NO. 86

HARRIMAN ARRESTED AT YALE-HARVARD RACE

Taken Aboard a Revenue Cutter and Treated Like a Common Prisoner

Railway Czar Refused to Move Motor-Boat Out of Way of Contestants, and Roosevelt's Naval Aide Ordered Millionaire Into Custody--A Magnificent Struggle Between Old Rivals, But the "Crimson" Lost by Three Seconds.

New London, Conn., June 27--Before the greatest crowd that ever witnessed a race on the Thames river, the Yale crew this evening, rowing on an average of four strokes to the minute less than Harvard, held the big Cambridge crew even until the last half mile, when they let out their speed and won a great race by a scant boat length. Never once in the whole four miles did the long, graceful shells cease to lap each other. The delicate prows seagaged between the strokes and the thousands aboard the trains and every kind of floating craft and those who lined the shore sent cheer upon cheer to the old rivals as they fought out one of the grandest races in the history of Harvard-Yale boating. Yale's time for the four miles was twenty-one minutes and ten seconds; Harvard's, twenty-one minutes and thirteen seconds.

Harriman Arrested. The race was accompanied by one disagreeable incident. This was the arrest of E. H. Harriman, the railroad magnate, by Lieutenant Billard, President Roosevelt's naval aide. Lieutenant Billard, who was in charge of the revenue cutters, had warned every boat owner not to follow the race. The big "varmint" struggle had scarcely started when Mr. Harriman, in a powerful motor boat, started to follow the race. Lieutenant Billard and Chairman Schweppe, who were aboard the regatta committee boat, the Arrow, repeatedly warned Mr. Harriman to stop his engine and get out of the course. Mr. Harriman not only paid no attention to them, but took a position right alongside of the referee's boat, and held it off the navy yard. Lieutenant Billard, who was in the launch and tooted the revenue whistle, which finally caused Mr. Harriman to shout "You are under arrest, sir," shouted Lieutenant Billard. "You will give yourself up to this man, who will take you aboard the Gresham to await my orders." Then it was discovered that the man in the powerful and speedy motor boat was Mr. Harriman. Chairman Schweppe, who was shouting to Mr. Harriman in tones which the latter could not mistake. The millionaire levelled his forefinger at Chairman Schweppe and yelled back: "Young man, I will see you later."

BOND EXPECTED IN QUEBEC TODAY

Newfoundland Premier Will Stay Two Weeks in Canada Discussing Labrador Boundary Question.

St. John's, Nfld., June 27--Sir Robert Bond, premier of Newfoundland, who has been in England attending the colonial conference and discussing the American fishery question with the colonial secretary, is expected to reach Quebec tomorrow. The premier will stay in Canada about two weeks for the purpose of taking up the Labrador boundary problem with the Canadian government. Newfoundland has jurisdiction on the coast section of Labrador, but the extent of this has never been accurately determined.

STARTLING FIGURES OF CANADA'S GROWTH

Nearly \$400,000,000 More Capital in Industries Than Five Years Ago--Products Increased \$234,000,000 During the Same Period--Some Decreases.

(Special to The Telegraph.) Ottawa, Ont., June 27--The census and statistics department issued a bulletin today on the capital employed in manufacturing establishments in Canada in 1905. The amount of capital in manufacturing industries was \$843,031,178 as compared with \$449,016,487 in 1900. This shows an increase for the five years of \$393,000,000 or about 90 per cent, while production increased by \$234,000,000, or about 50 per cent. The disparity in the ratios of increase is said to be due to the inability of recently established works to produce to their full capacity. In car and carworks, for example, the ratio of production to capital in 1905 was 151, and in 1900 it was 101, in Portland cement works it was 85, and in smelting works it was 67 and 32, and in electric light works it was 17 and 9 for each year respectively. The five years have been a growing period in industrial investment as the full results are not yet realized. The capital invested in agricultural implements increased from \$18,207,342 in 1900 to \$28,469,806 in 1905. Axes and tools from \$1,169,840 to \$3,472,675. Boots and shoes from \$11,005,800 to \$11,819,163. Bread, biscuits and confectionery from \$6,896,294 to \$10,367,797. Brick, tile and pottery from \$4,210,244 to \$7,110,685.

CANADA MAY STOP I. C. R. PROHIBIT UNDESIRABLES BOARD FORMED

Feeling That Government Assisted Emigrants Better Go Somewhere Else

NO SETTLEMENT YET IN EFFECT SINCE JUNE 1

Sir Edward Grey Says No Understanding in Regard to Newfoundland Fisheries Has Been Arrived at With American Government--Obstructionists May Delay B.N.A. Bill. (Special to The Telegraph.) Montreal, June 27--Special cables from London say: Hon. Thomas Bent, premier of Victoria, will sail on the Empress of Ireland tomorrow, returning to Australia. He proved the most outspoken critic of the British ministry's attitude at the colonial conference, resulting in Lord Elgin's refusal to invite the state premiers and give them imperial recognition. The popularity of the Canadian route to the Antipodes was also attested by the choice of the Empress of Ireland by Lady Plumlett, wife of the governor of New Zealand, and daughter. Marconi and his wife will also sail tomorrow in connection with his Canadian enterprises. Bruce Walker, who succeeds W. T. R. French as the head of the Canadian emigration office here, will leave tomorrow for a visit to Ottawa. The feeling is growing that the time is approaching when Canada may do well to put some check on the movements for emigration assistance to those out of work through boards of guardians and other municipal charity bodies. The best classes of emigrants are unquestionably those who pay their own fares. These better classes will go to Canada anyway, and the question is being raised whether the government should not leave the less desirable, who need assistance, to Australia and other colonies. Among the other members of the emigration office are Hon. Adnan Beck and Col. Lessard, both of whom have been concerned in the international home show in London, and W. Shaughnessy, son of the president of the Canadian Pacific.

Obstruction to B. N. A. Bill. Premier McBride, of British Columbia, will close his mission to London today, and will sail in the Empress of Ireland tomorrow. It is not expected that the obstruction to the British North America bill in the house of commons will prove serious. A little group of opposition members, including Messrs. Bannister, Claude and Hay, are not sorry for any opportunity of giving Winston Churchill and the government a dig, but they are most unlikely to go the length of impeaching the bill. It will, however, now need a special push to pass the bill through both houses before July 1. The suggestion that Mr. Bide is in any way responsible for the obstruction is not seriously credited. In the house of commons today, Sir Edward Grey said that no understanding has yet been arrived at with the United States government respecting the Newfoundland fisheries question. W. B. NORTHRUP, M. P. MARRIES MRS. CLEWOW. Toronto, June 27--(Special)--W. B. Northrup, M. P., Belleville, and Mrs. Schryer Clewov, daughter of the late J. C. Fitch, were married here today at St. James' cathedral, Rev. Canon Welsh officiating.

KING KNIGHTS MORE CANADIANS

Ottawa, June 27--Information has been received here that among those who have been knighted by King Edward are Chief Justice Fitzpatrick, M. D. Dunlop, of the Allan line, Montreal; R. G. Reid, Newfoundland; Martin Griffin, A. Decelles, parliament librarian, and Sir Thomas Shaughnessy, of the C. P. R., has received a higher order.

TORONTO WANTS ITS IMPRISONED BASEBALL PLAYER RELEASED

Toronto, June 27--(Special)--Large numbers of Toronto people are signing a petition to the minister of justice to release Tim Flood, the baseball player sentenced to fifteen days jail for assaulting Umpire Conway.

EVIDENCE ENDED IN LOVING TRIAL

Presiding Judge, Following Decision in Thaw Case, Refused to Allow Prosecution to Impeach Girl's Story of Ruin--Expert Declares Judge Loving Was Sane When He Killed Estes.

Houston, Va., June 27--The taking of evidence in the case of former Judge Loving, who was placed on trial in the circuit court of Halifax county here last Monday for the murder of young Theodore Estes on April 22, was concluded this afternoon. The court then adjourned until tomorrow morning when the instructions to the jury will be given. It was also testified that Judge Loving was an excellent hunter, a good shot and had served with honor as a judge and had charge of large estates. A hypothetical question propounded to Dr. J. S. DeJarnette, superintendent of the Western State Hospital at Staunton, reviewed the life and experiences of Judge Loving, and his appearance and action after the commission of the crime. In reply to questions, "What effect do you think such experiences would have on the mind of this man?" The witness replied: "I think he would be very angry from the provocation that he had given to the jury, but I do not think that the young man referred to, but not insane." Dr. DeJarnette was closely examined by counsel for both sides. Dr. DeJarnette testified as to the effect of alcoholism on the brain, the effect of insanity on the different nerves and tissues, the temporary and permanent results from delirium tremens, the effect of stress and strain on the mind, etc., would affect the mental faculties. Most of his testimony as well as the questions asked him were of a technical nature. When Dr. DeJarnette left the stand, Attorney Wood, Bouldin, for the prosecution, announced, "We rest our case." The attorneys on both sides tonight held a conference to prepare instructions to be submitted to the court tomorrow.

BOYCE DENIES EXISTENCE OF "INNER CIRCLE"

Former President Boyce of Western Federation of Miners on Stand

FIERY SPEECH

Boise, Idaho, June 27--A ruling made today by Judge Wood while Edward Boyce, one of the leaders of the Western Federation of Miners and now a wealthy mine owner of the Coeur d'Alenes, was testifying in behalf of William D. Hayward, may limit materially the showing of the defense as to the existence of the counter-conspiracy against Hayward and his associates. Judge Hawley, for the state, objected to the general question as to the policy and practice of mine owners throughout the west in blacklisting union miners, and in the argument that followed, Clarence Darrow, for the defense, claimed the same latitude in proving a counter-conspiracy that the state enjoyed in showing a conspiracy. Mr. Hawley contended that the state had practically shown the existence of a conspiracy by Harry Orchard and by so doing had laid the foundation for and made the connection of all the evidence subsequently offered on the subject. He said that the defense was trying to show a counter-conspiracy by proving various isolated instances and certain general conditions, none of which were connected with the case, and for none of which a proper foundation had been laid. In ruling, the court accepted in part the contention of the prosecution, and limited the proof of the defense along this line to events in Colorado and the Coeur d'Alenes connected with the case as now established.

"Ed" Boyce was the principal witness of the day, and his testimony was chiefly devoted to the history and work of the Western Federation. He denied the existence of an "inner circle" or that there had ever been a conspiracy in the organization to do an illegal act. The chief importance of Boyce's cross-examination was the production of a speech by him at the convention of the federation at Salt Lake in 1898, in which he said that every union should have a rifle, and every member a rifle, that the federation could march 25,000 armed men in the ranks of labor. Boyce would not agree with the accuracy of the quotation, but saying that the sentiment was correct, declared with spirit that when he spoke the words imputed to him he had in mind the misconduct of state troops in Colorado, the use of troops elsewhere against the federation, and the constitutional right of all citizens to bear arms, which was as much the right of the miner as the aristocrat. William Basterly, one of the most important witnesses in the case, was called before adjournment and his testimony will be continued tomorrow. He occupied the witness chair long enough, however, to deny directly the statement made by the indictment matter or any subject with Moyer and Hayward at federation headquarters in Denver.

WHOLESALE DESERTIONS FROM BRITISH FLEET

St. John's, Nfld., June 27--According to the officers of the coast guard, a large number of men have deserted from the British fleet here today to join her consort, the Good Hope, the Roxburg and the Hampshire, off Cape Race, 183 men deserted from the squadron while the vessel was at Hampton Roads and other American ports. The four ships are on their way to Portsmouth (Eng.). The French cruiser Eclair, which came here to assist the Argyle in the naval program arranged in celebration of the birthday of King Edward, remains in port. The French minister and Governor Antonette, of St. Pierre (Miq.), are being entertained by the colonial and city officials.

COMMONS VOTES TO CURTAIL VETO POWER OF LORDS

Proposition to Abolish Upper House Rejected Three to One.

ALLOWED VIRGINIAN TO CUT OUT SYDNEY CALL

(Special to The Telegraph.) Montreal, June 27--(Special)--Permission was granted the Virginian by wireless authority of Sir Richard Cartwright not to call at Sydney with the mails this voyage on account of the fog. The Virginian will land her mails at Rimouk tomorrow.

IMPORTANT EVIDENCE IN COLLINS MURDER CASE

Two Witnesses Swear Prisoner Showed Lady's Gold Watch

Friend of Miss McAuley Declares Victim Wore the Same Attire When She Was Murdered That She Wore on Fishing Trip--Prof. Andrews Tells About Old Paint Sticking to Axe as He Proved by Experiment.

(Special to The Telegraph.) Hopewell Cape, N. B., June 27--Thirteen witnesses were examined this afternoon in the Collins murder trial. Fred Bailey, son of the station agent at Elgin, proved the finding of Father McAuley's driving reins in the culvert, near the station. His mother, Sarah Bailey, told of the prisoner arriving there and asking about the train and that he was greatly excited when he heard that the train had gone, and that she saw him walking along the railway in the direction of Petticoatic. Sectionmen Barchard and Robinson testified to meeting the prisoner three-quarters of a mile from Elgin station, going towards Petticoatic, on the track. William Berry, who lives about four miles further towards Petticoatic, testified to the prisoner coming to his house and having his supper, which was the third meal the crown had proved he had had since leaving Father McAuley's. Ezekiel Bailey, at Forest Glen, swore he saw some one, thought to be the prisoner, on the railway track there, and directed him to Joyce's boarding house for the night.

Had Lady's Gold Watch. Joseph Joyce, a son of the proprietor of the boarding house, swore that he saw the prisoner have two watches, one being a lady's hunting case gold watch, and the second an open-faced silver one. James Young, a boarder at the same house, swore that he saw the gold watch in the hands of the prisoner, and also saw him counting money from his pocketbook. There were at least two bills and a quantity of silver coin. Charles Carl swore that he met the prisoner within a mile of the Petticoatic station on the morning of Tuesday, the 21st, that he asked the distance to the town, that he gave before about the finding of the horse belonging to the priest by the roadside, with only part of the harness on, gave the additional evidence that when he took the horse in the barn, he passed from the barn into the woodhouse through the door connecting the two buildings without going outdoors, that he saw a pile of shingles in the woodshed, but that was all he saw there in the woodshed. A Lively Breeze. The proceedings of the day were given somewhat while the witness was interviewed. Mellon is almost entirely deaf, and Michael Teahan acted as interpreter and in a loud voice asked the witness the questions. On cross-examination Mr. McKewen asked if the witness saw all that was in the woodshed. The answer was somewhat delayed, but was finally answered in the negative. Mr. McKewen at this moment stated to the court that he saw Teahan shake his head at the witness as if to dictate the answer, and further that he saw the witness make a gesture and answer in a whisper in the affirmative, but that he afterwards changed his answer after getting the tip from Teahan. Mr. Teahan denied the charge, and the judge said he saw or heard nothing of it, and a number of the jurors stated that they saw or heard nothing at the time, and left the money on the counter. Some of the soldiers told the officers that they went to the store intending to pay for everything and they did that and they helped themselves to some caramels. Col. Chipman stated to your correspondent that he did not wish his regiment to be ill considering the eyes the public he belonged. The colonel said that the proprietor of the store should have reported the affair to him and he is willing to pay for whatever damage he proprietor of the store thinks has been done by his regiment. The regiment was in charge, while on the train, of Canon Montgomery, who holds divine service every evening and who also has a tent erected in the mess room to organ, the latest magazines and papers and different games. It is the only tent of its kind in camp. Lieut. McKewen, of the army service corps, St. John, had a narrow escape from serious injury this morning. He was out about the grounds exercising his horse and when near one of the mess rooms did not notice a heavy wire used as a clothesline. The horse was going quite rapidly when the wire caught the St. John boy in the neck. He, however, pluckily hung to his saddle and beyond a slight cut and a stiff neck, he was unhurt and continues to ride his horse. A St. John boy, who was on duty in the army medical corps last night, caught cold and is suffering with a sore throat today. He was conveyed to the hospital. Two of the other four patients were discharged this morning.

SOLDIERS' VERSION OF ROTHESAY LOOTING

Declare They Were Hungry and in a Hurry, So Helped Themselves as There Was Only a Boy to Wait on Them--Allege They Left Payment on the Counter--Took Some Caramels--Col. Chipman Will Pay Damages--Weather Mars Sussex Camp Life.

Sussex, June 27--The weather here still remains unsettled and it makes it most disagreeable for those in camp. For a time this afternoon the sun made its appearance but was soon hid from view by the heavy dark clouds that persist in overshadowing the camp. From early morning until 6 p. m. the soldiers were all engaged at drill at regular intervals. No matter to what section of the camping ground one goes he will find some regiment being put through drill by its commanding officer. Throughout the day many of the regiments attended target practice. Perhaps one of the prettiest drills in camp is that of the signal corps. The signaling is done by means of flags of different colors. As a result of the heavy rain of yesterday the water became very muddy and an effort is being made to adopt means to prevent that occurring again. Your correspondent visited the quarters of the 71st regiment this morning to ascertain the accusations made against them relative to plundering a store at R. B. The commanding officer, Col. Chipman, the commanding officer, took every means to ascertain the exact facts for The Telegraph. The colonel asked if the officers of the regiment individually at luncheon what they knew about the affair. The officers stated that the soldiers left Frederick having had a very early breakfast and were unable to get anything to eat in St. John. The first stopping place was Rotherham and some of the soldiers went to the store. The Virginian will land her mails at Rimouk tomorrow.

FROM ALL OVER THE MARITIME PROVINCES

NEWCASTLE. Newcastle, June 28.—The Presbytery of Miramichi met in quarterly session at Bathurst on Tuesday, 25th inst. The following deacons were present: A. D. Archibald, Rexton; James Wheeler, Bathurst; F. C. Simpson, Douglstown; S. J. McArthur, Newcastle; R. S. Stavers, Hartcourt; A. J. Myers, Black River; Geo. S. Mitchell, Redbank; H. J. Fraser, Loggieville; A. D. Fraser, Blackville; J. G. Colquhoun, Millerton; Miss McLeod, New Mills; J. H. Kirk and Dr. Carr, and Elders James Edgar, Jas. Young and Jos. Henderson.

Fredericton. Fredericton, June 28.—Wm. E. Scully, Mary Scully, Edward P. Scully, Emma Connors and John J. Gordon, of St. John, are seeking incorporation as the Union Ice Company. The proposed capital stock is \$17,500. The school trustees this afternoon granted Miss Kate Currie, of York street school, one year's leave of absence and appointed Miss Ruth Everett to fill the position. Miss Jennie McFarlane, of Nash Mills, was appointed teacher of manual training in place of Miss Lucas, resigned.

Salisbury. Salisbury, N. B., June 28.—When Rev. A. E. Chapman, B. A., of Murray Harbor (P. E. I.), reached his father's residence at Salisbury last evening, on his way home to the island from the Methodist conference at St. Stephen, he received the sad news that his youngest child, aged eighteen months, had died during his absence. The funeral will probably take place on Wednesday, June 29th, at 10 o'clock. The bereaved parents, both of whom are natives of Salisbury, Mrs. Chapman being a niece of Dr. George R. Parkin.

Harvey Station. Harvey Station, June 28.—A patriotic service was held by the Sunday school here on Sunday evening, June 24th, which consisted of patriotic recitations by the children and appropriate music. Brief addresses were given by the teacher, Wm. B. Boyer, and the superintendent of the Sunday school, J. W. Taylor. The church was handsomely decorated with flags. At the close of the service, Mr. Tracy, on behalf of the Sunday school, presented Miss Chase with a handsome box on missionary work, as a slight token of the appreciation of her work in the Sunday school.

Richibucto. Richibucto, June 28.—A sudden death occurred here last evening—that of John LeBlanc, an elderly man belonging to St. Louis, who has been living at Hotel LeBlanc for about a year, employed by the proprietor, A. P. LeBlanc, in driving the North West yard, and almost immediately on his return last evening he fell dead.

St. Martins. St. Martins, June 28.—On Monday evening a number of friends met at the home of John McIntyre, Orange Hill, the occasion being the fifty-second birthday of Mr. McIntyre. Mr. McIntyre was the recipient of several valuable gifts and a very pleasant evening was spent by all. The large and appreciative audience which met in the Presbyterian church on Tuesday evening to listen to the lecture delivered by Rev. J. A. Scrimgeour, enjoyed an exceedingly rare and rich treat.

Greer. Greer, St. John county, June 22.—Mrs. Geo. McFarlane, of Great Salmon River, is spending a few days with her parents, Mr. and Mrs. Chas. Hopsey. Mrs. B. O. Hartman, of Baie Verte, is spending a few days with friends here. Mrs. Anna McManus, of Hampton, is spending a few days with her parents, Mr. and Mrs. Jas. Charlton. Geo. E. Charlton, who has been attending the Provincial Normal School during the last term, has returned home.

spending the week with her parents, Mr. and Mrs. John Black, of Little Beach. Jas. Gamble, Geo. Gamble, Henry Charlton and Robt. Black are working at Great Salmon River. Wm. Danahy and Harry Black have returned from their trip to St. John in the schooner James Barber, Capt. D. Tufts, which left on Monday, June 25th. Miss Bertie Black, who spent a few days visiting friends at Great Salmon River, has returned home.

Salisbury. Salisbury, N. B., June 28.—When Rev. A. E. Chapman, B. A., of Murray Harbor (P. E. I.), reached his father's residence at Salisbury last evening, on his way home to the island from the Methodist conference at St. Stephen, he received the sad news that his youngest child, aged eighteen months, had died during his absence. The funeral will probably take place on Wednesday, June 29th, at 10 o'clock. The bereaved parents, both of whom are natives of Salisbury, Mrs. Chapman being a niece of Dr. George R. Parkin.

Harvey Station. Miss Bertie Black, who spent a few days visiting friends at Great Salmon River, has returned home.

EPOCH-MARKING C. P. R. EVENT

New Trans-Canada Train Service Recalls Great Strides Made

Twenty-one years since first trip The C. P. R. of those days compared with the vast organization of today—Rail, Steamship, Telegraph, Express and Other Services—Some of the Men Who Have Helped to Make It

Twenty-one years ago today the first transcontinental train of the Canadian Pacific railway steamed out from the old Dalhousie station and, amidst the enthusiastic cheers of a vast assemblage, the history-making train sped away on the initial journey to the far off Pacific coast. There was then no partial Windsor street or Place Viger depot. The road itself had only a mile and a half—a big thing in those days; and one transcontinental train a day, six days in the week, more than met the actual requirements of the travelling public. In the journey between Montreal and Vancouver, five days and a half were consumed—the first train leaving Montreal on the evening of June 28, reaching Vancouver on the morning of July 1, and Port Moody, then the Pacific terminus, at noon on July 4.

The Difference Today. Today there is a double daily transcontinental service, with the "Overseas Mail" special every four weeks, each direction, carrying the mails between the Orient and the mother country in less than a month, and in a few days will be inaugurated another, the "Trans-Canada Limited," running three times a week during July and August, which will cover the distance between Montreal and Vancouver in ten hours—almost two days quicker than was done twenty-one years ago—and in the fastest time yet by any regular transcontinental train in America.

Harvey Station. Harvey Station, June 28.—A patriotic service was held by the Sunday school here on Sunday evening, June 24th, which consisted of patriotic recitations by the children and appropriate music. Brief addresses were given by the teacher, Wm. B. Boyer, and the superintendent of the Sunday school, J. W. Taylor. The church was handsomely decorated with flags. At the close of the service, Mr. Tracy, on behalf of the Sunday school, presented Miss Chase with a handsome box on missionary work, as a slight token of the appreciation of her work in the Sunday school.

Richibucto. Richibucto, June 28.—A sudden death occurred here last evening—that of John LeBlanc, an elderly man belonging to St. Louis, who has been living at Hotel LeBlanc for about a year, employed by the proprietor, A. P. LeBlanc, in driving the North West yard, and almost immediately on his return last evening he fell dead.

St. Martins. St. Martins, June 28.—On Monday evening a number of friends met at the home of John McIntyre, Orange Hill, the occasion being the fifty-second birthday of Mr. McIntyre. Greer. Greer, St. John county, June 22.—Mrs. Geo. McFarlane, of Great Salmon River, is spending a few days with her parents, Mr. and Mrs. Chas. Hopsey. Mrs. B. O. Hartman, of Baie Verte, is spending a few days with friends here. Mrs. Anna McManus, of Hampton, is spending a few days with her parents, Mr. and Mrs. Jas. Charlton. Geo. E. Charlton, who has been attending the Provincial Normal School during the last term, has returned home.

THE MEDICINAL VALUE OF FRESH FRUIT JUICES

One of the Greatest Wonders of the Age. Hundreds Have Been Made Well by Taking Advantage of an Ottawa Physician's Discovery.

Everyone knows how beneficial fruit is, when eaten regularly. Fruit is nature's laxative—the finest kidney purgator—and the ideal stimulant. Unfortunately, the medicinal principle of fruit occurs only in minute quantities. In order to consume enough fruit to relieve biliousness, one would also consume a large amount of woody fibre, which would upset the stomach and impair digestion. An Ottawa physician discovered a way to get around these difficulties. He pressed the juice from apples, oranges, figs and prunes—and then forced one more atom of the bitter principle from the discarded orange peels, into the concentrated juice. This formed a new compound, having all the curative effects of fresh fruit—and

is a highly intensified dose. Then a soluble tonic and intestinal antiseptic were added and the whole pressed into tablets. These are "Fruit-a-tives" the wonderful Liver Tablets you hear so much about. "Fruit-a-tives" cure the most obstinate cases of constipation, the bowels, biliousness, headaches, sleeplessness, nervousness, kidney trouble, rheumatism, sciatica and neuralgia. They are the greatest blood purifying medicine in the world, while their action on the skin in clearing and beautifying the complexion, is nothing short of marvellous. Ask your druggist for "Fruit-a-tives" and see that you get them. 50c a box, 6 for \$2.50. By mail, postpaid, from Fruit-a-tives Limited, Ottawa, 115

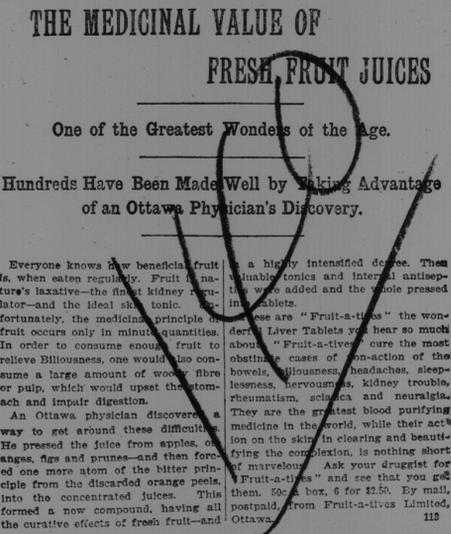

Sir Walter Raleigh's "Lost Colony" Found. The story of Raleigh's lost colony furnishes one of the most weird and fascinating chapters in the history of America. In 1587 one hundred men and seventeen women were sent to Virginia with John

White as governor. Contrary to Raleigh's advice, they settled on Roanoke Island, famous for its white Scuppernon grapes. Here was born the first white American child, Virginia Dare, granddaughter of Governor White. In August, 1887, the colony needing supplies, White returned to England, and the Spanish war breaking out, he could not return to Roanoke until 1891. He found that the colony had vanished, leaving a few signs on trees conveying unmistakable information that no harm had befallen the Governor White family. Finally gave up the search for his colony and his daughter and for centuries they remained one of the romantic mysteries of history.

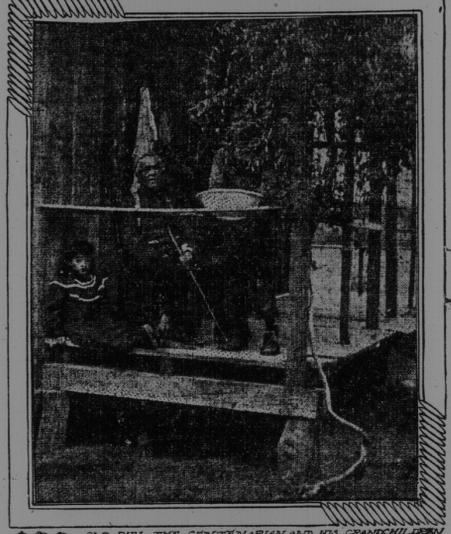

Pick Up Balloonist's Body at Sea. London, June 23.—All doubt as to the fate of Lieutenant Caulfield and Leake, of the Royal Engineers, who made a balloon ascension from Aldershot Camp on May 28, has been removed. The body of Lieutenant Caulfield was picked up at sea near Weymouth today. It was fully dressed, but the features of the officer were unrecognizable from decomposition due to the long immersion. King Edward and Prince Fushimi of Japan witnessed the ascent of the balloon. A strong wind was blowing at the time and it was soon carried out of sight along the coast. Two days later the balloon was picked up at sea some distance from Exmouth by a fishing smack.

To the barking sound of the land "greyhound." (Breckville Times). That nasty story of the fall of the Indian long distance runner, Longbat, at Hamilton, on Saturday, which was flashed by special despatches all over the continent is we hope either altogether untrue or at least greatly exaggerated. If there is unfortunately any foundation of truth, whatever, to the ugly story of his arrest for drunkenness we are inclined to believe that a probing of the matter to the bottom would likely disclose the fact that the runner was made the victim of a conspiracy by some unfortunates of sport (of whom there are far too many in Canada) who had some ill-gotten material profit out of the disgrace and inability of the athlete.

Teacher (angrily)—"Why don't you answer the question, Bobby?" His brother Tommy (answering him)—"Please, sir, he's got a peppermint in his speech."

OLD DEL. THE CAPTAIN AND HIS CREW CHILDREN

TRACK OF THE BALLOON FROM ALDERSHOT TO THE SEA

TRACK OF THE BALLOON FROM ALDERSHOT TO THE SEA

London, June 23.—All doubt as to the fate of Lieutenant Caulfield and Leake, of the Royal Engineers, who made a balloon ascension from Aldershot Camp on May 28, has been removed. The body of Lieutenant Caulfield was picked up at sea near Weymouth today. It was fully dressed, but the features of the officer were unrecognizable from decomposition due to the long immersion. King Edward and Prince Fushimi of Japan witnessed the ascent of the balloon. A strong wind was blowing at the time and it was soon carried out of sight along the coast. Two days later the balloon was picked up at sea some distance from Exmouth by a fishing smack.

WITNESSES TELL OF CRYSTAL STREAM HORROR

Stewardess Relates Her Fears of a Fire and Threat of Captain Perry

Mrs. Chase Says Remarks Were Made Four Years Ago When He Was an Employee On the Boat--Captain Mabee and Others Testify About What They Saw, But No Light Is Thrown on Cause of Burning.

At the opening session of the inquest into the death of four men in the fire which destroyed the steamer Crystal Stream, held at Cole's Island Tuesday night, there was a large attendance, fully one hundred, being present.

Questioned by Mr. Trueman, the witness told of conversing with Fred Smith one evening before the fire. "So far as I know, there was a friendly feeling between the crews of the boats. From the time that the witness went to bed until awakened by the shouts he said he never had foot of the Aberdeen. When the water in the boiler is hot, she thought it was at the time of the fire, he said steam could be got up on the Aberdeen in ten or fifteen minutes. At the time of the fire paraffin was used on the Aberdeen's fire to help get up steam rapidly.

Engineer Roberts, who was the first witness, told of making inspection of the boiler about 10 o'clock in the night of the fire. There was no sign of fire. The furnace fire was banked. One lantern hung near the stowage of the boiler. The hay was stored amidships. He told of his escape as already related in the Telegraph and of the rescue of Mrs. Chase, the stewardess.

The witness said that between the boiler and the boat's bottom there was a layer of planks one and a half or two inches in thickness; on them a two inch coating of plaster, of which the boiler brick with cement between the bricks, and then two inches of cement. He had never known a plaster of paris bottom to crack or fire to get through it. There were no bearings which might have caused fire from friction and no place in the rear of the boiler where fire might creep out. The lantern was twelve or fifteen feet from the hay.

On the starboard side the boat was doused on the night of the fire. When the witness went up and one could get in and out. The lining below the boiler was put in by the witness. The boiler, furnace, etc., were inspected daily. There was nothing wrong with it on the day before the fire. No ashes were thrown out of the furnace on the night of the fire. When the witness looked at the furnace before retiring the fire was such as to give off no sparks. Between the boiler and the boiler brick there was a space of two feet. Above the boiler there was an iron beam and over that plank. The woodwork was not finished. The boiler had an asbestos covering but that was not much protection, though a poor conductor of heat.

Last year before the platform beneath the boiler was completed there was a slight fire. There had been no trouble since. The lantern used on the steamer had metal bowls. There was no cargo near the burning lantern.

Fire fighting apparatus on the boat included a hand pump, a donkey pump and 150 feet of hose. Two lanterns, one on the other forward, were left burning through the evening. There were no lights in the closets, etc., on a good check. The steamer was inspected by Messrs. Dalton and Olive in April. Dalton gave the boiler a certificate and spoke of the boiler as a "pretty good boiler." Hay is usually carried amidships. In this case it was ten feet from the boiler. It was not aware of the provision of the Statutes of 1905 on that point. The matter must be placed as far as possible from the boiler and where ignition is impossible.

At the time of the fire the vessel lay bow and bow with the Aberdeen, fifteen or twenty feet away. The Crystal Stream was pointing down stream. The spark blew up river, away from the Aberdeen. The witness would suggest no cause of the fire nor did he give any particular reason why the women of the boat were especially sleeping.

The men sleeping below had very good quarters, bunkers three or four feet wide in rows about six by eight or nine feet. Each had plenty of space for comfort. "It was the best equipped boat in that way I ever saw." There was a good check. The egress from below by way of the stairs. Another way was through a trap door and up to the ladies' cabin. The men's rooms were at least fifty feet from the boiler.

Washing Without Rubbing. Here is a machine that washes clothes without rubbing--and but needs only a few minutes. The most delicate fabrics are washed in a few minutes. Our booklet tells you why. The Dowsell Mfg. Co. Limited, Hamilton, Ont.

or Belyea on the wharf. Mrs. Coleman then asked him to save Mrs. Chase and he ran down to the stern where she was, but found two men in a small boat rowing her ashore. He turned around as soon as he saw Mrs. Chase was safe and saw the mate coming ashore on the stern line. He asked him what could be done for the men, but he said "you can't go near there, they are done for." Witness then took the mate up the bank and looked after him, wrapping a couple of blankets and a woman had lent them. Dr. Armstrong was sent for, and he ordered him to the hospital. By this time the steamer Crystal Stream had been drifted against the bridge.

Search for Bodies. He waited till daylight and then with a crew of men went in a boat to search for the bodies. They were found after about three hours and brought ashore. The reason for the fire was not clear, but it was thought that the fire was caused by the men carelessly dropping burning matches. The engine was in the habit of working the water over the stern and pulled there was no heat there but there might be sparks flying round.

To the coroner--The only light in the after part of the saloon was opposite Mrs. Coleman's door. Daniel Sparks. Daniel Sparks was the first witness called at the afternoon session. He said that he was asleep in West's mill house on the night of the fire. He was awakened about 12:30 by the cry of "Fire!" and on going to the wharf helped to pull the Aberdeen out of harm's way.

William A. Boyd, another of West's men, then told of being awakened by the cry of "Fire!" and saw the mate going to the wharf. He saw the mate going to the wharf and saw the mate going to the wharf. He saw the mate going to the wharf and saw the mate going to the wharf.

Mr. Trueman held that under the Shipping Act such lamps were illegal as being between decks. The witness took the view that these lamps were not between decks. Continuing, the witness said: "I've never seen the least danger from carrying hay on a steamer. I do not object to it being carried, but of course you want to take precautions not to allow smoking or fire too close to it."

Cole's Island, Queens county, June 23--At this morning's session of the inquest into the death of four men in the fire which destroyed the steamer Crystal Stream, held at Cole's Island Tuesday night, there was a large attendance, fully one hundred, being present.

Mr. Trueman objected on the ground that this class of evidence is unfair and calculated to do an innocent man injustice.

WAS AFRAID OF A FIRE. To Mr. Trueman--The reason she got up at 11:30 was that she was watching the boat. She often got up in this way. Witness did not remember doing it the night before the disaster but was certain she had done it in those previous tours she had never gone below but examined the front stairs, the engine room and kitchen and then if all was right she went to bed. She then called the captain to see if she could get up the boiler. She saw the boiler was open. Witness saw the boiler was open. Witness saw the boiler was open.

WITNESS KNEW THERE WAS HAY ON BOARD on that night and she thought on that point and because of the high wind that prevailed it would be a good thing for a fire. She had a fear that Captain Perry might set the boat on fire but did not think she told the officers or members of the company of her fears. The conversation was in the dining room and all the members of the crew had talked the thing over.

NOT FRIENDLY WITH CAPT. PERRY. To Juror Keirstead--Captain Perry and she had not been on friendly terms for a long time. To Juror West--She said she saw marks of fire on the Crystal Stream but had never found out anything about how they were caused. These marks were not in a favorable place to start a fire. The vessel was lying at the Cole's Island wharf when she first discovered the mark.

TO JUROR WEST--She did not feel any dread of fire last summer when the other boat was running. To Mr. Trueman--Captain Perry showed the first summer he was on the boat that he did not want her as stewardess but she never had angry words with him. She thought it would have been better to have frequently examined her engine and boiler and as far as he knew found nothing wrong. There was a stairway in front of the saloon behind the steam dome. He had frequently, as he thought, found the wood-work too hot for safety, indeed he had remarked, as he thought, to Mrs. Chase you will have a fire there some day. He had, however, always considered the Crystal Stream as safe as any other boat on the river. On the night of the fire he had seen a man down in the Orange hall burning at 2 a. m. and the only reason that could be assigned for it was friction which had generated heat in the machinery beyond the boiler.

Good Prospect for Corn Crop. Everyone with corn was pleased to know that Putnam, Corn Inspector, is guaranteed to cure his softening disease in twenty-four hours--guarantee and sure is Putnam's, try it.

LOST INTEREST IN LIBEL SUIT

Hon. Mr. Emmerson at Toronto, on Way to Virginia, Talks of Case

NO CHANCE TO WIN. Ex-Minister Says Court's Decision Gives Newspapers a License to Publish Anything About Public Men if They Believe Statements to Be True.

Toronto, June 28--Hon. H. R. Emmerson was in Toronto today on his way to Virginia. Asked about his libel suit he said: "I am not troubling about it at all. When the court rules that newspaper men so long as it believed what it published, I decided not to bother. I have no further interest in what they are doing at Frederick."

It is just like butting your head against a stone wall. I am satisfied so far as the preliminary examination is concerned that I certainly failed to prove the ridiculous charge that I was ejected from a hotel with two women of ill-repute. The hotel was about quarter inch in size but could not locate the bullet. In further examination I found a bullet hole was exactly the same size as the first bullet hole described, also clean cut.

Mr. Emmerson had not read the latest news from Frederick this morning. "What do the papers say?" he laughed. "You know I haven't been reading much lately. I am too busy and haven't any interest in it now."

Mr. Emmerson had not read the latest news from Frederick this morning. "What do the papers say?" he laughed. "You know I haven't been reading much lately. I am too busy and haven't any interest in it now."

WOULD PARALLEL THE INTERNATIONAL ROAD

New Brunswick Objections to Extension of Atlantic & Lake Superior Railway Through the Restigouche Valley.

Montreal, June 25--(Special)--It is announced that Galindres, of London (Eng.), representing the bondholders of the Atlantic & Lake Superior Railway, have said that road to the Atlantic, Quebec & Western Railway Company for \$2,000,000 and that certain arrangements have been made the road will be extended eastward to Gaspé Basin and westward through the Restigouche valley to Edmundston.

It is understood that the latter extension is being opposed by the New Brunswick government. The bondholders of the International Railway now under construction from Campbellton to the mouth of the Restigouche would run parallel to and in the territory of this railway.

The application was before the deputy minister of railways on May 23, and was also opposed by the Transcontinental Railway Company and by the C. P. R. Counsel, objecting to the proposed extension of the line through the Restigouche valley to Edmundston.

Before giving any decision Mr. Butler said it would be necessary for the applicant to produce the original route which was refused and also to show on their route map the location of the International Railway.

When William Puley, when asked with regard to the matter last evening, said the applicants could hardly hope to obtain permission as they were attempting to secure a route which parliament had already refused. At some points their proposed line would run within four to eight miles of the International route. The latter was a good country and were attempting to tap traffic which would belong to the latter road. The further hearing of the case, Dr. Puley added, would take place some time in July.

FIND OFFICER SEELEY KILLED PETER FONTAINE

Coroner's Jury Cannot Agree About Dalhousie Policeman's Criminality

Agree That Tragedy Occurred While an Arrest Was Being Attempted--Dr. Martin, Who Made Second Post Mortem, Swears He Found Only Two Bullet Wounds, and Both Were of the Same Size.

Dalhousie, N. B., June 25--The coroner's court in the Fontaine inquest resumed its work at 10 o'clock today. A large number of spectators were in attendance, including the widow of Peter Fontaine. John J. Lapointe, sworn: I reside in Balmoral. I was at the graveyard in Balmoral on Saturday last. I swear that the body that was raised and upon which Dr. Martin made an examination was the body of the late Peter Fontaine.

Dr. Martin, sworn--Am a physician residing in Campbellton; am duly registered. I was not acquainted with the late Peter Fontaine. I held a post mortem on his body on Saturday. The whole body was pretty much swollen. I found several marks on the legs. Found a bullet wound situated about five inches from the spine. The bullet hole was about quarter inch in size but could not locate the bullet. In further examination I found a bullet hole was exactly the same size as the first bullet hole described, also clean cut.

To Mr. Mott--Mr. Gallop mentioned Mr. Seeley's name. I said you had better get some one who knows the locality. To Mr. Lawlor--I may have told the officers that it would be better to go early in the morning. Mr. Doyle asked me for a warrant.

To Foreman Powell--It was his duty to make the arrests as soon as possible. To Juror Hallett--It would be the duty of the officers to say "I arrest you in the king's name." Putting his hands on the prisoner. To Mr. Mott--It is all a question of circumstances whether a constable should pick a revolver or not. To Mr. Trueman addressed the jury for more than an hour. Coroner Ferguson spoke briefly, leaving the matter in the hands of the jury.

The jury retired at 3:30, and reported at 8 o'clock the following verdicts: "We find that the said Peter Fontaine came to his death from a bullet discharged into his body from a revolver in the hands of George Seeley, a peace officer, while executing or attempting to execute a warrant for the arrest of the said Peter Fontaine, but we cannot agree whether the evidence is sufficient to cause either of the said George Seeley in the act or not."

Mr. Lawlor spoke briefly, congratulating the coroner and jury for the way the investigation had been conducted. In this he was seconded by Mr. Trueman.

METHODIST CONFERENCE FINISHES ITS BUSINESS

St. Stephen, N. B., June 25--The Methodist conference opened this morning at 9 o'clock, President Crisp in the chair. After devotional services the president, Rev. Howard Sprague, and Rev. Samuel Howard were appointed a committee to obtain a sufficient number of young men from England to fill the vacancies.

A committee of six was appointed to negotiate with any committee appointed by any other evangelical church. The members of the committee are ministers--C. H. Paisley, T. Marshall, J. C. Berry, J. H. Inch, G. J. Oulton, J. O. Bullock. Rev. Geo. Steele was requested, on motion, to prepare a suitable address to be given at the annual conference of the conference. The address was given by Rev. J. K. King and was very successful.

Dr. Paisley reported that a very satisfactory work was going on at the Backville institutions. It was ordered that 1,000 copies of the minutes be printed. The conference adjourned at 10:30 to-night, bringing to a close an most interesting and successful meeting.

When Suffered With Headache. You want a good dose of Nervine. Wonderful relief it makes. Headache disappear, stomach settled and you feel better at once. Large bottles for 25c.

"PRIEST" WILBUR GETS ONE YEAR JAIL. Moncton, N. B., June 26--In the circuit court today at Dorchester in case of the King vs. Fiewelling Wilbur, Judge Forbes sentenced the prisoner to one year in the common jail and he is to have a chain and ball attached to his foot. The scathing denunciations of the judge in this case were sufficient punishment for any ordinary man.

The Tide Rises By Ida De Thael

(Copyright, 1907, by the New York Herald Company—All Rights Reserved.)

PART II. (Continued from Last Week.)

Spring had come. On the "lands" the grass already pierced through the brown soil. The air was delightfully soft and mild and nature seemed to rejoice. Yet on every side anxious faces could be seen and the voices were sad, for war had been declared and no one felt safe.

Often the Lord of Tremaneuk had battled against his neighbors, but now, in spite of his valor, he had been repulsed and his enemy was threatening him on his grounds.

Then, taking advantage of the fact that their lords were quarrelling together, the peasants had organized a rising. They had been quickly joined by some homeless ruffians, too pleased to find an opportunity to rob and plunder without fear of punishment.

The country was infested with bands of licensed soldiers, the scum of the army. The soil of Brittany being ever favorable to guerrilla warfare, the robbers, in the deep, secluded valleys or groves on the seashore, and from there they would sally to indifferently attack Lord Tremaneuk or his rival, the Baron de Ploudeac.

One morning a small troop was gathered in a cave. Their last attempt had not brought them much gold and they were resolved to find a richer prey. The last man suggested the Convent of St. Anna, which stood not far from Tremaneuk and was well known for its riches.

It was a long discussion. Then the man who had been chosen as the leader said authoritatively: "One of us must obtain admittance to the convent, and when he knows well the place one might he will let us in."

"Yes, but who will run the risk of concealing himself in the convent? If he is found he will die in tortures."

"I will not go," said one of the men. "I do not fear death in battle, but the risk is too great in this case."

"No, I," hastily rejoined one of his comrades. "The chief frowned at this general reluctance to go. As he had been and what he had become. All was forgotten as a new feeling of peace fell on him."

The sun was brightly shining through the richly stained windows. The altar blazed with lights and from behind the choir the voices of the nuns sweetly rose in prayer. No more in an agonized supplication, but rather in triumphant chorus.

And then a single voice was heard. It was singularly moving and beautiful, and Kerbrenn felt as if it was an angel that had come down from heaven to bring him a message of mercy.

As he listened to the rich cadence the despair that had been gnawing him departed. He might still hope; not indeed to regain in the eyes of the world an honored rank, but to obtain from God forgiveness for his sins.

He remained long on his knees when every one had departed and the church was again dark and silent. It cost him an effort to go out in the cloisters, where he might meet some one, and be again obliged to resume the dreadful life.

They were standing face to face, then a cry like a groan escaped him. "Guireka!" So changed was he that during a few seconds he did not recognize Kerbrenn, but when he began to speak her pale face suddenly flushed and with a stifled cry she tried to break away from him.

But he, heeding not her impetive prayers, detained her. Almost unconsciously she was so moved he hardly knew what he said, he besought her to be merciful. His sin was great, but it was his love for her that had driven him mad.

She interrupted him with an exclamation of horror. "It is not true!" she despairingly cried. "If thou hadst loved me it is by glorious deeds and not by a foul murder that thou shouldst have tried to win me."

where he could not drown the reproaches of his conscience.

After having roamed for some time in the deserted cloisters he opened a small door and found himself in the church. In the dim light it seemed larger than it really was. Black draperies were hanging everywhere, concealing all the ornaments and giving it a tragic and gloomy appearance.

Kerbrenn shivered, yet a strange fascination held him there, motionless. Suddenly a voice rang out near him, so clear that he started in sudden terror. "Have mercy, O my God!"

There was a short pause, then the same prayer was reported, this time by many sad, low voices.

"Mercy, mercy, O Lord!" A cold sweat stood on Kerbrenn's brow. Was he dreaming? Those voices sounded so faint and unreal. He almost thought he had died and stood "tella citta," doing nothing but weeping. Were not those the calls of restless, despairing souls?

But the voices again rose in prayer, and Kerbrenn heaved a sigh of relief as he realized that behind the wooden screen of the choir the nuns were in their stalls.

Still he lingered, unable to bear himself away. Soft as the murmuring waves, the voices of the women swelled, then fell as they together repeated their humble petition. Kerbrenn felt unworthy to join in their earnest prayer, but a few sobs shook the wretched man, when silence fell, and he slowly left the church.

Kerbrenn did not dare to leave his room the following day. He said, however, to the lady sister that tended him that he felt much better and hoped to be able to resume his journey on the Monday.

From his bed he listened to the merry chimes and thought of the desolation that would fill the convent when he would let in the marauders.

By a treasure he was going to repay the generous hospitality which had been extended to him. He could not bear to think of it and tried to forget.

Not wishing to raise any suspicion, he went on Easter Sunday to mass in the convent's chapel. He concealed himself behind a pillar in a dark corner, for he had a nervous apprehension to stand in the full light.

For the first time that morning he forgot what he had been and what he had become. All was forgotten as a new feeling of peace fell on him.

The sun was brightly shining through the richly stained windows. The altar blazed with lights and from behind the choir the voices of the nuns sweetly rose in prayer. No more in an agonized supplication, but rather in triumphant chorus.

And then a single voice was heard. It was singularly moving and beautiful, and Kerbrenn felt as if it was an angel that had come down from heaven to bring him a message of mercy.

As he listened to the rich cadence the despair that had been gnawing him departed. He might still hope; not indeed to regain in the eyes of the world an honored rank, but to obtain from God forgiveness for his sins.

He remained long on his knees when every one had departed and the church was again dark and silent. It cost him an effort to go out in the cloisters, where he might meet some one, and be again obliged to resume the dreadful life.

They were standing face to face, then a cry like a groan escaped him. "Guireka!" So changed was he that during a few seconds he did not recognize Kerbrenn, but when he began to speak her pale face suddenly flushed and with a stifled cry she tried to break away from him.

THE MAN WHO HELD GUIREKA, STRUCK BY A HEAVY BLOCK, FELL TO THE GROUND.

employed her Guireka understood that it was her task of mercy to save that poor, struggling soul. So after having heard from him some details of the horrible life he was leading, she made him swear not to betray the generous hospitality which had been extended to him. He would not reply to the signal of his friends that night, and on the morrow he would go away and never again see his lawless companions.

Small as Guireka had that night, but the nuns quietly slumbered, and a restless silence filled the convent.

Suddenly a frightful crash was heard, followed by a loud, exultant yell. The nuns could not even understand what had happened or make any plan to escape. The cloisters were already invaded, the doors thrown down. Half crazed with fright, they ran on all sides, despairingly calling for help.

Others, but during the first few minutes she managed to escape and ran down a long cloister. Suddenly two strong hands seized her in the dark-for complete darkness added to the horror of the situation—she fought and called for help.

"What a little devil! I have got! Here, bring me some light!" One of his companions immediately ran up, bearing a torch. But he had no sooner seized her in the dark-for complete darkness added to the horror of the situation—she fought and called for help.

"Oh, my God, help us!" she murmured. "I must try to escape!" "I will help thee," Kerbrenn eagerly said. "Come."

"Oh, no; not with thee," and she recoiled in instinctive distrust. "Trust me, but for some few minutes and thou shalt be saved, for they do not suspect me as yet."

Still Guireka hesitated, and she gazed on all sides as a hunted deer. "I must trust thee, and yet thou hast been false to thy knight!"

"True, but remember that though a criminal, I did not, could not perjure myself. I swear to thee that thou shalt be saved."

She was moved by his entreating accent. "I trust thee," she simply said.

In their eagerness they scarcely perceived how the hours went on. In the east the sky grew gray and they recognized where they stood. Tremaneuk's castle was visible in the far off and it was at that same spot where, little more than a year before, Kerbrenn had whispered words of love to her.

Guireka abandoned, and turning toward him, broke the silence for the first time. "Do not go any further. If thou art seen here it is death for thee."

"Nay, I will only leave thee when I know thou art safe under thy father's roof."

Vainly she urged him to leave her; he followed the maiden till they stood under the castle walls.

Then she stood still and gazed intently at Guireka for a long time. Suddenly with an effort he straightened himself and simply said, "Farewell."

"How can I thank thee?" she murmured. "But when he turned as if to leave a faint cry escaped her."

"Do not go yet!" she cried. "Thou hast saved my life, and oh—I will save thee, too—save thee from this damnable life!"

A bitter smile came on his sad face. "I told thee already I am doomed."

"No, no; in her eagerness she placed her trembling hand on his arm. "Swear to me again that thou wilt lead thy companions of sin and try to lead a better life."

"I will die sworn to, thee and I hope I will die sworn to, tracked on all sides, there is no hope of escape."

heavenly before venturing in it, for only a faint light was visible at the end of the dark, narrow passage.

The men were too terrified to try to pursue it, but as soon as they had scrambled to their feet they ran back to their companions to relate what had happened.

The tale reached Tremaneuk's ears, and the news did not tend to improve his temper. He did not share what was in those days a general belief. He angrily cried that it was not a ghost, but a man who had thrown them down, most likely a spy, and he swore he would not be a dupe.

"Let the search begin at once," he ordered, "and when the tide rises"—it was then slowly ebbing—"I will have the spy thrown from over the wall into the sea. I will be a lesson to those who dare play with me that dangerous game."

In small groups the men scattered themselves, and high and low they searched the castle.

At length, when the men had departed to search another part of the castle, she rose from the sculptured armchair where she had sat motionless, drew aside a curtain and in a low voice called Kerbrenn.

Followed by him, she stealthily glided through the huge corridors and reached in safety the underground passage that opened on the shore.

"The coast is clear!" she cried. "It is too late now," murmured Kerbrenn.

When the water was low it became possible to turn round the cliffs that encircled the small bay, and some way off a rude path led to the dry ground. But at high water the rocks and even the door of the passage were entirely covered.

During some few minutes they stared blankly at the merciless waves, then Guireka slowly said: "We had best turn back. Thou shalt hide thyself again, and when the tide is again low you will try to escape."

thou hast been to me an angel of mercy, speaking words of pardon when I deserved of heavenly forgiveness, and now, because of me, thou shalt die."

"Do not blame myself," she soothingly replied. "I have no regret. Often I prayed for death, and God is now going to grant me my request."

"What? Is there nothing thou weepst to leave? Life could have been sweet to thee had I not cast on it a dark shadow."

"I know what sorrow is. Life has no more any charm for me," she murmured. "Thou wouldst have been a happy wife had I not killed thy betrothed."

"It was despair that made thee wish to become a nun."

"No," Guireka replied, lifting her head. "In a few minutes the waves will reach us. Death is near. I will speak and perhaps my words will comfort thee. It was I who killed thy betrothed."

"I was despair that made thee wish to become a nun."

"No," Guireka replied, lifting her head. "In a few minutes the waves will reach us. Death is near. I will speak and perhaps my words will comfort thee. It was I who killed thy betrothed."

"No," Guireka replied, lifting her head. "In a few minutes the waves will reach us. Death is near. I will speak and perhaps my words will comfort thee. It was I who killed thy betrothed."

COAL AND TIN IN P. E. ISLAND

Dr. Ellis, Dominion Geologist, Tells of Result of Visit to the Island.

Dr. Ellis, of Ottawa, Dominion geologist, who is here making a geological map, has returned from Prince Edward Island where he spent a few days looking into the possibility of developing the coal industry in the island province. He says a company has been formed to open up the industry. The Dominion government has agreed to subsidize the operations to a certain extent and the provincial government now have under consideration the giving of assistance. Dr. Ellis was down on Friday to look over the matter for the Dominion government. He advised the P. E. Island government to purchase a drill and to loan it to any company desiring its use, the company to pay the boring expenses, assisted by the Dominion government subsidy.

PROSPECT BRIGHT FOR VALLEY ROAD

Mackenzie & Mann Much Pleased With Outlook for Traffic, and Bound to Have St. John for Their Terminal Port.

The outlook for the building of the Valley railway bringing the Canadian Northern through Maine and down the river to this port is now very promising. Definite news to this effect was secured yesterday when Hon. William Pugsley returned home from Toronto. He said that while there he had seen Messrs. Mackenzie & Mann and that they have a plan to secure a grade of 5-10 per cent to the mile and this means additional expense in the way of construction. Mr. Pugsley said it will be necessary to secure some modifications of the agreement, the nature of which he was unable to go into at the moment, but he at once takes the affair up with the Dominion government. Mr. Pugsley said, "I am sure that the Dominion government will approve of the suggested modifications in the agreement. Messrs. Mackenzie & Mann will argue, I believe, that it is their desire to make their winter port. The only difficulties at all are in connection with the grade. It is desired to secure a grade of 5-10 per cent to the mile and this means additional expense in the way of construction. Mr. Pugsley said it will be necessary to secure some modifications of the agreement, the nature of which he was unable to go into at the moment, but he at once takes the affair up with the Dominion government. SYDNEY DRUNKS MUST TELL WHERE THEY GOT THEIR LIQUOR—Sydney, C. B., June 25—Stenographer Cameron at the police court yesterday morning made the statement that bodies of liquor sellers. He announced his determination hereafter to put into full operation the section of the act passed at the last session of the legislature, reading: "It shall be the duty of the presiding authority to examine all parties arrested for being drunk as to where they purchased liquor. Failing in this manner to elicit the name of the dealer, the prisoner can be put on oath and then, if he refuses to divulge, he may be held for contempt of court. Any evidence he may give can be used against the man who sold liquor." On Saturday three prominent hotel keepers in the city were arraigned on evidence gathered in this manner and convictions secured.

POWER TO FARM—Depends largely upon your education. We can increase the power at small cost to you if you will. Our space is so wide that you can get the full benefit of the "Training Success" by return mail. Name: Address: S. J. Wark, 70 Water Street, St. John, N. B.

LETTERS TO THE EDITOR—The opinions of correspondents are not necessarily those of The Telegraph. If any newspaper does not undertake to publish all of the letters received, it is because they will be rejected. Stamps should be enclosed with return of manuscript if the editor of the paper should be sent with every letter as evidence of good faith.—Telegraph

BAD ROADS—To the Editor of The Telegraph: Sir—The roads are in a bad state and we think it is time some real work was done across the road and it is dangerous in the night. The pipes are broken and the case demands attention at once. Yours, RATEPAYER.

IMPORTANT EVIDENCE IN COLLINS MURDER CASE—(Continued from page 1.) no blood would adhere to the door from the door when the man was made in some case the wood would clean the blade of the knife. It is a very interesting case. Answer—Yes, it would make a difference. Answer—Yes, it would make a difference.

LIGHTNING HITS AND PARALYZES WHOLE FAMILY William Cooper, Wife and Daughter of Upper Gagetown Struck in Their Home and Rendered Helpless.

From Upper Gagetown comes a remarkable story of havoc wrought by lightning Wednesday in the house of William Cooper. He and his wife and daughter were all paralyzed by the electric fluid and were helpless to secure assistance.

There she found Mr. and Mrs. Cooper and the daughter helpless as a result of the shock and had a doctor summoned. The injured were put to bed, but were still unable to get up when last heard.

REV. J. A. MORISON DOCTOR OF DIVINITY Degree Conferred by Hanover College, Hanover, Indiana, on Former St. John Pastor.

On Tuesday, June 11th, the degree of doctor of divinity was conferred on Rev. John Archibald Morison, D. D., Ph. D., of the First Presbyterian church, Chicago, by the faculty and trustees of Hanover College, at Hanover (Ind.).

DROWNED AT MISPEC Body of Fred Martin of Buctouche Discovered—Fell Into Sluiceway.

Ered Martin, of Buctouche, aged 17, and employed at the Mispec pulp mill, met his death by drowning there Wednesday. The boy, who was a son of Samuel Martin, and his father were employed at the pond discharging blocks brought from Musquash.

CORNER STONE OF GRAND FALLS R. C. CHURCH LAID Grand Falls, June 25—The ceremony of laying the corner stone of the new Roman Catholic church here was performed by Bishop Barry, assisted by Mons. Dugal and Father Martin, of St. Basil, Fathers O'Leary and O'Keefe, of Chatham, Father Dugal, Drummond, and Father Joyner, on Sunday morning in the presence of a vast concourse of people.

WITH WOMEN, IT'S LOOKS FIRST The average woman considers her looks first, her health afterwards. That's why we hear of so many cases of broken health and nervous prostration.

KENNEL CLUB WAS FORMED THURSDAY NIGHT Forty Joined and More Wished To—Discuss Matter of Identifying Licensed Dogs.

The New Brunswick Kennel Club was organized at a meeting held Thursday in the Dufferin Hotel. More than forty members were balloted on and elected and many more signified their intention of joining the organization at an early date as possible.

Mr. and Mrs. Hamm left for the Montreal train for a trip to Winnipeg. On their return to the city they will be accompanied by a large number of wedding gifts.

SCHOOL FOR THE DEAF Closing Exercises in Opera House Show Good Results of Work Done.

There was an interesting gathering in the Opera House Tuesday afternoon to witness the closing exercises of the school for the deaf, which was held in the evening.

CITY BARBERS TALK OF FORMING A UNION Meeting Discusses Matter and Will Make Final Decision Later.

A meeting of barbers was held Thursday in the rooms of the Longshoremen's Association, Water street, and at the meeting a proposition to organize a barbers' union was put forward and a motion made that the barbers form themselves into an association.

At a quiet wedding Wednesday morning in the rectory of St. John's church, when Rev. Fr. Walsh officiated in marriage Miss Gertrude A. Buckley, daughter of Thomas Buckley, and Joseph E. Harquail. The bride looked charming in a costume of cream voile, trimmed with ecru lace and hat to match.

At 8 o'clock Wednesday morning a quiet wedding was celebrated at the rectory of St. Luke's church when Rev. Fr. Mackay officiated in marriage Miss Belya, daughter of Mr. and Mrs. Arthur Belya, and Miss Ida Belya, daughter of Mr. and Mrs. Arthur Belya.

At 8 o'clock Wednesday morning a quiet wedding was celebrated at the rectory of St. Luke's church when Rev. Fr. Mackay officiated in marriage Miss Belya, daughter of Mr. and Mrs. Arthur Belya, and Miss Ida Belya, daughter of Mr. and Mrs. Arthur Belya.

JOINE WEDDINGS Harquail-Buckley. A quiet but very pretty wedding took place at 8 o'clock Wednesday morning in Holy Trinity church, when Rev. Fr. Walsh officiated in marriage Miss Gertrude A. Buckley, daughter of Thomas Buckley, and Joseph E. Harquail.

At 8 o'clock Wednesday morning a quiet wedding was celebrated at the rectory of St. Luke's church when Rev. Fr. Mackay officiated in marriage Miss Belya, daughter of Mr. and Mrs. Arthur Belya, and Miss Ida Belya, daughter of Mr. and Mrs. Arthur Belya.

OBITUARY Mrs. Mary J. Hazlett. Mrs. Mary J. Hazlett, wife of Ralph Hazlett, died Tuesday at her residence, 346 Union street, aged sixty-two years. She is survived by her husband and six daughters—Mrs. William Armstrong, Mrs. W. W. Williams, Mrs. F. W. Barbery, and Misses Jennie, Laura and Lydia at home. The funeral will take place tomorrow at 2.30 p. m.

Edgar H. Polkins. On Monday evening, June 17, the death of Edgar H. Polkins, eldest son of Mr. and Mrs. E. A. Polkins, of Midland (N. B.), occurred. Deceased was thirty-two years of age and for thirty years had been an invalid in consequence of a severe attack of spinal meningitis in infancy. For nearly five years he had been confined to his bed, and death finally came as a release from suffering. His father, mother, four sisters and five brothers survive.

Frank Campbell. Frank Campbell, son of J. W. Campbell of the Campbell House, Norton, died there early Tuesday morning after only a few hours' illness. He had retired to bed Monday night, but about 11 o'clock was attacked with paralysis of the brain, and passed away at 4 o'clock Tuesday morning.

Mrs. Jacob Ganong. A much regretted death took place Wednesday night about 11 o'clock, when Mrs. Jacob Ganong passed away at her husband's residence, 129 Brussels street, after an illness extending over several months. Deceased was 41 years of age and had been a resident of St. John for some time. Her husband, Mr. Jacob Ganong, is a resident of Kings county, and is survived by a sorrowing husband and two children—Burrage and Miss Marnie. Her mother, Mrs. Robert Day and Mrs. George V. Jones, of Kings county, and two brothers—A. W. Jones, of Springfield and Simon H. Jones, of MacDonald's Corner, also survive.

Mrs. Sarah A. Taylor. Mrs. Sarah A. Taylor, widow of Isaac S. Taylor, of Sheffield, Sumbury county, died Thursday at the residence of Mr. Leonard Dunphy, 20 Kennedy street, at the age of eighty-eight years. Mrs. Taylor was a member of the Putnam family of Loyallists and was born at Sheffield. She lived there most of her life but for a long while also was a resident of St. John. She was twice married. Her first husband was Henry McNeill and her second was Isaac S. Taylor. Two stepsons of deceased are Thomas P. Taylor, of Sheffield, one of the owners of the Star line of steamers, and Albert Taylor, of St. Stephen, and there are also three grandchildren, children of Robert Wisely, director of public safety, and the late Gertrude Taylor. Funeral services will be held this evening at 8 o'clock at 29 Kennedy street and the body will be taken by the steamer Victoria to Sheffield at 8 o'clock Saturday morning for interment.

The Elvior Mails. The Star Line Steamship Company has notified the government that after June 29 it will not be responsible for the side line mails to river points. By the old arrangement the Star line was responsible for the carriage of the mails and for the side services by small boats. Under the new arrangement the company does not guarantee the side services.
