# BULLER HAS ENOUGH TROOPS TO HOLD WHITE

## It Is Said That His Plans for Advance From Durban Are Complete.

# BOERS GETTING CLOSER

## Enemy Advanced to Within 1500 Yards of the British Forces in Front of Ladysmith.

# WARM WORK DONE AT MAFEKING

## British Make a Brilliant Bayonet Charge on Enemy's Trenches at Night—Notes of the War.

It is rumored that all General Buller's arrangements for the advance from Durban are about completed. The whereabouts of the General is unknown in England, but it is believed he has left Cape Town.

A despatch from Pretoria, via Cape Town, which is taken to be authentic in London, says that General Buller started in on Thursday morning with his concentrated forces to attack Ladysmith. It is reported that some of the Boer forces got within 1500 yards of the British camp, when the Boers stopped, using big guns, and rifle fire commenced. It is believed that the reason that the artillery guns ceased cannonading was the fear of Buller shooting his own men. The result of the attack, it is thought, was indecisive, as it would have reached Ladysmith before.

Later speculation is that the reason the Boers are so close to Ladysmith is that the many of the Free State troops have gone to their own territory to meet an attack of the Basutos, who are said to be on the warpath. Another story is that the reason the Boers are entrenched so closely to Ladysmith is that they are short of ammunition for their big guns.

Further details regarding the bombardment of Ladysmith are given in a despatch from Mafeking. It is stated that the Boers used eight guns, but their shells were ineffective. They had dug trenches within range of the town, and Col. Baden-Powell, to worry them in their work, sent out a party under cover of darkness, under Capt. Fitzpatrick, who made a magnificent bayonet charge on the enemy in the trenches. In this move six British were killed, but the Boer losses are estimated at 100. Capt. Fitzpatrick was among the wounded. The British could not hold the trenches, and returned to Mafeking under fire. Another violent attack was made by the Boers, but when the Boer dug trenches within range they were forced to retire with heavy losses.

Already 3227 troops have been landed from the transports at Durban, and five additional troops are en route from Cape Town to that town. The fact that the Britannic was sent to East London is taken to mean that General Buller has sent enough men to Durban to carry out his plans for the relief of Ladysmith.

Since Friday last 10,000 men and nearly 15,000 horses and mules have arrived at the Cape of Good Hope to reinforce the Imperial army.

The cable between Mozambique and Lorenzo Marques, broken a couple of weeks ago, has been repaired.

A related despatch from Fort Tull says on Friday, Nov. 3, the Boers shelled Col. Spreckley's camp, but no one was killed. An officer and five troopers, reconnoitering the enemy's force, are missing from Spreckley's camp.

# MUST NOW TRUST TO BULLER.

## His Whereabouts Unknown, but His Plans for Advance From Durban Are Complete.

London, Nov. 16.—(5 a.m.)—The most interesting and, in fact, the only news of the war now comes from the western frontier, the accounts of Col. Baden-Powell's brilliant exploits at Mafeking forming quite lively and encouraging reading. French war is quite novel in Boer tactics, and some curiosity is evinced as to who may be directing and as to what is still to be shown.

Nevertheless, both at Mafeking and Kimberley, conditions seem altogether favorable. So far as Natal is concerned, the British must possess his son in patience and trust to General Buller.

## The Basutos on the War Path.

Related despatches from Ladysmith, dated Nov. 7, tell of a languid bombardment and a native rumor that the Basutos are on the war path, which is supposed, according to one correspondent, to have had the effect of inducing some of the Orange Free State troops to abandon the siege and return to their own territory, and also to be accountable for the slackness of the attempts on the Ladysmith defenses.

Another correspondent says it is reported that in the attack on the Free State forces at Dewpond the Boers had 300 in killed and wounded.

## With Kimberley Withdrawn

It is reported that the Free State burghers are tired of the affair, and are going home should prove true, the fact would be most important, as their retirement would probably compel Gen. Buller to withdraw northward.

The statement that the Boers are expected to be driven to the east.

# GERMAN LIFER PATRIAS AS OF LIFE REFFER.

## The Passengers Were Saved in the Nick of Time by a Russian Steamer, Some Only Half Clothed.

# Captain and Crew of the Burning Vessel Behaved With Admirable Coolness and Bravery, and the 50 Souls on Board Were Saved From Panic.

London, Nov. 15.—The Hamburg-American steamer Patria, Capt. Frolich, which left New York, Nov. 4, for Hamburg, and was due to arrive yesterday, is on her way to Dover. All the passengers were rescued and have arrived at Dover.

## A Timely Rescue.

The Russian steamer Ceres sighted the Patria, showing signals of distress and demanding immediate help, about 12 miles off the coast yesterday. The liner was enveloped in smoke. Putting on full steam the Ceres soon reached the Patria, and sending a boat, learned that Capt. Frolich was in urgent need of assistance.

The boats were got out and with great difficulty all the Patria's passengers, numbering 150, were transferred to the Ceres, which proceeded for Dover, where she arrived just before midnight.

## Francis H. Prescott, the United States Consul in Dover, was immediately notified and he consulted with the harbor authorities, who arranged to send out the harbor tug Lady Viga, which brought the rescued ashore. Among the saved are many ladies and children, as well as six babies in arms.

## No Time to Dress.

The hurry of the rescue was indicated by the fact that most of them were developed in blankets only. They were rapidly distributed among the hotels or sent to the Salvation Army, and everything possible is being done for their comfort.

According to interviews with some of the passengers, which indicated the fact that most of them are American citizens, who have come for a vacation in Europe, they were on the deck of the Patria, Wednesday morning, when they were informed that a disaster was about to befall them.

The crew, according to several passengers, were very brave and heroic. They do not seem to have been in any danger, but they were very busy in their efforts to save the passengers.

There was very great excitement among the children, but the example set by the crew had a calming effect upon the passengers.

The boats were promptly got over the side, the crew working as if they were at drill. The safety of the infants and the children was the first consideration.

## There Was No Panic.

Although everything was carried out under the most adverse conditions thanks to the great coolness of the captain and crew, there was no panic, all the passengers being gotten into the boats in a very short time. The scene was strikingly one, with some touching aspects, as husbands and fathers parted from their wives and children.

TEN PAGES—THURSDAY MORNING NOVEMBER 16, 1899—TEN PAGES

SHE IS GIVING HER LIFE BLOOD.

RAIN: A few narrow, mean souls have called me disloyal—but, God help me, look at the list of the dead.

# AN ITALIAN'S SKULL HACKED LOAN COMPANIES UNITED. MAN MURDERED AT FOREST

## St. Alexandre, Que., Greatly Agitated Because of a Case of Attempted Murder.

Shareholders of the Union Loan and the Building and Loan decide to amalgamate.

# VICTIM IN A DYING CONDITION

## His Assaulters Supposed to be Countrymen of His Own—Bad Blood Had Existed.

New company will be known as the Toronto Mortgage Company—Walter Gillespie, Manager.

Following in the lead of the Canada Permanent and others, the shareholders of the Union Loan and Savings Company and the Building and Loan Society decided yesterday for joint forces. The vote was carried by six-sevenths of the entire list of shareholders, and when the Government sets its seal to the Toronto Mortgage Company, as the new company will be known, it will start operations with a capital of \$1,000,000.

By means of the shrinkage of two staffs into one and the reduction of the present capital 30 per cent., larger dividends are expected.

The manager of the Toronto Mortgage Company is to be Walter Gillespie, with headquarters at the Building and Loan office on Broad-street.

The new directors are: Dr. L. W. Smith, W. McInnes, Clark, F. J. Ryan, J. M. Somerville, C. S. Gzowski, T. Gilmour, G. M. Rae, J. C. McGee, H. E. Yates.

The meeting is called for the early part of February.

# PRETTY EXTENSIVE FAILURE.

## Lefebvre & Co., Vinegar and Preserved Fruit Firm, Have Made an Assignment.

Montreal, Nov. 15.—(Special.)—Michel Lefebvre & Co., St. John's and Montreal, vinegar and preserved fruits, have assigned to the assistance of Amedee (agmon), with a capital of \$100,000.

The assets comprised the largest collection of stock in trade here and at St. John's, book debts and real estate. The largest order was for 1000 cases of Dime Brand, 1000 cases of Maple Brand, 1000 cases of Beehive Brand, 1000 cases of Bannockburn Brand, 1000 cases of Canadian Bank of Commerce Brand, 1000 cases of Ryan, 2000 cases of Lefebvre, 1000.

The Lunatic at Large, the most mirth-provoking book that has appeared in many a day.—Globe. Booksellers all sell it.

## For Men and Women at Dinners.

As an interesting complement to the "special" furnished overcoats for \$50 at Dinners for men, there is a special display this week of foreign-made fur novelties for ladies, comprising the newest Parisian fashions in fur scarfs, ruffs, collars and capes, made by one of the leading Parisian furriers. The entire importation was bought on by Mr. Dinners on his arrival in New York on Monday, and the price at which these articles are offered at Dinners this week are less than it would cost to produce them. The designs are all in the most advanced styles, most of them exclusive, so that it is not likely their duplicates will be seen anywhere this season. The fur combinations and effects in some of these French capes are as unique as they are fashionable.

## Mealy Jones was a study in heredity.

From his mother's side he inherited wide white starched collars, and from his father's side a burning desire to spit through his teeth.—Court of Boyville.

## Nearly a Bad Accident.

Yesterday morning a prominent stock broker, while getting off a car at Toronto-street, slipped and fell heavily. He was stunned for a few moments, but on being assisted into Ed. Sullivan's, he revived and was taken to the hospital. He is now recovering. The popularity of this water is now assured. Telephone eight-three-five-ten and order a case.

## Cure a Cold in a Few Hours.

Dr. Evans' Invasive Gripe Capsules. No buzzing in the head, no griping, money refunded. Bingham's Pharmacy, 100 Yonge-street.

Try Glencairn cigars—5c. straight.

# WHITNEY REPLIES TO HON. G. W. BOSS

## The Premier's Speech at the Dryden Nomination Was Sharply Criticised.

# MIS-STATEMENT CORRECTED

## That Financial Inquiry Will Be a Farce—Employ to Sit as Critic of His Master.

# BRIBE HELD OUT TO HASTINGS

## Timber Policy of the Government Was Forged on Them by Conservatives.

Whitney, Nov. 15.—(Special.)—The large music hall in this town was crowded to the doors this evening by an enthusiastic audience to hear Mr. J. P. Whitney expound the policy of the Liberal-Conservative party in regard to provincial politics. The hall was smartly decorated with Union Jacks and copious mottoes, and a large picture of Her Majesty the Queen was placed in prominence in front of the stage.

"Whitney, Calder and triumph," "Welcome J. P. Whitney, our coming Premier," and "Put an end to the threshing machine" were some of the most conspicuous of the notices.

The gallery and some of the front seats on the ground floor were filled with ladies, who manifested the greatest interest throughout the evening's proceedings.

## On the Platform.

In the platform were: Dr. McGillivray, J. L. Smith, John Burns, J. B. Dow, J. H. Long and Dr. Warren of Whitby; Capt. Dillon, C. W. Scott, P. H. Punsford, Dr. T. E. Kaiser and Mr. Thomas of Oshawa; Wm. Smith, ex-M.P., of Columbus; Dr. Moore of Henshale; Arthur Johnston of Pickering and many prominent Reformers occupied seats in the body of the hall.

## Cheers for Mr. Whitney.

Blazing cheers greeted the appearance of Mr. Whitney and Mr. Charles Childer, the candidate of the Conservative party for the Local House in the approaching bye-election in this riding, and they were escorted from their hotel to the hall by the Oshawa Brass Band and the officers of the local Conservative Association.

The chairman, Mayor Rutledge, lost no time in opening the meeting, and in marked

Continued on Page 4

# THE YUKON OUTPUT.

This is the dead season in the Klondike country, and as a consequence most of the prominent men of Dawson City are now in the east, and at the present moment quite a colony of them are gathered in the miners' corridor of the Queen's Hotel. The most careful calculation that can be made of the gold output of the Yukon country this year is between \$10,000,000 and \$17,000,000, and this amount is based on the returns to the Government, and the various trading companies, and the banks. This amount is under and not over the production. From what gentlemen who are competent to judge say, the output next year will be at least double this, and the prospect is that only a beginning has been made in the way of gold production in the Canadian Yukon. But it is also a fact that the American side of the boundary is now being extensively prospected and developed, and that a very large output will be reported from that district hereafter.

# Dates Not Fixed.

Hon. G. W. Boss, asked by The World last night, when the bye-elections would be held, said: "The date has not yet been fixed. I don't know myself when they will come off."

## Have you read The Lunatic at Large, the cleverest and wittiest book of the year? Booksellers all sell it.

# Fair Weather.

Meteorological Office, Toronto, Oct. 15.—(P.m.)—Since last night pressure changes have been very rapid. The depression which was then over the lake covers the Gulf of St. Lawrence, and another disturbance is moving quickly into the Northwest Territories from British Columbia. Showers have been fairly general from the Lakes to the Atlantic.

Minimum and maximum temperatures: Victoria, 48-54; Kamloops, 46-50; Calgary, 24-28; Qu'Appelle, 38-38; Winnipeg, 28-32; Port Arthur, 40-46; Toronto, 36-38; Ottawa, 28-34; Montreal, 24-30; Quebec, 24-28; Manitoba, 22-22.

## Lower Lakes and Georgian Bay.

Fair, not much change in temperature; Friday, easterly to southerly winds; Saturday, southerly to westerly winds; Sunday, cloudy to fair; not much change in temperature.

Lower St. Lawrence and Gulf-Fresh westerly to northerly winds; cloudy to fair; not much change in temperature.

Martine-Fresh westerly to northerly winds; local showers at first, then generally fair; not much change in temperature.

Lake Superior-Wind shifting easterly to southerly and gradually increasing to fresh or strong breezes; fair; stationary or a little higher temperature.

Read Oak Hall's advertisement on page two to-day. It tells of a very moderate price for men and boys.

## The Lunatic at Large—a side-splitting comedy in prose. Booksellers sell it.

THE TORONTO WORLD. ONE CENT MORNING PAPER. No. 82 YONGE STREET, TORONTO. Daily World, \$3 per year. Sunday World, in advance, \$2 per year.

A LIVE ISSUE FOR THE BY-ELECTIONS. The World showed yesterday that the present question of greatest importance to the people of Ontario concerns their rights in connection with the trolley lines already laid down, or to be laid down, on the Queen's highways all over this province.

The above is in substance the position the World has taken in regard to these trolley lines and is the platform which we think is in the interests of the people at large, and without which there will be no protection and preservation of the Queen's highway for the use of the Queen's subjects, and which, if not adopted, will bring about the alienation of the roadways and the creation of a new monopoly, greater than any before existing in this country.

And now to apply the above to the existing situation. By-elections are to be held in five or six constituencies in Ontario, to new Premier and his Ministers have to go before the people and state their policy. So also have the candidates of the Opposition. So also have the candidates of the two parties in the various ridings. The World therefore will take a stand on the above lines of policy of the leaders and of their candidates on this supreme issue. No man, we say, is worth returning to the Legislature who will not pledge himself on the above lines of policy.

LIBERAL CHICKENS COMING HOME TO ROOST. Extract from "The Official Report of the Liberal Convention," held in Ottawa on June 20-21, 1893. Hon. Sir Wilfrid Laurier: "Our first duty is to arouse the people to a sense of their immediate danger, and the immediate danger is the tariff which now oppresses Canada. There is, as you well know, a universal consensus of opinion among all classes, nay, among all parties in this country, that the tariff which now prevails in Canada is a burdensome tariff, that it is an oppressive tariff, and that what is known at one time as the N. P. has been found to be a fraud and a failure."

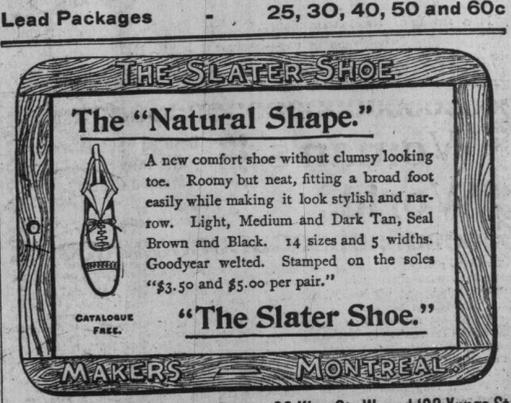

"DEATH IN THE POT."

"Death in the pot." That sentence condensed the story of a tragedy. A little family gathering. A fine dinner cooked in the large copper kettle long disused, and the entire family poisoned by the accumulated veridigis. The story told by the newspapers from one town to the land to the other. But it was soon forgotten. The moral of it is, that the purest of food, put into a foul vessel, instead of ministering to life may become a minister of death.

The Metropolitans and the City. Editor World: Your very able article in today's World on public rights in general and highways in particular, with general approval, and in view of the present state of things concerning the Metropolitan Railway, and an interchange of running rights between that railway and the Toronto Railway, now is the time to deal not only with that particular question but with larger questions affecting the regulation of trolley railways and the protection of the public collectively and individually, in respect of the public highways.

ABOUT SLATE CREEK CAMP.

Reached by a Climb over the Summit of the Cascade Mountains on Horseback.

ELEVATED GOLD QUARTZ BELT.

Chief Features of a High Grade Zone—The Mammoth and Eureka—Grand Prize and Ninety-nine.

Pacific Mining Letter No. 25, relating to Slate Creek Camp in the Cascade Mountains.

Winthrop, Wash., Oct. 26.—I have just paid a flying visit to a remarkable gold-bearing camp situated in the State of Washington, near the summit of the great Cascade range of mountains.

Another route is via Sicamous, on the main line of the C. P. R., or Greenwood, on the Columbia and Western extension of that road.

After visiting the Okanagan Free Gold Mines, near Oro, in Okanagan County, and the Palmer Mountain, in British Columbia, I both described in preceding letters, one is both described in preceding letters, one is both described in preceding letters.

The Chilly of a Deserter's City. A sight here beheld by the traveler will not be readily forgotten.

High Grade Ledges. Speaking generally, the masses of Slate Creek carry high values, and if the deposits "go down," the camp should make a name for itself.

The Mammoth Mine. Practically the first property under development to which the visitor comes on his entrance into the camp is the Mammoth mine, and is now under development.

Results of First Clean Up. As timber is plentiful and convenient, fuel is not a serious problem.

Getting Ready for the Winter. At the time of my visit the company had pretty well got in the supplies for the winter.

At the Eureka Mine. Near the summit of the great Cascade range, about 1000 feet above the Mammoth group.

A Chimney of Ore. After completing the shaft the company started a tunnel lower down the side of the mountain.

Another Stamp Mill. The Eureka Company is now installing a 10-stamp mill which will be used for the treatment of 50 tons of ore a day.

Dr. C. T. Sanden, 140 Yonge St., Toronto. Office Hours, 9 a. m. to 6 p. m.

silver mining town, and thence the road continues over the divide between the Okanagan and Methow valleys, and 55 miles distant from Concoquilly, Winthrop, a place consisting of a store and an hotel, is reached.

Slate Creek Camp. Robinson City lies at the foot of the main range of the Cascades, and within 12 or 13 miles of the Canadian boundary line.

Robinson City is connected with Slate Creek Camp by means of a 16 or 18 miles trail, leading one up the eastern slope of the Cascades, across the elevated summit and down the western slope of the same.

A climb of about five hours on horseback carried me from the foot of the mountain to the divide between the two ranges.

The elevation and isolation of the Slate Creek region lead one to ask how it was ever found, and the answer is that it was discovered, like many other camps, by prospectors.

Speaking generally, the masses of Slate Creek carry high values, and if the deposits "go down," the camp should make a name for itself.

The Mammoth management has considerable ore blocked out between the two tunnels, besides a couple of small veins on the outside.

A Five Stamp Mill. The ore on the Mammoth is whitish gray in appearance and carries a high percentage of iron.

private and customs work. Mr. W. L. Williamson is manager of the Eureka. The third stamp mill was some time ago erected on the Mountain Goat, another Slate Creek property, which was built on a ledge 12 inches to 4 or 5 feet in width.

Two Tunnels and a Winze. The chief development work on the property consists of two tunnels, one of which is 1200 feet long, and another is 100 feet long.

The Mammoth would seem to constitute an easy tunnel proposition, and a third working of this character from the level of the creek four hundred feet above the level of the creek.

MARVELLOUS SALE OF BOOKS.

So rapid a sale of books it is safe to say has never before taken place as is now going on in connection with the Encyclopaedia Britannica supplied by THE NEWS EDUCATIONAL DEPARTMENT.

EIGHT TONS—16,000 Pounds

of Encyclopaedia Britannica in cloth binding was actually received, and on Wednesday night only five sets of these books remained unshipped.

The delay in filling cloth orders has been brought to an end, but it will be impossible to get enough sets to fill any more orders for half morocco and sheep binding for at least a week or ten days.

The demand for these books is simply enormous. More than sixty orders were received last week alone, and the interest is increasing all the time.

Sets can be seen at the Bain Book Store, 96 Yonge Street.

The News Educational Department, 96 Yonge Street, Toronto.

Please send me description of your Encyclopaedia Britannica offer.

Only Ten Cents a Day.

COPPER STOCKS. If you are interested in mining shares remember that the Copper Stocks are those that have paid the biggest dividends.

These are native copper mines on the south shore of Lake Superior. The Superior Gold and Copper Co. has a rich native copper location on the north shore of Lake Superior with ore which competent authorities say is equally as rich as any of the above mentioned mines.

PEANUTS WHEAT MARKET

Opened Lower in Chicago on Disappointing Cables.

Very Little Selling Pressure on the Market—Corn Rather Erratic—Good Cash Demand for Oats—Provisions Dull, but Steady—Latest Commercial News.

Wednesday Evening, Nov. 13. Wheat opened 9/16 to 1/2 lower in Chicago today on lower Liverpool cables, which came as a surprise. The market took an upward turn toward the close, December closing at 17 1/2 and 17 1/4.

Liverpool wheat futures were weak to-day, closing 1/4 to 1/2 lower than yesterday.

Wheat receipts at Minneapolis and Duluth to-day were 681 cars, against 773 a week ago and 1080 a year ago. Car receipts at Chicago were: Wheat 33, corn 213, oats 103.

Stocks of wheat in store at Port William on Nov. 13, 1,405,514 bushels, an against 1,257,240 bushels on Nov. 6 and 1,041,293 bushels a year ago.

Exports at New York to-day: Flour, 1062 barrels and 11,961 sacks; wheat, 47,590 bushels.

The corn crop of the world is estimated at 2,470,000,000 bushels, against 2,419,000,000 bushels in 1928 and 2,249,000,000 bushels in 1927. The crop outside of the United States was 414,000,000 bushels this year, 495,000,000 bushels in 1928, and 347,000,000 bushels in 1927.

The aggregate grain crops of the world, as estimated by the Liverpool Corn Trade News, are as follows: 1929, 9,864,000,000 bushels; 1928, 10,000,000,000 bushels; 1927, 12,249,000,000 bushels; 1926, 9,220,000,000 bushels; 1925, 9,224,000,000 bushels.

Leading Wheat Markets. Following are the closing prices at important wheat centres to-day:

Table with columns for location (Chicago, New York, St. Louis, Toledo, Detroit, Duluth, Minneapolis) and price (cash, Dec, Mar).
