Victoria University.

VICTORIA UNIVERSITY was founded by resolution of the Conference of the Methodist Church in Canada, held in Kingston, in August, 1830. The institution was opened for students on the 18th of June, 1836, with the Rev. Matthew Richey, M.A., as Principal. On the 12th of October, 1836, letters patent were issued by His Majesty King William IV., incorporating the institution as a seminary of learning for the Province of Upper Canada, under the name of "The Upper Canada Academy."

In 1841, the Parliament of the United Provinces of Upper and Lower Canada, being now first constituted by Act of the Imperial Parliament, with authority to grant such a charter, at its first session held in the city of Kingston, passed an Act to incorporate the Upper Canada Academy under the name and style of "Victoria College, with power and authority to confer the degrees of Bachelor, Master and Doctor of the various arts and faculties," which Act was assented to by the Governor-General on the twenty-seventh of August, 1841.

On the twenty-first of October, 1841, the Rev. Egerton Ryerson, having been appointed Principal, opened the first college session under the enlarged charter.

In the year 1844, the Rev. A. McNab, D.D., succeeded the Rev. Dr. Ryerson as Principal, and occupied the office until 1849. At the close of his term the number of students in the College was 140.

In 1850, the Rev. S. S. Nelles, M.A., was appointed Principal, and addressed himself to the task of organizing and enlarging the College to the status and work of a University. In the year 1854-55, the Faculty of Medicine was added and established in Toronto. In 1860, the Faculty of Law was added, and in 1871, the Faculty of Theology.

In the year 1883-84, a commission, appointed by the General Conference of the Methodist Church, arranged for the consolidation of Albert College, Belleville, with Victoria College, Cobourg, and legal effect was given to this consolidation by Act of the Legislature of Ontario, 47 Vic., chap. 93.

The corporate name was by this Act changed to "Victoria University." The government of the University was vested in a Board of Regents, Chancellor, Vice-Chancellor and Senate. To these bodies was given power to affiliate outlying colleges and full university powers in all faculties were continued. The Rev. S. S. Nelles, D.D., LL.D., as President, was *ex officio* first Chancellor, and William Kerr, Q.C., LL.D., was elected Vice-Chancellor.

In 1887, the Rev. S. S. Nelles, D.D., LL.D., died, and the Rev. N. Burwash, S.T.D., was appointed President and Chancellor.

Under the provisions of the present charter, the following Colleges are affiliated in Arts with Victoria University: Albert College, Belleville; the Wesleyan Ladies' College, Hamilton; the Ontario Ladies' College, Whitby; Alma College, St. Thomas.

On the twelfth of November, 1890, under the provisions of the Revised Statutes of Ontario, chap. 230, and the Acts amending the same, Victoria University was by proclamation of the Lieutenant-Governor federated with the University of Toronto.

By the provisions of the Federation Act, the President of Victoria University, a representative of the Senate of Victoria University, and five representatives of the graduates in Arts, become members of the Senate of the University of Toronto.

Five hundred and ninety-nine graduates of Victoria University have been admitted to the standing and privileges of the degree of B.A. in the University of Toronto; two hundred and thirty-one to those of M.A.; nine hundred and fifty-seven to those of M.D.; and thirty-nine to those of LL.D.

of Victoria University will occupy their new buildings in the Queen's Park, Toronto, and the federation of the universities be practically consummated. The curriculum in Arts for all students of Victoria University will be that prescribed by the Senate of the University of Toronto. The Faculty of Arts in Victoria University will provide instruction in all subjects assigned by the Federation Act to University College. In other subjects the students of Victoria University will attend the lectures and laboratory practice of the University of Toronto.

ENTRANCE.

Candidates may enter this Faculty by passing the Junior Matriculation examination, (see appendix, p. 129) or the Senior Matriculation examination (First year), or at the examination of the Second year (see page 17).

Candidates for Junior Matriculation must have completed the fifteenth year of their age.

All candidates entering at the Junior Matriculation examination must take the pass subjects in Latin, Mathematics, English, History and Geography, and in one of the following groups: (a) Greek; (b) French and German; (c) French, and either Physics or Chemistry; (d) German, and either Physics or Chemistry.

Candidates intending to take, during their University course, any one of the following honor departments, viz.: Political Science, Mathematics and Physics, Chemistry and Mineralogy, Natural Sciences, are recommended to take French and German at Matriculation; since these languages must be taken in connection with the above-named honor departments. For a similar reason candidates intending to take, during their University course, either the honor department of Philosophy or that of Oriental Languages are recommended to take Greek, French and German at Junior Matriculation.

All candidates entering at the Senior Matriculation examination must take the pass subjects in Latin, English, History, Mathematics—Chemistry, Biology, Geology, specified below under the title of First year. (Note: Hebrew may be substituted for French or German). Candidates who propose taking the honor course in Philosophy are recommended to take French and German as well as Greek, in view of the course for Second year prescribed on p. 68; and candidates who intend taking the honor course in Political Science are recommended to take French and German, either instead of or along with Greek,

in view of the course for Second year prescribed on page 71. Candidates for Senior Matriculation may present themselves either in May—and compete with the undergraduates for honors and scholarships—or at a special examination in September, at which no honors or scholarships are awarded.

An undergraduate in the Faculty of Arts, in any University in Her Majesty's dominions, may enter by being admitted "*ad eundem statum*," on special application to the Senate.

If such application be for admission to the standing of the Third or Fourth year in this University the Senate will, if it sees fit to grant the same, prescribe the subjects of examination in which such applicant shall be required to pass before proceeding to the Degree, having regard to the subjects in which he has already passed satisfactory examinations in his own University.

If such applicant be admitted to a lower standing in this University than he held in his own University, he may not compete for scholarships at the next ensuing examination; but if he obtain honors he shall, at the next succeeding examination, enjoy the same rights and privileges with respect to obligatory subjects, as an original undergraduate of this University who has passed an examination of the same merit.

The ordinary annual examinations for Matriculation (both pass and honor) will commence in the beginning of July, and applications therefor must be sent to the Education Department before June 1st.

Supplemental examinations for Matriculation will be held in the University about the middle of September, at which those who are rejected at the July examination, as well as new candidates, may present themselves; but no honors or scholarships will be awarded at such examinations.

The fee for Matriculation is five dollars, and must be paid when the application for the examination is made.

The special examination for Senior Matriculation, previously referred to, will be held at the same time as these supplemental examinations.

Candidates for entrance must produce satisfactory certificates of age and of good conduct.

The fee for admission "*ad eundem statum*" is six dollars, and must be paid to the Registrar at the time of application.

amination of the Department of Education for First or Second Class Teachers' Certificates, is accepted *pro tanto* at any Junior Matriculation examination, provided always that all candidates for scholarships shall take the full Matriculation examination at Toronto, and shall notify the Registrar of their intention before the 1st of June.

First Class Teachers' Certificates, or Senior Leaving Certificates, or certificates of having passed portions of the examination for such certificates, may be accepted *pro tanto* at the Senior Matriculation and First year examinations. Teachers holding Grades A and B are allowed the options granted to honor men in the subjects in which these certificates have been granted; thus those having these grades in Mathematics will be recognized as in the honor department of Mathematics; those having Grade A in Natural Science shall be recognized as in the honor department of Natural Sciences of the Second year, on passing the necessary additional subjects in the First and Second examinations; and those having these grades in English will be recognized as in the honor department of Modern Languages on passing in pass and honor French and German in addition to other necessary subjects.

Certificates of having passed the First examination in the School of Practical Science are accepted *pro tanto* at the Senior Matriculation and First year examinations, *i. e.*, the examinations in Mathematics and Chemistry are not required from the holders of such certificates.

Candidates who desire to compete at the First year examinations for scholarships or relative standing cannot exercise the privilege referred to in the two preceding paragraphs.

Candidates entering at the examination of the Second year, and Undergraduates of First year standing who desire to take the Second year's examination, must, in addition to the subjects required for it, pass examinations on the subjects of the First year, according to the following scheme:—

For all who intend to pursue the pass course:—*Mathematics, History, English, and Chemistry or Biology or Geology.*

For those who intend to enter any of the honor departments, as follows:—

I. CLASSICS—*Mathematics; English; History.*

II. MODERN LANGUAGES—*Mathematics; Chemistry or Biology or Geology.*

- III. ORIENTAL LANGUAGES—*Mathematics ; Latin or Greek* (according as *Greek or Latin* is taken in Second year) ; *French or German ; English.*
- IV. POLITICAL SCIENCE—*Mathematics ; History ; Chemistry ; or Biology or Geology ; English.*
- V. PHILOSOPHY—*Mathematics ; English History ; Chemistry or Biology or Geology ; Latin* (if not taken in Second year).
- VI. MATHEMATICS AND PHYSICS—*English ; Latin or Greek.*
- VII. CHEMISTRY AND MINERALOGY—*Mathematics ; English ; Latin or Greek.*
- VIII. NATURAL SCIENCES—*Mathematics ; English ; Latin or Greek.*

I.—REGULATIONS RELATING TO ALL UNDERGRADUATES.

Undergraduates proceeding to a Degree are required to be registered either in University College or in a federating University—except in those cases in which the Senate, in consideration of peculiar circumstances, shall dispense with such attendance. All applications for such dispensation must be lodged with the Registrar before January 15th.

Every undergraduate who has not received such dispensation from the Senate for any particular year, must, before being admitted to examination, produce to the Registrar from the Head of the federated College which he has attended during the year, a certificate of attendance and of compliance with the requirements of that College.

Notice of the time of commencement of the undergraduate examinations will be given annually in January.

In Colleges in federation with the University, the Second and Third years' examinations are conducted by their respective professors, or lecturers, conjointly with associate examiners appointed by the Senate ; and such examinations are held at the same time as the examinations in the University.

Students of the Second or Third years of any federating University or College are examined on the subjects of the lectures by the professors or lecturers whose lectures are so attended, conjointly with the University associate examiners. Associate examiners are not appointed in the case of the theological options specified on pages 19 and 20.

Candidates in all the years are required to send to the Registrar of the University, at least three weeks before the commencement of each examination, an application for examination according to a printed form to be obtained from the Registrar, and such application must be accompanied by the fee of five dollars.

II.—REGULATIONS RELATING TO THE PASS COURSE.

The subjects to be taken by those pursuing the pass course, with the options permitted, are set forth in the following schedule :

FIRST YEAR	{	Latin ; English ; History ; Mathematics ; either Greek, or French and German ; and one of the three Sciences—Chemistry, Biology, Geology.
SECOND YEAR	{	Latin ; English ; History ; Philosophy ; Physics ; either Greek, or French and German.
THIRD YEAR	{	Latin ; English ; either Greek, or French and German ; any two of the three departments—History and Political Science, Philosophy, Physics.
FOURTH YEAR	{	Latin ; English ; either Greek, or French and German ; any two of the three departments—Political Science, Philosophy, Mathematics and Physics.

NOTE.—Hebrew may be substituted for French or German in each of the four years.

Undergraduates in the pass course in the Third and Fourth years may, in lieu of one or more of the subjects prescribed for each of these years, take certain of the following subjects, namely, Biblical Greek, Biblical Literature, Apologetics and Church History, according to the following scheme :

THIRD YEAR.

BIBLICAL GREEK	{	May be substituted for the prescribed classical Greek.
BIBLICAL LITERATURE OR CHURCH HISTORY.	{	May be substituted for the Modern History of the Political Science subject.
APOLOGETICS	{	An undergraduate who takes Philosophy may substitute Apologetics for Ethics.

Undergraduates who exercise these options must present certificates of having attended lectures, and passed examinations in the subjects so selected at an affiliated or federating College or University other than University College. The minimum for passing at such examinations must not be less than the minimum required at the University examinations of the same year.

Undergraduates of any year, who have been rejected, or who have been prevented from attending the annual examinations in May by sickness, domestic affliction, or other causes beyond their control may present themselves for examination in September, at the time of the Senior Matriculation examination. But candidates who have failed to attend at the May examinations, must prove to the satisfaction of the Vice-Chancellor, before presenting themselves in September, the existence and sufficiency of the alleged cause of absence, and all such cases shall be subsequently reported to the Senate.

A candidate for examination of any year in the pass course who has failed in not more than two subjects of the examination, may be allowed to present himself at the next ensuing supplemental examinations in the subject or subjects only in which he has so failed; and a candidate for examination of any year in an honor department, who has failed in not more than one of the pass subjects attached to his honor department, may be allowed to present himself at the next ensuing supplemental examinations in that subject only in which he has so failed. No candidate whether in the pass or honor course shall be allowed to enter upon the next succeeding year of his course until he has passed the subject or subjects in which he has failed at the supplemental examination in September, or at the time of any succeeding annual examinations in May; but no candidate taking a supplemental examination at the time of the annual May examinations shall be allowed to present himself at the same examination in the subjects of any succeeding year of his course.

Candidates who were rejected must pay a fee of ten dollars before offering themselves for the supplemental examination.

A student who has been pursuing the pass course, but who has also succeeded in taking honors in some department in any year of his course, may apply to the Senate to be permitted to take such honor course, as if he had originally entered thereon; and such application may be granted, the Senate having due regard to the subjects on which he has already been examined.

III.—REGULATIONS RELATING TO THE HONOR COURSE.

In this course there are eight honor departments, viz. : I. Classics ; II. Modern Languages ; III. Oriental Languages ; IV. Political Science ; V. Philosophy ; VI. Mathematics and Physics ; VII. Chemistry and Mineralogy ; VIII. Natural Sciences.

Candidates pursuing department II will be allowed at and after the examinations of 1893 to take either Teutonic or Romance languages in their Fourth year.

Candidates pursuing department VI are allowed to take either Mathematics or Physics in their Fourth year.

Candidates pursuing department VIII are allowed to take either Division I or Division II in their Fourth year.

An undergraduate is entitled to admission to the degree of Bachelor of Arts, if in each year of his course he passes the examination in the pass and honor subjects of one of these departments (except in the department of Political Science of which the honor subjects only are required), and also the pass examinations in the subjects, and at the respective times mentioned in the following schedule :—

Undergraduates in the honor departments of Philosophy and Oriental Languages may, in the Third year, substitute Biblical Literature or Church History for History. Undergraduates in the honor department of Philosophy may also substitute Biblical Greek for the pass classical Greek (Plato) to be taken in the Third year, and Biblical Literature or Apologetics for the pass Economics of the Fourth year. Undergraduates in the honor department of Oriental Languages may also substitute Biblical Greek for the pass classical Greek of the Third and Fourth years. Undergraduates in the honor department of Political Science may substitute Church History for the pass English of the Second year, and Biblical Greek for the Pass French or German of Third year. Those exercising these options must present certificates of having attended lectures and passed examinations in the subjects so selected at an affiliated or confederated College or University other than University College. The minimum for passing at such examinations must not be less than the minimum required at the University examinations of Third year. These examinations do not count for honors.

In the honor department of Philosophy two distinct examinations are held in the Fourth year upon the two systems of Philosophy taught in the confederating Arts Colleges.

A candidate for honors in any of these departments is required each year to take the pass papers set in the subjects of his department for that year, except in the department of Political Science, in which only the honor papers are required.

Candidates in the honor subjects of Physics, Chemistry, Biology, and Mineralogy and Geology, will be ranked in the class lists on practical work done in the laboratories of the respective departments during the session; and no candidate will be allowed to proceed to examination in any of these honor subjects unless he presents to the Registrar a certificate from the Professor that he has attained honor standing in the practical work of that subject.

A candidate pursuing the honor course in any one of these departments may, after passing in honors the examination of any year, apply for leave to take the pass course during the remainder of his undergraduateship.

A candidate pursuing the honor course, who fails to take honors in his department, shall not be considered to have passed the examination of the year, excepting that in the departments of Modern Languages, Political Science, Philosophy, Chemistry and Miner-

alogy, and Natural History, failed to obtain the degree, may, on the special application, proceed as an honor candidate. A candidate who fails in the examination for the examination in the Senate, may be permitted to re-examine in the examination in the Senate, as may appear in the regulations for the examinations here.

A candidate who fails to obtain honors and fails to obtain a degree, may be classed in honor and be awarded a degree. A candidate to accept of a subsequent examination.

An undergraduate in the honor departments may proceed therein, and he must during the examination of the subjects annexed.

Candidates for the Degree of Bachelor of Arts, may be admitted to the Degree of Bachelor of Arts upon some subjects.

AD

A graduate of the University of Britain or Ireland, may be admitted to the

ology, and Natural Sciences, a candidate who in any one branch has failed to obtain the full percentage requisite for ranking in honors may, on the special recommendation of the examiners, be allowed to proceed as an honor candidate in the department in the following year.

A candidate who has failed may at his option again present himself for the examination in which he failed; or, upon application to the Senate, may be permitted to take the ordinary supplemental pass examination in September, with such of the previous pass subjects as may appear requisite in view of the extent and character of the examinations he has already passed.

A candidate who competes for honors at the examination for B. A., and fails to obtain the requisite number of marks to entitle him to be classed in honors, may, on the recommendation of the examiners, be awarded a degree without honors; it being at the option of the candidate to accept the award of such a degree, or to wait until a subsequent examination and again compete for a degree in honors.

An undergraduate who has obtained honors in any one of these departments may transfer himself to any other department, and proceed therein, but as a prerequisite to obtaining the Degree of B. A., he must during his course have passed the examinations in pass subjects annexed to the honor department to which he is transferred.

DEGREE OF M.A.

Candidates for the Degree of M.A. must have been admitted to the Degree of B.A., must be of the standing of one year from admission to the Degree of B.A., and must have sent in an approved thesis upon some subject in one of the departments in the Faculty of Arts.

ADMISSION "AD EUNDEM GRADUM."

A graduate in the Faculty of Arts in any University in Great Britain or Ireland (if his degree be not an honorary one) may be admitted to the same degree in the University of Toronto.

FEES.

Matriculated undergraduates who are registered students of University College, or at any federating University or College, may attend lectures of University professors and lecturers in the Faculty of Arts without payment of fees, except those imposed for laboratory work ; but such students must enter their names with the Registrar of the University.

LABORATORY FEES.

“A course of laboratory work” means the continuous course of instruction in laboratory or practical work offered to the student in any one year in any of the undermentioned subjects, namely, Physics ; Chemistry ; Mineralogy and Geology ; Psychology ; Biology (including Physiology, Zoology, Botany, and Histology) ; and any other separate subject in which Laboratory work is or may be prescribed.

“A partial course of laboratory work” means a special course, or any sub-division, complete in itself, of a course of laboratory work as above defined.

“A matriculated student in Arts” means a student who is matriculated in the University of Toronto, and enrolled in University College or a Federating University, and whose name is entered with the Registrar of the University of Toronto.

“An occasional student” includes every student in whose case the Senate of the University of Toronto is by law authorized to determine fees for courses of lectures in the University of Toronto.

Laboratory fees shall be divided into (a) Fees for practical instruction in the Laboratory ; (b) Charges for supplies.

" " " " " " OVER 150 "	10 00

Subject to one rebate of \$1 to an occasional student attending two or three courses, or partial courses, the aggregate fees for which would according to the aforesaid scale equal or exceed \$10; and to one rebate of \$3 to an occasional student attending three or more of such courses, the aggregate fees for which would, according to the aforesaid scale, equal or exceed \$15.

The annual practical instruction fee for an occasional student attending a course, or partial course, of laboratory work, shall be ascertained by adding for the purpose of calculation, to the number of lecture hours in the same course, or partial course, the number of hours of laboratory work therein; and by rating the aggregate lecture and laboratory fee for that course combined accordingly, as for example :—

Assuming the course of lectures to comprise fifteen hours, and the course of laboratory work to comprise fifteen hours, making thirty in all, the total fee for the course of lectures and laboratory work combined shall be that prescribed above for thirty lecture hours, namely : \$3.

The above provision for a rebate to an occasional student taking more than one course shall apply only to the combined courses and the aggregates so ascertained; each course of lecture and laboratory work combined, being treated as one single course.

CHARGES FOR LABORATORY SUPPLIES.

Charges for supplies shall include laboratory materials and instruments used by or for the student, and ordinary wear and tear of instruments; but not charges for waste, neglect or breakage, which are to be met out of a deposit, to be fixed by the Professor.

UNIVERSITY PRIZES AND SCHOLARSHIPS.

SCHOLARSHIPS.

The following scholarships have been founded and endowed in the University and are open for competition to all undergraduates in Arts, who are candidates for honors in the departments and years to which they are assigned :

GENERAL PROFICIENCY.

THE PRINCE OF WALES SCHOLARSHIP, of the value of \$50, the gift of his Royal Highness the Prince of Wales. It is awarded at the Junior Matriculation examination to the candidate who, having obtained First Class honors in any two of the departments of Classics, Mathematics and Modern Languages, shall have obtained the highest aggregate number of marks in two departments ; and, in the event of such scholarship not being taken at any Junior Matriculation examination, it will be awarded to the candidate (if any) at the ensuing First year's examination who shall answer the same conditions. This scholarship is tenable in conjunction with any other scholarship or scholarships.

In awarding this scholarship the comparative value of the several departments and sub-departments is estimated according to the following schedule :

Greek	400
Latin	400
Mathematics	800
English.....	300
French	250
German.....	250

POLITICAL SCIENCE.

THE BLAKE SCHOLARSHIPS, two of the value of \$75 each, and two of the value of \$50 each. The gift of the Chancellor of the University, Hon. Edward Blake. These scholarships are open for competition alike to students in Arts in the honor department of Political Science, and to undergraduates in the Faculty of Law, taking the same examinations.

THE RAMSAY SCHOLARSHIP in Political Economy, of the value \$60. The gift of Mr. William Ramsay. This scholarship is open for competition to all graduates or undergraduates who have been placed in the First Class in one of the Economic subjects of the Fourth year in the honor department of Political Science (This year in the Faculty of Law); but not more than two years must have elapsed since the competitor passed the examination also named. The award is made upon an essay, the subject of which shall be some question in Economics or Finance of interest to the commercial community in Canada, to be announced in May of each year, and the competition shall close on the 15th of September thereafter, by which date the essays must be sent to the Registrar.

THE BANKERS' SCHOLARSHIP in Political Science of the value \$70. The gift of the Canadian Bank of Commerce, the Dominion Imperial, Standard and Traders' Banks, and the Union Bank of Lower Canada. Only such candidates are eligible as are of one year's standing and have passed the examination of the First year. A special examination on some special text-book of history or finance will be held at the time of the supplemental examinations in September. This scholarship is not tenable with any other.

CLASSICS.

THE MARY MULOCK CLASSICAL SCHOLARSHIPS, two of the value \$60 each. The gift of the late Mrs. Mulock.

Special Announcements of Victoria University.

RELIGIOUS SERVICES.

All students are expected to attend the public worship of God on the Lord's Day at such churches as their parents or guardians may prefer. Morning prayers will also be held daily in the Chapel, at which all students are expected to be present. Other religious services will be held at suitable times, to which all students are cordially invited.

RESIDENCE.

It is expected that a residence, constructed upon approved modern principles, and affording healthful and comfortable accommodation for one hundred students, will shortly be erected on the Victoria University grounds in the Queen's Park. In the meantime, carefully selected boarding houses will be licensed in which board and rooms may be obtained at prices varying from \$3.00 to \$5.00 a week.

FEEES.

Students in Arts will be subject to the regular University fees as on page 26.

In addition they will pay the following college fees on registration in the Faculty of Arts in Victoria University :

First Year—any course or department	\$25 00
Second Year—any course or department	25 00
Third Year—Chemistry and Mineralogy or Natural Science	20 00
Any other course or department	25 00
Fourth Year—Chemistry and Mineralogy or Physics	20 00
Biology	15 00
Any other course or department	25 00

The fees payable for partial courses will be the same as those prescribed on page 30.

DE QUINCEY: On Style; Coleridge; Wordsworth; The English Mail Coach.

GEORGE ELIOT: Middlemarch.

In the class the leading characteristics of these authors, in connection with one another and with their time will be exemplified by lectures and by the study of selected works. It will be impossible to read in class all the works mentioned above, but the lecturer will assume that the students have, in private, made themselves familiar with the specified selections.

FOR HONORS.

The history of Elizabethan and early Stuart literature (1558-1603).

The following works are to be studied critically:

SPENSER: Faerie Queene, Bk. II.

SHAKESPEARE: Richard III; Julius Cæsar; Anthony and Cleopatra; Cymbeline; Two Noble Kinsmen.

HISTORY.

The lectures will be mainly directed to the principles underlying the progress of history; the influences of race, religion, physical geography, and other sources of national development and the historical illustration of classical and modern literature.

All text-books are omitted from the University curriculum in mediæval and modern history; but books of reference are named here, and others will be referred to in the lectures.

FIRST YEAR.

ANCIENT HISTORY—GREECE.

General History of Greece to the Roman conquest, B.C. 146.

Cox: General History of Greece (Student's series); Thirwall's, Grote's, Curtius' or Abbott's History of Greece; Freeman's Essays and History of Federal Government; Whibley's Political Parties in Athens; Wordsworth's Athens.

ANCIENT HISTORY—ROME.

General History of Rome to Romulus Augustulus, A.D. 476.

MERIVALE: General History of Rome (Student's series).

BOOKS OF REFERENCE.

History: Liddell's Roman; Smith's Student's Gibbon; Rawlinson's Ancient History. Arnold's Merivale's, Mommsen's, Ihne's and Gibbon's (*Variorum*) Roman.

Biography and Mythology: Smith's Dictionary.

SECOND YEAR.

MEDIÆVAL HISTORY.

Italy, France, Germany, Spain, England, Scotland, Ireland. Intrusion of the Barbarians on the Roman Provinces. The Crusades. The rise of the Ottoman Power.

Books of Reference: Hallam's Middle Ages; Gibbon's Decline and Fall, *vid.* chaps. 39-43, 45-52, 58, 59, 61, 65-68; Freeman's Early English History; Freeman's Norman Conquest; Freeman's Short History of the Norman Conquest; Green, History of the English People; Stubbs, The Early Plantagenets; Pearson, English History in the Fourteenth Century; Longman, Life and Times of Edward III; Gairdner, The Houses of Lancaster and York; Burton's History of Scotland; Kitchin's History of France; Robertson's Charles V.

THIRD YEAR.

MODERN HISTORY.

England, Germany, France, Spain, and United States to peace of 1815, and Canada to 1867.

Books of Reference: Robertson's Charles V; Green's History of the English People; Hallam's Constitutional History; Macaulay's History; Kitchin's History of France; Stanhope's History of the Reign of Queen Anne; Burton's History of Scotland; Lecky's History of England in Eighteenth Century; Parkman's Wolfe and Montcalm.

Good facilities are now offered for laboratory work in Experimental Psychology. Practical work is required of Honor Students of the Third and Fourth years. Special facilities for research are offered to advanced students, whether graduates of this University or not. Some preliminary preparation in the Physiology of the Nervous System and with the problems of Physiological Psychology, as treated in the works named above, will be needed.

ETHICS: Theory of Obligation and Ethical Systems: Cicero, De Finibus, I-II (in the original); Green, Prolegomena to Ethics; Martineau, Types of Ethical Theory.

[Course in Applied Ethics: Topics: Temperance, Charity, Penology. Not yet prescribed.]

Books recommended: Butler, Sermons; Janet, Theory of Morals; Spencer, Data of Ethics; Sidgwick, Methods of Ethics, and History of Ethics; Jodl, Geschichte der Ethik.

HISTORY OF PHILOSOPHY: Ancient and Mediæval; Zeller, Outlines of the Greek Philosophy; Ueberweg, History of Philosophy, vol. I; Plato, Meno (in the original, to be taken during the Third year with the Pass work of the Fourth year in the Classical department).

Books recommended: Zeller (large work, *i.e.*), Presocratics, Socrates and the Socratic Schools, Plato and the older Academy, Stoics, Epicureans and Sceptics; Butler (Archer), Lectures on the Ancient Philosophy; Erdmann, History of Philosophy, vol. I.

FOURTH YEAR.

HISTORY OF PHILOSOPHY: Modern; Descartes to Kant.

Schwegler: Falckenberg.

FOR HONORS.

ETHICS: Aristotle, Nicomachean Ethics, Bk. I-IV (in the original, lectures to be taken with the work of the classical department). Kant: Kritik der praktischen Vernunft.

Books recommended: Aristotle: Grant; Kant: Semple, Porter, Schurman and Green.

HISTORY OF PHILOSOPHY: Modern; Ueberweg, History of Philosophy, vol. II; Erdmann, History of Philosophy, vol. II and III. Special study of Kant's Critiques.

Books recommended: History of Philosophy; Kuno Fischer, Windelband, Falckenberg, Ravaisson, Lewes, Morell.

KANT: Kritik der reinen Vernunft; Kritik der Urtheilskraft; Prolegomena to Metaphysics.

Books recommended: Caird, Watson, Morris, Hutchinson Stirling, Mahaffy & Bernard, Vaihinger, Erdmann, Riehl.

METAPHYSICS: Constructive; Descartes, Meditations and Method; Spinoza, Ethics; Kant, Prolegomena to Metaphysics (of which §§ 1-39 inclusive must be read in the original); Hamilton, Lectures on Metaphysics; Spencer, First Principles; Lotze, Metaphysics.

SEMINARY, for the study of advanced philosophical problems, conducted by Professor Baldwin. Subject for the year '92-'93: "The Philosophy of Lotze."

SEMINARY, for the study of Ethics, conducted by Professor Hume; Subject for '92-'93: "The Ethical Systems of Aristotle and Kant."

[Course in Applied Ethics; Topics: The Family—Marriage and Divorce; Employer and Employee—Socialism; Indian Wards; Missions; not yet prescribed.]

Attendance upon the seminaries on the part of honor students is strongly recommended, though the Professor in charge reserves the right to limit the membership. The object of the Seminary is instruction in the methods of advanced and original work. Post-graduate and special students are admitted if their qualifications are deemed satisfactory.

PHYSICAL LABORATORY.

The Physical Laboratory which has been lately established, is furnished with a large collection of apparatus for lecture experiments in the departments of Mechanics, Sound, Light, Heat, and Electricity. It is also well supplied with instruments of precision for individual work in the same departments. In addition to an Elementary Laboratory, there are several special Laboratories which offer unusual facilities for the conduct of experiments in the various branches of Physics. A workshop is provided in connection with the Laboratory.

BIOLOGY.

The lectures and practical instruction in this subject are given in the University Biological Department.

The following arrangements will be in force for 1892-93 :—

1. A course of elementary lectures on Biology will be given three days a week to prepare candidates for the University examination of the first year.
2. A course of lessons involving 100 hours instruction given in connection with the above course of lectures for students entering the Honor Department of Natural Sciences. A Laboratory supply fee of \$2 will be charged to members of the practical class for the use of microscope and material for study. But each member will be required to provide himself with a case of instruments and an engraver's lens, both of approved patterns.
3. In addition to attending the course of lectures under sec. 1, candidates for Second year honor examinations will attend a special course on the Zoology of the vertebrata during the Michaelmas Term, and a series of demonstrations on selected topics in Physiology during Easter Term.
4. The practical course for honor students of the Second year will be devoted to the study of typical forms of plants and animals, such

as are treated of in *Huxley and Martin's Elementary Practical Biology*, new edition. There will also be opportunities for the study of the Canadian vertebrate fauna (Text-book *Jordan's American Vertebrates*), but the student is expected to have familiarized himself with the Canadian flora during the preceding long vacation. (For reference, *Spotton's Canadian Flora*, or *Gray's Manual*.)

5. Honor students of the Third year will study the Zoology of the Invertebrata three days a week during the Michaelmas and part of the Easter Terms, and during the remainder of the Easter Term, Cryptogamic Botany and Vegetable Physiology.

BOOKS OF REFERENCE.

Goebel's Outlines of the Classification of Plants.

Vines's Lectures on the Physiology of Plants.

Claus's Zoology, translated by Sedgwick.

6. The practical course for Third year students will be devoted to the study of typical forms of cryptogamic plants and invertebrate animals.

7. *Wiedersheim-Parker's Elements of Comparative Anatomy of the Vertebrata*, and *Foster's Physiology*, last English edition, are recommended for honor students of the Fourth year, and the following works will be required in the practical course.

Stöhr's Handbuch der Histologie.

Parker's Zootomy.

Foster and Balfour's Embryology.

Bunge's Physiologische Chemie.

Works of reference on Bacteriology and the other subjects specified in the University curriculum will be found in the laboratory.

8. Honor students of all years are required to pay in advance to the Registrar laboratory supply fees as prescribed on page 28.

POLITICAL ECONOMY.

FIRST YEAR. (SECOND YEAR IN FACULTY OF ARTS.)

ELEMENTARY ECONOMICS.

Subject of examination: The elements of Political Economy : Value, Price, Wages, Interest, Profits, Rent.

Lectures: The lectures in this course will give a general introduction to modern Political Economy, and are intended to assist both the honor students of the second year in Political Science, and the pass students of the fourth year. While, for the sake of the pass students and of those who cannot take a later course in the subject, the lectures will deal in outline with all the main subjects usually included under the head of Political Economy, the honor students are requested to give their chief attention to the subjects specified above.

The lectures will deal with the following topics among others : The Use of Text-books ; Definition and Division of the subject ; Wealth ; *Production* :—Labor, Causes of Increase in Productivity ; Supply of Labor ; Land, Law of Diminishing Returns ; Capital, Definition and Division ; Function of Capital in Relation to Labor ; *Distribution* :—Assumptions ; Number of Shares ; Parenthesis on Supply and Demand ; Agricultural Rent, Statement and Criticism of Ricardo's Doctrine ; House-rent ; Interest and its Causes ; Profits and their Analysis ; Wages ; Criticism of various Wage Doctrines—Iron Law, Wage Fund, Residual Claimant, Share of Product ; Organization of Labor ; Excursus on Co-operation, Productive and Distributive ; *Exchange* :—Value ; Money ; Fluctuations in Prices ; Gresham's Law ; Bimetallism ; Paper Money ; Foreign Trade ; Balance of Trade ; Protection and Free Trade ; Functions of Government ; Methods of Governmental Action ; Taxation, Direct and Indirect.

Books recommended: The chief text-book will be that of Symes. For the application of Economics to the practical life of the time Ely's *Introduction* will be found interesting. Among other manuals which the student would do well occasionally to consult are those of Cannan, Gide, Walker and Andrews.

SECOND YEAR. (THIRD YEAR IN FACULTY OF ARTS.)

HISTORY AND CRITICISM OF ECONOMIC THEORY.

For examination students are required to give special attention to (i) Adam Smith, *Wealth of Nations*, Bk. I, chap. 10, part 2; Bk. IV, chaps. 1, 2, 3, part 2; chap. 7. (ii) Malthus, *Essay on Population*, Bk. I, chaps. 1, 2. (iii) Ricardo, *Principles of Political Economy*, chaps. 1-6. (iv) List, *National System of Political Economy* (trans. Sampson Lloyd), chaps. 10, 11, 12.

The *Lectures* : will follow in chronological order the development of Economic Theory down to the present time. They will deal with the following topics among others : The Economic Ideas of Plato and Aristotle ; the Influence of Roman Law ; the Teaching of the Mediaeval Church as to Usury and Just Price, with special regard to Aquinas ; the Genesis of Modern Conceptions ; the Doctrine of Interest ; Balance of Bargain and Balance of Trade ; Earlier and Later Mercantilism ; Mun ; Child ; Petty ; the Physiocrats, Quesnay ; David Eume ; Adam Smith—his Relation to later economists, his Method and Assumptions ; Freedom of Industry and Trade ; Malthus—his doctrine of population in its earlier and later forms ; Ricardo—his Doctrines of Value, Rent, Wages, Profits, List and Nationality ; John Stuart Mill ; the Historical School ; State Socialism ; Jevons and the Austrian School.

Books recommended : The chief text-book will be Ingram's *History of Political Economy*. System of Canada, Great Britain and the United States; Public Debts and the Policy of National and Local Governments in relation to them; Methods of Extinction of Debt; Sinking Funds; Public Domain—Lands, Forests, Minerals; Railroad Policy, its history in Europe and America; Postal Service; Municipal Monopolies; Business Licenses; Taxation; Repercussion of Taxation; Ethics of Taxation: Direct and Indirect Taxation; Tariff Policy—outline of its history in Great Britain, Canada and the United States; Local Taxation in Canada and the United States.

Books recommended: The most useful books for this course are Cossa, *Taxation*; Dunbar, *Theory and History of Banking*; Walker, *Money, Trade and Industry*; Adams, *Public Debts*; Ely, *Taxation*; Hadley, *Railroad Transportation*. Among the works which it will be advantageous to consult are Bagehot, *Lombard Street*; Jevons, *Money*; Leroy-Beaulieu, *Science des Finances*, Livre II, chaps. 4, 5, 9, 10; Giffen, *Essays in Finance*, 1st series, IX; Taussig, *Tariff History of United States*; Sinclair, *Municipal Monopolies* (University of Toronto Studies in Political Science, 1st series, II).

SEMINARY.

The Seminary will meet weekly during the session of 1892-3 for the study of Public Finance, under the presidency of the Professor of Political Economy. All students of the Fourth year who are attending the lectures in Public Finance, and who are ready to take their share in the work of the Seminary, can attend its meetings. Each meeting will begin with the reading of an abstract of the papers presented the previous week; two essays will then be read on different sides or aspects of some particular problem; and these will be followed by a general discussion. A programme of essays will be drawn up at the beginning of the session, so that members will have adequate time for preparation. Attendance is strongly recommended; though the Professor in charge cannot engage that all the work will be directly useful for examination purposes.

THE FIRST SECOND YEAR

In tracing the history of the British North American continent, the student should ascertain its conditions at the time of the Conquest; to discover the extent of the French influence continued in force after the Norman Conquest; and what were the conditions of the people, and the extent of the feudal system, after the Norman Conquest.

The change effected by the Conqueror and his feudal system,—tracing the influence of the great charter of Magna Carta on the rights of the people, and the development of the feudal system.

The great changes effected by Edward III. The struggle for the right to obtain power to restrict alienation of land means taken to prevent frauds upon tenures by Charles I. and the effect of the *Habeas Corpus* more effectively ameliorate the conditions of the people have their course explained.

Books recommended: The history of England, also a collection of the *Habeas Corpus* of Canada, and the

N.B.—Two or three lectures of this course will be occupied with the British North America Act, and will be arranged so as to assist the Pass students of the Fourth year in the Faculty of Arts. They will be announced a week beforehand.

§ 4.

THE HISTORY OF ENGLISH LAW.

SECOND YEAR. (THIRD YEAR IN FACULTY OF ARTS.)

In tracing the history of the English law an attempt is made to ascertain its condition from the Roman Conquest until the Norman Conquest; to discover if any of the original Celtic or Druidical laws continued in force during the Roman occupation; and to what extent, if at all, the Roman law continued after the Saxon invasions; and what were the laws of the Conqueroress so much cherished after the Norman Conquest by the conquered race.

The change effected in the law, especially of real property, by the Conqueror and his successors,—the introduction or extension of the feudal system,—the special difference between that system as existing on the continent and in England,—the creation of new tenures,—the great charter and its frequent renewals as showing the condition of the people, and the evils to be remedied.

The great changes effected by the legislation of Edward I and Edward III. The creation of entailed estates,—the long struggle to obtain power to alienate them and its final success. The legislation to restrict alienations in mortmain,—the continuous and skilful means taken to evade the law, and their final defeat. The law giving power to devise lands, and the legislation of Elizabeth to prevent frauds upon creditors and purchasers. The abolition of feudal tenures by Charles II, and the laws of his reign for the prevention of frauds and perjuries—for the distribution of intestates, personal estates—and in favour of liberty by rendering the remedy by *Habeas Corpus* more effective. The efforts in the reign of George III to ameliorate the criminal law, and the English Statutes after 1792 that have their counterpart in our Colonial legislation are discussed and explained.

Books recommended : Reeve's History of English Law; Hale's History of English Law; Blackstone's Commentaries. Consult also a collection of English Statutes, and the Revised Statutes of Canada, and of Ontario.

§ 5.

ROMAN LAW.

SECOND YEAR. (THIRD YEAR IN FACULTY OF ARTS.)

The lectures on Roman Private Law comprise a rapid sketch of the history of the law from the time of the decemviri to the death of Justinian ; giving an account of the growth of the unwritten law ; of judicial legislation to the suppression of the formulary system by Diocletian, and from that time to the death of Justinian ; and treating of the statutory legislation during the Republic and under the Empire ; and of the several attempts to form a code, finally terminated by the work of Justinian.

The larger number of lectures is devoted to the substance of Roman Law during the reign of Justinian ; embracing a description of the persons and things recognized by the law ; and as to the creation, extinction, and exercise of rights, and to the performance of duties ; as to the rights of ownership, and the qualification of them ; as to the modes of acquiring ownership, and the modes of protecting it. The nature and objects of obligations, the parties to them, and the extinction of obligations by fulfilment or otherwise are discussed. The constitution of the Roman Family is explained, and the laws applicable to its different members, as husband and wife, parents, children, and slaves, are noticed and commented on. The offices of guardians and trustees, and the rights, duties, responsibilities, and liabilities of guardians and trustees are stated and explained.

The rules of succession to an intestate, the selection of an heir in such case by operation of law, and the changes in the law at different periods, ending in the final legislation of Justinian, are stated and explained. The law of testamentary succession, the various kinds of wills, the duties of the heir, the gift of legacies, and the history of trust gifts and codicils are explained.

The remedial processes for the protection and enforcement of rights are traced from the *legis actiones*, the changes effected by the formulary system, the summary jurisdiction of the prætor, the abolition of the formulary system, terminating in the *extraordinaria cognitio*. The system of judicial administration in the time of Justinian, and the progress of a suit in his time are explained.

HONORS AND PRIZES.

The SANFORD GOLD MEDAL in Divinity is awarded to the Candidate for the Degree of B.D. who takes the highest standing in a Final Review Examination on three prescribed Departments of the Divinity Curriculum. The Departments for 1892 are Theology, New Testament Exegesis, and Old Testament Exegesis; and for 1893 Apologetics, New Testament Exegesis, and Old Testament Exegesis. Each competitor, in addition to the ordinary statutory requirements for medals, must have attained an average standing of, at least, sixty per cent. on the ordinary Examinations of the course for B.D.

The JOHN MACDONALD BURSARY of \$25, established by the late Hon. John Macdonald, Toronto, is awarded each year to the Probationer for the Methodist Ministry who stands first in Elocution.

The WALLBRIDGE PRIZE is open to all Theological Students other than Undergraduates in Arts, and to all Undergraduates in Arts of the third and fourth years, and is awarded annually for the best Examination on the work of the class in New Testament Exegesis for Theological options.

The GEORGE A. COX Bursary of \$25 is awarded annually to the Post-Graduate Student in Theology who passes the best Examination in the Department of New Testament Exegesis and Literature, on work specified each year.

The RYERSON PRIZE is awarded annually to the Undergraduate in Arts of the third year who stands first in New Testament History.

The MICHAEL FAWCETT PRIZE of \$50 is awarded annually for the best extempore oration on a subject to be assigned by the Trustees of the Fund at the commencement of each year. The subject for 1893 will be "The Planting of Methodism in America."

This prize is open to all candidates on probation for the Ministry of the Methodist Church.

RESIDENTS ONLY.—All these prizes, with the exception of the Sanford Gold Medal, are open only to candidates who have been in attendance on lectures during the year.

JUNIOR MATRICULATION.

NOTE.—All candidates for Junior Matriculation must take the pass subjects in Latin, Mathematics, English, History and Geography, and in one of the following groups : (a) Greek ; (b) French and German ; (c) French and either Physics or Chemistry ; (d) German and either Physics or Chemistry.

A choice of questions may be allowed on each Pass paper.

Candidates intending to take during their University course in Arts any one of the following Honor departments, viz., Political Science, Mathematics and Physics, Chemistry and Mineralogy, Natural Sciences, are recommended to take French and German at Matriculation ; since these languages must be taken in connection with the above-named Honor departments. For a similar reason candidates intending to take during their University course either the Honor department of Philosophy or that of Oriental Languages are recommended to take Greek, French, and German at Junior Matriculation.

PASS EXAMINATION.

CLASSICS.

XENOPHON, *Anabasis*, IV.

HOMER, *Iliad*, I.

VIRGIL, *Æneid*, I.

CÆSAR, *Bellum Gallicum*, III, IV.

Translation from English into Latin prose, involving a knowledge of Bradley's *Arnold*, Exercises 1-24 inclusive, and 49-65 inclusive.

Translation from English into Greek prose, involving a knowledge of the first fifteen exercises in Abbott's *Arnold's Greek prose composition*.

Translation at sight, with the aid of vocabularies, of easy passages from Latin and Greek authors.

A paper on Latin and Greek grammar.

For practice in writing continuous Latin prose, candidates are recommended to study Simpson's Latin Prose (Part I.)

MATHEMATICS.

Arithmetic.

Algebra. (Elementary rules; easy factoring; highest common measure; lowest common multiple; square root; fractions; ratio; simple equations of one, two and three unknown quantities; indices; surds; easy quadratic equations of one and two unknown quantities.)

Euclid, Bb. I, II, III.

ENGLISH.

1. Composition:—Nothing but an essay will be required; this shall be dealt with rather as a test of the candidate's power of English composition than as a proof of his knowledge of the subject written upon. Legible writing and correct spelling and punctuation will be regarded as indispensable, and special attention will be paid to the structure of sentences and paragraphs. The examiner will allow a choice of subjects, some of which must be based on the following selections, with which the candidate is expected to familiarize himself by careful reading:—

SCOTT, *The Talisman*.

IRVING, *The Sketch Book*.

2. Grammar and Rhetoric:—The examination will be chiefly on passages not prescribed. A liberal choice of questions will be allowed to the candidate.

3. Poetical Literature:—Intelligent comprehension of and familiarity with the prescribed texts will be required:—

WORDSWORTH (*Arnold's Selections*): *Reverie of Poor Susan*, *We are Seven*, *Tintern Abbey*, *Lucy Gray*, *The Fountain*, *Michael*, *Heart-Leap Well*, *To the Daisy*, *To a Highland Girl*, *Stepping Westward*, *The Solitary Reaper*, *At the Grave of Burns*, *At the Residence of Burns*, *To the Cuckoo*, *Fidelity*, *Peel Castle*, *French Revolution*, *Ode to Duty*, *Intimations of Immortality*, *The Happy Warrior*, *Resolution and Independence*, *Yarrow Visited*, *To a Sky-Lark*, *A Poet's Epitaph*, and *Sonnets 3, 6, 17, 19, 20, 23, 24, 25, 26, 29*.

Outlines of Roman history to the death of Augustus, and the geography relating thereto.

Outlines of Greek history to the battle of Chaeronea, and the geography relating thereto.

FRENCH.

Grammar.

Composition :—(a) Translation into French of short English sentences as a test of the candidate's knowledge of grammatical forms and structure, and the formation in French of sentences of similar character; and (b) translation of easy passages from English into French.

Translation of unspecified passages from easy French authors.

An examination on the following texts :

DE PEYREBRUNE, Les Frères Colombe.

FEUILLET, La Fée (the comedy).

GERMAN.

Grammar.

Composition :—(a) Translation into German of short English sentences as a test of the candidate's knowledge of grammatical forms and structure, and the formation in German of sentences of similar character; and (b) translation of easy passages from English into German.

Translation of unspecified passages from easy German authors.

An examination on the following texts :—

RIEHL, Culturgeschichtliche Novellen; Der stumme Ratsherr;

Der Dachs auf Lichtmess; Der Leibmedicus.

SCHILLER, Der Taucher.

ELEMENTARY SCIENCE.

PHYSICS.

An experimental course in (a) Dynamics, (b) Heat, (c) Electricity, including an acquaintance with the metric system of units. The courses are defined as follows :—

Dynamics : Definitions of velocity, acceleration, mass, momentum, force, moment, couple, energy, work, centre of inertia ; statement of Newton's laws of motion ; composition and resolution of forces ; conditions for equilibrium of forces in one plane.

Definitions of a fluid, fluid pressure at a point, transmission of fluid pressure, resultant fluid pressure, specific gravity, Boyle's law, the barometer, air pump, water pump, siphon.

Heat : Effects of heat, temperature, diffusion of heat, specific heat, latent heat, law of Charles.

Electricity : Voltaic cells, chemical action in the cell, magnetic effect of the current, galvanometer, voltmeter, Ohm's law, heating effect of the current, electric light, current induction, dynamo and motor, electric bell, telegraph, telephone.

CHEMISTRY.

Definition of the object of the science, relations of the physical sciences to biology, and of chemistry to physics, chemical change, elementary composition of matter. Laws of combination of the elements, atomic theory, molecules, Avogadro's Law. The determination of atomic weight, specific heat, atomic heat, nomenclature, classification. The preparation, characteristic properties, and principal compounds of the following elements: hydrogen, chlorine, bromine, iodine, oxygen, sulphur, nitrogen, phosphorus, carbon, silicon.

Translation at sight from Latin and Greek authors not specified.

Translation from English into Latin prose

Translation from English into Greek prose, involving a knowledge of Abbott's *Arnold's Greek prose composition*, or Fletcher & Nicholson's *Greek prose composition*.

Latin and Greek grammar.

MATHEMATICS.

Plane Trigonometry ; Trigonometrical ratios with their relations to each other ; sines, etc., of the sum and difference of angles with deduced formulæ ; solution of triangles ; expression for the area of triangles, radii of circumscribed, inscribed and escribed circles.

Algebra : More thorough knowledge of the pass subjects, together with variation, progressions, permutations and combinations, binomial theorem, interest forms with annuities.

Euclid, Bb. IV, VI, and definitions of B. V.

ENGLISH.

1. Composition : An essay. A liberal choice of subjects will be allowed.

2. Grammar, Philology, Rhetoric and Prosody :—The examination will be chiefly on texts not prescribed.

3. Poetical Literature : Intelligent comprehension of and familiarity with the prescribed texts will be required :—

SHAKESPEARE, *Macbeth*.CHAUCER, *Prologue*.

BIOLOGY.

1. ELEMENTS OF BOTANY :—

The examination will test whether the candidate has practically studied representatives of the flowering plants of the locality in which the preparatory school is situated, and representatives of the chief subdivisions of cryptogams, such as a fern, a lycopod, a horse-tail, a liver wort, a moss, a lichen, a mushroom, and a chara.

A knowledge of structure is required, such as can be obtained with the use of the compound microscope. Attention will be given in the examination to drawing and description of parts of plants supplied, and to the classification of these. Comparison of different organs, morphology of root, stem, leaves, and hair, parts of the flower, reproduction of flowering plants, pollination, fertilisation, and the nature of fruit and seeds.

2. ELEMENTS OF ZOOLOGY :—

Practical study of the subject as defined in *The High School Zoology*, but limited by the author's syllabus of work.

The percentage required for pass standing shall be 25 per cent. on each paper, and 40 per cent. on the whole examination.
