## Great Reform Demonstration at Harriston.

### HON. MR. MOWAT'S SPEECH.

(CONTINUED.)

All sorts of false and misleading statements had been made with regard to the management of the finances. Specimens had been made on platforms and articles had been written in Conservative papers, in which it was alleged that there was nothing in the treasury, and that the surplus was nearly gone. This he need not tell them to excite alarm, and to frighten the people with the burden of direct taxation. But he could tell them that after paying out \$9,100,000 to the Municipality, and aiding railways to the extent of \$1,900,000, they had still a handsome surplus on hand, and that the statements made by their opponents were without a shadow of foundation. (Cheers.) Between the amount they had in the banks bearing interest, and the amount owing to their credit on the Government, they had a surplus of \$2,500,000. Mr. Mowat went over the items in detail which constituted this amount, and which was made up of stocks and Dominion lands, special deposits in the banks, cash to their credit in the banks, money lent to assist in the future of the Municipality, and a surplus of \$2,500,000. Mr. Mowat went over the items in detail which constituted this amount, and which was made up of stocks and Dominion lands, special deposits in the banks, cash to their credit in the banks, money lent to assist in the future of the Municipality, and a surplus of \$2,500,000. Mr. Mowat went over the items in detail which constituted this amount, and which was made up of stocks and Dominion lands, special deposits in the banks, cash to their credit in the banks, money lent to assist in the future of the Municipality, and a surplus of \$2,500,000.

it was the Government House. They all knew about the Finance buildings in Ottawa. The estimated cost of these was \$900,000 and up to 1864 the amount actually paid was \$2,337,734. (Hear, hear.) And it will take more than \$700,000 to complete them. Such being the past record of the Liberal Conservatives, he did not think the Province would be any more benefited by turning out the Reform Government, and giving the power into the hands of the Quartette. He had endeavored to give them facts as they are, to exaggerate nothing. He felt it to be his duty not to mislead, and after what he had said he thought they would see that the Government were doing their duty, that they were not unworthy of the confidence of the Reform party, and that they had not forgotten their duty to the country. (Cheers.) There need be no alarm at the fact that the departments had increased. Certainly they had, but had not the work increased? In his own department there was twice as much work now as when he took control of it, and in the other departments the increase was proportionate. In connection with this he had but run hastily over the most important subjects, and he challenged any one to dispute his statements. They had faithfully done their duty in the past, they were resolved to do it faithfully in the future, and on these grounds he asked the continued confidence of the Reformers of this County, and his thanks, and their cordial and unqualified support in the House. (Loud and enthusiastic cheers.)

A gentleman in the audience here asked Mr. Mowat who were the heads of the Orange body, and also for some information about the General Act of Incorporation. Hon. Mr. Mowat explained, as he had before, the provisions of this Act, and how under it Orange Societies could be incorporated. As to the leaders he did not know how many there were. Mr. John Hillyard Cameron was reputed to be one, and Mr. D. Taylor of Kingston was a very prominent member of the Order, but he repudiated the action of the leaders in this matter, and he would be delighted if the whole body of Orangemen followed his example.

The chairman then introduced Mr. H. Taylor of England, whom they would be glad to hear about immigration. Mr. Taylor was received with cheers, and said he was happy to be in the midst of a thinking people. He did not belong to any party in Canada, but he was glad to meet with such an intelligent body of men as were before him. He had been in this country and had witnessed some of the most magnificent spectacles for the amelioration of the masses in spite of the lords and bishops, and if the former would withdraw and the latter drop politics they (the people) would cease their agitation. But so long as they tried to keep the poverty and distress in the country, they could not be blamed if they meddled in politics. He was secretary of an Association in which were 70,000 members, who belonged to the Liberal party, because that party was in sympathy with them, while the Tory agitators had done all they could to plunge them deeper in poverty and distress. (Hear, hear.) He could tell them that these men were beginning to realize a new life—that the spirit of life and liberty was doing its work, and that that spirit which now animated their breasts could never be annihilated. (Cheers.) Our enemies say that the poor laborer is getting to be only dangerous in this way, that education is being diffused among them, and that soon they will be able to stand alone. He did not come in the character of a beggar on behalf of these men. He came on a mission which was to result in positive advantage to these men and to this country. If you would not expend £2 or £3 for your English laborer, the cost is on your side. There are 1000 good honest toilers in England whose removal to this land would be an immense boon to it and to you. The social system at home offers no encouragement to these men. Even in the land where he is allowed to go his rounds, makes more a week than they do. They are seeking for a new home, for the political economy of England is driving them away. He had his prejudices against Canada, and he felt that the long, severe winter was a drawback to migration. But he had no hesitation in saying that for the industrious man it was more preferable than at home. Other Colonies were bidding high for these men, and if Canada dealt liberally in this matter she would reap the reward. They hoped to be able to do much for these men by means of organization. He would much rather see them in a log hut with a few acres and independence than see them cringing to a lord (Hear.) If the Canadians have long winters they have not a landed aristocracy nor a hierarchy. The land system and the ruin of the old country, and the failure of the laborer, it was sometimes said "that there was a divinity that shapes our ends, &c." It was applicable to Tories in the sense that the liberal party were shaping their ends (Cheers.) It was often said that labor organizations were injurious and their members sought the country's destruction. The charge was unjust. What interest could they have in doing so? Once you get men to consider their own interests, they will look after the country's. In this respect, too, employers had something to learn as well as the men. There should be no antagonism between them and the laborer, but in all difficulties take counsel together. He wished the reform party and the Government of this country every prosperity, for they were in sympathy with the Liberals at home, and they had dealt liberally with the laborers who had come from England, who were in the country toilers, who were enriching the country, & as to themselves, and he credited to the land of their adoption. (Cheers.)

Dr. Lanierkin was next introduced, and received with cheers. He was much pleased to meet so many Reformer, and to find such an interest taken in the welfare and progress of the country. He was sure they were highly pleased with the manner in which the Premier had explained how they had administered the affairs of the Province. He had done this earnestly, forcibly, and in a judicious manner. (Hear, hear.) He referred to the remarkable progress of Harriston, and in this part of the country, much of which was due to the liberal policy of the Government in building railways. Of course a great deal was also due to the people. There was no fear of a country when

they had such a fine sample of men as were before him. He referred to the distinctive principle of the Reform party, which had been carried out in the various measures alluded to by the Premier. He denounced the policy of the Opposition for circulating and reiterating misstatements about the surplus. They set up a howl about the cost of the fence around the Parliament buildings at Toronto, while the one at Ottawa cost \$100,000, but there was no howl about it. (Cheers.) The Quartette they had heard so much about to-night, were trying to hound these men down, who were doing the best for their country, but they could see to-night that Mr. Mowat was so much to answer them in the same language in which he and his colleagues were attacked. One of the charges brought against him was that he was a Christian. He would like to know what this country would come to if there was no Christians like Mr. Mowat to rule, and if it was left in the hands of the Quartette (Cheers.) An election would soon be on, and if they were satisfied with the explanations given to-night—as he was sure they were—he asked them to give their hearty support to the Government (Cheers.)

Mr. Gibson, of North Huron, was next introduced, and came forward amid cheers. He congratulated them on the success of this demonstration, and would accept it as a good omen of success for the Reform cause in this riding at next election. Members would soon have to appeal at the great political assembly. One need not be a member of the party to be a great boon they now had was purity of election, and trial of contested seats by the judges, who know no man, and who will decide impartially. They owe this to the Reformers, for it was carried through their agitation. Conservatives never make any concessions, but at the present one, the Government was perfect, but they did the best they could, and they deserved the gratitude and support of the people for the measures they had carried. He then briefly reviewed the different measures, and showed their beneficial effects on the country. With regard to immigration, he said the winter here was no serious objection. The conquerors of the world ever came from the north. He adverted to Mr. Blake's late speech, and to the new political topics on which he had touched. With regard to the coming election, he hoped they would not be misled by the Tory agitators and local jealousies and unite to elect the best man. He had no doubt the Government would be sustained by as good a majority in the next Legislature as in the present one. He hoped that the meeting to-night was a sign of good. If the country had a man from Harriston or Mount Forest or Arthur, let them take the strongest one from some place else, and trust their local interest to a Reform Government, for he was sure they would be as safe in their hands as in those of the Conservatives. (Hear, hear.) Let them unite as one man in support of the Reform Government of Ontario. (Cheers.)

Mr. Peter Fisher, of Wingham, on being called on, said he was proud of the man who was at the head of the Government, whose character stood so high, and congratulated them on the success of this meeting.

Mr. J. P. MacMillan, of Guelph, was also introduced. He was pleased to be present on this occasion. After the able speech of the Premier, they might well feel that the Government was in safe hands. The verdict given by the Government at the Dominion elections last January was a memorable one, and the next Local elections would be no less favorable for the Reform party.

Mr. McKim followed in a few remarks, in which he referred to the benefits Minister had derived from the Government policy. For himself he thanked them for past favors and past support, and would never forget their kindness to him.

On motion of Mr. Jas. Connell, seconded by Mr. Thomas Thompson, a vote of thanks was given to Hon. Mr. Mowat and the other speakers.

Mr. Jas. Massie moved a vote of thanks to the chairman for the able manner in which he had presided over the meeting. He had often been among them at election times, and hoped yet to be able to assist them in fighting their battles. (Cheers.)

Mr. D. Yeomans seconded the motion, and said this was the largest and most respectable gathering ever held in North Wellington. He hoped that when the time came for action all local jealousies would be given up. (Hear, hear.)

The motion was carried, and also on motion of Mr. J. McMillan, seconded by Mr. Gibson, a vote of thanks to the Committee, to which Mr. S. Robertson responded.

The proceedings, which were of the quietest and most orderly character throughout, were brought to a close at eleven o'clock by the band giving God Save the Queen, after which three rousing cheers were given for the Ontario Government and the Premier.

## North Wellington Fall Show.

The Annual Exhibition of the North Riding of Wellington Agricultural Society was held at Drayton on Friday, the 9th inst. The weather was all that could be desired, and in convenience being the muggy state of the roads consequent upon the heavy rains that have fallen during the past few days. In Drayton such a scene of bustle and activity has never before been witnessed. The people from the section of adjoining country for miles around had gravitated toward the central centre of attraction, for the purpose of viewing the display of productions and manufactures which the farmers and mechanics of North Wellington were about to exhibit, and certainly no one could go away and say that the show in every department was not of the most creditable order, for a finer display at a county show it has seldom if ever fallen to our lot to witness. The only thing with which fault could be found was the rather unsatisfactory manner in which things were managed. Entries having been taken in about two o'clock on the afternoon of the show, (a practice which cannot be at all commended,) it was consequently about three o'clock before things were arranged so that the judges could enter upon their duties, and it was not until long after dark that the judging in some of the departments was finished, while some of the roots were never judged at all. This is a very unsatisfactory state of affairs and far from encouraging to those who had gone to both the show and expense in preparing articles for exhibition and we trust that the Directors will profit by the experience of Friday and not seek in the future to perform a work in one day which in order to carry out successfully would keep them busy for two days.

In the outside department of the exhibition, that of the horses is the finest. The heavy draught mares and colts although not so numerous as in former years, were very little behind them in point of quality. There are some good teams in the carriage and general purpose classes. A chestnut team of carriage horses belonging to Mr. Anderson, Registrar for North Wellington, are very fine, and carry off the red ribbon in their class. The bay team belonging to Mr. Boyle, of Peel, and which took the second prize in the general purpose class at the Central, take the first prize in the same class here. In Durham cattle there is a fair show, but some of the animals are not shown to much better advantage than they have been in a little better condition. With the exception of this fault (if such it can be called) the show reflects very creditably upon the enterprise of the farmers in this riding. Sheep and pigs are not so good as we would have liked to have seen them, sheep especially. As to these departments are good in quality the quantity is rather deficient. Little Bros. of Listowel, make a good display with their carriages. Their lot consists of a covered carriage, two single open buggies and a covered buggy. Thompson & Young, of the Drayton carriage works, also exhibit some of very nicely got up vehicles. In implements, quite a large number of our leading manufacturers have articles on exhibition. The names of Haggart Bros., Brampton; Laidlaw Bros., Paisley; Lambert, of Harriston; Thompson & Williams, Mitchell, are prominent among the exhibitors. The assortment consists of ploughs, reaping and mowing machines; iron harrows, of which there is quite a display; rollers, in fact most of the implements required about a farm. A horse or hand power straw cutting machine, manufactured by J. Flurry, the work and quality of which from the majority of straw cutters, and the exhibitor claims for it many advantages, chief among which is the lightness of draught required to drive it. R. & J. Craig, Fergus, have a number of sewing machines of Osborn, Raymond, and Gardner manufacture, on the ground. There are also several sewing machines in the inside department.

Coming into the building adjoining the Commercial Hotel, we find ourselves in the midst of a magnificent display of the produce of the farm, consisting of turnips, mangolds, carrots, grain, &c. All the samples exhibit a quality no generally good, that to particularize would be useless. Passing up the stairs to where the ladies work is exhibited, we come to one of the finest departments of the exhibition. Some of the fancy and patchwork quilts are truly marvels of beauty. This work and quality of which from the majority of straw cutters, and the exhibitor claims for it many advantages, chief among which is the lightness of draught required to drive it. R. & J. Government Seizure of Roads.

We are informed that Mr Inspector Romain has taken possession of the Dominion Government of the stone and plank roads and bridges from Hamilton to Port Dover, also the Hamilton and Brantford road, and that portion of the London road running through the Townships of Barton, Ancaster and Brantford. These roads were sold some years ago by the Government of John A. Macdonald to different individuals or companies, none of whom ever paid anything on their purchase, but collected the tolls, while they neglected to make the necessary repairs, or to lay out an adequate sum in improving them. The consequence is that for a long time past they have been in a wretched state, and are now almost impassable for travel. The Government have done right in taking possession of these roads, for which nothing has ever been paid, and we believe it is the intention to hand them over to the municipalities through which they pass, on condition that they will be put in repair, kept in good order, and that no tolls will be imposed. It is to be hoped that the Municipalities interested will take the necessary steps to acquire them, and by making them good, passable highways promote the comfort and convenience of their constituents.

FOR SALE—

TYRCATHLEN LOTS.

The Venerable Archdeacon Palmer has placed in my hands for sale the Lots in his new survey, immediately in rear of his residence and lying on the north side of Grange street. The situation cannot be surpassed in the town—convenient to Market, Post Office, Church and Schools, commanding a magnificent view of the town and surrounding country. The lots are of different sizes, and well suited for private dwellings, with a first-class soil for gardening.

Those lots on Tyrnathlen Terrace are well adapted for genteel residences, and will only be sold to those who will bargain to put up good buildings.

Plans of the Lots can be seen at my office and particulars learned.

Terms very liberal. Purchases made this Fall, interest on balance of purchase money will not commence until 1st April, next.

If desired, the lots will be pointed out on the ground.

Also, 17 other lots lying to the north of Palmer street, in Macdonald's survey, and on Queen and Arthur streets.

An early call is solicited.

**Local and Other Items.**

**TELEGRAPH EXTENSION.**—The Montreal Telegraph Company have opened offices at Aberfoyle and Morrison.

**NOT GOING AWAY.**—In Mr. Jas. Massie's advertisement of sale of household effects, on Friday last, Mr. Massie was represented as about leaving for California. It should have read "Mrs." Massie.

**GAR IS TO HAND,** with an illustration of Prof. Goldwin Smith's theory of "No Partyism." The bride suggested for the hitching-in of the various factions is the rather imaginary "bridal" of Mr. Oliver Mowat to Miss M. C. Cameron. The Prof. himself officiates, being ably assisted by Mr. Howland, of "Canada First" propensities. At Day and Anderson's.

**STILL ANOTHER.**—Massie & Campbell received the other day from the builders, J. B. Armstrong & Co., a new wagon ordered for their out-of-town trade. The van is made in Armstrong's best style, very substantial and neatly finished. We learn also that Messrs. Loch & Weir are having a wagon made for their business, and that one of Armstrong's celebrated hearse is being built for a party in Ottawa.

**THE CAB BUSINESS IN GUELPH.**—One of the proofs of the progress made in Guelph of recent years, is the increased demand for accommodation by the travelling community. Not more than three years ago there was only one cab in the town, and now there are no less than seven, besides the omnibusses which run in connection with the hotels. The latest addition to the list of hacks is that by Mr. John Ewing, Paisley-street. He has purchased from a firm in Hamilton, at a cost of over \$1,000, the cab which took first prize at the Provincial Fair. One feature of this hack is that the front portion of the body is of glass, and semi-circular in form, enabling passengers to see with ease what is going on outside. We learn that Mr. James Ewing has also purchased a new hack, which carried off the first prize at the Hamilton Central Fair.

**NEW 'BUSS.**—Messrs. Bookless & Galer, of the Royal Hotel, have given another evidence of their enterprise by purchasing, at a cost of \$750, an elegant buss for use in connection with the "Royal." It was manufactured in New York by John Stevenson & Co., who are celebrated for their excellent workmanship in the building of omnibusses and coaches for street railways. The "Royal" Buss is built in the most substantial manner, and finished with all the improvements that elegance and comfort could suggest. The outside of the vehicle is painted in white and light yellow, neatly trimmed and lettered, while the inside is varnished, and decorated with chromatic paintings. The seats are cushioned with rich material, and altogether the 'buss is such as to favourably impress travellers with the character of the house to which it belongs.

Remember the Store—THE GOLDEN LION—where the once wonderful John Hogg was, and where the now wonderful J. D. WILLIAMSON is. Although unprincipled men have been trying to impose on the people that the Lion has been moved up street, the Lion is still in the old spot, next door to Mr. John Horsman's, Lower Wyndham street. Where the Lion is, there the Bargains are.

**Golden Lion, Wyndham Street, Guelph.**

**THE NEW STORE**

**WONDERFUL ATTRACTION!**

**TREMENDOUS RUSH**

**JOHN HOGG**

Has now got his New Store, New Goods, and New Prices into full order, and his old Friends and Customers are pouring in to welcome him back again to serve them.

I wish it to be distinctly understood that I have no connection with any Golden Lion, in Guelph or elsewhere, as my New Store only contains New Goods fresh from the Looms. I have no old Shop-keepers' to palm off. My prices for the Best and most Stylish, fresh and New Goods are 20 per cent under the old prices charged for Stuff in the other Stores.

"DOWN WITH HIGH PRICES."  
 Twenty-one years ago I commenced a War of Extermination against long prices and long profits—and I succeeded; but, alas, on my retirement from the Mercantile business four years ago, again the thirst for long prices and long profits began to show Signs of Life, and has continued up to this present time.

But, lo! what a Commotion there is now in the Camp of long prices and long profits, and well may there be that Commotion, because the WONDERFUL JOHN HOGG is up and at it again.

**CLEAR THE TRACK!**—Look at the immense throng about his Store. The Public appreciate an ENTERPRISING man and support him.

Call at once at the New Store, Upper Wyndham Street, Guelph. Ask for John Hogg himself, as many who would like to be John Hogg do not hesitate to deceive strangers enquiring for that Wonderful Man.

All branches of the business carried on.  
 Tailoring done to order. The finest assortment of all kinds of Coatings, Vestings, and Trouserings in the Dominion.  
 Ready-made clothing in Men's, Youths, and Boys' sizes, 25 per cent under anything in Guelph.

My general Stock of Goods is stirring up the Slow Coaches and making them open their eyes, saying "Hogg is losing Money."  
**REFORM,** not only in the high prices charged, but in the quality of Goods offered to the Public.

The Public may at all times feel safe while I am in the business. I shall keep a watchful eye not only on the character of the Goods offered but on the prices charged.  
 Yours Truly,  
**JOHN HOGG.**

PAYSON'S INDELIBLE INK is indelible still; it is plainly written on the minds of the public; after forty years' test it still holds its own and is the only reliable and standard marking ink in existence. It is used with a common pen for marking linen, silk and cotton, and will not wash out.

#### Special Notices.

THE GREAT SUPERIORITY OF DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATE AND CALCEA consists in its being purely physiological in its action in restoring all forms of debility by supplying the waste of tissues resulting from mental and muscular exertion, and thus preventing nervous prostration and general debility. For building up constitutions of low vitality from scrofulous, or constitutional diseases, or impaired by dissipation and bad habits, it is unequalled, as it immediately imparts energy to the digestive apparatus and eventuates in healthy blood, toning and vitalizing all the organs of the body in the same manner as our daily food. These elixirs are the only compounds of Phosphorus assimilated by the system, and are Nature's agents for maintaining the vital powers.

The Simplest, Cheapest, and Best Marking Apparatus in the World

For Marking COTTON, SILK, WOOLEN, and LINEN, is PAYSON'S INDELIBLE INK.

Used with a Common Pen without a preparation.

This ink flows perfectly; will write as easily on the finest tissue as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's Ink has endured the test of forty years, and is now the most popular ink in existence, and is unrivalled for uniformity of quality and durability. It will mark more neatly, quickly, and indelibly than any other apparatus. It requires no preparation of the fabric.

PROTECT YOUR BUILDINGS

Which may be done at one-fourth the usual Expense, by Using

Glines' Patent

SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

against Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated Roofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS NOR SCALES. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheeting Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle roof, or over 400 of tin or iron. No Tar is Used in this Composition, therefore, it does not effect the water from the roof, if turned off from the eaves before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a very Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least, one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaired.

Orders Respectfully Solicited.
