It cres, and is tilled in the which that gentleman is ly famed. The drills are is the length of the area. ut in during part of six The first four rows first t day are luxuriant; the re not so fine ; the followills exhibit an evident derom thence to the end of lanting, each successive rse and worse. The first anted on the second day, where the previous days ated, are as succulent and rst put in on the first day; next series of rows dwinto the of the second day's manner to that just deing the operations of the shorten this statement as, we can aver that every inctly distinguishable by a the luxuriant growth of inting to the sterile shoots

wards the evening of the igate the cause of this suris say a word or two about indard of the 7th Aug. 11th : 1834, we published the tical men on this subject.

The dryer rous came up earlier, and are better in every respect throughout the field, than those covered when moist and cold. A cut that their frequent commission have obtunding it is it is a contract to the contract of th rious incident tends to confirm this fact. The ed the moral perceptions of the people among potatoes were cut and sent to field immediately as they were wanted. On one occasion the cutters quitted their work before a suffi.

no which their is not a single and it certainly is a fine specimen of superior caltivation. We saw Patrick Helfernan using the drill harrow with great effect; an instrument which should be on every farm where profitable culture is desired. It remains to be particularly remarked that the manure used by the Sheriff has all been preserved iness, deeply regretted by her relatives under cover, and very little touched by frost. Miss Mary Cameron aged 31 years, you under cover, and very little touched by frost.

It was warm and in perfect order when spread ter at the late Mr. Donald Cameron, of Shalb, into the drills.

We must postpone our notices on the other farms till our next publication. ----

A Bangor paper states that six or eight ownships had been burnt over, one of which was of great value and owned by B. Brown Esq. of Vassalborough. We learn from the Kenebec Journal, however, that the Editor had been informed by Mr. Brown himself that the fire merely ran over a tract which had been lumbered through, where hardly any green timber was left, but where numerous dry tops mainly contributed to the conflagra-

LAW IN THE LAND & LIBERTY. - A month or two ago, a coloured man, at St. Louis in Missouri, was about to be arrested by Sheriff Hammond, whom he stabled to the heart. The populace, in the frenzy of revenge, rose en masse against the aggressor, seized him, bound him to a stake, and burned him to . The headhoard of a ship or brig, with "Edinbur on it, was picked up on Plum Island Beach, death. The details of this inhuman outrage instant.

On it, was present instant.

On it, was present instant.

On it, was present instant.

him, and roasted him to death !!

We are led ruefully to notice these shocking barbarities from the numerous instances of similar atrocities which are recorded in all most every American paper that we peruse shame !! but why are not energetic and all most every American paper that we peruse shame !! but why are not energetic and steel frective measures put in force to sustain the Sovereignty of the lays, and to rescue the national character from that ro.

Saint Andrews, Jane 8; 1336.

Lot No. 4, fronting on Water street, as land not the pass of the Prevince out in the

The first asserted that the root seed haddegenerated through long use; without renovation from the seed balls. The next described the mode of raising the potatoe from the balf among whom such horrid cruelties are matorised through long use; without renovation from the seed balls. The next described the mode of raising the potatoe from the balf among whom such horrid cruelties are matorised through long use; without renovation from the seed balls. The next described the mode of raising the potatoe from the balf among whom such horrid cruelties are matorised through long use; without renovation from the seed balls. The next described the mode of raising the potatoe from the balf among whom such horrid cruelties are matorised and points out the defective appearance of the plant in rows, much like what we observed on the island. The writer shows that five persons were employed like what we observed on the island. The writer shows that five persons were employed like with the self tormenting, miserable malecontents of lower and upper Canada seriously to consider; and if there be any kindred spirits in differ the panetical planted gradually improved until there was no defect observed in what was taken from the center. He therefore concludes that the sets were destroyed by heating; and is confirmed in his opinion by a second planting of fresh cuts from the same Stock, shewing rosymptom of disease, but succeeding admirational properties and summing the source of prosperity symptom of disease, but succeeding admirations and happiness by disgusting the parent gold lead. A UCTION.

**THE Sabscriber will soft by Public Auction of Trenday next, the 20th inst. at the old Post Office at 11 o spek.

**A quantity of Household Furnities, and a few Books, among which are a splendid Edition of Reposition of Rep of sets which had lain in a mass for sometime; that the rows put in from the entirity of the head side; and if there be any kindred spirits in the context post of the head in from the entirity of the head in from the entirity of the center. He therefore concludes that the sets were destroyed by heading; and is configured in investigating the causes of municipal murders and sets were destroyed by heading; and is configured in investigating the causes of municipal murders and by sets were destroyed by heading; and is configured in investigating the causes of municipal murders and by sets were destroyed by heading; and is configured in the same Stock, shewing ross and stemming the source of prosperity and happiness by disgusting the parent gold by the unequal growth of his crop. He imputes it to the state of the manure on which the plants were laid. His large pile of manure had been completely frozen and he began to the cruit to the crop time of the cut of the cruit to the cruit to the crow in the crop time of the context of the context of the crow in the crop time of the context of the context of the context of the crow in the crow in the crow in the crow in the context of the context of the context of the context of the crow in the crow in the context of the context of the crow in the c plants were faid. His large pile of manure had been completely frozen and he began to cart it to the ground and spread it into the drills a day ahead of each days ranning; consequently that which had lain the longest, had become diver and warmer, has that my which had become diver and warmer, has that my which the United States. Let them look to Crowninshield of Salem, Avery of Newport, and become dryer and warmer than that on which inshield of Salem, Avery of Newport, and the sets were laid almost as soon as spread. Robinson of New-York! These crimes are
