It was reported by the Military Information Bureau, Exhibition camp, last night, that the Mauretania, with the 75th and 102nd Battalions on board, will dock at Hailfax around noon today. The docking of this transport is earlier than was expected and it will possibly mean that the battalions will arrive in the city on Saturday instead of Sunday, as predicted.

Solosky was questioned, and in the meantime Detective Maurer went to Solosky's home, and on searching his room found a trunk containing "red flag" and a number of "Bolshevik" pamphlets, the publication and having of which is prohibited. Maurer communicated with the central office, and Solosky was placed under arrest charged with "having objectionable literature in his possession." The money found on the prisoner was locked up in the detective office, and the prisoner removed to West Dundas Street Station. Harold Grawley, an eight-year-old boy living at 350 Quebec avenue, had his skull fractured and sustained a deep cut over his left eye last evening when he was run down by a motorcycle, near Humberside Collegiate. Tony Vinitry, 150 Quebec avenue, driver of the motor cycle, was arrested by Acting Detective Hazlewood on a charge of criminal negligence.

According to the story of the accident told by the police of Keele street, there is a sharp curve in the roadway on Humberside avenue, where the accident happened. Vinitry, the police say, was driving south on Humberside avenue at a fast rate and unable to make the sharp turn with his motorcycle, shot over the sidewalk and collided with young Grawley. The injured boy was picked up unconscious and carried to his home. His condition is critical.

The death occurred yesterday morning of Anton J. G. Simmers, 1261 Yonge street. The deceased retired as usual Tuesday evening, apparently in the best of health, and was discovered dead in bed in the morning. It is thought that the cause of his death was hemmorhage.

Since his father's death in 1883, Mr. Simmers, with his brother Hermann, carried on the seed business of J. A. Simmers Co., Ltd., 147 East King street. He was born in Toronto and educated at Upper Canada College. He is survived by six children and was a member of Christ Church, Deer Park.

Of the premises and succeeded in collecting \$1800 belonging to the Austrians.

This was more than they could stand, to see their good money being taken from them by such an easy method. One more venturesome than his fellows seized his gun and opened fire. The Italians were quick to reply, with the result that five of the Austrians were badly wounded and fell to the ground. In the excitement that ensued the eight Italians made their getaway with the \$1800. One Austrian is shot in the abdomen, two 'thru the legs and two have bad scalp wounds. They are all

Special Cable to Toronto World From William Allen White.

Paris, June 2, 1919.—In England there seems slowly to be approaching an end or a crisis no one knows which. Since the armistice everyone has been waiting, capital, labor, tenants, landlords, politicians—everyone, waiting and watching someone else. Capital is waiting for labor to move. Labor is waiting for capital to show its hand. The Tories are waiting for the radicals to announce a program and the radicals are waiting to see what the traffic will bear. And above all, like an exalted cat at a ra-hole, waits Lloyd George, ready to head whichever procession starts definitely to move.

Yet the British revolution, bloodless, deep and fundamental, is sweeping on while everyone waits. The coalition party controlling parliament—of Tories, Liberals and Radicals—is working cautiously yet effectively upon revolutionary changes. The coalition is made up of forces which in America would be symbolized by Senator Lodge, Senator Hiram Johnson and Samuel Gompers.

To Build Houses.

To Build Houses.

That coalition is now considering three bills, one to provide for houses built by money from the national treasury under supervision of the local

Municipalities apon confiscated land; another bills to take over railroads and all public highways, and, third, to nationalize all mines and all mineral rights.

Even to consider such things breeds social unrest, and the land is full of unemployed policemen just demobilized charged certain other policemen. Follow members back, the Policemen's Union, and while the employed policemen beat their fellow members back, the Policemen's Union issued a statement regretting the need of such action, and declaring that the strikers were justified in their attack. Now the Policemen's Union is demanding more wages, pensions, shorter hours, freedom from military orders, and recognition of their union. Four of the demands have been granted and a strike of all the London police has been voted to secure the other demands have been granted and a st

L'oyd George the Leader,

But business goes on as usual, the prices of food being gradually boosted after being summarily reduced early in the spring, and parliament continues day by day to draw nearer nationalization of housing, transportation and mines, with labor radicals waiting for these three measures to be passed to demand nationalization of electric power, docks and shipping. And everyone in England knows that Lloyd George will be the next leader of the radical labor group. He is waiting until it gets sufficient power to overcome the coalition parliamentary majority, which grows smaller weekly.

Premier Hearst. And this fact may have been justification for refusing the interview. The premier had ample notice of the intention to seek the interview, but he had engagements elsewhere than at his office for the time appointed. The strikers cannot be blamed if they perceive in the treatment they received a frank intention to countenance the employers' side of the dispute and force the men who are out to unconditional surrender. It is debatable whether good tactics or good sense ordered such treatment. The demand of labor for the 44-hour week and collective bargaining is not local or confined to Canada. Both claims are making headway in every country of industrial importance thruput the world, and it cannot possibly be regarded as a concession to the Bolsheviki, or the forces of lawlessness if some sort of official consideration be given to the subject in Ontario or any other province of Canada.

The men have one standpoint, and the employers another.

the subject in Ontario or any other province of Canada.

The men have one standpoint, and the employers another. As soon as the war had concluded the men were exhorted to co-operate for maximum industrial production. In maximum production they were told was a practical method of providing employment for all labor. The labor unions had only one word to say about it, viz., that they should be recognized in the planning, organizing and directing of this maximum production. The 44-hour week was part of their plan, and their collective bargaining was only a way of saying that the tollors' participation in post-war production should be democratic. But if this be all that separated the workers and employers of Canada at any time since the warended, it really seems absurd that the strike was not avoided. Nor is it less abourd now that the breach cannot be closed up and a real foundation made for the promotion of industrial peace and of maximum production under conditions quite fair to labor.

Premier Hearst is not, unless he is greatly misunderstood, blased against the workers. Public opinion is keenly observant of the attitude of government towards the many and anxious signs of social unrest. Men of all parties and of no party are saying everywhere that our sovernments both in Ottawa and Toronto are nerveless and intellectually cataleptic.

Sincks, secretary of the central strike committee, Calgary, and the other to V. Hollingworthy, secretary of the Alberta Methodist conference. The prime minister's telegrams were in reply to messages received by him. The message from Mr. Sincks to the prime minister conveys a long resolution passed by the Brotherhood of Dominion Express Employes, condemning the announcement by Postmaster-General Blondin, that postal employes on strike should be considered dismissed. The telegram conditied:

A resolution from the executive that the city be asked to plan for motor service with routes laid out in case of a strike in the city railway, drew out a good deal of discussion. J. I. Hutchinson felt that something should be done about the matter, A very difficult situation was approaching. The men on the street railway were asking for shorter hours and an increase in pay such as would necessitate an increase of 400 employes at a cost of a million more than at present. The speaker moved, seconded by W. Farragher that representatives should ask the board of contoil to accede to the request for the formation of systematic motor service in case it be neded. The resolution was carried.

All the speakers made it very plain that they took sides with neither the company nor the men, they merely wished to work in the interests of citizens who would want to get about their business.

How Can I Save---With Profit?

Many wage-earners are asking themselves this question.

They do not want to put a quarter in the bank at a time, and before they know it, it is gone for trifles.

The Government has provided a simple plan to enable you to save that quarter in such a way that it will earn you more money.

Twenty-five cents buys a Thrift Stamp. Sixteen Thrift Stamps become a War Savings Stamp, for which the Government will pay you \$5.00 in 1924:

If you lend the Government your savings in this way, you can make your money earn over 41/2% compound interest as often as you save \$4.00 odd. That is more than Savings Banks pay you.

This is not only easy and profitable investment, but patriotic investment, because the Government needs money for the heavy financing of the reconstruction period.

A Better Way for Labor.

There is still a great gulf between the employers and the employed, which makes any settlement of the various matters in dispute difficult. It is not easy to discuss intimate matters across a gulf, and it is too easy to misunderstand what is said at such distances. There is more or less suspic.on on both sides. There is real loss, labor, if it wants anything, and labor and, if not suffering, serious inconvenience on both sides also. And there is the indomitable belief on the part of each that his party is right. And they are both right-granted their premises.

But both sides have failed to regard the man who is suffering most, who is neither employer nor employed-the consumer. One labor speaker yesterday was discussing the capitalistic press, which he said sought to sow dissension between the worker and the citizen. The World does not feel that any such charge applies to its columns. In fact certain capitalistic authorities have accused it of Bolshevism because we have tried to see both sides of the most important problem in the world. There is therefore no defence necessary for pointing out that there are others to be considered besides the

employer and the employed. The consumer cannot help himself. He must go on consuming or decease. But if he goes on consuming while there is a failure of production the state of affairs is growing rapidly. worse all the time.

We got a glimpse of that during the war, and we willingly economized on food and other matters. There is more need for economy today than there was at the war's worst times, but the gormandizers have let out all the slack, the waste of food is as bad or worse than it ever was, and in a general way we seem to have forgotten all the lessons the war was supposed to have taught us. The reckless spirit that comes from having lived on loot has seized us, and the rise in prices has given many people a false sense of the value of money, so that they scatter it about and expect to recoup themselves thru higher wages and salaries which thru higher wages and salaries, which, year. He said the exact date of taking of course, must come out of the con-

a government with a will and purpose concerned solely with the interests of the nation as a whole and not wholly engrossed in the pigs-in-clover political puzzle of shaking all the right votes into the properly colored holes.

Labor has expressed disgust over the attitude of governments to their requests. But their disgust is nothing at all compared with the disgust of the ordinary voter of the consuming class, The workingman may declare that the government never does anything for him, but just listens to the average citizen-a thing, by the way, which no government ever does. The average citizen is a guileless creature in regard to governments, and reads the 13th chapter of first Corinthians every day in order to put it in practice towards the government. He suffereth long and is kind. He seeketh not his own. He beareth all things and believeth all ls that the smiling sweetness of thy way things, hopeth all things and endureth all things. That is why governments survive as long as they do. Governments owe the ordinary citizen a lot, but they never acknowledge it.

The labor man has appealed to the government, and he has confronted the capitalist. But he has made no overture to the ordinary man, who is his natural ally. He has too often pro- Proclamation is Distributed at ess, altho he condemns this condition f mind in others.

But he would be wonderful materia to work on if the labor men would smooth out their differences, unite for political action, and determine to use the power they have in controlling the government, instead of frittering away their influence on strikes. The extremists will not agree with this, because they are young men and dramatic and spectacular. But a working agreement could be arrived at among labor men to support eligible candidates, to join forces with the farmers, and generally to get representatives of labor and the ordinary man into the parliaments. The government could settle the

strike and a thousand other things from a political point of view by passing a bill establishing proportional representation, but the government is not wise enough to do this, nor anything else until it is driven to it. So must not forget that the nation won't stand for revolution, must organize its forces politically, and with a fraction of the effort involved in strikes it could sway the whole political situation. The platform of the Independent Labor party is one that would be acceptable to any ordinary citizen if it were placed before him. But the only thing the ordinary citizen sees of labor literature are tracts breathing laughter and destruction-direct action, they call it - till the ordinary man has no other idea than that the

Food is still scarce and the prices have been set by profiteers. There is a remedy, and the profiteers. There is a remedy, and the soldiers are home. All the soldiers are home. All the soldiers will be home before November unless all announcements err. But the referendum will be taken "as soon as practical" after the soldiers have returned. POLITICAL NOTES

It appears that Attorney-General Lucas, speaking upon a very hot day upon the muddled question of the liquor referendum, was misunderstood by his own press. So he telephoned yesterday to his chief, Premier Hearst. It is wrong to assume from what the attorney-general leally said that we shall have a general leally said that l

The debate was opened by Major Mowat. The major's speech might have delighted the judicial committee of the imperial privy council, but it fell on the dull ears of an inattentive house. No one except a lawyer could have followed it, and he would have had to be surrounded with the statutes and law reports. The major's contention, briefly stated, was that the special act of 1902, conferring such wide powers upon the Toronto and Niagara Power Company, was never intended by parliament to take away the rights of the municipalities. The whole trouble, he said, arose from whole trouble, he said, arose from faulty draughtsmanship. Major Mowat was more happy when he put away his brief, and talked from the shoulder. He said that parliament had often restricted the powers granted by it to private corporations. In this connection he referred to the Bell Telephone Company, which was brought under the jurisdiction of the railway commission in 1906, after a hard fight, in which he said that Houghton Lennox of South Simcoe, the sympathetic strike of telegraph in a tie-up of the country's telegraph and telephone communication.

"The primary reason for the trouble now threatening thru the Atlanta strike," said Mr. Konenkamp, "is the failure of the wire administration, thru Postmaster-General Burleson, to appreciate the force of and carry out the labor policy of President Wilson."

The postoffice department's wire control board announced that reports reaching it from Atlanta showed that the sympathetic strike of telegraph whole trouble, he said, arose from nation-wide proportions and resulted faulty draughtsmanship. Major in a tie-up of the country's telegraph brought under the jurisdiction of the railway commission in 1906, after a hard fight, in which he said that Houghton Lennox of South Simcoe, now Mr. Justice Lennox, and W. F. Maclean of South York had borne an honorable part. The case for the comhonorable part. The case for the company was presented by Mr. H. S. Stevens, Unionist member for Vancouver. Mr. Stevens insisted that parliament is being called upon to deal with a quarrel between the city of Toronto and the parkers. deal with a quarrel between the city of Toronto and the power company by amending the railway act. He argued that if the company had powers which should be taken away, then direct legislation with that end in view should be presented. In this view Judge D. D. Duncan Ross of Middlesex did not believe that the Mowat amendment would prejudice the people who had invested in the securities of the Toronto and Niagara Power Company. The assets of the company, he said, would be ample to meet all fixed charges. He said the fight was not one between the city of Toronto and the power company, but it was a struggle which concerned every municipality in the Dominion.

Hon. Frank B. Carvell made a strong speech against the Mowat amendment, pointing out that the whole muddle could be cleaned up by the province of Ontario and the city of Toronto buying out the various power companies and their transmission line. The companies are willing to sell out, lock, stock and barrel, at a price to be fixed by some impartial tribunal.

"Oh, not very much." I repeated his answers to my other questions anent Robert, father and mother, etc.

"But I think he told you a lot. It will make you so easy about little Robert and your father and mother. But didn't you ask him a thing about Neil?"

In this time,

"It is ridiculous for him to have talked that way. I know Neil is worried and anxious; what man as young as he who made so much money wouldn't be? But the very idea of his daring to say that Neil must 'change his tactics.' It is almost insulting." Then, after a moment's silence, I added: "I hope you won't repeat that to Neil, I wouldnot let him know you had questioned the man about him or his affairs if I were you. He doesn't like anything that looks like interference, you know," I said, thinking of his wish that his aunt would go home.

OF THE COST OF LIVING

special Committee of Commons Take Quick Action at First Meeting.

Ottawa. June 4.—Despite the heat which induced a number of members to attend in their shirt sleeves, considerable interest was taken in the organization meeting this morning of the special committee of the house to investigate the cost of living problem.

Mr. George B. Nicholson, east Algoma, who was elected chairman, said that if the committee is to do anything to settle the unrest in the country because of the cost of living it would be necessary to get at the causes of present high prices and let the people know what they are. The inquiry, Mr. Nicholson said, should be wide open and confined to definite lines.

H. H. Stevens after pointing Mr. H. H. Stevens after pointing out that it would be impossible for the inquiry to cover a wide range during the remaining days of the session, moved a resolution suggesting that the boards of trade in all the larger industrial centres of Canada should be asked to appoint a committee to supply the committee of inquiry with information relating to retail and wholesale prices. Mr. Stevens' resolution was adopted in the following form:

That with a view to assisting this the following cities, viz., Halifax, St John, Quebec, Montreal, Toronto, Hamilton, Fort William, Port Arthur, Winnipeg, Regina, Calgary, Edmonton, Vancouver and Victoria, to form a committee consisting of president committee consisting of president board of trade, president of Trades of board of trade, president of Trades and Labor Council, president of G.W. V.A. and two representatives of women's organizations, or such persons as the foregoing organizations may appoint. Such committee to ascertain the base cost to importer or manufacturer of following stable articles: boots and shoes, ordinary articles of clothing, meat and meat products of packing companies, fresh and cured; flour and cereals, coal, milk and bread; also average rentals for residents of working classes, also average general rate of bank interest on commercial paper; also the ultion commercial paper; also the ulti-mate retail prices charged in ordinary retail stores to consumers, delivered, of such articles.

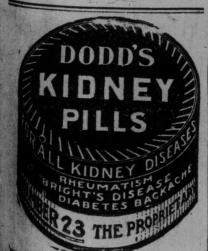

PARLIAMENT TO CLOSE BEFORE END OF JUNE

Ottawa, June 4.—It is practically certain that morning and Saturday slitings of the commons will commence next week with the fixed determination of winding up the session before the end of June. In view of the fact that a fall session is almost certain to be held and that the franchise act will go over until then it is believed to be possible to bring about prorogation in three weeks.

The autumn sesion is expected to convene in October and last about two months,

LEAFS SPLIT DOUBLE BILL WITH WILTSE'S WILD HERD

Hard Battling to Win First by One Run---Justin Weakened in Tenth and Bisons Captured the Second Fixture Three to One.

The Leafs failed to climb yesterday when they had the chance. The Baltimore Orioles had a tough tussle to get an even break with Newark. Two vic-

issued a walk in the tenth, supplied a wild pitch to help along the base-

runner. The Herd dropped in a double and a single for two runs and the old game was gone. The final was 3 to 1.

Brother John Paul Jones can pat nimself on the back that the goddess of luck has picked him out for her own. J. P. J. did the mound duty for Gibson in the first same yesterday, and the long gent had a very large afternoon trying to keep the Buffalo Bisons from scoring. The beats managed to stall them off the first same yesterday, and the long gent trouble in nearly evaculation of the trouble in nearly evaculation of the first end of a 3 to 2 score and stable the right end of a 3 to 2 score and stable the right end of a 3 to 2 score and sandberg slipped up once. These little things made it uncomfortable for the fars on a hot afternoon.

A double play pulled Jones out of trouble in the second. The Herd opened the third with a single, but nothing came of it. The lid was pried off in the fourth, after two were down. Strait singled and stole, and Casey's smash drove him in.

The Leafs came back with the equalizater in their half. After Holden skied out, Andy strolled, and McInnis' two-corner rap let him home. Sandy beat out one to short. But Jones fanned. Gonzy walked and Breck lifted to right. A double play again came in handy in the fifth for the Leafs to stop Buffalo, and in the Toronto half another run was produced. Whitey opened with a single, and Onslow sacrificed. Holden skied out, and yet older when Loudy threw badly to first on Holden's roller, and Anderson rolled to short, the return being tool late to get Whitey opened with a single, and Onslow sacrificed. Holden skied out scored Onslow.

The Bisons sacred one in the ninth. Adouble play again came in handy in the fifth for the Leafs to stop Buffalo, and in the Toronto half another run was produced. Whitey opened with a single, and considered the seventh. Onslow hit safely and race of the seventh. Onslow hit safely and

Monahan, altho out of condition, set a furious pace for Willard, and followed it with a short, straight, right-hand punch to the peak of the chin, and Monahan tumbled in a heap.

Jack Hempel, who boxed the first two rounds with Willard; Ray O. Archer, business manager of the champion, and allowed him to take a long rest before going another easy round with the title-holder. It was a clean knockout, despite Willard's explanations.

Willard opened his workout by pulling his weights loose with some powerful tugs, and then boxed four rounds, and wrestling. He left the canvas-enclosed arens with his skin glowing with perspiration.

Admission was charged to watch she champion go thru his paces today, and a capacity crowd was in attendance.

Jack Dempsey, the challenger, spent another idle day. He came into the city this morning for a rubdown at the hands of an expert, and in the afternoon swam and romped around his camp.

government is circulating the full text of the peace terms throut the adjoining neutral countries. The volumes, carrying the text in German, English and French, are prominently displayed in Scandinavian book stores. They were issued by the German admiralty printing establishment. The text is carried also in an exact copy by photolithographic process of the original received by the German delegates.

The book entire makes a volume of 415 pages.

Seats for the evening performance tacan activities has become more tense since the discovery of the body of Rosa Luxemburg and the manner in which Gustav Noske, minister of defence, ordered it taken to Zossen, 22 miles south of Berlin. In giving the order, it is claimed, the minister ignored the law, which requires that the coroner be notified and the body be placed in a municipal morgue.

Toronto's morality is to be discusscording to the report of the special committee appointed last year to investigate. The report featured yesterday's proceedings when it was formally presented, as it makes a dual charge that the Toronto public parks are centres of immorality. The report said: "The great need of better lighting and policing of the parks of our city is evidenced by the statements obtained by your committee from the morality department of the city, as well as the Big Sister Association, the W.C.T.U., the Girls' Protective League, the General and Base Hospitals, and the residents adjacent to the parks.

"There appears to be a particular need of some action regarding all of the statement of the parks."

ed after the signing of peace. This was one of the military regulations deemed suitable and appropriate to the period of occupation. The regulations were very much less severe than those which the Germans were accustomed to impose in occupied territories. He believed that our regulations would bear comparison with those of any of the other great powers during the war. He was not prepared to deprive the army of its rights.

Replying to a supplementary question as regards the Amglican practice, Mr. Churchill said he was quite content to be guided by the officers responsible for the conduct of the British army, which was not likely to be unduly severe. (Cheers).

over the labor situation in Toronto last night than he has been for some time past. Speaking to The World, he said he had great hopes that all strikes would be settled this week, and that all the men now out would be back at work by Monday next. The metal trades employers were now, he thought, prepared to come to a mutual agreement by a give-and-tak policy, and he was quite prepared to meet both sides in conference today.

Timmins, June 4.—Satisfactory progressis reported in connection with the diamond drilling being carried out on the Sovereign Porcupine. Three holes have been put down and values uncovered in each. In the number three holes hole at a depth of 165 feet an eight foot vein was cut and good values are expected from the assays now being made.

This is our final say on the pre-listing offering of treasury shares in Sunburst Consolidated. The orders are coming in by every mail. We have made this offering with the ingrained knowledge that large quantities of ore are ready to mine. We know all the machinery is in order to handle this ore, and the silver situation is so favorable, we feel we have presented a most meritorious silver proposition at a most modest price. With an ample treasury the directors will now undertake an aggressive and efficient campaign, and will expedite the shipment of low grade and high grade ore. Good profits appear on the horizon. Silver is better than \$1 an ounce. That spells prosperity for Sunburst Consolidated. There remain a few shares unallotted. Get yours now! We predict a real market at advancing prices when trading commences on the New York Curb on Monday.

in Sixty Days.

J. F. Whitson who has been in charge of road-making for the government in new Ontario for the past three or four years is now engaged in putting the finishing touches on the road to West Shining Tree. From the steel on the Canadian Northern Rallway-at Westree to the farthest mines, the distance is about 24 miles. In 60 days the entire distance will be ready for auto transport, and then the trip will occupy about two hours of the home-coming veterans were early or hand to greet both trains, and Mayor Church, Gen. Gunn and Col. Gibson were also on the platform at the Exhibition Camp to extend a welcome to the boys as they came in.

The train arriving at the Exhibition Camp carried 125 men out-of-Toronto residents, altho the entire party will receive treatment at the various military hospitals here after a 12-day leave, which has been granted them to spend at their respective homes.

The men arriving at the Union Station were demobilized at Quebec, and journeyed to the city as civilians.

Railway building into the mining regions has paid splendidly, and besides there are very few mines able to pay dividends when handicapped by inordinate transportation rates.

When Shining Tree was discovered it was 60 miles from the nearest railway. Eventually the Canadian Northern reduced the distance, but access has not been sufficient and progress has been checked. The government is to be commended on the action it is now taking. is now taking.

LAKE HURON STEEL COMPANY

Gets Dominion Charter, With Head Office at Goderich.

Ottawa, June 3.-The charter of the tary of state, Hon. Martin Burrell, yesterday. The capital stock of the company is \$15,000,000, divided equal-ly, preferred and common. The charter has exceptionally wide powers, covering the ownership and operation of mines, transportation companies, and the manufacture of practically every line of high-grade steel pro-

the company is the outcome of the huge importation of high-grade steel of late years from the United States, added to the fact that all the automobile manufacturers must purchase their parts in Canada to get the ad-vantage, of the British preference in

motor cars.

The head office of the company is named as Goderich, where a site of 200 acres has been secured, with dockage facilities for ore and coal handling, and where both the G.T.R. and C.P.R. are available.

It is the intention of the company apparently to operate a number of

apparently to operate a number of subsidiaries, and an important amalgamation of two or three Ontario companies is said to be in prospect. A. C. Macnaughton put through the charter, acting for J. J. Mahon and other United States interests.
