FRENCH MAKE BIG HAUL OF PRISONERS IN DRIVE ON AISNE GENERAL HAG'S TROOPS MAKE GAINS FLANDERS DRIVE FAILURE OF HUN EFFORTS TO RECAPTURE GROUND LOST

75,000 PRISONERS ARE TAKEN IN NEW DRIVE BY FRENCH

DETERMINED HUN DEFENCE FAILURE

German Lines Penetrated North of the Aisne to a Depth of Two Miles—Many Prisoners, Guns and Villages Taken in Swift, Dashing Offensive—Hun Casualties Heavy, is Official Report From Paris.

Paris, Oct. 23.—In one of the swiftest and most dashing blows of the war, the French troops today smashed thru the German lines north of the Aisne to a depth of more than two miles at one point, inflicting heavy losses on the enemy and capturing more than 75,000 prisoners and 25 heavy guns and field guns. Several important villages also fell into the hands of the French according to the war office announcement tonight.

The text reads: "North of the Aisne the attack which we launched this morning developed under extremely difficult conditions. Despite mist and rain, our troops attacked with admirable tenacity and the machine gun organizations of the enemy which were defended by the best troops of Germany, supported by heavy artillery.

"In their first dash our soldiers captured the line indicated by the dotted line on the map. A village of Prusy and Doenay. A little Malmison Fort, in the centre fell into our hands.

"Pushing their advance still farther, our troops, after a desperate engagement, in which they gave proof of their irresistible speed, drove the enemy out of the quarries of Mont Parnasse, which had been partly crushed by our big shells.

"On the left our progress was continued with the same success, the villages of Allemand and Vudesson remaining in our power. Prisoners on the right of our troops carried their line on to the heights dominating Parigny-Vilain.

"Finally in the centre, our troops drove fresh enemy reserves helters-skelter, and captured in a violent struggle the village of Chavignon. At this point our advance reached a depth of three and a half kilometres (about two and a half miles).

"The enemy losses in the course of the day were large. In addition to these inflicted on him by our artillery preparation. The number of prisoners counted up to the present exceeds 75,000. In the enormous amount of material captured we have counted 25 heavy and field cannon.

"Notwithstanding the unfavorable weather, our aviators carried out with success the missions imposed upon them, their machines flying fifty metres above the line.

TELLS OF A GERMAN PLOT TO LAND ARMS IN IRELAND

London, Oct. 23.—In the course of a speech in the house of commons today, Premier Lloyd George declared the government was aware that arrangements were being made, partly by Count von Brestorf, to land arms in Ireland.

In discussing his motion in the commons deploring the government's policy in Ireland, John Redmond said he was convinced there was a serious danger of destruction of the Irish convention if the policy at present pursued by the Irish authorities was continued.

Addressing the house, H. E. Duke, chief secretary for Ireland, said that last February the British Government had deported prisoners from the Ireland because Germany was again offering a helping hand to the Sinn Fein.

Mr. Duke declared that the recent troubles in Ireland had arisen because the convention was doing well and the Sinn Fein leaders wish it to fail. He said the government intended to do its utmost to prevent criminal acts with such intention.

GERMANS FAIL TO RECAPTURE GROUND LOST

British and French Consolidate Practically All Their New Positions.

ATTACKS BREAK DOWN

Three Separate Counter-Drives of Huns Meet With Total Repulse.

London, Oct. 23.—In Flanders both the British and French troops are holding the gains made in Monday's drive northeast of Ypres, except at one place on the southern fringe of the Houthulst Forest where the Germans in a furious counter-attack forced a slight retirement by the British.

Field Marshal Haig's report from the Flanders front says: "In addition to the hostile attack reported in this morning's communiqué, the enemy delivered two other counter-attacks yesterday evening. In one case the enemy's troops attempted to advance along the line of the Westroosebeke-Poelcapelle road, but when some two hundred yards from our new positions they were engaged by our infantry with rifle and machine gun fire and beaten off with losses. As the survivors endeavored to withdraw they were caught by our artillery barrage and again suffered heavily."

"The second attack was delivered immediately north of the Ypres-Staden railway in complete darkness. Here also the enemy's troops were met by rifle and machine gun fire and driven off."

"Early this morning another hostile attack against our positions in the Houthulst Forest, northeast of Veldhoek, was completely repulsed, prisoners being left in our hands. A less serious attack against one of the fortified farms captured by us yesterday southeast of Poelcapelle was equally unavailing."

"During the day the artillery was active on both sides along the battlefield in spite of the unfavorable weather."

An Associated Press despatch from the British front, under date of Oct. 23, says:

"The well laid line established in Monday's limited attack astride the Ypres-Staden railway was intact Tuesday morning with the exception of the loss of the village of the Houthulst Wood of one fortified farm from which the British were forced to fall back Monday evening when the Germans delivered a heavy local counter-attack."

"Monday's operations may now be recorded as a success, and while only limited objectives were sought, their attainment has greatly improved the allied position."

It was hard fighting at numerous points and the Germans lost heavily, especially in the region of Poelcapelle. Large numbers of enemy dead were reported Tuesday morning lying in front of the British advanced position.

The fighting was especially heavy near the point of junction of the German defences on the outskirts of the wood with the British line. The German positions were strongly entrenched, but the British, attacking determinedly with machine guns and rifles. At one point north of the Ypres-Staden railway, the British advanced positions were unable to maintain the most forward positions reached because of the violent enfilading artillery fire. The main line, however, was today well north of the strong line of German positions which skirted the outlying copse of the wood.

Monday night the British and French troops were active on Tuesday morning, doing much to offset the effects of the recent few days of sunshine.

SINN FEINERS WORK FOR SECESSION OF IRELAND

British Premier and Irish Secretary Denounce Treasonable Activities of Organization—Say It is Co-operating With German Leaders.

London, Oct. 23.—In the house of commons today Henry E. Duke, chief secretary for Ireland, said that last February the British Government had deported prisoners from Ireland because Germany was again offering a helping hand to the Sinn Feiners. Mr. Duke was replying to John E. Redmond, leader of the Irish party.

Mr. Redmond said he was convinced that there was as serious danger of destruction of the Irish convention if the policy at present pursued by the Irish authorities was continued.

The secretary did not complain of the action of the Sinn Feiners, but felt that all the action taken by the administration in Ireland was justified. The Irish convention, he declared, was a working demonstration of the fact that, if given a fair chance, Irishmen could administer their own affairs.

Treatment of Sinn Feiners. He defended the Irish policy generally, and pointed to the unprecedented magnanimity with which the Sinn Feiners had been endeavoring to stir up a revolt had been treated. Dealing exhaustively with the seizure of arms and the death of Ashe and the Irish volunteers, he said that for a period running into months there had been steady organization in every parish in Ireland and to an obvious extent in the large towns of the new forces—the Irish volunteers—a rebel force. These organizations had been told: "We have a considerable store of arms and shell have more before the fateful day arrives."

Prof. De Valera, the new member from Clare, was quoted by the secretary.

ASQUITH SEES END OF IRISH PROBLEM

London, Oct. 23.—Ex-Premier Asquith, speaking on the Irish question in the house of commons today, expressed the belief that within a few months a scheme of Irish government, sanctioned by a majority of the Irish people, would be presented to parliament.

ARTILLERY ENFILADES

British Sweep Away Fresh Enemy Divisions in Brilliant Advance.

By R. T. Small, Staff Correspondent of Associated Press.

British Front in France and Belgium, Oct. 23.—The advance of the entente allies yesterday northeast of Ypres has developed bitter fighting along the southern edge of the Houthulst Forest, confirming statements made by German prisoners that the enemy is determined to hold this wood at all costs because of the effective screen it offers for artillery work and for other operations behind it.

The enemy's defences opposite the British in this section have offered most strenuous resistance, and the British have been forced to fight hard for every foot of ground they have taken. Their advance has been made in the face of grueling machine gun fire from numerous pill-boxes. In addition they have been heavily enfiladed from two directions by German artillery stationed on high ground northeast of the forest and beyond Poelcapelle.

Fresh Enemy Troops. The Germans had strengthened their infantry line in this region and had replaced many of the tired troops with fresh divisions. Three of these divisions fought determinedly to retain their hold.

The French share in Monday's fight was small, but what they had to do they did well and quickly, reaching all their objectives in a little more than three hours of fighting. The front involved is approximately 1,000 yards south of the Houthulst Forest. The old French line north of Manglewaere had taken a bend at a place known as Jean Bart House towards the southeast and had run on down by the eastern side of Veldhoek to join the British line.

Line Straightened. In yesterday's operations the French swung a thousand yards of their extreme right flank northward, advancing more on the right than the left. This straightened out the line, and it corresponded to the British advance. Generally speaking the French did not meet with hard resistance. There were numerous trench positions and pill-boxes in this section over which they moved forward, but the Germans were holding the line thinly here.

The main trouble came from the machine guns, and the pill-boxes temporarily were held up on their center by a heavy fire from enemy pill-boxes. This delay, however, was brief, and the French stormed their

GERMANS WANT PEACE BEFORE WINTER

REVOLUTIONARY SPIRIT GROWS

Washington, Oct. 23.—An Italian workman interned in Germany since the beginning of the war has escaped thru the Alps to his own country, with a report that the German people want peace and expect it to come in November. Official dispatches received here today tell the man's story, according to which the Germans have abandoned hope of victory which the Germans have threatening to leave the factories if the war continues another winter, and the civil population generally is living under terrible conditions. He said 500 soldiers attending a circus at Essen were killed at one time by bombs of allied aviators.

BRITISH EMBASSY GIVES OVER SWEDE POUCHES

Mail Seized at Halifax Will Not Undergo Examination at Washington.

Washington, Oct. 23.—The British embassy today decided to deliver to the Swedish legation, without examination, the three mail pouches seized at Halifax several weeks ago and claimed by Sweden to contain only statistics relating to its import and export trade called for by the war. The pouches were taken from the steamer Landholm, the head of the new Swedish mission, and the seizure has been the subject of much diplomatic correspondence.

FRENCH TROOPS STILL KEEP UP THEIR VICTORIOUS ADVANCE

Attack, Launched on a Six Mile Front, Sweeps Aside German Defence and Badly Mauls the Crack Troops of the Enemy.

With the French Armies in France, Oct. 23.—(By the Associated Press)—The French troops this morning fought one of the most cleverly executed and most brilliantly executed actions of the war. More than one thousand prisoners belonging to the famous Fifth Prussian Guards were taken and the French still continue their victorious progress.

The battle opened before dawn along a nine-kilometre front from the neighborhood of Lauffaux, about the neighborhood of Vauxaillon, to La Royere Farm. Amid inky darkness the French troops left their trenches and with a terrific barrage fire from the most powerful concentration of

GOVERNMENT FILLS FOUR SENATE POSTS

J. D. Taylor of New Westminster Secures Appointment—Five Other Vacancies.

Ottawa, Oct. 23.—It is announced that four of the nine senate vacancies in the western provinces have been filled by the appointment of Dr. P. I. Schaeffer for Manitoba, W. J. Willoughby of Saskatchewan, and Col. J. D. Taylor and G. P. Barnard for British Columbia. It is understood that these appointments are made in pursuance of arrangements consummated before the union government was formed. There are still remaining five vacancies in western Canada, one each in Manitoba, Saskatchewan and British Columbia, and two in Alberta. It is also anticipated that these will be filled in the immediate future.

UNION GOVERNMENT

The country is in a much better frame of mind since union government came into life; a lot of the dread that the public had of a bitter general election has been modified, and the two parties are actually trying to get together instead of sitting up at night devising means of snuffing one another.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

THE French, suddenly invigorated, shifting the scene of action from Belgium to the region of the Aisne northeast of Soissons yesterday, captured a salient of strong positions six miles long and two miles broad, making 7500 prisoners.

This latest advance threatens to duplicate the feat of capturing the Chemin des Dames. The French are striving to take from the Germans the high ground in the region northeast of Soissons, so as further to dominate the enemy lines of communication.

The French thrust, in respect to the whole allied front, is an attack against a section of the German centre. The heavy fighting for some time past has been proceeding on the allied left wing, forcing the Germans to make a large concentration on the Belgian coast and in the region thereabout.

Except for a single fortified farm in Houthulst Forest, the British army in Belgium has maintained all its slowly-captured positions. The Anglo-French artillery has begun a strong flanking fire against the Germans in the wood. The advance enables the allies to direct their fire from two sides, the northern and the southern.

If the Russian estimate of German losses, totaling two dreadnoughts, one cruiser, twelve torpedo boats, one transport and numerous minesweepers in the Gulf of Riga, is correct, then the Russian fleet has decidedly the best of the fighting. The German fleet, moreover, let its principal objective, the Russian fleet, escape from it.

way thru these positions and penetrated into the outlying copses on the edge of the forest. There was virtually no enemy artillery brought to bear against the French, and this probably was due to the effective use by the French of gas shells in counter-battery work.

Two German field guns which the enemy had abandoned some time ago were taken. The French losses were very slight.

The ground was in a terrible state. The week of fair weather, which had dried up the mud considerably, again forced upon the British the necessity of forcing once more to advance across ground in which they became bogged at every step.

Counter-attacks. The Germans delivered two counter-attacks against the British troops in this section. The first, at noon, developed along the Ypres-Staden railway, and as a result the British were forced to relinquish a slight strip of ground which their advanced outposts had reached.

FIREMEN STIRRED UP OVER PENSIONS

Meeting of Deputy Chiefs Held to Discuss Position of the Fund.

Despite assurances given the board of control that the men of the fire department were willing to stand an increase in their payments into the benefit fund from two to seven per cent of their salaries, the younger men of the department say they will leave the basis before they will stand for such increase under the present conditions.

As far as I am personally concerned I will never pay seven per cent. I have been in the fire department for 25 years and I have never seen a man who has paid more than five per cent. I do not think it is fair to ask me to pay more than five per cent. I do not think it is fair to ask me to pay more than five per cent.

TWO SINN FEINERS ARRESTED IN U.S.

Agitators Taken Into Custody on Eve of Departure for Ireland.

New York, Oct. 23.—Liam Melloyne, one of the recognized leaders in the Sinn Fein rebellion in Ireland on Easter Monday, 1916, and an associate, Baron Dr. Max von Recklinghausen, a German subject, are under arrest in this city, it was announced today by Wm. J. Flynn, chief of the United States secret service.

Melloyne was charged with obtaining false passports enabling him to leave the United States as an American seaman.

Van Recklinghausen has been turned over to federal authorities for internment during the war. He is declared to have been an intimate associate of Sinn Fein, a statement issued by Flynn said papers found in Von Recklinghausen's rooms and on his person show definitely that large sums of money had gone forward to France for ultimate German purposes.

Melloyne was arrested Monday night in possession of the passport made out in the name of "Patrick Donnelly," and which it is declared he intended to use in returning to Ireland.

After failure of the Irish revolution last year Melloyne made his way to the United States by shipping as a coal heaver, according to Flynn's statement. Secret service agents had him under surveillance shortly after his arrival and learned of his association with Dr. Patrick McCann, known by the Sinn Fein in this country as "the first ambassador to the United States of the Irish Republic."

CHISHOLM LEAVES FIELD TO MEWBURN

Liberal Nominee for East Hamilton Withdraws From Contest.

Hamilton, Ont., Oct. 23.—The impressive haze which for the past month has enveloped the political situation in Hamilton was pierced with a ray of light today when the resignation of James Chisholm, who for the past two years has been the Liberal nominee in East Hamilton, was announced.

Major Chisholm, who for the past two and a half years has been the Liberal nominee in East Hamilton, was announced to have resigned his position in favour of Sir Robert Borden's union cabinet.

The special railway committee's rejection of the compromise suggested by Sir John Hendrie, lieutenant-governor of Ontario, was announced today when the hearing is resumed tomorrow afternoon.

What Matters the Bleakness of Autumn Outside When Comfort and Charm Such as This Embellish Our Life Indoors?

FURNITURE NEW IN VOGUE BUT OLD IN DESIGN—QUAINT OLD-TIME PIECES OF CABINET-MAKING THAT HAVE COME TO MAKE THE MODERN ROOM ATTRACTIVE

A perfect joy to the man, woman or child of a tidy disposition is this new bureau-wardrobe, known as the "Chiff-Robe." Notice the two splendid drawers in the base, waiting to hold furs, waistcoats, petticoats, gaiters, woolly caps, scarfs, etc., etc., and behind the doors in the cupboard above is a series of tray-like shelves for lingerie, neckties, neckwear, sashes, blouses, veils—any dainty and airy belongings that must not be crushed. Moreover, the shelves pull out for your easy access to them. The Chiff-Robe of the sketch is, as you see, in William and Mary design. Constructed in black walnut of beautifully rich brown tone, the interior is lined with walnut, and the handles are antique brass. The price is \$47.50.

If your bedroom is without a sturdy little table like this, you are missing a lot of comfort. It slips into a small space beside the bed, and holds lamp, clock, book, glass of water—all the things you like to have close at hand. If a telephone is numbered among the conveniences of the room, such a stand is a necessity. This particular table in the sketch is in black walnut, of thoroughly reliable construction and beautiful finish. The price is \$9.00.

For solid comfort in reading or resting in the privacy of your own sitting-room, let us commend a Chaise Longue of the type our artist has sketched above. It has all the ease afforded by all-over upholstery of a high order, and is designed, as you see, for the complete relaxation of shoulders and limbs. Very popular it is, too, in the well-furnished bedroom—for the hour in which the owner thereof slips into her dressing-gown and indulges in "forty winks" or a quiet read. For the semi-invalid it is a positive boon. Covered in green denim, it is \$35.00, and in tapestry, \$52.00.

Back into high favor comes the Day Bed—a close relation of the couch upon which Madame Recamier gracefully reclines in her most famous portrait. In the ceremonious drawing-room it acts as sofa or settee. In the living-room of the flat or small house it goes a step further in its usefulness, and plays the part of bed when the arrival of guests calls for extra sleeping accommodation. In fact, in the bedroom which must serve, too, as sitting-room, it is a prime favorite, serving regularly, as a couch by day and a bed by night. As shown in the drawing above, it is of dark mahogany, the coil spring mattress and the bolster pillow covered in willow blue Chinese repp. The price is \$45.00.

When one of King George's predecessors took a fancy to this rung-back chair in a cottage he was visiting, and carried it off to Windsor Castle, he introduced a fashion for which we are all loyally grateful. For what a simple, satisfactory little chair it is—strong, comfortable, ready to slip into any environment almost, and prove an acquisition. In bedroom, sitting-room, living-room or den it is equally at home. In the Furniture Building the Windsor chair may be had, as illustrated, in mahogany or black enamel. Price, \$5.50.

And to Royal influence, too, do we owe this nice little sewing table directly above. 'Twas Queen Anne and her sister Mary, wife of King William, who introduced the feminine, domestic note into furniture-making. They were devoted to needlework, and this sewing-table is a faithful copy of an old William and Mary design. It may be had in either walnut or mahogany, with two drawers, and drop-leaf sides—a special value at \$15.00.

A quaint little conceit, isn't it—this writing table contrived in the semblance of an old spinet? And withal how practical it is, for notice the drawers and pigeon-holes. Moreover, the writing "bed" draws out to a goodly distance, providing ample scope and elbow room. It is made of mahogany, constituting a charming little desk for bedroom or drawing-room. The price is \$44.00.

Little Talks on Modes and Makers.

CAN YOU picture a library with curtains drawn, and logs crackling cheerfully on the hearth—pictures the bookshelves in the glow and shadow of the firelight, the big comfy arm chairs, the table laden with more books, the dark-framed etchings and engravings—can you picture a room like this, such a room as makes home the dearest place on earth? It is for the library of this alluring type that we look to the rugs from Turkestan, in Central Asia—the Bokhara, the Khiva or the Samarkand—to play a worthy part.

Someone has likened the Bokhara to a Rembrandt or Van Dyck painting, and verily, with its dim, mellow browns and luminous glints of ivory, it suggests the old Dutch masterpiece. As you will see by the accompanying sketch, it is a formal, geometric design—the pattern in the centre consisting of an octagonal figure repeated many times, with a little diamond shaped motif filling in the spaces between. The border usually shows the same figures in miniature. The color of the ground is invariably a rich mahogany red, with the octagon and diamond worked out in deep blue, white and an occasional touch of orange. The Bokhara is one of the easiest of all Oriental rugs to recognize. Khiva or Afghan rugs bear a close family likeness to the Bokhara. Their centres show the same octagonal figures on a larger scale. They are much coarser in weave and the ground is a much darker red. Samarkand rugs (Samarkand is one of the principal cities of Russian Turkestan) are likewise distinctive in design. Their patterns show a marked Chinese influence, the centre usually red, with yellow and blue in the borders and in the quaint detached figures. They are rather loosely woven—with a short nap. As you look for Oriental rugs for your house you will surely run across these—the Bokhara, the Khiva and the Samarkand. The Scribe.

If Your Rooms Need Re-papering

If you are intending to paper or re-paper your rooms, you will avoid all bother of taking measurements and calculating cost by having one of the decorators from the Wall Paper Department do it for you. Notify the department by telephone or postcard, and a man will be sent to your house for the purpose. For which service no charge is made.

KAZAK and KIRMANSHAH RUGS AS DURABLE AS THEY ARE LOVELY—AND SURPRISINGLY MODERATE-PRICED

"Kazak" is a word that will settle almost any problem that deals with the covering of a hall floor. It is another form of "Cossack"—which gives you a good idea where the rug comes from that is thus named, and which hints at the colors in its bold, clearly defined pattern: red, blue, ivory and dark Russian green. It is a Kazak of this rich coloring on the floor in the sketch above—an ideal rug for any hall, corridor, sitting-room, living-room or den that receives hard, steady wear. Kazaks may be had in sizes ranging from 4 ft. 6 in. by 6 ft. 6 in. to 6 ft. by 9 ft., priced from \$75.00 to \$150.00.

Here you have a Kirmanshah, one of the loveliest products of the Persian looms. Perhaps you were not aware it could be had in sizes for small rooms. But a collection of small Kirmanshahs is one of the present attractions of the Rug Department—rugs of beautifully silky sheen and delicate, feathery pattern. They show the characteristic medley of green, blue, ivory and rose—ideal for drawing-rooms and bedrooms. The average size is 4 ft. 6 in. by 6 ft. 6 in., prices running from \$65.00 to \$125.00. —Fourth Floor, James St.

The old Refectory Table called back from the Middle Ages to serve in the twentieth century living-room! And right well does it perform its task, providing a substantial, dignified support for reading-lamp, books, magazines and other appurtenances of the family sitting-room. This table in the drawing is not only Early English in design, but the mellow brown oak of which it is composed is antique in finish. Furthermore, beneath the top of the table are "leaves" that may be drawn out at either end, thus extending the length by three or four feet—in event of extra space being needed for work or a game. The price is \$120.00. —Furniture Building, Cor. Albert and James St.

ASK FOR THESE CUMBERLAND PRINTS IF YOU WANT SOMETHING EXTRA NICE IN CHINTZ.

And last but not least, this third Cumberland print, showing big purple and rose petals and gay-plumed birds on a buff or amber ground—a stately and fascinating chintz for some large living-room with dark oak or heavy mahogany furniture. Like the others, it is 32 inches wide, and \$1.50 a yard. —Fourth Floor, Centre.

Here is that chintz in the soft shades of brown for which you may have been looking for a long time. For attractive brown chintzes are some-rosy-checked pomegranates for its motif, deep purple plums and big, shaggy brown leaves. And you may have it on a pale buff or warm amber background. The width is 32 inches, and the price \$1.50 a yard.

Let the Shopping Service Help You

If you live out of town, or for any other reason cannot come to the Store to purchase any of the furniture, rugs or chintzes described on this page, address your order to the Shopping Service, and it will be selected for you and sent to you at once. If you want advice regarding the furnishing of your house, the Service will be glad to help you. Take advantage of it.

Three Federal Ministers Outline Program to Regina Audiences.

BORDEN'S SINCERITY

Canada Must Mobilize Every Atom of Manhood and Womanhood.

Regina, Sask., Oct. 23.—Regina paid distinct tribute to the three federal ministers of the new union government, who were here tonight, bringing the message of the union government to the people of this Saskatchewan. People from all over this Saskatchewan were present at the Regina meeting. An overflow crowd was assembled in the first Baptist Church, and while the listeners heard one speaker after another, the other crowd was strict attention to another.

Each one of the three men who have come west to spread the gospel of the union government in Saskatchewan, Hon. James A. Calder, Hon. Arthur Meighen and Hon. T. A. Crerar, made it extremely plain that the union government was formed for the first time in the history of this country, and that the war was the first step toward the reconstruction period immediately after the war.

Both Mr. Calder and Mr. Crerar united in praising the sincerity of Sir Robert Borden in the negotiations looking toward the formation of the union cabinet. All three speakers stated that Canada was in danger and had special stress upon the fact that the war was not yet over, nor was it nearly completed. They exhorted their hearers to become united in this war for a defensive standpoint in the great struggle which is being waged by every atom of the manhood and womanhood of Canada this country's part in the great struggle which is being waged to a great degree.

Mr. Calder, in opening, said that he was bringing a message to western Canada, telling the people here what it all means. He changed the subject to the union which prevails in Canada as being the reason why union was not possible before. The loyalty of some people in connection with the war was bitterly criticized.

Reasons for Joining. Mr. Calder stated the reasons for the formation of the union government. First and foremost, it was believed that Canada's part in the war was not being carried on only through a government which was devoid of party affiliations. Secondly, it was formed in order that the Military Service Act, now on the statute books, might be enforced. He defended the selective conscription act and stated that the United States did not delay until their system of raising men once they entered the war.

The speaker said that had not a union government been formed the conscription would have been one of the bitterest in the history of this country. The bitterness, he said, would have been the conscription of wealth in the hands of the few, and the conscription of the poor in the hands of the many. He stated that the conscription of the poor would have been a disaster to the country.

Hon. Arthur Meighen, minister of the interior, while speaking to a large crowd at the First Baptist Church, asked his hearers to support the union government. A satisfactory verdict at the next election," said the speaker, "would show our boys at the front beyond comparison."

Cosy Chesterfields and Fireside Chairs

We've entered the season for evenings at home—and, naturally, we want these evenings to be just as happy as possible. The answer is—provide that most important room in the house—the living room—with a goodly supply of comfortable places in which to sit.

We suggest, for instance, such a CHESTERFIELD as that depicted above. It invites you to rest, to tuck comfortable cushions behind your back, to settle down for pleasant hours of reading or companionship. This Chesterfield, well upholstered, priced at... \$90.00

Fireside Chairs

Equally comfortable is the cosy, softly-upholstered chair which you see to the left. It is priced at \$22.50. Other fireside chairs are to be had in countless variety. Let us show them to you, some day soon.

A Convenience to Shoppers

It may interest you to know that we have in our Drapery Section an experienced staff of decorators, who can give suggestions for the complete or partial refurnishing of any room on the shortest notice. Our showrooms are so arranged that we can set up and show a complete color scheme, including Floor Covering, Wall Decoration, Draperies and Furniture Covering suggestions, in order that the prospective client can readily see and judge the complete effect of any room. Special attention is given to this end of the business in the Kay Store. Estimates furnished free of charge.

POLITICAL NOTES.

With Senator Robertson and Hon. A. K. Maclean sworn in as members of the privy council the union government is pretty well completed. Mr. Burrell will probably retire in the near future, and indeed we understand he will not contest a riding at the coming election. No doubt his successor will come from British Columbia, where the political situation at present seems to be somewhat chaotic. Senator Robertson being a labor man, it might be surmised that Hon. T. W. Crothers would soon retire. But Mr. Crothers' constant and widely known support to the union government, and the minister responsible for the O'Connor riot is not a man to be lightly dropped in the middle of a campaign.

The western ministers are having a royal reception in the west, and indications point to almost a clean sweep for the forces of union government in Manitoba and Saskatchewan. In Alberta there will be more of a fight, and the Non-Partisan Farmers' League will place several candidates in the field. The league includes laboring men as well as farmers, and is quite strong in Calgary. Indeed, there is a possibility of two independents being elected from Calgary to the next parliament.

There are bound to be a number of independents in the next house. It would not be surprising to see a socialist returned from North Winnipeg or Vancouver. Several labor candidates will run with a fair show of success in eastern Canada, and we imagine that some grain growers will be returned from the west, who will support the union government loyally on every war measure, but hoe their own row on economic issues.

Hon. J. A. Calder will receive an acclamation from the Conservative City of Moose Jaw. W. E. Knowles, Liberal, and J. H. Mahabag, grain-grower, have withdrawn in his favor. Dr. Clark will be nominated today as the union government candidate for Red Deer, but will have to fight for his seat against W. E. Puffer, Liberal. Hon. A. L. Sifton is to be the government candidate in Medicine Hat, and will probably be the government candidate in Lethbridge.

A despatch from Winnipeg states that the parliamentary seats in the prairie provinces have been allocated by the government on a fifty-fifty basis. In nearly every riding it is anticipated that the union government will achieve an easy victory.

CONVENTION AT BRANTFORD

Brantford, Oct. 23.—The Liberal-Conservative of South-Brant have called a convention for Saturday night of their members, which will be held at Brantford, to nominate a union government and win-the-war candidate.

ASSESSMENTS CUT ON KING STREET

Prince George Hotel, Mail Printing Company and Mrs. Stone's Property.

OTHER REDUCTIONS

Court of Revision Upholds Assessment Made on Many Other Properties.

Owners of King street property between Bay and Simcoe streets were prominent before the court of revision yesterday, and in many cases substantial assessment reductions were granted. Among those given reductions were: The Prince George Hotel, Mail Printing Company and Mrs. Stone on property at 196 West King street.

The court of revision confirmed the assessment of the Arena Gardens, Limited, 60 Mutual street. The assessment is \$207,175. Harry Nixon stated that the bond issue was \$300,000.

"There has been a loss of \$44,000 during the past four years," said C. E. Huston, who represented the company. "It is a bad issue, but I do not think we can help you," said the chairman.

L. V. Duissau, provincial ranger of the Catholic Order of Foresters, appeared against the business assessment of \$2,350 on the order's office at 62 Bond street, contending that the business was all done from the Chicago office. The court, however, decided that the office was in Toronto.

The assessment on the Prince George Hotel was reduced by \$83,900. The land assessment on that property, extending from 115 to 139 West King street was reduced from \$115,000 to \$105,000 a foot. Two hundred feet of the hotel property between Bay and Simcoe streets was reduced from \$250 and \$175 to \$125 a foot, making a total on the York street property of \$14,000.

Fifty-seven feet of King street was reduced from \$185 to \$120 a foot. A. W. Carrick was given a reduction on his property at 168, 170 and 172 Bay street, from \$200 to \$180 a foot.

The business assessment of A. W. Roffe, who occupies part of the building at 172 Bay street, was reduced by the court, as Mr. Roffe contended that the work was purely of a religious nature, from which no profit was derived. He stated that a prayer meeting was held there every Tuesday noon. No outside printing was done except for religious purposes, and the office expenses, he said, were met by voluntary contributions. The assessment amounted to \$1420.

The lessee of the property opposite the city hall at 27 1/2 and 29 1/2 West Queen street, John H. Hyland, said that the assessment of \$2500 a foot was too high. Harry Nixon said that it was leased on the basis of \$4000 a foot. The lessee admitted that he had paid too much for the property. Mr. Carrick's, he said, was ten feet deeper, and this he reckoned to be worth \$30,000. This, he stated, would mean between two and three thousand a year to his theatre. The assessment was reduced from \$2500 to \$2400 a foot.

Jacob Cohen appealed against the assessment of \$56,417 on the Municipal Hotel at 87 West Queen street. He said that the building was assessed too much, but he had no complaint against the city's assessment. He thought the assessment on the building should be split in two.

"If the hotel is one of business you are not so busy in the police court," said Mr. Ardagh. "The assessment was reduced from \$22,000 to \$22,800 on the building. The Mail Printing Company was allowed a reduction of 20 feet of its land at the northwest corner of King and Bay streets, from \$3750 to \$7500 a foot and of 30 feet from \$5000 to \$1000 a foot, thus reducing by \$53,000 the total assessment of \$337,000.

SUPPLY OF SUGAR

If Housewives Buy Judiciously There Will Be Enough. Toronto is like New York City in one respect today, and that is the lack of sugar in the United States retail shops displayed in many stores, "Out of sugar."

The cause of this is attributed to the Cuban Government, which, it is said, has granted quantities of this commodity, but which they are holding up for a high price that the Governments of Canada and the United States refuse to pay. Not for three or four weeks yet will this year's cane and beet crop be available, so it will be a wise housewife who uses her sugar sparingly for awhile.

"There need be no sugar calamity," said one merchant, "if the women will not lose their heads and try to buy up the supply. If they buy judiciously there will be enough for all until the new orders arrive."

WAR CABINET FOR DOMINION NAMED

efficient prosecution of the war so far as Canada is concerned. While the powers and duties of the committee will be of a very wide character, special attention will be given to the increased cost of living. "Undoubtedly," says the order-in-council, "this is chiefly due to causes which are beyond the control of the government, inasmuch as the withdrawal of more than 20,000,000 men from productive activities and the consequent increase in the cost of the necessities of life, nevertheless it is especially important that every means should be taken to alleviate conditions so far as may be possible. It is essential that the government should prevent any increase or inflation of prices thru hoarding, thru excessive profits or thru combinations. The steps already taken along these lines should be considered with a view to any further action, that conditions may demand."

Provision is made for the appointment of sub-committees to consider any particular subject requiring special investigation. The reconstruction and development committee will be a permanent committee during the progress of the war and will after demobilization, it will investigate the conditions of the Dominion, and it will consider a scheme of immigration and colonization in order that further production of food and agricultural products may be assured.

Coming to the problem of transportation, which will be dealt with by the executive committee, the order-in-council points out the probability that in the early future 2000 additional miles of railway must be acquired in the public interest.

The committee will also consider the future possibilities of air service for military purposes, and will advise the government as to the wisest methods of raising revenue and possible reduction in public expenditures. Questions of immigration and colonization of the land will come under review. The committee will take into consideration the importance of encouraging settlement among the troops engaged in agricultural production.

BIG SCOTCH CONCERT

Florence Mulholland has again been booked for the Scottish concert at Massey Hall, Thursday, November 1. Last year she fairly captivated the audience, and all lovers of Scotch music should be on hand to enjoy a treat. Next Baxter, Scotch comedian, from Boston, is also on the program; his humorous songs and stories are splendid. The assisting artists are James Elcho Piddis, Margie Murray, George Neil and Henry Milne, all of whom are prime favorites. Special sale opens at Massey Hall on Saturday, and early booking is advised.

TAKE FURTHER STEP TO ATTAIN HARMONY

Executive of Ward Four Conservatives Endorse Union Government. Compared with the last general meeting of Ward Four Conservative Association, that of the executive held last night in Broadway Hall was most successful and harmonious. There were three resolutions passed, the first being to appoint a committee consisting of Miles Vokes, A. R. Denison and Col. Brock, with full power to negotiate with the ridings association. The terms upon which these negotiations will be opened are that no officers of either association shall be on a committee to be formed, that both lists shall be brought into a committee of six members, exclusive of the secretary, that one list shall be compiled upon which the election of officers will be held. If there is any dispute it will be settled by the central association.

DISPUTE SETTLED

Another resolution passed had for its purpose the forming of a committee to select enumerators and prepare the new voters' list. One hundred and one men must be named for this work. The committee is composed of Ald. Russell Nesbitt, Miles Vokes, W. H. Smith, H. W. Saunders, and B. Stone. The final resolution was one endorsing union government. A. H. Birmingham gave an address on the Election Act, explaining the Franchise Act and other features.

HONOR ROLL UNVEILED

Ceremony Performed by Wounded and Returned Soldier. A grand patriotic concert under the auspices of the Adverser in which was held at College Street Baptist Church. A fine program was given by the church choir under Dr. Chas. J. Rodgers, assisted by the Misses Lena McLean, Mildred Walker and Lenore Hurd, and James E. Piddis. The president of the class, J. C. Eyster, was in the chair. A photographic honor roll of the young men of the Bible class was unveiled by Pte. W. Skilling, one of the members, who was unveiled before after having been wounded in scout work. There are 104 names on the roll, out of which 14 have been killed. A silver collection was taken which amounted to \$136.16. This money will be spent sending Christmas boxes to the boys at the front.

PLAYS, PICTURES AND MUSIC

"Nothing But the Truth." Anderson and Weber will offer William Collier, a comedian of known ability, at the Royal Alexandra Theatre for one week with the usual matinee beginning Monday evening, Oct. 29, in James Montgomery's stage version of Frederick Isham's work, "Nothing But the Truth." A young stockbroker, played by Mr. Collier, bets his partner \$10,000 he can be truthful for twenty-four hours. The money he bets belongs to his fiancée, who has raised it for charitable purposes. Complication after complication arises, and the young broker goes thru many trials in being a truthful young man, but finally wins the bet, also he nearly loses the girl of his heart.

Newspapers have spoken with acclaim about Jane Cowell's first appearance upon the screen in the lovable story, "The Spreading Dawn," and all who have witnessed the presentation at the Regent say the picture is a gem. It is the first rank among motion picture productions it stands out as a picture that will be remembered many a long day. The diary of a New York society belle in the early 60's is more interesting than might at first be supposed. Lucille Angiers, the mezzo-soprano soloist, is a singer of renown who adds greatly to the attractiveness of the program.

"The Golden Crook." "The Golden Crook," which comes to the Gayety Theatre next Monday, is said to include the largest number of bewitching characters ever seen in one company. There is one "best" in said season to set the pace that will be very difficult for other shows to follow. Chief among the fun-makers is Billy Arlington, and his well-known ability in that direction leaves but little room to doubt that he will tickle the risibilities of his admirers.

The headliner for the first half of the present week at the Strand Theatre is "The Varsity Faw," a fine Brady-World feature, with Gall Kane as its star, and today will be the last day of its showing. The feature is a splendid Laskey production featuring Fannie Ward, and possessing a story of universal appeal.

"A jug of wine, a loaf of bread, the wilderness, and Thee, were happiness enough for me." So, more or less, spake the Poet. By "Thee" he must have meant ARABELA --- the 4-for-a-quarter cigar.

Your Boy's Future

CANADA'S future lies in her young, developing boys. Priceless treasures are they to parents.

When these precious lads venture out on the streets they come to the parting of the ways. Remember that their impressionable characters are shaped on the streets as well as in the home.

It is perilous to leave their out-of-home development to chance.

There is one sure way to make certain that your home training will be not in vain. Let your boy

Join the Y.M.C.A.

Toronto Y. M. C. A.'s have sacrificed more than 2,500 young men for the front. Every one of this army of heroes enlisted entirely of his own accord. The Y. M. C. A. is doing a magnificent work. To do its best for Canada it must maintain its membership to capacity. The Y. M. C. A. needs you and your boy—you both need the Y. M. C. A.

So fascinating is the fun around Y. M. C. A. buildings that your boy will make a beeline to the "Y" every chance he gets.

Here he is under the watchful eye of trained men, who know boys and how to inspire and give them guidance.

Under a systematic course of training, now famous as the "Canadian Standard Efficiency Tests," your boy develops rapidly both mentally and physically. You know what that means to future health and success in life.

Under absolutely non-sectarian religious instruction he attains knowledge of the Bible. He learns about music, art and nature. He is educated in service to others.

Many, many things he learns which no school, no home training nor the street can give him.

Visit the nearest Y.M.C.A. See the big sparkling swimming pool, gymnasiums, reading-rooms and games. Our Secretaries heartily welcome visitors. Bring your boy and get full information. Boys enter at 12 years of age or after. Come!

One thousand Y. M. C. A. workers are calling upon Toronto men and boys this week. Be ready to join.

THOUSAND MEN MORE IN CONVALESCENT HOMES

Ten Thousand Patients on Strength of Military Hospitals Commission.

Ottawa, Oct. 23.—An increase of 1,000 patients in the convalescent homes and sanatoria of the military hospitals commission is reported between Oct. 1 and 15. During the quarter month ending Oct. 15 the increase was 835, making the total of returned soldiers on the strength of the military hospitals commission 10,102. No great increase is noted in the number of men fitted for treatment in sanatoria, the number of patients of this class being still under 1,200.

FREIGHTER VIKING STRANDED

Brookville, Ont., Oct. 23.—The big steel freighter Viking, owned by the Toledo Traffic Company, of Duluth and Toledo, laden with 57,000 bushels of wheat, from Port Arthur to Montreal, stranded near the entrance to Brookville Narrows this morning in a fog. The Viking is awaiting assistance. The damage is not sufficient to cause a leak. The boat and her valuable cargo are fully insured.

A Man and His Work

FORTY-THREE years ago Brantford was the scene of an epoch marking event.

A young man of 27 was experimenting with a human ear in order that he might construct an instrument to record the vibrations of sound.

Observing how, when he spoke into the ear, the thin membrane not only vibrated itself but caused the heavy bones of the ear also to vibrate, the thought flashed upon him—

"If this thin membrane of the ear can move bones relatively so heavy, why would not a heavier membrane move a piece of steel."

That was the thought in the mind of Alexander Graham Bell that led to the construction, a short time later, of the first telephone.

To-day at Brantford a beautiful memorial in Stanstead granite is being unveiled to commemorate the great achievement.

It is a far cry from the first crude instrument of forty odd years ago to the complex switchboards and elaborate equipment of to-day by which it is possible to speak across a continent, yet the same principle underlies both.

To-day, over the lines of the Bell Telephone Company of Canada alone, over two million messages will bear unconscious testimony to the merit of Dr. Bell's great triumph. His work as inventor of the telephone and his, perhaps, still greater achievements in teaching the dumb to speak proclaim him one of the greatest benefactors of the race.

EVERYTHING IN READINESS FOR BIG PLOWING MATCH

Some of the Most Expert Agriculturists on the Continent Gather at Brantford for the Great Event.

By a Staff Reporter.

Brantford, Oct. 23.—All arrangements have now been completed for what is expected to be the greatest provincial plowing match ever held under the auspices of the Ontario Plowmen's Association and the department of agriculture. Yesterday J. Lockie Wilson, secretary of the plowmen's association, J. S. McDonald, chairman of the tractor committee, and J. Beverley Robinson, farm editor of The Toronto World, motored to the grounds where the great event is to be held and made the final allocation of space for the power plowing by the tractors, an company with W. G. Bailey, proprietor of Oak Park stock farm. They also arranged positions for the tented city which is already more than half erected just inside the gate opposite the hydro-electric sub-station. The Brantford municipal street car line will stop at this point, convenient for those not traveling by motor car. Those who have motor cars will also drive in at this gate and will be directed to the free parking positions on the grounds by officers in charge. The cars will leave by another gate, thus averting confusion.

Many of the tractors have already arrived, and at least 20 are assured with prospects of 25. A forty-foot headland has been laid out so that there will be plenty of space for free passage of both tractors and spectators, as well as assuring a nice clear job of the plowing.

Expert Plowmen.

This power plowing will be done in a large field of grass which will provide a good test of those tractors which are not afraid of demonstrating their practical ability before the finest crowd of plowmen ever assembled in Ontario, which certainly included many of the most expert plowmen in the world.

For the walking plow contests over 50 plowmen have already entered in competition for the 45 prizes, including the Grand Challenge Trophy presented by The Toronto World, and the Ontario Junior Plowman of Ontario. These walking plow contests are all to be completed for on Thursday afternoon and will certainly be keen competition. Interest in this year's plowing

match is increased by the announcement that a special contest for Indians only is to be held for which there are four prizes donated. The entry list for this class is completely filled and a large number of Indians are expected from the Brant reservation to see their brothers tilling the sod. Indians have also entered in the other classes and the white men will have to look to their laurels as it is rumored that some splendid agriculturists are included among them. The Indian named Captain is one of the known plowing aborigines whose names are entered on the list.

Luncheon Thursday.

A luncheon for four hundred guests is to be provided on the grounds on Thursday by the farmers of Westworth County; besides this, hot dinners will be provided on the grounds by caterers. Cooking for these meals will be done by electric stoves using Hydro power, and machinery operated by the same will be seen on the farm. Check room tent for ladies will be found inside the gates.

Moving picture films will be taken by the government operator of the walking and tractor plowing, and these films will be shown all over the country at meetings of the various clubs and institutions affiliated with the Ontario Department of Agriculture.

Today (Wednesday) the Duke of Devonshire will be in Brantford for the unveiling ceremonies in connection with the Bell memorial, and it is expected that he will make a visit to the grounds.

Notable Speakers.

On Thursday evening a banquet is to be given by the manufacturers of Brantford in the Masonic Hall for 200 guests. Prizes will be presented to the winners who will then have the opportunity of showing the city men what kind of a human being an Ontario plowman really is. Some of the best speakers in the province are farmers. The banquet is called at 7 o'clock, and among the noted guests who are to be present and will address the gathering are: Premier Sir Adam Beck, Hon. Finlay Macdunnachie, Deputy Minister of Agriculture Hon. M. L. A. Col. Harry Cockshutt, Warden Ross, Commissioner Creelman, Scott Davidson, M. J. MacLachlan, J. Lockie Wilson and W. Wheaton.

GERMAN WAR CRAFT SUFFER HEAVILY

Russians Put Out of Action Many Units of Foe's Fleet.

TO LAND ON COAST

Enemy Manoeuvres in Order to Attack Allied Army in Rear.

London, Oct. 23.—The latest advices concerning the naval activity in the Gulf of Riga between the Germans and the Russians show that although the Russian fleet has been badly mauled and a large torpedo boat destroyer, the Germans were the heavier losers. Two of their dreadnoughts, one cruiser and numerous mine sweepers were put out of action by the Russian fleet. While the exact date of these vessels has not been ascertained by the Petrograd government, it is announced that at least six of the German destroyers were sunk.

Further German attempts to land forces on the Estonian coast to the north of Wenden have been repulsed by Russian detachments.

On the other fronts no important engagements are in progress, except in the nature of bombardments. On the Italian front the Austro-Italian theatre the artillery activity again has become intense. An Austrian attack with infantry in the Cadore region was repulsed by the Italians with heavy losses.

Germans Evacuate Trenches.

Petrograd, Oct. 23.—The war office announces that the Germans have evacuated more trenches on the northern end of the battlefield. They were occupied by the Russian Trenches. Major were taken by the Russians after an engagement.

Bit of Humorous Military Bluff.

A semi-official communication published in the Petrograd newspapers says in effect that the landing of the Germans near Wenden is regarded only as a military demonstration to cover up an enemy landing on the coast of the Riga Gulf, probably between Pernau and Hainisch. It is also said that the German retirement toward the Skull-Lemburg line is a manoeuvre to draw the Russian troops nearer Riga, with the intention of attacking them from the rear.

prize attacks, which were repulsed.

Admit French Advance.

Berlin, Oct. 23.—The German official statement from the general headquarters tonight says: "In Houthulst Wood (Flanders) the enemy has been completely driven out of the positions he captured yesterday."

Northeast of Soissons (Aisne) the bitter fighting also goes on on the northern slopes of the Chemin-des-Dames and on both sides of the Lecler road. The French have advanced there as far as Cheminon. South of Britain strong attacks failed.

Objective is Strong Fortress.

New York, Oct. 23.—The Associated Press war review says: "What may prove to be an operation of first rate importance was initiated early today in the Aisne region, northeast of Soissons. Along a front approximate-

HORRIBLE THREAT RECOILS ON HUNS

Zeppelin Disaster Follows Vow of Vengeance Against Allies.

Washington, Oct. 23.—Germany probably has now lost one-half of her most effective fleet of super-zeppelins, according to official cablegrams received here. All France is exultant over what the dispatches declare to be the greatest defeat administered to an air fleet since the beginning of the war.

The gratification is more intense because it is now known that the German raid was an attempt to carry out a fearful threat of vengeance made four days before. On that occasion the German Government sent out a warning to both France and England of dire punishment to follow what the Germans declared to be unwarranted and inhuman attacks by British and French aviators upon peaceful German towns. Reprisals were threatened in an official German communication, which in part read: "For every brick which falls from peaceful German homes whole rows of buildings will be overturned in Paris."

Summing up the extent of the disaster to the German air fleet, a French official report says that Germany altogether has constructed probably one hundred zeppelins, of which 15 were destroyed before the war. The losses previously officially reported by the

Forty-four Men Escape From Mopeha Island, Where Left by Raider.

Honolulu, Oct. 15.—(By mail.)—Forty-four sailors marooned on Mopeha Island in the South Pacific, following the capture and destruction of the American schooner R. C. Slade, Manila and A. B. Johnson by the German raider See Adler, were rescued Oct. 4 and landed at Tahiti seven days later, according to word received today.

The men were abandoned on the island when the raider, after the loss of the See Adler in a storm, sailed on the captured French barque Latécoe.

ORANGEVILLE RESPONDS.

Orangeville, Oct. 23.—The special collection taken for the British Red Cross here has resulted in a cash subscription amounting to \$1800. The committee in charge had an objective of \$1500, the same as last year, and is well pleased with the response of the people.

COCKSHUTT Light Tractor Plows

Pioneers in the power-plowing field and still the unanimous choice of governments and prosperous farmers everywhere. Watch for them at the big Provincial Plowing Match and Tractor Demonstration at Oak Park Farm, near Brantford, this week.

The Cockshutt is an ideal plow of two or three furrows. You can turn the one into the other at will. Bottoms are raised and lowered automatically—just by a pull of the cord.
