RESIGNATION OF REV. MR. DENNISON

Text of His Letter to St. Thomas Church Members

Former St. John Minister Writes of Misunderstanding—Has No Call—Effort to Have Him Reconsider.

The following relative to a former pastor of the Tabernacle Baptist church here, is from the St. Thomas Times-Journal, St. Thomas, Ontario, under date of Feb. 9:

Rev. F. Patrick Dennison submitted his resignation as pastor of the Centre Street Baptist church at the Sunday evening service. While no action was taken by the members, there is apparent reluctance on the part of the congregation to accept the resignation without first making a determined effort to have Mr. Dennison reconsider his action. Mr. Dennison's statement was as follows:

St. Thomas, Ont., Feb. 7, 1920.

To the Members and Adherents of Centre Street Baptist Church.

Dear Friends,—It is with the deepest regret that owing to the trouble and lament upon the going home of my wife, and circumstances that have arisen therefrom, I am compelled to tender to you my resignation. It is my purpose to sever my connection with the pastorate of this church Wednesday, March 17, when I shall have completed two years in this pastorate.

I want to take this opportunity of expressing my heartfelt appreciation of the many kindnesses received, both by

myself and especially the one who is now home.

During the two years, many things have arisen, many difficulties have been met, many blessings have been received, many friendships have been made, and of the real friendships, none have been lost, but these two years have brought to me many anxieties and difficult tasks, tasks that would have been impossible of accomplishment but for the help of those who have loyally stood behind their present pastor, as well as the pastors who have gone. In the days to come, these are the things that will bless. This loving, faithful co-operation will inspire. The mistakes, of which I am deeply conscious, the erroneous judgments, which have cost me more than they have cost any one else, will be as lamps, red ones of warning for the days to come.

I cannot tender to you this, my resignation, without assuring you that I shall never forget St. Thomas, for there are here men and women whose labor of love, ministry of tenderness, acts of charity and unimpeachable loyalty will be cherished even into eternity.

During these two years there have been misunderstandings that have wrung the heart, shrivelled the soul, and at times seemed almost to imperil the faith in some people's Christian experience. But when one has brought these persons into the presence of the King, He has shown that such are they that need the special solicitude of the ministry of Jesus Christ.

Whatever of success there may have been, the credit for it belongs to Him who is the Head of the Church for all things. Whatever of failure there has been is the result of the earthly vessel that realizes, day by day, more and more its inadequacy and inability for such an high and holy task.

In closing, may I say, I have no plans for the future. There is no "wall" nor do I know of one that is likely to be given. I shall pass out into the world when my ministry here ceases, so far as I at present know (humanly speaking) with the companionship of a little child, the whole wide world for a field.

Before our pastoral relation, however, is severed, I purpose holding special meetings as promised when I went away. They will commence on Tuesday, Feb. 17, and continue until Friday, March 12. For these I ask your prayerful interest

and whole-hearted co-operation. If you love those for whom Christ died and would have them find Him, you will make it a subject of active prayer and actual sympathy.

I am yours in His service.

F. PATRICK DENNISON.

DR. ROBERTSON'S MESSAGE

Two points in the address delivered last evening by Dr. James W. Robertson to the business men of St. John deserve all the emphasis it is possible to give them. The first is that increased production is a necessity, the second that extravagance is a serious injury to the nation.

With regard to the first point, and with special reference to food production, Dr. Robertson points out that millions in Europe are greatly underfed, and in his opinion the farmers of Canada during the next two years will have an exceptional opportunity to make reasonable and even large profits.

For the benefit of those uninformed and unreasonable persons who are always ready to have a fling at the United States, and who would blame that country for a condition of exchange which is really a result of world conditions, it is well to note what Dr. Robertson says of the manner in which the American food administrator helped Canada.

Dr. Robertson adds that so far as the present rate of exchange goes he would like to see the exchange value of the dollar go still lower if it would stop the extravagant importation of luxuries at such a time as the present.

THE PROVINCIAL MINISTERS. Discussing the provincial government the Standard this morning says: "During the year all the ministers, except Hon. Mr. Veniot, have shown a strange disposition to attend to the duties of their offices."

THE CASE OF MONDA ROSE. There is a lesson for women who make a parade of wealth in the remarks made by the girl known as Monda Rose, who was recently in Moncton, and who is now asked to explain to the court in Chicago a shortage of \$50,000 in the accounts of the company for which she worked for twenty-five dollars per week.

would be well dressed and that when the time came I would have read enough and observed enough to be able to maintain my place and be certain of myself in any company."

CAN THIS BE TRUE? The citizens must have paused to read a second time the following astounding paragraph in a report of a meeting of the board of directors of the St. John County Hospital:

American people are extravagant. An extravagant people have reaped benefit from the misfortunes of the world. "Look at the extravagance," he said. "Never have you people consumed so much as they are consuming today. You speak of the high cost of living. Are we responsible for that? Out of the needs of the world you are making fortunes. You are making fortunes by killing the people of the world."

Dr. Robertson, chief scout commissioner for Canada, gave the boy scout movement in St. John another impetus yesterday. His addresses to the assembled scouts at the Armory and later to the scoutmasters and assistant scoutmasters, were full of inspiration; and his announcement that after he had concluded his present mission to the business interests of the country he will give much more attention to the boy scout movement, will still further encourage the local workers in this field.

There is a sting in the remark of someone at the meeting of the St. John Council of Women that men must be tempted with food to get them together, which perhaps is not wholly unwarranted, but the ladies should remember that busy men often find it convenient to get together at lunch when they could not otherwise as well spare the time.

ANNOUNCEMENT. This year I'll be a candidate for Woodrow Wilson's honored place; my friends keep chaffing to my gait and urging me to make the race. My platform is a simple thing, one single plank is all its own: Cut out extravagance, by jing, quite burning up the precious bones!

WIFE SLAYER LOSES SPEECH, THEN GOES OUT OF HIS MIND
Detroit, Feb. 13.—Robert Costello, who was stricken dumb when he slew his wife on last Friday night, has become a raving maniac and is lodged in his bed in the Receiving Hospital. The confessed wife slayer, who was forced to write his confession because he had lost the power of speech, was taken to the Morgue Sunday to see the body of his wife, Eva Henderson Costello. As he looked upon the body, his power of speech returned. "Evelyn," he gasped, "Evelyn, what have I done?" He was led back to police headquarters, but the vision of his wife, of the assault in which he slashed her throat, kept coming back before him. He lost control of himself and was rushed to the hospital.

Costello, formerly a street car conductor, became enraged at stories of his wife's indiscretion. He slew her as she was entering the home of another man.

QUARANTINED.
Wellesley, Mass., Feb. 12.—The 1,600 undergraduates of Wellesley College were under quarantine restrictions today because of an outbreak of influenza. The young women must not go to their homes or leave the town, but are attending classes as usual.

**DR. ROBERTSON
THINKS WARS
ARE AT AN END**

Excellent Address Heard by
Business Men Last Night—
Urges Economy.

Two simple words, "Never Again," sums up the common sentiment of the nations represented at the peace conference, and in the League of Nations regarding the possibility of another great war, according to Dr. James W. Robertson, who was overseas three times on official duties during the great conflict and while peace negotiations were in progress. In a remarkably illuminating address to St. John business men last night at the G. W. V. A. rooms Dr. Robertson expressed it as his opinion that, from what he had observed and heard at the peace conference and at the birth of the league, there would never be another great war. The distinguished speaker told of present economic conditions in Europe and urged the people of New Brunswick to produce more and spend less, particularly for luxuries.

His Worship Mayor Hayes presided at the meeting and in introducing Dr. Robertson spoke of the latter's former visits to the city when he had brought inspiration with him. Dr. Robertson spoke in part as follows:

In November, before the armistice was signed, the prime minister invited me to accompany the Canadian Peace Conference delegation to London and Paris as representative of the department of agriculture. I appreciated profoundly the honor and responsibility of serving the government and the agricultural interests of Canada in connection with the peace conference and the disposal in Europe of the balances of the exportable surplus of food commodities provided in response to the war production campaigns.

Before I speak of what I learnt as to the food situation and the necessity of large production, I wish to tell you that I learnt on all sides that Canada had come to a new place in the esteem and expectations of Europe and the United States—I met many eminent Americans in Britain, France and Italy. That new recognition of Canada—and new expectation from her—was based principally on what Canada had done through four channels: her army, food supplies, munitions, and Red Cross service.

Then Canada got a new recognition of her industrial capacity through making and supplying munitions.

Moreover a new interest was taken in Canada because of what the farmers had done, especially in the large crop of 1915 from which the Allies got in that crop year forty per cent of all their wheat brought overseas. And now in these dark days, when food is scarce in Europe and millions go to bed three-quarters fed, Canada is regarded as a land of hope with great fertile fields and an intelligent, capable and industrious rural population.

A difficult situation was created for Canada after the armistice, particularly in the case of bacon, frozen beef, and other perishable foods. There were about 25,000,000 pounds of bacon in Canada which had been provided and prepared for the Allied market. When the demand ceased, the packers in Canada represented that they would have to shut down on buying hogs unless they could send forward their products regularly. The American Food Administration did not press a claim for equality of treatment with Canada. That facilitated an agreement and arrangement whereby the Canadian bacon was disposed of satisfactorily. I mention this particularly to illustrate the fact that Mr. Hoover as representative of the United States in food matters, in this, as in every other case, regarded Canada and her interests in the spirit of a friendly associate, with a leaning, if there ever was a leaning from strict equity, towards doing her a good turn whenever he could.

There is an apparent conflict between the different parts of the government policies. On the one hand, governments are holding prices up in order to encourage production of enough to go around—in order that farmers may be induced to produce up to the very maximum of the capacity of their farms and the limit of their strength. On the other hand, by means of maximum retail prices, they are holding prices down in order that these may be within the range of what the masses of the poorer people are able and willing to pay. One of the primary causes of the high cost of living is that there are not enough of the necessary commodities to go around, and because of the fear that there will not be enough to meet the actual needs. A secondary cause is the depreciation in the value or buying power of the unit of money.

The high cost of living is more than an economic or political phrase. It is a grim reality which is being felt acutely by millions of people. Under all the circumstances in my opinion the farmers of Canada, during the next two years, will have the best chance, during my life time, to make reasonable and even large profits. The farmers of Canada will not make any mistake in producing as much as they can of all the staple food products. They are sure to be needed. The world's prices in the main will be determined by conditions and factors beyond our control. But our farmers may depend upon being able to obtain the highest prices which the world's markets will afford.

The total wealth of the nation, that is all wealth in all material forms, between the Atlantic and the Pacific and from the international boundary to the far north, has been estimated at about \$17,000,000,000. That necessary increased expenditure by the government must be obtained either by some form of taxation or a levy on the wealth of the people. It is equal to about \$100 per family annually. Fortunately the bulk of these payments are due to our own people resident in Canada. So although the war has been won, we need to continue our saving and our production in order that our social organization, our democratic institutions, and self-government through and under law and order may be maintained and improved.

E. A. Schofield and R. B. Emerson complimented Dr. Robertson and hoped he would be able to address a public meeting in this city in the near future. Mayor Hayes said he had spoken to Dr. Robertson and that he had promised to be here again in about three weeks. A hearty vote of thanks was tendered him.

JOHN SUCKLING, General Sales Manager

Gentlemen:

The prevailing unsettled conditions of affairs will doubtless continue for some time to come; still, there is no reason why we all should not strive our utmost to overcome, as far as it lies in our power, some of the difficulties which confront us.

Primarily the chief difficulty is in procuring raw materials, and it is on these basic necessities that our future and that of every other business house in Canada depends.

Making rash promises and trusting to fate for their fulfilment is speculative besides being mighty poor business.

I have created a precedent by breaking away from the time-honored custom of sending representatives out on the road, commencing January 1st. Instead, I have devoted the whole of January in securing inventories from my Spinning Plants, Tanneries, Cotton Mills, Warehouses and factories. The exact knowledge gained places me in a position where I know just how I am situated and what I can offer you.

The tremendous demand for "Bob Long" products, the popularity they enjoy and the enviable position they occupy in the public estimation,—must perforce make me exercise great care in the quality of goods I deliver, and in the statements I make to the Retail Merchants of Canada.

All of my representatives are now on the road. Each one carries a complete range of "Bob Long" samples. One of these men will call on you in the very near future and it will be to our mutual interest if you await his arrival—he has many surprises in store for you.

Don't neglect to make use of my statistical bureau—it was inaugurated to enable you to procure authentic, world-wide market information regarding wearing apparel—this information is yours for the asking.

"Bob Long" brands are known everywhere—"from coast to coast." Our salesman will call anywhere—no place too large or small. If one does not call on you, write to me direct and I will have one come and see you at once.

Wishing every merchant continued success for 1920.

Yours very truly,

R. G. Long
President and Gen. Manager.

SAYS WOMAN STOLE BILLS

Ada Diamond Accused of Bond's Alley Theft—Morning Court Session.

In the police court this morning, Ada Diamond was charged with theft of money. A man told of meeting this woman last night about 10:15 in Mill street, where she asked him to go into Bond's alley. He said she snatched from his left pocket several bills which amounted to \$87. She tried to run away, but he held her until the police came. This incident brought the remark from the magistrate: "This woman should have been arrested at 7 o'clock." He continued by citing several instances where he had seen young girls in the streets trying to "nick" fellows up. He said all persons in the streets at night after 7 o'clock should be arrested if they could not give a satisfactory account of themselves.

Another Chaplain Returns

Among the Metagonna's passengers was Rev. H. Hamilton Brown, a chaplain returning from service overseas. Rev. Mr. Brown, an Anglican clergyman, was formerly stationed in the parish of Upham. He went to England in December, 1917, after some correspondence with the Chaplain General, and was subsequently assigned to duty on the Italian front. He was first at G. H. Q., and then at the front. He was at the place when it was bombed. Headquarters were moved on account of a time with a signalling school which occupied a beautiful Italian chateau. He was chiefly at the military hospital there. He returned to England in December, 1918, and was on duty at Rugby Camp with the Second Battalion of the Suffolk Regiment. Rev. Mr. Brown is to return to the ministry in New Brunswick.

TRAVELERS ARE ROBBED

One Loses 107 Pounds and the Other \$300 Here or En Route.

Two large sums of money were reported by two people in the Union Depot this morning within a short time, and up to noon neither sum had been recovered. Captain W. Turney, an English sea captain, arriving on the early train from Halifax, lost 107, besides his certificate as a master mariner, while a Russian from the west reported that he had lost \$300. The circumstances in each case are somewhat different.

Captain Turney has no idea as to where or how he lost his money, which was in two £20 notes, and the rest in smaller currency. The Russian said that when he stepped from No. 40 train, the early Montreal arriving about 7:45 this morning, two or three men got round him in the crowd, and he thinks one of them picked his pocket. He missed his wallet containing \$300 and his ticket for passage in the Sicilian. Capt. Turney was also booked for passage in the Sicilian. He had come from Halifax to the schooner Venosta and expects to return with another vessel very soon.

Both cases were reported to the police at the depot.

NOVA SCOTIA'S WATER POWERS

Chief Engineer of N. S. Commission, in City Today, Tells What is Planned This Year.

K. W. Smith of Halifax, district engineer for the department of the interior, in connection with water powers branch, arrived in the city this morning and will address the Commercial Club on the subject of water powers in New Brunswick.

Mr. Smith is chief engineer of the Nova Scotia Power Commission, and to a Times reporter he told of the work that is being carried out and planned in the sister province.

He said that the commission was about ready to let contracts for the installation of a power plant at St. Margaret's Bay, which will supply Halifax with electric power. The plant will consist primarily of two power houses developing about 8,000 horsepower, but the plan is to increase this eventually to 12,000. Each of the two power houses will contain two units. The estimated cost of the plant now on plan will be in the vicinity of \$800,000, exclusive of land costs.

The commission has also on hand plans for development at Bear River, along the south shore and in other parts of the province. At Bear River, he said, development up to about 7,000 horsepower was possible.

LOOKING TOWARD
UNITED STATES
FOR ASSISTANCE

(Canadian Press Despatch.)
London, Feb. 12.—Replying to a question as to what steps the government proposed to take for the relief of Central Europe, Austen Chamberlain, the Chancellor of the Exchequer, said in the House of Commons this afternoon that the final arrangements could not be made until the congress of the United States had granted the necessary powers. The relief administration and the British government would have preferred to prepare a comprehensive plan, with allied and neutral co-operation. Mr. Chamberlain said, but in view of the urgency of the need and despite the financial situation in the United Kingdom, the British government had informed the United States that in addition to the £12,000,000 for the current financial year, it was prepared to contribute a further sum exceeding half the sum contributed by the United States and not exceeding £10,000,000 in all.

Mr. Chamberlain said the British share would be applicable for the provision of British supplies, foodstuffs, raw materials and other essentials and the payment of the freight charges on the goods carried on British ships. If the American grant was limited to \$50,000,000, Mr. Chamberlain added, the necessary tonnage for transporting the American supplies could be provided.

The Canadian government, also, said the chancellor, had intimated its desire to make a contribution, and the British government was confident that other allied and neutral governments also would co-operate in this emergency measure for dealing with the desperate needs of the central part of Europe.

ART OF MAKING
STAINED GLASS
CHURCH WINDOWS

With close attention the members of the St. John art club watched P. N. Woodley's deft manipulation of brushes, tools and materials when last night he gave a most interesting demonstration of the process of manufacture of stained glass church windows from the drawing of the design to the fitting of the pieces into the window. The process requires the skilled work of six different trades and its complicated details must be carefully and patiently followed, as the work of days may crumble to nothing if the final heating is too fierce or too prolonged.

PROJECT TO OPEN
ST. LAWRENCE FOR
OCEAN STEAMERS

Estimated That Cost Would
be Two Hundred and Fifty
Million Dollars at the Least.

(Canadian Press Despatch.)
New York, Feb. 12.—Development of the St. Lawrence River between Montreal and Lake Ontario, which is being considered by the international joint commission on waterways in session here, probably would cost more than \$250,000,000, Obadiah Gardner, former United States Senator from Maine, and chairman of the American section of the commission, said today.

Making that part of the river navigable for return for the Great Lakes would cost more than \$50,000,000 and development of unused water power—about 2,000,000 horsepower—would cost about \$20,000,000 according to rough estimates reported to Mr. Gardner.

Consideration of the St. Lawrence development includes a programme of commission hearings during April and May at "interested localities" on both sides of the boundary. Mr. Gardner said. A preliminary meeting in about two weeks at some central point like Buffalo probably would be called, he added.

CONGREGATION
WELCOMES ITS
NEW MINISTER

An informal but friendly welcome was extended to Rev. Robert Moorehead Legate, Mrs. Legate and their son at a reception held in their home by the congregation of Knox church in the school room last night. The evening was a particularly happy one and did much to cement a firm friendship between pastor and his family and the congregation. Kenneth MacLachlan was the chairman for the evening and the address of welcome was given by representative elder, Peter Campbell. Short addresses of greeting were given by the clergy present, Rev. G. F. Dowling of Esnoth street church, Rev. Dr. Morrison of the First Presbyterian church, Rev. W. Townsend of St. Columba church, Rev. H. L. Estier of St. Matthew's church and Rev. Dr. Farquharson, port chaplain. Mr. Legate replied and expressed his warm appreciation of the reception tendered him. A programme was given in which songs were rendered by Mrs. James Gilchrist, Mrs. L. LeLachur and C. Girvan, Miss Wilson, the organist acting as accompanist. A short humorous reading by Harry Daley was also given. Refreshments were served by the women of the church. The unavoidable absence of Rev. J. A. MacKeigan of St. David's church was much regretted.

The members of the Trinity church Badminton club spent a very pleasant evening when they gathered for a social evening and tea in the school room last night. The entertainment was arranged by the president, A. Parice, and the secretary, Miss Dorothy Robson, and was presided over by Mrs. Killam and Mrs.

D. H. Loweth. The table was prettily decorated with red candles and scarlet lanterns. After the tea the members entertained each other with story telling and everybody had a thoroughly good time.

LONDON TRADE
COMMISSION
DISCONTINUED

(Canadian Press Despatch.)
Ottawa, Feb. 12.—The Canadian trade commission in London has been discontinued. In its stead there has been constituted the special trade commission a branch of the department of trade and commerce. The branch will be known to the overseas branch and will be under the direction of W. C. Noxon, who was chief assistant under Lloyd Harris. Mr. Noxon will be associated with Harrison Watson, chief trade commissioner in the United Kingdom, who will co-ordinate the work of special trade commission with the other overseas branch. It will not be the duty of the overseas branch to make sales or purchases or negotiate contracts for individual soldier corporations. This must be left to their own resources and efforts.

The returns for the Presbyterians for New Brunswick are as follows: Campbellton, \$5,500; Dalhousie, \$1,287; Loggieville, \$1,478; New Carlisle, \$1,720; Newcastle, \$1,223; Doaktown, \$600.

The returns for the Baptist churches in St. John are as follows: Total, \$29,981; German street, \$13,328; Main street, \$6,302; Charlotte street, \$1,573; Central, \$2,067; Tabernacle, \$1,200; Fairville, \$970; Ludlow street, \$1,155; Victoria street, \$700; Grand Bay, 298; Robbansay, \$164; Hampton, \$1,112; Waterloo, \$250. The Baptist objective for the city is \$300,000, very little in excess of the amount subscribed and it is expected that the city will go over the top today. A special subscription of \$1,000 is forwarded in the total.

The canvass of the Anglican forward movement for the province of Ontario has already passed the \$60,000 mark and the prospects for reaching the goal of \$200,000 are very bright. The following reports from the different parishes, received by Canon R. A. Armstrong last night, were the total amounts subscribed to date: Springfield, \$80; Shediac, \$611; Aberdeen and Brighton, \$345; St. Andrews, \$1,894; Christ church, St. Stephen, \$1,168.20; Sackville, \$401.25; Fredericton parish church, \$2,364; Chatham, \$1,000; St. John's church, St. John, \$1,613.75; Fairville, \$472; Mission church, St. John, \$2,109; Kingston, \$260; Norton, \$800; St. George's, Carleton, \$2,209; Hampton, \$2,370; St. Paul's church, St. John, \$8,891.

Some especially gratifying reports of the Anglican canvass which have come in from other parts of the dominion are that Mooseone diocese in the north west has exceeded its objective of \$25,000 by between forty and fifty per cent. McKenzie River diocese, the most northerly one has reached its total. The whole amount to be raised by the diocese of Quebec has been contributed by three of the parishes in the city of Quebec.

Among the Methodist churches in the St. John district, Fairville is well in the lead in the amount collected in relation to her objective. Fairville has already reported a fifty per cent. increase while the city as a whole has only raised eighty per cent. of its objective. J. H. White said last night that if there is failure the fault will rest with the larger churches. He fully expects that the remaining two days will see special efforts made by the Methodist churches of St. John.

MINERS' STRIKE
IN SIX WEEKS,
SAYS MEMBER

(Canadian Press Despatch.)
London, Feb. 12.—The question of the nationalization of Great Britain's mines must be decided outside of parliament in view of the government's refusal to act, Vernon Harshbarger, Labor member from Glasgow, declared in a statement to the Evening News today.

"In my opinion we shall be in the thick of a national strike in six weeks," the Labor member is quoted as saying. "If it comes to a question of striking for an increase in wages or nationalization I think it will be for nationalization."

DANCING IS BRANDED AS CAUSE OF SIN

High Church Dignitary Gives Reasons for Decision in the Matter. A certain very high dignitary of the Church, who for reasons expressed to a representative of the Herald did not wish to reveal his identity, declares that the dancing mania among young people had reached extraordinary and alarming proportions and that the clergy were encountering some difficulty in combating the danger. "I fear not so much the dancing in itself, but it is the conditions which go with dancing that contain the real danger." Asked with regard to the habit of cocktail drinking, the clergyman said that he had been told that this custom was spreading at an alarming rate and was a phase of our social life which must be viewed with great apprehension. As a matter of fact it is not entirely fair to attribute all these manifestations as directly due to the craze for dancing. When the war ceased a great burden was lifted suddenly off the shoulders of everyone and this joy has manifested in this form, which is after all quite natural, but what we must try and do is lead the young people into paths of rational thought. Dancing in itself is not wrong, but it can very easily be made bad by any unfit for the job.

MUCH OF MERIT IN FAIRVILLE PROGRAMME

The members of the Young People's Association of the Church of the Good Shepherd, Fairville, last evening entertained a crowded gathering in the school room with the presentation of a very pleasing concert. It was in aid of the church repair and war memorial fund, and a substantial amount was realized. Solos by Miss Louise Knight and Miss Sullie Coughle afforded pleasure, and readings by W. Somerville from poems of Service, and Harold Chadwick were very pretty, the presentation of the rose garden scene being especially popular. Much credit must be given to the committee in charge of the entertainment—Miss Mildred Colwell, Miss E. Maynard, Roy Colwell, R. Nelson and J. Dunlop. DETECTIVE IS CONVICTED FOR "THIRD DEGREE"

Thomas Rowan Is Found Guilty of Beating Truckman With Heavy Ropes.

Detective Thomas Rowan of the Oak street precinct, New York, was convicted in special sessions of assault in the third degree, based on the complaint of Solomon Blumberg, a truckman of 61 East 118th street, who accused the officer of beating him in a room at the Oak street station on Nov. 14 last. Detective James Kenny, arrested with Rowan on the same charge was acquitted by Justice Edwards, Herbert and Murphy.

The arrest of the two detectives followed a complaint made by Leonard M. Wallstein, of counsel to the Citizens' Union, to Mayor Hylan and the district attorney on Nov. 19, concerning what he termed "a case of inexcusable police brutality so shocking" that it called for an investigation on the part of the officials. This was followed by an affidavit by Blumberg and affidavits from Drs. H. W. Donaher of Mount Sinai Hospital, where Blumberg was under treatment for his injuries, and Dr. J. M. Flota, 1,722 Madison avenue, who had known Blumberg for seven years, and praised his character. District Attorney Swann made a personal examination of Blumberg, and said he found many marks of the beating on the man's body.

Thomas A. McGrath, deputy assistant district attorney, who caused the detectives to be held by Magistrate Mancuso in the Tombs court in \$500 bail each for trial, prosecuted the case, and called one of his witnesses Edwin B. McGuire, deputy assistant district attorney, who said he had photographs made of Blumberg's injuries when the driver had stripped to the waist at the Criminal Courts building. The photographs, submitted in evidence, showed more than fifteen marks on Blumberg's left side and discolorations under his arms, where he said the detectives had beaten him with rope ends.

Blumberg's employer, Harry P. Knowles, president of the W. J. McDonald Trucking Company, 141 Walker street, testified he was present when the detectives questioned Blumberg and saw no one hit him, though he had seen

THREE RECEIVE SENTENCES IN C. P. R. THEFT CASES

Inspector H. Catlow and Policeman Hopkins of the C. P. R. brought two men and a lad, aged thirteen, from McAdam to Fredericton and lodged them in the York county jail last night.

Elijah Rushton, yard foreman of the C. P. R. at McAdam, charged with receiving stolen goods valued at \$500; Allan W. Rushton, charged with stealing goods from the C. P. R. cars and a lad, Angus Rushton, charged with breaking into a car, appeared before Magistrate R. McKenzie at McAdam and pleaded guilty to the charges. Elijah Rushton was sentenced to two years in the penitentiary; Allan W. Rushton to five years in the penitentiary, and Angus Rushton to four years in the reformatory. For some time Constable Hopkins has been watching the case and finally traced the robbery to the Rushton family, where he found the goods hidden in the loft. A large quantity of the goods have been recovered.

CHILDREN'S AID SOCIETY

The monthly meeting of the Children's Aid Society was held last night in the Children's Home, Garden street, the president, A. M. Belding, in the chair. Considerable routine business transacted. The report of the agent, Rev. George Scott, showed that since the last monthly meeting thirty-two children had been admitted to the home and three had been taken out, leaving in the home thirty-two. Seventy-three letters and post cards had been sent out. Much time was taken up in the police court. One girl had been taken to Truro to the Maritime Home for

GETS A TRYOUT WITH QUEBEC

Fred McLean, of Fredericton, Has a Chance to Make Good in N. H. A.

Sydney, N. S., Feb. 11.—Fred (Larry) McLean, the former Fredericton hockey player, leaves tonight for Quebec, where he will be given a try-out with the Quebec team, requesting that McLean start immediately for the ancient capital.

Some weeks ago McLean was offered a play-out with Quebec, but he turned it down and decided to play with Glace Bay in the inter-city series. Now that the series has blown up, the big fellow has decided to give the N. H. L. brand a try. He is not in as good shape as he might be, but one or two workouts at Quebec should put him on edge.

Failure to practice this year has been the same cause of McLean's reversal of form in one or two games, but once he is right there are few players in the maritime provinces his equal. McLean should be given a great opportunity to make good in Quebec, as Quinn is hard put for players. If the former Sydney player takes things seriously, he has a great chance, but he will have to get down to business once he hits the N. H. L. He has all the necessary qualifications for a high class hockey player.

GOLF.
Big Demand for Balls.
Chicago, Feb. 11.—An unprecedented demand for golf balls indicates there will be a record-breaking play this year, according to manufacturers here, who reported today that all factories are operating at full capacity and a number are working two and three shifts for the first time in their history. Improvement in construction has been made in a number of standard brands. It was said, and it was predicted balls would wear better. Heavy demand last year necessitated a speedy output and it was found that quick-drying paints did not stand up well. This defect has been done away with this year in the drying of the balls.

ATHLETIC.
Players Are Suspended.
The Halifax Recorder says:
At the meeting of the M. P. B. A. A. U. last evening in the Y. M. C. A., the Social Wardens, Y. M. C. A., Dillhouse, D. B. C. A., Truro and Stellarton were represented.

President Covey presided and he made it plain that an athlete must be either a professional or amateur. The Seelick hockey team and the teams of Halifax and Dartmouth Hockey League were suspended for five days, while the registered members of the Dalhousie hockey team who played with any of the teams

in the league are suspended for twenty-four hours. This later was made because Dalhousie might be going abroad a day or two. The members of the Pictou County League and the Eastern League were suspended for playing with and against professional athletes.

It was announced that applications from Amherst and Moncton for registration cards were turned down.

The Great War Vets team which played at Spryhill last night will be asked to explain why the game was played without the sanction of the M. P. B. A. A. U.

President Covey issued a final warning that in future amateurs playing against athletes without cards would be suspended indefinitely.

The players and club can make application to Vice-President James Holmes, who can give out the cards.

CURLING.
Montreal Lady Curlers.
Montreal, Feb. 13.—The Ormstown rink, skippered by Miss O. Bryson, was yesterday, defeating Outremont rink, skippered by Mrs. McGillivray, by 14 to 10.

Other results were—
Ladies Royal Canadian trophy, 1st round.—Mrs. Maier, Three Rivers, defeated Mrs. Rubenstein, St. Andrews, 13 to 10; Mrs. Magee, Montreal, defeated Mrs. Walsh, Huntington, 10 to 9; Mrs. Murdoch, St. Lawrence, defeated Mrs. Henderson, Quebec, 12 to 8; Mrs. MacLean, Lachine, defeated Miss Sewell, Quebec, 14 to 10.

Senior irons, consolation, semi final:—Mrs. Stewart, Howick, defeated Mrs. Rupert, St. Lawrence, 11 to 4; Mrs. Reid, Lachine, defeated Mrs. Grant, Montreal, 13 to 9.

Canadians Win.
Utica, N. Y., Feb. 13.—In what proved to be the closest and keenest struggle ever waged in international curling circles, Canadian curlers yesterday successfully defended the Gordon International Medal, winning from the United States by a score of 18 to 187.

The superb play of the Heather and Lachine rinks in the afternoon brought victory to the Canadians, the former outclassing the newly organized Syracuse club 27 to 10, and the veteran Roberts-Lacoe leading his rink to a 20 to 11 win over Brachum.

By virtue of its score of twenty-seven points, the Heather rink, skippered by N. D. McLeod, secures possession of the medal for the coming year.

TO PROSECUTE IN N. Y.
Hartford, Conn., Feb. 13.—The Hartford Courant says that Hugh M. Alcorn, state's attorney of Hartford county, has been appointed to conduct the government's prosecution of Dr. Edward A. Rumbly and others, charged with conspiring their purchase of the New York Evening Mail for the alleged purpose of aiding Germany in the war.

Costumes for the Fancy Dress Ball

Suggestions for Carnival Time and Other Picturesque Social Functions Implying Highly Decorative Clothes.

She Is Ridiculing Her Big Brother in This Mannish Suit of Black and White Satin.

Out of the East in a Costume of Magenta Satin and Orange Chiffon. She Tops Her Turban of Lemon, Jade and Turquoise with a Jeweled Spray.

By Mme. Frances
The Famous Creator of Fashions

THE wrinkled brow of indecision is most apparent in the "female of the species" when her paper knife discloses an invitation to a costume ball. What will she wear? Indeed it is a serious matter. There is a range of possibilities from the day when Cleopatra charmed Anthony in the costume then "au fait" for Egyptian ladies, to the modern Bakit interpretations of glorious color.

A Grecian maiden clad in the classic draperies of the worshippers of Aphrodite and Pallas Athene or a Roman girl of the luxurious period when Nero and Caesar had a say-so in fashions, always manages to appear at a costume ball, but the classic costume is so often commonplace.

England of Chaucer's day gives many lovely dresses that may be copied from Burne-Jones's Canterbury Pilgrims. The Renaissance is full of color and charm in costume inspirations and decorative costumes may be taken from the dresses of ancient Flanders, old France and the French period of Fragonard when Marie Antoinette gave her parties in the little thatched village she built in the woodland back of La Petite Trianon where the girl queen turned farmerette and "made eyes" as well as cheese in the rustic surroundings she loved. Who wouldn't have preferred those quaint little cottages to the grandeur of the palace where affairs of state and devious etiquette were ever burdensomely present.

She might have worn the lovely dress of pale blue taffeta whose bouffant folds are looped to the long, slender waistline with garlands of mauve roses. The straight front bodice pointed low over the skirt, the pulled in waist, are characteristic of the paintings of Fragonard that so delightfully portray that picturesque period of French history.

The little guimpe and sleeves are cream lace. Garlands of mauve roses hold the puffed sleeves. The stiff little bows down the front of the corsage are made of hyacinth taffeta. The bouffant skirt of pale blue taffeta is looped over salmon pink taffeta which is draped in gathered lines over a petticoat of flesh colored lace garlanded with

She Is Pretending That She Posed for Fragonard in This Frock of Pale Blue and Salmon Pink Taffeta Garlanded by Mauve Roses.

mauve and salmon pink flowers, held by little bows of hyacinth blue taffeta. Beneath this dress is worn a skirt of white taffeta wired with several rows of featherbone that hold it in the hoop-skirt lines.

With this costume the hair should be powdered and dressed high. The little wreath coquettishly running up one side and down on the other is

made of pink and pale blue roses. The feathers are hyacinth blue. Blue satin slippers and pink stockings are effective with this coloring.

A distinction exists between this costume of the Fragonard period and the so-called Colonial costume sometimes achieved by a pointed basque, billowing skirts and a Watteau train that hangs from the shoulders. The Colonial costumes so delightfully worn some years ago by Miss Mannerling in "Janice Meredith" were exceedingly attractive, but not so picturesque as the Fragonard. Several of the Fragonard panels showing costumes similar to this one, owned by the late J. P. Morgan, were sold by his son and acquired by the late H. C. Frick. He willed them to the city of New York, and happily they may again be viewed and studied by the public.

Oriental costumes are generally becoming, but should be designed with some idea beyond Turkish trousers, a bolero jacket, and a scarf wound around the hips and necklaces and a headdress of wooden beads. This type of so-called Oriental costume has been "done to death." The shades of wooden beads are seldom of that rarity of color for which the Orient is celebrated. A Persian rug blends many colors, but they are placed by a master's hand, with "the feeling" of the artist for every tone of each color.

Persian costumes are exceedingly picturesque and nothing is lovelier than an exquisite Oriental inspiration worked out with all the Eastern possibilities of beauty in color and line.

The Persian costume illustrated is rarely lovely. It is charming from the headdress that gracefully sways the long pheasant feathers to the gold tassels suspended by orange and cerise in colorful touches on the long gold cords that dangle in irregular lengths from the minaret tunic.

In describing this costume I will begin with

the underwaist, which is magenta satin. Lengths of magenta satin cross between the ankles and in the open spaces at the outer side of the legs show trousers of orange chiffon. The bodice of this costume is interesting. Made of orange chiffon it is split on the shoulders and a narrow piece of chiffon passes around the neck and the remainder of the material is wound around the arm leaving the flesh bare on the shoulders. A wide girdele of vermilion, gold and brown brocade gives a glorious contrast of color with the warm orange of the chiffon, and the magenta of the satin. Below the girdele the ends of the shoulder scarfs appear in little ruffles.

A striking feature of this costume is the minaret tunic wired to hold it in shape. It is made of orange chiffon bordered with dark brown fur. The tunic beneath the line of fur is faced with jade green satin. Beginning just below the waist appear two narrow folds or bands of cerise satin, then two of geranium satin. The tassels, as I said, are gold and the cords that suspend them are gold intersected with cerise and orange holders.

The headdress is a turban made of lemon yellow, jade green and turquoise blue chiffon, wound about the head to run high in front. From this spring strands of pearls tipped with larger pearls and two pheasant feathers spotted in the characteristic brown and tawny tones wave gracefully from the turban.

A costume of the Directoire period is delightfully picturesque and, moreover, is apt to be becoming to almost any type of beauty. The short-waisted bodice and overskirt of the Directoire costume illustrated are lemon yellow charmeuse satin bordered with black fur and silver embroidery, in a leaf design. The round neck and puffed sleeves are characteristic of Josephine's days. The stand-up collar at the back is silver lace. The overskirt of lemon satin falls over an underdress of absinthe chiffon draped in the Grecian lines that strongly influenced this period of woman's dress. The hat worn with this costume is blue violet and the feathers that fall over the shoulder are mauve, geranium and jade green.

The scarf is thin silver cloth faced with jade green chiffon and is twice banded with gold fringes on each end. The gold staff is tipped with flowers of all colors, gathered in a luxuriant bouquet. You have here lines of stately loveliness that take one back to the women who loved and all the lures of feminine loveliness, flowers, feathers, scarfs and colors of lovely hue! Did Josephine charm Napoleon in such a frock or was it Marie Louise who wore it? La Tosca might have worn this gown when she stabbed Scarpia!

But let's to happier thoughts. A little "jazz" for instance will be appropriate music with which to introduce the eccentric costume, modern in its whimsical charm. Peg top trousers of black satin are ideal for fox trotting. The deep pockets are faced with white satin. The perky little coat is also white satin, rippled below the well indicated waist to show its facing of silver cloth. Minstrel revers are faced with silver and the big button is jet. Black and white striped silk supplies the waistcoat and the sleeve and neck ruffles are black lace. The boutonniere is a huge rose of lemon yellow. This shade is repeated in the silk gloves that are essential to this costume. The slender cane is black and silver and the round little hat set jauntily on one side is black satin ruffled in white—and there you are for Mardi Gras.

The Fashion Forecast

The mid-winter evening gowns will feature the square neck in front and the accented V-back so becoming to most women.
