

THE MORNING ALBERTAN

CALGARY, MONDAY, AUGUST 12, 1910

ELEVENTH YEAR—No. 141

Greatest of Harvests in History of Province Golden Stream of Wealth Starts to Pour into the Granaries Of Tillers of Soil in Big Wheat Belt

Harvesting operations will be general throughout Southern Alberta this week according to the weekly crop reports received on Saturday night by the C.P.R. from its agents in Alberta. In the north country the harvest will be from a week to ten days later in some districts. In the Lethbridge district wheat cutting is general and threshing has been started. The yield is good and the sample excellent. Fall wheat is yielding from 25 to 35 bushels per acre. Along the C. and E. south, between Calgary and Macleod, a little wheat cutting has been done and harvesting will be in full swing this week. A much better crop of wheat will be harvested than was expected a few weeks ago. GOOD RIPENING WEATHER. The weather for the past week has been good for ripening but more sunshine is re-

LARGE QUANTITY OF BANKNOTES STOLEN FROM NEW WESTMINSTER FOUND

Dramatic Arrest of Walter Davis and Wife at Toronto Leads Police to Believe They Have One of Men Who Looted Bank for Quarter of Million Dollars Last Fall

TORONTO, Aug. 11.—Dramatic arrest of Walter Davis, alias Walsh, at the clerk's desk in the Palmer House yesterday, and the arrest a short time after of Alice Davis, alias Walsh, who is believed to be the woman's wife, has come as a climax to one of the most painstaking pieces of detective work carried out in Toronto for many years and has led the detectives to believe they have found the men who were implicated in a most daring robbery committed on the British Columbia coast. More Arrests Promised for Detroit Aldermen

Detroit, Aug. 11.—Rumors that the sixteen aldermen arrested in connection with the alleged councilmanic graft exposure will waive police court examination, and that the case will be disposed of in record time, were in circulation tonight. It was said that a tentative agreement had been reached between Prosecuting Attorney Shoberg and the attorneys for the accused to allow for this procedure. The only other development in the situation today was that the statement that three of the officials have already confessed, and that Detective Burns had been called back to the city to look into new evidence uncovered by Shoberg. The latter official refused to discuss the prospective visit of the detective. When he left, his office the statement today was that "There will be nothing doing today and probably not on Monday, but more arrests will come after Monday."

A BRITISH FINANCIER WILL ESTABLISH HIS SON IN CANADA

Mr. J. M. Hellyer of London Discusses Possibilities for Youthful Energy

All Eyes Now Turned on Canada and Her Wonderful Strides of Development

Dominion Has Resources and England the Men to Turn Them to Account

Duties of Successful Men Toward Launching Young Men on Sea of Life

CANADA has the resources, and England the young men to aid in developing them, says Mr. J. M. Hellyer, of London, Eng., who with his son, L. Hellyer, is a guest at Braemar Lodge. Mr. Hellyer's mission in Canada is to select a location for his son and aid him in contributing his quota toward developing the vast resources of the great North American empire. Mr. Hellyer, senior, has travelled extensively over the world, and has interests both in Canada and the United States. On Thirtieth Visit. "This is about my thirtieth visit to the Dominion," said Mr. Hellyer yesterday, "and each time I find more to marvel at in its wonderful growth. On the present trip I have journeyed across from the east and all along the route I have heard nothing but most glowing reports of the wave of prosperity that is just now sweeping across the country. Croppers are good and the people are imbued with that optimism and determination that is fast transforming heretofore unsettled communities into thriving centres of commerce. It is to Canada that fathers of means are looking for opportunities for their sons. I have brought mine with me, and I believe the possibilities are vast." (Continued on Page 5)

WHAT THE GREAT WEST DID ON SATURDAY

In Calgary: Dominion government statistics show during the three months of April, May and June that one hundred and seventy-five thousand three hundred and forty-one sheep arrived in Canada; fifty-three thousand three hundred and forty-three from the United States; last year's total for the same period was one hundred and forty-eight thousand three hundred and eighty-nine. In Regina: Work on roads throughout the province is being pushed to completion to be ready for farmers to harvest crops. Work involves several hundred wooden bridges; twenty-three steel concrete bridges. Twenty cost three hundred thousand. In Winnipeg: New York and Chicago crop experts after a trip through Western Canada state that the crop is the largest yet. Bank clearing for the fiscal week show an increase of two million four hundred dollars over corresponding week last year. Arrangements have been made for a one day campaign to raise fifty thousand to double the size of the permanent exhibition building. In Victoria: Building permits for the week were one hundred and twenty-six thousand five hundred. Bank clearings for fiscal week one million two hundred thousand greater than same week last year.

One Thousand Persons Are Killed Throughout Turkey By Earthquakes Which Lay Into Ruins Many Villages And Shake Warships Off Dardanelles

CONSTANTINOPLE, Aug. 12.—Reports here today indicate that the great earthquake shock which was felt through a great part of Turkey, was accompanied by much heavier loss of life than at first stated. The newspapers today estimate the victims at 1,000 killed, while the injured are said to number from five to six thousand. The details of the earthquake, which are coming in slowly, owing to the interruption of the wires, indicate that the seismic disturbance was widespread. Several hundred persons have been killed, thousands are homeless and outbreaks of fire have occurred in many of the towns and villages. Great destruction has been caused by the uprisings in the district between Constantinople and Adrianople. The shock severely. Fugitives from Myriophito report 300 killed and 600 injured. The town was still burning when they left. Ganos-Hora has been wiped out, eighty persons being killed and thirty wounded. The wrecked buildings took fire and most of them were burned to the ground. Shar-Koi was completely destroyed and two nearby villages were engulfed. Adrianople suffered little damage but Tchorlu was partially destroyed by the earthquake and fire.

Charles X. Thompson Is Pleased With Alberta

Tells How Interested the Coast People Are in Province's Grain Growing Possibilities

Says Vancouver Islanders Plan Connection With Mainland by Bridge Across Narrows

Charles X. Thompson, for many years the northwestern manager for R. L. Polk & Co., the largest directory concern in the United States, and now advance agent of the prosperity of Port Alberni, of Vancouver Island, is in Calgary for the first time. Like anyone else who comes this way he is pleased. "I am tremendously impressed with the grain possibilities of Alberta," said he yesterday to The Albertan. "And we people of the coast are very much interested because we expect most of the five millions of bushels of grain which you will some day raise, to clear through our ports and go out on the broad Pacific to help feed a world less fortunate than Canada. One has only to ride through the ripening fields of grain in the southern portion of the province, as I have been doing, to appreciate what this grain output will some time be. "We are making great preparations for taking our Alberta's grain. One plan is to build a railroad bridge across the narrows at the northern end of Vancouver Island, connecting with the mainland. The railroad would run to Port Alberni, which is situated near the centre of the island. From Port Alberni a deep ship canal, connecting this point with the Pacific ocean, is projected and will probably be built. It is a wonderful scheme that has been pronounced feasible by several eminent engineers, and if it is put into effect it will make the island practically a part of the mainland." FORT GEORGE WIRE SERVICE. Vancouver, Aug. 11.—There is now a direct wire service north to Fort George.

Attitude of French Press Indicates That World Tariff War Faces Uncle Sam

Temps of Paris Says Americans Would Better Serve Their Commercial Interests by More Scrupulously Respecting Their Legal Engagements Respecting Pledged Word

PARIS, Aug. 11.—Quoting approvingly of Britain's protests against the action of the American senate in passing the Panama canal bill, which among other things, provides for the remission of tolls to American vessels engaged in coastwise and foreign traffic, The Paris Temps in an article published today foresees a tariff war if all the powers against the United States unless President Taft vetoes a course "which wrongs the interests of the rest of the world and belies the solemn affirmation of the cabinet at Washington that the whole purpose of the work at Panama was in the interest of mankind in general." (Continued on Page Nine)

Man Made Unconscious From Bee Stings

Vancouver, Aug. 11.—Stung by bees in eight spots on his face, Frederick Gunter, aged 40, nearly died on Saturday. He was unconscious in the hospital for many hours but is now on the road to recovery.

North German Lloyd Steamer Frankfurt En Route to Canada With Immigrants In Collision With Unknown Vessel; Lives of 1200 Persons are in Danger

LONDON, Aug. 11.—The Dutch steamer Iris reported here last night, reporting that the North German Lloyd steamer Frankfurt, bound for Canada from Bremen, with 1,200 immigrants aboard, collided with an unknown steamer near the Hawk lightship. Soon after the collision the Frankfurt began shipping water in large quantities. Despite the apparent seriousness of the accident, it is not believed that the passengers were in danger. Two steamers came to the rescue of the Frankfurt and are now towing her into port, probably Bremen.

Medical Health Officer Tenders Resignation

As forecasted in The Albertan, Dr. A. S. Estey, medical health officer for Calgary, presented his resignation to the city commissioners Saturday afternoon. The resignation was brief but pointed. It stipulated that it should go into effect one month from Saturday, and is as follows: City Health Department, Calgary, Aug. 10, 1910. To Mayor and Commissioners, City of Calgary. Gentlemen:—I herewith tender my resignation as the medical officer of the City of Calgary, to take effect one month from date. As far as the commissioners are concerned, I leave the office with the kindest feelings toward them. I remain, yours truly, A. S. ESTEY, M. H. O.

Steel Bridges for Okotoks and High River; Road From Calgary to Capital

Minister Says Calgary's New Court House Will be a Handsome Building

THE provincial expenditures on public highways will be considerably in excess of one million dollars for this year, according to the statement of Hon. C. R. Mitchell, minister of public works, who spent Saturday in Calgary. The legislative appropriation for roads was \$1,000,000, and this amount will be in addition to that which will be expended from general revenues on public roads. Mr. Mitchell, accompanied by Deputy Minister, J. C. B. Macleod and Malcolm Calder, inspector of public works with headquarters at Calgary, motored from Calgary to Macleod and Macleod to Coleman in the Crow's Nest Pass country last week on a tour of inspection of the road work now in progress. Stops were made at all important points and arrangements were perfected to continue the work for the balance of the season. Steel Bridge for Okotoks. The minister announced to The Albertan that he had decided to replace the rickety wooden structure which spans Sheep Creek at Okotoks with a substantial steel structure. The new bridge will be built adjacent to the present wooden bridge. A steel bridge is also to be built at High River. The new trunk road from Calgary to Macleod has been completed to near Midland, and the minister (Continued on Page 5)

Alberta—Westerly winds, fair and warm.

Orpheum Attractions to Open in Calgary

Sherman Makes Connections With Big Vaudevillians for the Grand

Will Open First Week in September and Are Billed For Three Nights a Week

The Orpheum vaudeville attractions are to be shown in Calgary, W. B. Sherman, local theatrical manager, has made arrangements with the management of the Orpheum circuit, whereby Orpheum vaudeville will appear at the Sherman Grand three nights weekly. The news comes in a private wire from Mr. Sherman, who has been negotiating for the past few days for the bringing of this circuit to this city is the biggest thing Mr. Sherman has ever done for his patrons. According to reports the Orpheum attractions are billed to make an initial appearance at the Grand during the first week in September. The grand advice received late last night by G. H. Dumond, local manager for Mr. Sherman confirm the report that he has closed his negotiations with the Orpheum people. Mr. Dumond states that the Orpheum time will be split between Edmonton and Calgary, Edmonton getting the attractions the first three nights and Calgary the last three nights of each week, with matinee every day. With these attractions will go an eight or ten piece orchestra. The orchestra seats will sell at \$1, and the prices will be graded down to 25 cents for the gallery, with the matinee prices for the better seats about half the prices charged for the evening performances.

Company Formed to Take Over Industrial Sites

Saskatoon, Sask., Aug. 11.—A company has been formed in the city by interested holding properties on the west side in which prospective industrial locations are pooled and the concern capitalized at a million dollars. This company will take over the character of the Saskatoon transfer railway company, and will co-operate with the industrial league recently launched with a million dollars capital by public subscription, eighty acres being granted to the latter for sites. The properties of A. Dick, Calgary, Alvin Fletcher, and the Saskatoon-Saskatchewan Land Co. are involved. L. L. Anthes, of the Anthes Foundries at Toronto and Winnipeg, has been in the city in connection with the project.

Man Made Unconscious From Bee Stings

Vancouver, Aug. 11.—Stung by bees in eight spots on his face, Frederick Gunter, aged 40, nearly died on Saturday. He was unconscious in the hospital for many hours but is now on the road to recovery.

Baggage Master Is Run Down and Killed

St. John, N.B., Aug. 11.—Frederick McInnis, the C. P. R. baggage master at North, was killed on the railway track a short distance above the station early Saturday morning. A train ran over him, cutting off both legs. Just how he came to be struck by the train is not clear as his body was not discovered until some hours after the last express had passed.

Alleged Robber Returned to New Westminster

Charles Dean, Said to Have Looted Bank of Montreal For Large Amount

The Extradition Follows Nine Months' Legal Battle in Southern California

New "Plan Gives 'Rights' to Value of Slightly Over \$20 Per Share

Vancouver, B.C., Aug. 11.—Charles Dean, alleged to have been a partner in the robbery of the Bank of Montreal of more than a quarter of a million dollars last September 15, reached here on Saturday from Los Angeles, Cal. He was in charge of Chief Bradshaw, of Westminster, who has directed the nine months' battle with Dean, who fought extradition proceedings to the last ditch. Ottawa, Aug. 11.—The Evening Journal says: It is learned on good authority that the C. P. R. will make a new issue of \$50,000,000 at a premium of 75 percent at the meeting on Monday next. This will mean that present shareholders will receive one new share for every four shares now held and on the basis of 375 market price the shareholders will thus receive "rights" to the value of slightly over \$20 a share.

Another Alleged Accomplice in Murder of New York Gambler Is Arrested

Sam Schepps, Taken in Hot Springs, Says He is Ready to Face Accusers; "Am Keynote in Situation," Says Suspect, and District Attorney's Office Must Treat Him Right

HOT SPRINGS, Ark., Aug. 11.—Sam Schepps, wanted in New York in connection with the murder of Herman Rosenthal, was placed under arrest in this city late last night. He is guarded by an officer, who it is reported is holding him pending advices from the district attorney's office in New York. "I am ready to go back to New York without any requisition," said Schepps, "but I want to know that everything is all right. "I am the key note to the situation in New York and if they want me to treat the district attorney's office right they will have to treat me right." (Continued on Page Nine)

Assaults Hotel Owner; Tries to Shoot Police

Plucky Mounted Police Sergeant Takes Bad Man Following Spirited Scuffle

Victim of Attack Lies in Serious Condition as Result of His Injuries

Moose Jaw, Sask., Aug. 11.—The mounted police had a busy Saturday night on Buffalo Lake, where a man of the woods, named Wallace, had shut himself in an outhouse near the hotel after beating up the proprietor, John Banks, in a murderous fashion. Wallace had armed himself with a two-barreled revolver after getting to the place. Sergeant King alone approached the house where Wallace was in retreat, and having all lights put out, threw open the door. Wallace appeared with his gun and was covered by the sergeant. He refused to surrender, and while lifting his weapon received a smart rap over the knuckles with the butt of the sergeant's revolver. A struggle ensued, and Wallace was eventually handcuffed. It appears that a feud had existed between the hotel man and Wallace since spring, when the latter was evicted from a shack he occupied all the winter. Since then he has been living in a serious state as the result of Saturday's savage attack. Last week members of parliament from the maritime provinces and the Pacific coast, were quite serious regarding the move, but it is presumed that their mood will change. It has been stated that it would be necessary to amend the British North America act in order to have parliament adjourn from Ottawa. This, however, is not so, there is nothing in the act to compel parliament to sit in Ottawa. Section sixteen merely enacts that Ottawa shall be the capital unless the sovereign decrees otherwise. All that would be necessary would be an ordinary in council.

Hospital Patients Said to Be Burglars

Port Arthur, Ont., Aug. 10.—Hugo Reid, Toney Aleites and Robt. Langan were placed under arrest here today on a charge of burglary at Sault Ste. Marie. They were taken into custody at the hospital where they have been patients for a week with knife wounds received in a stabbing affray on Sunday night last in an outlying park. At that time they refused to give their names or any particulars regarding the mix-up which sent the three and two others to the hospital. Their identification as men wanted by the S. M. police clears up a mystery that greatly puzzled the police. William O'Hara, another victim of the same mix-up, is under arrest on a charge of assaulting a girl of less than 12 years.

SOUTHERN ROUTE FOR WESTERN WHEAT WILL BE SECURED

Government Foresees Possibility of Blockade and is Taking Action

Similar Rate to Duluth as to Fort William Will be Obtained

The Grain Will be Shipped in Bond and Not for Consumption

OTTAWA, August 10.—It is understood on good authority that the government will at an early date take steps to secure the southern route for Western Canada wheat for which Hon. Geo. E. Foster, minister of trade and commerce, negotiated late last season.

The government already foresees the possibility of blockade as serious as was experienced last season and will make a desperate effort to avert it by gaining a similar rate to Minneapolis and Duluth for western grain as is granted to the head of the lakes.

It is understood that the government will only ask that the privilege be granted to grain in bond and not for consumption on the American market.

This latter privilege was granted last January in order to get rid of much of the damp wheat. It does not seem probable that the government will be able to keep navigation open longer than usual, though this was one of the promises made by Hon. Robert Rogers to the Saskatchewan electors.

It is pointed out that boats in previous years have continued to run on the lakes until refused insurance.

Nothing more powerfully impresses one with the silliness of using foreign phrases to express ideas that are native enough in themselves than residence in a foreign city where one may witness the abuse of English by foreigners who are equally affected.

Especially in the world of sports has English passed current in France, where clubmen have been "clubbists" and "sportsmen," and pedestrians have been strolled out for an hour "footing" and reporters have been "interviewers" and summer men in "smoking" (dinner jackets) who make love at a minute's warning (of no warning at all) were "flirts"—they, and never the girl in the end.

But have we not a lesson to learn from the fact that the French, like the Germans, are today reacting against the foolish borrowing of verbal coinage that is so often only counterfeit?

In accounts of ring battles, for instance, we may still read in French newspapers that Carpentier "missed" and "knocked out" Sullivan—but even the sporting columns are using fewer and fewer English words. Frenchmen and French women believe in speaking French.

If they can speak German and English, too, so much the better, but they are little disposed to speak two languages at once. Can't we learn a lesson from them, I repeat? We are very bad linguists; in this respect I feel myself to be a native.

But am I a better linguist for making an international scandal of my table talk?

We all know the experience of the restaurant patron who complained because the bill of fare was printed all in French, but was assured that the cook was Irish. That seems to have mollified him, but it is right there that I make my quarrel. I have no grudge against good French cooking, for honest Irish cooking. I find this following paragraph in a journal, once kept in Paris:

"I thought I met a drunken man here for the first time. He was quite pleasantly intoxicated, although a portly, and took to speaking the few words of English he knew, bawling them out as he marches the boulevard. Sober, he spoke French; drunk, English. The man is a symbolist."

PECULIAR AND PERTINENT.

Switzerland is to put the ban on all artificial wines and driers, beginning next year.

It is estimated that the original supply of coal in the South underlying 57,698 square miles of its territory was 522,438,000,000 tons.

The name "gazette" as applied to a newspaper is derived from a small Venetian coin, the price of the first news sheet published there.

An electric process will detect accurately minute particles of bichromate of potash in solution. It is of value in chemistry and was discovered by a Parisian.

Some time ago at a gas manufactory at Ivry, near Paris, a turbine, propelled by jets of steam, was set running and driven 2400 hours or 150 days without a stop. Lubrication was supplied by an automatic oiler. As the speed of the circumference of the rotating disk was about six miles a minute a point on that circumference traveled during the 150 days almost five and a half times the distance from the earth to the moon.

My son, success cometh usually from the jaws of failure. My wife, however, goes forward but does not despair. Little things, and through a Want Ad many a life has been changed.

25 Per Cent. Off Open Stock Dinnerware

If you appreciate fine Tableware you cannot afford to miss this sale. The variety of patterns makes choosing a pleasure, and you have the satisfaction of knowing that you can always add to your collection, or replace missing pieces. Monday special 25 per cent. off marked prices.

YOUNG GIRL SPEEDS TO THE ALTAR IN FAMILY TOURING CAR

Lochinvar Stunt With Variations Pulled Off by Pennsylvania Couple

Waynesburg, Pa., Aug. 11.—Audacious changes in the Lochinvar method of elopement were made by Albert Stowell, 20 years old, and Edna Hathaway, 18, of Carmichaels, this county, who were married at Cumberland, Md., yesterday. A touring car was substituted for the charger, and Miss Hathaway played Lochinvar.

The young woman is a daughter of W. Hathaway, a wealthy business man. Her parents noted that every little automobile ride had a purpose of its own, and forbade her to use the family car. Yesterday the girl persuaded her mother to let her drive to the Jefferson farm. At the outskirts of the town the machine was stopped. Stowell, who was waiting, boarded the car, which was driven to Cumberland, where a marriage license was obtained, and a marrying party did the rest.

Stewart Stowell, a brother of Albert, received a telegram today asking him to break the news and to try his hand at pacifying the girl's parents.

GERMANY IS WROUGHT UP BY A SPY FRIGHT

Kiel, Aug. 11.—Germany has another spy scare. Following the arrest at Eckernforde of five Englishmen just landed from Copenhagen, and suspected of spying on the Kaiser's coast forts, a German sergeant, a corporal and a private have been arrested, accused of furnishing military information to England and France.

From the Englishmen, who had crossed from the Danish capital in a cutter, it is said many photographs and notes were taken. The men have been sent to jail in Metz, where they will be tried. In little more than two years Germany has punished eighteen foreigners or Germans said to be in foreign employ on charges of spying.

WOMAN AND 3 CHILDREN NEAR WATERY GRAVE

Hamilton, Ont., Aug. 9.—The Marjorie, one of the speed boats competing in the power boat race here, crashed into the Mohawk's bow, cutting it in two. The boat began to sink immediately and in less than two minutes was completely immersed, leaving the occupants, J. E. Laing, his wife, and two other women and three children, struggling in the water. Only the prompt efforts of several motor and row boats close by prevented a fatality.

ENGLISH TEACHERS KICK AT HIGH PRICES IN CANADA

Prominent Member of National Union of Teachers Says People Are Extravagant

Ottawa, Aug. 10.—"My, you're an extravagant people over here. Why, I can get a glass of beer in London for two pence and here they charge sevenpence. If a great many who are well off in England had to live here on their present salaries they'd dine off bread and butter."

This was an expression of opinion given The Free Press by Mr. E. G. Easton, L. C. C. London. He is here with a party of 23 teachers from the National Union of Teachers, London, England, who are at present visiting Canada, and will be in Ottawa today and tomorrow.

The union to which the teachers belong now has a membership of over 11,000 and includes some of the brightest intellects in the Old Country. The conductor of the party is Mr. Frank W. Goldstone, M. P. for Sutherland, and this morning he spoke to The Free Press, giving favorable impressions of the country and remarking especially on its tremendous magnitude.

Mr. E. G. Easton is another interesting member of the party. He is a member of the London county council, chairman of the drainage board of London, a member of the water board, and an ex-mayor of Fulham district, in London. His spare time, he fills in editing a dairyman's journal.

A party of teachers visited the Elgin street school this morning, and Mr. Easton expressed great admiration.

MURDERED FOR HIS MONEY

Six Bullets Fired into Light Tender Who Saved \$5,000

Mingo Junction, Ohio, August 4.—James Infirno, 40 years old, a light tender in the Cleveland and Pittsburgh yards here was killed at 7 o'clock this morning. He was bending over a switch lamp when two strangers approached and began firing six bullets struck him.

The Wants are always timely. They reflect today's needs and tell of imperative demands that must be met at once.

POINTED PARAGRAPHS

(From The Chicago News) Many a man's courage isn't skin deep. Worthless people are often more amusing than worthy ones.

When two smiles come together in a head-on collision the result is a kiss. A man likes to acknowledge his faults to a woman who insists that he has none.

Elgin street school this morning, and Mr. Easton expressed great admiration.

"It's a splendid school, right up to date in every way," he asserted. As a member of the water board in London, Mr. Easton was very much interested in the present typhoid fever epidemic. He didn't know the situation in Ottawa, but declared that the water ought to be treated by sedimentation.

"All our water in London rests for 60 days before use," he asserted. "By that time it is comparatively free from contamination."

He explained that the water was treated with sulphides of lime and other chemicals. It costs London a million dollars a year to keep its water pure, and he was surprised that practically nothing in this regard had been done by Ottawa.

"After years of research our bacteriologist has been unable to find a specimen of the typhus bacilli in our water."

Amazed at Prices Mr. Easton expressed amazement at the high prices prevailing here. In fact, all the teachers have found them quite a strain on the pocket book.

Although he is so busy with the municipal affairs of the big metropolis from which he comes, Mr. Easton was also keenly interested in sports. The Canadian sports, however, he didn't seem to care for.

"I've seen baseball," he remarked, "and I don't care so much for it as for cricket. Lacrosse does not take much in England, while hockey is considered a girl's game over there. The girls get on skis, protectors and play all the hockey that is played in England."

Another member of the party is Mr. Walter Harbord, who is endeavoring to introduce a new form of immigration into Canada. He is one of the oldest head teachers of the London county council.

MONDAY, AUGUST 12, 1910
DR. ESTEY'S RESIGNATION

The position in which Dr. Estey found himself as medical health officer for the city of Calgary such that the announcement of his resignation will cause little or no surprise.

Holding him responsible, after careful enquiry, for mismanagement of the smallpox hospital and for the seeming flippancy with which, when questioned, he dismissed objections to the inadequate accommodation at that institution and declared that many of the patients engaged in "bathing", a majority of the members of the city council recommended his dismissal. By resigning in office despite this recommendation precipitated the resignation from the board of health of one of the alderman who had voted for his dismissal, and created a situation which must inevitably have led to relations more strained than those which now exist between the city council and the board of commissioners.

In the circumstances Dr. Estey will gain credit rather than lose credit with the general public by the step which he has taken. Whatever opinions may be held concerning his fitness for the position of medical health officer or his performance of the duties of that position, he is very generally esteemed as a genial personality and a capable medical man, and many, even of those who have been obliged to condemn his actions while in the service of the city, will wish him every success in whatever position he may choose to fill.

No pains should be spared by the city council to fill the vacant position at the earliest possible date with the most capable man who can be secured. The municipal body is concerned with no matter of more vital importance than that of the public health. The need for more effective treatment of the problems arising out of the work of this department has received special emphasis of late from the experience of Ottawa and other Canadian cities where the public health has been seriously threatened by conditions which might easily have been prevented. The prevalence of typhoid fever in this city during the present month serves only to enforce the argument for the immediate establishment of a health department which shall exhibit the very highest degree of efficiency. Such a department must be directed by a man who, in addition to possessing expert knowledge of matters affecting the public health, has also the qualities that will ensure an unflinching enforcement of such regulations as may from time to time be made. Such a man are to be found in the Dominion and the ratenayers of Calgary will not begrudge the payment of whatever salary is needed to secure the services of one of them.

CHURCHILL'S PROPOSED VISIT

Late dispatches from London clearly indicate that it has not yet been decided whether Premier Borden's informal invitation to the First Lord of the Admiralty to visit Canada in the immediate future will be accepted. The first flush of enthusiasm with which the suggestion was greeted on both sides of the water has been followed, upon more sober reflection, by a doubt as to the advisability of such a visit at the present time. The Montreal correspondent of one of the great London Unionist organs declares that the general opinion in Canada is that a visit from Mr. Churchill at this time would be "doubtful strategy", suggesting that "it is likely to be interpreted as an attempt to exercise Imperial pressure in respect to the naval program of Canada."

We are not prepared to say whether the Canadian correspondent is correct in his diagnosis of the state of public opinion in the Dominion. It may be accepted as a general rule, to which exception is made only by circumstances of peculiar import, that Canadians are prepared at any time to extend a warm welcome to British ministers who may honor this country with their presence. The future welfare of the Empire is bound up with the maintenance of amicable relations between the home government and the overseas Dominions. Those relations can be sustained only by the sympathy that is born of understanding. With the rapid growth of the Dominions' new interests are developed, relations with other countries within and outside the Empire become increasingly complex and new and unexpected problems arise calling for the most careful treatment. It becomes imperative therefore that British ministers should thoroughly familiarize themselves with the condition of public opinion in each of the self-governing Dominions which make up the Imperial family. Any proposal which tends to the establishment of closer intercourse is therefore to be welcomed.

The visit of the First Lord of the Admiralty at this time presents peculiar difficulties arising from his official position and the problem which has been agitating the minds of Canadians. Recent dispatches to Canadian Conservative journals declare that Mr. Churchill will constitute himself an

evangelist of "Imperial sentiment"—a vague phrase whose meaning may be found anywhere between the limits of the most admirable and most objectionable sentiment. The wisdom gathered by Mr. Churchill during his progress towards the position of eminence to which his fine abilities have exalted him might be expected to ensure the utmost respect on his part of the susceptibilities of Canadians and he should hardly need to be reminded that any attempt to dictate a naval policy for Canada would be warmly resented by members of both the great political parties in this country. If he should come to Canada it would be necessary for him to avoid even the appearance of dictation. This, as many have suggested, will in the circumstances be a task of no little difficulty and its successful performance will make the most exacting demand upon whatever measure of tact he may possess.

The announcement of the decision reached by those in whose power it lies to say whether the proposed visit shall be made will be awaited with keen interest.

MORE OUTLETS NEEDED

Speaking editorially of the report that the government is making provision for cheap railway rates on grain to the south early in the season The Grain Growers' Guide says:

"This is a wise move on the part of the government and one which is greatly needed in the West. There is certain to be another realty blockade and congestion at Fort William as well. These low rates to the south should begin with the opening of the grain season and not terminate until the last bushel of 'out-of-condition' grain has been treated next spring. There is neither sense nor reason in urging men from all parts of the world to come to Western Canada and raise grain and then to punish them for raising it. All the protectionists that ever lived cannot stop the demand for better markets for the West. Cheap rates to the south will help towards this end."

AN IMPORTANT GATHERING

The forthcoming international conference, to be called for the purpose of discussing measures for ensuring more adequate protection of life at sea, cannot fail to accomplish much good. With the lessons of the Titanic disaster fresh in mind the need for such action as should result from this conference requires no emphasis. One of the results of the gathering should be the enactment of such laws as will require the installation of the wireless instrument on every sea-going vessel and such provision of operators as will ensure that a call for help will be received by every vessel within speaking distance. A system of patrols for the more generally used ocean roads has also been suggested and it is not impossible that some practicable and useful scheme may be devised.

By the combined efforts of experts in such matters, representing every nation of importance that sends vessels over the seas, it should be possible to do much to provide more adequate protection for the increasing thousands who from time to time are obliged to "go down to sea in ships."

Vest Pocket Essays
By GEORGE FITCH

NO one has ever found any particular excuse for August, and its only enjoyable feature is the fact that after it is over September arrives. In August the month seems like a summer resort. In August the minister takes a thirty-day leave on the nineties and makes a century run every other day. People who have perspired good-naturedly through July give up in August and say unkind things even to the minister who comes to tea. If August could be eliminated the amount of ill-nature in this country would be decreased about 45 per cent.

August has 31 days and there isn't a holiday among them. In August and July the thermometer occasionally comes down at night and visits the 70 mark, but in August it only gets a little less hot after midnight. People with 3200 mahogany beds and 11,000 rooms leave them in August and go down stairs to sleep on the front porch on a \$2.50 cot and a sheet. This would be a shocking thing to do in June, but nothing is very shocking in August.

Nobody works very hard in August except soft drink men and baseball players, who run better when they are hot, like automobiles. Even presidential campaigns are put on ice in August. It is no month in which to use burning language.

In August the world is divided into two classes—those who can run away, and those who have a face. It is not worth living in August, and a slipping porch, August can be endured very successfully at home, but the babies who have to live in a superheated tenement on sour milk very frequently decide that the month is not worth living in and retire from it. This causes hard feelings among parents and philanthropists, and it is generally agreed that the men who charge high prices for tenement rooms without windows, and the men who increase the price of ice to mothers in order to reduce it to saloonkeepers will eventually land in a climate which is always August or worse.

SIDEWALK SKETCHES
By HOWARD L. RANN

A PICNIC is a charity affair gotten up for the entertainment of certain varieties of bugs. It consists of a basket of dinner, a hammock, and a rain storm. The dinner is shared between the owner and seven kinds of ants. The hammock is shared by the owner and several mosquitoes. The thunder storm is used as terminal infatigable spot on which to lay it out and thirty minutes to make it look like the contents of a pie wagon that has been struck by an automobile. As in the bringing up of children, women do most of the work at a picnic. They prepare the lunch, pack the baskets and persuade the men to come. There is also one woman in each picnic who clears up the remains and washes the dishes. She is indispensable and the picnic cannot exist without her. Some towns have gone picnicing for years because their last willing picnic worker retired. They carry the lunch baskets and set up the hammocks in such a manner as to cause as much excitement as possible. The groans of the men who are performing these duties can usually be heard at a great distance.

Picnicers begin to appear sporadically in June and reach their greatest severity in August. When the epidemic is at its height a healthy person may have as many as six picnics a week and get survive them. A man who has been afflicted with picnics can be distinguished by the way one shoulder droops from carrying the ice cream freezer and also by his habit of looking nervously about him before sitting down. No man who has ever heard the terrible words "Henry get right up off that case, can help doing this ever after."

LETTERS TO THE EDITOR

MEDICAL HEALTH OFFICER

To the Editor of the Albertan.—

For several days there have been severe comment and reflections in your paper on the health board of the city. I have had considerable experience in public health matters and the administration of public health regulations, both provincial and municipal, and know somewhat of the difficulties of putting in force such regulations.

It is not necessary to enter into the question of whether Dr. Estey has performed his duty in the most satisfactory manner possible or not, but I do say that much of the comment and criticism that is directed against his health officer is preferred without due appreciation of the difficulties and trials appertaining to the duties which he is called upon to perform. The care of the public health and for the prevention and spread of disease are always popular when put in force against the other fellow, who is not fulfilling the requirements of the law, but it is an entirely different proposition when directed against ourselves. It depends on those of us agreed.

Instance. Take a person who is carrying on some business that is more or less of a nuisance, and is in violation of the public health provisions and which would occasion a good deal of expense to remedy, which he does not wish to incur. Possibly he is struggling along and cannot afford it, and if enforced against him, would probably put a struggling industry out of business. This man may be influential in his ward and have friends on the council board, who will not feel too well disposed towards the health officer for butting in and insisting on the law being complied with. Or again, a manufacturer, who to avoid expenditure will carry on his business to the injury and detriment of the neighborhood surrounding him, and who like the first man, is the officiousness of a health officer who insists on him complying with the health provisions and will threaten to shut down his works, if he is disturbed and will likely appeal to the council or those in authority to call the health officer off. Every one engaged in business and work knows that there is no department in any government from the highest down to the lowest, that it is so difficult to secure something like an adequate appropriation for, as the carrying out of public health provisions. The health officer, who is the checker will resist and refuse the most urgent appeals for the necessary funds to permit the occurrence of disease, and the avoid trouble, but when the community is threatened with some dangerous disease and an epidemic appears, the treasury authorities will want and spend money like water to stem public clamour and to remedy a condition which might never have occurred if proper preventive measures had been taken at the proper time.

On occasions of this kind someone must be made the scape-goat and the mantle is not always thrown on the most guilty shoulders. I have no doubt, without any knowledge of the facts, that the commissioners like all other bodies in charge of public health would have resented and refused (and they have done so, for anything I know of the contrary) the necessary means, support and money which the city health officer required to fulfill the duties of his office and protect the public health, and he had insisted on his demands being acceded to, and would have been told to keep quiet and not look for trouble.

There is no question that from the report of the meeting of the health board, that the press in its anxiety to secure sensational copy has enlarged on the facts in his position, and number of cases of typhoid having their origin within the city.

And right here I would like to say a word in respect to the wisdom of the press in publishing such headlines on such questions.

And it is not long as we have wells, and privies in close proximity, surrounding the small and in many cases crowded houses beyond the limits of our water works system, we will be liable to have typhoid outbreaks.

These people must have water and must continue the use of their wells, and privies in close proximity, and if otherwise provided with water, no health officer or any body of officials can entirely remove this cause of typhoid and cholera exist.

A few words and I have done it, is the crux of the whole situation.

No health officer, I do not care who he is or how efficient he may be, can secure the carrying out of the provisions of the public health act and the city health bylaws, unless he is carrying out his position, and is given a perfectly free hand in the performance of his duty, without restraint from those in authority, or him or interference from outsiders who may consider themselves aggrieved by the enforcement of the law. Further, he must be given the necessary staff, means and assistance to carry on his work efficiently.

No health officer can be given his duty and enforce the health laws and retain office on popularity. He is bound to make enemies and incur the displeasure of people, whom he is moving against for doing his duty.

Unless the city is prepared to make the city health officer's position secure to him without interference as long as he is carrying out the law and doing his duty, no competent and efficient medical man will accept the office and I do not think criticism of Dr. Estey is in order until it is satisfactorily established that he has had the means, support and assistance at his disposal which he ought to have had in the performance of his duty.

And from my knowledge of Dr. Estey, I am satisfied if given the necessary expert assistance, the hearty support of those in authority over him, and the means required to carry out the health bylaws, he will make a most careful, prudent and efficient health officer. And until he has a fair trial under the conditions as above set forth I do not think he should be condemned.

AN OLD HEALTH OFFICER

WANT GUARDS DISARMED

Miners Call on Gov. Glascock to Take Weapons From Them

Charleston, W. Va., August 9.—Declaring that if the mine guards were disarmed there would be no trouble and no violence in the strike district, 6,000 miners at Montgomery, Fayette county, today adopted resolutions calling upon Gov. William E. Glascock to disarm the mine guards.

If the operators insist on maintaining the guard system, only martial law, it is contended, can disarm the guards and send them to the district.

WEALTHY HERMIT LIVED IN PENURY AND GOES INSANE

Lived on Honey and Fruit and Hoarded Valuable Relics and Antiques

Burlington, N. J., August 10.—From a ramshackle, old country house set far back behind a gauntlet of trees from the highway that runs through this town between Philadelphia and New York, down a roadway so overgrown with weeds and bushes that it is a roadway no longer, they have carried Asa Schooley to the county asylum at New Lebanon.

All that was left of one of Burlington county's oldest families, he had lived there year in and year out—a hermit life of no communication with the outer world save on his annual trips into Burlington to pay his taxes. Many newcomers to this part of the country did not even know he existed, but a few days ago, a woman passing along the road heard groans from the direction of the Schooley house, and there found the old man stretched upon the ground. He had been ill for days, and had fallen as he tried to make his way to the high road.

What Cow

As now, as well as an early prairie creature, roams over the unimproved acres, and the big house that in former generations was thrown into the courtyard is all but fallen apart with age and neglect. Yet a commission appointed by the court to consider what property there might be left cash for the old man's support, has found the

INITIAL SHOWING
Of Women's Misses' and Juniors'
FALL SUITS AND COATS

TODAY we announce a special showing in our Ladies' Salon of the newest arrivals in Women's, Misses' and Juniors' Suits and Coats that are to be worn by the most fashionable dressers the coming season. We cannot go into a long dissertation here, for there are new creations every day arriving from the eastern fashion centres, but simply say that this display will be authentic. We describe some suits below. They are as bewitchingly pretty as beautiful materials, appropriate trimmings and charming styles can make them. Many exclusive and striking models are shown in the most advanced styles for fall.

These first suit arrivals are principally in neat, plain tailored effects in mannish serape, tweeds and whipcords, navy blue men's wear serape, navy blue whipcords and mixed tweeds in brown shades, all beautifully lined with heavy satin.

Very nobby suit for misses, in a loose-fitting, 28 inch double-breasted coat, made with belt at back, large side pockets, collar trimmed with black panna velvet; skirt in plain gored style, with side pleats. Materials of black and white check tweed. Ages 15, 17 and 19 years. Price.....\$18.50

Attractive style in Misses Suit in a pretty brown mixed radium tweed; coat in loose-fitting style, double-breasted, inlaid side pockets, tan trimmed collar with sets of small gilt buttons on lapel and back of coat. Skirt of plain tailored style with side pleats. Ages 15, 17 and 19 years. Price.....\$19.00

A similar number is shown in a radium tweed of a darker brown and tan, strictly plain tailored. Ages 14 to 20 years. Price.....\$23.00

A very special suit in splendid quality navy blue and brown men's wear-serape, strictly plain tailored throughout. Coat 31 inches long, made with plain tailored buff edges, 5 button effect with slightly rounded corners. Skirt, high waist with one side pleat in front and three in back. Women's sizes, 34 to 40. Misses 14 to 20. Price \$27.50

Worthy of special mention is this beautiful suit in fine quality short haired zebra line in dark and light brown, collar of tan leather and a 32-inch coat neatly trimmed with tan leather buttons and tan stitching. Plain tailored skirt with side pleats and fastenings, women's sizes only. Price.....\$29.00

The most particular women the world over have set the seal of approval upon the quality products of Huntley & Palmer. The reasons are obvious, for purity has always been the single purpose in every step of the making of these famous English biscuits, which are as delicious as they are pure.

We have just received a big, fresh shipment—40 varieties in all. We mention today some popular lines:

Arrowroot, per lb.	35c	Milk, per lb.	35c
Algeria, per lb.	40c	Nice, per lb.	35c
Cafe Noir, per lb.	35c	Osborne, per lb.	40c
Cinderella, per lb.	35c	Tea Rusks, per lb.	40c
Coronation, per lb.	40c	Swiss, per lb.	50c
		Brazil, per lb.	50c
Shortbread, Reading, per lb.	60c		
Creamy Chocolate, per lb.	35c		
Digestive Oval, per lb.	40c		

New Arrivals of Real Parisian Hair Goods

Women all over the city have been waiting for these. We know, and are taking this opportunity of letting all know that they are now on display at our Hair Goods Section. You have probably had difficulty elsewhere in perfectly matching your hair, both in shade and a texture. There will be no trouble in finding an extra effect here now.

We have recently engaged the services of a lady who has many years' experience in this particular department and those who are exacting in this important part of ladies' wear will find it a pleasure to consult her.

These Linen Centre Pieces Very Special 20c

Housekeepers who are fond of nice things for the home will accept this as good news. Few women there are who have too many.

6 dozen only pure White Linen Centre Pieces, 18 inches, with stamped designs for working. A wide range of particularly pretty patterns is selected from. Special.....20c

New York Footwear
Exquisite Types of Shoe Beauty as Worn on Fifth Avenue of The Big City

ON fashionable Fifth Avenue, New York City, this afternoon many of the most fashionably dressed women will be wearing the same make of shoe that the best dressed women in up-to-date Calgary will be wearing this fall—The Edwin C. Burt Shoe for women!

It is sufficient, then, for us to say that these dressy creations in footwear are of the leading New York make, and that we consider them good enough to offer our most particular clientele. For the coming season we are now showing the most perfect models in Burt Shoes. To the woman of refinement and good taste these will appeal strongly. They come in high 10-button tans and browns, 12-button suede as well as blacks; gunmetal in high and low cuts. The "Bachelor Girl" is a popular style in gunmetal and tan, button, ankle height, with fancy stitching in newest lasts.

The Shoe Section invites you to call and inspect these models just opened.

Premier Will Spend Week-End With Lord Roberts; to Receive Freedom of Glasgow

Doherty and Pelletier Will Sail for Home Friday; Hazen Leaves Aug. 21

The Canadian ministers' visit to Britain may now be regarded as closed. Hon. C. J. Doherty, who leaves London today for good, will spend a few days in Ireland and sail for home on Friday; Hon. P. Pelletier will accompany him. Hon. J. D. Hazen has decided to sail on August 21; Premier Borden, according to present arrangements, following two days later. The premier will spend the week-end with Lord Roberts, and attending the launching of the two public engagements will be the receiving of the freedom of the city of Glasgow, in recognition of his services to the Dominion, and attending the launching of the Australia on Friday. It is hoped Mrs. Borden will be able to perform the christening ceremony on this latter occasion.

Madame Ellis-Brown is holidaying at the coast.

Miss Alice M. Elliot spent the week-end in Banff.

Mrs. C. D. Strong is the guest of Mrs. W. A. Moore, Red Deer.

A. S. Corbett of Medicine Hat spent the week-end in the city.

Oswald M. Brown, of London, Eng., is a guest at the King George.

Miss Mabel Burkeholder left on Saturday night for the coast.

Mr. Bert Johnston, of Vancouver, is the guest of Mr. Fred Johnston.

R. S. Lake, brother of Sir General Percy Lake is in the city.

H. T. Gasson, dominion botanist of Ottawa, is spending a few days in the city.

Mr. and Mrs. F. MacKay of Glenora were in town Saturday en route to Edmonton.

W. J. Butler, of Halifax, accompanied by his daughter, Miss May K., are guests at Braemar Lodge.

Mr. and Mrs. A. W. Brown and daughter, Miss Kathleen, of Hamilton, are guests at Braemar Lodge.

Dr. and Mrs. H. Meek, of London, Ont., spent yesterday in the city en route to Edmonton, where a medical convention is being held.

Mrs. Max Well and children arrived in Calgary this week from St. Paul, and are now occupying their new home, 1730 Thirteenth avenue west, recently bought by Mr. Well.

Miss Louise Nelson of Medicine Hat and Mrs. M. McKay of Fredericton, N. B., who have been the guests of Mr. and Mrs. G. H. Bailey went to Medicine Hat on Saturday.

Mrs. Genevieve Lipsett-Skinner, who has been lecturing in the British Isles for the Dominion government the last five months, sailed for home last Saturday on the steamer Lauriat.

Mr. and Mrs. C. W. Sharp, Crescent road, River Heights, announce the engagement of their youngest daughter, Irene Marie (Rene), to Fred W. Harper of Calgary. The wedding is to take place quietly early in September.

Notes from the Alpine Camp

August 11.—The Alpine club's summer camp has broken up. The holiday makers gathered there have dispersed some west, some east, some to the club house at Banff. Some go with Mr. Wheeler on a two weeks' exploring trip through Strathcona park in the southern part of Vancouver Island.

Not long since, a party of whom the Hon. Mr. Elliott, of Vernon, former minister of British Columbia, was accompanied by his daughter, Miss Myra, who around the campfire one evening gave a graphic description of the beauties and difficulties of the journey. The wilds of woods and mountain, the foaming streams, the nesting lakes, the rich fishing, the steep ascents and rocky descents, the long and tiresome days of tramping, and the making a lasting impression on the memory.

A Stranous Holiday. Those who went energetically into the sport of mountaineering, from the camps in Yosemite Pass and Propector's Valley, have had a strenuous holiday; but they have breathed deep the fresh mountain air and have revelled in nature's beauties—the like of which are never seen from a lower level. They have learned at first hand what they never could learn from books of the character and conformation of the great Rockies, "the snow-crowned hermits" of the Canadian people. They have made new friends and revived old friendships. Their minds have been stimulated by intercourse with brighter minds. They have enjoyed the privilege of having with them a man of profound scientific insight, one who reads nature's signs as a desirable camping ground, but where can be made accessible for the intake of the necessary provisions remains to be seen.

Some carry away the scenic beauties on the films of their cameras, some in hand sketches in oils and watercolors; all carry away pleasant memories, and it is the wish of most to re-assemble for the summer camp of 1913 on the ground selected by the stalwart director, Mr. Wheeler spoke of Malheur Lake in the Yellowstone park.

Mr. Wheeler spoke of Malheur Lake in the Yellowstone park. It is the wish of most to re-assemble for the summer camp of 1913 on the ground selected by the stalwart director, Mr. Wheeler spoke of Malheur Lake in the Yellowstone park.

DR. HALL LECTURES ON "WHAT 20TH CENTURY WOMAN SHOULD KNOW"

The Great Moral Question is No Longer One About Which to be Silent

Mothers Who Do Not Tell Their Children the Great Truths of Life Are Criminals

Women Should Demand Same Moral Standards of Men as Men Do of Women

"What the 20th Century Woman Should Know" was the topic of a forcible, interesting, straight-forward lecture given by Dr. Hall, a physician of Victoria, who every year gives up some of his time to deliver lectures on similar topics throughout the country. It was delivered in the parlors of the Y. M. C. A.

The lecturer by the familiar quotation "Ye shall know the truth and the truth shall make you free," Dr. Hall spoke frankly about some of the great evils and dangers of the present age. Should Not Be Two Standards.

"If women knew the dangers they would be able to avoid them," said Dr. Hall. "And then not until women demand the same moral standards of men that men demand of women shall the great social evil be stamped out."

When Mothers Are Criminals. "Ignorance is no longer" termed as innocence. Mothers who keep the great secrets of life from their children are criminals. Children should be told some of these things before they are ten years old, and this knowledge will be a safeguard from the social evils that beset them, and of which a great many are innocent victims because of their ignorance."

The lecture was illustrated with lantern slides, which were interesting and instructive.

Does She Love Him? "Dear Miss Libbey: I'm at a loss to know what to do with myself. I'm engaged to a boy the age I am (20) and I feel sometimes that I should not be told some of these things before they are ten years old, and this knowledge will be a safeguard from the social evils that beset them, and of which a great many are innocent victims because of their ignorance."

Are Men Backward? "Dear Miss Libbey: I often read your good advice and help in your column with interest, and I ask you why most people get good times (as it is termed) and others do not. I am speaking of myself. Most of my girl friends have young men to take them about. Others have not, like myself. I want to know is it the girls' fault. Would you term it forward to seek men's company, or are the men to be blamed. I'm sure we are nice girls and like men's company. Hoping you are able to give a little help and good advice. READER."

Good Housekeeping

By Jane Eddington.

CELESTIAL SOUP. In mazy households celery soup is one of the distinct economies, for it is made of the outer stalks and tops. These are more valuable for soup at this time of year than at any other, for the new celery is greater than that which comes later into the market, and therefore contains more of iron, a constituent we are always seeking for in a wise plan of diet.

There are any number of variations on the subject of cream of celery soup, and there are many soups in which the celery has its own strength of flavor, like beans or potato, or it may have with it many other vegetables. In almost any case where milk instead of a meat stock is added, a white sauce—the thing that gives the soup body and food value.

CREAM OF CELERY AND POTATO SOUP.—Peel three small potatoes, cut up fine one head of celery, add a slice of onion and cover with a pint of boiling water. Cook until the potatoes are tender. Prepare the white sauce in a double boiler. Press the cooked vegetables through a sieve and add them to the white sauce, cook a moment, season to taste, and serve.

CELERY SOUP (Mrs. P's).—One cup of celery dice, half a cup of fine barley, browned, cover with three pints of water, and boil slowly two hours. When done add one tablespoon of flour dissolved in a little water, stir and cook until smooth. Add a cup of milk, salt to taste, and serve.

CREAM OF CELERY SOUP I.—Take parts of celery not suitable for the table and boil in water to cover. Make a quart of white sauce, add to it the strained water from the celery, boil one season to taste, and pour over a well-beaten egg.

CREAM OF CELERY SOUP II.—Parboil two cups of celery, cut into one-half inch pieces, in three cups of water for ten minutes, drain and then cook until tender in one pint of water and then rub through strainer. Sauté one cup of flour in butter, add a slice of onion, remove onion, add milk to the strained celery with one tablespoon each of butter and flour cooked together with pepper and salt to taste, which when strained is sufficient to make a good soup with one pint of water.

Another method of making the cream of celery soup is to put the diced celery into a mortar with a minced onion and then to pound the two until the juice is all drawn out. This is cooked in milk over boiling water for half an hour and then thickened with a tablespoon each of butter and flour cooked together as in making a white sauce.

The liquor from a can of corn is sometimes added to the cooking, and for the two are added to a white sauce. Equal parts of celery, carrot and potato, with a few shreds of cabbage, may be cooked together to make a well-flavored cream soup.

Another method of making the cream of celery soup is to put the diced celery into a mortar with a minced onion and then to pound the two until the juice is all drawn out. spoon of milk to the egg (in a soup plate). Stir smooth one-half teaspoon of flour in one teaspoon of milk and add to egg. Cut two slices of bread diagonally, cut into four triangular pieces, dip into egg mixture, and fry after bread is done.

BREADED VEAL CUTLET (Italian style).—Boil two ounces of spaghetti until tender, blanch and drain. Make a sauce for this by cooking a cup and a half of stewed tomatoes with a tablespoon of butter, and finally the yolk of an egg—this latter may be omitted. Strain the tomatoes and add to them a teaspoon of Parmesan cheese and finally mix in the spaghetti and heat up. Bread and fry cutlets, arrange them in the center of a platter with the spaghetti around them. A little of the red hot sauce, mixed with the bread crumbs in which the cutlets are rolled.

Either Parmesan or grated Swiss cheese is often mixed with the bread crumbs for breading plain veal cutlets without a sauce. It is one of the ways of adding fat to the dish.

MR. BLACKBIRD'S REVENGE

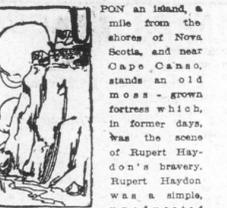

Once there was a Blackbird and his mate, who lived very happily together in a tree.

This was done, but in the night Blackbird summoned the rope and stuck from his ear and so beat the horses that very soon they were all dead.

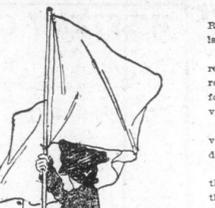

Next morning the king gave orders that the corpse of Blackbird be taken from the stable.

CALGARY SOCCERITES HAVE SWEET REVENGE ON EDMONTON, WINNING GAME 2 TO 0

Match Was Very One-Sided and But for Strong Defence of Visitors Score Would Have Been Much Larger; Local Custodian Had Clutch

(By Geo. Taylor.)

Those who went to Edmonton two weeks ago with but unimpressive team from Calgary, to witness the inter-city game, were surprised on Saturday at the slightest thing when team put up Edmonton in the north had been full weight, for their victory through Calgary were once misnamed, and might easily have shared the honors. The game was closely fought, one-sided to be really good, though many times some very clever plays were shown.

Calgary showed considerable improvement throughout the line that played the most important part in their two goal victory was the half back trio. Moving from the center half and bringing in Jimmy Peerie certainly made a difference. The line was well balanced, and it gave balance to the team. The victory over the first game in the game was the result of a great deal of interest, and only the right kind of weather was desired to make their way to Hillhurst park.

Here there was a hitch. The soccer man had arranged with President Savage that the baseball game should come at 2 p.m., in order to allow the soccer game to start at 4 p.m., but in fact, the baseball game was begun at 2:30, and by a quarter to four only six innings had been played, but the umpire called the game.

Had he not done so, it is hard to say what would have happened. The large crowd had gathered outside, and cars were arriving with full loads every few minutes. The crowd was going to see the game, and it was time to rush the gate.

Montreal was the first to start, however, and managed to hold the crowd in check.

Record Attendance. The attendance was certainly the best ever at a football game in Calgary, with the exception of the Corby game last season, and there would be quite 2,000 present when referee Sheldon blew for the teams to meet up about 10 minutes before the game was almost full, and the bleachers were packed, while large numbers stood around the fence.

Edmonton, in their amber and black, were the first to appear, and they greeted by a loud roar of cheering from the large number of followers who had accompanied them from Calgary. Blue and white, with Jimmy Haig at their head, soon afterwards sprinted out, and they met with a warm reception.

Haig won the toss, and the visitors were set to face a strong sun and wind in the first half. These were disadvantages, and were strange to the kind of ground such as at Hillhurst, but as Calgary was not at all in the line up about 10 minutes before the game, but exciting things one would expect a great deal of interest in the game, and both at Edmonton and Calgary, attracted large crowds.

Edmonton's Strong. The three halves were all useful players, and of them McIntosh was the selection, but play well though he did. A. Stewart got past him on a good many occasions, the winger's speed and accuracy, but when they were in the right place. The two efforts which did beat him no custodian could have saved.

McIntosh and Dickenson Good Pair. Coming back to the Calgary eleven, Melville and Dickenson played much better together than either did alone, and made a good pair of defenders, one that would be hard to beat.

Right Wing Dangerous. The most dangerous wing was the right, Nesbitt and Stewart making some good runs, but they were not so successful as they were in the first half.

THREE WORLD'S MARKS SMASHED AT THE AUTO RACES

Barney Oldfield Clipped Almost Two Seconds Off Record For Mile

Half Mile Mark Also Shattered by the Daring Speed King

Four Hundred Automobiles Loaded With Spectators Attend Meet

BANG!!! Bang!!! Bang!!! Whiz! Zip! A cloud of dust and a roar of motors from the four thousand spectators who were present, greeted the start of the auto races at the Hillhurst track on Saturday afternoon.

All this and more was done on Saturday at the new Gridiron track in southeast Calgary. It all happened so quickly that the four thousand spectators who were present scarcely knew what happened, until Cappy Smart, in his carefully maneuvered voice, announced that Barney Oldfield had travelled just a little faster than any man had ever done in Canada and faster by two seconds than any man in the world had done on a roadway course.

Barney negotiated the mile in 41.45 seconds and the old record for this distance was 43.25 made in Wildwood, New Jersey. A few minutes later he went the half mile in 18.1-1-2 seconds, a speed of 120 miles an hour, or almost two miles per minute. No official records are at hand for this distance on a roadway race course but the time was the best qualified to know, the best time ever made for this distance was a fraction over 19 seconds.

The Second Score. This was the only score in the first half and the second goal resulted from one of Stewart's centres. The ball went right across the goal mouth to Peerie, who cut the angle and hit the inside of the far post, the leather bounding into the net.

Calgary's First Goal. The first goal for Calgary came after about twenty-five minutes' play. Calgary having scored a corner on the left, and Stewart placed a flag kick perfectly in front of goal. Williams was the first to touch the ball, and hit the inside of the far post, the leather bounding into the net.

The Second Score. This was the only score in the first half and the second goal resulted from one of Stewart's centres. The ball went right across the goal mouth to Peerie, who cut the angle and hit the inside of the far post, the leather bounding into the net.

WESTMINSTER WINS YANKEE BOAT WON THE MINTO TROPHY

Royals Captured the Deciding Game From Vancouver 6 to 4 on Saturday

Con's Pets Made Game Fight, But Lost in the Last Quarter

New Westminster, B.C., Aug. 10.—New Westminster took a strange hold on the Minto Cup by defeating Vancouver at Queen's Park this afternoon by a score of 6 to 4. The Royals had no easy time, for Con Jones' pets put up a rough argument and at three-quarter time the score was 4-2. The Royals played the last quarter down grade, and scored the two odd goals.

The first quarter was a fast and exciting exhibition, Grumpy Spring bulging the net just two minutes and ten seconds after the opening of play. Phelan equalized for Vancouver in exactly the same time.

From then on there was a series of really beautiful passes engaged in by the two teams. The ball being alternately in the territory of either team, but fine defence prevented further scoring. Quarter time score: New Westminster 2, Vancouver 1.

Both teams in the second quarter, each team scored one goal, the first coming from the stick of Grumpy Spring for Westminster in the 10th minute, and the second from Dot Phelan, in the 14th.

The quarter was marked by a lot of dangerous scrimmages on the part of both teams, none of which proved effective in the face of the fine defence put up by both teams.

The third quarter started the fourth quarter, playing downhill. The penalties were costly. Vancouver scored 5m. Hugh Gifford, Westminster, 5m.

With the slight grade to the advantage of the home team, the final quarter in their old style, and the Vancouver team was kept on the defensive throughout. Westminster plugged the net after five minutes of play, and Len Turnbull scored the first goal for the home team.

The field was little better than a quagmire after three days rain, but the French-Canadians kept their feet in remarkable fashion under the weather conditions and had their opponents completely at their mercy.

One of the largest crowds of the season turned out in expectation of another exciting game between the teams and for the first quarter it looked like their hopes would be realized as neither side could score. In the second, however, the Nationals ran in six in a row and while the third quarter was also scoreless they duplicated their feat of the second in the final spasm.

Gagnon was fined \$25 for striking Ducaud down. Neville and Clement were fined for minor infractions of the rules and many others got away with some petty nasty work.

After an excuse influential members of the National club held a meeting and decided to inaugurate a strenuous campaign to pay off the \$23,800 mortgage on their grounds.

Baltimore, Md., August 10.—The ban on decorative goods which has been pronounced by the Catholic clergy of Europe and America in connection with social functions to which priests have been invited has been extended by the church to peek-a-boo parties and other less formal but equally sumptuous affairs.

Following an announcement from the pulpit of St. Martin's Catholic Church yesterday by Rev. Thomas J. Brody, the pastor, and Rev. Thomas Griffin, a temporary assistant, that such amusements were a profanation of the temple of God, Bishop Corrigan today said that the theme was one that any priest might well preach upon.

Summary: Two base hits—Godfrey, Pease; three base hits—Roche, Flanagan; double plays—Godfrey to Godfrey to Hurley; Hurley unassisted; struck out—By Manning 5; by Standridge 2; first base on balls—Off Manning 8; off Standridge 3; wild pitch—Standridge; time of game, 1:54; umpire, Lonanacker.

Summary: Two base hits—Godfrey, Pease; three base hits—Roche, Flanagan; double plays—Godfrey to Godfrey to Hurley; Hurley unassisted; struck out—By Manning 5; by Standridge 2; first base on balls—Off Manning 8; off Standridge 3; wild pitch—Standridge; time of game, 1:54; umpire, Lonanacker.

LAWN TENNIS TITLES WERE DECIDED ON SATURDAY

Close of Successful Tournament Marked by Fast, Exciting Games

Mrs. Dudley-Smith Holds Three Provincial Championship Titles

S. G. Wheatley Won Men's Singles After Hard Game With R. S. Carille

ON Saturday afternoon the finals in all the championship events of the Provincial Lawn Tennis tournament were played off on the grounds of the Calgary Lawn Tennis club, in the presence of about three hundred spectators. In the handicap events the finals of the mixed doubles are still to be played and it is hoped to have this played off this afternoon.

In the men's championship singles, the challenge cup donated by L. H. Doll and a memento in the shape of a cup donated by D. E. Black, were won by S. G. Wheatley of Calgary, who defeated R. S. Carille in the finals and now holds the championship of Alberta.

In the ladies' championship singles, Mrs. Dudley Smith of Calgary won the third year in succession, and thus becomes the absolute owner of the challenge cup donated by F. C. Lowe. Mrs. Smith also received a prize in the shape of a set of silver tea spoons, donated by Mr. R. T. Holman. Miss Mayne of Medicine Hat won second place.

In the ladies' doubles, Mrs. Dudley Smith and Mrs. Kenist took first place, and will hold for the ensuing year the challenge cup donated by Mr. E. H. Jilley.

R. T. Holman and S. Gullion of Calgary won the championship in the men's doubles by defeating Archer Young and W. C. O'Grady in a five set match in the finals. The challenge cup in this event was donated by Hon. W. C. O'Grady.

Mrs. Dudley Smith was again successful in carrying off the championship in the mixed doubles, this time with Mr. Holman as her partner. The winning of this event by Mrs. Dudley Smith and Mr. Holman gave the former the championships and the latter two. The challenge cup in this event was donated by Mr. F. P. Burns and Mr. McLaughlin of Medicine Hat won the second prize.

The ladies' handicap singles were won by Miss Mayne of Medicine Hat, who played a brilliant game against a handicap of 30, which was the back mark in this event. Miss Daniels of Red Deer won the consolation prize, which was a handsome handbag, given by the Flindley Drug company, and the second prize was a bag given by Young & Kennedy, Limited.

Mr. McLaughlin of Calgary and Mr. Burnham of Edmonton, won first place in the men's handicap doubles, and received a handsome handbag, and the second prize was a bag given by Young & Kennedy, Limited.

The men's handicap singles were won by C. Blythman of Maple Creek, who has held the championship of Saskatchewan for the past three years. Mr. Blythman started from the back mark, 40, and kindly donated the handsome travelling bag given by the Hudson's Bay company as first prize. Second place was won by K. E. Salamuth of Edmonton, who received an umbrella donated by Tommy Burns & Co.

Miss Mayne and Miss Soames of Medicine Hat, won first place in the ladies' handicap doubles, and received a set of books given by P. E. Osborne.

At the conclusion of the matches the president of the Calgary Lawn Tennis club called upon Mrs. R. T. Holman to present the prizes to the fortunate winners, and in closing the tournament thanked all those who had contributed to make it such an unqualified success. The thanks of the club and of the winners are particularly due to the ladies who so kindly provided tea throughout the week, to those who donated the secretary of the club, Mr. S. G. Wheatley, who was on hand every day and all day, and managed the tournament in such a capable manner.

THE PROVINCIAL GOLF CHAMPIONSHIPS TO BE DECIDED

The First Meet of Alberta Golf Association to be Held in Calgary

Open Championship to be Decided By 36 Holes Medal Play

Amateur and Ladies' Titles Will Also Be Decided

The first championship meeting of the new Alberta Golf Association is announced for the end of the present month, and will be held on the course of the Calgary Golf and Country club. The chief features of the meeting will be:

Thursday, August 23—Open championship of Alberta.

Friday, August 30 to Monday, September 2—Amateur championship of Alberta. Ladies' championship of Alberta, and other competitions will be announced later.

The open championship will be decided by 36 holes, medal play, and will be open to everyone. The entry fee has been fixed at \$5, and the first two prizes will be \$50 and \$25, to be taken in plate if won by an amateur.

The amateur championship is open to members of all associate clubs, and to all other amateurs who have been resident or domiciled in the province for six months. The entry fees for this are \$2 and for the ladies' championship \$1. Both are decided by match play, except the final of the ladies' championship, which will consist of 36 holes.

All entries must be made and fees paid to the secretary at least one day before the competition.

Hon. President—Mr. Justice Scott.
President—A. M. McKinnon, Calgary.
Vice-President—Dr. C. N. Coburn, Edmonton.
Secretary-Treasurer—Thos. Gillespie, Graman.

Bachelors Best Benefited.

The Post Office and Crescent Heights Hockey team selected, played a married vs. singles cricket match on Saturday; the single men winning easily, scoring 3 runs for the loss of one wicket, whilst the married men were all out one for 25 runs.

MONTREAL

Wing Wheelers Had to Work Hard to Keep Out of Cellar

Ottawa, Aug. 10.—It took seventy minutes for the fastest and most exciting lacrosse witnessed in Ottawa for many years to decide the Capitals-Cornwall struggle in the National union at Lansdowne park yesterday afternoon. The Capitals were eventually winners, and the final score was 2 to 0, thus giving the Ottawas club the distinction of being the only ones to score a shutout against the factory town this summer.

The Capitals added two more via Levele and Dooley, winning the match and thus remaining in the running for the Solman cup and the right to challenge Vancouver or New Westminster for the Minto cup. The result leaves Cornwall still at the top of the heap in Pioneer league, but the Capitals now have a chance of doing them, a feat which they can accomplish by winning their remaining games from Montreal and Shamrocks, and beating the Cornwalls on their own field two weeks hence.

GEO. SARGENT CANADIAN GOLF CHAMP

Toronto, Ont., Aug. 9.—George Sargent, of the Chevy Chase club, Washington, won the Canadian open golf championship over the Rosedale links today by the good score of 229. Sargent, who has won the championship of form as well as seen from the fact that his lowest score of 72 was only four strokes better than his highest. When play commenced this morning he led Charles Murray of the Royal club.

BASEBALL RESULTS IN TABLOID FORM

NATIONAL

Saturday Games.

Tacoma .. 000 000 000—0 0 0
Batteries: Krause and Lalonde; Bloomfield, Callahan, and Burch.

FORMER MAYOR BRAY DEAD

Vancouver, Aug. 11.—Marshall Bray, former mayor and for years provincial government agent at Nanaimo, died Saturday.

Mr. Bray was born at Oakville, Ont., in 1840, and came to British Columbia in the gold rush of 1862. Three years ago he was stricken with paralysis, which took away his power of speech.

How Robert Gained Advancement

A TRUE WANT AD STORYETTE

(Copyright, 1912, De Forest Fortes.)

"I claim," said the energetic business man of experience who had known the rise and fall of fortune for a little less than half a century, "that the opportunities for a young man today are better than ever before in history. I know this statement will be emphatically denied by many who will declare that the professions are overcrowded; that men are living on the wealth their fathers made before them, and that only those already at the top are really successful, and that the days of honest effort at the bottom of the ladder are long since passed."

"However that may be, I am not convinced that my point of view is entirely wrong. For instance, a young fellow came into this city one day as green as any watermelon you ever saw."

"He knew little about business. He had been a good scholar in the high school. In fact, had carried almost straight A's. He was something of a reader. His father, a practical man of affairs, signed over his Robert, fearing that the future held little for his son."

"It was just for this reason that he sent him to the big business man, to help him to do the real things, not read and dream about them all day. It was not a pleasant experience for Robert to be thrown into the street, just as you'd be thrown into the waters in order to learn to swim, but he was proud and persevering."

"He determined that he would not ask for aid from his relatives."

"His father should see that he could make his own way in the world without any help. His first position was as a clerk. How he disliked the stuff and the fussy women he was forced to wait on! Of all the things he hated, his spare time he spent in his dismal little room trying to get a better head system of his own."

"He needed more money, before he could do anything. One day a fellow-employee called his attention to the Want Ad column of a daily paper, and he saw that if he wanted to better himself at any time, there was always a chance through the Want Ads. The Wants opened a new world to Robert. It was a part of the great business world which he had never dreamed of, and it was just what he needed. He was not for the first time. The next week found him in a new position with increased salary and more leisure to command. It was through a Want Ad that he interested a man in his invention. It was an immediate success. Financially, Robert's future was secure."

"When he came back to the little country town of 2000, he gave his father a lesson in the modern methods of business getting and building. His father was not too old to learn, and when the family came to the city it was the Want Ad department which purchased a home, found servants and employees, and helped out the business on a firm financial basis."

"He was talking about it, concluded the man, lighting a fresh cigar. "For I am the father of the young man myself, and the story I have told you is the story of my experience with the Want Ads."

"The Wants radiate with opportunity. They are for the thrifty and aggressive who are alive to each day's chance."

"If you contemplate new plans for the future, call upon the Wants in being of service to you."

"Reading the Wants means being well posted regarding opportunity. The Wants afford a quick and inexpensive means of securing domestic helpers."

"The skilled worker who can broaden into larger spheres can find chances for betterment if he can make good by using the Wants to tell of his ability and experience."

"To the capable, conscientious and ambitious, the Wants point to bigger, broader fields, where endeavor counts most and where the high places are more easily attained."

CRICKET TOURNAMENT CLOSED; ALBERTA CHAMPIONS

Final Games Were Played on Saturday; Alberta Teams On Top

Calgary Had Easy Time in Defeating Last Year's Champions

Alberta Team Got Draw With Manitoba After Making Large Score

The third annual championship of the Western Canada Cricket association came to a close on Saturday, with Alberta the victors. It is a singular fact that each time the province in which the games were played, the representative team for that province came out winners. Calgary people and Alberta people especially, have every reason to be proud of the performance of their teams. Alberta have gone through the tournament without a defeat, having won five games, and on Saturday in the match with Manitoba, they made a draw after having knocked out the highest score of the whole tournament, 322.

Calgary have but once been defeated, and that was by the Alberta provincial team on Tuesday, and on Monday, owing to the rain, they could only make a draw with Manitoba, whom they defeated on Thursday. Their record thus reads six games played, four won, one lost, and one drawn.

Manitoba won only two of their six games, being twice and losing two, while Saskatchewan have been weak both in batting and bowling. Calgary have had a fine batting side, but their bowling could have been improved upon, and their fielding has not been perfect, and the best balanced side of the province was Alberta. They have had some useful men, both with bat and ball, notably Sharp, batters, and Hall, and another good man with the ball, Bertinshaw, batters. Winter and Morse have also been available with the bat, and in fact, every man on the team could be relied upon for runs.

Presentation of Trophy.

The cup was presented to the Alberta captain, Mr. Dickson, during the luncheon interval at the barracks grounds on Saturday. Mr. Dickson, after accepting the cup, spoke in admiration of the team he had led, and said he could not have wished to have had a better eleven. The selectors had shown good judgment in their selection.

The toast of "The Calgary Cricket club" was drunk with musical honors, and they were thanked for an excellent performance. The ladies also were not forgotten for the large part of the visiting players. King Richardson, the secretary of the tournament, fittingly replied.

Nettleton was presented with a ball for having performed the "bat trick," the only one made in the tournament.

Alberta vs. Manitoba.

Some fine batting was seen in the match between Alberta and Manitoba, played on the barracks grounds. Alberta knocking out a score of 322 for the loss of only eight wickets. Seventy-six by Napper, not out, was the highest total of the inning. Knocking no fewer than seven sixes and seven fours, his innings only including six strikes, he and Morse added 113 after the eighth wicket had fallen before the innings was declared closed. Morse being credited with 45 runs, Winter 59, and Bertinshaw 44, were other good scorers. The highest scorer for Manitoba was Trotter with 102, which included one six and sixteen fours. Only four men were out when time came to draw stumps, with the score standing at 157.

Saskatchewan were easy victims for Calgary, making only 138. Calgary making 122 for the loss of only six wickets. Edwards and Gurney made only one stand of the innings, the former making 52 and Gurney 22. Morse being dismissed very cheaply, with the exception of E. H. Hartley, who knocked out 32 before he was bowled by Bell, Johnson again made a very useful score of 81 not out, and King Richardson played well for 48. The scores were:

Saskatchewan.
Stephen .. 10
R. A. Gurney, b Bell .. 20
N. Bracewell, b Bell .. 20
Cane, Patis, b Bell .. 0
E. H. Hartley, b Bell .. 42

YOUNG WOMEN CAMP ON LAND OFFICE STEPS

Undismayed by Rigors of Chilly Night Hold Places in Line to File on Land

Cuddled on Automobile Cushions Watch Hours of Night Slip Slowly By

Waiting in the chill night air, together with six men, two young women braved the possibilities of grip in keeping vigil on the steps of the federal building last night in order to file upon selections of land. For a while a big automobile stood in front of the land office door and through the gallantry of the male contingent the two young ladies were permitted to vacate their posts long enough to seek short snatches of comfort within the tonneau of the touring car.

As the long hours of the night crept onward toward daylight the two young heroines—they are young and handsome—to-withdraw the cushions from the automobiles and took up their position on the stone steps.

Cojuring and promises of bribery, including the finding of an eligible "bired man" to manage the prospective ranches, was unavailing in getting the fair buds to disclose their identity, and the men, succumbing to the winning smiles of the twin were as adamant.

"Why this is a great lark," said the little brunette cuddled up in a corner on a big cushion.

"But wouldn't it be just horrid," vouchsafed the one of the brown tresses, "if we sat up all night and then in the morning failed to get our land?"

But such is the stuff of which the average Canadian miss is made, and of such material great empires are build-ed.

The wants will provide employment. Auto owners, dealers, repair shops and garages find the Wants a profitable market place.

The Wants wield a tremendous influence in the realty market and are the means by which landlords, agents and tenants meet.

SETTLER'S EXCESSIVE EXPRESS RATES

Outrageous Conditions Which Are Retarding Growth of Country and Making Life of the Homesteader a Hardship

Cochrane, Aug. 10.—Here is a little story for the edification of old Ontarians, who are inclined to regard the "stake" of the New Ontario settler as unjustified, and who think that the present government is doing great things for the northland.

William Thompson is a splendidly built, blue-eyed fellow, about 50 years of age, who owns one hundred and sixty acres of land in the clay belt just behind the town of Cochrane, N. O., north of Matheson. Four years ago this autumn he took this land up. There was no timber on it, and he had to clear it himself. He had faith and hope and located just the same. He moved his wife and household goods to Matheson and then back into his farm. You can't stop some men, and when Thompson found that there were no trains he hit on an expedient. There was a hand cart at Matheson, and he loaded it up with his stuff and cheerily pushed it ten miles along the track to Nushka.

Then he had to get back to his farm, and his "road" was the thing that the special train was made for. The road consists of a winding path through dense brush holes and quivering mud, and is a real "road" in the true sense of the word. It is a real "road" in the true sense of the word. It is a real "road" in the true sense of the word.

There may be another side to each of these stories. If there is it is about time somebody in authority in the government office is just another name for political worker. You are told remarkable stories of the government officials in the north. It is pointed out to you that Ontario is evincing the most languid interest in the great task of getting settlers.

It sounded like a fable, but the story was true. Chinaman Told a Missionary of Drowning in Niagara Falls. How News of Tragedy Reached Dr. Robertson in China.

Toronto, Aug. 10.—Far away in south-central China a missionary from Toronto, Dr. W. E. Robertson, was conversing about a month ago in Chinese with his native teacher. The Chinaman told the doctor a long story, which at first sounded very much like a fable, and which he translates as follows:

"There were," said the native, "seven people floatin' on a piece of ice. Three jumped off, but the ice floated away with them. Two more got in, but the ice broke up and they were drowned. One piece floated to Canada, one piece floated to the United States. One who was off saved a woman with rope, but later lost his own life trying to save the other. One man had not been in the boat for a long time, but he was too far up. His arms played up, then he tried to hang on with his teeth, but finally dropped into the water. The Chinaman did not know the name of the woman who was saved, but he said that it was a 'wheel,' or something that whirled. From this somewhat disjointed story Dr. Robertson at once inferred some catastrophe must have happened in the Niagara river, and in a letter he solicits further information.

High Chaired on Heels. If a man could profitably stock his farm with chickens and ducks, Mr. Thompson might make money. He had a few chickens and ducks, but they were not doing well. He had a few chickens and ducks, but they were not doing well. He had a few chickens and ducks, but they were not doing well.

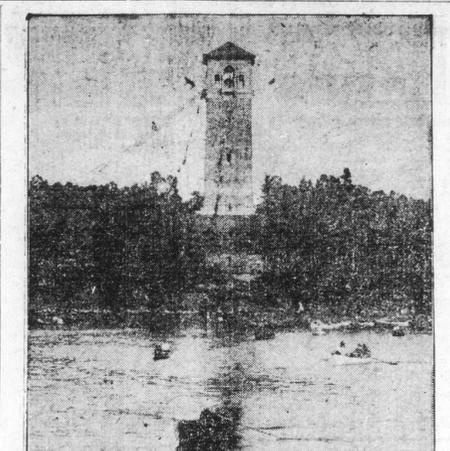

Thompson felt that he had to have a pig, and he bought one from a man in Orilla. He had him sent to him by a man in Orilla. He had him sent to him by a man in Orilla. He had him sent to him by a man in Orilla.

Howell Rescues Settler. A couple of scores of the more venturesome undertook to follow Thompson's colonization road to a little town called "New Ontario." The road was a narrow, winding path through dense brush holes and quivering mud. The road was a narrow, winding path through dense brush holes and quivering mud.

STEAMER REACHES PORT WITH BATTERED STERN

Rensselaer, Which Rammed Steamer Gayley in Fog, Manages to Make Marquette. Dense Fog Overhanging Lake Superior Causes Grave Danger to All Shipping

Sault Ste. Marie, Mich., Aug. 10.—With badly-battered stern, but still able to keep afloat, the steamer Rensselaer managed to pick her way through the dense fog which hung over Lake Superior, which had rammed the steamer Gayley off Manitowish Island, Lake Superior, Wednesday night last, and early reached Marquette. When her stern was damaged, the Rensselaer was dispersed later by the news of her arrival at Marquette.

Expedition to Search for Treasure on Cocos Island. Fabulous Treasure Reputed to Have Been Buried by Pirates On Pacific Island. Two Ladies Said to Have Discovered Hiding Place of the Treasure

London, Aug. 10.—Once more Cocos, a tiny island in the Pacific ocean, is to be visited by an expedition in search of the fabulous treasure reputed to have been buried there by pirates. Two women who were on the island last year are said to have located the precise position of the hoard, which successive parties have failed to discover, and a syndicate has been formed to pursue investigations.

EMULATORS OF BARNEY OLDFIELD ARE SUMMONED FOR SPEEDING

The Swift Locomotion "Bug" Races at Great Speeds... Constables Lying in Wait Book Heavy Day's Business as Cars Fly By

Points of Merit Will be Settled by Police Magistrate Today

Twenty-six owners of automobiles will face the bar in police court today to explain to the magistrate why they opened an opposition against Barney Oldfield Saturday.

Mounted Constable Gilbert and Constables Dore and Carstairs are responsible for securing the entries for the great speed exhibition, and the scene of the entertainment is located somewhere in the eastern portion of the city where the streets are wide and the paving good.

As the man left the store, one of the employees followed him while the suspicions of the detectives were directed upon him. He was arrested at something like 60 miles an hour.

As the car sped by it required but a lightning mathematician to keep track of the numbers. Before half the mile had finished the constables had used up all their notepaper and were making telegraphic notes on the fence of their cuffs.

How many have you? said Constable Art Rick calling the constables to his attention. The yellow car leads by nose, but the big touring car is picking up ground, said the constables.

As the first big race the constables had officiated at there was an argument as to who won. It was decided to give all participants an opportunity to settle the matter by a hearing before the magistrate.

LARGE QUANTITY OF STOLEN BANKNOTES

No less than \$2,020 in notes stolen from a branch of the Bank of Montreal in New Westminster on the night of September 15, 1911, when \$350,000 disappeared, were found in a grip belonging to Davis, and of the other amount of \$7,500.50 which the man had in his possession, the officers allege much was obtained by changing groups of the stolen notes. Davis is maintaining silence as to the manner in which he got the notes.

Secured Numbers of Notes. Tipton then thought it would be advisable to get a list of the numbers and series of all the noted notes. He secured this from the bank and had numerous copies of the list made out. These he left with the proprietors of hotels, cigar stores and many other places at which money changes hands.

Woman Passed Notes. The police were of the opinion that he knew the truth concerning the bill, for it was believed he left the city almost at once. On August 7, a woman made a small purchase at the cigar store of William Goldstein & Co., 32 Yonge street, and tendered one of the missing bills.

Emulated Oldfield. Oldfield must have broken out of the grounds, so quickened the mind of the law for someone is after him. Then the three officials were called in.

As the man left the store, one of the employees followed him while the suspicions of the detectives were directed upon him. He was arrested at something like 60 miles an hour.

How many have you? said Constable Art Rick calling the constables to his attention. The yellow car leads by nose, but the big touring car is picking up ground, said the constables.

As the first big race the constables had officiated at there was an argument as to who won. It was decided to give all participants an opportunity to settle the matter by a hearing before the magistrate.

As the man left the store, one of the employees followed him while the suspicions of the detectives were directed upon him. He was arrested at something like 60 miles an hour.

LORD STRATHCONA

EARL NELSON

ANOTHER SUSPECT IS IN CUSTODY

Schepps said today that he has not decided whether he will join with Rose, Vallon and Webber in a confession. The alleged go-between added that he would make up his mind on that question through the way east. The arrest was made through a detective agency.

Conspiracy Charged. Schepps is charged, with in the conspiracy to murder Rosenthal, and rode in the gray automobile in which the slayers were carried to and from the scene of the shooting and also paid off the gangsters after they had completed their work.

More Money Found. Efforts of representatives of District Attorney Whitman to uncover the bank deposits resulted today in locating five more banks in which accounts were credited to the name of Becker and his wife, representing to the fact that those bills were in the West Side Savings Bank, deposits of over \$25,000.

Mr. Will Stevenson of the Calgary Clothing company left yesterday for the fact that those bills were in the West Side Savings Bank, deposits of over \$25,000.

As the man left the store, one of the employees followed him while the suspicions of the detectives were directed upon him. He was arrested at something like 60 miles an hour.

THRILLING RESCUE OF WHITE PRISONER IN THE WILDS OF CENTRAL AFRICA

(George Sanford, who tells this story, is a rubber trader, explorer and big game hunter. He has been in the wilds of Central Africa for many years.)

For that reason, when Guy Stanton, Fred Churchwarden and myself left Mokopon, in 1889, to trade with the natives for skins and grain, we armed twenty of our Kaffir boys with rapid-fire rifles. We didn't expect trouble with the natives, for they were friendly to white men, especially traders, but we knew their wholesome love of a fight, and that for the fight's sake and nothing else.

Enlisting With the Blacks. We three Englishmen had talked things over with Monksio and had decided upon a plan of campaign. The twenty Kaffirs armed with rifles were stationed at the artillery. Twenty-five of Monksio's own braves armed with assegais, spears and bows were the main body of our band of warriors.

A Spirit of Unrest. We did a bit of trading with Monksio's people, but the old man and all his braves seemed a mighty restless, and we knew there must be something afoot which was even more interesting to the blacks than swapping skins and grain for salt and calico.

A White Man Captive. And, last of all, Monksio said, partly in his native tongue, partly with his native hands, and with a few words and a flourish of his arms, that he was never permitted to wander away alone. Half a dozen warriors watched him constantly.

Campaign Begins With a Drunk. We three laughed until our sides ached at this more picturesque than accurate description of Waring. There was no reasonable doubt that it was Monksio who referred to "I am 6 feet and 10 inches, and Alfred Waring is almost half a head taller."

As the man left the store, one of the employees followed him while the suspicions of the detectives were directed upon him. He was arrested at something like 60 miles an hour.

As the man left the store, one of the employees followed him while the suspicions of the detectives were directed upon him. He was arrested at something like 60 miles an hour.

The New York World's idea of the Progressive Third Party Convention in Chicago.

There were cracking of heads and sitting of throats a-plenty even to satisfy the warlike Bechwana, but we numbered the enemy, and we soon had them seeking cover and scurrying for their village. We thrashed on after them through the heavy growth, but they knew the country and hid. Only it was evidently a hunting party we had encountered, and following the trail they led through the forest.

A Glimpse of a Fiery Red Head. There were no European tactics this time. We let the natives fight their own way. With a howl that split the air they dashed to the walls of the stockade, but the remnants of the hunting party had prepared the tribe.

Waring Fights For Freedom. Suddenly there came a great outcry from within the stockade. The savages were inside that pain mingled above it all the shouting of a white man. We could not figure out what was going on, there was a great crash against the wooden gate.

The Closest Call I Ever Had. Before I knew it a pair of strong, greasy arms were about my body, and I found it hard to breathe. I managed to get my forearm under the chin of the man who was crushing me, and pressed his head back until I thought his neck must break, but he wriggled and squirmed, trying to throw me to the ground.

As the man left the store, one of the employees followed him while the suspicions of the detectives were directed upon him. He was arrested at something like 60 miles an hour.

As the man left the store, one of the employees followed him while the suspicions of the detectives were directed upon him. He was arrested at something like 60 miles an hour.

LIBERALS WON'T CONSIDER MASTER OF ELIBANK PLAN

Edinburgh, Aug. 10.—The Midlothian Liberals have rejected the advice of the master of Elibank, who yesterday issued a manifesto in which the Midlothian liberals to withdraw their own candidate and support the labor candidate in the by-elections for the seat which he has just vacated.

OLD RECORDS SHOW THE MAYORS WERE PIRATES

Southampton, Eng., Aug. 11.—"The Black Book," which is among the finds made by the Southampton Record Society, is filled with quaint accounts of pirates.

It appears that in the "good old times" the mayor was for all practical purposes merely a pirate. Ships which came in from foreign parts used to have their cargoes seized and landed.

As one of the members of the society reads the old records, he is reading for some of the old Southampton families, who will learn for the first time that their ancestors were doing long ago.

MONTRÉAL'S POPULATION IS ESTIMATED AT 530,437

Montréal, Aug. 10.—According to the latest directory Montreal proper has a population of 530,437, and with its suburbs 602,447. The directory contains about 172,125 names, and represents a population of 602,437 for the outside, or deducting for the outside, Westmount (17,000), Maisonneuve (30,000), Outremont (7,000), Verdun (18,000), a population for the city proper of 520,437. The directory number 1,432. In 1901 the city's population, according to the census, was 420,181; in 1901 it was 265,826; and in 1911 it was 465,197.

THE MARKETS

CRAP ESTIMATES SEND THE BUYING MOVEMENT STILL PRICES DOWN AT CHICAGO CONTINUES ON NEW YORK BOURSE

Predictions That Next Month's Official Figures Will Exceed Present Estimates

Chicago, Aug. 10.—Predictions that next month's official figures on the yield of spring wheat would run fully two bushels an acre above the present estimate, had a depressing influence on wheat today.

It is asserted in some quarters, that the government total for the spring wheat crop should have been heavier by 40,000,000 bushels, especially as the general figures for Kansas were alleged to be less than those of the state report, which made a much more bullish exhibit.

London, Aug. 10.—An advance in C. P. R. 1-5-8 was ascribed to buying in the Berlin market. There is at least a sympathetic feeling in this market.

United States securities were largely dealt in, and favorable crops had a generally adverse effect on the market.

That in addition to all other matters, the St. Paul option was called in each year during the currency of the said debentures, on all the rateable property in the City of Calgary...

Dear Sir:
Re policy 1605-11171.

Will say that I am very much pleased in the manner in which you are treating me and returning my note as per your letter of Aug. 5th, and will say that I am farming extensively in the Taber and Cardston district and next year should I insure my crop I will give your company the greater portion of my business, if not all.

I will also recommend inquiring friends to your company and let them know in the way I have been treated.

Yours truly
W. E. Bullock.

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber the same as there is in tea, or in paint, or in most other articles. Cheap cull lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a dilapidated cheap look, making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality considered, our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.
