dispose of congressional business in less than a fortnight.

Mississippi floods now subsiding, after doing serious damage. Seaboard reorganization plan does not call for an assessment.

Cables indicate foreign crop conditions much improved at all important points. London settlement begins Monday and high dividend expected before the new account.

Japanese budget shows reduction of 12 per cent. in revenue in fiscal year. U. S. Steel earnings for third quarter expected to run close to \$2,000,000.

The known movement of money for week ending yesterday shows a gain by local banks of \$4,225,000. Joseph says: Buy Rock Island and Atchison on further speculative concessions and keep long of Pacifics and Pennsylvania. Coppers will soon be more assertive. Buy P. O. Bull in-coming 4-1/2-7. Don't be fooled into taking a bearish market position.

The natural reaction on the good news of the government crop report will probably extend this morning, but there is no incentive for real liquidity and when speculative accounts shall have been closed up it is likely that oversold recoveries will take place. It is a market in which the scalping policy will appear to be the dominant one. We would not expect advances of moment until the removal of offerings from upper trading limits shall be complete. Professionals as rule continue to sell stocks around these limits with stop order protection. U. P. meets stockholders 10. Atchison will be bought on reactions. Smelters may go still higher, but we would not climb for it.—Financial Bureau.

While some buying is to be expected following the crop report, the market indicates distribution in important stocks and the bear side seems to be more attractive from a trading standpoint than the bull side. Harrison stocks and headings are due to fall considerably further and may drop from five to ten points. Among other stocks likely to be particularly weaker are Sugar, Wabash preferred, Copper, Colorado Fuel, Erie and Smelting, as well as Third Avenue and Western Maryland, which, we think, have not seen their lowest by a good many points at the same time, on their merits and the manipulation, we regard Atchison, the Rock Island and Erie shares, Missouri Pacific and Texas Pacific as worth buying on the reactions.—Town Topics.

NEW YORK, July 9.—Despatches to R. G. Dun & Co. indicate further gains in the business world, and a promising crop outlook creates a general feeling of optimism in trade circles.

COBALT MAKES UP FOR DULNESS ELSEWHERE. World Office Friday Evening, July 9.

Cobalts, listed and unlisted, gave some life to the Toronto market to-day, but for which it would have been almost stagnant. The Cobalts were strong, with a sudden upturn in Nipissing. In the listed speculative shares price changes were insignificant, and the quotations kept close to the recent low levels without attracting any new buying. There is a real investment demand for such securities as the bank shares, Consumers' Gas, etc., but buyers are unwilling to climb for even these.
