

# TELEGRAPH NEWS.

**OTTAWA, June 3.**  
The delegation from British Columbia, empowered to negotiate with the Dominion Government the terms upon which that colony will be admitted to the Union, arrived in this city to-day.

The health of Sir John A. McDonald is improving somewhat faster. To-day he appears to be much better.

**Quebec, June 3.**

Prince Arthur presented a stand of colors to the volunteers at Huntingdon on Wednesday, and complimented the conduct of the men during the recent raid.

**LONDON, June 3.**

There are still some apprehensions in regard to the movement of Fenians in England. The Government has received private information concerning their plan of operations, and as a consequence orders have been issued from the Admiralty Office to double the guards at all the dockyards and naval stations, to keep fire banks on all steamers, and other precautions calculated to facilitate the suppression of any revolt.

**Rome, June 3.**

The Ecumenical Council yesterday decided that the dogma of Infallibility shall be proclaimed on June the 29th, in honor of the feast of St. Peter.

Extensive preparations are being made to celebrate the occasion, and the display of pomp and pageantry will surpass any demonstration ever witnessed in Europe.

**LONDON, June 3.**

The cholera is making fearful ravages among natives in portions of Hindostan. Thousands of people have been attacked, and hundreds of bodies are left lying above ground. There is a great panic among the inhabitants.

**LONDON, June 3.**

It is known on competent authority that the Prince of Wales, through his agents, has been in negotiation with several landed proprietors, for the purchase of an Irish estate, with a view to fixing his permanent residence in Ireland. The best confirmation of these rumors is found in the fact that the negotiations have been closed, and that the Prince has definitely fixed upon a desirable site, and will shortly commence the erection of his future residence.

**New York, June 4.**

In Congress yesterday, the Income tax was reduced to 3 per cent. The exemption is raised to \$2,000. The limit of exemption for house rent fixed at \$500, and several other changes of minor consequence made.

The Fenians lost eleven killed and seven teen wounded in their last raid on Canada. Gold quit.

I can testify to the high therapeutic value of Fellows' Compound Syrup of Hypophosphites, and consider it deserving of attention by the profession generally.

**AARON ALWARD, M. D.**  
Mayor of the City of St. John.

The Toronto Globe of June 1st has the following:

**PORT WILLIAM, May 28th.**  
via Collingwood, May 31st, 1870.

The Algoma, Brooklyn, Shickluna, and two schooners have arrived, and disembarked the troops and stores. The men embarked at the Government Station.

Col. Wolley has christened the place Prince Arthur's landing. There is considerable activity and bustle.

The Company, which went up in the "Chicora," have marched to the end of the Portage.

Weather splendid.

The portage referred to is that over which the Dawson road, more than 40 miles long, has been run from Thunder Bay to the chain of lakes to the West.

**Sault Ste. Marie Canal closed to a Dominion Gunboat.**

Last week the Dominion gunboat, the "Prince Alfred," was refused permission to pass through the Sault Ste. Marie Canal. Had the Prince Alfred got through the Canal its mission would have been the protection of Canadian vessels on Lake Superior from attacks of American citizens calling themselves Fenians. The pretence for closing the Canal against the "Prince Alfred" was that the boat was a vessel of war connected with the Red River expedition.

**JOY FOR INVALIDS.**—The greatest and best chemical combination of the very finest anodyne and expectorant "balsams" dwells in Dr. Wilson's Pulmonary Cherry Balsam, which, to be praised, needs only a trial. The extraordinary power exerted over all lung complaints strongly recommend it to the use of families in which any constitutional weakness or tendency to consumptive taint exists. Dr. Wilson's Balsam has the most renovating effect when the throat and lungs become diseased. It keeps the action of the lungs free, and subdues the cough. It is innocent in its nature, and harmless in its action, and is adapted for any and every constitution, however robust or delicate.

Dr. Wilson's Family Anti-Bilious Pills will cleanse the blood, assist in creating new and pure blood, and promote the proper distribution of nutriment throughout the entire body. This is reason why they are so efficacious, as to have commanded, in so unparalleled a manner, the confidence of the public in so short a time.

If your horse has contracted or fevered hoofs or is foundered, let him stand on a salt poultice, and apply Dr. Dow's Sturgeon Oil Liniment around the upper part of the hoof, in the way the way the directions prescribe, and he can be cured.

Englishmen in this country are exceedingly fond of good horses. They have much experience in using them, and understand them thoroughly. Knowing them so well, they are uniform in their praise of Clark's Derby Constitution Powders.

# EUROPEAN AND NORTH AMERICAN RAILWAY.

The following is a comparative statement of the traffic receipts for the months ending 31st day of May:

	1868.	1869.	1870.
Passengers, 5,830 81	7,562 72	7,236 71	
Freight, 8,504 72	9,410 68	11,627 25	
Mails, sundries 111 00	774 43	800 19	
Totals, 14,746 56	17,777 83	19,664 15	

The card of Dr. Dow, Geo. L. Hatheway, and Robert Robinson, appear in the Fredericton papers.

**The Standard.**

**SAINT ANDREWS, JUNE 18, 1870.**

**RESOLUTION OF THE ASSEMBLY.**—A proclamation issued at Fredericton on the 3rd inst., dissolves the General Assembly. The writs for the new Assembly are made returnable on Thursday the 11th day of July next. The Electors now have it in their hands to send four of the best men in the County to represent its interests—its intelligence, and integrity. Canvassing is brisk. We may be mistaken, but we believe that three of the Candidates have been decided upon, and there will be a well-contested race for the fourth seat.

It is probable that some of the new Candidates will retire before the day of polling, but still there will be enough to select from. We have already declared ourselves in favor of two Messrs. Stevenson and Hubbard, we, as well as many others approved of this political policy, and we believe their constituents will show their appreciation by re-electing them. It appears also that there is a general feeling in favor of one of the new Candidates, in every Parish in the County; men's minds sometimes change before the day of election, from various causes, but in the present canvass we learn from different sources that the independent electors have settled upon a choice, and we heartily acquiesce in their selection.

**ELECTION CARDS.**—The Electors will notice in our columns Messrs. Donald's, Robinson's and Lynott's Cards. We have already spoken of two of the new candidates, and two of our former Representatives, we now refer to Mr. J. E. Lynott's card. He is a young man, a native of this county, has been for some time a Director of the St. George Agricultural Society, an acting Justice of the Peace, and is engaged in mercantile pursuits. As a debater, he is fluent; he now offers himself as a Candidate for a seat in the Legislature—and we rather like the guarantee he offers, viz.: that if elected, he will be guided by the principles which have governed him in private life.

A gentleman has lately informed us of the probable cause of the backwardness of our beautiful elms, and the total destruction of some of our tender shrubs. He assigns as a reason, the large quantity of salt deposited on the trees during the gale of last Autumn, pines from the nature of their foliage suffering the most, salt crystallizing on them, in quantities quite visible to the naked eye. The destructive properties of salt on vegetation is owing to the presence of Muriatic Acid and Chlorine, which by its caustic and bleaching properties destroys, if deposited in sufficient quantity, the more tender twigs. If not sufficient to materially injure, the tree is retarded in its growth, but ultimately recovers. This we think is probably the case with our elms and other ornamental trees, as the lower limbs and those portions least exposed, are already in leaf, while the upper parts are just beginning to show signs of budding.

All signs fail in a dry time, otherwise we might account for the pety of the *Carrier*. Perhaps the Editor has grown in grace or mayhap a change has taken place in the management of the paper and "the devil's" have now a clergyman for boss, maybe none of all these surmises is correct. We live in remarkable times, remarkably dry times, and thanks to Temperance we are likely to have a dry election, a remarkably dull election. No question of interest on which to found a canvass—and party cry wherewith to startle the owl and the bat in their midnight reveries—very little shaking of hands for the mammas—few, few kisses for the babies—a dull, dry, commonplace every day occurrence it is likely to prove. The whole thing when whittled down to a point just amounting to this, whether or not John or Joseph or Benjamin (good scriptural names all of them) will be lucky enough to be elected and so have an opportunity of representing himself and representing or misrepresenting the good men of Charlotte at Fredericton in the next parliament.

Our friend of the *Carrier* has lately been treating his readers to a couple of articles on the Election of Representatives. These partake much of the nature of sermons. The duty of Electors and Elect are plainly taught from the oldest book in the world, literally "nailed in scriptur." Our friend is much ahead of the times. The days when men shall be governed in their choice of representatives by religious principle are far, very far distant. A hasty glance at the electors assembled at the various polling booths will dispell any notion he may entertain concerning the speedy establishment of a millennium in New Brunswick. No doubt there are among the electors many honest, intelligent, God-fearing men. As a rule, however, our electors have not arrived at that degree of moral and religious excellence which would make a millennial state an enjoyable one to them.

We have been prompted to make these reflections upon articles which contain much that is really good and worthy of attention, from a feeling which we have, that they mean something, and are intended to sway electoral judgment in some way or other not very apparent at present. We expect to see a practical application of the principles enunciated are false, and hope that it will be satisfactory to the electors of the county.

**Excursion to the Islands.**  
[By our Commissioner.]

The steamer "City of St. John," Capt. Belmore, made her first Excursion trip to the Islands on Saturday last. Owing to the lateness of the hour at which she called at St. Andrews, not so many joined her here as would otherwise have been the case. However there was quite a snug party from St. Stephen. We left here at 12 10 P. M., and after a very pleasant sail of 1 hour 5 min. arrived at

**EASTPORT.**

Here we were joined by quite a number of excursionists. From there we proceeded to

**WILSON POOL.**

and after a short stay got fairly on our way for the Islands. The first place we pass after leaving there is Lubok, which presents a very handsome appearance from the water; but—

"We hear the welcome sound of the 'dinner bell,'" so we adjourn to the dining room to "fortify the inner man;" which was simply provided for by our friend Crawford, who evidently knows how to "get up" the "creature comfort," so as to make them easy to be put down. There was very little fog in the bay, and none at all around

**GRAND MANAN.**

which place we reached at half-past three. On our way we passed quite a number of vessels that were detained in the harbors and bay, for over a week by head winds. We made a very short stop at Grand Manan, but at once got under way for home; and here I may relate an amusing

**INCIDENT.**

that occurred during our stay there. One of our good looking and accommodating young bachelors was assisting the passengers to land, when some one handed him a very diminutive baby, which he was forced to hold so long, that he began to think the owner was not coming to claim it. But finally she did, to his intense relief.

On our return we came by the way of Head Harbor (having gone down by the Western Passage,) so as to give the excursionists the pleasure of seeing all the beauties of the bay, and after calling again at Welsh Pool and Eastport, arrived at St. Andrews at 8 o'clock, P. M.

All seemed to be well pleased with the new steamer and her officers; the genial and attentive Clerk, Mr. Gleason, was unerring in his attentions, showing that he was "the right man in the right place." It is proposed to make these excursion trips fortnightly.

Some little dissatisfaction was felt here on account of the fare being lower from St. Stephen than from St. Andrews, but the Captain and also the Agent informs us, that it was a mistake, and in future it will be made satisfactory to all parties.

John Aymer, Esq., and family returned last week from their winter sojourn in New Orleans. He informs us that the winter there was very mild, and that vegetables from the gardens were used before he left there. His friends here were pleased to see him enjoying good health.

**SODA FOUNT.**—Mr. John Ingram has recently placed in his store a new Soda Fountain, with a supply of choice Syrups. The demand for the cooling beverage the last two days has kept the fount in good running order.

**DEATH OF THOMAS MORLAND, ESQ.**—This gentleman head of the wealthy Montreal house of Morland, Watson & Co., died at his residence in Montreal last week, from fever, contracted while visiting the General Hospital, which he did once a week as an act of Christian Charity. He was distinguished for his elegant tastes, his polished manners, his benevolence, and his hospitality.

**NEW UNIFORMS.**—The Artillery Company turned out for Drill on Monday evening in their new uniforms. The men looked well in their dress, and we believe acquitted themselves creditably at their exercise.

# DEATH OF ROBERT RANKIN, ESQ.—A

cable despatch received at St. John announces the death of this gentleman, senior partner of the firm of R. Rankin & Co. Mr. Rankin was well known here, having married the oldest daughter of the late John Strong, one of the leading merchants of this place.

Canvassing is carried on vigorously in many Counties. We are pleased to learn that Messrs. Moore, Botsford, McQuinn, and Peter Landry, son of A. Landry, Esq., are sure to be elected.

The late drought is felt in the country, from appearances it is probable refreshing rains will soon cool the parched ground.

The Writ for the Election had not been received by the Sheriff at noon to-day.

**LONDON, June 6.**

The Pall Mall Gazette alludes to the activity in Mark Lane, and says that the tone of the market there has seldom been so sharp and exact as at the present moment.

The telegraphic cable which crosses the St. George's Channel to Wexford is broken, and the communication with the Irish wires which connect with the Atlantic cable is suspended. A panic prevails in Tipperary in regard to the Fenians. It is reported they threatened to seize the castle.

**CONSTANTINOPLE, June 6.**

The conflagration has been checked, though the flames still rage fiercely at some points, but they cannot spread. Houses have been blown up and the fire is isolated. The loss in property is immense, as the burnt district includes one of the wealthiest and best built quarters of the city. The Archives and Palace of the British Legation were saved.

**NEW YORK, June 7.**

The vote in the Lower Branch of Congress yesterday was on a motion to instruct the Committee on Ways and Means to report a bill abolishing duty on coal, which was adopted 113 to 79.

**Special Mention.**

If any one is specially deserving of the thanks of the country, where all the volunteers showed such zeal, that man is Captain Westover. It was his good fortune to be in the right place and he was equal to the occasion. He knew perfectly well that he was opposed to twice his number, but he was confident that his men would contest every inch of the ground and could only be forced back under a heavy sacrifice. He was called on to test the merit of the new rifle and exemplify its value. Had he been armed with the smooth bore Brown Bess, the enemy could have closed in on him and walked him down, but he made them feel that at half a mile he could reach them, and, unless they had equally skillful marksmen, were better armed, they could not cope with him. The first shot, fired at 300 yards, told. It dismayed the attacking party, for they naturally reasoned that, if they could be shot with certainty at so enormous a distance, they had no chance at close quarters.

**AN INDIGNANT PROFESSOR.**—Dismal is favored with the following letter from Professor Goldwin Smith, which appears in the *New York Tribune*:—

May 25, 1870.

Right Honorable B. Disraeli:

Sir—In your "Lothair" you introduce an Oxford Professor who is about to emigrate to America, and you describe him as a "social parasite." You well know that if any social parasite you would have to answer for your words, but when sheltering yourself under the literary terms of a fiction, you seek to traduce with impunity the social character of a political opponent, your expressions can touch no man's honor. They are the stingless ulcers of a coward. Your obedient servant,

**GOLDWIN SMITH.**

Eighteen steamships are building in Glasgow.

A man from Chyenne recently registered himself in a Chicago hotel as from "Shy Ann."

It is reported that the Prince Imperial of France will soon be affianced.

Vermont is importing colored girls from Virginia for servants.

# Stationery and School Books.

THE Subscriber respectfully announces to the Public that he has just received a fresh supply of the latest editions of School Books direct from the publishers; also a choice lot of Stationery, including Writing and Drawing papers of all kinds. INITIAL NOTE Paper in boxes, a new article, tinted and plain. Carter's, Bonney's and Arnold's Writing Inks, Pens and Pencils, &c. He is constantly receiving by each steamer from Boston, Papers &c. Any Book or piece of Music ordered, will be received by return Boat, and furnished at publisher's prices.

J. H. INGRAM,  
next Post Office.

**Notice to the Public.**

THE present MAIL ARRANGEMENT is as follows:—

**DESPATCHED.**

To United States, St. Stephen, St. George and St. John daily (Sunday excepted) at 3 45 P. M. Chamcocks and Quebec Mondays, Wednesdays and Fridays at same hour by Stage. To United States Mondays and Thursdays at 8 30 A. M. by Express.

To Woodstock, Woodstock Station, Rankin's Mills, McAdam Junction, Dumbarton Station, Camagray Station, Fredericton and St. John Tuesdays and Fridays at 8 A. M., and on Wednesdays and Saturdays at 4 30 A. M., by train.

To Fairhaven, Lord's Cove, Indian Island, Campo Bello and Grand Manan, every Friday at 8 A. M., and to Fairhaven and Campo Bello every Tuesday at 8 A. M., by Packet.

**MAILS DUE.**

From United States, St. Stephen, St. George and St. John daily at 7 A. M., from Chamcocks and Baccane on Tuesdays, Thursdays and Saturdays at same hour by Stage.

From United States by Express, Tuesdays and Fridays at 3 P. M.

From Woodstock, Woodstock Station, Rankin's Mills, McAdam Junction, Dumbarton Station, Camagray Station, Fredericton and St. John, Mondays and Thursdays at 9 30 A. M., and on Tuesdays and Fridays at 4 30 P. M., by train.

From Fairhaven, Lord's Cove, Indian Island, Campo Bello and Grand Manan every Thursday, and from Campo Bello and Fairhaven every Monday by Packet.

**GEO. F. CAMPBELL,**  
Post Office, St. Andrews. Post Master.  
5th June, 1870. } 31

**To the Electors of Charlotte County.**

GENTLEMEN:—In compliance with a Requisition unanimously signed, I have consented to offer myself as a Candidate for your suffrages at the approaching Election.

As it is impossible for me to visit every district in the constituency before election day, I take this opportunity of conveying to you my opinions upon some of the leading questions that will likely engage the attention of the next Legislative Assembly, of this Province.

I am in favor of a change in the School Law, and if elected, will use my best endeavors to secure an educational system for this Province which shall embrace the best features of those existing in Nova Scotia and Ontario.

I believe the present management of the Crown Lands is detrimental to the prosperity of the country, and requires radical reform.

I will support a good Immigration Scheme—one that shall secure a class of immigrants, who will be a benefit to the Province.

Having been called into the field by a large number of those engaged in Agricultural pursuits, and being identified with that industry, I will conscientiously use my influence to promote the best interests of those engaged in this branch of industry.

I will favor economy in the administration of the laws of the Province; and if elected, I will assist in securing all measures calculated to develop the resources of the Province, and especially those of our native country.

I am, Gentlemen,  
Yours most Respectfully,  
**W. SOMERVILLE ROBINSON.**

**To the Electors of Charlotte County.**

GENTLEMEN:—I will be a Candidate for a seat in the Local Legislature at the approaching Election.

The necessity for economy in Public Expenditure, and the importance of matters which must be dealt with by the next Assembly, render it imperative on you to select four men who will honestly and fearlessly perform their legislative duties.

Should I be honored by your confidence so far, as to be elected one of the "four" to represent you during the next term, I can only say, that the principles which have guided me in private life hitherto,—will be the best guarantee for my future conduct.

**JAMES E. LYNOTT.**  
St. George, June 6, 1870.

**COUNTY COURT.**

THE County Court of the County of Charlotte, will sit at St. Andrews, on Tuesday the 14th June, inst., at 12 o'clock noon. At which time and place all officers of the Law, and other persons required to be at this Court, are publicly notified to give their attendance.

**ALEX. T. PAUL,**  
Sheriff of Charlotte.

**FOUND.**

On the Evening of the 8th inst., a SMALL SUM OF MONEY, which the owner can obtain by proving property and paying expenses.

St. Andrews, June 7. } H. BULL.
