## Bad Books and Flashy Literature in Home and School.

The school may improve the intellectual health of the home. A healthy taste for reading, early formed in school, will foster the habit of home reading—of having a good book always at hand for odd moments. That is a habit of inestimable value. Youth thus learn to regard books as their friends. Hence, choice books are the best presents for children. The ownership of books increases their power over the child's mind and intensifies his interest in them. He has gained a love for literature who can say with Fenelon, "If all the towns of the world were laid at my feet, in exchange for my books and love of reading, I would spare them all," or with Gibbon, "A taste for books is the pleasure and glory of my life. I would not exchange them for all the gold of the Indies."

The teacher needs not only to awaken a love of books, but to guide in their selection. Bad books and papers abound as do also the proofs of their pernicious influence. The managers of all the railways in Connecticut a dozen years ago proposed a similar agreement with the managers of all American railways. Pretending to be "Chronicles of the Week," they are, in fact, contributors to the blot.

These papers and the kindred dime novels abound in highly-spirited stories of highway men, desperadoes, gamblers, pirates and like heroes, whose marvelous feats, outrages, daring adventures, and mad passions (for they always succeed) set forth reckless crimes under a false glamour. The homely virtues of industry, economy, filial piety, and temperance are ridiculed and their place is fostered by a rage for wild adventure, an ambition to play the desperado, see the world, try luck and win the prizes of daring. The language of those books, always full of "blood and thunder stories," is flashy, slangy, low and without literary merit. The many stories in the style of Peck's Bad Boy, may, perhaps, be a little less vicious and pernicious. It is an old motto that a man never had a better friend than a good book, and no viper more deadly ever came into a family than a bad book.

In one of the illustrated papers is a cartoon representing an infant in the cradle, one hand grasping a bow-knife and the other a revolver, a shot-gun lies across the cradle and its crevices are full of other knives and pistols. A tub in the baby's mouth shows that its nourishment is drawn from a huge bottle labeled "Dime Novels," "Bloody Ben," "like the Indian Killer." Fed on such stimulants, its hair fifty standard and its features show a most savage ferocity.

Jesse Fomeroy, the Boston boy, convicted of torturing and killing three little children, said "he did it just for the fun of the thing, and that the boys and girls liked him because he had a better and than any other boy in the neighborhood." "Buffalo Bill," the "Boys of New York," claiming a circulation of 50,000, is garnished with pictures of bags, highwaymen, and cut-throats. "The New York Boy" is equally full of tales of crime and robbery, and is full of tales of crime and robbery, and is full of tales of crime and robbery.

Such books and papers are extensively sold in shops, or furnished free in barter-shops. If a school should be set up to teach the art of pocket-picking, burglary and robbery, the police would promptly interfere, and yet that would be harmless compared with the influence of the newsdealer who is poisoning the minds of our youth with bad books and papers. Let public sentiment be properly aroused and this evil will be suppressed.

We should not read this literature with the good. Children have no natural appetite for books that are flashy and insipid. They may be so trained that a feeble and vulgar style will disgust them for religion and order.

## Letter from Hon. Mr. Campbell.

To the Editor of the Herald:

Sir,—I observe by the Patriot of the 3rd inst., that Mr. Davies has again been struck by eloquence, early formed in school, will foster the habit of home reading—of having a good book always at hand for odd moments. ## Unsound Literature.

To the Editor of the Herald.

Sir,—While willing at all times to give every due acknowledgment to the encouragers of education, I have my duty as a parent to perform and think that what style of literature reaches the opening minds of their children, and is instilled into them, would make through the medium of poetry of questionable morality, no matter how fine the language, a most pernicious influence in the hands of a Catholic scholar copy of "Marrion," which contains on page 11, 35, 43 and 176, descriptions which are so gross, so filthy, and so corrupting parties, the home should be supplied with some suitable juvenile journal.—Educational Courier.

## Other bills which he left as a legacy to his successors.

Mr. Davies says the Government is \$40,000 in debt. Mr. Davies is a good guesser, but generally wide of the mark. But granting his statement is true, that would be \$18,000 less than the direct taxes which were levied from the people in 1877, and \$35,000 less than the amount which he ran the country in debt in two years, after having collected nearly \$100,000 direct from the pockets of the people. We have been managing to collect \$100,000 yearly for education, while Mr. Davies with his enormous taxation in 1877 of \$58,477, paid only \$66,000 and after levying \$46,801 of taxes in 1878, paid only \$38,000 for Education. We have paid off all his old liabilities, and we have kept up the public service efficiently. If not more so, than Mr. Davies, and made more improvements in our highways, than were done under his administration. These are the facts, and to my mind, prove most conclusively to you, that Mr. Davies and his associates are the most incompetent men to conduct the public affairs of this country, who have ever been in power.

Mr. Davies next divides the history of this country into "three periods." He tells that "whenever we see the rights of the people wrested from them, there is always a Tory leading the Government," and that every outrage committed against the people is done through a Conservative Government in power—but he fails to tell us who those men are, or what those outrages were. I would like to know from Mr. Davies if the days he refers to were those when the Davisons, the Yens, the Burs, the Peters and the Laids, the old extreme Tories, whom he now delights to call Liberals, were in power. I am very sure that if he were to find the same men who were raised up and who fought under the banner of the great chiefs of Liberalism—Coles and Whelan? Do we find them among the Tory and old smooth bore combination which now calls itself Liberal? No; but we find them in the ranks of the Liberal-Conservative Party, and true to the principles of their great leaders, endeavoring to carry progressive measures in the interests of the country.

It is not in the day of the grand old Liberal party, so it is now. The wheels of progress are attempted to be clogged by this old fossil Tory combination calling themselves "Liberals." Oh! shades of Coles and Whelan! could you but rise now and behold the present Government, and the present bearers, you would disown your followers, and disavow the mongrel combination made up of the remnants of the two old parties of the day when you so successfully fought the battles of your country.

But supposing we had a change in our Local Government, who would be the leader? Would it not be one of those horrid Tories, whom you so strongly denounce? It surely would be one of those men who were raised up and who fought under the banner of the great chiefs of Liberalism—Coles and Whelan? Do we find them among the Tory and old smooth bore combination which now calls itself Liberal? No; but we find them in the ranks of the Liberal-Conservative Party, and true to the principles of their great leaders, endeavoring to carry progressive measures in the interests of the country.
