Port Conference This Morning Helps Clear Up Situation BALWIN TO GUARD BRITISH NAVY

FURTHER CUTS ARE ASKED FOR AT CITY HALL

Definite Decision This Afternoon, with the Outlook This Morning.

REQUESTS MADE

Shipping Men, Lumbermen and Longshoremen Submit Case to Conference.

The port charges matter here is regarded today as clearing up. A request from the steamship men that the rates on grain be reduced to one cent a ton, those on flour to 15 cents a ton, and the reduction on general cargo of five cents a ton, apply to import as well as export traffic, was presented to the members of the Common Council and the port committee this morning.

Not Hurdled, Says Mayor. Those present at the conference were: J. T. Knight, Percy Turcot, H. C. Schofield, Thomas Nagle, A. P. Patterson, D. W. Ledingham, G. L. Warwick, Hon. W. E. Foster, L. V. Lingley and the Mayor and Commissioners.

In calling the meeting to order Mayor Potts said he had supposed the matter of reductions in port rates had been settled with the assent of the council but as there had been a request for another conference he had arranged one.

Hon. Mr. Foster said he had been the one who suggested that the rate apply to imports but he had felt at the time that the reduction given would amount to about the surplus of the harbor department for the year 1923 and he would like to have from the Commissioner of Harbors a statement of just how much the proposed reduction was.

Commissioner Bullock said that on the basis of last year's business the reduction would amount to \$18,525. A. P. Patterson asked if this \$18,500 applied to the whole season or only from January 1 and the commissioner said it applied to the whole season.

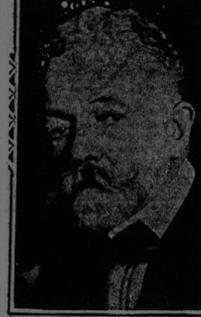

Mr. Patterson then said that, instead of a saving to the steamship people of \$18,000, there was only a saving of about \$15,000. Mayor Potts said that what they lost in this December would be made up next, as the agreement was for one year.

Mr. Patterson said the meeting had been called to deal with matters which had arisen since the resolution was adopted by the council. It had been understood the council was to meet the shipping men half way. The shipping interests had asked for a reduction of \$50,000 and the council had only given them \$15,000.

Commissioner Frink said that in the surplus of \$26,000 there were included the amounts received from rentals and leases and that the revenue for this year was at the present time about \$6,000 behind that of last year.

Cuts Suggested. Percy Turcot said the shipping men had asked to deal with matters which were willing to accept a rate of one cent a ton on grain, 15 cents a ton on flour and 20 cents a ton on general cargo, to apply to both export and import freight. This would mean that the city would be giving up a revenue, based on last year's business, of \$17,000 on grain, \$8,883 on flour, \$3,830 on general cargo.

Suffers Stroke

SENATOR HENRY C. LODGE Cambridge, Mass., Nov. 6.—Senator Henry Cabot Lodge suffered a stroke yesterday at the Charlesgate Hospital, where he has been convalescing from an operation. He was still unconscious early today, according to a statement issued by his physician, Dr. John H. Cunningham. The statement said that the condition of Senator Lodge "must be considered critical."

Dr. Cunningham's statement reviewed the history of Senator Lodge's case since July 27 when he submitted to an emergency operation from which he made good recovery. On October 20 a second operation was performed. "The Senator's convalescence was surprisingly good," Dr. Cunningham said. "He was out of bed on the third day and said daily thereafter reading and dictating letters, and the indications were that he would leave the hospital next week with every assurance of being in better health than he had been for some time previous to the operation. There was every indication that he would be present at the opening of Congress on December 1."

ELOPERS WED IN EASTPORT, MAINE

Massachusetts Police Had Been Searching For Them Since Friday.

North Andover, Mass., Nov. 6.—All that is necessary now to bring the runaway romance of 17-year-old Ivy Davis and 18-year-old Maxwell Mahar to a happy conclusion is the parental blessing. And the local police, who have been searching for the young couple since they disappeared together last Friday afternoon, say that desideratum will be willingly accorded them when they return here in a few days as man and wife.

The girl's parents asked the police Saturday to assist in locating her. She had worked until 3 o'clock Friday afternoon, then she disappeared. She returned home, packed a travelling bag and with \$20 left town with Mahar in an auto owned by the young man's father. They had wanted to be married, but the girl's parents objected because of her youth, and confident that the couple had left to bring their youthful romance to a climax in some convenient Gretna Green, the police were asked to intercept them and prevent the marriage.

Wire Briefs

Halifax, N. S., Nov. 6.—At a meeting of the directors of the Bank of Nova Scotia held here this morning O. E. Smith, Halifax merchant, was elected to the directorate.

Watertown, N. Y., Nov. 6.—Three men were drowned in Lake Ontario near Cape Vincent early this morning when the steamer Grand Loclie went ashore on Charity Shoals.

Halifax, N. S., Nov. 6.—Louis Kraus and Charles Perreault, both of New York, who left here on Friday, October 24, in a 30-foot yacht for St. Lucia, British West Indies, 1,800 miles distant, have cancelled their trip after reaching Provincetown, Mass.

SAYS EXTRA GRAIN COST HERE NOT DUE TO RAIL CHARGES

Prov. Engineer Says C. N. R. Costs to St. John Not Greater Than Portland.

THE SHORT LINE

Logical Terminus Would be at Port of St. Croix, Says B. M. Hill.

The Times-Star asked Burton M. Hill, Provincial Road Engineer, and director and chief engineer of the Valley Railway, for an interview in the railway building, and also one of the engineers employed by the Transcontinental Railway Commission during the construction of the National Transcontinental across New Brunswick. Later he was employed by the Government of N. B. as inspecting engineer of the road between Gagetown and Westfield.

Mr. Hill's Opinion. Mr. Hill says: "I have read with a great deal of interest your article on the short rail line through the State of Maine, and also comments of various citizens with reference to same. In my judgment the extra cost of handling grain through St. John Harbor as against Portland Harbor is due entirely to the port facilities and not due to rail haul as owing to the splendid type of construction of the Transcontinental. Grain should be delivered at St. John as cheaply by the Canadian National Railway as can be delivered at Portland and far cheaper than the Canadian Pacific Railway can deliver grain to St. John via this line. The difference in cost is entirely due to the light grades and heavy road-bed of the Transcontinental.

If a short line is to be built through the State of Maine, it will certainly be built to the port of St. Croix, between St. Stephen and St. Andrews. A line can be built from St. Claire to St. Croix with Transcontinental grades for the same cost as a line can be built from St. Claire to Woodstock. While the line to St. Croix would be approximately forty miles longer, the difference in the cost of construction of the section from the head of the Mattawamkeag River to Woodstock against that to St. Croix would approximately offset the extra length in mileage.

The line from St. Claire to the head of the Mattawamkeag would be common to both routes. The economic reason for building to the Port of St. Croix is that this is the only Atlantic port on Canadian territory that can be reached by a shorter rail haul than Portland. The distance from Winnipeg to St. Croix will be about 25 miles less than to Portland.

Port facilities can be developed at St. Croix for approximately one half the cost that they can be developed at St. John. As to the extension of the Valley Railway to Grand Falls, this would not shorten rail haul as the distance from St. John to Grand Falls via Valley would be approximately five miles longer than via McGivney Junction.

Valley Ry. Extension

If the Valley Railway between Centreville and Grand Falls is to be constructed, it could only be done as an electric road in conjunction with the development of Grand Falls. By combining the two projects and using the railway as a market for a certain amount of power, it may be found economical to build this section of the Valley Railway so as to give through connection for the Valley Railway with the transcontinental. I am of the opinion that this proposition is as feasible when the Grand Falls development is undertaken. It would not, however, be of any advantage in the through haulage of grain to St. John as the inferior grades on the Valley Railway would be a detriment, especially where there is no reduction of mileage.

Having in view the above features with reference to the Valley Railway and the building of a short line through the State of Maine, it would seem that the present conditions of rail haul via transcontinental are as favorable for the port of St. John as any that could exist and it is a matter of engagements for a speedy recovery he will re-open his tour in Buffalo, N. Y.

Several days ago he was stricken with neuritis while playing in Birmingham, Ala. He was forced to cancel all engagements for three weeks. In the event of a speedy recovery he will re-open his tour in Buffalo, N. Y.

First Negro Judge In U. S. Is Elected

Chicago, Nov. 6.—(United Press)—The first negro ever elected to a municipal judgeship voted into office on the Republican ticket, it developed today. He is Albert B. George, 51, a lawyer, who defeated his Democratic opponent by a majority of between 65,000 and 70,000. George has been a lawyer for thirty years and is known in the negro colony as "Lawyer George." He made his campaign on the theory that the interests of the negroes demanded a member of their own race on the bench. "I shall do my best to be just to all," George said. George is tall, with straight hair and a light complexion.

SIGNAL IS FLASHED AROUND THE EARTH

Makes Circuit in Five Seconds—First Attempt is Successful.

New York, Nov. 6.—Two radio signals were flashed in opposite directions around the world last night from the third "C" sent eastward radio station in Grand Central Palace and the eastbound signal won the race by one second. According to the engineers of the Radio Corporation of America, who conducted the test, this was the first successful attempt to encircle the globe with a single wireless message. The letter "C" sent eastward completed the circuit in five seconds, while the letter "S" made the westward journey in six seconds.

CHOIR MEMBER IS IN GRIP OF POLICE

Hart Taken in Washington—Police Believe Robbery Mystery Solved.

Washington, Nov. 6.—By the arrest of Francis Winfield Hart, 26, member of the choir of Grace Episcopal Church, the Washington police believe they have solved a dozen recent burglaries that netted the wielder of a jemmy loot valued at upward of \$100,000. Hart confessed, the police say. He was arrested at the Cavendish apartment where he came to live a month ago at the home of the Rev. Meade B. MacBryde, rector of Grace Church and leader of the choir, who had known him for seven years and had taken him in when his parents turned him out. Hart was married at 17. His wife died three years later, leaving a child. Hart was a non union bricklayer, ostensibly. Even while police were taking him to headquarters Miss Caroline Harberty telephoned that her apartment had been entered and she feared the burglar might be in the house. She was missing was a string of green beads. When Hart was searched at headquarters the green beads were found in his pockets.

TAKES ISSUE WITH MEDICAL JOURNAL

Oxford Vice-Chancellor Denies Increase in Alcohol Use by Students.

Cambridge, Eng., Nov. 5.—A statement in a medical paper alleging a great increase in the use of alcoholics among university graduates is strongly repudiated here, and evidence is adduced to show that there never was a time when undergraduates were so moderate in their drinking as at present. Joseph Wells, vice-chancellor of Oxford University, declares the statement entirely unjustified. "The amount of drinking," he says, "is less than it was 30 years ago. It is very rare indeed for a man to be seen drunk except on special festive occasions. There is very little sympathy indeed among undergraduates for the man who allows himself to over-indulge in liquor. Wines as a form of private entertainment are almost extinct."

Otis Skinner Is Ill In Chicago

Chicago, Nov. 6.—Otis Skinner, veteran actor, is seriously ill in the Drake Hotel. Several days ago he was stricken with neuritis while playing in Birmingham, Ala. He was forced to cancel all engagements for three weeks. In the event of a speedy recovery he will re-open his tour in Buffalo, N. Y.

MARGIN IN SENATE WILL BE 3 TO FIVE; 47 IN U. S. HOUSE

Democrats Today Concede Republican Victories in Both Chambers.

COOLIDGE'S COUP

President Polled About 18,000,000 Out of 30,000,000 Votes Cast.

(By Canadian Press.) New York, Nov. 6.—Latest available figures on the Senate and Congressional returns indicate that the Republicans will have a working majority in both houses. There are several states where the senatorial contests were very close and the results have not yet been definitely announced, but Republican leaders say they are confident they will have a majority of 14 in the Senate over the Democrats. This, they say, will give them a working majority of three to five over almost any anti-administration coalition. The La Follette group might attempt to form against administration measures.

REVOLT IS SERIOUS

Garrisons in Rio Grande de Sul Rebel—Uruguay on Alert.

Montevideo, Uruguay, Nov. 6.—Dispatches from the Brazilian border indicate that the revolution in Rio Grande de Sul is assuming serious proportions. They say the garrisons at Bago, Lavras and Sao Francisco de Assis have revolted. A great number of refugees have crossed the border into Uruguay. The Uruguayan Government has asked parliament to provide funds to aid the distressed refugees and has sent troops to the frontier to shelter them. Uruguayan troops also have been dispatched to the border to see that neutrality is observed.

FAILS TO LIVE UP TO COURTSHIP AGREEMENT

Chicago, Ill., Nov. 6.—(United Press)—John Peoples, a prohibition agent has a \$250,000 heartache, according to a suit for alienation of affections on file here against Herman F. Proffer, manufacturer.

Before he got married, Peoples charged, he and Proffer were rivals for the girl's hand. One afternoon they met at the girl's home. "You're intruding," Proffer told Peoples, according to the suit. "I'm not," Peoples replied. "We're engaged."

LUMBERMEN WILL MEET IN FEBRUARY

Canadian Convention in Quebec—Premier Veniot is Expected to Attend.

Quebec, Nov. 6.—Preliminary arrangements are being made for the Canadian Lumbermen's Association convention, which is to be held on February 4 and 5 in this city. The association is now presided over by George A. Grier, of Montreal, and David Champoux, first vice-president, and is expected to head the delegation. Between 200 and 250 delegates will be present, and the matters to be discussed are expected to have a far reaching effect on the lumber industry in Canada. Last year the convention was held in Buffalo and five years ago in Quebec. Among those expected to attend are Premier King, Premier Taschereau and Premier Veniot of New Brunswick.

Finds Child After 3 Years

A three-year search for the child her estranged husband spirited away has ended for Mrs. Lea Zlorce in Philadelphia. She found her daughter, Anita, now 7, living there with her paternal grandparents. The search had started in Seattle. Juvenile courts of Chicago, New York, Seattle, Brooklyn and Philadelphia had cooperated in it.

WOMAN DUG POST HOLES; ALL FILLED

Chicago, Nov. 6.—(United News)—Mrs. Mary Kasper dug holes in her back yard. She explained that they were post holes, and husbands of the neighborhood remarked they wished they had wives who were handy around the garden.

CLAIMS IMMUNITY

Former Liquor Controller of Newfoundland is Now on Trial.

St. John's, Nfld., Nov. 6.—In the case of the Crown versus J. T. Meaney, former liquor controller, and now on trial in respect of shortages discovered in the department, Attorney-General W. J. Higgins and former Attorney-General W. R. Warren were called as witnesses yesterday. In protesting against his trial, Meaney asserted that he had been promised immunity from prosecution when he gave evidence against Sir Richard Squires before the Walker Commission. Mr. Higgins, who at that time was solicitor for Meaney, testified that no general immunity had been given his client by the crown, but only to cover the transactions which had been disclosed up to that time. Mr. Warren's testimony was to the same effect and he said that he was not aware of the alleged shortage of \$147,000 until immediately before the commission sat.

Weather Report

Synopsis—Pressure is high along the Atlantic coast and over the western prairies while a trough of low pressure extends northeast and southwest across the Great Lakes. From Lake Superior westward the weather is decidedly cold, while from Lake Huron eastward it is quite mild.

Sends First Ship To Foreign Port

Detroit, Mich., Nov. 6.—Detroit started its first ship to a foreign port today when the Onondaga, of the Henry Ford fleet, left its dock in the river Rouge bound for Buenos Aires, Argentina. It carried a 1500 ton cargo of automobile parts. Additional tonnage will be shipped at Montreal after the vessel passes the 14-foot channel in the St. Lawrence river. The voyage of the Onondaga inaugurates the Ford export business. The Onondaga, a sister ship, now loading at the Ford plant and in a few days will sail for Norfolk, Va., Jacksonville, Fla., New Orleans, La., and Houston, Texas, inaugurating the Atlantic coastwise shipping business.

NEW CABINET WILL LIKELY STRENGTHEN FOREIGN POLICIES

Premier Will Take Steps to Prevent Encroachments on Naval Power.

THE NEW CABINET

Forecasts Differ as to Inclusion of Lord Curzon and Churchill.

By HARRY BAILEY. (British United Press.) London, Nov. 6.—Stanley Baldwin's foreign policy will differ in two important essentials from that of his predecessor, the British United Press is able to announce on the highest authority. Toward Russia the new Premier will present a firm front insisting that all treaties now in force be unequivocally respected as a proof of good faith before there is any further development in the relationship between the two nations.

Russian Recognition. There are a number of Conservatives who think that Baldwin should give official recognition to Russia without making any loan if the soviet government were willing to accept such an agreement but the mandate of the country given to Baldwin at the recent election was so emphatic that the Premier is hardly likely to accede to their wishes just now, although it is freely admitted that Russia cannot be isolated for ever.

League of Nations. The new Prime Minister will also scrutinize all engagements entered into by Britain under the League of Nations reflecting those encroachments upon the absolute right to dispose of the movements of the British fleet which are a serious menace to imperial sea power. Baldwin recognizes that the support of France is still necessary if the British fleet is to be either rejected or modified until it is innocuous. Baldwin recognizes that the support of France is still necessary if the British fleet is to be either rejected or modified until it is innocuous.

By LLOYD ALLEN (United Press Staff Correspondent.) London, Nov. 6.—The chief issue at stake as Stanley Baldwin completed a list of ministers today was whether Marquis Curzon would occupy his customary post of Foreign Minister in a Conservative cabinet, or be replaced by a younger, more liberal statesman.

The new Prime Minister was expected to announce his appointments late today after the King returned from the Giants-White Sox game, and the usually well informed parliamentary correspondent of the Daily Telegraph said that Curzon had been sidetracked in favor of Austen Chamberlain.

Probable New Ministry. The correspondent said that the new ministry would include: Marquis Curzon, Lord Chancellor—Viscount Cave, Foreign Secretary—Austen Chamberlain, Secretary for the Colonies—Colonel L. S. Amery, Secretary for India—Lord Birkenhead, Secretary of State for Air—Sir Samuel Hoare.

First Lord of the Admiralty or Minister for Health—Sir William Joynson-Hicks, Chamberlain of the Exchequer—Neville Chamberlain. Leaders of the House of Lords is considered a "lame" post for Marquis Curzon, who had much to do with building up a vigorous imperial policy during several terms as Foreign Secretary.

Correspondents who saw Curzon yesterday with Baldwin yesterday said the Premier seemed fustered and angry. Meanwhile, the busiest party in London was young Ishbel MacDonald, daughter of the late Lord MacDonald, who was superintending removal of her father's belongings from No. 10 Downing street to their former home in Hampstead.

HAVE SPIRITED DISCUSSION ON SHED MATTER

Common Council Takes Up Question of Report on Substructure.

The Common Council this morning in committee, dealt with a recommendation that an independent report on the condition of the substructure of No. 5 shed be secured and after considerable debate laid the communication on the table.

Commissioner Bullock presented a report from the city engineer on the condition of the sub-structure of No. 5 shed where repairs were needed. He found the posts were out of plumb and while it could not be said the shed was unsafe, neither could it be said it would not become unsafe at any time.

Commissioner Bullock said he was willing to let the road engineer act as the city engineer in investigating the situation. This was an engineering matter and he felt the engineers were capable of handling it.

Commissioner Bullock said he would like the opinion of a practical wharf builder as well as the engineer and Mr. Hare had asked for an independent investigation.

The Mayor said he had confidence enough in the engineers of the city to accept their report.

Commissioner Wigmore said he felt that the council could act on the report of Mr. Hare.

Mr. Hare said the work would entail an expenditure of \$30,000 to \$35,000 and would like a report from a practical wharf builder as to whether the work of reconstruction could stand over.

The Mayor said this request was just an endorsement of his contention that the harbor department did not have a practical wharf builder in charge and now wanted to go outside and get the opinion of one.

Commissioner Bullock said he could not agree with the Mayor that the man in charge of construction was not a wharf builder. He said that in addition to possibility of collapse and costly reconstruction there was the possibility of loss of life.

Commissioner Harding asked Commissioner Bullock if he had confidence in his superintendent of wharves and said he would be willing to accept the report of the superintendent.

Commissioner Bullock said he had full confidence in the superintendent. Commissioner Frink said the full responsibility should rest on the engineer and was not necessary.

Commissioner Wigmore said he felt the matter was up to the engineer and

if the city had an engineer not capable of advising in matters of this kind they had better get one that was.

Commissioner Bullock said last summer there had been brought in an estimate of about one-half this amount and it was turned down on the ground that the city had not the proper kind of advice.

Mayor Potts said he thought he could point out places in the harbor department where money could be saved and the appointment of a timekeeper and inspector had resulted in quite a saving.

Commissioner Bullock asked His Worship to point out where the saving had occurred. Certain statements had been made and he would like to have them proven.

On motion of Commissioner Frink the report was laid on the table.

Stanley Ward Assessment.

The recommendation of the chairman of the Board of Assessors that certain areas in Stanley Ward be assessed on full valuation, was taken up. The chairman said he felt the area would extend about to Mr. Green's house.

Commissioner Frink said he did not think the area should go beyond the Spar Cove Road.

Mr. Olive said he had in mind only the Millidgeville Road. There had been complaints made by residents of Lansdowne Ward that they were paying full valuation and just across the line citizens with the same privileges were paying on half valuation.

Commissioner Frink moved the matter be referred to the Mayor for a report. Carried.

WILL BE EVENTFUL NIGHT ON RADIO

Friday of This Week C. N. R. Moncton Broadcasting Begins.

Moncton, N. B., Nov. 6.—Friday night will be an eventful evening for radioists, particularly for those in Eastern Canada.

The new Moncton broadcasting station of the Canadian National Railways, to be known as C. N. R. A, will be officially opened by Vice President W. D. Robb and a concert given by a company of high class artists including the famous C. N. R. Orpheus quartet—Madame Louise Corbett, soprano; Miss Helen Landon, cellist; James McIntyre, violinist; and R. L. Cordy, accompanist.

The concert will be under the direction of Mr. McIntyre who is the leader of the famous Chateau Radio Orchestra.

The C. N. R. radio orchestra will also be heard.

The speaker of the evening will be Vice President W. D. Robb, whose subject will be "Some aspects of Maritime Province problems." Mr. Robb will be introduced by W. U. Appleton, general manager of the Atlantic region of the Canadian National Railways.

The operators declare that everything is in readiness. The broadcasting will be done from the room specially fitted up in the Knights of Pythias building.

PROSPERITY IN U. S. LOOKED FOR AFTER RECENT ELECTIONS

Is Honored By His Conferres

Under the flood of orders the store market opened on a rising tide today, leading industrialists continuing the gains made yesterday by the conservative victory in the national election.

With leaders in the financial district predicting a quick business revival and immediate nationwide prosperity, "The Street" was in a more optimistic mood than for three years. Bankers, industrial leaders and corporation presidents unanimously anticipate a great renewal of business activity.

Judge Silvery, G. G. of the United States Steel Corporation said: "I have never before in the history of the world had any country had such an opportunity for advancement as the United States possesses just at this time. The fundamentals are here, the foundation has been laid, it is up to us, the people, to do our part. I trust the business men of this country will do their full part."

It is certain that President Coolidge will measure up fully to his responsibilities. We have turned the corner. This country will be an example and an inspiration.

"I look for great future prosperity. It never before in the history of the world has been laid in us, the people, to do our part. I trust the business men of this country will do their full part."

PRENTICE BOYS. Emergency meeting of King Edward Lodge, No. 30, Thursday evening, November 6, at Prentice Boys' Hall, at 8 o'clock. By order of William Prentice, Worshipful Master. 4830-11-7

RIVER STEAMERS. Jarvis Purdy, manager of the Crystal Steam Steamship Company, announced today that the steamer Majestic would likely make her last trip up the Washademoak to Cole's Island next Saturday. He said that in event of extra heavy freight offering he would arrange for another trip. So soon as the Majestic was withdrawn from the Washademoak route she would be placed on the main river route between Indiantown and Fredericton. The D. J. Purdy would go into winter quarters.

BAND HELPED. The City Cornet Band was in attendance at the Cathedral Harvest supper in the Y. M. C. I. auditorium last evening and played a pleasing program of popular selections. This afternoon the children are being entertained.

Longshoremen. A resolution adopted by the International Longshoremen's Association was presented. It asked the council to give careful consideration to the request of the steamship men for a reduction in the port charges in view of the possible loss of ships and consequent loss of employment, which would not only affect the men working on the steamers but the merchants as well.

Mayor Potts said that he would ask the port committee and the council to meet at 2:30 and discuss the proposition put forward by the shipping men. He said that if the petition was granted the commissioners must make up their minds to trim their estimates for 1925 to make up the loss.

Commissioner Frink remarked that surely His Worship did not mean that the civic services were to be starved to make up any deficit on account of reductions in harbor rates.

NOT ENJOYABLE. Considerable criticism was heard around the depot this afternoon when a shunting engine, attached to the rear of the Halifax train, commenced backing in the passengers from the incoming Boston train were passing near it. As a result they were forced to walk through steam and smoke, and one man emerging from the fog discovered that his face was black from soot.

MARGIN IN SENATE WILL BE 3 TO FIVE

(Continued from page 1.) but as the senator often has opened declared for personal responsibility as only Democrat he could in making up the Republican working majority. By heavy majorities the Democrats reneared their seats from the south.

Latest figures on the presidential vote show that out of a total of approximately 30,000,000 Coolidge received about 18,000,000 with an electoral vote of 379 from 34 states; Davis received about 8,000,000 with an electoral vote of 139 from 13 states, and LaFollette about 4,000,000 with 13 electoral votes from his home state of Wisconsin.

It was definitely established this morning that Governor Smith was the only Democratic official elected in New York state. He carried the state by a plurality that may exceed 150,000, but his companions on the ticket all went down to defeat. This means that Smith, for his third term as Governor, will not only have to face a heavily controlled Republican legislature for the next two years, but he will be the only Democrat in Albany during that time above the rank of assemblyman and state senator.

NEW CABINET WILL LIKELY STRENGTHEN FOREIGN POLICIES

(Continued from page 1.) London, Nov. 6.—(Canadian Press)—Winston Churchill, whose election as a constitutionalist to the House of Commons in last week's general election marked his return to the Conservative benches, will be listed as chancellor of the exchequer when Prime Minister Baldwin submits his Conservative cabinet to the King tonight, the afternoon papers predict today. The Marquis of Curzon is generally declared will not be included in the list.

The predicted appointment of Mr. Churchill, who is an out-and-out free trader, considered the greatest sensation of the new political alignment.

The most important cabinet posts will be distributed, according to the newspapers, as follows: Foreign secretary—Austen Chamberlain; Secretary for India—Earl of Joicey-Hicks; Health—Neville Chamberlain; Lord Chancellor—Viscount Baldwin; Colonies—Lieut. Col. L. C. M. S. Amery; Air Ministry—Sir Samuel G. Hoar; Attorney General—Sir Douglas M. Hogg.

FREDERICTON NEWS. Fredericton, Nov. 6.—(Special)—Mrs. Hanford Sloan died on Wednesday at Houlton, Me. after a brief illness with pneumonia. Mrs. Sloan formerly resided at Mouth of Keswick. Surviving are her husband, Capt. W. H. Sloan, of Houlton, Me., and Oran of Great Road, N. B., her mother, Mrs. Samuel Bird of Keswick, three brothers, William B. Bird of Calgary, Richard Bird of Taunton, Mass., and Conn. Tilley E. Bird of Keswick, and three sisters, Mrs. Bert Kimball of Denver, Colo., Mrs. James Hooper of Weymouth, Mass., and Mrs. Horace Gorman of Keswick. The body will be taken to Mouth of Keswick for the funeral Friday.

PRESENTATION. A farewell party was held last evening at the home of Mr. and Mrs. Robert McHarg, Main street, in honor of Miss Reine Berry, who, in company with her mother, will leave in a few days for their future home in Detroit. About 50 friends assembled and made the guest of honor the recipient of a gold-filled fountain, pen and pencil. The evening was pleasantly spent in games and dancing, and dainty refreshments.

Commissioner Bullock explained that a new agreement had been made in regard to heating, which would wipe out this item.

Commissioner Frink said it just got asked to distribute \$250,000 among the 225 steamers which used the port.

Thomas Nagle, representing the International Line, said that last year they had had 18 sailings and this year they had planned for at least five each month. These boats paid the harbor department about \$1,200 each and the proposed 24 sailings were estimated there was a direct loss of practically the amount the steamship men were asking to have the rates reduced.

Commissioner Frink asked if it was the idea of the city out to pay a subsidy to the steamers to come here.

Lumber. Commissioner Bullock said there had been a request from the lumber shippers for reduction and a letter signed by Messrs. W. M. Mackay, George McKeen, Murray and Mackay and John E. Moore and Co. asked that consideration be given to them as they considered the present rates on lumber too high. They wrote that lumber was free at Halifax and that most of it was going to that port.

Longshoremen. A resolution adopted by the International Longshoremen's Association was presented. It asked the council to give careful consideration to the request of the steamship men for a reduction in the port charges in view of the possible loss of ships and consequent loss of employment, which would not only affect the men working on the steamers but the merchants as well.

Mayor Potts said that he would ask the port committee and the council to meet at 2:30 and discuss the proposition put forward by the shipping men. He said that if the petition was granted the commissioners must make up their minds to trim their estimates for 1925 to make up the loss.

Commissioner Frink remarked that surely His Worship did not mean that the civic services were to be starved to make up any deficit on account of reductions in harbor rates.

NOT ENJOYABLE. Considerable criticism was heard around the depot this afternoon when a shunting engine, attached to the rear of the Halifax train, commenced backing in the passengers from the incoming Boston train were passing near it. As a result they were forced to walk through steam and smoke, and one man emerging from the fog discovered that his face was black from soot.

Removed Veterans' Bureau Official Brings Action Against His Chief.

New York, Nov. 6.—A suit for \$20,000 damages has been filed in the Supreme Court by Frank J. Cummings, relieved last winter as sub-district manager of the United States Veterans' Bureau in New York, against Brig. Gen. Frank T. Hines, director of the bureau, and Winifred P. Lent, manager of District 2 and immediate superior of Cummings.

The complaint alleges that Cummings in his official capacity was required to report to the defendants and all breaches of discipline in the department and any irregularity of conduct on the part of the officials or employees. He states that at various times he brought to the attention of the defendants the fact that "some of the officials were disposing of liquor in violation of the United States statutes, and neglecting their duty towards the trustees under their charge and control, and that various departments of the United States Veterans' Bureau were being conducted in a careless and negligent manner."

Cummings alleges that last December General Hines and Lent, to prevent him from performing his duties in a proper manner, and reporting acts similar to those set forth, "caused certain malicious, unfounded and unwarranted charges to be made against the plaintiff in order that he might be removed as sub-district manager." Cummings charges that he was removed on the complaint of Lent and that his removal was on the ground of untruthfulness, although such charge had not been made against him.

The plaintiff asserts that when he was charged to Director Hines against Lent that the latter was neglecting his duties and violating the rules of the department, it was the duty of General Hines to investigate and remove Lent pending the determination of charges. Cummings alleges that General Hines failed to do this, but made the latter was enabled to prefer charges against Cummings and Cummings was removed.

Discussion in the local office of the Veterans' Bureau having jurisdiction over New York, Connecticut and New Jersey, became known when charges were made that a riotous New Year's party took place in the Grand Central Palace in which several employees of the bureau were involved, and the use of liquor was alleged. Director Hines acted by relieving Lent as district manager and Cummings as manager of the New York city sub-district.

Famed as Mathematician

Ross, O., Nov. 6.—Cyrus B. Haldeman is considered one of the foremost mathematicians in the world. Scientists frequently seek his counsel. And his name stands out conspicuously at nearly every convention of mathematicians both in this country and abroad, though he does not attend any of them.

Yet Haldeman never attended college a day in his life.

Stranger still, his neighbors have heard little of the fame that has come to him.

They know him only as a member of broken clocks and watches. That is his real vocation.

Algebra, geometry, trigonometry and calculus merely are side issues with him—just favorite pastimes.

But his knowledge in these subjects has made him a charter member of the Mathematical Association of America, the American Association for Advancement of Science and the Royal Society for the Encouragement of the Arts, Manufactures and Commerce in London.

He contributes regularly to mathematical publications. His analyses of difficult problems are cited frequently in text books.

A bachelor, Haldeman lives alone in a little cottage in the village of Venice, near here. All his 75 years have been spent there.

Ross began making mathematics his hobby while in school in the old Presbyterian church in his home town.

CYRUS B. HALDEMAN

"I made up my mind to do something worth while," he says, "and picked out mathematics because I felt fitted for it. And I've been at it ever since."

SAVES FOUR DOLLARS A TON ON FEEDER COAL

The Customer Tells the Dealer Something About His Business.

A short time ago Consumers' Coal Company sent samples of coal to a selected list and asked for a report on burning qualities for kitchen use.

One prospective customer ignored the request to test the coal in the range and when opportunity afforded he lit a fire in the feeder with one of the samples. He said nothing about the results but immediately ordered a half ton lot to carry his experience further. Before this was consumed he walked into the office one day and announced that this coal may be good in the range, but he found it most economical in his self-feeder, and as he used three feeders in house and store he wanted twelve tons at once, claiming that it cost him \$2.00 per ton less than any other feeder coal and that there was so little ash it had at least \$2.00 more burning matter per ton, so he would save \$4.00 per ton on the transaction or about \$48.00 on his total purchase.

The Coal Company took the hint and started a demonstrating self-feeder in their office with this coal, and were a bit surprised to find their customer was correct in his deduction. Not only does the coal make a beautiful fire in the self-feeder stove, but it is lasting and most economical, so long lasting in fact that it holds fire from Saturday night until Monday morning without attention.

If you use a self-feeder and are a bit curious and anxious to cheapen the cost of heating, Consumers' Coal Company would be glad to show you the coal in actual use in their Prince William street office.

Here's a Motor Baby Carriage

London, Nov. 5.—A motor-perambulator, in which mother sits in front and baby lies in a velvet cradle behind, greeted the visitor who entered the Motor Show held in London.

Only 22 in. wide, this motor-perambulator, which is really a 3 h.p. miniature motor-car on four 16 in. high wheels, can go through the ordinary villa gate.

Mother can travel to 30 miles an hour in it, and if she thinks the rushing air would be too cold for baby, she can unstrap the cradle and pull out a hidden seat to accommodate two older children.

CRIMINAL CASES IN NORTHUMBERLAND

Newcastle, Nov. 5.—In the Northumberland Circuit Court, Chief Justice Barry presiding, the following criminal case was before the court: King vs. Benjamin Deroche, Nancy Thibideau, on a statutory charge. The grand jury brought in a true bill. James Friel, K. C., of Moncton, and T. H. Whalen appeared for the Crown and J. A. Creaghan for Deroche, and J. A. Barry for Mrs. Thibideau. The petit jury found the two prisoners not guilty.

In the case of the King vs. Albert S. Miller and Frank Barry, charged with breaking and entering and stealing \$800 worth of fishing nets, the two prisoners pleaded guilty and were sentenced to three years' imprisonment in Dorchester penitentiary. In the case of the King vs. Dalton, for assault, the grand jury brought in no bill.

Royal Prince May be Canada's Governor

London, Nov. 5.—(By U. P.)—That a successor to Lord Byng, when the time comes for him to relinquish his appointment as Governor-General of Canada, will be one of the Royal princes is taken for granted in official circles here, and Prince Henry's name is that most frequently mentioned since the Prince of Wales returned from Canada. It is admitted on all sides that the young Prince would make an excellent Governor-General.

CABINET MAKING.

The new Prime Minister was expected to announce his cabinet appointments late today after the King returned from the Giants-White Sox game. So, entertainingly, begins a United Press special cable to The Times-Star this morning.

considerable thought to the prohibition department of this country. They present the information that the amount of whiskey sent to the United States for the year ending last September was more than double that for the previous twelve months.

That is considerable of a jump into a country that is supposed to bar all alcoholic imports for beverage purposes. Can it be that this flood is being absorbed as medicine?

The Post's question about medicine is pertinent, and the answer is fairly well known. Before prohibition many people mistakenly thought they required some "medicine" made from corn, and if it was not easy to obtain, or if they were unwilling to have their neighbors know that they bought whiskey, they resorted to certain patent or proprietary medicinal preparations.

A controversy has arisen, unfortunately, between Mayor Potts and some influential North End residents because of His Worship's careless reference to the Vocational High School site. Some of these residents have written and signed a letter which appears in today's issue.

MEDICINE.

What becomes of all the liquor which Canada exports to the United States? A large portion of the population there used to take its "bit" regularly, and with the introduction of prohibition, and the great advance in the price of both spirits and malt beverages, it was thought for a time that the market for whiskey and ale was killed for both American distillers and brewers and for their foreign competitors so far as the United States was concerned.

CAPT. JOHN HALL GIVES UP POST

Commander of S. S. Montreal is Retiring From C. P. Service.

"It's hard to realize that I'm 61 years of age, that 45 years of my life have been spent at sea, and that when I take my ship into Glasgow at the end of this voyage I'm through with her forever. It's very difficult to sever connections all at once, and almost painful to think that this will be my last trip here in the service of the company. I'm coming out next year with Mrs. Hall on a holiday, but it won't seem the same. I'll miss the responsibilities that fall on the man in command of a ship."

In this way Capt. John Hall, commander of the S. S. Montreal, expressed his feelings to officials of the Canadian Pacific line on Tuesday when he visited headquarters on his last trip to that port in command of his ship.

Responding to the lure of the sea at an early age, Captain Hall has dedicated his life to it. In his 45 years of sea life, he has served on 17 ships, that have covered some 975,000 miles, and in that time he has visited ports all over the globe. Capt. Hall began his career with the old Allan Line, and when the Allan interests were absorbed by the Canadian Pacific, he became identified with the latter company.

Records show that Capt. Hall was fourth officer on the Sarmatian, the Grenan, the Manitoba and the Siberian, from 1891 to 1894; that he was third officer on the Siberian in 1894; that he was second officer on the Scandinavian in 1898, and first officer on the Siberian in May, 1908. In June of 1908 he was given his first ship, the Orcaidan, and from then until now he has commanded the following ships: The Siberian, Numidian, Grampian, Corsican, Tunisian, Montfort, Sicilian, Scandinavian, Bosworth, Marburn, Marloch and Montreal. His progress was steady and rapid and his reputation as a navigator has been of the best. He is well known and well liked by frequent travelers over the North Atlantic route.

In his early days of apprenticeship, begun when he was 16, and up to the time that he acquired his certificate, he served on sailing vessels. Some of the experiences that fell to his lot in those days, and in the later days of the Great War, might well take the form of a romantic novel. In 1886, when he was sailing on the Inch Maroon, a sailing vessel, somewhere in the Indian Ocean, a cyclone struck the vessel and she was lost. Hall, with three others, drifted on a raft for three days, without food or water, expending every moment to be their last, when they were finally picked up by the Sphenham and taken to Capetown, and thence to Glasgow.

Services in War.

During the war he was in command of the Corsican, Grampian, Pretorian and the Scandinavian, carrying troops in places as far removed as the Persian Gulf, the Dardanelles, Mudros, Gallipoli and Archangel, finally doing duty between London and Antwerp carrying Belgian refugees back to their stricken country. It was for services rendered to the refugees during this period that he was awarded the King Albert Medal.

Courage, devotion to duty and extreme humaneness have made Capt. Hall one of the most popular skippers on the Atlantic. His officers and crew will regret his retirement even more than the traveling public.

WEDDING ANNIVERSARY.

Mr. and Mrs. Herman Williamson of Broad street were pleasantly surprised last night when about 50 of their friends called and tendered them a surprise in the form of a tin shower. It was the tenth anniversary of their wedding. Games and dancing were enjoyed and during the evening Miss Florence Pyne presented to Mr. and Mrs. Williamson a large basket, handsomely decorated and containing many pretty and useful gifts. Although taken completely by surprise, Mr. and Mrs. Williamson replied most suitably. A bounteous luncheon was served by Miss Doreen Turner, daughter of the hostess, and Mrs. John McConnell, Mrs. Newar and Mrs. Chris. McKenale assisted. The party came to close with the singing of "Auld Lang Syne" and all expressed themselves as having had an enjoyable time.

BIRTHDAY OBSERVED.

Mrs. John Knox, of Silver Falls, celebrated the 98th anniversary of her birth on Nov. 1. Among the numerous gifts which were showered on the old lady was one of 98 roses from her granddaughter, Miss Ethel L. Knox, and a birthday cake from her daughter-in-law, Mrs. Charles Knox of Keene, N. H. Many called on Mrs. Knox to congratulate her and wish her many more years of happy enjoyment of life.

DEATHS

Charles W. Currie.

Charles W. Currie died on Oct. 28, at his home in Somerville, Mass. He was born at Macnaquac, N. B., and for several years resided in Fredericton. Twenty-four years ago he moved to Somerville, where he was a carpenter and builder. He is survived by his wife, two sons and a daughter; also by two brothers, James, of Macnaquac, and Rev. Calvin Currie, of Houlton, Me., and a sister, Miss Isabel Currie, of Macnaquac. Mr. Currie was a prominent member of the Orange fraternity and of the Royal Black Knights.

Miss Annie Cummings.

Bath, Nov. 5.—The death of Miss Annie Cummings, daughter of the late Mr. and Mrs. S. Cummings, occurred at Eagle Lake Hospital, Eagle Lake, Me., on Monday morning. Miss Cummings formerly lived in South Johnsville, and conducted a millinery business in Woonsocket, R. I., and at a later date erected the building now occupied by Peter Brennan and there conducted a general store business for more than 20 years. Afterwards she retired and went to Washburn, Me. Miss Cummings leaves to mourn one sister, Mrs. McManus, of Washburn, Maine, the only surviving member of a family of six girls and three boys. The body arrived here on Tuesday afternoon, the funeral taking place from the home of C. E. Gallagher on Wednesday morning. Interment was in the Johnsville Catholic cemetery.

CAPTAIN MILLER, CUNARDER, DEAD

Commanded Franconia in War and Torpedoed in Mediterranean.

Captain David S. Miller, R. N. R., marine superintendent of the Cunard Line at New York, died a few days ago in Barbadoes. Captain Miller, who was 68 years old, had been associated with the Cunard company and had been superintendent at New York since 1917.

He began his life at sea before the mast in a sailing ship out of Liverpool, making his first voyage 43 years ago at the age of 15. After obtaining master's papers for sail and steam vessels, he commanded steamers of the old Atlas Line out of New York. Thirty-three years ago he took his first position with the Cunard Company and after 10 years was given command of liners. He was well known as commander of the old Cunarder Franconia during the war, when she was used as a British transport, and was on the bridge of the vessel when she was sunk by a German submarine in the Mediterranean, in 1918. Captain Miller was rescued from the water by the crew of the British transport Dover Castle. Nearly a year ago, Captain Miller suffered an attack of pleurisy. He went to the West Indies on Cunard business and was taken ill from double pneumonia.

At the little town of Khasta, near Athens, Greece, peasant women do their washing in stone sarcophagi that are at least 2,000 years old.

Claims Success In Sleep Sickness Cure

London, Oct. 21.—(By Mail)—What is claimed to be the successful treatment of cases of "sleep sickness" by inoculation, is described by the Daily Mail as having occurred in the Lancashire Union Infirmary.

A boy patient, says the Mail, developed the disease and the doctor inoculated him with a special vaccine. A woman was admitted later suffering from sleepy sickness, and the doctor inoculated her with blood serum from the boy. The woman improved almost immediately and is now in perfect health, and the boy is also recovered. The ministry of health is investigating the claim.

DADDY GANDER'S DUST PAN

"Well, well, well! Good-morning, everybody!" said a cheery voice. "It is too queer what became of the House That Jack Built," remarked Mister Spratt at the breakfast table. "It certainly is," said Mrs. Spratt, helping herself to another piece of

didn't say anything. And they weren't eating much either. Jack was thinking of all his work for nothing. Jill was thinking of her dolls and all her play furniture and everything. And Mrs. John was thinking of her hot cook-stove and her lost sewing machine, and all her fall sewing to do, too! And her bread-pan set for raising!

"Well, well, well! Good-morning, everybody!" said a cheery voice. And there stood old Daddy Gander in the doorway, his magic dust-pan under his arm. "Hello, Daddy," said Jack Spratt. "Come on and sit down. Have you heard the news?" "No," said Daddy Gander. "You don't mean to say that the Old Shoe Woman had been spanking her children again, do you?" "No, worse than that," said Mrs. Spratt with her mouth full of bacon. "You don't mean that old Poppington Bun, the miller-man, has gone to sleep and snored flour-dust all over town, do you?" said Daddy Gander. "No, it's worse than that," cried Mrs. John. "Our house is gone! The little house that my son, Jack, built up on Pippin Hill!" "Yes, sir!" said Nancy. "It's all gone. Nothing left but the cellar. Nick and I saw it just now."

SING SING WARDEN REPLIES TO JUDGE

Only Five Convicts Out of Total of 1,388 are College Graduates, He Says.

New York, Nov. 5. — Replying to Judge Alfred J. Talley's statements that prisoners in Sing Sing do light work and that there are a lot of college graduates there, Warden Lewis E. Lawes of Sing Sing contradicted him in an address at Christ Church Men's Club in Bronxville. Warden Lawes in part said: "At a recent debate on capital punishment in New York City a Judge gave utterance to criticisms of prison management and prison conditions at Sing Sing. He is an able judge. I know that he is sincere and that his desire is to reduce crime as my desire is to reduce crime, but he has never visited Sing Sing and he has no first-hand knowledge of the conditions and of the methods of which he speaks. "But there should be no disagreement about the facts. He stated that there were enough college graduates in the prisons of the United States today to man the faculty of all the colleges. In Sing Sing there are five out of a population of 1,388, one-third of 1 per cent. "He referred to the few hours of light work done by the inmates. As a matter of fact many are doing hard manual labor with pick and shovel; many more are in the industries and on construction work. All are working for the compensation provided by our great State of a cent and a half a day. He referred to a dietitian, to cafeteria feeding. There is no dietitian, there is no cafeteria. The men are given three meals a day in the mess hall. In the morning bread without butter, coffee minus milk and sugar, cereal four times a week, hash three times a week. A fair rough feed is given at noon-time, and at night a light soup, bread without butter, coffee or tea with little or no milk or sugar, and occasionally prunes. "The cost a day for three meals was 21 cents in the fiscal year just ended; 19 cents in the previous fiscal year. Men are permitted to purchase in the commissary, but the average expended for food is 90 cents per week. First grade inmates are allowed to spend \$3 a week, second grade inmates one dollar and a half. Third grade inmates are not permitted to purchase. "In his criticism the judge referred to the sunshine in living and working quarters, to commodious cells. Would he take away sunshine? Does he know that we have in the century-old cell-block 900 cells three and a half by six and a half by seven, not fit to

FABLES ON HEALTH. Character

Character! One of the most important words in a human life. Development of it should start with the child. It is one of the most important duties of a parent. How much home influence plays in its development has often been studied by sociologists of Anytown. The home attitude itself is most important—the attitude of the father toward the mother and vice versa. Good work on the part of a child is a matter of encouragement, not discouragement. If he is doing but medium fair work, encourage him to do better, don't nag him until he does worse. Encouragement is one of the most potent forces of child life. Don't let the child do too much. Overstimulation is bad. It is far better to let him take a pace suitable to his nature. Look out for too much entertainment and excitement for too many parties and too much play. Particularly keep the nervous child in leash. Clean outdoor competition should be encouraged. Take an absolutely non-deceiving attitude toward the child. Don't lie to it and make futile threats, and don't string it along with falsehoods. Such things weaken character.

WHEN TWILIGHT YIELDS TO LAMPLIGHT

No other part of the house is more cheerful than the living room when the mellow sunshine streams in through the windows, and adds its own rich pattern to colorful rays and hangings. And no room responds more happily to the glow of the evening lamp. When the daylight is gone, the flick of a silken cord releases this modern sunshine to scatter the night at your bidding. Portable floor and table lamps, equipped with the correct Edison Mazda Lamps, can increase the cheerfulness of your living room many times over. To obtain the best results, choose lamps with wide shades which throw the light upward and downward. See that they are equipped with 50 or 75-watt white or frosted Edison Mazda Lamps. ELECTION IN N. B. BY NEXT OCTOBER

Premier at York Convention Says Public Ownership of Power.

Fredericton, N. B., Nov. 6.—Hon. P. J. Veniot, Premier of New Brunswick, made his first public speech since his recent illness yesterday afternoon at an organization convention of the provincial Government party in York, the new constituency created when the parishes of York county were separated from the city of Fredericton and the towns of Marysville and Devon. He declared that, so soon as authority was given and plans approved by the International Waterways Commission for the development of the Grand Falls on the St. John river, construction on the proposed hydro plant there would be commenced.

The development, he declared, would be carried on as a public work by the New Brunswick Electrical Power Commission on behalf of the Government. Never, so long as he was a member of the Government, he insisted, would the natural resources of the province be allowed to fall into the hands of private corporations. They would be developed, he said, by the people and for the people.

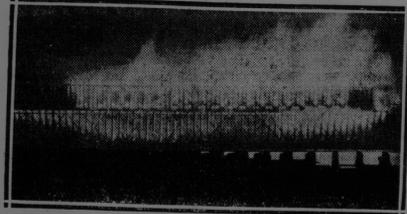

Hon. Ivan C. Radd, who this week was sworn in as Attorney-General, also addressed the convention. Premier Veniot did not intimate when the general provincial elections will be held except to say that they will not occur until after a session of the legislature which will open the latter part of February or early in March and to announce that polling must take place before next October when the life of the present legislature will end.

Officers Elected. The convention was held in the county court house, and the delegates filled the court room. P. S. Watson, of Devon, was selected as chairman, and John T. Christie, as secretary, with J. Bacon Dickson as assistant secretary. Parish vice-presidents were elected as follows: Canterbury, Robert et al; Boone, Stanley, Dr. Folkins; Bright, Elbridge Gilmore; Southampton, W. R. Fawcett; Queensbury, I. C. Morrison; McAdam, W. C. Whipple; St. Mary's, Franklin J. Armstrong; Mannere Sutton, James Wilson; Dumfries, Dr. Owens; New Maryland, William McKnight; Kingsclear, John E. Doherty; North Lake, A. I. Fox; Douglas, John D. Pugh; Prince William, David McLean.

The officers selected were: President, P. S. Watson, Devon; secretary-treasurer, C. R. Hawkins, Fredericton. President Watson instructed his parish vice-presidents to complete organization by calling parish convention and completing an organization from the poll to headquarters. He also asked for the naming of a lady as parish convenor in each parish who would look after organization of women and who would be in touch with Miss Isabel C. Armstrong's bureau at National Liberal headquarters in Ottawa.

Resolutions. A committee on resolutions was named, composed of Frank C. Colburn, John T. Christie, Dr. Folkins, Davies Pugh and Edward London. This committee submitted a series of resolutions which were adopted by the convention. Support was pledged to Hon. P. J. Veniot and his Government. The convention by resolution also endorsed the public health policy and the hydro policy, particularly in relation to Grand Falls and the Pettedoc. Free school books for primary grades as soon as conditions would permit, the establishment of a central abattoir and the continuation of federal highway aid for at least five years longer were advocated.

Rheims Cathedral-- Six Years After

Little Done to Restore Famous Edifice, But Rockefeller's Gift is Ready, and the American Millionaire is Revered.

By MINOTT SAUNDERS (United Press Staff Correspondent).

Rheims, Nov. 6.—Since the year of our Lord 1211, nearly three centuries before the discovery of America, many illustrious names have been associated with the Rheims Cathedral.

But here in the year 1924 the name of an American is mentioned with the deepest reverence. One John D. Rockefeller, millionaire of the new world, has stretched out to the old an open hand with a princely gift that will provide a new roof for the temple that means so much to Rheims and its people. Rockefeller's gift to France of a million dollars, stipulating, among other things, the restoration of the roof of the Rheims Cathedral, was quite the most historical gesture that has touched this richly historical city since the French troops silenced the last fifteen-inch gun of the enemy on the neighboring hillsides in October, 1918.

The gift is a blessing, for after six years of more or less exposure to the weather the structure must have a permanent roof or the interior will suffer unnecessary deterioration. Also, no constructive work of conservation can go on while the roof is in such a deplorable state.

Little Progress Made. Not much progress has been made with the reparation of the cathedral. Available funds have been woefully small, and the task is so immense that what little has been done is scarcely noticeable. The Rockefeller gift, which amounts to 5,000,000 francs to the cathedral, makes possible the first great step toward the restoration. Plans are now under way to proceed with this work under the most favorable conditions. It will be many years before this work means little to that edifice the first stone of which was laid over twelve centuries ago.

The two most striking changes that have been made in five years ago today are the disappearance of the protective sandbags and the burning of sacred candles in one wing of the building. Those fortifications around the great columns have been removed, and the sand has left a freshness on the ancient stones in striking contrast to the dingy exterior of the building. The pillars have not been

seriously damaged and should stand for some more centuries. Visitors are only admitted to a small space of the main body of the building. The stone floor has been relaid, removing the holes caused by direct hits of German guns, but no glass is in the classic windows and no attempt has been made to reinstall the furnishings. The present ceiling is nothing but an expanse of unpainted wood. The old organ is still out of commission, but a lesser one has been temporarily erected. And yet, no vandal hand has shaken the sacredness of these battle-worn walls, and all hours of the day humble folk come to pray, and dip their fingers in holy water in ancient bowls batteries could not turn over.

Salvaging the Glass. Now, as in 1918, an inspection of this damage is disheartening. During the bombardment fallen fragments of carvings and sculpture were carefully collected, and in time they will be put back into place. Pieces of the choice stained-glass windows, were also salvaged, beginning in 1916, and some day the windows will probably appear in resemblance of what they were of old. There are over a hundred of these windows and, before the war, actually 2,000 figures of all sizes decorated the exterior and interior. All of the windows were smashed, and few of the figures escaped damage.

When the building is renovated, the old paintings, tapestries and other treasures, which were carried out of the way of the enemy, will be brought back. And so the task of restoration, though prodigious, is not impossible. In the Place du Parais, which lies in front of the main facade of the cathedral, the statue of Joan-of-Arc, erected in May, 1918, has been restored to its proud place, keeping alive the memory of the French heroine who visited the cathedral in other dark days.

operated. All the big freighters of the Welshman class and other ships will make regular calls at Halifax when westbound, a poor consolation, and they will call for cargo eastbound when there are offerings. Connections will be made with the ports of London, Liverpool, Avonmouth and Manchester, and the liners Zealand, Arabic and Pittsburgh will continue maintaining the present passenger service from Antwerp via Southampton and Cherbourg. Col. Jones was very optimistic about the winter volume of business through Halifax. The Halifax waterfront, he predicted, would be a busy place, due to the interest the White Star and White Star-Dominion Lines were taking in the port.

PREDICTS RECORD HALIFAX SEASON

White Star-Dominion Official Declares Waterfront Will be Busy.

A revival in the shipping business of the port of Halifax that in volume will rival the banner pre-war days, was a prediction made to a Montreal Gazette reporter on Tuesday, by Col. A. N. Jones, of the Halifax office of the White Star-Dominion Line. "From the beginning of this month until the opening of navigation in the St. Lawrence River next spring, there will be seventy-three White Star and White Star-Dominion Line arrivals at the port of Halifax," said Col. Jones. "This number far exceeds the total of the last few years and the increased number of ships making Halifax a port of call means increased employment around the Halifax waterfront. The announced plan of a winter service to Halifax includes the fortnightly passenger service from Liverpool upon which, during the early spring the liners Cedric and Celtic will

HIGHER PERCENTAGE ATTENDING SCHOOLS

Census for 1921 Showed a Gain—New Brunswick Most Derelict.

Ottawa, Nov. 6.—Eight and a half per cent more children between the ages of five and 19 years attended school in 1921 than in 1911, according to a census bulletin just issued. In 1901, 62.18 per cent of the school population attended school for some period; in 1911 there was a slight improvement, the percentage rising to 63.88; while according to the 1921 census the attendance was 61.92 per cent, or 2,763,728 school children. Of the total school attendance when the 1921 census was taken 88.2 per cent were Canadian born, 5.5 per cent British born, and 6.9 per cent foreign born. Of the Canadian born 62.98 per cent attended school for some period in the year. Eighty-nine per cent of the 1,608,846 children between the ages of seven and 14 in the nine provinces attended school for some period of the year, and 80.25 per cent were in school from seven to nine months in the school year. New Brunswick, Quebec, Nova Scotia and Prince Edward Island, in the order named, showed the largest proportion of the school age as not having attended school.

ASBESTOS HAS MANY USES. For asbestos are South Africa, Rhodesia and Russia. The discovery of this material is credited to the Romans, who used it in cloth and for lampwick, but the knowledge of its existence apparently lapsed. In 1720 it was found in the Ural Mountains in Russia, but at that time its uses were limited and the industry almost disappeared. The first modern attempt to exploit asbestos commenced in Italy in 1860, but only a comparatively small quantity was produced and this at very high prices. About the same date primitive development of an asbestos discovery in the Des Plantes River region in Beauce County, Quebec, took place, but it was not until 1877 that the mineral was found in the serpentine hills of Thetford and

PRIZES PRESENTED AT SOUTH END CLUB

Season Started for Boys' Organization With Enthusiastic Meeting.

There was a large attendance at the South End Boys' Club, Broadview Avenue, last night at the formal opening. In addition to those who occupied seats on the platform was James H. Hamilton, a former president, who has been associated with the boys' club for the last four years.

Charles M. Lingley, president of the South End Improvement League, was in the chair, and assisted in his duties by William Lewis, president of the boys' club. A fine literary and musical programme was carried through, as well as addresses and presentation of prizes and the evening proved one of the best ever held by the club.

During the course of the evening solos were given by Mr. Melliday, Miss L. V. Lingley and DeWitt Cairns, while readings were given by Miss Estabrook.

A cup donated by George Dick for the championship of the South End Baseball League was presented by Hon. R. A. Ritchie, C. H. Stevens, president of the league, and presented by James H. Hamilton, with to the Trojan champion team, and they were accepted with a brief address of thanks by the club's manager, Walter Golding.

The cup donated by Charles M. Lingley, president of the South End Improvement League, for the ball player with the highest batting average during the season, was presented to Leslie S. Kerr, of the Trojan team, by A. W. Covey, president of the Mar-

A basketball was presented to the club by R. J. Armstrong, and a watch charm, suitably engraved, was presented to S. A. Payne, in recognition of his untiring services during the last two seasons as chairman of the grounds. Addresses were delivered by Hon. R. A. Ritchie, C. H. Stevens, president of the North End Improvement League, and Commissioner Lister, of the Boy Scouts. It was one of the most enjoyable evenings for the boys and also for the adults who were present.

The club opens the season with William Lewis as chairman, Messrs. Stratton and Ritchie as instructors. There are 100 boys registered in the club and it is expected that this number will increase double. After refreshments had been served by the ladies a very happy gathering closed with the singing of God Save the King.

FIRE DAMAGES EAST BATHURST

Bathurst, Nov. 5.—The largest fire of recent years in this locality occurred last night at East Bathurst. Only a portion of this district is in the town limits and, being on the east side of the Nepisiguit River, is not served by the town water supply. Shortly after 11 o'clock the pulp mill whistle sounded an alarm. The fire started in a building owned and occupied by Joseph Bonley as a barber shop and dwelling. The flames rapidly took possession and spread to George Wiseman's store and dwelling on one side and Theriault's boarding house on the other. Another dwelling owned by Ben Theriault to the east of Wiseman's was soon a prey to the flames, and about the same time two dwellings adjoining the hotel, also belonging to Mr. Theriault, took fire.

Meanwhile the steam fire engine was stationed at Nepisiguit Bridge and a stream of water was turned on the surrounding buildings. An additional line of hose was stretched from the pulp mill, a distance of nearly a mile, to the hotel, and turned on the Bathurst Company's dwellings on the opposite side of the street, but before one of these had been completely destroyed and two others badly damaged.

It was only due to the untiring effort of an army of willing fighters that other buildings in the suburb were not destroyed also, several small outbreaks being quenched by bucket brigades. The illumination was visible for miles. An estimate of the damage and insurance loss has not yet been completed.

RED BLOOD MAKES ALL OUR STRENGTH

WHAT gives every man his strength? Red blood. What makes the vibrant beauty of woman? Red blood.

Red blood is the driving force of life. If we lack strength we should think first of our blood. We should create more red blood. Then, through the new vitality that comes with rich, red blood, we quickly regain lost strength and vital nerve power.

Weak men and women can find an easy, safe way and create red blood. Then, as the blood is nourished, they will find strength quickly returning.

Wincarnis gives to the blood the very elements from which red blood is created. For fifty years this blood builder has restored exhausted, nervous, pale, thin sufferers.

If your body vitality is at a low ebb go to your druggist today and begin the safe Wincarnis treatment. A sixteen ounce bottle, which is a fourteen day Wincarnis treatment, is sold by all leading druggists for \$1.50.

Wincarnis is so effective that only three table-spoonfuls a day need be taken. Try Wincarnis at once and realize the new strength just a few days will bring.

"Tired and Worried Nervous and Despondent"

Mrs. M. Chevalier, Belle River, Ont., writes: "For eight years I suffered from despondency and nervousness. Sometimes I could not sleep at night for worrying and the next day I would be so tired that my work was a burden to me. I began using Dr. Chase's Nerve Food and can say I am now entirely relieved of the nervousness from which I used to suffer, and things do not worry me as they used to."

"Dr. Chase's Ointment also relieved me of eczema on my arms, which had bothered me for three years. My house is never without Dr. Chase's Medicines."

Is Positively Proven By Over 69 Years of Success

First—The quality of the Cod Liver Oil used, along with other valuable ingredients in compounding this remedy.

Dr. Harvey A. Sell, one of the best known analytical chemists in this continent, made an analysis of Father John's Medicine and said: "We have never examined finer cod liver oil than used in Father John's Medicine." The wonderful equipment in our new Montreal laboratory. Concerning the degree of fineness, Dr. Sell states in his report on Father John's Medicine: "The cod liver oil is broken up more completely than in any other medicine I have ever examined of this type, many of the oil particles in Father John's Medicine being only one-tenth the size of the particles of butter-fat found in cream."

The cod liver oil is so excellent in quality and is so finely divided that its full food value is easily absorbed by even weakened digestive systems. This is why people, especially the aged and weak, and pale, thin, underweight children grow healthy taking Father John's Medicine.

AN APPEAL FOR AID ON POPPY DAY

The following letter from His Honor Lieut.-Governor Todd, in which he appeals to the people of the province to assist the Great War Veterans by buying poppies when they are offered for sale on Poppy Day, so that the Vets may have funds to alleviate some of the hardships of the ex-service men and their dependents during the coming winter, has been received by A. I. Machum, secretary of the local organization.

The letter follows:

Government House, Fredericton, N. B.

To the People of New Brunswick: The Great War Veterans' Association will, on Armistice Day next, sell artificial poppies, to be worn or used as a memorial, in memory of the brave soldiers and comrades who fell in the late Great War. These poppies are made by disabled ex-service men who are not yet successfully re-established or are unable from their disabilities to earn a livelihood in any other way. The proceeds from their sale will be used in relieving distress among the bravest and most deserving of our ex-service men and their dependents during the coming winter. These poppies are emblems of the truest patriotism and of a sacrifice supreme.

I would kindly appeal to the citizens of our province to assist in this worthy help to our disabled soldiers and make Armistice Day full of the sacrificial spirit that actuated them so nobly in our behalf.

Yours faithfully,
WILLIAM F. TODD,
Lieutenant-Governor.

The local branches are holding the "Poppy Day" sale on Saturday and their annual decoration day on Sunday.

CURED HIS RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors advised me to have an operation. I refused to do so. Finally I got hold of something that quickly and completely relieved me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no loss of time, no trouble. I have nothing to sell, but will give full information to anyone who may find a complete relief without operation, if you write to me: Eugene M. Pullen, Carpenter, 482, Marcellus Avenue, Mansfield, N. H. MECCA OINTMENT

Count Zborowsky, killed during the week-end on the motor track near Milan, has always been rather the mysterious man of motoring. When not actually racing he spent a great deal of his time in London, and was a member of a somewhat high-brow clique in Kensington, which patronized art and poetry and indulges in "salons." As one knew the count's real financial status, although he has been credited with a considerable fortune tucked away in U. S. real estate.

With a BLOOD POISONED ARM

What would YOU have done?

MECCA OINTMENT

READ THIS A Newfoundland Testimony

"Mecca Ointment saved his life from blood poison"

Gentlemen—

St. John's, Newfoundland.

Last February I cut my finger with the cover of a salmon tin. Shortly afterwards I had to seek medical aid as my finger and arm swelled, and sore would not heal. Blood poisoning set in, and in April the doctor informed me the only hope to save my life was to amputate the arm at the shoulder. But instead I applied Mecca that night all over the side and under the arm. In the morning I felt so much better, and on removing the bandages much of the black appearance of the side was gone. I continued applying Mecca, and in less than a week I was able to proceed to my home, a distance of 6 miles, mounted on horse back. I continued to improve, and am now perfectly restored to health.

Yours truly, THOMAS A. HOLMES.

WHY BE OFFENSIVE WITH BAD BREATH?

Mr. J. Perry of 792 DeKalb Avenue, Brooklyn, N. Y., writes:

"I awakened each morning with an unpleasant taste and was often reminded by my wife that my breath was disagreeable.

"I tried perfumed tablets, mouth washes and other camouflages which gave only temporary relief.

"After consulting my dentist and finding my teeth in good condition, I confided in a friend, who suggested that possibly my trouble was constipation—faulty intestinal elimination. After taking a few doses of Carter's Little Liver Pills, my stomach and bowels were relieved, foul and impure gases eliminated.

"I now enjoy a wholesome breath as well as improved health. Carter's Little Liver Pills are small, easy to take, move the bowels in a gentle manner—without discomfort and distress."

MAYOR WILL WITHDRAW OBJECTION IF GOVERNMENT REFUSES EXTENSION

City Council and the School Board Hold Joint Meeting on Vocational School.

The outstanding feature of the conference held last evening between the members of the Board of School Trustees, Vocational Committee and Common Council was the statement of Mayor Potts that so far as he was concerned if the Provincial Government declined to extend the time limit for the payment of the Government grant toward the cost of the building that he would withdraw all opposition to its erection. The suggestion was made that the school board consent to a delay of two years and accompany a delegation of the council to interview the Government to see if it would extend the time.

Mayor Potts presided at the conference. Commissioners Wigmore, Frink, Bullock and Harding, Trustees L. M. Curran, chairman of the board, H. C. Smith, Thomas Nagle, S. W. Palmer, Mrs. E. B. Taylor, Mrs. D. P. Chisholm, A. A. McIntyre, G. H. Green, E. R. W. Ingraham, H. A. Porter and Alexander Wilson and George Hennessey of the vocational committee, with S. A. Worrell, acting superintendent of schools, and A. G. Leavitt, secretary of the school board, also attended.

Mayor Potts in opening the meeting said it had been called to hear from the school board in view of the protest which had been made by the council, whether it intended to proceed with the erection of the vocational school. L. M. Curran, chairman of the board, said there had been no discussion of the letter from the council and the board would like to hear the reasons of the council for asking for delay.

Question of Taxes.
The Mayor said the members of the council felt that while vocational education was a good thing, the present was hardly the time to add to the taxes, and a delay of two years could not work any great hardship. They would like to have the school board join with the council in asking that the time limit for the Government grant be extended for two years and he believed if they would the Government would grant the request.

Commissioner Frink asked if the board had taken the pledge as their warrant for action and was told this was the case.

Thomas Nagle reviewed the history of the movement from 1918, in which year the Common Council had requested the school board to investigate vocational training until the present time. He pointed out that in 1919 the board had suggested to the council that a plebiscite might be held and that in June of 1919 the council had requested the board to apply for authority for the erection of the school.

but this had been taken away by amendments since.
Vote Taken.
Continuing, Mr. Nagle said that in March of the present year the board had notified the council that it was necessary to secure its approval of the project before the plans would be approved of by the vocational board and asking it to either approve or ask the citizens to vote on the matter. It had been decided to hold a plebiscite and the citizens had decided for the school.

He was of the opinion that the Federal Government would not agree to any extension of the time limit, and it paid one half of the Government grant for the erection and equipment of the building. Mr. Nagle said he was of the opinion that the site should be more in the centre of the city.

A. A. McIntyre said there was one angle of the matter which had not been touched on by Mr. Nagle and that was that the building of the vocational school would probably do away with the necessity of erecting a new classical high school.

Commissioner Wigmore said there had been one item of expense in connection with the preliminary work which might have been saved if the board had asked the Public Works and Water and Sewerage Departments to give them estimates of the cost of grading and putting water and sewerage to the lot instead of employing an engineer.

Mr. Curran said he thought the suggestion that the board avail itself of the services of the civic officials was a good one. He said he appreciated the statement of Mayor Potts in regard to finances but the board felt that the vocational school was necessary and was doing its best to carry out the duty imposed upon it to furnish educational facilities for all the children of the city. He felt any body should go very carefully in refusing to carry out the expressed will of the people and must have good reasons for so doing.

The Bonds Necessary.
Commissioner Frink asked how much the bond issue authorized was and Mr. Curran replied that it was \$480,000. With regard to the site Mr. Curran said he would like to see the building where it could be more in the public eye even if it cost more.

George Hennessey said there had been much said about economy and economy was a good thing in its place. In the present situation it was a question between a few dollars and caring for the boys and girls of the city and he felt it would be true economy to care for the boys and girls.

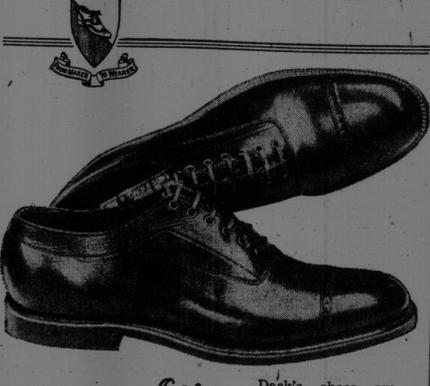

Mayor Potts said if the board would agree to act with the council in asking the Government to grant an extension of time for two years and they refused to grant it then he would withdraw all opposition to the erection of the building as he was in favor of vocational education.

It was pointed out by E. R. W. Ingraham that in order to get the Government assistance certain standards set by the Government had to be met. S. W. Palmer said he as one member of the board was inclined to think that the wishes of the council should be met, as they were the representatives of the people.

It was decided that the council should write the board asking it to join with the council in an effort to have the time limit for the Government grant extended and the meeting adjourned.

LITTLE HELPERS HAVE MITE PARTY
The Little Helpers of St. George's church, West St. John, held a party yesterday afternoon under the direction of their secretary, Mrs. Walter Bagnell. The children brought their mite boxes and they were opened. St. George's Little Helpers were the banner branch in the diocese last year financially and much credit is due Mrs. Bagnell for the very flourishing condition of the branch. At the party there were present the mothers of the children, Mrs. John M. Hay, diocesan Dorcas secretary and Rev. W. H. Sampson, rector of the church. A pleasing programme was given in which a dialogue was especially featured. Edith Allen was the mother and Helen Recitations were given by Phyllis Silphant, Boris Richter, Marjorie Donohue, Ruth Lee, Nichol Richter, Donald Napier and Olga Richter. The children all joined in singing "Little Sunbeams." Refreshments were served by Mrs. Bagnell, assisted by Mrs. Newton Wilkie, Mrs. J. A. Kindred, Mrs. W. P. Nilson and Mrs. Arthur Hatfield.

ELECTS OFFICERS.
The annual meeting of the W. A. of the Good Shepherd, Fairville, was held yesterday afternoon in the Guild room of the church with a good attendance of members. Mrs. Amy Bender, president, was in the chair. Satisfactory reports were given by the various officers and following a short devotional service the election of officers took place and resulted as follows: President, Mrs. Amy Bender; vice-presidents, first, Mrs. A. L. Patriquin; second, Mrs. H. Blagden; secretary, Mrs. John Graham; treasurer, Mrs. Charles Hill; E. C. D. treasurer, Mrs. Thomas Mitchell; Living Message secretary, Mrs. Thomas Pile; Little Helpers secretary, Mrs. Janet Miller; Dorcas secretary, Mrs. Hannah Maguire; junior superintendent, Miss Mary Hoy; delegate to the diocesan annual conference, Mrs. Charles Hill. A letter of thanks for the outfit sent an Italian boy was received from Chaplain school, Mrs. Hill read the paper on "Funds and Fees" which was written by Mrs. L. R. Harrison. A social half hour followed the business meeting and refreshments were served by Mrs. Bender and the two newly elected vice-presidents.

RED CROSS STARTS LOCAL CAMPAIGN

Drive for Increased Membership and Working Funds is Begun.

The local Red Cross campaign for membership and funds was launched yesterday afternoon at a well attended meeting held in the Red Cross Depot with representatives present from about 20 of the various organizations in the city. Endorsement was given the plan of holding the enrollment of members on Nov. 17 by means of booths placed in all of the drug stores in the city and a committee from the Red Cross was appointed to sign up the volunteers from all of the interested organizations that were willing to help man the booths. A large number of those present volunteered immediately. R. F. Wright, treasurer of the local branch presided and encouraging reference was made to the readiness of all citizens to respond to any call from the Red Cross.

The St. John Red Cross has held no membership campaign for two years as last year it gave way for the drive for the Japanese relief. The funds of the society are now at very low ebb and it cannot carry on without prompt assistance. Details were given at the meeting with regard to the extensive relief work which it had carried on for the benefit of soldiers' dependants who had no other source of assistance. In all the society had dealt with 366 relief cases according to their various needs, drawing upon the society funds and the Red Cross stores or placing the applicant in touch with some other organization which could give special relief.

The organizations represented at yesterday's meeting included the primary chapters of the I. O. D. E., High School Alumnae, Free Kindergarten, Women's Council, King's Daughters, Y. W. C. A., Daughters of Israel, Hebrew Association, St. George's Society, Knights of Columbus, Y. M. C. I., Pythian Sisters and members of the Red Cross Society.

The G. W. V. A. has already pledged six workers for the enrollment.

OU have no idea how much happiness paint and varnish yield when applied properly in rooms. Effective painting may almost double the amount of light in a room naturally rather dark. The painting of woodwork in cream or light buff makes all the difference in the world. Then varnish is very important in interior decorating. Varnished surfaces catch the light as do the facets of gems. Nowhere is varnish more generally needed than in the front hall. Many a worn staircase has been transformed by its use. A bright, pleasant kitchen makes for happy thoughts. Now is the time of year to have interior work done because master painters are free to give their very best services during the winter months.

Twelve was too many!

THIS planning a family dinner wasn't so simple after all. Betty was blessed with relations—six of them within inviting distance. Jack's father and mother and four aunts and uncles must surely come. Twelve—whew! Twelve was too many. They hadn't silverware enough. There wasn't even enough of it to entertain their own family.

Perhaps you, too, have been surprised, when planning a family gathering, to find that your silverware would not go round. But it is quite unnecessary to try to get along without enough silver for this and other entertaining you like to do.

Certainly expense need not deter you from your purchase, for 1847 Rogers Bros. Silverplate is most reasonable in price. And "1847 Rogers Bros." comes in every kind of piece you could desire—each unsurpassed in beauty and durability.

When you need more pieces, you can get them easily, for leading dealers throughout the Dominion carry "1847 Rogers Bros."

May we send you a copy of our booklet, "Etiquette, Entertaining and Good Sense"? Its illustrations of table settings are authoritative to the last degree. You will find it full of suggestions for successful entertaining. Write for it to-day. Meriden Britannia Co., Limited, Hamilton, Ontario.

Before you buy an electric cleaner make sure that it *beats and sweeps*. For that is the only way to thoroughly remove embedded, glass-like, cutting dirt—the destructive grit which grinds away the pile of your carpets and rugs, if allowed to remain.

Be convinced on this one point, and you will need to buy only one electric cleaner. Forty per cent of the Hoovers sold are bought by people dissatisfied with other machines. A searching inquiry first will save you disappointment later.

There is no substitute for beating, and The Hoover is the only electric cleaner which beats the carpet or rug besides electrically sweeping and air cleaning it. By keeping the pile clean, The Hoover adds years to the life of rugs.

The Hoover dusting tools thoroughly air-clean curtains, hangings and upholstery. They are the most efficient dusting tools ever devised.

Phone any Authorized Hoover Dealer to-day. He will bring The Hoover to your home and show you its efficiency. You will not be obligated to buy.

Business Is Looking Better

(Canadian Bank of Commerce Monthly Letter)

Towards the close of October a more hopeful view was taken of the business situation, as a result of a much greater liquidation of debt in every part of the Dominion than at that time last year.

LOOK AT THE U.S. COTTON INDUSTRY

Growth of Mills in South Accompanied by Expansion in North.

Fall River, Mass., Nov. 6.—The enormous growth of the cotton textile industry in the South Atlantic States, estimated at nearly 200 per cent since 1900, does not mean that the cotton industry, traditionally a possession of New England, is deserting its ancient home.

Eliminates Use of Smelting Furnace

Stockholm, Nov. 6.—Discovery of a method for extracting pure steel and iron directly from iron ore, eliminating the use of smelting furnaces, is the result of an intensive experimental work, has announced by the Swedish engineer, Hjalmar Hagfors.

Throughout the land whistles blow to signal the thousands of workers that the factory day has started.

Every worker is supposed to be in his place when the whistles blow. But they come from separate homes, from widely scattered parts of the city, and they must know when to start.

Most of them depend on Westclox to wake them at the proper time. For Westclox are trained to punctuality. They are not allowed to leave the factory or to wear the trade mark Westclox on their dials until they have proved their ability to run and ring on time.

SAYS BUT ONE PATH FOR GERMANY

Berlin, Nov. 5.—Only straightforward democratic policies will accomplish the destruction of the war guilt lie and help achieve our national regeneration," was the substance of telegraphic greetings of Dr. H. Schacht, president of the Reichsbank and German currency commissioner, to a rousing democratic rally held in Berlin yesterday.

"A nation united within itself and conscious of its moral and intellectual power," Dr. Schacht told his audience, "eventually will be able to liberate itself of unjust burdens without the aid of cannon and poisonous gas."

BOXING IN SLUMP, SAYS RICKARD

Promoter Doesn't See Much Prospect for Winter Bouts.

DEMPSEY DONE? Belief That Champion, Rich, Has Had His Last Big Contest.

By HENRY L. FARRELL. (United Press Staff Correspondent.) New York, Nov. 6.—Boxing has been in a terrible slump during the last summer season and the prospects for the indoor season aren't very good, according to Tex Rickard, Madison Square Garden promoter.

Business is so poor that Rickard is trying to drum up trade with a heavyweight show at 50 cents to \$2.

"The fighters will not fight. That's what brought on the slump," Rickard said. "When the heavyweights are idle the whole game slows up. Every heavyweight I talk to wants to fight Dempsey. They know they can't get him and their next choice is some push-over."

"Tom Gibbons is the only fighter in the game who will take any opponent offered him. I have had his contract in my desk for months, and can't get anyone to meet him."

"Jack Remault has been yelping about a match with Dempsey, but he wouldn't consider a Gibbons match. He wouldn't even fight Gene Tunney and Tunney refuses to meet Gibbons."

"Benny Leonard is stage-struck and is off the fight business, although he is training to get some publicity. Pancho Villa is under a year's suspension for running out of a match against Frankie Genaro. Mike McGuire is in bad with the commission and so is Mickey Walker, the only willing champion of the white race."

"The champion claims that no fighter living can keep in form by boxing once a year or less. He tells friends he learned that well in the Gibbons fight and that it is impossible for him to get enough fights to keep on the proper edge."

DEMPSEY. It is understood, has established a \$200,000 trust fund in a New York bank for his family. He has bonds and real estate holdings worth \$600,000 and has an income of about \$3,000 a week from his vaudeville contract and from the first movie he made, which is still making money in the rural districts.

The champion claims that no fighter living can keep in form by boxing once a year or less. He tells friends he learned that well in the Gibbons fight and that it is impossible for him to get enough fights to keep on the proper edge.

FAIR VALE TO HAVE BALL PARK Suitable Grounds Given to Players by Hugh H. McLellan.

Baseball enthusiasts in Fair Vale are actively engaged making a baseball diamond for next season. The team has been given a suitable field by Hugh H. McLellan and the members are taking advantage of every opportunity to level it, get it ready in time for league games next summer. A movement is now on foot to organize a C. N. H. suburban league and from present indications success will attend the efforts of those interested. The members of the Fair Vale club are tendered Mr. McLellan a hearty vote of thanks.

MARITIME PLAYERS TO HAVE TRY-OUTS

The Major League Hockey Teams Seeking Material for Coming Season.

(Amherst Daily News.) Several Maritime men have an opportunity of trying out in senior professional company this year. Edgar Wade of Marysville has received an offer from the Canadiens, while Jack MacEachern and Roy Prowse of the Charlottetown Abbies, have been asked to try out with Art Ross Bostonians. Big Larry MacLean of Fredericton will be out in Saskatoon, with Newey Lalonde of Shelburne. Hee Grimley of Amherst will probably go with one of the new teams, although it has been rumored that he may work out with the St. Patricks. Irvine Bickerton of the Ramblers, regarded as one of the best right wing players in the game last winter, has not been approached, but Bickerton will be considered a pro offer away from home. He is willing to play amateur hockey, providing he is reinstated, but otherwise will quit the game. Blair Carroll of Moncton may also be seen in faster company, and if any of the Maritimers make good, Carroll should be the lad. He is fast and tricky, with an abundance of hockey brains.

GIRL WILL TRY FOR MAT TITLE

Women Grapplers to Meet in Boston Tonight—Other Bouts.

Tonight will see the gentle wrestlers back at the Grand Opera House, says Doc Almy in the Boston Post. The word "gentle" is not used in an ultra-sense, but refers to the female of the species.

In short, the women grapplers, at least two of 'em, will turn loose, and there will be a title involved to make it even more interesting.

Miss Louise Gardner of Wakefield, a newcomer on the local mat, is to be one of the contestants, while the other will be Miss Cora Livingston, holder of the championship. They are booked for a one-fall-to-a-finish match. We do not know just how good Miss Gardner can wrestle, but as her main line is parachute jumping, it can be remarked that she is some high flyer, also can have no fear of a fall.

Frank Bruno, the Italian boy, who had made such a good impression at the Grand this season, will meet Jim Gentwell of South Boston in another bout, while other contests will be together Count Zarykoff vs. Jack Albright, and Frank Yusko vs. Savage Toole.

EDGAR WADE TO GO TO SASKATOON CLUB

Fredericton, Nov. 5.—Edgar Wade, star defence player of Marysville and Fredericton hockey teams, in the past has been ordered to report to Saskatoon Shleiks. Wade signed an agreement last week with Joe Page, of Montreal, giving an option on his services for fifteen days for either the Canadiens, of Montreal, or the New Boston Club, of the National Hockey League. The next thing he heard about it was a telegram from Newsy Lalonde, stating that his contract had been assigned to the Saskatoon Hockey Club by the Canadiens, and that transportation and expense money would be forwarded for him to report at Montreal on November 16.

Fred McLean, of this city, signed a contract some weeks ago to play the coming season with Saskatoon, the Shleiks, who were after him last season. He played in Boreal Hockey in 1916 and was with the Quebec club in the National Hockey League some years ago.

MONCTON HIGH HERE SATURDAY

Arrangements have been completed by the management of the High School football team for an exhibition game with Aberdeen High School, of Moncton. The game will be played on the Sand Cove road grounds on Saturday afternoon and High School will go to Moncton the following Saturday to play the return game. Moncton High School is reported to have a strong team as a number of last year's players are still in the line-up and these two schools should provide a good exhibition of football.

MALONEY WINS DECISION

Boston, Nov. 6.—Jim Maloney won the decision over Jack Sharkey in a tame ten-round local bout here last night. Both are local heavyweights.

Jackie Clark of Allentown, Pa. won from Tom Kirby of Boston a foul in the fifth round of an eight-round semi-final.

ICE CREAM ON WHEELS

London, Nov. 5.—An enterprising ice cream concern in London has organized a fleet of 400 tricycles to deliver ice cream throughout the city. Householders wishing to buy ice cream place specially printed cards in their windows. The ice cream is carried in insulated chambers fitted between the side wheels of the tricycles.

COMING CHAMP. Allen Hall, Jr., Looms Up as Three-Cushion Title Holder.

ALLEN HALL, JR. Another champion is to be added to the list of three-cushion title-holders, according to a prophecy made by Charles C. Peterson, recognized as the leading developer of billiard material.

Peterson, he it known, is the world's greatest trick shot, holder of the red-ball championship and shortstop king. He recently won the mid-west tournament and is ready to pit his skill against the leaders. Unlike the balking game, dominated by Hopps, three-cushion has had a host of champions in the last 10 years.

HOCKEY SEASON LOOKS PROMISING

Expect to Have Two Senior Leagues and Senior Team.

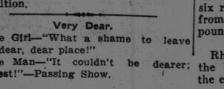

If the plans of those interested in hockey materialize, St. John should have a most successful season in that popular winter pastime. A movement is already on foot to have the strongest possible team brought together to represent the city in a provincial league and for exhibition games against some of the leading teams in the Maritime Provinces and Maine. It is also proposed to form a City League and a Commercial League and to play the games in Hilton Belyea's rink in West St. John. It is understood that St. Peter's Y. M. A., who for many years has been a leading part in amateur athletic sports of all kinds, will enter the fold and go forth seeking new laurels. C. P. R. winter port staff are also expected to have a strong sextette this year, while the Trojans are already actively engaged securing material to represent their organization. Other teams are expected to organize in the near future.

It is the first time in many years that hockey was given any consideration at this early date, and the result should mean for better organization and better conditioned sextets taking the ice when the season opens. Former years the St. John senior team usually started putting up a good brand of hockey when the season was drawing to a close, their work in the early stages being marred by lack of condition.

Very Dear. Fred McLean, of this city, signed a contract some weeks ago to play the coming season with Saskatoon, the Shleiks, who were after him last season. He played in Boreal Hockey in 1916 and was with the Quebec club in the National Hockey League some years ago.

PLANNING FOR THE OLYMPIC GAMES

Representatives from Local Organizations Meet and Further Plans.

Final preparations for the big fair in aid of the Olympic fund to be held in St. Andrew's rink, opening on Nov. 8, and lasting until Nov. 15, were completed at a meeting of representatives of local clubs held last evening in St. Andrew's rink with A. W. Covey in the chair. W. C. McQuade acted as secretary. Mr. Covey announced that Mayor Potts had been invited to open the fair officially on Saturday night. Invitations to be present will be extended to Premier Veniot, Hon. Dr. J. B. M. Baxter, Hon. Dr. W. F. Roberts and Hon. I. C. Rand. An official programme is being prepared for the opening night, details concerning which will be announced later. The construction of the booths under George Lawson has progressed rapidly and volunteers are asked to be on hand tonight to help with the decorations. KENNEL CLUB TO HOLD BENCH SHOWS

Plan for Winter Season—Officers Elected for the Ensuing Year.

A meeting of the New Brunswick Kennel Club was held last evening in their room at the market building. Reports showed that the club was in a good financial condition. Officers were elected as follows: President, E. B. Legke; first vice-president, John Scott; second vice-president, C. E. Sullivan; secretary, F. Kerr; treasurer, J. V. McLellan; executive committee: W. F. Klerman, Kellie Wilson, E. J. McGuire, H. R. Brodie, R. Jamieson and Robert Magee. It was decided to hold night bench shows during the winter months.

GIANTS TO TRADE GROH AND MEUSEL

Brooklyn, Boston and Chicago Teams Anxious to Land Them.

According to advices from New York, both Heinie Groh and Irish Meusel will be missing from the Giants' line-up next season. Both are considered good prospects for trading purposes and it is an open secret that the Boston Braves, the Brooklyn Dodgers and the Chicago Cubs are after them. The Dodgers are very anxious to land Heinie Groh, as they are badly in need of a good dependable third baseman, while Meusel would be acceptable to either the Cubs or Braves. McGraw is in a position to allow both these players to go if he can get some additional strength for his pitching staff. Lindstrom has an exceptionally brilliant young third baseman, who showed his wares at the recent world's series. As far as the outer garden concerned, McGraw has no need to worry, for he has a strong quintette in Kelly, Young and Wilson and good substitutes. Groh is one of the best third basemen in the National League, but his legs are beginning to give out and he is therefore considered more or less of a gamble.

SAY JUSTICE SERVED IN VALENTINO CASE

Ottawa, Nov. 6.—The department is fully convinced that the ends of justice were served to the fullest extent, and that the decision of the executive is in absolute agreement with the principles governing the exercise of the royal prerogative.

The statement of M. P. Gallagher, chief of the remission branch of the Justice Department, when his attention was drawn to an editorial in a Quebec newspaper criticizing the authorities for commencing the death sentence passed on Mike Valentino, one of the Montreal bandits, to life imprisonment.

TWO NAMED FOR HALIBUT INQUIRY

Victoria, Nov. 6.—I. P. Babcock, deputy commissioner of fisheries for British Columbia, will be one of Canada's two representatives on the international halibut commission which will commence an exhaustive investigation into the depletion of the halibut fisheries of the Pacific coast. Announcement of Mr. Babcock's appointment reached here from Ottawa. The other Canadian on the commission will be W. A. Pound, director of fisheries for Canada.

FOOTBALL STAR OUTBOXED THE CHILEAN FOR 3 ROUNDS, THEN TIRED.

New York, Nov. 6.—Quintin Romero of Chile and Sully Montgomery, centre college football star, drew in the six-round final to a series of heavyweight fights in Madison Square Garden last night. Montgomery, in his first important professional fight, outboxed the Chilean in the first three rounds and almost dropped his opponent in the fourth with a right to the jaw. Romero took the last two rounds. Montgomery tired rapidly and was badly beaten in the final session.

The holding of the Chilean to a draw was not only considered a feather in Montgomery's cap, but many of the 8,000 spectators of the bout disagreed with the decision, holding that Montgomery had outpointed his rival.

Romero had to extend himself through the last three rounds to get a draw. He had to call on all his experience to avoid a knockout in the fourth round when the Texan staggered him and sent him careening about the ring with a terrific right to the jaw, just a few seconds before the bell ended the round. Romero pressed a furious attack during the fifth round and sixth round, but he was unable to knock out his rival. The bout was a six round affair. Montgomery, who is from Fort Worth, Texas, weighed 204 pounds; Romero weighed 195.

FOX TERRIER PUPPIES SOLD

Montreal Breeder Sells Ten to New York Newspaper Writer.

Montreal, Nov. 6.—One of the biggest deals in wired-haired fox terriers in recent years was put through last week by James Strachan, Montreal owner and breeder. Mr. Strachan received an order from Frank Dole, writer on the New York Herald and Harper's Bazaar, for ten puppies. These dogs were shipped to New York, and word was received that they had arrived in a healthy condition. Included in the lot are offspring of the best show dogs at the Strachan kennels. High prices were paid for the puppies, which will be used for show purposes in the United States.

ARRANGING FOR MANY BIG BOUTS

First Will be Between Tommy Gibbons and Kid Norfolk.

New York, Nov. 5.—The signing today of Tommy Gibbons, St. Paul light heavyweight, and Kid Norfolk, veteran negro pugilist, for a 15-round match at Madison Square Garden on Dec. 8, probably will mark a renewal of activity in heavyweight ranks lasting through the winter season.

There has been some discussion of a title bout between Gibbons and Jack Dempsey, the champion, as the headliner of a charity bout.

The St. Paul man's showing against Norfolk, who trounced Battling Siki in his last important bout in the Garden, may determine prospects for such an encounter. Dempsey is in vaudeville now, but, according to his manager, Jack Kearns, is keeping in condition and ready to box on short notice.

Luis Firpo, who plans to start a come-back campaign in Newark with Charley Weinert as an opponent, probably will be seen in action at the Garden either against Quintin Romero, Chilean heavyweight, or George Godfrey, Philadelphia negro.

Gene Tunney, United States light heavyweight champion, and Jack Remault, Canadian heavyweight, are others for whom services Rickard is negotiating in connection with his heavyweight plans.

SAY GOLDSTEIN HAS MANY WIVES

Beating of Bride of Two Months Leads to Dis-closures.

Philadelphia, Nov. 6.—Joseph Goldstein, 36, is under arrest here, sus-pected of having nearly a score of wives throughout the country, with at least six living in New York.

Three alleged wives faced him when he was arraigned before Magistrate O'Connor. Another wrote to the police of that city that she was married to Goldstein, but was unable to appear at the hearing.

Police declare they discovered Goldstein's marrying career in a trunk filled with letters from women in various sections of the country pleading with Goldstein to return to them and their children, as well as to send them money.

The letters were found in Goldstein's Philadelphia home after his ar-rest on the charge of beating his wife, Sara, 24, a bride of two months. This led to his undoing, as the alleged latest of his many wives testified at Goldstein's first hearing her suspicions Goldstein had "other wives."

Mrs. Gustie Lindenberg and Mrs. Margaret Adlestein, both of New York, appeared at the hearing with Mrs. Sara Goldstein as three of Goldstein's wives.

Mrs. Lindenberg, of Eldridge street, said she married Goldstein several years ago, and has two children by the marriage. Mrs. Adlestein, of East 100th street, says she has one child by her marriage.

Police said they found letters from women living in California, Nebraska, and Chicago. Detectives will subpoena them to appear against Goldstein when he is tried.

CATHEDRAL TEA CLOSSES TODAY

One young man was twice fortunate last evening at the fair held in connection with the Cathedral high tea, which closed yesterday, after a very successful three nights. John Stanton, 6 Peters' Wharf, was the winner of a fine electric lamp and a later tier of fancy aprons, both offered at the booth where aprons and handkerchiefs were sold under the auspices of the Society of the Propagation of the Faith. Miss Lottie Gillis, 104 King street east, and Miss Annie Flood, 9 Castle street, each won five pounds of chocolates, and Miss Ethel Flaherty, 28 Exmouth street, another one of the electric lamps. The door prize was won by ticket 1603, but has not been claimed last night. The winner will have a nice box of biscuits, winner will have a nice box of biscuits.

The candy booth has been conducted by different young ladies each evening. They were Miss Marie Dolan, Miss Isabelle Reid, Miss Gertrude Maguire and Miss Mary Killorn for Tuesday night and Miss Kathleen Lundy, Miss Anna Gramman and Miss Beatrice Gosnell last evening. Two little girls carried candles among the crowd. They were Miss Katherine and Miss Frances Bardeley.

This afternoon the children will take possession under supervision of Rev. Father McCarthy. Supper will be served for the little folks.

CHARGED WITH ASSAULT

Frank Smith, aged 35, was arrested at 12:15 o'clock yesterday afternoon by Police Sergeant Dykeman on a warrant charging him with assault, causing actual bodily harm to Samuel Swanton on October 31. The prisoner appeared before Magistrate Henderson in the police court during the afternoon and pleaded not guilty, and was allowed out on leaving a deposit of \$100 for his appearance in court tomorrow morning. W. M. Ryan appeared in the interest of the accused.

QUEBEC FRENCH IS NOT "PATOIS"

Col. W. C. Wood Gives Entertaining Address to Toronto Women.

The one-sidedness of bilingualism in Canada was emphasized in Toronto in an excellent address given before the Women's Canadian Club by Col. William C. Wood of Quebec City, says the Toronto Globe. Col. Wood, who is a distinguished historian and writer, asserts that there are more French-Canadians who speak the English language than there are Anglo-Canadians who speak the French.

"I am inclined to think that the English language is a little better—no worse, anyway—than the French," declared the speaker, who believes that "bilingualism is a grand thing."

Not a "Patois." "Do not use the word 'patois' in referring to the speech of the French-Canadian of today, for it is not true," warned Colonel Wood, emphatically. The speech of the French-Canadians is partly old French, but mostly Norman French. "On the whole, the French-Canadian speech of today—though peculiar—is good of its kind."

The service talks of the British Army all originated hundreds of years ago with the army of the French. Col. Wood stated that during a recent visit in France he heard the familiar notes of the ever-welcome dinner or "cook-house" call. Upon inquiry he found that it had been used in the French Army for over two hundred years, and was happily called "La Soupe."

Colonel Wood described himself amusingly as half-English, one-quarter American, and the other quarter French, of France, with the advantage of being a "mongrel," and being able to abuse as he liked every one of these peoples. However, the speaker, in the course of his informative and entertaining address, abused nobody but himself.

Harmony Is Needed.

"We have all kinds of people in the British Empire," declared the speaker, "and what we want is not union, but harmony of all the different parts." In speaking of the French-Canadians, he stressed the point that they are like other peoples, with the same class distinctions and the same differences among themselves. "There are bad, good and middling in the French-Canadian as well as other peoples," he said.

Familiar and well-beloved by the Anglo-Canadians are the verses of Dr. W. H. Drummond, but by the French-Canadians they are hated and detested, according to Colonel Wood. So "little Bateau" and his poor "granpere," and even "Johnny Corneau" find no admirers among the French-Canadians. The speaker stated that this dislike is due to the fact that works of this kind isolate one class, that of the habitants, and the French-Canadian feels that he is being held up to ridicule by the French of France and by the English-speaking people.

Hemon's Book Not Liked.

"Marie Chapdelaine," by Louis Hemon, has met with a tremendous success in France as well as in England and America. Here, again, the educated French-Canadian is not pleased or rejoicing over the success of this vivid picture of the life of the habitants. "You may call it superlativeness," said Colonel Wood, "but it is only natural."

Changing Old Names.

Colonel Wood spoke disparagingly of the popular practice of changing century-old place names in Canada. Among the illustrations he used the two lakes, Lake St. Louis and Lake St. Charles. Construction gangs had been in a measure responsible for the discarding of euphonious old French names and the remaining of these northern lakes.

Mines Minister Speaks on Resources—Preserves 3,271,040 Acres.

Defining the policy of the Ontario Government as one which seeks to conserve as fully as possible the fur and game resources of the province, Hon. Charles McCrea, Minister of Mines, gave to the Toronto Field Naturalists' Club, on a recent evening, a complete picture of the functioning of the Provincial Department of Game and Fisheries.

Dealing with game preserves, Hon. Mr. McCrea announced that during the last month a new preserve of some 800 square miles had been created, bringing the total area of crown game preserves in the province up to 3,271,040 acres. The newest preserve, known as the Superior, was located between the City of Port Arthur and the Village of Schreiber, lying to the south of the main line of the Canadian Pacific Railway.

In general, the minister's address was of an entirely informative character, statistics playing a major role. The province was divided into six districts, he explained, with headquarters at London, Ottawa, Orillia, North Bay, Fort William and Patricia. Aside from the executive staff, there were some 107 employees, wardens, and so forth, under the department. For the fiscal year of 1923 revenues of the department amounted to \$891,422, showing a surplus of \$237,725.

The six provincial fish hatcheries, located at Fort Frances, Port Arthur, Sault Ste. Marie, Normandale, Mount Pleasant and Glenora, had during the past year distributed some 660,242,611 fry of different species. Commercial fish taken during the year were valued at \$2,886,398, while over 15,000 non-resident angling licenses had been issued.

As to the fur industry, the total number of pelts taken in 1923 was 769,070—a value to the trappers of \$3,182,995. Some 20,222 hunting licenses had been issued during the year. In the same period the 294 fur farms of the province had increased their animals to 3,277.

Mr. McCrea devoted some time to the success which, he said, had attended the placing of English ring-necked pheasants. So well had the birds become adapted to Ontario conditions that one day's shooting had been possible both this year and last. In this connection, he dealt with enforcement of the Game and Fisheries Act, stating that the number of convictions for the year had been 861; that the total fines collected were \$18,145, and that the receipts from the sale of confiscated articles were \$10,253.

The vote of thanks to Mr. McCrea was moved by C. W. Nash, Vice-President of the club, who urged even greater conservation of animal life, and seconded by Dr. E. M. Walker, Professor R. B. Thomson, President of the club, occupied the chair.

ASKS FRANCE TO DEAL WITH THE TITLES QUESTION

Paris, Nov. 6.—A bill to sentence the state of nobility and its prerogatives to a slow death has been introduced in the Chamber of Deputies by Rene Renoult, the Minister of Justice.

The bill does not attempt to abolish titles, but by eliminating all government recognition and protection it would tend gradually to rob them of their value and significance. The actual object of the bill is to abolish the registration of titles with the chancery of the ministry of justice, and to prohibit the use of titles in any public act.

At present, though France is the most republican of nations, the titles of nobility are not only recognized but protected. It is actually criminal not only to assume a title to which one is not entitled, but it is a misdemeanor even to place "de" without right before one's name.

NORTH END CITIZENS PROTEST

ALLEGED REMARK BY MAYOR; LATTER SAYS HE'S MISQUOTED

Storm is Raised Over Reported Designation of Vocational School Site as Wilderness—Protesting Letter is Shown Mayor and He Makes Statement.

There's been a storm in at least a portion of the North End of the city over a remark attributed to Mayor Potts at a recent City Hall meeting...

St. John, N. B., Nov. 6, 1924. To the Editor of The Times-Star: We would appreciate your publishing this protest of ours in your valuable paper.

It is not the purpose of this letter to discuss the vocational school, nor the possibility of losing by procrastinating the generous construction, equipment and maintenance grants now available...

those unacquainted with them and because, coming from the Chief Magistrate of the City of St. John, they might be given credence...

- PERCY J. STEEL, P. F. GARRED, A. E. JORDAN, J. P. QUINN, W. H. TURNER, E. J. DENVER, B. L. KIRKPATRICK, P. MAISONBY, W. C. WILLIAMS, GEORGE A. APPT, F. S. THOMAS, L. D. MUNRO, HOFFMAN BROS., CHAS. MCCONNELL, J. A. KENNEDY, W. E. BLANCHARD FERRIS, ISRAEL ELLMAN, THOMAS A. ARMOUR, GEO. F. COUPE, FRANK C. THOMAS.

Misquoted, Says Mayor.

Mayor Potts, when shown the letter, said: "In reference to a letter signed by representatives of the North End in connection with a statement I am supposed to have made relative to the proposed site of the Vocational School, that report was erroneous. The statement I did make was in reference to the report of the Chairman of the Board of Assessors regarding valuations in Stanley Ward and my remarks were that most of Stanley Ward was a wilderness anyway."

"I just wish to say to the people of the North End that at no time have I made any reflection upon the League in doing, and contemplating doing, in the location where it is proposed to erect the Vocational School. As stated to them, as their guest some weeks ago, anything for the betterment and advancement of the League will have my best co-operation and support."

regret exceedingly that my remarks have been misunderstood.

HEAD OF PRENTICE BOYS ORDER DEAD

L. E. Rolston is Mourned by Many—Was Post Office Official.

Members of the Prentice Boys Association throughout Canada will learn with regret of the death of L. Edwin Rolston, Worshipful Grand Master for North America. He passed away in the General Public Hospital after an

L. E. ROLSTON.

operation performed last Saturday following an illness that commenced to show distressing symptoms early last month. Mr. Rolston had been in failing for some months but news of his death came as a shock to his friends.

In addition to being active in the affairs of the Prentice Boys, Mr. Rolston was a member of the Knights of Pythias, being a charter member of Carleton Tower Lodge, No. 37, K. P., and holding the office of master of the exchequer in the lodge.

For the second consecutive time, a West St. John man was elected Right Worshipful Grand Master of the Protestant Association of "Prentice Boys of British America" when Mr. Rolston was selected to succeed Renwick J. Anderson at the annual meeting in Fredericton last June. Mr. Rolston, who was born and brought up in the North End, joined the order in 1910 and had been one of the most active members of King Edward Lodge.

For several years Mr. Rolston was shipful Master. When he took the chair, the lodge was heavily in debt but under his mastership, a debt of \$2,700 was wiped out and the mortgage on the building was publicly burned. He served two years as deputy grand master and was slated for the grand mastership a year ago but was unable to attend the convention owing to illness. This year he was nominated and elected unanimously to the high office of Grand Master.

For several years Mr. Rolston was employed in the office of the N. B. Power Co., Ltd. On January 29, 1914, he entered the Post Office as clerk and had been there ever since. Postmaster Alex. Thompson expressed sincere regret this morning on behalf of himself and the employes over Mr. Rolston's death.

Besides his wife he leaves three sons, Harold, Cecil and Leslie, the latter residing at home and the two former in West St. John. His father is Andrew Rolston, who resides at 91 Cedar street, West St. John, with his daughter, Mrs. R. R. Lee, who is a sister of the late Mr. Rolston. He was born in Gagetown. The funeral will be held on Friday afternoon from the late residence, 87 Germain street, West St. John, at 2:30 o'clock to St. Jude's church, where service will be conducted by Rev. J. H. A. Holmes. The two orders of which he was a faithful and honored member will assist in the service. Interment will be made in Cedar Hill extension cemetery.

Of kindly manner and possessed of many excellent qualities, Mr. Rolston readily assembled friends about him and he held their good will. They number today many who mourn his death and who will extend deep sympathy to those bereaved by his passing away.

Officials Notified.

R. J. Anderson of West St. John, who preceded Mr. Rolston in the office of Grand Master of British North America, became chairman of the executive by Mr. Rolston's death. He wired to Deputy Grand Master Bannan of Toronto last night, telling him of the loss of the order and sustained, and also notified Grand Secretary C. O. Brickman of Belleville, Ont.

The funeral will be held under auspices of the grand lodge and, while it is not possible for the grand lodge officers in Ontario to come to attend there will be a floral remembrance from the body and the grand officers resident in New Brunswick will attend the obsequies. It is expected that many members of the subordinate lodges here as can do so will be present to pay their tribute of respect to one who had done much for and was keenly interested in the welfare of the order. Under the rules Deputy Grand Master Bannan will automatically take over the duties of grand master for the remainder of the present term.

VERNER LODGE WINS.

Verner Lodge No. 1, L. O. L., of this city, won first prize in competition with lodges over Canada in the recent subscription campaign held by the Orange Sentinel, according to telegram received last evening by William M. Campbell from H. C. Hocken, M.P., of Toronto, editor of the Sentinel. First prize in this competition was a new lodge banner and this has been captured through the efforts of members of this and other lodges of the province. No results were forwarded in the telegram, which contained congratulations on the victory of the local lodge.

WAS VETERAN OF RIEL REBELLION

William Maxwell of West St. John Died There This Morning.

In the death of William Maxwell, which occurred today in West St. John, a veteran of the Riel rebellion passed away. Mr. Maxwell was one of the first to enlist for service out west and served five years out there. He was unmarried, making his home with his brother, Thomas Maxwell, 82 Princess street, West St. John. His parents were William and Ellen Maxwell and he was born in West St. John. He is survived by five brothers, all of this city, George, Thomas David, John and James. The funeral will be held from the residence of George Maxwell, 3 Dunn avenue, West St. John, on Saturday afternoon at 8 o'clock.
