DR. McLEOD, NOT GUILTY; DISCHARGED FROM CUSTODY.

Hunt and Crawford Sentenced to 6 Years in Prison—Verdict of Jury Today Ends Famous Suit Case Mystery.

BOSTON, Dec. 2.—A verdict of not guilty was returned in the superior court today in the case of Dr. Percy D. McLeod, charged with being an accessory after the fact to the illegal operation which resulted in the death of Susan Geary, the victim of the suit case tragedy and with concealing the crime. The prisoner was discharged. The case was given to the jury at 4:45 p. m. yesterday and a conclusion

SUPREME COURT GRANTS NEW TRIAL FOR HOPE YOUNG.

(Special to the Star.)
HALIFAX, Dec. 2.—The full bench of the supreme court has granted a new trial to Hope Grant, the woman who is charged with the murder of a child near Digby last spring. It will be remembered that two little girls, one a mere baby, were found in the woods near Digby, gagged and bound. One was dead and both showed marks of ill-usage and starvation, being little more than skin and bones. Suspicion fastened at once upon Hope

BROAD SUFFRAGE MAY SAVE RUSSIA.

May Give Ballot to All to Prevent Revolution.

Disaffection Spreads in Army—Only Cosacks Still Loyal—Strain Telling Heavily on M. Witte.

(Special to the Star.)
ST. PETERSBURG, Dec. 2.—From a trustworthy source it is learned that the government is discussing the question of universal suffrage. One of the Zemstvo leaders now in this city said that the Zemstvo would be willing to accept universal suffrage in the second round for the present, and the direct ballot for the remainder of the inhabitants. The Russ even goes so far as to point out that Finland was instantly tranquillized by the grant of universal suffrage and argues that a similar effect may be expected to follow a similar case in Russia. Such a policy would meet with tremendous opposition in the army quarters.

The strain upon Count Witte is intense. Appeals to all parties for a patriotic truce and a temporary operation, or at least benevolent neutrality have awakened hardly any response. Count Witte on whose splendid table documents and telegrams are piled in heaps often has urgent matters to dispose of at three and four o'clock in the morning. Even when he is free to retire he suffers from severe nervous headaches such as he experienced last year and is unable to close his eyes during the entire night.

ST. PETERSBURG, Dec. 2.—2:50 a. m.—The guards arrested at Tarskoe-Selo Thursday night and Friday morning numbered 29, including 29 officers. All kinds of rumors are circulated, including the assertion that one of the grand dukes is involved in a conspiracy against the emperor, but none of them can be verified. Arrested soldiers are seen every day, escorted by their comrades with drawn swords. St. Petersburg is swarming with cosacks, the only troops against whom there is no suspicion of disaffection. It is understood that the whole cosack force on the empire, some 450,000, will be mobilized.

On inquiry at the hospital this morning it was learned that Fred Allan, who was hurt at the Prince Wm. street fire is resting easy.

DANGEROUS FIRE
IN COTTON MILL
Extinguished Before Much Damage Was Done.

Over Heated Pulley Set Fire to Spinning Machine in Cornwall Mill—Damage About \$2,000.

At noon today fire started in the Cornwall cotton mill and before it was extinguished damage to the extent of from \$1,500 to \$2,000 was done by fire and water.

A loose pulley on the overhead shafting in the mill room on the top floor of the factory was the cause of the conflagration. The pulley bearings became heated and the hot burning oil dropped down on one of the long spinning machines known as a mule. In an instant the flames jumped from one spindle to another and the whole machine was a mass of flames and with the dense volumes of smoke gave the impression that the fire was more serious than it really was.

An alarm from the mill box, No. 62, was quickly sounded, but before the fire department arrived the patent sprinklers were getting in their work and gave a spray of water over the burning machine that checked the fire nicely, and the ceiling of the building was not even damaged. The fire department was quickly on the scene and considerable water from No. 4 Co. hose was put into the building. The firemen's work was finished within the quarters of an hour from the outbreak.

No. 1 Salvage Corps Company did excellent work with their rubber covers and saved hundreds of dollars worth of cotton from being damaged by water.

It is thought by some of the mill officials that the fire department put more water in the building than was really necessary.

Col. George West Jones, the manager of the Cornwall and York cotton mill, says the damages will probably amount to from \$1,500 to \$2,000. The workmen in the mill are cleaning up the debris and with the exception of the destroyed mule machine the mill will resume work on Monday morning as usual.

The section of the factory where the fire started is in the west end of the mill and is the site of the old gale of wind tore the roof off of this section of the building.

KOREAN EMPEROR'S CHIEF AIDE SUICIDES.

As Protest Against Japanese Tyranny—Cut His Throat—Action Has Caused a Great Sensation.

SEOUL, Korea, Nov. 20 (Delayed).—Min Yong Whal, a personal aide to the emperor and cousin of the emperor, committed suicide this morning. He was a special envoy from Korea to Queen Victoria's jubilee and the coronation of Emperor Nicholas II. of Russia. He was also formerly Korean minister to the United States succeeding Chin Pom Yeh, when the latter was transferred to Russia. Within the last few days Min Yong Whal headed a body of 20 officers, who gathered first at the palace and later at the supreme court to protest against the Japanese protectorate. The emperor ordered them to leave both places and disperse. Realizing the hopelessness of his course, Min Yong Whal went early this morning to the house of an old retainers and cut his own throat. He was popular with foreigners and natives, and his suicide has greatly affected local sentiment. The streets are thronged with whistling but orderly crowds. In accordance with an old Korean custom, when an officer is memorializing the throne on a question touching the fate of the nation, the shops are closed. The protestant officers are now squatting in the courtyard in the bureau of decorations, and the Japanese police and gendarmes are valiantly maintaining order.

see his hold on the last of his European possessions.

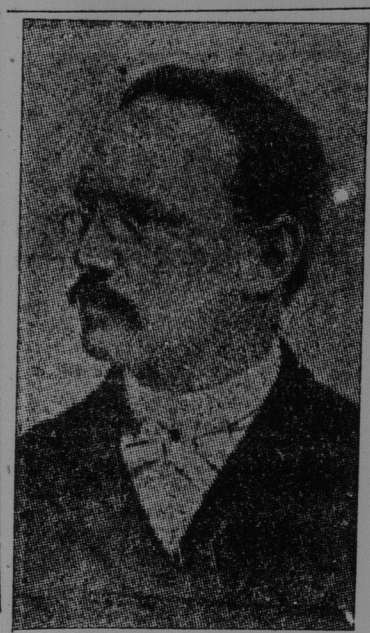

PARIS, Dec. 2.—It was learned by the Associated Press in the highest government quarter today that the powers after carefully examining the suit's latest counter proposals have decided to reject them and to resume the naval demonstration in Turkish waters on Monday with the probable seizure of the islands of Lemnos and Imbros. No consideration has been given to stopping the passage of the Dardanelles over and to the interruption of international commerce which would follow.

After an examination of the suit's counter proposals all the powers came to the conclusion that the propositions were dilatory and entirely unsatisfactory.

Magistrate Remanded Them to Jail This Morning.

Police Said to Have Strong Case—Post Mortem Examination of the Victim Held—Other Cases May Be Investigated.

Dr. Edward A. Preston and Howard D. Camp, arrested in connection with the death of Edith Clarke, were brought before the police magistrate this morning and the charge read to them after which they were remanded to jail. The charge against Dr. Preston on the police books is: "Arrested on suspicion of having at the city of St. John, in the city and county of St. John, unlawfully used certain instrument or instruments upon the person of one Edith Clarke with intent then and there to cause the miscarriage of the said Edith Clarke." The charge against Camp reads: "Arrested on suspicion of having at the city of St. John, in the city and county of St. John, unlawfully used certain instrument or instruments upon the person of one Edith Clarke with intent then and there to cause the miscarriage of the said Edith Clarke."

DR. E. A. PRESTON.

county of St. John, counselled and procured the unlawful use of a certain instrument or instruments upon the person of one Edith Clarke with intent then and there to cause miscarriage of the said Edith Clarke."

At the police court this morning there was not the usual large crowd of spectators who crowd the space outside the railing when an important case is before the court. There were only a few citizens present to hear and witness the proceedings. Dr. A. W. Macrae was present in the interests of Howard D. Camp, and Scott E. Morrell and Burton L. Gerow were present in the interests of Dr. E. A. Preston.

It was about 10:30 o'clock when the sergeant of the court was instructed to bring the prisoners from their cells to the court room. On being brought in Dr. Preston was the first to follow the sergeant. He looked downcast and worried but his usual particular attention to his toilet had not been neglected. His clothes were neatly brushed, his collar and white tie were spotless and he carried his beaver hat in his hand.

Following the doctor was Maxam Treason, a drunk and Howard Camp brought up the rear. After the drunk had been fined \$4 Dr. Preston and Howard Camp were called on.

The magistrate read to them the charge on which they were arrested and said it was not necessary for them to say anything. They were remanded and taken into jail.

The post mortem on the body of Miss Clarke was held yesterday afternoon about four o'clock by Dr. Addy assisted by Dr. Scammell. When seen afterwards by the coroner, as had been stated, but to Dr. Roberts and said that he did not know that the prisoner was engaged on the case. He intended applying yesterday morning but in the meantime had been notified by Coroner Berryman that he had taken the matter in charge and had ordered the funeral postponed.

This morning a death certificate was obtained from the coroner and a burial permit from the board of health. The funeral took place at 10:30 o'clock to Cedar Hill, the Rev. R. P. McKim officiating.

MISS LAURA G. JENNINGS.

victim of an illegal operation. It is, however, said that the police do not consider that the evidence warrants the exhumation of the body. Mr. Jennings when seen said that her father had no lover. The girl was years of age.

Short Talks on Printing

In looking over the advertising pages of the leading magazines one invariably runs across a sentence something like this: "Illustrated booklet sent on request." "Catalogue Free," or "Send for Booklet"

How many manufacturing industries, business houses, or business institutions in St. John follow up their advertising in this manner? Very few, and it's the few that are reaping the harvest.

Think this over, and if it interests you, call us on Phone 25, and we will call on you with samples of Catalogues and Booklets we have printed—which have proved profitable business-bringing investments.

THREE IMPORTANT REASONS

Why intending purchasers of a Piano should buy from

The Nordheimer Piano Co., LIMITED,
28 CHARLOTTE STREET.

1st—Because if you want quality you have the best in the city or province. 2nd—Because you buy direct from the manufacturer and save dealers' profits. 3rd—Because when you purchase a STEINWAY & SONS PIANO or a NORDHEIMER PIANO you get a piano worth its price. And you are sure that the same style piano only has ONE price and is not sold at three or four different prices in your vicinity or elsewhere.

DIED OF ASIATIC FEVER.

B. S. Dibble, the Pond street grocer, has at last received word from relatives shedding some light upon the death of his brother John, in Siam, a few weeks ago. It is merely stated that Asiatic fever was the cause of his demise, other particulars being absent.

John Dibble was formerly a resident of Carleton county. He was one of the first of the New Brunswick Klondykers, and was possessed of a strong desire for travel.

GRAFT, AND THE FIRST POLICEMAN

"TO GO SLUMMING AND WEND THEIR DRUNKEN AND RIOTOUS WAY THROUGH THE STREETS"

(By Julius Muller.)

There is an old Egyptian story that tells how the Captain of the Guard of Ramesses I, took a bribe from a thief who wished to steal the old gentleman's treasure. The Captain of the Guard was a chief of police; so we may be sure when we unearth some of the mummies in fine linen with blue masks over their three thousand year-old faces, we often unearth a good old grafter.

Later, in the days of Haroun Al Raschid, he and his poor old Grand Vizier, who seems to have been a kind of Dr. Watson to the Khalifa's Sherlock, had their hands full of nights trying to reform the grafting police of Bagdad.

Probably there will be discoveries of the same old, graft in the records of Babylon as the excavations there proceed, for it is altogether unlikely that the police of 5,000 years ago were any more careless about their opportunities than they have been ever since.

The grievous fact is that police graft appears to be almost a natural, though hateful, consequence of the unnatural conditions of all civilisations, modern and ancient, which all present the anomalous circumstances of hired men being employed by the people to boss and rule them in their daily concerns.

Old Egypt did it and its ancient literature is full of moral reflections about the iniquity of collecting blackmail and extracting riches by oppression. Modern New York does it and modern Berlin and modern Paris. Unmodern Constantinople and Tulehara do it, medieval St. Petersburg does it, the black police of Port-au-Prince and the white police of every other American town do it.

And old Rome's police did it—did it in a measure that would have caused

TRULY IMPERIAL ROME.

They were needed, however, for when it was fully-grown under the great Emperors, Rome had two circuses, two amphitheatres, three theatres, four schools of gladiators, five arenas for sea-fighting spectacles, thirty-six triumphal arches, thirty-seven gates, almost 300 public stores, 1,790 palaces and 46,672 tenements.

Ground was so precious that the owners of land in most parts of the city aimed to build as narrow and high buildings as they could, just as they do now; and the heights of the tenements were limited only by the ability of the architects of those days. Most of these tenements were of stone in the first storey, while the rest was of wood.

There was no Building Department at first, and everybody was permitted to build as he pleased, with the result that the poor people were housed miserably and still had to pay enormous rents.

After the great fire in Nero's reign much of this was changed. Almost all the streets was unlighted, and all sorts of adventurers, from Algerian corsairs to Tartar savages, attracted by the glamour of the mistress of the world, found the darkness a welcome field for their

Breeze and Miss Elliott author their associates in the play—"New York Telegraph.

The hit of "The Girl of the Golden West," at the Belasco Theatre, New York, is a play which is not only a hit but hits with entirely unusual quality. It bids fair to excel all its predecessors in the history of the theatre. The compliment of that result, The theatre is sold out from top to bottom for a month in advance and the demand for seats for the first and second nights Every Monday morning at nine o'clock seats for an additional week are placed on the market. At the end of the hour there isn't a single reservation left.

With Mrs. Carter, David Warfield, and the Belasco Theatre, the capacity of the theatre in which the play is presented is not likely to appear, David Belasco, if he were an actor, would be a very successful one. He is a man who is not only a man of big back and enjoy a breathing space but not so Belasco. Some high class actors are not only actors but also employ as a writing room, and in this there most of the day and far in the night, working as his assistants. The play is a masterpiece of the new play for Mrs. Carter. The play will not be shown until next fall, but it is a masterpiece of the play. The play is the play of the author that the play was designed for production a month ago. The play is a masterpiece of the play, untrifling and tenacious, and brings the absolute perfection of dramatic writing. been many in past years, and it may be described as fully the equal of any of the more recent strength of pictureesque coloring. It revolves about an attempt to assassinate the First Consul, down of the would-be murderers by the renegade emperor, the escape and capture of the conspirators, the discovery and his ultimate discovery through a second assault upon Napoleon's life. The plot is well laid out, the plotting and counter-plotting and the most timely is highly wedded to the material, and the story is told with firmness and womanly force by M. Harned, who has numerous opportunities to display her own literary qualities. The production, which is one of the most ambitious of the season, is well acted, and the story is well told, all the performance, by an uncommonly large company, is without exception of a high order. Miss Harned embraces Vincent, and J. H. Gilmore, William Courtenay, and J. H. Gilmore, and the five Block, Jane Gordon and about twenty-five more who have speaking parts in the play. The production is a success.

On the Criterion on Tuesday evening, William Collier had a stirring reception on his return from London, where as every one knows he has been, as every one knows, a great success. Collier's reappearance in New York was made in August, and he went with much snuff and ginger as during his original run. There were many who were not in the number, and at the evening's conclusion there could have been no lingering doubt as to the success of his return. He was bestowed on this characteristic young American actor, for whom by the way, the engagements in London which will

When George C. Tyler, managing director of the firm of Liebler & Co., New York, advised after having been "turned down" by George Bernard Shaw upon the play promised by that author, the use of Eleanor Roosevelt's name, he remarked that he would bring back an agreement with an author of considerably greater renown than the one suggested by the English statistician. Upon Tyler's return to New York last September he announced that he had signed a contract on behalf of Miss Hobson who has no less a personage than Edmond Rostand as author of "Cyrano de Bergerac" and "L'Aiglon," for a poetic drama, which the young American actress is to play in the season. Apparently Mr. Tyler has amply made good his promise, for as between the two plays, the latter is the more fitting room for doubt either in the matter of literary supremacy or dramatic worth. The end of the matter is that, in the meantime, Miss Hobson will not be there to play in "Merely Mary Ann," which she had promised to do in New York, the drama, the identity of which is still unannounced.

COTTON FROM RHODIA IN BRITISH MARKET

(Special to the Star.)
LONDON, Dec. 2.—Further consignments of cotton from Rhodesia have reached Liverpool and like the first few bales which arrived six weeks ago, they have been pronounced to be of good staple, fine and strong. To a great extent the balancing of future cotton markets appears to depend upon the quality of the Rhodesian cotton. Charles Wolenshine, of Messrs. Wolenshine & Holland, who has been testing the cotton on behalf of the British Cotton Growing Association has the utmost faith in the possibilities of Rhodesia as a cotton producing centre. According to information received by the British Cotton Growing Association, Rhodesia can produce 250,000 bales per year which is considered sufficient to steady the world's market and to protect the British cotton industry from speculations which, of recent years, have hampered it. Capital to any extent is in readiness to develop the Rhodesian project and the only difficulty that is anticipated is that of colored labor for the plantations.

A number of experts who have inspected the samples agree that they are of excellent character and may be grown in such abundance as to justify a prediction that Rhodesia will in the course of a few seasons provide a final solution of England's cotton problem.

The night school opened last evening in the Centennial school building with a fairly good attendance. Thirty-one young men presented themselves, between the ages of 12 to 21. Of this number twenty-two had reached the seventh grade in the city schools. Only one foreigner was present last evening. On the whole the pupils are a very promising looking collection of young men. They are for the most part engaged during the day with business firms in the city, having been compelled by circumstances to leave school at an early age. It is quite probable that the number will reach fifty or sixty during the next week.

NO BAIL FOR DR. PRESTON AND HOWARD D. CAMP.

(Continued from page one.)
Mrs. Jennings denied positively that Dr. Preston had performed any operation on her daughter and asserted that there had been no occasion for it, but stated that Dr. Preston had attended her during the illness which resulted in her death. "Laura had been in poor health for a long time as a result of an attack of diphtheria which she had last year, and frequently complained of pains around her heart. She told me one day that she had heard that Dr. Preston made a specialty of treating heart affection, and asked that he be called in. He only came twice, the first time on Sunday, I think, and again on the following Friday or Saturday preceding her death. When he came the last time he said she was suffering from typhoid fever, but did not seem to help her very much. Last Sunday I called in Dr. Ellis, but he did not say what was the matter with her. She died on Monday."

Although Mrs. Jennings says that Dr. Preston told her daughter was suffering from typhoid fever, in the death certificate which he issued, the cause of death was stated to be "septicemia."

Marvellous Invention of Spanish Engineer—Electric Power Furnished From Shore to Ships at Sea.

(Special to the Star.)
BILBAO, Dec. 2.—Senor Torres Quevedo has just made some interesting experiments in driving and steering ships by electric power furnished from the shore. The transmitting station was placed on the flat roof of the Maritime Club, and from it a vessel containing naval officers and others was directed higher and thither at the will of the operator, and made to do all kinds of evolutions. A large crowd cheered the inventor who is a Spanish engineer. He introduced his system some time ago to the notice of a committee of experts, headed by the minister, Senor Echagay, and on their recommendation the government subsidized Senor Quevedo to the extent of \$4,000 to enable him to continue his studies. Senor Quevedo declares that the invention can be used also to direct the course of balloons.

TERRIBLE PAINS ACROSS BACK

SUFFERED EIGHT MONTHS WITH KIDNEY TROUBLE. WOULD HAVE TO STAY IN BED FOR THREE DAYS AT A TIME

Doan's Kidney Pills CURED HIM

Mr. Thomas Fitzgerald, Hareklean, Ont., writes as follows: "I was a great sufferer from kidney trouble for eight months. I had terrible pains across the small of my back. I would have to stay in bed for three days at a time and could not do any work. I tried several remedies but of no avail, and also plaster but they were of no use.
One day a neighbor of mine advised me to try Doan's Kidney Pills. I was much discouraged I told him I was tired of trying remedies, but he urged me to try one box so I purchased one, and before I was through using it, I found a change for the better so I got five boxes more, and I have had no trouble with my kidneys since. I would not be without Doan's Pills in my house.
It is really not difficult to cure kidney trouble in its first stages. All you have to do is to give Doan's Kidney Pills a trial. They are a never-failing cure for all forms of kidney trouble. They quickly relieve the congested, overworked kidneys, and gradually bring them back to health.
Doan's Kidney Pills 50 cents per box or three boxes for \$1.25, all dealers or the Doan Kidney Pill Co., Toronto, Ont.

SCOTT ACT CASES

ALL QUASHED.

Sixteen Convictions For Illegal Liquor Selling Upset by Judge Wedderburn in King's Co. Court.

HAMPTON, Kings Co., Dec. 1.—At 2 p. m. today the second conviction, dated June 4th, 1904, in the Myers Scott Act series under appeal before Judge Wedderburn, was taken up. The defendant appellant, George Myers, was in court, having come down on the Quebec express. His Honor said that a careful reading over of the evidence in the first case had not changed his view that the appeal must be allowed with costs. The conviction in this second case was on the ground of keeping liquor for sale on April 16th, 1904, and Mr. Jonah moved that it be quashed on the ground that it was made with three others on the same day. The case was gone into, however, and George Paley swore that he purchased whiskey from James Martin, in the bar-room of the Royal hotel, on April 16th, 1904. Martin served him, handing him a bottle and glass from behind the counter, from which he drank, and paid for it. Myers was about the hotel that day and appeared to be in his usual health. The witness was cross-examined by Mr. Jonah, and said he saw Myers in the bar-room that day. Witness then proceeded to get himself entangled up in a mass of contradictory and absurd statements that His Honor characterized as evidence was so clearly unreliable that Mr. McCully moved that the appeal be allowed, and that the other two convictions for keeping for sale, on April 18th, 1904, which rested on the evidence of the same witness, be quashed. His Honor concurred in the wisdom of this course, and allowed these appeals. Before proceeding with the remaining eleven cases, Mr. McCully rose and said that he found certain of these convictions were made on hearsay and inadequate evidence. He moved that the appeals against these be allowed. Consequently His Honor allowed the convictions for keeping for sale on Oct. 15th, 1904, at 7 p. m.; Oct. 15th, 1904, between 7 and 8 p. m.; Oct. 15th, 1904, between 11 and 12; Oct. 15th, 1904, between 3 and 4 p. m., and Oct. 17th, 1904.

THESE LEFT ARE REMAINING CASES, AND MR. JONAH MOVED THAT THESE BE QUASHED ON THE GROUNDS:

1st. Because they were tried and adjourned from time to time simultaneously, by the same Scott Act magistrates, and all the convictions were entered up after taking the evidence in all cases on the 15th day of December, A. D. 1904.

2nd.—Because the magistrate by whom these convictions were entered up had no jurisdiction in the premises, the defendant never having been served with summons, nor ever had any notice of the charges and informations been laid against him. These points were argued pro and con and Constable Herbert Wamamake was called to the stand, but failed to identify the papers placed in his hands. So the appeal was allowed by consent of Mr. McCully. The same held with regard to the convictions for selling on Oct. 20th, 1904, between the hours of 7 and 8 o'clock; March 26th, 1905, and October 20th, 1904, between the hours of 8 and 11 a. m. The last four convictions, simply went by default, although Mr. McCully made a strong effort to get the magistrate's proceedings recognized sufficiently to prove service of papers. But the constable, Herbert Wamamake, had made no identification papers upon the summons which had passed through his hands, and he was too cautious a witness to swear after so many months that a certain paper was the actual one which he served in a given case, and the fact that Magistrate W. N. Biggar went on the stand and identified the evidence and certificate of conviction did not help the counsel out of his difficulty. It was clearly no fault of his, but the bungling of minor officers and unreliable witnesses made his efforts unavailing. So the whole series of Myers convictions were finally quashed and the appeals allowed with costs. Court adjourned till Monday next at 11 a. m., then to meet to pay the costs of counsel in these cases.

An alarm of fire was given about the middle of this forenoon for a slight outbreak in the houses of Captain R. G. Barie, occupied by Mrs. Earle and family, on the back street, Hampton Village. It occurred near the stove on the ground floor and was quickly extinguished. The Hampton fire brigade was quickly on the ground and the mill hands turned out. The damage was slight.

THE BLATHERSKITES.

They were only blatherskites. I read at a meeting. In a certain public hall. To try and settle matters. Satisfactory to all. By some influential citizens. To try and end the strike. Who now are known in common As a lot of blatherskites.

Two of them were clergymen. Who preach of peace and prayer; Another was an alderman. The next, St. John's ex-mayor; Men I thought had judgment To settle matters right. But, lo! I was mistaken. There was also Rabbi Rabinovitch, Who represents the Jew. Who for once upheld the Christian In their fair impartial view; He told about his people "Midst Siberian snows that night, But he made no more impression Than the Christian blatherskite.

The clergymen in question May tie a nuptial knot. They may preach impressive sermons That cannot be forgot. They can give a temperance lecture That would lead the erring right. But on the labor platform They are only blatherskites.

Now the strike at last is ended And men at work again; The small increase they asked for Was asked by them in vain. It might have ended different Had the speakers there that night Been men of sense and judgment, And not those blatherskites.

DAILY SUN, ST. JOHN, N. B., SATURDAY, DECEMBER 2, 1906

NEWS OF SPORT.

Frederickton Wants to Arrange a Bowling Match With St. John Ladies.
The Winter Hockey Programme.

BOWLING.

LOOKING FOR CONTESTS WITH ST. JOHN LADIES.

The Frederickton Glens, commenting on bowling in that town, says: The ladies of Frederickton are taking a great interest in bowling these days and each morning a number of them gather at the Queen hotel alleys and roll. This morning the party was mented by the presence of the Marchioness of Donegal, who rolled several games in excellent form. The highest score made by the Marchioness was 73, which is about equal with that made by the other ladies, many of whom had more experience.

Proprietor McCaffery of the Queen has announced to the ladies that should they be able to arrange a tournament with the ladies' bowling club lately formed at St. John, that he would be willing to offer a costly and handsome trophy to be competed for.

HOCKEY.

THIS WINTER'S GAME.

With the north end, south end and west end interested in a city league, hockey should boom this winter. The three clubs already in the league will be glad to hear immediately from the north and west end, so that a schedule may be drawn up at as early a date as possible. There will be considerable rivalry as to which team will show its right for admission to the provincial league, and with the enthusiasm and interest already displayed, there is but little question that many more players will be found ready than there will be room for. A movement is also on foot for organizing two teams of young ladies and a match arranged for every fortnight, with the possibility of an occasional outside team being brought to the city. The ladies who played last year are eager for another trial at the sport, and many who did not have an opportunity were there was but one team anxious to demonstrate the fact that there are more than seven athletic girls capable of excelling in the strenuous game.

FOOTBALL.

AGAINST THE GAME.

BOSTON, Dec. 1.—As a result of the agitation against the game of football as at present played by the schools and colleges in the United States, Aid. Frank G. O'Toole will call the attention of the Boston board of aldermen toward prohibiting the game, so as to make accidents an impossibility.

THE RING.

LATE NOTES.

PORTLAND, Me., Nov. 30.—Willie Leads of New York, was given the decision over Fred Douglas of Savannah, at the end of the eighth round of what was scheduled to be a 15-round bout. Both men were on their feet, but Douglas persisted in fighting. Leads showed himself the better boxer. GLOUCESTER, Mass., Nov. 30.—Mattie Baldwin of Charlestown, knocked out Willie Connell of Lowell, in the tenth round of what was scheduled as a 15-round contest at the Gloucester Athletic Club today.

WAS A ROUGH HOUSE.

(Portland Press.)

Before a fair-sized crowd at the Auditorium last evening Willie Lewis of Brooklyn, N. Y., was given the decision over Fred Douglas of Savannah, Ga., in the eighth round of a fight scheduled to go 15 rounds. Johnnie Sullivan of this city, who refereed the bout, said that Douglas fouled Lewis, and that settled it. The fact that a number of spectators in the front row and elsewhere, saw no foul committed is doubtless due to defective vision. It naturally seems rather odd that so many keen-eyed fight-followers should go blind all of a sudden, but that is what must have happened. They couldn't see any foul and

the referee could. These men admit that Douglas unquestionably did land several blows earlier in the bout, but they are quite certain-looking that it through their evidently distorted vision—that the final blows upon which Lewis appealed for and was granted his decision, in no wise infringed upon the rules laid down in the name of the Marquis of Queensbury.

To tell things just as they were, it was a lively scene in the Auditorium—a scene which a fortissimo chorus would be as the tinkling cymbal. Lewis had the best of the earlier passages in the little Thanksgiving drama. There was no suggestion of foul till the eighth round. Douglas in that round attempted to lace in one that was headed too low. He saw it himself and half-apologized during the following mix-up. As he went to his corner the referee cautioned him to be careful.

On the sound of the gong for the eighth round Lewis was up and after his man, meeting him before he was well out of his own corner of the universe. He went in hammer and tong. Then all of a sudden, as it were, Lewis was down holding on to his garnet trunk and the look that he cast upward at his antagonist was not freighted with the kindness of Thanksgiving day. In a second or two he was up. In another second or so it was Douglas who was down. About this time things were happening. The referee was Mr. Bury Man. He was trying to stop the fight, keep the fighters apart, quiet the crowd and convince the police that there was no need of their blue-coated presence in the ring. It was about all that one man ought to have on his hands after eating a Thanksgiving dinner.

He waved his hand in the direction of Lewis, evidently signalling to him that he was a winner. But about this time Lewis evinced a sudden desire to continue the argument. The crowd was with him, so was Mr. Douglas. In fact, Mr. Douglas was very much with him as events showed in the next few rounds. Several times the men asayed to get at each other and did succeed in getting in a blow or two, but the referee pushed them apart to give them a fair chance. They were just going into it again when someone suggested that it would be a good thing to ring the bell. So the time-keeper rang the bell, but whether it was for the end of the eighth or the beginning of the ninth no one knew. And what is more, no one cared—least of all, the two individuals most concerned. They were both at white heat and when the gong sounded they went at it like unleashed bulldogs. It was hard, fast, street fighting with quarter for no one. Then Lewis did his disappearing trick again and once more clasped his hands to his garnet trunk.

Just before he did so Douglas had given him a smashing right square in the face and followed it with a body blow. This is the blow on which Lewis claimed and secured his foot. The referee says it was foul. The referee being the boss of the show, his decision stands. Some time they may meet and settle things—but it is quite safe to say that it will not be before a Portland audience—at all events, not the same audience that was present last evening.

The manner in which the mill ended was a matter of regret to the men who like a good fight, for the bout began with the referee's announcement that the men had not received their money and his guarantee that they would have it to carry it. And up to the last round it looked as though the crowd would go home happy. But they didn't.

A couple of preliminaries preceded the main bout, the first between Billy France and Billy Kirtle and the second between Red Mooney and Billy Critch. There were no casualties.

No cracks with Ungar's heavy pileable finish.

HIS OPPORTUNITY.
Mr. Honpeck—You ought to be a landscape artist.
Mrs. Honpeck—Why?
Mr. Honpeck—You show such an aptitude for making mountains out of mole-hills.

THE FARMER AND BICYCLE AGENT.

Some years ago, soon after bicycles began to be freely used throughout the United States, an agent for a New York house turned up at a village in Central New York. He expatiated to an old farmer upon the virtues of the new machine, dwelling upon what a time-saver it was, and withal how fashionable it would be for the old farmer to be able to ride down to the village on one of the new-fangled machines whenever he wanted to.

"Why," said the agent, "whenever you go to the post-office, bank, or store everybody will stop and stare at Farmer Wilson, and pretty soon you'll be the most-talked-of man in the whole county."

"That may be so," replied the farmer, "but I tell you I'm a-peevish a good new cow mo'n I am one of them things you're a-talkin' about."

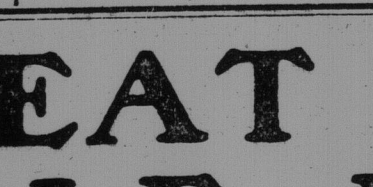

Nevertheless, the agent extracted a promise that the old man would save up his money and purchase a bicycle when the agent came around in the fall.

According to promise, the agent was on hand in the fall with the wheel. The farmer took him in charge and carried him out to the lot and showed him a fine Jersey cow.

"That's what I bought with the money I saved up for you," said the farmer, "and without waiting for the agent to recover from his surprise he went on, 'I loved that I needed the cow mo'n I did the bicycle, an' there she is. Ain't she a beauty?'"

When the agent recovered his breath, he said, "You'll look funny riding that cow to town, won't you?"

"Ya-as," drawled out the old farmer, "but I'd look a darned sight funnier tryin' to milk a bicycle."

HE WAS HUNGRY, TOO.
Mrs. Justwud—There's nothing in the house fit to eat. I'm going home to my mother.
Mr. Justwud (broke)—Wait till I get my hat and I'll go with you.

The Postal Union has just issued a return for 1904, which gives some interesting figures as to international postage. The United States sends most letters—4,189 millions during the year. Great Britain follows with 2,597 millions, and Germany with 1,648 millions. France sends 944 millions, and no other country reaches 500 millions. The use of postcards has enormously increased. The Germans send the largest list with 1,161 millions posted during the year. The United States comes second with 770-1/2 millions.

THEY DON'T LIKE THE INCREASED CHARGES

But Owners of Bonded Warehouses Will Not Likely Take Any Action.

There are eleven customs bonded warehouses in St. John, and after the first of January the fees charged for the attendance of customs lockers at these warehouses will be increased. In four or five cases the increase is considerable, but in the rest of the houses it amounts to only twenty dollars per year.

There are two public bonded warehouses, one on Nelson street, kept by F. O. S. Fitzpatrick, the other on Smythe street, kept by J. F. Morrison. There are also three large private warehouses, T. Sullivan & Co.'s, McIntyre and Comeau's and John O'Regan's. In these five establishments the services of a customs officer is required for the greater part of the time, but the work of these officers is so arranged that one who is stationed at one of the large warehouses also attends to the requirements of two or three of the smaller ones. There are four such officers in the service, and they spend all their time in one or other of the warehouses.

In addition to the five large establishments mentioned, T. B. Barker and Sons, T. McAvity and Sons, M. and T. McGuire and C. N. Beal and Co. also have private bonded warehouses, but their business is such that an officer is needed for only an hour or so each day.

Until some fifty years ago, the government provided bonded warehouses, in which a storage fee on goods was charged, but that was done away with and merchants were granted the privilege of keeping such warehouses in their own establishments. The fee for the services of an officer has all along been forty dollars per year, payable half-yearly in advance, and no difference has been made in favor of the warehouse where the officer is required for only a short time. The private warehouses pay the same as the public ones.

Recently a circular issued by the department provides a new schedule of charges. Any warehouse in which an officer is required for an hour a day or more, pays sixty dollars a year, payable quarterly. If the officer is needed for two hours the charge is \$120 per year, and so on, \$30 being added for every hour, so that if an officer is wanted all the time the maximum charges is \$480 per year.

None of the houses in St. John will need an officer all the time, but some want a man for four or five hours a day, so that after the first of January these warehouses will have to pay probably \$90 or \$120 additional. McGuire's, Barker's, McAvity's and Beal's will pay only \$30 a year more.

All of these merchants are objecting to the increase in fees, and objecting pretty strongly, but that is likely as far as the affair will go. The Halifax warehousemen, as stated in despatches to the Sun, forwarded a protest to Ottawa, but it is not thought that this will be done here.

In addition to the warehouses named the Canadian and Imperial Oil companies have tanks where oil is kept in bond, but as an officer only goes there once in a while they will not be affected.

SERIOUS STRIKE IN DEMERARA.

GEORGETOWN, Demerara, Dec. 1.—A strike of wharf laborers which is in progress here resulted in a serious riot this morning, when the police were compelled to fire on a riotous mob. It is reported that five were killed.

The strike, which was the result of a demand for higher wages, began Tuesday. Some acts of violence were committed yesterday, and while they were not serious they resulted in the burning of the riot act and the issuing of a proclamation by the governor closing all the retail spirit shops from six o'clock every evening. The government called on all peaceably disposed citizens not to join the gatherings in the streets and avoid the risk of being killed or injured. He announced that he intended to forcibly suppress all riotous proceedings.

As the result of today's demonstrations business has been suspended.

FROST HELPS WORK AT LOCH LOMOND

George McArthur said yesterday that the present cold snap is the best piece of luck that has yet come to his firm for the work at Loch Lomond. If mild weather were to prevail all the time he is afraid the pipe line through the dry lake would not be finished for many months. It has taken nearly five months to lay seven hundred feet of this pipe, and there is still something over two hundred feet to be done. The great trouble is with the muck from the bed of the lake, which was continually filling up the trench. It had to be taken out in buckets and flowed in so persistently that this job was by far the hardest of any of the work. But the frost has formed a solid crust over the lake, and the walls of the trench being firm, are able to resist the action of the mud. The men can work without being over the top of the line through the dry lake will be done in the running of a few feet of pipe into the lake. This of course, should have been finished months ago, and the lake drained, but the rock cutting on the stretch to Lake Latimer proved too much.

HAD HIS HEAD CUT IN A RUNAWAY.
A horse belonging to M. A. Harding, driven by Robert Orr, ran away last evening about 5 o'clock on Brunel street, throwing the driver out and injuring him quite badly. The animal was immediately sent for and the injured man was taken to the general hospital. It is not yet known whether the horse was a runaway or not. A very deep scarp would directly above the right of way, and not of a very serious nature as no fracture or concussion was sustained. The driver was not occupied of the carriage, but he escaped without injury. The horse went up Brunel street and was not captured until about opposite Power's stable on Union street. The carriage was badly damaged.

LUNENBURG MAN LOST OVERBOARD

BOSTON, Dec. 1.—After a thrilling experience in the recent gale during which she lost one member of her crew overboard and was nearly engulfed by the angry seas, the British schooner Ambition, Capt. Hirmelmann, arrived here today from Charlottetown, P. E. I., with a cargo of potatoes. The vessel experienced bad weather during the greater portion of the passage. On Wednesday last when off Seal Island, a terrific southwest gale prevailed. During the storm Wm. Connolly of Lunenburg, N. S., was washed overboard. Every effort was made to rescue the unfortunate man, but he evidently had been rendered unconscious and he sank before his shipmates could reach him.

A PRETTY WEDDING

SACKVILLE, N. B., Dec. 1.—The home of Mrs. David Sawdon, Wood Point was the scene of an interesting event on Wednesday evening, the occasion being the marriage of her son David, and Miss Ella May Tower, of Sackville. Rev. B. N. Nobles tied the nuptial knot in the presence of a large number of guests. The bride was prettily gowned in white organdie, wore a veil, and carried a large bouquet of carnations. Harry L. Snowdon played the wedding march. After the ceremony and congratulations a tempting wedding supper was served. Many valuable and useful presents testified to the high esteem in which the bride is held.

DISEASE PUZZLES THE MEDICAL MEN

Hard to Tell Whether Outbreak is Smallpox or Chickenpox

FREDERICTON, Nov. 30.—Dr. Peake, of Oromocto, was in Fredericton Junction and Tracey on Wednesday seeing what steps can be taken in reference to alleged outbreak of smallpox there. A report came from Fredericton Junction to the effect that Benjamin Tracy, who has been laid up with the disease, is out and about. He still has eruptions on his face and body. From the same source it is reported that one Winnifred Webb, a resident of Tracey, who had the disease in a more severe type than the others, found that the disease was affecting his eyes and went to St. John on Tuesday to consult a doctor in reference to the matter. Dr. Fisher, secretary of the Provincial Board of Health, was notified of these reports and asked to verify them.

A rigid investigation is being carried on by the authorities into the outbreak of disease at Fredericton Junction, which was reported to be smallpox in a mild type, or else northern chickenpox. Last evening, Dr. B. B. Fisher went to Fredericton Junction on the 5.50 train, returning on the late train last evening and went to Fredericton Junction again this morning. Dr. Fisher at the C. P. R. depot this morning said that owing to it being the evening and for other reasons he had been unable to accomplish very much last night. Dr. Peake had been at Fredericton Junction yesterday, and he was not sure whether the disease was smallpox or not. Dr. Fisher said the disease was brought to Fredericton Junction and Tracey Station by a family which came from Spokane, Wash., so far as he could find out. It also appears that when they came the children had a rash on their faces. Dr. Fisher said: "There is a lot of chickenpox running out in that section, but whether there are any cases of smallpox or not is a question which we cannot answer at the moment."

Regarding the report to the effect that as a person suffering from the disease which was supposed to be smallpox had gone to St. John to consult a doctor in reference to his eyes, which disease was said to be affecting them, Dr. Fisher said he was not in a position to either verify or deny it. He had heard at Fredericton Junction last evening that the man who had been there during the day, but he could not tell whether he had been at St. John or not. The person who told the story to your correspondent in the first instance said this morning that so far as he could learn the report was true.

SENATOR DOMVILLE AND THE I. C. R.

Would Like to See Road Pass Out of Hands of Government.

MONTREAL, Dec. 1.—Senator Domville, who arrived here this forenoon by the C. P. R. express from St. John, N. B., says there is a persistent report current in the maritime provinces that the I. C. R. will soon pass out of the hands of the government and into those of one of the large existing corporations. "I know," said the senator, "that the report has been current before and has been denied, but an extraordinary number of people whom I have met seem to think that some change in the control of the system is about to take place."

The senator added that the feeling was growing more strong in favor of the removal of the line from political influence. He was almost once in favor of government ownership of railways, but looking at the advantages and disadvantages, he was now of opinion that the maritime provinces would be better served if the people's lines were managed on just the same principles as the Grand Trunk and C. P. R. are managed.

Over 30,000 postage stamps were used in the making of a dress for an American lady, which she wore at a ball at Bermuda a short time ago. Years had been spent in collecting the stamps, and three weeks in making the dress, which was of the finest muslin. The lady appealed to her friends to help her, and the dress was completely covered with stamps of all nations. In the centre of the breast was an eagle made entirely with brown Columbian stamps. Suspended from the talons was a globe made of very old blue revenue stamps. On either side of the globe was an American flag, the stripes of blue and red stamps. A collection of foreign stamps was pasted in the back of the bodice in the form of a shield, the centre of which was made up of a portrait of brave Sir George Summers, cut from old revenue stamps. A large picture hat covered with red and blue stamps was worn with the costume; a mask and very pretty fan were covered entirely with pink.

ARE YOU TIRED OF PAYING BLUNDER TAXES?

Many a business man pays as much money for the luxury of blundering as a steam yacht or private touring car would cost.

"Blunder Taxes" cannot be evaded—whatever else waits, these must be paid. If a business man gets into the habit of making the same blunders more than once, the taxes will soon amount to confiscation.

"Blunder Taxes" are levied with amazing frequency upon store advertisers. Among the blunders which are assessed at "full value" in advertising are these:

Selection of poor mediums;

Using too little space in good mediums;

Devoting less attention to preparing the daily store advertisement than to the storing of some empty boxes in the basement;

Shopping the ad. altogether for one or more days now and then;

Figuring the advertising appropriation on the basis of what you can "afford" after all other expenses are provided for;

Use of "programmes," schemes, circulars, posters, fence signs, placards and fireworks, under the impression that you are securing real publicity, and that somehow, somewhere, sometime someone will be influenced by some of these things to come to your store and buy something.

YOUR "BLUNDER-TAX" BILL GROWS SMALLER AND SMALLER AS YOUR USE OF "ST. JOHN STAR" PUBLICITY GROWS BIGGER AND BIGGER.

The project of adding 200 members by reducing the dues to \$5 will also come up.

In yesterday afternoon's police court the preliminary examination of J. H. Thompson, charged with forgery by H. R. Barber, was concluded, and he was sent up for trial. He pleaded not guilty and was released on bail of \$2,000. The defendant himself went surety in \$1,200 and A. P. Barnhill, \$1,200. H. R. Barber and Edward W. Maughlin, gave evidence for the prosecution. The defence called no witnesses.

FOREIGN LABORER FOUND DROWNED.

Body of a Man Discovered in York Point Slip.

Police Satisfied That the Man Was Insane Although There Is No Trace as to His Identity.

The body of a man whose identity will perhaps never be known was found this morning in the mud in the rear of the block of buildings that are built over the wharf between the railway crossing and Carpenter's store on Mill street.

The discovery was made by Leonard Dryden, a lad 16 years of age, at about 8 o'clock this morning. At the time the tide was out, and the lad at once notified Thomas Armstrong, who informed the police. Sergeant Kilpatrick, Officer Ward and Officer Smith handled the case. Officer Smith stood at the entrance to the alleyway near Carpenter's store and kept the enquiring crowd back, while the other officers climbed down the ladder and waded through the mud to where the body was.

The man was of medium height, with red hair and a red moustache. He was without coat or overcoat, but his hat was found later on in the day not far from where the body was found.

When picked up the unfortunate man was in a kneeling position, with his head in a little creek formed by the refuse matter from the sewers that empty into that basin.

The police officers at once saw to the removal of the body. They arranged a temporary stretcher and carried the man to the foot of a ladder at the rear of Carpenter's store. Here a rope was tied about him and he was hoisted up and placed in a barn, where about fifty people saw him. It was dark in the barn and matches had to be burned to make light enough to see the body, but no one could identify the man. Coroner Roberts ordered the removal of the remains to the morgue.

A man answering the description of the man found in the mud called at Costigan's boarding house on Wednesday night. He was perfectly sober and the description given by the Costigans tally exactly with that of the dead man. He said that he came from Montreal and was on his way to his lodgings.

About 8 o'clock Thursday morning he ran out on the street in his shirt sleeves, crying out, "Nelle, Nelle, for God's sake give me the red bag or the child will die." He came back later and got his coat and overcoat and went away.

The man's coat and overcoat have not been found, but the authorities expect to locate them. They are satisfied that the man was insane.

THE EVIDENCE ALL IN.

For months past the papers have been recording the success of many people who have passed through the Currie Business University, Limited.

It has been shown that this school is presided over by experts—men who are qualified to do the most expert work, and because of the ability of these instructors this school now enjoys the largest attendance in Eastern Canada.

It has been proven that this school is able to impart this expert knowledge to others, for its graduates have beaten on all others when in competition for a position.

That this school is responsible is evidenced by the endorsement of judges, lawyers and prominent business men, as well as its many successful graduates. It has been shown that this school has turned out more graduates in the past ten years, who are now earning from \$300 to \$1,200 per year, than any other school in the Maritime Provinces, no matter how long it has been in existence.

You are assured that in case you are accepted you will succeed, for this school does not accept applicants who are not qualified for business.

Why, then, have you not been heard from? A postal card will bring this school's representative to any city address, or further particulars will be mailed on receipt of application. "Fate never yet failed to turn down the man who waited for something to turn up."

This school has adopted the motto of one of the largest manufacturing concerns in America: "What we have done ought to be our lowest standard for what we expect to do and what is expected of us in the future."

A postal card or personal call at the school may be the means of changing your entire future. Don't put off—do it today. This school is located at 25 Church street, corner of Canterbury.

EBEN PERKINS' RESIGNATION.

The Star has been informed on the most credible authority that Eben Perkins has resigned his position as manager of the Maritime Mail Works.

Those interested in the company decline to discuss the situation and Mr. Perkins said he had absolutely nothing to say at the present time.

EDITORS RESIGN.

The Telegraph this morning in its leading editorial announced that the editor of that paper, E. W. McCready, A. M. Belding, editor of the Times and John Russell, Jr., the manager of both papers has resigned in consequence of the disagreement between them and David Russell regarding the conduct of the mayor in refusing to reside at the public meeting in Berryman's Hall.

The Star this morning interviewed Mr. Russell and Mr. Belding but both gentlemen very politely declined to discuss the situation, even to announce the date at which they asked to be relieved of their responsibility in their letters of resignation.

It is rumored on the street that David Russell will be here on Monday when he will straighten out the mix-up.

DEAD SIMMONS DEAD.

The death of Fred Simmons took place this morning about five o'clock, after a week's illness. Mr. Simmons has been a seaman in the 62nd for a number of years, and also steward of the officers' club on Charlotte street. He leaves five children.

TOOTH HINTS.

"When ought we to go to the dentist?" Many think it unnecessary to devote particular attention to the teeth until the appearance of the mouth is affected by damaged, decayed or broken teeth. Others give their teeth no attention till pain compels them.

The stupidity and short-sightedness of either policy is evident.

Every one who thinks a moment on the subject knows that we cannot maintain our food satisfactorily if one or more of the teeth are tender, inflamed, decayed or otherwise out of working order; and that if this be the case the mouth requires immediate attention.
