News of General Retreat Unconfirmed But The Serbs Have Lost Prilep Movement Towards Albania Expected—French Cabinet Minister Has Audience With Constantine

Paris, Nov. 19.—A Saloniki dispatch announcing the general retreat of the Serbs on the southwestern front, after the capture of Babuna Pass by the Bulgarians is without official confirmation, says a Havas despatch from Athens, filed yesterday. The only fact established is the evacuation of Prilep by the Serbs. The abandonment of Babuna Pass has been expected in Albanian military circles for several days, as it was not considered possible for the Serbs, notwithstanding their heroic defense, to resist a superior Serbian force. The Serbs probably will retire to heights between Prilep and Monastir, the inhabitants of which are taking refuge in Albanian and Greek territory. Large numbers have arrived at Florina, Greece, but the more well-to-do are going to Saloniki. The military governor of Monastir is reported to have appointed a committee of notables to preserve order, but it is feared it will not be possible to restrain the bands of irregulars in the environs of the city. The Serbian army is expected to retreat towards Albania. It is estimated here are 60,000 Serbs in the Monastir region opposed to more than 40,000 Bulgarians.

United States May Want Steel Herself

Talk of Embargo on Exports to Warring Nations—Needs It For Her Own Battleships

Washington, Nov. 19.—Congress may be asked to place a temporary embargo on exports of structural steel to the European belligerents in order to afford a sufficient supply of the metal for use in the construction of the two battleships, bids for which were opened at the navy department on Wednesday. This plan is suggested as a result of the disclosure that neither of the new battleships can be laid down before next summer, because of a lack of steel. The entire output of the American steel plants, it is said, has been taken by the warring nations.

TAKES UP MATTER OF OVER-CHARGING CANADIAN SOLDIERS AT SHORNCLIFFE

Montreal, Nov. 19.—A London cable to the Gazette says that grave dissatisfaction still exists regarding the over-charging of Canadian troops by Polish tradesmen. A letter was read at a meeting of the Polish Town Council, setting forth complaints made to him. He was strongly of the opinion that abnormal rates had been charged the Canadians by provision merchants and equipment dealers. He intimated that the Canadians should not be overcharged, and said he would devise means for protecting them.

DIPLOMATIC QUESTION OVER MATTER OF DRESSES FOR PRESIDENT'S BRIDE?

Paris, Nov. 19.—The newspaper 'Oeuvre' says that the Paris dressmaker's syndicate has black listed two American customers of German origin, one of them a man named Kurzmann, reported to have been commissioned to buy gowns for Mrs. Norman Galt, who is to be the bride of President Wilson. The newspaper avers that Kurzmann is threatened to raise a diplomatic question because the modistes' refusal to accept orders from him. L'Oeuvre declares, however, that each house from which he ordered gowns has offered to supply them with his compliments to Mrs. Galt, without having them pass through the hands of intermediaries. (A Paris despatch early this month said that Charles Kurzmann of New York was there to select gowns for the wedding of President Wilson and Mrs. Galt. He was quoted as saying that while it would be indiscreet to talk about orders by the Wilson family, before obtaining permission from the White House, he felt that "Washington" looked forward to a brilliant social season, after the wedding.)

These allegations have already been formally denied by the Austrian embassy here, and through the embassy by the Austrian foreign minister. ALL HELP IN THE WAR LOAN

Call to Canadians to Make it an Overwhelming Success

The following article by T. Kelly Dickson appears in this week's issue of The Financial Times. Every Canadian should try to make the domestic war loan an overwhelming success.

During the last sixteen months, Canada's method has made a splendid response to the call of the mother country in her desperate need. Canada, from a military point of view, is doing voluntarily, as is Great Britain, more than was expected by the continent.

But Canada has yet more to do, and this additional work is not confined to bomb throwing from trench to trench, nor to the manufacture of shrapnel or great guns, but to the accumulation of silver bullets.

Canada's immediate duty is to concentrate some \$50,000,000 to \$60,000,000 will be offered the Canadian war loan in many respects will be the acid test of Canada's patriotism, and of Canada's financial capabilities.

As Good As Had Cash The scrip of the domestic war loan will be excellent collateral, probably having a borrowing value approximately 95 per cent. of the par value.

prohibition because out of forty-eight states, eight have had prohibition long enough to give conclusive evidence and also because reliable statistics are available every year.

It may not be generally known that Canada has given for the extent to which it has been tried just as satisfactory results as in the United States. We have only one province, Prince Edward Island, entirely under prohibition but several others have had sufficient prohibition to show very definite results.

When we come to the statistics of drunkenness and crime they give a smashing blow to the traffic in liquor. In 1913 Nova Scotia had 8.0 convictions for drunkenness per thousand; British Columbia had 21.3.

The criminal record is still more remarkable, the last census report gives the following convictions for crime per ten thousand populations: Prince Edward Island 1.1; New Brunswick 3.8; Ontario 25.5; Manitoba 27.9; Alberta 40.1; British Columbia 42.1. These figures show that the wettest provinces have nearly forty times as many convictions for crime as the driest one and the convictions decrease with the amount under prohibition or local option.

WEAK AND TIRED WOMAN

Tells How Vinol Made Her Strong

St. John women who are weak, run-down and suffer from the consequent effects of such a condition, will be interested in Mrs. Odell's letter. She says—

"I am a farmer's wife, and was all run-down, weak, tired, and suffered from indigestion, and sometimes it seemed as though I could not keep around my household. I had taken many medicines without benefit. One day I saw Vinol advertised and made up my mind to try it. I have taken four bottles and have gained seven pounds weight, am stronger, and feel many years younger than before." Sarah Odell, Lockport, N. Y.

The reason Vinol builds up weak, run-down women so quickly is because it contains a delicious combination of the three most successful tonics, peptonate of iron to enrich and vitalize the blood, the strength-creating, body-building elements of fresh cod liver without oil, and beef peptonate.

"We want to say to every weak, run-down, overworked woman in St. John that we will return your money if Vinol fails to help you as perfectly as Mrs. Odell's letter says. Vinol is sold at Rose Drug Co., Ltd., Wasson's Drug Store, St. John, N. B.

YOUNG WIFE ACCUSED OF MURDER OF HUSBAND

Edmonton, Nov. 19.—Way Weisny, a farmer, thirty years old, who lived at Downing in the Edmonton district, is dead, and his wife, about ten years younger, is accused of murdering him.

The evidence given at the coroner's inquest was that a quart of long standing beer had been caused by Weisny's visit to a neighboring widow. Last Saturday morning the husband reached home at three o'clock and another quart of beer was given him. The wife charged him with inebriety. The wife testified at the inquest that her husband threatened her. After being driven from the house she returned with an axe and in the scuffle inflicted injuries on him, causing death. They had been married seven years and had two children. This makes the seventh murder in the Edmonton judicial district in a month.

A PSALM OF KNITTING.

(With Apologies to Longfellow.)

Tell me not with mournful sighing,
"Knitting is an awful bore."
Hear the feet of soldiers crying,
"Knit us socks to wear to war."

Knit with ardor, knit in earnest,
With a pair of socks your goal;
A ball thou art, to ball returned,
Was not written of the wool.

Neither theatre nor concert
Is permitted to us now;
But to knit and so to expert,
Then to tell all others how.

Work is slow, and time is fleeting,
And our hands, though swift and light,
Seem like leaden weights while knitting
Socks our soldiers wear to fight.

With four needles, bright and shining,
And the wool so warm and light,
Turn the heel without repining,
And toe-off, 'tis easy, quite.

Trust no needle, how'er lengthened,
Lest it let the stitches slide,
Watch with eyes by practice strengthened,
Or the loops may not abide.

Socks of great men all remind us,
We can all experience gain,
And when finished, leave behind us
"Very little of the skin."

Knit your socks, that some poor fighter,
Proving he's no shirking blighter,
Wearing, may take heart again,
With a care to make sockets firm.

Let us then be up and knitting,
With a care to make sockets firm.
Still keep toiling, unremitting,
Learn to labor and to knit.

A Beauty Hint

The new treatment for tender skins

ANY people with tender skins have been misled by the superstition that washing the face with soap and water is bad for the complexion. One authority says, "The layer of dirt and fat that such persons accumulate on the skin is a poor substitute for a clean, clear skin and is a constant invitation to various disorders." The following treatment with Woodbury's Facial Soap is just what a tender skin needs to keep it attractive and resistant.

Just before retiring dip a soft washcloth in warm water and hold it to the face. Do this several times. Then make a light warm water lather of Woodbury's and dip your cloth up and down in it until the cloth is "huffy" with the soft, white lather. Rub this lathered cloth gently over your skin until the pores are opened and thoroughly cleansed. Rinse the face lightly with clear, cool water and dry the skin by patting, not rubbing, with the towel.

Use this treatment persistently for ten days and your skin will show a marked improvement—a promise of that loveliness which the steady use of Woodbury's brings to a tender, sensitive skin.

A 25c cake of Woodbury's Facial Soap is sufficient for a month or six weeks of this treatment. Get a cake today. It is made in Canada and is for sale by Canadian druggists from coast to coast.

WHO STANDS ASIDE?

About the most contemptible wretch in Canada today is the man who gives thought only to the means by which he may enrich himself out of the war. At a time when tens of thousands of men are offering their lives, and when the very existence of the country is at stake, when the appeal to all that is highest and best in human nature is more urgent and compelling than ever before in our history, and when there are so many tasks of supreme importance to be performed, the man who not only withholds his personal support but regards the nation's tragedy as his opportunity for gain is of all men the most to be condemned.

It is welcome news that the new hospital for advanced cases of tuberculosis will be opened next month. Now to fill the ranks of the 118th and 140th. St. John is especially interested in the 118th Battalion. Lord Lansdowne told the country yesterday that this was no time to talk of peace. The Allies, he said, had entered upon a great struggle and intended to carry it to a successful issue.

Those who heard Sir George Foster speak last evening can be under no delusions concerning the peril in which the British Empire stands today. His position as a member of the government of Canada gives the opportunity for more complete knowledge of the situation than is afforded the people at large. He asserts, however, with the fullest confidence that the Allies can win if all the people do their full duty.

There are two great issues in this war. Democracy is fighting for its life against military bureaucracy, and what is even more important, the champions of honor among the nations, of the sacredness of treaties, and of the rights of the smaller groups of people on the earth, are contending against a power which would trample upon the rights of the weak, and make political expediency the justification for wholesale murder.

In the house of commons yesterday Austin Chamberlain said that the loyalty of India as a whole has been proven. The only trouble has been caused by outside agitators, and a few extremists. In northern India the people themselves put an end to an agitation fomented by an anti-British association which has its headquarters in the United States.

to world welfare and the future of our civilization, were brought into clear relief. The sense of the personal responsibility of Canadians, and the vital relation of the war to all their future lives was pressed home, and the fact also that it was only a matter of geographical position which saved Canada from the fate of Belgium. With relentless logic Sir George Foster made it clear that he who dodges the issue and refuses to accept his share of the burden is alike false to himself and to his country.

LT. G. E. FAIRWEATHER TELLS OF CRATER "SCRAP"

Returned From Attack Covered With Blood Which Was Mostly Not His Own

(Sussex Record.) New Brunswick is proud of the work of the 26th Battalion at the front and Sussex people among the rest are justly so of their own townsman, Lt. G. E. Fairweather, whose name has appeared so prominently in recent despatches and letters of late in connection with the crater incident in which he figured so conspicuously.

Belgium, Oct. 28, 1915. Dear Mother:— We came out of the trenches last night and into a warm billet with a nice fire and lots of grub. Not that we do not have fire and grub in the trenches, but I must say there is a certain amount of satisfaction in coming out of a very wet trench and sitting down to a good meal without much danger of seeing the whole outfit go up in the air when a shell hits the kitchen.

CATARH LEADS TO CONSUMPTION

Catarh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.

When we came back from the attack I was more or less covered with blood which was mostly not my own, and they said I looked very fierce indeed, but I only got a scratch from a bomb splinter which hit me in the cheek and caused a slight wound and contusion which is now entirely healed. Most close now and will write you soon.

Speaking Boldly. A Virginia farmer was driving a rearing cow down the road, and a cow and driver came to a cross road. The man wanted the cow to go straight ahead, but the cow picked out the cross road. A colored man was coming along the crossroad.

HINTS FOR THE COOK

Cinnamon Buns. One-half cup butter or any shortening, 1 cup sugar, yolks 2 eggs, 1/2 cup milk, 2 cups flour, 1 1/2 teaspoons baking powder (rounding), 1 teaspoon cinnamon, 1/2 teaspoon salt, 1/2 cup currants or small seeded raisins, dredged with flour.

Corn Cakes. One half cup sugar, 1-3 cup of butter, 8 eggs; cream all together, add to 1 1/2 cups milk, 3/4 cups corn cake mix, the prepared kind. Bake in deep cups.

Cream Pie. Four eggs, 1 cup sugar, 1 level cup sifted flour, 8 tablespoons sweet milk, 2 teaspoons cream tartar, 1 teaspoon soda. Beat yolks and whites of eggs separately then together, add the sugar, then the flour, stir soda and cream tartar into milk until it foams and add to mixture. Lastly, stir in small handful of flour. Bake in 2 round layer cake tins. Whipped cream or apple cream for filling.

GARDEN ON HILLSIDE. Little Stephen Leichman, a twelve-year-old Cincinnati school boy, wanted a garden. And because he wanted this garden very, very much, his little heart was filled with deep sorrow. For he had no spot in which to plant his seeds—he had no ground in which conventional garden could flourish.

True, Stephen had a home, but the home—in the utterly irresponsible manner of some homes—was set precariously on the side of a hill. The hill was so steep that when it rained large portions of it had a truly awful habit of sliding down mudily onto the Leichman kitchen terrace. It is no easy matter to make a garden on a steep hillside, especially if the surface of said hillside has a horrible habit of sliding away.

Stephen has made his garden by terracing the hillside. Because there are evidently a great many rocks in Cincinnati he has built up the side of the terrace with the one he extracted from the hill, thereby making a firm foundation that the rain would not wash away, and also removing all hard substance from the soft, rich dirt that he wanted to plant his crops in.

Looking up from below, the hillside is reminiscent of a rocky mountain slope with little or no vegetation on it; but on looking down you see a strip of garden three feet wide crowning each terrace. On each of these terraces he raises a different vegetable: beans, cabbages, beets, lettuce and corn being the most important—Christian Herald

GERMANY IS NOT NEAR STARVATION

But is Reduced to Status of Besieged Fortress

SEMI-OFFICIAL STATEMENT

Shortage of Fodder, But Enough Food to Last a Year—Government Will See Food is Uniformly Distributed

London, Nov. 19.—Replying to reports of "famine" in Germany a semi-official denial is published in the Frankfurter Zeitung. The newspaper admits that Germany has been reduced to the status of a besieged fortress, but says that successful steps are being taken to defeat the enemy's policy of starvation.

As is well known in the case of the pigs at the beginning of this year in the mistake of our potato supply seemed dangerously short, we slaughtered 9,000,000 swine, stored the meat...

HAD SALT RHEUM ON HANDS. Could Not Do Her Work.

Eczema or salt rheum is one of the most common of all skin diseases. It may centre its attack on any part of the body, but there are certain places where it most usually begins, such as the hands of the elbow, the backs of the knees, the groove behind the ears, the scalp, on the palms of the hands, between the fingers, or on the soles of the feet.

It is, as a rule, not dangerous, but is very irritating and annoying to the sufferer on account of the terrible itching and burning sensation it causes. It is impossible to eradicate this trouble from the system by external applications, as it is caused by the blood being in an impure state. What you need is a good blood cleansing medicine such as Burdock Blood Bitters. A medicine that will drive out all the foulness from the blood and make it pure and rich.

refrigerators and converted it into tinned provisions. In the meantime the totally unexpected happened. The declaration of our pig stock was almost fully made up by the natural increase of our cattle stock, which was somewhat reduced by slaughter, but not dangerously so.

NAPOLEON AND THE KAISER

Every day resemblance between Emperor Napoleon and the Kaiser grows stronger. In 1810 France stretched from the confines of Naples to the Baltic, Holland and Hanseatic towns having been in the latest additions. It was possible to travel from Lubek to Rome without passing outside the boundaries of Napoleon's domain.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arrow from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

Masterly Exposition of War Situation by Sir George E. Foster; And The Duty of Canadians

In the three greatest factors of war—financial resources, man power and munitions—the Allies are now superior in two and equal in the third, that of munitions, and would soon be superior in all.

Sir George E. Foster, in a closely reasoned and verbally finished speech of nearly an hour and a half's duration, sketched first the gains and losses of the enemy and then of the Allies.

Then the enemy, especially Germany, had lost a vast colonial territory, over one million square miles of territory.

After the Lusitania Colonel Wanted Fight

Roosevelt Actually Began Raising Corps and Believed He'd Soon Be in Flanders

London, Nov. 18.—Sidney Brooks, in a cable to the Daily Mail from New York, tells of an interview with Theodore Roosevelt, whom he says he has never known to be so vehement on any subject as he is on the United States' inaction in the present war.

"As a matter of fact," he says, "the former president feels so strongly about the situation that he would have been glad to go to Europe, when the Lusitania was sunk and American intervention seemed inevitable, it is a fairly open secret that the former president made instant preparations for raising a force of about 15,000 men on the lines of his old rough riders regiment.

The general, colonel, majors and some of the captains were actually selected, and for his adjutant-general, Sir Edward Pickens, a man long known to me as one of the ablest officers in the United States cavalry.

"Every detail had been covered and the former president calculated that within three months after the declaration of war he and his men would be in Flanders. To forego that dream has been one of the bitterest disappointments of his life."

HE MADE THREE TRIPS INTO A GERMAN SAP

London, Nov. 18.—A distinguished conduct medal has been granted to Private A. H. V. Wythe, of the 5th battalion, for conspicuous gallantry, resource and coolness on Oct. 8, at Messines, where he entered a German sap with an officer, and shot two Germans.

On Oct. 17, Private Wythe went for the third time into the enemy's camp, accompanied by two others, and secured further useful information. This little party retired only after ten bombs were thrown at them by the Germans.

BUSINESS METHODS FOR THE BRITISH GOVERNMENT

London, Nov. 18.—In well-informed financial circles a persistent rumor circulates that the government will fill the vacancy caused by Mr. Churchill's resignation by bringing Sir John Holden into the cabinet and giving him a free hand to deal with the business end of the war, especially by preventing unbusinesslike methods which a first rate business man would be able to remedy.

LAST NIGHT'S WAR CABLES

London, Nov. 18.—The attitude of the Entente Allies toward Greece from which country they are endeavoring to get a definite guarantee for the safety of the French, British and Serbian troops, and the whole military policy in the Near East, including the Dardanelles, will be expected, he made clear before the end of the present week.

The council at Paris, in which British and French cabinet ministers took part, came to important decisions, and Earl Kitchener, looking over the ground both in Gallipoli and the Balkans, is to report on the best means of dealing with the situation arising out of the Austro-German and Bulgarian successes in Serbia and Greece's leanings towards the Central Powers.

It transpired today during the course of the debate in the house of lords that General Sir Charles Monro, the recently appointed commander-in-chief of the Dardanelles, has already given his opinion as to what should be the future policy with regard to the Gallipoli campaign, and Lord Ribblesdale, who introduced the subject, said that the report of the general favored withdrawal.

The Marquis of Lansdowne replied that the report and the evidence accompanying it was not considered sufficient to enable the government to come to a conclusion.

A BRITISH SUCCESS. The statement had hardly been made when the war office issued a communique of a successful attack on the Turkish trenches on either side of the Krithia Nullah, led by the 10th and 11th Divisions, and who went out after General Monro's report had been received, had decided to persist in the operations.

Andrew Bonar Law, the colonial secretary, assured the house of commons that the decision would be left to the military experts, before the question of the loss of prestige would have no weight.

The action will naturally depend upon the attitude which King Constantine and his ministers assume toward the Entente Powers.

FEW HOURS FROM MONASTIR. Meanwhile, the situation in Serbia grows more serious. The Austro-German armies, with the Bulgarians on their left, are pushing southward, driving the Serbian forces before them, while in the south the Bulgarians, reinforced by men and guns from Salonika, are pressing on towards Monastir, from which town they are said to be only a few hours' march away.

There is some uncertainty as to the Serbians' line of retreat. Some say they are falling back on Monastir, where there are British reinforcements; others say they are retreating on Ohrida, on the southern Albanian frontier.

The big guns are continuing their lively bombardment in the west, while in the east there has been no change.

I tried several kinds of patent medicines, and was almost discouraged until I noticed your advertisement of Doan's Kidney Pills. I thought it would not hurt to try them. I had only used two boxes before I noticed a great difference, and after I had taken four boxes I was completely cured. I would not be without them in the house. I can recommend them to all I know."

DANGERS INVITED TO ABANDON THE HESITATION FOR THE QUICK MARCH

Tea Room Invaded by Recruiters and Fox Trotters' Attention Drawn To Fact That There Is a War

(Ottawa Free Press) The activities of the unofficial recruiting sergeants who are working so strenuously for the 77th campaign, have no respect for places or persons, and do not even hold sacred the hallowed hour or two that the youthful slacker of Ottawa likes to spend with tea and toast and tango.

The young men with the fox trot faces and the hesitation attitude towards enlisting awake to a realization of this on Saturday afternoon in a local tea room, when they were escorted presented with a neatly typed invitation to stop dancing for a moment to consider the call of their country.

The amusing part of the whole affair was the keen interest the young ladies took in the mistle. They could not be stilled up a fellow's sleeve with his handkerchief or slipped quickly into a calling on her young men to fight for

the continued existence of the British Empire. The members will be saved from having their attention diverted from the new dances which take so much trouble to learn, but there is a haunting fear that no matter what retreat is chosen the wily recruiter will discover it. It will probably be found that it is an easier matter to acquire the steps they teach in the army.

PRIVATE BIDS FOR BATTLESHIPS TOO HIGH

Washington, Nov. 19.—None of the bids by private shipyards for construction of the two super-dreadnoughts authorized by the last congress, fell within the limit of \$7,800,000 fixed as the maximum cost for hull and machinery of each ship.

Bids submitted by the New York, Philadelphia and Mare Island Navy Yards, however, all fell within the limit, most of them being below \$7,000,000. Three private companies offered bids for one ship each.

PATRIOTIC CAUSES

Gramophone for 52nd.

An appeal is made for a gramophone for the 52nd Battalion to use on shipboard when they leave St. John. If any citizen has one to contribute, or records, these would be greatly appreciated, or subscriptions will be gladly received by Capt. W. B. Hurd at the armory or at the Y.M.C.A. Such a gift would be something to make the men remember St. John. Some subscriptions have been received. A gramophone is part of the Y.M.C.A. secretary's equipment and is taken right along to the base and even the trenches.

First Aid Education. The St. John Ambulance Association has arranged with the Department of Militia and Defence for a campaign of education in first aid to the injured among the troops of the Canadian Expeditionary Force now in training. It is proposed to utilize in each military district a number of men who have graduated in first aid, and are capable of giving instruction on a limited syllabus covering fractures, hemorrhages, artificial respiration, insensibility and bandaging. These men are to be asked to join the Canadian Army Medical Corps (not overseas), and will be paid, and given the rank of a sergeant in that corps. This should prove a splendid opportunity for equipment men to "do their bit" and at the same time secure for themselves a post which will command the respect of their fellow men. Candidates should apply to Dr. Skinner at once.

All for Patriotic Fund. The Mother Goose Christmas Fair to be held in the Knights of Columbus hall on December 1 by the Royal Standard Chapter, Daughters of Empire, is going to present many attractive features. The ladies in charge, representing chapters in the Mother Goose rhymes, will wear handsome costumes. Jack Horner, Mother Goose, Diane Fortune and other friends of our childhood will be on hand, there will be a village postoffice where everyone will find a Christmas card and there will be all kinds of Christmas gifts and home made cooking and candy on sale. The whole proceeds will be for the Patriotic Fund.

Concert for the Soldiers at Island. During the progress of the concert in the armory on last Tuesday, E. S. Penock, director of the Harmony Male Glee Club, received a message from the soldiers stationed at Partridge Island asking him to take his club members and give them a concert. Arrangements have accordingly been made with Colonel Armstrong, and the Glee Club will go to the island on next Monday night. A good programme is being arranged. Sunday Service in Armory. There will not be any church parade of the 52nd Battalion next Sunday, but a drum band service will be held in the armory instead. The service will be nine a. m., and the armory will be thrown open to civilians.

TRIAL OF KARL BUENZ IS SET FOR MONDAY

Charge is Supplying German Cruisers from New York

New York, Nov. 18.—The trial of Karl Buenz, managing director of the Hamburg-American Line, and other officials of the company under indictment for conspiring to violate the customs regulations, has been set for next Monday by Judge Howe of the Federal District Court. The basis of the conspiracy charge is the filling by the defendants of alleged false manifests and clearances to cover shipments of supplies from New York to German cruisers operating in the Atlantic, soon after the outbreak of the war. This trial, it was announced, will be followed upon its conclusion by the trial of Andrew D. Meloy, on a charge of conspiracy in an effort to procure an American passport for Frantz Rintelen, a German agent, under the name of Edward Y. Gates. Rintelen sailed with a Swiss passport, but was taken off the ship and is at present in an English detention camp.

NO CONSCRIPTION FOR CANADA, SAYS ROGERS

Dominion Will Fight so Long as She Has Dollar to Raise Men

Vancouver, Nov. 18.—Conscription will never be put into effect in Canada, according to a statement made by Hon. Robert Rogers in an address before the Canadian Club here. "If there is one thing of which we in Canada are more proud than another," said the minister, "it is the utter and complete lack of necessity for conscription within the borders of this Dominion. Our men have shown and are showing that they are ready and willing at all times, and we are proud that the day will never come in Canada when it will be necessary to have conscription."

"We have the spirit of loyalty and patriotism everywhere that will win victory for our flag without our even resorting to force or compulsion, conscription, or call it what you will, for the purpose of securing men for the service of the king and empire. We will not stop at the one hundred thousand men now called for, but if necessary we will continue to recruit just as long as there is an able-bodied man in the country who is willing to volunteer his services to his country and just as long as we have a dollar or can raise a dollar to equip him and send him across the ocean."

During the luncheon a silent toast was drunk to the memory of the late Sir Charles Tupper.

Mr. Rogers has left for the east.

MRS. RICHARD FITZGERALD DEAD

The death of Mrs. Annie Fitzgerald, wife of Richard Fitzgerald, which occurred early this morning at her home, 97-1/2 Princess street, will be learned with great regret by friends of whom she numbered very many. For more than a year she had been ill. She is survived by her husband, three sons and seven daughters. The sons are William J. of R. G. Dun & Co., Montreal; Francis J. of the Imperial Theatre staff, and Joseph P. at home. The daughters are Mrs. Frank Mullins of Montreal, Mrs. Gordon McKinnon of Somerville, Mass., Mrs. James McCarty, Misses Sadie and Peris, at home. There are also two sisters—Mrs. Wm. Doherty of West St. John and Miss Ellis of the city—and one brother, John, of St. John. To all these will go out marked sympathy for their loss is a very great one. Mrs. Fitzgerald was a most kindly, charitable disposition and many are her acts of sympathy and comfort for others in time of trouble which now will be recalled.

THE LATE JAMES REID

The late James Reid, M. P., of Restigouche, whose death was announced in the Times yesterday, was the first to carry the Liberal standard to victory in that county, and he had retained the seat since first elected. In the elections of 1871, as years were qualifying voters, he did not desire to offer again, but it was characteristic of him that when Sir Wilfrid Laurier returned that he should do so, he replied "My chieftain calls me—I know not but to obey." He did contest the election, and was victorious. Mr. Reid was a cousin of Mrs. E. A. Smith of this city.

WOUNDED SOLDIER

John Marshall, reported in today's casualty list as having been dangerously wounded in action with the 26th Battalion in France, has not been definitely located by the people of Patricie, which is given as his home. John Marshall resided in what is known as the old King house, Kingsville, was a painter by trade, aged about forty years, and a native of England. He was a married man, with several small children, and is reported to have moved with his family last fall to Minio. A teamster, named John Marshall was employed at the armory of the Provincial Hospital and enlisted, and he may be the man.

How German Plans Change and the Reason

(From the New York Evening Post.)

During the first month it was natural to think of Paris as the place where the war would be decided. Later it was Calais. Later it was Russia. Now that things are at a standstill in the west and in Russia, while battles are being won and lost in the Balkans, it is the Balkans and Egypt that become the decisive factors. No one will venture to say that an extension of the war to Egypt is altogether impossible. But sober and expert critics in England and Germany do not regard such an event as probable. If the war is to be decided on the field of battle, instead of by exhaustion, the decision must fall in what still remains the crucial point of contact, France and Belgium. A recent dispatch quotes from an address of the Kaiser to his troops in Belgium: "Important results are pending in the Balkans, where our troops and those of our courageous allies are bringing glory upon themselves. It is on the western front, however, that all eyes are turned, and the necessity of success here is paramount." Of English students of the war, the best known, Hilaire Belloc, has declared that the attack on Serbia is intended as a political diversion, with the object of creating discord and chaos among the allies and affecting popular opinion among Germany's enemies.

The able Major Morait, the most thoughtful of German military commentators, makes very much the same point. He describes the attack on Serbia as primarily a strategic operation, of service "to the policies of the central powers and the will to conquer. (Siegeweise) which animates us." This is as much as to say that the Balkan campaign is aiming primarily at a moral effect. Morait insists that the belief in victory among the allies is thoroughly shattered, that doubts and suspicions have arisen among Germany's opponents, that Italy, for example, has refused to place herself at the orders of Great Britain and France, and is determined to wage her own war. The Balkan campaign is thus a continuation of German policy as it was determined long before the outbreak of the war, but adapted to present circumstances. The iron ring around Germany had to be broken. It was to be done by victory on the field of battle, first France, then Russia, then England. Later the plan changed. It was to be first Russia and then France, but Russia, though defeated, did not acknowledge herself beaten. Neither war

she tired out, and the plan of breaking up the iron ring, not through crushing victory, but through the seduction of separate peace, fell through. The war became more than ever a war attrition. So the war, from must be won from the German point of view, by moral attrition. How long would the allies hold out if Germany did not own in the conquered lands of east and west and at the same time continued to keep up popular spirits at home by physical victories where they were still to be had? In Serbia! Observe how Major Morait described it. On the one hand, the will to conquer is to be nurtured at home; on the other hand, the belief in victory is to be shattered among the allies. With German bulletins still recording victories, if only over the Serbians, with allied bulletins recording only deadlocks, this war of endurance and "nerves" is bound to turn out as favorable for Germany as the actual test of armies has proved, when measured by the visible fruits of victory.

The vision of England with her back against the wall somewhere around Suez and the Pyramids is just the sort of thing to keep up flagging spirits at home and to accentuate depression among the allies. And this is why the German press today concentrates on Egypt with much of that same finality of tone with which it spoke of the end of the war around Calais and in the opinion of the other country has a way of dealing with universal and perpetual certainties. And tomorrow, when another opinion rules, that also is universally and perpetually certain. Even observers of the more cautious type cannot escape this tone of finality. Morait spoke contentedly of the Russians in retreat as a "disorganized and discouraged 'soldatesko.'" Today he speaks of Germany in the west and in Russia, as standing on the defensive. Morait spoke contentedly of the Russian army as "gathering strength" and was convinced that Germany's leaders would see to it that Kitchener had no leisure for building up a real army. Today there are a million English soldiers in the west, and the German effort has turned out altogether a different direction.

If we study the progress of the German campaign in Serbia, impressive though it has been, the heralded attack on Egypt is only a remote possibility. The Teuton armies have been moving forward in Serbia with the same machine-like precision which marked their advance into Russia. But the very precision is dependent upon long preparation and the proximity of sources of supply. Operating through the Sinal desert is not operating close to the Danube. The Teuton forces engaged in Serbia are not very large, and is a question whether there are men to spare for a distant expedition, or even for the purpose of relieving the Turkish armies, from their present task for an attack against Egypt.

LIVING IS DEARER IN GREAT BRITAIN

Soldiers' Wives Returning from Old Country to Canada After Costly Experience—Could Not Manage There

(Montreal Star.) The wives of Canadian soldiers on active service have gone to Great Britain in the belief that they can live cheaper there than in the Dominion. In doing so they have ceased to be recipients of the Patriotic Fund grant, and have found to their cost that life in the Old Country is much more expensive than they had supposed it to be. The consequence is that every week soldiers' wives are returning to their Canadian homes, and one by one are seeking aid of the Patriotic Fund. In the past ten days half a dozen women, whose husbands are with the Canadian forces, have returned to Montreal, reporting to Miss Reid, convenor of the Montreal Auxiliary of the Patriotic Fund, that they could not afford to live in the British Isles, even with the government allowance of \$20 a month, and half the assigned pay of their husbands. These statements are borne out by the sister in the Old Country of a soldier's wife in Montreal. The former advises the latter not to return to Scotland, owing to the cost of living. The letter was given to Mrs. Wanklyn, one of the visitors of the fund, and the following list of prices as they were before the war and what they are now, is taken from the letter: Flour—Formerly 44c. 14 lbs., now 72c. 14 lbs. Out meal—44c. 14 lbs., now 72c. 14 lbs. Bread—9c. 4-lb. loaf, now 17c. 4 lb. loaf. Butter—82c. per lb., now 92c. per lb. Cheese—18c. per lb., now 26c. per lb. Bacon—20c. per lb., now 40c. per lb. Sugar—84c. per 14 lbs., now \$1.25 per 14 lbs. Tea—44c. per lb., now 72c. per lb. Meat—12c. to 26c. per lb., now 24c. to 42c. per lb. Coal oil—12c. per gal., now 22c. per gal. Coal—\$3.60 per ton, now \$6.72 per ton, and more now. Allos knitting wool, 14c. per 1-4 lb., now 28c. per 1-4 lb. All woolen goods are much more expensive and not such good quality. Great courage in battle more than any other influence transforms a daughter state into a confident nation. Canada, New Zealand, Australia, South Africa, have gained from their troops in a year more national spirit than a century of peace would have given them.—Saturday Review.

DR. ROLLER FAILED TO THROW BALSAM

Former Leader Not Disturbed by Canadian Champion's Tricky Holds--Result of Great Wrestling Tourney

New York, Nov. 17--Alex Aberg, the world's Graco-Roman champion, had a hard task holding his title in a finish match at the international wrestling tournament at the Manhattan Opera House last night. Aberg won his match against Helmer Johnson of Sweden with a belly, and arm hold after forty-eight minutes and twenty-three seconds of the most sensational wrestling that has been seen in the tournament. The big Swedish defence was so good that he had the crowd cheering him every time he slipped out of the Russian's grasp. Three times Aberg had Johnson down with a hammer-lock, but the nimble Swede slid out of them in a manner which made Aberg wince with rage. Johnson's battle was one of defence only, and although he was able to hold the Russian champion at bay for more than forty-eight minutes, at the end he was completely exhausted, and had to be carried from the mat. The international tournament is working up to much partisan feeling among the spectators that last night the management had to warn the onlookers to observe strictly the spirit of neutrality. The notice handed out to the spectators read: "Refrain from any demonstration of international prejudice. Re-

number it is a sporting event, and America is proud of its justice and fairness. As soon as Charley Cutler of Chicago threw Tom Drank of Holland, the American was immediately challenged by the unnamed Finlander, Sulo Heronpas. Cutler tried all the holds he could think of on the Finn, but the best he could get after twenty minutes of feverish wrestling was a draw. Sometimes Tufans of Greece won a decided victory over Delrak of Austria with a head and chancery hold in 121. One of the surprises of the tournament was the failure of Dr. Ben Roller to dispose of Bala, a Spanish wrestler. Roller, usually clever in nailing his opponents down with deadly arm holds, failed to baffle the former treasurer. Bala, who has been used to fighting bulls before the holiday crowds in Madrid, was not in the least disturbed at Roller's trick holds. The Spaniard's stubborn defence got him out of much trouble. After twenty minutes of grueling work, Referee George Bothner called the bout a draw. Wladislaw Zyzasko of Poland had an easy time with Fritz Wagner of Germany, and pinned the Teuton to the mat with a reverse body lock hold in less than three minutes. The summary: Totals of Greece defeated Delrak of Austria with a head and chancery hold in 2:21.

ELLIS CASE HAS NOT YET BEEN FINISHED He is to Keep up Contest For Custody of Child Tokyo, Oct. 21--(Correspondence)--Mrs. Harriet A. Ellis of Massachusetts has won the first decision in the battle for the possession of her child, which has engaged the attention of two continents. As reported by cable yesterday the District Court of Tokio handed down a judgment against John Ellis in the suit brought by his wife for the permanent possession of their eight-year-old daughter, Olga Natalia. Mr. Ellis at once made an appeal to the Tokio Court of Appeal, announcing through his lawyer at the same time, that if the Appeal Court rules against him he will continue the fight to the Supreme Court of Japan. It is expected that the case will require another six months or a year for definite settlement. It is likely that Mrs. Ellis will apply for a temporary order from the court for the immediate custody of the child pending the result of the appeal. This temporary possession will probably be opposed by the defendant. The Japanese court reached its decision without going into the question of the respective fitness of the parents to act as the girl's guardian. The judges refused to consider this point of the case. They held that the decision of the court of Massachusetts, from which Mrs. Ellis had two decrees, giving her the custody of her daughter, has created a legal status that ought to be recognized in Japan, just as the status of marriage performed abroad is recognized here. The decision was based largely on consideration of public policy, it being the attitude of the court that a judgment against Mrs. Ellis would affect the validity of the law of Japan in similar cases in the United States. Mr. Ellis who is a teacher of English in the Higher Commercial School, took his daughter from his wife in 1913 and came to Japan. An attempt to have him extradited having failed, Mrs. Ellis herself came to Japan to begin the fight for the custody of her daughter. All attempts at reconciliation of the couple have failed.

SONS OF ENGLAND MEN OF THE 52ND GUESTS OF LOCAL LODGES

Officers and members of New Brunswick Lodge, Sons of England, in their lodge room, Clayton Hall, associated with the sister lodges of St. John last evening, entertained the visiting brothers of Winchester Lodge No. 99 of Port Arthur, Guilford Lodge No. 111, and Lord Roberts Lodge No. 322, of Fort Williams, and Tucker Lodge No. 895, of Schreiber, all belonging to the 52nd.

The chair was taken by President H. H. Barker and speeches, songs and games were enjoyed by all, and a bountiful supply of refreshments was supplied by Mr. Clayton of New Brunswick Lodge.

T. H. Carter, district deputy, addressed words of welcome to the visitors and wished them God speed and a safe return. E. Lawrence, president of Marlborough, C. Lonsdale, president of Portland, J. E. Daley, P. P. of Guilford Lodge, and Commissioner Potts of New Brunswick Lodge, also addressed the meeting. Songs were sung by E. Panter, G. Lewis, J. Faulkner, E. Britton, Mr. Fitts, Mr. Tong, Joseph Primann and Mr. Spencer also gave some excellent recitations.

A plentiful supply of cigars and cigarettes were supplied to the soldier brothers and after refreshments were served and games indulged in, and in all a most enjoyable evening, the meeting closed by all singing O Canada and God Save the King.

TWO MORE ST. JOHN BROTHERS MEET NEAR THE LINE OF BATTLE

Letters telling of the meeting of two of their three soldiers sons near the firing line have been received by Mr. and Mrs. Thomas Penny, 42 Cannon street.

Stanley, who went over in the first contingent with the artillery, told of the arrival of the 26th, of which his brother Gordon is a member, but said that they had moved again before he also reached there. He tells of coming safely through the big battle in spite of the fact that he had the dangerous job of carrying orders from headquarters to the batteries.

A fortnight later Gordon Penny writes telling of meeting his brother and finding him in good health with a comfortable shelter and plenty to eat. He himself was well and enjoying life.

The third son, Earle, is with the artillery in Halifax.

COLONEL GASKIN OF SALVATION ARMY TO BE HERE NEXT WEEK

Colonel Albert Gaskin of the Salvation Army is expected to visit St. John next week to inspect Major Barr, as divisional commander for the St. John division. This interesting ceremony will be held in the Citadel, Charlotte street, and the members of all the corps in the city together with the staff and field officers will make for the event. The public is also invited.

Colonel Gaskin is the chief secretary of the Salvation Army in Canada, and is responsible for the maintenance of the highest possible degree of efficiency of every branch of the work. There are ten departments at the territorial headquarters in Toronto, including those for finance, property, field, social, trade, printing, young people's affairs, etc., and all these operate under his direction.

The territory under his jurisdiction of the Toronto headquarters is divided into eight divisions, with a divisional commander in charge, who is also responsible to the chief secretary.

Colonel Gaskin has been associated with the Salvation Army in Canada for nearly twenty years, has traveled extensively, and is well and favorably known as a public speaker of distinct ability. Mrs. Gaskin will accompany on this occasion.

LIGHTS IN MILFORD ROAD AND BEACONSFIELD BECOMES STATION MASTER

An improvement which will be greatly appreciated.

Last night four large electric lights, 100 watts, tungsten, were turned on for the first time along Milford road and proved very satisfactory. Arc light has been installed near the C. P. R. crossing at the foot of McClure's Hill, always a dangerous spot; another at the junction of Randolph and Milford roads; a third in the hollow near Wilson house, below Randolph Hill; hitherto one of the darkest and most dangerous sections for pedestrian travel, and the fourth has been placed near St. Rose's Hall.

Councillor O'Brien says this illumination is all the present lighting system of the St. John Railway Co. will allow for, but so soon as changes and improvements can be made, the light service will be extended until ten or twelve will be allotted to Milford. Pleasant Point is also to be served later on.

At present lights are also being installed in Beaconsfield under supervision of the highway board, as follows—Corner of Duke street and Lancaster avenue; junction of Dufferin row and Lancaster avenue, corner of Winslow street and Lancaster avenue, and corner of Charlotte and Tower streets. These new lights will make a big difference to the district served.

His wife died before him and he is survived by one brother, Charles, in the west. The funeral took place on Tuesday at Bathurst, interment being made there.

WILL NEED ALL MEN THEY CAN GET FROM CANADA

Harold E. Baker of the 26th Sends An Interesting Letter Home From Front

Mrs. Rufus Henderson of Marsh Bridge, has received from her son, Harold E. Baker, of the 26th Battalion, the following letter:—

Oct. 29, 1915.
 Dear Mother:—
 Just a few lines to let you know I am well. Mother, I received your parcel yesterday and I can tell you those socks will come in nice. We just came out of the trenches last night after a very quiet week, as far as the Germans were concerned. But we were in mud and water to our knees and it was very cold, in fact we had a hail storm one night. Things do not look good for us now, since Bulgaria has entered the war, and it looks very much as if Greece was going to go with them.

I tell you we have not got it all our own way—very far from it. You would think that the St. John papers you sent over to me that there was nothing to it.

But the Allies have had some important wins. They will need all the men they can get from Canada before this thing is over. And I think it is up to some I know to get busy or they will be fighting Germans from behind the flagpole in the old Haymarket Square the day that they know.

STEPHEN HOWES WAS KILLED BY A BOMB

Particulars of Death of Sussex Hero, Who Gave His Life in Defence of Empire and Home

Word has been received by relatives of the late Stephen Howes of the 96th Battalion, who was recently killed in the trenches in Belgium, giving particulars of his death.

A letter from Benjamin Gaskin, brother of Rev. P. B. Gaskin, Warford, states that "Stephen was killed instantly by a bomb, and his chum, who was beside him, was wounded so badly that he died in a few minutes at the dressing station."

The boys were standing together laughing when the German bomb came down. Stephen tried to escape it but it exploded almost instantly. Stephen and his chum are buried in one of the trenches and their graves are marked by a cross, having their names on it in aluminum stripes, and the graves are covered with green sod. It was their general and helped to get Stephen ready for burial. Serge. John J. Ross in a letter to Miss Howes, sister of the deceased, says that Stephen and he were the only Sussex boys in B. Company of the 96th.

"I myself saw that the grave was properly arranged and a cross erected, and I will see while remaining here that it is kept in proper shape. Should I be fortunate enough to return home I will explain full particulars to you. I was with Stephen at the time of his death."

The burial took place about one mile in rear of firing line.
