SQUIBOGRAPHS.

The early gardener gets the early corn, on his digging foot.

The new speaker of the Ontario Legislature is an old drover, and any member caught making a bull will be promptly scolded.

The furnace that was burning low is now once more all in a glow.

We thought the winter was over quite but had to order anthracite.

Ladies who put moth balls in their furs, thinking the season was over, are now playing after the ball.

Since the recent thaw several varicose veins have been discovered in Cobalt.

The labor union sentiment is pretty strong in Toronto. Some of the bricklayers are objecting to the laymen taking part in church work.

The employees at the summer resorts are busily engaged scraping the ice off the electric fans.

There is only one thing the Grits and Tories agree on without any discussion, and that is a salary grab.

There is a discussion on in the U. S. as to what President Roosevelt should do when his present term expires. It has been suggested that he take the big stick and beat the Liar's Trust into pulp.

The Government has declined to issue a liquor license in Cobalt, but this will not interfere with options on mining propositions.

The big league baseball season opens this week, and the mayor of the home city will have the privilege of shying the first snow ball at the umpire.

The agitators who are advocating the secession of New Ontario had better have a care. Hon. Mr. Beck might take a motion to attach a nozzle to Niagara Falls and squirt cataract juice into their eyes.

President Hill, of the great Northern, states that his road will be extended farther north than any of the proposed Canadian lines. It is possible that the Arctic circle may yet be used as a round house.

After spending forty dollars in coal keeping a twenty-five cent geranium from freezing all winter, it is tough luck to have it nipped by an April frost.

Having sailed the troubled sea of politics for over a quarter of a century Sir Wilfrid should not have to shift his ballast crossing the Atlantic.

London was always a slow town. A man was sunstruck in that city last July and never felt the effects until the January thaw.

The Alberta Legislature contains one statesman who will never contract the hay fever. He introduced a measure to restrain grasshoppers from perching on the rails while trains were passing.

The Legislature has passed an appropriation of five thousand dollars to provide the public schools with Union Jacks. As heretofore the scholars will have to provide themselves with jackstones.

There is a difference between house cleaning and cleaning house. A frail woman with a scrub brush and a dust cloth can clean a house, while it takes three or four big policemen to clean out a thròge house.

LOCAL HAPPENINGS.

CHILDREN'S corset waists for 25 cents, white.—SWIFT'S.

Go to R. Haskett's for your flour, corn, bran and oats.

THE Thaw case went to the Jury Wednesday evening.

THE recent cold snap has given seeding operations a set back.

J. MCKERCHER has bought out the harness stock of G. L. Bryce.

ANOTHER shipment of government inspected choice seed just in at R. Haskett's.

MRS. JAKE WILSON, of Wardsville, is dangerously ill, supposed to be caused by eating canned meat.

AN accident to the engine put the electric light out of service for a couple of hours Saturday evening.

P. DODDS & SON have opened two import crates of dinner, tea and toilet sets, choicest patterns, import prices.

THE Rev. S. W. Muxworthy and Rev. Mr. Conway, of Kerwood, exchanged pulpits on Sunday morning last.

THE steamer Huronic, which is being fitted out at the G. T. R. wharf, Sarnia, will sail for Lake Superior about April 22.

MR. MCINTOSH has taken a situation in the blacksmith shop at the wagon works and will remove from Rodney to Watford.

If you require any new dairy utensils, or if your o'd ones need repairing come and see us.—T. DODDS.

THE Star Line Steamer Owana is now making regular trips to Detroit, leaving Sarnia every morning except Monday at 7.30 Sarnia time.

MR. Thos. Crawford, member for West Toronto, has been elected Speaker of the Ontario Legislature to succeed the late Mr. St. John.

THE bill to amend the Assessment Act provides for the taxation of mineral rights, where these have been reserved in the sale of lands.

WELLINGTON SMITH, one of the oldest and most popular conductors on the Grand Trunk system, died at Brantford, Ont., Thursday night from a stroke of paralysis.

BOY'S stockings for hard school wear, we have them.—SWIFT'S.

A MEETING to consider the organization of a bowling club will be held in the Fire Hall at 8 p. m. on Monday April 15th. All interested in this popular game are invited to attend.

THE weather for the past week has been cold and unseasonable. The roads are frozen hard and rough. Farmers fear that the weather will have a bad effect on the wheat crop.

OUR stock of general hardware is complete and we will be pleased to fill your wants for anything in this line.—T. DODDS.

THERE was good skating and a hockey match at the local rink Wednesday, April 10th. This is something unusual in this latitude and is probably a hockey record for Western Ontario.

In removing the large pane of glass in front of the Sterling Bank, which has been cracked for some time, the glass was badly shattered. An expert from London superintended the removal.

CHIEF SHAW celebrated his fifty-seventh birthday on Wednesday, April 10th, and General Booth having seen the light in the same day, but the General has twenty-one years the start of the chief.

SMALL boy's tweed suits, special price to clear \$1.00 to \$1.50, worth double the price.—SWIFT'S.

MRS. NEWELL pleasantly entertained her Sunday School class on Tuesday evening at a sugar party. After a feast of hot sugar a program of singing, music and recitations brought a pleasant evening to a close.

JOSEPH PHILLIPS, ex-President of the York Loan, has been assigned to the tailor shop in the penitentiary, and is at his work with needle and thread. Duncan, the Ayr bank manager, may go to the blacksmith shop.

OWING to a change in the ownership of the block in which their present hall is situated the members of Havelock Lodge, No. 238, A.F. & A.M., are looking for another location. The old hall is to be converted into a photo gallery.

E. DOWDING has a large and varied assortment of new jewelry in stock, and invites the public to view this handsome display. If there is anything in the jewelry line that you desire Dowding can supply you.

STOUT ladies' corsets, Crompton's, \$1.00 to \$2.50. Your money back if not satisfactory.—SWIFT'S.

At the High School entertainment in the Music Hall, this (Thursday) night, our talented local humorist, J. R. Jamieson, will entertain the program with the latest comedy hits. The orchestra will contribute several popular selections, and the program will be a first class throughout.

INVITATIONS have been issued for the marriage of Miss Kathleen Fleming to Reginald Vaughan Macdonald, the ceremony to take place at the home of the bride's mother, Mrs. Michael Fleming, Vidal street, Sarnia, on Tuesday, April 23rd, at 7.30 o'clock p.m.

A MEETING of the Watford curling club was held in the council chamber on Monday evening to wind up the business of the year. In order to dispose of some unfinished business, the meeting was adjourned to Friday evening in the same place at 8 p.m.

THE adjourned Easter vestry meeting of Trinity Church was held on Monday evening with a good attendance. The Rector was given a month's vacation with a grant of \$50. One hundred dollars surplus from the general fund was passed to the Building Fund.

OUR \$16.00 serge suits to order, best value in Ontario.—SWIFT'S.

HON. MR. MONTETH has made a change in the clauses relating to "speed trials" at agricultural fairs, by enacting that proceedings in which breaches of this law are charged, can only be taken against the societies by members for the current year and the year previous. This means that the question of racing at the fall fairs rests entirely with the societies themselves. If the members present and past agree that they like to see the ponies go, they may let them go without considering the opinions of outsiders.

SUMMER schools for instruction in nature study, natural training and household science for teachers and educationists will be held during the coming vacation. No fees will be charged. The principals of the Normal Schools at London, Ottawa, or Toronto will furnish particulars.

A MAN who does not take the local paper, sent a dollar for a "potato bug killer" and received two blocks of wood with the following directions—Take the block which is No. 1 in the right hand, place the bug on No. 2, and press them together, remove the unfortunate and proceed as before.

THE improving of its station properties by the Grand Trunk will be followed this year by greater activity than any previous year. It is intended to build twenty new stations, not including the proposed Union depots in Toronto and Ottawa. The total appropriation for the purpose being \$30,000.

OLD Noah hunted up a barrel stave and started off for the stern of the ark. "Where are you going?" asked Mrs. Noah. "I am going to whale that boy Ham," replied Noah with a frown.

"But, my dear, the lad is only playing on his banjo." "Yes, but it is the tune he is playing." "And what is the tune?" "Wait till the Sun Shines, Lizzie."

10 PIECES, \$50 yards Irish linen twelling, 4 yards for 25 cents.—SWIFT'S.

SARNIA and Petrolia automobile bus line will be ready for business in about a month. The new bus has arrived and has been tried. The company will also sell machines, having secured the exclusive agency for a well known make. They report that they have already secured buyers for four machines.

THE annual meeting of the East Lambton Teachers' Institute will be held in the town of Petrolia, on Thursday and Friday, May 9th and 10th. The Hon. Dr. Pyne, minister of education, is expected to deliver an address on the evening of the first day of the Institute. The evening meeting will be held in the opera house.

A RARE treat is assured all who attend the High School entertainment in the Music Hall this (Thursday) evening. It is some time since anything in the way of a drama has been attempted by local talent, and the presentation of the two act play "The Lost Loaf", by a capable company of amateurs will be of more than passing interest.

THE section men of the Grand Trunk railroad, located in Port Huron, have gone on a strike for higher wages. On March 21, they asked the company to give them an increase in wages from \$1.45 to \$1.75 a day. They gave the railroad ten days in which to decide, and when the company gave them no response to their demand they struck.

THE spring meeting of the Western Association of Congregational churches will be held in Brantford on Tuesday and Wednesday, April 16th and 17th. The officers of the association are: Rev. J. P. Gerris, B. A., president, Stratford; Rev. D. S. Hamilton, London, Secretary; Rev. W. H. A. Claris, London, Treasurer; and Rev. M. Kelly, Watford, H. M. representative.

ALF. WRIGHT, of this place, has shown us a curious souvenir of the Boer War. It is a copy of the "Mafeking Mail," published during the siege of that town dated January 15th, 1900. The Mail was printed on manilla paper and was issued daily "shells permitting."

The office was wrecked by a shell once and the editor announces that the staff is now in bomb proof quarters. The meat ration of the garrison was reduced to 3/4 lb. per week.

THE mayor of Toronto has received a letter from the Earl of Meath, 83 Lancaster Gate, London, England, addressed to the "Mayor of Ontario," suggesting that Empire day be observed municipally, and enclosing leaflets of the Empire day movement. The Earl of Meath should leave the Empire day movement alone and go to night school for the study of geography pertaining to the empire.—St. Thomas Times.

H. H. BREWER, terminal superintendent of the Grand Trunk at Toronto, has resigned to accept a position under F. H. McGuigan, now first vice-president of the Great Northern. He has been connected with the Toronto office since 1898. William McLeod, resident engineer of the Grand Trunk at Toronto, will be private secretary to Mr. McGuigan at a salary of \$3,000 a year. Mr. Kennedy, master mechanic of the Toronto terminals, it is said, is also considering a proposal from the Great Northern.

LAST week George Dale, of Wyoming, received a consignment of 180 live quail, imported from Kansas by the Ontario Government and forwarded through Mr. Graydon, Game Commissioner, London, with a view of re-stocking Western Ontario with those popular and once numerous game birds, which through various causes have become nearly extinct. Mr. Dale will liberate the birds in the most favorable localities in this vicinity for their protection and propagation and it is requested that the farmers or others upon whose property they may be found, will make every possible effort to prevent their destruction by sportsmen or otherwise, until they have increased in numbers to such an extent as to admit of a limited number being taken during the open season. The birds have been equally mated and we hope ere long to be again greeted with the once familiar note of "Bob White," throughout Lambton County.—Topic.

No change in the local markets this week.

S. STAPLEFORD handled 1400 doz. eggs on Saturday last, and they are coming in more numerous every day.

A MEETING to discuss local sporting matters for the season will be held at T. H. Willoughby's on (this) Friday night at 8 p. m. All interested are requested to attend.

WINIFRED EVELYN, the two month's old daughter of Mr. and Mrs. H. A. Edwards, died on Thursday morning. Funeral Saturday at 1 p. m. to the Watford Cemetery.

S. D. BARNES has reached Calgary on his way east from the coast. In company with Organizer Mallett they added 100 members to the Calgary Council of Chosen Friends.

MRS. CASEY (Saturday night)—"Give me yure wages." Mr. Casey—"B-but there may be some terrible microbes on it Norah." Mrs. Casey—"Faith, O'm not afeerd av thot. A microbe couldn't live on yure salary."

THE remains of the late Miss Martha McVoy, who died in Windsor on Tuesday, will arrive in Watford on the 3 p. m. train Thursday. Interment in the Watford Cemetery. Deceased was a former teacher in the Watford Public School, and a niece of Miss Jessie McVoy, of this place.

At Fingal on a recent Saturday night the church bell began to ring and some of the villagers rose from their beds, thinking it was a fire alarm. It was ringing for the janitor to get up and let the choir out as he had locked the church door while they were practicing for a concert, and were a little later than usual.

PEOPLE want a Varnish Stain that will stain and varnish furniture and woodwork without covering up or obscuring the grain of the wood. In these days of pigment varnish stains, which are in reality varnish paints, it is worth while to remember that Campbell's Varnish Stain gives a beautiful color and varnish effect without obscuring the handsome grain of natural woods. Sold by T. DODDS.

SECTION 134 of the liquor license act imposes special duties on local municipal officers, policemen, constables and inspectors, and provides a \$10 penalty in default in enforcing prosecutions. It reads as follows: "It shall be the duty of every policeman, constable or inspector in each municipality to see that the several provisions of this Act are duly observed, and to proceed by information and otherwise prosecute for the punishment of any offence against the provisions of this Act and in case of wilful neglect or default in so doing in any case, such officer, policeman, constable or inspector shall incur a penalty of \$10, besides costs, for each and every such neglect and default."

A NUMBER of clauses in the new education bill introduced in the Ontario Legislature are of special interest. One provides that the board of education in any municipality shall provide and pay for dental and medical inspection of the pupils. School boards may establish free evening lectures for the citizens at large and include the expenses in the estimate for the year. If a board estimates its expenditures for the year and a surplus is left, the city or town council shall credit this amount to the school board. Heretofore school boards have been forced to make their estimates according to the expenditures, and if any sum was left over it was placed in the next year's receipts.

PERSONAL.

F. W. Shaw, Forest, was here on business Tuesday.

Miss Agnes Rogers, Sarnia, is visiting at the Taylor House.

Miss Boodly, Sarnia, is the guest of Mrs. Dan Rós, this week.

James Hillis, who has been spending the winter with his daughter in Chicago, returned this week.

EARLY CLOSING.

The merchants on Main Street have signed an agreement to close their places of business at 6.30 p. m. commencing May 1st. During the months of June, July and August they will be open Wednesday and Saturday nights of every week. The closing bell will be rung at 6.30. This is a slight change from last year, but it is thought it will work more satisfactory.

Sudden Death of Zina Williamson.

Zina Williamson, aged 45 years, a laborer, was found dead in the barn at the corner of Sixth and Union streets, which is owned by the Boyce Hardware Co. by Chief of Police Marks Thursday evening. Mr. Marks had been summoned because the man had been taken suddenly ill, but when he arrived Williamson was dead.

Coroner Schwickert was summoned. Williamson had been in the employ of the Boyce Hardware Co. during the past winter, until a few days ago. He returned last night to get a rain coat which he had left in the barn. Al Rivers, who had taken Williamson's position, was in the barn when the latter came to the place. Williamson said that he felt dizzy and sat down on the barn stairs. Rivers went to supper and when he returned he found the man seriously ill and notified the police.

Coroner Schwickert decided upon a post mortem examination, and Friday morning Dr. Adams found that Williamson's death was caused by heat trouble.—Port Huron Times.

The remains were brought to Petrolia on Sunday and the funeral took place from the home of his cousin Mrs. Frank Wade, Wingfield St. on Monday at 2.30 p. m. and the remains were interred at Hillsdale cemetery.

Mr. Zina Williamson was a son of the late John Williamson of the East End. The deceased had a large circle of friends both in Port Huron and Petrolia, who will mourn his death. He is survived by his mother Mrs. John Williamson, Mrs. Wm. Churchill, Mrs. Wm. Crapper, Mr. Wilfred Williamson, of Chicago, Mrs. Wm. Robbins, of Port Huron and Albert Williamson, of London.

Blizzard in Saskatchewan.

Regina, Sask., April 5.—Saskatchewan today is in the grip of what probably is the last blizzard of the longest winter on record. Traffic again is at a standstill.

Farmers are clamoring for their seeders and harrows. Most of this northern implement business is handled from Regina, where all the big houses have warehouses. Unless a spell of fine weather comes before the spring floods there is every prospect that northern traffic will be interrupted in the Qu'Appelle until after seeding operations.

Live Cattle Trade.

London, April 8.—Councillor Hornby, of Manchester and Mr. W. J. Wade have just returned home from a visit to Canada, where they have been making arrangements to ship live cattle direct to Manchester. Mr. Hornby expressed a firm belief that substantial results would follow the work he and Mr. Wade had undertaken.

Killed by Express.

Strathcona, April 10.—E. J. McMillan, a well-known citizen, whose parents and family reside at Stratford, Ont., was run over by the midnight express in front of the C. P. R. station last night. Both legs were cut off, and the unfortunate young man succumbed to his injuries a few hours later. He formerly was a medical student in Toronto University.

WATFORD, APR. 12, 1907.

Shrivelling up.

The saddest sight that angels look upon is the man who shuts himself up in the good world God has made and puts in its space a few money bags. There is a man who, a few years ago, was the brightest and most generous of the circle in which he moved. He is to-day recognized as the closest and most heartless of money gamblers, and one of his former companions summed up his character the other day in the expression, "Mean as the Devil." There is the fellow, who, if he had remained a mechanic, would probably have remained a man. He succeeded in a small business, gave himself up to working it up night and day; went nowhere with his family and read nothing; to him the world about him was as a distant planet. He lost digestion, health and happiness, and to-day his wife dreads his appearance in the home almost as much as though he was a drunkard. What is business or property compared to health? What is success if it leaves you without a capacity for enjoying the common pleasures of life? What is money, if it puts a miserable, greedy, unsympathetic apology for a soul under a skin as close as wax?—Solomon in the Shoe and Leather Journal.

What Paint Will do.

I went to an auction sale the other day and I learned a lesson. I saw what appeared to be a new mower sitting out in the barnyard, after looking it over I concluded it was the old rattlebox that they had had for the past twenty years only it had been touched up with a brush full of paint here and there, and I wouldn't have known it from Adam's off ox if I had not met in the Rushbottom. A little paint does wonders. There are some vessels moored at the dock this winter that will have the nerve to go sailing this spring, and if the paint was scraped off they would go the bottom before they got away from the dock.
 But paint is alright in its paint. Many a ship, many a house, many a wagon, and many a woman are not as bad as they are painted—The Khan.

A New Railway Official.

A number of Western railways have adopted a plan which is likely to bring the managers into closer touch with the general public. An official has been appointed whose sole duty

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. Cure it with Ayer's Pills. All vegetable, sugar-coated.

NATURALLY PURE
 Beaver Flour needs no bleaching—no electrical treatment—to purify it.
 Only carefully selected grains—the choicest grown in Canada—are used. Such wheat requires no elaborate purification. It is naturally pure. This is why Bread, Rolls, Cake and Pastry—made of Beaver Flour—are so wholesome and nutritious.

will be to buy his ticket like other people and travel up and down the line in order to find out what the people want. He will keep a sharp lookout for incivility on the part of minor officials, he will hear wherein his line falls short in the opinion of the traveling public, and he will recommend to the management whatever changes or improvements he may deem necessary. This is a healthful sign of the increased importance public goodwill is assuming in the minds of those who are directing companies or operating common carriers or public utilities.

Men Require Nerve and Blood Tonics. How Are Your Nerves?

The daily grind of life burns up a man's vitality faster than he renews it. He gets shaky, starts at trifles, tosses in his sleep, is ready to fly off the handle any minute.

The nervous man is nervous because his blood is so thin his nerves are started to death. He needs Ferrozone!
 Its first action is upon digestion. It stimulates secretion of gastric juice, ensures perfect digestion, prepares the food so it can be at once assimilated. Hence the blood is nourished, is fortified made redder, richer, stronger.

To the whole organism is imparted a vim, endurance and reserve of vigor that the nervous man never knew before. The restorative power of Ferrozone is marvelous. In a month it will make you feel like new, just as it did Mr. Karl E. Newsome of Rotherham, who writes: "I owe a debt of gratitude to Ferrozone which saved my life after a severe seizure of nervous prostration. About a year ago my health gave out. I was in such a weak, irritable condition I couldn't work, and found that three doctors did nothing for me. My druggist recommended Ferrozone as the best preparation for nervous troubles, so I commenced with one tablet at meals. Every box of Ferrozone I took did me more good than the previous one, and it wasn't very long before I was strong enough to move around again. In three months I was completely cured. Ferrozone broadened my nerves, gave me a strong, healthy constitution, and is certainly a marvelous restorer and tonic."
 Try Ferrozone—sold everywhere by druggists in 50c boxes.

LITTLE GIRL POISONED. Ate Tablets She Bought at Drug Store and Dies Shortly After.

Chatham, April 5.—A sad affair occurred today in which the little daughter of Mrs. Kavanagh, of Tilbury, lost her life. Mrs. Kavanagh has been ill for some time, and this morning sent her little daughter to the drug store to get some tablets. The little one procured the tablets and on her way home ate several. Shortly afterwards she was seized with convulsions and before medical aid could be summoned she died. An inquest will be held.

House Cleaning and Colds.

Although cleanliness is admirable there is reason to believe that the house wife is answerable for a large part of the sickness in her house. Sir Lauder Brunton lately said that whenever he takes out a dust-covered book he gets a cold in his head. The dust, it appears, is laden with germs of disease. All house dust is equally infectious. Germs of bronchitis, pneumonia, consumption and a whole host of diseases are blown in from the street or brought in with the mud on boots or the dust on ladies' dresses. So long as the dust lies on the floor, or on the furniture, it does no harm. But when the cleaning day arrives it is whirled into the air with brooms and whisks, and so enters the nose and often the lungs.

If anyone were to keep count of the colds, fevers and small, he suffers from in a year, it would probably be found that a majority break out on cleaning day, or the day after. To clean a house with safety only a suction sweeper, or damp clothes should be used.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually expels worms and gives health in a marvellous manner to the little one. m

A RIDGETOWN correspondent says:—Not in years have the raspberry bushes and strawberry plants come through the winter so well as this season, and splendid yields are anticipated.

ALEX. McCUBBIN, 21 years of age, of Adelaide, was found dead in bed at the family residence on Saturday morning. He had just come home from the Forest City Business College for Easter.

CANADA'S wheat yield for 1906 averaged 27 bushels per acre, and for the last ten years it averaged 10 bushels. The ten year average for the United States was only 13 bushels.

The Legislature has passed a bill to incorporate the village of Courtright. Local option is now in force in the township of Moore, Lambton County, in which Courtright is located. The bill was reported, local option still to remain in force in the newly incorporated village.

GRAND Trunk train No. 15 on March 21 made a fast record. The train covered the distance from London to Windsor, which is approximately 110 miles, in 103 minutes, including 4 stops. The actual running time was 91 minutes. This means a speed of practically 74 miles an hour.

The Ontario Department of Agriculture has just issued a handy and useful bulletin on Insecticides and Fungicides. The immense amount of damage caused by the ravages of insects and fungous pests in orchard, garden and on the farm before them, the farmer and others interested will find this a most useful and timely bulletin. Copies may be had on application to the department at Toronto.

"CLARIBEL," called out the gentleman in a loud, rasping, and emphatic voice from the head of the staircase at 11.30 p. m., "you tell that long haired, saw-toothed, spider-legged feller in the parlor to take his hat and walk off; and if ever he comes here again I'll kick him right through his necktie!" "Alfred," murmured the young woman, pensively, "something seems to tell me we'd better part."

Now the proposal is advanced to convert the Dairy School building into a local hospital. Several of our physicians have lately inspected the building, which they claim, would make ideal quarters for such an institution, being well-ventilated, splendidly lighted and having pleasant surroundings. If it is deemed advisable to institute a hospital here, an effort should be made to induce the Ontario government to devote the building to that purpose.—Age.

If there is one thing in which churches as a rule, need to be more careful, it is the matter of presbyteral salaries. With an indifference and insensibility which we cannot understand many churches seem to think that a contract between themselves and the minister is no contract at all. They promise him a definite salary then pay him whatever is handy. The gas man, the coal man and even the caretaker must be paid, but the debt owing the minister is not looked upon as altogether righteous and proper.

Now is the time for the farmer to make his plans for the coming season. He should have his arrangements completed as far as possible, so that when the busy season comes, it may be used to the best advantage. It often happens that some of the farm implements need repairing or new ones are required. It is well to go over these outfits and know just exactly what is wanted, as it may be necessary to send away quite a distance for some new part, which may require much more time than is expected. Then there are numerous other things that can be attended to during the comparatively slack season, and thus save valuable time when the rush of spring work begins.

Pity the Busy Office man.

He feels half dead, a sense of nausea, headache and nerve strain. He is on the verge of breakdown through overwork and lack of exercise. These difficulties are best overcome by Dr. Hamilton's Pills, which do the bowels, stimulate kidneys and liver and thereby free the system of impurities.

To revitalize and stimulate your whole being, to shake off lethargy and tiredness, nothing compares with Dr. Hamilton's Pills, which do make good looks, good spirits, good health. Sold everywhere in 25c boxes.

About Departmental Stores.

The floor area of the T. Eaton store is about 23 acres and the number of employees 6,100.

The new Wanamaker store in Philadelphia when completed will have over 47 acres of floor space. It extends 250 feet on Market and Chestnut streets, and 476 feet along Juniper and Thirteenth streets. It is twelve stories high with some mezzanines and three stories below the street level. The employees in December last were 7,100.

The Marshall Field store in Chicago has an area of 3,202,894 square feet—over 75 acres—of which over 47 acres is occupied as sales area, and the number of employees runs from 12,000 upwards.

A Man of Many Titles.

The corporation of Kemptville is advertising in another column of The Weekly Advance for the man to fill the position of "Chief of Police, caretaker of Town Hall, etc." The "etc." is like a fox terrier's tail—short, but expressive. Kemptville's Chief of Police not only performs the duties incidental to that office, but also serves as caretaker of the Town Hall, Fire Inspector, Sanitary Officer, also using his spare time to shovel snow off crossings, repair sidewalks, look after dog tags, impound cattle and perform a few other little tasks. He ought to be a mighty busy man.

A Case in West Arichat.

Mrs. A. P. Ferguson a well known Cape Bretoner has cured asthma by "Catarrozone." Her statement is convincing: "Although I was troubled for years it was only recently I tried Catarrozone. When an attack started I got out my inhaler and invariably got quick relief. Feeling satisfied Catarrozone would cure, I continued the treatment till one bottle was finished. I didn't use more because I was cured and the Asthma has never returned." Catarrozone is a sure death to asthma and bronchitis. Try it and be convinced. Two sizes, 25c and \$1.00 at all dealers.

The agitation in new Ontario for secession from this Province is another case of the tail wanting to wag the dog.

The tax collector is to receive 25 per cent. for collecting the tax."

BY-LAW NO. 3, 1907 OF TOWNSHIP OF WARWICK.

A By-law to provide for drainage work in the Township of Warwick in the County of Lambton, and for borrowing on the credit of the municipality the sum of \$503.00 for completing the same. Provisionally adopted the 18th day of March, 1907.

Whereas the majority in number of the resident and non resident owners (exclusive of farmers' sons not actual owners, as shown by the last revised assessment roll), of the property hereinafter set forth to be benefited by drainage work, have petitioned the Council of the said Township of Warwick, to have the drain known as the McGillivray Sisson award drain, (being in the fourth and fifth concessions, S. E. R., from lot 5 to lot 7 inclusive), repaired under the Ditches and Watercourses Act. The drain to be known as the Sisson Local Drain. And, whereas thereupon the said Council has procured an examination, to be made by C. A. Jones, being a person competent for such purpose, of the said area proposed to be drained and the means suggested for the drainage thereof, and of other lands and roads liable to assessment under the Municipal Drainage Act, and has also procured plans, specifications, and estimates of the drainage work to be made by the said C. A. Jones and an assessment to be made by him of the lands and roads to be benefited by such drainage work, and of other lands and roads liable for contribution thereto, stating as nearly as he can the proportion of benefit, outlet liability and injurious liability which in his opinion will be derived or incurred in consequence of such drainage work by every road and lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the road and lots or parts of lots hereinafter in that behalf specially set forth and described, and the report of the said C. A. Jones in respect thereof, and of the said drainage work being as follows:—

Petrolia, Dec. 15th, 1906.
 GENTLEMEN:—In compliance with instructions received from your Honorable Body by the special examination of the drain hereafter known as the Sisson Drain situated on the easterly portion of lots 5 and 6, S. E. R., and the westerly portion of lot 6, S. E. R., and the 6-7 sideroad south of the Blind Line between concessions 5, 6, S. E. R., of your Township. Following is a more accurate description of its location: commencing at its head on the easterly side of the 6-7 sideroad 2 rods north of the Blind Line between concessions 5 and 6, thence southerly along the easterly side of the sideroad 43 rods thence westerly parallel with said Blind Line to the line between the said concessions 5 and 6, thence northerly along the westerly side of the said 6-7 sideroad 40 rods, thence in a north-westerly direction across the west of lot 6 and the greater portion of lot 5, S. E. R. It is now an open drain constructed under the Ditches & Watercourses Act and the parties interested have petitioned your Honorable Body to have it put under the Municipal Drainage Act with the request that the existing drain be repaired, be made a tile drain or partly tile and partly open. In this respect I concur with their views and would recommend that a 6 inch tile be laid beneath the bottom of the present drain following its exact course for the upper 200 rods, below which point the present drain becomes so crooked that I would recommend a somewhat straighter course for the tile by cutting off some of the shorter bends or turns and making them more gradual curves still following the present drain in this portion as well as that of the upper 200 rods to carry off fresh water.

This proposed work of tiling though a little expensive will do away to a very great extent, if not altogether with the necessity of continually repairing the open drain. I would also recommend extending the drain about 40 rods below the present end of the work, thus providing a more desirable and efficient outlet for the tile. This will carry the drain down to a point about twenty rods below the line between the 6 and 7 of lot 5, con. 5. I have chained, staked and levelled the drain in stations of 2 chains or 8 rods each for the upper 200 rods and 1 chain or 4 rods each for the lower 40 rods, the total length being 240 rods or 90 chains. Stake "0" is at the head of the drain on the 6-7 sideroad and each stake is numbered the distance it is in chains or rods and links from stake "0". Stake 100 and 70 is where it turns west across the 6-7 sideroad and lot 6, stake 94 is where it turns north along the centre of the 6-7 sideroad, stake 80 is where it crosses the Blind Line, stake 60 is where the tiling ends and stake 40 is where the open drain ends on the west of lot 5. I would recommend that a 6 inch tile be laid along the sideroad from stake 0 to 10x70 a 7 inch tile, from 10x70 to 34 and an 8 inch tile from 34 to 200; the distance to stake 80 is, the open drain below this will be 2 1/2 ft bottom width with sides sloped 1 bar to 1 vert. I have also prepared plan, profile, estimate of cost, specification of work and schedule of assessment on the lands affected, all of which I herewith submit.

SPECIFICATION OF WORK.
 The contractor is to furnish all material required and all labor necessary for the completion of the work.
 The trench for the tile is to be dug with a perfectly even grade in the bottom and to follow the centre of the present open drain from 0 to 80 1/2 and from 80 1/2 to 85 1/2 it is to follow the line of stakes to be dug on the numbered side thereof and about 6 ft. therefrom. The commissioner will set up stakes or pickets for the centre line of the trench making as gradual curves as possible in all cases and the contractor will follow these stakes or pickets for the

line of the trench. Where any abrupt turn occurs the ends of the tile shall be covered a little by sawing them in order to make a closer joint more particularly at 10x70 and at 34. The tile are to be evenly and neatly laid with close joints and in perfectly straight lines excepting where bends occur. No tile to be covered up until it is inspected by the commissioner. It is then to be covered to a uniform depth of 1 foot, where it is in the bottom of the present drain and to the full level of the natural ground, where it is not in the bottom of present drain. The earth on filling over the tile to be tramped with a medium weight pounder.
 The tile are to be of the best quality of agricultural tile and of the size shown and figured on profile.
 Build a box at the mouth of the tile for an outlet, into which the tile will empty, to be 10 feet long and 10 inches square inside made of 2 inch pine or cedar, to have a plank over the end where the tile enters with a circular hole in same, the exact size of the 8 inch tile which will be inserted into it about inches and then plugged perfectly tightly. The trench for this box to be made 2 inches deeper than that for the drain on profile so that the bottom of the inside of the box will be level with the trench for the tile. This box to be thoroughly anchored in position to the satisfaction of the commissioner.
 The open drain from the mouth of the tile to 80 to be dug to the depths shown on profile, 2 1/2 ft. wide in bottom, side slopes 1 hor. to 1 vert., with an even grade in bottom throughout.
 The earth is to be cast in the low ground and none closer than 2 ft. from the side of the drain.
 The depths or cuts in all cases are from the ground beside the stake on the numbered side thereof and to govern in the case of equal annual payments represent approximately the depth of the tile or open drain as the case may be below the present bottom. Should any error appear in the figure depth at any stake, the grade of the bottom is still to be made to conform with that shown on profile.
 All the work to be done, and material furnished to the entire satisfaction of the commissioner in charge of the work.
 I have the honor to remain,
 Your obedient servant,
 C. A. JONES, O. L. R. & C. E.

And whereas the said Council are of the opinion that the drainage of the area described is desirable, Therefore the said Municipal Council of the said Township of Warwick, pursuant to the provisions of the Municipal Drainage Act enacts as follows:
 1. The said report, plans, specification, as estimates and estimates are hereby adopted and the drainage work therein indicated and set forth shall be made and constructed in accordance therewith.
 2. The Reeve of the said Municipality may borrow on the credit of the corporation of the said Township of Warwick the sum of \$503.00, being the funds necessary for the work and may issue debentures of the corporation to that amount in sums of not less than \$50.00 each and payable within 4 years from the date thereof, with interest at the rate of 4 per cent. per annum, that to say in 4 equal annual payments such debentures to be payable at the Treasurer's office, Warwick, and to have attached to them coupons for payment of interest.
 3. For paying the sum of \$281.50 the amount charged against the said lands for benefit and the said lands for outlet liability, apart from roads belonging to or controlled by the Municipality and for covering interest thereon for 4 years at the rate of 4 per cent. per annum the following total special rates over and above all other rates shall be assessed, levied and collected for the said lands respectively shall be divided into 4 equal parts and one such part shall be assessed, levied and collected as aforesaid, in each year for 4 years after the final passing of this by-law, during which the said debentures have to run.

You Men and Women who have Irritated Bladders try "Bu-Ju" on a Guarantee.

Doctors call it Cystitis. Whatever the name, it is due to weak Kidneys. The blood is bringing impurities to these organs faster than they can filter it out. This is often deposited in the Bladder; irritates the membrane so much that it cannot retain the urine. Instead of passing urine four or five times a day, it is passed twenty to thirty times. The urine is hot and scalding, and burns like fire.
 My! what relief the first few "Bu-Ju" Pills give! They are like ice water to a parched throat. They neutralize uric acid, soothe the delicate lining of the bladder, and take away the burning pain. They strengthen the weakness—heat the Kidneys—stop that frequent desire to urinate, which is such an annoying feature of Cystitis. One man told us that "Bu-Ju" gave him the first uninterrupted night's sleep he had enjoyed in fifteen years.
 Bu-Ju is sold by druggists all over Canada. If yours should not have them, send to us and we will see that you are promptly supplied.

Mr. Jas. Dempster, Strathroy, is visiting Mr. Jordan McGillicuddy at present.

Mr. Alex. Conkey and family have gone comfortably located in their new home on the old Wilkie farm near Wisbeach.

Miss Tanner, teacher in S. S. No. 10, Warwick, has resumed her duties after spending the holidays with friends in Arkona.

Mr. W. E. Dormer left Tuesday for Eveleth, Minnesota, where he has secured a position with the Oliver Mining Company.

Mrs. Robt. Dunn, of Brigiden, has returned to her home, after spending the Easter holidays with her cousin, Mr. Archie Wiley, Wisbeach.

Mr. Wm. Lester, 2nd line, N. E. R., has recently erected a handsome lawn fence in front of his farm. It was put up by the Barnes Bros., and adds greatly to the appearance of the place.

Bert and Sid Barnes are in the wire fence business and are handling one of the best makes in the country. They are prepared to take orders and will guarantee prompt and satisfactory work. Give them a trial.

Archie S. Wiley, Wisbeach, recently sold to John McLeish & Son, West Williams, a choice young shorthorn bull to head their herd of shorthorns. McLeish & Son are experienced breeders, having been in the business for 30 years.

CONDOLENCE.

TO MRS. NELSON WILEY:
Dear friend and sister—The congregation of West Adelaide Presbyterian church has earnestly desired us to express its deepest sympathy for your sad bereavement. Our prayer is that your sorrow will be greatly lessened by the thought that your loss is shared by all who knew your late dear husband, as well as by our affectionate remembrances of his loyal fellowship among us. In your grief may you be very close to the Man of Sorrows. May you have that sweet assurance that you are not alone. In all our afflictions He is afflicted. That God who is rich in Mercy may be your stay and comfort continually in the earnest prayer of all your loving brethren in Christ.

M. A. F. LINDSAY,
A. W. AUGUSTINE,

Adelaide, March 23rd, 1907.

On the 3rd instant a very pretty event took place at the home of Mr. and Mrs. James Mellor, Birmah, when their daughter Edith was united in marriage to Mr. Joseph Doan. The marriage ceremony was performed by Rev. R. I. Hosking, Warwick, in the presence of the relatives and immediate friends of both parties, after which all present sat down and enjoyed the excellent repast prepared by Mrs. Mellor. Next morning the bridal party left on their wedding tour to Niagara and other places.

A Busy Man.

Dr. Ernest P. Crummer, the new president of Essexville, formerly of Adelaide, leads a rather busy life. Besides a good sized practice he has on his hands the duties of postmaster of the village and now will be head of the local government also. Dr. Crummer is still a young man, hasn't even reached middle age, and his activities, probably do much to keep him young. He was born in Adelaide, Ont., and although his parents, farmers, were in fairly good circumstances, they could not afford to send the son to college as there were several other children as well. Dr. Crummer did his term at hard farm labor and then, with an eye on a college career, he began teaching school. He taught several years and was then enabled to enter the Detroit College of Medicine. He graduated with high honors and established himself in Perryville, Huron county. He remained there two years and decided to move to Essexville, opening an office to years ago.

He took an interest in politics from the start but not more than he considered the duty of every man. He became well known the county over and for years gave up no time to active political duties. He served for a time as health officer and three years ago was appointed postmaster of the village.—Bay City Tribune.

Two Prominent Canadians Gone

Toronto, April 7.—Speaker the Hon. J. W. St. John died at his residence here at midnight today. Mr. J. W. St. John had been gradually sinking for the past few days. A fortnight ago he was operated on for appendicitis. The operation proved successful and it was expected that he would recover, but unfortunately complications set in which were to terminate fatally. Expressions of genuine regret are heard on all sides, as the late speaker was most popular with all members of the Legislature, as well with a large circle of friends in business and private life.

Cobalt, April 6.—Rev. W. H. Drummond, of Montreal, celebrated as poet and physician, who was stricken with paralysis some days ago, died this morning at 10:40. Dr. Drummond had been here for some time looking after his mining interests. The best of medical attendance was rushed from Montreal, and while the patient was considered a very ill man it was thought he had an excellent chance to recover.

The late Dr. Drummond, affectionately known throughout Canada as the "Habitant poet," has given to the Dominion a number of masterpieces in French-Canadian dialect verse, notable amongst them being such as "The Papineau Gun" and "The Wreck of the Jules Plante." He was the son of an officer of the Royal Irish Constabulary, and was born at Currawin House, County Leitrim, Ireland, in 1854. He went to college, however, at Bishop's Lennoxville, and took his medical degree in 1884. For 20 years he has been a prominent physician of Montreal.

Sarnia Fireman Jumps to Death.

Fireman A. Smith, Sarnia Tunnel, was instantly killed at a point between Dorchester and Patten's Siding, on the Grand Trunk, yesterday, as the direct result of the blowing out of a flue of the freight engine on which he was working. It appears that the train was going at an ordinary rate of speed, when the flue blew out and caused a considerable noise. Steam escaped and it is believed that Smith thought that the boiler had blown up, and became frightened and jumped from the north side of his engine. His head struck on a rail of the north track and he was instantly killed.

Another theory is that Smith stumbled when the flue blew out and fell from the engine.

His skull was fractured and he died instantly.

A brakeman who was in the cab was also badly scalded.

The accident, it was explained by a railroad man, was caused through the crown sheet of the boiler blowing out.

Meagre details of the accident were sent to the city and particulars as to an inquest or when the remains would be brought in were not forthcoming.

Smith's body was taken to Ingersoll, and was shipped to Sarnia last night.

Canadian Horse Show.

The first Canadian National Show will be held in Toronto on May 1st, 2nd, 3rd and 4th. This is the successor of the famous Canadian Horse Show, which is now divided into two parts, consisting of the Spring Stallion Exhibition in March and the Canadian National Horse Show in May. As it was also the thirteenth year of the Show, the unlucky number was avoided by a new organization representative of the whole province, as well as of the City of Toronto.

The show promises to be greater and better than ever and the St. Lawrence Arena, the new building erected by the City, is admirably suited for the purpose. There are no less than seventy-two classes devoted to the harness, saddle, hunter horses and ponies and the sum of \$7,000 is distributed.

First to Die in Office.

Hon. Mr. St. John is the first Speaker to die in the Ontario parliament, or in any parliament of Ontario or Upper Canada preceding confederation. Sir James D. Edgar, who died in July, 1899, was the only Speaker who died in the Dominion house since 1857. In the British house of commons no Speaker has died since Speaker Williams in 1788.

Mr. St. John's death is the third in the present legislature, Harry Carscallen, Hamilton East, and George N. Kidd, Carleton, having passed away during the last twelve months.

A Rich Strike.

The Amalgamated Oil Company, of Petrolia, finished on Friday a well in the Tilbury fields. Oil was struck at the depth of 1370 feet, 19 feet higher than the surrounding wells. This well threw a steel line fifty feet higher than the 72 foot derrick, and now is producing 100 barrels a day. This is the second well struck on the J. Cooper farm. The Petrolia Amalgamated Co. are the only operators from Petrolia in the Tilbury fields.

Prospective Bride Refused.

Hamilton, April 10.—After having spent \$400 in search of a bride, Smith H. German, a well-to-do farmer of Southey, Sask., has started for home. He came here in reply to a letter sent by a young lady of this city, who had promised to become his bride. Their correspondence previously had arisen through an advertisement in Eastern papers, in which German expressed his willingness to wed. When he came to the city, however, the prospective bride refused to have anything to do with him, claiming that the whole thing was a joke.

Farmer Poisoned His Own Cattle.

Provincial Inspector Rogers, who has returned from Barrie, has reported to the Attorney-General's Department a strange and interesting result of his investigations. Totten A. Hastings, a well-connected young farmer at Innisfil township, south of Barrie, was found to have been engaged in the remarkable and unprofitable business of poisoning his own cattle under the pretense that it was done by unknown parties. The whole community was much aroused by the doings.

Mr. Rogers found that some time ago, however, a steer had wandered on the Hastings property and had been killed and sold. When the owner discovered the circumstances Hastings sent him \$30 by anonymous letter, and, still fearing the consequences, took this remarkable way of convincing his father that he was surrounded by enemies and must sell the farm and leave.

It is felt that Hastings has already experienced remorse enough and he will not be prosecuted.

Robert Ruddick, of Marthaville, has purchased from James Gould, of the 13th con., his farm of 100 acres, for \$3,600. This is comparatively a new farm, with modern buildings.

ACTON-HIGGINS.

Most interesting was the event which took place on the morning of Saturday, April 6th, at the home of Mr. and Mrs. David Higgins, 6th line, S. E. R., Warwick, the occasion of the marriage of their daughter, Miss Sarah Catharine, to Mr. R. Frederick Acton, of Alvinston. Precisely at 10.30 the opening notes of the wedding march, played by Mrs. Jos. Owens, of London, sister of the bride, announced the hour appointed for the ceremony which took place in the parlor under a pretty arch of white and green, the Rev. S. W. Muxworthy, pastor of the Methodist Church, Watford, officiated. The bride, who was unattended, entered the parlor leaning on the arm of her father, by whom she was given away. She was attired in a dainty gown of mercerized silk net over white silk with girdle of same velvet and shower bouquet of smilax and lilies of the valley. After the ceremony the principals and guests, numbering about thirty, enjoyed a recherche wedding repast, the table and dining-room being prettily decorated with smilax and sweet peas. The groom's gift to the bride was an exquisite cut glass water set. The bride's going away gown was of banana Panama with pearl grey hat to match. Mr. and Mrs. Acton left Kingscourt Jct. on the 2.25 p. m. train for Detroit and Chicago, after which they intend making their home in the Canadian Northwest. The many handsome gifts testified to the esteem in which the young couple are held and show that they carry with them to their new home the best wishes of their many friends.

Scored a Success.

The Stratroy Amateur Opera Co. scored a decided success at Victoria opera house Sarnia Friday evening in their presentation of Gilbert and Sullivan's tuneful opera, the Mikado. The opera house was packed to its utmost limit and the delight and appreciation of the vast audience was shown in the rounds of applause that greeted the performers and the repeated recalls of the principals during the evening. The stage settings and costumes were superb, the latter being supplied by New York costumers were of the best, and correct in every particular. The principals, E. Wright, as Ko Ko, Miss E. Wright, Katisha; Miss E. Miller, Yum Yum; Miss J. Buttery, Pitti Sing; Miss F. Rapley, Peep Boo; E. Baskerville, Nanki Poo; H. C. Pope, Pooch-Bah, and W. Sadler, the Mikado, sustained their several parts with great credit. Mr. and Miss Wright, Miss Miller and Mr. Baskerville, especially distinguishing themselves, their singing and acting being well up to the professional standards. The chorus of about forty voices rendered effective support and showed careful drilling. Altogether the opera was presented in a wonderful effective manner for amateurs, leaving nothing to be desired and offering many features that were far above credit for the excellence of the performance average amateur efforts. Much of the throughout is no doubt due to Mr. T. B. Welsh, musical director; Miss Meekison, pianist, and Mr. H. S. Rapley, manager, as a great deal of time must have been spent in rehearsals before such finished results could have been obtained.—Sarnia Observer.
Quite a number from Pt. Huron, Wyoming, Watford and other points, attended the opera, and all were unanimous in the verdict of praise. Standing room was at a premium, and everybody was well pleased with the artistic manner in which the opera was presented.

Lambton County Dental Association.

The regular meeting of the Lambton County Dental Association was held in Sarnia Monday evening, April 8th. The meeting was presided over by the president, Dr. Kinsman. Clinics were given by different members. Dr. W. B. Colter, of Sarnia, gave an interesting paper before the society. After the meeting all sat down to lunch at the Vendome hotel. Among those present were members of the medical profession and others. Speeches were delivered by nearly all present, showing forth the relationship existing between the professions today. Some of those present from Sarnia outside the dental profession were Dr. Logie, Dr. Bentley, Dr. Bradley, Dr. James, and Andrew Johnston.

Death of Miss Campbell.

It is our sad duty to record the death of Miss Marjory Campbell, one of Brooke's earliest settlers. Deceased was in her usual health until about month ago when she became ill and continued to gradually sink until Friday, March 22nd at six o'clock her spirit passed away to the better world above where sorrow is unknown.
Miss Campbell was born on March 17th, 1829 on the Barnluasgan Farm, Belland, Argyshire, Scotland. The early part of her life was spent on the farm where she was born until 1853, when she came to Canada with her sister, the late Mrs. Duncan Campbell, of Adelaide. Two years later her brother, the late Malcolm Campbell and her sister, Mrs. Duncan Campbell, with whom she resided, also came to Canada. She is survived by her sister, Mrs. Duncan Campbell. On the following Monday, the last rites were attended by a large number of friends and acquaintances to the Kil-

martin cemetery. The pall-bearers being six nephews. The service was conducted by Rev. Dr. McDonald, the text being the words of the Apostle Paul, "O Death where is thy sting? O Grave where is thy victory.—Alvinston Free Press.

Poultrymen Meet.

A meeting of the officers and directors of the Lambton County Poultry association, was held in the office of the Poultry Advocate, Petrolia, on Friday, March 29th. At this meeting it was decided to hold the next winter show at Inwood, where there are a large number of fanciers. They promise a 500 bird show, and \$100 in specials. The show will be held on the last three days of January, 1908.
The following officers were elected for the coming year:
President, W. R. Dawson, Inwood.
1st Vice-president—D. Hartley, Wyoming.
2nd Vice-president, W. R. McDonald, Petrolia.
Secretary Treasurer, A. H. Graves, Inwood.
Directors—Geo. M. Sheppardson, Sombra; T. E. Rondeau, Courtright; A. Colter, Bridgen; G. G. Hartley, Wyoming; S. Stapleford, Watford; C. Moncrieff, Petrolia; B. W. Moore, Oil Springs; W. Luscombe, Sarnia; H. Middleton, Alvinston and Geo. E. Monroe, Forest; P. Wellington, Point Edward; and D. Ross, Warwick.

PORTER-WERDEN.

A very pretty wedding was solemnized at the home of Mr. and Mrs. Matthew Porter, Sombra, when their youngest daughter, Miss Myrtle E. Porter, was united in matrimony to Wilbert S. Werden, of Brooke, at high noon on Wednesday, April 3rd. The ceremony was performed by the Rev. E. C. Caine. The bride was attired in white silk and carried a bouquet of white carnations. She entered the parlor on the arm of her father. The ring bearer, Maybelle Tanner, London Road, Sarnia, looked very pretty in white silk and lace trappings.
After the ceremony and congratulations the guests, numbering about forty, retired to the dining room, which was tastefully decorated, to partake of a wedding breakfast. The bride's going away suit was of light grey and white hat. Mr. and Mrs. Werden left for a short trip through Michigan before taking up their home in Brooke.

FARM LABORERS AND DOMESTICS.

I have been appointed by the Dominion Government to place immigrants from the United Kingdom in positions as farm laborers or domestic servants in this vicinity, any person requiring such help should notify me by letter or in person stating fully the kind of help required when wanted and wages offered. The numbers arriving may not be sufficient to supply all requests, but every effort will be made to provide each applicant with the help required.

Why do not the farmers of Ontario grow more wheat? Why do not the people of Ontario buy blended flours, containing their own home-grown wheat?
Manitoba wheat flour makes a big strong loaf, but the bread is coarse, and is neither as inviting in appearance nor pleasing in taste, as that made of a blended flour. When it comes right down to quality, blended flour makes the best bread and pastry in the world. Yet many of our own people are using Manitoba flours, not aware of the facts, helping the Manitoba farmer to get richer, and driving the Ontario farmer to raising less profitable crops.

Toronto seems to be about the only place in this province that really knows the worth of blended flour. And it is largely due to the efforts of one George Weston, the baker—that this is the case. When Manitoba wheat flour first appeared, it became very popular because it made a big loaf, but the bread was coarse. At that time Weston was running only two ovens. He thought there were enough people in Toronto to buy his bread, so he carried it to various grocers, asked them to offer it to their customers, and if it was not sold that he would take it back. The next day every loaf was gone, and the grocers had orders for twice as much. In a week, he had to start new ovens, and it was not long before he was selling 50,000 loaves a week. This is what blended flour did for one baker. Of course, others, seeing the success of George Weston, naturally adopted blended flour. To day, 75% of the bread baked in Toronto is made of blended flour. There is no doubt but what blended flours—milled of Ontario wheat with some Manitoba—not only make the best bread and pastry, but yield more bread, etc., to the barrel.
By using blended flours, it would create a demand for Ontario wheat, induce farmers to grow more wheat, and keep all the flour right here in Ontario, thus adding to the value of Ontario farms.

Seeding Begins

Portage La Prairie, Man., April 5.—The first seeding of the year has been reported from Portage Plains. A farmer from that place who was in that city stated that a small quantity of grain was planted on the farm of John Galbraith. Nearly all the fields in the country are bare and as soon as the frost leaves the ground seeding will become general. Two days of good warm weather will be sufficient to allow many of the farmers to get to work. A successful seeding season is anticipated.
Farm lands near here have recently been transferred at prices as high as \$50 an acre.

Death of John Hodgson.

Stratroy, April 9.—John Hodgson, a highly respected citizen, of this town, died at noon today after a brief illness. Although confined to the house for some weeks, it was not thought that his illness was dangerous and so caused his friends no alarm. On Saturday, however, he suffered a second stroke of paralysis, from which he never rallied and passed away as above stated.

The late John Hodgson was born in London, Ont., 73 years ago, and in 1848 moved to Adelaide village, where he worked at blacksmithing for about 25 years and acquired considerable wealth. While there he married Mary Brent, who, with one daughter seven years of age, predeceased him about thirteen years ago. Three years later he married Mary Jury, sister of J. C. Jury, of London, who survives him.
Besides his wife he leaves two sisters and one brother—Mrs. S. W. Richardson, Warwick; Mrs. Joseph Brent and George Hodgson, Adelaide. The late Mr. Hodgson was a devout Methodist, and in politics was a strong supporter of the Liberal government. The funeral was held Thursday afternoon, at 2 o'clock, to the Stratroy cemetery.

Another Coxe Army.

New York, April 6.—John Schler Coxe of the Coxe army of 1894, is planning another great national crusade on new and sensational lines and he may commence operations the present year.
Mr. Coxe was in New York several days ago and said: "I am preparing to take up my campaign of education where I was forced to leave it several years ago. I shall conduct this campaign on new and original lines, and in a way that will be certain to attract the attention of the nation. I will travel with an entire train of cars and a tent capable of seating many thousands. This country is becoming ripe for just such a great movement."

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Pa's Housecleanin'.

When the April sun's a-shinin' hot an' things is nice an' fresh,
When the willer's droppin' tossels an' the blackbirds in the bresh,
An' pa comes in fer noonin' an' the floors is wet as usual,
Then it's "Laws-a-massy on us! Your ma's a-cleanin' house!"

Then me an' Jim is sure to find rag carpets in the sun
When we'd planned to go a-fishin' for the suckers in the run;
But while pa takes his noonin' an' the horses eats their snacks,
Us boys can beat them carpets while we're restin' up our backs.

An' then next day pa's certain sure to have to go to town;
But he always leaves us orders, "Help to put them carpets down."
An' at night, when he gets home again, you'd think, to hear him groan,
About the hardship of it, that he'd done the job alone.

Poor ma! She has it awful hard, she'll work until she drops,
An' pound her thumb nails half way off, an' wet her feet with slops;
She'll get so hoarse that she can't speak, an' sore at every bone;
But pa, he says if it was him he'd let the house alone.

An' when that night the kids is sick an' has to have a drink,
An' ma she can't get up because her back's in such a kink,
If pa should bang the furniture whilst droopin' fer the cup,
You can feel him gettin' mad enough to fairly eat her up.

So me an' Jim was sayin', if the time should ever come
When pa and ma should change their work an' pa should stay to hum,
I wouldn't like to be a boy, but jest a little mouse
To hear what things pa would say if he were cleanin' house.

—William Futhy Gibbons in Woman's Home Companion for April.

Doctors Smith and Macalpine were in consultation with Dr. Chambers, Oil Springs, on the case of Sam Jackson, formerly of Wyoming. Mr. Jackson was suffering from appendicitis and it was decided to operate immediately. The operation proved to be successful and last reports say the patient is doing well.

F. J. Miller, of Port Frank, shot a swan on the river, below Mrs. Hazelwood's this week, that measured over seven feet from tip to tip. He made the shot at the distance of 200 yards with a 22 cal. rifle. Mr. John Grieve, of Parkhill, has secured the bird and will get it mounted. It was the largest swan ever seen in these parts.

A FRIEND'S ADVICE

SAVED SUFFERING AND BROUGHT BACK HEALTH—DR. AGNEW'S GREAT HEART CURE AND CATARRHAL POWDER DEFY DISEASE AND NEVER FAIL IN THEIR MISSION OF HEALING

"I feel so thankful at the restored health of my daughter that if any use can be made of this I shall be pleased." This is what Mr. George Weels, of Elora, Ont., says in giving his testimony to the wonderful curative qualities of Dr. Agnew's Cure for the Heart. Mr. Weels' daughter was a great sufferer from heart disease and nervousness. She was unable to lie on her left side. She ran down in health and her recovery was a source of anxiety. Induced by friends, who had proved its worth, she obtained Dr. Agnew's Cure for the Heart and before one bottle had been taken was able to lie in any position she desired, and when two bottles had been taken, an absolute cure was pronounced. Yes, this great remedy is a cure for all ailments of the heart, stomach and nerves, and the instantaneous relief given by it has snatched thousands from death's jaws. Don't trifle a minute if you have the slightest evidence of heart disorders, such as palpitation, fluttering or uneasiness. This remedy will relieve such troubles immediately and will cure the stomach and nerves.

"When I know a thing is worthy of a recommendation I consider it my duty to tell of it." The Rev. James Marlock, of Harrisburg, Pa., says this after having been cured of a very malignant form of catarrh by Dr. Agnew's Catarrhal Powders. What he can say of its healing powers thousands of others have said and can say of it. Don't neglect "only a little cold" in the head. It may lead to chronic catarrh. Dr. Agnew's Catarrhal Powder relieves in 10 minutes and is easily applied. Keep it near you if you are a "cold in the head" subject.

"The Ideal Wife."

The following original description of the perfect wife is taken from a book by the late Max O'Rell, the French humorist, just published in Paris.

"Marry a woman," he writes, "smaller than yourself. Do not marry a woman whose laugh is forced and does not spring from the heart, but marry a woman who enjoys a joke and looks at the bright side of everything.

"Marry a girl who is a bit of a philosopher. If you take a girl to the theater, and on hearing there are no seats in the stalls or circle, she gaily exclaims: 'Never mind, let us go into the gallery!' marry her. It will be easy to live happily with a girl willing to sit even on the back benches with her husband.

"Do not marry a woman who has the fast ways of what is called 'smart society.' If you go to pay a visit and must wait half an hour while she finishes her toilet, do not marry her. But if she comes to you immediately, her hair put up in a hurry, but neatly and simply dressed, she is a girl of common sense. Marry her, especially if she is not too prolix in her excuses for appearing in negligee.

"Marry a girl who cares a lot for her father, who takes an interest in seeing that his study is in order, who likes to sit on his knee, and who calls him by all sorts of loving and infantile names.

"The girl who shows so much affection for her father, who won't let him go out without seeing that his clothes are immaculate, who, when at length satisfied with papa's appearance, kisses him before he goes off—that girl will make a model wife."

NOT A NAUSEATING PILL.—The exponent of a pill is the substance which enfolds the ingredients, and makes up the pill mass. That of Farmalee's Vegetable Pills is so compounded as to preserve their moisture, and they can be carried into any latitude without impairing their efficacy. Many pills, in order to keep them from adhering, are rolled in powders, which prove nauseating to the taste. Farmalee's Vegetable Pills are so prepared that they are agreeable to the most delicate.

The Patriotism of Saving.

Individual and national thrift is not a virtue indigenous to this continent. The abundant natural resources with which North America is endowed and their marvellously rapid exploitation have combined to lessen the population sense of the value of money. The industrial boom of the last five or six years has accentuated the American tendency towards extravagance, and it has become the habit of a great portion of the population to live up to their increased incomes in the easy going assurance that no lean years will follow the fat. This general lack of the faculty to save probably is one cause of the financial crises through which the United States periodically passes. Spendthrift America should copy frugal France, which through the capacity for saving displayed by its huge peasant class is one of the wealthiest nations on earth, and perhaps, the most stable, financially. It is said that an ordinary French family at the end of the year invests a small surplus in Government bonds, while its American contemporary spends all its income if it is not in debt besides. The aggregate effect on the financial welfare of the two nations is enormous. Canadians will do well to pattern after France, rather than after the United States, but it is doubtful if that is what we are doing. It should be a stimulus to remember that when we are laying by something for the future, we are thereby performing a high patriotic service towards the country. A careful, thrifty, saving population is one of the best assets of safeguard with which any nation can be blessed.

Quail Distribution.

Mr. H. M. Graydon, Friday, distributed from London upwards of 1,000 quail in the counties of Lambton, Essex, Middlesex, Kent and Elgin.

Previous to this season Mr. Graydon has arranged for the cost of this by private subscription, but this year the Ontario Government bears the expense in accordance with its policy of increasing the game in the province.

Mr. Graydon says this distribution has met with much success. In many places last spring where one pair was placed, large coveys were found in the fall. Where the sympathy of the farmers has been enlisted the success has been marked.

Mr. Graydon says that the farmers are coming to realize that quail is a good bird to have around, living as it does on weeds hurtled for the most part by private subscription, but this year the Ontario Government bears the expense in accordance with its policy of increasing the game in the province.

HAY-WATSON.

The residence of Mr. Donald Hay, 30 Metcalfe street, Strathroy, was the scene of a pretty though quiet event on Wednesday evening, March 27th, when his eldest daughter, Mary E., and Mr. Guy B. Watson, of Metcalfe, were united in marriage by the Rev. T. A. Bell, of Napier, in the presence of a few of the immediate relatives of the contracting parties. The young couple were unattended. The bride, who was given away by her father, was very becomingly attired in a gown of white crepe de chene, trimmed with chiffon over lace, and applique. After the ceremony all sat down to a dainty wedding supper, after which the happy couple left, amid the good wishes of their friends, for their new home near Napier.

Farmers Worried.

The fifty odd farmers who went to the immigration offices, Toronto, to get farm lands were sorely disappointed. There was not a man in the place. Many of the farmers declare that they are practically helpless without assistance, and unless help comes soon many will not be able to work their farms properly.

One man announced that he was absolutely alone and had to find help to work his 60-acre farm before the week was out. There are many similar cases heard of every day. The rush of Ontario farmers to the West is one cause attributed to this dearth of hands.

There are fifty men expected in and others may arrive, but there has been no special advice.

High Finance in the Pulpit.

A negro preacher, whose supply of hominy and bacon was running low, decided to take radical steps to impress upon his flock the necessity for contributing liberally to the church exchequer. Accordingly, at the close of the sermon he made an impressive pause, and then proceeded as follows.

"I hab' found it necessary, on account ob de astringency ob de hard times an' de general deficiency ob de circulatin' mejum in connection wid dis ch'ch, to introduce ma own ottermatic c'lection box. It is so arranged dat a half dollah or quatah falls on a red plush cushion with out noise; a nickel will ring a small bell distinctly heard by de congregation an' a suspendah-button, ma fellow-mawtels will fall off a pistol, so you will gov' n' yo'selves accordingly. Let de c'lection now p'ceed, wile I takes off ma hat an' gibs out a hymn.

Cresolene is a boon to Asthmatics

Does it not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach?

It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.

Agnes Repplier's Favorite Recipe.

Miss Agnes Repplier, the essayist, is extremely fond of tomatoes, prepared in almost any manner. In her opinion, however, there is no better way in which they can be cooked than to bake them after the method set down in the following recipe: Four two tablespoonfuls of the purest olive oil into a baking dish. Add four tablespoonfuls of grated bread crumbs that have already been mixed with parsley and other herbs, all of which must have been chopped very fine. Season with pepper and salt. Upon this bed of oil and crumbs lay a dozen tomatoes that have been cut in halves. Cover them with four more tablespoonfuls of bread crumbs that have previously been seasoned in the same way. Pour over all two more tablespoonfuls of oil and send the dish to a hot oven, where the tomatoes must bake for about one hour.—The Delineator for April.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free.

are what use people up. Most people live pretty well up to the limit of their powers, and so long as everything goes smoothly that is apparently all right; but a "jolt" or a "jar" in the shape of business worries, domestic anxieties, or an attack of La Grippe, Pneumonia, Typhoid, or other wasting disease, suddenly reveals the fact that there is a sad lack of reserve force to meet these contingencies and the result is serious, often fatal. CANADIAN INVENTOR'S EXPERIENCE.

Interesting Incident by a Famous Patentee.

Mr. Wm. Wilson of Craigie, Villa, London (Ont.), the inventor of the Wilson Fruit Case, now adopted by the Canadian Government, tells an interesting experience which shows the healing and antiseptic value of Zam-Buk, the herbal balm. He says: "I had two poisoned wounds on my leg, which were very sore and inflamed. They caused me much pain and suffering, and although I tried several salves they refused to heal. Zam-Buk was recommended, and I applied some. It acted splendidly and in a very short time healed the wounds.

"At another time I sustained a nasty cut. Zam-Buk took away the soreness almost instantly and soon closed and healed the wound. I have also used Zam-Buk for other injuries, and I have no hesitation in expressing my high opinion of its value. It is, without doubt, a splendid household balm!"

Zam-Buk cures blood poison, cuts, bruises, old wounds, running sores, ulcers, boils, spring eruptions, scalp sores, eczema, itch, barber's rash, burns, scalds, and all skin injuries and diseases. All druggists and stores sell at fifty cents a box, or from Zam-Buk Co., Toronto, for price. Remember it is purely herbal!

MIDDLE LIFE

A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for It. Two Relate Their Experiences.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.

Every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, back-aches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system.

For special advice regarding this important period women are invited to write to Mrs. Pinkham, at Lynn, Mass., and it will be furnished absolutely free of charge. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women.

Read what Lydia E. Pinkham's Compound did for Mrs. Powless and Mrs. Mann:

Dear Mrs. Pinkham:—

"In my opinion there is no medicine made for women which can compare with Lydia E. Pinkham's Vegetable Compound, and I have no firmer friend in the Dominion than I am. At the time of change of life I suffered until I was nearly crazy, and was not fit to live with. I was so irritable, irascible and nervous that I was a torment to myself and others. I surely thought that I would lose my reason before I got through, when fortunately an old friend recommended your Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

I took it for five months and then off and on until the critical period had passed, and it restored me to perfect health. My advice to suffering women is to try your Vegetable Compound, and they will not be disappointed."—Mrs. E. Powless, Deseronto, Ont.

Another Woman's Case.

Dear Mrs. Pinkham:—

"As I owe my splendid health to Lydia E. Pinkham's Vegetable Compound, I am very pleased to write and tell you my experience with it. I am the mother of three children grown to womanhood, and have safely passed the change of life, and feel as young and as strong as I did twenty years ago, and I know that this is all due to your woman's friend, Lydia E. Pinkham's Vegetable Compound. I used it before my children were born, and it greatly assisted nature and saved me much pain during the change of life. I took it, off and on, for four years, and had but little trouble and sickness that most women have to endure."—Mrs. James K. Mann, 806 Bathurst St., Toronto, Canada.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Powless and Mrs. Mann, it will do for other women at this time of life.

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

Don't.

Don't ask the editor to publish a list of wedding gifts.
Don't add to the terrors of death by tacking several stanzas of doggerel to a death notice. Don't crowd the mourners.
Don't lug old clippings into a newspaper office and tell the editor you have brought him "something to fill up with" take him a cabbage it is more filling.

Sitting in the end of church pew, don't get up to admit others. Move along.
Don't kick a man when he is down, unless you are sure he will never get up again.
Don't put lard on a man's shoes, when you see him "going down hill." They are already greased for the occasion.
Don't pray with the hungry man until you have given him something to eat. Prayer without pork availeth not.

Infants too young to take medicine may be cured of croup, whooping cough and colds by using Vapo-Cresolene—they breathe it.

Frozen to Death.

Kenora, April 4.—A boy named McMillan, aged about seven years, strayed away from his home on Ridout street last evening, and was found this afternoon by some boys frozen to death. The little fellow

had evidently started to walk over the rocks toward town and got lost. The family had only been here a short time from Scotland.
