That chapter of the revised statutes simply enabled the government at its discretion to levy an export duty on certain raw material such as lumber, and nickel ore. It had been in-timated that the power was asked by the government for reasons of imperial defence. Was that the only reason? Mr. Borden said that the conservation of our oil supply was a defensive measure which might not be invoked, but, if it were, then all private property depreciated thereby would be paid for by the government. As to chapter 50, the prime minister said that it did prohibit certain exports.

Sir Wilfrid Laurier: "Yes, the export of game. The reason for such prohibition is apparent upon its face."

Opposed to His Opinions Regarding Annexation to the City.

Altho only a slim attendance was present at the meeting of the Cedarvale Ratepayers' Association some important matters were discussed and resolutions passed in connection with them.

Much complaint was forthcoming from a number of the residents who own teams on account of their being refused work by Roads Commissioner Snider. It was stated that a number of Robert Davies' brickyard teams had been engaged on township work by the commissioner and the teamsters of the district, with whom work is very scarce, thought they should have been employed on the work.

The various ratepayers' organizations in the township are endeavoring to form a central association and in connection with this a delegation from the Bariscourt and Fairbank ratepayers will wait on the Cedarvale Association at their next meeting on March 5.

A communication was read from the township council, which stated that a cinder sidewalk would be laid on Woodbine avenue up to the Church' of the Resurrection, which is at present being used by the school board for the "nducting of a kindergarten class owing to the overcrowding of the Palmer avenue school. The ratepayers expressed their satisfaction at the council's quick action in the matter.

The hydro question was also up for discussion, and the ratepayers expressed for the Ladies' Ald Society of Mount Dennis Presbyterian Church was also present. Over \$12.000 has already been contributed and paid out, but at least \$6000 more is required to complete the work. The superintendent, Rev. A. W. Hoffe, is confident that this amount will soon be raised.

MOORE PARK.

A meeting of the Moere Park Batepayers' Association was held last fight, J. Nelson in the chair. Mr. Howland, a member of the Civic Guild, addressed the association on the Federal square scheme, and produced a plan showing the form the proposed square should take. The hydro question was also up for discussion, and the ratepayers expressed their dissatisfaction at the delay in putting in the lights. The contract has now been in over a month, and nothing has been done. The township council when tackled on the matter stated that the contract had been handed overt o the hydro, and everything was up to them.

Vote of Censure.

The annexation question was the next on the program, and a vote of censure was passed against W. F. Maclean, M.P. which was to the effect that he had used his influence in favor of annexing Cedarvale and Todmorden in spite of the fact that the people themselves do not wish to become part of the city.

Vice-President Resigns.

Owing to the Presbyterian Church requiring the hall on Thursday, in which the association meets, the meetings in future will be held every other Wednesday.

An interesting debate took place at the meeting of St. Chad's A Y.P.A. last evening in the basement hall of the church. The subject for discussion was "The Man in Overalls v. the Soldler. Which is the Most Useful?" The decision was given in favor of the man in the overalls.

The fire was first noticed about seven o'clock by a man on his way to work at the local foundry. He rang in an alarm and the fire brigade turned out smartly and soon got the fire under control. The fact that the store had a metal ceiling kept the fire from spreading to the storeys above.

Mr. Shelling was in Toronto and his wife was staying with friends over night. The fire originated under the stairway, the presence on a shelf there of a charred box of matches with a hole gnawed on the side of it, indicates that the fire had been started by rats. The flames had evidently spread upwards thru the stairway, reaching the inflammable stock, as the floor of the store is practically insurance.

Some Interesting Comment on W. F. Maclean's Co-Operative Scheme.

The interview with W. F. Maclean, M.P. for South York, regarding the city's future relations with the adjoining Townships of Scarbero, York and Etoblooke in which he advocated the union of the three townships with the city to mutual advantage into one by Metropolitan County of York, has naturally aroused a good deal of interest among those interested in municipal affairs in the townships.

Reeve Syme of York was naturally inrensely interested, as he is busy with a scheme of his own by which he hopes to get some degree of reciprocity between the city and the township for present needs in the way of water and sewer-

RATS GNAWED MATCHES

"I am not just prepared to endorse all Mr Maclean's ideas in the matter," he said, "but I do think that something like what he suggests will have to take in more and more of York, Etobicoke and Scarboro. The interests of these sections adjoining the city in the townships are practically identical with the city, and I see no reason why some co-operative plan should not be adopted for the mutual benefit of all the municipalities. So far as big improvements are concerned there would certainly be a big saving in expense.

"Of course there are a lot of things that will have to be worked out gradually," he concluded. "We can't just jump at a plan like that, but I'd be in favor of having a conference and trying to work something out along these lines."

Reeve. Chas. Silverthorne of Etobicoke was emphatic from the beginning. "That's what I've been advocating all along," he said. "Ald. Wickett's metropolitan area scheme is too big; it takes in too much, and I don't think the townships near the city would have anything ships near the city would have anything to gain by it. The metropolitan area scheme wouldn't give us enough representation to protect the interests of our own district, but, with just the three townships and the cly, I hink something satisfactory might be arranged.

With regard to charity, one family had cost the county \$300, including hospital expenses at \$1 a day. The township is different than a municipality. As soon as men there are out of work the city will not support them, and the township is in a peculiar position. (A voice: "There is not half the destitution in Earlscourt the papers want to make out. It is simply a case of adjusting the wages.") We want the city to lay water mains, sewers and electric light out into the township, so that when we are annexed huge sums of money will not be wasted as instanced in North Toronto. The city says what right have we to supply you with water? You go out duto the suburbs so cheaply that it gets congested and the people's health is in denger. There is water enough in the city to supply us? We shall have to go into a lawsuit this session to get sewerage, and also for water.

## LADIES! LOOK YOUNG DARKEN GRAY HAIR

Use the Old-Time Sage Tea and Sulphur and Nobody Will Know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Willing to Try.

"I'd be willing to try and come to some agreement. Of course, that 's just my own opinion. I'm not speaking for the Etobicole Council, altho some of the other members may favor the proposition."

In otes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggily, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold. Don't stay gray! Look young! Either

prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recomstrand at a time. By morning the gray hair disappears; after another congratulation application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. #### Receipts for Dainty Salads

ALADS are the most appetizing additions one can make to the daily bill of fare. A rich dressing makes their food value high and the succulent vegetables that usually compose them furnish the minerals

It is only a matter of practice for anyone to produce a smooth dressing, but for those who have no time for the blending, mixing and beating of eggs and oils there are a host of ready-made dressings that more than equal the average home-made article.

The following salad mixtures will afford satisfaction when blended with fine mayonnaise or a French dressing. They are pungent, rich and should tempt the most jaded appetite:

Molded Tomatoes: Chop celery fine and season it with salt and pepper.
Scoop out the inside of small tomatoes, remove the seed and chop this and

mix with the celery and said dressing. Fill the tomatoes with this and place on a heap of shredded lettuce with a spoonful of dressing.

Chorus Girl Salad: Dice enough lobster meat to fill a pint measure and chop a few mushrooms and cut some water cress fine. Mix this together and season very delicately with celery salt and white pepper. Sprinkle about ten drops of vinegar over all and cover for twenty minutes. When

#### Marshall's blue shirts is over, the Na-tional Hockey Association title for 1914-15 will just about be awarded. BEACHES LEAGUE STAGE PLAY-OFFS

Two sizzling fast games were staged by the Beaches Hockey League last night decided after a lot of real hard playing. The first game saw Grand Trunks and Diamonds come together, and the latter won by the score of 3 to 0. As there was a three-cornered tie in their funior group, the Diamonds will now meet Dominion Express in the final for the group honors on Tuesday evening. The game was 'ast from the start, and both teams checked hard. The winners led at half-time by the score of 1 to 0, but pull way in the last half and won out easily. The line-up: The line-up:
Diamonds (3): Goal, Glynn; defence, Whale and V. Menton; rover, Harrington; centre, J. Menton; right wing, Ingoldsby; left wing, Sanders.
Grand Trunks (0): Goal, Hayton; defence, Scully and Montford; rover, Masson; centre, Guthrie; right wing, Wilson; left wing, Walker.

However, both goalkeepers were in form, and at half-time no tallies had been registered. Maitlands, by slapping in three in quick succession, won out and saved the day. There was very little to choose between the teams in the first half, but in the last half Broadviews wings failed to break away and Maitlands walked thru and scored. The line-up:

Maitlands (3): Goal, Lee; defence, Harper and R. Rowland; rover, Guthrie; centre, N. Rowland; right wing, Haight; left wing, Burk.

Broadviews (0): Goal, Mishaw; defence, Parks and Ingham; rover, Philippett; centre, Elston; right wing, Pillar; left wing, Brooks.

Fred Waghorne, sr., handled both games well.

#### HOCKEY GOSSIP

This afternoon Varsity will stage another double-header at the Arena, and both games should be hummers from start to finish. In the first one at 1.30, Varsity juniors, with a one goal lead over the Berlin Union Jacks, will endeavor to hold this margin and so enter the junior O.H.A. semi-finals. This is the return game of the third round of this series, the first one having been played in Berlin on Wednesday night, where the blue and white boys pulled out by a 3 to 2 score. At three o'clock Varsity seniors will try conclusions with the Toronwill put them out of the reach of Ottawa practically for the season, while a reverse will put them down, and may just let them out in second place. That both teams will do some real battling is a certainty, and there should be no dull moments in the sixty minutes that will see the struggle.

#### **EXTEND TREATIES** FOR ARBITRATION

Proposal That U. S. Re-Establish Foreign Relations Not Without Opposition.

WASHINGTON, Feb. 19.—Extension of general arbitration treaties with foreign nations as the first move in the general policy of the administration to rehabilitate foreign relations of the U.S. seemed assured tonight, after the senate had taken up consideration of expired treaties and had closely defined the issues involved in the situation confronting the nation.

involved in the situation confronting the nation.

Before the debate in the senate began on treaties with Great Britain, Japan, Italy, Spain, Norway, Sweden, Portugal and Switzerland, President Wilson had conferred with senators and representatives about the treaties, as well as the paramount issue of Panama Canal tolls. He was assured by leaders of both houses that they would vote to repeal the toll exemption for American ships after the treaties had been ratified.

During his conferences, the president explained that it was the universal view of European nations that the United States had violated the Hay-Pauncefote treaty by the exemption clause in the Panama Canal Act. He said no official representations to that effect had been presented—in fact that there had been no protest from Great Britain during the present administration—but that he knew

Lines Sharply Drawn.

In the senate the lines of demarcation as to the foreign policy of the government were sharply drawn, when Senator Chamberlain of Oregon submitted a general amendment to all pending treaties, which would exempt from arbitration by the Hague tribunal the following subjects: States.

Two Lives Lost and Damage May Reach Million Dollars.

LOS ANGELES, Cal., Feb. 19. - Two lives were claimed and damage estimated at from \$500,000 to \$1,000,000 was wrought by the storm which sent a record rain to six southern California counties during the last two days. At several points near Los Angeles a pre-cipitation of from six to eight inches was recorded between midnight Tues-day and 8 a.m. today. The orange growing section and the railroads suf-fered the most.

At Covina, in the fruit-growing sec-tion, the storm wrought damage esti-

mated at \$100,000. Orange orchards there were washed out. The body of Harold Seitz, a rancher drowned there, was recovered. The body of Emmet Osterman, the 13-year-old boy drowned at Santa Barbara, was believed to have been swept out to sea. Many residences were destroyed in this city and in the low lying section in Orange County hundreds of acres were inundated. The homes of thirty Mexican families in that district were

## MAJOR LIBELED BY **BRITISH WAR OFFICE**

LONDON. Feb. 19.—The British war office system of confidential reports on which officers of the army may be condemned and sentenced to professional ruin without being heard in their own defence, was severely censured by the judge of the King's bench court today. A Jury awarded Major W. Augustus Adam, formerly of the Royal Irish Lancers, the sum of \$10,000 damages against Sir Edward Ward in his capacity as permanent secretary of the war office.

Major Adam, who distinguished himself in the siege of Ladysmith, South Africa, and was at one time employed on special service in Japan, brought a suit for libel, alleged to be contained in a letter written and published by Sir Edward Ward, saying that Major Adam had had to retire from the army in consequence of adverse reports. Major Adam contended that the letter

Garry Herrmann Has Great Faith in National League President-Murphy III

CINCINNATI, Feb. 20.—The news that President Murphy of the Chicago Nationals would not be able on account of illness to attend tomorrow's meeting of the National League proved quite an upset to Garry Herrmann. "I don't know just what we can do or what we shall do," he exclaimed. "Of course, it is neither right nor legal to touch on any alian's of Mr. Murphy in his absence, and since Gov. Tener has not yet arrived, the situation is perpiexing. Still, I have great conndence in "lener. I firmly believe that he has found a solution of all existing problems, without prejudice or injustice to anybody, and that he will tomorrow present a decision which will be acceptable to all of us, even to Mr. Murphy, should that gentleman be unable to a decision, however, I am unable to say what can be done—whether the meeting would have to be postponed or carried on just the same."

When the old town was a hamlet of log houses, with a general store and two taverns, curling flourished among the villagers, hardy ploneers from Scotland, home of the roarin' game. Facilities were limited The curlers cleared a rink on the river and flooded it to glass smoothness from a hole cut in the ice. The "stanes" were solid wooden blocks, for many a season, until players felt able to import the polished granite from the old land. Paris and Ayr, original settlements also, had curling clubs and vied with Galt for west-ern supremacy. Matches were played at Wrigley's Corners and McCrum's Lake, midway points.

For half a century Galt Curling Club has held notable status. Three times it has won that coveted trophy, the Ontario Tankard. The clubroom displayed the banners, significant of these victories, while a large case of medals won by individual members is also among club tr

KANSA'S CITY, Mo., Feb. 20.—When the Chicago American baseball team's special train en route to Paso Robles, Cal., where the club will train, arrived here today, Harry Grabiner, secretary, was handed a cablegram from Owner Comiskey ordering Grabiner to meet him in New York on the arrival of the world's tourists, now in Paris. Grabiner returned to Chicago tonight.

AFTER LEAFS' HOODOO.

MONTREAL, Feb. 20.—Manager Bransfield has obtained the contract signatures of Pitcher Richter, formerly of the Louisville Club, and Catcher Mike Murphy. Pitcher McGraner, after having his salary more than doubled, has come into the fold. Bransfield is going on to St. Louis to put up a big fight to sign Pitcher Dale, the hoodoo of the Leafs, who is said to have jumped to the Federals. The Royals' manager failed to land "Runt" Walsh, who was handed over with Howley and Miller in the Eddie Burns deal.

LACROSSE CAMPAIGN STARTS IN BRAMPTON

Prominent Boosters and Others Billed to Start the Revival-To Explain Plans.

The first gun in the campai ganize school boy lacrosse leag out Canada will be fired at 1 on Monday evening. That scrosse town, where the senior c ship of the Ontarlo Amateur Association rests, was selected a cellent place te start putting scheme into operation. A local tee looked after the breparation meeting, and a number of the le scheme into operation. A local committee looked after the breparations for the meeting, and a number of the leading lacrosse men now working in the revival will also be present. Among the men who will attend from Toronto are James L. Hughes, John R. Robinson, Fred Sinkins, Frank Doyle, Fred Thompson and Jas. Murphy. J. J. Kelly of Brantford and Joe Lally of Cornwall will also be there, and it is hoped that T. Herbert Lennox, M.L.A., and W. K. McNaught, M.L.A., will be able to accept the invitation to be present extended to them. Addresses are to be given explaining the plans for reviving the national game and placing it upon a sound basis among the school boys. The gold medals that are being presented to the leagues among the lads will be shown, the set of twelve now on view in Toronto being taken out there by the men who go from this city. It is expected that the meeting will start the lacrosse feeling in the little home of champions, and help along the game there. If enough teams can be organized among the Brampton boys to make up a strong league, it is expected that the schools at Weston and Woodbridge will be able to supply the line-ups necessary to make a schedule.

The work of organizing leagues in the schools will be continued all next week in the cities of western Ontario. Mr. Doyle and Mr. Lally intend to visit Brantford on Tuesday, London on Wednesday and St. Catharines on Thursday. There is already a great deal of lacrosse enthusiasm in these three cities, and it is expected that they will fall in eagerly with the work among the boys. The local men are already engaged upon the plans. O. S. Eby of Hespeler may attend some of the meetings.

Owen Sound Curlers Win W. Ontario Tankard

ST. MARY'S, Feb. 20.—The finals in the Western Ontario Tankard were played at the rink here between St. Mary's, Owen Sound, London Thistles and Bright. Only four clubs were present, as five defaulted, Windsor, London, St. Thomas, Forest and Wingham. Owen Sound won over St. Mary's by one shot; London Thistles beat Bright by six shots, and Owen Sound beat London Thistles 35 up, the Owen Sound team winning the cup. This is the first time the cup has been captured by the northerners.

Winnipeg Bonspiel.

WINNIPEG, Feb. 20.—Cameron of St. Thomas was put out of the last competition in the bonspiel last night, when McCaskill of Gladstone defeated him, 11 to 8, in the game he needed to win to get into the McLaren semi-finals.

Ponsford of St. Thomas, the only other eastern rink, has been out of everything several days. The big competitions are now all down to the fours, the semi-finals being played today.

W. J. Finlay of Winnipeg leads in the grand aggregate race, with eighteen wins and two losses, and also in the semi-finals in the Tetley Tea and Purity Flour competitions.

mais in the retiev rea and Purity Flour competitions.

Rochon and Braden, the heroes of last year's bonspiel, remain in one trophy each. W. F. Payne of Winnipeg is in the semi-finals of the McLaren trophy. Hudson of Kenora remains in the semi-finals of the Dingwall and Purity Flour. ORR BROS. LEAGUE

Six of These Fruit Liver Tablets for Every Man, Woman and Child in the Dominion.

In seven short years, "Fruit-a-tives" has become the most famous and the most widely used medicine in Canada that has ever been introduced to the people of the Dominion. Even those who take "Fruit-a-tives" regularly and recommend these famous fruit juice tablets to their friends, probably have no idea of the enormous number of "Fruit-a-tives" that are being used by those wishing to regain their health.

"Fruit-a-tives" are sold in every section of the Dominion. On the rugged Atlantic coast, throughout the Maritime Provinces, among the French in Quebec and the English in Ontario, all over the great Prairie Provinces, and on the shores of the Pacific, "Fruit-a-tives" is the best selling medicine in stock.

This is true because "Fruit-a-tives" gives results. For chronic Constipation, Indigestion and Stomach Trouble—for bad Blood, Skin Eruptions and Eczema-for Rheumatism, Sciatica and Lumbago—for Kidney, Bladder and Urinary Troubles—"Fruit-a-tives" cures when nothing else will.

In the head office in Ottawa are hundreds of letters and photographs from grateful men and women who have been cured of sickness and suffering by "Fruit-a-tives." Many of these letters and photographs have been published by permission, and have induced other sufferers to try "Fruit-a-tives." This is one of the factors in the demand for "Fruit-a-tives," which is now sold in every

"The Shepherd of the Hills." "The Shepherd of the Hills," which comes to the Grand next week is a novel, the dramatization having been made by Mr. Wright and Elsbery W. Reynolds. "The Shepherd of the Hills" is an interesting spellbinding story of love, mystery and heroic daring: it gets a grip on life and brings peace to the soul of any man or woman who reads it. The woods and bills are next

to the soul of any man or weman who reads it. The woods and hills are part of God's handlwork. They will give peace and strength to all who seek them. From this play you may, in some measure, feel their influence and know some of the ways of divine providence. You will ask of this story, "Are the characters in the play real people? Does the old "shepherd" live only in the pages of the book or on the stage? Is there a "Sammy Lane" and a "Young Matt?" You will say they are all very familiar, and you they are all very familiar, and you seem somehow to have known them a long time. The scenes may seem new and yet old. If you go to the new and yet old. If you go to the Ozark hills, you will find somewhere a sheep ranch in "Mutton Hollow" and a "Dewey Bald." But it is from a log house above the mists that you will yiew these hills and forests and take of their peace and strength. Its dominating idea was that the employer should be protected against the effect of an accident occurring in his plant. Under the common law an employer was enabled to offer three defences as reasons why his injured employe should not be permitted to collect damages from him. When the number of employes working for an employer was small, the question of responsibility for injury was comparatively simple. That he whose carelessness caused the injury should be held responsible for the damage resulting therefrom is a doctrine which in simple communities is easy of enforcement, works no hardships and creates no unjust conditions, and, in such instances, it is not tion was undoubtedly the natural and tions, and, in such instances, it is not impossible to follow the reasoning which held that an employer should not be responsible for injuries caused by the negligence of a fellow-em-ploye. Under the same conditions it was not unreasonable to believe that an employe should be expected to appreciate the dangers inherent in and peculiar to the employment which he has elected to accept. When the workshop was small and the employer worked side by side with his employes it was natural to expect that the shop would be equipped with all of the necessary safety devices.
But these conditions are no longer

The birth of corporations, the introduction of high power machines, the increase in the number of em-ployes in each plant, and even the relationship between the employer and the employe have so changed conditions that the doctrines which were fair and equitable a few decades ego, are not longer to be tolerated in defining the relationship between em-

My object in thus outlining the origin of the bill was to bring to your mind a clear picture of the conditions which confronted the German Empire during its first years, conditions which were responsible for the introduction of many of the features which we find in many of the workmen's compensation of the bill was to bring to your mind as having two separate and distinct objects. The first provides that in case of injuries the workmen or his dependance of the workmen many of the workmen's compensation ployers in certain occupations shall be acts of recent years, conditions which, duction of a slight change. Prior to 1871, when the new German Empire was formed, the Socialists, as political factor, did not enter into ment, that it was a political benefit raliculations of any of the dominant s. Socialism up to that time had was given to them by a government to soften the effects of repressive legis.

The create in the minds of the people the idea that the relief was the result of operations of a beneficial government of any of the dominant was given to them by a government to so that the following of her example is not insignificant, but it is interesting to s. Socialism up to that time had was given to them by a government to soften the effects of repressive legistic in two Socialist members in rest diet; in 1874 the number had based to seven, and in 1877 to bear the just cost of the industry to bear the just cost of the clusively was rejected.

pendents thru the postoffice department, each of the groups should be assessed for the cost of the payments which had been made during the year to the workmen engaged in their particular industry, together with a small amount to provide for future insolvencies. With a keen realization of the fact that to require the employers to pay out large sums year, but the true measure of the cost of that accident would be the present value of each weekly payment for such a period as the accepted mortality tables would indicate as his prob-able life, discounted of course by interest at an agreed rate. It is this fallacious system which has permitted the German employer in years past to delude himself with the belief that his insurance is costing him but very little. In Association No. 1, for instance, composed of the mining industries, the cost to the employer per \$1000 of wages in 1886 was \$8.91; in 1908 this rate had increased to \$28.06, notwithstanding the fact that the number of warkens insured in this association. workmen insured in this association was 343,707 in 1896, and 798,378 in was 343,707 in 1895, and 798,378 in 1908. Now it will be apparent to you that in any ourrent cost system the introduction of a greater pay roll is bound to decrease the average cost to bound to decrease the average cost to the employer. If, for instance, in this mining association the number of persons insured had remained at 343,707, the cost in 1908 to the disadvantages. the cost in 1908 to the employer think, that in my opinion the ideal would have been greatly in excess of situation would result from the enactwould have been greatly in excess of would result from the enact-section would result from the enact-ment of a law which would provide for the payment of benefits to injured workmen, which would require the classes. Then Form Government and Go Ahead for Hundred Years.

"It is up to Toronto to adopt the plan W. F. Maclean has outlined for relief from congestion," said ex-Ald. May, who has made a close study of the requirements for a greater Toronto and has advocated the plan of establishing police villages that would automatically come into the city when sufficiently developed.

"Mr. Maclean's plan for a metropolitan county is the true solution of the problem. With the Townships of York, Scarboro and Etobeoke and the city forming the metropolitan county, we would have an area for a greater. Toronto that would be sufficient for the rest of this century.

"Our first move should be to get a separate charter for the metropolitan

county. Then we would be to get a separate charter for the metropolitan county. Then we would not be handleapped by rural members as we would did we get only a private bill and have to ask for amendments from time to time. After getting the charter we could form our county government and go ahead with a survey that would be a basis of all our development work.

would be a basis of all our development work.

"The three townships and the city would then be working in unison for the building of a greater Toronto. This would mean a policy in common for transportation, water supply, parks and boulevards, police protection, high schools and thru thorofares. The property outside of the city limits would carry the expense of sewage road. carry the expense of sewage, road paving, fire protection, public schools, etc. The enhanced value of the prowould easily carry the new ex-

pense.

"There should be no difficulty in defining the power of the metropolitan county council so that there would be no clash with the power of the city council. It would be possible to push outward gradually the city street car service, and steadily build up the metropolitan area. The area could provide the roadbed, tracks and wires, and the city could provide the equipment and service. The pumping plant

Thin-blooded people do not remain so from choice, but from indifference; in some cases from despair. People who are pale, languid, with palpitation of the heart, some difficulty in breathing and a tendency to be easily tired are suffering from thin blood. They need only the resolution to take the right treatment and stick to it until upon is Dr. Williams' Pink Pills for Pale People. With every dose they make new blood, and new blood means health and strength. The red cheeks, good appetite, increasing weight and strength that follow the use of these Pills prove their great value to thinblooded people. Here is an example. Mrs. R. Steele, Afton Road, P. E. I., says: "Following child-birth I took a pain in my head which grew so bad I had to call in a doctor. He told me that my blood had turned to water and that I was in a serious condition the treated me four months, but still the pain remained, and my condition was growing pitiable. I lost my appethat I could no more than walk across a room. I was as pale as a corpse, and the doctor told my friends he had but little hopes of my getting better. Fifteen Days for Reckless

Moody and Sankey's hymn book needs must be enlarged if it is to embrace all medern sacred selections for a hymn they haven't got has been dis-

cevered. It is called "Adam and Eve," and the lines contain the choice phrase, "I should worry."

Still it is a "sacred song," because

the people who sang it said so yester-day afternoon in police court: They are performers in the Lyric Theatre, a

Hebrew playhouse on Agnes street, and one of them, Sadie Urbach, did the sing-

ing. Her partner in the skit, to which the police objected, is Samuel Urbach.

Most of the song was in Yiddish, but "I should worry" was said right out in

Sadie maintained it was a sacred

song. It has to do with the adventures of Adam and Eve, and the "I should

worry" was so an interpreter claims. Eve's answer when she was chided for plucking the forbidden apple. The pair were remanded for sentence, with a warning not to again appear before the footlights on Sunday. Last Sabbath a "silver collection" was the admission for

Building to Rank Among Canada's Largest Will Be Built on Park School Site.

One of the largest public school buildev. James T. W. Williams, the ings in Canada will be built on the Rev. James T. W. Williams, the playsround adjoining the old Park Penn, who is alleged to have eloped School, east of St. David street, in ward two. It will be five rooms larger than the big new Connaught School in ward

Clair avenue, was sentenced to 15 days in jail for reckless and negligent driving, thereby causing bodily harm to C. R. Roberts, 6 Clarendon avenue, The new school will take the place of the old Park School and the Sackville Street School.

Another school building which is to be closed, and the classes transferred to enlarged schools north and south of it is that on Cottingham street. The old Park School will be closed. It is out of date, and would cost the price of a new building to modernize.

The Sackville and Cottingham street schools are to be closed because the railway developments in their vicinity are driving the child population north-

WHEN thinking of buying a farm, ask the man who knows. Have you ever heard of Arnold Martin, the Swiss farmer, of Pawnee Township, Nebraska, who makes more money from a twenty-acre farm than any of his neighbors can from six hundred and forty acres, and who says if he had only purchased ten acres instead of twenty, he would have done much better than he has done?

ADVICE GIVEN FREE to inventors who have ideas or invent

Scarboro Township, within three and half miles of this city. Every inch first-class land, well adapted for market gardening. Will sell in block or divide in five acre lots. Six hundred per acre. This small piece of land will make you more money if properly handled than any two hundred acre farm in York County is making today.

ASK THE MAN who knows. If Arnold Martin is too far away, enquire from Mr. D. Harris, who owns a ten-acre tract a few miles from Toronto, and who holds enough first mortgages on Peel County farms to live on the income from them the remainder of his life. This was made from this ten acre farm.

ACRES—Pickering, eighteen miles from Toronto, seven acres of bearing orchard, splendid buildings, modern improvements, well equipped in every way. A country home made convenient like a city place. Beautiful grounds for twelve thousand.

30 ACRES—On Kingston road, near Oshawa, over thirteen acres planted to fruit, best varieties—apples, cherries, pears, grapes and berries. Splendid spring water, good wire fences, ten roomed residence barns, carriage house, piggery and hennery, electric light in house and barn, good soil for gardening or fruit. Ten thousand.

40 ACRES—Yonge street, close to Aurora, a nice spot for gentleman's country residence, running stream through the farm, good frontage on Yonge street. Exchange for Toronto property. Six thousand.

Marked Effect on Rock Island.

Another outburst of buying of Bread common developed on the Toronto stock market yesterday, and the price was raised over three points to another recent high record. Nothing new has been given out in connection with the company otherwise than an increase in the business and prospects of a further growth. The buying was aggressive and the shares were carried to 32 and held.

Thursday s movement in Mackay left an opening for profit-taking, and considerable realizing had to be accepted around \$7, but this was well taken and around \$7, but this was well taken around \$7, but this was well taken and around \$7, but this was well taken around \$7, but this was well taken

gave no special assistance to C.P.R. or Hrazils The latter declined further to 88 1-2 in the earry trading, but at this point support was met and a small rally ensued. Barcelona showed a disposition to follow Brazil, without however, getting any immediate outside following. Toronto rails made a strong run during the afternoon, and closed up with an advance for the day of about two points.

Shredded Wheat was also strong and made 88 by easy stages.

The day's transactions were the smallest of the year.

Some Sharp Declines.

Profess.onal selling made an impression on a few stocks. Rumely shares gave way sharply, the preferred at 5-8 and the preferred at 9 1-8, reached the lowest points at which these issues ever soid. Central Leather developed heaviness following publication of its annual report, which revealed a decrease of \$1,466.000 in total income. A few of the specialin total income. A few of the special-ties were strong. American Ice con-tinued to advance and the electric stocks made a good showing. General Motors, after its spectacular rise fluctuated erratically today, closing with a loss of 2 points.

Known movements of currency during the week indicated only a small cash gain. Forecasts of the bank statement called for an increase in cash holdings of \$1,500,000.

# **EUROPE IS AGAIN**

Export Demand Caused Prices to Rally in Chicago Trading.

CHICAGO. Feb. 20.—Revival of export demand had a strengthening influence today on wheat. Except for an occasional slight lapse, the market was higher thruout the day, and closed steady with a net gain of a shade. Corn finished 1-2c to 5-8c up and oats at an advance of 1-8c to 1-4c, but provisions were off 2 1-2c to 7 1-2c.

Bullish cables made holders of wheat confident from the outset that foreign buying would be in order. The belief: was soon justified by announcement that some business for Europe was being done in the southwest from in-terior points by way of the gulf. Later the fact developed that liberal sales had been brought about here to ex-porters for shipment from the Atlantic

Upturn in Corn.

Corn developed independent firmness on account of better shipping demand, altho the improvement was only slight. There was one instance, however, in which the buyer asked to have shipments rushed. Owners called attention ments rushed. Owners called attention to the diminishing of receipts here, to the scantiness of the eastern supply and to the continued absence of any generous arrivals from Argentina. There was evidence of a good call for oats The principal buyers were elevator companies, thought to be removing hedges on consignments for

This company is now financed by the Timiskaming and Hudson Bay Company, and has all the capital that is required for extensive operations. The pany, and has all the capital that is required for extensive operations. The fact that the subscription books for the new stock issue were closed on the same day as the meeting, seems to the same day as the meeting, seems to show that the Timiskaming Company is getting all the new issue that it can obtain. The machinery at the mine is just about in working shape, and big things are predicted when the company starts producing. As high as 75 cents is talked of this stock by those who are supposed to know, and with the small amount of stock in the hands of the average trader it would not take long for this price to be realized, especially when the last spectacular advance in Dome Lake is remembered.

This dividend is considered tonally good in view of the state of the realty market.

The market is broadening day by day, and a number of prominent brokers interviewed today are of the opinion that we are on the eve of a steady strong market. They would not commit themselves that they expected any sensational boom, but all are of the opinion that the market in general will be very much stronger.

An office boy in one of the broker's offices handed us out some dope to-day that we believe has more truth than fiction. He said that the stocks termed as cats and dogs are the ones that will make the money. It only costs ten or twenty dollars to invest in 1000 shares, and if the market goes up a point or so it shows you about one hundred per cent. profit. He meant by this, the stocks around one or two cents per share
