CARNIVAL PLANS ADVANCE WELL

Matters Dealt With at Executive Session—Call at City Hall—The Grand Stand Tickets.

The central executive is asking the Mayor and Common Council to give a hearing to its members on Monday morning on the matter of two half holidays, on Wednesday and Friday afternoons of the International skating meet, Feb. 14 and 16. Other matters, too, it is hoped to take up at City Hall. H. J. Sheehan announced today that the boxes and grand stand reserved seats would go on sale on Monday morning at 9 o'clock in the Pianos gymnasium, King Square. He advised those who have bought in advance to make the selection of the seats. Rubber hose will be used as markers for the course instead of wooden blocks as last year.

The carnival executive met last evening and heard from W. H. Haley a comprehensive report on the grandstand and rink at Lily Lake. Arrangements have been completed for having telephones and telegraph tickers in the press box at the lake to facilitate the speedy transmission of the news of the meet. Rubber hose will be used as markers for the course instead of wooden blocks as last year.

The Retail Merchants' Association reported on their arrangements for the big parade. They asked that Miss Caine and Miss St. John accept places in the parade and said the G. W. V. A. would supply a guard of honor. The members of the executive and the skaters also will be asked to join the parade.

Preparations for a carnival and masquerade in the Arena are being made and the event promises to be one of the good ones of the week. The grand organizer is Mrs. E. Atherton Smith, head of the ways and means committee of the Health Centre, which is putting the carnival to raise funds. Support will be provided at the Arena by Loyalist Temple, Pythian Sisters, and the City of St. John. The members of the executive and the skaters also will be asked to join the parade.

Angling enthusiasts will learn with interest of the arrival of a limited supply of the world-famous Hardy English rods of the sporting department of Messrs W. H. Thorne and Co., Ltd.

Hardy's rods have long been acknowledged by anglers to be the finest and most modern the world over. The display is a particularly attractive one and early visit to this latest addition to the large sporting stock of W. H. Thorne and Co., Ltd.

ASKS STATES MAKE DRY LAWS UNIFORM
Haynes Would Then Simplify Enforcement Problems.
Columbus, O., Feb. 2.—Legislation which Prohibition Commissioner Haynes will ask the various states to pass to strengthen enforcement of dry laws is outlined in a statement by Sherman Cunes, his secretary, as follows:—

Passage of more stringent legislation by the various states, under the concurrent section of the 18th amendment. Concerted action of federal, state and local enforcement officials in the Northwest states, in co-ordination with Canadian authorities, who in convention at Portland, outlined a campaign by boat control against smuggling. Establish a concrete programme by prohibition directors, divisional chiefs and federal attorneys to apply the public law provisions for permanent abatement of violations. Consider agreement with Mexico for a neutral zone and co-operation with motion picture magazines against drug traffic and in an effort to get "higher ups."

WAS NOT DRUNK, SAYS MAID OF ENGLAND SKIPPER
Halifax, N. S., Feb. 2.—That Captain J. H. Groth of the steamer "Manitoba" was not drunk when he was returned to his ship when he and his crew had been taken off by the shipper's boats, was stated in Admiralty Court here yesterday by Captain C. A. Oickle, of the barquentine "Maid of England," skipper of the steamer "Manitoba" and skipper of the shipper's boats. He had been up five days and nights without sleep and had two drinks on Thursday, January 25, but was at all times capable of handling his ship. NEW LAMP BURNS 94% AIR

Beats Electric or Gas
A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 85 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil).
The inventor, O. K. Johnson, 246 Craig St., W. Montreal, is offering to send a lamp on 10-day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and with our expert money make \$200 to \$500 per month.

REV. J. A. HUNTLEY, NEW MONCTON PASTOR ARRIVES

Moncton, N. B., Feb. 2.—Rev. J. A. Huntley, D. D., arrived here yesterday from Troy, N. Y., to enter upon the pastorate of the First Baptist church. He is a native of Economy, N. S. His father, Captain James Huntley, a retired sea captain, is postmaster there. He graduated B. A. from Acadia University in 1900. For two years he was assistant pastor in Amherst, and for two years pastor of Lower Aylesford, N. S. From 1904 to 1907 he was a student at Colgate Theological Seminary, graduating with the degree of B. A. degree from Colgate in 1908. In last June Colgate University conferred upon him the degree of D. D.
He has been pastor of the following churches: First Baptist, Calgary, and Twelfth Avenue Baptist, Troy, and has held the following offices: Minister of the Baptist Educational Society of New York State; chairman of the Committee on instruction in Colgate Theological Seminary; chairman of the Missionary Committee of the Hudson River Baptist Association; North president and the Baptist Ministers' Conference of the Capital District; first vice-president of the Baptist Union of New York State.

DEPLORES LACK OF ETHICS.
Minister Says Rigside Morals Are Better than Those of Business.
New York, Feb. 2.—"We Americans are better supported than we are Russia," Rev. J. A. Huntley said in a speech before the members of the Traffic Club in the Hotel Waldorf-Astoria.

"The ethics of the rigside are better than the ethics of the market place," he continued. "To put it bluntly, we haven't the same downright nastiness that we see in Russia. America's greatness was not born of isolated states, but from those who present the same line-up of apparently conflicting interests."
"The soul of America is that of the rigside, something that it sometimes is."

TELL OF TORTURE BY MOORS.
Spanish Prisoners Report Horrible Sufferings in Morocco.
Madrid, Feb. 2.—Spanish soldiers and civilians recently ransomed from their Moorish captives have brought to Madrid stories of horrible suffering endured while in Morocco.

The former prisoners said that on the occasion of Spanish victories several of their number were shot. General Navarro was obliged to do mental labor with a ball and chain attached to his leg. Women were subjected to harsh treatment and were tormented publicly.
Most of the released prisoners are in such poor health that they will have to spend a considerable time in hospitals.

LOCAL HOCKEY.
Monday night's hockey game in the Arena between Marysville and St. John should prove the deciding factor in settling the position of second place in this section of the N. B. and P. E. I. Hockey League. Marysville will present the same line-up that won from St. John in the exhibition game here two weeks ago. On the other hand, St. John will have many changes and will present a much stronger team than that which won from Fredericton in the game here last week. The outcome is therefore much in doubt, but it is bound to be a real game. B. Moorehead, president of the league, said the increasing attendance at the local games is regarded as a tribute to the good showing St. John is making in the league. Other teams throughout the province have expressed surprise that St. John has been able to get such a good team together after having been practically out of the game for years. All the games played in St. Stephen, Sussex and Fredericton by the local team have been largely attended, indicating the confidence of the fans in St. John's ability to put up a real game.

STORY TELLING.
Fifty-eight children were present at the Free Public Library this morning to hear Mrs. C. A. Robinson tell some of Sir Henry Newbolt's stories, notably that of "Charles, His Grandfather."

Halifax Chronicle: Dr. J. D. Logan left this morning to consult with the publishers of his new "Life and Works of Joseph Howe" and monographs on Halifax and Newwood. He will also deliver the annual literature Club and other literary organizations on "Canadian Relations in the Light of Canadian Literature."

The New Premier.
Fredericton Gleaner: As we said some days ago, there will be a pretty general well-rooted disposition to give Premier Veniot and his government a fair trial.

Once Powerful; Now Poor and In Great Distress

Hundred and Twelve Officers of Russian Imperial Army at Ellis Island.
New York, Feb. 2.—One hundred and twelve officers, including three generals, formerly of the Imperial Russian Army, if faded and patched uniforms, all the clothing they own, arrived yesterday from Constantinople on the steamer Madama, which docked in South Brooklyn. They traveled steerage and were sent to Ellis Island for fumigation and to await orders from Washington.
In the war riddled party were two major generals, one general, Vladimir Zerkov, 60, gray and haggard as a result of an experience which began with his capture from the Bolsheviks, and ended when he crossed the border into Turkey.
They said Russia is in a deplorable condition, that in surrounding countries royalist forces are becoming stronger and that the Soviet Government will fall sooner or later. They said Gen. Wrangel would be the chief military officer.

There were 197 other Russian refugees on the Madama. They were placed on the ship through the efforts of the Life Underwriters' Association after representations to Washington. In their appeal to the Soviet Government that if compelled to return to Soviet Russia they could be either killed or imprisoned.

A Furniture Sale With a Special Purchase Plan

A lean purse takes full advantage of the Sale Savings that come but once a year at J. Marcus'. There is no danger of not possessing the very thing you fall in love with. A deposit puts it away until you do want it, even if that means next Autumn.

It is stored and insured without charge; sent to any point in the province without charge, and at reductions of from 20 to 35 per cent.

So much for the possessing part—now for the choosing. It hardly needs saying that Marcus Furniture is larger by far in variety and lower in price. A look will decide that. It may not be necessary to say it is nicer—your own good taste will take care of that. And from the standpoint of workmanship you can see beyond any doubt that in every case Marcus Furniture was chosen primarily for thoroughness of construction.

The fact that this institution has enjoyed a booming patronage, while most all other businesses felt a slackening, speaks well enough for the worth and taste of our larger range of offerings.

Finally—Marcus have but one Sale a year, so they make it a good one. It is on now, replete with special attractions just selected by personal visit to all the big manufacturers. For service, for beauty of design and for price—especially our 1923 Sale prices—there is hardly any comparison. Judge for yourself. A peculiar feature of the potato market this year is that from the very commencement to the present the price has remained practically unchanged. In other years there has been great fluctuation. Today, as for months past, the price of potatoes holds around \$1 per barrel. Butter is bringing 60c per pound and eggs 40c per dozen, and these prices are just double what the ruling prices were ten years ago.

SAYS INFLUENZA OF MILD TYPE IS APPEARING IN U. S. New York, Feb. 3.—Health Commissioner Copeland says there have been many cases of influenza reported to the Health Department in January; that the disease appeared to be of a very mild type, but that there was enough of it in the community to justify a warning against neglect of symptoms which appeared to be those of a common cold.

"Guard against exposure to cold and wet feet," the commissioner said.

"Take plenty of rest and sleep. Wash the hands before eating, and wash the face and hands on returning to the home. If there is a feeling of illness consult a family physician, and do not neglect to give immediate attention to any of the initial symptoms of this disease."

"There is nothing in the situation at all alarming, but it should give warning to all wise persons."

RECENT DEATHS

Mrs. James Burney. The death of Euphemia Margaret Burney, widow of James Burney, of Upham Station, Kings county, occurred yesterday at the residence of her daughter, Mrs. J. S. Stephenson, 187 Paradise row, after an illness of about two months. Mrs. Burney, who was a daughter of the late John and Effie Hartford, was fifty-five years of age, just five years short of a century. Until the time of her illness had retained her faculties and was active and alert. She had resided in Kings county for the greater part of her life, Upham Station having been her home for many years. She had come to St. John to spend the winter with her daughter. It was known her husband had a heart ailment and her death will be sincerely mourned. She is survived by four daughters, Mrs. J. S. Stephenson, of this city; Mrs. James Kilpatrick, of Tittville, Kings county; Mrs. Scott Hill, of Bath, Me.; and Mrs. Louis Smith, of Wrentham, Mass.; and one son, James Burney, of Edmonton, Alta. The funeral will take place on Sunday afternoon at 1.45 o'clock from the residence of her daughter, Mrs. Stephenson.

PICK OF FISH BONE UNDER THUMB NAIL CAUSES DEATH

Boston, Feb. 3.—Blood poisoning, which resulted from a small piece of fish bone becoming embedded in the flesh beneath one of his thumb nails, caused the death of Jacob W. Wendell, sixty-eight, an employe in the market of J. B. Blood Company, Lynn. He was cutting about a week ago when the piece of fish bone lodged under his thumb nail.

Girl Guide Notes

The 3rd St. John (Boaters) held their first company meeting on Tuesday. Twelve girls were present, which was pretty good for a start, and they got right down to business in the shape of tenderfoot work. The 2nd Rochey meeting was very busy. Hamlin Fairweather was enrolled. Guides Margaret Fairweather, Anne, Allie and Patricia were given their second class badges; Margaret Fairweather the Brownie Wings and Audrey Allison, Frances Robinson, Helen Blanchet and Barbara Fairweather got ambulance badges. On Thursday afternoon they had a beauty practice and would like to play any other guide company. Will anybody like them? I wonder how many of you guides realize that the Sir Henry Newbolt who wrote the book of the week, is the Henry Newbolt who wrote the poem necessary for the sports woman's badge "Play Up and Play the Game". If you want to see what the chief guide says about uniforms, in her New Year's letter to all guides. I wish we had room for the whole letter. "One thing I noticed a great deal this year is that the guides are troubling more than they used to about polishing up their badges and their boots! They both count a lot and if the badge is bright, as it should be, the boots generally follow their example. Uniforms, too, have been well ironed and cleaned up, and it doesn't matter how they are old so long as they are well put on and show that the persons inside them are taking thought to be neat and tidy on parade. If spruce, upright and well set up on parade, you can't very well go and be the opposite of it, can you?"

BRIDE OF WEEKS KILLED BY TRUCK

Woman Married Only Short Time Dies Instantly—Twins Injured in a Taxi Smash.

New York, Feb. 3.—A well-dressed young woman, identified from Southern Boulevard car at 174th street, the Bronx, and became confused as a live-on truck driven by William J. Harrison of New Haven bore down on her. She slipped on the pavement and was run over by the truck. The driver was arrested, and the police listed the victim as unidentified. When David Filer, dress manufacturer, returned to his home at 2,074 Maps avenue, the Bronx, he expected to find his bride of three weeks engaged as usual in preparing dinner. Instead, she was absent. Pike thought she had been delayed on a shopping tour. Finally he inquired at the bath-gate avenue station, where later he identified his wife as the victim of the motor truck. Andrew and John McDevore, thirty-six-year-old twins, of 1,088 Prospect Place, Brooklyn, were taken to Swedish Hospital, suffering from contusions, when the taxis carrying them and three other brothers crashed into another at Prospect Place and Nostrand avenue, Brooklyn.

HE MUST'N'T PHONE WRITE, CALL, LOOK AT OR TALK TO HER AGAIN New York, Feb. 3.—Arrested because at the end of a card game at two o'clock the other morning he refused to leave the apartment of Dorothy Taylor, a Shubert show girl, Moses Goldman, twenty-three years old, of 870 Riverside Drive, heard Miss Taylor testify before Magistrate Sweetser in Yorkville Court that his persistent attentions were unwelcome and annoying. Goldman's ground for not quitting the apartment was that he was the girl's sweetheart. "You hear that?" said the magistrate to Goldman after Miss Taylor had made her position clear. "Do you still believe you are her sweetheart?" "I am perfectly satisfied I am not," said the defendant. "Well, I'll let you off with a suspended sentence this time," said the Court, "but you must never telephone, write, call, look at, talk to or molest the complainant again, in any way. If you do and she reports the matter, you will get six months in the workhouse."

STATUE TO MARK GRAVE OF
JOYCE KILMER, POET SOLDIER

New York, Feb. 3.—A monument thirty-five feet in height is to mark the grave of Sergeant Joyce Kilmer, poet soldier, who died fighting in France with the Sixty-ninth Infantry. Sergeant Kilmer was the son of Dr. and Mrs. F. B. Kilmer of College avenue, New Brunswick, N. J., and the monument is to be put in place next summer when they go abroad to visit the French cemetery where he rests.

The memorial is the work of Paolo Albate, famous Italian sculptor, who like Sergeant Kilmer, held membership in the Dante Society of America. The statue is called "David the Soldier."

SAYS LUSITANIA SINKING WAS AN ACT OF WAR

Holds This View in Alfred G. Vanderbilt's Insurance Case—Policy is Declared Void.

Albany, Feb. 3.—The sinking of the Lusitania was an act of war, the Court of Appeals held here recently in deciding the case of the estate of Alfred G. Vanderbilt against an insurance company.

A clause in the policy held by Mr. Vanderbilt, who was drowned when the Lusitania was set down, automatically nullified it in case death was caused by war. Today's verdict upheld the action of the insurance company in refusing to make payment on the policy.

So far as available records showed last night, the court of Appeals decision in the Alfred G. Vanderbilt estate case is the first in which the sinking of the Lusitania is held to have been an act of war. The policy involved was one in the Travelers Insurance Company for \$250,000. The company refused to pay on the ground that the policy was void in case death was directly or indirectly due to the war or to exposure to unnecessary danger and the executor brought suit.

On behalf of some of the 120 Americans who lost their lives when the vessel was sunk by a German submarine on May 7, 1916, suits aggregating \$6,000,000 were filed against the Cunard line, which owned the Lusitania. The Federal District Court, in an opinion delivered by Judge Julius M. Mayer on

ANNIVERSARY OF EXMOUTH STREET CHURCH
On Tuesday of this week the Exmouth street Methodist church completed the sixty-sixth year of its existence. It was dedicated on January 30, 1857. Although changes have been made from time to time, the building still retains many of its original furnishings and the main part is intact. More rooms have been added and a basement has been placed under the structure. Exmouth street church is the oldest Methodist church in the city. It came uncashed through the great fire of 1871. A week of prayer and special services has been planned to celebrate the anniversary.
The church has an interesting history. The site was deeded to Alexander McLeod, John Ferguson and William Tull by James Simonds in 1820 to be held in trust by them for the Wesleyan Methodist conference for the erection of a place of worship. It was in 1855 that Rev. Charles Stewart, D. D., was appointed to St. John and under his guidance the work of building was begun. The corner stone was laid on June 12, 1856, the ceremony being performed by Rev. Dr. Richey, with Rev. J. G. Hennigar, Rev. Charles Stewart and Rev. R. Knight assisting. Dr. Richey officiated at the dedication service in the following year. A Sunday school was opened at the Marsh bridge in 1859, and later, in 1862, a schoolroom was built in Brussels street. This Sunday school has been successfully carried on and is now the Glad Tidings hall. The first superintendent of the school was William Warwick, and the first year's expenses of \$29, 85, were donated to the school by Mr. Warwick. The total receipts were \$19, 14, 54. In 1864, chiefly through the efforts of the late Aaron Eaton, the present parsonage was built at a cost of \$2,500.26 by Michael Hennigar. The church became a separate circuit in 1867.
The following ministers have held the pastorate of the Exmouth Street church since 1857:
1855-1858—Charles Stewart, D. D.
1858-1862—William Wilson.
1862-1864—John Lathern.
1864-1865—A. W. Nicholson.
1865-1866—John Brewster.
1866-1867—J. L. Spanglic.
(The old circuit was now divided.)
1867-1870—W. H. Hearts, D. D.

TO DARKEN HAIR APPLY SAGE TEA
Look Young! Bring Back In Natural Color, Gloss and Attractiveness
Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.
While wispy, gray, faded hair is not unattractive, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Glands Used to Restore Hair Growth

Science of Gland Therapy Relieves Baldness—New Treatment Restores Health and Growth.
Baldness in both men and women is now generally ascribed by scientists to defective functioning of endocrine glands. Hair growth is dependent upon the secretions of these glands—their secretion making possible the assimilation of those elements in the blood which are vital to a luxuriant growth of hair.
This discovery may be easily used in the privacy of your own home. Within a few weeks you will notice new, vigorous hair beginning to come in and with this growth you can gradually restore your hair to its former bright, healthy color.
So confident is Dr. Alexander that you can be relieved of the embarrassment of baldness and regain the normal hair growth by this method that he offers to send a full \$2.00 treatment on free trial to anyone who will write for it. Use it according to directions, and if at the end of a month you do not find your hair returning with all its former vigor, the treatment does not cost a cent.
SEND NO MONEY—just your name and address to Alexander Laboratories, 507 Terminal, Toronto, Ont., and the treatment will be mailed at once. When it arrives pay the postman only 52 and a few cents postage. Try it according to directions and if at the end of a month you are not more than satisfied with results, your money will be refunded at once. A big bank guarantee that Dr. Alexander is reliable and holds \$1,000 cash as a guarantee to return your money if you wish.
Don't suffer the embarrassment of baldness—give the treatment a trial on this liberal offer.

Now it is possible for any bald person to have a full, luxuriant growth of hair through the discovery of E. R. Alexander, nationally known scientist. Dr. Alexander, through the concentration of glands, can supply the deficiency of gland secretions and produce a full growth of hair.

"WHAT YOUR HUSBAND NEEDS"
"One night my husband came home looking so ill and worn out that I thought he would faint. I knew there had been something wrong with him for some time, but I could not get him to tell me what it was. Finally he confessed he was tired and sore all over. I made him go to bed. Next morning he insisted upon going to work although he was anything but well. I knew that his trouble was partly due to the grocer and butcher refused to give us more credit. It was being out of work that worried my husband. He wouldn't eat because he was afraid there would not be enough food for the children. We were so poor that we had to keep the children from school because they had no clothes. I knew that if I could only get my husband strong and well again everything would be all right. He is a carpenter by trade and when in good health earns good wages and he is always sober and industrious. But I knew that it was impossible for any man to do good work when he was ill and worried. I decided to speak to our old family doctor who had retired from practice. When I explained how we were situated he gladly offered to do all he could to help us, although he didn't like to interfere with the new doctor's practice. Finally he said, 'What your husband needs is a good tonic and I know of nothing better than Carnal.' I thought that if our old family doctor recommended Carnal it must be all right. On my way home I got a bottle and before the first bottle had been used, my husband was a changed man. After he had taken four bottles his appetite returned, he had more energy, that tired look in his eyes disappeared and what is most important his wages have been more than doubled and he is now super-intendent of the wood working shop in which he formerly worked as a carpenter. Thanks to Carnal our troubles are over and we are once more a happy and contented family."
Carnal is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money.

PROTESTANTS PLAN TO OPEN CHURCH SCHOOLS

400 Clergymen Meet to Take Steps to Give Religious Instruction to Children Now Without Training.
(New York Tribune)
More than 400 Protestant clergymen of city districts, methods of giving religious instruction to children of their faith yesterday at a meeting called by the Federation of Churches, which has a membership of 400 Protestant churches in the city, to discuss the problem of religious instruction to children of their faith who are now without training.
Judge Thomas C. C. Crain, of General Sessions, the speakers, said there were 800,000 Protestant children in the city entirely without religious instruction and suggested an inter-denominational board to plan courses of study for them.
Resolutions were adopted advocating the establishment of week-day schools under a plan of community responsibility. It was suggested that the district groups, subsidiary to the Federation of Churches, assume responsibility for such schools in their several districts, but that the children, so far as possible, should attend their own church schools.
To Work With Others.
It was voted to work in co-operation with the Protestant Sunday School Association, the Protestant Teachers' Association and other bodies through the medium of a general committee of the Federation of Churches. It was also voted to appoint a committee of the Federation of Churches to canvass the situation among the various parishes and report its findings, so that community needs may be met by group action.
Judge Crain announced that the 6,000 members of the Protestant Teachers' Association had consented to go after their own school hours, to the schools to be established and teach the children.
Stephen F. Bayne, president of the teachers' association, offered co-operation of the members of his organization, with the understanding that the control and direction must be in the hands of the ministers, and that the plan for community responsibility, if they could agree upon one. He said that he had already organized to teach the children of the parochial schools before the Protestants formed their association.
Some Centres Now Open.
Mr. Bayne said that the Protestant association offered early in this month, in Brooklyn, to provide teachers in week-day schools for religious instruction to the members of his organization, six centres came in the first week. He said they have opened a few centres and are preparing to open others as rapidly as possible. The interest of the teachers, Mr. Bayne said had been aroused particularly by the unchurched children of Protestant inheritance, but that they are helping and are willing to help to the extent of their ability the church schools wherever their services are desired. He said for good reasons they could not work through the public schools.
A committee on recommendations was appointed by the Rev. Dr. Arvon P. Aterbury, president of the New York Federation of Churches, consisting of the following ministers: Ralph W. Stocking, chairman; Henry E. Cobb, Louis T. Reid, T. P. Savage, Ernest M. Stires, Cornelius Wolfkin, Percy T. Edgell and G. U. Wenter.
The committee rejected Judge Crain's suggestion for a central board of religious instruction and favored the plan for community responsibility. As for curriculum the committee recommended that it should be in accordance with the national boards co-operating through the national leagues.

"I gave the fight to Schlaffler," Duffy declared, "because of the knockdown he scored in the tenth round. He has knocked Wells down in the fourth round too. These two knockdowns decided the fight with me."

NEARLY DROWNED

Narrow Escape of Halifax Bank Man's Wife and Maid.

(Halifax Chronicle) Mrs. L. M. Richardson, wife of the manager of the Royal Bank of Canada, Buckingham street branch, is ill at her residence, 88 Dutch Village road, and her maid is also ill, as a result of an accident which took place on Wed-nesday afternoon by which both were nearly drowned. A pet dog had fallen into a cess pool on the Richardson property and Mrs. Richardson and her maid, in their efforts to rescue the dog, both slipped in and struggled around in the icy water for over an hour un-able to get out and unable to attract assistance.

A man passing that way heard the screams of the two women but thought it was boys back in the woods skating and took no notice of it. On his return an hour later he again heard the sounds and decided to investigate. He found the two women nearly uncon-scious and rescued them. They were taken to Mrs. Richardson's house and medical aid summoned. Mrs. Richar-don's condition was pronounced very serious at first, but yesterday she had greatly improved and was reported as recovering excellently. The maid has also thrown off the effects of the duck-ing. The cess-pool in which the acci-dent took place is about six feet deep.

The passengers left in two special trains for their various destinations this morn-ing and the second around 2 o'clock. There was only one Maritime Province passenger on board, R. C. G. Henson of Bridgetown, N. S.

Prominent among the cabin pas-sengers were Major A. H. Jukes, D. S. O., O. B. E. and family, who are en route to Vancouver; Major S. W. Pugh and family of Newpawa, Man.; Col. F. H. Dunham of Toronto; Major J. H. Franklin of Watford, Ont.; W. Dick of Dunfermline, Scot., who is a direc-tor of the firm of Messrs. Andrew Reid Ltd.; Mrs. H. C. P. Crosswell of Montreal, who holds the superintendent of the department of colonization and development, and Lt. Col. J. Preece of Penzance, Ont.
Lt. Colonel Preece is returning home after a visit to Birmingham and Lon-don. He said there is a lot of snow in Montreal in both places and from ob-servations judged that times are hard for many people. During his visit there was no snow or frost, but the weather was disagreeable. Lt. Colonel Preece went overseas with the 29th Battalion.

Major Pugh is returning to Newpawa, Manitoba, after an absence of thirteen years. He has been in falling health since the war and hopes that he will find the climate of western Canada beneficial. He is accompanied by his wife, two daughters and one son.
Little Twin Travelers.
Two interesting passengers on board, who were not included among the prominent travelers were the little Misses Neta and Allison Dawson, eight and six years of age, who are en route to Kingston, Ontario, in charge of their aunt, Miss C. M. Rogers. Their father is a major in the British army in India and as their mother went to join him the children were sent to Canada on a visit to their grandparents. They expect to remain here for two years. They are two bright little girls and asked many questions about the peo-ple, weather, etc., in Canada.

Among the cabin passengers was a young lady who is soon to be the bride of a Torontoan. She came to Canada to meet her intended and the ceremony is expected to take place early next week.
Conrad B. Rubery of Birmingham, England, is to locate in Canada. Dur-ing the war he was in charge of all steel supplies purchased by the British Government from the United States and for the last two years was asso-ciated with the ministry of munitions in England. He is enroute to Toronto where he expects to be associated with a large steel corporation. Prior to the war he was in charge of the steel plant of the Siser Forge Company of Buffalo.

St. John Should Lead

(Moncton Transcript) The St. John Times, commenting on an article in the Transcript urging the importance of a campaign to attract tourists, avers that this is a good time of the year to discuss the problem. It is the time to take action, too, if an organized effort is to be made. There has been an amount of discussion, and there appears to be great unanimity of opinion regarding the importance of tourist traffic. The Times will do well to stir up action.

Although St. John is the winter port, we may very well look to the chief city of the province for leadership in at-tracting summer tourists. St. John has a seaside climate, close to the best Maine resorts. If St. John will take the lead, other communities will doubt-les co-operate. Probably it would be well to ask the collaboration of Nova Scotia and P. E. I. and make it a Mar-time movement. Otherwise there may be unnecessary duplication of effort.

It is no use to take up this matter after most people have made their plans for summer. And it is little use to take it up at all unless there is the determination to carry on year after year. That has been the policy of Maine which attracts tens of thousands of upper Canadians who have no con-ception of the Maritimes.
Fort Fairfield Review: "Last New Brunswick will reap an extra harvest from the large amount of automobile traffic over her highways the coming year, on account of her adoption of the rule of turning to the right, is the pre-diction made by many. Together with her rapid increase in mileage of good roads, this change will mean that New Brunswick will be much more than ever an automobile pleasure ground for thousands of Yankee tourists who are the scenic beauties and wonders of this gifted Canadian province."

ASKS BRUCE TO FORM GOVERNMENT IN AUSTRALIA

Melbourne, Australia, Feb. 2--It is officially announced that when W. M. Hughes resigned the Premiership of the Australian Commonwealth last year, Lord Forster, Governor-General, summoned Hon. S. M. Bruce, Common-wealth treasurer and inquired whether he could form an administration which was likely to be stable. Mr. Bruce re-quested time to consider. It is thought that Lord Forster may yet dissolve Parliament on the ground that legisla-tive work under present conditions is impossible.

When I returned to civilization I looked up the account of the Ross expedition and there this incident, which occurred in 1828, is described in detail. The names of the Englishman and of the Eskimo are both given. The name of the Eskimo was precisely that given to me by the father of the one-legged man.
