

SEPT.

CHIGNECTO POST.

Deserve Success and you shall Command it.

VOL. 20.—NO. 16.

SACKVILLE, N. B., THURSDAY, SEPTEMBER 5, 1889.

WHOLE NO. 1,007.

GENERAL NEWS.

The hay crop of Maine is full twenty per cent above the average. On account of prospective rot, potatoes are being crowded on the market and prices are low. The ruling price in Boston is \$1.25 to \$1.50 a barrel, with an occasional choice lot bringing \$1.75.

A suit for \$5,000 has been taken against the C. P. R. on behalf of B. Dufresne, farmer, who in August last was crossing the railroad in his vehicle when he was struck by a train and injured for life.

Strain and set the milk as soon as practicable after being drawn from the cow. If allowed to cool down standing around in the pail, less cream will rise to the surface. This has been proved over and over again.

It is said the Militia Department has offered to spend \$50,000 upon a new drill hall in Kingston, Ont., provided the city will donate a plot of land to be used as a parade ground. The matter it is understood, will be laid before the council.

The anthracite coal mines at Banff owned by the Canadian-American Co., have been sold to an English syndicate, of which the Rothschilds are bankers, for the sum of \$1,500,000. The new syndicate have stocked the company for \$5,000,000 and intend to push work with great vigor. They will establish a line of steamers between Vancouver and the southern portion of the continent for conveyance of the coal.

An enthusiastic Buffalo physician is an eminent one on the subject of onions. He feeds them to his children daily, says they are the best medicine for preventing colds, and adds: "Feed onions, raw, boiled or baked, to the children three or four times a week, and they'll grow up healthy and strong." No worms, no scariations or diarrhoea, where children eat plenty of onions every day.

Lamp chimneys should never be washed in soap or clear water. If a cloth wet with alcohol was used for this purpose, or, what is much cheaper and always at hand, kerosene oil, there would be a perceptible falling off in the manufacture and sale of lamp chimneys. It is really surprising how seldom chimneys will break, and what a fine polish will be given them by cleaning in kerosene or alcohol.

The Spring Lake reservoir, near Fiskeville, R. I., which supplies a whole row of mill villages along Pawtucket river, burst last week. Mrs. Green, aged 60; Mrs. Hawkins, aged 90, and Mrs. Tews and her son, six or seven years old, were walking through a strip of wood and were overtaken by the flood and drowned. The river rose rapidly and the water was so high that it alarmingly grew along the banks. Many died. The flood subsided as rapidly as it came.

A climax of the religious epidemic that has been raging in the South among the negroes has been reached at Birmingham, Ala., where three men threw themselves into a furnace of molten iron in the belief that they would pass through the fire unscathed. The negro at whose bidding they did this claims to be the Prophet Daniel, and he has promised that they will reappear on Sunday. The faith in him is so perfect that it will hardly be shaken even by the fact that his prophecy in this case will not be fulfilled.

Cranks are all very well in their way, but there should be a law against even cranks subjecting their lives to needless danger by doing daring deeds. The species of crank which delights in jumping from high bridges is harmless as far as other people are concerned, but the result is usually the same in the end. The man kills himself, just as the famous Sam Patch did at Cranek Falls. The Niagara Falls crank is another species. His ambition is to go through the rapids, and if he succeeds even he is all the more anxious to go through the second time. Poor Captain Webb lost his life by trying to swim through, thinking that he could do so after having succeeded in swimming across the English channel. What good purpose does it serve even if it can be shown that one can go safely through the rapids of Niagara Falls in a barrel?—Star.

Here is a man who ought to be better known to fame. His name is Charles E. Siseme, and he is an English traveller fresh from India, who was present in the breakfast room of the Lathrop station the other morning saw Terry assault Judge Field, saw the ruffian shot dead, and through the whole of that extraordinary scene, which made a sensation for the entire continent, went on calmly eating his breakfast at the same table. It was like Charlotte in the hall. The explanation is easy. Mr. Siseme was a lawyer, and didn't propose to write himself down a greenhorn by displaying astonishment at anything. He doubtless reads the *Saturday Review* and the *London Telegraph* regularly, was promptly conscious that he was well informed about all the customs of the country, including shooting affairs at breakfast in railroad stations, and simply doesn't propose to give himself away. We wish to give him distinctly understood that Mr. Siseme is no tenderfoot.—N. Y. Tribune.

Salt Without Savor.

The riddle which every man in the world tries to guess. What is the secret of success? Why does ill-luck dog one man, who is not only good-looking and attractive but honest and hard-working, while a tricky, vulgar fellow with a plebeian brain, gains reputation, happiness and fortune? What peculiar quality is it in a man which enables him to get whatever object he sets before him as best worth having? Our middle-aged reader out of his experience can tell us that it is not genius which brings down the big prize of life; nor talent and sharpness, however skilfully trained, the man born to money or influence does not always succeed, neither does the patient drudge, however hard he strives. Faith in God or the lack of it does not bring down the matter at all. He does not invariably reward His disciples with the fulfillment of their own pet plans; now it is the saint who is ahead in the race at college or in the world of trade, literature or society, and now the sharper, who cannot gauge a man's religion by the amount of his popularity or bank stock.

What is it, then? What is the secret which some men possess, which force difficulties out of sight and compels better and cleverer men than themselves to work for their leader to fortune? We think it will be found that all successful men have one peculiar trait in common. Each has had only a single aim in life, and has pursued it with an inexorable intensity of purpose, regardless of outside issues or consequences, in proportion as the aim is limited and in proportion as the whole man is absorbed in his direct purpose, he is likely to succeed. His object may be the preaching of the gospel, it may be the selling of a patent plough, it may be a great heroic deed or a gigantic swindle, but if he believes in it absolutely, if he shoulders it with fiery zeal, he will as a rule carry it through and compel other men, to believe in it and shoulder it too; while if he lags along hesitatingly, uncertain, doubting it and himself, he and his cause will fall by the way.

Now every genuine young man begins his career with a flash of his hot, live faith in his own business in the world. It may be a trade or profession, a hobby or reform, or the greater cause of all, the service of Christ; but to him it is the one real thing that he knows. It is the life-saving boat and he is the pilot; it is the bridge just built across Niagara, and he is the engineer. But by the time he is forty he has died out. He begins to see that there is more pursuit in the world than one; the energy which, when put in one channel by the intolerant bigotry of youth, flowed like a mountain torrent, oozes now through a thousand openings, broad, shallow and sluggish. The great cause of all, the service of Christ, is forgotten, and he is left with the "why" remaining yet a mystery, but will probably be cleared up.

"Murder will out," so will other things. I wrote about nine months ago, of the police station being robbed. Last week a young woman, without a shamed face, split on her parson, and he is now resting in the common jail, awaiting trial for the robbery. Moral, don't tell the women. Yesterday was circus day. Barum and Bailey, with the "great" show on early arrived, had a good day, departing richer by a few thousands. F.

What's In A Word?
A New York pastor, who, though a Scotchman, had lived in America over forty years, was taken to task by his daughter for the broadness of his pronunciation of the word "difference."
"How do I pronounce it?" he asked.
"You say 'difference,'" "And what do you say?"
"Difference."
Looking at her for a moment, and getting her to repeat, he continued, "Well, now, M—, will you just be so kind as to tell me the difference between 'difference' and 'difference'?"
The daughter gave up her hopeless scholar to "gang his ain gait" in pronunciation henceforth—*Editor's Drawer of Harper's Magazine* for September.

To keep the stove bright a cloth should be kept on purpose for rubbing it off. When used first on a newly-lacquered stove the cloth becomes filled with the surplus polish, which rubs off so easily, and is then ready to impart a gloss whenever it is needed. Another plan is to use old newspapers to rub off the stove instead of a brush. In mixing stove polish use vinegar and a teaspoonful of sugar. To brighten the nickel plating, rub it with whiting and kerosene, using a woollen cloth, or rub it with a woollen cloth and flour. If the mica in the stove door has become discolored with smoke, it can be easily cleaned by washing it with vinegar.

Fall calves are the best for raising in Halifax when pastures for the same are signed by three fifths of the ratepayers resident in the district. The W. C. T. U. has asked upon a house to house canvass, entering people not to sign petitions for license.

WOMEN'S COLUMN.

Conducted by Members of Sackville W. C. T. U.

Vineland, N. J., A Temperance Town.

The *Peoria Journal*, one of the leading license sheets of this state, concedes the following points, and says, "There are the biggest arguments in favor of prohibition that we have seen." "The town of Vineland, N. J., has a population of over six thousand. The town lots were sold with a written stipulation that no intoxicants should ever be sold on the premises. It has been always known for a strictly prohibition town, and the boast is that one policeman guards the whole city. The reduction of the total sale of liquors in the whole state of Maine is allowed to have been nearly ninety per cent. In fifty five of the ninety-five counties the saloons have been empty under prohibition. These points must be allowed in all fair discussion of what is advisable temperance legislation."

Cure of Inebriates.

Dr. Elliot, in a recent lecture to Toronto, gives the four principal conditions that must be observed for the treatment of inebriates to be successful. The first is abstinence; this must be absolute, and on no plea whatever of fashion or physis or religion ought the smallest quantity of an intoxicant be put to his lips of the alcoholic slave. The second condition is to ascertain the predisposing and exciting causes of inebriety and to endeavor to remove these causes, which may lie in some remote part of the system. The third condition is to restore the physical and mental tone, and the fourth condition is employment; let the mind of the patient be kept occupied by attention to regular work.—*New York Commercial Advertiser*.

Tippling Women in New York.

The *New York Star* in a recent issue gave an appalling account of women's drinking places in New York City. How many Christian women would be utterly shocked to find that the 'ladies' bar' at Maillard's, or six tables full of women ordering drinks, 'sabinthe cocktail,' a 'pony of brandy,' 'champagne and sherry,' or to hear of the women's bric-a-brac store, where young girls and matrons indulge in all sorts of liquor from beer and punch to whiskey and brandy. Yet the *Star* has not a word of censure for these practices but describes the disgraceful scenes with apparent relish.—*National W. C. T. U. Bulletin*.

The Truth About Portland.

A great deal is said by anti-prohibition papers about the failure of prohibition in Portland, Maine. The Rev. John R. Crosser, pastor of the Presbyterian church in that place, says there are no saloons there, in common acceptance of the term; liquor can be obtained only "in dirty, mean garrets and cellars, kept almost entirely by foreigners," and that a stranger, "unless acquainted with the dark and dangerous ways of the city," would hardly be able to get any liquor in the town; that the liquor prohibition is entirely effective.

The amount of liquor consumed in the Dominion of Canada amounts to two and three quarter gallons per head; a favorable position as compared with the United States, the returns of which show a consumption of thirteen gallons per head, and of the British Isles which report thirty-one gallons per head.

Dr. Norman Kerr, a well known scientific man, and a most careful statistician, declares that the loss of life by the drink plague in England, for a year, is at least 120,000 lives; by as many every year as were lost altogether the "great plague" of 1666.

Phillips Brooks says, "If you could sweep temperance out of the country, there would hardly be poverty enough left to give healthy exercise to the charitable impulses."

The receipts of the New York saloons are said to aggregate the enormous sum of thirty millions of dollars a year.

A great deposit of magnetic iron ore very pure and rich, containing sixty-six per cent. iron has been discovered on the north side of Mill Stream, seven miles from the I. C. R. at Beresford platform, seven miles west of Bathurst. This deposit has been traced nearly a mile in length and varies in breadth from ten to forty feet. The assays which have been made on the ore show 66 per cent. of iron. Practical men who have seen it pronounce it to be the best and say the finest steel can be made from it. The ore is worth \$7 per ton in the American market. There is plenty of lime stone in the vicinity and white birch on the ground.—*Globe*.

Liquor licenses are only granted in Halifax when petitions for the same are signed by three fifths of the ratepayers resident in the district. The W. C. T. U. has asked upon a house to house canvass, entering people not to sign petitions for license.

Impure Blood

In the cause of Boils, Carbuncles, Pimples, Eczema, and cutaneous eruptions of all kinds. There can be no permanent cure for these complaints until the poison is eliminated from the system. To do this thoroughly, the safest and most effective medicine is Ayer's Sarsaparilla. Give it a trial.

"For the past twenty-five years I have sold Ayer's Sarsaparilla. In my opinion, the best remedial agencies for the cure of all diseases arising from impurities of the blood are contained in this medicine."—G. C. Brock, Druggist, Lowell, Mass.

"I suffered for a long time a sufferer from tumors on the neck. Nothing did her any good until she tried Ayer's Sarsaparilla, two bottles of which made a complete cure."—W. S. Martin, Boston, Mass.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

Ayer's Sarsaparilla,
PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Price \$1; six bottles, \$5. Worth \$2 a bottle.

High License.

The local option, restrictive, high license law, which went into effect May 1, is proving the most successful experiment ever entered upon by the people of Massachusetts, and their endeavors to cope with the liquor traffic. As proof of this assertion, we cite the testimony from 16 license cities in this State, as presented on another page of to-day's issue. We have aimed to obtain a strictly accurate and unbiased report from these 16 cities upon the operation of the new law, and submit them as fairly representative of the condition of affairs touching this issue throughout the Commonwealth.

From the tabulated returns it appears that the number of places licensed to sell liquor (drug stores excluded) has been reduced in these 16 cities from 3022 to 1257, a decrease of 1765 or 58 per cent. At the same time the revenue received from these licenses has increased from \$1,097,706 to \$1,448,425, an increase of \$350,719 or 32 per cent. Much as had been expected from the new law, this showing in the license cities is indicative of the general situation in the State will, we think, be an agreeable surprise to our citizens generally.—*Boston Advertiser*.

Arrive to Montreal.—Are you distressed at night and wakened by a sick child suffering with colic? Try Cutting's Sore Throat Syrup for Children Teething, its value is incalculable. It is a safe and reliable remedy for all ailments of the stomach and bowels, and is especially adapted for children teething and for the relief of the mother's suffering. It is the oldest and best female physician and surgeon in the United States and is sold by all druggists throughout the world. Price twenty-five cents a bottle. Write for a free trial. Wm. W. Wood's Sore Throat Syrup, and take no other kind.

CHIGNECTO POST AND BORDERER.

SACKVILLE, N. B., SEPT. 5, 1889.

The Northport gold mine at Rawdon, has been sold to a syndicate of American gentlemen. The price is said to have been \$100,000. The new owners have taken possession and are proceeding with the work.

The inland revenue receipts at Halifax during August were \$20,834.59, an increase of \$441.60 over the receipts in August of last year. There was a falling off in the customs receipts as compared with the same month in 1888.

The first carload of new wheat was shipped via the Canadian Pacific railway, on the 25th ult. from Carleton Place. The market opened at 60c. Owing to its lowness and busy times with farmers very little will be offered for a few weeks, when there will probably be a rise.

The North Dakota millers' association has decided to place an agent in London to dispose of flour direct to bakers of Great Britain. It is thought this will have a strong tendency to strengthen the home wheat market and will result in the building of a number of new mills.

The steamship City of Paris has again broken the record, being her own best time from Quebec to New York in forty-nine minutes. The actual time from Quebec to Sandy Hook light ship was five days nineteen hours and eighteen minutes. Distance, 2,788 miles.

The managers of the London-derry Iron company are rushing the different departments to their utmost, new men are arriving almost daily and every one is jubilant over the good time. The west mine is turning out large quantities of excellent ore, some of which yields ninety per cent. of iron.—Syring Hill News.

Who would not work during the salmon fishing season on the Fraser river? The Vancouver Herald declares that the salmon run having come to an end and the canneries shut down, the fishermen have been paid off, one man, and this is a solitary case, having received \$1,200 for twenty-two days work.

A Yarmouth enterprise is the formation of a National Construction Company for the purpose of acquiring rights, wherever they can be obtained, and also for the construction of houses and other buildings. The capital is to be \$5,000,000, and the promoters are now obtaining letters patent from Ottawa.

An Ottawa despatch says that H. H. Foster, of Londonderry, England, for the London and Colonial Financial Co., which is a syndicate for the handling of manufacturing and industrial enterprises has just concluded the purchase of the Davies brewery, Toronto, for \$1,200,000, and Warner's Safe Co., Rochester, N. Y., for \$4,000,000.

In mining parlance, the richest pocket of wealth in the United States, if not in the world, is to be found on the Hudson river between Dobbs Ferry and Tarrytown, where 63 millionaires reside within a distance of six miles about one million to every thirty rods. The aggregate wealth of these nabobs is computed at over \$500,000,000.

Judge Wetherbe has given an order for certiorari to bring before the courts the Nova Scotia license law of 1886, with a view of finally settling whether the provision of the Act requiring the consent of a certain proportion of the ratepayers before application could be made was a restriction upon the traffic not authorized under the B. N. A. Act. It is intended to carry the case to the Privy Council for final settlement.

The Comte de Paris has issued an electoral manifesto. He declares his object is to snatch power from the hands of an oppressive faction. He counsels a union of the Conservatives and tolerance of the Boulangists, whose programme of revision, he says, will release and restore republican peace. He expresses the belief that the Imperialists will not refuse to support a strong republic, and appeals for the assistance of all those who wish to found an honest government.

The St. John Sun's Ottawa correspondent is authorized to state that the law officers of the crown, Sir Richard Webster and the crown, Sir Edward Clarke, have reported—(1) That the governor general was right not to interfere with the operation of the Jesuits' estates act, and (2) That the act was clearly within the powers of the Quebec legislature, and (3) That there is no case to send to the judicial committee of the Privy Council.

The fact that the probable falling off of immigration this year will reach not far from 200,000 persons indicates either that this country is not so desirable a home as it was once, or that greater inducements are held out to the wage earners in Europe to remain at home. The diversion of immigration to the Argentine Republic is probably one cause, but it is believed that a still stronger cause is found in the better adjustment of industrial problems in the different European nationalities; and a substantial reason for this is that many skilled workmen who come to this country have returned, or are returning to their European homes. It would appear, also, that the pauper immigrants have almost entirely ceased to come among us, though the need of even stricter legislation on this point can hardly be said to have been removed.—Boston Herald.

Canadian Short Line.

Some four weeks ago, we announced the commencement of the survey for a line of Railway from Edmundston, at the terminus of the Temiscouata Railway, to Moncton, the object being to test the route in order to ascertain if an short a line could not be obtained from Montreal to Moncton, on Canadian soil entirely, as the present Canadian Pacific through the State of Maine. The St. John Gazette was the first amongst our city contemporaries to follow the Post, and give its readers information what was going on. It vigorously combated the idea that the Edmundston-Moncton route would prove a successful rival to the existing line. On Thursday last our able contemporary the Quebec Chronicle reproduced our article, with a map of the route. It says: "We print below, in to-day's Ostracism, an article from the Chignecto Post on a subject which is well deserving of the earnest attention of people. It is well known that the 'Short Line,' so-called, to the Lower Provinces was not constructed for the purpose of aiding this district. It must and will divert a large traffic from the Intercolonial; and if the Harvey and Salisbury line is to be built, the result will be that the whole of the traffic to and from the Lower Provinces will go by way of Sherbrooke. Under such circumstances, how can the people of this district be expected to see the St. Lawrence bridged at Quebec, if there is no traffic to send over such a structure when it is completed, the object of making it does not exist. The completion of such a line as is referred to, would aid the Intercolonial line, inasmuch as it would preserve the traffic for it between River du Loup and Point Levis and between Moncton and Halifax."

The Halifax Herald of yesterday gives the same information, a little later, it is true, but the Halifax people are never in a hurry. The Montreal Times has followed the Chronicle's lead. Our Quebec contemporary says: "The line would traverse some of the best timbered country in New Brunswick, and it is stated would cross large areas hitherto undeveloped. This construction of the line would give a route to the Grand Trunk Company via the Intercolonial Railway, and from the Lower Provinces, superior, as regards Nova Scotia, to that by the Short Line, and but little inferior to that route to St. John, N. B."

It is unfortunate that there are no coal fields on this route, and none near it, except the Grand Lake coal mines, now being tapped by the Central Railway.

PERSONAL AND POLITICAL.

Sir Edwin and Miss Arnold and Hon. Oliver Mowat were amongst the passengers by the steamship "Vancouver" at Quebec on Saturday.

Detective Innes of the Massachusetts staff, has gone to Baddeck in search of Thompson, the British murderer, who is reported to be around Cape Breton.

The North Star, of Presque Isle, says that Mr. H. H. Stevens, the single manufacturer, has now in operation at Ft. Fairfield and Salmon river N. B., 12 machines, and will cut out during the year twenty million shingles.

John W. McKay, Jr. son of the California millionaire, is having a yacht built to be propelled by rapids, which is to be the largest boat afloat with such a motor. It will be lighted with gas, as Mr. McKay has an invincible repugnance to electricity.

The final settlement in the estate of the late William Jordan, Halifax, who died on May 12th, 1887, was made in the probate court on Wednesday. The estate was shown to have been worth \$295,415.39, of which a balance of \$246,865.88 remains for distribution.

A preacher named David Carnut was murdered ten days ago near St. Paul, Arkansas. Carnut was 60 years old, and peddled goods in the mountain regions of North Arkansas, preaching at intervals. Rev. M. G. P. Nickens was arrested, the coroner's jury having decided that he was the murderer. The preacher was neighbor, and the body of Carnut was found near Nickens' house.

It has been officially announced in London, that the death sentence of Mrs. Florence Elizabeth Maybrick was commuted to penal servitude for life. This action on the part of the authorities seems to satisfy most people, although there were many who hoped for pardon. This, however, may be brought about in the future, if the new evidence claimed by Mrs. Maybrick's friends is produced.

Next Wednesday Station Master and Ex-Conductor G. O. Donkin, at Truro, will have seen 27 years of railway life. He ran the first passenger train from Windsor to Annapolis and the first passenger train between Truro and Moncton. Mr. Donkin says that on his first trip between Windsor and Annapolis the fruit on the trees broke the glass of the car windows. On the next trip he had to carry an axe and cut the fruit trees down near Paradise.—Head Light.

It is reported from Milan that the Baroness Ca'roni, a young lady of nineteen, celebrated for her beauty as well as for her startling originality, has announced her intention of undertaking a journey into the interior of Africa. She will be accompanied by a relative, an elderly lady belonging to the Austrian aristocracy and attended by several male and female servants. An officer in the Italian army has undertaken to lead the expedition, and is already busily engaged in making arrangements. The party will set out on November 1, and the tour will last for a year.

Aboushagan Road.

Mr. Editor.—An article in your issue of the 29th inst. from the pen of Mr. Daniel Lund calls for a few remarks. A meeting was held a long time ago; before the school house on Aboushagan Road was burned, to consider the question of a place of worship, and I believe a majority at that meeting was in favor of a union house. But as so few were at the meeting it was thought best, I am told, not to take final action but to adjourn to another date. The time of adjournment arrived, but no meeting was held, and so the matter dropped.

Then, as was stated in the Post of the 22nd inst., the matter was brought before the quarterly meeting of the Baptist church in July last, by brothers from that section and with results already stated.

Now we are told the agitators of the Baptist house called a meeting, but 12 or 14 of them in favor of a free house were not there.

Let me tell you why and how that meeting was called. A few days before calling I met Mr. Lund from the Sackville Drug Store. He showed me his subscription paper in favor of a free house, told me it was in opposition to the Baptist house and asked my assistance. I declined to give it.

He then proposed calling a general meeting and said if the majority of the people were in favor of a Baptist house he would resign. Acting on his suggestion and promise I brought the matter before our regular monthly Conference on the 17th inst., and it was decided to have a meeting on the 20th. The next day (Sabbath the 18th) I preached at the road and at the close of the service announced the meeting publicly and I believe every family on the road was notified. When the vote was taken for a free house it was a tie.

As the chairman did not belong to the settlement he refused to give the casting vote. Then some parties who did not vote in their place and expressed a regret for not voting. It was agreed by both sides to take the vote over and a majority stood in favor of a Baptist house. Mr. Lund then told that meeting publicly that so far as he was concerned they would hear no more about a "free house." Now he tells us in print the house is "going ahead," and asks the public for aid. When I read that I thought of Dryden's description of the Duke of Buckingham:

"A man so serious that he seemed to be not one, but all mankind's epitome; stiff in opinion, always in the right, was everything by starts, but nothing long."

I do say I am opposed to unions, but I have never known one that did not end in disunion. But this is worse than a union house. It is "to be free for all except the church of Rome." I cannot see why they should be excluded. Surely they would not have so had an influence on the morals or religion of a settlement as some who were admitted on that basis. The Mormons, e. g., have made converts in Sackville in that way. They were not allowed to be a house open to them. In the "Boston Investigator" of July 31st, J. W. Fitch, a leading infidel, Connecticut, advocates an itinerancy of infidels to speak in halls and private houses "wherever possible." Here they may find a paradise in a house of worship built for them; for it is to be for everybody except the church of Rome. I say openly I want nothing to do with such a house. If I believed in union houses I would oppose this.

But I see no need of any larger liberty than we offer when we agree to have a clause in the deed that our proposed house shall be free to all evangelical denominations when not occupied by the church of Rome, and no present prospect of our occupying it more than one part of the day every five weeks for sabbath preaching and sabbath school some part of the day each sabbath.

It is well known the Baptist are very largely in the majority on that road. Mr. Lund and a few others are Methodists. If our people had a Baptist house as near to them as a Methodist house is now to Mr. Lund, within about two miles, they would not think of building a Baptist house there. Neither do I believe the Methodists as a whole think they need it. What I call to Sackville in Dec. of 1885 I found there were no religious meetings held on the Aboushagan road. I held my first meeting there July 12, 1886. From that day to the present I have continued to visit them or have them visited.

During all that time I have not known any other denomination to hold a single service. Why not I don't know, unless the Methodists felt their house was near to them, and that they did not need it. But now, for some cause, a school for union seems to have seized a few. True, two houses do not seem a necessity, and so if "free house" is "going ahead," I am inclined for one, though I have not consulted my brethren, to stand back and let it go. Then, if it is not a bluff for the Baptist, and is ever finished we might occupy it by times if convenient, especially with another pastor, unless prescribed with the church of Rome. And if we cannot get what we want in it, the Baptists of Sackville are able to help build a house there for themselves. So I feel like waiting with Buns to see "How the subjects these may argue."

Yours, &c., Wm. E. HALL, Sackville Aug. 31, 1889.

A mass meeting is to be held at Bridgewater, N. S., next Saturday to which Hon. C. H. Tupper, T. E. Kenney, M. P. for Halifax; A. R. Dickie, M. P. for Cumberland; C. E. Kulback, ex-M. P. for Lunenburg, and James Eisenhauer, M. P. for Lunenburg, have been invited to speak. The questions to be submitted to the meeting are: First, Does the saw-oust which escapes from the mills into the streams injure the fish and navigation? Second, If so, is such injury sufficient to warrant the non-exemption of the river from the operations of the statute in such connection, and thereby seriously retard the great lumbering industry of this country? Third, Is there any special reason for its non-exemption of the LaHave, whilst on other streams the statute is a dead letter?

A first-class idiot, whose other name is Carlisa D. Graham, succeeded last Sunday in going over Niagara Falls in a barrel specially constructed for the purpose. He was in the barrel fifty minutes and was terribly bruised and shaken, but he escaped with his life, although he received a heavy blow on his head which may yet result seriously. What possible good is expected from these foolhardy exhibitions is something that has not yet been explained. The barrel route over the Falls is entirely useless for commercial purposes, and is not likely to be extensively used for pleasure, but, if Graham should have many emulators, it will possibly save the fool-killer some trouble.

A Charlottetown despatch of the 3rd inst., says: "We are having magnificent harvest weather. Wheat, which it was feared would be short, showed in fine order, and farmers are well satisfied. Early oats are good, but the crop as a whole is below the average. In some sections they are almost a failure. The root crop is enormous. Potatoes are splendid and turnips are nearly as promising. Stock is in fine order and farmers on the whole are prosperous and happy."

The Tidnish Murder.

Editor of Post. The horrible tragedy which has recently occurred in this locality, has excited feelings of anger and sorrow among the members of the community. At the same time it is just possible that owing to the consequent excitement over the affair, things have been said wide of the mark. Smith is self-confessed; for anything we know another man still as large as Wells is released, and the vast majority of our people here believe he should never have been arrested as an "accessory to the death of Barron." His release is the result of a righteous decision.

There are some people—well meaning, no doubt in every community, ready at all hazards if anything serious happens, to have a shy at the temperance question, and the whole cry is "run it!" If there seems at all a possible chance, the rummer must be the murderer. This is evidently the course pursued by "one well-known resident" who has supposed the Post was the origin of information that the Scott Act is violated in this community, just as it is in Sackville. It is not because the liquor is not looked upon by a great number of the people as a crime, and notably in Ontario, but because the liquor is a popular one, for the existence of it shows and meets a public demand. It is not because the liquor is not looked upon by a great number of the people as a crime, and notably in Ontario, but because the liquor is a popular one, for the existence of it shows and meets a public demand.

"Liquor of the vilest character is sold at almost every corner," says the "well-known resident," but he does not state he is not a judge of the quality, and I would strongly advise him to try it all round, at Tidnish, and see what he can get. It is to-day in almost every community a helpless cripple, and your straight-up-and-down monthly Conference should look for something to carry his principles.

The Slight Singing Class (Tanie solo & 8 stem) will begin practice Monday evening next, at 6 1/2, local time, at the Ladies' College.

AROUND TOWN.

Yesterday was the hottest day of the season.

Mr. Charles Scott had a serious attack of illness last Sunday afternoon, but is slowly recovering.

An Excursion from Maccan to Joggins last Saturday was well patronized, and as the weather was fine a very pleasant day was spent.

Rev. Mr. Brecken's lecture in Lingley Hall next Tuesday evening is sure to be extremely interesting and should receive a generous patronage.

Mr. Alfred Pound, of the St. John Telegraph, was in the village on Monday. He is off on a well earned vacation, and his friends are pleased at seeing him so well.

Mr. Harrison Kinser of St. John, a member of the A. A. B. C., is making an extended bicycle tour through the Province, and has been staying a few days at Sackville.

In Lingley Hall last evening, Prof. Maxime Ingres, of the Berlitz School, gave an interesting illustration of his method of teaching French. It is probable that a class will be formed.

Dorchester has lost in Mr. Joseph Hickman one of her most respected inhabitants. Mr. Hickman has been for many years a prosperous merchant, and his business integrity and general disposition won the esteem of all who knew him.

The Cornet Band last Saturday night rendered a very interesting programme at Crane's Corner in a manner which shows that they are giving careful attention to their practice. The personal appearance of the band was much improved by their new uniform caps.

The New York Freestone Quarrying Co. have a cargo of stone ready for shipment at their quarry. A new steam drill has been in operation at the works for the last few days and gives good satisfaction. The company expect to load two vessels at an early date.

Mr. W. E. George has received a new portable engine from the manufactory of E. Leonard & Son, London, Ont. The engine was made to order, and differs materially from the engines usually manufactured by the firm. It is to be used for threshing, pressing hay, &c.

The ladies of the Baptist Church and congregation intend giving a series of social entertainments, in aid of their new place of worship. Mr. Patterson introduces the movement by giving a twenty-five cent tea at the "Temperance House" on Monday evening, the 9th inst., at 6 o'clock.

Subscriptions to the amount of \$2,625 have been received towards building a Baptist Church at Lower Sackville. This, with sums previously in hand, raises the building fund to over \$9,000. An excellent site has been purchased on Shaw's Hill, and it is probable that tenders for construction will soon be invited.

The Mount Allison Institutions have begun the new term under exceptionally favorable auspices. The attendance at the University is so much larger than usual that increased accommodation is urgently needed. The number of pupils at the Ladies' College promises to be larger than in any previous term, and there is a prospect of a large attendance at the Male Academy.

The base ball match last Saturday between the Miletos, of Amherst and the Charter Oaks was an unsatisfactory game, and resulted in, practically, a draw. The home team led from the start, but at the end of the second innings Mr. J. P. Sherry, catcher for the Charter Oaks, had his hand injured and was obliged to retire. Only three innings were played, and at the finish the score was: Miletos 11; Charter Oaks 7.

Last Saturday evening the Salvation Army very wisely had their march out before the band commenced playing. They made no halt at the corner, and consequently were not interfered with in any way by the large crowd who had assembled to listen to the music of the band. This termination of the difficulty is creditable to all concerned, and it is to be hoped that there will be no further occasion for fill-fooling.

LOCAL MATTERS.

MUSICAL INSTRUMENTS.—Mr. Max M. Stierne has gone to New Haven, Ct. to make a personal selection of organs and pianos.

MATRIMONIAL.—Mr. C. E. Rathford, Collector of Inland Revenue at Amherst, visited Halifax this week on an interesting mission. The Poor congratulates.

DIED OF HER INJURIES.—Domicile Bourque, the girl who was burned by the explosion of a lamp at Cape Tormentine about ten days ago, died this morning at 5 o'clock.

A COLT RACE, resulting from the challenge published in the Post a fortnight ago, will take place on Amherst Driving Park next Saturday afternoon at 2 o'clock.

GET THERE ALL THE SAME.—The following advertisement was in a letter which passed through the Sackville Post Office last week: "St. John, Upper Sackville Centre Village Canada New Brunswick."

ONT.—Mr. John S. Trites, ex-Trackmaster of the I. O. R., died at Moncton last Sunday. He was well known all along the I. O. R., and is a prominent man. He was buried last Tuesday with Masonic honors.

FIRE.—Mr. James Powell's house, on Beach Hill, was burned to the ground last Saturday. The fire originated on the roof, and is supposed to have been caused by sparks from the chimney. The best furniture made on for \$700, and nearly all the furniture was saved.

NORTHWESTERN FLOUR.—Mr. J. L. Black has a carload of four now due, which was shipped to him direct from Keewatin. The manufacturers of this flour claim that it is "positively the best flour made on this Continent." The freight on the car from the mills at Sackville is \$198.

DON'T FORGET THE service of song at Fairview Methodist Church, on Friday evening next, as friends from Sackville will hold a service of song consisting of his musical and vocal music. There will be a collection taken up for aid in procuring a library for Fairview Sabbath School. All are cordially invited to attend.

DEAL SHIPMENTS.—Mr. J. L. Black has shipped this season four cargoes of deals from Point du Chene and one from Point de la Peste, and is now loading the barque Lethia, which has just discharged a carload of salt at the former port. The barques Van Winter, Naar, Hero, Harmonie and Draupner are now at their way out to load deals for Mr. Black. The Draupner will load in Bate Varte and the others at Point du Chene.

STEAMSHIPS IN THE DEAL TRADE.—Steamers are steadily supplanting sailing vessels in the deal carrying trade, much to the disgust of the laborers and others in port. The "Thorndike" has just arrived from Muirhead's mills, is nearly 2,000 tons and will carry about two million feet. She will have to take in part of her cargo outside the bar. A still larger steamer is expected—Chatham World.

Dr. Smith's Lecture.

The formal opening of the evening took place on the ordinary scales of life, when an address was delivered by Prof. A. D. Smith, LL. D., on "A Practical Education." The "practical man" often speaks slightly of everything except the narrowest necessities of life, and is making money. But he forgets that solitary students—perhaps dreaming, unpractical men from his point of view—have by patient and often unappreciated work discovered laws and principles which our practical men regard as the ordinary scales of life, and which are the basis of all progress.

The annual picnic of Trinity Church Sunday School was held at Bate Vertu on Tuesday. About one hundred and fifty friends of the school accompanied the children, and at Sackville the Sackville Sunday School joined them, and a most pleasant day was spent by all. The picnics reached home about 20:30 tired but well pleased with the day.

West Brook.

The threshers have begun their season's work. Did ever the threshers change their mind as to the value of the oats as all harvested and the crop reported unusually poor. The turkey crop is also correspondingly light.

We are glad Jallor Burke is getting his name up for professor. It will be now in order for him to make a name as the keeper of a cleanly jail. It is bad to have to live in a jail, even if it is clean, but oh, the horrors of lying to a dirty jail for a debt you cannot pay any other way!

Mr. Silas Mills, who had sold his place in Leamington and had arranged to leave there for Boston with his family, on the 2nd inst., has decided to remain in Nova Scotia, owing to the report of hard times in the U. S. We are glad they have changed their mind in time to save the expense and annoyance of two trips. Miss Emma expects to resume her school this week. We are sorry to learn that Miss Sarah Mills is ill in Boston.

The craze for hand painting has laid hold of the feminine mind in this place. The anxious mother whose husband's and sons' taste yearn pie-ward, sees her pie-platters one by one transformed into "things of beauty and joys forever," and occupying prominent places in the best rooms, which rove to gradually assuming the appearance of a picture gallery. Panics and deliriums, butter-cups and roses, landscapes, seascapes, ruined castles, rustic bridges, moss-covered walls, all the romantic and the aesthetic, which together in artistic jumble, won't me, when will it end!

Mr. Black, traveller for the Maritime Tea Co., of Amherst, passed through here last week soliciting orders. He is able to sell large quantities of his goods at 50 cents per lb., besides bestowing on the customer a china tea set worth \$6, thus refunding 6% of the price; 15 lb. packages entitled the purchaser to a 25c present. No doubt Mr. B. will be well patronized, but if he has no more faith in his business than he has in his country, may the gods preserve him from bankruptcy! He belongs to that class of people who properly termed chronic grumblers, who claim that the country is going to the dogs, but take mighty good care to stay in it. Instead of just crossing over the line to that little heaven where the eagle looms, they shield them 'neath his wings.

Parraboro.

The oat crop may be called a failure. The yield is not worth the threshing.

Business is reported much better than a month ago and money is becoming quite plentiful.

A large union Sunday school picnic was held Wednesday at Fox Point, and a pleasant day was spent by all.

Some season on board one of the ships at West Bay, refused duty and eight sailors were brought to the village and lodged in goal, where they will remain till the ship is loaded.

About 700 persons old and young partook of Mayor Jones' hospitality last Wednesday and all came away thoroughly convinced that it was a success. Great pains had been taken to fix up the grounds, and at three o'clock everything was in readiness for the first table, at which about 120 sat down. After partaking of the sumptuous repast, Cupham arose and in a few remarks called the assembly to order and read letters from Revd. Father Egan and J. G. Aikman regretting their absence. He then called upon the Revd. Messrs. Hill, Watkins and Gibbons, who all gave some "fatherly" advice, and bespoke success for the selection, after which Mayor Jones was introduced, and in a brief and concise manner explained his future policy. When he had finished the crowd sang "He's a jolly good fellow," which was followed by more music by the band and then the councillors delivered short addresses after which eating began again, and was kept up till near dark. Taken all together it was a day long to be remembered.

Dorchester.

Rain is very greatly needed in this section of the County, wells and streams are drying up and very much of the crops are being ruined.

Chas. Hickman returned on Friday from Quebec where he and a number of friends had been on an extended fishery trip on the Lake St. John.

On Monday H. R. Emmons, Geo. F. Walling, W. E. Lawrence, Chas. Hickman, Percy B. Chandler, and J. W. Y. Smith left for a week's shooting on the Albert Co. lakes.

G. N. C. Hawkins, lately of the Merchants' Bank of Halifax here, has just returned from the People's Bank of Halifax, where he has been on his new home on Friday. Mr. I. G. A. Parkes takes Mr. Hawkins' place here.

E. L. Ramsey has closed his picture framing and photograph business, and has moved to Moncton where he will go in with W. W. Black, "Victoria Block. Mr. Ramsey has always done good work and at very moderate charges, and he will be missed.

On Wednesday morning Mr. Joseph Hickman passed away after a long and tedious illness. He had been falling for a long time and his decease was expected by his friends. Mr. Hickman was aged 69 years and leaves a wife and two children, Mrs. W. Douglas of Amherst, and J. H. Hickman, of this place, to mourn their loss.

The annual picnic of Trinity Church Sunday School was held at Bate Vertu on Tuesday. About one hundred and fifty friends of the school accompanied the children, and at Sackville the Sackville Sunday School joined them, and a most pleasant day was spent by all. The picnics reached home about 20:30 tired but well pleased with the day.

Instead of just crossing over the line to that little heaven where the eagle looms, they shield them 'neath his wings.

Horse Notes.

Charles Cutler, the oldest horse in Canada, died at Galt on Monday, May 10 1846 and was in his 44th year.

Banlie, the fastest quarter horse in U. S. died at San Antonio. She was 3 years old and had a record of 21 1/2 seconds for the quarter of a 1 1/2 mile gallop.

Charles Wilkes, nine years old, son of Conn's Harry Wilkes, sire of Rosaline Wilkes, 2 1/4, is trotting quarters in 36 seconds and is likely to enter the 30 list this season.

Concord 3 years old trots quarters in 42 seconds. Louise can trot in 2:40 and Lida, 4 years old, can trot better than 2:50 now. The above horses are owned by R. W. Conn, and speak well for the stock of Harry Wilkes who was purchased by the New Brunswick Government from R. W. Conn, Louisville, Ky.

Up to the middle of July there have been 147 horses to enter the 2:30 list for 1889. For the same period last year 110.

Speculation, 4 years old, by a son of Manbrino Monarch, won two heats at New Glasgow in 2:41 and 2:43 1/2. Speculation is owned and driven by George Carvill, of St. John, and obtained a record last season as a 3 years old in 2:48 1/2.

The Maine stallion Nelson was beaten by Alcyon in the \$10,000 race, which was trotted at Hartford. These ideas he carried into the Hotel Everett, and they did not seem to hitch with the ideas of the members of the Waiters' Union, who had been re-stimulated by the captain when he took command. So they told the captain they hadn't signed articles for any such a voyage as he was taking them on, and that if he didn't head on another tack he'd have a mutiny about that hooker in no time.

Now, there are two sides to everything that happens on board ship, and on board a tug, likewise, and the skipper's side naturally comes first in the telling. Capt. Oulton had accumulated some ideas on the subject of running a hotel while he was engaged in transporting passengers and merchandise; and some ideas of his among the crew. These ideas he carried into the Hotel Everett, and they did not seem to hitch with the ideas of the members of the Waiters' Union, who had been re-stimulated by the captain when he took command. So they told the captain they hadn't signed articles for any such a voyage as he was taking them on, and that if he didn't head on another tack he'd have a mutiny about that hooker in no time.

Now, the captain had seen such things in time gone by, and was a tidy hand at quelling mutinies—four feet long across the shoulders, and uncommon handy with his daddies in case of need—but he was a fair-minded man and did not mean to take any advantage along of his being skipper.

So he called Walter O'Brien, who seemed to be at the head of the mutiny, to the break of the poop, where the tinker stands to make change, and told him as how the men's wages were \$3 a week higher than any other boarding house master was paying in this port, and he was agreeable for to continue the same, but, as for the men's last time, he was a taking them on, and that if he didn't head on another tack he'd have a mutiny about that hooker in no time.

The men's wages were \$3 a week higher than any other boarding house master was paying in this port, and he was agreeable for to continue the same, but, as for the men's last time, he was a taking them on, and that if he didn't head on another tack he'd have a mutiny about that hooker in no time.

Mill Property for Sale.

I WILL SELL my Mill Property and Farm at Cookville and about 2,000 acres of Land, well timbered, with a good road and will be sold at a bargain. Payments easy and possession given immediately. Apply to GEO. W. TOWSE, Cookville, July 31, 1889.

House for Sale.

THE property on Salem Street occupied by subscriber, consisting of a very neat and comfortable Cottage, with front porch, a never-failing well of soft water, barn, &c., and about one acre of land in good state of cultivation. Terms easy. A large portion of purchase money may remain on mortgage. Apply to J. W. SANGSTER, March 7th, if Dentist.

"Valuable Farm for Sale."

THE HARMON HUMPHREY FARM in Sackville, comprising about 50 Acres of Upland and 90 Acres of Marsh is for sale.

The Buildings on the Premises were erected at a large cost, and they are in excellent repair and admirably adapted to farming purposes. The Farm is most conveniently situated, being only a short walk from the College and Academies, Public Schools and Churches, and within half a mile of the Railway Station. The Dwelling House is a beautiful and commodious two-story building.

The Place is an inviting one, either for the progressive farmer or the capitalist. Intending Purchasers can negotiate for the Homestead Farm, either with or without the Island Marsh.

For Price and full Particulars of Sale, apply to WILLIAM F. HUMPHREY, or JOHN A. HUMPHREY, Moncton, N. B.

SHERIFF'S SALE.

TO be sold by Public Auction on FRIDAY, THE TWENTY-SECOND DAY OF NOVEMBER, A. D. 1889, in front of the Court House at Dorchester, in the County of Westmorland, between the hour of twelve o'clock, noon, and five o'clock in the afternoon:

All the Right, Title, Interest, Property, Claim and Demand of EDWARD LERETT, his possessor right and right of entry, both at law and in equity, of, in and to certain Lands and Premises situated in the County of Westmorland, in the County of Westmorland, and bounded as follows: On the North by Lands of Frank Gansing, on the West by Lands of Josiah Wood, Jr., on the South by Lands of the said Josiah Wood, and on the East by Lands of Hazen Lowther, &c., more or less, being the same Lot of Land conveyed by Deed by one Eli Lerett and Fenimore, wife, to the said Edward Lerett, bearing date the thirtieth day of March, A. D. 1889, and Registered in the Westmorland County Records on the third day of April, A. D. 1889, by Number 54,512, Folio 561, Libro M. 5, as reference to the said Records will more fully appear.

Also all other Real Estate of the said Edward Lerett, wherever situated or howsoever described, which he has or claims to have, and all other Real Estate which has been seized under and to be sold by virtue of an Execution issued out of the County Court of Westmorland at the suit of Harris Chapman against the said Edward Lerett and Jacob Lett.

Dated at Dorchester, in the County of Westmorland, August 13, 1889.

ANGUS McQUEEN, Sheriff.

FOR SALE.

THE HOMESTEAD FARM now occupied by the subscriber, consisting of about 30 Acres of Upland and about 20 Acres of Marsh Lands, all of which is in a good state of cultivation. The Farm is situated in the County of Westmorland, and is bounded as follows: On the North by Lands of the said Josiah Wood, Jr., on the South by Lands of the said Josiah Wood, and on the East by Lands of Hazen Lowther, &c., more or less, being the same Lot of Land conveyed by Deed by one Eli Lerett and Fenimore, wife, to the said Edward Lerett, bearing date the thirtieth day of March, A. Also all other Real Estate of the said Edward Lerett, wherever situated or howsoever described, which he has or claims to have, and all other Real Estate which has been seized under and to be sold by virtue of an Execution issued out of the County Court of Westmorland at the suit of Harris Chapman against the said Edward Lerett and Jacob Lett.

Dated at Dorchester, in the County of Westmorland, August 13, 1889.

ANGUS McQUEEN, Sheriff.

NOTICE.

To William Wallace Campbell, of West-cock, in the Parish of Sackville and County of Westmorland, seaman, and Clara, his wife, and to all others to whom it may concern.

WHEREAS William Wallace Campbell, of Westcock, aforesaid, and Clara, his wife, in order to secure to Stephen Clark, of Wood Point, in the Parish and County aforesaid, the payment of the sum of two hundred and twenty-five dollars and seventy-five cents and interest, and to secure to the said Stephen Clark, bearing date the sixteenth day of July, A. D. 1887, and duly recorded in the Registry office in and for the County of Westmorland, by the No. 51,765, Folio 126, Libro G. 5, of said records, and did thereby convey to the said Stephen Clark, his heirs and assigns, certain Land and Premises in the said Indenture of Mortgage mentioned and described as thereby bargained and sold, subject, however, to a certain proviso in the said Indenture of Mortgage contained for the redemption of the said Lands and Premises upon payment of the said sum of two hundred and twenty-five dollars and seventy-five cents and interest in the manner there provided, and whereas default has been made in the payment of the Principal Money and Interest secured in and by the said Indenture of Mortgage, in the manner so there provided, and the same remaining due and unpaid.

Notice is hereby given that under and by virtue of the Power of Sale contained in the said Indenture of Mortgage, and because default has been made in the payment of the Principal Money and Interest due therein, there will be sold by Public Auction, at or near the Post Office, in Sackville, in the County aforesaid, on SATURDAY, THE SEVENTH DAY OF SEPTEMBER NEXT, at the hour of two o'clock in the afternoon, the following Lands and Premises mentioned and described in the said Indenture of Mortgage: "All that Lot of Land in Westcock aforesaid and bounded as follows: Northernly by old Burying Ground Road, Northernly by the Lands of Reuben Parly, and South-Easterly by the Wood Point Road, being the Property formerly known as the Parsonage Property, and containing two acres, more or less. Together with all and singular the Buildings, improvements and appurtenances to the said premises, belonging or in any manner appertaining, to be sold as aforesaid." Dated the 29th day of June, A. D. 1889.

RAISINS. VALENCIA RAISINS. VALENCIA LAYERS.

Choice New Fruit, received & for sale by M. WOOD & SONS, Nov. 22, '88.

The Stage-Coach.

Torn and battered and old, Fearfully hidden away, Let to the north and the south, Darkness and dust and decay. This was the pride of its day. Now 'tis a wreck and a ruin. Faded and vanished for aye; Gone are the driver and four!

How shall its story be told? What shall a song of it say? Once it was brilliant as gold. Once it was gilded and gay. Fine in their ferial array. Many the brides it bore. Now are they wrinkled and gray; Gone are the driver and four!

Long through the heat and the cold, Ever from May until May, Over the highways it rolled. Time has now made it his prey. Never a stately display. Never a swiftness of pace. Never a swing of a sway; Gone are the driver and four!

Over new roads that men lay, Rush we with rattle and roar. Only sweet memories stay; Gone are the driver and four!

—Bissett Clinton, in Editor's Drawer of Harper's Magazine for September.

A Slip of the Pen.

BY AMY LEVY.

It was all Dicky Carshalton's fault. In many respects an amiable youth, he cannot be said to be possessed of the finer feelings, and perhaps he is not aware of the extent of the discomfort he produced in more sensitive people. A frequenter of parties of every description, he is fond of varying the monotony of the social routine by various little practices. Of these, his favorite, not also peculiar to himself, is commonly known as spoiling sport. Whenever Dicky sees a pair of people who appear to take particular delight in one another's society, showing a tendency to be mutually interested, he is never satisfied until some bold stroke or cunning stratagem he has succeeded in separating them, or at least in destroying their enjoyment for the rest of the evening.

The happy possessor of an exhaustless supply of self-confidence and the meek, brazen impudence—the objects of his attack moreover being, from the nature of their position, comparatively defenceless—it is needless to add that though Dicky has had failures on record, they are greatly outnumbered by his successes. So there is nothing wonderful in the fact that Dicky was at the bottom of that unfortunate affair with Jack and Ethel.

Matters had long been in a delicate position, and it was not until young people. Jack had told himself over and over again that he was a firm, and that he, for one, had no intention of adding himself to her list of victims; while Ethel had believed her feelings by repeatedly assuring herself that she had no fellow who cared for nothing but his books, and was quite impervious to the charms of womanhood.

But that night at the Warrington's turns really did seem to be taking a turn for the better. Ethel had held her tongue, and had not said a dozen other admirers, and Jack, looking down into her honest eyes, was rapidly forgetting the doubts and fears which had tormented him during the past months.

There is no knowing what might not have happened had it not been for Dicky, who came up to them and at this hopeful stage of affairs, his shoulders in his ears, his hair brushed to a nice, and with the most unmistakable look of mischief in his prominent eyes.

"Good evening, Miss Mariner," he said, taking Ethel's hands in his and squeezing it with emphasis; and then the two poor things, suddenly awakened from their dream, stood there chill and helpless, while Dicky fired off his accustomed volley of chaff and jest, with fond presence of mind, venturing on one or two little pop-guns on her own account.

"Miss Mariner," he said at last, with a satisfied glance at Jack's sullen face, "have you been into the connoisseur?" "That's put a lot of pink lamps and there's the most scrumptious teletete chair you can imagine."

Poor Ethel looked up at Jack, who stood by, furious and sulky. "He is only too glad to get rid of me," he said, "and the ghost of an idea that he means it."

"Oh, Jack, Jack," cried Ethel in the parenthesis, "what must you think of me?" "Mrs. Byrne went on: 'Gracie Allison came in later, and the mystery was cleared up. She saw to you, and she concluded that you had done it in a fit of absence of mind. Poor old Jack, how she did chaff him!'"

Ethel was trying to recover her presence of mind. "How could I have made such a stupid mistake," she said, with a short laugh. "I suppose I was pursuing some train of thought. I met your cousin at a party the night before—you know how it is."

Mrs. Byrne was sorry for the girl's distress. "I mistake any one might have made, though you must own it was rather funny. However, I can assure you this—it won't get any farther. Jack is scarcely likely to tell, and Grace has sworn on her honor."

Ethel laughed again, meaningless. "As far as she was concerned, the buttered eggs were welcome to her now. No deeper disgrace could befall her. 'I wonder if he is shrieking with laughter, or merely sick with disgust,' the poor girl thought when her obtuse and amiable visitor, had at last departed. 'Oh, how I hate him now! I hate him which was hard on Jack, considering that his own conduct in the matter had been irreproachable. But Ethel was in no mood for justice. It seemed to her that she had utterly betrayed and disgraced herself; that never again would she venture to show herself in a world where Florence Byrne, Grace Allison, and, above all Jack Davenport, lived, moved and had their being."

Sick with shame, hot and cold with anguish, poor Ethel sat cowering in the great drawing-room like a guilty thing. Ethel astonished her family at dinner that evening by inquiries as to the state of the female labor market in New Zealand. Uncle Joe, a philanthropic parson, who happened to be of the party, delighted to find his pretty niece taking an interest in a subject so little frivolous, delivered himself of a short lecture on the subject. Ethel sighed at hearing that there was so little demand for the work of educated women (save the mark!) in that distant colony, and began to turn her thoughts toward Waterloo bridge. "Ethel funks on being an old maid. She knows that positively any girl can lasso a husband in New Zealand," her brother Bob remarked in a challenging tone.

But Ethel knew it was with uninteresting meekness, perhaps, she told herself, she was a husband-hunter after all! After dinner she put on her hat and stole out into the street. She had been indoors all day, and could stand no longer. The June evening was still as light as day, and simple-minded couples were loitering with frank affection in Regent's Park. She had not gone far before she saw a large familiar figure bearing down in her direction. "Oh, how I hate him—I hate him!" she thought again, while her heart beat with maddening rapidity. "If he has a spark of kindness in him he will pretend not to see me."

But Jack, for it was he, made no such pretence. On the contrary, he not only raised his hat, but he came up to her with an outstretched hand. She put her cold fingers mechanically into his, and scanned his face; there was neither mild nor disgust in it, and the thought flashed across her, chilling, while it relieved her, that he probably attached little importance to an incident to which she, knowing her own secret, had deemed but one interpretation possible. And then, before she knew what had happened, Jack was walking along by her side, pouring out a torrent of indignation reproaches as to her desertion of him in favor of Dicky Carshalton, at the Warrington's party.

"It is you," cried Ethel, with a spirit for the unexpected turn of affairs restored her courage, "it is you, Mr. Davenport, who are unkind to stand by and let old friends be victimized without striking a blow in their behalf! Pray, what did you expect me to do? Was I to have said, 'No thank you, Mr. Carshalton, I prefer to stay here with Davenport?'"

"And if you had said it, would it have been true?" "Dicky is such a bore! I think I prefer any one's society to his."

He stopped short in the path, seizing both her hands and looking down at her with stern and passionate eyes. "A close lunked couple strolling by remarked to one another that there had been a row, then refreshed themselves with half a dozen kisses. 'Ethel,' said Jack, in an odd voice, 'it's no use pretending. You do think of me the sometimes—I happen to know it.'" "She was looking at him; but at this allusion the sweet face flushed and dropped suddenly. 'No!'" "Jack's voice sounded strange and strange; he was going to laugh or cry? and why on earth did he speak so low—'Ethel, do you know what signature I should like to see to your letters?'" "This was too much. 'No! I don't!'" She lifted her flushed face, and the cruel tears shone and smarted in her eyes. "Can't you guess?" "The momentary defiance had died; a very meek whisper came from the pale lips. 'Can't you guess? Then shall I tell you, Ethel? 'Ethel Davenport'—that's what I should like to see at the bottom of all your letters. Shall I ever see it?'"

Further explanation is needless. When next they met Mr. Carshalton both Jack and Ethel were beyond the reach of his manoeuvres.—Temple Bar.

Shiloh's Consumption Cure.

This is beyond question the most successful Consumption Cure ever used. A few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it weakens the system in the case of Consumption without a parallel in the history of medicine. Since its first discovery it has been used by millions of people, and has cured more than any other medicine can claim. It is a safe and reliable cure for all cases of Consumption, and is sold by all druggists. Price 50 cents. Sold by D. Dixon, Sackville and G. M. Fairweather, Dorchester.

"A mountain of fine pink marble has been discovered in Han's Co., N. S., which is pronounced to be of the best quality. Some hundreds of tons have already been quarried and shipped to New York for interior decoration."

Answer This Question. Why do so many people who are afflicted with indigestion, flatulency, and other ailments, find relief in the use of Shiloh's System Vitae? Guaranteed to cure all cases of indigestion, flatulency, and other ailments. Sold by D. Dixon, Sackville and G. M. Fairweather, Dorchester.

In the Hamilton carnival one of the great features was the trades processions, which occupied an hour and fifteen minutes to pass, and was five hours in making its round. One manufacturing firm alone had one hundred and ten horses in it.

at half past one—the Singletons are coming.

Ethel moved to the writing table blushing faintly. She remembered that Mrs. Byrne was Jack Davenport's cousin once removed, and began at once, recollecting, cried her mother, as she rushed from the room. "Ethel listened to her with a look of incredulity. She pulled a sheet of paper toward her. It was not stamped with the address, but she failed to notice this, and began at once to write. "My dear Mrs. Byrne,"

"Then she stopped short, and the buzzing in her brain went on worse than ever. The note got written at last, all but the address, and then she began to wonder dreamily if she should sign herself 'Yours very sincerely,' or 'Yours affectionately.'"

"Ethel, Ethel!" cried her mother, putting her head in at the door, "I am going out. Give your note to Florence; I can take it to the post."

"Guilty and ashamed, Ethel seized her pen and wrote hastily, but in a bold hand—'Yours very sincerely, Jack Davenport.'"

Mrs. Byrne never came to lunch and answered the Mariner's invitation. Mrs. Mariner expressed surprise at this want of courtesy, and apologized to the Singletons for having no one to meet them.

"Are you sure, Ethel, you told her the right day? Florence is in town, I know, and it is so unlike her to be rude."

"I think it was all right, mamma," Ethel replied vaguely, and never gave another thought to the matter. But on the morning of the next day, as she was practicing her singing in the great hall-and-shrouded drawing-room, she was surprised to admit a benign and comely lady, who advanced smiling toward her.

"Mrs. Byrne!" cried Ethel in some surprise, getting off the music-stool. Mrs. Byrne established herself comfortably in a deep arm chair, then beckoned her to sit on the sofa, and with a well-gloved finger: "Come over here, Ethel."

Ethel drew a stool to the other side, and sat down, smiling but mystified. Mrs. Byrne played a little with the hair of her right hand, and then, having at last succeeded in opening it, she produced a stamped envelope addressed to herself.

"Do you know that handwriting?" she said, flourishing it before Ethel's astonished eyes. "It is my own. I wrote to ask you to lunch," poor Ethel answered simply; while the thought flashed across her mind that Mrs. Byrne had probably gone mad.

"Read it, then," cried that lady, with an air of suppressed amusement which led her to the notion. Ethel unfolded it quickly, then sat transfixed like one who receives a sudden and fatal injury. For before her horror-stricken eyes glared these words, in her own handwriting, "Yours very sincerely, Jack Davenport."

"What does it mean?" she cried at last in a hoarse voice, for it seemed that some fiendish magic had been at work. "That's what I want to know," Mrs. Byrne answered more gently. "I read the note which you handed yesterday. There was no address, and the handwriting was certainly not Jack's. Nor is my cousin in the least likely to invite me to lunch at his chambers. So I wrote off to him at once, and told him to drop in to me if he had anything to say to me."

Ethel had risen to her feet, and was standing with a little frozen smile on her face; but at this point she broke in hurriedly: "Did you show him—Mr. Davenport, the letter?" "No," Mrs. Byrne nodded. She was not a person of delicate perceptions, and had come here bent on a little harmless amusement; but somehow the amusement was not forthcoming.

Ethel clasped her cold hands together in a frenzy of despair. She knew that Jack was familiar with her handwriting; had he not made little criticisms, severe and tender, on the occasional notes of invitation which she had addressed to him?"

"Jack said he knew nothing about the note, and hadn't the ghost of an idea what it meant."

"Oh, Jack, Jack," cried Ethel in the parenthesis, "what must you think of me?" "Mrs. Byrne went on: 'Gracie Allison came in later, and the mystery was cleared up. She saw to you, and she concluded that you had done it in a fit of absence of mind. Poor old Jack, how she did chaff him!'"

Ethel was trying to recover her presence of mind. "How could I have made such a stupid mistake," she said, with a short laugh. "I suppose I was pursuing some train of thought. I met your cousin at a party the night before—you know how it is."

Mrs. Byrne was sorry for the girl's distress. "I mistake any one might have made, though you must own it was rather funny. However, I can assure you this—it won't get any farther. Jack is scarcely likely to tell, and Grace has sworn on her honor."

Ethel laughed again, meaningless. "As far as she was concerned, the buttered eggs were welcome to her now. No deeper disgrace could befall her.
