Montreal Stock Market.

AVERAGE VOLUME OF BUSINESS AND
STEADY VALUES -- SOME EXCITEMENT ON THE NEWS OF VICTORY --
STRONG MARKETS ARE NOW BEING
PROMISED.

Montreal, Dec 14

On the war news, by telegram to the Stock Exchange, of the relief of Ladysmith, and the capture of a large body of the enemy, the spirit of the market got very much brisker. One broker said that the room was now in a good mood and would to-morrow or Monday show the effects of Gen. Buller's decisive victory with all that it means about the future.

Another member of the Exchange said that the market was buoyant and would have been very much more active had it been easier to get enough money to carry on business with. Even with money conditions ameliorated there is certainty that a day or two will be needed before foreign, outside and the local markets adjust themselves to the Transvaal good news.

No important change took place in stock prices this forenoon session. Canadian Pacific was perhaps fractionally higher; Payne gained one point on yesterday afternoon's price, while Republic was between 1 and 2 points lower. Toronto Ry. was a little more vigorous, 108½, being ½ higher than previous close, and 268, the price of War Eagle, was 4 points above its closing price yesterday. Virtue at 63 was certainly not higher. Bell Telephone and Bell Telephone Rights were practically unchanged in their valuations. Richelieu and Ontario was 1 point lower than before. Dominion Cotton was 2½ higher at 102½. On good sized trading Gas was perhaps a little lower, and the same might be said of Royal Electric.

Buoyant as sentiment was this morning, there has not been time for a buying demand to appear, and hence prices have not advanced and the volume of business was about the average. Better markets are expected in the near future.

JUMBO

The big crosscut tunnel in the Jumbo is now in for a depth of 100 feet and drifting along the vein has been in progress for several days. The vein at this point has been explored for a distance of 40 feet. This tunnel taps the property at a depth of 450 feet. The tunnel above it intersects the vein at a depth of 320 feet and then there is a third tunnel still higher up the mountain side that intersects the vein at a depth of 100 feet. The vein at all three of these places is 40 feet wide. Much of the ledge matter under the present freight and treatment rate, is of a shipping value. It is anticipated when the lower level has been explored to a greater

extent than at present that the company will begin shipments.

IRON COLT.

Superintendent Sharp is completing the preliminary arrangements on the Iron Colt before resuming active development. The compressor is being put in shape and the

MONTREAL MINING EXCHANGE

TENDENCY IN THE BETTER CLASS OF SECURITY FIRMER — DEER TRAIL WEAK RELIABLE NEWS EXCEEDINGLY HARD TO OBTAIN.

Montreal, Dec. 14.

There was a better market to-day as far as volume of business was concerned, bidding being brisk and active with the demand more general, although trading centred itself to a large extent in Deer Trail transactions.

Reports concerning this latter property are exceedingly numerous and varied. Parties who have large interests at stake assure us that the mine, on the report of their own private engineer, is in good condition, and that there is no reason, as far as the future of the property is concerned, for the present slaughter in price. On the other hand there is an unlimited supply of stock floating round the room and confirms the general opinion that insiders are realizing. It was heavily dealt in this morning. 21,500 shares finding buyers, it sold, however, on a sliding scale and as low as 10½ this is a drop of one point and a half during the day's trading and of two and a half points since last night's close. It was freely offered at 10½ on the last call.

There is little change in Virtue, it sold at 63, and 300 shares at 62.

Big Three again became weak on renewed pressure, it sold for two lots of 500 shares at 10½.

As regards the general tone of the market, outside of these exceptions, and of the better class of securities in particular, there was a hardening tendency visible, which was exceedingly welcome. Payne sold at 10½, and was quite firm round this price, we look for an advance in this case.

Slocan Sov. sold at 33, 1500 shares selling at 32½; it is strong with Golden Star and a few other stocks which might be mentioned, exceedingly well held, and has a promising outlook.

The Rambler Cariboo has declared another dividend of 1 per cent per share payable on Jan. 1. There are 1,125,000 shares issued, and this makes the amount of the dividend \$11,250. The mine is said to be in good condition.

There are some 400 tons of ore ready for shipment on the plant property.

News from the "ram" — Golden Crown is encouraging. The ore, on the "ram", it is thought, will run about \$30 to the ton, this will be shipped as soon as the spur from the main line is extended to the mine.

NEW YORK EXCHANGE.

LONDON HOUSES BUY LARGELY ON REPORT OF VICTORY — LIQUIDATION IN M.E. AND A.M.T. — UNCHANGED BANK OF ENGLAND RATE HAS A STEADYING EFFECT—WORST IS OVER.

New York, Dec. 13.
Contrary to expectations Bank of England rate unchanged. The tone of the London market is distinctly better, advances ranging from $\frac{1}{2}$ to $\frac{3}{4}$.

The strongest stocks are the Pacifica. There is a vague rumor that the war office has some good news from South Africa but this totally lacks confirmation.

The extraordinary weakness and heavy selling which took place in our market during the last hour has given rise to all sorts of surmises. On one point the Street is thoroughly agreed, and that is, that the selling was not by commission houses generally, but was for the account of one or two big men.

It is pointed out that in Sugar there were at least two bull pools. There was known to be another one in U. Q., and it is believed that there were other smaller pools in such stocks as L. & V and P.C.I.

One bull pool in Sugar was estimated at 100,000 shares, and it is confidently asserted that the whole of this has been liquidated.

The pool in L. N. had an especially hard time, as the price was broken during the morning by the heavy selling for London account. Another story given for the weakness was that a prominent banking house had thrown on a large line of Industrials, from its loans.

This was said to account for the extremely heavy selling of A.M.T. and Con Tobacco common and preferred. The feeling after close was one of intense disappointment, the Street generally concluding that there was another "Blue Christmas" ahead..

Among conservative commission houses there was a sense of relief that such a cleaning out process as that which began on Friday had gone through without entailing any failures.

Some foreign bankers predict that gold will go out on Saturday, and cables from London state that the Street there believes that the refusal of the Bank of England to advance rate there was caused by the expectation that gold would soon come from this source. It is stated with considerable confidence that Secretary Gage will decide very shortly to anticipate the January interest.

New York (noon), Dec. 14.

The market opened with a distinctly better undertone than yesterday. London houses were large buyers on the circulation of a rumor that an important victory for British in Transvaal had taken place. This has subsequently been confirmed, although details are very scarce.

It is believed, however, that Ladysmith has been relieved and a large number of Boers made prisoner.

Considerable irregularity developed during the first half hour and in some quarters of the room there seemed to be considerable pressure to still sell, this was especially noticeable in Met. St. Ry. and A.M.T.

Sugar was extremely nervous, but on the whole strong, it was affected by stories of trouble in Boston which subsequently turned out to be among what is called the Globe National Bank crowd.

According to a news agency assistance

was rendered by the Standard Oil Co. and others so as to avert failures. In addition to the news from South Africa there were other items of encouraging news, such as the decision of the Secretary of the Treasury to anticipate payment of January interest to the amount of \$3,500,000.

Payments begin to-morrow.

Failure of Bank of England to advance rate was also looked on as a favorable feature, although showing made by the bank is far from satisfactory. All sorts of stories were current in regard to money being loaned to Bank of England by banks here, but they lacked confirmation and were generally discredited. It is not impossible, however, that gold shipments may be made on Saturday.

The undertone of the market became better after the first hour, the pressure to sell diminished and there was considerable covering. Loans have been made at 6 and 7 p.c. There are no indications of any flurry. The conservative opinion in the Street is that the worst in the market is over, and that this opportunity should be taken to pick up good railroad stocks.

MINING NEWS.

TAMMANY GROUP.

A company is now being formed to operate the Tammany group claims, which consists of four full claims and four fractions. The owners are George H. Green, Burt Rae, Hector McPherson and Jod Paxton of Rossland. The capital stock will be \$125,000, divided into 1,250,000 shares of 10c each. The group comprises the Tammany, Burnt Basin, Gold Nugget, Jim Blaine, Tammany Fraction, Gold Nugget Fraction, Burnt Basin Fraction, and Jim Blaine Fraction, covering in all nearly 300 acres. It is one of the oldest and best known group of claims in the camp, and adjoins the well known Mother Lode on the west. More than the owners will be glad to hear that arrangements have at last been made to operate this very promising property. All of these claims were surveyed last summer, and certificates of improvements have been issued.

At the present time a description of the property may be of interest. On the Tammany a quartz vein is traceable for over 500 feet, breaking through at intervals of 30 and 50 feet. At one point an open cut was made showing 15 feet of quartz, with only one wall in sight. Like its famous neighbor, a great deal of free gold was encountered in this cut, which is plainly discernible to the naked eye, the assays obtained being \$8.40, \$12.15, \$96.80, and \$493. On the Tammany Fraction is a quartz vein from two to four feet wide, which has been uncovered quite a distance, giving good values in gold. On the Burnt Basin a quartz ledge has been opened up along the lead in various places, showing it to average about four feet. The values received from this lead range from \$5 to \$85.

On the Jim Blaine a large open cut has been made, showing 15 feet, with neither wall in sight, of a heavy mineralized vein of iron and copper.

The Gold Nugget has a lead of quartz which is traceable nearly the entire length of the claim, showing it to be eight and twelve feet wide in places. This is a contact vein lying between porphyry and granite, the values being similar to the Tammany. On this claim there is also a galena vein uncovered, showing 14 inches of clean ore, which assays from \$27 to \$45 in lead and silver.

BRANDON & GOLDEN CROWN.

Rossland, Dec. 6.

Mr. P. A. Russell, of the Russell & Hardy Hardware Company of Greenwood and Phoenix, is in the city. Mr. Russell recently visited the Brandon & Golden Crown in which he is interested. He reports that

there is ore in this mine in a dozen places. On the 100-foot level the ore body has been drifted on for a distance of 210 feet and it averages about five feet in width. A shaft extends down to the 300-foot level and on this level a crosscut has been run a distance of 200 feet and will have to be extended from 100 to 150 feet further before it will intersect the 50-foot ledge that has been tapped on the 300-foot level of the Winnipeg, and which extends into the ground of the Brandon & Golden Crown. From the 100-foot level about 1,500 tons of ore has been extracted and is now lying in the dump ready to be sent to the smelter, which it will be as soon as the spur from the main line of the railway is extended to the mine. This will be completed in a short time. The ore in the dump, it is thought, will run about \$20 to the ton. The mine has been well opened up by about 1,200 feet of shafts and tunnels, and is in good condition. Mr. Russell left last evening for Brandon, where he will spend the forthcoming holidays.

VIRGINIA MINING CO.

The Virginia Mining Company's estate, consisting of seven complete mining claims on terra firma, with two under water lots, and embraces a total area of 567 acres of freehold mineral lands. Of this extensive area one claim only, that of FM73, with an area of 32½ acres, has so far, apparently been placed under active development. The work done upon this claim, consisting of sinking on No. 1 shaft to a depth of 208 feet and cross cutting and drifting on this exceedingly massive ore deposit at both levels and various courses for distances amounting to upward of 300 feet. In addition to the highly satisfactory quality and results of underground work, some surface prospecting work upon the main and other veins has been carried out with equally good results in average values of its ores. During the past month the manager, Mr. J. S. Ryburn completed some 65 feet of sinking, the ore throughout this contact carrying highly satisfactory values in gold, and in places showing in addition to native gold, some interesting and valuable specimens of white or native silver, with a small percentage of native copper.—Rat Portage Miner.

MIKADO.

The usual fortnightly batch of gold bricks was brought in by Manager MacMillan this week. They were exhibited in the window of the Imperial Bank. The output continues to increase in value, and when the new sorting plant is in running order it is expected the increase will be more marked. The value of the bricks brought in this time is in the neighborhood of \$18,000. This, with the result of the first two weeks of the month, will bring the total to about \$18,500. It may be explained that the last two weeks of every month are larger because the cleanup from the cyanide process is made only once a month. This total makes an extremely good showing. Messrs. MacMillan and Pengelly, with the assistance of Mr. Deacon, the local director, have in the space of a few months placed this mine on a splendid paying basis, and have done for the district that which will bear evidence in the increased investment of British capital here.—Rat Portage Miner.

PAY C.R.E.

Mr. Smith Curtis reports that during his recent visit to the Boundary Creek country he arranged for having the tunnel on the Pay Ore continued so as to crosscut the ledge. It is now in for a distance of 150 feet and as the face is now in ledge matter it is thought the main ledge cannot be far away. The ore is a pyrrhotite in a quartz gangue.

CRIPPLE CREEK NEWS.

CRIPPLE CREEK DIVIDENDS.

It is estimated that \$800,000 will be paid this month by various mining corporations, in Cripple Creek.

CHICAGO MARKET.

LIVERPOOL OPENINGS HIGHER — CHICAGO HESITATING IN GRAIN, BUT LOWER IN PROVISIONS.

Chicago, Dec. 14.

Small primary receipts continue to characterize American grain movements and are looked upon as signs that American producers are so dissatisfied with prices that they are not sending grain to market. Holding back of grain would have been an effective means of raising values several years ago, but has much less power in this direction with the Southern Hemisphere so large a producer. Europe, with restricted supplies from America, has Australia to turn to with its estimated export surplus of 1.7 million bushels and its actual shipments of 23½ millions for 22 weeks. It has also the Argentine as a great caterer for its wants. Thus primary receipts continuing to be very small should not be perhaps expected to raise prices much. Indeed the fact is known from exporters that as yet the smallness of primary receipts has had little if any effect on the price offered from abroad. Exporters admit standing orders from abroad for American wheat in preference to any other but say that the price limit is from 1½ to 2½ cents below prevailing prices. The general absence of snow in the winter wheat country with the sharp drop in temperature to-day may cause those to wince who have sold short for a decline.

Liverpool has ¼d higher at 5-97½ for March wheat and ¼d higher at 5-97½ for May wheat, which opening was ½d higher than yesterday's opening.

Chicago openings were fairly strong and movements were in the forenoon of a seesaw description, and not very active.
