The Evening Times-Star

The Evening Times-Star printed at 37-37 Canterbury street every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., J. D. McKenna, President.

SAINT JOHN, N. B., AUGUST 7, 1925.

A TEMPORARY SETTLEMENT.

Whatever may be thought of the prospects for lasting peace in the Nova Scotia coal industry, Premier Rhodes has at least succeeded in bringing the conflicting interests together so far as the resumption of work for the next six months is concerned, and that in itself means a great deal.

THE RAILWAYS AGAIN.

Intimations from Ottawa that some scheme for the solution of Canada's difficult railway problem is likely to be made an issue by the Government when the federal elections come is probably based to some extent upon a speech made by Hon. Mr. Coadin, Minister of Marine and Fisheries, in Montreal a few days ago.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

"Ladies and Gentlemen,"

The Ottawa Citizen, "while not on the inside, and therefore not in position to assert positively that there will be a general election this fall," is quite prepared to believe that there may be one.

The Political Football

The Opposition Party objects to a Hydro Commission composed entirely of politicians who will use the commission as a political football.

Opposition Candidates Address Moncton Meet

MONCTON, Aug. 6.—Another meeting in the interests of the Opposition was held this evening in the City Building here, the issues of the day being discussed by the Moncton City candidate, E. A. Kelly, K. C. A. F. Landry and Dr. O. B. Price.

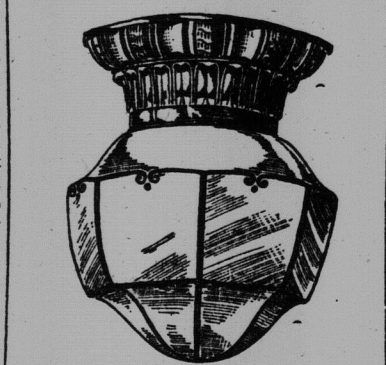

FOURTH ARTICLE FROM ANGUS McLEAN

In My Last Article I Referred Briefly to the Manner in Which the Quebec Government is Handling Their Water Powers

There is absolutely no development of water powers in the Province of Quebec except by private enterprise, with the possible exception of small plants for public utilities, and the cheapest development that we have anywhere in Canada is in this province.

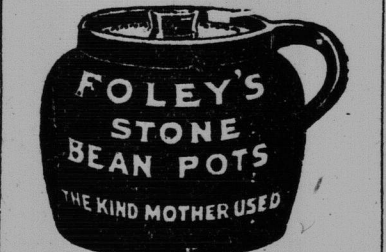

difficulties they stopped the construction of the dam, estimated the additional cost of finishing the work, went to the parties that had contracted for the use of the water and after some delay and negotiations secured contracts from both parties on a new basis which enabled them to carry on the work at the increased cost.

ten to fifteen thousand horsepower provided; its cost is low enough to compete with Quebec, who is our chief competitor in producing newsprint. Our opinion is market is safe for all you produce, but before proceeding cost of development should be estimated from both sides.

A SAVINGS DEPARTMENT In Every Branch BANK OF MONTREAL Established over 100 years Total Assets in excess of \$700,000,000

The Premier, in a statement made yesterday, tells the public once more that his government does not regard this interim settlement as perfect, but does think it represents the best that can be done at this time.

FUEL SUPPLY. In connection with the possibility of a strike in the American anthracite fields on September 1, Ottawa contributes some interesting facts on our recent importations of hard coal, which should throw some light upon the amount of that kind of fuel available in this country at present.

The predicted rebellion against Mr. Baldwin and his government on account of the character of his professional settlement of the mining strike has not materialized. The Prime Minister's proposal to provide £10,000,000 in connection with the interim settlement was adopted yesterday by a vote of the House of Commons by the 351 to 167 margin.

Our imports of American anthracite are pretty well up to last year's figures at this date. During the twelve months ended with June our imports of hard coal from the United States were 3,901,000 tons, compared with 4,168,000 tons during the previous twelve months.

American comment upon the failure of the miners and operators to come to an agreement at Atlantic City is becoming rather sharp, and federal action of some sort is being urged. The Boston Transcript recalls the latest federal commission of inquiry declared that indefinite repetition of these crises in the coal industry would be "intolerable."

"To-day there is strong likelihood of a strike in the anthracite region. There is talk of a walk-out in the union bituminous fields. Another of the 'intolerable' interruptions of the fuel supply threatens. How long must the country tolerate the intolerable? What can be done in the present situation, as far as the Government is concerned? The President, of course, cannot take any and operate the mines. But it is

There is a little white cottage in the Bronx, heard by unknown to countless thousands of persons in New York City. It is the cottage where Edgar Allan and Virginia Poe lived. It has been preserved by the Bronx Society of Arts and Sciences. In the society has gathered all of what is left of the furniture the Poes used when they lived there, and has completed the furnishings with some old period pieces. Of particular interest is a rocking chair in which, tradition says, Poe sat when he wrote "The Raven" and "Annabel Lee."

Hon. W. S. Fielding has formally notified his constituents that he will not again be a candidate for the House of Commons. Mr. William Duff, M. P., was nominated yesterday at the Liberal convention in Lunenburg-Queens, the new constituency created under redistribution. Mr. Fielding's intention to retire from active participation in public affairs is estimated by some to be final. Not only the people of Nova Scotia but of the whole Dominion will very greatly regret that indifferent health compels a man who has given such long and distinguished service to the country to leave the arena in which he played a great part for more than thirty years.

came up in a long spiral, like a rope being dragged over a rubbered object. But how long the spiral was, Mr. Valkenburg does not attempt to say, a serious omission which he feebly attempts to explain by saying that "it did not come out, so that I was unable to see its size precisely." He is rather more satisfactory when he comes to color, observing that "the body was dark green, almost black on the back, and growing lighter underneath, with spots of black," and on the head, which was "rather long," he could see knots that he "look for eyes and nostrils." As a matter of fact, a man has no right to tell a sea serpent story if he allows himself to be hampered by the facts. Mr. Valkenburg's weakness would seem to be that he is inclined to stick to the truth, and in a serpent description that has a fatal tendency to rob the picture of those more picturesque features which in matters of this sort are so highly essential.

Here the poet and his childlike lived and dreamed, and saw "strange and beautiful Annabel Lee." And the stars never rise but I feel the bright eyes. Of the beautiful Annabel Lee. This little cottage was far removed from busy New York City when the Poes lived here in the middle forties. One likes to think that in "Eleanora" he described with poet's fancy this very spot far removed from the turmoil of the world in which he worked for daily bread, but was no part of; where he and "Annabel Lee" dwelt in the "valley of many-colored grass"; where "no unguided footsteps ever came, for it lay far away up among a range of hills that hung about the summit. No path was trodden in it, and to reach our happy home there was need of putting back with force the foliage of forest trees and of crushing the plory of many millions of fragrant flowers."

Over the eastern window looked and looking out on what was yesterday a primeval forest, but is today a magnificent boulevard, there sits a politician who will use the commission as a political football. Adv.

MUCH COAL IN MONTREAL. MONTREAL, Aug. 6.—A survey of the coal situation in Montreal as regards local supplies shows that local dealers have imported large stocks, every available place on the docks having been utilized for storing Welsh and Scotch anthracite.

As stated above the Government will only arrange for the construction of the dam and the dam itself before they will agree to this they require signed contracts from the users of the water at a price that will adequately pay for the construction of the dam, maintenance and depreciation interest on the money invested.

When these contracts are in their possession they proceed to appropriate the necessary money to carry out the work. The reason the Government have undertaken the damming and holding of the water in these different streams in the province is that, generally speaking, there are two or more industries on each stream to use the water, and under the government plan each company, no matter how many there may be, pays for the use of the water in their different plants, that is a development that takes only a small amount of water pays a proportionately less share of the cost.

Some two or three years ago the Government of Quebec sure that the Kenogami Lake, was an estimate of the cost of damming it, and raising the water some 25 or 30 feet, and creating a tremendous holding basin to supply the water to Price Bros. for the mill at Kenogami, and the Chicoutimi Pulp Co. at Chicoutimi. The Government was proceeding with the work the Government made contracts with both of the firms mentioned for the use of the water based on the estimated cost of the damming. During the course of construction unforeseen difficulties arose which made it apparent that the work was going to cost about fifty per cent more than the original estimate. As soon as the Streams Commission discovered these

Tomorrow's article will be the last of this series but it will contain information which should be of interest to every voter in New Brunswick. I would ask the public to be sure and look for it. ANGUS McLEAN.

THE TIMES-STAR FEATURE PAGE

Fables On Health

DON'T EAT WHEN YOU'RE TIRED

VIOLENT exercise, either just before or just after eating, is a hindrance to digestion. It takes the blood away from the stomach to other parts of the body, and so the stomach is deprived of the energy needed for good digestion. For the same reason it is not a good thing to eat when one is very tired. The energy needed for the work of digestion is lacking in a person who is in an exhausted condition and the food is likely to remain in the stomach some time undigested. If food is needed by one who is very tired, only a small quantity of an easily-digested kind should be taken. Meat and eggs are especially harmful to a person who is tired.

LITTLE JOE

IT'S ALL RIGHT TO LOOK BEFORE YOU LEAP, AS LONG AS YOU DON'T HAPPEN TO SEE A'ND SWIMMING SIGN.

This, well boiled gruel, a cup of vegetable broth or, better still, a glass of fruit juice, are best for tired people. Also the mind should be in a cheerful frame while food is being eaten. Excitement, especially from anger and irritation, should be abated before partaking food. "Laugh and grow fat" is an old maxim which also can be applied to good digestion.

Adventures of the Twins

By OLIVE ROBERTS BARTON THE COOK'S LOST BUTTONS.

The Twins were having tea with the Fairy Queen when suddenly, just as Nancy was helping herself to more honey, there was a loud report like a shotgun. "Dear!" sighed the Fairy Queen. "Puff has lost another button. That's six this week. He keeps blaming it on the washing machine and the wringer, but I know it is because he is getting too fat that they fly off." "Who is Puff?" asked Nick. "My cook," answered the Fairy Queen. "We call him Puff for two reasons. First, because he makes such delicious puff paste, and second, because he is so puffy himself." At that minute Puff appeared in the doorway—a large spoon in his hand and a large white cap on his head—also a large, white coat almost covering him up, but not quite, as all of the buttons were missing down the front. "Boo hoo, hoo!" he cried. "I got away before I could catch it. Went right out of the window and over the hill, so it did." "What?" cried the queen. "What new away?" "The button," sniffed Puff. "It was my last button, too. The pepper made me sneeze and off it flew." "Never mind, don't cry," said his mistress soothingly. "It's high time we were getting those buttons back anyway. Buttons are so hard to match nowadays and I'm sure that I never, never, never shall be able to get more like them. Just let me think a minute. I have it! How would you twins like to hunt for the missing buttons?" "Hurrah!" shouted Nick. "We'll go, won't we, Nancy?" "Sure," nodded Nancy, her mouth full of honey. "Then it's settled," said the Fairy Queen. "How lucky it is that you were here when this happened! But it may be a long hunt. You may have to search through everyone of my nine-hundred-and-ninety-nine kingdoms." Then turning to Puff she said, "You must stop tasting so much and you won't get any fatter. Now go and send Jugger Jump to me." Puff bowed, laying his large spoon over his shoulder, and a sword and trying to hold his coat together at the same time. "It's as good as done, Your Highness," he said, and disappeared. "Who is Jugger Jump?" asked Nancy curiously. "My general factotum," said the Fairy Queen. "General Who?" cried the twins. The Fairy Queen laughed. "Don't you know what a general factotum is?" she asked merrily. "Is it anything like a totem pole?" "Not exactly," said his hostess. "A general factotum is a person who can do almost anything. But here is Jugger Jump now. You may see for yourself." At that minute a most surprising person appeared in the doorway that Puff

The Painted Shawl

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for Acid Indigestion. So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion. Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid. To prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of Bismarck's Magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetener of the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use. An antacid, such as Bismarck's Magnesia, which can be obtained from any druggist in solid powder or tablet form, enables the stomach to do its work properly without the aid of artificial digestants. Magnesia comes in several forms, so be certain to ask for one that only Bismarck's Magnesia, which is especially prepared for the above purpose.

MANY INJURED IN WELSH COAL RIOTS

Strikers Attack Maintenance Workers and Clash With Police Guards. AMMANFORD, Wales, Aug. 6.—There was another severe riot last night in the anthracite region where the miners are on strike. Several hundred strikers attacked a colliery with a view to compelling the pumpers and other safety workmen, to quit their posts. They were met by a strong party of police guarding the works, and during the fighting, which lasted nearly three hours, the police commander and 10 constables were severely wounded and many of the strikers badly hurt.

FLAPPER FANNY SAYS

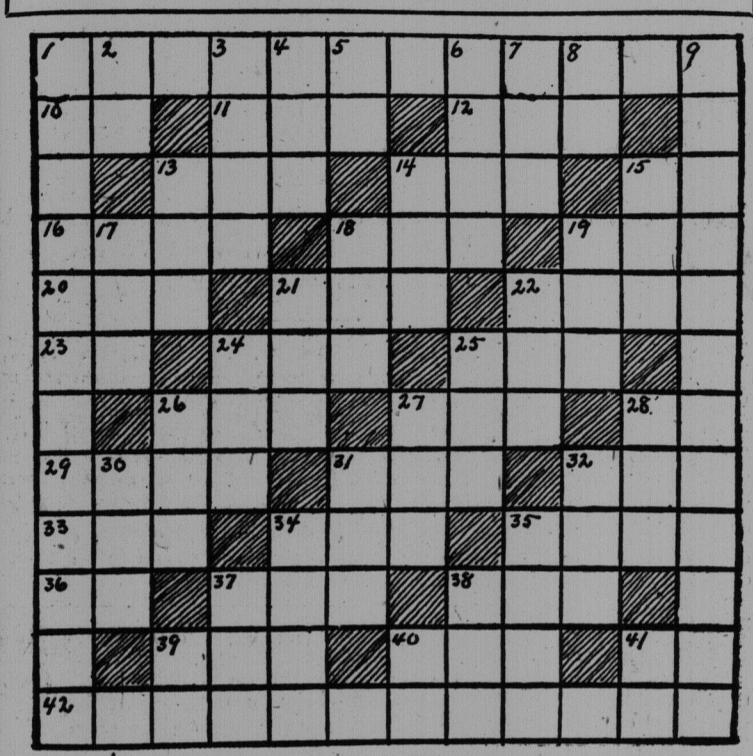

THE bride isn't always the only one given away—somebody often tells on the groom.

Where Cool Breezes Blow, the Colorful Shawls Find an Important Part

SHAWLS are no longer known as the flitting covering for the older woman only, but have become the choice of youth for charm and comfort. Color, gay and appealing are used in fashioning these graceful coverings, and materials of all kinds are well adapted in their making. Just now, when the vogue for painted things is at its height, the shawl which boasts painted posies on its silk surface becomes the height of chic. On a background of mauve or petal pink, the fashionable shops are displaying painted flowers in high colors for their most favored shawls. On all white, vivid oranges and reds predominate, with purples and greens running a close second. Then there are the shawls of brilliant colors which employ delicate bits for painted contrast. Quite the most exotic of the summer shawls are those which feature peacocks, dragons, ducks painted on a background of delicate charm. Fringed, deep and silky, becomes the favored finish of the shawl. It is such a shawl of painted beauty, with heavily fringed borders, that Myrtle Steadman has selected to wear in the lovely settings of the First National film, "The Desert Flower." Miss Steadman has selected a particularly pleasing shawl of silk whose bright posies have been

CANDIDATES OF OPPOSITION HEARD IN CITY

Say Party for Grand Falls Development Under Independent Commission FIRST PROVE IT SOUND INVESTMENT Col. Harrison Deals With Outstanding Matters in Campaign.

The Opposition party stood squarely for the development of Grand Falls under an independent commission when it had been approved to be a sound and prudent investment; that Hon. P. J. Veniot was the greatest friend the International Paper Company ever had; that pasteurized milk and whole pure milk should be made optional in Saint John; that the free school book policy was announced by the present government simply as a means to catch votes, and that the books will not be as free as is thought, were the high lights of the address delivered by Col. W. H. Harrison, city Opposition candidate, in the various headquarters of the Opposition party last evening.

The Opposition candidates for the city, Col. W. H. Harrison, L. P. D. Tilley, M. E. Agar and James Lewis visited the Opposition headquarters in the various wards of the city and West Saint John.

COL. HARRISON. Lieutenant-Colonel Harrison opened his remarks with a declaration that the Opposition party stood squarely for the development of Grand Falls under an independent commission when it had been approved to be a sound and prudent investment. It is this means anything it means that this great utility will not be handed over to a private corporation, nor to any group of private interests. The Opposition does not believe, he said, in making this enterprise a political football but stands for an independent commission handling it on a business basis.

Continuing Col. Harrison said: "When we are told that Sir William Van Horne valued his interest at \$1,000,000, let us remember that the province sold all its interest in Grand Falls, which was at least three quarters of the property for \$60,000. This with some other rights of less value is now being bought back for \$2,000,000 without any arbitration or any proper finding by an outside authority as to its value. Indeed we know the price was made up by adding every cent expended for engineering and legal fees, all the salaries of the Grand Falls Company and its predecessors, and every other expense and then adding interest at six per cent. on these expenditures.

The great concession obtained by Premier Veniot," Col. Harrison said "was that the interest was reduced from compound to simple. The International Paper Company is certainly one of the big interests and they never had a better friend than Hon. P. J. Veniot when he made this deal. Consider further that in 1924 the government of the same Hon. P. J. Veniot had declared, by order in council, that all the rights conveyed by the province to the Grand Falls Company were forfeited.

QUESTIONS "Why did he turn around and pay the price demanded by the International Paper Company? Was it be-

cause he could not wait to have the fair valuation found? Was it because he was determined to let contracts before the day of the election," the speaker asked.

As regards pasteurized milk, Colonel Harrison asserted that neither he nor any of the Opposition candidates condemn its use. "Everyone realizes that pasteurization kills any germs in impure milk but will Dr. Roberts say that it is better than pure whole milk? He cannot say this. The British Board of Health prescribe four grades of milk as fit for consumption, namely, certified, grade A tuberculin tested, grade A and pasteurized," the speaker continued.

FOR PURE MILK "Of these, the first three grades are pure milk. With a farming district such as we have about Saint John, arrangements should be optional whether one wished to buy the pasteurized milk or the pure milk. Pasteurized milk will always be cheaper and will always command a market because it is cheap and safe. The whole milk from a good dairy farm will be of better quality," Colonel Harrison contended.

Dealing with the free school book matter, Colonel Harrison said that "in their dying days, the Government announce a policy of free school books up to grade five" For eight years they have been charging parents double the price the old Government charged for school books. Now, in a desperate attempt to catch votes, they announce a policy of free school books in certain grades. It appears, however, that the regulation does not cover the arithmetic and the geography books, two books which together cost \$1.65. The free books are worth \$1.15 so it follows that the free school books are not even half free."

WOMAN WHO SHOT BREWER IS INSANE 'Countess' Spanajowitch, Claiming Relationship With Serbian Envoy, Locked up.

NEW YORK, Aug. 7.—Mrs. Kossars Spanajowitch self-styled Serbian countess, who shot Christopher G. Hupfel, former brewer, last February, was declared insane by a commission yesterday and was committed to the State Asylum for Insane Criminals at Matineau by Judge Cornelius F. Collins in General Sessions. Alonists testified she was a victim of paranoia, a progressive form of insanity, and had exhibited mania-depressive traits.

Mrs. Spanajowitch, who asserts also that she is a sister of the Serbian Ambassador to France, said she had lived in this country twenty-five years and had at times worked as a designer in millinery establishments. In 1922 she brought suit for \$750,000 against Hupfel, Dr. Melvin Taylor and Dr. Charles Britch, once connected with Bellevue Hospital, on the ground that they had illegally caused her to be placed in an insane asylum. She was in Ward's Island Hospital for the insane a short time in 1918.

This is not a Liberal and Conservative fight. It is a fight for good government. The Opposition Party asks for your support in besting conditions in New Brunswick. Advt.

Daily Dozen Given As Suicide Cause NEW YORK, Aug. 7.—Daily setting-up exercises over the radio were indirectly responsible, the police say, for the suicide of Henry L. Slaght, 69 years old, of Newark, who shot himself in the right temple.

Slaght, who had been partly paralyzed for the last six years, recently took up the exercises thinking it would help his condition. A blood clot from the strain of the exercises formed on his left side. He was being treated for it by his family physician. Police said they believed worry over his added ailment had caused him to end his life.

Mrs. Stead, mother of Mr. Geoffrey Stead, has arrived in Saint John, N. B., and is at Miss L. J. Bailey's, Germain street.

Miss Amy Carman entertained at an enjoyable small tea yesterday afternoon at her residence, Padlock street, in honor of Mrs. Stead of New York.

Mrs. Philler, of Woodstock, N. B., who has been visiting Mr. and Mrs. Percy Turcot, has gone to visit friends in Yarmouth.

Mr. and Mrs. Hugh Bruce and children, who spent the month of July at Duck Cove, returned to the city yesterday.

Rev. William Smith and Mrs. Smith and two children, of Worcester, Mass., who have been visiting a few days at Clifton, N. B., left on Thursday for Gasquetown. Mr. Smith was in former years rector of the Anglican church there and will be warmly welcomed by his former parishioners.

Mrs. John K. Schofield has returned to Rothesay after a visit to her son and his wife, Mr. and Mrs. Kenneth Schofield, in Montreal.

Mrs. F. E. Whelpley's many friends will be very glad to learn that she is able to be up after her recent accident. She suffered painful injuries in a fall two weeks ago.

Alexander Daley, a resident of Boston, cousin of Mrs. Joseph L. Carleton, 117 King street east, is visiting here and has not been in the city for 29 years. He sees many improvements and is renewing associations formed when he was a guest here long ago.

Craven Langstroth Betts, formerly a resident of Saint John, now of New York, is visiting his nephew, Dr. James Manning, and Mrs. Manning, Germain street.

Victory Well-Deserved Everything Points to The Defeat of Private Grabbers. Portraits of W. F. Roberts, M. D., Col. Alex. McMillan, D. S. O., Robt. T. Hayes, M. L. A., E. J. Henneberry, B. C. L., L. M. Curran, M. D., Wm. A. Ross, B. A.

2,200 Calm Dispassionate Family Voters Acclaim Government Candidates at Imperial Theatre Proving Beyond a Shadow of a Doubt People Supporting Government. They Won't Stand for the Lumber Lords' Dictation. They Know the Health Act is a Good Thing. They Won't Allow Grand Falls to be Stolen. They Appreciate the Free School Books. They Don't Trust the Old Scandal. They Know All About the Good Roads. AND THEY FEEL THE MUSQUASH MONEY SAVINGS RIGHT IN THEIR POCKETS! IT'S THE SILENT VOTER WHO WILL CARRY THE DAY!

Social Notes of Interest. Yesterday, the first Thursday in August, the regular tea was held at the Riverside Golf and Country Club. Mrs. Harold Schofield and Mrs. L. H. Shaw presided at the prettily appointed tea table. During the afternoon the golf match was played for the Thomas trophy and was tied for by Miss Sara Hare, Miss Audrey McLeod and Miss Barbara Jack. Those playing in the match were Miss Hare, Miss Audrey McLeod, Miss Barbara Jack, Mrs. George Nobel, Mrs. F. B. Smith, Miss Joan Foster, Mrs. Arthur Anglin, Mrs. Daryl Peters, Mrs. Ralph Fowler, Mrs. Campbell Mackay, Miss Sidney Smith, Mrs. Otto Nase, Mrs. Russell Stardee, Mrs. A. O. Harwood, Mrs. A. West Murray, Mrs. R. P. Cowan.

McCaffrey Denies Report re Contract. J. J. McCaffrey, Frederickton, president of Concrete Builders, Ltd., said yesterday that neither he personally nor the company of which he is the head, was financially interested in the Dominion Construction Co., Ltd. of Toronto, the firm which secured the contract for the work at Grand Falls. This was in answer to a reported statement of Hon. J. B. M. Baxter that the Concrete Builders, Ltd. and the Maritime Construction Co., Ltd. were interested with the successful tenderers for this job.

HOME FOR INCURABLES. At a well-attended meeting of the directors of the Home for Incurables yesterday afternoon routine business was dealt with and reports that were highly satisfactory were received. J. S. Gregory, president, was in the chair.

VACATION TIME SERVICES. The Rev. R. Moorhead Legate, B.D. will conduct the services in Knox and St. Matthew's Presbyterian churches for the remainder of the holiday period. Morning service will be held in Knox Church, and evening service in St. Matthew's.

Do not sell your vote to the Government for a few days work on the roads. Your franchise is a sacred thing, use it as such. Advt.

HEAVY BUYING FORCES STOCK TO NEW RECORD

Havana Electric and General Railway Signal Reach High Peaks

PRICE BROS. FEATURE IN MONTREAL TRADE

Goes to New High at 52—Dominion Cannery and Asbestos Gain

NEW YORK, Aug. 7.—Heavy buying of the public utilities featured the firm opening of today's stock market. Havana Electric opened 1/34 higher at 197, a new record top, and initial gains of a point or more were recorded by Montana Power, American Foreign Power and the 25 per cent. paid. General Railway Signal, which recently announced the receipt of a \$5,000,000 order from the New York Central opened 1/16 higher at a new peak of 240.

MONTREAL, Aug. 7.—Price Bros. was once more the outstanding feature when the local stock market opened today. It was easily the most active issue and again displayed strength, establishing another new high at 52, up 3/4 from its closing figure. Next in activity came Dominion Cannery, which gained 1/4 to 109. Asbestos common, one of yesterday's weak features, was up 3/4 to 60 3/4. National Breweries, in a single board lot transaction, advanced 1 1/2 to 45 1/2. Dominion Textile eased 3/4 to 85 1/2. Another stock to display weakness was Laurentide, which was off 1/4 to 80. Small fractional advances were made by Bell Telephone at 138 1/8, up the fraction and by Wintipeg Falls at 101 1/2, up 3/4. The balance of the list was steady. Consolidated Smelters and Canada Cement selling unchanged at 108 1/2, and 107 1/2 respectively.

CABLE TRANSFERS. MONTREAL, Aug. 7.—Cable transfers, 485 3/4.

J. J. MERRYFIELD, Bailiff

Poor Children's Sight and Teeth

Over 700 Saint John Kiddies Getting Free Treatment From Government.

Citizens of Saint John are learning more each day during this political campaign what really good work the Department of Health is doing in their midst. It is perhaps not generally known that children of poor families, discovered in the schools to be suffering from defective vision and teeth, have these important matters attended to absolutely free of charge in the optical and dental clinics of the Health Centre, Sydney street.

Already this year 69 little ones have been examined for poor eyesight by the best specialists in the city and supplied with corrective glasses. This gives these children the full benefit of the highest class of professional service and takes them from the handicapped class in their schools, giving them an equal chance with boys and girls from well-to-do homes.

At the free dental clinic in this city last year 613 children were on the books receiving free treatment. In these cases Saint John's best dentists, working for the Government, made 810 fillings, 998 extractions and 108 children from well-to-do homes, who had been checked up by the Medical Inspector of Schools, were turned over to their own household dentists because their parents were well able to pay their bills.

All the poor children treated are reported back to the free clinic every six months and their teeth are being kept in perfect condition at the expense of the Government. The number of these children is naturally increasing every year.

The above figures are an etching rebuke to Dr. Baxter's claim that the

SETS TRACK RECORD

Trumpet, With Murphy up, Does Mile in 2:03 2-5—Wins \$15,000.

AURORA, Ill., Aug. 7.—Trumpet, a bay gelding by Etawah-Tipton, owned and driven by Tommy Murphy of Syracuse, N. B., set a record for himself in winning the \$25,000 American Trotting Derby, at Exposition Park yesterday.

In a field of 10 starters, the Murphy entry won the first heat in 2:03 3-5, and then came back to take the third and deciding heat in 2:03 2-5, clipping a fraction of a second from his former mile record of 2:04 1-4. He took \$15,000 of the purse.

Walter Cox, Goshen, N. Y., took \$4,000 for second place with Hollywood Jessie and with Thompson Dillon driven by Fred Egan, annexed \$2,000 for third.

JOINS TENNIS TEAM

MONTREAL, Aug. 7.—Leroy Renne, Toronto, has been selected fourth member of the Davis Cup team by the Canadian Lawn Tennis Association to meet the Australian team here Aug. 13, 14 and 15. The others are Jack Wright, Willard Crocker, and E. H. Lefranchise.

THE OPPOSITION'S BOLT IS SHOT!
—their campaign of misrepresentation, false criticism, racial prejudice and playing the federal game has petered out.
THE PEOPLE'S EYES ARE OPENED!
—to the instability of their so-called platform, their utter helplessness in the face of Government accomplishments and their bolstering up a lost cause with appeals to party lines regardless of the consequences to the people's pocketbooks.
THE GOVERNMENT IS WINNING
—because the Great Silent Vote, the unpurchasable 100% citizenship vote, is holding its tongue and will cast its ballots for the party that has given it so many real benefits.

"By Their Fruits Sha Il Ye Know Them."

PREMIER DENIES N. B. FIRMS ARE IN GRAND FALLS CONTRACT

Veniot, at Imperial Theatre Rally, Deals With Questions of Hydro and Lumbermen's Campaign Course

Continued from page 5.

was passing and they wished to hear the Premier's address he would dispense with this part of his address. Continuing he took up the health department matters and said:

"Let us make a rapid survey of some of the work accomplished in this province since the proclamation of the act, Oct. 1918. First, the combating with reasonably successful results the great influenza epidemic of winter of 1918-19. You will remember that, upon the third day after this calamity visited this province, as a preventive measure I initiated the complete closure of all assemblies of people of more than six—the first territory in America to have adopted this vigilant measure so early in the epidemic."

"SACRIFICIAL EFFORT"

"I had but one official at that time and a clerk stenographer, but I commanded military doctors, nurses, nurse assistants and laymen and women, the finest pieces of sacrificial effort of modern times in Maritime. Within one week had this entire province organized to fight perhaps the greatest enemy to the human family that has ever gotten within our gates—including a daily survey of every city, town and hamlet in this province—reported to my office."

"Two years following this the United States medical service, in making up statistics, called upon me for a general statement of our experience, and as a result of such investigation claimed that in a province of a state of 370,000 people, which was the estimated population of that day, with the approximate number of cases, with the general death rate which we had, reported that so early prompt closure of public places upon that occasion meant a saving of 800 lives for the province."

HEALTH BOARDS DISORGANIZED

"We then organized what had been theretofore a deplorable situation as regards Public Health. Queens county Board of Health had held no meeting in 25 years; 32 Boards of Health, not knowing where one ended and the other began—nothing approaching a system of collecting vital statistics and absolutely no compilation of such—no reporting of communicable diseases outside of Saint John and Moncton, no burial certificates outside of these cities—anyone could be buried without a doctor's or undertaker's certificate and buried anywhere, a knowledge of which no one had apart from the immediate family."

SPEAKS ON CONDITIONS

"Smallpox was ever and always present costing the province hundreds of thousands of dollars. There were no uniform efforts to cope with diphtheria. No one knows what the death rate was and had no way of ascertaining it. Therefore, how could they cope with it? Typhoid came and went exacting its toll in the lives of valuable citizens, and governments sitting by and doing nothing about it. The Lord giveth and the Lord taketh away. Blessed be the name of the Lord."

"The sources of the water supply were left to take care of themselves. A death rate of between 35 and 20 per 1,000 and an infant mortality in some places in the province of 800 over for every 1,000 born. There was no hotel or restaurant inspection outside of Saint John and Moncton, no food inspectors. These and many other conditions which time will not permit me to enumerate constituted in part the

SAYS TRIO OPPOSED HIM

"In addition an opposition in the House of Assembly which old parliamentarians frequently stated they never had witnessed as relating to any piece of legislation in the history of the province—among the personnel of the front line benches who fought and fought hard calling both bills—the Health Bill and Bill Roberts—anything and everything in the way of collets that could be found, were Hon. J. B. M. Baxter, L. F. D. Tilley and Frank L. Fort. They did their very best to thwart its passing, to kill the child as it was being born and they said that all that I was trying to do was to secure for myself the title of Honorable of the Crown, to become a Minister and to procure a salary. Of the two former statements it was quite true that I wished to become a Minister and I felt then and have proved since that that was the only method that could be adopted that would give New Brunswick the legislation she now has, the title of "Honorable," fortunately or otherwise, automatically was thrown in, and I trust that I have in no way brought dishonor upon that title which I have worn since that day."

GOT NO SALARY

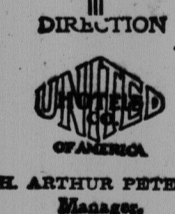

"As to the salary, to prove that I was sincere in regarding this action as a "War Measure" when they objected to my receiving a salary I immediately came back and said I would serve gladly without salary and did so serve until 1920 when my leader, Hon. Dr. Foster, and colleagues would not stand longer for this and I was placed upon a salary of \$2,400."

"In January, 1919, the service of general sanitation was organized, which has done so with sanitary inspection of all areas throughout city and county with the idea of having any nuisances which are considered prejudicial to the health and lives of the people, water supplies, such as wells and their rela-

can be warded off by Chamberlain's Colic Remedy. Quickly eases the distress and chases the pain and misery away. Easy to take, harmless, quick acting. At all drug stores.

CHAMBERLAIN'S Colic and Diarrhoea Remedy

tion to privies, etc., the care of communicable diseases and their quarantine, etc.

VITAL STATISTICS

"In January, 1920, the vital statistics service was organized, the book-keeping department or service of the human family. Births, deaths and marriages were recorded in each village, town, city, parish and county of the province. We can give you a most technical analysis of births, deaths and marriages—re age, sex, creed, race, etc., most interesting, but in addition most essential, in fact indispensable, because the very foundation upon which is erected the edifice of public health is the service of vital statistics."

School Inspection

"The next service was medical school inspection in August, 1920. We provided medical school inspection for every scholar and for every school in this province, city and county; the first service of its kind in America. We found in 1922 that our service which was being cared for by the local physician was not so efficient as we would like so we turned our attention to procuring officials who would be all-time men—dividing the province into six districts and having one all-time medical man over each."

EPIDEMICS.

"Smallpox epidemics are a thing of the past. More than 100,000 have thus far been vaccinated, including all children entering school. All lumber employes entering camp must be vaccinated. This furnishes an impenetrable wall of protection against smallpox and as long as this wall is kept in good repair New Brunswick is free from this heathsome, expensive and dread disease."

DEATH RATE CUT.

"The typhoid deaths of 420 in 1920, has been reduced to 233 in 1924, nearly cut in two. The general death rate in 1920 was 15.61 in 1924, 12, a saving of 1,200 lives annually in New Brunswick. The infant mortality rate in 1920 was

185; in 1924, 100, a saving of 400 lives annually in New Brunswick. As to maternal mortality, mothers' lives had been sacrificed, 54 in 1923 and 51 in 1924. We have a program of public health nursing that, as soon as can be arranged, will materially take care of this condition."

Pasteurization

"The process of pasteurization receives its name from that man of science that perhaps of all others stands out as one of, if not the world's greatest benefactors, M. Pasteur, who discovered that by elevating the temperature of fluids to 140 degrees Fahrenheit, and allowing that temperature to remain a certain time germ life was destroyed, so that the process of pasteurization of milk is the raising of the temperature of this commodity to 140 and remaining at that for 30 minutes and then quickly falling to 40. Milk is a universal food from birth to old age. It is peculiarly perishable and requires great care to preserve it."

BOVINE TUBERCULOSIS.

"All herds of cattle, except accredited herds, contain from 10 to 40 per cent of cattle having active tuberculosis known as bovine tuberculosis. Unfortunately, there are but few accredited herds. Saint John milk supply comes from Kings and Queens counties, and 10 to 40 per cent of the cattle are so infected. You can understand, then, when I say that all children and young adults suffering from diseases causing death or chronic deformities such as spinal disease (hunchback) and hip, bone and gland tuberculosis got their infection from and through milk. Milk also is a conveyor of typhoid, diphtheria, scarlet fever, intestinal disease of infants and colic. In our General Public Hospital previous to 1920 our typhoid wards were always filled and unable to cope with the cases presenting themselves during July, August, September and October, but peculiarly during the summers of 1923 and 1924, the number of cases was reduced by 70 per cent."

TYPHOID ON FARM.

"Twenty years ago we had an epidemic of 120 cases with 16 deaths. When these cases, one after another within a day or two, turned up it was found they all purchased their milk from one milk man, and the Board of Health immediately got after him and they found that his milk had been coming from Bloomfield from a farmer that had been harboring one or more cases

PALACE FRIDAY and SATURDAY

BUCK JONES

"The Desert Outlaw"

Buck will delight and surprise his old admirers with an amazing new stunt, proving himself the "Hand-cuff King of the Cowboys"; a second Houdini on horseback. A hand-cuffed leap for life from his horse "Silver" to a train!

And you'll like Buck's pretty, petite leading lady, Evelyn Brent.

"THE FIRST 100 YEARS" Harry Langdon Comedy.

GAIETY FRI and SAT.

MARSHALL NEILAN'S FOOLS FIRST

It's the big surprise picture of the year. We won't say a word about the story—that's for you. And you'll never guess the end.

Great cast includes Claire Windsor, Richard Dix and Claude Gillingwater. Wow! How it whistles!

"THE JAZZ BOUT" Fifth Bout in "Tyring Flat" Series.

of typhoid for some two or three weeks, and the attendants looking after the typhoid were also looking after the milk. Pasteurization of milk would have saved this situation.

FEWER BABY DEATHS.

"One of our representative undertakers tells me that whereas he used to, previous to 1920, have an average of from 60 to 70 infants who died from intestinal diseases (summer cholera), during the summer of 1923 and the summer of 1924, he has had four and two cases, respectively, and this summer so far not any."

"A popular druggist who always had made up and on hand a large quantity of 'Blackberry Syrup' for this same condition, saw a rapid falling off in its sale in the summer of 1923, and practically none in the summer of 1924. This year he did not prepare any—all brought about by pasteurization of milk, sufficient argument, I take it, for this process."

WHY IT IS NOT OPTIONAL.

"I have been approached many times and asked why not make it optional so that those wanting and requiring pasteurized milk may have it, and those desiring raw milk may not be penalized.

IMPERIA TODAY AND SATURDAY

Don't Wonder What Become of Sally! She's here!

And Colleen Moore is Sally! The greatest part she's ever had—and the best show she's ever given you. The wonder girl of song and stage is on the screen at last.

The Best Bit of Summer Entertainment Yet—Everybody Delighted Yesterday

The reason is that had we pasteurized and raw milk, the very people for whom the milk was being pasteurized would purchase raw milk and our death rates would go on as before, which I trust no citizen would wish.

"In the face of these facts and figures what would Saint John citizens have me do? Well, as Minister of Health, responsible for the health and lives of our people, I am willing to go down to defeat if that is the penalty I must pay in my endeavor to save the health and lives of the people of this city."

OFFERS \$1,000 REWARDS.

"Unfair canvasses, whispering campaigns are abroad to the effect that I have had raw milk for myself and family; also that I am and have been interested financially in one or more of the pasteurizing plants; both of these statements are furthest from the facts. I have a check for \$500 in my office which will immediately become the property of the first man, woman or child

who can prove that I have had a drop of other than pasteurized milk in my house since May 1, 1923; and again a similar check to such as can prove that I have had a cent's interest directly or indirectly in any one of the pasteurizing plants. I trust that such canvasses will now cease.

"I admit that milk is sometimes by no means the best. I frequently have it in a condition unfit to use, but this is not due to pasteurization but to tampering with and poor care. I am at the present time investigating and will eventually furnish Saint John with good milk."

JUNIOR BASEBALL

The Adelaide Street Blue Birds defeated the Millidge Avenue Rovers, 9 to 0, on the North End Improvement League diamond. The batteries were: For the winners, O. Davidson and K. Watson; for the losers, H. Cunningham, C. Beck and J. Finkham.

INJURED AT REFINERY

Andrew Byers, 24, an employe at the sugar refinery, was taken to the General Public Hospital last evening at 8 o'clock after being injured by a hot oil tank at the refinery.

TWO ARE FINED

Police Constables Hatt and Leard were called to a local hotel to quell a disturbance being caused by a man under the influence of liquor. He was arrested and fined \$8 or two months in jail.

ST. JUDE'S PICNIC

In the list of those assisting at the St. Jude's Sunday school picnic, published yesterday, the names Mrs. W. McLennan, Mrs. W. Gordon Smith, Mrs. A. Evans, Mrs. H. Robson and the Misses Alice and Vina Smith should have appeared on the refreshment committee.

PRESENTATION

On Wednesday evening friends of Mrs. Bryan, including members of the Clifton House staff, called upon her at her home in British street and gave her a very pleasant surprise in the form of a presentation of a watch.

VISITING OFFICERS

W. M. Rippey, divisional superintendent of the C. N. R., G. E. McCoy, superintendent of car equipment, and W. P. Hutchinson, train dispatcher, were in the city today from Montreal on business.

HOME FROM ENGLAND

Rev. Henry Penna, pastor of the Carmarthen street Methodist church, has returned after a visit to England. He said the Old World was passing through a critical period and the dove system was destroying the independence of the workers.

MOVING OCEAN KING

The sunken tug Ocean King at Quebec has been moved and the continued efforts of the salvage company have got her into 18 feet of water according to information received this morning by the Saint John Drydock.

DID WELL

A bazaar held the other day at 84 Sydney street netted the fine sum of \$28.30 for the work of the Protestant Orphan's Home. The money has been received today by H. L. Ledwell, secretary.

STREET FLOODED

The collapse of a track basin at the corner of Mecklenburg and Pitt streets blocked the main sewer at that point and this morning there was a flood of water over the street.

DIED IN FITZBURG

The death of Albert Augustus Duffy occurred at Fitzburg, Mass., on Wednesday. He was 73 years of age and was a native of Hammond River, Kings county, but recently he had moved to the United States. He is survived by two daughters, Lottie at Pittsburg, with whom he was residing, and Annie of East Saint John; and one son, John Edwin Duffy of New Brunswick.

As Hiram Sees It

"Hiram" said The Times reporter to Mr. Hiram Hornbeam, "I heard the rain on the roof last night. It was wonderful. Only half an hour from the city and we were at a lake that is a great jewel in the bottom of the wilderness. We fished. We ate. We roared a howl. We sat on the verandah and sang about getting the world go by. We had a hand at cards. And then the rain-rain upon the roof to lull all to sleep. Hiram we miss a lot when we stick too close to the daily grind and follow the same dull routine day after day and month after month."

MORE CATTLE

Word has been received at C. P. R. headquarters that 30 cars, containing approximately 600 head of cattle, will leave Montreal tomorrow morning and are expected to reach here on Sunday for shipping.

MANY ATTEND

The benefit fair under the auspices of Local 273, International Longshoremen's Association, now being held in the rear of the Unique Theatre, with entrance off Charlotte street, is attracting large crowds. The merry-go-round, Ferris wheels, booths, etc., are being well patronized. The fair lasts several days.

FIREMEN OUT TWICE TODAY

Noon Hour Call to Barker Premises in Princess Street

Considerable Damage is Done—Early Morning Blaze in Duke Street.

Fire broke out in the wall in the second story of the building 104 Princess street, at the Barker premises, Ltd., and used partly as a warehouse about 12.45 o'clock this afternoon and continued at several thousand dollars was done, largely by smoke and water, before it was extinguished.

The salvage corps men put covers over a large portion of the goods on the lower floor. The firemen were compelled to do considerable cutting before they could send in the all out signal.

EARLY MORNING BLAZE

Thick smoke aroused Raymond Williams in his home at 74 Duke street about 8.45 o'clock this morning and he found that a fire had broken out in the rear of the building, which is a two-story structure, was quite badly damaged, while considerable cutting was necessary in the upper flat, occupied by Charles H. Dunbrack.

IS GOING TO KOREA

Miss Alice Milligan, daughter of Mr. and Mrs. C. J. Milligan, Moncton, left on Wednesday for Vancouver, en route to Ham Heung, Korea, where she has accepted appointment as teacher in connection with the mission work established by the Presbyterian church and now carried on under the United Church of Canada.

We Buy Below Wholesale

Customers of Saint John's Rexall Store benefit by the greatest Druggists' partnership in the world. Thousands of locally owned Drug Stores through Canada, the States and England join their buying together.

You can see how much less they can buy for. They join again in manufacturing the hundreds of products under the Rexall trade mark.

Here also you can understand how they pay less for precious qualities.

Now, since the Rexall Store—which in Saint John means the Ross Drug Co., Ltd.—pay so much less it stands to reason they can sell standard qualities for less.

An acquaintance with the advertising of the Ross Drug Co., Ltd., or a glance in its windows and along its counters proves it goes strong on low prices—tries to get business that way.

Therefore, standing as it does in the best position to create lower prices for top qualities, there is no question but what you do better for your money here. Save with safety at the Rexall Store.
