earing districts would now bring more than this amount. The results of the Canadian, British and American surveys, made to determine the Canada-Alaska boundary, will now, no doubt, soon be laid before a commission of international experts, whose decision ought to finally settle the existing

doubt and preclude any further bickerings. Throughout nearly its entire extent the boundary can be ascertained with mathematical accuracy, by scientific observation, but south and cast of Mount St. Elias there will be points which can only be satisfactorily settled by a disinterested arbitration. Klondike is not a disputed spot, it is distinctly Canadian and is so recognized by the United

States, but if reports be true there are many

carrying tonnage. The canvas that whit-ened the Maritime province waters in 1884 has given place to the smoke trails of the steam propelled craft of the present day, and if there is ever to be a revival of ship-building in the provinces, the ship yards will

have to turn out stcamers rather than sailing vessels. The commerce of to-day demands is wirer service than is afforded by the sail-ing vessel that must needs wait for a fair wind; time has a valuation now that was not conceded a decade ago, and rapidity of transport is what is required. The story of the dealine of shiring that is told of the total of Didgewater. -Mr. A. S. Curry, of Curry Bros. & Bent, left last Friday lor Labrador to look into the possibilities of obtaining a supply of timber in that country for use in the rapidly increas-ing business of his firm. He sailed from Hal-ifax last Saturday on the S. S. Barcelona for St. Johns, Nfid., and will go by steamer the decline of shipping that is told of the

the decline of shipping that is told of the Maritime provinces holds good when applied to the whole Dominion, and is true of the Republic to the south of us. Great Britain could tell a different story however; every year marks an increase in her fleet of mer-chantmen and her navy, and every year the percentage of commerce that is carried in the hottoms of the island kingdom increase. percentage of commerce that is carried in the bottoms of the island kingdom increases. two years. Why it is that America, with every facility for the work, and with an ever in

trade does not hold her own in ship-building is an anomaly attributable to either a lack of capital or of enterprise or both.

-The Prince Edward Island elections were a bit closer than at first reported. The Peters government was sustained by a ma-jority of six and the popular vote through-out the island showed that the government candidates had polled less than a two thousand majority. The island has now an ideal legislative body, so far as majority and minority are concerned, and the next four years will probably witness many good re-

balanced legislature. —The British administration in India are now engaged in trying to quell a serious ris-ing of natives in the Chitral district. The scene of the outbreak is on the extreme northern boundary, and Russia is generalized with having bad something to do with the rising. The country is so difficult of access that troops will have difficulty in quelling the insurrection.

-The St. John Globe says:-Frank H. Eaton, of Kentville, has been appeinted in-spector of Victoria, B. C., city schools. There were sixty-seven candidates from all parts of America. Mr. Eaton graduated first from Acadia university and afterwards from Harvard.

-In a list of uncalled for letters at the Bridgewater post-office, published in last week's *Enterprise*, are a number that evi-dently should have been agent here. Dr. J. P. Grant, C. H. Jordan, H. S. Reed, Chas. Williams, Z. T. Harlow are among the ad-dresses, that should read Bridgetown in-stead of Bridgewater.

The late arrivals in our village are Dim-ock Claute, wife and daughter, of Dorchester, Mass., and Herbert Reynolds, of Lynn, Mass. We have had some heavy rains and violent thunder and lightning in the past few days. On Sunday about eleven it was very violent. The lightning struck four buildings. The house of Alonzo Foster was slightly injured; his barn was stripped of boards, and a cali inside was killed. The house of the late Capt. Phinney was considerably splintered on the west end. The barn of David Foster was somewhat shattered; a horse standing inside escaped unhurt. The barn of Oba-diah Poole, St. Croix, was badly splintered.

Court Briefs.

Court Briefs. Thursday morning the cause of Sims v. Hudson was tried. This was an action for specific performance of a contract for the sale of standing timber, but owing to the relent-less law it soon developed into an action for damages for breach of contract to sell the said standing timber. Judgment for the defendant for his costs with a remark from the Judge that the action ought never to have been brought. The next and principal case was Forsyth vs. Sutherland *et als.* This action was breught by the plaintiff to recover back a sum of nearly one thousand dollars paid un-der protest to the captain of the Argentina under a claim for demurrage. Judgment reserved. Drowned at Bear River.

Struck by Lightning.

Drowned at Bear River. A sad accident occurred at Bear River yesterday afternoon, which resulted in the death of Ethel, the eleven year old daughter of Mr. W. G. Clarke, of that place. Miss Clarke and Miss Ethel Pardy accidentally fell from Mr. W. A. Chute's boat house slip; the latter was rescued by Mr. Chute as she was going down the third time, but her playmate did not ceme to the surface. The body was recovered within twenty minutes of the accident, and Drs. Lovitt and Ellison worked for two hours in an unsuccessful attempt is restrive her. The bereaved par-ents have the sympathy of the entire com-munity in their sorrow. At four o'clock last Sunday afternoon lightning struck the horse stable of Mr. Charles Sheffield, Upper Dyker Willage. It followed a post in the frame of the building down through the hay, which it set on fire, and killed a mars in the stable below. Willing hands soon put out the fire. Mr. Judson Bishop, who was aleeping in the hay Joft a few feet from where the bolt struck, may well congratulate himself on his narrow escape.—Orchardist.

July, 1897, one Home Comfort Range, and are pleased to say it gives us entire satisfac-tion. For baking and cooking it is the best we ever used. A great saver of fuel, sits to good advantage in the kitchen, is neat and clean to work over, and a nice ornament to any kitchen. Can recommend the Home Comfort to all who want a first-class cooking apparatus.

apparatus. MR. JAMES MCMILLAN, MRS. MARY J. MCMILLAN.

AVLESFORD, July 17th, 1897. WROUGHT IRON RANGE Co., Toronto, Ont.

Toronto, Ont. Gentlemen. — We purchased of your sales-man, Mr. E. K. Morton, on the 9th day of July, one Home Comfort Range, aud are happy to say, for the time we have been using it, it has given us entire satisfaction. It is a first-class baker and cooker, and furnishes an abundance of heat and hot water, does not was nearly the amount of wood our old one

use nearly the amount of word our old one did, and is neat and clean to work over. This certificate you can use in any way you see proper. Respectfully,

W. E. SELFRIDGE. MRS. W. E. SELFRIDGE.

LAKEVILLE, July 13th, 1897.

WROUGHT IRON RANGE Co., Toronto, Ont.

Gentlemen.-We purchased of your sales-man, Mr. Alex, F. Steward, a Home Comfort Range, and find it every thing he said it was. It bakes nicely and does all kinds of cooking in a first-class manner, and does not take half the wood of our former stove and heats nice-back. the wood of our former stove and heats nice-ly. We would not part with our range for double the price of it, if we could not get another. We highly recommend it to any-one who may want a first class cooking appar-atus. Respectfully, MR. AND MRS. W. R. LAWRENCE. MR. AND MRS. ANDREW WOOD.

BROOKLYN ST., July 14th, 1897.

We have in our kicken a Home Comfort Range, and after a fair trial, are prepared to say that it has given entire satisfaction, and it is in every respect as represented, being an excellent baker and saver of fuel.

MR. AND MRS. J. M. MARCHANT. To whom it may concern :--

Let Horace blush and Virgil too." Baried here also is the actress, Kitty Clive. Thickenham is seventeen and a-half miles from London, and has a population of 16,000. The soil is alluvial and vegetation very lux-uriant. The gardens and lawns are very beautiful. Indeed all along we are pointing out to each other constantly some new deli-cious garden plot, gtotto, tea-garden, or beautiful sweep of flower beds, running on the curved lines of the river, leaving between a strip of lawn. Passing a pretty residence, where the artistic effect was something like this, we discover that we are looking upon the riverside residence of Dunlop of rubber tire fame. Mr. Labouchere's residence is a very pret-ty place. It is named Pope's Villa. The house of Peg Waffington was near by. Poor Peg. She was a kind hearted, clever crea-ture, but was not always treated as she de-coursed between to a bich process near some the

To whom it may concern:--I bought a Home Comfort Range of the Wrought Iron Range Co. In May, and on the 12th of June my house and its contents were all destroyed by fire. The range having been subjected to the most intense heat it was predicted by many that it was ruined; but the body of the range is as solid as it was before the fire, and not a single piece was of course melted and the vessels damaged but the Wrought Iron Range Co. replaced them free of charge and put my range in working order. As to the merits of the range it is a perfect baker and heater and I can conscientiously recommend it, for my range stands as evidence to the fact. Any one doubting the above statement can see my range on my farm mear Com's Mills, N. S, or get my sworn statement to the above facts or the evidence of the entire commun-ity of Com's Mills.
