Feverish Apprehension in Germany Over May Day Possibilities

GERMANS PRESSED BY BRITISH ON WESTERN FRONT AND DISMAYED BY STRIKE SITUATION AT HOME BATTLE OF ARRAS STILL RAGES FIERCLY

Tens of Thousands of Reserves Being Hurlled Against British Battlefront in Effort to Check Advance, so Far Without Avail—Hungary, Frightened, Promises Internal Reforms

The battle of Arras still rages with the issue remaining in doubt. For six days the armies of Great Britain and Germany have struggled for the mastery in a conflict which baffles superlatives. Tens of thousands of reservists have been hurled against the British battlefront by Field-Marshal Von Hindenburg in a supreme effort to check the British advance, but so far without avail.

However momentous the issues which hang on the bloody struggle in France, they are insufficient to hold the attention of the German people, who are facing a situation at home fraught with even more tremendous possibilities. On the eve of the great general strike planned for May Day, the German press and leaders are displaying a feverish apprehension as to what the morrow will bring.

The majority of the Socialists are energetically supporting the government in its efforts to check the workers into refraining from striking. Even the radical minority seems to be frightened at the possible results of the agitation it has fomented.

Austria and Sweden are two other storm centres, where May day may evoke popular uprisings of far-reaching effect. In the face of the brewing storm word comes that the Hungarian government has declared itself in favor of important democratic reforms.

The entire situation in Europe appears to have reached one of those confused stages where conflicting news makes the relative importance of events uncertain and obscure, a situation intensified by the increasing rigors of the censorship in all countries.

BRITISH OPERATIONS London, April 30.—The capture of some prisoners and a machine gun, minor operations is reported in the official statement issued by the war office this morning.

VIOLENT FIGHTING NEAR ST. QUENTIN Paris, April 30.—(Noon)—Violent artillery fighting occurred last night south of St. Quentin, in the regions of Troyon, Hurbise and Craonne. Several incipient German attacks were stopped by the French curtain of fire.

Official Statement. Paris, April 30.—The official statement is as follows:—"The night south of St. Quentin in the regions of Troyon, Hurbise and Craonne."

Our batteries continued their destructive fire against the German defenses on the heights near Morvonnville. Several German attacks on our trenches and small posts in the sector of Hurbise near Mount Cornille, and in the vicinity of Mount Chambréteux were broken up by our artillery and machine gun fire.

Enemy aviators last night threw down several bombs in the regions of Douvres, Nancy and Belfort. There were also casualties and the damage was insignificant. Châlons and Sperray also were bombarded, and there were several victims among the civilian population.

On Saturday night our aviators carried out several bombing expeditions effectively. A captive balloon was brought down and barracks containing troops were bombarded, a fire being observed.

The railroad stations at Pont-Faverger and Bethenville and bivouacs near Epoye also were bombarded.

Petaín's Appointment. Paris, April 30.—The appointment of Gen. Petaín as chief of staff is generally welcomed as a timely reform which had long been advocated by military experts.

General Petaín, as technical adviser to the government will occupy very much the same position as Gen. Sir William Robertson in London, and will be responsible for the general condition of operations wherever French troops are engaged.

In addition to this appointment, it is understood that the government contemplates various other measures of re-organization based on an examination of the military situation and the lessons taught by the recent operations.

The Petit Parisien says that certain services whose working has been shown to be defective, will be overhauled, and that changes will be made among leaders, whose talents could be more judiciously used.

The paper adds that this would be done "without prejudice to the disciplining of these, whatever their previous services who have committed faults and made mistakes."

Strike in Kiev. Kiev, April 30, via London.—Prisoners of war employed on municipal work here have gone on strike. They demand an eight-hour day and better working conditions.

1,000 U. S. Surgeons. Washington, April 29.—Plans for sending one thousand American surgeons to Europe for service in the Allied armies were announced tonight by the general medical board of the council of national defense. The war office today announced that an effort to expel the British from positions captured had been defeated.

RUSSIANS WILL FIGHT TO FINISH

Separate Peace Idea Died With Old Regime

WOUNDED SOLDIERS PARADE

Striking Demonstration in Petrograd in Protest Against German Influence—Socialist Leader Fails to Appear

Petrograd, April 29, via London, April 30.—It is evident from foreign telegrams that the attitude of the Russian democracy towards peace has been "misconstructed and distorted by the foreign press." The desire for peace has become more widespread and articulate since the revolution, but it is based on entirely different conceptions from those entertained during the old regime.

Anti-Pacifist Parade. Petrograd, April 29, via London, April 30.—An anti-pacifist procession, comprised of some one thousand men, maimed, bandaged and convalescent soldiers, on foot or in motor trucks, assembled this morning outside the cathedral, despite the keen frost and paraded the streets to the strains of the "Marsellaise."

The procession augmented quickly and, on its way to the Duma building, tens of thousands of persons led by a large attendance.

Details remain to be worked out, but it was said there is little doubt that Lord Northcliffe will take the paper come to the United States.

The suggestion that the United States be permitted to take the production of the Northcliffe plants some weeks ago, it was said, on condition that the paper go only to small publishers.

The paper will be distributed by the Publishers' Association under supervision of the Trade Commission.

FREDERICTON NEWS. Fredericton, N. B., April 30.—A cable received by J. J. F. Winslow today states that Lieut.-Col. Kemmis Betty, D. S. O., here, is seriously ill in London.

The Victoria mill commenced the season's operations this morning with a large crew of men employed.

George McKnight has decided not to accept reappointment as city engineer. He has been offered a position in Ontario and will probably accept, removing early in June.

The remains of the late Miss Maria Murray will be brought here from St. John tomorrow and interred at Springhill.

The water in the river here is steadily falling. There is still plenty of snow and ice in the woods, but the cold weather has retarded driving operations.

Few bank logs are being brought to Springhill and are selling at \$12 to \$16 per thousand, the latter figure being paid for spruce.

Customs receipts at this port during April totalled \$17,069, or double those of April a year ago. The imports were valued at \$122,459 against \$56,747 last April.

Stanislaus Layton, of Blackville, Northumberland county, has been killed in action.

Members of the local government are expected here tomorrow to hold a meeting.

BRAZIL AGAIN AMONG THE NEUTRALS. Rio Janeiro, April 28.—(Delayed)—The Brazilian government issued a proclamation of neutrality today in respect to the war between the United States and Germany.

POWER COMPANY WILL CO-OPERATE. Willing to Aid Construction of Comfort Station. AGAIN OBJECT TO PAVING WORK.

But Council Approves Plans for West End Street—Commissioner Fisher Suggests Withdrawal of Business Restrictions Bill.

The New Brunswick Power Company was willing to co-operate with the city in the construction of a comfort station in Market Square was made known to the council at the committee meeting this morning, but to what degree or extent was not stated.

Commissioner Fisher read a letter from the president, L. H. Rose, in which the latter said that he felt the comfort station should provide sufficient revenue each year to pay the sinking fund, interest and other expenses.

A letter of the company registering further protest against the paving of Union street, West St. John, in lieu of other points on this side of the harbor over which traffic was heavier, and which was in even worse condition, was also read.

No objections were offered to Commissioner Fisher's plan to go ahead with the work on the west side, and the program as it now stands will be carried through, a reasonably permanent grade, however, will be given the company in order that they may do the work of raising the tracks when so disposed.

Taylor and White, barrel manufacturers, appeared before the council and asked permission to erect a barrel factory in Lansdowne avenue was taken up, with City Solicitor Baxter expressing the opinion that it would not be illegal to erect the factory, inasmuch as it was not defined as an objectionable occupation.

The only building was, it was said, that the brewers comply with the building regulations.

The message said that he had been killed in action on April 9. Private Cooke left St. John last fall with a well known battalion, and upon his arrival in England was transferred into another Canadian infantry unit at the front.

Prior to enlisting Private Cooke conducted a milk business. He was well known, particularly throughout the north end, and a wide circle of friends will regret to learn the sad news.

Besides his wife he is survived by one son, a little over a year old, his father, R. B. Cooke, of New Glasgow, one brother, George A., of this city, and two sisters, Miss Lucy of Calgary, and Miss Lottie of this city.

Only Hope to Sustain Morale of German Fighting Men Since Recent Defeats—Class of 1919 Has Been Called up—British Hold Ground Gained in Latest Advances

British Headquarters in France, via London, April 30.—(From a staff correspondent of Associated Press)—There are increasing evidences daily of how the German higher command is using the name of Field-Marshal Von Hindenburg in an effort to sustain the morale of the German fighting men which was lowered by the retreat from the Somme and the successful launching of the British and French offensive actions.

Prisoners taken also tell how Von Hindenburg continues to be held up to the German population as a whole as the man in whom it must repose confidence and hope of final victory.

The recent retreat was explained by the desire of the German command to take up a position in the famous Hindenburg line and prisoners now say that when it becomes known in Germany that the British have turned this position and taken possession of several miles of it southeast of Arras great depression will be caused.

Civilians as well as soldiers placed great faith in this line, on which they say millions upon millions of marks had been spent. They had been told the line was so invulnerable that the Germans could sit in it for the remainder of the war.

The German class of 1919, it is learned, is being called up, but is still in training.

London, April 30.—Heavy fighting continues along the front between Amiens and Lens, with very little change in the situation reported. Reuters correspondent at British headquarters telegraphs today: "The Germans are continuing to bring up fresh troops and to deliver counter attacks, more particularly in the neighborhood of Oppy and from their trench system down to Gavrelle. The British hold the windmill northeast of the latter village and have improved their posts along the southwestern slope of Greenlawn Hill. Continuous fighting is in progress around the Roex Chemical Works."

"In a general way," continues the correspondent, "the situation this morning along the front of the attack which began at daybreak on Saturday, is that we hold the German front line at the point where the Baillet-Liache loop line crosses the trenches northwest of Gavrelle to the fork in the Oppy line between that place and Aveluy."

"This work we hold the German support line for a length of about 1,200 yards. Hence our front continues just east of the Roex Chemical Works."

"The weather was too hazy this morning for good air work, and the artillery observation was correspondingly poor, but the gunners on both sides had plenty of registered targets and the old familiar thunder waxes and wanes."

"Various German documents that have been captured urgently emphasize the necessity of economizing strictly in the expenditure of shells of all types, as the death of material is seriously undermining the output of supplies. It is also urged that the artillery officers be trained to employ guns, the inner tubes of which are worn out, upon targets which do not necessitate very accurate shooting, as the output of new guns is limited."

IRISH QUESTION FIGURING LARGELY IN BRITISH PRESS. London, April 30.—The message of American congressmen to Premier Lloyd George, in reference to Ireland, is printed in the morning papers without comment, except in the Daily News, which says that it re-emphasizes more than it reveals, the intensity of feeling in America on the Irish question.

The Daily News adds: "The message very properly avoids discussion of the terms of an Irish settlement."

The whole topic of an Irish settlement continues to figure largely in the press. The parliamentary correspondent of the Chronicle says today: "There is better hope for a settlement this week than at any time since the war began."

He adds that the sentiment in the parliament and country in favor of some solution is so strong that the premier will have powerful backing from men of all parties if he decides to take bold action.

The newspapers give letters, interviews and suggestions from more or less prominent people. The Daily News quotes John Dillon as saying: "One of the great features of the Irish settlement is that the Irish constitutional party, in its efforts of the last three years to meet the difficulties of the government and share the opposition of the Ulster Unionists, has undoubtedly lost a good deal of its control over its own people."

He adds that the government offers some uncertainty in the solution Ireland will rapidly drift into a condition which will embarrass the government and make it wholly impossible for England to stand before the world with the United States as the champion of liberty."

Dr. Pugsley and Votes for Women

His Resolution Calling for Universal Womanhood Suffrage Throughout the Dominion

Ottawa, April 30.—Parliament will consider the question of Dominion-wide womanhood suffrage at its present session. Hon. Dr. William Pugsley, who has been a champion of the cause for some years, submitted a resolution as a private motion in order to avoid a mere party division.

In response to a question by Sir Thomas White, who was leading the government, Dr. Pugsley stated, when he rose to present his resolution, that it was his intention to proceed with and press it. The Finance Minister then requested that it stand over until the return of the premier, Sir Robert Borden, in order that the opportunity of the government might have opportunity to consider and deal with it. Upon assurance given Dr. Pugsley, upon the return of the premier to press his resolution, he consented to allow it to stand over.

Text of the resolution is as follows: "That whereas in the Provinces of Manitoba, Saskatchewan, Alberta and Ontario, the provincial franchise has been granted to women by legislative enactment, and in British Columbia the electors have voted in favor of similar legislation.

"Whereas it is provided in the Dominion elections act that persons entitled to vote for members of a provincial legislature shall also be entitled to vote for members of parliament, but in respect to Alberta and Saskatchewan alone of all the provinces in Canada—it is provided that only males shall be entitled to vote for members of the Federal Parliament, thus creating an anomalous situation as between the provinces, which should be removed.

"Whereas during the present Empire struggle the women of Canada have shown a most intelligent and patriotic interest in and an unselfish devotion to the welfare of the state;

"And whereas it seems but just and right that they should be given a voice in the direction of its affairs;

"In the opinion of this House it is desirable that provision be made either to grant to women who are qualified to vote for members of a provincial legislature the right also to vote for members of the Dominion Parliament, or to grant to women throughout the Dominion the right to vote for members of parliament, subject to such provisions and limitations as may seem reasonable to parliament."

KILLED IN REFINERY

George Morrissey, aged sixteen, of 147 St. James street, was killed at the sugar refinery at 12:40 o'clock this morning. He was jammed between the elevator and the wall of the shaft, and after the elevator passed up, his body fell to the pit nearly four stories below. Dr. J. S. Bentley was called, but the young man was dead when the physician arrived. Death, it was believed, was instantaneous.

Young Morrissey was the son of a widowed mother, Mrs. John Morrissey. Another son is also employed at the sugar refinery, and three others of the family are fighting with the Canadian troops in France. These are William of

THE WAR SITUATION

The Canadians have won further glory by driving deep into the German lines on the plain before Douai and seizing positions held by picked German troops and greatly strengthened by wire entanglements since the battle of Vimy Ridge.

ENCOURAGING PRODUCTION

It will be of interest to readers of the Times to learn something of what is being done in Ontario to encourage increased production. A Niagara Falls letter says:—

Doubtless when that, too, begins to exhibit signs of wear, she will work the same game again. It cannot be a matter of much difficulty to her to purchase a new coat at another store! More Than 2,000 Communities Take up Work of Conservation of Child Life—Means Much to Nation—Women's Clubs of That State and 25 Towns and Cities in Movement

(Bangor Commercial.) Here in Maine the state is planning to make Baby Week, May 1 to 6 inclusive, a week which will count for much, a week which will mean a distinct and a step in the work which this year has been taken up by the General Federation of Women's Clubs, acting in cooperation with the Children's Bureau of U. S. Dept. of Labor.

Remember the mothers. Well cared for, healthy mothers are necessary for the health and happiness of their babies. Find out what your mother skilled advice and care before her baby is born and during her confinement, and give the importance of protecting the mother a prominent place in the educational work of the campaign.

State-wide plans for Baby Week are already under way in at least thirty-four states, representing every section of the country. Several states have already selected some one phase of infant welfare work for special emphasis in their year's campaign.

GUATEMALA TOO Washington, April 28.—Guatemala has broken off diplomatic relations with Germany, handed to the German minister his passports and cancelled the exequaturs of German consuls there.

A GOOD WINTER HABIT Many people dread winter because the sudden climatic changes bring colds, grippe, rheumatism, tonsillitis or bronchitis. But thousands of well-informed men and women today avoid much sickness for themselves and their children by taking a few bottles of Scott's Emulsion to make richer blood, fortify the membranes of the throat and chest and create body-warmth to resist sickness.

Says War Will Last Into 1918

Surgeon-General Fotheringham Says it is Folly to Think End of Conflict is Near

"I would like to emphasize," said Surgeon-General J. T. Fotheringham today, "that it is the height of folly to draw a conclusion that the war is nearly over - every time a victory for the allies is announced. General Fotheringham has just arrived home, after two years' service, in charge of the Medical Service of the 2nd Division of the C.E.F., and he has been in the fighting area practically all the time.

MRS. H. H. McAVITY'S WORK

In its report of the unveiling of the portrait of Hon. H. M. Goudge, president of the legislative council of New Brunswick, by Lieut. Gov. Grant in the legislative council chamber in Halifax, Thursday, the Halifax Chronicle says: "Mrs. McAvity is not unknown to art lovers, her picture, 'The Victoria Cross,' having attracted a great deal of interest and attention, winning a wide commendation at the exhibition last year. There is the human quality which, somehow, Mrs. McAvity manages to impart. It is merely a picture or a presentation of the technique of portraiture, as oil paintings sometimes are, but it seems to be more a successful effort to reveal the inner nature through the outer husk.

SICK WOMAN HAD CRYING SPELLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Ennaut, Pa. - "I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother 'I guess I will have to die as there is no help for me.' She got me one of your little bottles and my husband said 'should try one bottle. I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work.'" - Mrs. AUGUSTUS BAUGHMAN, Box 86, Ennaut, Pa.

Lieut.-Colonel Forbes at Front. That Lieut.-Colonel W. E. Forbes, formerly officer commanding the 140th Westmorland and Kent Battalion, and more recently in charge of an infantry unit at Bramshot Camp, England, is now on active service in France, was the news contained in a letter received by Moncton folk on Friday. The soldier who spoke of meeting the colonel at the front did not say in what capacity he was acting.

Private Anthony Boudreau, of Moncton, reported killed in action, enlisted at Moncton in the summer of 1915 with the old 58th battalion which was subsequently broken up and drafted. He was serving with wounded with a famous Canadian unit. He enlisted with Captain Frank Rowe, now a major in the 2nd Pioneers.

Herbert Drost, of the 140th Battalion, son of Leonard Drost, of Bath (N. B.), was killed in action March 29 in France. A memorial service was recently held for him in the Methodist church at Bath, conducted by Rev. George Ross.

A telegram conveyed the sad news to his mother on Monday. He is survived by his mother, several brothers and sisters. He went over to England with the 140th Battalion, then to France with a draft.

Mrs. James Green, St. Stephen, received a telegram on Friday announcing that her son, Leo Green, was killed in battle on April 9. Deceased was eighteen years old, a son of the late James Green, for many years connected with the Shore Line Railway. James Green, traveling freight agent for the C. P. R., is a brother, and Frederick Donald, Francis (at St. Joseph's University), are brothers. Mrs. Davis, Somerville (Mass.), and Mrs. Vickerson, Portland (Me.), are sisters. The young soldier before he enlisted was bookkeeper with F. F. McKenna, St. Stephen.

Among the casualties in France last week was the name of Major J. H. Sweet, of the Seaforth Highlanders, Victoria (B. C.). Major Sweet was the son of a former rector of St. Andrew's church, Newcastle. Northumberland county, now the Venérable the Archdeacon of Victoria (B. C.). OTAWA, April 28.—The following casualties are reported:

Day of Bayonet Has Not Passed

Cold Steel Again is Arm of Last Appeal

German Position Held Out

Four Desperate Assaults Had Been Successfully Resisted — Then Came Bayonet

With the British Armies in France, April 30.—Despite all the wondrous war weapons modern science has created, the cold steel of the bayonet has asserted itself anew in much of the recent bitter fighting as the arm of last appeal. As already related, the struggles about Monchy-le-Preux since Monday have attained an intensity unequalled by any of the fighting in the Somme campaign last year. There was one German position north of the town and paralleling the Scarpe River which resisted four desperate attacks. It was finally decided to take this position at the point of the bayonet, without a shot of any kind being fired to rob the attack of its surprise nature. The attack was made along a three-quarters of a mile front under cover of darkness. A Complete Surprise. The British battalions were formed in comparatively close order, and at the whispered word of command, repeated along the line, trudged forward into the night. Grim and silent figures they were, some in khaki, some in plain khaki, each man wearing a steel helmet, each having a firm grip of his rifle with fixed bayonet, the polished surface of which, however, caught no reflecting glint in the enveloping gloom.

Overhead, shells were droning, and back of the lines guns could be heard. But it was only a desultory bombardment, and the bayonet charge was the determined line of British troops was approaching their unsuspecting gray-clad foe. Four unsuccessful daylight assaults had left a touch of chagrin which was to be wiped out in this "getting." There is little more to tell. The sound of the fighting in the trenches was lost in the British barrage which closed down some distance behind the German position immediately the British signalled they had entered the position. This barrage cut off any German who attempted to flee from the bayonet charge.

All Over in Ten Minutes. Thus in ten minutes with the silent bayonet secured position which had held out for two days.

The bayonet also has come in effectively in dealing with the ever troublesome machine guns and snipers. A few brave men, attacking out in the night have been able to accomplish much.

Several British battalions have reported in the past few days that the Germans are again employing the old "knee" ruse, suddenly standing up in the shallow trenches and holding up their hands as if they were surrendering. Two battalions, believing the sincerity of this proposal, started across to bring in the prisoners, but were immediately attacked.

Incidents like this have helped materially to give the element of bitterness to the fighting to a degree which has startled even those men who have been in the battles since the first German rush through Belgium.

Bayonet Training. The British have given unceasing attention to the bayonet fighting drill in the past two years. The month of training in England has been supplemented by post-graduate courses in the great training camp in France and continued as the units passed down through the corps into divisions, brigades and battalions. The night before the Arras attack some sergeants could be heard giving their platoons last instructions. One of these groups formed a curious picture in the moonlight, where all the air was electric with preparations for the coming clash at dawn.

Traffic along the choked road leading toward the point of contact with the enemy suddenly stopped because of a temporary block. The throbbing motor engines were throttled down to an almost inaudible purr; the tired horses dragging

and the United States were being paid by German gold."

He had been charged with preventing gunners from firing away from the position, he was proud of it.

In conclusion he made a strong appeal for the putting into force of the militia act. He had heard there was a proposal to exempt Quebec. "Why should Quebec be exempted?" he asked.

The cabinet he described as "fifteen members, more or less self-opinionated."

army wagons or artillery limbers stood with the stillness of near-exhaustion. Their drivers' heads drooped limp as they snatched a few moments of sleep. The mystic sort of silence which settled down was broken by the raucous cawing of a few crows perched on the fighting in the trenches was lost in the British barrage which closed down some distance behind the German position immediately the British signalled they had entered the position. This barrage cut off any German who attempted to flee from the bayonet charge.

A SAD CASE
A woman was before Police Magistrate Ritchie this morning for drunkenness. She had not entered a plea of guilty this morning and was remanded to jail. It is understood that arrangements will be made whereby she will be sent back to her home in Sydney, C. B. The woman has three children which are at present in the care of the Children's Aid Society. It is said that the three were well looked after by the woman but that the craze for liquor got the best of her. The police had difficulty in arresting her and it is said that she had attempted several times to do away with herself.

POLICE AND PROHIBITION
Two arrests were made this morning by the police. Undoubtedly the two were attempting to celebrate the closing of the saloons in St. John. Chief Simpson said this morning that there would be no change in the workings of the police owing to the prohibition act. The police would continue to do their duty in respect to the law. There would be no special orders issued, said the chief, in respect to the enforcement of the law as its rigid enforcement lies chiefly with the inspectors appointed under the act.

LOCAL NEWS

DIED IN ALASKA

From far away Alaska comes news of the death of a former resident of West St. John—Jeremiah Quinlan. The news came to Mrs. William E. Kane, Sea Street, today, to the effect that Mr. Quinlan had passed away on April 15. He had made his home in Alaska for a long period. His first wife, Miss Minnie Kane, a very popular young woman of West St. John, died ten years ago. Mr. Quinlan is survived by two sisters, Mrs. Martin Conway and Mrs. Norah Whalen, both of Alaska, and one brother, John, of Stillwater, Minn.

COCHRANE-CLARKE

The wedding of Miss Marguerite J. Clarke to Mr. Louis D. Clarke, Pitt street, to Thomas C. Cochrane of this city, took place this afternoon in Trinity church, Rev. L. R. Sherman being the officiating clergyman. The bride, who was unattended, and who was given away by her father, was attired in a traveling suit of brown broadcloth with hat of Charmeuse crepe du chene and ostrich ostrays and carried a bridal bouquet of roses and lilies of the valley. Mr. and Mrs. Cochrane leave on this afternoon's train for upper Canadian cities and while away will visit the groom's father, James Cochrane, of Toronto. On the return they will reside at 36 Cranston avenue.

MAHONEY-HASTINGS

A wedding of much interest was solemnized this afternoon in St. Matthew's church when J. Benson Mahoney, a well known druggist of this city, was united in marriage to Miss Mary Helena Hastings, daughter of Mr. and Mrs. F. C. Hastings, Kinghurst, St. John county. The ceremony was performed by Rev. John Hardwick. They were unattended. The bride was becomingly attired in a burgundy chiffon broadcloth suit with hat to match and carried a bride's bouquet of roses. Miss Helen Miller presided at the organ and G. W. Slipp and Benjamin Lawton acted as ushers. Mr. and Mrs. Mahoney will leave on the Boston train for New York, where they will spend their honeymoon. On their return they will reside at 75 Duke street.

REV. A. K. HERMAN IS WOUNDED

Brother of Mrs. A. W. Covey of St. John and Minister of Baptist Church

A. K. Herman, son of Mr. and Mrs. E. J. Herman, of Dartmouth, N. S., has been wounded in action. The official telegram from Ottawa gave no particulars, other than that he had been wounded in action on April 18, and had been admitted to Number 24 General Hospital suffering from a gunshot wound in the knee.

Private Herman was formerly pastor of the Baptist church at Milton, N. S. He resigned his pastorate and enlisted. He took the course for a Lieutenancy and graduated from the Royal School of Infantry at Halifax, and then enlisted as a private in a Highland battalion. He was later promoted to the rank of sergeant, and went overseas in that battalion. He was always anxious to get across to the front, and rather than wait for his own regiment, he surrendered his stripes and volunteered in another draft at England and sailed for the front in December as a private. Private Herman has seen practically continued activity at the front for the past few months. His last letter to his home was written on Easter Sunday, and he said his regiment were then lining up for what he expected to be a big battle. Private Herman is a graduate of Dalhousie College and also of the Newton Theological Institute at Newton, Mass. He gave much promise of a brilliant career as a preacher.

THE POLICE COURT

Twelve Arrests Since Saturday—Theft of Suitcase Alleged—Young Man Assaulted His Father

Twelve arrests were made by the local police since Saturday. Ten were taken into custody on Saturday alone and the two others were placed under arrest yesterday. The two arrested on Sunday were charged with drunkenness. In connection with the latter, the magistrate said that, while in conversation with a prominent citizen yesterday, he was asked if the ten commandments were being adhered to on Sunday in St. John.

The preliminary hearing in the case against Pte. Jeremiah Hanley, charged with the theft of a suitcase containing various articles, from Charles McLaughlin on Friday afternoon in the Ferris Hotel, was commenced this morning in the police court. Charles McLaughlin said that he was a longshoreman and was a boarder at the Ferris Hotel. On Friday night two others were sharing his room. There were two beds in the room and the defendant was there also. This was about 8:30 o'clock Friday afternoon. He went down to supper and when he returned all three men were gone. He looked for the suitcase, which also was missing. Witness said that there were collars, ties, socks, shaving outfit, and clothing all in the suitcase. Only a few of the things have been recovered. William McKinnon and Harold Miller gave evidence. They said that they had the adjoining room in the hotel. There was a door leading from one room to the other. They were called into the room and, while there, engaged in conversation with the defendant and others who were in the room. Neither were in the room when the defendant and his friends went out. Neither did they see the defendant handling the suitcase, although one said that a civilian, who was in the party, had picked up the suitcase, alleged to be stolen. The case was here adjourned and the prisoner remanded.

Harold Crawford, aged twenty, was before the court for assaulting his father, Andrew Crawford, and also for breaking some furniture in the latter's room in Main street. Policeman Whitcombe said that the father was cut about the face. The magistrate commented very strongly on such a state of affairs and said that it was a disgraceful thing for any young man to raise his hand and strike his own father. The prisoner was remanded for enquiries.

Eight prisoners were fined the usual amount for drunkenness.

Two sailors, J. Sekido and M. Sagan, were before the police court today charged with refusing duty on a steamer in port, they being article seamen. The sailors were remanded until the ship sails.

Moving Day IS UPON US AGAIN

May Day with all its moving and the many changes which are therein involved, is but a few hours away and already it is practically an impossibility to secure the necessary teams to work on that day. Many families started to pull up stakes and Saturday saw furniture being hauled in all directions.

Moving day so often has been a day of fog and rain that as many families as possibly can, move a few days before the first of the month. This morning broke very unfavorably for those in the moving game, the temperature being at 29 degrees above zero or three degrees below freezing point. This date last year the thermometer registered 35 above.

Local transfer offices report that enough orders are booked to keep them on the go steadily for three or four days after the first of the month. There seems to be more moving this year than there has for several years. The cause of so many families moving is due it is said, to the increasing of rents.

SOME PROBLEMS FOR LABOR FEDERATION

Among the matters which will come up for discussion at the coming convention of the New Brunswick Federation of Labor to be held in Fredericton at the beginning of May will be the Workmen's Compensation Act, the possibility of the establishment of a bureau of labor; the minimum wage bill for women; amendments to the present factory act; the widow's pension act and, finally, government co-operation in solving the problem of the high cost of living.

Delegates will be present from many parts of the province and already some of those who will represent various organizations of labor in St. John have been nominated as delegates to the convention. Among whom are Edward McGinnis, James Briton and James McDonald, representatives of the Freight Handlers, West St. John. John Kemp, representing the cigar makers, and J. I. Sargue and Joseph Nixon, representing the carpenters. More delegates to the convention will be named later.

BARGAIN SALES FOR MEN ONLY

Liquor Merchants Do Rushing Business on Last Day—Many Sold Out—Unsold Stock Worn Some

It is often said that a woman's paradise is an everlasting bargain sale and an unlimited supply of money, but surprised, indeed, would the author of those words be if he learned that there are bargain sales galore throughout the city today and women are not patronizing them. The sales referred to are being conducted in liquor stores, as this evening in brown paper, sale contents of which looked much like bottles. No doubt much of this was for medicinal purposes, while others were lying in a stock of "a wee doch an' dorie" for the dry spell that is coming. On the other hand, some did not have faith in storing it away in bottles and apparently decided it was safer to get outside of a large quantity and bid farewell to an old friend in a becoming manner. As a result many were seen about the street in a partially helpless condition.

Many retail stores, having disposed of their stock, turned the key in the lock this morning, while others will keep selling until this evening at eight o'clock, when they will fall in line and put up the shutters. About fifty establishments were affected by the new law. Some of the proprietors have formed plans to open up again by converting their stores into shoe shine parlors and soft drink stands. One or more of the wholesale dealers plan to remove to the province of Quebec, where they will open up for business.

Some of the wholesale dealers are facing a big problem, having a large quantity of liquor on hand, and despite frantic efforts to dispose of it, fear they will still have a considerable amount left when the time expires. There is no provision in the law for the disposition of such goods, and if it is kept or otherwise disposed of they are liable to a fine. They feel that some indemnity should be given them by the government. The reason forwarded by the liquor men is that for years they have paid large sums of money for licenses to conduct their business and that some consideration should be shown them now that they have been deprived of a livelihood. What will become of the liquor in bonded warehouses is another problem, but a simpler one.
