Executive of Protective Association Meets At Capital

WANT REFUGES

Ask Appointment of Game Warden Taken Out of Politics

Special to The Times-Star. FREDERICTON, Feb. 24.—The executive of the New Brunswick Fish and Game Protective Association met here today and prepared resolutions relating to the Game Act for presentation this afternoon to the Minister of Lands and Mines, Hon. C. D. Richards.

RESOLUTIONS PRESENTED

The resolutions adopted and presented to Hon. Mr. Richards this afternoon were as follows: 1. That a game commission of non-political business men be appointed to administer the Game Act and to employ men selected on merit only, at a living wage, and to have control of regulations.

2. That the appointment of game wardens be taken out of politics and that wardens be appointed on a basis of experience and ability; moreover, that the number of wardens be reduced and higher wages be paid to competent employees.

3. That more game refuges be established.

4. That the sale of big game, game birds and trout be prohibited.

5. That moose be protected until their heads contain ten points.

6. That only salmon licenses be issued non-resident fishermen for streams frequented by salmon and trout at the same time.

7. That grouse or partridge be protected for at least one year.

WANT BEAR AS GAME

8. That bear be considered a game animal and be protected from September 1st to September 14th, but that bear may be killed at any time when they are in season.

9. That a close check on fur-buyers and the law enforced by cancellation of licenses.

10. That an effort be made to enforce the law requiring that holders of game licenses return a report of the bag taken during the season, and that a guide conducting a non-resident be held responsible for compliance with the Game Warden's Act.

BEN SPOOR IS BANISHED BY LABOR PARTY

Condemned For Urging Closer Relations With Liberals. WAS CHIEF WHIP. Is Automatically Dropped From List of Candidates In Party.

LONDON, Feb. 24.—Ben Spoor, Labor member of the House of Commons for the Bishop Auckland division of Durham, chief whip in the Ramsay MacDonald government, has been read out of the Independent Labor Party because of a newspaper article which he wrote recently expressing the belief that the Labor members of the House of Commons might well work in closer co-operation with the Radical Liberal members.

Without previously informing Ben Spoor of what was coming, the executive committee of the Independent Labor Party has communicated to the press the Labor Party's decision that Spoor's connection therewith "is discontinued forthwith."

This means that Spoor drops out of the official list of candidates of the Independent Labor Party.

The Manchester Guardian, Liberal, dealing with the Labor party's action in the matter, says: "When the Independent Labor Party was a small party it was essential to maintain iron discipline, but from the moment it became big enough to undertake a leading part in government, it needed the virtue of tolerance. Self-discipline will damage its credit."

MEMBER SINCE 1918

Right Hon. Benjamin Charles Spoor has been Labor M. P. for the Bishop Auckland division of Durham since 1918. He was parliamentary secretary to the treasury in the late Labor government, 1924, and was chief whip of the Labor party in 1924 and 1925.

BOBBED HAIR'S END WITHIN YEAR SEEN

French Authority Says Women Already Prepare For Long Tresses Again. LONDON, Feb. 24.—"The end of bobbed hair is now in sight and it will last another year at the most."

This opinion is expressed by M. Mangano, superintendent of the Societe Du Progres De La Coiffure, a French hair dresser's organization which last night conducted a hair dressing competition.

"Already," declared Mangano, "I have women requesting to have their shorn hair made into chignons which they will wear over their next Sunday. They are asking for bobs while their hair is growing again."

He added that women must expect there has shut down at least six months to grow long enough to turn up.

VERA CRUZ CATHOLICS Protest Persecutions

VERA CRUZ, Feb. 24.—The three foreign born priests who have been of-ficiating here, will be deported to Spain. The Roman Catholics of the state of Vera Cruz have joined with Catholics in the state of Puebla and pledged that they will address a memorial to congress requesting that the constitution be so amended as to permit religious liberty and religious teaching.

Saskatoon Liberals Back Public Works Minister For Dunning's Position

SASKATOON, Sask., Feb. 24.—The Saskatoon city men's Liberal Association met last night and passed a resolution urging that Hon. A. E. McNab, Minister of Public Works, be supported for the position of Premier of Saskatchewan at the convention of provincial Liberals to be held in Regina Thursday evening, to pick a new leader to succeed the late Hon. Charles A. Dunning, who has resigned and accepted the portfolio of Minister of Railways and Canals in the Federal government.

Airman Dies In Attempt To Fly Through Eiffel Tower

PARIS, Feb. 24.—An attempt to fly through the opening of the Eiffel Tower, proved fatal today. The air-pilot, caught in the wireless apparatus, crashed in flames and the aviator was burned to death. The aviator, Lieutenant Callot, had passed through the arch when he struck the radio wires. He made a despairing attempt to bring the machine under control, but it fell and burst into flames. Firemen were quickly on the scene, but were unable to save the aviator.

\$25,000 DAMAGE IN RENFREW BLAZE

Seven Horses, Three Autos Included in Loss of Senator O'Brien. RENFREW, Ont., Feb. 24.—Seven valuable horses were burned to death, three automobiles were destroyed and damage totalling \$25,000 was caused when the garage, stables and coal sheds adjoining the Dominion House, and owned by Senator M. J. O'Brien, were completely destroyed by fire during the night. The blaze started in the garage and for a time the fire was in danger. It was only by strenuous efforts that the Dominion House was saved.

PROBE IN FRENCH TENNIS CASE ENDS

On Decision of Federation Will Retain Match of Lenglen and Wills. CANNES, Feb. 24.—Paul Champ, delegate of the French Tennis Federation, who has been here for four days investigating the circumstances surrounding the staging of the Lenglen-Wills match at the Carleton Club, will return to Paris tomorrow in possession of the full data. On its study of them the federation will decide whether a penalty should be inflicted or not.

On the Federation's decision may hinge a return match between Lenglen and Miss Wills at Nice during the second week of March. Inside tennis circles on the Riviera people believe that the big tennis interests in Paris are averse to another match of the Riviera saying that in event of the defeat of Miss Lenglen, her drawing a leading part for the French championships in June at St. Cloud, would be much increased. M. Champ refrains from saying anything regarding the nature of the report he will make to the federation.

PLASTIRAS JAILED

General Who Led Greek Rebellion Taken on Jugo-Slavian Soil. ZAGREB, Jugo Slavia, Feb. 24.—The newspaper Obzor learns from Zara that General Plastiras, who led the 1922 rebellion in Greece, has been arrested on Jugo-Slavian soil. The newspaper says he will be interned in Belgrade, not being extradited to Greece because of his status as a political refugee.

Lady Fisher, On Fruit Juice Diet, Sees End of Long Dinners

Canadian Press. TRING, Hertfordshire, Eng., Feb. 24.—Lady Fisher, wife of Sir Warren Fisher of the British Treasury, who is taking the fruit juice cure here, has given Mayfair, the fashionable quarter of London, a shock by the announcement that she is through forever with those appalling long course dinners.

Lady Fisher celebrated her twenty-eight day without solid food by a three-mile walk; she says she will fast another month, if necessary. She came to Tring seeking a cure for auto-intoxication, due to general debility. There are 40 other guests at the Old World Mansion in the Hertis Hills; all of them are living on orange and grape juices, apple and lemon waters and water in which vegetables have been boiled.

Resolution Suggests Plebiscite on Reverting to Aldermanic System

APPOINTMENT OF CITY MANAGER INVOLVED

Three Organizations Agree in Principle to Plan of Citizens' Committee

Three organizations have agreed, at least in principle, with the resolution...

The three organizations are the Gyro Club, the Retail Merchants' Association...

THE CITIZENS' COMMITTEE

The movement, which has been under way for some time, culminated recently in the appointment of a citizens' committee...

The committee is composed of the following: Board of Trade—W. F. Burditt, L. W. Simms and A. E. Massie.

Rotary Club—R. D. Paterson and D. W. Puddington.

Gyro Club—W. Grant Smith, J. B. Ham and D. W. Armstrong.

Retail Merchants' Association—H. W. Kling, H. Mont Jones and C. R. Wason.

West Side Progressive Association—C. O. Morris and J. G. Ryan.

Trades and Labor Council—James T. Sharpe and Edward McGinnis.

R. D. Paterson is the chairman of the committee.

THIS IS RESOLUTION: The resolution submitted to the various organizations is as follows:

RESOLVED that the citizens' committee recommends to the several organizations represented thereon that public notice be given of intention to apply to Provincial Legislature at its next session for the passage of an act...

ARE YOU IN FAVOR of changing the form of city government now in operation in the city of Saint John so that in place of a council of five commissioners elected by the city at large...

MEMBERS of the council to serve without remuneration excepting that the mayor may be granted by the council an honorarium to defray necessary expenses attending to his office.

THE council to appoint a trained man of high qualification as general manager who shall have supervision of all the city's business...

NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50 cents.

DEATHS: GANDED—Hubert William, son of Mr. and Mrs. Bert Gander, died Feb. 23, 1926, aged 15 months.

IN MEMORIAM: BAILEY—In sad and loving memory of my dear mother, Elizabeth Bailey, who departed this life Feb. 24, 1926.

Local News

MOTHER IS ILL: Miss Pearl McKendle expects to leave tonight for Boston, being called there on account of the serious illness of her mother, Mrs. Ernest R. Thompson.

BIG ICE FIELD: The signal service at the Customs House reports word of heavy field ice on Feb. 21, for about seven miles north and south, as far as could be seen from Cape Race in latitude 50.04 degrees and longitude 42.20 degrees.

WHY LIGHTS OUT: Two short interruptions in the electric service left some houses in darkness last evening. It was said the interruption was caused by a switch kicking out when the peak load of the Power Company was thrown on.

AWAY TO MEETINGS: Mrs. W. G. Clark of Fredericton, Mrs. N. C. Scott, Mrs. George Bishop and Mrs. E. L. Waller of Saint John, Mrs. F. L. Wallace of McAdam, and Miss Agusta Slipp of Junction, on the noon train to Halifax for executive meetings of the United Baptist Women's Missionary Union, of the Maritime Provinces. The meeting will be held tomorrow and Friday.

Efficient and economical administration of the city's affairs. The controller and the city clerk, nevertheless, to report directly to the council.

SUGGESTED DISTRICTS: No. 1 District, Southern Section, comprising Kings, Dukes, Queens and Sydney wards.

No. 2 District, Northeast Section, comprising Prince, Wellington and Victoria wards.

No. 3 District, North End Section, comprising Dufferin, Lansdowne, Lorne and Stanley wards.

No. 4 District, West Side, comprising Brooks and Guys wards.

The movement at the moment is in its final stages, nothing definite having been done toward seeking sanction of the legislature to submit a plebiscite to the people at the forthcoming municipal elections.

ACTING MAYOR'S VIEWS: The position of Acting Mayor Frink in regard to criticism and government changes was stated very frankly at the Pythian banquet in honor of Charles I. Gorman last night.

DEALS WITH KNOCKERS: He held in disgust the man so ready to call his place of abode a "bum town," and if anybody dared to say that to his face, neither he or his knockers would flatten out on the sidewalk.

When governments were criticized, the critic should remember that he and others made these governments possible. If they were bad, it was the citizens' fault, if they were good it was to the credit of the citizens.

TRADE INQUIRY: Acting Mayor Frink this morning received an inquiry from Mount Forest, Ont., for the names of shippers of New Brunswick cedar shingles in car load lots. He will pass the communication on to the Board of Trade.

PIE SOCIAL AND DANCE: Basket pie social and dance will be held under the auspices of Donettes, L. O. L., No. 141, Orange Hall, Munro street, at 8 o'clock tonight.

CARD OF THANKS: Mr. and Mrs. J. N. Riley wish to express their sincere thanks to the friends for sympathy and kindness in their recent sad bereavement.

H. G. ACRES IS CROSS EXAMINED

Questioned as to Opinion Against Commercial Value of Musquash

Says Province Will Get Its Money Back But Will Be Long Time

Cross-examination of H. G. Acres, former chief engineer of the Ontario Hydro Commission and consulting expert of the N. B. Electric Power Commission, in connection with the proposed development at Grand Falls, featured this morning's session of the Ingelwood hearing before Judge LeBlanc.

"Knowing that eminent engineers approved this development in 1920 and 1921, do you mean to reflect on their ability and integrity, when you say it was commercially unsound?" asked Mr. Montgomery.

"Why should I, I have no reason to suppose they were not made in good faith," replied Mr. Acres.

Yet had you been asked in 1920, you would have advised against it as wholly uncommercial, queried counsel.

"Under private auspices decidedly," replied the witness.

SAYS QUALIFICATION: Mr. Montgomery remarked that he was now getting a qualification of evidence given yesterday by Mr. Acres. He asked the witness if he meant that in private hands the development would be valuable but in public hands it would be commercially valuable.

Mr. Acres replied he did not make this clear-cut distinction generally. Counsel asked if it was his opinion that the \$2,000,000 spent on Musquash was wasted.

"The witness replied the money was not wasted. 'The province will get its money out of it in about a generation,' Mr. Acres said.

"So it will take a generation," asked counsel.

"I mention generation only in a casual way. It will be a long time," witness replied.

COMMERCIAL VALUE: "Well, has the Musquash any commercial value?" asked counsel.

Witness replied that it has. It was a demonstration to the people of the province of hydro as a competitive factor in securing cheap power.

Did you notice in the morning paper that the Musquash surplus now supplying for the N. B. Power Co. is being sold at a profit?

Witness admitted that he had.

THE degree of artificiality at the Musquash site the witness admitted, because it was necessary to increase the natural flow from practically nothing up to dependable flow by means of structures and also means tending to augment the natural head inherent in the site in order to produce an appreciable quantity of water per second of water conserved.

AS TO COMPENSATION: Council asked if he was prepared to say that the Ingelwood people should be compensated for their water-power rights there.

TRADE INQUIRY: Acting Mayor Frink this morning received an inquiry from Mount Forest, Ont., for the names of shippers of New Brunswick cedar shingles in car load lots. He will pass the communication on to the Board of Trade.

NEW INDUSTRY HERE FORECAST

Mentioned in Application Today Before Board of Utilities

Request That Power Co. Be Fined in Street Railway Matter is Made

A new industry for Saint John was forecast in an application made before the Board of Public Utilities this morning for authority to sell stock in the Maritime Supermoulding Co., a company formed to mould new trends on old tires.

T. A. Linton, for the company, asked for permission to sell \$20,000 of preferred stock. He said the company was being formed for moulding new rubber trends on old tires. The capitalization was \$48,000, of which \$28,000 was common and \$20,000 preferred. He had secured from the Canadian Supermoulding Syndicate, Ltd., the Maritime rights to this process and it was intended to start a plant here to serve the Maritime Province.

MONCTON CASE: Application of the City of Moncton for reduction of electricity rates and a counter petition of the Moncton Tramway Co. was taken up. A. A. Allen, for the city of Moncton, asked for an adjournment until the report of S. H. Milgram had been received. This was granted.

LEE'S CORNER CARS: W. A. Ross, representing residents of Saint John and Red Head, some of whom were present, asked the board to strike the maximum fine of \$500 against the New Brunswick Power Co. for non-compliance with the order of the board of June 24, that the street railway tracks be extended to Lee's corner.

PERSONALS: Frank J. Barnjum, lumber operator and dealer, prominent as an economist and writer, called on the city council today on route to Halifax.

CLEARING STREET: The work of clearing away the huge piles of snow in City road was commenced by the public works department this morning.

VETERAN SAINT JOHN PILOT DEAD

John S. Thomas Passes Away in Sussex at Age of 83

Sixty-two years ago a young Saint John pilot, John S. Thomas, brought his first ship across the ocean to this port. This morning, at the age of 83 years, Mr. Thomas passed to his rest at the home of his sister-in-law, Miss Kate Morrison, at Sussex, where he had retired when superannuated a few years ago.

LONG SERVICE: For fifty years or more, Mr. Thomas was one of the best known and most reliable of Saint John's pilots. He survived his wife, who was Miss Annie Morrison of Sussex, and leaves one son, Harold Keltie Thomas of Sussex, and one daughter, Mary Ellen Thomas, who lives with her aunt, Mrs. Shaw, in a brick house which Pilot Thomas built at the corner of Harding street, and which was the first building to be erected in German street after the great fire.

There are also three nieces, Miss Addie Thomas of the Western Union of this city, Miss Mary Thomas of the Western Union of Yarmouth, and Miss Willis Jones of 128 Duke street, this city, and one sister, Miss Maria Thomas, who lives with Mrs. Jones.

Pilot Thomas was a member of the Church of England and one of the older members of the Masonic fraternity in Saint John. The funeral will take place on Friday at Sussex, interment in Kirk Hill cemetery in the family plot.

PLAY REPEATED: "Putting It Up to Patty" a play by the Y. P. S. of Exmouth United church was given last evening in Portland United Church school room under the auspices of "The Friendly Bible Class."

LITTLE ONE DEAD: Friends of Walter G. Gray, a fireman at No. 7 station, will regret to learn of the death of his little daughter, Geraldine Pearl, aged 11 months, which occurred this morning at her parents' residence, 299 St. James street, West Saint John, from bronchial pneumonia.

CONCERT AND PLAY: Plans for giving a concert program in the second week in April and presenting a dramatic performance a few weeks after the concert were formulated at a meeting of the Mission Church Dramatic Club held last evening.

SALES: The Valmore will leave London on Saturday for this port.

THOUSAND LITTLE ONES END MISSION

Special Services For Children Are Concluded in Cathedral This Morning

One of the most successful missions for children ever held in the Cathedral was ended at 7 o'clock mass this morning. The special services were being continued each morning and afternoon since the mission was preached by Rev. John Keogh, C. S. S. R., of St. Mary's, who lives with her aunt, Mrs. Shaw, in a brick house which Pilot Thomas built at the corner of Harding street, and which was the first building to be erected in German street after the great fire.

Rev. Dr. R. M. Stevenson Tells of South Sea Islands

**Cannibals and Head Hunters—Cousin of Famed Author Gives Address Here**

A large audience which filled St. Matthew's hall to capacity last night was held in fascinated attention by a wonderful account of life in the South Sea Islands which was given by Rev. R. M. Stevenson, Ph. D., F. R. G. S. of Montreal, missionary and explorer, and cousin of the late Robert Louis Stevenson, eminent author. Rev. Dr. J. A. Marston was chairman and the very hearty appreciation and thanks of the audience was extended on the motion of J. Fraser Gregory, seconded by John Thornton.

Dr. Stevenson pictured for his hearers the marvelous beauty of the islands, spoke of their great fertility and the abundance of fish and fruit, and related the history of John Smith the first member of a missionary party among the natives of Tahiti. In speaking of native customs he told of the cannibalism associated with New Guinea and pointed out the difference between cannibalism and head-hunting, the former being a religious rite and the latter being associated with polygamy. He described his visit to a village in Dutch Guinea where he had entered the council house with the cannibals and with his two friends was very close to being made the chief item of the menu at the village celebration when he was called upon to care for chloroform, set a broken limb and watched the boy revive again the natives held him to be a god. The cannibal feast was abandoned and the influence of Christianity was soon felt among the natives.

**Heart Trouble or Indigestion?**

Heartburn, Pressure Around Heart, Palpitation, A Feeling of Fullness, Shortness of Breath.

THIS SIMPLE 3-MINUTE TEST TELLS WHAT'S WRONG.

While there are many people who really have heart trouble, there are many thousands more who are literally "faced to death" because they think they have it.

To live in constant fear of Heart Failure is a terrible handicap, especially when probably 90 per cent. of the self-diagnosed "Heart" symptoms—difficult breathing, a feeling of fullness or pressure around the Heart—are mainly caused by a sour, gas, upset stomach. To prove that this is true and that your past worries have been and will be simply made this three-minute test and watch result!

From any good drugist obtain a couple of ounces of pure Epsom's Magnesia (either powder or tablets) and combine with tomorrow's breakfast spoonful of the powder or four tablets immediately after each meal. If the usual distressing symptoms fail to disappear, you may safely be assured that you have found your trouble.

This is a pleasant, inexpensive test that seldom fails to relieve stomach distress. Gas, Sourness and Bloating—almost instantly, and a strict trial proves its value! Be sure and ask Bismarck's Magnesia, not a laxative.

poors which caused fevers and from the activities of head-hunters.

**SAFE THERE NOW.**

Dr. Stevenson spoke of the martyrdom of the Gordons from Prince Edward Island in the New Hebrides, and related the story of other early missionaries. As the result of the influence of the missionaries it was now safe to be in these former cannibal lands as in the streets of Canadian cities.

**MONEY IN COPRA.**

He informed those who might wish to go to the South Sea Islands that there was money to be made in copra at the present time. This is a product of decayed coconuts used for oil and for the powder for cosmetics, but he urged any of those who might go to the islands to take only good influence with them.

**LOYAL TRUE BLUE IS 14 YEARS OLD**

Anniversary of Association Nicely Celebrated Last Evening

Several Charter Members Present—Address Given By David Hipwell, Organizer

The Loyal True Blue Association celebrated its 14th anniversary in the lodge room, Market building, last night. Mrs. H. Brown, W. M., presided. The True Blue Association was organized by David Hipwell on Feb. 28, 1912, in the Orange Hall, Germain street, with 21 members. There are still six of these 21 working for the good of the order. The present worthy mistress has been absent from only one meeting since the lodge was organized, and at the time of that meeting she was attending the 61st annual session of the Supreme Grand Lodge of True Blue in Guelph, Ont. Mrs. Brown is a Supreme Lodge officer.

**MEMBERS NUMBER 74.**

The Loyal True Blue Lodge Association has now a membership of 74, all in good standing, and has a large sewing circle, which meets every week to sew for the orphans and the needy. At the meeting last night a birthday cake was in evidence and had 14 candles illuminating it. The charter members officiated at the ceremony of cutting the cake. They were Mrs. Brown, Miss Josephine Woodland, who is also provincial grand deputy, and Mrs. S. W. Rolston.

David Hipwell, the organizer, extended greetings from the L. O. L. and gave a brief address on the work of the order. A very interesting programme was carried out, as follows: Selection by an orchestra, composed of E. Bridgen, Mr. Jacobson, Miss Marjorie Smith; vocal solo, Mrs. H. G. Prewelling; piano duet, Miss Sweet and Miss Serzenti; vocal solo, Miss Dorothy Donner; solo, Miss Welch, with Miss Emily Field as accompanist; recitation, Miss Lillian Thomas; comic sketch by ladies of Roxborough; L. O. B. A.; musical selections, Edward Bridgen and Miss Marjorie Smith; duet, Miss Marion Rolston and

SAINT JOHN, N. B., FEBRUARY 24, 1926.

FORMS OF CIVIC GOVERNMENT.

We shall not find either gods or demi-gods to administer our civic affairs, whether we adhere to the Commission form of government or introduce another system.

It is both interesting and important that so many of our citizens should be taking up actively this matter of civic progress. Ours is a good city, potentially a great city.

After a sort of civic revolution, due mainly to discontent with the old aldermanic system, Saint John introduced a modified form of Commission government in 1919, and gained something by it, although it may fairly be said that the new medicine did not stimulate the patient so greatly as the more enthusiastic civic doctors of the day believed it would when they prescribed it.

Today a new movement is on foot, promoted by a citizens' committee composed of representatives of the Board of Trade, the Rotary Club, the Retail Merchants' Association, the Gyro Club, the West Side Progressive Association, and the Trades and Labor Council. These organizations have been examining a proposal that the Legislature shall be asked to grant authority for a plebiscite, to be taken at the forthcoming civic elections, on the question of replacing the present Mayor and commissioners by a Legislative Council consisting of a Mayor and ten aldermen, to be elected to pay, and to appoint a trained city manager of high qualification to have supervision of all civic business, to whom the heads of the several departments shall be responsible and the Mayor and Council shall be responsible to the Council for the efficient and economical administration of the city's affairs.

It is suggested that for purposes of representation the city shall be divided into four districts, two for the South End, one for the North End and one embracing the West Side wards. The Mayor and Council would be complete masters of policy, and, of course, they would have full power to accept or reject any proposal made by the manager who, it may be assumed, would be appointed during the pleasure of the Council. The salary to be paid the manager is not mentioned as yet, but the idea doubtless would be to make that salary large enough to command a man of proved experience, of high executive ability, and possessing originality and initiative. Such men, it may be observed, do not grow on every berry bush, but they do exist, and such a man would be well worth much more than his salary, for it is results that count. Manifestly, however, a very great deal would depend upon the character of the personnel of the Council and the Association, as the case, of course, under any civic system.

Thus far the proposal to ask for a plebiscite on this question has been adopted, in principle at least, by the Council of the Board of Trade, the Retail Merchants' Association, the Rotary Club and the Gyro Club, though some of these organizations, very properly, have felt that, as in the case with the general public, they require opportunity to give further study to the plan. The committee, no doubt, now that the question is before the public, will present for consideration such information as is obtainable bearing upon how the city manager plan is working out in other communities.

lities, particularly those of approximately the size of Saint John. The names of those serving on this committee are made public today, and their good standing in the community will tend to promote a general willingness to give the new programme a fair hearing and an earnest examination based upon the common desire to build up Saint John and to gain for it a greater measure of prosperity and contentment.

It is both interesting and important that so many of our citizens should be taking up actively this matter of civic progress. Ours is a good city, potentially a great city; it is a noble heritage. Good days lie before it. The things that are not only possible but that are within our reach afford sound reason for confidence in the future. With an awakened civic spirit and a common determination to push ahead, undoubtedly much can be done. The committee probably has certain definite objectives immediately in mind—things which should be made known—and events will develop others.

The form of the plebiscite, and the whole proposal for a change, are matters for public discussion. Possibly there will be suggestions that other plans be considered, or that the voters be given more alternatives than those already proposed. In any event the information available should be given impartial consideration by all voters who have the good of the city at heart.

Something is being done by concentrating public thought upon new methods of advancing Saint John.

Most of the born leaders of men are women—according to the Brandon Sun, which may have information on this subject not generally available.

According to an international kindergarten survey, the word "M" is used most frequently by children of five years; and, says the Border Cities Star, "about one-half of one per cent. of them grow out of the habit later."

"The end of bobbed hair is now in sight," says a London despatch of today. The end of bobbed hair is usually in sight. As to whether or not the end of the short skirt is to remain in sight, the London fashion decree gives no assurance.

ABOUT all some folks seem to do well is exaggerate.

DON'T give a girl too much rope she may swing you along.

Dinner Stories

A STORY was circulated in Jones' home town that he had cleaned up a fortune in Florida real estate. The word was excitedly whispered about that he had made a profit of \$65,000 after holding a property in Miami for two months. The small town's only editor, getting wind of it, and sensing it as good for a column or so, hastened down to the office of Jones' father.

"That's great about your son cleaning up \$65,000 in Miami in two months!" exclaimed the editor. "It was two years instead of two months."

"Well," replied the editor, still full of enthusiasm, "that doesn't make much difference. It's the figures that count."

"Yes, and they got them wrong, too," added the man. "It was \$65,000 instead of \$65,000 and he didn't make it—he lost it!"

The young husband had arrived home to find his wife in tears. "Whatever is the matter, darling?" he inquired.

Dinner Stories

A STORY was circulated in Jones' home town that he had cleaned up a fortune in Florida real estate. The word was excitedly whispered about that he had made a profit of \$65,000 after holding a property in Miami for two months. The small town's only editor, getting wind of it, and sensing it as good for a column or so, hastened down to the office of Jones' father.

"That's great about your son cleaning up \$65,000 in Miami in two months!" exclaimed the editor. "It was two years instead of two months."

"Well," replied the editor, still full of enthusiasm, "that doesn't make much difference. It's the figures that count."

"Yes, and they got them wrong, too," added the man. "It was \$65,000 instead of \$65,000 and he didn't make it—he lost it!"

MORE HONORS SHOWERED ON CHAS. GORMAN

Is Made Freeman of City; Pythians Give Diamond Ring

MOVE TO SECURE PERMANENT PLACE

Prominent Men Take Part In Tribute to Champion Skater

At a banquet in his honor attended by nearly 400 Knights of Pythias in Pythian Castle last evening, Charles I. Gorman, new world's amateur skating champion, was presented with a diamond ring, the freedom of the city, and a resolution to put on foot a movement to secure for him a Government life position was unanimously passed with Judge W. C. H. Grimmer, selected by Chairman Premier J. B. M. Baxter, to prosecute this effort, aided by a representative committee. A case of pipes was presented Charles's father, honored guest, and a huge bouquet of roses bunched in the champion's largest trophy cup, was showered upon the skater for his master. It was a grand event and enthusiasm ran high.

CHAMPION AFFECTED The champion gracefully acknowledged all the gifts and was visibly touched with the courtesies extended his parents. He made a neat little speech in reply to Past Chancellor W. H. Golding's proposal of his health at the outset of the proceedings and later fell called upon to reiterate his gratitude as gift followed gift and the meeting reached a demonstrative climax. Past Chancellor Premier J. B. M. Baxter, Grand Chancellor Judge W. C. H. Grimmer, Grand Chancellor J. A. Mowry, Hon. Dr. W. Roberts, Acting Mayor J. H. Frink, Vice-President A. W. Covey of the Amateur Athletic Union of Canada, Grand Chancellor White, of the New Brunswick Skating Association, and Past Grand Chancellor Bayard Stillwell were among the prominent speakers. The banquet was served by the Pythian Sisters and Black's orchestra played a number of Parson's, Leslie W. Bewick, Lester Rowley and William Lanyon interspersed the speeches with songs.

COMMITTEES The chairman of the banquet arrangements was John F. Kelly, assisted by the following committee: Ralph H. Gale, Frank A. Kinnear, P. L. Sheppard, J. Roy Bell, N. W. Bromfield, F. S. P. MacFarlane, H. W. Ring and W. H. Golding.

LOVELY SCENE The big ballroom of Pythian Castle never looked prettier than in its garb of snowy-linen and glistening glass, shimmering silver and colorful candles. The floor was filled with eight 50-foot tables, all of which were completely filled with banqueters. Down the centre of each table a triple ribbon of Pythian colors—red, blue and yellow—imparted a lengthwise to white napery and dazzling dishes. Indeed no more inviting banquet ensemble has graced the Castle and Montreal Temple and Loyalist Temple Pythian Sisterhood, surely did themselves proud.

CLEVER MENU. The menu card was a novelty, an ingenious sample of the printers' art executed by Knight J. R. Hopkins and donated by him. It was a long folding card in buff stock, treated with gold and sepia ink. The face of the menu bore an imposed portrait of Champion Gorman in a gold panel, Charlie standing erect in his world's best racing tests at Chamoneix, France in 1924; won the United States national and international titles in 1924; is now the holder of the world's record for the 440 yards, indoors and outdoors; and crowned his short and brilliant career by winning the world's amateur championship here in Saint John, N. B., last month, through victories over Clas Thunberg, former world's champion from Finland, and the pick of skaters from all parts of Canada and the United States.

WHEREAS, during the time he has so ably represented his country at meet- ings of international importance he has of necessity made considerable sacrifices of himself in procuring a livelihood in the yearling of his country; and WHEREAS, BE IT RESOLVED, that a petition be presented to Premier J. B. M. Baxter, Hon. Dr. Walter E. Foster, Colonel Murray MacLaren, C. M. G., D. S. O., Thomas Bell and R. T. Hayes that they use their good offices to secure a permanent position for Charles I. Gorman in the Federal Government employ; and FURTHER RESOLVED, that a committee be named by the chairman of this banquet to enlist the support of sister lodges throughout the province to press this matter to a successful conclusion.

Give Us Freight--We Have The Ships!

RECENTLY an attempt was made in the House of Commons to create the impression that the reason for not shipping more Canadian grain through Canadian ports in winter, was lack of shipping in these ports. Such statements are erroneous. Ships coming to Saint John this season were forced to go elsewhere for cargo. At Halifax tonnage has been offered for grain cargoes but could not get bookings.

Here is what F. L. Darke, M. P. for Regha recently said of the situation: "OTTAWA, Feb. 19.—F. L. Darke, M. P. for Regha, in the House of Commons today said that the West was sympathetic towards the demands of the Maritime Provinces, and the appointment of a royal commission to investigate conditions there was the proper course to pursue. The West would like to see its grain shipped through Canadian ports, but he pointed out, it was essential that there should be sufficient shipping at whatever port on this side of the Atlantic the grain was loaded, for sufficient shipping was one of the difficulties in the way of the development of the Maritime ports through routing grain cargoes. Somebody has misinformed Mr. Darke, so far as Saint John and Halifax are concerned. If we can get the grain, and facilities for handling it and other cargo, we will get the ships."

INTERVIEWED in regard to the alleged lack of shipping, one of the leading shipping men in this port said this: "There have been plenty of ships offering for Saint John and it has been only a question of providing cargoes for them. Most of the shipping lines operating to this port are in a better position this year than for a long time past. Several sailings originally booked from Saint John have had to be cancelled on account of lack of cargo and in addition several other vessels have been offered by the various companies for freight recently and they have been unable to secure the necessary freight to fill them."

Several lines running here have steamers at present discharging coal at United States ports and they are open for any kind of a return cargo. Any of these vessels would be able to fill grain charters. They are eagerly endeavoring to secure some kind of return cargo and could come to Saint John for their freight instead of having to secure it at United States ports as several vessels have been forced to do. "On several occasions this season steamers have loaded a part cargo at Saint John and then proceeded to Portland, Me., or some other U. S. port to complete. All this cargo could easily have been routed through Saint John."

IT HAS been stated, too, that Saint John is an expensive port to do business in. Apparently such is not the case. The White Star line has expressed a desire to come to Saint John and is anxious to supply some of the alleged shortage in tonnage. Moreover, the White Star line has a strong reason for wanting to do business here than it is in Portland. However, it is well to allow the White Star management to speak for itself. Here is what it said in that regard: "MONTREAL, Feb. 12.—The White Star line is quite prepared to make either Halifax or Saint John the western terminus in its winter service, provided that sufficient cargo is offered to enable it to operate a service to the United Kingdom from one or other of those ports economically. This was an opinion expressed today by Major P. A. Curry, manager of the White Star line Canadian service, when his attention was drawn to the utterance of Dr. O. P. Price, M. P. (Conservative, West- moreland) made Thursday in the House of Commons. It was stated that every possible means should be used to persuade the White Star line to make Saint John and Halifax its winter ports of call. Major Curry stated that apart from sentimental and patriotic reasons, the company would rather use Halifax or Saint John as its winter terminus for the reason that ships are handled more cheaply there than at Portland, Me., which is at present, the Western terminus for their freighters and a few of the passenger liners. There would be no necessity for their going to Portland if it was possible for them to obtain sufficient cargo at Canadian ports, where they would be willing to remain a number of days to load, as they got the cargo. Calls are made, as it is, at Halifax for general cargo and for cattle when such is offered or available."

THERE is no good purpose to be served in attempting to draw red herrings across the trail. The wheat shippers declare they want to use Canadian ports. The White Star line, among other shipping firms, has promised assistance to compel their further expansion in handling Canadian traffic. We undoubtedly want more facilities at ocean ports and the Maritime Provinces expect Parliament to provide them at this session. If there is an apparent lull in the fight for port development and the more extensive use of Canadian ports, it is because pledges have been given that steps will be taken to ensure proper port development and increased shipments through Canadian ports and ample tonnage to handle the freights offering. The people of the Maritime Provinces expect relief during this session of Parliament.

Weddings

Colpitts-Parlee. APOHAQUI, Feb. 23.—Relatives and friends here have received announcements of the wedding in St. John's Methodist church, Medford, Mass., Rev. Mr. Miller officiating, of Miss Blanche Gertrude Parlee, second daughter of Mr. and Mrs. C. R. Parlee, of Millstream, Kings county, to John Colpitts, formerly of Parleville, near here. The double ring service was used and the couple were unattended. The bride wore a wedding gown of white satin, trimmed with fur, with a bridal veil. After the ceremony a reception was held at the home of the groom's sister, after which Mr. and Mrs. Colpitts left for New York. They will reside in East Cambridge, Mass.

Contest managers found that the "safe and sane" winner had been a captain in the navy during the war. He was awarded the Y. C. for exceptional heroism in the Zebrugge engagements, and had risked his life scores of times. His record showed numerous citations for placing himself in personal risk.

Insure Their Brains By \$6,000,000 Policies

PITTSBURGH, Pa., Feb. 24.—Insuring brains is the newest innovation of large insurance companies, leaving according to prominent insurance men, no part of the human anatomy on which they have not taken risks. A policy for \$6,000,000 was underwritten by the Reliance Life Insurance Company of this city on the brains of two Detroit men, Norbert A. and J. Arthur Hoffman. The Hoffmans are realtors and are about to begin a heavy building program. The policy protects the interests of the partnership during the expansion in case of the death of either partner.

Deaths

David Little APOHAQUI, Feb. 23.—A well-known and highly respected resident of Kings county in the person of David Little passed away at his home in Lower Millstream at 3 o'clock this morning.

Mr. Little was in his 83rd year and was the last member of a family of 12 children born to the late John and Elsie (Murray) Little, of Head of Millstream, the father being a native of Scotland, who came from the Old Country in his youth and settled on the Millstream valley, where his large family were born and reared.

He was a successful business man and in his prime was prominent in the affairs of his native county. For a number of years Mr. Little was a resident of this village and only a short time ago purchased a cottage at Lower Millstream, where he spent his declining days among the associations of earlier years. His last illness was brief, but he had been gradually failing for several years.

In early manhood Mr. Little married Miss Sharp, of Millstream. She passed away about 23 years ago. They had no family, only an adopted son, Walter Yng Little, of this place, who, too, has gone before. The nearest of kin who survive are a number of nieces

Dorothy Dix

The Mother-in-Law, the Money Question, the Self-Supporting Wife, are All First Aids to Divorce—But the Chief Cause is Because Modern Couples Will Not Pay the Price of Sacrifice and Courage for the Prize of a Happy Marriage.

A WOMAN wants to know what one thing above all others causes the ever-increasing number of divorces.

DOROTHY DIX

Another potent cause of divorce is the money question. It is too bad that love's young dream has to be properly financed, or else one wakes up from it, but such, alas! is unhappily the case.

IN THE halcyon days of courtship a youth and maiden feel that they can subsist upon bread and cheese and kisses; that they care not where they live, so that they may be together, and that the mantle of romance will suffice them for clothes.

They have the same appetite for caviar; the same desire for a good car and a good house and good clothes. Marriage hasn't made a cheap brand of tobacco have the favor of a fine one to the man, nor made the woman prefer a \$3 hat to a \$30 one.

THE man begrudges the money it costs to support a family and thinks upon himself. The woman becomes bitter and disgruntled and feels that she is nothing but a slave bound to a yokemate whom she comes to hate.

THE emancipation of women has also something to do with the increasing number of divorces. Patient Griselda passed from the face of the earth on the day on which woman got her first good-paying job and found out that she could support herself.

IN OLDEN times, when a husband meant her one and only chance at a meal ticket, a wife had to endure any treatment that her husband accorded her, no matter how mean and cruel and brutal he was to her.

THE patient, humble wife who suffered in silence is as extinct as the dodo. The ill-used woman of today doesn't hide her sorrow in her heart. She tells it to the divorce judge and gets alimony.

THIS refusal of women to be tyrannized over and insulted and spoken to who could give notice and quit, and to be forced to work without even getting the wages of a servant, is undoubtedly swelling the list of divorce cases. But in his business as he does to try to make a success of it.

IN THE back of their heads is the thought that if they fall out of love or get tired of each other or see some one they like better or marriage doesn't prove as alluring as they thought it would be, that they will renege on their bet and call it off.

So they don't really try to make a go of it. They don't put all of the intelligence they have into solving their personal problem in marriage. They don't use any diplomacy and finesse in trying to get along with each other. They don't show the courage of a mouse in enduring whatever disappointments are their lot.

What wonder that marriages entered into so casually fail! Any man who puts as little real thought and brains into trying to make a success of his business as he does to try to make a success of his marriage would go bankrupt in six months. Any woman who deals as tactlessly with other people as she does with her husband would never be invited to another bridge party or elected to be doorknocker in a club. It is horrible to true that nearly all divorces are home-brewed.

ADD to this the fact that we are not willing to pay the price of matrimony. We are not willing to make the necessary sacrifices. The husband wants to continue his philandering after marriage and spend his evenings away from home. The wife doesn't want to be tied down by babies and domestic duties, and what wonder that the two, who only meet to quarrel, agree to separate?

It is because we are soft and weak and selfish and foolish enough to believe that marriage is the one good thing in life for which we do not have to pay the price that there are so many divorces.

TODAY'S RECIPES Oyster Stew—One quart oysters; one butter; salt and pepper to taste. Clean and pick over oysters. Reserve liquor, heat to boiling point and strain. Add milk, seasonings and butter to oyster liquor, heat, and just a few minutes before serving time drop in oysters. Serve with oyster crackers or toast points.

Pear Salad—Twelve halves canned pears, one-third pound crisp cheese, one-quarter cup evaporated milk, one-quarter cup scalded milk; one-quarter cup table-spoon sugar, half teaspoon paprika; creamy salad dressing. Moisten the cheese with the evaporated milk, add sugar and blend well. Moisten balls of the cheese mixture large enough to fill hollows of pears. Arrange two halves on a bed of crisp lettuce leaves. Serve with creamy salad dressing and a dash of paprika on top.

Creamy Salad Dressing—One cup boiled or mayonnaise dressing, one-third cup evaporated milk, one-third cup cream, one tablespoon sugar, one tablespoon juice from pears. Combine evaporated milk and cream, chill and whip. Add sugar and fruit juice and fold into the salad dressing.

Maryland Chicken—Two two and one half-pound chickens (broilers), salt, pepper, one cup milk, two eggs, fine bread crumbs, fat, one-third cup butter, one teaspoon salt, dash pepper, two tablespoons flour. Dress, clean and cut up chickens. Sprinkle with salt and pepper, dip in crumbs, egg, and crumbs. Place in a well oiled dripping pan, and bake 20 minutes in a 400 degree F. oven then reduce the temperature to 350 degrees F. and cook until tender, about 20 minutes longer. Drain every 10 minutes during cooking with one-third cup melted butter. Remove to platter and pour around a cream sauce made of fat in dripping pan, the flour, milk, salt and pepper.

SEE-SAWING ON BROADWAY

WHEN some 10,000 persons were storming the entrance to the Metropolitan Opera House for the spectacular debut of 19-year-old Marion Talley, one there was to whom all this was an old story.

He stood in the doorway in a carefully polished top hat and an opera cape disarranged by the pressure of crushing crowds. This was Early Lewis, the veteran doorman.

For 35 years Lewis has taken tickets at the Metropolitan door. He is nearly 75 years old. He has seen several generations of opera goers come and go. He has become familiar with the grandfathers and the grandchildren. There are 1500 "regulars" whom he knows by name, tipping his hat and bidding them good evening when they enter. There are at least 5000 more he knows by face and name he to make the effort, he could call many of them by name.

No man in all New York has seen a greater assortment of famous folk. From his particular point of vantage it is a passing show, the thrill of which long since has dimmed, but never has it completely gone.

The shouts from within the house have been little more than echoes, for his post was at the door. No matter what sensational debut may come or go he will always step and recall the days of Caruso and the coming of Chappin—but those Caruso nights—ah, they were always spectacular. The crowd! Oh, yes, one must credit the little Miss Talley with creating more attention than anyone in many a day—but those Caruso nights—those were thrilling!

A great change in the styles of opera crowds have come about within the past few years, Lewis will tell you. Opera has long since ceased to be a "fad." There was a time when those and attended because it "was the thing

THE TWINS PRESENT THEIR CARDS What a sight met the Twins' eyes as they followed Juke through the door of Blue Whiskers' palace! "We shall announce you," said the little white pigs, picking up the cards and looking them over approvingly. "We see you obeyed the Blue Laws and they are quite handsome. All done in little bicycles and sea-balls and pig-tails. An we are glad your names have hands. They are much more elegant in pronunciation."

So saying one white pig took Nancy's card and called out, "The Duchess of Doldrum." The Twins could hear it die out, and then he repeated somewhere down the line of little black pigs to die out again.

Then the other white pig took Nick's card and shouted out, "The Count von Hyanlow!" "You're announced," said the Pig. "Proceed. But be sure and keep on the carpet. There's a reason. It's all in the Blue Laws."

Fire Wardens Give Out Statement in Regard to Calling Out Department

At a meeting of the fire wardens of District No. 1, Parish of Simonds in the fire hall at East Saint John on Monday evening arrangements were made to give the firemen a social evening and entertainment on Thursday, April 8. A large committee was formed for this purpose and it is hoped that a good attendance of the members of the salvage corps will be possible along with the full quota of firemen.

The executive reported that the hydrants throughout the district had been kept free from snow during the recent heavy storms and it was hoped to have this attended to as long as would be necessary. They also reported that arrangements had been made to have a man with a team available to haul the apparatus to a fire while it was impossible to get out on an alarm with the motor truck.

On account of the recent appearance in the press of certain articles pertaining to the calling out of the fire department at East Saint John to remove horses from the street railway trestle at Dutchman's Creek it was felt that the board should make an official statement bearing on that matter. As a result the following statement was made for the press:

"The members of this board have no criticism to offer to any of the parties concerned in calling out the department to protect property or human life if it is endangered, but would wish that if it is necessary to procure help for this purpose to have the fire chief or other members of the department called

by phone rather than send in a general alarm by ringing the fire bell. In cases where it is necessary to ring the bell for this purpose the person ringing it should remain in the fire hall until some of the members of the department arrive so that the proper directions may be given to place once the cause of the alarm. This will greatly facilitate the operations of the department in affording immediate help.

"Resolved also that the conditions obtaining at the trestle over Dutchman's Creek should be brought to the attention of the proper authorities at once, in order that traffic at that point should be fully protected, so that, as soon as possible to do so, these conditions should be remedied."

**MISS LEBLANC HERE TO ASSIST IN WORK**

Demands on Miss Campbell's Time For Lectures too Many For One

So full a program of lectures, demonstrations and meetings has been arranged for the Saint John visit of Miss Helen Campbell, of the educational section of the dairy branch of the Federal Department of Agriculture, that it has been necessary for her to call upon the central office in Ottawa for an assistant. The result was that Miss LeBlanc, a New Brunswick girl, who is now attached to the dairy department staff of lecturers, arrived in the city yesterday and will aid Miss Campbell when there are too many engagements for one lecturer to cope with.

The mass meeting for the children of the city in the theatre on Saturday morning at 10:30, is to be one of the big features of the program. A group of city school children, trained by Mrs. Harold Taylor, will present the very pleasing playlet which Miss Campbell has written. Motion picture films will be shown and Miss Campbell will give a short talk for the young people.

As part of the educational campaign on the value of milk, which is carrying on, she placed an exhibition yesterday in the window of the store in King street, a very remarkable collection of posters. All of the posters are the work of students of the Ontario College of Art in Toronto, representing the pupils' view-point regarding the importance of milk, and showing most original, artistic and graphic methods of treating the subject.

It was through the kindness of J. E. Scord and his interest in the Red Cross effort to assist Miss Campbell's work that the window display was arranged for.

Magistrates in Wales Put Ban on Dancing After 10 O'clock

YSTRADYNEIAS, Wales, Feb. 24—In an attempt to limit Wales from "iniquity" the magistrates who consider just ordinary dancing as "dangerous excitement" have put a ban on this "indiscreet" pastime late at night.

The dancing in Wales is old in theory, but new in practice, for many sections of the community have waged a long campaign against dancing. This is the first success. The restrictions vary in different towns, but none is so lenient as to allow the 2,718,940 people in South Wales to dance after 10 o'clock. At Pontypridd, near here, the dancing must cease at 9:30 and no dancing is allowed on Sundays or Tuesdays.

The local magistrate was the first to ban late dancing. "This resulted in all his citizen-dancers migrating to nearby towns to enjoy themselves. Now all the near-by townspeople come to Ystradyneias to dance because they are allowed to do so until the time limit, 10 o'clock."

**Vocational Director Speaks To Gyros**

Fletcher Peacock, vocational training director, spoke to the Gyro Club Tuesday. He outlined the purpose and scope of vocational training and explained the objectives of the new school here. Mr. Peacock believed that the school would not be used to enable the young people to secure positions in the United States but would enable them to place themselves at home. He quoted the cases of several young men who had intended leaving New Brunswick, but after taking vocational courses found suitable openings in the province and would continue to make their home here.

Ronald Miller gave an interesting talk on the manufacture of pulp. Harold Hopkins presided.

**NURSES TO MEET**

A meeting of the New Brunswick Association of Registered Nurses has been called for Friday evening of this week at the nurses' home of the General Public Hospital in Saint John. They consider further amendments to the nurses' act of registration and incorporation. The meeting will convene in the afternoon at the residence of Miss Ella McLaughlin, Princess street.

Miss Ruth Starr arrived in Montreal on Friday and is the guest of Mrs. Kenneth D. Young, Aberdeen avenue.

Mr. Herbert Reicker, who has been the guest of friends and relatives in Saint John for a few weeks, left on Monday evening for Boston.

Mrs. Percy Fowles and Miss Pearl Clark were the joint hostesses at a very enjoyable bridge of 15 tables at the Hotel Beatty House on Monday evening. Pains and flowering plants and a profusion of cut spring flowers and carnations adorned salons A, B and C, which were at the disposal of the guests with a card room adjoining for the enjoyable event. The prize winners were Mrs. M. Thome Heynolds, Mrs. Royden Joynt, Mrs. Isaac Northrup, Mrs. Bruce Weston, Mrs. Bertram Smith and Mrs. Gray Burnham.

Among the passengers on the Chicago which arrived here yesterday from the West. Diners were the following: Mrs. G. MacDougall, wife of Dr. MacDougall, Mrs. Smith Walker, Colonel Clark and Miss Clark and Mr. and Mrs. Frederick Carter.

Miss Muriel Corkey, 126 Douglas avenue, entertained informally over the weekend in honor of her cousin, Mrs. J. H. Barnes, of Canton, Ohio. Mrs. Barnes is spending the winter in this city.

Miss Lillian Bell, Peters street, entertained the bridge club of which she is a member at her residence on Saturday evening in honor of her sister, Mrs. Ernest Taylor, who is leaving this week for the United States to reside in the West. Diners were Mrs. Margaret Graham presented to Mrs. Taylor, on behalf of the guests, a bridge set, which comprised an embroidered bridge cloth and hand-painted score card and table numbers. The gift was coupled with an expression of good wishes to the honored guest. Dainty refreshments were served by the hostess.

The Dorcas Society of St. Andrew's Kirk, Germain street, held their fortnightly meeting Monday evening at the residence of Mrs. W. G. J. Watson, 57 Hasen street. Other hosts were Mrs. McAllister, Mrs. Wark and Miss Grace Campbell. The members completed the garments which have been in process of making for the V. O. N. and intend to meet in two weeks at the residence of Mrs. J. S. Bonnell, 1746 street, when they will give a reception for Mrs. Harvey Morton's mission in Trinidad.

The Ladies' Club of the kirk, West Saint John, enjoyed a six course dinner at Green's Mission, King square, on Monday evening. The tables were artistically arranged with decorated, red and white carnations. Miss Ida Belyea, the president, and Mrs. McN. Matthews presided. After dinner the members of the club enjoyed the second performance at the Imperial Theatre. Those present were Mrs. McN. **BISHOP AND SURGEON MATCHED FOR SWIM**

Contest is Sequel of Challenged Contest is Sequel of Challenge Issued By Cleric Months

LONDON, Feb. 24—A swimming race between a bishop and a famous surgeon is promised when a new swimming bath is opened at Leeds High School for Girls in September.

The bishop is the Rev. Bernard O. P. Heywood, formerly vicar of Leeds and now bishop of Southwell, and the surgeon Sir Berkeley Moynihan.

Sir Berkeley is famous for his cancer work. His recreations are golf and swimming, and though he is 66 he pursues both vigorously. He is the son of a V. C.

Bishop Heywood is nearly 55. The race is the sequel to statements made some months ago at a bazaar in aid of a fund for the construction of the baths.

Sir Berkeley then said he had received a challenge from the vicar—as he then was. Both of the competitors have now expressed their intention of keeping the engagement.

Miss Helen Higgins, Reg. N., of the High's Hospital, of South Portland, Me., is visiting her aunt, Mrs. E. Stevens, of North street, Fairville, for a few weeks' vacation.

Mrs. Catherine Leggett, High street, entertained the Young Ladies' Club of St. Columba Presbyterian church at her home on Monday evening. The hostess was assisted by Mrs. Gordon Williams in serving delicious refreshments.

Mrs. R. A. Behm, of St. John's, Newfoundland, arrived in the city on Monday evening to visit her sister, Mrs. Howard Grimmer, Duke street.

Miss Mary Ready, accompanied by her niece, Miss Ines F. Ready, left last evening for New York, from which port they will sail by S.S. Fort Victoria for Bermuda, to spend the balance of the winter.

Mrs. E. Shanks, 27 Middle street, West Saint John, entertained the Presbyterian Ladies' Club at her home on Monday evening. A social evening was enjoyed and Miss Wills McCallum and Miss Bessie Shanks delighted the guests with piano solos. Delicious refreshments were served by the hostess, assisted by Mrs. Harold Stears and Mrs. C. A. Brown. Those present were Mrs. J. A. Morrison, Mrs. A. Bennett, Mrs. A. ### ACRES, IN EVIDENCE, CONDEMNS MUSQUASH HYDRO DEVELOPMENT

Claims Project Dependent on Artificial Storage and Whole Matter Was One in Which Issue Was Forced to Obtain a Predetermined Result

THE HYDRO development at Musquash was roundly condemned as a commercial proposition by H. G. Acres, of Toronto, technical expert, at yesterday afternoon's hearing of the arbitration proceedings between the Inglewood Pulp and Paper Co. and the New Brunswick Electric Power Commission.

Mr. Acres was called by the commission to give evidence concerning values of land expropriated by the government for development purposes.

**ARTIFICIAL STORAGE.**  
He declared that from his examination of the site of the storage area he had concluded that the project was dependent on artificial storage and that the whole development was one in which the issue had been forced in every direction to obtain a predetermined result.

Hon. J. B. M. Baxter, K. C., Premier of the province, was in court during the greater part of the sitting. The cross-examination of Gordon Krobb, chief electrical engineer of the commission, who was on the stand in the morning, was concluded shortly after the noon recess.

#### MR. ACRES CALLED.

Mr. Acres was the next witness called. He told of visiting the Musquash in 1923 after the floods. He found a scheme of development more fully dependent on artificial means than anything which he had ever heard of or seen. He did not find what he would consider an artificial water power. He considered the extent to which conservation had been pursued exceeded safe practice.

The whole development was one in which the issues had been forced in every direction to obtain a predetermined result. The natural head was very low and had to be concentrated artificially.

#### QUESTION OF RECORDS.

The witness said that no adequate records had been at hand to show the amount of water obtainable. No one really knew the extent of the Lepreau and Musquash watersheds as the

### Your Daughter's Health

MANY GIRLS are obliged to be absent from school for a few days each month because of illness. In many cases this is unnecessary because young girls—as well as older women—can be strengthened by Lydia E. Pinkham's Vegetable Compound.

At no age does your daughter need greater care than from the time she reaches the age of twelve years until womanhood is established. If she complains of headaches, pains in the lower limbs, or if she is nervous and irritable make life easier for her. Many a woman has suffered years of misery because as a girl she has been allowed to sit around with wet feet, lift heavy articles, do hard work and over-study.

In all such cases Lydia E. Pinkham's Vegetable Compound should be given, as it is specially adapted to such conditions. It can be taken in safety by any woman, young or old.

#### Nervous and Weak

Charleston, Illinois.—"I gave my fifteen-year-old girl Lydia E. Pinkham's Vegetable Compound and it did her a wonderful lot of good. Her periods were delayed and she was nervous, weak and dizzy. At last she was so bad off that she was out of school for four months. I read the advertisements about the Vegetable Compound, and since she has taken it she has improved in every way and has gone back to school again. I recommend the Vegetable Compound to other mothers with girls who are not as strong as they should be."—Mrs. ALICE LOUTHAN, Route 2, Charleston, Illinois.

The girls of the Corona candy company are members of the home nursing class in Saint John. The class will be organized on Thursday night of this week when the girls will meet in the Red Cross home nursing room at the depot in Prince William street. Their course of instruction will not commence until the night they will be addressed by Miss Helen Campbell, of the department of agriculture, who will speak on the value and uses of milk. This class has been arranged for by Miss S. A. Barrington, organizer of home nursing classes for this province, who has plans well forward for the formation of a number of other classes.

#### MAN-EATING LEOPARD.

CALCUTTA, Feb. 23.—Sandwiched in between a series of dull and uninteresting questions dealing with local administration in the United Provinces Council was one which led to the disclosure of a story which seems out of place outside the covers of a boys' book of adventure. The question concerned the depredations of a man-eating leopard at a place called Rudraprayag, in the Garwal district. The government official who replied stated that assuming, as he seemed probable, that only one animal was concerned, it was definitely known to have killed 114 human beings, despite every effort having shikaris had been employed. Sixteen paid hunters had been sent to destroy it, but were freely used, and since October assistance from a European sportsman, in their efforts to run down the leopard, which is still at large.

### DEFER ACTION ON ASSESSMENT ACT

Common Council Considers Suggestions from Chairman of Board

Petition re Douglas Avenue Filling Station is Filed—Purchase of Lot Declined

The City Council yesterday afternoon discussed with the chairman of the board of assessors some changes which that officer wanted made in the City Assessment Act and decided to consult with the city solicitor before finally dealing with the matter.

The chairman recommended that the date for filing returns be made March 10, instead of February 10, as at present, and that a widow who was not to be charged, so that a widow would enjoy the same privilege as a married person, and that legislation be secured giving the assessors power to inspect the bank books and books of account of any estate which they had reason to believe had not been paying all the taxes it should and collect the taxes for 10 years back, with interest, which had not been paid.

#### REQUESTS RECEIVED.

The chairman explained that he had received a number of requests to set the date for filing returns ahead by the business men who claimed they were not able to get the returns ready by February 10. Commissioner Wigmore asked if this would delay getting out the bills and the chairman said he did not think it would. Action was deferred.

It was decided to comply with the recommendation to have the word "married man" changed to "married person" in the sections relating to exemption on income tax returns with two or more dependent children, the bene that a widow might receive in order that this legislation, in regard to securing legislation allowing the assessors to collect back taxes from estates, which had not paid on the full valuation, it was decided to refer this section to the acting city solicitor for his report.

#### ACID IN STOMACH SOURS THE FOOD

Says Excess of Hydrochloric Acid is Cause of Indigestion

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation in the stomach, forming acid fluids and gases, which inflame the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before each meal, while it is effective, and furthermore, to continue this for one week. While relief often follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of stomach sufferers with excellent results.

### Mt. A. Will Lose 2 Men To Pine Hill

SACKVILLE, Feb. 23.—At a meeting of representatives of Mount Allison Theological College and Pine Hill Theological College, held here yesterday, the question of the union of these two institutions was further considered and plans completed for amalgamation. The faculty of Pine Hill will be strengthened by the addition of two men from Mount Allison, Dr. John Line and Dr. W. G. Watson. It is probable that one year of the theological work will be taken during the arts course at Mount Allison, leaving two years to be taken at Pine Hill. White Mount Allison will naturally feel the loss of so large and important a department of her work, it was felt that she will be compensated by the increasing number of students who will come to Sackville for arts and science because of the widening of her constituency.

"85 years of age, yet full of energy"—writes one of the hundreds of Wincarnis users who have told us of the wonderful benefits they have derived from Wincarnis. This sturdy old man attributes his present health to the regular daily use of Wincarnis for the last five years.

Before that time he found himself tiring quickly, having sleepless, restless nights, and frequent spells of mental depression—the results of a run-down condition.

Medical research has definitely proved that one of the causes of a run-down condition of the body is a shortage of certain mineral elements, including iron, potassium, calcium, sodium and phosphorus, and until a sufficient supply of these minerals is restored to the body, good health is impossible. Wincarnis contains every one of these elements in addition to other health giving ingredients, and in a

form in which they are most rapidly absorbed into the blood and carried to every part of the body to be converted into vital force.

Wincarnis has been recommended by over ten thousand physicians in cases of nervousness, anaemia, sleeplessness and the general debility that accompanies a run-down body. For fifty years this strength giver and nerve restorative has brought new life and happiness to weakened men and women.

# BATHURST COMPANY SEEKS TO DOUBLE HYDRO OUTPUT

Will Ask Legislation Authorizing an Expenditure of \$1,750,000 on Nepisiquit Dam and Plant—Will Increase Paper Output Five-fold.

NOTICE has been given of the introduction at the coming session of the Legislature of a bill which will mean much to the northern section of New Brunswick, particularly to Bathurst. Authority is being sought to increase the hydro electric power of the Bathurst Company to 20,000 continuous horse power. At the present time the company's power plant on the Nepisiquit River is capable of developing 10,000 horse power. This peak, however, is only available at extreme high water. In order to make available the full capacity of this unit and to add a further ten thousand continuous horse power the company will expend some \$1,750,000.

At a point some 65 miles from the mouth of the Nepisiquit River the construction of a dam 100 feet high is contemplated. This storage will impound some five billion feet of water. It will do away with the flooding of the river and will create a lake on the company's property about seven and a half miles long. In order to hold this large body of water it will be necessary to construct dams at the head of the river to prevent the water from flowing through the back country. A spillway on this dam, however, will assist in taking care of any surplus waters during the flood seasons.

At a point 28 miles from the mouth of the river and five miles above the present power plant a duplicate power system will be installed. Provision will be made for three units, of which only two will be used at any one time in the undertaking. At this point 10,000 continuous horse power will be developed and the water used providing this power will be again available at the present plant where the regular development of 10,000 horse power can be maintained. The peak development of the two plants will amount to about 30,000 horse power.

**TO BOOST OUTPUT LARGELY.**  
 The additional power thus furnished will mean that the company will be in a position to add considerably to the output of its paper mill at Bathurst. It is estimated that the present capacity of 65 tons per day can be increased to 900 tons per day. The additions to the paper mill at Bathurst means employment to a large number of additional hands and it looks as if the town of Bathurst will double in size when the present undertakings of the company are brought to completion.

Plans of the new storage development, the additional power units and the facilities for increasing the capacity of the mills are completed and the contemplated improvements to the company's properties will be undertaken at an early date.

**HIGHLY IMPORTANT TO N. B.**  
 The announcement is one of the greatest importance to the Province of New Brunswick and indicates that the Bathurst Company at least have definitely concluded they will no longer be competitors in the lumber market but they will devote all their energies to the production of pulp and paper. The change in policy means that hundreds of thousands of dollars will be paid out in additional wages as compared with the manufacture of lumber.

It marks a definite step in the direction of the change of conditions in the United States and other markets for the sale of lumber and a recognition by large lumber concerns that the successful operation of large timber holdings in this province lies in the direction of the production of pulp and paper. This enlarged production of newspaper holds great interest for the people of this province necessitating as it will the employment of much additional capital in New Brunswick.

**To End Severe Cough Quickly, Try This**  
 For real results, this old home-made remedy is the best.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare and really there is nothing better for coughs.

Take a 16-oz. bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make 16 ounces. Or you can use clarified molasses, honey or corn syrup, instead of sugar syrup. Either way, this mixture saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children love it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and you can feel the phlegm thin out, and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, hoarseness, and from chest asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for cough and chest ailments.

To avoid disappointment ask your pharmacist for "Pinex" and see the directions with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

**Where Are the Over-Fat?**  
 A few years ago excess fat was common. Men and women did not seem to care. Now look around in any circle. Note how rare it is.

One reason is this: Fat is now recognized as a blight to beauty, to health, to efficiency. It is regarded as abnormal, often due to a disorder easily corrected. And people abhor the abnormal.

Another reason is Marmola. For 18 years the Marmola Prescription has been proving that fat can be easily and pleasantly reduced. It has proved that to countless thousands and those users have told others. Now people are taking over a million boxes yearly of these famous reducing tablets.

Mark the results. You see them everywhere in slender figures which you envy, maybe. Then why not ask about Marmola? Learn how these results have come without abnormal exercise or diet.

We state the benefits in Marmola and explain just how they act. Thus every user knows why Marmola is so efficient, helpful, safe. Investigate this famous treatment in justice to yourself.

**AN ODD ACCIDENT.**  
 A peculiar accident due to the humped-up condition of the streets and the consequently sunken state of the car tracks occurred this forenoon in Saint James street. A dump-sled horse was being backed out of an alley when the outfit collided with an electric car. The horse was switched about by the impact and in sprawling got its legs under the car. To extricate the frightened animal was the puzzle so the aid of the hook and ladder section of the fire department was summoned by telephone. The firemen attached ropes and pulled the hobnob free—but he was mightily frightened. Not a scratch.

## SPARKS NOT SURE SHIRT PRISON-MADE

Admission Wrung From Witness at Customs Probe By Hon. Mr. Bovin

OTTAWA, Ont., Feb. 24.—Admission that he was not in a position to swear that the shirt he put in the evidence recently was prison-made, was wrung from R. P. Sparks, of the Commercial Protective Association, at today's sitting of the customs probe. In a stormy session Hon. G. H. Bovin, Minister of Customs, accused Mr. Sparks of dramatically placing the shirt he had purchased in Ottawa, and which he said was prison-made, in the United States, "as evidence against the customs department," when as a matter of fact, he did not know whether it was made in a prison or not.

Asked if he had changed his expressed opinion, that R. R. Farrow, Deputy Minister of Customs, and his two chief lieutenants, W. F. Wilson and C. P. Blah, were "competent and honest officers," Mr. Sparks said he had not.

**CHARGES INTERFERENCE.**  
 "You said yesterday you considered there was too much ministerial interference."  
 "Yes."  
 "Do you refer to ministerial interference concerning organization, appointments or disposal of cases?"  
 "I mean ministerial interference with the prosecution of smuggling, individually and collectively."

**FOR MINOR REPAIRS.**  
 The dredge Tornado will enter the drydock this evening to undergo some minor repairs. It is expected that the work will be completed tomorrow, and she will continue her dredging operations.

## Historic English Mills To Be Closed

LONDON, Feb. 24.—The historic Houslow gunpowder mills of Messrs. Curtis & Harvey are closing down. A number of the employees have been removed to the Faversham factory, and many of the older hands have been given a pension.

It is believed that the first gunpowder manufactured in England was made in these mills for Edward III. Nearly a century ago Charles Berwick Curtis, son of Sir William Curtis and Lord Mayor of London, went into partnership with W. G. Harvey. The mills previously belonged to a Mr. Hill and a Mr. Betts.

## HAVE DARK HAIR AND LOOK YOUNG

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for only 15 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and beautiful.

May Stop That Cough

Mr. Frank D. Comeau, West Bathurst, N.B., writes—"I had a very bad cold and cough that settled on my lungs, and I thought that I would never get rid of it.

One day a friend spoke to me about your wonderful remedy, so I sent and got a bottle of it, and after the first dose I took I got relief, and by the time I had finished the bottle I was completely relieved of all my trouble."

## HEAVY SELLING FOLLOWS AFTER SHARP BREAK

### New Low Level Reached By Bethlehem Steel in Wall Street

### PRICES EASIER AT MONTREAL OPENING

### Brazilian and Canada Steamships Each Drop Half—Shawinigan Loses 2

NEW YORK, Feb. 24.—The sharp break in prices toward the close of yesterday's market resulted in a large overnight accumulation of selling orders, the execution of which gave today's opening prices a heavy tone. New York Canners dropped 1½ and International Telephone and Foundation Company a point each.

### MONTREAL EASIER

MONTREAL, Feb. 24.—Stock prices were easier at the opening of trading on the Montreal market this morning. The majority of this week's active leaders suffered recessions. Brazilian Traction came out with an overnight loss of ½ at 96½. Canada Steamships preferred was off a like fraction at 60½, and the common was unchanged at 14½. Shawinigan eased two points

at 188 and Montreal Power was steady at 223. The balance of the market was quiet and steady.

### Morning Stock Letter

NEW YORK, Feb. 24.—The market yesterday afternoon developed considerable activity on the down side, after prices for most of the day had held well, while professional sentiment through the list searching for weak spots. One reason for the afternoon's decline was certainly the fact that a large number of weak spots were uncovered, such as Pan American, Postum Cereal, Celso, Formica Packing and the Locomotive. However, we still remain bullish on the weak spots. Evidently there are more weak spots than can be cleaned up and stocks may go somewhat lower. However, we still remain bullish on the stocks we have mentioned lately. As a group, the market is ready to show an uptick mainly G.M.O. and we think it can be bought on any slightly weak spots. Studebaker was well bought and when the market is ready to show an uptick, STU. is likely to have an upward move.

### Consolidated Gas continues to make new high prices, and we believe it will continue to advance. Phillips Petroleum fairly well taken and while it may go lower, we think it can be bought at considerably higher prices. In the rail group we still like So. P., C. & G. S. L. and So. Western and N. Y. C. LIVINGSTON & CO.

### Current Events

NEW YORK, Feb. 24.—General Motor's 1926 year ended Feb. 21 last, 1925, 1925, new high record, compared with 1924, 1924, earned \$19,312,568,074.49 in 1924. Earned \$19,312,568,074.49 in 1924. American Locomotive will close in definitely its plant at Paterson, N. J., employing 1,500 men. Twenty industrial 188.23, off 2.10; 20 rails, 108.90, off 1.32.

## Yesterday In Parliament

OTTAWA, Ont., Feb. 24.—In Parliament yesterday the following members took part in the debate on the address: L. D. Gouin, Conservative, North Renfrew; G. R. Geary, Conservative, South Toronto; E. A. Peck, Conservative, Peterborough West; J. G. Ross, Liberal, Moosejaw and E. J. Kott, Essex South.

## STANDARD BANK'S BUSINESS JUMPS

### Deposits Increase \$5,000,000 and Net Earnings Gain For Year

Both deposits and net earnings were substantially increased during the past year by the Standard Bank of Canada, whose report for the fifty-first year of operation has just been published.

The report indicates that there was \$5,000,000 more entrusted to this bank by depositors during the past twelve months than during the preceding year, and that in the same period net earnings were increased by \$85,000. These figures bring total deposits to \$68,492,944.19 as compared with \$63,492,977.46 for the previous year and net earnings to \$773,823.56 as compared with \$688,592.84 at the last statement; \$5,210,131.01 of the deposits were interest bearing, the balance of \$14,221,930.28 being in the non-interest bearing class. The interest on deposits was \$1,856,781.56, as compared with \$1,800,000.00 in the previous year. The amount carried forward in profit and loss account, which now stands at \$207,892.06. A strong position is indicated by the fact that cash on hand and in the central gold reserves is \$10,819,667.75, being nearly 14 per cent of the bank's liabilities to the public.

### Brokers' Opinions

NEW YORK, Feb. 24.—(Continued)—"Short interest in the general market appears big enough to offset any general bullish propaganda in the next few days," says a prominent Wall Street analyst. "Since the market as a whole has been quite tremulous for nearly four months, it would seem a trading policy to be satisfied with moderate profits."

### CHILDREN BARRED

WINNIPEG, Feb. 24.—Children under the age of 16 years of age, unaccompanied by an adult, will not be allowed to attend future race meets in Manitoba, according to amendments adopted yesterday by the Law Amendment Committee, considering the Bracken government's bill to restrict horse racing in the province. Another amendment was passed which exempts harness racing from the restriction of the bill.

### RATHER BE BOYS

## The Verdict of the Architects

(1) Garnet W. Wilson  
Mr. Wilson, Ritchie Building, Saint John, speaking of the use of Interlocking Tile, says: "This method has appealed to me as a most practical and economical form for fireproof construction."

Even more convincing than this statement is the fact that Mr. Wilson has used Interlocking Tile with success in the building of (1) Protestant Orphan Home, (2) Garage for J. Clark & Son, Ltd., (3) The restoration of the Saint John County Court House.

## Yarmouth Boy Coasts Under Train; Killed

YARMOUTH, Feb. 23.—A bad boy in St. John's died at the station of Bernard and Water streets, Yarmouth South, this afternoon, when Walter, the young son of Mr. and Mrs. Ernest Robichaux, was run over by a Canadian National freight train and his body so horribly mangled that he died instantly.

The lad, with others, was coasting on the Bernard street hill and came down on to the track just as the freight train was backing from the yard to the station. He was on the sled with two others on his back and did not see the approaching train until it was too late. The boys on the sled rolled off and one had his arm badly bruised. Robichaux was, however, unable to clear himself and the sled carried him directly under the wheels of a box car. He was about nine years of age. Coroner F. E. Gillison will hold an inquest tomorrow morning.

## Deaths

### Roderick G. Doherty.

Roderick Gerard Doherty passed away after a lingering illness in King's Park Hospital, Brooklyn, New York, Feb. 9. Mr. Doherty was born in Saint John, and was in his 26th year. He was the only son of Mrs. Eva Doherty, who formerly was Miss Eva M. M. The funeral was held from the home of his mother, 837 Monroe street, Brooklyn, to St. John's Catholic church, where solemn requiem mass was offered at 10 o'clock Friday, Feb. 12. Burial was made in Calvary cemetery. Besides his mother, he leaves one sister, Gertrude, wife of Thomas Mulligan, of Brooklyn, New York.

### Jesse Milliken.

ST. GEORGE, Feb. 23.—Another link with the past was broken when Captain Jesse Milliken died at his home this morning. He had been troubled more or less all winter with a cold, but was able to be about and up town yesterday. Heart failure and pneumonia caused his death.

### Happy Man Can Eat Anything

For a long time everything R. T. Caruthers ate fermented in his stomach, and he was bloated with gas. After taking Adlerika he has no more trouble. He can eat anything he likes. Adlerika gives the system a REAL cleansing and brings out old metabolic poisons which may have caused trouble for a long time. It is a powerful purgative and takes away that full, bloated feeling so that you can sleep at night without rolling from side to side. Even the most delicate of patients loves GAS and takes away that full, bloated feeling so that you can sleep at night without rolling from side to side. Adlerika removes much additional poisonous matter which you never thought was in your system, and which caused the stomach, nervousness, indigestion, headache, etc. Don't wait until you are in bed with Adlerika. It gives your stomach and bowels QUICK relief. At leading druggists.

### Andrew Grant.

SACKVILLE, Feb. 23.—Andrew Grant, a well known and highly respected resident of Port Elgin, passed away Saturday morning after a week's illness. He was 86 years of age, and is survived by his wife and two sons, Adam and William. The funeral will be held on Thursday.

### Mrs. Wm. Caldwell.

YARMOUTH, Feb. 24.—The death took place at her home, Brunswick street, at a late hour last evening, of Harriet Lenora, wife of Wm. Caldwell, of the grocery firm of Caldwell, Lennox, Ltd.

Mrs. Caldwell was a daughter of the late Capt. Samuel McBride of Harbottle, N. S., and came to Yarmouth with Mr. Caldwell several years ago. She was 31 years of age, and, besides her husband, she leaves one son, Robert, a student at Dalhousie University, Halifax; also two sisters, Mrs. Emma Connor, of Harbottle, but for some time past with Mrs. Caldwell, and Mrs. D. B. Parker, also of Harbottle; and five brothers, Captains Charles McBride, Waterville; William McBride, Kentville; George McBride, New Orleans; Messrs. Andrew McBride, Boston, and Fred McBride, Greenfield, Mass.

### DON'T FOR DANCERS.

LONDON, Feb. 23.—Don't grip your partner's hand and don't put your hand upon his collar. The Dancing Masters' Association has fixed these rules for women dancers.

## DECISIONS GIVEN IN WESTMORLAND

### Judge Bennett Upsets Finding of Magistrates in Two Cases; Upholds One

SPECIAL TO THE TIMES-STAR  
MONCTON, Feb. 24.—Judgments were given in three cases in the Westmorland County Court before Judge A. W. Bennett, here today, and in one case judgment was reserved.

### GAVE MINOR GOODS.

The judge reversed the verdict of Police Magistrate Steves in the case of William Peake vs. Ephraim Price, in which the plaintiff was awarded the amount of his claim against the defendant for dry goods supplied a minor daughter of Price which the latter claimed was without his consent.

### AGRICULTURE SOCIETY CASE.

Judgment was reserved by Judge Bennett in the action brought by the George Agriculture Society, No. 178, against Herbert M. Leaman, a former secretary. The plaintiff's claimed \$212 owing to the society, while the defendant put in a counter-claim for \$270.

### NO JURISDICTION.

The decision given by Judge Bennett in the appeal from the judgment of Stipendiary Magistrate MacManus, of Sunny Brae, who gave a verdict in favor of the plaintiff, Nathan Schiew of this city in his action against Geo. F. Estabrook & Son of Sackville, Feb. 23, was that the magistrate had no jurisdiction in civil cases in the Parish of Moncton or County of Westmorland outside of the Town of Sunny Brae. The case was brought before Judge Bennett for review.

of the old school, he would never install a motor—building and sailing his own boats. A fisherman, expert with rod and reel, he knew the haunts of the trout and seldom and visitor left his camp without a string of speckled beauties.

Honest in his dealings with his fellow-men, no man was more respected in the community. Ever ready to lend a helping hand in times of trouble, he grew old in years, but his heart was young and his interest in the affairs of the town and country never lapsed.

Captain Milliker was a member of a remarkable family, in which 13 boys and girls grew to manhood and womanhood.

He was 86 years of age, and leaves one brother, Charles, in Lowell; a sister, Mrs. Keefer, in Pennsylvania, and numerous nephews and nieces. The funeral will be held on Thursday.

**Huge Icicle Falls From Eaves of New York School Building**

NEW YORK, Feb. 24—A 50-pound icicle which hung from the eaves of St. Anthony's Parochial School fell six feet and struck Paul Schaffin, thirteen years old, in the head as he played in the yard of his home in Houston street. His skull was fractured and he is not expected to live. He was taken to St. Vincent's hospital.

The boy was a pupil in the parochial school. He was bending over to pick up fragments of another icicle fallen from the roof when the huge one dropped. It was formed by water leaking from a tank on the roof.

**Joke Gets Joker Sent To Hospital**

NEW YORK, Feb. 24—A practical joke that John Kirschner, of Brooklyn, was playing on his butcher, John Seles, landed him in the hospital with severe injuries.

Three weeks ago Seles was held up and robbed by a man who stole \$50. Kirschner went to the shop, where he and his wife have been trading for a long time, and, his hand in his pocket, ordered "Hands up!"

Seles, whose back was turned, grasped a cleaver from a shelf and, wheeling about, threw it at Kirschner. It struck the joker in the neck. He was taken to St. Catharine's hospital.

**Poker And Bridge In Battle For Supremacy**

LONDON, Feb. 24—Mayfair is taking sides in a battle which is to be acknowledged as the favored pastime of London society. Bridge has been the standard card game of Park Lane and its side streets for many winters, but this year the Americans living in the aristocratic section have introduced poker parties, which have become so popular as to alarm bridge enthusiasts.

"Die hard" bridge players are refusing to attend poker parties and poker players are never seen nowadays at bridge tables, but many hostesses whose invitations cannot be refused have tables for both games—in different rooms. Women, it is said, largely make up the poker supporters.

**"Cowboy," Aged Six, Kills His Brother**

LANCASTER, Pa., Feb. 24—"Hands up! I'm a cowboy!" A moment after Bernard Barr, six years old, had shouted this command he pulled the trigger of a small calibre rifle. The gun was loaded and the bullet penetrated the head of his brother, Ross F. Barr, 10 years old. Forty minutes later the wounded child died in a hospital.

The children had been playing in their home and the younger brother found the supposedly unloaded gun on the second floor. He shouted the command from the top of a flight of stairs and shot his brother, who was playing the part of an Indian attempting to scale an imaginary stronghold.

Hon. Mr. Baxter Says Deplorable if Province Does Not Feed Self

**URGES INVESTING OF MONEY AT HOME**

Think New Brunswick is Advice at Pythians' Function

Not since his advent into the premiership of this province has Dr. Baxter made such an earnest plea in public for a united effort in behalf of New Brunswick, as he did in response to the provincial toast ably proposed by Mr. Justice Grimmer at the banquet last evening in honor of Charles J. Gorman. After paying his respects to Champion Gorman, the Premier launched into a vigorous discussion of the province and its problems.

"We must not think," he said, "of New Brunswick in terms of square miles or numbers of inhabitants, for it is just as big as you choose to make it. It would seem as if we had brains enough for export will you not, I pray you, keep them at home! Here we have our champion skater, he has stayed at home and made good on his own home ice; may he at least be an inspirational picture.

**SOIL AS AN ASSET**

"The Anglo-Saxon is a roving spirit but ever and anon the hoarding instinct tells and our people come back. I speak to you as the city dweller and would discuss briefly but very plainly a matter that is not exactly in line with the purpose of our meeting here tonight. Do you realize that the biggest thing, the most important thing, the thing that we must think about at this critical period is our soil, our agriculture? When you walk through the City Market and see the country people there with their produce, does it occur to you how important a part they are playing in the lives of every one of us?"

**NOT FEEDING OURSELVES**

"This province is not feeding itself. It is bringing food in from the outside. Such a state is deplorable and if ever a movement is started to improve these conditions—by what political party it makes no difference—I adjure you to get behind it, not only that, but about it but act upon it. Start your demands for New Brunswick things right now, do not accept the footstools of outside places if our own home produces the same. In this way we will stimulate and enliven our basic industry." Don't hesitate to give a word of approval on home goods.

"If you have money to invest first consider New Brunswick. Immigration and population movements, grow dead in earnest over our province and its potentials, the same as Charles Gorman did when he concentrated years of training and hard effort to reach the point he now occupies as working champion. The way to make a province great is the way they make champions, by careful, intelligent, preparation and perseverance.

**MUST PAY BILLS**

"This province has put \$7,000,000 into good roads all of them leading into the country. These roads are not to be kept up so that, besides being a facility for the dweller, they will afford an opportunity for the working class to come in and examine our land and ourselves as an enterprise. I am not here to criticize expenditures but I must tell you that we as a province have got to pay our bills and keep in good order the things we have established. I can see now it is going to be a very important part of my legislative duty to tell you good people what we will require of you as a province to accept it all in good patriotic spirit.

**NOT EASY TIMES.**

"Men, these are not easy times. A transformation like that which this country passed through with the decline of wooden shipbuilding is again taking place. Right here near Saint John, where river frontage was dotted with sawmills, all now in quiet, the mills have been moved to the stump, and the sawn lumber industry in these parts is practically dead. But we are a province of millions of forest wealth, and it is the duty of the people of New Brunswick to realize this fact and see that it is converted into the highest form of production, not only into pulp but into paper—a great industry.

**A NEW N. B.**

"With the re-energizing of the province, communities will spring up there will be demand for clothing, food and other necessities of life. Therefore, let us get ready to do for ourselves do for us all these years past. We have got to have faith, we must realize New Brunswick, think in terms of New Brunswick Empire but as a marvelous field for successful exploitation. Let us attack the problems together and work for a better, a more respected New Brunswick. Then we will gain the confidence of all Canada and the world, and the question of Maritime Rights will be easily solved."

**"Find Yourself" Campaign Closed**

The "Find Yourself" campaign for vocational guidance for the boys of the Y. M. C. A. was completed last evening when the 28 boys met for personal interviews with 12 adults. Supper was served at 6:30 and the boys and interviewers sat down together. A. M. Peters spoke of integrity and W. R. Pearce on thrift. Afterwards each boy had a 40 minute interview with one of the interviewers last night were: J. E. Angevine, W. A. Nicholas, John Unsworth, W. R. Pearce, H. Dev, Partridge, Harold Vincent, D. Gordon Willet, W. O. Bell, general secretary of the Yarmouth Y. M. C. A.; G. E. Barbour and L. A. Buckley.

Mr. Buckley will leave today for Halifax, continuing a maritime tour.

**LEFT OUTSIDE.**

A magazine board holding five magazines was found outside a shop in Charlotte street last night by Detective Herb Kilpatrick. It is at police headquarters.

**GOES TO HOME.**

Gertrude Noyles appeared in the Police Court yesterday afternoon on a charge of vagrancy, having no visible means of support. She was sentenced to three months in the Municipal Home.

**CURLING MATCHES.**

In the president's trophy series in the Thistle Curling Club, Skips R. E. Crawford and J. Currie will be opponents tonight. The Thistles and Carleton will play a six rink match tomorrow night, using both rinks.

**FEBRUARY BUTTERFLY.**

Bessie Robichaud of 179 Prince Edward street, was quite elated today over finding a large yellow butterfly on a potted plant in her mother's room. Miss Robichaud in reporting her find, said that the butterfly is as lily as can be, and is very pretty with his big yellow wings and black markings.

**FINED \$200.**

Frank Reidy appeared in Police Court this morning as agent of the Edward Hotel and was charged with having intoxicating liquor in his beer shop on Feb. 22. He pleaded guilty and was fined \$200 or three months in jail. The fine was paid. J. Starr Tait appeared for the prosecution.

**CARDS ENJOYED.**

The Little River Community Club held a very successful card-party last night, with some 10 tables of forty-fives. After cards refreshments were served by the ladies in charge. The prize winners were: Ladies, first, Miss Mabel Northrup; second, Miss Gladys Burns; consolation, Mrs. John Davidson; gentlemen, first, John Davidson; second, George Riley; consolation, H. Bennett.

**FREDERICTON S. A.**

Field-Major and Mrs. Hiseock, of the Salvation Army at Fredericton, will pay a special visit to this city on Saturday, and will stay until March 2. They will conduct special meetings in the Salvation Army Citadel, Brindley street, and a welcome meeting will be held for them on Saturday night. Field-Major and Mrs. Hiseock were accompanied by Mrs. J. P. Hiseock, who will prove a pleasant opportunity for friends to renew their acquaintance.

**HONORED ON BIRTHDAY.**

When Cecil Brownell, son of Mr. and Mrs. William Brownell, Harding street, Fairville, entered his 80th birthday he was surprised to find 80 of his friends assembled to honor him on his 17th birthday. He was made recipient of a violin case and other gifts, which were presented by George Sprout, one of those present. The birthday cake illuminated with 17 candles, was presented by little Miss Doreen Murray. Games, music, dancing and a radio concert were enjoyed. Delicious refreshments were served by the hostess, assisted by Mrs. George Sprout and Miss Rita Sergeant.

**NORTH END C. W. L.**

Very satisfactory reports were presented by officers and conveners at a meeting of the Saint John North sub-branch of the C. W. L. held last evening at the home of Mrs. J. W. Harrington, president, in the chair. Preparations were made for the annual meeting to be held in the first week in April. The nominating committee appointed consisted of Miss Genevieve Dever, Mrs. Alfred Dever, Mrs. J. P. Quinn, Mrs. J. James and Miss Ena Higgins. Rev. James A. Cloran, C. S. R., is to address the league on Sunday evening in his series on character building.

**FAIRVILLE CIRCLE.**

The sewing circle of the Fairville United church met at the home of Mrs. S. T. Cougle, Main street, Fairville, last evening. The afternoon was spent in quilting and the evening in making patch work. In a social half hour the hostess was assisted in serving refreshments by Mrs. J. J. Cheeseman, Mrs. David Linton, Mrs. George Morison, Mrs. Miss Betty Campbell. Those present were Mrs. A. Scott, Mrs. A. Holbert, Mrs. D. Linton, Mrs. S. A. Worrell, Mrs. O. D. Nelson, Mrs. J. J. Pinkerton, Mrs. Arthur Long, Mrs. George Clark, Mrs. J. Stogit, Mrs. Cheeseman, Mrs. James Williamson, Mrs. D. Campbell, Mrs. George Whitaker, Mrs. Harold Hanson and Miss Betty Campbell.

**As Hiram Sees It**

"Look-a-her!" said Mr. Hiram Hornbeam to The Times-Star reporter. "What did this country send all them fellers up to Ottawa fer?"

"Indeterminate sentence," said the reporter, "but it looks now like six months—don't you think?"

"With hard labor?" queried Hiram.

"Unfortunately, no," said the reporter. "They may choose what they shall do."

"An' they all choose to talk," said Hiram.

"An' when Makimie King gets in the House they'll hev to begin all over agin—to tell 'em when they think of him, feller Dunnin' gets there—an' then they'll be lambaste him or tell him what a gaffer feller he is. By that time somethin' else 'll happen—an' they'll keep on talkin' all summer—nothin' else doin'." Aint we a pack o' fools? They couldn't do wuss in Patagonia—By Hen?"

**C. P. R. WORK IN THIS DISTRICT ABOUT \$450,000**

**Estimates Announced for Expenditures on New Brunswick Division of Line**

**MONEY FOR TRACKS IS LARGEST ITEM**

**Some Additional Sidings—Repairs to Bridges, Etc., Means \$154,200**

The C. P. R. estimates for this year include the expenditure of approximately \$450,000 on repairs and general work in the New Brunswick district according to announcement by J. M. Woodman, general superintendent in the New Brunswick district. He said that there would not be any extensive alterations nor any extensions, except on sidings, this year. No track ballasting would be carried out during the summer except where special need developed.

**REGULAR TRACK WORK.**

The largest item on the list was for regular track work which called for an expenditure of \$283,800 while the work on the extension of the sidings would take up \$28,000. The largest part of the sidings expenditure it was said, will be for additional sidings at Fredericton Junction and along the line towards McAdam on the ice-jam of the new agreement with the C. N. R. for the exchange of empty cars with U. S. railways. This was an agreement made by the C. N. R. instead of building the Kingslear branch.

Repairs to bridges, culverts, buildings, water tanks, fences and also the painting of them was another large item in the estimates, the allotment being \$144,200. New machinery and mechanical equipment for the shops at McAdam were placed at \$7,650. Repairs to the C. P. R. wharf at St. John's were placed at \$8,600. This latter work was being done to the company's wharf where large deliveries of fish were handled by the fishermen in the vicinity for forwarding via the C. P. R.

**OFFICE BOY HURT BY FREIGHT ELEVATOR**

Douglas MacLennan injured in Telegraph-Journal and Times-Star Building

Douglas MacLennan, son of Mr. and Mrs. William D. MacLennan, of 88 Winslow street, West Saint John, office boy in the Telegraph-Journal and Times-Star building, was injured yesterday morning on the freight elevator in the building. He was on the fourth floor and chose to ride the elevator. The elevator was not properly secured and he was hurled forward and was caught between the other box and the cross beams of the car. He was soon released and after Dr. C. H. Pratt had examined him was sent to the General Public Hospital. The report from the doctor is that the boy was not injured but that an x-ray picture will be taken. A. E. Stephenson of E. S. Stephenson & Co. machinists and engineers, examined the elevator after the boy had been freed and found that it was in perfect working order.

**Cadet Boys Pass Signalling Tests**

The members of the cadet corps of the Beauséjour school, West Saint John, of which Guy Cheyne is the principal, have just completed a course of instruction in signalling. They were examined yesterday afternoon by Lieut-Col. Powers. Those who were successful will each receive a certificate and a \$5 award. Two of the boys in the Prime and Frank Treacartin made 100 per cent in the examination. The following were the boys who passed the required tests: Allan Appleby, Ellis Cowie, Leonard Cowie, Clarence Colwell, Melvin Colwell, Colin Campbell, Laurence Calvin, Maurice McIntosh, Wilmet Lane, Weldon MacFarlane, Lemuel Prime, Nathan Rourke, Edwin Sweeney, Herman Stonehouse and Frank Treacartin.

**'RED CAP' KILLED.**

No. 40 C. P. R. train out of Montreal, which arrived in the city at 6 a.m. yesterday, killed one of the red cap porters of Windsor street station as it was leaving that building. The young man was hanging with some mail to catch the moving train, and after delivering it slipped backward and fell under the wheels. Death was immediate. Ice and snow on the Saint John depot platforms is making it dangerous to attempt walking or leaving a moving train, such as is often attempted.

**13 HOURS TO CROSS STRAIT.**

It took the P. E. L. car ferryboat and passenger steamer from 9 a. m. yesterday to 10 o'clock last night to wedge her way through the ice-jam of Northumberland Strait, a distance of eight miles. It is reported that the Strait is filled with floes. As soon as the boat reached the island side it started the return journey, in order to resume schedules, which it was expected would be O. K. today. Previously there had not been traffic from the mainland for several days.

**LORNEVILLE INSTITUTE.**

The Women's Institute of Lorneville met yesterday afternoon and evening at the home of the president, Mrs. Bertha Ferguson. The hostess served tea, and was assisted by Miss Jessie Ferguson. The next meeting will be held at the home of Mrs. Peter Jackson, Lorneville.

**Is Her Health Worth Saving**

You don't fall ill and die every time you take a chance. But sooner or later you get caught off your guard. Sometimes it is just a cold caught by running back and forth from a steaming wash tub to the cold outdoor air. Sometimes it just weakens your resistance and you just "get down in health." Other times the effects become quite serious.

And all the while perfect protection is available in the New System Damp Wash—which comes cheaper and cleaner and lifts the load.
