

GERMANY GIVES PLEDGE TO FULL PEACE OBLIGATIONS

HOLLAND ARRANGES CREDIT TO GERMANY OF EIGHTY MILLION Will Furnish Food and Materials and Germany Supply Coal and Potash.

WAREHOUSES GLUTTED BY KARL H. VON WIEGAND Special to The Toronto World.

The Hague, Jan. 11.—Holland and Germany, I am informed, have come to an agreement for Dutch credits to Germany aggregating 200,000,000 guilder—approximately \$80,000,000.

The view was expressed to me by leading conservative business men and bankers of Holland that the depreciated currency has reached a blockade of entire central Europe, including Poland, whose money is lower than Germany's, Czechoslovakia and Austria, which is rocking the economic structure of all Europe and which is bound to affect America as well.

It was pointed out to me that close to 125,000,000 people that formerly constituted a great consuming and producing market are now completely cut off as customers from the world markets.

Holland's own economic situation was daily becoming more uncertain through a veritable glut of all kinds, representing hundreds of millions of dollars but unable to move because of the money situation in central Europe.

The big warehouses of Rotterdam, Amsterdam and other ports are jammed to the roof, and the greatest difficulties have been encountered in finding storage space for the goods continuing to arrive. The old East India warehouses, which had not been used for years but were among the landmarks visited by tourists, have had to be requisitioned again.

A similar situation prevails at Copenhagen, where the general description estimated at \$400,000,000 are lying in the warehouses waiting for shipment to Finland, Poland, Germany and Austria. On some goods Poland, Finland and other countries paid 25 per cent, but were unable to raise the remainder.

The prices of some of the goods have risen in New York since they reached Copenhagen that they are being reloaded and shipped back to New York to be sold there at a profit.

WIZARD WINDSOR FINANCE WITH BECK IN RADIAL DEAL

Hydro Champion in Border Cities Tells How \$2,100,000 Deal for Civic and Radial Lines Will Be Financed Without Finance, Thru Local and Provincial Backing.

Following is the second article on the transfer of railways in the Border Cities, to the Hydro, as part of the provincial radial scheme.

Windsor, Jan. 11.—The Border Cities just now are like a man who feels the gout leaving his feet. When it is gone he knows that he will not get around faster, but he will feel infinitely better in mind and in general health.

There are a few friends of private ownership here—they mustered 29 votes five weeks ago—but there are none of the street railway company.

HOLD-UP MEN BUSY SATURDAY NIGHT

Two Arrested After Exciting Chase—Man Robbed on Elizabeth Street.

Hold-up men have evidently begun to feel the police motor patrols on the streets and when they attempt to rob people they seem to be working in lonely spots and making their escape by running.

Samuel Caplan, 74 Teraville street, walked into West Dundas street station at 2 o'clock Sunday morning and reported three complaints of hold-ups occurring on the streets, held up in the police.

Walter Clark, 137 Salem avenue, and Ernest Clark, 137 Salem street, were arrested at 8:50 last night by Patrol-Sergeant Lipsitt and Constable Young on charges of shopbreaking.

James 118 Stafford street, was arrested Saturday night charged with theft of a motor rug from an automobile on these matters and to urge it upon the government.

MUST WORK NOW FOR REAL PEACE BETWEEN NATIONS

German Press Says Country Must Now Devote Herself to Fulfilling Obligations.

Berlin, Jan. 11.—Commenting on the ratification of the Versailles treaty, The Deutsche Allgemeine Zeitung says:

"It would be unworthy to look sorrowfully backward and useless to seek scapegoats on whom to cast responsibility for the life of nations. All that has been attained is the possibility of beginning work for the conclusion of a real peace between nations. The German nation must put forth its strength, because fulfillment of the engagement entered into is an obligation of honor, because its work will help again in advancing the interests of civilization and humanity."

DAWN OF NEW ERA SAYS KING GEORGE

London, Jan. 10.—Replying to a loyal message from the citizens of London on the occasion of the ratification of peace, the King has telegraphed the lord mayor of London as follows:

"With all my heart I reciprocate their hopes and fervently pray that, please God, this day may be the dawn of a new era, in which the people of the British empire may forever live in peace with itself and with all men."

CALLS THEM SNOBS AND IGNORAMUSES

George Bernard Shaw Expresses His Opinion of British Governing Classes.

Asked as to execution of the terms of the treaty, Baron von Lersner declared that Germany was ready and determined to do her utmost. He continued:

"I am naturally happy that peace has finally become effective," Baron von Lersner said. "Execution of the treaty of Versailles imposes upon Germany the heaviest sacrifices ever borne by a nation in modern times. We lost a large part of the east territories that belonged to Prussia for many centuries. We have assumed enormous economic obligations. Nevertheless, I am glad that peace is at last re-established, because it will be back to Germany her beloved sons still prisoners abroad."

Paris, Jan. 11.—Ratifications of the treaty of Versailles were exchanged, and peace between Germany, France, Great Britain and the other allied and associated powers, with the exception of the United States, became effective at 4.15 o'clock yesterday afternoon.

The outstanding comment tonight on the ceremony is that it leaves the United States the only power which was actively at war with Germany now not on a peace basis. That was the note sounded by Baron Kurt von Lersner, head of the German peace delegation, in a statement to the Associated Press immediately after the ceremony.

"I am naturally happy that peace has finally become effective," Baron von Lersner said. "Execution of the treaty of Versailles imposes upon Germany the heaviest sacrifices ever borne by a nation in modern times. Berlin, Jan. 11.—Commenting on the statistics of German military strength published by the British press, The Freiheit says: "What would the entente say if it got a glimpse of the way in which stocks of arms and ammunition in excess of the permitted limit are being concealed everywhere, particularly by the citizen guards?"

THIRTY-FIVE DROWN ON BRITISH SHIP

Tug Was Unable to Reach Her and Finally Crew Had to Abandon Her.

Weymouth, England, Jan. 11.—Thirty-five members of the crew of the British steamer Trevel were drowned when the big vessel was wrecked on Kimmere Edge rock near St. Austins Head on Saturday night.

The Trevel, bound from Calcutta to Dundee with cargo, struck the rock on Friday night. The vessel immediately went to assistance, but owing to the severity of the storm and the dense darkness the tug which was sent to assist was unable to reach the vessel.

Finally the captain signalled to the tug that he was going to abandon the ship. The crew got off in two boats.

FARMERS IN POLITICS AS LAST RESOURCE

Secretary of Manitoba Association Also Says, "We Never Strike."

Winnipeg, Jan. 11.—Speaking today at Grace Church Forum, W. R. Wood, secretary of the United Farmers of Manitoba, explained that the Farmers' decision to form a national political party had arrived at only after all other efforts at getting the legislature to meet their needs had failed.

"We never went on strike, for instance," Mr. Wood stated. "We might have taken the government to court, but it never entered our heads to do so. The farmers had realized that as the means adopted in the past of obtaining their needs had failed, the only course before them was to form a national party and it was at the last stage that political action had been taken."

DR. BLAND BELIEVES CHURCH WILL WIN

Says Both Labor and Veteran Ready to Enter the Fold.

Preaching at the Broadway Methodist Tabernacle at the morning service yesterday, Rev. Dr. Salem Bland said in part: "Life is not for individuals or nations made up of crises. It must have periods of quiet, uneventful growth, but there is a fascination in a crisis where the slowly maturing bud bursts into the glory of the flower; when the snow, slowly gathering high up on the mountain side, by its weight teaches itself and thunders down in the avalanche, when the thought harnessed, intangible, becomes the movement and use-movement—action—the throne. Great men call for great men and reveal the sponsors of human nature. The progress that brought out Cromwell and Lincoln and the great George were described, and after the British when Athens hurried back the Persians and when little seagull did the maddest and most splendid thing in history, deranged the German plan, saved Paris, and perhaps Europe.

"Two great crises in the Christian church there have been. The first when the handful of disciples were described, and after the British when Athens hurried back the Persians and when little seagull did the maddest and most splendid thing in history, deranged the German plan, saved Paris, and perhaps Europe.

"For a time she may be bewildered. But it will be only she finds herself in a line. The Christian church a consciousness of divinity. Even now we can catch a glimpse of the lines of advance.

"She will win labor. There is only one thing for the church to do, and that is frankly to get close to this struggling, unquiet labor world and ask the privilege of helping to achieve all the true human aims and aspirations of labor.

"We are in the midst of the greatest revolution of history. It cannot be ignored. It cannot be postponed. The Christian church must capture it, and not Bolshevism. And the church will win the comfort and the peace that we thought she has then now. It may be a mild and lukewarm support. She will never have this passionate devotion which she seeks to give them, and while she enters to them or offers her contributions her influence in the world is being preserved and the status quo is maintained.

"She will kindle the primitive Christian enthusiasm in the comfortable classes only as she summons them to risk this comfort and to share in the unflinching purpose to find that way of living and working together in which her western lands shall not be a paradise for the rich and a hell for the poor, but land in which envy and fear, and strife shall have given place to comradeship and co-operation."

WOULD MAKE WOMEN FACE NAKED TRUTH

Prof. Macphail Declares Fair Sex Will Become Unshielded by Convention.

"With the advent of democracy women will be thrust out of the garden which was created for them and they will be compelled to face the naked truth of the world, unshielded by the shelter of convention." This striking statement was made on Saturday afternoon by Professor Andrew Macphail of McGill University, Montreal, during the course of an address, entitled "Women and Democracy," which he delivered before a large audience in the physics building of the University of Toronto. "Women in democracy," said Prof. Macphail, "will be ugly women; men will be even more ugly than they are now; worse still the degradation will not be apparent. Democracy is merely a name for a process which strives to destroy the organs and organization of society, which strives to reduce races, nations and families to an unorganized congeries of individual units. "Democracy is not a form of government. It is a condition out of which some form of government may eventually rise. The man in his cave was the original democrat. Thru slow and painful ages he developed a kind of system, striving upwards to wards a civilization, resisting as well as he could the unceasing efforts of democrats, liberals, radicals, anarchists, nihilists, to draw him back into his solitary and savage lair. When democracy has accomplished its perfect work we shall begin again the slow and painful Sisyphean task, in which, as in former times, soldiers, brigades, thieves, politicians, saints and kings will play their part after their kind. In the process we shall again pass thru another slow age of darkness. Democracy is merely a vain regret for a past and faded age of perfection which never had any real existence. "The thing we now name democracy exists at all just because it is living on

the past, the United States upon its constitution and we upon our monarchy. The kingship has virtues only as part of the system out of which it arose. When the system falls the king falls and with him perishes the whole fabric of politics and of society. Few women have a direct interest in politics. All women have a vital interest in society and the aggregate of society is civilization. Men revert to the cave, with incredible ease. For four years millions of men lived in holes in the ground with the utmost of comfort so long as their few primitive wants were supplied. Whilst women were absent the men were not conscious of any lack. The rise from savagery is always governed by the needs of the woman, and the beauty of civilization was created for her display. The woman is innately conservative, but all her conservatism will be swallowed up in democracy. England No Democracy. "Any system stands as a system, as a chair stands on four legs, and it may remain for a time upon three by virtue of its old stability. England is acclaimed as a democracy, and as proof of its success, England never was a democracy, is not now and never will be until England is no longer England. England carries on by reason of its old monarchical inertia. All that is good is old. "A few weeks ago a prince came and walked the earth. Anyone of sensibility recognized him at once for the Bonnie Prince come again, with his ancient Stuart face and eyes and hair and men. He was the soldier son returned from the wars as his Monopolian guard, Tammany with his bicorn and Marat at the head of his Sans culottes. "The thing we now name democracy exists at all just because it is living on

OLD PALMER HOUSE HAS BEEN SOLD

George Wright & Co. Purchase Property for One Hundred Thousand.

The property known as the Palmer House at the corner of King and York streets has been sold to George Wright & Co., proprietors of the Walker House and the Carl-Rite Hotel. The price was \$100,000. Speaking to The World, Mr. Wright said he had not yet decided whether he would open a new hotel on the premises or not. He and his associates had purchased the property because they thought it was cheap. What they would do with it was still to be considered. The land, having a frontage of 100 feet on King and a depth of 90 feet on the Northcote estate for about 88 years. The present representative of the estate is Henry Northcote, 86 years of age, who is a son of Richard Northcote, who bought the land in 1832 for \$200. An hotel was opened on the site in 1872 and in 1887 the late John C. Palmer obtained an assignment of the lease held by D. A. O'Sullivan. Mr. Palmer abandoned his lease in 1915, following a business sale. The land is assessed for \$10,000 and the building for \$10,000. Wood, Fleming & Co. represented the purchaser in the deal. LODGE ST. GEORGE NO. 27. J. Norris—fifty per cent. of the officers being returned soldier members: President, J. Crowson; past president, W. W. Bamlett; vice-president, P. C. Fowler; chaplain, B. T. Green; treasurer, J. R. Sturton; secretary, T. H. Warrington; inside guard, J. Evans; outside guard, J. Lawson; auditors, P. T. Cooke, J. Ling and A. Bosanquet; trustees, H. Leeson and A. A. Allardyce.

WOULD RAISE EXEMPTIONS ON SMALL INCOMES

A recommendation has been made to the mayor by Assessment Commissioner Forman that the exemption on income of non-householders be raised from \$700 to \$1,000 because of the increased cost of living.

The commissioner also suggests a revision of the act to provide that any assessor or other officer of the municipality shall report to the city clerk any omissions from the rolls, of income or business assessments, so that they may be immediately entered. Recommendations made last year are again presented, among them being to require every person to make a return under oath as to his income. To remove the exemption from taxation of all private schools, colleges and private hospitals, to assess the dividends of shareholders in incorporated mercantile and manufacturing companies which are now exempt, to assess the rolling stock of electric and street railways and to assess contractors within Ontario who perform work in the city. M. Venizelos has declined the honor of the Order of Military Virtus from the King of Greece. THE AERO CLUB OF CANADA inc. The Annual General Meeting will be held on Monday, January 12th, 1920, at 7.30 p.m., at the Club Headquarters, 34 Yonge Street, Toronto, for the purpose of presenting the Balance Sheet and for the election of Directors and Officers. All members are requested to attend. The new Luncheon and Tea Rooms will be open for the first time to members for supper, from 6 p.m. to 7.15 p.m. Tickets, 75c. The accommodation is limited to 120 members intending to be present for supper should phone Adelaide 2265 not later than 11 a.m. on Monday. E. GRAHAME JOY, Permanent Secretary.

THREE RUSSIANS ATTEMPT HOLD-UP

After Exciting Chase One Alleged Highwayman is Taken Into Custody.

Hold-up men again made their appearance on the streets of Toronto Saturday evening, when three Russians attacked Abraham Catler in Palmerston avenue, and after badly beating him, fled without robbing him. After a chase of several blocks one of the three men was captured by a number of young men and handed over to Policeman Neal of Claremont street station. John Balmarsky, aged 30, Russian, living at 36 Royce avenue, is held on a charge of attempted robbery. Catler lives at 81 Palmerston avenue, and while walking along the street a short distance from his home he was approached by three men and told to hold up his hands. Catler made an attempt to get away and the three men mauled him, knocked him down, and kicked him several times. Catler called "Robbers, robbers, get the police," and a number of young men started to run to his assistance, seeing several people coming towards them the hold-up men started to run down Palmerston avenue and along Woolley street. Three boys captured Balmarsky and held him until Constable O'Neill arrived on the scene. When searched the prisoner did not have a revolver. The other two associates of the prisoner ran thru a house on Woolley street. The people were in the kitchen and closing the door, they fastened it in an attempt to keep the two robbers out. The robbers broke the door down and running right thru to the yard leaped the fence and at 9 o'clock last night were still at large. Catler told the detectives that he was sure he saw the three men get out of a motor car further up the street and come down and stop him. The car was left standing on Palmerston avenue and when chased the hold-up men evidently did not think they would have time to start the car and make their escape. The police intend

SUICIDE OF AUSTRIAN BY SWALLOWING GAS

With a gas tube in his mouth, Michael Kenschuzen, aged 23, an Austrian, was found dead in bed at 52 Nelson street Saturday night.

Kenschuzen had been out of work for three months and being unable to secure work, the police say, is the cause of the foreigner taking his life. The tube had been fastened to an open jet and the room was filled with gas when the proprietor of the rooming house forced the door in at 8 o'clock last night. Mose Salderson proprietor of the rooming house, had been away from the house for two days and on his return Saturday evening forced his way into Kenschuzen's room. The clothing of the dead man contained \$8.17 in cash. The police removed the body to the morgue. WOMAN IN THE CASE ARRESTED IN HAMILTON Mrs. Pearl Norman was arrested in Hamilton Saturday morning for the Toronto police. She is alleged to have been in the motor car with George Wilson and Walter Chanski, when they assaulted and robbed a taxi driver on Runnymede road. Wilson and Chanski were arrested Friday and pleaded guilty in police court Saturday morning.

The New Forestry Proposals.

In the representations made by the Forestry Association to the government, it was pointed out that our Ontario forests are being cut out with little provision for future growth, and that white pine, which built up our reputation for timber, has fallen in production by sixty per cent. in ten years.

The association recommends the transfer of the crown forest area to the provincial forestry branch and the united control of the whole forest administration, fine ranging, timber scaling, forest surveys and technical control of cutting, with a view to handling a forest not as a mine, to be worked out and abandoned, but as a crop to be conserved and renewed.

To do this an advisory board of five members is suggested by the association, to include the minister and deputy minister of lands and forests, the provincial forester, one representative of the lumbermen, and one of the Ontario pulp and paper interests.

able in domestic matters as women who dabble at household work all their lives. Educated women, those who are practising medicine, law or literature, or take part in academic functions, do not betray any of the coarsening tendencies which Dr. Macphail is afraid of.

We are inclined to think that Dr. Macphail has overlooked the moral-influence which woman herself has brought to bear upon social observance and custom by her participation in public life. The public opinion which forbids a woman in America serving as a bartender was created by women, and it is any indication, it is against Dr. Macphail's theory of coarsening. Where women enter the rule is that they modify society in the direction of gentleness, kindness, and consideration for others.

It will be difficult to convince American or Canadian women that they would benefit by glass-house treatment. They are fairly launched on careers of domestic, educational, business and political independence. They choose their paths as they will, and they carry their femininity with them, and do not lose it in their relations with the world, whether within or without.

MOONLIGHT AND MONEY

BY MARION RUBINCAM

LOUISE CHANGES HER MIND.

CHAPTER 85. Murray Butler gave Louise the farewell party as planned, and he carried it out, as he carried out everything, in his own princely style. It began with a box at the opening of a much heralded play and ended with a supper in the gayest restaurant in the town.

"And to make up for it, I'll dance my prettiest waltz," he said as they took their seats in a throng of brilliantly gowning people. "You didn't want to meet any nice young men, you know—I'm afraid I was rather rude about it," Louise answered. "To make up for it, I'll introduce you to some nice young men, shall I?"

"Nicer," Louise said with one of her shy little smiles. "There's Crystal Emma over there, she's the most beautiful of the younger set." "The younger set," echoed her father. "The child talks like a society magazine."

But Louise did not hear him. She was smiling at the black-haired nymph of a girl who had caught her eye at Crystal Emma's party, and presently she introduced her father and Murray Butler to her. Other people came in presently, a few Louise had met at Crystal's, more friends of her father's, and the evening ended by being very gay indeed.

"Your artist friend is very charming," Crystal said, patting her. "You must bring him around for tea." "Delighted," Louise said, forgetting completely that she was to sail within three days. "It's been a lovely party," Louise told Butler afterwards, when they had driven home and the two men had stopped off in Dr. Driscoll's study for a final smoke. She threw back her evening cloak and stood, half leaning, half sitting, by the big oak table.

"You're a lovely person to go partying with," Butler answered, smiling down at her thru the smoke of his cigar. "How about you, do you like all this frivolity?" Louise turned with a smile to her father. "Yes, I rather believe I do—at least when you're along; you always enjoy it so," Mr. Driscoll answered.

The prohibition vote, he said, showed the strength of the Conservative party and gave assurance that the party is coming back to power in Ontario. J. H. Macphail urged organization and the necessity for holding a convention. "I do not believe," said Mr. Macphail, "in putting all around the government now in power in Ontario. That government is a denial of democracy and of responsible government."

"I say all these things should be opposed by Hartley Dewart or by the Conservative party, whichever can beat them. They must be beaten. The people of Ontario will not stand for the principles which they have introduced into our government. The people of Ontario will not stand for being governed by Mr. Hartley Dewart, J. J. Morrison, Mr. Drury has been unjustly told us that it is Mr. Morrison who must give these men seats in the legislature. That is not responsible government, and the people want it denounced at once."

President W. W. Peterson, Pictou, first vice-president, Hubert Macdonald, Bloomfield; second vice-president, Adolphus Robin, Sophiasburg; secretary, W. V. Pettit, Pictou. The mass meeting was called also with the idea of deciding whether it would be advisable to put a candidate in the field for the next federal election.

DO RESTAURANTS CHARGE TOO MUCH? Board of Commerce to Find Out if Recent Increases Are Warranted.

Complaints from patrons of restaurants about recent and prospective advances in prices of certain foods, have come to the attention of the board of commerce and an inquiry has been ordered.

One proprietor of a lunch room told The World man that he had been summoned to appear before the board next Friday to give evidence concerning the prices.

H. H. Himm, manager of Bowles' lunch room, it is understood, has been asked to justify the advance of the price of a bowl of oatmeal from 10 to 15 cents.

Several other lunch places have also been asked to justify the advance of the price of oatmeal to 15 cents.

One proprietor said that a good reason for the advance was the manner in which the public played fast and loose with the sugar bowl. Many people he said, put four and five spoonsful of sugar in a cup of coffee and a bowl of porridge, and with sugar at 16 cents a pound that kind of excess ran away with the profit.

TO VOTE ON BYLAW FOR HYDRO RADIAL

Eastern Section of York Township to Decide Next Saturday.

The eastern section of York township will vote next Saturday on the bylaw to guarantee the bonds of the Toronto and Eastern radial, which the Hydro Electric Power Commission proposes to operate between Toronto and Bowmanville. The Toronto and Eastern was a Mackenzie and Mann proposition, which came into the possession of the federal government and is now held under option by the Hydro Electric, which is to pay about \$700,000 for the property. The line has been granted by Bowmanville to Piskering and the rails have been laid from Bowmanville to Whittby. It is predicted that the Hydro will be operating a service between Bowmanville and Danforth avenue before the beginning of 1921.

The construction of the line southward from the vicinity of Woodbine avenue to the waterfront and along the waterfront to the new Union Station will take a little longer time. Present plans call for a loop to Bay to Richmond and along Richmond to Church and back south along to the waterfront. From the southern section of York township traversed by the proposed road, a 20-minute service to the heart of the Toronto business district is promised.

Meetings to explain the project to the ratepayers will be held in the township thru the week, especially at Willowdale and Don Road schools, Gledhill mission, Second School and Tompkins. Speeches will be delivered by Hydro engineers, members of York township council, Mayor Church, Controller Maguire and W. F. Maclean, M.P.

Two meetings will be held tonight—ones at the Don Schoolhouse in the Don road, north of Doniands Station. The Hydro will be represented by several of its officers, by Reeve Miller and members of the township council, by speakers from municipalities that have already voted guarantees.

W. E. Maclean, M.P., who lives in the division, is expected to assist. A meeting will also be held at Willowdale, on Yonge street. George Henry, M.L.A., also a resident of the township, will be a speaker. Controller Maguire, the officials of the Hydro, and others, will speak and explain the scheme.

The meetings in the more southerly portion of the township begin on Tuesday night and will run till Friday.

This is the last bylaw to be voted on for the eastern radial. Great interest is taken in the proposition.

CITY COUNCIL INAUGURAL

Members of council have filed about 100 notices of motion with the city clerk's department to be presented to the inaugural meeting today.

It is reported that an attempt may be made to upset the work of the committee. Only 21 members were present at the caucus and the other 79, it is said, will advocate some change in the first meeting on Monday.

WINDSOR FINANCE

IN RADIAL DEAL. (Continued From Page 1).

ago, perhaps, they might have held on till the last minute, hoping that they could put something over. Indeed, they did try in half-hearted way to turn the tide of public sentiment, but they found it was too late. You have had a taste of the Railway Investors' Association at Toronto, I suppose.

Service at Cost Rejected. I said we hadn't had a real taste—only a small. "Well," the leading Hydroist went on, "the taste they didn't get a smell. We understand that Toronto is the headquarters of the association—at least in Canada. Anyway, the answerer's body was made here, was from Toronto, and that may have been nearly enough to damn him, anyway." This with a laugh, as much as to say: "You are a queer lot of dogs in Toronto."

"But," he continued, "one try was enough for him here. There was a meeting with the members of our local City Chamber of Commerce, to whom he put up the idea of running city transportation on what they are calling the Cleveland plan—the 'service-at-cost' method. But we would not have it."

"You see, these gentlemen, when they reckon cost, always reckon the watered stock, that costs nothing. Cleveland is said to be paying 6 per cent on 'cost' and if the receipts don't pay that much the fares go up, and if they pay more the fares go down. The idea of charging a cent for a transfer was nicely tried in Cleveland, and it is always possible for old hands at the street railway game to keep 'costs' up so that fares won't come down."

"Small First Cost. "A way we didn't see enough incentive for the company to give up a bang-up service in the 'service-at-cost' scheme, or for ourselves to abandon our long-held intention to go in for public ownership at the first chance. As far as I know, the Toronto expert has not come back. I think he went to the South."

"We really don't know," was the answer. I suppose the question could be abandoned for long, but I believe it would be only a guess. We could never find out just what the financial operations of the parent company have been. There have been too many issues said publicly about them—and you know what parent companies can do with their dear—and cheap—children."

"The money actually put into the system has been something under two hundred thousand dollars. Such equipment as has been purchased to us, at the fashion of a small boy having to take his brother's out-grown pants, can easily have been paid for out of revenue."

"The deal has been made by Sir Adam Peck, in whom we have tin-bounded confidence, both as an electrical railway developer and as a negotiator. He went to Detroit where they asked three million dollars for the property. He gave them a look picky up his grip, and returned."

GENERAL L. WOOD OPENS CAMPAIGN

May Now Retire From Army to Seek Presidential Nomination.

New York, Jan. 11.—(Special)—General Leonard Wood, who seems to be leading in the race for the Republican nomination for president, is here to confer with prominent Republicans concerning the possibility of his canvass. The retirement of John T. King, of Bridgeport, who has taken the lead in organizing Wood sentiment and working among prospective delegates, has for the time being somewhat disorganized the Wood line.

Among other things to be considered while General Wood is in town is whether he will yield to the demand of many of his friends that he retire from the army in order to give his time and personal attention to his boom for president.

General Wood had intended to remain in the army until about the first week in March, then being the period when delegates begin to be chosen for the national convention. The resignation of Mr. King and the desire of the Woodites to have Wood west to speak up the work may bring about the general's retirement from the army much earlier than he had intended.

Washington, Jan. 9.—National political headquarters for the Major General Leonard Wood campaign for president will be opened here next week by Senator George H. Moses, of New Hampshire, General Wood's native state.

This is the first step of the Wood forces toward reorganization as a result of the retirement from leadership of John T. King, national committee-man for Connecticut. Before the end of January the Wood backers expect to open state headquarters generally throughout the country.

Washington, Jan. 11.—The board of directors of the United Farmers of Manitoba, their being a statement in reply to that of Mr. Henders, in which they claim that every opportunity was given to the latter to state his case before the farmers at the convention of the Alberta Review. The directors say they have no quarrel with Mr. Henders nor any disposition to deny him a hearing, nor have they any "charges" against him. They do not recollect any request for a hearing nor any for a place on the program of the convention, which was as open to Mr. Henders as to any other farmer to express his views freely. "On paper they differed from the view as to the last Dominion budget and his action thereon."

"They have expressed their opinion and Mr. Henders had resigned as head of the organization to the regret of the board, but there was no other course under the circumstances but to accept."

If you tried this

what would happen? Well, several things. First, there would be some lively cracking sounds, and buttons would shoot like bullets all over the room. Secondly, there would most likely be a cry for safety pins. And lastly, you might develop palpitation of the heart. But these lads do it with impunity. Why? Because a boy's clothing, as well as his heart, is built

To stand the "gaff"

of sudden test and hard usage, Simpson Clothing experts do not demand middle-aged men's suits strengthened at vital places as they do those of boys. They know that Johnny's father is not taking chances on breaking his neck. But Johnny's suit, bloomers, overcoat, are put together to stay. Strength, appearance and attractive prices are the three working principles of the
