THE SPEAKER SAVES THE GOVERNMENT

Rules Out Point of Order by Mr. Whitney, Challenging Right of Eight Constable Members to Vote on Constable Bill
Second Reading—Government Majority Again Six.

Old Dan's usefulness is gone; he is a dead ram. But politically he is painfully immortal. His shade goes marching on, haunting the gullest soul of T. D. Hodgins (East Middlesex), and shaking time-revered dust from the agricultural records of the province, but furnishing at the same time diversions for the members of the Assembly.

In spite of all his environment of levity, however, Mr. Hodgins still maintains an attitude of indignant gravity. He alone feels the acute tension of the situation he has created. Rising to a question of privilege once again yesterday afternoon, he assailed the premises of Hon. E. J. Davis, who had produced a paper the day before purporting to have Mr. Hodgins' signature. He denied the Provincial Secretary's statement that he had charged the Government with paying an exorbitant price for a ram. He had been asked to give a statement, and as a plain man he had given a plain one. But in this statement he denied a saying the animal had been imported. He told the Provincial Secretary that he was simply giving his followers supplies of ridicule to use on the stump and challenged him to look up the public accounts of 1889, where he would find that Mr. John Glennan had sold the Government the ram under the head of "stock," for \$150. (Opposition applause.)

Mr. Hodgins was in the course of disavowing any intention of attacking the "ex-Minister of Agriculture," when some of his friends to the left whispered, "Call him Minister."

"I was not aware that he was a Minister," came the retort. "I have not seen him on the floor of the House." (Opposition applause.)

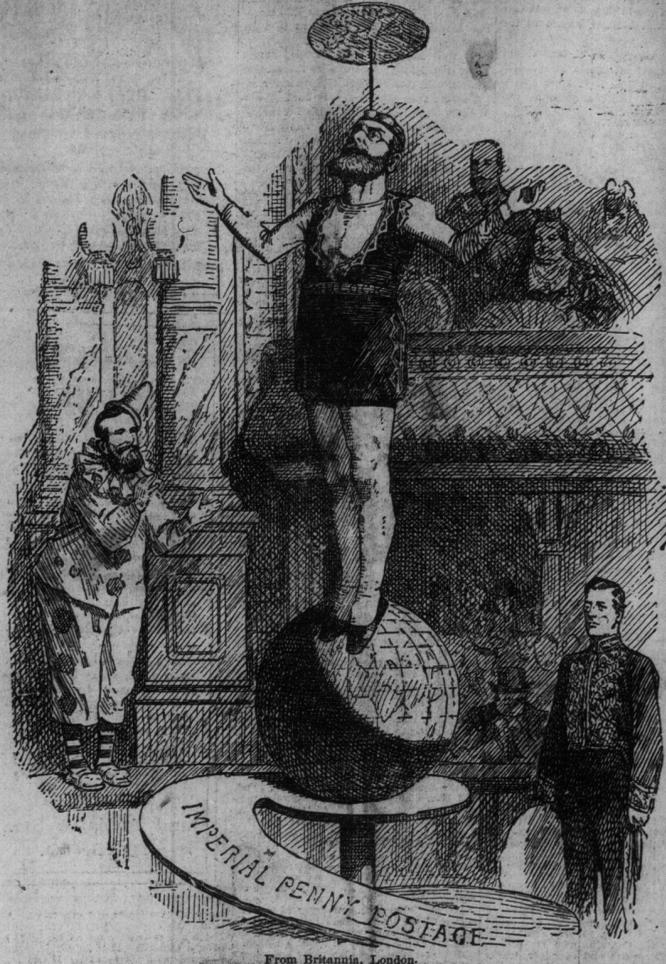

The gibes of Mr. Clarke, the funny member from West Northumberland, he waived aside. Considering the calibre, he looked upon it philosophically like the Irishman kicked by a mule, he considered where it came from. [Laughter.]

Hon. E. J. Davis did not accuse Mr. Hodgins of making charges, but he did accuse the Opposition organ. He flanneted in Mr. Hodgins' face his letter, stating the facts the latter had denied. But the sting of his reply, like the scorpion's, was in its tail. He did refer to the \$150 purchase mentioned by the Middlesex member and found that it had been the price of four Hampshire Down ewes. "I don't know whether they were worth the price of the ram or not," he said, sitting down, apologizing for wasting time.

Mr. Hodgins, rising again, professed to have learned one thing, that, in ways that are dark and tricks that are vain, the heathen Chinee is peculiar. He asked for a copy of the invoice, which brought down later, reads simply thus:

Mr. Brown.—Bought of Jas. Glennan 4 Hampshire Down ewes in lamb, \$150.

Guelph, Dec. 4, 1894.

IMPERIAL PENNY POSTAGE
From Britannia, London.
A SPIRAL ASCENT.
H. R. H. N. "Steady Does It! Bravo, Canada!"

Thus ended another reading of the ram business, and Mr. Carew, rising to talk on the Constable Bill, hoped that since Mr. Hodgins had justified himself in bringing it before the House, the dead and buried Dan would never be resurrected. Coming to his text, he accused the Government of trying to disguise the issue and throw dust in the people's eyes. Then he diverted to a long consultation of Mr. Ross' authority, Cooley, to show the Minister that a distinction should be made between retrospective legislation, which was generally permissible, and ex-post-facto legislation, like the one on hand. He challenged the Government to point to a single precedent in the annals of history, or of Parliament, for their bill. Taking up the Minister of Education's somewhat ambiguous remark that Parliament was being held up, he denied it emphatically, and called it instead a hold-up of the Conservative party by a small opposing party majority.

Taking up the various sections, he found exception most strongly to No. 2, which provided that in case the appellant's counsel decided to make the constable votes a ground for protesting the election, an order postponing the trial until after the decision of the Court of Appeals had been given must be issued. This clause, he said, stamped a yoke of justice, before whose halls, if a petitioner stood, the Attorney-General could say, "Stand back! I have an order from the Legislature which must force you to drop this appeal."

Then there was section 13, which practically said, that if a scrutiny proved the Liberal to be elected well and good, but if the court adjudged the seat to be Conservative, there should be a new election. [Applause.]

The Six Months' Hold.
Concluding with the hope that the people would view the subject from a higher plane than it had been debated in the House, he moved, seconded by Mr. Colquhoun, "That this bill be not now read a third time, but that it be read this day six months hence."

Mr. Garrow (West Huron) never remembered an Opposition so mischievous as to its duties as the one he was facing. He was a little incensed at the gibes cast at his members had rights as well as defeated candidates, and that, therefore, it was only right that if constable ballots were not counted a new election alone could put both candidates fairly on the basis as before March 1. He for one refused to sit in any House where he could not sit with honor.

Mr. Foy (South Toronto) continued the ponderous discussion over precedents. He denied the Attorney-General's contention that the receipt of public money for public services did not vitiate a vote. He was challenging the Government to say that the judges' technicalities shall not count, and thereby to prevent the Opposition getting into power by such a ruse, when the Speaker rose at 6 p.m.

IN NIGHT SESSION.
Many Members Air Their Eloquence—Mr. Foy's Forceful Words.
Mr. Foy resumed at 8.10, regretting that the member for West Huron was not in his seat to hear him.

"There is all the difference in the world," said Mr. Foy, "between constables appointed under the Ontario and Dominion acts. Mr. Edgar acknowledges that the appointing of these gives the Government assistance. How much more is it so in Ontario!"

Constables From Necessity.
He wished to see legislation introduced by which a constable would be appointed from necessity, not to gain a vote. In one instance he knew of a sub-division comprising only six votes, nevertheless a constable was appointed. This was not for safety, but for what was it for?

Although legal talk had been a great deal by ordinary methods of legislation; he would like to hear it discussed by other than legal gentlemen. The froth of technicalities had been pretty well dispersed by the member from Hamilton, and altogether so by the member from West Huron.

W. C. Moserip Answers.
W. C. Moserip (St. Peter) answered Mr. Foy. Things had been quiet till Mr. Moserip spoke, when he made a very forceful declaration. He put off things in a new way. There were no men on either side who wished to do anything wrong. It was merely a difference of opinion. He reiterated that the law of 1887 was a precedent. "Unless a man is willing to commit crime, it is absolutely impossible, under the marked ballot, to tell how a man has voted, and there is a law against inspection," said he. If, as heralded by the press, the Opposition had charged nothing in connection with the constables, why was there any objection to the proposed legislation?

The member for South Toronto had said the question would be dealt with on a broad basis, and not as a technical issue; the speaker also hoped to see this stand proved.

Dr. Fyne Protests.
Dr. Fyne considered it a privilege to enter a protest against legislation of that character, designed to secure two or three members their seats, and he proposed to show them they were here against the wishes of the people.

The Attorney-General had stated that constables had the right to vote, though the judges had no right, because they never had the right. He said the judges could have petitioned for a vote.

"Did the constables ever petition?" asked Dr. Fyne.

This special session of the Legislature was called, to quote the Attorney-General, as representing only two or three seats, perhaps 80 or 90 constables. The Attorney-General had held up his hands in holy horror at the thought of taking away these poor men's votes, but he never was so affected at the minority representation of Toronto.

"When is this pernicious system to end?" asked Dr. Fyne. "What assurance have we that Parliament will not be called in this time, possibly for some personal ends, or to defeat justice?"

The bill was almost bordering on the revolutionary stage. It was almost a family compact scheme, of which the result was known. History also might be called in.

History Referred to.
James II. was an autocrat, what he said went. Dr. Fyne then quoted the nullification of the Test Act in his reign, foreshadowing the revolution of 1688.

"I have stated that four of the Government supporters have really no right to be here. I explain that this way, by referring to the election returns and the votes cast for Government candidates, including the votes of the returning officers, and in this addition to the present business. One of the principal features which has brought Mr. Williams so prominently before the public is the systematic and quick service rendered by an episcopus ideal. None but the highest grade of constables will be employed, and he having engaged the services of an up-to-date Parisian chef de cuisine and also a German decorator and confectioner, whose creations cannot fail to charm the most fastidious. The facilities for catering will be much improved in the new premises, and no contract will be so large, or no order so small, for Mr. Williams to give the best possible satisfaction."

LETTER FROM JOHN ROACH

He Wants to Know Who Put His Name in the Paper.

Boarded at 106 Wood-street, and Mrs. Coleman Read the News to Him about the Napanee Bank Robbery Case—Who Put That in Your Paper?

The following letter will be of interest just now in view of the great agitation about the Napanee bank robbery: Superintendent's Office, CALICO BOLATE DEPOSIT, PACIFIC COAST BORAX CO., San Francisco Office, 101 Sansome Street, Marlon, Cal., Aug. 14, 1893.

Dear Sir—Will you be kind enough to let me know who put that article in paper, using my name. You must have fine reporters. Every person that knows me surreptitiously writes every thing that they see in the World. I was stopping at 106 Wood-street, with Mrs. Coleman, and had not been out of that home a night for weeks. Mrs. Coleman read the news to me; first I knew anything of the affair. My name is John Roach. My father lives two miles east of Deseronto. This is the part I want to know, who put that in your paper? Please enlighten me in the matter. Yours truly, John Roach, Daggit, San Bernardino Co., Cal.

P.S.—May be back in a couple of weeks.

ROSSLAND SPECIAL

Sharp Advance in Virginia—Mr. J. B. McArthur Has a Big Tunnel Scheme on Hand.

Rossland, B.C., Aug. 19.—(Special.)—The feature of to-day's market was the sharp advance in Virginia. Mr. J. B. McArthur, President of the Rossland Board of Trade, leaves for Toronto and Montreal next week, to interest eastern capitalists in a scheme to run a tunnel from the Columbia River to tap the Red Mountain mines at a depth of 1500 feet. The estimated cost of the tunnel is over \$4,000,000. The tunnel would serve for transportation of ore and drainage of the city.

Dineen's Open Until Ten To-night.

The transformation which will turn Dineen's into an exhibition palace of the newest ideas in fashionable hats and furs during Fair time is going on apace. All the fine straw hats and soft white felt hats—summer weights and styles, which are being cleared off to make room for the Exhibition display—have been massed in the front store, and in the summer annex, on the main floor, for the convenience of visitors to-day and all next week. To-night Dineen's, Toronto's famous hat emporium, remains open until 10 o'clock.

Cuba's Loss in Mexico's Gain.

Ask for a Mexican cigar the next time you go to Muller's. These cigars were imported by Mr. Muller a month ago. Many gentlemen who have sampled them have bought them by the box. This is the first time that Mexican cigars have been imported direct into Canada. Mr. Muller says they are better now than they ever were, because so many of the Cuban cigar-makers who were thrown out of work by the closing down of the Havana factories went over to Mexico.

The Latest. Albert Williams, the well-known caterer, has purchased the old-established business of George Coleman, 113 King-street west, where he intends opening a strictly first-class restaurant and catering establishment, in addition to the present business. One of the principal features which has brought Mr. Williams so prominently before the public is the systematic and quick service rendered by an episcopus ideal. None but the highest grade of constables will be employed, and he having engaged the services of an up-to-date Parisian chef de cuisine and also a German decorator and confectioner, whose creations cannot fail to charm the most fastidious. BRITISH COLUMBIA TANGLE.

Occupation Has Begun as Regards the Old Heads of the Turner Government—Westminster Sun Flaps to Martin—The Victoria Colonist Promises Some Interesting Developments.

Vancouver, B.C., Aug. 19.—(Special.)—There is a hungry crowd of followers of members of the new British Columbia Government, says The Vancouver World, looking for fat jobs. From indications, vacancies will be forthcoming for them. To-day the Government Statistician, G. R. Gosnell, whose statistical works are famous in the Dominion, was retired. Many others will follow. Several former Turner newspapers, the Colonist expressed its intention not to display any longer than to-day without making public the inner history of the late dismissal, as it understands it. Since then it has been asked to defer doing so for a day or two, and it hopes then to be able to lay before its readers and the public generally a full and complete authoritative statement. This it expects to have by Saturday morning. We desire to disabuse the minds of readers who may anticipate anything sensational, though it will be interesting enough reading. When all the facts are out, even The Toronto World will reconsider its views as to the soundness of the precedent which Lieutenant-Governor McInnes has established.

MARRIAGES.

OLIVER—On Aug. 11, by Rev. J. F. German, Tabula Oliver to Herbert H. Home, both of Toronto.

John Jacob Astor Is Patriotic and Wants His Taxes Increased—Gould Millions to be Divided Up Shortly—John D. Rockefeller Moves Out Rather Than Pay the Amount Levied.

New York, Aug. 19.—Col. John Jacob Astor has again set an example for millionaires, and incidentally for those who are wealthy, but do not quite reach this fortunate class. He started society when he stepped out of the lap of luxury, left all the comforts and enjoyments which his many millions could give, and went to Santiago to battle for the Old Glory. No man went to the front with a loftier sentiment of patriotism or a more vivid conception of the duties and responsibilities of the American soldier and citizen. He was where the Maudslayi bullets were flying, and it is fortunate indeed that his life was spared, for it has given him another opportunity to show in civil life that he is alive to his responsibilities.

If all the reports are true, Col. Astor's next move will be almost in the nature of social revolution. There cannot be any doubt of the great upheaval among millionaires if they follow where Col. Astor leads, as they did not when he went to Cuba.

Here is a miracle in a millionaire! Col. Astor will request the city government to increase his taxes on personal and real property.

It is because the Tax Commissioners have always had to fight for all the taxes collected from very wealthy persons that the proposition of Col. Astor is so astounding. Col. Astor returned home from Santiago about three weeks ago.

The real estate owned singly and jointly by Col. Astor and William Waldorf Astor is estimated to be worth in round numbers \$100,000,000, and of this it is said that Col. Astor's holdings are \$40,000,000. The gross rentals from the entire estate are about \$6,000,000 a year, and the net income is, it is said, over \$4,000,000. Col. Astor's share of the income is based not only upon this real estate, but is made up in part from the various trust estates held in common by the Astor heirs.

William W. Astor's personal property subject to taxation in this city is fixed by the assessors at \$2,000,000 for this year, and it has been at this figure for several years. There are few if any private persons assessed greater than this for personal property, and Mr. Astor's American agent pays the tax on it without a murmur.

It will be some time before Col. Astor can find out what he is worth—several weeks perhaps.

THE GOULD FAMILY.
New York, Aug. 19.—George Gould, head of the family of the late Jay Gould and guardian of the millions left by the ancestor, will arrive in New York from Switzerland on Sept. 4. Within a few days of that date Frank Jay Gould, the youngest of the children, will come of age, and then, according to the will of Jay Gould, the great fortune must be divided. That will mark the end of the estate left by the "Wizard of Wall-street." The securities will be sold and each heir will get his share.

It will be the signal for great events in the financial world. By the middle of September deals will have been consummated which will be of startling importance, the chief one being the consolidation of the Manhattan Elevated with the Metropolitan TrACTION Company.

It is well understood that the snatching of this great deal will be done by J. P. Morgan, in collusion with those of Mr. Morgan and large stockholder of the Manhattan Elevated. He could not agree with the Gould and Sage interests and retired as a director.

Mr. Morgan issued a statement yesterday in which he said the interests in the Manhattan stock, nor do they intend to acquire it. It is said William Rockefeller has consented to hold a share of the Manhattan stock, nor do they intend to acquire it. It is said William Rockefeller has consented to hold a share of the Manhattan stock, nor do they intend to acquire it.

Of course the General Electric is interested in the mighty consolidation. It will grab the big contract of furnishing electric power to the Manhattan roads.

Frank Gould will be controlled in this transaction by his sister Helen, and she listens closely to and generally acts on the counsel of Russell Sage. Edward Gould, a full and complete authoritative statement. This it expects to have by Saturday morning. We desire to disabuse the minds of readers who may anticipate anything sensational, though it will be interesting enough reading. When all the facts are out, even The Toronto World will reconsider its views as to the soundness of the precedent which Lieutenant-Governor McInnes has established.

DEATH FOLLOWED CLOUDBURST.

Saw Mill Run at Bridgeville, Pa. Overflowed and Several Lives Were Lost.
Pittsburg, Aug. 19.—A cloudburst at Bridgeville, five miles southeast of here, about 8.30 o'clock this morning caused Saw Mill Run to overflow, doing great damage in the west end. Five people who were standing on an embankment when it gave way, are known to have been drowned and others are missing. The names of those drowned are: Regis Loftus, Mrs. K. Loftus, Mrs. O'Shaughnessy, unknown child, unknown man. The accident occurred near the foot of Mill-street, where a man stood the fog continued to watch the rapidly increasing size and fury of Saw Mill Run. Nine people are known to have been standing on that portion of the bank which gave way, among them Mrs. K. Loftus and her three children.

Five children lost their lives during the flood, according to a revised list of dead and missing. The children are: Irene and Regis Loftus, Genevieve and Margaret O'Shaughnessy, New York Mills. The children, together with some other persons, were standing on a porch of the brick tenement house on Viola-street, which was down, the porch overhung the run, and the people were carried away and the people went with it.

Will Ask Removal of Canal Tolls.

Chicago, Aug. 19.—The Evening Post today says: "The Chicago Board of Trade will ask by motion to take action for the removal of the tolls on the Illinois Canal." The International Convention to settle disputed points between the United States and Canada will begin its sessions at Quebec, Aug. 23.

THEY ARE NOT HOWLING NOW.

"Do you notice how mum the Liberal leaders and the Liberal newspapers are in regard to prohibition? A Conservative, who was a member of the Upper House of Commons.

"In what way?" was the answer.

"Why," said he, "if our fellows were in power now and the Grits were out, as is not the case, the Grits would be yelling and shouting about prohibition from one end of Canada to the other, in order to make all the trouble they could for the Conservative party. It would yell by day and howl by night. But at the present moment they are as mild as sucking doves. Indeed, I have no hesitation in saying that the men who in their hearts are most opposed to prohibition to-day are the Liberal leaders of all degrees and rank."

Divine Healer Schrader

Has Turned Up in Hamilton and Stops at Merchants' Hotel.

Wanted to see Mayor Colquhoun, but couldn't find a reporter. He made no money in Toronto—Rev. W. J. Thompson, for whom U.S. Police are seeking, well known in the Ambitious City—Hamilton News Generally.

Hamilton, Aug. 18.—(Special.)—August Schrader, the Divine Healer, as he terms himself, arrived in the city this morning and made his headquarters at the Merchants' Hotel. He attracted a lot of attention, as he walked quickly along the streets, wearing a long, flowing robe, a red scarf, and looking somewhat like the accepted picture of the Saviour. Wishing to make himself secure here, Schrader endeavored to see Mayor Colquhoun this afternoon, but his worship is attending the Legislature, and the healer failed to see him. Schrader is a reporter that a Canadian tour had not been financially successful. While in Toronto, he said, he did not receive enough to pay for his board.

KNOWN WELL IN HAMILTON.

Rev. W. J. Thompson held forth there on Tuesday.

Hamilton, Aug. 18.—(Special.)—Rev. William J. Thompson, who is being sought by the American police, was well known in Hamilton. He came to this country from Sunderland, Eng., in 1888, when about 21 years old. He associated himself with the James-street Baptist Church and became a great worker there. He was married to Miss Margaret MacLaurin, daughter of Rev. Duncan MacLaurin, a retired minister, who lived in the west end of the city, and married her on New Year's Day, 1889. He was then 22 years old and his wife 23. Thompson was tall, of nerve and a good talker. He followed no particular business when here, and described himself as a student when he was married.

Arthur Lewis Drops Out. From a New York source it is learned that Mr. Arthur Lewis, who so successfully managed Julia Arthur's tour in "A Lady of Quality" last season, will not be her manager during the approaching season. It is stated that he will turn his abilities in another direction. Arthur Lewis is in charge of affairs until a manager is engaged.

Police Briefs. At today's Police Court Stephen Peste and William Hayton pleaded guilty to the charge of stealing a boat from Daniel McGivern. They were sent to the Central Prison for one year.

Charge of non-support laid against George Clark of Beverley Township by his wife was dismissed. The couple are each over 70 years old, and the evidence showed that Clark had no means, while his wife was possessed of a small income.

Charles McAllister charged John Larkin with assault. The tables were turned on the complainant, who was ordered to pay all the costs.

Minor News. Miss Mona Kilvert, daughter of F. E. Kilvert, Collector of Customs, died at the City Hospital last night. She was operated on for appendicitis.

Grand Canton Stebbins of Rochester will take part in the I. O. O. F. demonstration here on Labor Day.

Mr. Alex. P. McKee, an Anderson, Ind., glass maker, is in the city, considering the advisability of starting a glass factory here.

A Successful Medicine—Everyone wishes to be successful in any undertaking in which he may engage. It is, therefore, extremely gratifying to the proprietors of Farmelee's Vegetable Pills that their efforts to compound a medicine which would prove a blessing to mankind have been successful beyond their expectations. The endorsement of these pills by the public is a guarantee that a pill has been produced which will fulfill everything claimed for it.

The Beauty That Health Gives. Health is in itself beautiful. Abbey's Effervescent Salt gives health—absolute, perfect health. Take a teaspoonful of this standard English preparation every morning, and you will be convinced beyond a doubt of its health-giving qualities. Sold by druggists everywhere at 60 cents a large bottle. Trial size 25 cents.

A Carefully Prepared Pill—Much time and attention were expended in the experimenting with the ingredients that enter into the composition of Farmelee's Vegetable Pills before they were brought to the state in which they were first offered to the public. Whatever other pills may be, Farmelee's Vegetable Pills are the result of much expert study, and all persons suffering from dyspepsia or disordered liver and kidneys may confidently accept them as being what they are represented to be.

The Most Criticized. And exhausting examinations and tests of the genuine Heinzman & Co. have only served to verify the high claims advanced by its manufacturers. Heinzman & Co. have always led in important innovations and have enjoyed the most wonderful success in the medicinal and valuable adapt construction.

The Primrose will play the Eastern Reapers on the old Parliament grounds at 7 p.m. They will line their players up as follows: Sullivan, C. Patterson, P. Rocamora, D. Davis, B. Rogers, B. Spencer, S. Fraser, J. Beecham, C. Walsh.

A CAPTAIN HERE IN '64.

What Toronto Was When the English Redcoats Were Here—A Pen Picture.

"That is where our quarters used to be," remarked a keen-eyed, soldierly-looking man to a World reporter, as he pointed last night to the old red brick building just east of the Grand Union Hotel, known as the Palace.

The speaker was Capt. E. W. Manning of Cambridge, Eng., late captain of the 47th North Lancashire, and now, after an absence of some years, a guest at the Grand Union Hotel.

Here in 1864. "My regiment was stationed here in 1864," replied Capt. Manning, when asked to go into old-day history. "Col. Lewis was in command, and Major Villiers was second. I don't know what has become of either of these two officers, but I met Col. Bischoff, then Lieutenant, in Jersey the other day, and Lieut. Dawson, one of our staff, I remember, sold out and started the Bodega, which was afterwards bought by the British and was then moved to Halifax, and afterwards returned to England."

Gremlins Like "Lassoon" Boys. "We are of our citizen soldiers, Capt. Manning?" "I am delighted with them. I came across some of the Gremlins on the other side of the river, and I declared, I thought that they were some of the London Grenadier Guards out in Canada on a tour, and you, I thought, on the Captain, speaking warmly, it was very great mistake to withdraw the English troops from Canada. They made a strong tie with the Montrealers, and the young ladies were greatly disappointed."

English Troops Needed. The Captain laughed gaily at the thought of the English troops, and he declared, I thought that they were some of the London Grenadier Guards out in Canada on a tour, and you, I thought, on the Captain, speaking warmly, it was very great mistake to withdraw the English troops from Canada. They made a strong tie with the Montrealers, and the young ladies were greatly disappointed."

Scarelights Next Year—Steamers Come and Go—Excursion From Hamilton.

St. Martin's Church Choir went to Mount View Park, Hamilton, by the Massasauga. The Garden City arrived with 300 passengers from the east yesterday morning. The Niagara Navigation Company's steamers will carry the employees of J. J. Taylor's Safe Works to the Falls to-day.

The Garden City will carry the employees of the Gutta Percha Rubber Company to Oakville to-day.

The steamer Tynon leaves for Lewiston tonight at 11 o'clock, returning to-morrow evening at 8 o'clock.

The Empress of India will carry a big load to Charlotte this evening. The boat leaves at 11 o'clock.

The Acadia brought in a large cargo of lumber from Hamilton and Burlington yesterday.

The Greyhound came over with the Epworth League of Clarkson yesterday.

The Richelleu and Ontario Navigation Company's steamers that ply on the River St. Lawrence will be fitted up with large searchlights next season.

TORONTO HUMANE SOCIETY

Societies Organized Outside of the City—Exhibits Will be Made at the Fair.

Rev. Canon Sweeney took charge of affairs at yesterday afternoon's meeting of the Toronto Humane Society. Mr. Kelso reported that societies had been organized in both Mitchell and Brockville.

Regarding the ill-treatment of horses along the Montreal canal, the society, recognizing that interference was beyond its jurisdiction, decided to refer the matter to the Royal Canadian Association.

A resolution was adopted, asking the city treasurer to report the result of their meeting, held some time ago, in connection with the overloading of horses.

Dr. Casley was appointed to superintend the construction of three small-sized lethal chambers, for the humane destruction of dogs. The chambers will be connected with police stations.

Among the communications read was a request from the Guelph Association for a lantern and set of slides with which to entertain and teach the better care of dumb animals.

The principal feature of the meeting was the report of the committee on whether an exhibit should be made at the Fair or not. That it was best to make one was decided.

The following are the names of the members of the Toronto Humane Society: Mr. Dupont, Mr. Kelso, Mrs. Urwin, Mrs. Wood, Mrs. Savigny, Mrs. Sotley, Miss Workman and Dr. McCasland.

LOCAL AND SUBURBAN.

Toronto Junction, Aug. 19.—(Special.)—James Riley, who obtained goods at R. G. Andrews' store on the representation that they were for Mrs. Taylor, was this morning sentenced by Police Magistrate Mills to 30 days in jail.

At this morning's Police Court, James Pile, for selling underweight bread, was fined \$1 and costs. B. A. McQueen, for being drunk and disorderly, was fined \$1 and costs. William Todd, for breach of the license by peddling watermelons, was allowed to go on suspended sentence.

Marchmont, excavator of Toronto, was fined \$5 for dumping night-soil on property within the town limits, contrary to by-law, and John Poirer was likewise fined \$5 for doing the same.

The Fire Brigade was called out to a burning sidewalk on Annet-street, near Lakeview, yesterday afternoon. Several yards of sidewalk were burned.

Fred Broom accidentally got his hand caught in the cogs of a mangle in his little shop, and possibly his fourth, as a result of it. His other fingers were mangled.

Boy McEntee of Cooksville was held up on the other day, and I declared, I thought that they were some of the London Grenadier Guards out in Canada on a tour, and you, I thought, on the Captain, speaking warmly, it was very great mistake to withdraw the English troops from Canada. They made a strong tie with the Montrealers, and the young ladies were greatly disappointed."

There were just enough members for a quorum at the Public School Board to-night. Trustees Raybould, H. Hayes, and J. Anderson. They decided not to open the Public Schools until Sept. 6, and a committee, consisting of Trustees Raybould, H. Hayes, and J. Anderson, was appointed to purchase seats and desks to fit up two rooms in Carlton School.

East Toronto. The boys in Camp Hiawatha, adjoining Munro Park, had a great time last night. They invited some of their friends to come down and spend the evening with them, holding out a progressive pedo match as the inducement. So many good players were present that the boys decided which one was entitled to the prize offered for the most successful player. They all enjoyed themselves immensely.

The village of East Toronto and vicinity is evidently a very healthy locality. About two months ago the influenza epidemic broke out in the city. Consequently this place loses a general citizen, and the city is so much the poorer.

Rev. James Todd of Wilmington, Del., and Rev. J. M. Torrell of Philadelphia are at present the guests of Mrs. A. P. Allan, Allandale Cottage, Lee-avenue.

Thornhill. The Rev. F. C. Kearn has decided to conduct personally both the morning and evening services at the Methodist Church in Thornhill, as formerly, a supply for one service.

F. Gallanough, purchaser of the residence of the late Thomas Parker, will add some modern improvements to the dwelling and take up residence in about a month.

Mr. S. W. Armstrong, York Township's treasurer, returned from his holidays yesterday, and is now prepared to take in the balance of the year's tax-payers.

The North Toronto baseball team will play the Capitals on the Davisville grounds to-day.

Mr. John Davis of Eglington has left to take charge of the Warren Bros' lumber mills at North Bay.

York County News. A barn and lawn party in connection with the Church of the Holy Trinity, on the shores of Lake Wilcox, near Aurora, on Thursday next, the 12th Battalion Band will be present.

S. W. Armistead's sawmill mill, near Kirkville, is turning out 10,000 ties for the Metropolitan Street Railway Bond's Lake extension.

A petition is being circulated in the northern part of King Township, asking the council to cancel the tax-payers' bills in connection with the Schomberg and Aurora Railway. The line has not yet started.

Monday is Queen's Day Holiday. Most of the residents intend going to the A.O.U.W. excursion to Orillia that day.

Joseph Paganiro of Weston narrowly escaped drowning near the woolen mill dam, and was sinking for the third time when rescued by the police.

A grand lawn party will be held on the beautiful grounds belonging to Edward Armstrong, on the town line, near Westford, in aid of St. Jude's Church, Scarborough, on Thursday, Aug. 25, 1893. Tea will be served from 5 to 7 p.m.

Remember Van Every's cheap excursion to Cleveland, Detroit and Toledo, Aug. 22, 7 a.m. Montreal, New York, Odessa, New York, Aug. 23, 7 a.m. New York, Boston, Portland, Aug. 27. Office open Saturday night till 6 o'clock.

Trinity-square (off Yonge-street, between Louisa and Alice-streets) stands the Church of the Holy Trinity, which celebrated its jubilee last October. This church is its efforts to compound a medicine which would prove a blessing to mankind have been successful beyond their expectations.

In the absence of the pastor, Rev. W. G. Wallace, B.A., B.D., the services at Bloomsbury Presbyterian Church to-morrow will be taken by Rev. J. Cummings Smith, B.A., the minister of the Tabernacle in Indianapolis, Ind., which is one of the largest churches in the world.

Coroner Powell held an inquest yesterday at the jail on the body of Mary Bredin, who died in that institution Thursday night. The verdict of death was returned by the jury. The woman was sent to the jail from the General Hospital on July 23, and has suffered continually from brain fever.

Rebel General Morales Dead. Washington, Aug. 19.—United States Minister Hays of Guatemala cables the State Department that Gen. Morales, leader of the revolution, was captured in a cave on Wednesday, and died on his way to the city of San Sebastian. The end of the revolution.

A Corn Barometer. Some people can fortell the coming storm by the state of the corn. A corn barometer is a corn sheaf. Others cause a storm when the corn is stepped on; this is also a corn barometer. Others remove the corn by using Dr. Russell's Corn Cure. This is a corn sensibleness. Your druggist sells it.

T. EATON CO. LIMITED 190 YONGE ST., TORONTO.

THE TORONTO WORLD ONE CENT MORNING PAPER. No. 55 YONGE STREET, TORONTO.

THE DOLLAR SLEEPING BERTH. "One would think from the description of the new sleeping cars turned out by the Canadian Pacific and the Grand Trunk that Mr. Ho's and Sir William Van Horne had, before they placed the orders, been reading the descriptions in the Revelation of the New Jerusalem, with the stories of onyx and sardonyx, the carvings, the gildings and the hangings, and the lamps of much lustre.

But is this really the kind of car the public want we mean the ordinary railway passenger? Does he insist on riding in a twenty thousand dollar car? Or is it that the railway managers are trying to educate him up to that sort of thing? Of course we know that Sir William is high up in the order of aesthetics and can tell the reign by the feet behind his back of any bronze that ever was cast in Japan, but what has that got to do with the production of a sanitary sleeping car with berths for a dollar to suit the pockets of the people? If the companies spent half the money which they put in the gorgeousness of their "palace sleepers" in trying to solve the problem of a well-aired, equally heated, dust-proof sleeping car they would be doing something for their patrons, and for the pockets of their shareholders as well. But these bedizened sleeping cars are frightful nightmares. Take the next \$10,000 they propose to invest in gorgeous carvings and put it in a training school for their porters to teach them how to handle the present cars in the direction of making them more sanitary and comfortable. Or put some of the money in watching that the porters do their work. A \$10,000 interior carving will never make up for an inattentive porter, or one ignorant as to handling his car.

Take stock of the patrons of your through railway trains, Messrs. Managers, and see from what class of passengers you are getting your main income. If you find that you have a lot of money-paying passengers who cannot afford to pay two dollars for a berth in a gorgeous sleeping palace on wheels, why, then, why not give them a plain berth in a plain car for a dollar, handled by a porter who is schooled in his business, and who is watched by someone else to see that he does his duty. Get down to the requirements of the people. We do not know whether Sir William Van Horne and Mr. Ho's still wear long boots or not, but when they were young men out west everyone wore them and paid \$10 to \$15 a pair for them. They had to be of calfskin and carry ten wrinkles in their front. Now they are wearing \$3 and \$5 boots out there and glad to get them. And the shoe dealers are glad to supply them, which makes the moral of it.

Railway earnings from passengers can only be made hereafter by giving cheap and pleasant travel, not by bedizery and high fares. So take the dollar berth in a sanitary car into your best consideration.

A TELEPHONE WAR IN SIGHT.

Whether competition in the telephone business is a commercial possibility is about to be tested in London. The People's Telephone Company have decided to accept the conditions under which the corporation of that city will permit them to establish a telephone exchange. The agreement provides for a 15 years' franchise, and the following rates, viz: \$38 for business places and \$18 for residences. These rates are considerably below those charged by the Bell Company, even after the latter made its cut to meet the new concern. The Bell Company's rates now stand: business \$40, drug stores \$25, houses \$20. The People's Company further offer to supply phones at a man's business office and his private residence for \$40. This is just \$2 more than the Bell Company charges for the business service. Another feature of the new company's tariff is its so-called limited service, which will cost \$10 per year and two cents a call. War to the knife will now ensue between the two rival concerns. There is no doubt the People's Company will start business with a big list of subscribers. The Bell Company is solidly entrenched, not only in London, but throughout the whole of Canada. An officer of the Bell Company thus alludes to the situation: "The strong probability is that the Bell Company will not seek for exclusive franchises in any Canadian town in the future. Its position is so impregnable that the slightest danger of any permanent injury to its business by the competition can only be temporary and spasmodic and isolated, and cannot possibly succeed. Then why should the Bell Company trouble itself to secure exclusive franchises? There is a mistake somewhere in allowing two telephone companies to operate in the same territory. The establishment of a rival concern is a very expensive method of ascertaining what reasonable telephone rates are. The proper solution of the difficulty is for the Government to interfere and regulate the charges of the company that is in possession of the field. The company should only be too glad to accept governmental and municipal regulation in return for exclusive privileges. The Bell people, however, seem disinclined to operate as a regulated monopoly, so the only alternative the people have to protect themselves lies in competition. What the outcome of the fight in London may be it is hard to foretell, but if we can judge public sentiment in regard to the situation we think the Bell people have a serious fight ahead of them.

CUBA TO BE ANNEXED.

The independence of Cuba is a mere theory. It will not be long until the island becomes part and parcel of the American Union. The following from

The Chicago Inter-Ocean shows how rapidly sentiment is forming in the direction of complete annexation: "It becomes more evident daily that the only solution of the Cuban problem is annexation of the island to the United States. The dream of a Cuban republic has turned into nightmare. There is no such republic except in name. What was supposed to be an insurgent army proved to be a gang of looters."

RAILWAY AMALGAMATION.

The amalgamation of the Lake Erie and Detroit-River Railway with the Erie and Huron Railway creates a system of some importance in Western Ontario. The amalgamated lines connect such centres as Windsor, Sandwich, London, Port Stanley, Chatham and St. Thomas, or at least they will do so when the gap between Ridgetown and St. Thomas is completed. With terminals at Windsor and Sarnia, it is more than likely that the road will be extended from St. Thomas to Buffalo.

ORATOR EDWARD.

The 48th Highlanders Will Play at Wilkes Steward's Banquet on the 26th Inst. At the practice room of the Band of the 48th Highlanders, at 115 St. George Street, a glowing appeal in behalf of Mr. Wilkes Steward, for the services of the band on the occasion of the banquet to be given next Friday evening at the Pavilion. He said, among other things, that he himself had taken dead bodies from the bottom of Toronto Bay, and he assisted to save others, that he had rescued, unaided, a number and read of acts of daring, but never in his life had he been so known so brave an act. He was sure that had Mr. Steward not been there there would have been two, instead of one, drowned.

A DISAPPOINTED MAN.

Ex-Mayor O'Callaghan of Cornwall Went to the Yukon and is Glad to Get Back. Cornwall, Ont., Aug. 19.—(Special.)—Ex-Mayor Edward O'Callaghan, who left here with Col. McGregor of Martinovon four months ago to do a tour of the Yukon, Mr. O'Callaghan reached Dawson on June 20, but was so worn out with hardships, one and another, that he had to go to the hospital, which would cost \$10 per day, or start for home. There were at every river junction along the Yukon Prospects were so poor that Mr. O'Callaghan decided to return home. He left Dawson on Friday, Sept. 10, on the Yukon to St. Michael's, then to Seattle and Vancouver to Cornwall. He says they were struck by a storm on Lake Lindemann. Their boat was swamped and nearly all their outfit lost. They were rescued by the Eskimos. Of the couple who accompanied him and five hundred is making money.

The School Board Sports.

The Sports Committee of the Board of School Trustees met yesterday. The present Messrs. T. L. Church, Alex. Fraser, W. J. Hamby, T. L. Church, W. Calger, E. F. Clarke, M.P., and Dr. Trustee T. L. Church was elected chairman of the Sports Committee by acclamation. Sub-committees were struck on games, prizes, and prizes and reception. The chairman and Dr. Elliot thought the boys of the schools should have a prize for the games and it was decided that Dr. Elliot, Messrs. Church, Hastings and three boys from each school, on a committee on games, to bring the boys more into active touch with the games. The sports will this year be held on Friday, Sept. 25, on the committee. Good up-to-date men are to be invited to speak for the games and several valuable prizes will be offered. The committee have added several new events and features to enliven the interest of the boys in the games.

PRENZED DOG ATTACKS A BABY.

But Her Sister Saved the Little One From Harm After Being Badly Bitten Herein. New York, Aug. 19.—"Be sure to take good care of the baby, Nellie," said Mrs. Gallagher of No. 30 Fillmore-street, Newark, yesterday, when she sent out her 12-year-old daughter with the baby.

"Of course I will, mother," laughed the little girl, and she did, though they brought her back banging and biding an hour later. A vicious dog had attacked the baby, but the little girl kept it off till help came, though it nearly cost her her life. She wheeled the baby up and down for a while and then started down Frederick-street. Just as she was going into the gateway at No. 30, where her friend, Mrs. Hugh McGinnis, lives, the dog sprang out. It was a wicked little black and tan. With a snarl and a growl it sprang into the baby's carriage, trying to bite the baby. Nellie screamed and tried to beat the dog off. It sprang at the baby again and again, and she tried to strike it with her sharp fingernails in the soft flesh of Nellie's arm. "He's killing the baby!" screamed the child, trying to catch the brute by the neck, but the dog sprang at her this time and buried its teeth in her leg. There they fought, the little girl and the dog, but Nellie managed to get away from the helpless baby. When at last her screams were heard she was bleeding from a dozen different cuts all over her little body. Mrs. McGinnis was the first to come. She picked up a stick and dealt the brute a blow on the head. It dropped its hold and slunk away.

HURON'S GRAND OLD MAN GONE.

Ex-Sheriff Gibbons Has Passed Away After a Long, Useful Life. Goderich, Aug. 19.—Huron's grand old man, Robert Gibbons, ex-Sheriff, passed away to his rest at 8 o'clock on Friday, Aug. 19. He was 87 years of age. His name occupies a prominent place in the history of the county. He was of Scotch origin; having been born in Glasgow, Dec. 24, 1811. In 1832 he emigrated to Canada and on May 27 in that year he arrived at Goderich, then a village of less than 250 inhabitants. Here he launched into business, and at an early age took a leading part in the municipal affairs, and subsequently serving several terms as Mayor of Goderich, and was for many years re-elected. He was elected to represent Mr. Gibbons was elected to represent South Huron in the first Parliament of Ontario, and four years later, in 1871, he was elected to the Legislature, each time as the candidate of the Liberal party, whose doctrines he effectually advocated. After serving in that capacity during the terms of the second Parliament he resigned his seat to accept the shrievalty of Huron county, which office he acceptably filled until about a year ago, when he found his advancing age incapacitated him from the active duties of his office. Strongly resembling the Hon. W. E. Gladstone in appearance, he has long been recognized as Huron's Grand Old Man. As a pioneer he took part in all the hardships of early life, and never flinched in facing obstacles whenever they occurred. A man of generous instincts, he was ever ready to help those in need, his name was constantly associated with every step of progress in his own community. It can be said of him that while his principles in politics never changed, and while he was firm in all his convictions, he was always generous and fair to his strongest opponents, and was respected for his sterling worth by all. He passed through a long life with a record of no blot, stands and endures a credit to his grave wearing the white flower of a blameless life, mourned and missed by all who knew him.

Henry George Celebration.

On Friday evening, Sept. 2, the Henry George Club and Single Tax Association, intend to have a celebration in St. George's Hall, commemorating the birth of Henry George, the great political economist and reformer. The exception that the occasion will be the Very Rev. Charles D. Williams, Dean of Trinity Cathedral, Cleveland. Many others of prominence will also attend.

Charged With Shop-Lifting.

Mrs. Bates, an elderly woman, was arrested yesterday at noon, charged with stealing a knife, a fork, salt and pepper caster and a cruet set to the T. Eaton Company. Some of the employees saw her acting in a suspicious manner, and watched her. Investigation was made she was placed under arrest by P.C. Macdonald. At No. 2 Station she gave her address as House of Providence.

It Takes a lot of talk to get some people to try a good thing.

BREAKERS OF THE LAW.

Given 30 Days—A Careless Mother—Women War-Boys Punished—Other Notes.

Old Bill Orford, who has spent a good part of his life behind the bars, was given the usual 30 days for insulting ladies on the street.

Henry Tomlinson was remanded till the 28th on the charge of stealing a diamond pin and \$25 from Frank McCoy.

John M. Simcox was sentenced to 60 days on the charge of entering the Poplar Hotel while he was intoxicated, with the intention of stealing.

Three children of Patrick O'Brien, who is serving a term in the Central Prison, were taken from their mother, Annie, and handed over to the St. Vincent de Paul Children's Aid Society.

Fred Ranney of Georgetown, on the charge of defrauding his landlady, was remanded for a week, until further witnesses are called.

Emily Handley was arrested yesterday on a charge of wounding Margaret Powers while in a fight on Richmond-street west. The case will be heard on Monday.

William Brimstin, the young locksmith, was given 60 days for stealing \$200 worth of jewelry from a trunk belonging to Mr. Stappleton Caldwell, 155 Bloor-street east.

Four boys named Fred Myers, George Kendrick, Christopher Kendrick and Sampson Case were all convicted on the charge of breaking into the residence of Mr. Robert H. Davies, 92 Crescent-road. The first named was given a year in the Central and George Kendrick and Sampson Case six months in the same institution, while Christopher Kendrick was sent to jail for 90 days.

Jim Lynch, promising to pay his wife \$5 a week, let go. The charge of assault had been preferred against him by Mrs. Lynch.

John Spence, for soliciting alms, was given 30 days.

James Dillon, on the charge of stabbing Charles Rutledge, was committed to stand his trial.

Alleged Nuisance on Charles-St. A resident of Charles-street, who has been reading The World's articles on street noises, yesterday called at the office to protest against the small nuisance. He and his neighbors are annoyed by the unpleasant odors that come from a large stable on this street. They intend waiting on the Council to see if the nuisance cannot be stopped.

Natural Table Water.

BOTTLED AT THE ROSBACH SPRINGS, NEAR HOMBURG, THE FAMOUS HEALTH RESORT OF GERMANY.

Rosbach Sparkling Table Water,
The Best Drinking Water in the World,
Alone or Mixed with Wines, Spirits, etc.
DRUNK BY H.R.H. THE PRINCE OF WALES.

SIR CHARLES CAMERON, the eminent Analyst and Professor of Chemistry, says: "The water is remarkably free from organic impurities. It is bright, sparkling and highly charged with carbonic acid gas. Its flavor is decidedly more agreeable than that of any mineral water I have ever tasted."
It may safely be used as a daily drink, and will be found beneficial in cases of gouty and acid dyspepsia. I can cordially recommend this excellent water.

Rosbach. = Rosbach. = Rosbach. Rosbach. = Rosbach. = Rosbach.

PROFESSOR WANKLYN, the well-known Analytical Chemist, in answer to the question, "Which water do you recommend for daily and habitual use?"

DR. WALLACE, writing from the City Analyst's Laboratory, Glasgow, says: "I consider the Rosbach unsurpassed for table use."

REPLIED—
"I know of one only which is quite satisfactory and that is Rosbach Water."

Text of award of the INTERNATIONAL EXHIBITION at Chicago, 1893: "Rosbach is a lightly mineralized, highly carbonated natural mineral water; it is a clear, bright, refreshing beverage, absolutely pure, well bottled and of agreeable, piquant taste."

Rosbach. THE LANCET says: "When taken alone, the water is peculiarly soft and smooth to the taste. According to our examination its organic quality is beyond reproach."

ROSBACH is used in all principal clubs, hotels and restaurants in England. ROSBACH is used by distillers, because ROSBACH improves every kind of spirit. ROSBACH is used for tasting by spirit merchants, because ROSBACH brings out the good qualities of whisky and wine. ROSBACH is recommended by caterers and retailers, because ROSBACH is universally preferred to other waters. ROSBACH is the best natural table water in the world.

THE PHARMACEUTICAL JOURNAL says: "As a table water for constant use, Rosbach may be recommended on account of its freedom from organic impurity, and because the alkaline carbonates are not present, as in the case of some other waters."

SYNOPSIS OF MEDICAL REPORTS:

THE HOSPITAL says: "Of all table waters in the market, we consider Rosbach to be on the whole the purest, the most palatable and the best."

ROSBACH is originally pure. ROSBACH is delicious, sparkling and refreshing. ROSBACH blends better with wines, spirits or milk than any other water, because it contains the least proportion of earthy salts.

"We have found it to be the pleasantest and most palatable of table waters."

ROSBACH is charged entirely with its own natural carbonic acid gas. ROSBACH is unsurpassed for table use.

THE STATIST says: "Rosbach Water is first rate and ought to command a good sale."

ROSBACH is used in all principal clubs, hotels and restaurants in England. ROSBACH is used by distillers, because ROSBACH improves every kind of spirit. ROSBACH is used for tasting by spirit merchants, because ROSBACH brings out the good qualities of whisky and wine. ROSBACH is recommended by caterers and retailers, because ROSBACH is universally preferred to other waters. ROSBACH is the best natural table water in the world.

DR. YORKE DAVIS states: "Rosbach sparkling table water is certainly the most pleasant I have yet tasted. Its antacid properties make it highly beneficial in the case of corpulent, gouty, rheumatic and dyspeptic people."

New York Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch today from New York:

The stock market today has been rather dull and steady with Minneapolis, Iron and Steel, the strong features on reported progress of the proposed consolidation and large increase in earnings. Manhattan held steady throughout the day on decline of the selling of a majority of the stock to Metropolitan Street Railway interests.

Sugar was very erratic, declining to 12 1/2 at opening and advance to 3 per cent. on attempts to cover shorts, and later selling off 1 per cent. to 2 1/2 per cent. The metal trade is fair with prices firm, and the demand for general hardware is moderate. Hides are easier.

Cunard Line Splendid Service.

In spite of the depression in Canadian ocean travel via New York during the past year, owing to doubt as to the satisfactory crops in Manitoba and west will be good, with harvesting already begun. As before stated in these columns, the grain yield in Ontario is good, with wheat much in excess of former years. The offerings of this cereal are increasing and prices are a little weaker this week. The leading merchandise staples are generally firm in prices with sugar higher. Vegetables are backward, and with a smaller crop, canned goods are firmer as to quotations. The metal trade is fair with prices firm, and the demand for general hardware is moderate. Hides are easier.

Bank Day in London Markets.

New York, Aug. 19.—Evening Post's financial cable from London says: It was a blank day in the stock markets here, the Canadian Pacific and Grand Trunk Railway holding the only activity in advance of holiday to-morrow. The tone was good, however. There was a sharp recovery in the Canadian Pacific and Grand Trunk Railway, but rallied on New York support. Argentina was good on further news of 6 points in the gold premium. The fall in Beiers mines continues. The Paris and Berlin markets were steady.

Cotton Market.

New York, Aug. 19.—Cotton—Spot closed easy; middling grade, 6 1/2; middling upland, 5 1/2. Sales, 1132 bales.

R. G. Dun's Weekly Trade Review.

In the Montreal district the weather has been somewhat too dry for the pastures, but has been very favorable to harvesting operations, which are well under way, and grain crops are reported to be turning out well. Trade progresses favorably for the season; there are already symptoms of fall demand setting in in some lines, and there are reasonable grounds for the expectation of a satisfactory autumn business. Payments are generally well spoken of, and failures for the week are insignificant. Wholesale dry goods circles are quiet at the moment, but a good number of buyers from the Lower Provinces and from the west are looked for towards the end of the month, and the fall military order has been fixed for the 30th inst. If retail business is fair, and stocks of light fabrics are better worked off than last year, when a cool August affected sales of these goods, changes in values are reported, but some caution is felt as to whether Canadian manufacturers of prints will make any headway in the spring price list of these goods, usually less than that of the United States. The further discrimination in "spits and shirtings" recently gone into effect. Woollen manufacturers continue to be well employed, but at the moment are light buyers of raw wools, which are very firm in price. Groceries show a steady distribution countrywards, and present no special features in the way of changed values, except that salmon packers' agents have been advised to withdraw all quotations. Leather does not move very briskly, but a few good transactions are reported in splits and shirtings. The fall of quotations that fall orders are not as large as in 1897, which was an exceptional year; however, manufacturers for jobbers feel the fall of most, but most of the regular trade are fairly employed. In hides there is no change. For cements there is good inquiry, with light stocks, and owing to higher quo-
