Three Government Defeats Result From Members Attending & Garden Party.

London, June 30.-The Queen has invited all the colonial troops to a luncheon parade at Windsor Castle next Friday.

The garden party given at Buckingthree defeats to the government in the House of Commons, So many members of Parliament attended the garder party that the House of Commons was stripped. Business dragged along, and a divison on a minor bill dealing with a church building in the Isle of Man resulted in the defeat of the government by a vote of 52 to 65. Thereupon the Right Hon. A. J. Balfour, first lord of the treasury, made some remarks upon the difficulty of doing business during the jubilee celebration, and moved to adjourn.

Dr. Tanner, Anti-Parnellite member Mid-Cork, retorted by urging Mr. Balfour to devote more time to business and less to pleasure. Mr. Balfour's motion was rejected by a vote

The correspondent of the Paris Matin, who attended the jubilee naval review, and who made several trips on different steamers for the purpose of learning British opinion of the visitors and the warships, sends to his paper a vivacious summing up of his experience. He says: "How they detest the Germans! They abstained from a single cheer before the kaiser's cruiser, and remarked with disdain her ancient construction. The correspondent was struck by the undisguised feeling shown by the occupants of the legions of craft of all shapes and sizes threading the lines of the floating citadels. He returned to Portsmouth and started on another vessel. He found the crowds always the same. They frantically cheered their own ironclads and cruisers. The women cried and waved their hand-kerchiefs, and the children squalled, but the enthusiasm diminished when the foreign warships were present Then they cheered politely, but without conviction.

Montreal Looking for a Place likely to succeed. Either he or his catcher must know the weakness of every batsman who faces him. They all have such weak spots. There isn't of the batsmen against whom he must appear, he will have mastered half his success. Until he has had a chance to acquire such general knowledge he should always have a catcher who pessesses it and can coach him accordingly. I had Buckley in my early days in the league, and from him I soon learned to suit my delivery to the man who faced me.

From the day when I first saw a professional baseball game in the early eighties I had an ambition to become a great player as soon as I could get a little older. I never thought of being a pitcher, however. It was the man who made great running fly catches in the outfield who got most of the applause. He was the real hero of the game to me, and to be like him became my desire.

THE NIGHT RIDER. With a bell and a disposition to ride moderately, the night rider is as safe, and perhaps a little safer, than the day rider. Streets and roads are practically clear of teams and the inbility to see the minute details surface, etc., leaves the rider

comparatively free from nervous strain. Hills are easier to climb or descend, and bad places in the road descend, and had places in the road are more readily got over by night than by day. This may sound para-doxical to those who have not tried it, but it is a fact. Beginners are ble to feel timed at the start, but on find themselves proceeding with confidence unknown to their dayto give warning of your presence and to ride slowly in order not only to feel safe, but to be safe.

HINTS AND NOTES. When riding straight ahead never vary your course suddenly to one side without first satisfying yourself that there is no rider behind you. Dismounting by the pedal should be practiced by bicycle riders, as it is

Most riders can fall off, if necessary, but it is decidedly more convenient to be able to dismount by either pedal.

A new idea in wheel mechanism will be introduced by a Syraconic form in be introduced by a Syracuse firm in the near future. It is understood to be somewhat on the plan of the companion wheel in which the riders sit side by side, only, of course, in the new wheel there will be four riders

instead of two.

Japanese cycle manufacturers conduct their business on decidedly quaint lines. They charge for their machines according to the speed at which they are capable of runningall have such weak spots. There isn't a batsman living who can't be "worked" in one way or another. Probably the two hardest to fool are Tiernan and Anson. Some are weak on high balls. Others cannot hit them at the knee or about the belt. Some will persist in hitting at curves, while there are those who constantly nip at there are those who constantly nip at stand. Backing the wheel into the speed at which they are capable of running—that is, what they term "a seven-mile bicycle" may be bought for \$30, while a twelve-mile bicycle costs \$50.

New York has the latest novelty in bicycle racks. At the entrance to one of the Brooklyn ferries there is a stand. Backing the wheel into the balls they never touch and never will. groove it is immediately fastened. By If a pitcher makes a successful study dropping a nickel in the slot the key

The Governor-General's Speech at the

ber of questions.

Dr. Montague called attention to the indifferent mail service into the Kootenay mining regions. They were suffering great inconvenience from it. The postmaster-general said that he expected Chief Inspector Sweetman would return from British Columbia with a full report in a few days. He fully realized that the service was not what it ought to be. He contemplated many extension during the year, which would cost considerable money, but it was quite impossible at noon.

The cost of the two camps, as figured out by Col. M. D. Dawson, district paymaster, will be at least \$34,000. The government has been asked to place this sum to his credit in the Bank of Montreal here.

The three battalions of infantry and the regiment of the First Hussars, which marched out on Friday, carried off over \$15,000, nearly \$5,000 going to the Hussars alone, each one of whom received a regular allowance of \$1 a day for his horse. Besides this amount the Twenty-seventh and Thirty-third for him to reach any estimate as to the cost, and consequently he had not inserted an item in the estimates.

Tuesday Night's Tornado.

That terrific storm which passed over a section of the country to the south of London last (Tuesday) night would be regarded as a very moderate outbreak in Kansas and other western states, where cyclones sweep down once or twice every summer, carrying devastation in their trail. We in Canada are singularly free from of this kind, one such as occurred in this neighborhood for many years. And truth to tell, those who experienced its violence will not long for an early recurrence of its leveling up and leveling down eccentricities. The wonder is that so many people whose lives were menaced escaped with little or no injury.

WEEKLY. The attendance of both buyers and sellers was good almost every day this week. Grain deliveries were not very large, and consisted mostly of oats, there being little wheat or any other kind of grain. There was a strong demand for buckwheat, fit to sow, but mone came in, except a few lots that were delivered on private account. The price paid is reported at 80c per cwt.

The prices of wheat, corn and barley were unchanged. Oats fluctuated considerably, ranging from 60c to 68c at the close, with 65c as the usual price for good quality, Very few beans came in, but the undertone was somewhat stronger.

Eggs were steady and in good demand, 8½c to 9c being paid for fresh in basket lots; 10c and 11c retail. Butter got quite scarce by Tuesday and advanced to 12c and 13c for crocks

and pound rolls wholesale. was unchanged. Spring chickens are improving in size and sell more readily.

The meat market was well supplied with veal and mutton. Lamb and beef were a little scarce, especially high grade beef. There was little change in prices. Spring lamb sold by the pound usually instead of by the car-

cass and quarter.
Wool went up 1c during the week, making the advance in 1/2c jumps. The buyers seem quite keen and almost In the vegetable list the only change we make is lower prices for asparagus lettuce and potatoes. The supply of green peas is improv offering at 20c to 25c per quart. New peas coming into the market is

given as the cause for the falling off in the demand for asparagus. Inquiry to sell from outside points caused the drop in potatoes. Hay sold slowly, and on Tuesday the rain made it almost impossible to sell Later on, the dry loads sold at \$3 to \$4 for the load. The live stock list remains unchang-

Receipts-Shipments-

OUTLOOK FOR WHEAT.

Macy & Pendleton, Wall street, New York, write the Advertiser: The July corner is, of course, the central point around which all gossip in grain circles revolves. The erratic course o today's market suggests continued caution in regard to short sales. Min-neapolis production of flour since Jan 1, 1897, is equal to over 26,000,000 bushels of wheat and practically all of this flour has been shipped. The receipts and the other institutions in af of wheat were over 21 per cent less than the quantity ground and leaves the stocks less than half those of Jan. 1, 1897. Flour is reported dull, but there is little doubt that the Northwest millers will be vigorous buyers of the early deliveries. Crop prospects continue of the brightest and lead to quantity. Liverpool and London co tinue apparently indifferent in regar to purchasing in America, notwith standing their own low stocks and th that they cannot get any thing of consequence from Argenti latest figures on the French crop point to under 50,000,000 bushels less than in 1896 and looks like a shortage sufficient o force them to import considerably Hungarian crop will doubtedly shrink 10 per cent. The large export movement reported by us last week in butter showed itself in the week's shipments, which amounted to 3,803 packages, against 2,126 for the corresponding week last year, bringing the quantity up to date to 6,926 packages, against 5,784 packages for the same period in 1896, showing an increase of 1,142 packages. It mus not, however, be taken for granted that this is all Canadian butter that is going forward by any means, as the great bulk of it is American creamery, about 4,000 or 5,000 packages being re ceived in bond from Chicago this week, a good portion of which is expected to go forward to Bristol. The market for reamery butter certainly presents some anomalies. For instance, finest American creamery is quoted in this market at 151/2c to 16c in bond, and yet purchased at Canton, N. Y., a few days to be held at Toronto, from Aug. 30 to ago at 161/2c for Montreal account. Sept. 11 next. > Two of Nine Sections Crash Into Each Other.

> Two Persons Killed Outright and 20 or 30 Injured - Similar Accident in Indiana - Two Railway Employes Killed.

Chicago, June 30 .- Three persons were killed outright and about 20 or 30 persons injured in a rear end collision on the Chicago and Northwestern Railroad at 1:45 o'clock this morning at West Chicago, 30 miles out of Chicago on the Galena division. The victims of the collision were Christian Endeavor delegates, who left Chicago last night en route for the great convention in San Francisco. The colliding trains were sections numbers 4 and 5 of a Christian Endeavor special sent out in nine sections, beginning at 10:3

TERRIFIC COLLESION. Section No. 5 ran into section No. 4, which left Chicago fifteen minutes ahead of it. Section No. 4 carried the Wisconsin delegates, nearly 500 strong, and in the rear sleeper were people from Fond Du Lac, Green Bay, Apple-ton, and other Wisconsin cities, Section No. 4 had come to a stop just out of West Chicago, where the Free-port line diverges from the main line. Section No. 5 came up behind at great speed, and the shock of the collision was terrific.

NO WARNING. The passengers in the two rear sleepers of section No. 4 were all in their berths. They received no warning, and those not killed outright awoke to find themselves jammed in the wreckage.

Passengers on both hastened to the

spot and began the work of rescue. One of the first of the injured was Engineer Charles Courtney, of section No. 5. He had stuck to his post like a hero, and is so seriously injured he cannot live. The body of an unidentified man, supposed to be a tramp, was found between the baggage car and the engine. The man had been crushed to death. CALL FOR HELP.

An immediate call for help was made on every point within reaching distance. Chicago was notified, and asktance. Chicago was notified, and asked to send physicians at once, and medical help was requested from Geneva, Wheton and Aurora. The engine of section No. 5 had struck the rear sleeper of section No. 4 with terrific force. The engine was totally wrecked. Strange to say, the

rear sleeper of section No. 4 was not the one to suffer most. It was driven the one to suffer most. It was driven with terrific force upon the second sleeper, and such was its impulse that it crashed through it as though it had been a cardboard box, and reduced it to a mass of wreckage. THIRTY-SIX HURT.

The passengers in the second sleeper were therefore the ones to suffer most, and it was in it that most of the 36 victims were hurt. How so many escaped instant death is nothing short of a miracle THE VICTIMS.

No. 11, on the Vandalia Railroad, which left this city at 7 o'clock last evening, containing a large number of Christian Endeavorers on their way to the great convention at San Francisco, collided ence. with train No. 6 bound east from St. Louis at 8:20 o'clock near Vandalia. TWO PERSONS WERE KILLED. and several fatally injured. Train No. 11 left Indianapolis in two sections on account of the heavy San Francisco travel, occasioned by the national meeting of the Christian Endeavor Society. Orders were given to meet No. 6, the eastbound passenger train, at Vandalia, these two trains being due to meet at that place about 1:30 this morning. At 3 o'clock this morning further information was received which confirmed the first report of the acci

It seems from the best information obtainable that the westbound train pulled out of Vandalia without waiting for the train from St. Louis. The headlight of the westbound train was ex tinguished for some time before the crash came.

The killed and injured were all em oyes. None of the passengers on either train were injured.

-Last evening Mr. James Burrows, of Lambeth Postoffice, Ont., had on exhibition in Sherwood Hall an acetylene gas machine, manufactured by the Acetylene Lighting Company, of St. Marys, Ont. A large number of interested people were present to see the light, and all seemed to think it an excellent one. The machine is very simple in operation, being entirely au-tomatic. A most successful open air jubilee concert and lawn social took place on Friday evening at Florence, under the auspices of the guild and congrega-tion of St. Matthew's Church, Florence. It was held on the rectory grounds, which were very tastefully and elaborately decorated with red, white and blue flags, festooning, jubilee mottoes, etc., and when illuminated at night presented a most pleasing and unique picture. There were be-tween five and six hundred present, all of whom enjoyed the splendid programme given, in which the following took part: The Bothwell Brass Band; Mr. H. Poole, London; Misses Unsworth, Edith Bobier, May Atkinson, and Florence Ramsden, of Florence Mrs. McManis, and Messrs. D. G. Reid, and O. R. Edwards, Bothwell The Rev. H. R. DELAWARE.

Delaware, June 30.—The popularity of Rev. T. T. George as a pastor was made manifest last Sunday evening, on the occasion of his preaching his farewell sermon in the Methodist Church. Fully an hour before the time displeasing to many people as marks of age may be averted for a long time by using Hall's Hair Renewer. was taxed to its utmost. Every seat was packed, and the aisles were filled with chairs, which were quickly oc-cupied, while many went away who could not get inside. Mr. George is the first minister in the London conference who has put in the full five years—the extreme time limit of a Methodist minister on one circuit, and the ing of a 20 per cent ad valorem duty on hides is looked upon by dealers here as a very serious thing, and a crippling blow aimed at the hide industry. The present prices are 7½c for No. 1, all round, and 6½c for No. 2. During the first quarter, ending March people here only regret that he could

LIFE SAVED.—Mr. James Bryson Cameron writes: "I was confined to my bed with inflammation of the lungs, and was given up by physicians. A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice, I procured the medicine, and less than half a bottle cured me; I certainly believed it saved my life. It was with reluctance that I consented to a trial as I was making as I was reduced to the barristers, and he who attempts to discharge the duties of his position with only earthly resources, is making a very great mistake. Witness the men who have argued placidly before earthly tribunals, who shall shiver in dismay before the Judge of quick and dead. Witness Lord Thurlow, announcing his loyalty to earthly government in the sentence: "If I forget my earthly sovereign, may God forget me." and yet stooping to unaccountable meanness. Another mighty temptation for the Lord Ashburton and Mr. Wallace criminal lawyers, marine lawyers, and I have yet to find a class of men more genial or more straightforward. There are in that occupation, as in all occupations, men utterly obnoxious to God and man; but if I were on trial for my integrity or my life, and I wanted even-handed justice administered to me, I would rather have my case submitted to a jury of twelve lawyers than to a jury of twelve clergyman. The legal profession, I believe, have less violence of prejudice than is to be found in the sacred calling.

There is, however, no man who has it itled to one day's rest out of seven. If he surrenders that he robs three—God, his own soul, and his client. Lord Castiereagh and Sir Thomas Romilly were the leaders of the bar in their day. They both died suicides. Wilberforce accounts for the aberration of intellect on the ground that they were unremittent in their work, and they never rested on Sunday. Chief Justice Hale says: "When I do not properly keep the Lord's day, all the rest of the week is unhappy and unsuccessful in my worldly employment." I quote today from the highest Statute Book in the universe: "Remember the Book in the universe: "Remember the courtroom of earth to the throne of eternal dominion. Through Christ, the Advocate, these got glorious acquittal. In the other case it was a hopeless lawsuit. An unpardoned sinner versus the Lord God Almighty. Oh, what disastrous litigation!
