

# A New Lay-Out For Spring

We are starting our New Spring Business under a new system, just like you will do when you lay off the old suit and don the new one. Our old system was a good one and served us well, same as your old suit did but now we have a brand new system in our stores that spells for bigger and better business. You might not notice anything different when you come in because it's not a change that affects the stores' personnel in any way. Our new system will help you because it means better service (and that's something we were always proud of), a wider scope in the merchandise selections, better facilities for made-to-measure garments, if you prefer them, and a splendid Men's Furnishing Section.

We have started on a new business year after closing one of the most successful in our history. We aim to make this year the best of all, that's one reason why we have changed the whole of our system. We are not chesty when we say we are a big firm because we have made ourselves big by doing things just a little bit bigger and better every year. We realize that you are watching us, that your eye is upon us and by the same token it's your eye we want to catch with our nifty clothing for men, young men and boys. Every one of our Salesmen has a suggestive mind. He can and will gladly help you with suggestions as to the proper clothes to buy, and, by the way, there is a heap of difference between suggesting and urging isn't there? The latter is never indulged in by anyone in our store, that's why so many people tell us they like to deal here. Perhaps it's because we have realized that our store is our day time home and we throw open our doors to you with all the good will and welcome we can put into words and sincerely hope you will soon visit our big clothing home to see the new Spring garments.

Equipment Necessary for Over Four Thousand Beds in This District.

### LESS THAN HALF NOW

Question of Taking Over Military Hospitals and Stores Discussed.

Questions concerning the taking over by the military of the Military Hospitals Commission's hospitals, barracks and equipment were gone into at Toronto headquarters yesterday by Col. W. Hallick, director of stores, and Col. E. E. Clarke, director-general of supply and transport, who came from Ottawa for that purpose. It was pointed out as one of the necessary arrangements that sufficient equipment should be carried to meet the needs of 4,000 hospital beds, which will be the ultimate establishment. At present there are 1,800 beds. Plans for the Toronto district mechanical transport to have thirty ambulances were formulated. The Ottawa authorities were asked for six ambulances with side cars and six with stretchers for emergency work. To enable those to run Col. Clarke will ask for the formation of a mechanical transport sub-depot and also new accommodation in Toronto in the way of garages, so that the new mechanical transport can properly handle its problems. Plans were also laid down by which a new depot unit will be formed in Toronto to handle the "incoming tide of returned men." The unit will have a commanding officer, a second in command, adjutant and several other officers, all yet to be named. There will be a meeting in Ottawa on Saturday, March 16, to discuss the new scheme and see how it is to be applied. There will also be a meeting of paymasters in Ottawa to consider the question of pay, on a date not yet fixed. It is most emphatically stated that in the changing over of the control of the military hospitals every effort will be made to maintain the same standard of diet for the soldier-patients.

### RECITAL OF DANCING

Younger Girls of Physical Training School Provide Interesting Program to Large Audience at Foresters' Hall.

Fathers, mothers, and tots of all sizes gathered in overflowing numbers at Foresters' Hall last night at the recital of dancing given by the younger girls of the Somers school of physical training, Miss Verna Watson appearing in a series of special dances. A bright Russian dance opened the program, followed by a number of group figures, in each of which the little ones showed grace and skill. In the second group the "Rose Ring" was particularly attractive, and in the nursery rhymes and characters Bo Peep, Little Jack Horner and the Three Blind Mice and others all added to the fun of the evening. Features particularly well done were the Flower Polka, in which little Edna Fraser danced gracefully while she threw carnations from her basket to the audience. Miss Verna Watson appeared in the "Moon Dance" and in the closing number, "On to Victory," in which she appeared as a knight in armor with flag in hand and sword drawn to protect it, was a charming closing tableau.

### DECIDE ON GRANT TO HELP STRIKERS

Trades and Labor Council Hears Deputation From Weston.

### TAXATION OF LAND

Consideration Given to Case of an Edmonton Letter-Carrier.

Frank Barber, representing the Single Tax Association of Ontario, who asked the Trades and Labor Council at last evening's session at the Labor Temple for its influence at Queen's Park for legislation for the heavy taxation or confiscation of all non-producing land in and around the towns and cities of the province, stated that the only effective way of helping the allied cause was that of producing food, and therefore that of taxing land as a means of forcing production from it. Continuing, Mr. Barber stated that while it might be true that the workingman with 50 acres would be taxed and the multi-millionaire with a mansion might not be taxed under the single-tax system, a deeper understanding of the situation would show that the millionaire by paying exorbitant prices for his suits, overcoats and food would really be paying a considerable portion on the purchases back to the land, since the foods and the fleeces and other materials used in the manufacture of cloths came primarily from the land. Delegate R. H. Cox stated that the government had a lien on the labor man. Why then he asked, should any lien be considered on his land? Delegate R. J. Stevenson asked the assembly to be sane for once, and not to approach the legislature on matters which it never would consider. Another voice: I'm against all these shoddy reforms. The suggestion was finally referred to the legislative committee. Delegates Fred Bancroft, Walter Brown and T. A. Stevenson were appointed representatives to the meeting which is being held at the city hall today to discuss the mobilization of farm laborers. On motion of T. A. Stevenson it was decided to impress upon the government the need of raising the salaries of postoffice employees. The motion arose from the receipt of a communication from Edmonton, stating that a letter carrier had been sentenced to three years' penal servitude for stealing moneys from three different letters. Delegate King stated that low wages were often responsible for such lapses. Delegate Cox: I protest. I would suggest that an honest man is always honest no matter what his circumstances, and a thief is always a thief, even though he might as such be enjoying very large salaries. Await Further Word. Fred Bancroft pointed out that as Wilson, the man under discussion, was a returned soldier, he would suggest that the council wait for further information from the Calgary office, and that the Calgary Trades and Labor Council be asked to urge the governor of the province to grant Wilson pardon. T. A. Stevenson stated that returned soldier or no soldier such a precedent would encourage dishonesty. Fred Bancroft: Not a question of dishonesty. This man has been much disabled; he has a wife and family. I feel we are upholding the dignity of the labor movement in demanding that this man be pardoned. Let us give him a chance to retrieve himself. Walter Brown moved that the case be investigated, and then if Wilson

could not be pardoned, he should certainly ask that he be pardoned. Delegate Bancroft's suggestion, as an amendment, was carried. T. A. Stevenson, W. Brown, W. J. Storey, R. J. Stevenson, P. C. Crilben, A. Conn, W. Stockdale, J. Young, J. Ralph, D. Bick and James T. Gunn were elected to the Labor Day committee on matters which it never would consider. Appeal From Strikers. The metal polishers now out on strike against the Canada Cycle and Motor Co. asked the Trades and Labor Council at last evening's session for a grant to help them continue the fight. The resolution to donate \$50 and to advise all the locals of the plight of the metal polishers was carried by unanimous vote. During the course of the discussion R. J. Stevenson asked their representatives, Delegates Muldoon and Charbonneau, if it were true that they had had their wages raised twice in three months. They replied that the two occasions had been five and not three months apart. W. J. Kennedy, president; E. Brooks, vice-president; C. J. Mitchell, secretary; treasurer; of the Civic Employees' Union, and the following members were installed to their places on the council: J. E. Reid, A. Goodwin, J. Brown, A. Chalmers, W. E. King, R. Flatley, W. White, B. Lucas, S. Dean, Ward, Quinn and Fraser.

## WAR SUMMARY

### THE DAY'S EVENTS REVIEWED

The Germans have increased their forces in France and Belgium by thirty divisions over the number maintained there last year. This reinforcement probably has for its purpose the counteracting of the strength to be brought into the field by the United States, Britain, France and Italy combined have larger forces than Germany and Austria-Hungary together. The allies have carefully withheld any discussion of information about their expected offensive, but it is believed that signs of its approach will soon be seen. As the French, who began their 1917 offensive with unsatisfactory results, in the middle of April, complained that, by reason of the earliness of the season they suffered serious handicaps in moving up the artillery and in consolidating the captured ground, it is expected in some well-informed quarters that the allies will delay their great stroke until about the first of May. The prospects of a German offensive have become small on the western front; the suggestion is now that the enemy will undertake an offensive against the allied armies north of Salonica.

The allies, however, have large forces in the Balkans, with the Greek army in process of mobilization and training. If the Germans choose this theatre of the war for an offensive, they will probably use Bulgarians and the Turks for the hardest fighting, but the allies have strengthened their defence and are ready to make the enemy attack so costly as to be not worth the sacrifice. The allies, meanwhile, may not wait for the enemy to attack them, but may proceed to attack him in conjunction with the main allied offensive. It was for the purpose of consolidating the offensive powers of the allies that the supreme war council has sprung into being at Versailles. With Rumania out of the war, the enemy secures the release of about 11 divisions, but some of these will proceed to Odessa. If the allies undertake a Balkan offensive and succeed, they can rest their right flank securely on the neutral territory of Rumania.

The Germans, despite earlier reports of a receding of their advanced guards in Russia, have penetrated to within 88 miles of Petrograd and have occupied an advance of 32 miles since the signing of the peace. It is the evacuation of Petrograd that is bothering the enemy. He wants to seize and military stores which the Russians are removing. The population, meanwhile, is calm. Many believe that they would as soon live under German Government as under their own government. The dominance of Germany over them would at least remove the necessity of sometimes having to think for themselves. These advanced guards of slavery are striving to force the German yoke upon their country and to make use of the central position of Moscow for the installation of their destructive theories. The world is wondering what they will do when the Japanese intervene. Finland has joined Rumania and the Ukraine in making peace with Germany. Before the signing of this treaty the Bolsheviks virtually recognized Finland's independence and agreed to withdraw from the country. This was in order to facilitate the German settlement. The Bolsheviks in deserting and making war against Rumania, virtually compelled her to surrender and thus furnish another strong piece of evidence that they are controlled from Berlin. The cession of Dobruja and the Russian provinces between the Black Sea and the Caspian, including the ports of Constanza and Bakoum, will give the enemy, if he is allowed to keep his territory, an alternative route to India and the far east, to replace the loss of the Bagdad route. The Petrograd majority Socialists, meanwhile, have decided to recommend that the Russian congress of Socialists accept the German terms. They are giving their advice in the form of a plea for the revolution and an alarming diagnosis of the malady afflicting the Russian army. They now say that it will not fight.

FOUNDED 1880

FRIDAY MORNING MARCH 8.

Asking the Soldiers to Pay.
Mayor Church's proposal that the city's charity offerings to the war funds be funded and left over to be paid by the soldiers when they come home from the trenches is not one that appeals to those who desire to do the square thing by the soldiers and by the city.

What is objected to, then, is the 8.33 mills of charity voted to the war funds to help the soldiers, to take care of their dependents, to look after the sick and wounded, and for other benefits for the men who are giving or risking their lives.

The idea of postponing the payment of this \$5,000,000 until the soldiers come home and have to pay it themselves is about as unworthy a proposal as was ever placed before the public.

It isn't the small taxpayers who are objecting, but the men with plenty of money, the capitalists and landowners. Mayor Church should rather encourage everyone to bear his burden cheerfully, but it is nothing short of contemptible to ask that the payments be left over until the soldiers come home and help to liquidate the liability.

Prop. Rep. for Farmers.
Farmers in England are looking to proportional representation to improve their position in parliament, their influence with the government, and the consequent improvement of their position thru legislation.

Major Appleton, at the annual meeting of the Darlington, Durham and North Riding Chamber of Agriculture, declared that the agricultural element in a mining county was always outvoted by the miners and never received any representation.

Slaves of the Clock.
A correspondent in Stroud writing from the farmer's point of view finds fault with the government for adopting the daylight saving plan, which has been found so advantageous in Great Britain and other countries.

WAGES INCREASED.
Freight Handlers, However, Do Not Return to Work.
Up to a late hour last evening the freight handlers' strike situation was stated to be unchanged.

Even more significant is the way The Toronto Globe is going on. Not long ago it was demanding complete railway nationalization. It wanted the government to take over all the roads, including the old Grand Trunk and the Canadian Pacific.

The Newspapers of the Railway Interests Still Busy Knocking Public Ownership

There is a systematic effort on foot to sidetrack further railway nationalization. A few weeks ago the opponents of public ownership announced that the Canadian Pacific would be allowed to remain under corporation management.

Now, however, we are being told that the Grand Trunk lines are not to be taken over. The Ottawa correspondents are busy assuring us that the Grand Trunk can only be acquired by negotiation and that the necessary negotiation is to be postponed until Sir Robert Borden visits England next summer.

There is, we believe, no barber in the Union government, but the Union government would not be disgraced by having a man who once worked in a barber shop as one of their number.

Other People's Opinions

Daylight Saving.

Editor World: I see in today's paper, an editorial on daylight saving. Last year the Hon. Sir Geo. E. Foster tried to put a bill thru parliament and after some discussion, when a good deal of fun was made of it and some western members said they had daylight to burn, the bill was properly thrown out.

Even more significant is the way The Toronto Globe is going on. Not long ago it was demanding complete railway nationalization. It wanted the government to take over all the roads, including the old Grand Trunk and the Canadian Pacific.

These mealy-mouthed utterances contrast strangely with the brave words of The Globe a few weeks ago. Then The Globe was for complete railway nationalization. It took it for granted that the old Grand Trunk was to be promptly nationalized, and snorted at the suggestion that even the Canadian Pacific, which is a solvent, going concern, should not be taken over.

Now, however, we are being told that the Grand Trunk lines are not to be taken over. The Ottawa correspondents are busy assuring us that the Grand Trunk can only be acquired by negotiation and that the necessary negotiation is to be postponed until Sir Robert Borden visits England next summer.

VETERANS PLEASED AT GRANT FROM CITY

They Are Glad There is No String Attached to the Money They Get.
Satisfaction was felt among the members of the G. W. V. A. yesterday at the grant of \$1,000 recommended by the board of control, and while no official statement was given out the greatest satisfaction lay in the fact that Controller Sam McBride's "string," to quote one veteran, was lopped off from the grant.

TRESPASSERS ALLOWED TO GO

Pleading guilty to the charge of trespassing on the farm of J. A. Parsons, York County, and with absconding with the Lord's Day, George Whitworth, 18 years of age, William Sutton and Peter Meagher, were dismissed by Magistrate J. G. Kilpatrick of Knox College, who in his address was present, should be kept in the largely expository, and that the G. W. V. A. was for every age. He said Capt. Paulin came to them with a very large experience, both in the mission field and at the front, and he would help them to understand and also to act in the new times that were coming.

### BAKERS MEET IN WAR CONFERENCE

#### New Laws Governing Flour and Food Products Subject of Discussion.

#### AS WAR MEASURES

#### Over Two Hundred Bakers of Bread Endorse New Rulings of Government.

Two hundred and twenty-five bakers from all parts of Ontario met in conference yesterday afternoon in the Musician's Hall, University avenue.

Prof. R. Harcourt of Ontario Agricultural College, Guelph, was present to explain the new regulations governing flour and bread, which comes into force March 15. B. E. Trench of Toronto read the regulations sent out by Canada's food board, and the same were discussed separately by those present.

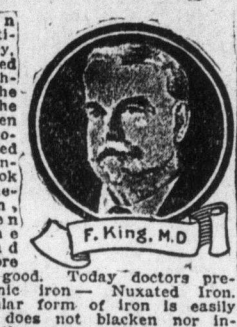

The regulation forbidding the wrapping of bread brought forth much discussion. Many of the bakers in the smaller towns did not favor this measure, as they had gone to considerable expense to equip shops with machinery and had paper on hand; they had built up a large trade through this medium. D. Hilton of the Hilton Bread Company, Toronto, said that it was to conserve material and labor, also to lessen the cost of bread. He pointed out that one large business had 40 tons of waxed paper on hand for this purpose, but was willing to adopt the measure. Representatives from London and Stratford strongly opposed the unwrapped loaf and endeavored to get a resolution thru asking the government to grant permission to those bakers who desired to sell the wrapped loaf, providing they add the extra cost of paper and labor to the price of loaf. Prof. Harcourt explained that this was a war measure and was in the best interests of the public. The majority present voted to agree with the ruling and to sell the unwrapped loaf.

**New Flour Question.**  
The ruling forbidding any baker to have in his possession any high-grade flour after March 15 brought forth more discussion. The trouble with many seemed to be that they had placed orders, but the uncertain deliveries thru weather conditions, which had detained all freight, would leave nearly all with more or less forbidden flour upon hand. What to do with this flour if not used by the 15th was the question. After much talking the solution was arrived at by Prof. Harcourt suggesting that a permit be granted to those who, thru no fault of their own, might find themselves in this condition. The length of that permit was decided by the majority present, and a suggestion will go to the food control board at Ottawa to allow two weeks after the 15th for disposal of the high-grade flour. "We want to do what is fair," said a number of speakers, and it was in this spirit of fairness that the whole conference was carried out. The small baker in the country town gave his views, which were listened to and discussed as earnestly and carefully as were the ideas and suggestions of the city man.

### Recipes

By Toronto Women

**Mrs. George Moxam, Belleville, asks for a recipe for homemade laundry soap. The following are good and have been tested:**

**For One Cake.**  
Always wear rubber gloves or paper bags on hands for protection when soap making.  
Dissolve one tablespoonful lye in one cup cold water. Add one pound of melted fat and stir with a stick or wooden spoon always in the same direction until soap is thick and smooth. Pour into a wet mould of tin. Be careful to give plenty of time to set or it will crumble.

**Economy Soap.**  
One can lye, three pints cold water, one tablespoonful ammonia, five and a half pints of fat, one tablespoonful borax. Four water and stir with a stick or ammonia, melt fat and strain. When both fat and lye are lukewarm, pour lye into fat and stir until well mixed, about ten minutes; set aside and stir frequently until quite thick; pour into pan or wooden box lined with paper; let stand 48 hours, cut into pieces.  
Any kind of waste fat may be used for soap making. The housewife should conserve every bit of fat each day until she has the required amount for recipe. Several Toronto housekeepers say they have tried soap making and use nothing else for household work.

**TRY MAGNESIA FOR STOMACH TROUBLE**  
It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried pepper, bismuth, soda, charcoal, drugs and these things will not cure your troubles. In some cases do not even give relief. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bismuthated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bismuthated magnesia which you can obtain from practically any druggist in either powdered or tablet form.  
Take a teaspoonful of the powder or two compressed tablets with water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat. You will find that provided you take a little bismuthated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow; moreover, the continued use of the bismuthated magnesia cannot injure the stomach in any way so long as there are no symptoms of acid indigestion.

Mrs. Pottinger, Miss Grant and Miss Baldwin in charge. Nearly all the women reported to Mrs. Barry Hayes, Mrs. Grant's three charming children, who have the most lovely manners, shaking hands with all their visitors and talking to everybody in the most perfectly self-possessed manner.

### LOCAL ORCHESTRA IN THIRD CONCERT

Toronto Symphony Organization Grows More Into Public Favor.  
Under the baton of Frank S. Weisman the Toronto Symphony Orchestra made its appearance at Massey Hall last night in the third concert of the season. As on former occasions the orchestra was on the part of the players and director was conspicuous throughout, the appreciation of the audience broke out spontaneously at the close. The artist was twice recalled and in the encore to which he responded, he revealed himself as an adept in the facile dexterity of words as in the flow of vocal sound. The second offering was a group in which the "Smuggler's Song" was perhaps the favorite. Other numbers were, "Mother of Mine," "Follow Me Ome," and "Damosos's "Danny Deever." Applause and recalls followed Mr. Middleton through his program.

### NEW WAY TO INDIA OPENED BY ENEMY

#### German Taking of Black Sea Ports From Russia Significant.

London, March 7.—The Times says that in the full extent of the treaty between Russia and the central powers issued from Berlin, the following article has been added to the draft of Feb. 21: "Basing themselves on the fact that Persia and Afghanistan are independent states, the contracting parties pledge themselves to respect the political and economic independence and territorial integrity of these states."

This has attracted attention because indicating the absolute dominance of the German military party now as before in the war in insisting upon German world dominance and in thinking far ahead. Why should Persia and Afghanistan be mentioned? Because the Germans have lost the Bagdad route via the Persian Gulf to the east. Therefore, a new route is being conceived. First, Germany demands Dobruja and the port of Constantza for Bulgaria, then Batoum on the east shore of the Black Sea from Russia, also the railroad east. This railroad aims at Tcheran. So the designs upon Persia or Afghanistan have become obvious. With Russia pledged to evacuate the Black Sea to the Caspian territory the way is opened.

Special to The Toronto World. Galt, March 7.—"I am willing to die in the defense of my books," declared W. V. Franklin, a colored adherent of the International Bible Students' Association, when he was informed by Magistrate Blake this morning that he had been found guilty of having copies of "The Finished Mystery" in his possession, contrary to order in council, and was fined \$100 or three months in jail. He had no money and was about to take the jail term, when a fellow Bible student in the back of the court room arose and announced that he would pay the fine. Franklin had refused to hand over the books to the police when requested and his reason was, as he told the magistrate, "for conscience sake."

### SHIPWRECKED MEN REACH HALIFAX

#### Survivors of French Steamer Wrecked Off Coast of Newfoundland.

Halifax, N. S., March 7.—Six survivors of the French steamer Acadien, formerly the Senlac, of this port, reported lost off the Newfoundland coast with Capt. Scott and six of his crew, arrived here today from St. Pierre, Miquelon. Their names are: P. C. Harris, Halifax; Fred Levesque, Louisbourg, N. S.; A. L. Power, Halifax; and A. Moore, St. Pierre, and two unknown firemen.

Second Mate Foster says that the Acadien had sailed from Louisbourg on Feb. 15 for St. Pierre, encountered severe weather, and when off that port had her rudder smashed. There was then a heavy gale, and Capt. Scott could not induce his crew to take to the boats. He then ordered four of the officers into the boat, followed by two of the crew, but before any more could escape the boat was torn away from the Acadien. The six men were picked up by the Ethie.

The Acadien was last seen showing distress flares. Letter wreckage came ashore near Burin, and one body was washed ashore.

### ENQUIRY UNTIL MAY.

### CANADIAN VALOR AGAIN

#### Canadian Associated Press Cable.

London, March 7.—Stirring thumb-nail sketches of individual bravery are related tonight in The Gazette in connection with the distinguished conduct of Canadians, Sergt. Anderson Eaton, machine guns, and Sergt. H. D. Niven, who received the decoration mainly for carrying wounded under heavy fire.

Eaton carried no fewer than eight men to the dressing station. Niven got a wounded man away three miles when he was himself wounded by two shells, which also wounded a driver, killed four horses and smashed three wagons.

Sergt. R. S. Hackett, Sergt.-Major Hersee, Sergt. Wagborn, all machine guns, received medals for keeping guns going under thrilling circumstances.

Hackett was in charge of four guns of an eight-gun battery. Only one officer survived and the crews were reduced to two per gun, but Hackett dug his guns out as they were buried by shell fire.

Hersee did the same with four guns when the officer was killed. Wagborn did likewise, and further dug out six men and dressed their wounds.

Three men made remarkable captures. Corporal P. H. Lindell took a gun and 14 prisoners, including an officer.

Rumford killed two crews, capturing a gun.

Four other men, Pte. C. Simmons shot seven of the enemy, completely breaking their line.

Privates I. W. Scott and W. C. Strang saved many lives of our men thru prompt action after a mishap with ammunition. The pin of a bomb came out, whereupon Scott shouted to six men near to get clear, groping himself in the dark to find the bomb, the fuse of which he heard burning, and threw it over the parapet, where it immediately exploded.

Strang tried to throw a bomb likewise over the trench, but slipped on wet ground with the bomb and fell back. Strang again threw it this time successfully.

### HUGE LOANS MADE TO BRITISH ALLIES

#### Bonar Law Announces in Parliament Figures of War Expenditure.

London, March 7.—Great Britain's loans to her allies up to Feb. 9 had totalled £1,261,000,000, Andrew Bonar Law, chancellor of the exchequer, announced in the House of Commons today. Loans to the dominions had reached the sum of £130,000,000.

The national debt at the end of the financial year, the chancellor said, would not exceed £5,000,000,000.

The average daily expenditure from the beginning of the financial year up to Feb. 9, Mr. Bonar Law set forth, was £6,827,000.

The chancellor moved a vote of credit of £600,000,000, bringing up the total since the outbreak of the war to £5,842,000,000. The treasury has sufficient funds to carry it along for the remainder of the financial year. The new vote is intended to start in on the new year, beginning April.

The chancellor said the total of recoverable loans was £206,750,000. There is £121,000,000 owing to the extension of operations in Mesopotamia and Palestine and the increased cost of commodities.

Mr. Bonar Law said he recognized that what had happened in Russia made it doubtful and would cause a difference of opinion as to the prospects of recovery of the whole of the money advanced to Russia. The matter could be better judged, he is of opinion, when the budget was introduced, but meanwhile he would treat the sum as recoverable.

The daily average expenditure for the army, the navy, and munitions, the chancellor stated, has exceeded the budget estimate by £64,000. Loans to the allies had exceeded the estimates by £23,000, and miscellaneous expenditure by £242,000.

# The Dominion Income War Tax

## Its Meaning and Application

THE Dominion Income War Tax Act, passed at the last session of Parliament is now in force and all those liable to taxation under the provisions of the Act must file the required returns for the year 1917, on or before 31st March, 1918.

The Act provides that there shall be assessed, levied, and paid upon the 1917 income of every person residing or ordinarily resident in Canada, a tax upon income exceeding \$1500 in the case of unmarried persons and widows or widowers without dependent children, and upon income exceeding \$3000 in the case of all other persons.

Corporations and joint stock companies carrying on business in Canada, no matter how created or organized, shall pay the normal tax upon income over \$3000. The fiscal year of corporations and joint stock companies may be adopted if desired.

**Your Immediate Obligation.**—You are now required by law to fill out in triplicate, one or more of the five special forms enumerated below. Read the particulars about the forms provided, then note the form or forms that fit your case. Don't forget to make three copies. You keep one copy, and in the case of Forms T1 and T2, deliver two to the Inspector of Taxation for your district. In the case of Forms T3, T4 and T5, two copies must be filed with the Commissioner of Taxation at Ottawa.

**Penalties.**—Default in filing returns renders the person or persons liable on summary conviction to a penalty of one hundred dollars for each day during which the default continues. Any person making a false statement in any return or in any information required by the Minister of Finance shall be liable on summary conviction to a penalty not exceeding ten thousand dollars or to six months imprisonment, or to both fine and imprisonment.

### FORMS TO BE FILLED IN AND FILED

**Individuals.**—Form T1 is for all individuals having the requisite income. Fill in pages 1, 2 and 3, make no marks on page 4.

In giving particulars of dividends received, state amount received from each company, listing Canadian and Foreign Companies separately.

Partnerships as such need not file returns, but the individuals forming the partnerships must.

**Corporations and Joint Stock Companies** must fill in Form T2, showing total income. Amount paid during the year to Patriotic and Canadian Red Cross Funds, and other approved war funds, should be shown under Exemptions and Deductions. A financial statement should also be attached. In giving particulars of dividends received, state amount received from each Company, listing Canadian and Foreign Companies separately.

**Trustees, Executors, Administrators of Estates and Assignees** use Form T3, to state particulars of the distribution of income from estates they are handling. A separate form is required for each estate and total incomes must be given as well as distribution thereof.

**Employers.** On Form T4 employers shall make a list of the names of employees and amounts paid to each in salaries, bonuses, commission, or other remuneration wherever the combined sum of such remuneration for the calendar year 1917 amounted to \$1000 or more. This applies to all classes, regardless of number of such employees.

**Corporations Listing Shareholders.**—Corporations and Joint Stock Companies shall list on Form T5 Shareholders residing in Canada to whom Dividends were paid during the calendar year 1917, stating the amounts of dividends and bonuses paid to each.

Don't wait till the last minute. Get the necessary forms now, and make your information accurate and complete.

## Everybody Knows Dr. Chase's Receipt Book

"Ever since I can remember, this was the most valued book in the bookcase."—Mrs. S. Thompson, Smith street, Kingston, Ont.

"Mother has had Dr. Chase's Receipt Book for 20 years, and I tell it is a good one."—Mr. John Miller, S. Salt Spring, B. C.

It may be safely said, without fear of contradiction, that there is no more useful book to be found in any home than Dr. Chase's Receipt Book. The proof of this statement rests in the fact that several millions of copies have been sold, and it is sometimes said that the circulation is second only to that of the Bible.

From the time he began the study of medicine it was a hobby of the doctor to collect all recipes and prescriptions of exceptional value. There is so much of the doctor's own experience and history woven into these recipes that you cannot use his book without feeling that you know him personally and appreciate his sterling character.

The Receipt Book was soon widely circulated, and aroused so much favorable opinion towards the doctor that he found the demand for his medicines far greater than he could supply. This led to the latest edition of Dr. Chase's Large Receipt Book, containing over 1,200 pages, will be sent, postpaid, on receipt of price, \$3.75, by Edman, Bates & Co., Ltd., Toronto.

decision to select a few of his most successful prescriptions and place them on the market for general sale.

This action met with some criticism from the medical profession, but Dr. Chase's motto was "the greatest good to the greatest number," and one cannot estimate the suffering alleviated and the lives saved by this generous action on the part of the doctor.

The use of Dr. Chase's medicines has become so general that there are few, indeed, who do not know something of their sterling merits. So enormous have the sales become that imitations have been put on the market and substitutes are offered by unscrupulous persons who seek to steal the reputation of their originator.

But the doctor has protected you by having his portrait and signature printed on every box of his medicines. By taking care to see these on the box you buy you can be certain that you are getting the genuine.

Dr. A. W. Chase's medicines are for sale by all dealers, or sent on receipt of price by Edman, Bates & Co., Ltd., Toronto.
