## METHODIST CHURCH DISTRICT MEETING

All Ministers in Attendance and Nine Circuits Represented by Lay-Delegates

The Annapolis District of the Methodist Church convened in Annual Session, with Rev. C. A. Munro in the chair, on Tuesday, June 7th, continuing throughout that day, and the next, in the Church at Margareville. This meeting every year is of much interest to the Methodist people of this end of the Valley. All the Ministers were in attendance, and nine of the twelve circuits in the District were represented by lay-delegates as well as by their Ministers. The work of the Conference year just closed was reviewed in detail. Each year the undisputed fact is revealed that the work of the Christian Ministry is becoming increasingly difficult and distracting, so much so that today the pastors are unable to devote their entire time and energy to spiritual interests. Of the occasions for serving tables there is no end, with the result that definite and distinct spiritual fruitage is very meagre, on most fields.

Despite these exacting demands on their time the Ministers last year, without exception, honestly and earnestly endeavored to justify their ministry, and succeeded, as the reports indicated. Substantial membership gains on the Bridgetown, Middleton, Bear River, and Berwick circuits, and other gratifying results, including growing liberality and increased loyalty of the people, tell the story of the year. Special mention was also made of the good progress in the Sunday School and Young Peoples' Departments; one circuit reporting no less than nine fine young people's activities. The practicability of local church union is being demonstrated at Berwick, Bridgetown and Annapolis.

The appointment of conference committees and preparation of reports to be presented at the Annual Conference concluded the business of the District, the delegates returning to their homes with high appreciation of the great kindness of the good people of Margareville. Rev. G. T. Bryant, and Messrs. Henry B. Hicks and A. O. Price attended from Gordon-Provident United Church, Mesdames Hicks and Price accompanying their husbands, spending a very delightful day at the sea shore.

The thirty-eight session of the Nova Scotia Conference which convenes in Berwick today, and continues throughout the week and into next week will bring together ministerial and lay delegates from all parts of the Province and Bermuda. The retiring President is the Rev. F. Frigins, of Canaan. His successor will be the choice of this Conference, but at this moment the man upon whom the official mantle will fall is a subject of conjecture.

That the right man will be selected there is no doubt. Bridgetown Circuit is represented by Revs. Dr. Jost and G. T. Bryant, Dr. M. E. Armstrong, and Messrs. Henry B. Hicks and Fred E. Bath. The following ministerial changes are

contemplated:—Berwick: Rev. C. H. Johnson goes, Rev. A. R. Reynolds comes. Middleton: Rev. J. Appleby goes, Rev. J. G. Hockin comes. Bridgetown: Rev. G. T. Bryant goes, Rev. J. H. Freestone comes. Bear River, Rev. W. J. Wright goes, Rev. C. M. Mack comes. Digby: Rev. A. Hockin goes, Rev. W. H. Watts comes. This is the first time in recent years that the Conference has met at any point between Windsor and Yarmouth. We anticipate that Berwick will rise to the occasion and dispense a generous hospitality, characteristic of the good folk of that town and vicinity. This, together with a splendid program, inspiring leadership, a fine church plant, charming surroundings, etc., will help to make the Conference of 1921 memorable, and a mutually pleasurable and profitable occasion to both hosts and their guests.

### "THE POOR SIMP"

The disastrous mental effects of falling in love are humorously depicted by Owen Moore in a Selznich farce, "The Poor Simp" to be shown in the Primrose Theatre on Monday and Tuesday, June 20th and 21st. Comedy-dramas as clever as "The Poor Simp" are rare. It abounds in wholesome, effortless humor and can be relied upon to please most any type of spectator. An original slant on the falling-in-love theme, it shows the purely laughable side of being victimized sentimentally.

"The Poor Simp" was a sane young man until he fell in love. After that he ceases to be accountable. A blow on the head increases his mental instability, a doctor tests out a mental suggestion cure on him, and one jolly scene follows another. There is a generous amount of that modern something, best described as jazz, that will put this picture over with a vim.

Owen Moore is an agile comedian, mentally and physically. His clownish characterization is a credit both to himself and his director. The direction throughout is excellent, and the same can be said of the photography.

### RAINMAKER ASKED TO QUIT

Medicine Hat.—Old Jupiter Pluvius must be on friendly terms with C. M. Hatfield, the rainmaker. After making rain for about a month, prairie farmers have asked Hatfield to turn off the moisture for a few days. Tillers of the soil, who for years have been experiencing droughts, are satisfied that Hatfield can deliver the rain as per contract, and as Hatfield has already made about \$3000 for the past month's work, everybody is happy except those who continue to sneer at the rainmaker's scheme.

Whether or not Hatfield's presence in the district is responsible for the rain has come since his arrival. Old timers declare they have never seen such heavy precipitations or such a continuous presence of so many heavy clouds.

"Your constituents expect a great deal of you."

"Yes," replied Senator Sorghum. "Expectation properly managed is an asset. My success in politics is due to the fact that while I was often compelled to disappoint my friends I always managed to keep 'em hopeful."

The editor of the MONITOR and wife are travelling C.P.R. the entire route.

We left Bridgetown Saturday noon, May 28th via D.A.R., arriving in Digby on time.

After enjoying the week-end with relatives and friends in our old home town and vicinity we boarded the S.S. Empress at 2.00 p.m. Monday, May 30th.

We were kindly received by Capt. MacDonald and Purser Smith and also met Quarter Master Dexter, who had served three years as an apprentice on the Digby Courier while the editor of the MONITOR was manager of that paper.

At St. John we were met by a member of the C.P.R. office staff and furnished with transportation from St. John to Vancouver, from Vancouver to Fort William, by rail, from Fort William to Port McNicholl by the C.P.R.'s great lakes steamship service and from Port McNicholl to St. John by rail. We were also kindly furnished with transportation on the Calgary-Edmonton branch of the C.P.R. in order to visit our daughter, Mrs. C. S. Innes, in Ponoka, Mr. and Mrs. Innes' large farm being situated almost five miles from the railway station.

At St. John we were met by Mr. Fred McHugh who refused to take money for the taxi transportation between the Duffee hotel and railway station. Mr. McHugh is doing a rushing business in that city and we wish him continued success.

On the Montreal train the sleeper car conductor told us that birth reservation had been made for us by the St. John office and the Porter left nothing undone to make us comfortable.

On this train were many friends en route to the Assembly meeting at Toronto, such as Rev. D. K. Grant, formerly pastor of the Bridgetown Presbyterian Church, Rev. Mr. MacDonald, of Middleton, Mr. and Mrs. Clark Robbins of Yarmouth and others. Mr. and Mrs. A. M. King, of Annapolis, made the trip on Saturday. Other passengers on the boat and train were Capt. and Mrs. Cutler Snow, of Sandy Cove, en route to St. John; Mr. Frank Anderson, of Digby, en route to St. John, and Mr. Roy Whyte, of Digby, en route to Montreal.

After cruising around Montreal in a severe heat followed by an electrical storm, accompanied by a severe down pour of rain, we left that city for Vancouver on board the Trans Canada, the C.P.R.'s best train, and we are safe in saying the best equipped train with the best service that can be found on this continent. It is made up of dining car, standard sleepers and observation car, the lat-

ter equipped with writing room and the whole train with every modern convenience that can be thought of at the present time.

This train takes on and leaves her passengers, except in the big cities en route, but stops five minutes every 242 miles to change locomotives and engineers, firemen, conductors and trainmen. The sleeping car conductor runs to Winnipeg. At this city the dining car "Leeds" was replaced with the dining car "Windsor," the latter a steel coach, containing another conductor and entire new crew. The colored porters in the sleepers make the entire run without change from Montreal to Vancouver, the entire trip being made in 92 hours.

Among the passengers boarding the Trans-Canada at Ottawa were Mr. Chris Lock, Deputy Grand Master of the Grand Lodge of Oddfellows for the jurisdiction of Manitoba and we venture to say that next year Bro. Lock will be the youngest Grand Master in Canada. Another prominent passenger on this train which we had the pleasure of meeting was Dr. Thornton, Minister of Education, for the Province of Manitoba. He left us at Brandon.

Another pleasant companion on the Trans-Canada was Mr. G. F. Gyles, Vice Commodore of the Vancouver Yacht Club, the only one on board who continued to observe the clock striking, the marine bells, although we were travelling by rail. While every official was pleasant and obliging, none could be more popular than Mr. G. Tapping, a train man running between North Bay and Chatham, Ont. Our only regret was that Mr. Tapping was nearing the end of his daily run where we first met him.

It was during our 30 minute stop at Winnipeg that we realized that we were making too fast time and would arrive in Vancouver too far in advance of the members of the newspaper convention. We sent off a few telegrams and arranged to leave the Trans-Canada at Calgary, where we arrived Friday morning at 10.05 exactly on time after running on the same train sixty-five hours and five minutes, certainly a sample of the C.P.R.'s expert management.

After spending a few pleasant hours in Calgary and regretting that we did not have the address of any Nova Scotians, we boarded the C.P.R. train for Ponoka, an up-to-date Western town 129 miles north of Calgary, on the Edmonton branch, where we arrived at 7 p.m.

After spending the week-end we returned to Calgary Monday afternoon arriving in the city in time to connect with the Vancouver express No. 3, which leaves Calgary at 8.40 p.m., arriving in Vancouver Tuesday night at 11.30, more than 24 hours ahead of the press party, due at Vancouver Wednesday night at 9 o'clock.

### NEW ELEPHANTS WITH SELLS-FLOTO HERDS FIND OLD TIMERS UPSTAGE

There's artistic temperament among the elephant performers with Sells-Floato circus, coming to Digby on Saturday, June 25th, and Kentville on Wednesday, June 29th, and the artistic temperament of good opera stars, artists' models and wives of English cabinet officials has nothing on the art moods of the pachydermic actors under the Sells-Floato six pole menagerie top.

But there's a reason for the upstage stuff with the old elephants Mama, Trilly, Kas, Mo, Frieda, Floato, Billy Sunday and the rest of the "bulls" with the big troupe. They have interlopers among them this season—"amateurs," the herds call 'em. This year, two new groups of pachyderms are added to the elephantine displays. They are Mammie, Sue, Babe, Toby, Billiken, Tom, Cora and Patsy. And how the old members of the big show herd-dislike to share the glory of the elephant numbers with them!

When the boss "bull" men stake the new comers in the elephant lines, you'll see the older "bulls" turn their backs, so far as is possible, and get their heads together. It is the old story of the new pupil in school. Perhaps in time, the new elephants will be made part of the family by the old timers, but it won't be this season. You'll agree on circus day when you feed peanuts to the great, hulking rascals. The old ones will resent the new ones getting anywhere an equal share.

An international roping match has been announced between a Mexican woman and an American woman. The name of the man has not yet been divulged.

## NEW SERIAL AT PRIMROSE THEATRE

No Dull Moments in "Double Adventure," the Picture Being Full of Thrills

One of the most interesting of present performers in serial roles is Charles Hutchison, whose new Pathe vehicle, "Double Adventure" is to be shown at the Primrose Theatre, starting Thursday, June 16th. He has made his way to prominence as a serial hero by proving his ability in almost every department of this hazardous occupation, and in this new subject seems likely to add to his growing reputation. Hutchison is a personable young man, whose clear-cut, clean-shaven features screen admirably; he manages in some inexplicable manner to appear nonchalant and debonair even in the midst of his amazing stunts, which include jumping, swinging, diving, swimming, fighting—and smiling. He is an athlete and at the same time has certain qualities usually found in a matinee idol, making altogether a combination difficult to excel.

In "Double Adventure," this performer has a well-made serial story, clearly set forth and carrying a pronounced thread of suspenseful interest. There is a dual role for Hutchison, that of Bob Cross, a newspaper reporter, and Dick Biddle, heir to a large fortune. As the reporter-hero he exchanges identity with the absent heir and permits to be accused of a crime of which the latter is thought guilty. The part of heroine is in the capable hands of Josie Sedgwick, who is gifted in the matter of personality and charm. Others in the cast do excellent work; Carl Stockdale makes a plausible, resourceful leader of the crooks and there are many excellent under-works.

The action of the new serial is very good. It has been built with an eye to thrills and these are accomplished in an expert, satisfying manner. It is quite free from mechanical or dull moments. The first chapter, in three reels, and the second in two, start the spectator off in a satisfactory way and hold out a definite promise of good entertainment to come.

### THE STORY

Bob Cross, in "Double Adventure," is a newspaper reporter who, in trailing "Painter" Paul, a notorious crook, gets wind of a plot to kidnap Martha Steadman. The girl is grandniece of a millionaire named Biddle. Bob invades the Biddle premises, just in time to discover the body of Mr. Biddle after he has been murdered by his business associate, named Jules Fernel, who is in reality leader of a gang of crooks. Fernel, has embezzled Martha's fortune and is trying to cover up one crime by committing another.

Bob is so like the dead man's son, Dick Biddle, that the gangsters hark the crime to him, thinking to get him out of the way. Bob, realizing that he has been mistaken for another, allows himself to be sent to jail, but later, through collusion with the police, makes a getaway. He then begins an effort to rescue the girl from her danger and find the real murderer of Biddle.

### 25 YEARS AGO H. B. HAYEY WAS SCHOOLBOY

(Halifax Herald)

Twenty-five years ago Harry Bernard Hayey, mayor of Stewiacke, resided at Freeport, N.S., his birthplace, with his parents, Mr. and Mrs. Bernard Hayey. In 1899, at the age of fifteen years, he removed with his parents to Bridgetown, Annapolis County, where he received his early education in the High School of that town.

Being of an exceptionally bright intellect and with a keen desire for further study he later entered Acadia University, Wolfville, where he was awarded the degree of B.A., in the year 1906.

With the purpose of making the study of medicine his profession he

then entered the University of McGill at Montreal from which he graduated with honors in 1911 as M.D.C.M. During his stay in the latter city, he served in the General Hospital and the Women's Hospital all of Montreal. Previous to his locating at Stewiacke in 1912, he spent one year in the public hospital of St. John, N.B. Dr. Hayey now holds the office of Coroner and Medical Health Officer. In February, 1921, he was elected Mayor of Stewiacke by more than two thirds majority of the electors. In politics, the doctor is a supporter of the Liberal party.

### BODIES OF WAR HEROES ARRIVE

(Digby Courier)

The bodies of two Nova Scotians, who gave their lives during the great war, while in the service of the United States, arrived in Halifax Friday morning by the steamer Rosalind from New York. They were the remains of Nurse Welch, daughter of Eugene T. Welch, formerly of Smith's Cove, but now living in Massachusetts, and Private Cleversey, son of Albert Cleversey, of Bridgewater.

Several months ago, the United States military authorities adopted the plan of disinterring the bodies of their slain heroes from the cemeteries of France, and bringing them back to America to be buried at their former homes. Up to the present time, several thousand have been brought over in this way, but the two bodies which arrived at Halifax are the first of these to be sent to Nova Scotia. The bodies were accompanied by Sergeant R. Campbell, of the U. S. army, who left for Bridgewater Saturday morning, and on his return, accompanied the remains of Miss Welch to her former home at Smith's Cove on Monday.

### NEW GOVERNOR GENERAL OF CANADA

Lord Byng, of Vimy, has been appointed Governor General of Canada, in succession to the Duke of Devonshire.

General Lord Julian Hedworth, George Byng of Vimy, G.C.B., G. C. M. G., M. V. O., was created the First Baron of Vimy in 1919, and his title connects him with the famous engagement at Vimy Ridge, from April 9 to May 3, 1917, when under the command of General Byng the Canadian corps in France attacked on a front of 8,000 yards, penetrated to a depth of six miles, capturing 7,000 prisoners and 67 guns, and with them the strongest position on the British front. The fight was officially known as the Battle of Arras.

Julian Byng was born on September 11, 1862, and was the seventh son of the Second Earl of Stratford.

## PRINCE ARTHUR AGAIN IN SERVICE

Steamer Was Laid Up at Boston For Refitting—Two More Bridal Suites Added.

Yarmouth, June 8.—The Boston and Yarmouth liner, Prince Arthur, Capt. Alvin Simms, arrived from Boston at six o'clock this morning after being laid up in Boston for a week to complete her cleaning and painting in order to be in readiness for the coming rush of tourist travel, forecasted for this very popular route during the coming summer.

Although the time in Boston for doing the great amount of work necessary, was very limited, the ship's officers accomplished their task and when the handsome flyer docked this morning she was soon seen to be in spotless condition. Her saloons, cabins, staterooms, etc., were all found to be embellished with new paint, varnish and furnishings necessary to afford the patrons of the line the best comfort possible. Owing to the popularity of the Yarmouth-Boston Line for bridal couples the officials have been compelled to more satisfactorily meet the requirements of such to add two more bridal suites to the Prince Arthur and her sister ship the Prince George. They are situated on the main deck and in their fitting they are modern to the extreme with all up-to-date equipment.

### HOLD ON TO YOUR JOB

(Houston Post)

If the seamen, the printers, the miners, the plumbers—the whole bunch of good workmen—will take our advice, they will arbitrate, negotiate, converse, meditate, meditate, cogitate, argue, argue and expostulate in setting forth their desires, but will be careful not to vacate their jobs. It is a mistake to assume that they are inflexible, or that their demands are necessarily just, and it is the last word in folly to invoke the loss and waste of idleness by striking.

### Lighter Vein

Mayor Mitchell, of New York was talking about office seekers. "A man had just died, and with unseemly haste an office seeker came after the job. Yes, altho the dead man had not yet been buried, still this office-seeker came to me and said, breathlessly: 'Mr. Mayor, do you see any objection to my being put in poor Tom Smith's place?' 'Why no,' I said, 'I see no objection if the undertaker is willing.'"

### STEAM YACHT SINKS

The captain and crew made shore safely. The Carmen was built fifty-one years ago.

## ESPERANTO CAPTAIN TO GET NEW VESSEL

Gloucester, June 6—Captain Tom Benham of the ill-fated Esperanto, is to be given a new vessel by the Gorton Fish Fisheries Co., and will sail salt fishing in the three-masted "Aviator" which has been hauled up for some time.

She will probably carry 20 dorries and take about seven hundred hogsheads of salt. The Aviator is being fitted out and will probably get away about Saturday.

A Real Smash

A Scotsman, anxious as usual to "make a hit," hit upon the idea of collecting old tins and pieces of scrap-iron.

Having accumulated a good collection, he sent them to the wrong place. Imagine his surprise the next morning when he received the following letter from a garage.

"Dear Sir,—Your motor-car to hand. We have never seen a worse smash, but we will do our best to put it together again. We send you herewith an estimate for the cost of repair and approximate date of delivery."

It takes a pretty conscientious fisherman to admit that what he likes best about it is not working.

If we love our enemies we certainly do hate to show it.

Know how to play the card of indifference.

## Good Way to Save Money

Some time back Jack met Mick, and Mick was grumbling because he had no money for the coming summer holidays.

"That's your own fault," said Jack, and he went on to give Mick some good advice.

"Now, Mick," said Jack, "every Friday when you get your wages, go straight to the postoffice and put a dollar or so in. You will not miss it at the time, and it soon adds up. By the time the summer comes and your holidays are due, you will find that you have a very comfortable sum in hand."

"Right!" said Mick. "I will do as you say!"

It was some weeks later when they met again, and Jack asked Mick how much he had in the post office.

"I've no idea," said Mick.

"I've no idea," exclaimed Jack, pulling up his own bankbook. "But haven't you got a book like this?" Mick looked aghast.

"No," he stammered. "I've never troubled about a book. I just put my money in the box as I was passing."

Mr. and Mrs. A. M. King left Saturday for a trip to Toronto.

Mr. and Mrs. Paul Yates went to Digby recently, but returned June 2.

Mrs. H. L. Rudolf, of Weymouth, is visiting Miss Blanche Patton. Her son Leonard, of Wolfville, spent the week end here.

Mrs. F. W. Pickels and Miss Jean Pickels returned on Tuesday from the States. Mr. Pickels is going to Digby to meet them. He now has a dandy new car.

Mr. and Mrs. F. St. C. Harris have been visiting Mrs. Harris's parents, Mr. and Mrs. F. C. Whitman. Mr. Harris returned to Halifax last Saturday.

Miss Mary Fortier left Tuesday for a trip to New York accompanied as far as Yarmouth by her father, who will spend a few days' vacation on the French shore before his return.

The Misses Ellen Jean and Helen Smith, daughters of J. Willard Smith, will sail on the Minnedosa early in June for England. They will spend three months in England and on the Continent, says the Globe.

Mr. Fred E. Harris, of Aylesford, took a motor party westward through the Valley as far as Annapolis last Sunday week. The party was composed of Mr. and Mrs. Harris, Mrs. and Miss Rutherford, Mr. Roop and Cuthbert Harris. It was a very pleasant ride.

The may old friends of Col. Chas. E. McLaughlin were delighted to see him in town again on Monday, he having motored from Halifax to Bridgetown and down the Granville side to the Ferry. He reports vegetation here nearly a month ahead of the city and a couple of weeks ahead of Windsor, but trout much larger in the Halifax lakes and streams than hereabouts.

A correspondent of the Halifax Chronicle says: While George E. Sanders, the apple expert, is away in the West trying to destroy grasshoppers, his place is being filled by A. Kelsall and V. B. Durling, of the Dominion Entomological Department at Annapolis. Mr. Kelsall especially is well qualified to look after the apple industry as he has a large orchard of his own at Wilmot. In an interview he stated that after a careful examination of his orchard he would say that the frost damage was at least fifty per cent, but that the remaining blossoms would produce all the better fruit.

## CAPT. R. W. MERRIAM INJURED AT YARMOUTH

Was Working With Gasoline Engine On Schooner Whiteaway When Accident Occurred.

Yarmouth, June 7—The three-masted schooner Whiteaway, Captain R. W. Merriam, has finished taking out her cargo of hard coal and has cleared for Apple River to load for Holyoke, N.Y. Yesterday afternoon Captain Merriam had the misfortune to meet with a slight but painful accident. The Second Officer appeared to be having some trouble in starting the gasoline engine and Captain Merriam went to see what was wrong. As he entered the engine room the motor started suddenly and at the same time Captain Merriam slipped on the grass deck and fell. He thrust out his right hand to save himself and it came in contact with the engine, badly lacerating the thumb and forefinger. Medical aid was summoned, the injury attended, and today, although it is causing some pain, is doing nicely.

ARCH MASONS DIVIDE INTO SIX DISTRICTS

E. N. Clements, Yarmouth, Is Elected Grand High Priest of Order

Digby, June 7—The annual session of the Grand Chapter Royal Arch Masons was held in Digby today. This chapter not only covers Nova Scotia, but also has jurisdiction over the Province of Prince Edward Island, and the ancient colony of Newfoundland. The attendance was exceptionally large, almost every chapter being represented.

An important piece of legislation was passed by which the jurisdiction of this Grand Chapter will be divided into six districts, each under a superintendent to be appointed by the grand high priest for the term of one year, but to be eligible for re-appointment for the second year. After the second year he gets a past rank and is to be styled Past Grand Superintendent.

The election of officers resulted as follows: Grand High Priest—E. N. Clements, Yarmouth. Grand King—E. T. Carbone, Charlottetown. Grand Scribe—F. H. Northrup, Kingston. Grand Treasurer—M. McF. Hall, Halifax. Grand Secretary—B. F. Porter, Truro (re-elected).

Grand Chaplain—Rev. A. W. Nichols, North Sydney. Grand Captain of Host—H. C. Smith, Sydney. Principal Sojourner—P. J. Otto, Dartmouth. Royal Arch Captain—Alfred M. Simons, Halifax.

Grand Master Third Veil—W. H. Bingley, New Glasgow. Grand Master Second Veil—J. M. Murley, Charlottetown. Grand Master First Veil—Frank H. Lowe, Liverpool.

Grand Stewards—J. H. Potter, Middleton; G. L. Williams, Truro. Grand Standard Bearer—Fred G. King, St. John's, Nfld. Grand Tyler—J. E. Webster, Halifax.

Board of General Purposes—M. McF. Hall, Halifax; John Hay, Truro; Geo. D. McDougall, New Glasgow; W. E. Logan, Truro; Don F. Fraser, New Glasgow; John W. Logan, Truro; E. T. Carbone, Charlottetown; F. H. Northrup, Kingston; B. F. Porter, Truro.

A past grand high priest's jewel was presented to the retiring grand high priest, W. A. Creelman, of Truro. Tonight the order of high priesthood was in session in the Oddfellows' Hall and ten candidates were initiated.

The lodge of research is meeting in the Masonic Hall. The town is filled with Masons, and they are arriving hourly to be here for the opening of the Grand Lodge tomorrow.

STAY IN NOVA SCOTIA

(Halifax Herald)

"There is no doubt in my mind as to Nova Scotia being the land of opportunity right now."

Karl Freeman, the hardware man of Bridgetown, is speaking. Mr. Freeman is a native of Milton, Queens County. He has been in the hardware line for 17 years and was at one time interested in the firm of Freeman Brothers, builders, Halifax.

"I have no use for the man who pulls the wry mouth just now," he says. "There are any number of chances in this country yet. Since I came to this town four concerns have grown from very small beginnings to large proportions, employing hundreds of men. These enterprises were started by young men without capital."

"Any one of these concerns would do credit to the city of Halifax and are sending their goods all over the Maritime Provinces, and one concern sends its products clear across the Dominion. We have no real periods of depression here."

"By what I can learn from friends in the West, I can say with absolute conviction that Western Canada has, to say the least, nothing on us."

BRIDGETOWN WINS FROM MIDDLETON

Bridgetown, June 7—Bridgetown High School put MacDonald Consolidated High School out of the running for The Herald School championship here today, by an 8 to 1 score. The locals outclassed their opponents throughout and will probably get a chance to play Yarmouth or Pictou.

Efforts are being made to have the game played at Pictou. Roberts pitched for the Bridgetown team and struck out 10 batters, his opponent, Coleman, fanning 6. An enthusiastic crowd attended and Bridgetown's chance to get on the high school baseball map looks promising.

Johnny—Papa, I got the prize for arithmetic today. I did an example on the blackboard out of my own head. Papa—What was it, Johnny? Johnny—Why, I did—our baby weighs eleven and three-quarter pounds. She gains one ounce a day. When she is twenty, she will weigh 466 pounds.

THIS MAN DREADED TO SEE NIGHT

Was So Restless He Couldn't Sleep And Daylight Was Always Welcome.

"With the exception of a little milk toast, which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Wombie, residing at 105 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Wombie, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food. I tried doctor after doctor and all kinds of medicine but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief."

"I finally got so nervous that I actually dreaded to see night come as I could not sleep and was always so restless that I would rejoice to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it."

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman & Chambliss, and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen year old boy."

TWO AVIATORS FALL TO THEIR DEATH

Salisbury Beach, Mass., Sunday—If full view of thousands of horrified pleasure seekers gathered on the beach here this afternoon, "Daredevil Jack" Murphy of Haverhill, jumped from an airplane with a parachute and plunged to his death in the ocean, about three-quarters of a mile off Salisbury Beach.

Although Murphy signalled to his pilot, Mark C. Hogue, of the Boston Aviation Company, that he had landed safely, the parachute jumper was seen to throw up his hands for help shortly after the pilot had brought the plane to earth. Hogue immediately obtained a life preserver with a long rope attached and ascended and flew to the spot where Murphy had dropped, but could not find a trace of his companion or the parachute.

Mincola, L. I., Sunday—Miss Laura Bromwell, foremost American aviatrix and holder of the loop-the-loop and speed records for women, was instantly killed this afternoon when she lost control of a single seat Canadian airplane, in which she was flying, and fell from a height of more than 1,000 feet, a mile south of Curtis Field.

Boston Traveller: The death of two dare-devil flyers on the same day was merely a coincidence, but it may help to impress the truth that the thrills the people seem to want cost some individuals a mighty big price.

LIEUT.-COL. B. W. ROSCOE RECEIVES SILVER MEDAL

Kentville, June 7—Lieutenant-Colonel B. W. Roscoe, member of the firm of Wickwire & Roscoe, barristers, had added to his honors for valiant services in the world war, having received today, from His Majesty the King, a bronze and a silver medal. The Victory bronze medal is especially handsome, having engraved on one side the words "The War of Civilization, 1914-1919," and on the other the statue representing Victory, with outspread wings. The general service medal is silver. Colonel Roscoe has also the distinguished honor of the D.S.O.

The lobster fishing season of the Digby Gut to Whipple Point, Brail Island, together with Annapolis Basin, has been included in the Annapolis and King's county fishing season, which closes on June 29th. The special condition under which fishing is permitted is that no lobsters of a less length than nine inches shall be taken.

FIVE HUNDRED DIED IN FIRST FLOOD

Pueblo, Col., Visited by Second Disaster Through Floods Within Three Days.

Pueblo, Col., Sunday—At 2.30 o'clock this morning, just when Pueblo was beginning to recover from the terrible disaster of Friday night in which 500 people are believed to have been drowned, the Skagway reservoir gave way suddenly and within an hour the swollen torrent of the Arkansas River had again inundated the low lying sections of the city.

Pueblo, Col., Monday—The flood crisis of this stricken city of dead, homeless and ruined passed early today with the fall of the devastating Arkansas River.

Conservative estimates place the dead at 300, but not until tonight is it expected that a definite total can be set. Between 2,000 and 3,000 are known to be homeless.

Financial loss is set as high as \$10,000,000, and may increase with reports from outlying districts between the city and the bursted dams. Smallpox and fever have broken out among the Mexican refugees.

The whole lower section and forty blocks of the business district are washed out.

The morgues are full of bodies. W. E. Newton, prominent tanner of Pueblo, drove in from Manzanola and reported that the river in that district is full of dead cattle and that ranchers are busy pulling human bodies from the flood. He could make no estimate of the number of corpses recovered in this district.

Boston Globe—The foresters have taught us that if we cut down our woods the rains, which they would otherwise absorb like a sponge and send trickling down into streams and rivers to keep them at a comparatively even flow the year round, will all run off in a few days, making the river first a freshet and then a drought.

The Pueblo flood is a specimen case, and this time a hideously tragic one, of our waste of water. The Arkansas River is 2,000 miles long, it arises in the Rocky Mountains and cuts across the great plains to the Mississippi River. For most of this distance the river is hardly a creek. Its clay beds bare hard in the glaring sun, and when the mountain snows melt or heavy rains fall over an extended period the river suddenly turns torrent, raging thru an arid, treeless country.

This is a problem in damming and in storage reservoirs. Competent engineering could distribute this flow for more benefits than the primal one of protecting human life from these sudden ravages.

The disaster in Pueblo is a type of our lax administration of our natural resources—a laxness which returns to plague us in a thousand ways just as ruinous, though not quite so spectacular as the disaster which has overwhelmed Pueblo.

A POPULAR CONDUCTOR TO RETIRE

It is reported that Conductor Norris Margeson, of the D.A.R., will retire to superannuation in June. Conductor Margeson is at present in charge of the regular passenger trains between Yarmouth and Kentville, alternating with Conductor Addie Nichols. Always courteous and attentive and faithful in the discharge of his responsible duties, he will, by his retirement, leave a vacancy in the train service of the D.A.R. which will indeed be difficult to fill. The travelling public will miss the genial and kindly countenance of Conductor Margeson, who has probably seen more "up and downs" through the Annapolis Valley than any other man now living.

BRIDGETOWN SCORES WIN OVER LAWRENCETOWN TEAM

Bridgetown, June 8—Bridgetown defeated Lawrencetown, 5 to 1, here this afternoon before a large crowd. Lawrencetown's representatives were in good form and made the home team play hard throughout. After Middleton's easy win over Lawrencetown, it was not expected that they would make a very good showing, but they showed a marked reversal of form in today's contest. "Nedder" Hurley and Frank Whalen composed the Bridgetown battery and Munroe and Phinney worked for Lawrencetown. Hurley had 15 strikeouts and Munroe 7.

**BRIDGETOWN CRICKET CLUB**

The Bridgetown eleven defeated a very strong Kentville team at Kentville on Saturday last by an innings and one run. The home team batted first, scoring 46 runs and Bridgetown replied with 57. Thanks to some excellent bowling by C. Otterhead and W. Donat, Kentville were dismissed at their second attempt for 16 runs. A return game will be played here on Saturday and a good game should result as the Kentville eleven are all experienced cricketers and play a very sporting game. The Bridgetown club have been in strict training and have improved considerably in their fielding.

### McKIM'S DIRECTORY FOR 1921 ISSUED

The 1921 edition of the Canadian Newspaper Directory has been issued by A. McKim, Limited—Montreal, Toronto, Hamilton, Winnipeg, and London, England.

To Messrs. McKim goes the distinction of being the oldest and largest advertising agents in Canada. They are authorities on the newspaper situation in every town and village throughout the Dominion and their annual publication—the Canadian Newspaper Directory—is the one authentic record of the standing of Canada's various advertising media.

The 1921 Edition is the 14th issue of this work. Throughout the thirty years that have ensued since the publication of the first edition, the agency of A. McKim, Limited, and the newspapers of Canada have been growing up side by side and the Canadian Newspaper Directory has built up amongst the publishers and advertisers a reputation for accuracy that causes it to be consulted with the same degree of finality as the standard dictionaries. A circulation rating in the Canadian Newspaper Directory is to the publishers and advertisers of Canada what a rating in Dun's or Bradstreet's is to the financial world.

The Directory describes in detail every town and village in the Dominion which boasts a newspaper of any description; it gives also the surrounding towns and villages that have no papers of their own and are obliged to look to the towns listed for their news of the world's happenings. The Directory gives the exact location of each town in its relation to other centres of importance, the railroads and waterways by which it is served; the telegraph, banking and express facilities; the public buildings, and the various industries in which the people of the town are engaged. It proceeds then to describe the various papers that are published, giving their periods of issue, dates of publication, names of publishers, politics, subscription prices, number and sizes of pages, circulations, etc.

Another feature is the Market Survey Maps which have been issued as a supplement and which show each town, or city, in which a newspaper is published, the railways and distribution centres. The Canadian Newspaper Directory shows that there are today 221 daily papers being issued, as compared with 130 last year; 981 weeklies and 218 monthlies. With the various publications issued at other intervals there are in all 1500 publications being published and read by the Canadian public at the moment.

The 1921 Edition of the Canadian Newspaper Directory is indispensable to everyone connected with publishing and advertising, and not to those fields alone are its uses confined. It will be found invaluable to the salesman planning his itinerary and to the shipper routing his goods. It is a business publication with a thousand and one uses for business men everywhere. Price \$3.00, from the publishers.

W. E. Wason, is due at New York from Parrshoro. She has a cargo of 1,106,000 lbs shipped by the Newville Lumber Company and 60,000 feet lumber shipped by A. O. Seaman. The controlling interest in the Peace-land was recently acquired by Parrshoro parties from her Annapolis Royal owners.

### A DESIRE TO EAT WHAT YOU WANT

Stomach Can be restored to a Healthy Condition.

Not to be limited in diet, but to eat whatever he pleases is the dream of every dyspeptic. No one can honestly promise to restore any stomach to this happy condition, because all people cannot eat the same things with equally satisfactory results. But it is possible to so tone up the digestive organs that a pleasing diet may be selected from articles of food that cause no discomfort.

When the stomach lacks tone there is no quicker way to restore it than to build up the blood. Good digestion without rich, red blood is impossible, and Dr. Williams' Pink Pills offer the best way to enrich the blood. For this reason these pills are especially good in stomach trouble attended by thin blood, and its attacks of nervous dyspepsia. Proof of the value of Dr. Williams' Pink Pills in cases of indigestion is given by Mr. John A. McDonald, Tarbot, N.S., who says: "Every sufferer from indigestion has my heartfelt sympathy, as I was once myself a bond slave to it. Eating at all became a trial, and as time went on I became a mere skeleton of my former self. I took all sorts of recommended medicines, doctors' and advertised, but to no avail. Then a friend said to try Dr. Williams' Pink Pills. I got a box and I thought before they were done I could feel a change. Then I got six boxes more, and by the time they were used I was eating my meals with regularity and enjoyment. My general health is now good, and it is no wonder that I am an enthusiastic advocate of Dr. Williams' Pink Pills."

You can procure Dr. Williams' Pink Pills through any dealer in medicine, or they will be sent you by mail at 50 cents a box, or six boxes for \$2.50, by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

### WINNING FAME

The following is from the current issue of the Motion Picture News in regard to Miss Maude Malcolm, of Annapolis Royal, the rising young film star whose picture was screened at the Strand Theatre, New York, last week:

Maude Malcolm, a forthcoming popular ingenue, is making rapid strides for one of the tender age of seventeen. She was engaged by Director Edward Jose for a small part in "Desperate Heritage," a Vitagraph production starring Alice Joyce, but made such an impression when rehearsing, that she was given a much more important role, which is said to have been played to perfection. Miss Malcolm is a slender dark-eyed and dark haired youngster with evident possibilities. Perhaps one might point out that she is peculiarly like May MacAvoy, who recently scored a hit in the John S. Robertson production of "Sentimental Tommy."

### ONE OF DEEP BROOK'S POPULAR SUMMER HOTELS

### TWO PROMINENT COUPLES UNITED IN MARRIAGE

SUTHERLAND-FINIGAN

St. Andrews, June 7.—A pretty wedding took place on Wednesday afternoon, June 7, at 2:30 o'clock, at the home of Mr. and Mrs. George B. Finigan, when their eldest daughter, Elsie Octava, was united in marriage with Guy Donald Sutherland, of Oxford (N.S.). The ceremony was performed by Rev. A. J. Tingley, assisted by Rev. George R. Kyle, of the Presbyterian Church, Oxford (N.S.), in the presence of only immediate relatives of the contracting parties beneath an arch of white lilacs. The bride, who was unattended, was given away by her father, wore a traveling costume of castor chiffon broadcloth with martin tie and hat to match of corded silk with ospreys of saxe blue and black and carried a bridal bouquet of Ophelia and sweetheart roses. Mendelssohn's wedding march was played by Miss Anna Outhouse, an aunt of the bride. Immediately following the ceremony a dining luncheon was served in the dining room, which was prettily decorated with white lilacs. Mrs. G. W. Mallory presided at the tea table, which was centered with a huge bouquet of yellow tulips. The bride's table pastries and lilies of the valley decorated the bride's cake. Many beautiful gifts were received of cut glass, china and silver, etc., including a check from the bride's parents and a chest of silver from the groom's parents. The groom's gift to the bride was a substantial check and to the pianist a pretty onyx and pearl bracelet. The happy pair left on the afternoon train, amid showers of confetti, on a honeymoon trip through the Annapolis Valley, after which they will reside in Oxford (N.S.), where the groom, who was at one time on the Bank of Nova Scotia staff here, is secretary-treasurer of the A. A. Sutherland Lumber Company. Many friends will unite in wishing Mr. and Mrs. Sutherland many years of future happiness, while the young friends of the bride sincerely regret her departure from St. Andrews. The out-of-town guests attending the wedding were: Mr. and Mrs. M. W. Sutherland, Rev. George R. Kyle, of Oxford (N.S.), and Miss Ruby Sutherland, of Halifax, sister of the groom.

### GRAVES--LESSEL

A quiet but pretty wedding was solemnized in Gordon-Providence United Church last Wednesday morning, June 8th, when Mrs. Raymond L. Lessele became the wife of Mr. Frances Mann Graves, of the W. W. Graves Co., of this town. The Rev. Mr. Bryan officiating. The bride looked particularly charming in an exquisite one-piece tailored frock of Harding blue canton crepe, with trimming bands and hip sash of grey duvetone. She wore a small veil hat of Harding blue georgette crepe with grey and silver cellophane braid and grey veil. Her shoes, gloves and hand bag were of grey satin and the motor wrap in which she went away was of grey cloth. Both bride and groom were unattended. Immediately after the ceremony Mr. and Mrs. Graves left in their car for a four week's motor trip en route to Toronto, Montreal and other Canadian cities. Both parties are extremely popular and will have the best wishes of a very large circle of friends.

### BABE RUTHE JARRIED

New York, June 8.—Babe Ruth, the home run king of the New York Americans, today was sentenced to one day in the city prison and fined one hundred dollars in magistrate's court for automobile speeding.

**CHARLES F. GORDON HAS ARRIVED AT YARMOUTH**  
(Experimental Farms Note.)  
Summer work in the orchard may be divided among four different headings; spraying, cultivation, cover crops, and thinning, with possibly pruning in some instances.

The first is a spring operation which is usually necessary to carry on into the summer, as at least one spray should be put on after the fruit is well set on the trees, this would be about two or three weeks after the bloom is off, and may consist of bordeaux or lime sulphur mixture with some arsenical poison added for biting insects and nicotine sulphate added for aphid control, if they are present at that time. For fuller particulars re spraying write your nearest Experimental Farm Superintendent.

Cultivation in orchards, except those in sod mulch, should be practised continually until about July. By maintaining a good dust mulch during early summer the trees can be helped through that trying time in late June when the heavy drops of fruit are so discouraging. Especially in districts where winter injury is a factor, cultivation is discontinued about the first week of July and the orchard covered with some cover crop, such as rape, vetch, clover, or field peas, the selection depending upon the cheapness of the seed. The following rates of seedling per acre are recommended:—buckwheat, 1 bus.; rape, 2 pounds; crimson clover, 15 pounds; red clover, 12 pounds; summer vetch, 11-2 bus.; field peas 11-2 bus.; rye, 11-2 bus. Where there is much danger of loss of plant food during winter, the winter rye makes an excellent cover crop, but is of little value in stopping tree growth during August, as at that time it makes but little growth itself.

Thinning is an operation which will amply repay the orchardist if judiciously applied.

After the June drop has removed its quota, all trees should be gone over and, where there is a heavy crop, some of the fruit should be removed, leaving not more than two to a cluster, and, if a really high class product is desired, leave only one fruit to a cluster.

Where thinning is practised, there is a smaller percentage of No. 3 and waste fruit, which means higher prices per acre for the crop. The orchardist who adopts thinning as a regular orchard practice is bound to be in the front line when it comes to the pack-out returns.

Summer pruning is now generally conceded a place in most young orchards, as it is difficult to do much pruning when there is a crop on the trees. Mid-June is a good time to go over the non-bearing trees and shape up those that are straggling fellows. Where they are inclined to produce a long, willowy growth with few laterals, nip off the terminal bud, which will induce a lateral growth, probably that season, instead of continuing a long, barren branch which it would be necessary to head back severely in later years.

M. B. DAVIS,  
Pomologist.

**PROPOSE RAISING THE ESPERANTO**

Gloucester, Mass., June 8—The suggestion that the sunken Gloucester schooner Esperanto might be raised by Nova Scotians and refitted for use in the fisherman's race next fall, was received with interest by Gloucester men today.

They admitted that as the insurance company had given up the vessel the Canadian suggestion might be feasible, but said that the owners of the Esperanto were still considering the idea of raising her.

W. A. Reed, Secretary of the Gloucester board of trade, said he wrote last week to the Halifax race officials asking that they get an estimate on the cost of salvaging the vessel, and suggesting that Halifax, Gloucester and Boston newspapers might be willing to join in meeting the cost of the work, the race winner later to be restored to Gloucester with a formal ceremony.

**HITS ICEBERG BUT KEEPS AFOAT**

Halifax, N. S., June 8—The steamer Seapool struck an iceberg last night, 48.50 north and is making slowly for St. John's, Nfld., according to advices received here late this morning by the Canadian naval staff. The text of the message, which was received from Cape Race, follows:—

"S. S. Seapool collided with iceberg, 48.20 north, 48.50 west. (Forefoot) broken. Making water in fore-peak. Proceeding slowly to St. John's Nfd. Does not require immediate assistance."

The Seapool, a steamer of 4,403 tons gross, arrived in Montreal from Sydney on May 24, and presumably sailed from the former port.

**SUMMER WORK IN THE ORCHARD**  
(Experimental Farms Note.)  
Summer work in the orchard may be divided among four different headings; spraying, cultivation, cover crops, and thinning, with possibly pruning in some instances.

The first is a spring operation which is usually necessary to carry on into the summer, as at least one spray should be put on after the fruit is well set on the trees, this would be about two or three weeks after the bloom is off, and may consist of bordeaux or lime sulphur mixture with some arsenical poison added for biting insects and nicotine sulphate added for aphid control, if they are present at that time. For fuller particulars re spraying write your nearest Experimental Farm Superintendent.

Cultivation in orchards, except those in sod mulch, should be practised continually until about July. By maintaining a good dust mulch during early summer the trees can be helped through that trying time in late June when the heavy drops of fruit are so discouraging. Especially in districts where winter injury is a factor, cultivation is discontinued about the first week of July and the orchard covered with some cover crop, such as rape, vetch, clover, or field peas, the selection depending upon the cheapness of the seed. The following rates of seedling per acre are recommended:—buckwheat, 1 bus.; rape, 2 pounds; crimson clover, 15 pounds; red clover, 12 pounds; summer vetch, 11-2 bus.; field peas 11-2 bus.; rye, 11-2 bus. Where there is much danger of loss of plant food during winter, the winter rye makes an excellent cover crop, but is of little value in stopping tree growth during August, as at that time it makes but little growth itself.

Thinning is an operation which will amply repay the orchardist if judiciously applied.

After the June drop has removed its quota, all trees should be gone over and, where there is a heavy crop, some of the fruit should be removed, leaving not more than two to a cluster, and, if a really high class product is desired, leave only one fruit to a cluster.

Where thinning is practised, there is a smaller percentage of No. 3 and waste fruit, which means higher prices per acre for the crop. The orchardist who adopts thinning as a regular orchard practice is bound to be in the front line when it comes to the pack-out returns.

Summer pruning is now generally conceded a place in most young orchards, as it is difficult to do much pruning when there is a crop on the trees. Mid-June is a good time to go over the non-bearing trees and shape up those that are straggling fellows. Where they are inclined to produce a long, willowy growth with few laterals, nip off the terminal bud, which will induce a lateral growth, probably that season, instead of continuing a long, barren branch which it would be necessary to head back severely in later years.

**ON HIS FEET**

The Superintendent of schools while endeavoring to teach a class of boys the composition of sentences, said to them:

"If I ask you 'What have I in my hand?' you must not answer 'chalk,' but compose a complete sentence, such as, 'You have a piece of chalk in your hand.' Now we will continue."

"What have I on my feet?"

"Boots," was the immediate answer.

"Wrong; you haven't listened to my directions."

"Socks," ventured another heedless one.

"Wrong again; worse than ever," protested the Superintendent in exasperation.

"Well," as another pupil raised his hand.

"Please, sir," then he paused. Perhaps he thought his answer might seem funny, but convinced that it was right, he gasped out recklessly, "corns!"

**THREE KILLED IN RAILROAD WRECK**

(Canadian Press Despatch)  
Seymour, Ind., June 8—Three railroad employes were killed and two were injured seriously today when two engines, pulling an east-bound Baltimore & Ohio freight train, overturned at Medora (Ind.), sixteen miles east of here. The dead are: Hugh Selfker, engineer; Thos. Hill, fireman; and Harry McCulley, brakeman.

The cause of the wreck has not been determined. Seventeen cars left the track and considerable freight was destroyed.

The train was en route from St. Louis to Cincinnati.

**TOO BUSY TO GROW**

A small office boy who had worked in the same position for two years on a salary of \$3 a week finally plucked up enough courage to ask for an increase in wages.

"How much more would you like to have?" inquired his employer.

"Well," answered the lad, "I don't think \$2 more a week would be too much."

"Well, you seem to me a rather small boy to be earning \$5 a week," remarked his employer.

"I suppose I do. I know I'm small for my age," the boy explained, "but, to tell you the truth, since I've been here I haven't had time to grow."

He got the raise.

**NO DANGER NOW OF PESTILENCE**

U. S. Health Officials Say Perilous Period Following Pueblo Flood Has Passed

Pueblo, Colo., June 8—Danger of pestilence, following last Friday's disastrous flood has passed, according to officials of the United Public Health Service; there is plenty of food; shelter has been provided in a refuge camp to remove the congestion in churches, schools and private homes, and an army of men has been at work clearing the streets of debris, removing dead animals and clearing out the business places.

Part of the city is again electrically lighted. The gas companies have preparations nearly completed for supplying gas for heat and light. The city water plant is functioning and today a water purifier will prepare for human consumption 5,000,000 gallons of water daily. The city has a plentiful supply of meat.

With the centralization of immediate and permanent relief work, measures of rehabilitation got under way yesterday with the beginning of a census, or survey of every storm victim, to obtain accurate information in each individual case on what aid would be necessary.

**FORTY TWO BODIES**

Forty two bodies of flood victims were in the morgues of the city last night. Five additional bodies were recovered, one of the unidentified bodies was identified and some of the discrepancies in the lists previously announced were traced. J. W. Pressy, in charge of identification of flood victims, stated that a number of dead reported were not flood victims, but died of natural causes.

"There are undoubtedly many others drowned whose bodies have been recovered and many will not be recovered," Mr. Pressy said, "but there have been so many false reports that we are announcing only the names of those whose bodies have been actually received at the morgues."

Ray McCarthy, acting coroner, announces that no inquests would be held over the bodies of the flood victims. "The flood was an act of God. No inquest is needed," he said.

**ARMY THREATENS TO DESTROY BIG KANSAS BUILDING**

Valuable Structure In Danger Of Being Undermined By Insect Hordes.

Wichita, Kansas, June 8—Hordes of ants, driving upward from the earth through mud tubes are threatening destruction to the one hundred thousand dollar exchange building at the stock yards here.

Oaken lumber stored under the building has been practically consumed and the ants have driven their way up along pipe lines to the woodwork of the west end of the structure which they have tunneled as far as the second floor.

Washington entomologists have identified the ravaging visitors as an Australian or South American ant which drives in armies, overwhelming in time any wood structure in its path.

LOCAL DEATH ROLL

MRS. ELIZABETH HARRIS (Annapolis Spectator) Another of the much valued and venerable ladies of this town passed away on Tuesday night (June 7), in the person of Mrs. Elizabeth Harris, mother of Mrs. John Jackson (Paradise). Mrs. Norman Buckler (Lalhouse), Arch W. Harris (of Dorchester, Mass.), John Harris, Miss Mattie and Miss C. Louise Harris. Deceased would have been 84 years old on July 22nd. She had been confined to her room since a year ago last October, but not to her bed until very lately, when infirmities of age, coupled with throat and heart trouble proved serious. Mrs. Harris was a native of Dohouste, her maiden name having been MacKay. She lived some years in Paradise and afterwards until seventeen years ago at Lake La Rose, where her husband, the late John R. Harris, died about 25 years ago. A dear old lady, those privileged to know her, held her in high esteem, and the family have every sympathy in their bereavement. The funeral will take place on Friday afternoon, at 3 o'clock, from her home on Academy Square, with service by Rev. A. Gibson, and burial in Woodlawn cemetery. It is expected that her son from Dorchester, Mass., will arrive in time for the funeral. MR. GEORGE H. BOYCE (Windsor Tribune) A week ago Mr. George H. Boyce, left Windsor in company with Mrs. Boyce, to enter the Halifax Infirmary for treatment, and last Wednesday came the sad news of his death. Mr. Boyce was 65 years of age and had been for many years actively engaged in the lumber business. He was Towns Councillor for two terms and as chairman of the Street Committee served the town faithfully. He represented Clark Brothers, Bear River, and had several large contracts for pulp wood in this County. Mr. and Mrs. Boyce were absent from town for several months visiting their daughters in Boston, and returned here about a year ago. The daughters, Mrs. McLean, of Somerville, Mass., and the Misses Mary and Bertrud Boyce, Boston, arrived in Halifax Wednesday evening. The remains were taken to the family burying ground at Clementsport, Anna County.

WEDDING BELLS

DALBY-CHUTE A very pretty wedding was solemnized at the home of Mr. and Mrs. George Chute, Beaconsfield, Wednesday morning, at half past nine, when their eldest daughter, Uia Maud, was united in marriage to Matthew Bentley Dalby, by Rev. M. S. Richardson. Mr. Dalby is an engineer in the employ of the C.P.R. at Souris, Manitoba. The bride looked charming in a gown of white silk with artistically arranged bridal veil, and carrying a lovely shower bouquet. She entered the room on the arm of her father, to the strains of Lohengrin's wedding march, played by Miss Ruth Jackson, and took her place beside the groom under a beautiful arch of bridal wreath designed by Mr. A. F. Hiltz. They were by one attendant, little Miss Beatrice Chute, who acted as flower girl. Following the ceremony, a wedding luncheon was served. Later Mr. and Mrs. Dalby left by auto for the depot, where they took the West-bound express for Bear River, there they will spend a few days with friends and relatives, then returning to Bridgetown, and leaving here about the 15th for a trip to British Columbia, stopping at various places of interest along the way. They will spend a few weeks visiting at the home of Mr. and Mrs. William Clark, B.C., formerly of Upper Granville. From there they will return to Souris, Manitoba, where they will reside. The bride's travelling suit was of navy serge with hat to match. The bride was the recipient of a great many useful and valuable gifts, the groom's gift to the bride being a very substantial cheque, to the organist a dainty gold brooch, and to the flower girl a pretty bracelet. The ceremony was witnessed by a large number of the friends and relatives of the contracting parties. Those from out of town came from Hampton, Granville Ferry, Lawrencetown, and Halifax.

FEARFUL ORDERS GIVEN CLOWNS OF SELLS-FLEET CIRCUIS THIS SEASON

There's something new under the white tops this season. At least, there is with Sel's-Fleto circus--"second largest show on earth," coming to Digby on Saturday, June 25th, and Kentville on Wednesday, June 29th. Yes, siree! Somethin' new, and it has to do with the clowns. Now, they've told the "joys," so big top arrot terms the chalk-faced cut-ups--this year, to repeat, they've told the clowns to go out in the three rings and two stages and in the hippodrome-track and be funny. Honestly, every one of the fifty-five has been told to be funny, and if he can't be funny, so each one has been instructed, he must not go out before all the people and mislead 'em with his starched pantaloons and peaked cap. Those are the management's orders. Fact is, the orders read: "Every clown with this show is hired to get laughs. Any clown not getting one or more laughs in each clown display will be fined \$100 for the first offense, \$200 for the second offense, and for the third offense, he'll have his clown suit taken away from him for one performance. Offenses after that will be handled without mercy." "This is a fearful thing, folks. Perhaps, the story should not have leaked out, but there are twelve hundred folks with the second largest this year, and the management can't watch 'em all. The only chap with the big show exempted from the ruling is "Poodles" Hanneford. His orders read: "After the third encore, you, Edwin 'Poodles' Hanneford, will cease riding and cease being funny. This show can stand almost everything, but when people die laughing in the stands during your encores, a halt must be called. Failure to comply with this order, Mr. Hanneford, will result in your not being allowed to help the front door boys and the ushers during turn-a-way business."
