

ALDERMEN TO VOTE ON A PAVING INVESTIGATION

Special Meeting in Few Days
Council Proceedings Make Up a Spirited Session

Motions to Dismiss Engineer and Have Paving Matter Gone Into—Baxter Resigns Chairmanship—Fuss Over Robert Crawford's Application to Be Constable—\$3,000 More for Campbellton.

The following motions bearing on the main street paving work were dealt with at the meeting of the Common Council yesterday:

1. By Ald. Potts—To dismiss City Engineer Murdoch.
2. By Ald. Jones—For the mayor to appoint a committee of competent men to investigate the paving matter.
- Ald. Willet gave notice of motion that the city will pay the expenses of a suit brought by any citizen against the Hassam Paving Company.
- Ald. Baxter, as chairman of the treasury board, resigned in a huff.
- Mayor Frink said after the meeting that he would call a special meeting in a few days to take up the question of the paving. Ald. Jones' motion not having reached a vote yesterday.

At a meeting of the common council yesterday afternoon the Hassam paving contract was vigorously debated. Ald. Potts introduced a motion that Engineer Murdoch be dismissed from the service of the city. This was seconded by Ald. Holder, but when it was put, it was lost by the mover and second. The latter, Ald. Jones, moved that the mayor appoint a committee of men capable of judging the work who shall make an investigation and report their findings and recommendations to the board. This motion was not discussed at the time of its introduction, on the ground that it was really new business. Owing to the press of other matters it was not taken up before adjournment, but Ald. Jones said he spoke of the matter to the mayor afterwards, and his Worship said he would call a special meeting in a few days and at this time the matter would come up.

Mayor Frink also told a Telegraph reporter that he proposed to call the meeting. A further grant of \$3,000 was made to the Campbellton fire sufferers. This brings the city's contribution to date to \$5,000, and it was stated that the county council intended to contribute \$2,000. There was quite a discussion over the proposed extension of the water and sewerage in Douglas avenue, and it was decided to consider the tenders in general committee.

On motion of Ald. Potts, the bills and by-laws committee was instructed to prepare a bill authorizing the date of the erection of any more electric light or telephone poles in the city, and to have the present ones removed in five years. Some discussion took place over cases where application had been made for relief from water rates. Ald. McGoldrick thought that the law under which the assessment was levied was unjust.

Ald. Baxter thought if the members of the board would have a little patience the law would work all right. It was never intended to act as a means of selling innocent people out of house and home, but the council must take action at once to relieve deserving cases.

\$8,000 More for Campbellton.
He moved the adoption of the report, as a whole. He also moved that the city donate \$3,000 to the relief of the Campbellton fire sufferers in addition to what has already been given. He understood that the county would vote \$2,000. This would make \$7,000 and he had no doubt that the generosity of private citizens would bring the total up to \$10,000.

Ald. McGoldrick in seconding the motion, spoke of his visit to Campbellton. He was quite satisfied that if any of the aldermen looked the situation over they would be willing to contribute at once. Presently if he had only \$20 he would feel

Moncton Board of Trade Favors Provinces Endorsing Them

BETTER ROADS
Resolution to Be Presented Maritime Meeting, in Chatham, Provincial Governments Maintain Highways Between Main Centres—Suggest That St. John Fire Fund Be Given Campbellton.

(Special to The Telegraph.)
Moncton, N. B., Aug. 1.—The board of trade tonight elected delegates to the Maritime Board meeting in Chatham and selected the subjects to be introduced by the Moncton board. The main resolution reads:

Resolved, that in the opinion of this board it is advisable that the provincial governments of the maritime provinces take steps to provide for the establishment of provincial roads between the main centres of the several provinces, with a view to having such roads established and maintained on a uniform and permanent character; further,

Resolved, that in the opinion of this board such roads can best be established and maintained by having them withdrawn from the operation of the ordinary highway acts, and placed under the control of skilled experts by each province.

The second subject to be introduced at the Maritime Board refers to the municipal bonded indebtedness, and sets forth that in view of the serious condition of the Campbellton fire, therefore it is the opinion of this board that all future issues of municipal bonds, town, city or county, under authority of the local legislatures, shall be guaranteed by the provincial governments both as to principal and interest, and that a guarantee fund be provided by each province from the proceeds of the sale of such bonds to meet extraordinary emergencies similar to the Campbellton fire.

At tonight's meeting of the board, eighty-two new members were enrolled. The Campbellton fire situation was discussed and a resolution was passed endorsing the action of the city council in promptly forwarding provisions to the amount of \$4,500.

The question of starting an agitation for the division of St. John fire fund to Campbellton was discussed, and it was suggested the matter be taken up by the Maritime Board of Trade.

Two young lads, Leaman and Bowers, were committed for trial today by Magistrate Kay, on a charge of stealing copper pipes from the I. C. R.

BIG WINDFALL TO BRITISH TREASURY
Baron's Death Enriches It \$2,400,000 as Result of Lloyd-George Budget.

London, July 31.—The late Baron Schroeder, one of the great financiers of the world, has left an estate valued at \$10,400,000. Under the budget the baron's executors will pay into the treasury \$2,400,000 as death and legacy duties.

As showing how the chancellor of the exchequer has increased the inheritance tax in his new budget it may be stated that Baron Schroeder had died three years ago his estate would have paid only \$1,575,000 as death and legacy duties instead of \$2,400,000, which it has to pay under Lloyd-George's budget. The baron left \$10,000 to various charities. He was the head of the banking firm of J. H. Schroeder & Co.

His title was German, but King Edward permitted him to use it in England. He bequeathed to King George a choice and patent, or water dish, found near Dooleys in Wales, one of the rarest of Welsh archaeological treasures. It is expected that King George will present the baron's legacy to the British Museum.

MILLION DOLLAR BRIDGE TO CONNECT EDMONTON AND STRATHCONA
Winnipeg, Aug. 1.—(Special)—The contract for the substructure of the big \$1,000,000 high level bridge over the Saskatchewan, connecting Edmonton and Strathcona, was let by contract this afternoon to John Gunn & Sons, of Winnipeg.

The C. P. R. has charge of the building of the bridge, which will carry general traffic trains and street cars, a considerable part of the cost being defrayed by grants from both cities, from the dominion government and Alberta government.

DR. CRIPPEN WILL NOT FIGHT HIS RETURN TO ENGLAND

Miss Leneve, the Accused Murderer's Companion, Still in State of Collapse

Much Sympathy Felt for Girl Who Seems Enamored of Crippen—Crowds of Curious Men and Women Awaited Till Early Morning for Suspects' Arrival in Quebec—Accused Arraigned in Court and Remanded—Likely to Be Deported.

(Special to The Telegraph.)
Quebec, Aug. 1.—Dr. Crippen appeared before Magistrate Angers in private chambers this morning for formal arraignment and was remanded to jail for fifteen days. The questions put to him were the usual ones in such cases and the prisoner declared that he would not fight extradition. The probability is that he will be deported under the undesirable clause of the immigration act, together with Miss Leneve, at the end of the period fixed by Judge Angers, by which time another detective will have arrived from Scotland Yard to assist Inspector Dew in taking the couple back to England to stand their trial.

Girl in State of Collapse.
Ethel Sara Leneve did not appear before Judge Angers. Since her arrest yesterday morning in the stateroom of the Montrose Crippen's companion has been in a state of collapse. She has eaten nothing and has spent the whole of the time weeping hysterically or sinking into a fitful slumber of exhaustion, only to wake and burst into another paroxysm of tears. The condition of the girl is somewhat serious. It was stated at the provincial buildings, where she is incarcerated, that Miss Leneve was on the verge of a nervous breakdown. Three cables have been received from her father and mother and the authorities have consented to permit her to read them. They contain messages of comfort and sympathy.

The feeling is growing in Quebec that the young woman was completely under the spell of Crippen and while it is yet too soon to say whether she was aware or not of the crime she committed with the man, there is a strong undercurrent of sympathy for the girl, who, in spite of her twenty-seven years, is really a child in manner.

Thousands Await Steamer's Arrival.
The scene when the Montrose slowly warped into dock at the Quebec Breakwater at 1:30 this morning was a remarkable one. In spite of the hour thousands of people were on the wharf and a large number of fashionably dressed women crowded to see the man, and particularly the woman, who were in the toils of the law after one of the most exciting hunts in the annals of crime. There was some delay in getting the Montrose to her berth on account of the tide, but when the gangway was finally made fast, there was a rush for it. Two hundred and thirty and a large number of the city force were on hand and it was with difficulty that a passage way could be made for the little party to the cabs, which were in waiting, to which the passengers were taken.

He was hurried down the gangway, and into the waiting cab. He had no time to look either to the right or left and the surging crowds caught but a fleeting glimpse of the man who, during the past three weeks, had had his name on every one's lips.

There was a momentary pause and the crowd waited expectantly. Then at the head of the gangway, which on account of the height of the deck from the water sloped considerably, appeared a little group. Miss Leneve, supported on one side by Detective Denis, and on the other by Captain Kendall, stepped forward almost fainting. She cast a frightened look at the curious crowd below and halted for a moment. Captain Kendall spoke a few reassuring words to her and she braced herself to run the ordeal of the curiosity seekers. She was dressed in a makeshift blouse and skirt from the wardrobe of the stewardess, Miss Peer.

Crippen Willing to Go Back.
Crippen left the provincial buildings in a cab with Inspector Dew and Detectives McCarthy and Denis. He appeared to be quite cool and collected, but he grew pale when he saw the crowds which thronged the outside of the court house. He was literally rushed through the jam of people into the magistrate's room, but even then the door would not be shut, so great was the pressure of those outside. He regained his calm, however, when he faced Judge Angers and answered the questions put clearly and distinctly. A night's hearing did not improve his appearance, and he was wearing the same brown suit in which he boarded the Montrose at Antwerp.

The proceedings were brief. Judge Angers asked the prisoner if he was Dr. Crippen, and the reply was in the affirmative. "Do you know what you are here for?" "Yes."

"Do you acknowledge that the lady who came with you is Miss Leneve?" "It is proposed to extradite you to England. Do you wish to fight the extradition proceedings?"

Dr. Crippen admitted that he was an American, born in Michigan. He was a Roman Catholic.

"Are you ready to go back to England with Inspector Dew?" "Yes, or with any other qualified officer."

This ended the formal proceedings, and Dr. Crippen was remanded to jail for fifteen days.

Detective Denis gave the most interesting account of how Miss Leneve was trapped in her cabin.

"As soon as Crippen had been taken in by Dew and myself went to cabin 3, where we were informed that Miss Leneve was reading a magazine. Dew gave instructions for a stewardess to stand ready with a glass of brandy to be administered in the event the girl faints. She entered the cabin, followed by myself.

C. P. R. AWARDS BIG CONTRACTS

New Annex to Montreal Station Calls for Outlay of Over \$1,000,000.

(Special to The Telegraph.)
Montreal, Aug. 1.—Contracts approximating \$1,250,000, were today let by the Canadian Pacific for the completion of the new annex to their Windsor street station here. Already large sums have been expended upon the foundation work and the construction of elevated tracks.

The general contract for the building went to C. E. Dakin at a figure a trifle below a million. The structural steel contract was awarded to the Dominion Bridge Company at approximately \$250,000. The foundations are now ready and work will start tomorrow on the steel work, which will be finished by April 30 next. Work on the building will be finished by November, next year.

PROMISES SCANDAL IN NEW YORK SUIT

Man Accused of Swindling Prominent Woman of \$35,000 Threatens Sensation if Case is Pushed.

New York, Aug. 1.—An explosion is promised in the trial of Harvey Wiley Corbett, a well known architect, and his associate John Qualey, a promoter, who are both accused by Mrs. W. L. Bull, widow of an eminent New York surgeon, and former wife of James G. Blaine, Jr., of swindling her out of \$35,000 which she says she gave them for investigating an imaginary company.

While arguments were being heard today on a writ of habeas corpus, Qualey jumped up and called to Charles L. Craig, counsel for Mrs. Bull, "Craig, why don't you tell this whole thing? It'll all come out soon, and it's going to make a big scandal."

"Tell anything you want to," retorted Mr. Craig.

John F. McIntyre, counsel for the defendants, asserted today that both his clients were innocent and honorable men, and that there was \$100,000 worth of business on Corbett's desk now awaiting for his attention. Mrs. Bull is equally sure of her case and was insistent today on pressing it forward.

There was no decision today on the application for a writ of habeas corpus. But counsel for Mrs. Bull said if one was granted a warrant sworn out today in the New York courts would be immediately served.

MAINE BURGLAR MADE HIMSELF AT HOME

Ransacked House and Arrayed Himself in Owner's Clothing After Having a Shave and Bath, But He Was Caught.

Waterville, Me., Aug. 1.—When a local upholsterer went to the home of George K. Boutele today to return some work he had been doing while the family was away at the seashore, he found that some stranger had been ransacking the house. Procuring assistance a search of the house was made and a young man found hidden under one of the beds.

When he was dragged into the light, he was found to be clothed throughout in clothing belonging to Mr. Boutele. He had taken a bath and a shave in the bathroom and made himself perfectly at home, setting such clothing as he desired to wear, and packing two grips with silverware and property that could be sold readily.

When arraigned in the municipal court this afternoon the respondent gave the name of Roy Garrison, but refused to give any further information about himself, taking the matter very coolly and seeing only the humorous side. He was bound over to await the action of the grand jury and ordered committed in default of bail.

Regina Grain Growers Association is Confident of Redress

A GREAT WELCOME
Saskatchewan's Capital in Gala Attire for Sir Wilfrid—Premier Repeats His Policy on Reciprocity Treaty and Tariff Revision.

(Special to The Telegraph.)
Regina, Sask., Aug. 1.—Saskatchewan's capital received Sir Wilfrid Laurier with open arms. Everywhere he was enthusiastically heralded and the city was prodigal in rich decoration.

He entered the fifth week of his strenuous tour in splendid health and spirits. "I am feeling younger and stronger than when I started," he cheerfully assured his companions, who were anxious over his indefatigable determination to meet every call made upon him. Speaking at the city hall, he expressed the hope that he would be able to visit the west again before long.

President F. M. Gates, in presenting the grain growers' resolution, said the association was much gratified by the premier's attitude since seeing the west. He suggested that the western members of parliament had not been "doing their duty," else Sir Wilfrid would have been more fully informed as to conditions. "We appreciate what you have said," he observed, addressing the premier. "Our hope is in you. We recognize difficulties in obtaining immediate free trade, but we earnestly advocate an immediate reduction in the tariff and abolition of the duty on agricultural machinery."

Mr. Gates also pressed for government ownership of railways. In dealing with the fiscal policy, Sir Wilfrid pointed out that direct taxation hit the settler and repeated assurances of another tariff commission at which the grain growers would be given an opportunity to present their case.

Referring to the petition for the government ownership of railways, he said: "The policy of the government is private operation with government control."

As to the United States offer of a reciprocal treaty, he added: "If our neighbors meet us, I think then a tariff can be arranged, one similar to that suggested by this deputation."

Swift Oath to Maine Plonicker.
Kinoe, Me., Aug. 1.—Stricken with heart failure while paddling a canoe on Moosehead Lake today, John J. Woodside, of Hermon, pitched forward into the water and drowned. The affair was witnessed by a number of picnickers at Farm Island, including Woodside's family, but they were helpless. When they reached the spot where the man had fallen overboard, he was dead. Woodside was forty-five years of age and a carpenter by occupation.

The plans for the rebuilding of the I. C. R. works have also been received in town. (Continued on page 8, third column.)

More Contributions Coming In

More Than \$2,000 from Various Sections Yesterday

Sufferers Grow More Cheerful Now That They See Hope of Shelter from the Wintry Blasts—Work on Post Office Building Started—Ottawa Delegation to Be Heard Tomorrow.

(Staff Correspondence.)
Campbellton, N. B., Aug. 1.—The marked increase in the financial assistance received here during the past two days has had a very telling effect. Hope is beginning to reign now where before all was despair. Realizing that the outside world is gradually becoming conscious of their deplorable position, the people are displaying that indomitable courage which characterized them in the early days of the fire. Their miseries and sufferings are being tolerated with a light heart now that they are beginning to get a glimpse into the future.

Besides over \$2,000 in cash, donations of clothing, food and earthenware were received here yesterday, all of which are greatly needed. The total list of donations received yesterday are as follows:

More Contributions.
Widow's Mite, Westmont, \$2; A. R. Fraser, Quebec, \$50; ladies of Edmundston (N. B.), \$67; F. H. Marsh, Toronto, \$5; N. W. Rowell, K. C., Toronto, \$25; "A. C. W.," Point St. Charles, \$5; Alex. Penden, Montreal, \$5; Miss Adeline McDermott, Toronto, \$2; Campbell, Chatterton, Ltd., Toronto, \$50; through the Montreal Star, Semi-Ready Company, Limited, \$100; and "A Boston Friend," through R. C. Holden, Montreal, \$50; citizens of Charlottetown, \$500; M. R. Ontario, \$5; J. H. Mitchell, Pembroke (Ont.), \$5; John L. Salmon, Boston, \$500; John W. McMann, Memramcook, \$50; Mary E. Chapman, Wallace (N. S.), \$4; Orange Lodge, No. 126, Dorchester, \$10; John Stewart, Halifax, \$10; town of New Glasgow, \$50; Charles R. Scoles, general manager of the Atlantic & Lake Superior railway, New Carlisle, \$10.

In addition to this there were donations of clothing from D. Magee & Sons, St. John; citizens of Amherst, Mrs. Plunkett, Edmundston; All Saints' branch of women's auxiliary to mission society, Campbellton.

The Thomas Davidson Mfg. Co. of Montreal, also sent in a very acceptable donation consisting of six cook stoves, stove pipes, 110 pieces of enamel ware, kitchen utensils as well as tinware and sheet iron goods. These are some of the things the people have been looking for since the day of the fire.

In addition to the sick list, which is increasing daily, the relief committee is being kept busy tending to the wants of many elderly people who are in a helpless condition. A case of an old woman over ninety years of age, who has been lying in a tent alone was brought to their attention yesterday. Efforts will be made to have her sent to an asylum but in the meantime she and many others will be sought after, including his large medical chest, which was brought to their attention yesterday. Efforts will be made to have her sent to an asylum but in the meantime she and many others will be sought after, including his large medical chest, which was brought to their attention yesterday.

Want Children to Adopt.
The correspondence received here by the board and G. G. McKenzie, chairman of the relief committee, has a rather varied nature. Letters are being received from people who are anxious to adopt children, others from those who are looking for servant girls and still some who are anxious to secure laborers. So far none of these requests have been gratified.

Mayor Murray, who since the first days of the fire has given his individual time and attention to the relief work, resigned from that yesterday and from this on will confine himself chiefly to council work. His worship found it necessary to do this owing to the momentous questions which are every day arising in connection with the rebuilding of the town.

If there is one man in Campbellton deserving of mention for faithfulness to duty, it is Dr. Murray, who has sacrificed every day, including his large medical practice, in the interests of his town's people.

From this out, G. G. McKenzie, chairman of the relief committee, will have full charge of the relief work and all donations will be received and acknowledged by him.

Excellent progress is being made in the building operations and nearly 300 temporary shacks are now in the course of construction. In addition to the banks of New Brunswick and Nova Scotia, one or two other permanent buildings are also being erected. The feeling is strong here, however, against doing anything of a definite nature until the governments have given their final answer.

Work on the building of the new post office was commenced this morning. This is in accordance with the promise made by Hon. Dr. Pugsley who, while on his visit here stated that prompt action would be taken.

The plans for the rebuilding of the I. C. R. works have also been received in town. (Continued on page 8, third column.)

The official who issued the order does not know how the order could be cashed. Dr. Crippen left London, unless endorsed by him before his departure. THE NEED FOR AN INVESTIGATION

If any of the more responsible aldermen will take the trouble to select twenty-five or thirty business men at random...

The city is about to enter upon a considerable expenditure for pavements and street improvement generally.

Undoubtedly there is a widespread conviction among the taxpayers that, before this expenditure is carried further...

Some of the aldermen at City Hall are asking today what there is to investigate.

It is obvious that if a pavement is badly laid, and should go to pieces within a few years...

St. John has not had any Cannon investigation, and here matters go on in the good old way.

A STEP FORWARD The Board of Trade on Friday passed without discussion a resolution by which a committee of three will be appointed...

The sum voted for expenses is small, but the principle established is important.

This investigation and reorganization of the civic departments is very badly needed at the present time...

It is a curious thing that when this paving dispute arose, and when the public was seen to be intensely interested in the outcome of it...

But, strange to say, the aldermen rank-

ed themselves solidly against any investigation of any sort. It must be clear that if they were willing to do more for the contractors than for the taxpayers of this city...

MISQUOTING NEWSPAPERS The following appears editorially in the Montreal Star:

Four esteemed contemporaries, the Ottawa Free Press, the St. John Telegraph, the Halifax Chronicle, and the London Advertiser, have misquoted the Montreal Star, unintentionally, no doubt.

It is the truth of the matter that they are afraid of. This frantic haste to get the elections over before Sir Wilfrid Laurier can speak to the people of Manitoba...

This statement was never made by the Montreal Star. And what is more, the views expressed are so partisan and ill-considered...

The Telegraph, if it did attribute the quoted statement to the Montreal Star, certainly did so inadvertently...

So much for that. It is highly probable that when one newspaper misquotes another one the error is due in almost every instance to the fact that an exchange editor in some other city...

Let it be granted that the Montreal Star never did express any views condemning Premier Roblin and the Manitoba government.

The British War Secretary, Mr. Haldane, inspected the other day a regiment of the "Veteran Reserve," a force recruited under the new policy of the War Office.

There has been no recent case, in fact there has been no case for many years, in which the Common Council has so thoroughly mistaken, or so openly defied, public sentiment...

THE VETERANS The British War Secretary, Mr. Haldane, inspected the other day a regiment of the "Veteran Reserve," a force recruited under the new policy of the War Office.

The movement seems to have made most progress in the great county of Surrey, and it was the detachment from this district that Mr. Haldane inspected at the Horse Guards.

It is obvious that if a pavement is badly laid, and should go to pieces within a few years, the city would have no remedy but would have to pocket its loss and do the work over again.

St. John has not had any Cannon investigation, and here matters go on in the good old way.

But, strange to say, the aldermen rank-

equitable conditions are established it will probably be necessary for telephone users to organize for self-protection. Public utilities must be conducted according to the modern rules...

INVESTIGATE The Telegraph publishes this morning a letter from Mr. James Carleton, the inspector on the Main Street paving work...

Mr. Carleton says he does not think it is all right. It would be idle to deny that there are a great many taxpayers in St. John who share Mr. Carleton's opinion.

Perhaps the common view of this question is best expressed in the old saying: "Where there is smoke there is fire."

There has been no recent case, in fact there has been no case for many years, in which the Common Council has so thoroughly mistaken, or so openly defied, public sentiment...

But, strange to say, the aldermen rank-

many or some other power, and that once a force of 200,000 men was landed in England it would easily overrun the whole island.

It is very doubtful whether there is in the Old Country anyone who has given thought to this question who really believes these daily assertions are true.

THE GAME FISH OF NEW BRUNSWICK The Sussex Record does the people of New Brunswick good service by making an appeal to all sportsmen...

The Record says: "Many more people are beginning to note the fact that there is something rotten about the enforcement of the law."

The Record forcibly directs the attention of men on both sides of politics to this important question and suggests to them that it is good politics to insist upon having the Kennebecasis properly protected in future.

Uncle Walt The Poet Philosopher

I walked with a highbrow of learning, one day in the Temple of Fame, and after much winding and turning, I said: "I am tired of this game, I'm tired of this jim-jawed game. I've OF FAME looked, but I failed of discerning a picture of Poe in a frame? The highbrow, he coughed and he stuttered, and wiped off some sweat from his can; "the fellow you mention," he muttered, "was doubtless a poetry fan, he sure was no slouch of a fan; he's barred from this temple, and shuttered, for he was a dissolute man, and given to rushing the can; we have to be careful," he spluttered, "and place on the rounders a ban; we know where our biscuits are buttered, and stick to a high moral plan." Then he hung on the wall an engraving of Julius Terwilliger Sneed, who's written some fine bits of raving, that only the pipe-dreamers read. "His verse," said the highbrow, "on shoving was moral and helpful, indeed! And all through his life his behaving was chaste as his uplifting sermons."

JOHN A. SHERWOOD GOES DOWN IN RIVER, FALLS FROM SPEEDING MOTOR BOAT

Was Relative of Young Man Who Lost Life at Picnic Last Week

Stood Up in Boat to Get Knife from Companion; Foot Caught in Machinery and He Was Thrown Overboard—Rose Once But Effort to Reach Him Failed—Father and Mother in Another Boat a Mile Away at Time.

Monday, Aug. 1. One of the saddest drowning accidents that has happened on the St. John river in a number of years occurred yesterday afternoon at Swift Point, about two miles from Indian town, when John Albert Sherwood, eldest son of John H. Sherwood, of the Spar Cove road, fell from a motor boat and was drowned. The accident is particularly sad one, as the rest of the Sherwood family were on the river in another motor boat, not a mile distant from where the young fellow lost his life. Swift Point is on the western side of the river, in a small cove a short distance below Rooney's.

The young man—was about eighteen years of age—left Indian town a little before 3 o'clock yesterday afternoon in the motor boat Jersey Walker, in company with Frank Foster, Jack Foster and Alfred Dixon, all of Indian town. The boat is a flat bottomed one, said to be the only one of this kind around Indian town that is equipped with a motor. Mr. Sherwood and Frank Foster owned it.

The party cruised up the river about five miles and when off Swift Point on the return journey, it appears that when Sherwood stood up in the boat to get a knife from one of his chums, and in some way his foot caught in the muffler and he was thrown overboard. The engine was going full speed at the time, but it was quickly reversed and backed up to where he had fallen over. He arose to the surface but once and Jack Foster reached over in an endeavor to catch hold of him, but was unsuccessful. Sherwood could not swim, and he sank to the bottom.

In the meantime, Mr. Sherwood, the boy's father, had left Indian town in his motor boat, accompanied by his family, and they were proceeding up river when

DR. CRIPPEN WILL NOT FIGHT HIS RETURN TO ENGLAND

(Continued from page 1.)

way of Quebec, stopping to see Dr. Crippen and Miss Leneve en route. Mrs. Mills was happy today over the news of the arrest of the couple and made no effort to hide the fact.

Story of the Crime.

Here, in brief, is the story of the crime for which Dr. Crippen was arrested—Cora Belle Mackenzie, a Brooklyn girl, at the beginning of her stage career, in 1903, met Dr. Hawley Crippen in the western states, fell in love with him, and they were married. Shortly afterward they went to London, England, where she continued to act.

In London they took a house at 30 Hill drop Crescent, and were apparently very happy.

Ten years ago Dr. Crippen employed Ethel Gera Le Neve as a stenographer. She was seventeen, pretty and had just left a convent at Boulogne-sur-Mer.

Within a short time after the young woman entered the physician's household she began to exercise a strange influence over the doctor, who seemed to be infatuated with her. Mrs. Crippen rebuked him, and finally demanded the discharge of the stenographer, but to no avail.

On March 22 last the Crippens gave an elaborate dinner party. The guests were members of the Music Hall Artists' Guild, of which Mrs. Crippen was treasurer. That was the last time any of her friends saw her alive. She is believed to have been killed after the party.

Dr. Crippen told friends his wife had gone to America. He said she had gone for her health to California, where her son lived.

On February 3 a letter signed "Belle Ellmore," was sent to the Music Hall Artists' Guild, saying she had had to leave hurriedly to visit a sick relative.

On March 26, a notice of Mrs. Crippen's death in California appeared in a theatrical paper. A son of Dr. Crippen, by his former wife, denied the alleged death.

On April 7 the "Stage," an English paper, contained a paragraph referring to Mrs. Crippen's death.

Meantime, Miss Frank Gennett, of Roselle, N. J., a friend of Mrs. Crippen, was making enquiries for her. She wrote letters which passed Scotland Yard detectives on the case. They called on Dr. Crippen on July 2, and he took them all through the house.

On July 9 Dr. Crippen and the Le Neve girl disappeared.

Police made a thorough search of the Hilldrop Crescent house, and buried in the basement they found part of the body of Mrs. Crippen.

They then sent out a general alarm for the arrest of the couple.

British detectives requested that all steamers landing in Canada and the United States be searched. In France, believing that Crippen was masquerading as a woman, the police watched for him in this guise, at all ports.

A reward of \$1,250 for information leading to his arrest has been offered by the London authorities.

The British government has asked Canada and the United States for the arrest and detention of Dr. Crippen.

Numerous rumors have arisen as to Dr. Crippen and Miss Le Neve having committed suicide. A young woman in Bourges who committed suicide was supposed to be Miss Le Neve. Another rumor is that she has met with foul play, as otherwise she would have communicated with the authorities, there being no charge against her.

The first tangible clue to the whereabouts of the accused was given by Captain Kendall of the C. P. R. steamship Montrose. The Montrose sailed from Havre and London on July 15. The suspects shipped from Antwerp and at once aroused the suspicions of Captain Kendall, who communicated with Scotland Yard. Scotland Yard sent a detailed description of the pair to Captain Kendall, who became more convinced than ever that his suspicions were well-founded. The suspects, however, will not be absolutely verified until the suspects are confronted with In-

HOPEWELL HILL NEWS

Foot of Little Boy, Almost Cut Off by Mowing Machine, Likely to Be Saved—Albert County Council Has Made No Move to Aid Campbellton Yet.

Hopewell Hill, July 31—The young son of Mrs. Joseph Robinson, of Harvey, who had one foot almost cut off by a mowing machine, is progressing satisfactorily, and it is expected the foot will be saved. The bone of the ankle was cut completely through, only the back cords remaining.

Mrs. Amy Reid, of DeKalle (Ill.), is visiting her sisters, Miss Julia Peck and Mrs. A. S. Mitten.

Mr. and Mrs. Younger, of St. John, have been the guests the past week of Rev. W. J. and Mrs. Kirby at the Methodist parsonage at Albert.

Rev. E. B. McLatchy, of Moncton, occupied the pulpit of the Baptist church here today, delivering a very forcible and practical sermon. Basket socials and all such latter day means of raising funds for the church received vigorous condemnation by the preacher, who claimed also that persons who were drawn into the church members made poor converts.

At the Methodist services today on the Albert circuit, the pastor, Rev. Mr. Kirby, read a circular letter from the president of the conference, calling for aid for the Methodist congregation at Campbellton, whose church and parsonage had been destroyed in the recent fire. It was asked that the New Brunswick and P. E. Island Conference make up the sum of \$5,000. Of this amount, according to letters received from Rev. Mr. Hicks, financial secretary of the conference, also read by Pastor Kirby, the sum of \$1,100 is looked for from the Sackville district, \$36 being required from the Albert church. Mr. Kirby announced that a special collection for the purpose will be taken in the churches here on next Sunday, Aug. 7.

No move has been made, so far as learning in the direction of a contribution to the people of the county. A prominent legal gentleman in speaking of the matter to the Telegraph correspondent, expressed the opinion that the council should raise a sum in keeping with the financial ability of the county and the needs of the sufferers.

An entertainment including a one-act play, and other features, will be held here on Thursday evening, Aug. 4, the proceeds to be in aid of the public fund.

Otto Rose is visiting his old home at the Cape.

Her friends in this city will regret to hear that Mrs. William Helms, of Kars, in the county, is very seriously ill, and the attending doctor holds out little hope for her recovery. Her sons have arrived home from the United States on account of her illness.

When blacking a stove that has been discolored by overheating try rubbing well with vinegar before blacking. The polish will remain brighter much longer than otherwise.

Vail, a member of the New Brunswick legislature for twenty-five years.

Charles O'Regan, a retired lumber dealer, of Brooklyn, and a former resident of this city, died at his home on Monday last, after several months' illness. Mr. O'Regan was born in Nova Scotia, but resided here for many years. He was a member of the St. John.

The death of Herbert Leonard Love, second son of David and Eliza Love, of this city, occurred in Nanwiegauk Friday. He was in the twenty-seventh year of his age and had been in poor health for three or four years. He was of a genial disposition and made many friends, who will bear with regret of his death.

Moncton, N. B., July 31—Citizens were shocked to hear of the sudden death of Mrs. Mary Elizabeth Eaton, which occurred some time Friday night. Mrs. Eaton lived in the lower flat of her house at the corner of Westley and Queen streets, and her death was not discovered until about 1 o'clock Saturday morning. She was as usual for her age, being on the veranda and talking with friends, who little thought she would expire during the night.

Saturday morning Mrs. Patience LeBlanc, who lives upstairs, noticed Mrs. Eaton's blinds drawn and no stir in her apartments and became alarmed. She notified friends and the door was broken open. Mrs. Eaton was found dead in bed in a partly dressed condition with a large burn on her face, which had apparently expired while undressing.

Deceased was 78 years old and a native of St. John. She was the widow of James M. Eaton, who was killed in the Fenian brothers—W. A. Vincent, Oregon; James Vincent, Boston; David Vincent, New York; Mrs. H. H. Ayer, Moncton, is an adopted daughter of the deceased.

Mrs. B. A. Denniston.
Mrs. Annie J. Denniston, wife of B. A. Denniston, master painter, died suddenly at her home, Crown street, on Saturday morning. Although Mrs. Denniston had not been enjoying the best of health lately, the end came with terrible suddenness, her daughter finding her unconscious on the bathroom floor, and death coming before medical attendance could be secured.

Mrs. Denniston was the daughter of the late William Kilpatrick, the last secretary of the old Portland school board, and was in her fifty-first year. She is survived by her husband, one daughter, Mrs. Ernest M. Eaton, of this city; two sisters—Mrs. Thompson, of Boston, and Mrs. Mary E. Kilpatrick, of this city; and two brothers—James E. Kilpatrick, of Chicago, and Samuel G. Kilpatrick, of this city.

The ceremony was performed by Rev. B. N. Nichol. The bride was handsomely attired in white chiffon silk and carried a bouquet of roses. She was attended by her niece, Miss A. Williamson, of Boston. The groom was supported by Grenville Ring.

After the ceremony, a very pleasant evening was spent at the home of the bride's parents. Mr. and Mrs. Reid will reside at 17 Simonds street.

ALDERMEN TO VOTE ON A PAVING INVESTIGATION

(Continued from page 1.)

like contributing \$10 of it. He thought the St. John citizens would appreciate the action of the board as they would remember their own experience in 1877.

Ald. Potts hoped that Campbellton would not tie up the money meant for relief as had been done in this city. He felt that the council ought to see the government to amend the act so that they could use the \$12,000 of the fire fund here for Campbellton.

Ald. Jones approved of this idea, but Ald. Baxter said that the money was a trust fund and could not be alienated.

Ald. Lively, while not opposed to the additional grant of \$3,000, said the members were a trust board authorized to assess for certain purposes. By their action they were compelling the citizens to contribute.

Ald. Baxter thought that he had not made his resolution broad enough. He would like to add that the account be carried in suspense till the fall of the year.

Mayor Frink said that about \$2,400 had been left at his office.

Ald. Baxter's motion carried and the report as amended was adopted.

Ald. Potts then rose to a question of privilege. He read an editorial from the Globe in which he said, serious reflections were made on the permanent paving and the aldermen. He thought this called for an expression of opinion. The editorial, after stating that the public had perfect confidence in the mayor and would back him up in any move he might think necessary in connection with the agitation about the permanent paving, stated that he had varying degrees of confidence in the aldermen. This he looked upon as serious, and more especially was this the case when the statement was published in the Globe, which they all looked upon as a reliable journal.

He thought that the council ought to call on the Globe either to retract or name the graters.

Ald. Hayes took the same ground, saying that the Globe had used unfair tactics. If they knew of any graters or gratings they should give names and not throw a slur upon the whole board.

The report of the board of public works was next taken up, in discussing the section recommending the acceptance of the New Street, Cedar Grove Crescent, Ald. Willet moved that it be amended to provide that the owners or lessees of the property build all retaining walls necessary.

Ald. Potts opposed the acceptance of the street and moved that the question be referred back to the board of works. Ald. Baxter supported the amendment.

Ald. Potts said that the city was not helping the working man by accepting these new streets. They were simply aiding the land owners to charge \$1 for a front foot ground rent.

CAMPBELLTON'S NEEDS APPEAL TO CHARITABLE

(Continued from page 1.)

They show that extensive improvements are to be made.

Interest on Bonds Overdue.

Interest to the extent of \$2,000, due on bonds held in the Bank of Nova Scotia, St. John, fell due today. It had to be overruled, owing to the lack of necessary funds.

Sergeant Harold Wheeler, who was accidentally shot here last Sunday, is still in a serious condition. Word was given out from the temporary hospital last evening that he is suffering much pain. No attempt has been made to locate the bullet, which is lodged in his abdomen.

The William Thomson steamer Seniac, which has been offering excellent hotel accommodation since the first day of the fire, is due to sail from the city today evening morning. After that Wednesday and all other visitors to the town will be forced to taste of the tented life, as there is absolutely no other accommodation.

W. nearly 2,000 to be housed and fed from now on. The next step is to locate the condition of affairs in destitute Campbellton. In order to do this, apart from whatever government assistance will be given to relieve the civic situation, \$100,000 is required. As there is only about \$17,000 in the relief fund at present, it can readily be seen that there is yet great need for assistance.

Hearing at Ottawa Tomorrow

Ottawa, Ont., August 1.—(Special)—The members of the Campbellton deputation approached by Messrs. Reid and Carvell, M. P.'s, are here to interview the government respecting federal aid for the fire sufferers. Owing to the absence of most of the ministers from the city today the deputation will not formally present their request for aid until Wednesday, when Hon. Dr. Pugsley has arranged to have all available members of the cabinet present.

Court-martialled for Lying

Washington, Aug. 1.—Lieut. Commander Henry T. Baker, duty at the Bremerton Navy Yard, Washington, who today reduced fifty numbers and a public reprimand sent to him by the navy department as the outcome of a conviction by court-martial on a charge of uttering a falsehood.

Rev. Dr. George Young Dead

Toronto, Aug. 1.—(Special)—Rev. Dr. George Young, an early pioneer Methodist preacher, died at his home in Toronto today, aged eighty-nine years.

TERSED INTO A CONTRACT WITH THE HASSEAM PAVING COMPANY TO PAVE THE SOUTH SIDE OF MAIN STREET BETWEEN PORTLAND STREET AND MILL STREET, AND

Whereas, there is an impression that this work is not being done according to the plans and specifications of the city engineer, notwithstanding that official has declared that the work is proceeding in conformity with the said plans and specifications. Therefore,

Resolved that His Worship the mayor appoint two or more persons with a requisite knowledge of this class of work to investigate this matter and report back to the board their judgment and findings.

This was seconded, but Mayor Frink suggested that it lie over till next business day. The resolution was not pressed.

The question was then put on Ald. Potts' motion to dismiss the report. It was lost, only the mover and seconder voting for it.

Ald. Potts—"I did not expect anything else, but now I am satisfied."

Ald. Willet then introduced a notice of motion setting forth that, as there had been so much dissatisfaction about the permanent paving, and so many unenforced resolutions in the papers, the city agree to pay the expenses of an engineer. It was moved that the matter be referred to the matter.

The resolution went on to say that the contract shall be annulled or sustained according to the decision of the court.

The West Side Transfer

Before the report was adopted as a whole, Ald. McGoldrick read a communication from W. E. Anderson enclosing a resolution passed recently by the board in reference to the west side transfer. This was remitted to the proper committee, and the report as a whole was adopted.

The report of the safety board was the next item. The following tenders were authorized: James Huey, painting the city market, \$418.

St. John Iron Works, new boiler for police building, \$800.

Henry S. Wetmore, new floor in hook and ladder house, \$258.

Ald. Baxter moved that an addition be made to the report that a renewal lease of the lot at the corner of Pitt and Mecklenburg streets be granted to William Reed on the original terms and conditions. This was carried and the report as a whole was adopted.

The water and sewerage board report was then taken up. In regard to the water rates of Miss Elizabeth Nugent, Ald. Elkin moved that \$45 be accepted if paid today. This was seconded by Ald. Willet.

Ald. Lively said that the only objection he could see was that the board made laws one meeting and broke them the next.

The motion was carried.

The matter of the extension of the water and sewerage in Douglas avenue was again the subject of debate. Ald. Potts took the ground that the water at least ought to be taken out as far as the bridge. He moved the matter back to the board for further consideration.

Ald. Baxter was not in favor of reducing the amount of the guarantee which, he said, was attempted to be done in this case. If this were done they would soon find they had opened a door and that all safeguards would soon be destroyed. He moved that the matter be referred to the general committee.

Finally the section was amended to read that separate tenders be called for the work in the avenue, and that the consideration of such tenders be left to the general committee.

It was agreed to comply with the request of F. R. Whipple for refund of \$8 water rates.

Public Sanitaries

In connection with the section recommending a public sanitary in Market square, Ald. Lively said the engineer had asked that an architect be engaged to prepare the plans.

Ald. Jones thought no architect was required, as the manufacturers would furnish plans and specifications.

Ald. Lively said that the sanitary in the Market building was very unsanitary; he did not want to see any more such built.

Ald. Elkin moved the matter be referred back for such a thing.

Ald. Baxter seconded this. He thought a patrol wagon was more needed, than sanitariums.

Ald. Jones and Ald. Hayes pressed for the section. Ald. Hayes agreed that a patrol wagon was necessary, but it was not fair to play one thing against the other.

The motion that the section be adopted was carried, but the necessary two-thirds vote for a bond issue was not secured.

In discussing the section recommending the payment of \$750 to Engineer Murdoch in full of all claims against the city, Ald. Potts moved that a clause be inserted that the amount paid now be paid in consideration of an engagement that in future no claims for damages be brought against the city, either by the city engineer or his heirs. This was carried.

another chairman of the treasury board to deal with.

Ald. Willet moved that Ald. Baxter's resignation lie on the table.

Ald. Baxter thought it was not right to throw down the recommendations of the treasury board. Such action tended to hamper the work in the chamberlain's office. He needed the men in the collection of taxes.

Ald. Potts and Ald. McGoldrick said they were sorry the treasury board chairman looked at the matter the way he did as they had meant nothing personal.

Ald. Baxter—"Your worship, I desire to resign my position as chairman of the treasury board."

Mayor Frink thought the matter called for serious consideration. He was sure the public were of opinion that Ald. Baxter had made a very satisfactory chairman and personally he was of the same opinion.

Several of the aldermen said Ald. Baxter had discharged his duties ably.

The three names were then taken up separately and voted on, that of Robert Crawford being the only one to which any objection was formally raised. All three were appointed.

Ald. Potts moved that the bills and by-laws committee be asked to prepare a bill for the legislature authorizing the city to prevent the erection of any more telephone or electric light poles in the city and also the removal of all existing poles within five years and the placing of all wires under ground.

This was agreed to without discussion.

THIRTY AMERICAN COTTON MILLS SHUT DOWN FOR A WEEK

Fall River, Mass., Aug. 1.—Thirty cotton mills, owned by 12 corporations and employing 8,000 operatives, were shut down Saturday until August 8, for the purpose of curtailing production. A number of other corporations will be idle two days this week.

The drastic curtailment, which is in progress in the American textile industry, is having a beneficial effect on the goods market and an improvement is hoped for when the new cotton crop is available. The policy of curtailing the output is expected to continue until fall.
