has reopened negotiations with the British for peace. As explained here, this action was determined, in part, by General Botha's discovery, at a recent meeting, that Gen. De Wet's intellect had weakened, and that his influence with his followers was diminishing, and that a continuance of the campaign, in view of Gen. De Wet's irresponsibility, rested with General Botha alone. It is understood here that although Gen. De Wet at his recent interview with General Botha, refused to surrender, General Botha, refused to surrender that if Gen. Botha surrenders, De Wet's following can be easily taken. KITCHENER AND BOTHA. London, April 11.— The report that General Botha has renewed the negotiations with Lord Kitchener is not yet officially confirmed, but it is generally credited and received with satisfaction, except by the ultra-jingoes, who fear that the government will renew the terms recently rejected. Regarding fem. De Wet's mental condition reports have been very conflicting for some time. His recent inactivity points to there being some truth in the rumors which allege that long-continued hardships, under the harassing British pursuit, have unhinged his mind. On the other hand, a correspondent of the Times quite recently acknowledged the "wonderful fore-sight and fertility of resources" which characterized Gen. De Wet's retreat from Cape Colony. As during the previous abortive negotiations, the British press again loudly insists upon "unconditional surrender," but with the budgetary necessities staring the country in the face, if negotiations are reopened, the Boers, as the Daily reckon on fair treatment at the hands of the British.

CONSPIRACY

Rev. Canon Richardson, of London, Accused of Trying to Defeat the Ends of Justice

In the Sifton Murder Case—His Wife is an important Witness but Cannot be Found.

London, April 11. - Gerald Sifton was placed on trial at Spring Assizes here yesterday, charged with murder. The young farmer is alleged, with the aid of a hired man, to have done to death his father, the late Joseph Sifton, a London township the fact that the main question which would arise would be that of the sale of deben-tures, and as a large majority of these de-benture sales were submitted to Bruce,

farmer. But the trial did not proceed. Because of the absence of a witness a whole day was wasted

The missing witness was, however, productive of a sensational incident, As a result of failure on the part of both the Crown and the defense to learn the whereabouts of Mrs. J. B. Richardson, wife of the rector of St. John's Church, London township, Rev. Canon Richardson stands indicted with the serious offence of conspiracy to defeat the ends of justice. The Grand Jury have found a true bill against the clergyman, and it looks as though he will have to tell the court how it happens he does not know where his wife is. Crown Attorney Magee spent two hours yesterday driving in search of Canon Richardson. He found the rev. gentleman, but did not find what he was in search of. The Crown Attorney, in an affidavit read to the court, states that the Canon had apparently deliberately avoided meeting him.

Mr. Riddle, K. C., stated to the court that enquiry had been made of the doctor and Canon Richardson relative to the whereabouts of Mrs. Richardson. The doctor had advised that she be sent away, and declined, or to put it more exactly, did not know, he said, where she was. Canon Richardson was called upon, and said Mrs. Richardson was going about from place to place, and he did not know just where she was. He had sent her away on the advice of her

His Lordship—Do you desire an in-dictment against the doctor and clergyman for conspiring to defeat

the ends of justice f Mr. Riddle—Yes, my Lord. His Lordship—Well, I will give you

the Infantry School at London will be present, and arrangements will then be made for the formation of classes. Recruits who fail to attend the drills next week are liable to have their names struck off the list, unless they report the cause of their absence to the captain of their company. Several names of men who have not been attending regularly have already been struck off. Col. Rankin is determined that no man shall receive a uniform who has not been regular in his attendance. The Mr. Riddle-Very well, I will do so. The Crown counsel said the daughters of the missing witness had been applied to with the same indefinite

result.

His Lordship remarked that something must be done to prevent this kind of game.

Mr. Riddle formally applied for a bill of indictment against Canon Richardson, and stated he would lay the bill before the Grand Jury at once. An affidavit was put in from Crown Attorney Magee, stating the result of his endeavor to ascertain the wherehis endeavor to ascertain the where-abouts of Mrs. Richardson, and the bill against Canon Richardson was presented to the Grand Jury. In an hour they returned with a true bill. Notice was served on the defendant's counsel, Mr. T. H. Luscombe, and more of the matter will probably be heard when court meets to-day.

Intending passengers for any Paci-fic Coast Points, including San Fran-cisco, Los Angeles, Seattle, Tacoma, Portland, Victoria or Vancouver, will consult their interests by calling on W. E. Rispin, general passenger and ticket agent, 115 King street, who will issue tickets to any of the above points on any Tuesday from now until the end of April at \$38.70 each.

RAIL SCANDAL

Beaver Flour the Best.

Mr. Blair Enters Into a Four Million Dollar Contract

Without Consulting Parliament—One Sided Deal in Favor of Mr. Clergue.

Yesterday, when the House went into committee of supply, and Mr. Blair's railway estimates were taken ratepayers who are entitled to vote on the said by-law. up. Mr. Haggart sprung a sensation by producing the contract with President Clergue, of the Sault Ste. Marie Steel Works. It showed that instead of an agreement for 25,000 tons of steel rails for the coming summer's fifths of all ratepayers who, accorddelivery, as Mr. Blair stated on Tuesday, the Minister of Railways has contracted with the company for 25,-000 tons a year for five years-a total of 125,000 tons. Although the contract involves payment of over \$4, 000,000, it was made without Parlia-ment being consulted, the deal being ratified by an order-in-council, pass ed on the 9th of October last. Mr Blair feigned asconsyment that any Conservative should criticise the contract. He challenged comparison with contracts of the late Government. The negotiations with Mr. Clergue, he said, were entered into before Parliament ment prorogued last year, and was it any reason for not entering into

any reason for not entering into a contract that an election was at hand?

Mr. W. F. McLean — The Liberal party has often said so.

Mr. Blair replied that he did not care what the Liberal party said.

The price paid for rails was a fair price.

Mr. Osler—It was not. Mr. Blair—Does the hon. gentleman

know that?

Mr. Osler—I do.

Mr. Blair bowed to the hon. member's superior knowledge, and concluded with a general defence of the

cluded with a general defence of the contract.

Dr. Sproule likened the job to the Yukon deal. Mr. Blair, he said, had not dealt frankly with the House yesterday when he said the contract was only for 25,000 tons.

Mr. Blair quoted from the contract to show that the explicit contract was only for one year, with a provise for

to show that the explicit contract was only for one year, with a proviso for extension over five years, provided the company would supply rails at current English prices.

"That," said Mr. MacLean, "is a contract for five years."

"There is no explicit contract," Mr. Blair persisted.

Mr. Osler said:—The contract is all one-sided. The Government is made responsible for a five-year term, but the company is not bound to proceed unless it pleases to do so.

Dr. Sproule pointed out that this contract was made on the eve of the

8 STEPHENSON. - Proprietor REMINISCENCES OF THE LATE

SIR JOHN A.

Nicholas Flood Davin, who is now acting as Ottawa correspondent for the Toronto News, indulges, when the work of the House is not pressing. in occasional reminiscences of Canadian politics and politicians that are very interesting. Particularly readable are some of his recollections of the Old Chieftain, Sir John A. Macdonald. To some of the younger generation of Canadians, at least, it may be news that Sir John was at one time a free trader. "In 1876 I was in the Mail office," says Mr. Davin, "talking with the late Charles Belford, who was the editor under Mr. Patterson, who was manager and editor-in-chief, when Sir John Macdonald entered and said: 'Belford, what do you mean by that article on protection? I am not a protectionist." But protection was in the air, and Sir John was not the man to allow his own private opinions to stand in the way. The matter was finally decided for Sir John at a political pienic. Turning to Sir Charles Tupper, he said: "Tupper, protection is the card we are going to win with. I watched that crowd. They were unaffected by all your thundering against McKenzie; but when protection was expounded and they were told they would have a home market and get more for their wheat and bacon, their steers and lambs, and tall chimneys would rise up from here to Fenelon Falls, all their ears were cocked. Protection is the card we'll win by." Further on Mr. Davin describes the Chieftain as a statesman of large national views; but he was not and did not profess to be "a thinker on questions with the object of arriving at new ideas to apply in any department of government." He considered that was not his business. He considered that the first duty of the politician was to get in, and the next was to keep in. There is no doubt that he lived up to his creed. Some of his followers still venerate him as a great political leader; but Mr. Davin's picture is doubtless true to life. He was a successful leader because he allowed success to lead him. The first duty of the statesman, he held, was to get into power, and the next duty was to stay in power.

THE ROSS GOVERNMENT BLUFF-ED.

The condition of things revealed by the Ontario Government's attempt to deal with the assessment question is little short of extraordinary. When astead of pressing the bill drawn up by the government's own commission to remove the "scrap iron" iniquity, the government announced a substitute, which gave little hope of a remedy, Mr. Whitney rose in his place in the house and charged the government with carrying out its part of a corrupt bargain, and he defied the government to question his statement. "When the government last proposed to tax the corporations of the province," said Mr. Whitney, "a contract was made by which they contributed large sums of money, and by means of the money to a certain extent the general elections of 1898 were carried in this province. If any gentleman thinks I have not made my statement distinct, let him show wherein it is weak, and I will make it stronger, because I know whereof I speak, and the time will come, I hope, when I shall be in a position or rather be ready to allude in greater detail to the question I am now discussing."

Did anybody rise in behalf of the government and make a demand for more definite charges? If so the vigilant of occupants of the press gallery failed to see or hear him. Mr. Whitney was allowed to proceed, and he made his position clearer as he went

"Then came, sir, as a result, the famous scrap-iron iniquity, as some call it—another sop to the corporations in return for what they had done. Does any gentleman ask who is authority for my statement? When he does, I will answer the question. We then had the Assessment Commission appointed last year, when the government found themselves attack-ed at the point of the bayonet in the ed at the point of the bayonet in the Municipal committee room. Who that was present will ever forget that scene when the Ministers of the Crown sat there surrounded by corporation influences and tremblingly suggested that a commission should be issued to inquire into the assessment question rather than that the ment question rather than that the committee should be compelled to take

It is quite clear that the government, if it has any case, cannot afford to treat such a charge with silent contempt; it is equally clear that Mr. Whitney cannot afford to allow the matter to rest with the mere uttering of a threat. He has gone so far that he ought to go further. If he does not, he will leave the impression to whether or not their tenants have that he is in the same box with the paid; then in the next place, if the government, and that he dares not tenant moves out without paying, the formulate his charges, just as the landlord finds himself stuck. If the government dared not deny them. Mr. tenant found that he could not get Whitney had the opportunity to speak water until he paid for it there would out; the pity is he did not accept it; be no trouble. But to supply it to all it may not occur again. There is no who apply on credit, and then hold the sense in multiplying suspicions—the landlords responsible seems most crop is already quite large enough. unfair.

HOLE IN THE LUNGS

There are thousands of men and women, as well as ever, with holes in their lungs: consumption stopped.

Consumption stopped is consumption cured. What does

Some change in the way of life and Scott's emulsion of cod-liver oil.

With the emulsion, give some attention to circumstances: change from a dark damp close room to a sunny dry airy one; from city to country; from hard to an easy life; indoors to out.

A hole in the lungs once healed is no worse than a tootight waist or waistcoat.

Take the emulsion, and give it a chance to heal the wound. We'll send you a little to try, if you like. SCOTT & BOWNE, Toronto,

The whole attitude of the government towards the corporations is full of suspicion; what the people want is not more suspicion, but some facts. Mr. Whitney professes to have them. Let him give them to the public.

The census enumerators who have thrown up their jobs in disgust may be said to have taken leave of their

It is said Attorney-General Gibson will drop the law reform bill. What is the use of trying to get law reform from a cabinet of lawyers?

The Ottawa Government has got the estimates up to \$60,000,000 now. Five or six years ago Hon. David Mills thought an expenditure of \$40,000,000 the grossest extravagance.

At the Hamilton teachers' convention a gesolution was passed, asking the Education Department to make a regulation placing the minimum age of the school teacher at twentyone years. The idea is to reduce the number of teachers and make those who enter the profession choose it as a life work, and at the same time serve to raise the salaries of teach-

Chatham is noted for the number and variety of its beautiful birds, yet boys are allowed to roam around wit guns shooting them. Where are the Ontario game wardens? Where are the police? These boys are breaking both the law of the province and the by-law of the city. A couple of examples should be made. If they are not, the game wardens should be reported to Toronto. We want all the pretty birds that come here.

Visitors to the city of Washington are loud in their praise of the civic government of that city. It has clean nd well-lighted streets and all the conveniences of modern life. One secet of its successful management is that it is under the control of three ommissioners appointed by the government. In municipal government the truth of the saying, "too many cooks spoil the broth," is apparent.—

Windsor Record. That is all very well, but in Washington the Federal government pays half the cost of municipal work, hence the taxpayers get off at 50 cents on the dollar. Any city ought to look well under such circumstances.

The Ross Government wants the time of the present session extended to clear the decks of all business that can be got rid of. The Mail says: It is well understood in inside Liberal circles that the object of the Government in extending the life of the present House is to enable them to put through a Redistribution bill at the next session, on which the Premier calculates to secure a net gain of six seats. The time for the general elections has been already decided upon, and unless present plans fail, the Government will go to the country between the 15th and the 30th of June, 1902.

Judge Houston's contention that landlords should not be held responsible for their tenants' water rates is most reasonable. The water commision has the remedy in its own hands. Let the rates be collected in advance and if the tenants fail to pay turn off the supply of aqua pura. The recent extraordinary rule adopted by the board means that landlords must in the first place keep themselves posted from the waterworks office as

at a special session of her legislature is expected to disfranchise about 26,-000 negroes and 18,000 white men by mposing upon them an educational qualification. Under the provisions of the new law the voter is required to mark a ballot without division of the candidates into party groups. Hereafter, the candidates' names will be arranged in alphabetical order. If such an enactment will disqualify so many voters Maryland is badly in need of a more thorough system of education. But the educational test in

Marylands new election law, passed

voting is right, and it is to the credit

of Maryland that it is made to apply

to black and white alike, which is not

the case in some Southern States.

Bobcaygeon Independent. It is proposed that the Duke of York's sons should be called Prince of Canada and Prince of Australia. If it is names they want, this country can supply unlimited quantities. What is the matter with Duke of Bobcaygeon, or Earl of Nogey's Creek?

COUNTY JUDGES. Uxbridge Journal.

The county judges of this province have applied at Ottawa for increased salaries because the Legislature proposes to give them more work to do by transferring some of the work of the High Court to the County Court It is an almost general opinion that most county judges require more work to enable them to earn their present salaries. The Legislature will be endorsed by the people in a policy of more work for county judges or fewer judges.

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the upon the blood and mucous surfaces of the system: In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggist, price 75c. per Hall's family Pills are the best.

Make Believe Mourners.

The Chinese possess a great love of funeral display and heartless crocodile tears, as they seem at least to western eyes. An immense trumpet is even used sometimes, which is worked like a garden pump to sob out the "boo-hoo" of the afflicted relatives. The more unter they seem to be pleased. For a great funeral all the beggars and ragamuffins and impudent small boys in the vicinity are hired. They are decked out in tawdry clothes, or perhaps their rags are not even disguised in any way, but they are hired to wall and sob as if their hearts were breaking. The dull, indifferent, stoid faces of the men and the roguish, mischievous smiles on the boys' faces belie their wails and give a very unreal air of hypocritical sorrow to the average Chinese funeral, though doubtess there is much genuine sorrow and as many real heartaches as in other

The End Surprised Him. Always read a letter to the end and hear a story to the end before you are too much elated or depressed.

A popular physician was much pleased with a certain aerated water and by his assiduous recommendation procured for it a celebrity it justly deserved. The doctor acted solely in the interest of humanity generally and expected no return. To his surprise there came one morn-ing an effusive letter from the company stating that his recommendations had done them so much good that they "ven tured to send him a hundred"-

Here the page came to an end. "This will never do," said the doctor. "It is very kind, but I could not think of accepting anything."

Here he turned the page and found the sentence ran:
-"of our circulars for distribution." London Tit-Bits.

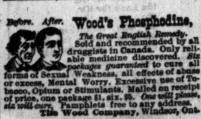

Tobacco.

Even the best judges of tobacco can't always be depended on. Sometimes their taste goes back on them, so to speak, and remains blunted for a week at a stretch. Professional samplers of tobacco take a week off every few months and never look at the weed until they return to

duty. In that way they keep in condi-

"Gazzam has been going without his breakfast for a month to reduce his flesh," said Twynn.
"With what effect?" asked Triplett.
"He is losing two pounds a week and is very much tickled over it."

Full of Meaning.

The "Sovereign" brand on a lady's shoe means everything a lady has a right to expect in shoe.

It means style because made on the very latest, most fashionable patterns.

It means fit because made on lasts modelled from real feetwith all the stretch and shrink taken out of the shoes.

It means beauty because "Sovereign" shoes are finished by the best, most up-to-date

It means wear because only first-class materials are put into "Sovereign" shoes and they are put together by the best of all methods, the Goodyear flexible welt process.

For men and women. \$3.00, \$3.50 and \$4.00.

Stamped on the soles,

Sold only by D. Turrill and J. L. Campbell.

The Latest Method Treatment

No medical discovery for years has proved as successful as Dr. Goldberg's Latest Method Treatment. It is the outcome of years of experience; it vitalizes the system, equalizes circulation, removes all obstructions, consequently is the only method recognized as a speedy and permanent cure for Varicoccle and Stricture, without use of knife or loss of time; it absorbs the wormy condition, also the stricture, stops the smarting sensation, unnatural discharge, thereby strengthening the parts as well as the back, and restores lost powers.

Facts For Patients.

1. Dr. Goldberg has 18 Dipiomas, Certificates and Licenses, which is sufficient guarantee as to his standing and abilities.

2. Each time you call you see Dr. Goldberg personally, while all other Chronic, Private and Blood Poison specialists have some doctor in charge of their office or have an

vate and Blood Poison specialists have some doctor in charge of their once of assistant to dector you.

3. The Latest Method Treatment discovered by Dr. Goldberg is recognized as the most speedy and permianent cure for Blood Poison, Chronic, Private, Nervous Debility and Impotency. Varicoccle and Stricture eured without entiting or stretching.

4. Our records show more actual cures than all other specialists combined.

5. We accept no incurable case for treatment.

6. We are the only doctors of our specialty who are willing to wait for the pay until you are convinced that a complete cure has been established. If you doubt it, try us and see. Call or write for blank for home treatment. Book free.

With the most sincere sorrow the sad tidings have reached us from Topeka, Kas., of the death of Elizabeth Sieben, beloved wife of Jacob Helfrich, in her 40th year, on the 18th day of March. The deceased was the third daughter of Paul and the late Barbara Sieben, who, with her par-ents, left here twenty-wo years ago, and her death will be heard of with sorrow by her many friends, as she was universally beloved. She leaves sorrowing husband and seven children to mourn the loss of a faithful wife and mother. She also leaves a father, three brothers and three sisters to mourn her loss.

EIGHTH CON., RALEIGH.

C. A. Kiel, sold several head of cattle last week, realizing for them a handome figure. Stover has engaged with 'Or-

lando Rhodes for the summer.
Alfred Thompson, a farmer on the 15th, but well known here, was quietly married to Mrs. Eliza Nagle last week. The ceremony was performed by Rev. R. Redmond, of Charing Cross.

While returning to his home in Dover after having visited his relatives on the 9th, Arthur George met with an unpleasant incident. His buggy be-came so fastened in the mud that it was impossible to proceed—the horse was stuck. He went home on horse-back and, returning with a team next day, managed to get his buggy to its proper destination. Wilbur Towl has recovered from a

slight attack of grip.

Austin Suitor left last week for Detroit, where he will hereafter reside, having secured employment there.

A. R. Mummery has returned home after visiting relatives at Blenheim.

Geo. Towl acted as superintendent of the Sunday school during his ab-

sence.
Tom Brown, Jr., has purchased a valuable bird dog.
Mr. Fleming, teacher, attended the teachers convention held in Chatham on April 3rd and 4th. School closed on Tuesday, April 2nd, for the Easter helidays.

holidays.

Mr. Wells occupied the pulpit at Wesley church on March 31st, during the absence of Mr. Redmond.

The marriage of Miss Minnie Woods, of this place to Walter Rouse, of Chatham, will take place on Wednesday, April 17th.

LOUISVILLE.

The Planet's Louisville correspondent writes: On behalf of George Arnold and family, I desire to extend to their many friends their most heartfelt thanks for their kind help, words of cheer and sympathy and floral tributes, which did so much to lessen the sorrow of the bereaved ones. I have been requested to correct some statements about the sad accident on April 1st. Mrs. Arnold and her two sons, Arthur and Percy, were driving towards Louisville, when their horse became frightened by their dog brushing against its leg. Jim, being blind, did not keep the road, and was running towards the right side of the bridge, when Mrs. Arnold seized the left line and pulled the horse to the left and most dangerous side. Before it could be stopped it made a mad leap from the abutment of the bridge and landed clear of the spiles and piles of concrete in the soft mud of the ditch. Arthur, the older boy, was thrown twenty feet but, beyond a scratch, was uninjured. When the men from the blacksmith shop reached the scene Mrs. Arnold was in the cart holding the baby in her lap and tightly clenching the left line. She complained of great pain in her chest and stated that the horse had fallen on her. The innocent talk of Percy that Jim jumped right over mamma, goes to prove it; but how the baby that Jim jumped right over mamma, goes to prove it; but how the baby escaped injury is the mystery that cannot be solved.

The Oddfellows' Hall is well on its way to completion and will be quite an ornament to the "Echo of a Vil-

lage."

Our esterprising general merchant,
Frank Bedford, exports hundreds of
dozens of eggs weekly.

The funeral of the late Mrs. Geo.
Arnoid took place on Wednesday afternoon from the family residence to
the church, thence to the Arnoid Cem-, etery. The obsequies were conducted by Rev. Mr. Walker, and his sermon was the most touching ever heard in this section. We might say, too, pointed in its touch. The large concourse of sorrowing friends and rela-tives testified to the esteem in which the deceased was held. The grave was the deceased was held. The grave was fittingly decked with evergreens, and after the last sad rites the body was gently laid to rest to await its reunion with the soul in heaven. Mrs. Arnold was a member of the Methodist Church, a good Christian mother and a friend of all in times of sickness and distress; and her loss to all is great.

THEY'RE PROVING VERY SUCCESSFUL

Wiss Morton's Evangelistic Services in Victoria avenue Methodist Church

The evangelistic services which are being conducted by Miss K. Morton, of Toronto, in Victoria Ave. Methodist Church, are proving extremely successful. At the meeting last night the evangelist preached an excellent sermon from the words found in John 11 and 39-"Take ye away the stone." Said the speaker, these five small words teach a tremendous and momentous fact-the Lord will not do for us what we can do for our selves. On this side of what Jesus Christ afterwards did the stone was Christ afterwards did the stone was a great thing, but afterwards it was as nothing. If mountains had been piled upon the body of Lazarus the Lord could have moved them by one word, and yet this miracle, in one sense the greatest of Christ's works, depended on human assistance in the mere movement of a stone.

There are tanight souls stored in

mere movement of a stone.

There are to-night souls stored in the sepulchre of sin which we would gladly see resurrected, and the only reason that they are not quickened by the Living God in spiritual life is is the fact that we stail to roll away some stone, unbelief in the power of God to save, and the idea that it is too late to bring back some who are dead in sin. Just let we Christians remove every stone that God tians remove every stone that God expects us to roll away and many shall rejoice not only in a new life but, freed from the grave clothes of worldliness, they shall enjoy a freedom never known while wrapped in the bondage bindings of sin. Every merchant

EVERY MERCHANT SHOULD ASSIST

In Making the Mineral Bath Project a Success-Letter From Mr. Von Gunten.

To The Planet,-With your permis sion I would like to call the attention At the police court this morning Mrs.

Enos, colored, was charged with the theft of a ring from Stephen Dennis. The case to me is one of the best opportunities ever offered not only in advertising Chatham, but financially helping themselves, and that is the proposed mineral baths. Now that there ap pears to be no doubt about the quality of the mineral water, nothing remains to make our city boom, but the liberal subscription of stock, and any merchant who fails to subscribe must be short-sighted indeed. If he never directly realizes one cent on the money invested in the company I have no doubt he would reap a hundred fold from the transient trade which such baths must bring to this city.

To make a success of the baths
there is no doubt the project must

be started on a scale which would be a credit to the city, and money must be spent freely, not only in erecting suitable baths, but in ad-vertising the same, and the only way to start it as it should be is by mer-chants and others taking liberally of the stock-not a year from now, but now. A dollar at the start will be

worth ten dollars a year hence.

Respectfully yours,
A. H. VonGUNTEN.

CHATHAM MAY ENTER THE LISTS

The Maple City Gun Club Will Pro bably Amalgamate With the Dominion Association.

Alluding to the despatch, published in yesterday's issue of The Planet, chronicling the announcement of the formation of a Dominion Shooting Association, President W. S. Richards, of the Maple City Club, .expressed the willingness of the local organization to amalgamate with

such an association.

"Of course our club is largely composed of young members," said Mr. Richards to The Planet this morning, "but it also comprises several crack marksmen, although they are somewhat out of practice at present. Still, I believe the club would be pleased to become a factor in the Dominion Association and we would

Dominion Association and we would be glad of the opportunity to enter a team in the competitions which will likely be scheduled.

"The west was not represented at the meeting at all, but I would like to see this district represented in the association. It would develop, I believed in the association. lieve, an increased interest in marks-manship and be beneficial in every respect.

WANTS THE BY-LAW THROWN OUT BY

The Council-Citizens, This Cor respondent Claims, do not Favorit.

To The Planet,-It is reported that the city council are inclined to pass the Dowsley Spring Co. By-law, although the by-law did not receive the twothirds vote as required by the statute. The by-law was submitted to the people under very favorable circumstances, the tax payers who are op-posed to the by-law did not even pub-lish a letter, issue a circular, or hold a meeting to express their views or to influence the vote. The 4th of April was a bright, sunny day and our April was a bright, sunny day and our roads were good, thus giving opportunity to get out every vote to support the by-law. The city council used their entire influence with the voters by mailing three different circulars to each one presenting the bright side of the by-law. No doubt many votes were polled in favor of the by-law that would not have been polled had the question been fully discussed by its opponents. Under all these circumstances I hope the council will submit to the will of the people and throw out the measure.

out the measure. FREEHOLDER. Chatham, April.

LATE MRS. RHODY

Touching Tribute Paid to the De-

ceased by Father James. The funeral of the late Mrs. James Rhody took place this morning to St. Joseph's Church, and thence to St. Anthony's cemetery, where the remains were reverently laid to rest in the preserce of the assembled family. The funeral services at the church were largely attended. The Rev.

Father James, assisted by Rev. Father Edward Fisher, late secretary to the papal delegate in Canada, and Father Herman, celebrated High Mass.. Father James delivered his first funeral oration in Chatham over the remains. He said that death was conversion of every mortal being, and made the rich the poor, the high and the low equal. Mrs. Rhody had not always been a Catholic, but had been converted to the true faith. Her life had had its trials and troubles, but she had always come out victor, serene and happy in the faith she had embraced and, having risen superior to temporal troubles, was able to say with the aposle of the Gentiles, I have fought the good fight, and I know that Christ Jesus has deposited in

heaven a crown for me.

The full choir assisted at the service;
Father Gabriel took Miss Nellie Rhody's accustomed place at the organ and played

The pall bearers were: James Taft.
Vitel Cullette, Peter Robert, J. A. Wilson,
James Gordon and James Dunn.
The casket was buried beneath flowers and foliage sent by the following friends and relatives: Cross on base, St. Joseph's church choir; wreath, little girls' choir; a cross, the family; anchor, young ladies' church choir; wreath, little girls choir; a cross, the family; anchor, young ladies' mandolin club, and boquets from the following, John Waters, Ridgetown; Misses Margaret and Lizzie Stanewitcz; Mrs. Mahoney and son James, Lockport, N. Y.; Hattie Mount, Adele McLean, Frank Bechard, Maggie Dillon, Mary Downie and Edward Crotty, Toronto.

Mrs. Rhody leaves a family of seven children. They are, James and Misses Minnie, Maria, Agues, Maggie and Nellie, of this city, and Sister Loyola, of Naza eth Academy, Kalamazoo, Mich.

CURTAINS

The Curtain and Drapery section of this store is rich in the choicest goods the world produces in these lines. It has been usual for some people in Chatham to buy their Fine Lace Curtains in large commercial centres, being unable to obtain the goods required in their own city. Even a slight acquaintance with our present stock of Lace Curtains will show that we have made this

step unn cessary by anyone. The lists and brief descriptions that follow indicate the very superior range found in this store.

English and Scotch

Lace Curtains, dainty designs, hard twisted and even threads, 40c to \$7.00

White Frilled Muslin Curtains, plain or embroidered insertion

and edging, one of the nicest of bed-room Curtains, \$1.00, \$1.35 and \$1.75.

Swiss Renaissance

Lace Cnrtains, particularly suitable for library and dining room windows, \$2.50 to \$6 a pair.

Point Arabian

Lace Curtains, effective and durable, curtain that needs only to be seen to be admired, \$9 to \$12 50. Lace Curtains, the embodiment of dig-nified beauty, a very full range, \$6.50 to-\$15, at the latter price we can show you the zenith of lace curtain loveliness.

Point Renaissance

White Tambour

Lace Curtains are always charming, neat delicate, and yet durable, they will always be the choice of many house-keepers. \$2.75 to \$7.50 per pair.

Frilled Net

Curtains, plain, spotted or patterned centres, the curtain above all ethers for bedrooms, we are showing New York's latest productions in this line, and can freely say they are the best yet, \$2 to \$6 75 per pair.

The Money Saving Spot

REMARKABLE SUCCESS

A large and constantly increasing majority of the American people are catarrh sufferers. This is not entire-

catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases known by other names are really catrrh. Formerly catarrh was applied almost exclusively to the common nasal catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages.

as well as the nasal passages.
In fact, wherever there is mucous membrane there is a feeding ground

for catarrh.

The nasal remedies, inhalers, sprays

The nasal remedies, inhalers, sprays, douches or powders, have been practically failures, as far as anything more than temporary relief was concerned, because they simply dry up the mucous secretions, without having the remotest effect upon the blood and liver, which are the real sources of catarrhal diseases.

It has been known for some years that the radical cure of catarrh could never come from local applications, but from an internal remedy, acting on the blood and expelling the catarrhal poison from the system.

rhal poison from the system.

A new internal preparation which has been on the market only a short time, has met with remarkable success

ime, has met with remarkable success as a genuine, radical cure for catarrh. It may be found in any drug store, sold under the name of Stuart's Catarrh Tablets, large, pleasant tasting lozenges, composed principally of antiseptic ingredients, eucalyptol, guaiacol, sanguinaria, hydrastin and similar catarrh specifics.

Dr. Ainslee in speaking of the new catarrh tablets, says: "I have tried the new catarrh remedy, Stuart's Catarrh Tablets, upon thirty or forty patients with remarkable satisfactory results. They clear the head and throat more effectually and lastingly than any douche or inhaler that I ever seen, and, although they are what

ever seen, and, although they are what is called a patent medicine and sold by druggists. I do not hesitate to recommend them as I know them to be free from cocaine and opiates, and that even a little child may use them with entire safety."

Any sufferer from nasal catarrh, throat or bronchial trouble, catarrh of the stomach, liver or bladder, will find Stuart's Catarrh Tablets remarkably effective, pleasant and convenient, and your druggist will tell you they they are absolutely free from any injurious drug.

PROBABILITIES.

A WEAPON WITH SEVERAL ADVAN-TAGES OVER OLD TYPES.

An Ingenious and Splendid Weapon That Supersedes the Imperfect Army Rifle of 1888-Magazine Construction of the New Gun-The Sight Piece of the New Weapon-The Whole Equipment.

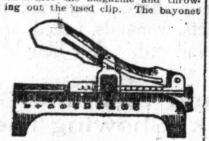

The German rifle of the model of 1888 was somewhat hastily adopted after the invention of smokeless powder with the object of utilizing the new invention in the cartridges. was soon found, says The London News, that the rifle had several drawbacks; the breech did not close perfectly, the repeating mechanism was not all it should be, the maga-

GUN AND BAYONET BEING ISSUED TO THE

GERMAN ARMY. zine action did not come up to requirements, and there were several other defects such as might be expected in a hastily improvised arm. It was inevitable that another and better weapon should be provided for the German army, and the new rifle, of which we give illustrations, has now been issued to a portion of the troops. There was, of course, some mystery attending its introductiona mystery originating in the fear of other nations that they had not such an effective weapon. Some insisted that it was to be an automatic rifle, the like of which for rapid deathdealing had never been seen before The rifle, however, is now quite well

MAGAZINE CONSTRUCTION OF THE NEW GUD FOR THE GERMAN ARMY. known and there is no particular mystery about it. It is an ingenious and splendid weapon, of the same calibre as its predecessor (7.9 millimetres), but that is the only point it has in common with it. The barrel is stronger and is built up by a succession of cylinders. The sighting is on a new principle, the sight being raised or lowered by a horizontal slide which moves along a graduated scale and is marked up to 2,000 yards. The magazine resembles those of all the rifles of the Mauser system. It holds five cartridges, which are arranged so that the depth of the magazine is reduced. The cartridge clip is loaded into the magazine from above; the The cartridge clip is loaded pressure of the thumb sending it at once into the magazine and throw-

THE SIGHT PIECE OF THE NEW GUN. has a dagger-shaped extremity, and is saw-backed. It is fixed to the rifle, as shown in the illustration, without touching the barrel or the foresight, and it does not interfere with the aim. The new rifle weighs four kilos, 100 grammes without the bayonet, which weighs 430 grammes and its extreme range is 4,000 metres. At 100 metres its bullet will pierce through 80 centimetres thickat 1,800 yards. The velocity of the bullet at 25 metres from the muzzle is 620 metres a second.

STRAW BAIL. The Curious Origin of Two Familian

The origin of the familiar phrases, "straw bail" and "a man of straw," is a most curious one. It dates back two thousand years when the practice of entering worthless bail was common. The exact methods, however, have not been transmitted posterity, but in several old English works is to be found reference to them. In one of these-Fielding's "Life of Jonathan Wild," the thief-

catcher-we read that Jonathan's aunt married a man "who was famous for so friendly a disposition that he was bail for above a hundred persons in one year. He had also the remarkable honor of walking in Westminster Hall with a straw in his

It seems that at one time when English lawyers wished to procure witnesses with elastic consciences, or men who would go bail for their clients, they went into Westminster Hall, into which the principal courts of law opened, and there would quickly recognize the men they wanted by glancing at their shoes, from which protruded a straw or two, indicating their calling. Be of this trade mark, so to thus speak, these professional witnesses or bail-goers became known as "men of straw" or ones who were willing for a consideration to enter "straw

The best trees to plant for for-estry purposes depend largely on lo-cation and the character of the soil. Black walnut, butternut, wild cherry, curly ash and bird's eye maple are all valuable woods for making furni-ture, For bent woods and many farm implements, elm is most in de-mand. For railroad ties, telegraph poles, spars and masts, the sweet chestnut, Scotch larch, alianthus and eucalyptus are good. Oaks and hickories are slow-growing trees, but may be planted among other varieties to be thinned out for hoop poles, while the main plantation is allowed

is always found in a bottle of Polson's Nerviline, the best household
liniment known. It cures rheumatism,
neuralgia, toothache, headache, sickstomach, in fact is good for everything a liniment ought to be good
for. Mothers find it the safest thing
to rub on their children for sore
throat, cold on the chest, sprains and
bruises. Never be without Polson's
Nerviline. It will cure the pains and
aches of the entire family and relieve
a vast amount of suffering every
year.

INSURANCE FUR UNUGGISTS Protected From Blackmail and Mis-takes in Mixing Drugs.

One of the latest things in the fidelity and casualty line is to insure druggists against what is called the wrong prescription man. For \$15 or \$25 a year several companies down town guarantee druggists against damages arising from mistakes in compounding drugs. One of the most successful of these companies has 950 chemists of New York, Jersey City, Newark and New

Haven on its list of subscribers.

The idea of insuring druggists against loss from their own mistakes originated in the belief of a number of leading pharmacists that they were the victims of a gang of rogues who made a practice of pretending that wrong medicines had been given to some member of their families, sometimes with serious results. The gang was partly broken up by the fidelity company which first assumed the responsibility of protecting druggists at \$5 a year each. An officer of this company says that there are fully 1,000 mistakes a year in the compounding of

"While there are so many genuine mistakes," he continued, "there are many alleged errors in mixing medicines, and some of the complaints are invented for the sole purpose of extorting money from the retail druggists. Our company guarantees to pro tect druggists against themselves, but our main desire is to prevent fraud on the part of those who want to black mail one of our clients for something he has not done.

"It is a serious matter to make a mistake in mixing drugs, but it is frequently even more serious to the druggist to have it noised about that such a mistake was made. I have known chemists to be forced out of business by the publicity given to the fact that they made a blunder. Dishonest persons have recognized the fear that druggists have of an exposure of this kind and have taken advantage of the knowledge.

"Since we undertook to protect them number of druggists have confessed to paying big sums to persons who said mistakes were made. I have the names of balf a dozen so called doctors who have aided an east side gang that was engaged in the business of bleeding

"Still, there is nothing really remarkable in this protection of druggists. For instance, we have a special insurance for saloon keepers, guaranteeing them against financial loss through be ing locked up for violation of the excise law."-New York Sun.

Doing His Best,

.Mr. M. B. Thrasher, a friend of Tuskegee institute and its pupils, says that he once made inquiries about a certain graduate, a shopkeeper in Alabama, who seemed to be doing a thriving business.

"What kind of a man is this Wood. the colored merchant down the street?" he asked in the store of a white man, judging that there if anywhere he might hear an unfavorable opinion. The merchant supposed Mr. Thrasher to be a traveling salesman and answer

"You can sell him any amount of goods. He'll pay for them every time." Then Mr. Thrasher went on to the store, where he found everything in the most prosperous condition. In the course of his talk with the merchant they stepped to the open back door, and there Wood began calling: "Suke, suke, suke! Ho, there, suke!"

Then there came a grunting underneath the floor, which was raised a little from the ground, and presently there came crawling out an enormous

"That's my hog," said the merchant. "I raise one every year, though there's no reason why I should, for I'm not married, and I don't keep house. I raise them as object lessons. It does not take much of anything to feed them, except the waste from the store,

and see how fat they grow! "Then I get the negro farmers who come here to trade to look at my hog and see what can be done by keeping the animals shut up and fed instead of letting them run wild. Then I tell them they might as well have hogs like mine as their thin razorbacks. All they need do is to shut up the pig in a pen of rails and set the children to gathering acorns for him.

"I can't start a school here," he con cluded. "I tried that and failed, but I can at least teach the farmers how to raise hogs."

Foreign Musicians.

The Musical union has raised its admission fee in the hope that this action may do something toward checking the increase in the number of or chestral musicians in the United States. Not only does the increase of native musicians yearly tend to make the supply much greater than the demand, but there is never a visiting orchestra that does not leave behind it a certain part of its forces. The Banda Rossa, Strauss' orchestra and an orchestra that came here with an opera company all left some of their members behind them, and it is not in the least unlikely that the same thing will happen when the Leipsic orchestra, now on its way to this country, decides to go home.

Sometimes the players are under contract and must return to Europe, but they generally come back to the United States as soon as the opportunity offers. It is to prevent this too rapid increase that the union has raised the initiation fee, because without being one of its members no musician can readily find employment here. In spite of the excessive supply of which they complain, musicians are still so much better paid in this country than in Europe that it will be many years before their emigration to this country comes to an end .- New York Sun.

THE REVIEWER.

In the last hundred years Turkey has lost about half of its territory. This looks as if somebody had been using the Ottoman to walk on. - Philadelphia

Times. How times have changed! It is said now that the lazy Indian is a menace. There was a time back in the early sixties when a lazy Indian would have been considered a godsend.-Minneapolis Jour-

The fight the Boers are now making is hopeless, however heroic it may be, and to prolong it is but to add to the Boer losses without any ground to hope that the British will ultimately be defeated .-Denver Republican.

The Canadians have vainly tried to get a measure of reciprocity, but now they are getting something almost as valuable from the overflow of surplus American capital in the development of their re-sources.—New York Commercial Adver-

Of the \$268,000,000 deposited in the savings banks during 1900 perhaps fully one-half represents deposits of men of wealth divided among several of these institutions for the purpose of avoiding taxation and pending investment in some profitable way.—Brooklyn Citizen. The latest cure for excessive fat-the

eating of cold food-may confidently be accepted as effective. Habitual cold lunches will put a man under ground as surely as anything, and there is no more certain way of reducing the most corpulent to a skeleton.—Providence Journal. Commerce is destined to be a great neacemaker. There is a growing impres sion among the wise ones of Europe that

the nations of that part of the world must quit shaking their fists at each other and get down to business or the United States will steal their trade away.-Minneapolis While Connecticut is trying to adopt

the whipping post method of deterring husbands from beating their wives Rhode Island is trying to amend her divorce laws so that wives cannot so easily slip out of the control of their husbands, and thus does the pendulum of reform in New England swing back and forth and make no progress.—San Francisco Call.

Much money has been expended in vain effort to kill out the Canadian thistle. It has now been discovered that the fiber of the same can be used in paper making and, for that matter, in the manufacture of cloth. Instead of trying to eliminate the thistle, why not cultivate it? Possibly then it might disappear, very much to the chagrin of the would be

PEN, PENCIL AND BRUSH.

Anthony Hope is not in good health and is restricting his engagements as much as possible. He continues to write, however, in spite of his illness.

William Jonethan Neidig, a young San Francisco journalist and short story writer, has been made a member of the facul-ty of English of Leland Stanford university, from which he was graduated in 1896.

Frederic Harrison says that Englishmen are agreed in regarding Herbert Spencer as the greatest living man of le ters. The philosopher is now 83, and his mind remains singularly clear for his

years. Sir Laurence Alma - Tadema, best known as a painter of pictures, decorated recently a set of china which the Dutch colony in London gave as a wedding present to Queen Wilhelmina. Tadema was

born in the Netherlands. Herbert Spencer's "Autobiography" ex tends to two volumes and is in print, but will not be published while he lives. He is an octogenarian, but looks ten years younger. It is said that he does not contemplate any further revision of his

When Tennyson was nearing 60 years of age and his fame might fairly be assumed to be worldwide, Edward Moxon the publisher, decided to approach Gustave Dore and commission him to illus-"Idylls of the King." Dore had considered the proposal he ask-ed, "Who, then, is this M. Tennyson?"

EPIGRAMS OF A NOVELIST.

Patriotism no longer means love your country. It means hate your neighbors. Deathbed repentances should be followed by deaths. Life tries them too London is Piccadilly and the park, or it

is nothing. To live in London one must be born rich or die dishonest. What is the house of lords but a monkey house-all these brand new peers, these brewers and bankers, aping the old feudal lords, mimicking their mediæval

militarism? Modern battles are won by brain, not by brawn. The future Napoleon will be a paralytic chess player carried about the field on a water bed.—"The Mantle of Elijah," by I. Zangwill.

HOUSEHOLD HINTS.

To clean gilded frames, wipe them gently with a fine cotton cloth saturated with sweet oil. Laces and other delicate trifles should

be placed in a muslin bag before being boiled. This prevents their getting lost and torn in the wash. If machine grease gets upon washable fabric it may be taken out with washing soda and cold water. Apply the soda to the spot and wash it in the water. Then

wash it with soap and water.

To restore ivory knife handles which are stained, damp a rag slightly and with it apply a little salts of lemon to the Wipe with a damp rag and then polish with a soft duster.

CURIOUS CULLINGS.

Elongated ear lobes are considered a mark of beauty in Borneo. Girls with this feature reaching down to their elbows are not uncommon. William Wombwell, aged 70, and Catharine Heley, aged 57, jumped over a broomstick at Cowle, near Doncaster, England, recently and thereupon became, according to Romany custom, man and wife.

Paine's Celery Compound

Releases Women of all Ages From Ailments Pecul ar To Their Sex.

A truly wonderful work is done by Paine's Celery Compound for young Paine's Celery Compound for young and middle-aged women as well as for women of advanced age.

Paine's Celery Compound in the past has brought vitality and new life to nale, weak, nervous, despondent and

nas brought vitality and new life to pale, weak, nervous, despondent and discouraged women. The great medi-cine has the same blessed power to-day upon women's weak and peculiar organism; it is woman's friend and health protector in the home, always sitte and metalling.

sure and unfailing.
In spring-time, when the ailing and suffering use Paine's Celery Compound the nerves and blood quickly feel the magic power of the great medicine, and new, fresh vitality is imparted, irregularities and functional disor-ders are corrected, digestion is perfected, sweet sleep and rest are assured, the face glows with health and the eyes sparkle. Mrs. W. Wigglesworth,

Liverpool, N. S., says:

"For fifteen years I suffered from nervous diseases and other serious troubles. A lady friend recommended ne to use Paine's Celery Compound, and I have since received great benefit. Paine's Celery Compound has done what no other medicine could do for ne. I can sleep well now, and my appetite is splendid. I advise all who are sufferers from nervousness and other diseases to use it. Seven bottles restored my health wonderfully.

Whatever is in any way beautiful hath its source of beauty in itself, and is complete in itself; praise forms no of it. So it is none the worse nor the better for being praised.

Between the ages of fifteen and forty-five, the time when womanhood begins and motherhood ends, it is estimated that the aggregate term of woman's suffering is ten years. Ten years out of thirty! One third of the best part of a woman's life sacrificed! Think of the enormous loss of time! But time is not all that is lost. Those years of suffering steal the bloom from the cheeks, the brightness from he eyes, the fairness from the form. They write their record in many a crease and wrinkle. What a boon then to woman, is Dr. Pierce's Favor-Prescription. It promotes perfect re-gularity, dries up debilitating drains, heals ulceration, cures female weak-ness, and establishes the delicate womanly organs in vigorous and perma-nent health. No other medicine can do for woman what is done by Dr Pierce's Favorite Prescription.

Time is a sort of river of passing events, and strong in its current; no sooner is a thing brought to sight than it is swept by and another takes its place, and this, too, will be swep

Putnam's Corn Extractor

Doesn't lay a man up for a week but quietly and surely goes on doing its work, and nothing is known of the operation till the corn is shelled. Plenty of substitutes do this. Some of them are dangerous, no dange from Putman's except to the corn. At all druggists.

How much time he gains who does not look to see what his neighbor says, or does, or thinks, but only at he does himself to make it just and holv.

To cure a colu in a signt-use Vapo-Creso ene. It has been used extensively during more than twenty-four years. All Druggists.

Drugging Will not Cure Catarrh

Doctors say so. Victims of snuffs, ointments and tablets tell the same story. Catarrh is a germ disease. The germs excite disease in the lungs, hroat, nasal passages, and bronchial bues. Germs are hard to get at, but destroy them and you cure the disease How can it be done? By carrying pow-erful medication with the air you breathe direct to the diseased parts. You must be sure, also, that the medication will kill the disease germs. Catarrhozone is guaranteed to do this, that is why it has created such a sensation in the medical world. Yoy simply breathe Catarrhozone; it destroys germs—it heals—in a word it cures. Now you know everything about Ca-tarrhozone, except what you can learn by using it. Catarrhozone never disappoints, and is guaranteed to cure Catarrh. Price \$1.00; Small size 25 cents, at druggists or Polson & Co., Kingston, Ont.

Look to the essence of a thing, whe ther it be a point of doctrine, of practice, or of interpretation.

Gentlemen,-While driving down very steep hill last August, my horse stumbled and fell, cutting himself fearfully about the head and body. I used MINARD'S LINIMENT freely on him, and in a few days he was J. B. A. BEAUCHEMIN. Sherbrooke.

No wreck of friendship can destroy its high ideals, or take from him who was true in it the gain of his own soul of unselfishly striving to be a friend. -H. C. Trumbull.

Minard's Liniment - Lumberman's

ASSIST NATURE. You have been told to "hitch your wagon to a star"—that Nature will assist you. That's all right. There are times, however, when you should assist Nature, and the spring is one of these times.

Nature is now undertaking to cleanse your system — if you take Hood's Sarsaparilla the undertaking will be successful, and your com-plexion bright and clear.

Ask for Minard's and take no other.

USE THE SAME WIRE.

TELEPHONE MAKES TROUBLE FOR WOMEN OF SUBURBANVILLE.

Mrs. Onering and Mrs. Tworing Agreed on the Subject of Butchers, but When Each Discovered Who the Other Was Everything Was Off.

Since telephones on party wires were introduced in Suburbanville there has been a very thorough readjustment of old feuds. The party wire system permits three or four telephones on the same wire. Every telephone bell on this wire rings at the same time. The special one that is wanted is indicated by the number of times the bell rings. Each subscriber on a party wire quickly acquires a decided contempt, if not hatred, for every other subscriber on the same

wire. Suburbanville's social lines were for merly marked by membership in church congregations, in some one of the dozen or more whist clubs and lastly by the butcher who supplied the family. Mrs. Smith wanted to invite a dozen con genial women to form a whist or bowl-ing club, she sorted out on her list the women who patronized the same butche

and went to the same church.

Since the party telephones have been put in it has made the problem of colecting a dozen congenial women so com plex that it would puzzle a graduate in double entry bookkeeping. Not only must the hostess bear in mind the con-gregation to which the women belong and the butchers whom they patronize, but she must be sure not to bring together two women who use the same party wire. Such a disaster happened last week.

Mrs. Onering had never met Mrs. Tworing, though their telephones were on the same wire. When Mrs. Tworing's telephone was put in, she thoroughly enjoyed the novelty of calling up all of her friends who had telephones a dozen times a day. Mrs. Onering had become accustomed to her telephone, and the con-tinual jangling of Mrs. Tworing's calls annoyed her. Several lively skirmishes

followed over the wire.

One morning when Mrs. Onering was anxious to telephone for a cab to catch a certain train she waited for Mrs. Tworing to get through telephoning until her patience was exhausted. Then she broke in on the wire with the request: "Won't you please give me a chance to

call up the livery stable? I'm in a hur-"Are you, indeed?" said the voice.

"Who are you?"
"I am Mrs. Onering. Who are you?"
"I am Mrs. Tworing, and I shall complain to central that you have been lis-"Well, then, I will tell central that I

can't help listening because you are using the telephone all the time. I have as much right on this wire as you have." "Comes from having ill bred persons on the wire, and"-"People who never had a telephone be-

"I'll complain, and"—

"I won't stand it a"-"Such impertinence!" Bur-r-r-r, and both telephones rang of at the same time. It so happened that Mrs. Onering and Mrs. Tworing did not know each other by sight. They were both guests at a Helping Hand social and, happening to be seated together, they opened conversation without the

They agreed beautifully about butchers, and each wondered why she had not hap pened to meet the other before. Then they came to the subject of telepho "I find my telephone a great convenience," said Mrs. Onering, "but I have the most disagreeable people on it. One woman has just had her telephone put in, and she works it to death. She has been telephoning all this last month. I

think I will apply to have my wire changed. I can't stand it." "That's just my experience," said Mrs.
Tworing delightedly. "There is the most impertinent woman on my wire. I know from her voice that he wire. her voice that she is a perfect fright. She is so curious that she listens whenever I use the wire. If one could only chase the other subscribers on her

many common experiences made Mrs. Onering and Mrs. Tworing very chummy, and each was just about to invite the other to call when the hostess

came up and said to them: "Why, I did not know that you two people knew each other."
"We have just scraped an acquaint ance," said Mrs. Onering, "and I wish that you would introduce us formally."
"Certainly," said the hostess. "M

Onering, I want to present a neighbor of yours, Mrs. Tworing." "Tworing, did you say?" asked Mrs. nering. "Yes, I remember the name Onering. "Yes, I remember the perfectly. So sorry, but I must be going perfectly. Have had a lovely afternoon."

done so," said Mrs. Tworing.
"Why, I thought that you were getting along beautifully," said the hostess.

"Her telephone is on my party wire and she bothers me very much Mrs. Tworing and Mrs. Onering pass each other on the street as strangers, and when they conflict in using the telephone each treats the other with frigid polite-

many hostesses in Suburbanville have had similar awkward experiences that they have now applied to the tele-phone company for a classified list of the party telephones in use, so that two wo-men who use the same wire may not be invited at the same time,-New York

Beauty Requires Sleep. Nearly all the great beauties of the world have testified to the value of sleep. Under its influence every muscle is relaxed and all care dispelled. The heart beats slower, gaining new vigor for the waking hours. A midday nap, if only for a few minutes' duration, is wonderfully refreshing, and it is generally conceded that sleep during the earlier hours of the night is far more beneficial than that obtained after midnight.—Maude C. Murray-Miller in Woman's-Home Companion.

For breakfast take as many banana as are required, cut a small piece of the peel from each end and cut two or three gashes in the peel. Put them in a baking pan and bake them from 15 to 20 minutes in a quick oven. Lay them on a hot platter. In eating them baked in the peels, split them lengthwise and take the pulp out as you would that of a baked potato, using cream and sugar on the

Work In the Caisson. It is the strain within the bowels of the working chamber, unnoticed generally while there; the change on com-

ing into the outer air that the sand hog (the workman) dreads. Under an air pressure the blood is forced away from the extremities. It is driven from the exterior into the central organs, especially toward the brain and the spinal cord. The man, exhausted by toil under

these conditions, climbs a long ladder. He is in the airlock again, with the upper door alone closed. The lock tender jerks up the bottom door. With a twist of the valve he hustles the compressed air out. The ordinary atmosphere rush es in. The upper door is thrown up, and God's sun and air come to the prisoner, The reaction is too severe. The blood, released by the sudden vanishing of 30, 40, 50 pounds of air pressure on each square inch of the body, refuses to act normally. Heart and lungs weaken, vitality ebbs. A sand hog is never sure that the next trip may not be his

The practical limit below ground is 50 pounds of air pressure. The men that can work in that atmosphere are masters of their trade. Yet now and then a man is met with who has the strength to go farther.

NO BONUS FOR THE FARMERS

Who May Go Into the Growing of Sugar Beets.

The Conservatives floved to That Ef fect but the Government had the Motion Rejected.

Toronto, April 11 .- In the House yesterday afternoon Mr. Boyd, of North Gray, moved in Amendment to Mr. Dryden's motion for the third reading of the bill respecting the encouragement of the beet sugar industry "that this House, while approving the main provisions of the bill, regrets it contains no provision securing for the farmers producing sugar beets a reasonable bonus or bounty upon each ton the country \$40 per ton. The Govern-ment was hypocritical in this nickel of beets produced and sold by them." not gone far enough in the way of encoruaging the beet sugar industry, which, if properly developed, would become one of the most important in the country. In New York State the bonus was one cent per apound, and provision was made that the farmers should receive at least \$5 per ton. In Minnesota the farmers received at least \$4.25, and in Illinois \$5 per ton. The Legislature thought nothing of voting away millions in a single night for railway and other purposes. not vote a few hundred thousands in

the interests of the farmers.? Mr. Dryden thought the amendment introduced a vicious principle. They might as well pay a bonus on every pound of bacon. He apprehended the farmers would say no to any such proposition. The difficulty was not in production of beet roots, but in finding the market. To do this it was necessary to erect factories. To increase the price to be paid farmers from \$4 to \$5 would tend to prevent capitalists from investing their money Mr. Whitney considered that a small amount of protection should be given to the farmer. If the manufacturer and the grower should have a quarrel the manufacturer could refuse to buy the farmers' beets and place the lat-ter at his mercy. The amendment

would commend itself to right-think Mr. Marter disagreed with his colleagues of the Opposition. If the farmer intended to grow beets, a little sum such as proposed in the amend-ment, would not be much extra inducement. To say that the farmers should be bonused was going too far. The amendment was defeated by a vote of 46 to 34, Mr. Marter voting with the government.

A MASONIC AT HOME.

The annual at home of the Thames wille Lodge No. 245 A. F. & A. M., was held in the Lodge room at Thames-wille on Tuesday evening last. The evening was such as to favor in every way the members of the fraternity. The fine weather and good roads resulted in a good attendance. The earlier part of the evening was occupied by parlor games of various games of various kinds, interspersed with musical selections. Refreshments were served at 10:30 p. m., after which the program was resured. the program was resumed. Two quartettes, consisting of Miss Sherman, Mrs. Stewart and Messrs. Sherman and Moran, hecompanied by Mrs. Davies, and Miss McPherson, Mrs. Stewart and Messrs. Horn and Davidson, accompanied by Miss Shirran re-spectively, rendered several selections in fine form, which were enthusiastically received. Me. George Boothroyd also contributed to the program by giving several selections from his phonograph. The evening was pleasantly concluded shortly after mid-

The Indian and the Northwest.

A haudsomely illustrated book just issued bound in cloth and containing 115 pages of interesting historical data relating to the settlement of the great Northwest, with fine half-tone engravings of Black Hawk, Sitting Bull, Red Cloud and other noted chiefs; Custer's battleground and ten colored map plates showing location of the various tribes dating back to 1600. A careful review of the book impresses one that it is a valued contribution to the history of these early pioneers, and a copy should be in every lihrary. Price, 50 cents per copy. early ploneers, and a copy should be in every library. Price, 50 cents per copy. Mailed postage prepaid upon receipt of this amount by W. B. Kniskern, 22 Fifth ave-nue, Chicago, Itl. a6 13 20 27.

Minard's Liniment Cures Garget in

Putnam's Corn Extractor

Doesn't lay a man up for a week but quietly and surely goes on doing its work, and nothing is known of the operation till the corn is shelled. Plenty of substitutes do this. Some of them are dangerous, no danger from Putman's except to the corn. At all druggists.

Wanted—Good, reliable salesman, to sell complete line of lubricating oils, greases and paints. Experience unnecessary. Exceptionally liberal terms. Special inducements to parties owning teams. Jewel Refining Co.,, Cleveland, Ohio, U. S. A.

MANUFACTURING RETAILERS T. & D.

Not the Ordinary Kind of

Ready=made Clothing

If you have a prejudice against readymade clothing, it's out of date, get rid of it. Come and see our ready-made garmentsnot the throwntogether cloths of the big city sweat shops—the kind you formed your opinions on. Our clothing is cut and made under the supervision of custom tailors, with as much thought and care as the average custom work.

A man who buys his ready-made clothes here is dressed—not uniformed. Variety of styles, suitable to all sizes and shapes of men have given a character to our clothing not seen in the ordinary ready-made garments.

Our stock of men's, youths' and boys' clothing for spring is now on the counters. You can be pleased here if no where else, but if you come here first you'll never go anywhere else.

Furnishings too—all the right kind.

COLLEGE The growth of this institution during the last two years has been wonderful. The attendance has been doubled on account of the thorough course of training which we give. One of our young men is now drawing a salary of \$1,800 a year; another \$900; others from \$400 to \$300. Within the last mouth two of our students have gone direct from the College to positions paying \$500 a year. WE QUALIFY OUR STUDENTS TO FILL THE BEST POSITION. The growth of this institution dur-

Young people are foolish to spend the best part of their lives learning Latin, French and the dead languages, when a few months spent in our Commercial or Shorthand Department will fit them to earn salaries like the above.

Spring term begins April 1st.

Enter and complete a three months pourse before mid-summer.

Send for Catalogue. H. T. GOUGH, Principal.
