### SHOULD GRANT A PREFERENCE

#### Royal Commission on Trade Relations Urges West Indies to Make Arrangement With Canada.

(Canadian Associated Press Cable.)  
LONDON, Sept. 26.—(Special.)—The  
report of the royal commission on trade  
relations of Canada and the West In-  
dies, issued to-day, signed by Lord  
Balfour of Burleigh, Hon. Wm. Field-  
ing, Hon. Wm. Paterson, and Sir  
Daniel Morris, comprises  
sixty pages, besides voluminous ap-  
pendices. The commissioners strongly  
represent that the preference granted  
the West Indies by Canada for some  
years has been of great value in fur-  
nishing a favorable market for West  
Indies sugar. Just as the preference  
thru the development of their own co-  
lonial policy have ceased to require  
West Indies sugar as largely as for-  
merly.

The West Indies are strongly urged  
to make reciprocal concessions to Can-  
ada, so that the advantages already  
obtained may be continued. Consider-  
able attention is paid to the contro-  
versy between West India shippers  
and Canadian refiners, as to the exist-  
ence of a West Indian combination to  
obtain excessive prices and the ex-  
cessive concessions made to refiners a  
year ago, respecting the importation of  
a limited quantity of foreign raw sugar  
at preferential rates.

#### Withdrew Special Concessions.

It is recommended in any scheme  
for the betterment of trade relations  
that may be proposed, the special con-  
cessions to refiners be withdrawn, in-  
asmuch as the West Indies would re-  
gard that step as essential, but that the  
percentage of the preference allowed  
by Canada be reduced and made defi-  
nite and unqualified.

The West India colonies in general  
report in favor of reciprocal arrange-  
ments with Canada, except Jamaica,  
which was influenced by the fear  
which the commission think not just-  
ified by making such arrangements  
they would provoke retaliatory tariff  
legislation by the United States.

#### Leave Foreign Duties as Before.

The commission advise that any  
preference to be granted to Canada  
by the West Indies should take the  
form of a reduction of duties on Cana-  
dian goods, leaving duties on foreign  
goods as at present, but so long as  
they are agreed as to the amount of  
the preference to be granted, and  
reasonable time allowed the other col-  
onies to come in.

#### Better Steamship Service Needed.

The existing steamship service is  
pronounced unsatisfactory, and the  
commission recommend that, with the  
co-operation of the British postoffice,  
if possible, a faster service be estab-  
lished, one which would run from Mon-  
real and St. John and another from  
Halifax.

The need for cheaper cable com-  
munication is emphasized. It is sug-  
gested that the cable be brought  
about by consolidation of several  
cable lines with government assist-  
ance, or by the acquisition of cables  
by the several governments concern-  
ed, and the utilization of wireless for  
communication with the smaller  
islands.

#### Press Opinions.

The Standard thinks the results of  
the commission are fair and equitable,  
and the whole report appears to be a  
recognition of the fact that closer po-  
litical relations can only result from  
more intimate commercial arrange-  
ments.

The Morning Post says commonsense  
has been vindicated without any in-  
consistency on the part of the govern-  
ment's free trade representatives and  
hopes the same arrangements with  
Canada, on the lines of the report, can  
be effected without delay.

The Times says the report is of high  
value and in consequence the recom-  
mendation of a uniform preference by  
the West Indies territories, and the  
breadth of mind therewith of the  
free traders, Balfour and Islington,  
approached the task.

### DENIES PROFIT BY BOND SALE

#### Defence of the Alberta Railway Pro- moter is Filed.

EDMONTON, Sept. 26.—(Special.)—  
The defence of the Alberta and Great  
Waterways Railway and the Canada  
West Construction Co., in the suit for  
one-sixth interest in company, or for  
a cash settlement of \$250,000, entered  
by Alfred Hawes of Toronto, former  
shareholder in the Pennsylvania Railway  
Co., was filed in the supreme court here  
this afternoon. It contains the first  
denial ever made directly or indirectly  
by W. E. Clarke, president of the Al-  
berta and Great Waterways Railway,  
of charges that he secured \$740,000 out  
of the sale of government guaranteed  
bonds of the waterways company.

### GVERNOR GIBSON IN B. C.

#### And is Impressed by His Trip Thru the West.

VANCOUVER, Sept. 26.—(Special.)—  
"Vancouver enjoys no monopoly of  
prosperity, for I see vast construction  
forces at work in the entire region  
from Lake Superior to the coast, and  
particularly from Winnipeg to the  
Rockies," said Hon. J. M. Gibson,  
lieutenant-governor of Ontario, who  
with his party in the private car of  
the Ontario Government, arrived here  
to-day.

"He will be entertained by the Scot-  
tish Rite in the Masonic Temple to-  
morrow night. His honor is sovereign  
grand commander of Scottish Rite, A.  
E. and A. M.

### He Fought Ingersoll

#### REV. LEWIS A. LAMBERT.

For over 50 years in the Roman  
Catholic priesthood, who died yester-  
day at a New Jersey sanitarium.  
For many years he edited the  
Catholic Freeman's Journal. In the  
early 80's the Rev. Dr. Lambert  
drew the attention of the Chris-  
tianized world towards him by his  
famous reply to Bob Ingersoll, the  
noted agnostic, then in the  
midst of his attacks upon the  
Christian religion. Both Protest-  
ants and Catholics applauded the  
then practically unknown village  
priest, who dared to meet the  
mighty agnostic in debate. His  
reply was published by the Y. M. C. A. He was 75  
years old.

### RACE DIVISION INJURY TO CATHOLIC RELIGION

#### French Canadians, Says La Presse, Do Not Want Ottawa Di- ocese Divided.

MONTEREAL, Sept. 26.—(Special.)—  
La Presse will not hear of a divided  
Ottawa diocese, saying this evening  
that "we do not dare believe for our  
part that there is any truth in this  
rumor. We are aware that this was  
the program of the Irish Catholics of  
the diocese of Ottawa, for we know  
that they asked either the nomination  
of one bishop for their tongue or the  
division of the diocese on race lines.  
On the other hand the French Catho-  
lics only demanded that the bishop  
should be a man of their own race. This  
however, was denied them, altho they  
were in a majority. Now, however,  
they are not going to ask for the  
division of the races, because they  
have the superior interests of the  
church at heart, and they know that  
the division of the races in separate  
camps cannot but injure the Catholic  
religion in Canada."

### TORONTO MAN MENTIONED

#### In Connection With Goderich Murder —Inquest Opened

GODERICH, Sept. 26.—(Special.)—  
No clue had yet been found to aid in  
solving the mystery of the brutal  
murder of 16-year-old Lizzie Anderson,  
whose nude body with throat cut was  
found in the cellar of a vacant  
house Sunday morning.  
Because Frank Smith, a painter,  
formerly of Toronto, was seen down-  
town the night the girl disappeared,  
and had not been seen since, his name  
has been connected with the tragedy.  
Inspector Greer of the provincial de-  
partment, who reached here to-day,  
found blood in the cellar, and in a  
where the body was found, and is con-  
fident the murder took place in the  
basement.

Coroner Holmes opened an inquest  
to-night. No evidence was taken, and  
an adjournment was made until Tues-  
day next.

Wesley Anderson, father of the girl,  
says she had a brother fifteen cen-  
ts, which she said one Fred Jardine  
had given her. She also told the boy  
that Jardine told her to meet him on  
the street afterwards. Mr. Anderson  
says he went to the Jardine home at  
midnight that night, becoming alarmed  
when his daughter had not come home.  
He could not rouse anybody, but on  
going back again at 1 o'clock next  
morning Jardine's mother told him  
that her son had not come home yet  
and Anderson would likely find him at  
the fair grounds, where he was work-  
ing.

Mame Spatoro, an Italian foreman,  
who boards at the house, and had the  
girl out driving several times, was  
home about 10 o'clock the night of the  
tragedy.

Smith had been working at the organ  
factory here and seemed despondent.

Frank Smith, who is mentioned in  
the Goderich case, lived at 23 St. An-  
drew-street, ward four, since last Good  
Friday, leaving three weeks ago to  
go to Guelph, he said. He is a painter,  
about 32 years of age, rather deli-  
cate and of quiet disposition. His  
last work in the city was at the exhibi-  
tion grounds.

### ACCUSED OF EMBEZZLEMENT

#### Treasurer of Embro School Board Ar- rested for Misappropriation.

WOODBROOK, Sept. 26.—(Special.)—  
A. McNeal, treasurer of the Embro  
Public School Board, is in custody to-  
day, charged with the misappropriation  
of \$500 of funds for the school board.  
McNeal spent Sunday in the village  
locking up and this afternoon his pre-  
liminary hearing was commenced before  
Justices of the Peace Ross, Cody and  
Creighton, with Crown Attorney Ball  
of this city prosecuting, and was ad-  
journed until to-morrow afternoon.

It is alleged that the treasurer drew  
from the treasury in the school board's  
name more money than there were  
funds to meet.

### WATERLOO, 1915 IS A PROPHECY

#### History to Repeat Itself? — Millions of Trained Men for Defence Are Needed.

LONDON, Sept. 26.—Considerable  
discussion has been aroused by a re-  
markable letter written by the secre-  
tary of the Devon branch of the Na-  
tional Service League, published in  
The Naval and Military Record. Under  
the caption of "Waterloo, 1915," the  
writer says:

"History repeats itself and the bal-  
ance of European power that centu-  
ries hence will be the bedrock of our  
foreign policy must once again decide our  
fate. The two power standard is hard-  
ly enough to give us reasonable safety,  
and is at least our naval needs demand.  
The care of three hundred million na-  
tives seething with unrest in India  
may soon require the whole of our  
regular forces to stem the tide of mu-  
ltry. What about Gibraltar, Malta,  
Egypt and South Africa and our in-  
terests in Europe? The least that can  
provide the means to face our trouble  
is a nation trained for war."

"We only fool about and trust our  
destiny to the efforts of a few thou-  
sand gallant patriots who chance to  
volunteer. Untrained, unready, quite  
incapable to take the field with less  
than six months' training after war  
breaks out, stunted and starved, they  
are completely unprepared from our  
life, that prefers its ignorance and  
imbecility to any strenuous prepara-  
tion to defend its homes."

"We want a million men with six  
months' training now, and after that  
another million in reserve, and these  
must be intact when all our regulars  
have left our shores. Without them  
we can neither fight by land nor sea.  
It is evident to all but to our ill-  
formed and apathetic people that our  
supremacy at sea is slipping from our  
grasp, by the neglect of our feebly  
preparation to dictate terms when we  
are least expecting war."

"We must be prepared to send 500,000  
of our finest manhood and maintain  
that force abroad if we would save our  
interests and keep our friends in Eu-  
rope. By 1915 Germany will have her  
navy and jetty and her transports  
ready, and when ready she may strike  
like lightning. Then, not far from Wa-  
terloo, must come the clash of nations  
and the present information, gave out  
that Holland and Belgium were not  
drawing closer every day. We are  
ready harbor a million of the enemy  
within the gates. Our politicians most-  
ly lie, or dare not speak the truth.  
Disaster stares us in the face. At the  
break of war our food supplies will  
fall and our people will starve. The  
pockets of the poor. Employment will  
will cease and starving millions will  
demand surrender."

### REFUGEE CANNON: That town ain't safe any more, William.

#### The Representation of the Provinces in Parliament.

On the line of The World's discussion  
of yesterday in regard to the effort of  
the clerical associates to set up a spiri-  
tual and political primacy in Montreal  
in Montreal, in Quebec and a  
French-Canadian wedge in a lot of the  
Ontario constituencies, we wish to di-  
rect attention to one of two other  
things that are of the greatest im-  
portance.

In the first place, Sir Wilfrid Laurier  
for some reason or other has not been  
able to give any of his own views on  
the subject of the representation of the  
provinces in Parliament. In connection  
with the recent Eucharistic Congress  
in Montreal, he should further be said  
that The Toronto Star, which is very  
friendly to Sir Wilfrid, and has access  
to all the information, gave out the  
statement that Sir Wilfrid Laurier had  
to fight for any recognition in the  
present moment, who was imagine  
and the archbishop were trying to  
"force him" to use an Irishman  
expression and that, in the more  
of the papers, including the  
papers of Ontario and the west,  
to be the political foe associated with  
a cardinal who has the spiritual con-  
trol of all the French-Canadians of the  
Catholic faith thruout Canada with  
headquarters in Montreal. Probably  
Sir Wilfrid Laurier knows that there  
are many French-Canadians to whom  
religious and political freedom is as  
dear as to anybody else, and that  
this attempt to create a new  
religion under the guise of race and  
religion will not succeed, but will  
be rebuked by many men in the pro-  
vince on the banks of the St.  
Lawrence.

But we come now to another issue,  
and that is, the despatch in our  
paper of yesterday wherein it is  
stated that as a result of the recent  
elections in the Province of Quebec,  
Nova Scotia, Prince Edward and New  
Brunswick, some united action would  
be taken to secure a more adequate  
diminution of the representation of  
the maritime provinces in the house of  
commons. As far as anything came out  
of the maritime premiers did not  
touch on the real issue, namely, the  
injustice of having the representation  
of their provinces depend altogether  
on the accuracy of the count of the  
population of the Province of Quebec  
and that the representation of all the  
other provinces, not only the maritime  
but Ontario and all the western  
provinces depends on an enumeration  
of Quebec which was absolutely in the  
hands of citizens of that province. In  
other words, Mr. Bourassa and his as-

### ONCE MORE "ACTIVE."

#### INSURGENT

### LONG CHASE TO CAPTURE A DANGEROUS ITALIAN

#### Alleged to Have Been Prime Cause of Fight Which Ended in Shoot- ing in Ontario Backwoods.

Samuel Salvatore, alias Figliuzzi,  
alias Pesano, was brought to Toronto  
last night by Inspector Boyd of the  
provincial police from Buffalo, N. Y.,  
where he was handed over by the  
United States authorities, and the  
department believe they have  
secured the capture of a man  
closely connected with the tragedy in  
which Raphael Domenzals, drawing in  
Musikola in June last, Domenzals  
was shot while trying to act as a  
peacemaker in a quarrel, and Joseph  
Pesano, now in custody, is to stand  
trial on a charge of murder.

Salvatore was the foreman of a  
wood cutting gang, to which Domen-  
zals and Pesano belonged. On June  
15 last Salvatore approached Pesano  
with a "black hand" proposition. He  
forced the matter with such intensity  
that Pesano was finally thrown to the  
ground, and Salvatore, drawing the  
edge of an ax across the smaller man's  
throat, swore that unless Pesano  
agreed he would cut his throat. Pe-  
sano consented, only to withdraw his  
promise as soon as he regained his  
feet, and attempted to run away.  
Quickly Salvatore caught up a loaded  
gun, fired and wounded Pesano in the  
chest. Pesano ran to his shack and  
secured his own gun. Then Domen-  
zals intervened as peacemaker. Sal-  
vatore was advancing and Pesano was  
mentally tense, but he stepped  
between the two, he fired and  
Domenzals was shot thru the heart.

Pesano and Salvatore took to the  
woods. Provincial Constable S. Mc-  
Elwain of Bala traced Pesano to the  
line of the C. N. R. McElwain tele-  
graphed ahead, and when the train  
pulled into the Union Station here Pe-  
sano was arrested.

It was not until Salvatore had some  
days start that the true facts began  
to leak out from those whom he had  
previously terrorized. A close watch  
was kept on all persons who had been  
in any way intimate with him, and  
finally a letter was secured in his  
handwriting, in which it was intimated  
that he was working near Pittsburg,  
When he was located and arrested by  
the United States authorities it was  
only on the direct request by Rog-  
er Greer, together with a Mr. Thorpe,  
who knew Salvatore well, went down  
and identified him.

### REPORT MAY CAUSE TROUBLE

#### Provincial Analysis of City Water May Be Surprising.

A lively rumour may result from the  
publication of a report of analyses of  
city water made under the direction of  
the provincial board of health. The  
provincial analyst yesterday reported  
to Dr. McCullough, board secretary,  
that his report would be ready to-day  
or to-morrow. It is understood that  
Dr. Sheard, as chairman of the board,  
is not in favor of the report being  
made public, while the provincial sec-  
retary, on the other hand, takes the  
ground that these analyses were re-  
quested by the city council, and that  
Amyot's findings should not be known.

### SHOULD SHEARD HAVE STATED?

#### Some of the Aldermen Thought So—Roads Improvement Expenditure Must Go to People.

Altho some objection was raised to  
Dr. Sheard retiring from his position  
as medical health officer while the Isolation  
Hospital enquiry was still in  
progress, the city council yesterday  
finally decided to accept his resig-  
nation. Judge Winchester and Cor-  
poration Council Drayton, it was stated,  
had declared the resignation would not  
affect the future of the investigation,  
so on motion of Ald. Dunn and Graham  
the resignation was accepted. Ald.  
Rowland and O'Neill submitted an-  
other asking the board of control to  
nominate a successor, while Ald. Mc-  
Carthy asked for a report on the ad-  
visability of appointing a special in-  
spector for the Isolation Hospital.  
"It is discharging an officer whose  
department is under investigation,"  
said Controller Spence, when the resig-  
nation was brought before council, and  
Ald. McCarthy thought likewise.  
"It shows a weakness on the part of  
Dr. Sheard and on the part of this  
council," said Ald. McBride. "If he  
wants to be let out before the Isolation  
Hospital enquiry is concluded."

Ald. Maguire, however, believed Dr.  
Sheard was a man of reputation, and  
was ready to face any charges made  
against the administration of his de-  
partment.  
"Dr. Sheard brought this investiga-  
tion on himself," said Ald. Spence, "and  
he should not be relieved until the in-  
vestigation is over."

For Road Improvements.  
The program adopted by the roads  
improvement committee was endorsed  
by council only after some frank oppo-  
sition, and it is contingent on the rate-  
payers approving a by-law for \$200,000  
expenditure at the next election.

Ald. Chisholm, chairman of the board  
of works, wanted some light as to how  
roads were to be maintained after they  
were improved, and wanted the resolu-  
tions referred to his committee. Con-  
troller Church pointed out that the  
money would be expended in conformance  
with the Good Roads Act, and Con-  
troller Ward explained that the Motor  
League were agreeable to the levying  
of a tax on their automobiles, to much  
more than \$20,000 a year towards the main-  
tenance of the roads.

Ald. Spence maintained that the im-  
provements would only allow a narrow  
margin in the city, while Ald. Phelan  
questioned the propriety of the adop-  
tion of the motions was putting the board  
of control in a ridiculous position. The  
board has cut down the appropriation  
to the board of works for our own  
road improvement by-law for \$100,000  
from \$40,000 to \$15,000," he complained.

#### A Grist of Ideas.

With a view to the preventing of  
unfair discrimination in the delivery  
of express parcels in certain portions  
of the city, Ald. McCarthy, seconded  
by Ald. McCausland, succeeded in hav-  
ing a motion passed in which the board  
of control is asked to apply for a nec-  
essary amendment to the Railway Act.

Controller Ward had a motion passed  
that the city should request the board  
of Ottawa be requested to request the  
council and police commissioners on  
the advisability of having the water  
works under the control of one head,  
to enforce proper regulations.

The question of the city granting a  
new lease to the Dominion Govern-  
ment for 21 years of part of the Gar-  
rison Commons for a site for store  
buildings, was referred back to the  
board of control.

The board's recommendation for  
granting a permit to what was a  
fish factory, Cariboo, was  
opposed by Ald. Baird and Ander-  
son, but went thru, and the Diamond  
Coal Co. may have a railway siding on  
the east side of Jarvis-street, altho  
the board of control wanted the mat-  
ter referred back. The Queen City Oil  
Co. also got a siding on the north side  
of Antler-street, and the board of  
control referring back the new Turner's  
proposal carried.

On motion of Ald. Rowland it was  
recommended that a dam be erected  
around the reservoir, and that the city  
engineer report on the advisability of con-  
structing a dam in the reservoir to divide  
it into two basins.

### ROOSEVELT'S RAILWAY BILL

PHILADELPHIA, Sept. 26.—John H.  
Devine, a shareholder in the Pennsylv-  
ania Railway, has written the gen-  
eral manager asking what steps have  
been taken by the company to collect  
a sum estimated at \$100,000 alleged to  
be due by ex-President Theodore  
Roosevelt for special trains, etc., dur-  
ing his term as president.

### GUELPH CARRIES RADIAL BY LAWS.

GUELPH, Sept. 26.—(Special.)—The  
two People's Railway by-laws, the one  
money and the other a franchise by-

### Straw Hats Are Called In.

Do you know that there are a great  
many men still wearing summer hats?  
Honestly, we were quite shocked yester-  
day when we stated our own count  
of them. All the new felt hats are  
so there is no excuse for this sort of  
thing. The Dineen Company announce  
the arrival of the last shipment to  
complete the fall and winter display.  
The Dineen Company is sole Canadian  
agents for Henry Heath of London,  
England, who makes hats for His Ma-  
jesty the King.

**VIOLENCE NOT SHOWN SAY CORONER'S JURY**

Inquest on Body of Baby Found in a Valise in Hamilton House.

HAMILTON, Sept. 26.—(Special).—An inquest was held to-night into the death of the baby which was found in a valise at the home of William Batstone, 80 North John-street, last week. The verdict of the jury was to the effect that there was nothing to show that the child had come to its death thru violence, or that it had ever lived. Detective Sayce testified that Miss Jessie Sweet, the girl arrested in connection with the case, told him that the child was hers, and that it was born at the Batstone home eleven months ago. Mrs. Batstone, however, denied the latter statement. Drs. McNicol and Edgar, who conducted the postmortem examination, said the little body was dried up so that it looked like a mummy, a condition that was unusual. They did not think there had ever been life in the body, but, owing to the condition in which they found it, it was pretty hard to tell whether there had been or not. Coroner Dickson had charge of the inquest. Crown Attorney Washington conducted the examination of the witnesses, and George Kerr, K.C., was present in the interests of Miss Sweet. She was not asked to give evidence.

**SAY POLES ARE A DANGER**

Electric Light Company Ask for Injunction Against the City.

Claiming that the manner in which the city is erecting its electric power poles and wires is a menace to its own plant, the Toronto Electric Light Co. yesterday applied to Justice Middleton for a restraining injunction. Argument will be heard to-day. The company claim that there are now some 285 actual contacts between the city poles and the wires on other poles, and that there are 200 cases where contact is likely. John C. Cooper, electrical engineer, of Rochester, has made an affidavit to the effect that he regards the type of construction as extremely hazardous to the lives of the operators of both the plaintiffs and defendants and to the customers of both, as well as the customers of the Bell Telephone Company, and to the lives of the public generally. He is of the opinion that the construction endangers the satisfactory service of the public by the Electric Light Company, and that this construction is at radical variance with the point of safety, with accepted practice.

Mr. Irwin, manager of the hotel, intends to send to the zoo in a couple of weeks a splendid fawn.

Jumps on Moving Glen Grove Car and Sustains Severe Injuries.

**NORTH TORONTO, Sept. 26.—(Special).**—His foot slipping under one of the wheels of the \$15 southbound Glen Grove car as it was slowing up at Kensington-avenue, C. H. Church, a visitor from Vancouver, was stopped at 35 Clinton-street, was thrown down, sustaining severe injuries. The wheel passed over his right foot, severely crushing it and cutting off three or four of his toes. He was otherwise bruised and was at once attended by Drs. Bond and McCorkrick, who, after considering that aid, ordered his removal to Grace Hospital, where his injuries were attended to.

**WANT TO SEE SIR THOMAS.**

The proposal to wait upon Sir Thos. Shaughnessy, president of the Canadian Pacific Railway on the occasion of his next visit to Toronto, which is suggested by a large number of suburbanites at such points as Leaside, Agincourt, Eglinton, and Scarborough, looking to a better suburban service, has aroused a lot of enthusiasm. It is proposed to ask Sir Thomas to consent to the stopping of the 10 p.m. Ottawa train leaving North Toronto at that time, likewise the early Ottawa train reaching the city shortly after 7 o'clock in the morning. It is felt that a big suburban traffic, both passenger and express, would follow the inauguration of this service and the visit of the president is waited with interest and hopefulness.

In a letter to Mayor Geary, Dr. John A. Amyot, who has himself been prominently mentioned for the position of medical health officer, strongly recommends the appointment of Dr. H. W. Hill of Minnesota (a Canadian), whom he describes as "a man of character, of backbone, of strong mental and physical vigor, who inspires confidence at sight." Dr. Amyot implies the mayor "not to let 'patty politics, personal feelings or prejudice stand in the way of vital interests of the citizens of Toronto. For the sake of our citizens and your duty don't let the chance slip thru your fingers. He is one of the very best qualified men in America for the work to be done here. I know this personally."

**SAYS ATLAS IS INNOCENT**

But Statement in Support Jars With Crown Information.

Again the innocence of "Rev." Geo. M. Atlas, twice convicted, and now in penitentiary, is asserted by William Douglas, his counsel. Yesterday Mr. Douglas published the statement that a report had been received from an emissary sent to Turkey to recruit two alleged witnesses of the receipt for \$100 to the widow of the murdered man, Simons, for the forgery of which Atlas is now serving six years.

Mr. Douglas declares that his messenger saw Tanas Christo and Vani Moutseph, a Turkish rug merchant, who declared that they had signed the receipt and witnessed the payment as declared by Atlas, and were willing to come to this country to testify; also, that in addition to the communication of his messenger, he had had word from the British vice-consul at Monastir, Turkey, that they had been taken before him and so stated.

County Crown Attorney Baird, asked with regard to the crown's position in the matter, said: "The crown's belief in Atlas' guilt is unshaken. I have read Mr. Douglas' statement and can only say that it does not coincide with communications received by the crown from the British vice-consul and that it is difficult to conceive that both could be true."

It is learned that the Turkish Government has signified its readiness to send certificates of the non-existence of the two witnesses who Atlas still declares signed the receipt. It is also pointed out that at the trial, Atlas swore that Tanas Christo was one of the villagers, while in the statement, he, with the other man, declares that all the others present at the time were strangers.

Mr. Douglas declares that \$1500

would be needed to bring the two witnesses to Toronto, but from the expense of the crown in bringing across witnesses, it is said it could easily be done for \$600, and probably for \$500 or less. It has been claimed by one of the Atlas workers that \$700 has been subscribed in his behalf.

Children's Coats of Every Attractive Sort

For the Small Kiddy, For the Toddlng Baby, and For the Infant.

Style enters into the question of the baby's coat just as surely as it does into that of the opera cloak or tailored suit for the baby's mamma. Dowdiness is as undesirable in the juvenile garment as in the adult. Smartness is as much to be appreciated in the one as the other. All of which being so, the present showing of coats in the Children's Section is worthy of particular note, for in each production individuality and pleasing effect are strongly characteristic.

One coat is of the popular reefer class, in warm cheviot serge, with collar fastened at the throat, and velvet points and embroidered ornaments applied to the sleeve in nautical fashion. It is lined with light-weight serge, and is procurable in red and navy, and in sizes to fit 2, 3 and 4 years .500

The coat pictured is one of a splendid assortment in bear cloth coats of the cosy, furry sort associated with baby freshness and softness. This shows the cloth of fancy curl, deep pointed collar trimmed with silk braid, buttons and silk tie. It is lined with warm flannelette, and is procurable in lengths 22, 24, 26. The variety of choice is demonstrated in the following list of leading lines: 2.50

**CHICAGO GOSSIP.**  
J. P. Bickell & Co. say at the close: Wheat—Lower. Dullness and professional pressure closed values 1/2c to 3/4c lower. Visible supply increasing, but mostly at strong. Outside interest extremely dull, and local sentiment bearish. Accept moderate profits temporarily until market breaks.  
Erickson Perkins & Co. had the following: Wheat—Liverpool spot wheat closed unchanged. There was very little demand for cash wheat here, but Minneapolis reported a good demand for spring wheat. The big mills reported four demand fair, while the small ones say it is a local professional character. The market ruled dull, within a narrow range.  
Corn—The farmers have stopped selling. The cash demand, however, was very quiet. We are inclined to think present prices are low enough for the time being, and if the market holds steady look for a better demand.  
Oats—Country offerings were very light, but there was absolutely no cash demand. With stocks so large and demand so light, we look for prices to drag lower.

J. P. Bickell & Co. say at the close: Wheat—Lower. Dullness and professional pressure closed values 1/2c to 3/4c lower. Visible supply increasing, but mostly at strong. Outside interest extremely dull, and local sentiment bearish. Accept moderate profits temporarily until market breaks.  
Erickson Perkins & Co. had the following: Wheat—Liverpool spot wheat closed unchanged. There was very little demand for cash wheat here, but Minneapolis reported a good demand for spring wheat. The big mills reported four demand fair, while the small ones say it is a local professional character. The market ruled dull, within a narrow range.  
Corn—The farmers have stopped selling. The cash demand, however, was very quiet. We are inclined to think present prices are low enough for the time being, and if the market holds steady look for a better demand.  
Oats—Country offerings were very light, but there was absolutely no cash demand. With stocks so large and demand so light, we look for prices to drag lower.

# Autumn Festival Exhibition

## of Our Homemaking Departments To-Morrow

On Wednesday every Home-furnishing Department will be making a special display of their new Autumn merchandise. Interesting windows on Yonge and Queen streets will give you a slight idea of what is awaiting you on our Fourth and Fifth Floors.

All admirers of the beautiful and useful will enjoy this exhibition, for the things we want you to see are the best of their kind, and will not be found elsewhere.

You'll find a suggestion of the soft autumnal feeling that prevails these September days reproduced in the beautiful "Colonial" and other fabrics, and shining through the veiled soft beauty of avenues curtained with lace. Beside the new Furniture and Wall Paper on the Fifth Floor, home-makers will be interested in the artistic display of china and glassware that will be found in the new Basement. You'll find it well worth your while to visit every one of our home-furnishing departments to-morrow, if you want to see what is best and newest, and most artistic.

## Home Decoration 5th Floor

### Practical and Pleasing Effects for the Walls

A careful selection will very much improve the appearance of each room by giving added height, length, breadth, increasing or diminishing the light of the room as desired.  
A fairly large pattern will tend to make a medium size room larger; a smaller pattern will do the reverse. Stripes of colors will increase the height, and patterns running across the walls will have a tendency to lower the appearance of the rooms.  
Light colors will make a room large, and dark colors have opposite effects. The newest color effects run into tawny, warm browns, brown greys, fawns, biscuit and grey plaster colors, wood shades in greens and blues, pumpkin, orange, yellow and ochre tints, blues and browns, Jap. metallic blends. They are suitable for dining rooms, halls, dens and libraries.  
The new rough cloth faced English oatmeal, on permanent colored stock, is having a well deserved run. It lends itself to so many pleasant treatments for so many rooms.  
Japanese leathers, with their peculiar Jap metallic effects, so cunningly blended, make excellent dados or all walls for the heavier rooms.  
Hof, the new wall treatment of woven fibre, in plain weaves or with a shot of metallic.  
For parlors and drawing rooms, two-tone flat effects and silk or satin papers, in filled and hot roller embossed soirettes, imitation tekoks, or heavy coated stock in light colorings of green, old rose, champagne, ecru, blue, yellow, grey and old ivory, are used with plain wall, paneled, crown and base treatments, or English friezes in soft colorings to blend with walls.  
The bedroom designs and colorings are beautiful, with their pretty, cozy, bright decorations. The cut-out floral and conventional designs for uppers, dividers and panel or pendant, are often used over plain or floral stripes, and are made up to suit each room. The colors are mostly pink, blue, mauve or yellow on white, fawn on grey, buff on pink or yellow grounds.
