Toronto, Nov. 15 .- Mr. Newton Rowell, K.C., Liberal leader, launched the provincial campaign last night by addressing a great audience at Massey Hall. The leader's platform was indorsed by one of the largest and most enthusiastic political gatherings ever held in this city. Meanwhile Mr. Rowell reiterated the Liberal policy of the abolition of the three-fifths clause. The permanency of the law was not guaranteed by that majority, but by the success of local option when it was put into practice, he added. The other definite promise was to remove altogether the administration of the license system, while it was retained, from political influence. The Whitney Government had not carried out its pre-election piedge in this regard.

"They have utterly failed to discharge their duty to the people of this province," was a statement which received approval concerning the administration of New Ontario by the Government, when Mr. Rowell made a killful and exhaustive criticism of the apathy which had characterized the development of the hinterland.

Christmas and Winter Shopping Go Hand in Hand Today

As a rule, the winter buying is well under way by this time, but this year summer ran well into the lap of winter, and we have been enjoying the outdoor up until the last few days. On Sunday the thermometer shot down hill like a boy with a bob-sled, dropping thirty points in a day. So, Monday London commenced, as one family, on the quick work of putting the last finishing touches on the winter home and the winter wardrobe. getting the children warm, and making snug for the colder weather to come.

"But how about Christmas?", you ask. "Hand in hand", we say. And that is where the Smallman & Ingram store comes in with such aid to you. Here you will find the entire Christmas stocks side by side with the winter stocks, so that in one shopping day you can do both kinds of shopping. Here are lunch and writing rooms to sit in and plan and make out your lists, and here is this great store, famous for its service, ready to carry out your plans when they are made. It will be no uncommon thing these days to hear a woman say, "I want three comforters, a pair of blankets, a bob-sled, two dolls and a pair of boy's trousers."

Port Stanley, Nov. 14. — That another big Bessemer car ferry is not now lying at the bottom of Lake Erie with her crew is, according to those on the boat, due alone to the fact that heavy aprons across the stern of the boat prevented the waves from getting. An interesting and instructive lecture on "Jerusalem, the City of the Great King," was given in the Talbot Street Baptist Church last evening by Rev. J. J. Ross, of Toronto. The lecturer told of his visit to the Holy Land, and described the cities of Jotha, Jericho and Bethlehem, besides giving a detailed account of Jerusalem. He also gave a description of his tour along the River Jordan, and of visits to the Garden of Gethsemane. The lecture was illustrated by some beautiful stereopticon views, which, with the vivid description of Rev. Mr. Ross, made one almost feel that they were really in the land of holy tradition.

LONDON, WEDNESDAY, NOV. 15. THE BEWILDERED MR. BALFOUR. Speaking on his retirement from the

leadership of the Unionist party, Mr. Arthur Balfour said: "Let me make a single observa-tion. I desire to leave the position of heavy responsibility which I hold before I can be suspected of suffer-ing from the most insidious of all diseases disease which course

ling from the most insidious of all diseases—a disease which comes upon those who, without losing their health or their intellect, nevertheless get somewhat petrified in the old courses which they have pursued, whose authority grows because they have been long in the public service, or have been great men of science, or whatever it may be, but who cannot deal with the great problems which, in this changing world, are perpetually arising, with all the freshness and elasticity really desirable in those who have the consirable in those who have the con duct of great concerns.

He is willing, then, to leave to younger leader the task of keeping up with the times "that grow to something strange." Let the young lions of the party who have been whimpering at his inaction or moderation or tepidity try their teeth on the knot of Opposition politics. Is there the faintest hint of satirical suggestion in those picked phrases?

No doubt, however, Mr. Balfour seriously fears that the march of events in ously fears that the march of events in this Lloyd-Georgian era may become a trial to his powers. As a matter of fact, without realizing it himself, he has for some years been failing to gauge the trend of politico-social advance. There is something pathetic in the puzzled attitude of this brilliant than, who nevertheless having always thought in terms of a certain social class is finding it impossible to keep pace with democratic times. He is a simon pure Conservative, who went down to defeat in 1905 with the cry that nothing could be done to remedy Britain's social ills, and he has watched Britain's social ills, and he has watched with a bemused wondering stare the large activities of the Radical Govnent. It is inertia looking through an eyeglass at energia. Occasionally he would make a cautious and metaphysical lunge at such incomprehen sibles as the Insurance Bill, and even break into angry protest against the atrocity of settling Scotchmen back on the deer or golf land, or keeping them there. Like a mediaeval logician moving lightly and swiftly amidst clouds of finespun dialectic without end or purpose, he would prick at all the little bubbles on the current of constructive legislation with a deprecatory and futile criticism. he has appeared to be caught in the toils of his own complex intellectual apparatus. It is not, as Mr. Balfour rightly supposes, the curse of old age that has come upon him, but the inficiency of caste and of mere logic that really does hamper his movement. Vaguely the brilliant statesman feels himself somewhat out of date, but knowing what the cause is not, that it is not yet at any rate old age, he is not so clear as to what the cause is. You cannot expect deficiency to be aware of itself, as Mr. Balfour might

Old age was no drawback to Glad-stone. At 80 years he fought the bat-ile of what was called "a revolution-ity scheme". He was sneered at as stone. At 80 years he fought the battle of what was called "a revolution-ary scheme." He was sneered at as in his dotage. "Pity he hadn't died younger," "great mistake of failing powers," etc., were the compliments paid him. Now, all England is coming round to the aged Gladstone's view and vindicating him. It is generally those who have been of no account in their youth who make a failure of old age; a youth of achievement is commonly crowned, except for physical disabilities, by an old age of power and vision. Mr. Balfour's own life bids fair to end as his prime promised, hampered by caste, weak in creative work, yet mag-

"dificent in critical prowess.

lotted span of human existence—from the cradle to the grave—pointing out the usefulness of the boy and the training he must receive in the home to make him a useful citizen not only of his community, but of his nation. He urged his hearers to be lenient with the boys, for "boys will be boys."

Parents were told to say "do" instead of "don't." and to encourage their boys when they peered into the future and chose some honorable calling for their life work.

The first fourteen years of a boy's life, he mentioned, was the plastic age, when they could be molded into almost any form, and he urged the parents to set the example of industrious, honest, God-fearing citizens. The address bristled with sound logic, and was punctuated with sound logic, and was punctuated with sight flashes of wholesome humor. It was in every particular an intellectual treat.

The interior was mean enough, with its rough walls, dirt floor and blake cavernous fireplace. A rude clapboard table did duty as a desk, a fact made plain by the desk was a shelf of books in worn calf bindings, and before it a rick, ety chair. A shakedown bed in one corner of the room was tastefully screend from the public gaze by a tattered quilt.

"Boy, don't be afraid. Look on me as a friend," urged the judge, who towered above him in the dim candle light. "Here's comfort without ostentation. Don't tell me you prefer the tavern, with its corrupt associations!" Hannibal was silent, and the judge, after a brief moment of irresolution, threw open the door. Then he bent toward the small stranger, bringing his face close to the child's, while his thick lips wreathed themselves in a smile ingratiatingly.

that tea and coffee cause disease. But it is best to look squarely at facts and set the face towards health for that's more fun than anything else anyhow. A Cincinnati man consulted a Berlin physician on nervous disease and says:

"Four years ago I was an habitual coffee drinker, having used it for 25 years, and being naturally of a nervous temperament I became almost a nervous wreck, greatly suffering from insomnia, almost constantly constipated, and weighing only 128 pounds.

"I consulted physicians and took medicine all the time, but had no relief. About three years and a half ago I went abroad and while in Berlin heard frequently of a great physician, Professor Mendel, an authority on nervous trouble, so I resolved to consult him.

Professor Mendel, an authority on nervous trouble, so I resolved to consult him.

"Professor Mendel surprised me very much by asking at once if I was a coffee drinker and on my telling him I used it two or three times a day, he said, 'It is poison.' After carefully examining me he told me there was nothing the matter with me whatever but what could be entirely cured in 30 days by letting coffee and other stimulants alone and dleting.

"I had a hard time following his advice. I did not know what to do until I came home and told my wife who got some Postum. We tried it, but at first did not like it; then we went over the directions on the package together, and found we had not boiled it long enough.

"That was the beginning of the end of my trouble, for the Postum was delicious after that, and I drank it regularly and it helped from the start.

"In a very short time I began to feel much better and in the last three years I haven't been absent from business one hour on account of ill health, for my health is fine now. I have a good appetite, sleep well, and weigh 175 pounds."

ripeness, making her today one of the most brilliant of the actresses on the American stage.

It must not be forgotten that she has been surrounded with a cast selected with rare judgment. Perhaps the most satisfying portrayal, after that of the star, was that of Mr. A. E. Anson, in the role of Thresk. It is was indeed a brilliant performance. The bright, keen lawyer, the man who cast aside the woman he loved for his career, only to find that success was a barren thing without her, and that she had gone forever from him, was played to the life by Mr. Anson. He puts great intelligence and insight into his work. His performance was a rare treat.

The acting of Ernest Stallard, as the philosophizing, old pamphleteer, Harold Hazzlewood, was excellent. Stallard is no stranger here, but he grows better every time he is seen, Leslie Faber, as Dick Hazzlewood, was a manly lover, and rose to his part at all times. W. L. Abingdon, as Stephen Ballentyne, the drunken husband of Stella, gave a true glimpse of the character. There was no touch of exaggoration, but in every movement, every gesture, the brutishness of the man was made manifest. Miss Annie Esmond, as Mrs. Pettifer, and Lumsden Hare, as Robert Pettifer, were splendid.

The staging was sumptuous. The atmosphere of India, with the big light

This rule was decided on by the board of arbitration while en route to San Antonio to attend the annual meetins of the association.

As there are 172 claims now outstanding, the effect of the ruling will be sweeping in its scope.

It was also decided that the Western Canada League should be advanced from Class "D" to Class "C" but the application of the Canadian League for similar advancement was denied on grounds of insufficient population.

Protection sought by the Oklahoma League was denied by the board until several of the clubs formerly of the Western Association meet the obligations of that association.

AN OVATION.

When Mr. Rowell rose the reception accorded him was remarkable. From every corner of the auditorium came applause; men stood up and cheered, handkerchiefs were waved; four or five times the cheering broke out afresh. Mr. Rowell spoke eloquently, as he always does, but with deliberation. His intense carnestness carried conviction. He had not sought the leadership. He regarded it as the call of duty, and would give to the

responsibilities of the position his best energy.

The Provincial platform, he declared, was not the last word of Liberalism, but he hoped the party would promote a great influence to help the moral and material welfare of the people of the province. Mr. Rowell laid emphasis all through upon the planks affecting the betterment of social and industrial conditions, and it was evident from the applause greeted this discussion that these planks were exceedingly popular. In a happy play on words he laughed Sir James Whitney's "skimpy chicken" caricature out of court, and turned the "milk-and-water" criticism of the Conservative press against the Government.

MR. ROWELL'S ADDRESS.

Mr. Rowell, after the cheering and applause which greeted him had subsided, said:

Language fails me to adequately express my appreciation of the more than kind welcome you have given me. I am not vain enough to accept it simply as a personal tribute; I accept it as an indorsement of the principles and policy of the Liberal party in this Province, as set forth in the address I have issued to the electors; I accept it as an evidence of an everincreasing interset in the social and industrial problems which confront us, and as a pledge and guarantee of your support in our efforts to find a solu-

TRIBUTE TO MR. MACKAY.

Our late leader, the Hon. A. G. Mackay, was a brilliant parliamentarian. We all regret the causes which he felt compelled him to retire from the leadership. We believe he will vindicate himself, and that the electors who know him best, those in his own riding of North Grey, will show their confidence in him and their regard for him by returning him by a very handsome majority. His assistance and co-operation in the new Legislature in the manifold matters that will arise for consideration and discussion will be great value to the country. Asked a Separation.

Mr. T. G. Meredith appeared for her. He thought it would be best if Mrs. Brener got a separation from her husband, and for him to pay her alimony. The fact that Brener had threatened his wife with a revolver gave the case a more serious aspect in the eyes of the magistrate, and he could not see his way clear to allow Brener to go. Brener's brother-in-law was in court, and he offered to arrange with Mrs. Brener and Mr. Meredith some kind of settlement with both of them. The magistrate accordingly remanded Brener until tomorrow. In the meantime some arrangement will be made satisfactory to both parties.

The magistrate, however, told Brener that under no condition would he be allowed to return to the house while Mrs. Brener was there.

Intoxicated in Court.

Harry Allen was charged with nonsunport and desertion, Allen was in an intoxicated condition when he appeared in court and he could hardly understand what was happening. His young wife told a pathetic tale of how Alleln had put her and her two little children out into the street at one o'clock in the morning. The children were aged 2 years and 6 months, respectively. The rent of the house had not been paid for months and the baillf had selized what furniture they had and sold it. She had tried to work for the support of herself and children, and was at present earning enough to pay \$3 a week for their board, Allen did not seem to take any interest in the proceedings at all. When the magistrate asked him how much a week he was paid, he replied, \$10, and admitted that he spent about \$\$5 5 of it each week for liquor. He promised, however, to contribute \$5 a week in future to the support of his wife, and the magistrate will give him a chance to see how the plan works. When the case was over he was taken to a cell in order to get sobered up before going to work.

Sidney Russell was charged with being drunk, and abusing his wife. Russell is an old-timer, and in order to impress on him the necesisty of his having to reform the magistrate sentenced him to a month in Jail. A fine of \$20 was the other option, but this was too big for Russell, so he will have to spend the month.

The Famous Rayo Lamp

The best part of the day is the evening, when the whole family is gathered together around the lamp.

The old days of the smoky fireplace and flickering candle are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp.

There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes.

Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."

The Rayo is made of sold brass, with handsome nickel finish—an ornament anywhere. Ask your dealer for a Rayo lamp: or write for descriptive circular to say agency of

Havana, Nov. 15.—Exploration of the bottom of the Maine, about 120 feet aft of the bow, reveals a plate, identified as forming a portion of the outer skin of the ship on the port side, near the keel, and under the magazines, as having been blown inward, the upper part being folded inward. This apparently could result only from external pressure. The engineer in charge and the other officers are maintaining reticence, but the gineer in charge and the other offi-cers are maintaining reticence, but the discovery is strongly confirmatory of the theory of an external explosion. One body was recovered yesterday from the boiler room. It was that of an unusually tall man.

PHONES FOR STREET CARS Conductors Will Use Them to Call Names of Streets.

Chicago, Nov. 15.—Chicago street cars are being equipped with a device intended to do away with the needless opening of car doors in the winter, thus contributing much to the comfort of the passengers. The device consists of four enunciator horns, like gramophones, set at the four corners of the car. The conductor will have a small telephone through which he will announce street names, his voice coming through the horns. It will be necessary to open the doors only when passengers are leaving the CALLER.
