"At the date of the last narrative, Sept. 14, the Germans were making a determined resistance along the River Alsne. Opposition, which it was at first thought might possibly be of a rear guard nature, not entailing material delay to our progress, has developed and has proved to be more serious than was anticipated.

"The action now being fought by the Germans along their line may, it is true, have been undertaken in order to gain time for some strategic operation or move, and may not be their main stand. But if this is so, the fighting is naturally on a scale which, as to extent of ground covered and duration of resistance, makes it undistinguishable in its progress from what is known as a

In the eastern theatre of war the news that Breslau has been cut off from Berlin so far as wire communications are concerned, has caused the gravest fears in Berlin. It is feared that the Russian centre has penetrated well beyond the point where last reported and that it may even now have invested Breslau. This is the second most important city in Prussia and it is capital of Silesia. Last reports from there stated that adequate German forces were between the city and the frontier. TO ATTACK CRACOW.

Petrograd despatches state that the Russian army in Austria has

enveloped Jaroslav and Przemysl and is now pushing on to attack Cracow. These three fortresses are the only important points in the invaded province still held by the Austrians. A five-hour truce, the first of the war, was granted by the Russians at Przemysl, to permit burial of the Austrian dead. TERRIFIC BATTLE COMING.

When the Russians reach Cracow it is expected that a terrific battle will ensue. The fortifications of the city are thoroly modern and everything is in readiness for a desperate resistance. Austrian reserves and the German Landwehr in large numbers have come up to support the retreating armies. Non-combatants in large numbers are leaving the city and the Russian attempt to carry the city will be resisted to the last. More than 1,000,000 troops are on the defenders' lines.

Sarajevo, capital of Bosnia, is reported taken by the combined Servian-Montenegrin armies. The defeat of the Austrians is characterized as overwhelming.

of TAWA. Sept. 22.—Sir Robert Borden, who returned to Ottawa from Valcartier today, made the important announcement that Canada has given to the British war office for use at the front, 104 pieces of artillery of various calibre and about 30 machine guns. Some of these will go forward with the transports. The premier stated that the delay in forwarding the Canadian force had been altogether due to the difficulty of meeting the requirements of transport.

Whole Force to Go.

"After careful consideration it was determined vesterday to send forward all the effective men in camp, that is, all those who have passed the necessary medical examination. The expeditionary force, including the Princess Patricia's Canadian light infantry, will thus number approximately 31,200 and 7500 horses. It will comprise 11 batteries of horse and fleld artillery of six guns each. These are of the most modern type and are the same as those used in British army, in addition four heavy guns known as sixty poundrs will also go forward, as well as a number of machine guns, many of which have been generously donated by patriotic citizens whose gifts have already been acknowledged and to whom he very sincere thanks of the government and people of Canada are due.

New York, Sept. 22—A Petrograd cable to The Tribune says: Specialists here estimate that the extreme limits of Austro-German resources in men for this war do not exceed 6,000,-000, about two-thirds being German and the other third Austrian.

The Germans have lost in France Belgium and East Prussia, together with their last losses in concert with Austria in Galicia, no fewer than 1,000,000 men. The Austrians in their conflict with Russia and Servia have likewise lost another 1,000,000 men in killed, wounded, and prisoners, the latter being particularly numerous cwing to the readiness of the Slav elements—about one half of the total Austrian armies—to surrender to their fellow Slavs.

About Retaining Walls.

Retaining walls for Bathurst Hill. park site and playground for the district, winter skating rink and car tracks on Bathurst street from the subway to St. Clair avenue were the subjects discussed at the adjourned meeting of the Hillcrest Ratepayers' Association in Hillcrest school last evening.

Mr. Munro asked the president if he had any information as to the probable cost and dimensions of the walls, and f their erection would mean abandoning the suggested park site.

President Warrer, said that he had no received any infoamation on the matter

received any infoamation on the matter from the civic authorities.

A petition for a park had been signed by 450 residents of the district, which was not yet presented to the city council, but as the retaining walls are contemplated it might be advisable to present the petition at once.

Resolutions Adopted.

The following resolutions were adopted: "That a deputation go before the board of control with a signe deptition, requesting them to find out from the proper officials the probable cost of grading the banks as against the cost of building, retaining walls and also to ask what has been done with reference to the offer of the Gage property for a park site."

"Further, that the deputation point out to the board of control that car tracks should be laid on Bathurst street from the subway to St. Clair avenue and request the city to provide an outdoor skating rink for the coming winter in the civic property corner on St. Clair avenue."

A member pointed out that if retaining walls are not built on Bathurst street or the sides terraced, the sidewkalks will be in a terrible state during the winter, and should the city secure the property for park purposes, Mr. Gage had agreed to terrace his property at his own ex-

Another striking example of the growth of the fair this year is the fact that the number of entries in the beef cattle class are double what they have been in the past five years. The fine arts and women's work departments are also well filled.

Poultry Judging.

In the first twenty-one classes included in the fine arts department, Miss F. M. Bailey, 281 George street, Toronto, was awarded the first prize. J. H. Thompson of Britannia, Dr. Sharp of Brampton and Jas. Fidler of Norval won the majority of the prizes in the poultry division. Robert Plunkett and sons of Weston were awarded most of the first prizes in the root and vegetable classes.

After deliberation the directors of the fair deemed it advisable to cancel a concert they had advertised, which was to have taken place tonight. which brings out all the wonderful pathos of the Miserere scene and places the arias of Eleonora and Manrico in an established niche of celebrity.

The handling of Il Trovatore by the San Carlo Company at the Royal Alexandra Theatre last evening was capable in technique, stirring in action, and brilliant at intervals. It is but just to ray that no operatic company visiting the city within later years has more nearly gasped the spirit of "The Troubadour," or brought out the wealth of its musical beauty with more pleasing effect. The solo voices were of splendid calibre, in every instance. The massed voices did not meet the tremendous climax of the Anvil Chorus with the volume that is sometimes gained, but the beauty of fone and balance of power were unquestionable. It has evidently been the desire of those responsible for the aggregation of singers

There was also to be remarked a vividness of histrionic ability on the part of the
principal characters. There was an appreciable departure from the stolidity
which sometimes stamps the work of even
the best of opera stars. The harmonic
effects, either in male singing, or the
duet and trio periods, were very beautiful at times.

It was in the reading of Eleonora by
Mary Kaestner that the combination of

lyric soprano, flexible, and with marked purity of tone.

The honors of the evening in the other roles were divided equally between G. Coccotti, Alesandro, Modesti and Anna Henderson. The contributions of each pulsated with emotional beauty of expression. Modesti, as the count, received a warm reception for the handling of his ringing baritone voice. His tones have a full florid quality, and the severest tax imposed on them last evening did not detract from their resonance.

imposed on them last evening did not detract from their resonance.

Quite as happy were the appearances of Coccotti, whose voice at one moment sounded forth with a robusto tone and anon drifted into lyrical sweetness. His best moments occurred in the dramatic periods of the last act.

The appearance here last year of Marie Claessens in the role of Mez brought an unconscious comparison with the singing of Anna Henderson last evening. Miss Henderson loses nothing in the contrast and gains a little by her histrionic appreciation. The whole presentation was something of a triumph.

Verdi's Rigoletto will be sung tonight, with Vaccarl, Henderson, Sedelmayer, Zawner, Modesti, Sciaretti and Anzalone.

#### The Need is For Men

Now that Valcartier is being cleared of all the men in training there, it dous the pressure is upon the other feeling that we will come out all right, and that others will fight our battles and achieve a victory for us, is an unworthy one in the presence of those who are taking their places on the firing line that we may sit at home at

It is estimated that a million British troops will be engaged on the continent by next June. That means that we must do four times better than we have done yet. Nobody thoroly appreciates the strain that is being put upon civilization to maintain itself. The struggle is between the destructive and the constructive forces of humanity, between humanity run to intellectualism and humanity trending towards the religions and the practice of brotherhood among men.

When this is understood there should be no hesitation in a country like Canada among the young men who have been brought up under the influences of a generous and benevolent freedom to take their part in preserving alive on earth the empire which above all others stands for high conceptions of

life and duty. of the concealed enemy who have just sunk three cruisers in the North transferred to Canada just as surely neutral position heretofore, would have no object in interfering with a German invasion of the Dominion, as long as Germany declared her intention not to establish herself permanently here.

We rely on the British navy to prevent such an event. Yet we have done nothing to strengthen the navy. We can do no less now than give our flesh and blood, our bone and sinew, our heart and strength, to help in the great struggle on land.

The organization of the second contingent will be proceeded with immediately. Were Toronto situated in Europe, nothing less than the whole contingent would be expected from us, and another after that. As it is, only those who feel that there is something to live for more than dollars, dress and dreams, will take up the rifle and the bayonet and help to carry on the tradition of the race which has made America what it is.

The deeps of England are stirred in the cause. The clergymen and the ministers in the pulpits are beseeching their young men to quit themselves Mke men, and to go forth on what they regard as a holy war. The reflection that seems to be present to the minds of all is that those who remain behind, when there is nothing to detain them but their own hesitation to go, are not worth fighting for. Every man must ask himself, if he has not gone to the front, whether it is worth their while for those who have gone to die for him; and if he is doing that which will make their sacrifice no idle one.

To have others throwing away their lives for us, and to feel that we are not worthy of it, is surely the keenest reproach the heart can feel. We must order ourselves in these matters, but we must be sure that we are under orders, and not the slaves of our own comfort. If we do not make our contribution on the battle line, we must not neglect to make it at home.

#### The Naval Mishap

This naval reverse in the North Sea will bring home to the peoples of the empire, quite as much as to the fleet, the nature of the task devolved upon Sir John Jellicoe and his command. In the days of Nelson a fleet had only to guard against an open enemy. Today the submarine is presenting another problem added to the many which confront naval officers when they undertake the task of policing the seas. No word has yet come explaining why three powerful British cruisers have removed from the battle line. Beyoud the bare fact, nothing has been issued, and we do not yet know how many of the two thousand and odd men that manned the sunken ships have survived to tell the tale. Of one

This helpless old cripple, who is not able to get about himself, much less side of the Atlantic. Every man who can shoot and march is needed. The journal, in a long editorial, denounces the Interstate Commerce Commission because it did not immediately grant the application for a five per cent. increase in eastern freight rates recently made by the roads. The cartoon accompanies the editorial, and is designed to move us to tears. The Interstate Commerce Commission is represented as a portly and arrogant physician who will not attend to the poor old broken-down veteran, swathed in bandages marked "war." "increased expenditures" and "decreased revenue.'

> We might say in passing that the artist should have used more bandages. One might have been marked "stock watering," another "fraudulent bond issues." a third "subsidiary corporations," a fourth "wholesale looting." Perhaps the picture would have been more realistic had it shown a dagger plunged into the old man's vitals with the handle labeled "Wall street."

#### Says He Rid Toronto of Dandelions, Wants Reward

A call for \$10,000 reward has been, registered at the parliament buildings by a resident of Toronto who claims to have discovered an agent that will destroy every dandelion in the city. The application is made apparently in good faith at the premier's office, on the ground that the writer has rendered a great service to the province and one deserving of the services. the province and one deserving of pecuniary recognition.

The statement is to the effect that

F. Bamford Asks Three Thousand Dollars - The Day at Osgoode.

Three winding-up orders were tranted by Mr. Justice Middleton at Degoode Hall yesterday. On the application of Edward Maurer and Co., of New York, who claim to be creditors to the amount of \$14,066.33, the Independent Tire Company of Toronto were ordered into liquidation. It is said that other creditors have

liberated them in dinered.

In concluding his letter the writer asks for investigatory proof of his contention, and suggests ten thousand as a small sum in view of the services rendered.

MAN IN GAY RAIMENT

The company was incorporated in 1911 with a paid-up capital of \$248,837, and the petition stated that they lost \$62,500 during its last year. It is also alleged that commission on sale of shares to the extent of \$52,165 was paid out of the capital.

Holmes Restaurants, Limited, was the wound up. Incor-

porated with a nominal capital of \$250,000, which was partially taken up by about 500 small shareholders, the company secured a lease of the premises of 83 Yonge street. About \$19,000 was spent in remodelling the premises, is reported missing. FOR SMART YOUNG MEN.

Some people say this is the Indian rummer, altho it is usually agreed that does not arrive until the first snow flies. However, it has provided a welcome respite, which does not, however, mean that young and smart men are not concerning themselves about the latest ideas in fall suits. Indeed, for them it is an advantage because it enables the very latest designs to get on the market.

Ever alert in all that concerns the fashionable world of men. Hickey & Pascoe, 97 Yonge street, are now showing an entirely up-to-date line in pencil stripe suits. They represent the last word in style and elegance and are cut on the lines of new English models. Materials are choice and varied and include black, blue and gray cheviots in refined and attractive shades. With collared vests and straight cut trousers purchasers of these suits at \$15 will everywhere be conscious that without offensive swagger or ostentation they are well and smartly dressed men.

St. Paul's Methodist Church, Avenue road, decorated with white asters, roses and palms, was the scene at 3 o'clock yesterday afternoon of the marriage of Laurene, daughter of Mr. and Mrs. Stephen Syer, to Mr. John Arthur Rawinson. The coremony was performed by the the women's league and applications for others are arriving.

At a meeting of the Westminster Chapter I.O.D.E. yesterday afternoon an excellent attendance participated in the proceedings which marked the beginning of a splendid year's work, judging from the enthusiasm with which plans were put forward and developed. Mrs. McLennan, the capable regent, read an inspiring address to which plans were put forward and developed. Mrs. McLennan, the capable regent, read an inspiring address to the members, in which the fundamentals and aims of the LO.D.E. were clearly set forth, and urged all present to do their utmost in forwarding relief work, a branch which every woman who becomes a member pledged herself to assist in if necessity requires.

War Pictures and Music at Massey Hall. Not many of the kindred and friends of the Toronto troops can go to Valcartier to see them. The next best thing they can do is to attend the patriotic entertainment at Massey Hall tomorrow night, where all the latest pictures of the troops at Valcartier will be shown by Mr. Frank Yeigh, who will also put on nearly one hundred views of Britain's army and naval movements; also Russian, French and Belgian pictures, showing actual war conditions. The Queen's Own Band will play special music, and Mr. Harold Jarvis will sing a number of patriotic songs. This entertain-ment will be unique, and should at-tract a full house. Cut This Out

Famous Specialist's Recipe for Catarrhal Deafness and Head Noises.

If you know someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them, and you will have been the means of saving some poor sufferers perhaps from total deafness. Recent experiments have proved conclusively that catarrhal deaf-ness, head noises, etc. were the direct cause of constitutional disease, and that salves, sprays, inhalers, etc., merely temporize with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money have been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescription which was eventually formulated and which has aroused the belief that deaf-ness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home Secure from your druggist 1 oz. Parmint (Double Strength), about 75c worth. Take this home and add to it ¼ pint of

hot water and 4 ozs. of moist or granu-lated sugar; stir until dissolved. Take one tablespoonful four times a day. The first dose promptly ends the most distressing head noises, headache, dulness, cloudy thinking, etc., while the given notice that they will lay down their musical instruments. They will join with the stage hands in an effort to bring the managers of the Orpheum, Gayety, Princess and Nationale Theatres to grant them the increase. The musicians recently signed contracts at an increased salary, but are being called out in sympathy. New hands are at work at the affected theatres.

Since the discovery that mercolized wax possesses remarkable absorbent powers when applied to the skin, the demand for it as a complexion renewer has been tremendous. Druggists in every section report sales as far exceeding those of anything similar they have ever had on their shelves.

Ordinary mercolized wax according to Prof. Hoffman, gently peels off the deroty from an extended European tour, has decided to hold Friday afternoon meetings, from 3 to 4 o'clock, thruout the winter at her home, 850 West St. Clair avenue, to encourage children to join in relief work. ## THE WOODBINE AT A GLANCE

## CANADIAN OWNERS WIN THREE FEATURES AT WOODBINE PARK

G. M. Hendrie's Great Britain OTTAWA SAYS Autumn Cup, J. S. Hendrie's Privet Petal Seagram Cup, and R. Davies' King Hamburg the Mich- No Team for O. R. F. U.aelmas Handicap.

It was like old times yesterday at Woodbine Park to see the colors of Seagram, Hendrie and Davies flash in front in four of the seven races. They beat all comers in the three features, the Hendrie family accounting for the Toronto Autimm Cup and the Seagram Cup with Great Britain and Privet Petal. The Michaelmas Handicap was won by King Hamburg of Thorncliffe. Perhaps the most popular win of the day was in the opening event, which was won by Joseph E. Seagram's good three-year-old, Si first visit of the year to Woodbine Park, and he is remaining for the rest of the meeting, his many friends being greatly pleased to note the fine improvement in his health. The president performed the Seagram Cup to Eddie Whyte, who acted on behalf of Geo. Hendrie.

Murphy, an apprentice, had the leg up on three winners.

Players and Clubs.

The following is from Ottawa: The talk of an Ottawa team for the O.R.F.U. is sheer nonsense. As it is now, the Ottawa team is hard put to for players, and it is a certainty that no other senior team could be formed in this city, even should there be any club anxious to get into the game. There is no club in Ottawa applying for an O.R.F.U. franchise with any players in sight, and no club would be able to live in Ottawa with a team in that league outside of Ottawa College. The college authorities have passed up Rugby, and will support only city league teams this fall. The report from Toronto that an O.R.F.U. team was to be located here was possibly more of a surprise here than anywhere else. There is no O.R.F.U. club forming here, nor is the region to be one.

Five senior teams: Dovercourt, Lodge

The half-milers worked into the money at long odds in the fourth race, when Luria and Birka ran first and third. Broomsedge split the pair. The three long shots fought it out alonge the six furlongs. Chad Buford, favorite, was off last condition; make up much strough. Parkdale junior O.R.F.U. squad will work out this afternoon at 5 o'clock at the Exhibition grounds. Bobby Davidson and Hugh Gall will be in charge. longs. Chad Butoru, lavorus and didn't make up much ground.

McGill University football team h%eld its first serious practice in preparation for the coming series of intercollegiate games. Among the old-timers out were George Laing (last year's captain), Montgomery, Jeffreys (the wing man) and Williamson. Shaughnessy, who is helping to coach the Montreal team, is still with the collegians, and thinks he has enough material at his disposal to get together another championship team. Lahore led to within a hundred yards from home in the Autumn Handicap, where he was passed by Great Britain and the distance saved him from the rush of Rudolfo, that trailed as usual to the stretch, one time being lengths behind the field. Besides the first two, Barnegat and Polly H. carried a lot of money.

In the Seagram Cup, Murphy outrode Shilling and Privet Petal beat Fountain Fay, or Davies, instead of Hendrie, would have had double brackets in the features. Fountain Fay ran in front and well in hand right up to the wire, where Privet Petal nosed him out. Martian was third.

Stable following made Armor a strong head of Dicie Jackson.

### The Week of the Fall Race Meet Interests Many Men in the New **Coats and Raincoats**

To mention "Coats" this year is to think of "Balma-They are the whole fashion in fall top coats for

The charm of that splendid sollection of Balmacaans featured in the Men's Clothing Section is the infinite variety it

Men who thought at first that the new swagger overcoat was for the exclusive set of "smart dressers" are finding in this EATON Fall showing some of the very neatest of cloths and a very conservatively mo-deled Balmacaan style; little dark gray checks, a plain Oxford gray and other modest patterns, in a coat with the full flaring Balmacaan skirt and deep armholes, but with a velvet collar and ordinary broad, soft roll lapels.

Then, on the other hand, there are the very latest and most striking small plaids and Scotch mixtures in rough tweeds, the coats that mark all fashionable gatherings of men in New York and London-and which are just the thing for the Race Meet. Very swagger coats that button right up to the throat and have the mili-

The point is, that men of every taste can be suited from this satisfying assortment of Balmacaan overcoats. In PRICE, too; for the coats run from as low as \$13.50, for a very stylish looking garment, to \$30.00, and including coats at \$15.00, \$16.50, \$18.00, \$20.00, \$22.50, \$25.00

and \$27.50. RAINCOATS IN OVERCOAT FABRICS ARE COMING IN-AND MEN SEEM TO LIKE THEM.

The idea is, of course, that they be worn as fall top-coats, in all weather. And a raincoat often seems warmer than a cloth topper on a bleak day, the rubberized interlining naturally being windproof as well as waterproof. But a raincoat never could be dressy-until these new

shower proofs came along - in the dressy overcoat materials! See them. There's a very pretty fawn shade, and a dark gray that is just as neat. The small checks and plaids are pleasing patterns. The Balmacaan style in these will make a hit with young men. And the prices are quite low; \$8.50, \$10.00, \$10.50, \$12.50 and \$14.00.

A RAINCOAT SPECIAL FOR WEDNESDAY, AT \$8.95. Silk Raincoats, double texture paramatta cloth raincoats and tweed-faced raincoats that look like top coats (these have checked or silk back linings). An exceptional variety, including a number of Balmacaans. All sizes for men, 36 to 42 chest measure. Every coat priced extraor-

### THE WORLD FORM CHART

COLUMBUS, Ohio. Sept. 22.—At the Columbus Grand Circuit races this afternoop, a fime averaging better than any ever known was made by four sets of trotters and pacers. Thirtsen hasts were raced to at an average of 2.05 i-5. The principal contributors to this exhibition of extreme speed were Champions Anna Bradford and Etawah. Anna Bradford lowered her own world's record of 2.33½ for three-year-old pacers, to 2.01½, and took away from William the record of 2.05½ and 2.05 for a two-heat three-year-olds pacing performance. Margaret Druien, a pronounced favorite, won the card's richest event, the \$10.000 Hester-Columbus Trotting Stake, in straight heats. Summary:

ST. LAWRENCE MARKET.

There were twenty-eight loads of hay and one load of straw brought on the St. Lawrence Market yesterday, selling at \$18 to \$22 per ton, as well as fifteen hundred bushels of oats and three hundred bushels of barley.

The oats have declined slightly, selling at 51c to 52c per bushel, while the barley remained firm at 70c per bushel.

Yesterday the prices ranged at from 50c to 75c for the 11-quart Bartletts, and 30c to 50c per basket for the other varieties. Tomatoes were sent on the market in large quantities, and, like the fruits, were difficult to dispose of, selling at 12½c to 20c per 11-quart basket.

Plums were about the only thing much in demand, and, as the supply is now very limited, the price was higher, the 11-quart baskets selling at 75c to \$1, and the half-baskets selling at 75c to \$1, and the half-baskets at 40c to 55c. Stronach a Sons had a shipment of very fine plums from A. H. Cropp, St. David's.

The quality of the majority of the peaches sent in yesterday was only fair, the six-quart baskets selling at 40c to 50c, and the 11's at 40c to 75c.

Grapes are very plentiful, and sold at the to 17c per basket.

Melons yesterday sold at 20c to 35c for the 11's, and 40c to 50c for the 16's, salon flesh.

**SLIGHT HARDENING** IN MONEY RATES

Canadian Banks Said to Be Withdrawing Funds From New York.

**COPPER TRADE POOR** 

Sharp Cut in Anaconda Dividend Significant - Foreign Exchange Firmer.

NEW YORK, Sept. 22.—Closing of the New York City \$100,000,000 loans with a large oversubscription, increased firmness in foreign exchange. A slight stiffening of money rates and a drastic cut in the dividend of the Anaconda Copper Mining Co. were the chief features of financial interest today. In respect to fundamental conditions, the domestic situation continued to show signs of improvement, it being evident that the gold pool, with its broad scope, is certain to assist in easing the international money market.

Complete details regarding the city loan were still lacking, because of the large number of subscriptions received, but it was learned that total applications largely exceeded the amount of the offering. Exchange on London rose to 497½ for cables and 496½ for sight drafts, the rise being due mainly to lighter offerings of grain bills and other forms of exchange. Francs on Paris and marks on Berlin were again nominally quoted, with minor dealings.

Money Rates Firmer.

The harder tendency of money was ascribed to withdrawal from the local field of some interior and Canadian banks, which, it was believed, were using their money at home points.

Some three-day call loans, as they are now known, were made at 7½ per cent. Bank subscriptions to the city loan have absorbed cover work of the city loan have absorbed cover where we was the subscriptions to the city loan have absorbed cover where we was the subscriptions to the city loan have absorbed cover where we was a subscriptions to the city loan have absorbed cover where we was the subscriptions to the city loan have absorbed cover where we was the subscriptions to the city loan have absorbed cover where we was a subscription to the city loan have a subscription to the city loan have a subscription of the city in the city in the city in t

Some three-day call loans, as they are now known, were made at 7½ per cent. Bank subscriptions to the city loan have absorbed some money recently available for commercial paper, with resultant moderate acceptances.

Reduction of the Anaconda Copper quarterly dividend from 75 cents to 25 cents naturally excited some speculation regarding the action of the Amalgamated Copper directors a month hence, inasmuch as Anaconda is controlled by Amalgamated Copper thru stock ownership. The cut in the dividend also drew attention to the state of the copper market, the metal now being offered at 12 cents per pound, the lowest price in some years.

Marketing of Wheat.

Bankers said that recent heavy maretings of Canadian wheat were exercise

ing a beneficial effect on the exchange situation and large shipments of cotton from southern ports to Liverpool, were, it was said, in contemplation. In point of fact, the outlook for that staple was better than in some days. Trading in London was more brisk, according to unofficial cables, and some traders who were in default at the end of July were said to have met their lia-bilities in full.

BEAN MARKETS.

MONTREAL, Sept. 22.—Beans, new crop, hand-picked, \$2.65 to \$2.75 per bush-el: three-pound pickers, \$2.45 to \$2.50 per bush-el

DETROIT, Sept. 22.—Beans, immediate and prompt shipment \$2.30; October, \$2.20; Limas, 71/2c to 8c per pound; green, 30c to 31c per quart.

MONTREAL GRAIN MARKET.

MONTREAL. Sept. 22.—There was a fair enquiry from foreign buyers for Manitoba spring wheat today at a deciline in prices of 6d per quarter and as prices in the Winnipeg market were also 2 cents per bushel lower at the close exporters were in a position to accept some of the bids, and sales of 100,000 bushelwer made for October-November shipment; but there is no demand for coarse grains. The trade in grain in the local market continues quiet, the demand being only for small lots to fill actual wants. There is a fair enquiry for spring wheat flour from foreign buyers, but owing to the unsatisfactory condition of the ocean freight situation little business of any importance is being done. The local trade is fair and the tone of the market is firm. Demand for mill-feed continues good. MONTREAL. Sept. 22 .- There was

Trade Slackened Abruptly - Prospects for Corn Yield Improve.

Capital, \$15,000,000 Reserve Fund, \$13,500,000 CHICAGO, Sept. 22.—Increasing do-nestic supplies and the fact that a lull seemed to have occurred in the expert trade, put the wheat market today under a good deal of selling pressure. The close

a good deal of selling pressure. The close was heavy at 2½c to 3c under last night. Corn showed a net loss of %c to 1½c, and oats of ½c to %c to %c. In provisions, the outcome varied from unchanged figures to a decline of 25c.

Wheat speculators appeared to be most impressed by the enlargement of 13,324,000 bushels in the avallable stock of the United States and Canada, as compared with 10,186,000 bushels a week ago. Minneapolis reported an increase of 1,500,000 there for two days, as against 500,000 bushels last year. Opinion accordingly spread that millers and other buyers in the spring wheat country had provided for all their needs at present, and that hedging sales on account of the fresh receipts were inevitable.

Next to nothing was heard of export business in wheat. So far as could be ascertained, 100,000 bushels was the total amount disposed of anywhere for ocean shipment. THAT WERE ADVANCED C. B. Watts, on behalf of the Dominion Millers' Association, protested against the advanced rates for storing grain in elevators at the sitting of the grain commissioners in the board of trade rooms yesterday. The hearing was adjourned until Oct. 5. In the meantime the advanced rates have been suspended.

Open. High. Low. Close. Close. bulk of the crop was said to be out of any danger from frost.

Sympathy with the weakness of other cereals carried down oats. Active demand from the seaboard formed only a partial offset.

Provisions sagged from the start. The blame was laid chiefly to the descent of values for grain and hogs.
