Strange Bedfellows. There has been a story current in Wall street during the last week, that it is the heavy selling for western account that has taken place recently, and which has been generally ascribed to the National City Bank, is constantly being repeated.

Atchison's Price. The recent exposures of the methods by which the Atchison, Topeka & Santa Fe Railroad drove the independent oil refiners out of business in Kansas, have shown that they could not compete with the Standard Oil Company's method of selling.

Lawson's Allies. The course of Thomas W. Lawson's recently published information has caused much perplexity in Wall street, and has led to the rumor that his relations with the "system" which he has so unflinchingly exposed, are not as bitter as has been generally supposed.

THE WEST INDIES

The Times reprints today from the Toronto Globe a letter from a citizen of Jamaica, giving reasons in favor of the union of Canada and the West Indies. The Globe discusses the question editorially, and in another western journal which appears to believe that the Canadian benefit of such a union would accrue chiefly to the lower province. It says:— "It was the Board of Trade of the Maritime Provinces which passed a resolution favoring the project of federating the West Indies with Canada. Whatever conceivable benefits might accrue to this country commercially from a closer union with the islands, the advantage would fall largely to our eastern ports, and we may take it for granted that the Maritime Board was looking only at the commercial aspect of the proposition when the resolution was passed. These eastern provinces have suffered somewhat of late years from the rash of their young men to the great cities of the West Indies on the one hand and to the new lands of the Canadian west on the other, and it behooves their business men to be more than ever alert and enterprising if they are to secure their due share of the prosperity that Canada as a whole is now enjoying."

The Globe contends that union is not within the range of present day politics, and that the question is therefore purely academic. It may be observed, however, that the purpose of the Maritime Board in bringing the question into the realm of practical politics, not for the benefit of these provinces alone, but of Canada and the empire. The Globe contends that trade treaties would bring all the benefits of federation, without the problems, and adds:—"Without going so far as to say that the question may never become a practical one, we are satisfied that for the present movement in the direction of federation is not a matter that can be so more than a little talk. We have problems of our own in sufficient number. They do not dismay or daunt us, and our outlook is serene and hopeful, but it would not be wise to entangle ourselves in new and strange problems for the glory that comes from a mere enlargement of our borders." It is not mere enlargement of Canada's borders the Maritime Board had in view. The members believe that the West Indies, as a complement to this northern region, would bring benefit to all Canada, and that the federation would draw closer a link in the chain of imperial union. They believe the time opportune to discuss the question in all its bearings, weigh the advantages and consider the problems; and if action looking toward union be desirable, to proceed with negotiations before conditions arise which might make the task more difficult. It is evident, from the tone of some western journals that the committee of the board will have to prepare and give wide-spread publicity to its statement of arguments in support of the resolution favoring the proposed union.

UNHAPPY TORONTO

Toronto, pious Toronto, has been scolded by the Midway at the exhibition. After a mother had written to one of the papers (referring to her boys) that she "would rather their dear eyes were closed in eternal sleep than that they should gaze on the obscenity which is being heralded daily at the Exhibition," the Board of Directors suppressed the show and appointed an inspector to keep an eye on the others. This was a sad enough experience, following as it did the protest against the treatment given to the naval contingent which went with Prince Henry to shed glory from the fair, but how can Toronto endure this dreadful paragraph in the Ottawa Free Press:—"Toronto is after all only an 'American' city—a pale imitation of Buffalo. Canadian mothers can see their sons at the Canada Central Exhibition without fear for their morals. Ottawa runs her shows along British lines." The little love quarrels between St. John and Halifax are nothing to this cruel strife. And think of the crush at the Midway.

At the end of June the number of army and navy pensioners in the United States was 998,441. On June 21 it was 1,094,196. The total amount of money paid for pensions since the foundation of the government is \$3,229,860,092, and of this amount \$3,144,285,405 has been paid on account of the Civil War. The total amount disbursed for pensions for the fiscal year, 1904, was \$141,142,861, of which amount \$4,197,186 was for navy pensions and \$3,609,688 was paid to pensioners of the Spanish War and \$133,022,170 to survivors of the Civil War, their widows and dependents. The annual value of the pension roll on June 30, 1905, was \$136,745,283. By the terms annual value is meant the amount of money required to pay the pensioners then on the roll for one year. These colossal figures are gleaned from a recent Washington report. They illustrate the enormous financial cost entailed by war.

The people of Los Angeles have voted, 14 to 1, to enter upon a vast scheme of irrigation and water supply. A dispatch says:—"It is proposed to turn the course of Owen's river and bring its waters here from the Sierra Nevada, 240 miles distant. A bond issue of \$1,000,000 is provided for. The complete cost is estimated at \$23,000,000, and the time required for construction from four to five years. It is proposed to furnish water for the irrigation of 150,000 to 200,000 acres of land in Los Angeles county, as well as to meet

the demand of the city for domestic purposes." The late ex-Mayor Ringham of Ottawa set a fine example of benevolence by leaving bequests to both Protestant and Roman Catholic institutions in that city. The list is as follows:—"Episcopal Corporation of the city of Ottawa (Catholic), \$1,500; St. Patrick's Orphan Asylum, \$300; Mount St. Anthony Orphanage, \$200; Protestant Orphan's Home, \$500; St. Charles' Home, \$800; Protestant Home for Aged, \$2,000; Ottawa General Hospital, \$1,000; County Carleton General Protestant Hospital, \$1,000; Public schools of the Gattineau, \$3,000; Separate schools of the Gattineau, \$3,000.

During the month of August, says the Toronto Globe, the Ontario treasury was enriched to the extent of \$2,740,133 by succession duties, an increase over Aug., 1904, of \$12,008.05. For the eight months ending August 31 the receipts were \$204,103.52 an increase over the corresponding period of last year of \$119,914.48. The total amount received in 1904 was \$460,863. It is apparent that the estimate of \$450,000 for the present year will be exceeded. The Globe doubts, however, if Premier Whitney will carry out his opposition policy of abolishing or reducing the succession duties.

A Pittsburgh despatch indicates great activity in the steel industry. It says:—"The United States Steel Corporation has issued orders to the underlying companies to put every blast furnace in operation as soon as possible. This applies to every stack except one abandoned at Zanesville. Two of the Carnegie Company will go in first and in all ten furnaces will start. The present on mills is so great that in addition, it is expected, the corporation will be in the market for iron again within a few weeks."

"Over a million bushels of Alberta wheat will have to come this way as a result of this season's crop," said Mr. F. W. Peters, of C. P. R., a Vancouver World representative a few days ago. It will go in the form of flour. When asked about the prospect of erecting mills in British Columbia to grind the wheat Mr. Peters replied:—"Well, that is an industrial matter for private enterprise. At present there are mills only in the interior and it will be ground there this season for the Oriental trade."

A Conservative convention in West Lambert, Ont., has adopted this resolution:—"That this convention desires to express its strong disapproval of the extravagance, recklessness in expenditure and unjustifiable increase in salary and pensions to ex-Ministers, for which the Liberal Government is responsible." We do not remember to have heard that the Conservative members raised any serious objection to the salary and pension grab.

Fourteen new savings banks are to be opened in the schools of Toronto, making twenty-seven in all. The Globe says:—"There is now \$20,000 donated to the credit of the school children in their banks, and with the additional ones it is expected that the deposits will reach about \$1,000 a week. Toronto at present takes ninth place among the school savings banks of North America."

Says the Boston Transcript:—"The late Colonel Greene, long the president of the Connecticut Life Insurance Company, received a salary of \$12,000 a year, or two thousand less than that paid to a youth just out of college by a New York company (not the Equitable), the president of which was the boy's father."

Now that alternative tenders are to be called for, we shall soon learn whether delay or prompt prosecution of the construction of the new steamship berth is like to be the least expensive.

ALLEN DOONE IN KERRY GOW strong company, original Irish songery and guarantee a grand production of the "Kerry Gow." The A. O. H. excursion to Moncton, yesterday was very largely patronized. The change from St. John, from the westward standpoint, was decidedly marked, for the heat in Moncton was oppressive. The special, on both trips, made excellent time. The return to the city was made a little before 11 o'clock. The day in Moncton was happily spent. The ball game was an interesting feature. Mrs. A. B. Gilmore left for Amherst, yesterday to visit her sister, Mrs. W. W. Black.

HON. MR. ROGERS IS VERY ANGRY

Denounces Sir Wilfrid Laurier and "His Advisor" in Un-measured Terms. Trouble appears to be brewing in Winnipeg. The Montreal Gazette has this startling despatch from its correspondent in Winnipeg:—"There has been another blow struck at Manitoba by the Laurier Government, which means another triumph for separate schools. In the Canada Gazette, dated August 19, there is a proclamation declaring that the district of Keewatin is detached from Manitoba and annexed to the Northwest Territories." The correspondent then quotes the Hon. Robert Rogers of Manitoba on the subject, and that gentleman is equally fierce in his denunciation of Sir Wilfrid Laurier and Minister Sheppard. The Hon. Mr. Rogers says:—"It means that another most villainous attempt has been perpetrated upon the whole of the district of Keewatin, which for this year has been annexed to Manitoba, and which has been governed by the officers of law and order of this province during that period, has been taken away from us."

"Do you mean that this has been done without the knowledge of Parliament?" "Yes," replied Mr. Rogers, "it has been done in a most underhand and secret fashion. When the new provinces were created certain portions of the Northwest Territories were left outside of the province of Saskatchewan, presumably because they lay to the north of the province of Manitoba. A special act was brought before parliament to amend the act providing for the future of this excluded territory. THE TIMES WASHINGTON LETTER

What is Being Done in the Hub of Uncle Sam's Domains-- Roosevelt May Get Nobel Peace Prize for 1906, and May Also Be Induced to Stand for a Third Term Nomination.

(From our Regular Correspondent.) WASHINGTON, D. C., Sept. 11--The suggestion that the president should be induced to stand for a third term nomination on the strength of having brought about the peace treaty at Portsmouth was a good deal less sensible than the proposition that is now being put forward to nominate him for the Nobel Peace Prize.

The wedding of the president in the government service continues. The latest victims of circumstances are Dr. Salmon, chief of the bureau of animal industry in the department of agriculture and Public Printer Palmer. The first of these resignations was more or less expected.

CAN'T HAVE AN ENGINE

City Decides Against Lending McArthur and MacVay a Fire Engine for Work at Dry Lake.

A sub-committee, with power to act, appointed at the meeting of the general committee of the common council, met yesterday afternoon to consider a communication from Messrs. McArthur & MacVay, asking the city for the loan of a steam fire engine to be used in connection with the pumping work at the dry lake on section 2 of the water extension.

BOARD WILL DISCUSS IT

School Trustees Will Meet Board of Trade to Talk Over Manual Training.

The manual training idea has been placed formally before the St. John school board and a committee will discuss the subject with a board of trade committee. At a meeting of the school board last night a communication from W. S. Fisher was read asking for a conference between the members and a committee of manual training and the chairman A. I. Treisman was empowered to arrange a date for the district conference.

A letter from the militia department concerning the establishment of a cadet organization in connection with the High School was also referred to a committee, consisting of the chairman, the superintendent and Trustee Maxwell. The department offered to furnish all necessary accoutrements, provided the board saw its way clear to provide a room suitable for an armory and become responsible for keeping them in proper shape.

On motion of Trustee Col it was decided to instruct all principals to exclude such children and report to the superintendent. A large amount of business was done. One of the St. Joseph's school staff sent a letter to the board asking for \$10 additional for cleaning after the painters. This was granted. The resignation of the 30th inst. and of Annie B. Melnes, from July 15th, were both accepted. Both these young ladies are to be married.

A letter from A. A. Wilson concerning some broken glass in Leinster street was referred to the buildings committee. Miss Mabel Finn and Miss Mary Col were appointed to the reserve staff of St. Peter's and St. Malachi's schools in place of Miss Melnes and Keegan, resigned. The appointment of E. Reid in charge of the Newman street school at a salary of \$600 was confirmed.

A LONG ROW

Portland, Me., Sept. 11--Rowing from Portland to Boston, a distance of 100 miles, in a fourteen-foot skiff of his own making, is the novel way in which N. J. Mathes, who returned here today by train, spent his six-weeks' vacation.

Mr. Mathes is enthusiastic over his coastwise voyage. He carried a small stove in his boat and cooked fish and lobsters which he caught en route. He visited nearly every seaport along the way, and weathered several storms. Mr. Mathes' home is Orlando (Fla.).

HUMORS OF HISTORY---142

Sir Francis Drake's Game of Bowls. H. D. 1588.

The great event of Elizabeth's reign was the defeat of the Spanish Armada. Philip of Spain sent it out with the object of conquering England, and with England the Protestant religion. One hundred and thirty ships left Lisbon, and fifty-three shattered hulks returned thither. The English fleet was under the command of Lord Howard of Effingham, and under him served Drake, Hawkins, and Frobenius. Sir Francis Drake was playing bowls at Plymouth when the Armada was sighted, but he finished the game before embarking to play bowls with the Spaniards.

Local News

Felix Sears has been reported for doing his evening work in the city without a license.

Furnace steamer Ewingville, Captain Healey, will sail for London via Halifax, this evening with a general cargo.

The Newbern School for Girls at Bealieu opens today. There were quite a number of scholars going out on the trains today.

West India steamer Osamo, Captain Buchanan, which arrived at Bealieu yesterday, will sail this afternoon for Bermuda, Windward Islands and Demerara with a general cargo.

Arthur S. Orly, aged two years and three months, died of diphtheria at the public hospital. He was taken to the institution recently from his father's home on British street. The funeral will probably be private.

Small apartments on St. James street, West End, summer is in bloom, as J. F. Ring still continues to pick a good number of raspberries daily from his garden, and expects to be favored with them until snow visits St. John proper.

Sir Charles and Lady Turpin passed through the city yesterday morning en route to Sydney from Montreal. He and Lady Turpin landed at Montreal from the Virginian, on which they made the trip from Great Britain.

Steamer Olvin Austin, Captain Pike, arrived from Boston this morning with 275 passengers. A large number of his passengers are taking advantage of excursion rates, which will be on all of September. A large number coming this afternoon from Fredericton and Halifax exhibitions.

The Winnipeg Free Press of Sept. 8th says: "William Y. Terrace, of Oxford, N. S., arrived from the east yesterday, and last evening accompanied by his wife and his brother Aley to the family home in Nova Scotia. The deceased young man was twenty-three years of age, and had been in the employ of the Royal Crown Soap Co."

Leather lined luxury. A remarkably nice boot for men's fall wear is shown by the McRobbie Shoe Co. This particular boot is moderately priced at \$5.00, made of fine box calf skin, heavy double soles, and is the nobly Blucher pattern. But the most striking point about this shoe is the lining, made of genuine oose calf, which is soft as velvet.

Joseph Howe, the Acadia University athlete, who figured prominently in the championship sports held at Halifax last week, has been installed as a teacher in the Wolfville Academy. Mr. Howe has many friends in St. John who will be not yet decided as to whether he will now retire from athletic circles.

A pleasant surprise was that tendered to Mr. and Mrs. G. Wilbur Currie, of Prince street, last evening, when between thirty and thirty-five of their friends called to help them celebrate their "wooden wedding." Whist and dancing were indulged in and a very pleasant evening spent. When the guests departed they left behind them many tangible evidences of their visit in the form of presents, all of which conformed to the custom and were of wood.

A BUSINESS CHANGE

Fred L. Tufts, who for the past fifteen or eighteen years has been almost constantly identified with the peanut and coffee trade in this city, has severed his connection with the Union street store, and will start in business for himself on Dufferin street, directly opposite the Dufferin Hotel.

Mr. Tufts will carry a full line of all kinds of nuts and nut foods. He has made a specialty of the manufacture of nut butters, pastes and ground nuts, and will, in the course of time, have many novelties in line that have not heretofore been shown in St. John.

The name "Tufts" has for many years represented the best that could be had in the peanut line, and in his new place of business, Mr. Tufts will roast peanuts every day, so that those who like fresh hot peanuts can be served at all times. The new store will probably be open for business about the last of this week.

LAI D AT REST

Body of William R. Croke Taken to Moncton This Morning for Interment.

The funeral of the late William R. Croke, formerly of the reporting staff of the Evening Times, took place this morning from the residence of his sister, Mrs. D. O'Neil, 600 Main street.

At nine o'clock the body was conveyed to St. Peter's church, followed by many mourners. At the church requiem masses were celebrated by the Rev. Fr. Scully, C. S. S. R., at the conclusion of which the funeral proceeded to the Union depot, from whence the body was taken to Moncton on the Boston express. Relatives of the deceased were the pall-bearers.

At Moncton the body was met at the station by a large number of citizens of all classes, for deceased was widely known and respected in the railway town. The body was conveyed to the Catholic cemetery on the Stadacona road, there to rest beside his late parents.

At the station the members of the court Edal Wave C. J. Fowlers diet and marched in a body to the place of interment.

The floral tributes, which were very beautiful, showed the esteem in which Mr. Croke was held by his many friends.

The editorial staff of the Times, sent a large book made up of white roses, crimson carnations and white amaranth.

The body of the book was made up of white roses and the crimson carnations formed the binding. The snail was prettily bordered around the book setting it off to great advantage. On the cover were the words "Last Report" in purple letters.

The Times Publishing Company sent a pretty cross made of cream roses, carnations and amaranth.

Many bouquets were sent privately by friends, some from a number of I. C. N. and C. P. R. officials.

(Moncton Transcript.) The news of Mr. Croke's death was received here with a deep and sincere regret. To everyone in Moncton "Billy" Croke was known, and to know him was to hold him in the highest regard and esteem and nowhere was his loss more keenly mourned than in Moncton, where during the many years of residence he made many friends.

Possibly The Transcript may be pardoned for saying a few words personally of the deceased. His relations with the newspaper were ever pleasant, and he displayed an unwavering loyalty to its interests, and indefatigable energy in his work. If one quality stood out more prominently than another it was his kindliness of nature and willingness to oblige. No matter the personal inconvenience, it was but for those associated with him to suggest a personal courtesy outside of strict business duty, and it would be performed with a cheerful readiness and willingness remembered by all. Loyal to his newspaper duties and interests, obliging to his associates, and of kindly disposition, his death is mourned because of these triple virtues, apart from his general qualifications.

(Moncton Times.) Deceased was of a most kindly and generous disposition, and was very popular by all with whom he came in contact.

ONE ON GEORGE HAM

The presence in the city of George H. Ham, of the C. P. R., forms the occasion for telling a story attributed to him. When he was being dangerously ill from appendicitis at the Royal Victoria Hospital, Montreal, the doctor approached him saying: "Mr. Ham, we will have to operate."

"What's that?" said G. H. Ham, replied the physician. "George sighed: 'Very well, take it, I said, 'but do me a favor, Doc, if you can, Preface and Table of Contents.'"—Toronto News.

DEATHS

WHITTAKER—At New Dorchester, Mass., Sept. 12th, A. Emma Whittaker, oldest daughter of James B. Whittaker, St. John, leaving a father, three sisters and two brothers to mourn their loss. Notice of funeral hereafter.

A GOOD SHOW

Gorton's Burnt Cork Artists Entertained a Big Audience at York Theatre.

Gorton's Minstrels opened to a good house at the York Theatre last evening and were enthusiastically received.

The work throughout was of a very creditable character and the show is certainly one of the best of the kind that has visited St. John for some time. The first part was much enjoyed, every number being enjoyed and most of the performers were obliged to repeat a third time.

The setting represented a palm grove of the orchestra, as usual, being located just back of the circle. The chorus costumes were of pale blue, yellow and violet satin with silver trimmings and knee trousers which, like the sleeves, were trimmed with deep lace, with stockings and slippers of corresponding color. The suits of the end men were of blue and deep orange colored satin.

Messrs Pearl and Roland proved themselves excellent conversationalists while Messrs Welby, Kinter and Moran as "tamboos" and Lee, Hammond and Newton as "toons" furnished abundant comedy. The end men's jokes were really good and kept the large audience in a state of merriment. The comic song went good and the "Whole Damn Family" by Jacob Welby took the house by storm.

Chas. F. Bell possesses a clear, sweet, tenor voice and his solo was particularly pleasing. R. J. Howland is an excellent baritone and Mr. Roland was heard to good advantage in the bass solo from King Bunches. The Crescent City Sextette rendered a number of selections which were enthusiastically enjoyed and the first part was brought to a close by a comedy sketch entitled "Female Shop."

Four solo composed the olio, the best being the best juggling by Wm. Moran, all of his features were novel and he wickered the Indian clubs in a manner which marked him as a performer. The novelty dancing by Welby, Pearl and Bell, the latter, a little girl about ten years of age, was received with much applause. Hoop rolling formed a strong feature in the performance. Ralph Kinter's rag-time rambles kept the audience in good humor.

Some clever club juggling by the Newton Brothers brought a good performance to a close. The band orchestra under the direction of J. Gorton, Jr. furnished the instrumental portion of the music which was highly appreciated and elicited a good deal of favorable comment. The performance as a whole was well up to the standard.

OBITUARY

Miss Bertha Schofield

Hampton, Kings Co., Sept. 11.—Miss Bertha Schofield, who has been ill of consumption for the past year or two, passed away about 11 o'clock this morning, at the residence of her mother, Alkanide. Miss Schofield was about twenty-five years of age, and was the second daughter of the late George W. Schofield, of the Bank of New Brunswick, and Mrs. Schofield, who with two sisters and four brothers survives.

She was of a charming personality, and bore her long and wearisome illness with Christian fortitude and resignation. Her family and large circle of relatives and friends have the sincere sympathy of the whole community.

Miss A. Emma Whittaker

News was received this morning of the death, New Dorchester, Mass., of a popular St. John lady, Miss A. Emma Whittaker, oldest daughter of J. E. Whittaker, and cousin of the late J. E. Whittaker, who passed away at the home of her cousin, Mrs. Walter H. Magee.

Besides her father, she is survived by three sisters, Mrs. George H. McKay, of New York; Mrs. M. E. Whittaker, who resides at home. The brothers are F. S. Whittaker, of her mother, Alkanide, and Whittaker, of Newcastle, Pa. The body will be brought to this city for burial and will be accompanied by the late J. E. Whittaker, who was with his sister at the time of her death.

Col. F. B. Leys

LONDON, Ont., Sept. 12. (Special.) Colonel F. B. Leys, ex-M.P., one of London's best known and most enterprising citizens, died last evening at his family residence after an illness of many months.

EMPIRE DRAMATIC CLUB

The members of the Empire Dramatic Club will give the Mission church school house on Thursday evening next and enjoy a social evening, and at the same time will informally discuss plans for the coming season.

The members of the club have in view the presentation of at least two new plays, which are considered equally as good as their last season's success, "Meantime" and "The Old Man." There have been several requests for a repetition of "Meantime" during the coming winter, and it is quite probable that this pretty and light comedy will be seen again. There is plenty of talent in the club, and it is expected that the winter, with an early start, something above the average for amateurs will be put on.

COMES FROM COSTA RICA

Alexander Murray, from San Jose, Talks Interestingly of Central American Republic.

Alexander Murray, who with his family arrived recently from San Jose, Costa Rica, is a guest at the Clifton House, and says that many of the reports to the effect that riots were carried on there to some extent untrue, as what were termed riots were really street battles in the interior, the legal rate of interest on investments being twelve per cent. Rents are high, and it costs a good deal to live, but taxes are very low.

There are no railways—the Northern, owned principally by the United Fruit Co., and another, owned and operated by the government, and running along the coast. The climate, generally speaking, is mild.

There are several beautiful parks, one large common being about a mile long and half a mile wide. There is also an excellent theatre, which cost about \$2,000,000, and is operated along the line of the Grand Opera House, Paris. There are not a great many shows, but what they have are of the best. Bull fights at regular intervals, which are marked by festivities, but in a modified form for the bull is never killed, and toradors rarely meet death.

Mr. Murray says he met a family named Lordly in San Jose, related to the Lordlys of St. John, he thought.

He came here to meet Mr. McAviney, of Collier's, to whom his wife is related.

THE ANGLICAN SYNOD

A Quebec despatch says that at yesterday's sitting of the synod the greater part of the time was occupied with the discussion of J. Edmond Jones' motion that a committee be appointed to prepare a hymn book for the church in Canada. Rev. James Simpson moved an amendment that the church hymns put forth by the S. P. C. K. M. U. in 1893 be adopted, but the amendment was finally withdrawn, and the original motion will probably be put and carried today.

The reports of the board of missions considered in the evening, the houses reaching itself into a missionary meeting. His Grace the Archbishop of Rupertland presiding.

The general secretary, Dr. Tucker, made certain explanations. When it came the question of apportionment, Canon Richardson, while endorsing the action of the board, pointed out that they scarcely seemed to consider the position the church had only did the east have to contribute to the support of ministrations for each family that let for the west, but with the descriptions from the board, he hoped in making the next apportionment the board would bear this in mind.

In the afternoon the bishop came in his mind. The archbishop and the archbishop state to the lower house, and the archbishop of Rupertland read an address on behalf of the synod, congratulating the original motion will probably be put and carried today.

The question of the prayer book will come up today.

A meeting of the governors of King's College, Windsor, was held and it was announced that C. A. Brodie, Brockwell, B. O. and J. A. Brodie, were appointed to the Alexandra professorship of divinity.

MARINE NOTES

The Troop & son, Kermantine Eva Lynch, Captain, cleared today for New York with a half million of dollars.

The lights on Lorne's shoal, of Yarmouth, were repaired, and the archbishop pending which her station was the east can now be in red and black horizontal bands.

The schooner J. W. Hill was destroyed by fire at Boston last week. Her sails, mast and rigging were removed. The Syster, owned by Geo. and Captain Aresburg were the owners.

Boothbay Harbor, Me., Sept. 12.—The schooner Ella J. King, Captain Lawson, arrived here today from the coast bearing eight members of the crew of the Boston fishing schooner, the H. H. Crowell, which returned to Boston yesterday and reported that the schooner had been lost in the fog while fishing from Boothbay.

The eight members of the crew of the Crowell were picked up by the schooner H. H. Crowell, which was on a fishing trip to Boothbay. A thick fog prevailed at the time and before they were discovered. The men had been in the boat for several days and had without food. They will start for Boston today by the collector of the port.

One week of vaudeville. Manager Lucier announces that he has secured Wards and Wartie, those wonderful fall acrobats, who introduce their revolving ladder act in conjunction with feats of strength and are considered the leading exponents of physical culture. Their act is made still more interesting by the fact that it is interspersed with bright comedy lines. They will certainly assist in rounding out one of the very best vaudeville shows that Manager Lucier has ever offered and that means that there are positively none better.
