Sir John Murray Scott met Mrs. Sackville, she and her husband were in great financial straits, she being driven to supplement their income by making lamp shades, while the family exchequer was also helped by charging a shilling per head to the public to view the family residence, Knole, one of the finest and most perfectly preserved of the historic Elizabethan mansions, situated near Seven Oaks, Kent.

Mrs. Sackville evinced great interest in Scott from the time she made his acquaintance. He was soon invited to knois, and Scott left a diary showing how then a friendship was professed. Under date of May 15, 1899, there was an entry, which said:

Federal Domination, According to Canadian Medical Association, Is the True Solution of the Problem of Efficient Bureaus Where Politics Would Not Count.

LONDON, June 24.—(Can. Press.))-A resolution urging the establishment of a federal department of public health was one of the most important steps taken at the meting of the public health section of the Canadian Medical Association's convention, which opened in the Masonic Hall this morning.

During the discussion of the question of public health in general medical inspection in the schools, perhaps one of the most difficult problems in connection of this section, was dealt with at

The paper dealing with this subbject was prepared by Dr. J. Stewart of Halifax, but was read by Dr. Fidlar, of the London Institute of Public Health. It was explained that Dr. Stewart had gone to Scotland to re-

Stewart had gone to Scotland to receive the degree of LL.D. from Edinburgh University.

Dr. Stewart, after reviewing the work being done in all the provinces and especially remarking on the sympathetic interest taken in the work by Hon. Dr. Pyne in Ontario, stated that he was forced to conclude that the work was you in its elementary stage. While there had been progress in the cities, owing to efforts of the few, there was still apathy shown in the smaller places and would be until some definite system was worked out that would constitute a national standard. For this reason, therefore, there was need for a national public health service that could deal with such questions as immigration, sanitation of factorles, control of diseases, adulteration of schools.

of food along with medical inspection of schools.

The True Solution.

The general trend of the discussion was that federad domination was the true solution of the problem of efficient pub-THRilic health bureau. In municipal and provincial domination, politics were bound to influence and hinder.

Dr. Bapty of British Columbia, a former Londoner, expressed the opinion that work was going on at the wrong end in Canada. Children were shut up at the very time they needed the vigor-giving sunlight and air. What was needed, he thought, was out-of-doors workshops, leaving the regular school curriculum to be picked up later.

Those who are part in the discussion were Dr. Whicelsw of Edmonton, Dr. Park of Edmenton, Dr. J. A. Hutchison of Westmount, and Prof. Adami of Montreal, the latter emphasizing the importance of earnest co-operation between the school boards and the boards of health.

The Vice-President, Mr. Thomas Flynn was elected to the chair and Mr.

Flynn was elected to the chair and Mr. 0. G. Smith was appointed secretary of the meeting. The following report of the directors was then submitted:

Directors' Report.

Four quarterly dividends at the rate of seven per cent (7 per cent.) per annum have been paid and provided for; \$200,000 added to the rest, making that account \$650,000, and \$40,000 set aside to be written off bank premises, which will leave a net balance of \$100,470.31 for profit and loss account.

Banque Internationale Purchase

Towards the close of the year, an agreement was entered into with the directors of La Banque Internationale du Canada, for the purchase of the assets of that institution, to be paid for by shares of the Home Bank at the price of \$128 per share. These assets were carefully and thoroughly inspected by experienced officers of the Home Bank, whose valuation was accepted by La. Banque Internationale. The agreement was submitted to the shareholders of that bank at a general meeting, and approved, and then having received the approval of the governorin-council, was formally carried into effect on the 15th day of April last. The result of this purchase is that the balance of our unsubscribed capital has been taken up, a substantial sum received for the rest account, and a connection established in Montreal and in the Province of Quebec, which should prove valuable, and ten branches taken over and continued.

Authority was given under bylaw No. 8 to establish a pension fund and you will be asked to vote a sum for that purpose. Some necessary changes in the bylaws will be submitted for

The Bank Act, after long and careful consideration, both in and out of parliament, has been extended for a further perod of ten (10) years—the changes made being considered beneficial both to the public and the banks. Some slight alterations in the bylaws will require to be made by reason of this new act.

Much regret must be felt at the severance of an active connection, extending over a great many years with the Bank and its preceding institutions, of the retiring president, Mr. Eugene O'Keefe, that gentleman having intimated that owing to continued illhealth and constant inability to attend the meetings of the board he is compelled to decline re-election. It should be added that the interest always taken by Mr. O'Keefe in the affairs of the Bank contributed largely to its suc-

Mention should also be made of the death of Mr. R. B. Street, late inspec-tor of the Bank. Mr. Street's connec-tion with the Home Savings and Loan Company, the predecessor of the Bank, dated back to the year 1879, and he was ever a faithful and efficient officer.

Reviewing Finances Generally.
The financial stringency which prevails thruout the business world, chiefly caused by the Balkan war-not yet completely settled—is felt in Canada, and aggravated by the unwise and un-warranted speculation in real estate, until recently so widespread, and also by the great expansion of the business of the country. This stringency is likely to continue thruout the year, and more especially during the season when the crops require to be moved, but should prove more of less beneficial by checking over-borrowing on the board and Mr. C. B. McNaught was elected a director in his stead.

No new branches of the Home Bank mere opened, but arrangements are being made to open two more offices in the City of Toronto.

One hundred and sixty-five (165) shareholders have been added during the year, and the total number now is shareholders have been added during the year, and the total number now is shareholders of the treasury and securities was made, and the branches inspected.

Famous Dancer Gives Complexion Secrets

(Aileen Moore in Beauty's Mirror). I've learned the secret of Dolores' entrancing beauty—the wondrous charm that has dazzled the courts of Europe and captivated vast audiences everywhere. The famous dancer abhors rouges and cosmetics. Yet, despite the strenuosity of her life, she retains the incomparable omplexion best described as "indescribable." As intimate friend tells me the senorita regularly uses on her face whatdruggists know as mercolized wax. This is applied at night in the manner cold cream is used and washed off in the morning. It absorbs the dead particles of skin which daily appear, and a fair, soft, fresh, girlish complexion is always (Aileen Moore in Beauty's Mirror).

morning. It absorbs the dead particles of skin which daily appear, and a fair, soft, fresh, girlish complexion is always in evidence.

Dolores' skin is not marred by a single wrinkle, not even the finest line. She wards these off by daily bathing the face in a solution made by dissolving an ounce of powdered saxolite in a half-pint witch hazel. As your drug stores keep these ingredients, as well as mercolized wax (one ounce of the wax is sufficient), no doubt your readers will welcome this information.

When the child is old enough to wear hard-soled boots, you cannot be too careful in your selection of, good-ritting shoes. The baby foot is so pretty, so soft and pliant that a badly-ritting shoe can work harm in a year short time. very short time. Let the walking child wear high shoes, or boots as we gen-erally call them, rather than slippers. The slippers with the extension sole soon "turn over" and, besides spoiling the foot they are very uncomfortable for the child. The soles should be fairly broad, but not too heavy. Heavy shoes cause clumsiness and dragging. Do not lace or button boots too tightly. Cold feet will result; and cold feet often mean chilblains. If your child suffers continually from cold feet, give him plenty of fat-forming and heat nim plenty of fat-forming and heatproducing food—oatmeal, cream, butter and cocoa, if he is old enough. For weak ankles there is nothing better than the "corset" shoe. This is a nicely made shoe with three thin supports in each side.

The "run down at one side" shoe needs an extra strip of leather on the needs an extra strip of leather on the sole and heel of the shoe, on the side that tends to wear down. This will keep the foot in a level position.

Keep the children's feet in good condition, and teach them how important it is to their comfort for them to continue the care when they are old enough to look after themselves.

Referring to the reported money stringency in the west and discussing the future, Mr. Hobberlin spoke in an optimistic vein. He was confident that the west was all right, and while there was a slight tightening of the breaks by some of the banks and financial institutions it would have a good effect stitutions it would have a good effect in stopipng unwise speculation, which was largely the cause of the present situation. "I think," he observed, "that the situation, while serious, has been exaggerated and I do not believe there is cause for alarm for the business future." He continued: "I found business excellent in all the places visited and the merchants far from being pessimistic. I am not afraid of the west. It cannot be checked, and

A Successful Border.

Here is the plan of a border that has given us line after line of bril-Hant flowers, since the first warm days in March. So delightful has been strawberries, each containing from 24 the succession of bloom that others to 27 boxes, arrived on the Toronto may find pleasure in following out the

The border runs along the south had not a box left. The 50,000 odd side of the veranda and brick wall boxes, broken up into small lots, had of the house. Such a situation gives been carried uptown to the small the maximum of air, heat, sun and stores and to the restaurants, where light, as well as protection from north "berries and cream" and "strawberry winds. From the east, as well as the shortcake" are as regular signs of west, a clean sweep of air is ob-

The surface is raised some ten inches above the surrounding earth. When making the bed, the soil was taken out to a depth of about two feet; a deep bed of fresh stable manure, containing plenty of hay and straw, was spread to the depth of ten or twelve inches in the bottom of the hole; the soil was then replaced, after being well broken up, and made fairly fine; a dittle sand and ashes was mixed in; a top layer of black loam two inches only, since loam is scarce—was last spread over, and our border

was ready for the plants.

Do you see what a splendid storehouse of constantly generating heat this under-bed of loose material became? Also, what a constant store-house of all moisture that came from above. What an incentive for the young roots—to stretch downwards into that nice warm, moist, steaming bed! The growth has, of course, been simply enormous.

At the back of the border, climbing up on the brick wall, and supported also against the wooden phlars of the veranda, the following vines are planted-have been growing for some years—(and, let me tell you, the making of the bed without disturbing the permanent roots of these old climbers was by no means an easy matter. The greatest care possible had to be taken. But t was accomplished, at last.)

Canning Cherries

HIGHLY prized way of canning cherries is to stone them late in the Columbia College, the Methodist inafternoon and let them stand over night in a crock or porcelain kettle. Stitution situated at New Westminster In the morning pour off the juice and add sugar as needed. The B.C., arrived in the city yesterday or ranjety of cherry and ripeness of fruit must determine this. Boil the juice and sugar to a rich syrup. Heat the jars and place the cherries in them until they are two-thirds full. Pour on the boiling syrup and put on the covers but do not fasten very tightly. on the covers, but do not fasten very tightly.

Have the wash boiler, or canner, partly filled with boiling water, set not yet decided upon his staff. The the jars in and let them stand all night. The heat of the boiling syrup college needs five or six teachers and and the boiling water around them will be sufficient to cook them without it is likely that all the positions will be filled by persons living in eastern than the color and flavor will be that of fresh, uncooked cherchards. ries.

Canning only differs from preserving in the quantity of sugar used. A quarter of a pound of sugar to a pound of fruit is the usual rule for canning small fruits, but no sugar need be used if sterilization by heat is complete. However, it is my opinion that fruits which need sugar when eaten fresh should have the same proportion added when they are canned.

Preserved Cherries: The Morella, or short-stemmed red cherry, or any tart variety, make rich, satisfying preserves. Stone the cherries and save every drop of juice. Measure or weigh the fruit and allow an equal quantity of sugar. Put fruit, sugar and juice in a porcelain kettle in alternate layers. Boil gently until the syrup is quite thick.

A cherry stoner is a practical help in cherry time, as it removes the stones from the fruit many times more rapidly than one's fingers can. Besides, it lasts for many years and does not crush the fruit. There is often a superfluity of juice from cherries and this may be

bottled, while hot, for many uses. It is excellent for fruit cakes, pies and or winter and summer beverages, and makes a fine fruit sauce for puddings and dumplings.

A few desserts that must not be missed in cherry time are made from cooked cherries, so leave a bowl of cherry preserve in the refrigerator for Cherry taptoca is truly delicious. Cook the tapioca as usual, but add

a cup of fresh-cooked cherries at the last. Cool and when very cold serve with cream Moulded Cherries: Add a pint of cherries that have just been cooked in a thick syrup to a tablespoon of dissolved gelatine. Cool this in a border mould and when firm invert it on a low glass platter. Fill the centre with pitted cherries that have been chilled and dredge well with powdered sugar.

Heap whipped cream over all. Serve very cold. Cherry shortcake is as much a delicacy as strawberry shortcake. Make In this way: Stone the cherries and add them to a cake mixture made as r simple cup cake. Bake in square care tins or in cup-cake tins and eat with cream or cherry sauce.

The cake for this dessert may be made over this simple recipe: Two and a half cups flour, one cup sugar, three teaspoons baking powder, a pinch of salt. Sift all these together and work a tablespoon of butter in Add one egg beaten very light and half a cup of milk. Drain the cherries well before adding them.

CHAPTER XI.

It is to be presumed a ball player would look foolisn 'f, just as a game was about to start, he stepped to the home plate, faced the assembled throng, removed his cap and song the following from the prolog to "Pagliacci":

"E voi, pruttosto che le onstre povere gabbane d' istrioni, le nostr' anime considerate, poiche noi siam uomini di carne e d' ossa, e che di quest' orfano mondo all' pari di voi

quest oriano mondo all pari di voi spiriamo l'aere!"

He would doubtless appear equally fool-ish if he sang the same words in English:
"Ah, think then, sweet people,
When ye look upon us, clad in our mot-ley and tinsel,

Ours are human hearts, beating with pas-We are but men like you, for gladness or we are but men like you, for gladness or sorrow.

'Tis the same broad Heaven above us, The same wide lonely world before us!''
There might be some scattering applause, but a vast majority of the unfeeling crowd would yell: "Cut it out!"
Yet ball players are men. They are human beings, a fact often lost sight of by those who pay to see them perform. Frequently they are jeered and hooted and insuited by men of a low order of intelligence in the vrowds; men who intelligence in the rowds; men who would not dare to say the same things to the players, if they met them face to face on the street.

But Long Tom had seen his best days, and he was now down in the minor leagues, with only a brief baseball life before him. His fingers were gnarled and distorted. His right arm was no longer, the terror of base-stealers. His legs had gone back on him.

Bill Smith, manager of the Atlanta Club had taken a change and atlanta.

Club, had taken a chance and signed Long Tom to a contract. He wanted him principally to coach the young pitch-ers on his staff, and he had an idea that the hot southern climate might boil the old fellow out and put him into something like his real form. Long Tom was not old, except in a baseball sense. He had just turned thirty-five, but in baseball youth must be served. ball youth must be served.

Made Him Jealous.

Long Tom reported for practice the first day. He arrived in the clubhouse just as the others began their practice on the field. He slowly undressed and put on a uniform, and, picking up his mitt, mask, chest protector and shin guards, walked thru the runway that led to the field. He came on the scene at the very moment that Gordon Kelly was standing at the plate waiting for Brady to pitch to him, and when Kelly made that tremendous drive he stood stock still and dous drive he stood stock still and watched the ball in its flight far into right field. Then he turned his eyes on the young man, and followed the tall. At a conference of the provincial around the bases. Something in the and civil hydro commissioners it was rage and jealousy.

Included in the latter was Gordon Kelly, who shook Long Tom's warped hand and gave the customary greeting. Morrissey eyed the other critically and remarked: "You're the fence buster of the Southern League, I take it."

"Nothing like that." laughed Kelly, "but I'd like-to be."

WEDNESDAY MORNING, JUNE 25

CLEAR-EYED LABOR.

Some fatal infirmity has overtaken The Telegram of late which makes it see things topsy-turvey in all that relates to the public ownership of the Toronto Street Railway. Last night it announces that public ownership of the street railway would be detrimental to labor and the benefits of public ownership. One can scarcely help remembering the opposition to the late Edgranted twenty-two years ago. Is it faction and profit, they secured pro- ers of the soil than all the allurements possible that some people have learned nothing in the interval, and that the reduction in price. Toronto, howspots of the leopard and the skin of the Ethiopian are beyond the influence of Sapolio?

In the progressive age one expects a little intelligence in dealing with public questions, but The Telegram seems determined to prove itself an anachronism. It attacked Ald. Robbins last suspicion gathers strength that father night with the assertion that labor was clear-eyed in its recognition of truths to which he was blind. Then it stated two theses, which like the flowers that bloom in the spring, are irrelevant, or deceptive, The insinuation behind them is that Mayor Hocken is trying to buy the street railway at a price which would ruin the city. This is an entirely gratuitous whack at Mayor Hocken, who in the course of his duty has, like other estimable people, incurred the personal enmity of The Telegram. There is talk of forming a club of all the people The Telegram doesn't of all the people The Telegram doesn't like. The only ineligibles who might now, because we all feel that we ought to get in are Tommy Church and to celebrate Dominion Day with some want to get in are Tommy Church and Tommy Foster. The Telegram likes them both, but it doesn't like Mayor Hocken. Clear-eyed labor is very well aware of this, and clear-eyed. The country is full of pompous perwell aware of this, and clear-eyed abor would rather trust Mayor Hocken in making a deal for the city than a lighted to harangue the children upon wink and two short squints, and put either of the two Tommies.

When Mayor Hocken's price for the street railway is laid on the table, it must be satisfactory to the city council, to the hydro-electric commission to the ratepayers of Toronto, or it won't go. Clear-eyed labor has got that fundamental fact right under its

by attempting to argue against an money but Nellie caries her copof course, The Telegram does not mind a little difficulty of that kind, but it the woods, but the children must sit sheets in each hand and make 'em go has a certain weight when clear-eyed abor comes to sum up the situation. "Why," says clear-eyed labor, "this in both languages.

The Telegram confirms clear-eyed labor's opinion by declaring that the city will become the agency for distributing Sir William Mackenzie's power, to the neglect and obstruction of hydro-electric. The contracts for power cease with the termination of the franchise period, and as the whole a deer to get a front seat in the question is in the capable hands of school house. The cows will go un-Hon. Adam Beck and the hydroelectric commission, clear-eyed labor is wholly with Ald. Robbins, and only inclined to wonder "what The Telegram's snortin' about anyway?"

WINNIPEG PUBLIC MARKET.

Winnipeg the other day opened a municipal market, intended to fulfil its proper function-that of providing an exchange where producer and consumer can deal directly with one another. In this respect Winnipeg is now in advance of Toronto, whose council with its accustomed perspicacity, has imposed regulations carefully calculated to withhold from the citizens the benefit of a free market. The proposal to have a public market in Winnipeg was first mosted in the columns of The Winnipeg Telegram, and owes its existence to the "Million For Manitobs League," which, among other important subjects, was concerned with the universal problem of the high cost of living, and recognized that the improvement of marketing facilities and the practical elimination of intermediary profits would operate beneficially to both producers and consumers.

Stand-patters who want to maintain the present expensive and cumbrous system of distribution in cities and thruout the country have a stereotyped objection that citizens, and particularly citizenesses, will not take the trouble to do their marketing personally. Possibly when the family budget was on an economic basis the theory might have a basis of fact. But in these days the call on the household exchequer is too severe to permit negligent disregard of available means for

Duke of Mecklenburg-Streiitz "Queen Mary had taken special precautions to prevent the usual high play that takes place in the castle ouring the Ascot party. This year her ma jesty had requested that poker and baccarat should not be played, and points at bridge were strictly limited. "As neither of their majesties played, the card tables in the white drawing room, which is generally used as card room when there is a large party at Windsor, was almost deserted. On NEW YORK, June 24.-A London the last night of the meeting the grand cablegram says:

"Gambling on a huge scale took
place at Windsor Castle on the last
night of the Ascot race meeting, in the
night of the Ascot race meeting, in the

drawing room of the private suite in carat after their majesties had rethe partment allotted to the Grand tired. Prince Arthur a Loser. "The gampling party did not break up till after 4 o'clock in the morning. Prince Arthur of Connaught lost \$8600, the Earl of Granard, whose wife was Miss Beatrice Mills of New York, lost \$2000. The grand duke won \$7500. It was the heaviest gambling that has taken place at Windsor since the time of George IV.

"Queen Mary is very earnest in her efforts to stop gambling in the royal palaces. All known women gamblers have been struck off the list of those receiving invitations to royal functions.
The Queen is seconded in her campaign by the Marchioness of Crawe, who is most careful as to whom she invites. "It is believed that if the antigambling campaign is successful may be followed by an anti-racing out-burst. Queen Mary thinks racing is cruel and it is known that she secretly sends donations to the anti-vivisection

big day is looked for.

They will have entries from Toronto, Parkdale, Island Aquatic, Kew Beach and Humber Bay for the double blade challenge cup. This regatta should help the Beachers on Dominion Day.

There was a noticeable lack of racing experience in their green war canoe crew on Saturday in the Gooch Shield. They were "up in the air" from the start and paddled all over the course. They are training in earnest this week, and on Dominion Day should give a good account of themselves.

NEW YORK, June 23.—Altho he fell into a. slight slump. Joe Jackson, the doughty Cleveland outfleider, held the pace among the American League batsmen last week, showing the way to a stinguished assembly with an average of .40s. Ty Cobb was unable to make any gain, and was forced to be content with second place, at .39° Speaker moved into third position, ahead of Eddie Collins, who fell off about 20 points to .35s. Rollie Zeider's position as leading hitter on the Yankees was unchallenged, although the second batsman was on the bench, unable to plead his cause. Ed. Sweeney failed to get into the ranks of the .300 hitters, despite his good batting, but he turned in a lusty .292. Roy Hartzell is placed at .277, while Peckinpaugh is four points behind, at .272. Daniels showed no improvement with his .220 mark, while was 10 2-5 secs.

The half mile was a scorcher, and the scratch men were forced to the limit to catch the leaders. There were twenty-four starters with Jack Tressider and Walter Newall on scratch. The nearest failing off to .168. Milan of Washington leads the league in stolen bases, with 33, seven better than the nearest rival, Eddie Collins. McKeechnie seems to get worse and worse, failing off to .168. Cobb broke into the list of the select best ten, with 17 to his credit.

TWO HUNDRED CARS TO CARRY ORPHANS

Ontario Motor League Plans For Children's Annual Joy Ride Today.

Two hundred motors will be needed to handle the thousand children who expect to enjoy the orphans' outing to Scarboro Beach today, and late last night the required number had not been quite made up. Accordingly, any cars which show up at Queen's Park this morning at 9.30 will not go a-begging for passengers.

The brickmaking enterprise of the Ontario Government, as outlined in connection with the description The children are to be brought from the automobiles and started on what will be in the true sense of the word, Whithy Asylum recently, is making rapid progress. The output of the factory, nearing completion, at Mimico, is estimated to exceed eight million per year, and these will be used for constructing all government buildings.

will be an the true sense of the word, a joy-ride. The procession will end up at Scarboro Beach, where the youngstress will be allowed free admission to all the amusements, and will receive lunch and souvenirs before starting home at 4 o'clock in the afternoon.

We believe the live stock shippers of Winnipeg are not in the habit of 'doing us up,' but are taking a business advantage of an item published in our tariff. The newspapers have been saying they did us up. The Carload Minimum.

Mr. Cowan, in regard to the C. P. R.'s estimates of what it would have made under the Great Northern rates from Duluth, pointed out that the difference had been obtained by charging against the Duluth end the difference between the Canadian carload minimum of 24,000 pounds and the United States minimum of 40,000 pounds. In January, 1912, the total number of cars shipped from Next William shipped from Fort William was 85. Of these 32 went to Saskatchewan and Alberta, their total actual weight being 1,039,410 pounds. The amount credited to the C. P. R. and charged against the Great Northern to make up for the higher minimum was 212,-020 pounds, or a difference or 6625 pounds of each of the 32 cars.

"Applying your method," said Mr. Lanigan, "we would have made \$224 more under the Great Northern application." Phantom Freight.

Mr. Cowan went on to give the February figures from Fort William. "To use your own words, it is simply so many million pounds of phantom freight moved in spectral cars," he said, "freight and cars which never moved." The shipper would not pay for freight which he did not ship, but would load up to the minimum of the would load up to the minimum of the 40,000 pounds which the Great Novthern classification demanded to obtain carload rate.

Mr. Cowan cleamed the C. P. R. had taken 1912 as an exceptionally heavy year for crops in North Dakota, and compared it with the same year, which was an exceptionally poor one for Saskatchewan.

This witness closed the case for the plaintiff.

The R. C. Y. C. secretary, Donald Brenner, who claimed that he had for fifteen years salled the Toronto Bay, and therefore, had practical knowledge as to mooring and other facilities, stated that the R. C. Y. C. fleet was perhaps the largest fresh water fleet in the world. It consisted of over 120 boats.

He said the entrance to the club house was so bad that it was not an uncommon thing to see the yachts and launches stir up the mud from the bottom.

Asked by Mr. McMaster why the club had not dealt with any other company to do the dredging, witness declared it was the only company he knew of that would do the work.

"You made the agreement with the Said Supplies without finding out whether you could sell the sand to any other company?"

"I did not know we could sell the sand."

"I did not know we could sell the sand," "I did not know we could sell the sand," replied witness.

Mr. Brenner admitted that altho their consulting engineer had stated it would be unsafe to dredge within 1000 feet of the concrete wall, work had been carried on within 600 feet. He disagreed with the engineer's statement that it was unsafe.

safe.
Witness admitted that altho the contract called for dredging to leave 16 feet of water, the only boat having a draught of more than 10 feet was John C. Eaton's "Florence." "Florence."

The minutes of the yacht club showed the following to be on the committee who instructed the secretary to award the contract with the Sand Company: Amellius Jarvis, W. C. Brent, Sydney Small, L. S. McMurray, H. Moore, A. W. S. Roberts, Alf. W. Smith, L. G. Staunton and S. P. Brush.

HORSE BUSINESS GOOD AT THE REPOSITORY The horse business at the Repository continues steady and good. At yesterday's anction sale the consignments were large and the attendance of buyers quite satisfactory. The demand for the best class of horses is rather limited, but cheaper serviceable workers are in good request.

PROVIDENCE, June 24.—(Special.)—
Toronto broke her losing streak here this afternoon, and made no mistake about it, trimming the locals in the first bargain day bill by a score of 9 to 3. From the minute Sline stepped into the box there was no doubt as to which team would win the engagement, the Leafs smashing the ball to ali corners of the state. The second game went the other way, but a fine batting rally in the ninth set the local fans on edge and caused Donovan to hurry Latitue down to the corners to warm up. Moran pitched a splendid game for eight immings, barring a temporary lapse in the second, but it looked as the ne would be chased in the ninth. Three catch by McIntyre in deep left, all three laceled for extra bases, following a double, a triple and a single, saved the second pattle from dropping out of the Providence basket. In fact, it was nothing but the finest kind of work in the field that saved Moran, and but for this same brilliant fielding in the first game the champlons would have made twice as many runs as they did. Hugh Bradley, formerly of Jersey City, and on whose account the management of that club is engaged in a squabble with the Boston Americans reported to Toronto, and the atternoon, and made no mistake about it, inst trimming the locals in the first bargain, and it will be a score of \$ 10 3. ACCIDENTAL DEATH.

Chief Coroner Arthur Jukes Johnston, who testified last night at the inquest into the death of the unknown man who was found last Sunday beneath the stairway leading from the sidewalk to the entrance of the lodging house at 131 Wellington street, stated that the man had not been instantly killed by nis fall, but had been in such a peculiar manner that he died from suffocation. The inquest was conducted by Coroner G. G. Rowe, and the verdict was accidentl death. An interesting feature of the inquest was that no evidence was secured to identify the man.

MORE CONFIDENT

Apprehension Over Financial Outlook Is Gradually Being Replaced by Optimism.

SPECULATION IS DULL

Sharp Advances in Spanish BANK CLEARINGS River and Brazilian the Sole Features.

Tho the trading movement was generally of very small proportions, a much better feeling was existent in the Toronto Stock Exchange yesterday, and it was quite apparent that confidence in the Canadian security confidence in the Canadian security list was gradually being restored. Sentiment was inspired by the rally in the London market and the marking up of prices in Wall street. The fact that cables reported Brazilian at a smart advance in Capel Court was followed by a two point advance here, and this incident played a part all its qwn in the reconstruction of public opinion regarding things financial.

The stubborn firmness which the stock markets are showing is quite to the London market and the marking in point of bank clearings last week. Montreal dropped back from sixth to seventh place in the record of the continent, being outself from its custom-ary position by Pittsburg. Baltimore tenth to eleventh rank. Winnipeg came tenth to eleventh rank of the continent, being out of the reconstruction of public out of the continent, being out of the reconstruction of public out of the continent, being out of the reconstruction of public out of the continent, being out of the conti 16 King St. West, Toronto the London market and the marking stock markets are showing is quite natural after the drastic shakeout

which they have undergone. Liquidation is still dribbling out, but the bears seem to have exhausted their ammu-nition and only the extreme caution of prospective buyers holds back an extended advance. It would be idle to predict that the worst has passed, for with uncertainty still the keynote of the situation, the future alone can reveal what will happen. The outlook is brighter than it was, however, and those who purchase good securities outright with the intention of holding them will have no cause to regret their

Spanish River Soaring.

A sharp spurt in Spanish River was the real feature yesterday. The shares opened at 49, a full 5 points above the previous sale, and gained another 1 1-2 points a 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1 2 before the previous sale, and gained another 1 1-2 points at 50 1-2 before noon, with the close only slightly below the best. Opinion was somewhat divided as to the meaning of the big advance, tho it was generally accepted that it had been brought about for the purpose of restoring confidence in the industrial stocks. The company's fiscal year ends this month, but the usual estimates of earnings are lacking. Talk of dividends was heard last year, but these are not expected for some time to come at the least. The shares open-ed this month at 56, and have since sold as low as 40.

Brazilian opened at 87, a full 1 1-2 points up from Monday's close, and later rallied to 87 1-4, a net gain of 1 3-4 for the day and almost 3 points for the week to date. It closed right at the top level, with supporting orders in from London. The May earnings reported during the day made a good showing.

In the general list changes were small, but where they occurred they usually took the form of advances. Toronto Railway gained almost a point at 137 1-4 and Twin City was up a fraction to 102 1-2. Bell Telephone Canadian Consolidated Felt preferred to the control of the cont

London Buys Again.

The better feeling in London was expressed in concrete form by the purchase here of 20,000 to 25,000 shares for London account, principally of Steel, Amalgamated, the Harrimans and Canadian Pacific. This buying was one of the chief influences in the early trading in which prices went up Government, and direction has been given for the dissolution of the concern on July 7. The company succeeded the Right of Way Mining Co., ly trading in which prices went up which held the property and 1,000,000 shares of Cobalt Merger. It was capitalized at \$2,000,000, of which 1,635,500 swiftly. Sentiment was more cheerful and operations for the long account

were carried on with increased conlidence. There was no sustained demand on a large scale, however, and part of the early gains were lost in a mid-session slump, but toward the close bidding increased. Final prices were the best of the day, with gains were the best of the day, with gains shipment netted enough profit to repay the purchase price of the propay the purchase price of the prorunning up to 3 points in the case of Union Pacific and Canadian Pacific.

RAIN OR RUIN IS

It was not until after an opening dip in prices that the wheat market began to respond to the crop scare. When once the news from the Dakotas had made an impression, however, winter harvest advices and all other developments were treated as the of minor importance. The first despatch that attracted general notice in the wheat pit was from a well known expert, who declared that 600, 000 acres in Brown, McPherson, Ed-munds, Faulk and Spink Counties, South Dakota, were in such desperate condition that nothing but general soaking rains at once could save any material part of the crop.

IMPROVED OUTLOOK FOR FOREIGN CROPS

Conditions in Europe Better Than Last Week-Some Complaints Heard.

Broomhall's weekly report on foreign crop conditions, issued yesterday in Liverpool, is as follows: United Kingdom.—The wheat outlook has shown an improvement, as the spring crop has wanted rain, which is now fall-

France.—Outlook is good for the new crop, with a full acreage planted. Outlook for oats doubtful. Native wheat is being sparingly offered, with quality poor. Germany.—Outlook for wheat satisfactory, rye rather satisfactory, while spring crops in the centre and cast need rain. Native supplies fair.
Russia.—Outlook in southern region is good, and Volga improved, but still very uncertain. Centre and west mostly good. Oats, many complaints received, and the outlook is unsatisfactory.
Roumania.—Wheat favorable, while corn is unsatisfactory. Weather unseasonably cool and stormy.

Trade in milkers and springers was inclined to be slow. Prices ranged from \$40 to \$65 each.

Veal Calves.

The calf trade remained about steady. Choice veals sold at \$8.50 to \$9 per cwt: good calves at \$7.50 to \$8; common calves at \$5 to \$6.50 per cwt.

Sheep and Lambs.

Receipts of sheep and lambs were liberal and prices were much weaker. Sheep, light ewes, \$5.40 to \$6; heavy ewes and rams sold at \$4 to \$5 per cwt; yearling ewes \$7.50 to \$7.75; spring lambs sold at \$9 to \$10.50 per cwt., or in other words 9c to 10½c per lb.

Hogs.

The bulk of the hogs sold at \$3.50 fed and watered, altho a few small lots were sold at \$9.60 fed and watered. The ruling quotations were \$9.50 fed and watered, altho a few small lots were sold at \$9.60 fed and watered. The ruling quotations were \$9.50 fed and watered, and \$9.15 f.o.b. cars.

Representative Sales.

Maybee & Wilson sold 14 loads of live stock: Butchers, at \$6.10 to \$7; cows, at \$3.75 to \$6.25; 1 bull. 1420 lbs., at \$5.90; 1 springer at \$60; 20 sheep at \$5.50 to \$6; 16 lambs at \$10.50 per cwt.; 75 lambs at \$9.75 per cwt.; 13 calves at \$8.50 per cwt.; 1 calf at \$9 per cwt.; 30 hogs at \$9.55, off cars.

Dunn & Levack sold:

The Newest Is Always Conservative

It is a mistake to believe that because a style is new it is extreme. In this age of cheap printing and good cuts the details of clothing change instantaneously from the Gulf to Hudson Bay. The extreme suit is

not the new cut which everyone is wearing, but the antique model which is the pride of the local tailor.

And you are paid for compliance in being able to buy the latest, nicest clothing at practically wholesale prices in our men's wear departments; while the custom made suit, more or less behind the

style, costs you double the amount.

This is an invitation to investigate the splendid values we are offering.
