Old Sol Hasn't Cooled Off Much Yet, Eh?

According to astronomers the sun shows a large spot, indicating a cooling process at work on the orb of light. That information is not much comfort to the man who suffers from the heat and our best advice is to get into thin clothing at once. During the last few days our stock of 2-piece suits and lightweight garments has vanished like ice in a thaw.

We have a range of lightweight coats from \$1.25 to \$10.00 that must please.

2-piece linen crash suits at \$7.00.

2-piece linen suits at \$6.50.

2-piece homespun suits at \$12.00 up to \$18.00.

2-piece flannel suits, \$8.50 to \$25.00.

Cravenetted 2-piece, mohair, finest in the city, \$18.00, \$20.00, \$25.00 and 30.00.

White duck trousers, \$1.50 to \$3.50.

Khaki, \$1.75 to \$2.50.

Summer vests, from \$1.00 to \$3.00.

Auto dusters of all sorts, \$1.50 to \$18.00.

And hosts of other lines that will sure please you while the weather is just what you'd notice hot. Come on along for lightweight clothes.

Deputation Which Complained of Supt. Rogers Went Away With Assurances They Wanted.

It is understood that the deputation from Cochrane, which visited the government yesterday, returned home satisfied. They came here to protest against the action of Joseph E. Rogers, superintendent of the provincial police, for re-opening a case against W. J. Warke, for an alleged violation of the Liquor License Act, after a local magistrate had dismissed it. After Magistrate Dempsey had dismissed the charges against Warke, who is a lawyer, Supt. Rogers, in the capacity of a magistrate, fined him \$400 and costs. As a result the people of Cochrane bore considerable ill-feeling against the government official and wanted what they considered a travesty of the judicial system straightened out.

The deputation consisted of T. W. McGarry, M.L.A.; H. T. Huntington, M.L.A.; and Mayor Carter of Cochrane. They made their complaint to Hon. W. J. Hanna, provincial secretary. Although Mr. Hanna would not say anything

other than: "We heard their side of the case and will consider it." It has been learned that the Cochrane representatives have glad tidings to tell their townsmen, to the effect that the local Magistrate, Mr. Dempsey, will look after all cases hereafter, and not Joseph Rogers. This was what the Cochrane residents desired.

BERRY PICKING FOR HOLIDAYS AND MONEY

University Students Earn as Much as \$3.50 a Day With Board and Lodging, While Young Boys Also Spend Summer in This Ideal Manner.

Three little boys were lost a day or so ago and turned up in the berry fields in Oakville. In this district there are hundreds of boys and students making holiday and money at the same time. Commissioner Henry of the children's court, sent out Chief Probation Officer Graham to look over the conditions under which the children are working in the berry fields. How they are paid, housed and fed. He returned to report the conditions with almost all the berry-growers as ideal.

Since that time the juvenile court has sent more than a score of boys who want a holiday and still cannot afford not to work. There are hundreds of students from Knox, Wycliffe, Victoria and Varsity proper in the fields and some of these are making as high as \$3.50 per day, getting in addition their board and lodging. The probation officer found that these summer workers are living in clean and roomy tents and are in the general way of cases fed upon the same fare as their employers, which varies, but is always at least plain and wholesome.

A Good Time.

Probation Officer Graham says it is ripe for picking this year, as they

they gather. He says that strawberries are unusually large and therefore few or berries fill the box.

Perfect Holiday.

Mr. Graham says further that the job will last, for they are not yet finished with the berries on the lands back from the lake, which ripen earlier than those growing closer to the shore

a sight for sore eyes to watch the schoolboys growing ruddy in the fields. He says that they are having the time of their lives out there, with a lot of good innocent fun mixed in with work, which can be as hard or as easy as they choose to make it, for they are paid by the number of boxes which

and then even when the strawberries are all picked there will still remain the cherries, the raspberries, the currants and later there will be apples and the plums. He declares it is just about the healthiest and at the same time the most profitable holiday that a boy can get.

The Other Fellow's Carelessness May Counteract Your Caution

A gentleman in the Civil Service said to us the other day:—

"Do you know, when the number of automobile accidents are considered, it's a wonder to me the Government doesn't compel motorists to equip their cars with Dunlop Traction Tread, and thereby ensure the other fellow's safety as well as their own."

JACK JOHNSON TOYS FLYNN

White Man Puts Up Weak Fight Against the Black, Trying to Do Damage by Butting—Police Stop Battle in Ninth Round and Referee Gives Decision to Negro.

LAS VEGAS, N.M., July 4.—Jim Flynn's white hope expired to-day in the ninth round of his scheduled second bout with Champion Jack Johnson. Flynn's face was chopped and cut frightfully by Johnson's deliberate blows, and in the ninth round Captain Cowles of the New Mexican State Police pushed his way to the ring and declared the contest ended as a brutal exhibition. For three rounds Flynn had realized his inability to defend himself, and frantically tried to butt his way to victory. At times he leaped a foot from the floor, endeavoring to crash his skull against the champion's jaw. Again and again Referee Smith warned him to stop, and Flynn made no defence.

"He's holding me. He's holding me," he would declare to Smith, and in the next clinch he would try it again. When the police interfered Referee Smith, thru the announcer, awarded Johnson the fight. Johnson made a cautious effort to hurt Flynn at any time during the nine rounds. Apparently he held himself in check even when Flynn's butting tactics were at their worst. Johnson bore not a single mark of the fight beyond a slight cut in his lower lip. Flynn's supporters from Pueblo, perhaps 30 in number, and distinguished by white rooster hats, sat together, and were prepared to greet their man when he arrived.

Up to this time there had been no calling of bets at the ringside, and a complete absence of yelling or signs of either enthusiasm.

At 2:00 Official Announcer Tommy Gannon of Oklahoma City took the ring to call attention to the "several hundred ladies who have graced this occasion by their attendance, and asked that the spectators remember their presence when it came to shouting comments on the fight. It was the first sign of life at the ringside.

The officials of the Johnson-Flynn bout announced at the ringside were: Edward Smith of Chicago, referee; timekeepers, for the club, Otto E. Egan of Denver; for Flynn, Al Tearney of Chicago (also stakeholder); for Johnson, Tom Flanagan.

Challenges.
A telegram addressed "Referee, Ringside," was delivered to the ringside. It was signed McLaughlin Bros., New York, and was a \$5,000 offer for a Joe Jeannette-Johnson match. The champion, on other message from New York asked that Johnson be challenged from the ring for Jeannette. It added that Victor Breyer of Paris offered Johnson \$50,000 for a 20-round contest there with Jeannette.

Al Falser wired a challenge to the winner, saying he had posted a \$5000 forfeit in Cincinnati.

Abe Pollock of Denver and Eddie Cochran of Kansas City were presented as alternate referees. A title request of Johnson, Mrs. Johnson was transferred to another box in order to be nearer the champion's corner.

Flynn appeared to be in exceptionally good humor, and spent much of the time sauntering about the ring greeting friends.

Flynn, spying Mrs. Johnson, shouted: "Ain't you pulling for me, Mrs. Johnson?"

The champion's wife smiled but said nothing. The principals then donned the gloves. Johnson withdrew his objection to the gloves provided by the ring officials, who previously ordered a special set for him own use. The champion wore the same striped bathrobe that had given him service in his Reno battle.

After the men had discussed the rules, times were called at 2:40.

BATTLE BY ROUNDS.
FIRST ROUND—"Will you shake hands, Jack?" queried Flynn, as he opened the battle by rushing into a clinch. "No," retorted the black. Flynn kept in close, but Johnson easily avoided his attempts and flung a stiff left to the ear. The champion pushed his man across the ring and hooked his left to the ear and a moment later flung a short arm jab to the jaw. Johnson smiled contentedly and fought as if Johnson was holding himself in check. He shook Flynn with a few stomach taps, scarcely trying to protect his body from Flynn's attacks. Johnson constantly showed his stomach and invited him to blaze away, which provoked the spectators. Flynn elicited a great cheer when he rushed Johnson to the ropes and planted a solid right to the jaw. The result was Flynn's face covered with blood.

FIFTH ROUND—Johnson turned his head to the spectators and hardly noticed his white antagonist. Flynn banged away at the stomach but this time Johnson covered up and shot four lefts to the face in quick succession, varying it with a left uppercut to the chin. Flynn, at close range, sent half a dozen punches on the stomach, but Johnson only smiled again and made no attempt to protect his mid-section. Johnson aroused the crowd to merriment by releasing Flynn's hand and clasping his own gloves together like a happy school girl. "I can't fight while he's holding me," Flynn protested and the referee notified Johnson that a running conversation with his wife and the seconds.

SIXTH ROUND—Flynn butted with his head three times and complained that Johnson made it justifiable by holding him. Flynn was severely reprimanded for deliberately butting the champion. Both Men Are Knocked Out Wolgast Gets the Decision

Joe Rivers' Manager Says Referee's Award Was the Worst Case of Robbery, etc.

VERNON ARENA, Los Angeles, July 4.—Ad Wolgast, wit his aid of Referee Jack Welch, retained his claim to the lightweight championship to-day in the Vernon Arena, who was given the decision over Joe Rivers of Los Angeles in the thirteenth round. Rivers had practically the better of every round save one or two.

In the thirteenth round Wolgast tired, and bleeding profusely, suddenly struck Rivers a vicious left tin the groin. At the same instant Rivers' right landed flush on Wolgast's jaw, and the champion went down and out. Disregarding claims of foul made by Rivers' manager, Referee Welch counted the Mexican out, and then turning, picked up the unconscious Wolgast and declared him mite winner, and at the same time declaring all bets off.

"It was the worst case of robbery in the history of the American ring," said Manager Levy. "Never before have I seen a referee pick up a man and then give him the decision. The foul blow struck by Wolgast was seen by every man near the ringside. It was the fourth or fifth foul the champion had landed on Rivers. The sum total of it all is that Wolgast knew he was whipped and resorted to his foul tactics to save himself.

No one connected with Wolgast's camp would say a word, and all of them jumped in an automobile and quickly left the pavilion. Welch declared all bets off.

BATTLE BY ROUNDS.
FIRST ROUND—Rivers led the fight and he clinched. Rivers landed three lefts to the face in quick succession, and Wolgast covered. Rivers was much faster, and his blocking was better than the champion's. In a clinch Rivers sent in

three stiff rights, jarring Wolgast. It was Rivers' round.

SECOND ROUND—Rivers opened a deep gash in Wolgast's nose. The blood spurted in a stream. Rivers poked Wolgast ten times without a return, and then put a stiff right to the stomach. Rivers put a stiff right to Wolgast's nose, starting a new flow of blood. Wolgast fell short while Rivers never missed once. This was Rivers' round.

THIRD ROUND—Wolgast took a stiff left to the stomach and head. The fight-ers exchanged fearful rights and lefts. Wolgast missed a right swing and Rivers put in another left to the wind. They fought like tigers. Wolgast went to clinch and covered. Both were covered with blood. In a clinch Rivers opened the wound in Wolgast's neck. The round was about even.

Wolgast Is Wild.
FOURTH ROUND—They clinched, and Rivers sent Wolgast's head back with a right. Wolgast clinched but could not land at close work. Again Rivers rocked Wolgast, but the champion bore in. Wolgast found much difficulty in hitting Rivers. Wolgast was wild. Again he missed, and the Mexican put in left and right to the wind. It was Rivers' round.

FIFTH ROUND—They went into a clinch and both held on. Wolgast put a right to jaw and missed a right, in the ring looking at each other. They clinched and Rivers nearly upset Wolgast with a right to the jaw. Round even.

SIXTH ROUND—They clinched. Wolgast missed and was nearly upset again. Then Rivers put a stiff left to the wind. Another right to the jaw rocked Wolgast, but he bore in. His judgment of distance was poor. In a clinch Rivers put right to jaw and Wolgast went down. He was up in an instant and they fought like tigers head to head. It was Rivers' round by a big lead.

Both Are Tired.
SEVENTH ROUND—Both were cautious in a clinch. Rivers backed the champion to the ropes. Wolgast then sent in left and right to the wind. Rivers covering. In the break both landed light lefts. Rivers then jarred Wolgast and the champion was wild, hitting low.

Both seemed tired and clinched. Wolgast again hit low. It was Rivers' round.

EIGHTH ROUND—Wolgast tried with right and left and missed with Wolgast suddenly rushed and put lefts and rights to the wind, chasing Rivers around the ring. Both seemed content to do it as long range. Both were very tired and slowed down considerably. The round was slightly Wolgast's.

NINTH ROUND—After a clinch Rivers set in light left to the stomach. Wolgast began to crouch to protect his stomach. Rivers seemed to be resting as he kept away. It was the tamest round of the fight. Wolgast rushed suddenly and put a stiff left to stomach, making Rivers wince. Wolgast's round by a shade.

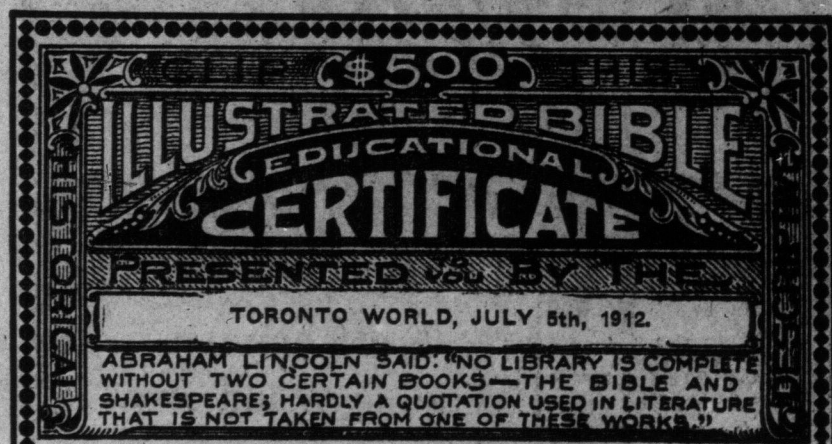

Rivers Keeps Away.
TENTH ROUND—Wolgast rushed and Rivers blocked, making the champion miss a left. Rivers kept away, pointing Wolgast and stepping back. In a clinch Wolgast made Rivers cover with swings and clinched. Rivers suddenly jumped in and put a hard right over Wolgast's kidneys and clinched, taking nothing in return. Head to head they exchanged fearful body smashes and were clinched at the bell. Round was Wolgast's by a shade.

ELEVENTH ROUND—Wolgast missed left to wind and Rivers hit him three times without a return. Rivers put a hard left to jaw. Both clinched and nearly rolled out of the ring. Rivers seemed to force the fighting. Wolgast could not hit him hard and clinched. Rivers then stood still and took four or five hard lefts and rights to the jaw, but never wincing. He then sent in a hard left, staggering the champion. Wolgast's smile had disappeared and he seemed very tired. Round even.

TWELFTH ROUND—Wolgast sent in a right to the wind, rushing Rivers to the ropes. Wolgast then tried hard to land a clinch. Rivers, the champion, showed Rivers' blocking. Time and again the champion missed. Rivers attempting to follow up his advantage. Wolgast missed, and head to head, it was a clinch at the end. Rivers had the better of the mixing. Rivers' round.

Declares Wolgast Winner.
THIRTEENTH ROUND—Rivers rushed. They clinched, both holding on. Rivers nearly went over from a right to the jaw, but bore right in, putting left to the wind. Twice Wolgast missed. Rivers putting in lefts to the face. Wolgast was getting wilder than ever, but Rivers kept away. Both boys were fighting head to head. Wolgast suddenly crouched and sent in a terrific left directly over Rivers' head. At the same instant Rivers put his right to Wolgast's jaw and the champion went down. Wolgast missed. Rivers fell, writhing in pain, and Referee Welch began to count. Claims

of foul were made on behalf of Rivers. The foul claims were not heeded by Welch. The referee picked Wolgast up from the floor and declared him the winner. His seconds had to carry him from the ring. Rivers was lying on the floor, but in a moment arose unaided. The ring was instantly in a confusion, which announced that Wolgast was the winner and immediately disappeared.

P. McKinley in Straight Heats

Takes \$1000 Stake on Last Day at St. Thomas—Bonnie Cape Wins 2.50 Pace.

ST. THOMAS, July 4.—(Special)—The final day of the St. Thomas Driving Association closed with three good harness races, two of them particularly interesting. The first race, called a good contest. The first race called was the \$1000 for 2:14 paces. This particular race had a good entry at the closing date, but as the circuit progressed one by one they have dropped out, and only five horses were left in the word. In that five there were two horses that have been in this event throughout the circuit, viz., Paddy McKinley, b.g., owned by H. Wilkins of Owen Sound, and Vera B., b.m., owned by R. Baird of Hamilton.

This pair have been handled by two of the best drivers in the business, and they have been seasawing at every meeting. At the last meeting, Aymer, Vera B. won this race, and to-day Paddy took her measure. Cape won the pole, with Paddy in second position and Vera B. third. When they got the word Paddy had the pole, and was never in any trouble, stopping the pole half in 1:04 1/2 and the mile in 2:12 1/2. Vera B. won a good game race, but she could not get to Paddy in this race.

Storm, a brown gelding from Saginaw, who has won all his races in 2:19 class, and who stepped a mile in his race this week in 2:12 1/4, could not get better than third in any heat. Bonnie Cape won the 2:50 pace after the Parson had won the first heat.

SOCIETY

A most pleasant event took place at the home of Mr. and Mrs. William Warwick, 127 Woodcrest-avenue, on Wednesday, when they celebrated their golden wedding. Mr. Warwick has recently retired from active work, and he and his wife live quietly in their comfortable bungalow, where they received the congratulations of their many friends.

A family gathering was held during the afternoon, luncheon being served on the lawn and a group photo taken, including Mr. and Mrs. Warwick, their children and grandchildren, numbering twenty-seven.

The guests in the evening were entertained at the home of their daughter, Mrs. W. H. Edwards, 3 Woodcrest-avenue, where a sumptuous repast was provided. In addition to the many speeches of congratulation to the happy couple, they each received a gold watch from their grandchildren, while their sons and daughters presented them with a miniature maple tree upon which were tastefully fastened with gold-covered ribbon a goodly number of gold coins.

Mr. and Mrs. Warwick have spent about forty years of their married life in Canada, coming from Edinburgh, Scotland, in 1872. They have four sons and three daughters, all of whom were present, David and Richard coming from Chicago for the occasion. They were also fourteen grandchildren, who, with the guests, made quite a large company.

After wishing them many golden years of peace and happiness, the celebration was brought to a close by the entire company joining hands and singing "Auld Lang Syne."

Tea and coffee are both stimulants rather than nutrients, but to the adult a single cup of coffee at breakfast and a single cup of tea at luncheon seldom prove harmful. Food they are delicious.

De John's iced tea is as cooling and refreshing as a beverage can be. Sald as earthen or china teapots, put in four-teaspoonfuls of tea, and pour on two cupfuls of boiling water. Adjust the cover, and let stand on the back of the range or in a warm place four minutes. Strain into glasses one-third full of cracked ice, sweeten to taste, and serve two crushed fresh mint leaves in each glass. Tea should always be made of freshly-boiled water. Boiled, because below the boiling point the stimulating property therein would not be extracted. Freshly boiled, because long cooking renders it flat and insipid to the taste, on account of the escape of its atmospheric gases. The flavor of iced tea is always much finer if the infusion is chilled quickly.

IF THIS IS YOUR BIRTHDAY

Some good fortune will come and you will be happy in consequence. You may also expect some letter which will be disappointing. Consider well your reply. If employed, expect advancement. Those born to-day will accomplish much, be much admired and respected.

The Daily Hint From Paris

In Brown and Blue.

A changeable silk, dark blue and golden brown forms the greater part of this gown while a plain dark blue silk and a rich dark brown velvet ribbon are used as trimming. The plain silk is used for the cuffs, headed by the ribbon, and the lining of the two-toned silk. On the skirt the plain blue is headed by a fold of the lighter silk.

The buttons are covered with the velvet and are used to make the closing in front. A girlish of plain blue silk is finished with a rose at the side front.

The Nursery

A baby who is nursed after he is a year old is rarely properly nourished. Nature gives him teeth for the purpose of chewing, and as a sign that he is ready for some solid food. As I said a day or so ago, if your baby's birthday comes in the middle of the hot season, keep on nursing for a little while. If the milk is poor and scanty, however, and the baby becomes fretful from lack of nourishment, I believe the danger of weaning would be far less serious than those continuing to nurse. Many a mother handicaps her own strength and undermines the baby's health by failing to change the method of feeding during the summer. If you have brought up your baby carefully and regularly and have guarded him against the danger of diarrhoea, by attention to his digestion, you need have no fear of weaning during the summer, if you follow the plan I have outlined during this week's talk.

Let me warn you, once more against the habit some otherwise sensible mothers teach their children to nurse all night. These mothers will feed the baby from a bottle or cup thru the day, but they will not give up night-nursing until they have a sick baby. Nothing is so dangerous for a baby as over-feeding, and this is done oftener at night than at any other time. Nursing the baby between ten at night and six in the morning should be absolutely stopped after a baby is three months old. The stomach demands a rest, and if it does not get it, the whole digestive system is weakened.

If you will send me a self-addressed, stamped envelope, I shall gladly send you the food formula for modified milk that will suit your baby. But I cannot do this unless you send the full particulars about age, digestion and so on.

POLO BLOUSE OF SILK POPULAR

It is again defiantly said that the low-necked blouse is to be pushed back to second or third place, and the blouse with the high collar is the only one permitted in the first class. This may be the verdict delivered by the unknown powers that control fashion, and that part of the public that obeys, but in the American climate the half-high blouse will have adherents, no matter what the style may be, writes Anne Rittenhouse in The New York Times.

There is so much to be said for and against this garment that it would be useless to enter a discussion of it in a short space. It is girlish and should only be worn by girls or women who have been able to keep not only a girlish figure, but a girlish look.

It is cool, it is comfortable and there is never an argument against wearing it in the house. On the street—that is a different matter. In the really hot days, when one wants to look comfortable as well as be comfortable, the blouse with the turnover collar that shows the neck but not the collar bones is all very well, provided one does not wear a coat over it.

No matter if that coat is of white linen or serge or of ecru shantung, it is not attractive to put it against the skin. It should be a law to have a high coat worn with the coat.

It is true that the new coats come what after this, as they also are cut low in the neck and have immense revers and collars of white muslin and chiffon cloth and lace, but the average woman does not wear these on the street, and it is wiser thing for her to always remember that with the coat goes the boned collar.

The Robespierre collar is the best of all the low collars for those who go

without coats in the hot time, for it is boned high at the neck and back of the ears, therefore one exposes the front of the neck. It is adjusted to most of the modern blouses, although those in a man's style, those and in most exactly like the ones we have worn for years are christened Robespierres when they haven't a particle of right to the name.

The polo blouse of silk is rapidly coming to the front as the most popular of all. It is made with the plaits or trimmings of any kind, has long shoulder seams, sometimes a yoke on the back, and long plain sleeves, like those in a man's style. It comes in two-inch turnover cuffs, attached at the edges and fastened thru with link buttons. The fastening is down the front, the buttons of pearl showing thru, and the collar is the one worn by a man, soft, turned over and pulled in tight around the neck with a four-in-hand cravat.

Muslin blouses are less ornate than they have been for a dozen years. They are made with plaits, are fastened down the front, have seam heading at all seams, and depend for fluffiness upon the plaited silk in front.

The prettiest ones still have two-inch turnover cuffs, fastened snugly to the wrist, and finished with narrow lace. Long sleeves are in the chair, and with necks are, but three-quarter sleeves will be as plentifully indulged in as quarter collars will be.

It is quite correct that women should be comfortable, and neither the long sleeves nor the boned stocks make them so. The elbow sleeve—that is, the one that is cut off above the elbow, is never pretty in anything but a house gown to wear in the evening, but the three-quarter sleeve is the best and is not always unbecoming.

BUMPER CROP OF RASPBERRIES

Dealers Expect a Good Harvest and Strawberries Will Soon Be Off the Market.

"Look for a rapid rise in the price of strawberries," is the way the wholesale fruit dealers speak of the strawberry situation. Only one car load of berries arrived yesterday, and the price rose to as high as fifteen cents, as compared with from ten to twelve cents a box the day previous.

The dealers are now looking forward to the first arrival of the Canadian raspberry, which they consider should come in some time during next week. Reports so far received bear every indication of a bumper crop being registered. This fruit should be cheap and plentiful this season.

For the past week or so, not a day has gone by but that a new arrival of fruit appears on the Toronto market. Yesterday it was fancy Malaga grapes from Coachella, California. These are very fine quality, and are selling at \$3.50 to \$4 a case.

Another peach made its appearance on the market yesterday. These arrived in large baskets from the south, being shipped from St. Louis, Mo. They are selling here at \$2.50 to \$2.75 a basket.

Fruitmen now say that any day may see the first arrival of Canadian peaches on the market. They will be earlier than usual this season.

Wholesale fruit prices at the Toronto market are: Strawberries, 12c to 15c a box; California grapes, \$3.50 to \$4 a case; American apples, \$1.50 to \$1.75 a basket; American cherries, \$2 to \$2.50 a case; Canadian cherries, 75c to \$1 a basket; peaches, \$2 to \$4 a case, and \$2.50 to \$2.75 a basket; cantaloupes, \$3 to \$3.50 a crate; California plums, \$2 to \$2.50 a case; bananas, \$1.75 to \$2 a bunch; oranges, \$3.50 to \$4.50 a crate; lemons, \$3.25 to \$4 a crate; pineapples, \$3 to \$4.50 a crate; California apricots, \$3 a case.

G. T. P. Pacific Line Will Operate From New Port.

President Chamberlin of the Grand Trunk Railway system has issued the forecast that a steamship line is ultimately to be established between Prince Rupert and the Orient. Lemonade for a Week.

We are all fond of lemonade on hot evenings, but none of us want to make it when we are dressed in our fresh white lawns and flims. As there are four girls in the family, we take turns preparing a week's supply of lemonade, each Tuesday morning. Our recipe is this: Boil together two quarts of water and four cupfuls of granulated sugar for a little over ten minutes, then add one and one-half cupfuls of lemon juice. Let cool, pour in jars or bottles, and set in the ice-chest. It keeps perfectly, and when we wash a pitcher of lemonade for ourselves and our friends, all we need to do is dilute the lemon syrup with ice water. The next morning we squeeze the lemons and prepare the syrup we do not mind at all.

TWENTY-FIVE YEARS' EXPERIENCE IN CURING ALCOHOLISM.

Dr. J. M. MacKay, the celebrated specialist on alcoholism, who has recently returned from Europe, will be in Toronto during the month of July, for the purpose of giving consultations free to any serious cases of alcoholism or drunkards. He can be seen at any time after July 1 at his residence, No. 144 Roxborough-street, corner Avenue-road.

Dr. J. M. MacKay discovered the treatment bearing his name, and which was adopted by the government of the Province of Quebec a number of years ago, and which is now in successful use, giving marvelous results. He is not connected with any institution, as his treatment and cure of alcoholism requires only home care and attention.

His medicine will never fail in any case with ordinary good will of the patient. No one has the right to use his name with any institution or medicine.

His personal advice will be of service in difficult cases, and the presence of the doctor in Toronto affords an exceptional chance and advantage to many. Intemperance is a disease and requires simply proper medical attention like any other human ailment.

The Learning-Miles Co., Limited, are agents in Montreal, and E. G. West & Co., 80 George-street, will supply the medicine in Toronto.

J. F. Whitson Again Outlines Great Resources and Possibilities of the Country and Says That Settlement Should Not Be Too Rapid Because of Exorbitant Freight Rates.

J. F. Whitson, chief government highway engineer in New Ontario, has sent a letter to W. H. Hearst, minister of lands and mines in which he outlines in a glowing way the great resources of the north and its possibilities of settlement.

Mr. Whitson said that the work of building colonization roads was being pushed ahead steadily. He now has a gang of 150 men cutting roads, and hopes to have 300 men within a week.

"I feel satisfied now more than ever before since traveling through the townships where many small clearings have been made, and noting the changed condition of the land after it has been burnt off, thus affording drainage, that no estimate has yet appeared on the public records of the quantity or percentage of good land."

"I am satisfied that you will see in the not great distant future a flourishing settlement along the G.T.P. from the Quebec boundary to about 350 miles west. Here and there will be townships undesirable, but solid blocks almost as large as ordinary counties in old Ontario will be found with scarcely an acre of waste land."

Mr. Whitson then goes on to remark that the land is free from stumps, gravel and sand for miles. There is a rich timber for fuel and building everywhere where the country has been burnt over.

Three hours' discussion at the board of education resulted in the recommendation of the committee being adopted.

Trustees Lewis made a fight to reopen the consideration of the awards for the new technical school plans. This was voted down.

Trustees Lewis proposed a grant of \$50 towards Miss Rogers' trip to the International Conference on Nursing at Oshawa. This was voted down.

Trustees Lewis said he would move the appointment of Principal McKay as director of public schools, at the first special meeting of the board, the directorship to extend to the high schools after the education act had been amended.

The board authorized the appointment of an assistant superintendent of buildings.

The next regular meeting will be the third Thursday in September.

HEAVY CALL FOR LOW PRICED LAND

Workmen Are Erecting Far Better Class of Homes This Year--Sales in Hampstead Very Large.

As an instance of the demand for workmen's home sites which prevails at the present time, in the first three days of this month, the Dufferin Land Co. sold 72 lots in Hampstead Park, a subdivision on the east side of Dufferin-street, and just above the old belt line tracks. Other dealers, who include the cheap lots for small buildings among their offerings, report a similar call and heavy sales. Seventy-five per cent. of those who have bought in Hampstead, will build homes before the season is over. This same condition prevails in other low priced and easy earned offerings close to the present line of settlement in many sections surrounding the city. It is observed that the class of houses going up is far ahead of that of previous years. Three or four hundred dollars extra in the cost of these little homes makes a great difference in their appearance, and it would appear that the day of the poor miserable shack-towns is about over. Instead of the tarpapered room and half shacks that were built a year or so ago, neat three to six room dwellings built on concrete or semi-bungalow styles, are being put up. Most of them have cement foundations and are covered with Manitoba siding, or are half shingled. The land sellers are encouraging their buyers to put up a better class of homes, some in a residential way. And, as a rule, the working people to-day have a few hundred more dollars saved up than the same classes had three years ago.

Street Car Men Back in The Market

Since the street car employees settled their wage question and have been assured of a greatly increased income, they have started to buy considerable of the low priced real estate. "The street railway men are always quite a factor in the cheap lot market," said a vacant land man yesterday, "but they have just about kept out of the market until the last few days. The result of the negotiations with the company has brought them back. We sold fully a dozen lots in the last two days to street railway men. Most of them are in the \$600 and \$700 class, and in most cases I am told they will be used for building, perhaps not now, but in the next few months. The men are certain of their present wages for another three years, and many of them are taking the attitude that if they have managed to keep their families on what they have been getting, they can put that \$2 a week raise toward a home of their own. The street car men whom we have on our books meet their payments with more regularity than almost any other class."

SALE OF WEST KING LEASE IS REPORTED.

The report that there is a deal on for the purchase of the lease held by the Dominion Permanent Loan Company at 12 and West King-street, is not carried out by the assertion of F. M. Holland, manager of the company. "I know nothing about it," he said yesterday evening. He further characterized the report as a pipe dream.

The talk is that the company will relinquish the lease, which is for one or six years to run, at \$50,000 consideration.

COOKSVILLE FARM SELLS FOR \$30,000.

Dr. Urquhart of Oakville has sold his farm just north of Cooksville to H. J. Coon for \$30,000. The farm is 100 acres, and formerly belonged to the Beverly Robinson Estate. The deal was handled by Stephens & Co., who report a great many sales throughout the district, from Port Credit to Oakville, in the last two weeks.

MARKET SHOWS SOME ACTIVITY

No Signs of Midsummer Apathy in Toronto Exchange — Sao Paulo Comes to Front.

Despite the fact that the customary period of mid-summer dullness is already over, the Toronto stock market up to this time has shown no signs of falling into the usual rut of inactivity. The speculative movement fell away to a certain extent yesterday, particularly on the afternoon board, but this was only to be anticipated in view of the holiday in Wall-street. On the other hand, it is to be said that from the standpoint of spectacular incidents the exchange is maintaining an unusual record. It is doubtful if so many wide price swings as have occurred of late have ever been evidenced before at this season of the year, and in consequence the market is attracting more than the ordinary amount of interest.

As usual Rio and Sao Paulo proved the leaders yesterday. The latter came

to the front in no uncertain way, a 3 point advance in the price completely overshadowing the rather uninteresting action of Rio. The top price on Sao Paulo was 243, and the close at 242 bid represented a net gain of 2 points for the season. Despite this remarkable firmness dealings in the shares were remarkably restricted, amounting in all to less than 300 shares. The range on Rio was confined to the smallest volume in a long time, the price holding between 153 up from last night. At that price the securities of the holding company worked out on a basis of 30%.

The sharp upturn in General Electric which advanced 3 points to 118, inspiring rumors that the company would declare a bonus dividend in the near future. The business of the corporation is understood to be highly satisfactory and it is probable that the shareholders will receive something better than they have been getting since the depression of 1907. The only other interesting spot in the list was Toronto Railway, which gained a fraction at 124 1/2.

COOL BILLION IN NEW ISSUES IN SIX MONTHS

During the month of June new securities aggregating \$11,188,000 were issued in the United States, a large portion of which was stock offered to shareholders. This compared with \$184,000,000 in June last year.

For the six months since January, corporations have issued \$1,245,494,000 new securities compared with \$958,886,000 during the same six months of 1911. The total for June of this year is well up to the average monthly output of new securities, but is below May, which reported \$22,500,000, or the largest for the year.

The demand of investors for high yield securities has continued, and the effect of such sentiment has been quite noticeable in the prices of high grade listed securities. The public utility issues are meeting with more and more favor with bankers and investors, and the output of this group of corporations during the past six months has equaled if not exceeded all previous high records.

Corporate financing since the first of the year compares with last year as follows:

1912	1911	
June	\$11,188,000	\$14,000,000
May	\$27,500,000	\$10,000,000
April	\$18,800,000	\$12,000,000
March	\$18,000,000	\$18,000,000
February	\$16,428,000	\$14,241,000
January	\$17,453,000	\$15,547,000
Total	\$136,409,000	\$890,386,000

N.Y. Stocks Were Firmer In London

LONDON, July 4.—Money was abundant to-day and discounts were easy. The stock market was much quieter. Prices of some rails, kafirs, and Mexican rails were steadily maintained, but realizing sales caused an easier tone for copper shares. Consols declined one-eighth. American securities opened quiet and at noon were weak, the close being unchanged to a higher.

Closing prices to-day and yesterday were:

Yes.	To-day.

Convertible 5% Gold Debentures	Authorized	Issued
Common Stock	\$1,000,000	\$1,000,000
	\$2,500,000	\$1,000,000

From a letter of the President of the Company and the Certificate of Price, Waterhouse & Co., we summarize the following salient points:—

1. Debentures are issued under a Deed of Trust to the Montreal Trust Company as Trustee, and are direct obligations of the Company, chargeable against its entire assets, but without specific registration against real estate. The Company covenants, however, not to issue any further bonds or debentures secured by specific registration or otherwise ranking prior to this issue.
2. The Company's assets consist chiefly of revenue-producing real estate situated in the City of Montreal, on commercial streets where values are constantly increasing. In every case the present market values are in excess of the price paid for the properties when acquired.
3. Total net assets, as at May 31st, 1912, exceed \$2,110,000 behind the \$1,000,000 Debentures and \$1,000,000 Common Stock issued.
4. Net profits for the year ending December 31st, 1911, applicable for debenture interest, \$157,666.80—over three times amount required.
5. For the four months ending April 30th, 1912, the net profits amounted to \$384,117.74—over 6 1/2 times the annual Debenture interest.
6. Convertible at the option of the holder into common stock at par at any time during the life of the debenture upon fifteen days' notice being given to the Company. Debenture holders will be entitled to receive cash for the amount of accrued interest on their debentures up to the date of conversion.
7. One million dollars of the authorized Common Stock is specifically reserved against the conversion of the Debentures, and the Company further covenants not to issue the remaining \$500,000 Common Stock until such time as all the Debentures have been converted or redeemed.
8. Cumulative Sinking Fund of 2 1/4% per annum commences June 1st, 1913, and if no Debentures are converted this provision is sufficient to retire over 45% by maturity at 105 and accrued interest.
9. Redeemable at 105% and accrued interest on any interest date upon two months' notice. In the case of Debentures being called for redemption the holder has the right of converting the same into Common Shares, provided such right is exercised within sixty days following the first notice of the call.
10. The General Manager of the Company is Mr. Jas. E. Wilder, who is recognized as one of the foremost judges of real estate in Montreal.

Negotiable 5% Interim certificates will be issued pending delivery of Definite Debentures. All legal matters relating to this issue have been approved by Messrs. Lafleur, MacDougall, Macfarlane & Pope, Montreal. Copies of the Trust Deed, Balance Sheet and Statement, showing valuations as made by Mr. Wilder, may be seen at our office. Descriptive Circular, Map showing properties owned and Application Form will be forwarded upon request. All applications received will be subject to allotment.
