DR. NANSEN WILL MAKE AN APPEAL TO THE BRITISH

Takes Pessimistic View Regarding the Famine Situation Beating Russia.

PEOPLE WILL DIE BY MILLIONS

Says Horrors of War Are Nothing Compared to Horrors Russia is Experiencing.

London, Jan. 30.—Dr. Fridtjof Nansen, who is closely identified with Russian relief, expressed himself in a pessimistic manner in a statement to press representatives, this afternoon, regarding the famine in Russia.

"It is too late to save the people of Russia," he declared. "Whatever is done they will die by the millions. Laysack is dying everywhere and it is not to be expected that any more will remain. Twenty American dollars will keep a human alive, but a human life can be saved for fifteen shillings; that sum would keep a man alive until the new harvest."

"You may talk about the horrors of war, but these horrors they die their bodies are nothing but skin and bones, but the famine strikes us as none that state war many die."

"In many places the people are eating dead bodies," he added, "but in the Samara region they are still fighting to kill one another."

Dr. Nansen will appear in the British people tomorrow night for Russian relief.

The Catholic party, commanding 110 votes and holding the balance of power among the widely divergent elements comprising the majority of the Italian Chamber, is unanimous in its desire that the entente be pronounced.

In the face of this determined attitude the interpellators are understood to be wavering and it is stated that they may not openly oppose the declaration, but content themselves with abstaining from voting upon participating in it.

What Name Will Next Pope Choose? What name will the next Pope choose is a query which is causing much discussion in Rome. The "irreconcilables," led by Cardinal Merry del Val, if they succeed in electing their candidate, are understood to be in favor of Leo XIV., as successor to Leo XIII., who was always strongly opposed to the Quirinal. Should Cardinal Gasparri's peace party elect its candidate it is believed that Benedict XVI. will be the name of the next Pope, on account of the late Pontiff's policy of closer relations with the Quirinal.

If a compromise is reached it is expected that the neutral Pope elected will adopt the name of Pius XI. Following the non-extremist policy of Pius X., the only eventually not provided for in the general expectations is the election of a foreign cardinal, who, it is pointed out by some, perhaps would prefer a name not chosen heretofore.

CHINA GOING TO COME BACK WITH A JOLT

Head of World Press Congress Tells of Development Along Economic Lines.

WILL SURPRISE PESSIMISTIC WORLD

Foreign Business Interests Neglecting the Field Are Passing Up Great Opportunity.

Tientsin, Jan. 30.—China is going to "come back" with a jolt that will surprise a pessimistic world, in the opinion of Dr. Walter Williams, who has just completed a tour of the country. This distinguished American journalist, dean of the School of Journalism of the University of Missouri and president of the Press Congress of the World, is entitled to speak with authority as regards the Chinese Republic and its future. For years he has been a close student of the East, and he has "reversed" every corner of China and Japan and is a frequent visitor in the Orient. Just now he is decidedly optimistic regarding the situation in China, and his views are being widely disseminated here after his return from the Asiatic mainland was striking for its note of hopefulness regarding the Chinese outlook.

"There has been well-defined progress in China recently along industrial and economic lines," he said. "In spite of the undeniable state of corruption and the Government's falling, with waste and inefficiency many of the administrative of the entire governmental machine, improvement of business methods and increase of industrial activity has gone on. The fact that this is a pleasant surprise."

Changes for the better which had been made since his last visit, three years ago, impressed him. He was emphatic in pointing out that before he could resume his position in world affairs China must reorganize her Government from the ground up.

"I talked with Premier Chin a few days before his cabinet was overthrown," he said, "and in the course of our conversation asked him to reorganize his Government. He said he would have made a list of reforms to be published, but I had heard that Northcliffe had asked the premier to tell him China's most pressing need, and the reply had been, 'Money. More money is our pressing need. I was surprised at his frankness when Premier Chin told me that the statement attributed to him was correct."

"Chinese premiers are not in the habit of talking so freely for publication, but I am sure no one will doubt that this was a true expression of the Administration's views."

Discourages Outside Control Time and a public which is becoming daily better informed of actual conditions and the reasons thereof will solve the Chinese problem. Dr. Williams believes that any form of international control, he thinks, would be disastrous and should not be thought of by any statesman. The Chinese themselves are so unalterably opposed to such a plan as to assure its failure before it is attempted.

He predicted a revival of business with increased foreign trade, already fore-shadowed by commercial activity in China. "Unless more stumbling blocks are placed in her way," he said, "I should say the time is not far removed when such risks as now accompany business ventures in China will be largely removed. The general outlook is such that foreign business interests which neglect the field are passing by a real opportunity, for those who are on the ground now will enjoy a tremendous advantage later on."

20,000 Ballots Cast On Disposal of The Canteen Fund

Canadian Men and Women Entitled to Vote, Taking Little Interest in Question.

Ottawa, Jan. 30.—Voting in the plebiscite on the disposal of Canada's share of the surplus canteen funds by returned men and women, closes on Wednesday, Feb. 1, with but slightly more than 20,000 ballots cast out of a possible total of approximately 300,000.

The commission appointed by the Maighen government to manage the plebiscite will not make a recommendation until the middle of February. This delay has been decided on in order to permit the arrival of ballots from the British Isles, India and other dominions where Canadian ex-service men and women are in residence.

The main question before the commission is whether or not the right voting gives sufficient authority to dispose of the funds. In some quarters it is stated that other means will have to be sought to secure authority to dispose of the money, which amounts to approximately \$2,000,000.

BUCHANAN HELD RESPONSIBLE FOR DEATH OF SON

Coroner's Jury Finds He Sent Powder That Caused Death of Anderson Buchanan.

FATHER'S SOUL MATE TESTIFIES

Tells of Her Association With Elder Buchanan During Last Five Years.

Toronto, Jan. 30.—What practically amounted to a verdict of murder against the late James Buchanan, was returned by the coroner's jury tonight in the death of Anderson Buchanan, the "beauty powder" victim, early this morning. James Buchanan, and his own life by poisoning that on Sunday last, and according to the evidence produced, was the man who had circulated printed in Hamilton similar to that which induced the strychnine that caused the death of young Buchanan on January 18.

After hearing the evidence of Mrs. Jessie Buchanan, who told of her unhappy domestic life with James Buchanan, the coroner's jury tonight returned a verdict of murder against the late James Buchanan, as the man who had ordered "beauty powder" circulated into the hands of Mrs. Buchanan, the widow of the late James Buchanan, who was probably the young Buchanan's father during the last five years, the jury returned the following verdict:

"We find that Anderson Buchanan came to his death, at 228 Riverdale Avenue, as a result of strychnine poisoning on January 18. We believe that the responsibility rests with his father, the late James Buchanan."

By this verdict the mystery, which has baffled the Toronto police for two weeks, is nearing complete solution. The interest created in the murder of Anderson Buchanan has probably been without parallel in the history of Toronto, and the great throng which gathered before the morgue and approaches to the building testified to this fact.

Before the hour set for the opening, a great crowd filling the building and so great did the crowding become that police reserves were called into requisition to permit the investigation to continue.

Mrs. Stump proved to be the Crown's star witness. She told a story of a five years' companionship with the father of the dead boy. The instant moment of the inquiry came when, recalled to the box, and face to face with the young woman who had been her husband's companion, Mrs. Buchanan told of going to a house on Dundonald street seven years ago and graphically by means of a photograph that her husband had been making frequent calls on Miss Stump. Miss Stump also stated that Mr. Buchanan had visited her during a vacation in Muskoka. At no time during their stay together had there been any suggestion made as to a possible marriage.

FIFTY-THREE CARDINALS NOW IN ROME

Sacred College Completed Yesterday As It Will Deliberate on Thursday.

CARDINALS STAYING AT MONASTERIES

Thursday They Enter the Vatican There to Remain Until Pope is Elected.

Rome, Jan. 30.—The Sacred College was completed today as it will start deliberations Thursday next to elect a pontiff. Fifty-three Cardinals are now present in Rome and they will compose the conclave at its opening session. The arrival of Cardinal Logu, Primate of All Ireland, completed the list of electors for the early meetings, from which seven Cardinals will be absent: Prisco, Archbishop of Naples; Maria De Bertera, Archbishop of Santiago; Di Compagnella, Spain; Arcorevici, Archbishop of Rio de Janeiro; De Stribensky, Archbishop of Olmutz; O'Connell, Archbishop of Boston; Daugberty, Archbishop of Philadelphia, and Beghin, Archbishop of Quebec.

The Cardinals are for the time being staying at the various colleges and monasteries, according to their nationality. Cardinal O'Connell and Daugberty will probably stay at the American College.

On Thursday the fifty-three Cardinals will enter the Vatican, there to remain until they have chosen a successor to Benedict XV. The Sacred College met today to make final arrangements respecting rules.

These done by Gainsborough, Benjamin West, Sir Joshua Reynolds, and a number of lesser artists, as well as sketches made by Harvey Smith, Wolfe's aide-de-camp, from whom many of the artists secured the inspiration for their work.

The paintings by the different artists were widely at variance, some depicted Wolfe as a handsome young man, while others secured exactly the opposite result. In addition to Wolfe himself, reproductions of paintings of all the generals who served under him were also shown.

At his conclusion a vote of thanks was eloquently moved by Mrs. Daniel Mullin, and seconded by Miss Grace Leavitt. H. A. Powell and W. E. Fisher voiced their appreciation on behalf of the Men's Canadian Club.

EXMOUTH STREET EPWORTH LEAGUE

The Epworth League of Exmouth street Methodist church last evening spent a most enjoyable time under the direction of the social committee.

The first number on the programme was a visit to Ridewood Park, where some time was spent in the toboggan slide, after which they returned to the church and sat down to a bountiful banquet, piping hot. After the tables had been suitably disposed of, a pleasant hour was spent in music and various games.

C.N.R. Yard Office Totally Destroyed

Fire Caught from Stove Early This Morning—Books and Records Were Saved

An alarm was rung in from box 223 at about 1:30 this morning for a fire which caught in the C. N. R. Yard Office, Island Yard, from a stove used in the heating of the building.

After strenuous efforts all hope of saving the building was abandoned, and efforts were made to get the books and records, all of which were saved.

Investigate Cause of Knickerbocker Theatre Disaster

District Columbia Government Will Undertake Exhaustive Inquiries to Place Responsibility

Washington, Jan. 30.—Investigation of the cause of the Knickerbocker theatre disaster, which caused the death of more than a hundred persons, was begun today by several agencies of the District of Columbia Government.

Plans of roof, Colonel Keller insisted, indicate that the capacity for weight was greatly in excess of any requirement in a climate like Washington's.

"Sport Lover" Upholds Covey

St. John, N. B., Jan. 30, 1922. Sporting Editor Standard.

Dear Sir:—A great deal of attention is being taken place at the present time in the Maritime Provinces in connection with the question of amateur sport, and what is likely to happen if the present state of affairs is allowed to continue unchecked.

There seems to be two separate and distinct elements amongst the sportsmen in these parts, one of which is evidently out to smash the present organization and nearly all that stands for it. In my limited experience in sport matters in this section two things have forced themselves upon my attention, two things that have directly upon the situation as it stands today. One of them is the almost total lack of unity which is displayed at nearly all the gatherings of sporting men to discuss the affairs of sport. This seems to be so, not only in the Maritime Provinces but also well in various leagues and even the individual clubs where trouble often arises and team or individual interests are advanced and upheld at the expense of the organization as a whole.

I have noticed this spirit on many occasions. It was displayed at the last annual meeting of the M. P. B. A. A. U. of G. in Amherst in a conspicuous manner. It is displayed at many league meetings on flimsy pretences. This is a rank state of affairs and until it is remedied, until the common good of real brotherhood in sport, it is not likely we shall accomplish very much.

The other point I wished to mention was the careless indifference displayed in reference to the signing of the amateur form. It is clearly stated in the evidence available (and I have had a look at it), it is an absolute disgrace that how can I best work it to hold my amateur card and still get a little on the side?

No one suggests that to be a "pro" is anything but honorable. The crooked aspect looms up when the "pro" tries to masquerade as an amateur. This is the point of the whole present anti-doping movement.

President Covey has taken about the only course left open to him. A simple expedient it is, and one that will commend itself to every sportsman who has his record clear and no axes to grind. If we wish to uphold the old traditions of British sport, let us see to it that the present situation will end by the cleaning up of sport down here by the sea so matter at what cost. It is idle to say that the situation is hopeless, that practically every athlete of any ability is contaminated. It is true, but I very much doubt it, because we still have a lot of honorable athletes in spite of all this, even then the position is hopeful, because we have large numbers of young athletes who are just coming up and we can take care that this demoralizing influence that is abroad will be counteracted in no uncertain way. The sport and business to clear the situation is to teach the coming generation of athletes that they must hold to the letter and spirit of the amateur definition, not only for their own sake, which, after all, is the least important feature, but for the sake of the good name of a whole community and the nation as a whole.

Cordially yours, "SPORT LOVER".

Twin Soul Barred On Garland's Farm, Say The Police

Boston, Jan. 30.—Charles A. Garland will be arrested and dealt with according to law if he takes Lillian Conrad or any other woman to his farm in North Carver and attempts to live with her without a marriage ceremony.

No "free love" union will be allowed at April Farm regardless of the views of young Garland or any of his friends in respect to "twin souls" and such like. Furthermore, if any group of persons attempt to form a "free love" colony at Garland's farm they will land in the police court. Chief of Police Aiden Slason of Middleboro so declares.

"Garland will not be allowed to go on with any such a thing as a 'free love' union in this town," declares the Chief. "If a man lives with a woman without being married he will be dealt with as the law directs. The fact he has beliefs different from those of the lawmakers will have no bearing on the case. The fact Garland is a millionaire will not excuse him, either."

Meanwhile Garland the "idealist" has returned to his farm after passing two days in Boston. He returned without Lillian Conrad. What his mission in Boston was he would not tell, but he did say he had not been searching for Lillian Conrad, as he knew where she was.

When told that Lillian Conrad had repudiated his ideas and had cast him off, he said: "I shall not discuss Miss Conrad or anything else the newspaper reading public seems so anxious to read."

"Is there any truth in the statement of Doris Benson that not only she, but a group of men and women are coming down here to live on your farm this summer?" he was asked.

"I know nothing about it. I have no planned any colony."

Miss Benson is the young Agricultural College student adopted by Garland's mother, and who is reported to have said that on completion of her special course in college in a few weeks she expected to go to Garland's farm to live, and that she was in full accord with his theories.

FRANCE SEEING HERSELF AS SEEN BY MANY OTHERS

Paris, Jan. 30.—There are certain evidences today that France, after doing some real hard thinking, is at last beginning to see herself as others see her.

While some political experts—Portinax, for example—insist that the present American attitude toward France, and therefore toward the Genoa Conference, is based on material considerations, there are others, notably Philippe Millet, foreign editor of Petit Parisien, who now make open confession that the "greatest European democracy" needs to cease fooling herself and immediately turn over a new leaf if she wishes to maintain the good will of other nations.

M. Millet, writing under the nom de plume of "Diplomate," says in yesterday's Paris Midli:

"It is only too clear that American opinion today is unfavorable to France. The situation is really worse than it appears. It is only the American Government that holds the press and Congress in check and thus keeps the manifestations of displeasure less than they otherwise would be."

"It is futile for us to be indignant about it. We need do much better to search for the cause. There is no mystery. We should guard ourselves against ridicule by not attributing the situation to any invidious campaign directed against our innocence. There is no plot."

"When the Washington Conference seemed ended France suddenly presented a naval programme that not only appeared exorbitant but they also had more difficulty in pardoning us because we presented an obstacle in the final accord, especially as regards the tonnage of submarines."

"Since that day the most refractory Americans have believed us imperialists. It has been in vain that a small band of journalists have tried to rehabilitate us. We now pass for a race of honest people but without a political horizon, without generosity and without confidence in the future. At the moment the entire world desires to recommence business and live in peace, a legend has been created that France is an obstacle to universal welfare."

"This is somewhat our fault. In nearly all conferences we have had only a negative policy. Such will likely be the case at Genoa. Instead of fearlessly taking the lead in a democratic movement we continue to play the role of the recalcitrant schoolboy that needs his ears pinched."

accord with his theories.

Town Investigator Jim Lewis of North Carver washes his hands of the case. "I have investigated the affair," he said, "and find Garland is living in Middleboro, not in North Carver, which is just over the line."

Obituary

Mrs. Alexander Dobbin.
The death of Mrs. Alexander Dobbin occurred yesterday morning at the General Public Hospital. Besides her husband she leaves one son, Anthony Alexander, of Gethsemy; one daughter, Mrs. W. A. Conas of Rochesay, her mother, Mrs. Robert Ireland of Salt Springs; one brother, Robert Ireland, of Salt Springs; Mrs. Fletcher of Ben Lomond, Mrs. Cunningham of Ireland, Mrs. Parker of Boston, and Mrs. Chas. Mackay of Salt Springs.

Mrs. Margaret Hanley.
The death of Mrs. Margaret Hanley, widow of John Hanley, occurred yesterday morning in the Mater Misericordiae Home. She leaves three sons, James and Frank, of Montreal, and John of this city, and one daughter, Mrs. W. Andrews, also of this city. The funeral will be held this afternoon at 2:30 o'clock from the Home.

Edward Friel.
In the Mater Misericordiae Home on Saturday the death of Edward Friel, a retired business man of this city, occurred. Mr. Friel was formerly the proprietor of a gentlemen's haberdashery store at the corner of Dock street and Market Square. The funeral was held yesterday morning from the Home, where service was conducted by Rev. Abbe Chagnon. Interment was in the old Catholic cemetery.

Mrs. Katherine Chandler.
The death of Mrs. Katherine Chandler, formerly of this city, occurred Sunday at the residence of her daughter, Mrs. E. Kasser, in New York. Besides Mrs. Kasser, she leaves one son, J. J. Chandler, of this city; one brother, Charles Hazel, of this city, and three sisters, Mrs. E. Weldon, of New York, Mrs. William Norton, and Mrs. John Doherty, of this city.

Daniel Barker Lockhart.
Hillsboro, Jan. 28.—Following a trying illness of about two years duration, Daniel Barker Lockhart passed away at his home, Hopewell Cape, on Friday, Jan. 27 at 1 o'clock, p. m. in the 76th year of his age. Deceased came from his native town, Parraboro, N. S., where he had spent all his life, and where by his cheery and genial disposition enjoyed a wide circle of friends and acquaintances, to retire from public life in Hopewell Cape. He had followed the ship-building trade since early manhood. His wife survives, also a family of eight, and fourteen grand children, mourn the loss of a beloved father, uncle, and grandfather.

Gilbert O. Bent.
The death of Gilbert O. Bent occurred at his residence, 101 Leinster St., Jan. 30, 1922. He was the eldest son of the late Gilbert Bent. Mr. Bent was for twenty years a member of the firm of Gilbert Bent and Sons, until 1894 when he went to Boston to reside. He returned to St. John a few years ago since which time he has lived a retired life owing to ill health. He is survived by one brother, Frank G. Bent, of the firm of Gilbert Bent and Sons, and three sisters, Mrs. S. E. Dawson, widow of Dr. Dawson of Montreal, Mrs. A. L. Palmer, widow of Judge Palmer, and Miss Elizabeth A. Bent.

Funerals

The remains of Joshua Bridges were taken to St. Martins by train at noon yesterday for interment today.
The body of Mrs. Henry Hester Campbell will be taken to Bridgetown, N. S., by boat on Tuesday morning for interment. Yesterday afternoon, at 4 o'clock, service was conducted at St. Paul's Church by Ven. Archdeacon Grosvenor.

He Gained Twenty Pounds in A Year

That's Why This Man Praises Dodd's Kidney Pills.

Mr. Carl Bouteller of Mason's Point After Four Years' Suffering Took The Advice of a Friend and Used Dodd's Kidney Pills.

Mason's Point, Coast of St. Margaret's Bay, N. S., Jan. 30.—(Special)—"When I started to use Dodd's Kidney Pills I was twenty-three years old and weighed 106 lbs. In one year I gained 20 lbs." This is the statement of Mr. Carl Bouteller, a well known and highly respected resident of this place. It is one more addition to the great mass of evidence that Dodd's Kidney Pills are the greatest of all kidney remedies.

"I was laid up for four years with kidney trouble," Mr. Bouteller states further: "One day a friend advised me to use Dodd's Kidney Pills and I made up my mind to give them a trial. I used just six boxes in all."
The road to health lies through the kidneys. If they are kept strong and well all the impurities are strained out of the blood. But if they are weak and out of order the impurities stay in the blood and disease is sure to result.

Ask your neighbors if Dodd's Kidney Pills do not make strong healthy kidneys.

St. John Gets New Start Musically

Community Chorus Last Night at Imperial Rendered An Enjoyable Programme—On Again Tonight.

The St. John Community Chorus which has been in rehearsal under the direction of Prof. A. E. Brander for several weeks rendered its first concert in the Imperial theatre last evening to a crowded house and received generous applause for its every number. It is a definite step in advance in musical matter as viewed from a civic standpoint and much good should follow the novel idea of a community chorus under such circumstances.

The chorus is close to two hundred members strong, with female voices predominating. For so large a party of singers their opening concert bore testimony of St. John's reserve battalions of vocalists, who, if not already engaged in choir work, will very soon prove useful members for such organizations. In fact it takes just such genuine community efforts as the present one to prove to a city that it really does possess talent heretofore unknown.

The programme of seven numbers, distinctly popular in character, Mr. Brander's big choir demonstrated an aptitude and talent for performing that pleased greatly. There were no outstanding solos, to be sure, and no classical numbers that would test the best qualities of a trained voice, but in everything sung last evening the general effect was melodious. In perfect tune and rendered with a responsiveness to the baton that brought forth the author's conception of his work. On the whole it was a very delightful concert, and the applause proved that its hearers thought so. The best part of it is that it gives St. John a fresh start in public vocal music on a large scale.

DO YOUR BOWELS Move Regularly, Or Do They BECOME CONSTIPATED

There is no medium through which disease so often attacks the system as by allowing the bowels to become constipated, and there is no other trouble which feels its hold so that is more liable to be neglected, because material inconsequence may not be felt, at once, from irregular action of the bowels. When there is not regular action the retention of the decayed and effete matter, with its poisonous gases, soon poisons the whole system by being absorbed into it, causing violent sick and bilious headaches, internal bleeding, or protruding piles, heartburn, indigestion, etc.

MILBURN'S LAXA-LIVER PILLS will regulate the flow of bile so that it is properly on the bowels, thus making them active and regular, and removing the constipation and all its allied troubles.

Mr. Samuel Bugler, Tatemagoochee, N. S., writes:—"For over a year I suffered with constipation. I took several different kinds of medicine, but could only get temporary relief. I was told to try Milburn's Laxa-Liver Pills. I procured two vials of them, but after I had taken one I found that it was useless to my trouble. I do not hesitate to recommend Laxa-Liver Pills for any kind of constipation."
Price, 25c a vial at all dealers, or direct from a receipt of price from The T. Milburn Co., Limited, Toronto, Ont.

GERMANY NOW POSSESSES NEW NAVY OF 180,000 TONS

Under Washington Limitation Agreement Great Britain Already Has Sold to Her Nine Battleships, Four Cruisers and Some Thirty Destroyers as Junk—Must be Quickly Dismantled.

Berlin, Jan. 30.—An echo of the Washington conference was heard in Germany in the arrival in this country in the past month of thirty British warships which had been sold to German firms to be dismantled and used as scrap. For the moment private German companies can boast of possessing a navy of 180,000 tons, including nine battleships, four cruisers and between 20 and 30 destroyers, and two flotilla leaders. They were built before 1910 and must be dismantled in quick order, even their engines having to be taken apart within three weeks after their arrival here.

The material obtained from this one time unit of the British fleet will, before long, be doing service on farms in Central and Eastern Europe. All these ships were condemned before the Washington conference began. The fact that so much work is being taken from British laborers in England is able only by the fact that the Washington conference effected such a vast reduction in the British navy that these old ships are not counted in that work and must be taken care of in Great Britain. They were sold by the British Government to a contractor named Coban, who resold them to a German group, composed of several large iron dealers. The Germans paid about half a million pounds sterling for them, and, in their opinion, they got a bargain because of the fact there are so much brass in the older types of British warships. This brass serves as a godsend to the German market, where, because of the high prices, there is a scarcity of iron and steel, and such things as brass and iron ships are essential in the manufacture of agricultural machinery.

There was heavy loss in towing the vessels here in the unprofitable winter that has obtained during the last few weeks. The battleship Prince George and a destroyer were lost on the island of Iceland and the largest iron sink in a Channel strait.

1,000 Girls And Women Salvatore Maltesi The Recipient of Many Presents

Winnipeg, Man., 30.—Preparations for receiving in the early months of spring and summer approximately 1,000 girls and women from England for assured employment as domestics in Western Canada are now under way by the local offices of the Salvation Army. This is part of a scheme inaugurated by London headquarters whereby 10,000 women are to be transferred to the Dominion. The great majority will go to Australia. Commissioner W. E. Smith, in making a pronouncement here, stated that the provincial government was assisting in the plan by allowing a grant.

SHE DARKENED HER GRAY HAIR

Tells How She Did It With a Home-Made Remedy.

Mrs. E. H. Boots, a well-known resident of Buchanan County, Ia., who darkened her hair, made the following statement:
"Any lady or gentleman can darken their gray or faded hair and make it soft and glossy with this simple remedy which they can mix at home. To half a pint of water add 1 ounce of bay rum, one small box of Oriz Com pound and 1-4 ounce of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. It does not color the scalp, is not greasy and does not rub off. It will make a gray-haired person look twenty years younger."

Million Maids Wanted By Miners

Dawson, Y. T., Jan. 28.—"Wanted: A million maids, both old and young to help the Lavo miners develop the wonderful silver mines of the district." This runs an advertisement in a local paper inserted by a company engaged in a freighting and packing business, which brings the first intimation to Dawson that a grave servant problem confronts the inhabitants of Mayo. As the flourishing silver city boasts a population of only 1,000, it is considered here that the order is a little too large.

Ottawa Benefits By W. G. Black's Will

Ottawa, Jan. 30.—By the will of the late W. G. Black, insurance agent, which was filed for probate today, an estate of about \$180,000 is disposed of. The sum of \$100,000 is left to the city of Ottawa to be used in beautifying the grounds of the new civic hospital in course of construction.

Grandma Used Sage Tea To Darken Hair

She Mixed Sulphur With It to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Using the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound for use. This is the old-time recipe improved by the addition of other ingredients.

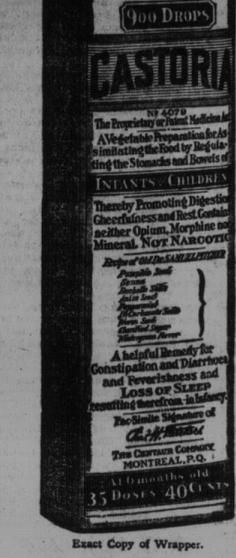

White, wavy, gray, faded hair is not staid, we all desire to retain our youthful appearance and attractiveness. By darkening your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two your hair becomes a clean, healthy, dark, glossy, soft and lustrant.

When Baby Complains.

THERE ARE MANY WAYS a baby has of expressing any pain or irregularity or digression from its normal condition of health and happiness. A short sharp cry, a prolonged irritated cry, Restlessness, a constant turning of the head or of the whole body, fretful. In these and other ways a baby tells you there is something wrong. Most mothers know that a disordered stomach, or bowels that do not act naturally are the cause of most of baby's sufferings. A call for the doctor is the first thought, but in the event of any delay there should be ready at hand a safe remedy such as Fletcher's Castoria.

Castoria has been used for baby's ailments for over 30 years and has merited the good will of the family physician in a measure not equaled by any other baby's medicine because of its harmlessness and the good results achieved.

And remember this: Castoria is essentially a baby's remedy and not a cure-all for every member of the family. What might help you is too often dangerous when given to a babe.

Children Cry For Fletcher's CASTORIA

Let's Think It Over.

There is such a thing as saying too much on any subject, and the "grand-stand" talker sooner or later becomes a bore. The truth is always welcomed, and the truth reiterated and confirmed is more than welcome—it reaches your innermost soul.

Fletcher's Castoria is all its advertising has claimed for it. Scrutinized by the microscope of public opinion and used for over thirty years it stands without a peer in the hearts of thoughtful, cautious, discerning Mothers. And once used, mother love—there is no substitute for mother love—will soon try a "substitute" or a "just-as-good".

Maquering under many names drugs that are injurious to the tender babe have found their way into some households, but the light of experience soon casts them out. Are they cast out before it is too late? MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA.

GENUINE CASTORIA ALWAYS Bears the Signature of

Fortieth Annual Meeting Largely Attended—Reports Received from All Branches—History of the Church.

The 40th annual meeting of the Mission Church of St. John the Baptist was held last evening, and was the most largely attended in the forty years of its history. The Sunday School being closed to overflowing. The reports submitted were of a most encouraging nature and promised an even better year for 1922.

The choir was taken at eight o'clock by Rev. J. V. Young, priest in charge, who had on the platform with him Rev. Fr. Davison of St. John the Evangelist Church, Montreal and the members of the trustee board.

After calling the meeting to order, Fr. Young read his annual report in which he reviewed the work of the year with a commendable charge.

"During the past year there have been 241 celebrations of the Holy Eucharist. On 41 occasions the sick have been visited for the purpose of celebrating the Blessed Sacrament. The other figures are as follows: Baptisms, 5 adults, 51 infants, total 56. Marriages, 2. Burials, 21. Communion, more than 2,137."

"And now I feel I must congratulate you upon the splendid way you have given to the church. I really think we have had a wonderful year. The large deficit at the end of 1921 was almost terrifying, but now we have paid our own way for the past year, and have returned the old debt to \$269.09. Let us make a big effort this year to be sure to have a clean sheet at the end of 1922. I want also to thank you for the generous way you have helped the needy. I am truly thankful for many donations of money and clothes. Many also from other parishes have helped, including a large contribution from the parishes of Ormoco and Margerville. These gifts have all helped very much indeed. Surely they have good cause to be thankful."

"In conclusion I wish to thank the choir, servers, wistans and the Guilds of the church for their loyal support and splendid work. Also please accept my most sincere thanks for all the kindness shown to us. I pray God to bless everyone of us and to make us more worthy of His love."

Financial Report

The treasurer, Mr. Prith, reported an overdraft at the beginning of the year of \$1,373.99 and expenditure of \$5,636, a total of \$6,999.99; the receipts for the year had been \$6,730.22, reducing the overdraft to \$269.77 at the end of the year. The assistant treasurer, Mr. Blair, made a short address. Col. Sturdee gave a short address on the state of the church in the city before the Mission Church was established and the circumstances under which it was founded.

The next number of the programme was a fine address by Rev. Fr. Davison. He congratulated the church on the splendid reports which had been read and referred to the close connection which existed between his church in Montreal and the church here.

Birthday Bags
The guild reports were submitted as follows:—St. Monica's, Miss Jack; Holy Cross, Mrs. Forster; Women's Auxiliary, Miss McKenzie; Junior W. A., Miss Prith. A feature of the meeting was the opening of a number of birthday bags, given in the name of the church had been sent to every

Church History

The first services were held in the Mission Church on Saturday, January 25, at 7:30 and consisted of a Choral Evening. The building was dedicated by Rev. J. M. Davenport. On Sunday special services were held, Fr. Davenport being the preacher.

Fr. Davenport remained as priest in charge until October 1891, when he received a call to St. Clement's Church Philadelphia, returning however to the Mission church in November 1893.

In 1899 the erection of a Sunday School was undertaken and carried through at a cost of about \$7,800.

The church has received many fine gifts from friends and members, among those recently added might be mentioned a window in the chancel in memory of the late Herd Peters, a former trustee; splendid Reredos in memory of Fr. Davenport; in memory of the late A. W. Whittaker, killed in war; brass memorials of those killed in war; and to Mrs. Peters, Mrs. Christian, C. H. Williams, golf Tux and some handwoven linen for the altar.

The Officials

The first trustees were:—G. A. Schofield, I. Allen Jack, H. W. Prith, Alban Thomas, J. P. Hanington. The present officials of the church are:—Rev. J. V. Young, Priest in charge; Rowland Prith, Percy Logan, lay readers; H. B. Schofield, Col. E. T. Sturdee, Rowland Prith, W. A. Jack, Charles McLaughlin, M. V. Paddock, J. M. Robertson, trustees; J. P. Morrison, E. B. Blair, I. J. Worden, J. M. Northrup, W. G. Roberts, P. Hamilton, R. C. McAfee, I. Logan, A. E. Brown, G. Williams, F. H. Glasby, E. Devonne, James Brown, finance committee.

The Priests

The priests who have served the church are:—

May 26, 1891—Rev. J. M. Davenport accepted Rectorship of St. Clement's, Philadelphia.
September 26, 1891—Rev. J. H. Geare appointed Priest-in-Charge.
April 1, 1892—Rev. J. H. Geare resigns in broken health.
June 1, 1892—Rev. Dr. Pallan-Williams appointed Priest-in-Charge.
November 1, 1893—Dr. Pallan-Williams resigns and Father Davenport again accepts the charge.
October 1, 1899—Father Davenport resigns to become Rector of St. Thomas, Toronto; Rev. C. B. Kenrick appointed Priest-in-Charge.

Marquis Wheat Still Popular Variety On Western Farms

Will be More Extensively Grown This Year on Prairies Than Any Other Variety.

Winnipeg, Man., Jan. 30.—Marquis wheat still is the popular variety among Western farmers, according to Winnipeg officials of the seed branch of the Federal Department of Agriculture. It will be more extensively grown this year on the prairies than any other variety. Ruby wheat, however, is growing in popularity owing to hard winters. Marquis wheat, it is expected to be sown extensively. The object in using it is to avoid, to some extent, the effects of drought and the possible ravages of rust. It is sown only in areas where rainfall is not abundant.

Brokerage Firm of Fairbanks & Gosselin Fails

Liabilities Expected to be in Neighborhood of Quarter Million Dollars.

Montreal, Jan. 30.—It was announced on the floor of the stock exchange this afternoon that the firm of Fairbanks and Gosselin, stock brokers, had suspended payments. The firm's liabilities are expected to be in the neighborhood of a quarter of a million dollars. The failure was caused by the depreciation of stocks in which the firm was heavily interested, and which were responsible, also, for the bankruptcy of Thornton, Davidson and Company last fall. These stocks are Canadian Forgings and Ames Holden. The announcement of the failure of the concern caused little surprise on the Stock Exchange because it was known it had been helped out but had not been able to weather the storm.

Italy Hopes in Vatican To Defeat Bolshevism

Paris, Jan. 30.—The chancelleries of Europe are commenting with unexpected fervor on the attitude of the Quirinal, as well as that of the Italian royal family, in connection with the death of Pope Benedict and the election of his successor.

12,080 U. S. Settlers Entered Canada 1921

Winnipeg, Man., Jan. 30.—With a total cash capital of \$3,786,000 twelve thousand and eighty United States settlers entered Western Canada last year. This, according to the report of Thomas Gellay, commissioner of lands,

Buoyant Tone of Foreign Exchange Featured Market

Demand Bills on London Made Further Advance of 3/4 Cents to 4.28.

New York, Jan. 30.—The buoyant tone of foreign exchanges which seemed to be based mainly on the improvement shown by European economic conditions, was the outstanding feature of today's financial markets. Demand bills on London made a further advance of 3/4 cents, to 4.28, the best quotation in over two years. French, Italian, Belgian, Dutch, and most of the neutral rates, rose ten to almost 25 points. German marks were the one exception, showing no perceptible change.

British Exchange Rates Advance To Higher Levels

French and Italian Bills Registered Gains from Ten to Twelve Points.

New York, Jan. 30.—Another buoyant advance in British exchange rates to highest levels since August, 1919, was the feature of the day in the financial markets.

Cannot Compel Roads To Operate At Financial Loss

Railway Commission Has No Authority to Force Service on Lines Not Paying

Ottawa, Jan. 30.—According to a judgment of the Board of Railway Commissioners for Canada, issued this morning, that body has no jurisdiction in the matter of ordering any railway company to continue service over lines which the railway company cannot operate on a paying basis.

Stock Transactions On Montreal Market Fell To Low Levels

Little Interest in Market Outside of Steamships Preferred, and Montreal Power.

Montreal, Jan. 30.—Trading on the local stock exchange today fell to a lower level than for any day this year, beyond a little activity in Steamships preferred and continued buying in Montreal Power. There was little interest displayed in the market, while the tendency of prices was distinctly downward.

Many Exporters and Millers Crowded Wheat Market

Took Fair Amount of Offerings, Dropping Out When They Became More Liberal.

Winnipeg, Man., Jan. 30.—Exporters and millers were on the wheat market here today and took a fair amount of the offerings. When the offerings became more liberal towards the close they dropped out, however. Farmers were taking advantage to the advance in prices and selling in pretty good volume. Futures closed at the high of the day, showing a gain of one cent for both May and July.

Buying Power in Chicago Pit Most Active in Month

Smallness of Farm Reserve Supplies and Mill Stocks Boosted Trade.

Chicago, Jan. 30.—Buying power in the wheat market today was the most active that has been seen in several months. Estimates were current which emphasized smallness of farm reserve supplies of wheat and of mill and elevator stocks. The close was firm at half to 1 1/2 cent net higher with May 1 1/2 to 1 1/4 and July 1 1/2 to 1 1/4. Corn finished 1 1/2 to 1 1/4 cent down and oats of 1 1/2 to 1 1/4. In provisions the outcome was 5 to 20 advance.

Raw Sugar Market Showed Steadiness

New York, Jan. 30.—The early raw sugar market was steadier, but there were no sales reported and prices were unchanged at 2 1/16 for Cubas cost and freight, equal to 3.67 for centrifugal. The steadier feeling in the spot market led to renewed buying in raw sugar futures and prices at midday were 5 to 7 points net higher.

MOTHER!

Move Child's Bowels With "California Fig Syrup."

Even a cross, frowny, bilious, or constipated child loves the "fruity" taste of "California Fig Syrup." A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Wonderful Film At Opera House

"The Four Horsemen of the Apocalypse Is the Picture of the Century."

An epic tale of surging passion sweeping from the wide plains of the Argentine through the fascinating frivolities of pre-war Paris into the bleak turmoil of the German invasion of France was unfolded last night at the Opera House. It was the first public showing in this city of "The Four Horsemen of the Apocalypse," the Rex Ingram production made for Metro. The picture adapted from the great novel of Vicente Blasco Ibañez has intensified the dramatic force of the original story and it held the spectators breathlessly intent as with swift sure strokes it hammered home the terror and grandeur of the war, and a great deal of the humor and light-hearted gaiety that kept bubbling up through the turbid stream of struggling humanity when the world was in arms. The director, Rex Ingram has succeeded in concentrating the great struggle in a series of unforgettable pictures that flash out the quintessence of life at white heat. He makes us see above the struggle the awesome figure of the "Four Horsemen" of Conquest, War, Famine and Death, prophesied by St. John, in the Book of the Apocalypse, charging into our very hearts and through it all is the deeply moving spectacle of intensely real people in their baffled attempts to adjust themselves to the demands of war days. In the picture the war is realized on a gigantic scale, with a greatness of imagination that dwarfs all our ambitious attempts that the screen has seen. "The Four Horsemen" is the fulfillment of the promise of a noble art in pictures and without exaggeration can be classed as "The picture of the Century."

VIA "NATIONAL" RAILWAYS TO OTTAWA CARNIVAL

Many Visitors Expected to Gather at the Dominion Capital Next Week.

There will be many visitors to Ottawa during the week from Jan. 25 to Feb. 4, when the "Canadian National Winter Carnival" will be held. All the essential and enjoyable features of a Canadian winter will be provided. There will be curling, skating, tobogganing, skiing, hockey, etc.

The way to Ottawa from all Maritime Province points is via Canadian National Railways. The train service is afforded via the "Maritime Express" and "Ocean Limited" to Montreal. Municipal Chapter Monthly Meeting

Will Bring Soldier's Wife Out from England—Arrangements for Princess Mary's Wedding Gift Discussed.

The monthly meeting of the Municipal Chapter, I. O. O. E., was held yesterday afternoon in the Government rooms, Prince William street, and several matters of interest were dealt with.

It was decided the Chapter would undertake to bring the wife of a soldier out from England, and Miss Edith Gilmer and Mrs. H. C. Carter were appointed a committee to make the necessary arrangements.

Loyalist Chapter had sent in a request for a fixed date on which to hold their annual convention, and the meeting on Saturday in December was allotted to them for that purpose.

On motion of Miss Gilbert, seconded by Mrs. W. I. Fenton, it was decided to send a copy of the minutes of the meetings of the Municipal Chapter to each of the primary Chapters.

Mrs. J. Boyle Travers was appointed to represent the Municipal Chapter at the annual meeting of the Labrador Medical Mission, to be held this afternoon in Stone Church.

The I. O. O. E. wedding gift to Princess Mary was discussed, and it was decided to ask each primary chapter how much they would contribute to this purpose, the money to be forwarded to the National Chapter.

The question of a monument to the heroes of St. John who fell in the great war, was discussed, and this matter will be dealt with by the primary Chapters at their February meetings, the results to be acted on by the incoming Municipal Chapter.

Mrs. Yoom reported that Robert Norwood was to arrive at the Pythian Castle in the near future, and she asked for the support of the members of the I. O. O. E. to make his visit a success.

Kind Friend Left Liquor In House

Court However Found Him Guilty and Fine of \$500 Was Struck.

In the police court yesterday morning, Theodore E. Morrison pleaded not guilty to a charge of knowingly having illicit liquor in his possession contrary to the provisions of the Inland Revenue Act. Evidence was given by Excise Enforcement Officer Daves and Policeman Lewis regarding the finding of the liquor in the defendant's house at Prince Edward street. The accused told the jury that the liquor was brought to the house while he was at the infirmary and that he did not know who brought it. The defendant was fined \$500 and as he was unable to pay the fine he was remanded to jail.

Policeman Lewis told the court that there were five small children at the defendant's home, the youngest of whom, two years of age, was very ill. It was also said that the man's wife was very sick at the infirmary, and there was no one to look after the family. Arrangements were made to have Police Constable Fitzmorris care the case and have the children taken care of.

"Proxy" Prisoners Paid Ten Dollars Each By Police

Haul Ringers Off Chicago Streets to Free Victims of Booze Raids.

Chicago, Jan. 30.—A police conspiracy by which six men were hauled in from the street and fined \$10 each to substitute for six "record prisoners" caught in a gambling raid resulted in the suspension today of Chief of Police Fitzmorris by Lieut. Jas. Doherty and five other officers.

"The whole thing was plainly an organized conspiracy to keep criminals caught in the raid from going through the Detective Bureau," said Fitzmorris. "It was engineered and carried out by police officers sworn to enforce the law. I am going to have this whole bunch pulled before the Grand Jury."

"I was in a restaurant at 3 o'clock Wednesday morning," Shelton said, "and a fellow came by and asked me if I wanted to make \$10. He said, 'Come on over to the Warren avenue station for about three hours.' I said I would. We went to the station and some one in the cellroom opened the door and the fellow in the cell told me I was to be booked under the name James Albert. He gave me \$10 just before he left."

It has been generally known in the underworld for years that prisoners arrested in police raids frequently were represented in court by substitutes to save them from going to the detective bureau, where they might have been connected to some paid-up prisoners. It was said to have paid as high as \$200 for this privilege.

Lieut. John W. McCarthy at 1 a. m. yesterday made a raid on a gambling house and three patrol wagons were called to carry away the forty-five prisoners. They were locked up about 2 a. m. Between that time and 4 a. m. the Chief's gang, he has established the places of at least six of the prisoners were taken by "ringers."

Emigrants Losing Heart On Arrival In The Dominion

Measures Being Adopted Looking Toward Improvement of Conditions, Says Overseas Committee.

London, Jan. 30.—(Canadian Press Cable)—Replying today on behalf of the Overseas Settlement Committee, to a complaint of a deputation representing the Constitutional Labor Party, that there was lack of cohesion between the Committee and the Overseas Government Departments, which resulted in emigrants losing heart on their arrival in the Dominion, Col. L. C. S. Amery, Under-Secretary of State for the Colonies, declared that the Committee substantially agreed with what had been said. Measures were being gradually adopted, however, which would improve conditions.

Mr. Amery added in regard to the reception of emigrants on their arrival in the Dominion, it was a matter, the Under-Secretary said, which remained entirely in the hands of the Government departments, and he doubted the wisdom of any deputation being sent to the Dominion to take the matter up with the respective governments.

During the last session of Parliament, Hon. Edward F. Wood, the Parliamentary Under-Secretary for the Colonies, announced that close attention was being paid by the British Government to encouraging immigration to the Dominions of a due proportion of women and men. Mr. Wood added that the problem was soluble only by permanent co-operation between Great Britain and the Dominions. He laid stress on the fact that empire settlement was not compulsory among overseas Communities, saying: "It is an optional policy, and optional it always will remain."

Indoor Life

Spending more time indoors makes women far more subject to constipation than men. The liver becomes sluggish and torpid, the bowels constipated and the system poisoned by impurities. If you would get away from the myriads of ills which result from constipation, it is only necessary to use Dr. Chase's Kidney-Liver Pills.

The benefits from their use are as lasting as they are prompt and certain.

Mrs. John Barry, 18 St. Amable Street, Quebec, Que., writes:

"This is to certify that I was troubled for years with constipation and tried all kinds of medicines without relief. At last my husband suggested that I buy Dr. Chase's Kidney-Liver Pills. I did so, and must say that they have given me more relief than all the medicines I have taken during the last fifteen years. I may also add that I have seen Dr. Chase's Ointment for piles with excellent results."

Council Committee Pass Estimates

Those of Safety Department and School Board Are Recommended - Tax Exemption Laid Over.

The city council in committee yesterday, passed the estimates of the safety department and of the school board, and recommended them to council.

The school board estimate was passed as presented, but the safety estimates were cut about \$7,000. No action was taken on the request of the St. John Fisheries for exemption from taxation, owing to opposition which developed.

The safety department estimates were recommended as follows: Lights \$42,568.60; Police \$194,286.56; Fire \$121,100.70.

The estimate from the school board totaled \$449,273.58, including the cost of assessing and collecting, and this was recommended to the council.

An item of \$10,000 was assessed for the city survey. The chamberlain recommended the assessment of \$17,750 a year for ten years to meet the deficiency in the last issue of bonds which sold for \$7,371.

A. A. Ellis and C. J. McMillan, representing the St. John Fisheries, Ltd., were heard in connection with their application for exemption from taxation on a proposed fish cannery here.

The tenders for a steam heating plant in No. 1 Hook and Leader station were opened and referred to the mayor and commissioner of safety, as follows:

G. and E. Blake, \$1,385; W. B. McPonough, \$1,085; J. H. Doody, \$1,400; J. P. Henneberry, \$1,400; R. E. Fitzgerald, \$1,470; W. E. Emerson, \$1,947.

Commissioner Jones reported that an additional 275 feet would be needed for the eight inch main in Prospect street and the cost of the work would be \$5,170. Action was deferred until today.

Norwegian Ship Was on Maiden Voyage from New York - Cargo Shifted and Steamer Was Thrown on Beam Ends During Heavy Gale and Mountainous Seas - Hatches Stove in and Life Boats Washed Away - Entire Crew Left Helpless on Sinking Vessel - S.S. Mod Plunges into Deep and Crew Thrown into Sea - Gallant Rescue by Head Liner Melmore Head.

Those Who Lost Lives Captain Waerle, Chief Officer Knudsen, Second Officer Ianssen, Third Officer Hilgson, Third Engineer Bendixen, Chief Steward Arnen, Fireman K. Olsen, Fireman Straetead, Fireman Ole Olsen, Fireman Snelberg.

Survivors Chief Engineer Peter Iversen, Boatswain Olgar Aakassen, Cook Arnet Pedersen, Rolf Pedersen, Bernard Andersen, Jan Christiansen, Olaf Borsen, Henry Andreas, Hans Holgen, Albert Andersen, Breda Pedersen, Hjalmar Johansen, William Olsen, Rolvin Hansen, Eugen Christophersen, Zacharie Nowels, Harry Olsen, Hans Hansen, Cnut Holm, Carl Eriksen, Martin Johansen, Forsten Hansen, Paul Eriksen.

Twenty-three surviving members out of thirty-three men who formed the crew of the Norwegian steamer Mod, arrived in port yesterday on the steamer Melmore Head, Captain Butt, of the Head Line, which picked them up in mid-ocean while on a voyage from Belfast and Dublin.

The Mod was on her maiden voyage with general cargo from New York, bound for Antwerp, Bremen and Hamburg. During severe gales and mountainous seas the cargo shifted. The crew managed to right the ship for a while, but she was again knocked down, her hatches stove in, and lying practically on her beam ends and slowly sinking, the ship and crew were left to the mercy of the elements.

The life boats had all been carried away, only one small boat was left, and this was useless; the food was damaged by salt water; the crew were driven from the forecastle, which was flooded, and spent many hours huddled together on the decked ship.

The S. O. S. call for help brought the Head Line Melmore Head, Captain Butt, to the assistance of the doomed men. A life boat was launched from the Head liner, and manned by gallant seamen went to the rescue. When near, the Mod gave a lurch and sank, throwing her crew into the sea. Every man was forced to battle for his life, grasping every piece of wreckage with tenacity.

Fortunately, only two of the survivors were injured, the cook being badly scalded and another member of the crew receiving a crushed hand. The local Norwegian consul, Kenneth J. MacLachlan, was on hand when the Melmore Head arrived, and is looking after the comfort of the shipwrecked men while in the city, and will attend to the transportation to their homes.

The story as told by the survivors and Captain Butt of the rescue ship, is one of terror and dreadful hardship.

Chief Engineer Peter Iversen of the Mod, who could talk English, told the story of the terrible experience through which he and his shipmates had gone through.

On Tuesday the 17th the ship ran into heavy weather, there was a strong gale blowing, and the sea was running high. The storm increased, and on the following day, while the ship was being tossed about, the cargo shifted, and the Mod was thrown down to port. Members of the crew were sent below and worked hard at the cargo in shifting it back to the ship could be placed on an even keel.

By their hard work the Mod was partly righted, but the storm was so bad and the seas so high that when one mountainous sea struck the ship the cargo was again shifted to port and this looked like the finish of the line new ship.

While lying on her beam ends at an angle of about forty degrees every large sea pounded many tons of water over the ship and down on the decks.

Forecastle Flooded The seas broke into the forecastle, and the crew were obliged to find means either to shift the cargo or to make for progress against the elements. All day Thursday the storm kept up, and on Friday the gale increased, and the Mod was again thrown down to port.

On Saturday a terrific sea struck the ship and threw her down farther on her port side, and she rolled to right again. It was then found necessary to stop the engines. The steering chains had become fouled with the deck cargo, and the Mod was left helpless at the mercy of the waves. It was then during the time that the ship was keeled over that the cook was badly injured while at work in the galley. A large pot of boiling water was thrown from the stove and the cook was badly scalded.

Without Food Every large sea broke over the ship and there was no food to pass out to the crew, as it was soaked with salt water.

There was nothing left for the Captain and crew to do but await the arrival of some ship that would take them off. Cold and hungry they huddled together, every time the disabled ship would rise to the top of a sea there were anxious eyes looking for a ship to rescue them from their dreary position. The pumps were kept going steadily; but on Sunday it was found that the ship was making water so fast that the pumps could not keep her clear, and it would only be a matter of time before she would sink. To be on board a sinking ship in mid-ocean, during calm weather, is bad enough; but to be on a ship that is sinking during a terrible storm, is something horrible. There was a gal-

lant crew hoping against hope that their ship would survive, and at the same time every chance against them. An attempt was made to launch a small boat as the life boats had either been smashed by the heavy seas that broke over the ship, or else were torn away from the davits and carried to sea, in trying to get the small boat off her side Chief Officer Knudsen was jammed between it and the side of the ship, and he was quite badly injured.

No further attempt was made to launch the boat, as it could be plainly seen that it would surely be broken to pieces as soon as it touched the side of the ship.

All the time the Mod was slowly sinking lower in the water, and it was a happy sight for the crew, who had about given up hope, when about noon on Sunday, the Head Liner Melmore Head hove in sight, and a prayer of thanks went up that the S. O. S. had been heard.

The first officer of the Mod, although badly injured while attempting to launch a boat, made a great fight for his life. He managed to obtain a hold on the legs of a young seaman who had grasped a life buoy, but he did not hold on very long and sank to his death.

Commander Lost Just about a quarter of an hour before the Mod sunk her commander Captain Waerle, left the deck and went to his cabin, and as he was going down with his ship, along with First Officer Knudsen, Second Officer Ianssen, Third Officer Hilgson, Third Engineer Bendixen, Chief Steward Arnen, and Fireman K. Olsen, Straetead, Ole Olsen, and Snelberg. These ten members of the crew

They were lost, while the Melmore Head managed to save the other twenty-three.

The survivors when taken on board the Melmore Head were in an exhausted condition but they state that they were well looked after, and give their utmost thanks to Captain Butt, his officers, and crew on the Head Liner, who were so kind to them.

The Rescue Ship Captain Butt, of the Melmore Head was a pretty tired man when his ship reached port yesterday morning, for his ship was some four days late arriving owing to the stormy weather he encountered during the voyage, but he willingly gave an account of the rescue and had nothing but words of praise for his men who manned the life boat and went to the wreck to save lives.

Captain Butt said that it was on Saturday, January 21, while in latitude 49 deg. 15 min. N., and longitude 41 deg. 10 min. W., and with the barometer 29.25, that he ran into severe hurricanes with mountainous seas. At 2 p. m. he received an S. O. S. from the steamer Mod, who gave her position in latitude 46 deg. 15 min. N., and longitude 41 deg. 10 min. W., which made her about 140 miles south of the Melmore Head.

Shortly after a wireless was received from the United States Liner George Washington reading, "Coming to your assistance." "Coming to your assistance." "Coming to your assistance."

Later in the day the wind increased in velocity and the seas were tremendous. Sunday, Jan. 22, dawned with a tremendous hurricane from the southeast by south. At 9.15 a. m. another S. O. S. was received from the Mod, as follows: "Require immediate assistance." The course of the Melmore Head was immediately altered for the vessel, which would be about forty miles distant. At 10 a. m. the following message was sent to the Mod: "Melmore Head thirty miles north, coming to your assistance."

"At this time the wind was southerly, with hail storms and a very rough sea. At noon another message was received from the Mod saying that they had got observations and said latitude 45 degrees 17 minutes north, and longitude 41 degrees 10 minutes west. At 1.15 p. m. the vessel was close to her at 150 p. m. Her position actually was latitude 45 degrees 15 minutes north, and longitude 39 degrees 30 minutes west. Thus she was seventy-eight miles in error in reporting her position. The Mod was in terrible condition. She was lying on her beam ends, heavy seas were washing her decks, all her life boats were gone, and No. 2 hatch was stove in. At 2 p. m. I sent the life boat away in charge of Mr. Cole, chief officer. They experienced a terrible time in closing in on the lee of the wreck, as they were nearly carried onto the deck by the backwash and smashed. They succeeded in getting a line to the ship, but it was carried away, so they laid off. The chief officer told the men to jump into the sea and that she would pick

them up. Four men did so and were hauled into the life boat. At 3.55 p. m. the vessel capsized and sank. Not until the final moment did the crew jump, and ten perished. The captain and chief officer going down with the ship.

Picked Up Men "When the vessel sank we steamed around among the wreckage and hauled five men on board and later picked up several more, and also saved some who were in a small boat. At 5.30 we proceeded to haul our life boat on board. It was half full of water from the seas which had been breaking over her. We cruised slowly around, but could see no sign of any more of the crew. At 6.30 it became dark and we gave up the search having saved twenty-three out of thirty-three. The men were in a bad way, suffering from exposure, immersion in the water and the strain of standing on the vessel, when she was on her beam ends for twenty-four hours not knowing what moment would be their last, and with no food for thirty-six hours.

"The weather had moderated and we made full speed ahead for our destination, St. John, but the next day, we ran into worse storms than ever, and for days we were buffeted by the mountainous seas, and almost having saved twenty-three out of thirty-three. The men were in a bad way, suffering from exposure, immersion in the water and the strain of standing on the vessel, when she was on her beam ends for twenty-four hours not knowing what moment would be their last, and with no food for thirty-six hours.
