ST. JOHN, N. B., THURSDAY, MARCH 2, 1922

TWELVE PAGES—ONE CENT

SPENT MORE THAN HALF A MILLION

Public Works Dept. Expenditures for 1921 Total \$673,241.

Report Presented on Excess Cost of Emergency Work—Added Water Supply for Royal Hotel—The City Assessment in Lancaster.

Table with 2 columns: Item, Amount. Includes Streets, maintenance, Rockwood Pk. Playground, etc.

In connection with the Rockwood park playground, the road engineer reported that the quarter-mile track had been completed.

Commissioner Frink reported in connection with the excess cost of emergency work done for unemployment relief.

Emergency Excess Costs. Commissioner Frink reported in connection with the excess cost of emergency work done for unemployment relief.

Royal Hotel Changes. Commissioner Frink said the Royal Hotel was laying a new four-inch water pipe from the King street main.

Lancaster Assessment. The mayor read a letter from J. King Kelly, county secretary, regarding the assessment on city property in Lancaster.

ORGANIZE SCHOOL BOARDS AND RATEPAYERS IN A DOMINION ASSOCIATION. Winnipeg, March 2.—A suggestion by Wm. Morris, secretary of the Ontario school trustees and ratepayers association.

House Thronged For The Opening

Bright Scene in Fredericton This Afternoon—Speech from Throne Refers to Proposed Legislation—Lumbering, Farming, Hydro, the Roads, Teachers' Pensions—Reference to Improving Financial Situation.

Fredericton, N. B., March 2.—The opening of the second session of the eighth legislature of New Brunswick this afternoon equaled any preceding opening in impressiveness.

The galleries were filled and every extra seat placed on the floor was occupied, and there was every indication that the opening is as great a social event as ever.

The composite guard of honor was commanded by Major J. S. Scott, York Regiment, with Lt. F. Barton, 7th C.M.G. Brigade as subaltern, and Lt. C. E. White, University of New Brunswick.

After Hon. A. D. Dymally, speaker took his seat, prayers were offered by the Chaplain Very Rev. Dean Net. The introduction of new members is always the next item of business.

His Honor Lieutenant-Governor William Pugsley returned to Government House where a reception was held.

DE VALERA MAKES THREAT TO LEAVE DAIL. Dublin, March 2.—Another threat to withdraw from the Dail Eireann was made by Eamonn De Valera today when Arthur Griffith refused, as president of the dail, to answer a question regarding the plan for the future of the Haulbow Line dockyard at Queenstown on the ground that this was strictly provincial government work.

HANGED HIMSELF BUT DID NOT USE A ROPE. Buffalo, March 2.—The death of John McNichol, who was found dead hanging from a tree without a rope on the Canadian shore on last Monday, is said to have been a suicide by Inspector Ward of the Ontario police.

TRouble IN EGYPT. London, March 2.—Three persons were killed and twenty-four other injured, some seriously, in a disturbance this morning in Egypt, fifty-five miles north of Cairo, says a Central News despatch from Cairo.

As Hiram Sees It

"Hiram," said the Times reporter to Hiram Hornbeam, "I read that there are in Asia about 300,000,000 believers in Confucianism and Taoism."

"That's a fair-sized congregation," said Hiram. "And 200,000,000 Brahmins and such like," said the reporter.

"I wouldn't be surprised," said Hiram. "There is Africa yet to be heard from, and many scattered portions of the earth."

EXPLANATION OF A KILOWATT HOUR

A correspondent, signing himself "Light & Power," has written the Times asking for an explanation of the term kilowatt hour, and in the burning and using of electric light and heat how it compares with the regular hour of sixty minutes.

An official of the N. B. Electric Power Commission explains the terms as follows: A kilowatt hour is the amount of work done by 1,000 watts of energy in one hour. It is the standard unit of measurement of the work done by electricity.

DISTRIBUTING HYDRO CURRENT

(Contributed by Hardware Clerks' Association.) Judging by the many communications that have been received by the Hardware Clerks' Association, what is heard in the street, what is discussed at lodge meetings, and by the large number of names on the petitions, it would seem that the great majority of St. John's citizens are now looking upon municipal electric power as an assured and most natural method of placing the current in the homes of the consumers, realizing that this is the only method of distribution by which lighting and power can be obtained at cost and without private profit.

However, there are some citizens who, although favoring municipal distribution, do not wish to have it handled as one of the city's departments, controlled by the common council, and chiefly so. There is little to be wondered at regarding this attitude of the part of deep thinking and responsible citizens, as recent reports of the distribution of the hydro electric power by which lighting and power can be obtained at cost and without private profit.

The distribution of the hydro electric power need not be administered by the common council, and might be kept out of civic politics altogether by the formation of a commission of, say, three prominent citizens, who would be appointed to act as directors and advisors, without salary, they appointing an efficient manager and holding him responsible for the successful carrying out of the work and operation. Only a few hours of time each week would be required by the commissioners, and there would be no difficulty in finding public-spirited citizens who would be willing to give this amount of their time for the welfare of the citizens. There are several ways by which it would be possible to form this commission, and the present time is the most feasible method seems to be as follows: one commissioner to be appointed by the provincial government, one by the common council, and one by a vote of the citizens.

ALL SET FOR THE INCOME TAX

Norman P. MacLeod, inspector of federal taxation, announced today that all forms relative to income tax returns were now in the hands of post masters throughout the province and the responsibility of obtaining them there was on the taxpayer.

Forms T-18 and T-19, return of income from salaries, employers' return of salaries and return of dividends, respectively, must be filed on or before March 31, and T-1 for individuals, T-1A for farmers and T-2 for corporations, must be filed on or before April 30.

The same regulations regarding the collection of taxes by the taxpayer were in effect last year remain. The payment of 25 per cent of the amount calculated when filing the return also stands.

The only change in the forms is in the return of employers. It is in the collection of commercial travelers' returns to three groups, those who travel with grips only, those with trunks of less than 1,000 pounds and those with trunks of more than 1,000 pounds in weight. This has to do with the assessment on traveling expenses paid.

Phelix and Ferdinand WEATHER REPORT IS REPORTED TO BE SINKING IN THE ATLANTIC

Boston, Mass., March 2.—The Norwegian freight steamer Grontoft was reported sinking about 500 miles southeast of Cape Race, in radio messages received here today. Her lifeboats had been smashed. The steamer Estonia was proceeding to her assistance.

MARY PICKFORD HAS WON CASE. New York, March 2.—Mary Pickford does not have to pay Mrs. Cora C. Wilkenning any part of \$108,000 which Mrs. Wilkenning claims was due her as commission for getting the film star a raise to \$100,000 a week. This was the verdict of a federal jury returned last night and unsealed today before Federal Judge Mark.

Congress Not For A Reciprocity Pact

Washington Says Hon. W. S. Fielding Has Been so Advised—Statement by Senator McCumber, Chairman of Financial Committee.

(Canadian Press) Washington, Mar. 2.—Hon. William S. Fielding who came to Washington several tariff reciprocity agreement between the United States and Canada has been advised by Congressional leaders that Congress does not look with favor at this time on such an agreement.

Opposition to any general reciprocity agreement with Canada was voiced today by Chairman McCumber of the Senate finance committee, when informed that Hon. W. S. Fielding, Canadian minister of finance, was in Washington in the interest of such an agreement.

"Canada has only agricultural products to send to the United States under such an agreement," said Senator McCumber, "and we have an exportable surplus of such commodities."

The finance committee chairman and other members of the committee expressed the opinion that the reciprocity law passed by Congress in 1911 was a dead letter, although never formally repealed. Senator McCumber said the United States had made a definite offer to Canada which that country had specifically refused to accept and that since then tariff legislation had been enacted without reference to the 1911 act.

Repeal of the law is provided in the so-called permanent tariff bill passed by the House last year and now under consideration by the finance committee. Mr. Fielding has been in conference on the subject with Chairman Fordney of the House Ways and Means committee, who today expressed unalterable opposition to putting into force of the 1911 reciprocity act.

Ottawa, Ont., Mar. 2.—Intimation that a reciprocal trade agreement between Canada and the United States would not be favored by the present U. S. Congress will be received in both government and progressive circles here with regret. It was scarcely hoped that Mr. Fielding would be able, at the present juncture, to do more than survey the ground. This he has done and it is felt here that the conversations will lead to a much better understanding by the administrations in Washington and Ottawa of conditions in the two countries.

In view of the attitude of Congressional leaders, it is not likely that any further steps will be taken at the coming session of parliament beyond probably a declaration of policy. But should Congress enact a flexible tariff, as has been advocated by President Harding in conference he has had with Republican leaders, there is every probability that the conversations will be renewed. Were legislation enacted making the United States tariff flexible, President Harding would be given the power to raise or lower tariff duties to meet changing conditions. In this he would have the advice of the tariff-commission.

Mr. Fielding is as strong an advocate of reciprocity now as he was in 1911 and is not likely to abandon the field without further efforts.

ONE WHIPPED; ONE GETS COAT OF TAR AND FEATHERS

Beaumont, Texas, March 2.—John Sullivan, a dairy man, last night was taken up by a large group of masked men and severely beaten. He was released in front of a local newspaper office and commanded to report the occurrence to the editor.

"They told me to tell you that they whipped me because I whipped my mother," he said. Shreveport, La., March 2.—Taken from the view of political circles here is a silent band of unmasked men, William B. Gentry, 67, was pushed out of an automobile twenty minutes later at a street intersection here, clad only in his underclothes and a coat of tar and feathers. No reason for the attack was given.

KING GEORGE PLAINTIFF, PRESIDENT DEFENDANT.

Fort Worth, Texas, March 2.—King George of Great Britain, through his attorney, has filed a suit here against President Harding, asking damages of \$1,079 for alleged non-delivery, by the Rock Island Railroad, of sixty-four cases of corn beef during the war.

CANADA AUTHORS.

Toronto, March 2.—The increase in the sale of works in Canada written by Canadian authors has increased from twenty-six in 1917 to about 400 last year, according to Hugh Eayers, president of the MacMillan Co. of Canada, who addressed the Kiwanis Club here yesterday, the subject of Canadian authors. The growth has resulted partly through the efforts of the publishers, Mr. Eayers said, and partly through the awakening of a Canadian national consciousness.

BURIED TODAY.

The funeral of Mrs. Sarah Kennedy was held this afternoon from the Mater Misericordiae Home to the Cathedral for service by Rev. A. P. Allen. Interment was in the new Catholic cemetery.

The funeral of Mrs. Phoebe Hargrove was held this afternoon from the residence of her sister, 30 High street, to Cedar Hill. Service was conducted by Rev. H. B. Clarke.

The funeral of Floyd B. Lasher was held this afternoon from his late residence, 25 Britain street, to Cedar Hill. Rev. R. A. Armstrong conducted service.

FINES OF \$200. David White of McAdam, whose premises were raided by liquor inspectors on Wednesday, was convicted in the police court in Fredericton this morning of violating the prohibition act by selling liquor on Feb. 26 and keeping liquor for sale on March 1. He was fined \$200 on each charge.

YOUNGER OR PREMIER QUILTS

Crisis Near in British Political Situation.

Breach in Conservative Party Widens—Early General Meeting Expected—Election or the Resignation of Lloyd George General Belief.

(Canadian Press Cable) London, March 2.—Either an early general election or the resignation of Premier Lloyd George will be the upshot of the present political crisis, is generally believed.

The apparently widening breach in the Conservative party, together with the consistent gain in strength of the Liberals under former Premier Asquith and the Laborites, as evidenced by the recent by-elections, have forced these alternatives on the premier.

Lloyd George is understood to have served notice in a letter to J. Austen Chamberlain that Sir George Younger, leader of the Conservative essentialists, who recently attacked the premier in the House of Commons, must go or he will step down from office.

Sir George Younger's tactics have met with disfavor among the considerable section of the party, especially with Mr. Chamberlain and Lord Chancellor Birkenhead, the latter publicly voicing his disapproval in a recent speech. In this connection some significance is attached to a report that Younger may resign from the house and be elevated to the peerage.

"DAPPER DAN" HAS BEEN INDICTED

Allege He Has Been Landing Liquor Along the Atlantic Coast.

Philadelphia, March 2.—"Dapper Dan" Collins was indicted by the federal grand jury yesterday on charges of having violated the Volstead act. Helen Cromwell, said to be Collins' wife, was indicted on the same charges.

Collins was named in the indictment as the "mysterious skipper of the gas yacht Nomad," by which it was alleged, has landed along the Atlantic coast several cargoes of liquors from the British West Indies.

With his wife and three other men, said to constitute the crew of the Nomad, Collins was specifically charged with having imported 1,000 bottles of liquors from this country without a permit on Dec. 13 last.

The liquors were said to have been landed at Chester, Pa.

N. B. COAL OUTPUT 160,000 TONS

Total for Canada was 15,000,000 Short Tons Last Year.

Ottawa, Ont., March 2.—(Canadian Press)—The output of coal from Canadian mines during 1921, amounted to 15,000,000 short tons, valued at \$74,378,000 or \$4.97 a ton. This was 88 per cent of the amount mined during the preceding year, but more than a million tons in excess of the 1919 production.

FOUND GUILTY OF MURDER IN LIQUOR CASE

Plattsburg, N. Y., March 2.—Harry Frazer, of Champlain, N. Y., was found guilty of murder in the first degree at St. John's, Que., yesterday and sentenced to be hanged June 19, a despatch received here last night stated. Frazer was charged with slaying Joe Senecal, a Canadian who resided across the border a short distance from Champlain. Senecal was shot from ambush on Jan. 12, 1920, while transporting a load of liquor. Joe Laventure, also of Champlain, who was riding with Senecal at the time and who was charged with being an accessory in the crime, was acquitted.

FLAVELLE AND THE GRAND TRUNK

Ottawa, March 2.—(Canadian Press)—Rumors that Sir Joseph Flavelle is about to retire from the chairmanship of the board of management of the Grand Trunk Railway do not indicate any new development, according to government officials here, in touch with national railway matters.

Sir Joseph Flavelle took the post under the late government as a temporary appointment only, and made it clear that he did not intend to accept any permanent appointment. That position has not changed since the new government took office.

The Evening Times and Star

ST. JOHN, N. B., MARCH 2, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE LEGISLATURE

The speech from the throne at the opening of the Legislature is printed in this issue of the Times. It announces that a bill will be introduced to assist in co-operative marketing of farm products.

to say that the famine victims will number ten millions, mostly children, before the next harvest comes. The most pathetic sight of all was the children.

VITAL STATISTICS

The accurate collection, tabulation and analysis of records of births, still births, marriages, divorces, sickness and death may be said to constitute the book-keeping of humanity.

These sentences occur in a recent address delivered by Dr. C. F. Kendall, state health commissioner of Maine.

HELP FOR RUSSIA

A Canadian Press despatch throws an interesting light on conditions in Russia. The Soviet authorities are keen to be represented at the Genoa conference.

"The famine is now slowly but surely encroaching on and encircling the stronghold—Moscow—and Soviet representatives from every part of Russia, sent to get food, report that there is less and less to be had, that beginning with March the favored Red Army will begin to starve, and each succeeding month will be worse, until July when harvests, more or less scant, may relieve the situation.

Already the Ukraine has shown its independence, and has flatly refused to let any of its food be drained off to Moscow or for the Red Army stationed elsewhere. The Caucasus has some food, but its attitude is doubtful. In the Kuban, where there is also food, hostility to outside shipments has been active since last summer.

If this is at all close to an accurate description of the conditions at the end of the Soviet rule it is within measurable distance. There is no doubt at all about the famine conditions in parts of Russia, where millions will die of starvation if prompt aid is not given by the world at large.

"In the Russian famine we are witnessing the most terrible devastation that has afflicted the world for centuries. This is so appalling a disaster that it ought to sweep every prejudice out of one's mind and only appeal to one emotion—pity and human sympathy."

"Twenty to thirty millions are under famine conditions, of whom at least ten millions are threatened with death. I am telling you what I have seen. When you enter the famine lands of Russia you enter the lands of terrible silence. The very birds have shunned this country of hunger. It carries a greater sense of desolation than the Arctic ice fields. Every time the clock ticks dozens of wasted skeletons that once were men, women and children, are toppling over dead."

Col. Herbert J. Mackie, who visited the famine stricken districts of the Volga provinces on behalf of the government of Canada last summer and autumn, says: "Unless the outside world hastens to the rescue it is a conservative estimate

KEEP ON KEEPING ON!

Say, you're broke and busted And tired and disgusted And everything seems out of gear, And the friends that you had All declare that you're mad

Say, if business is bad! Don't look glum or feel sad Or knock the conditions of trade. Ten to one, you'll find, By adjusting your mind— Increasing your service and grade Of goods in your store You will profit far more

IN LIGHTER VEIN.

Discovered. An inventor from over the ocean, Went nutty and raised a commotion When he heard his wife chatter "Be a neighborhood matter, Said, 'At last! There's perpetual motion."

Revenge Is Sweet. She was sitting out at a village dance In the parish hall, when a well-meaning but rather rustic youth saw a spider running over his neighbor's collar. "Permit me," he murmured, as he bent to remove it.

"How dare you speak to me without an introduction, sir?" she blurted out. Here the spider reached her neck, and suddenly she cried: "Oh, take it off! Oh, please do take it off!"

Liquid Accident. Secretary Elmer Thompson of the Automobile Club of America said in New York the other day: "The automobile gets the blame for everything. A man lay in the middle of the road one evening surrounded by a large crowd. An old lady pushed her way into the crowd and said: "'Poor fellow! Poor young fellow! I suppose an automobile run into him."

A New Receipt. "John," said Mrs. Newby, "run to the drug store quick and get a bottle of 'Library paste'." "Library paste?" asked her husband in surprise. "Yes, if you can't get kitchen paste, I'm anxious to make some French pastry for your dinner."

"What was it, then?" said the old lady. "It was a keg, or maybe a keg and a half of beer," said the policeman.

First Woman in House of Lords. Lady Rhonda's Petition is Granted by the Committee on Privileges.

London, March 2.—A petition by Lady Rhonda to sit in the House of Lords was granted by the committee on Privileges of the House of Lords today.

Lady Rhonda is the daughter of Viscount Rothermere of the crown, said to be a food controller, who died in 1918, from an illness brought on by overwork.

Lord Donoughmore presided over the committee, composed of 11 peers: Despatch, Phillimore and Askwith.

After Lady Rhonda's right to the present title was established, her petition was granted, the disqualification of sex act had clearly applied to a case like the present and that the disability existing in the past now being removed, Lady Rhonda was entitled to sit in the House of Lords.

After further argument, the attorney general, on behalf of the crown, said he raised objection to the petition, which was therefore granted. Lady Rhonda becomes the first woman to sit in the House of Lords. Interviewed after the decision she expressed her delight that the case had gone in her favor.

RAINCOATS AND MOTORCOAT BARGAINS

The great bargain sale of waterproofs for all members of the family is being continued every day at the cold weather of Wednesday, large numbers of keen buyers were on hand throughout the twelve-hour day to select rainproof apparel for approved spring and summer.

It was surprising the demand that developed for motorcoats of these qualities. One citizen fitted his whole family with rainproof and dust coats for summer automobile trips, and the cost was only slightly over \$20. The sale continues merrily and the earliest comers get choicest goods.

FOR REHABILITATION OF WAR-STRICKEN JEWS

Kovna, March 2.—The American joint distribution committee has allocated and placed at the disposal of the national Jewish council of Lithuania 24,000,000 marks for the rehabilitation of Jews who were injured during the war, so Director Helman informed the second general Jewish committee which had just come to a close after a fortnight's session.

Austrian Confusion. One of the story told to illustrate the confused diplomatic situation in central Europe is attributed to Prince Furstenburg. He was appointed as the diplomatic representative of the old Austrian Government to the Ukraine, which then was ruled by Hetman Skoropadsky. Describing his diplomatic status to friends in Kiev, the prince said: "I am the representative of a Government that has ceased to exist. The most extraordinary part of it is that I am paid for performing the duties of this position that I do not hold."

FRANCE HARBORS NO WAR THOUGHT

Premier Poincare Addresses Newspaper Men.

Imperialism Long Ago Laid to Rest—Desire Now for Peace and Progress, But Must Guard Against Danger of Attack.

(Canadian Press Cable.) Paris, March 2.—Premier Poincare, at a luncheon given by the Anglo-American Press Association yesterday, said that "French imperialism is the old scaffold which long ago was laid to rest alongside the tomb of Napoleon in the Invalides."

"We cannot, however, remake history or revise the geography of the world. We would prefer to enjoy security from all exterior peril, but we are obliged to take account of realities, while having no greater desire than to develop peacefully at home our scientific, industrial and social progress and to maintain cordious relations with all the peoples of the world."

Chancellor Announces Economic Administration—Cut in Bills of Army, Navy and for Education.

(Canadian Press Cable.) London, March 2.—Addressing the House of Commons yesterday in a speech in which he minutely detailed the economic government had decided to adopt in connection with the recommendations of Sir Eric Geddes, Sir Robert Horne, chancellor of the exchequer, asserted that these would total £24,000,000 compared with £26,000,000 advised by the committee. Of the total amount of economies to be effected £24,000,000 would be saved in the coming financial year.

The principal points in the chancellor's address were his acceptance of reductions in the army estimates by £12,000,000 instead of £20,000,000 as proposed by the Geddes committee, his statement that the naval estimates for 1922-23 would be below £61,000,000 as against nearly £82,000,000 for the current year, and the announcement that it was his purpose to economize by a reduction of £5,000,000 in the educational estimates instead of £7,000,000 as suggested in the Geddes report.

Another interesting point in the address was the chancellor's announcement of the government's decision not to abolish the ministry of labor, as was advised by the committee.

BEVAN TAKEN BY ITALIAN POLICE

Arrest on Complaint of British Consul Following London Failure.

Naples, March 2.—The Italian police yesterday arrested Grand Le Bevan on the complaint of the British consul, who said that he was the head of the City Equitable Fire Insurance Company of London, which recently failed with a deficit of £3,000,000.

Bevan fled from London some time ago, according to the British consul, and tried to reach Constantinople. He had applied to the Turkish consul for a passport as a Turkish subject in order to avoid extradition, since Turkey does not grant extradition for financial misdoings.

GREEKS RELEASE FRENCH VESSEL

Was Captured off Asia Minor Coast—Cargo Held as Contraband.

Athens, March 2.—The Greek government has formally released the steamship Espoir, which was captured by a Greek torpedo boat destroyer off the coast of Asia Minor on Feb. 12. The E. pair sailed from the port of Itea after her cargo had been despatched.

France's decision to insist upon immediate restitution of the Espoir's cargo was communicated to the foreign office by the French minister.

Seizure of the Espoir was the subject for two notes to Greece from the French government, the first demanding release of the vessel and cargo, and the second threatening retaliatory measures if the request was not granted. The Greek government, in an answer to the first note, said it would release the ship, but not the cargo, which it contended was contraband of war destined for the army of Mustafa Pasha, Turkish nationalist leader, with whom the Greeks are at war.

Good Hardware is one of the important things to consider when building or remodeling. You will find the best of Locks, Latches, Door Butts, Sash Hardware and many other hardware requirements, well represented in our stock. Give us the opportunity to figure on your building needs—we will do our part toward keeping the cost down. Phone Main 2540 McAVITY'S 11-17 King St.

Moist, Healthful Heat for the Home. The moisture so necessary to a healthful indoor atmosphere—an atmosphere that also prevents shrinkage of furniture, thus making for economy is readily possible for any home or office by the use of ORMSBY HUMIDIFYING PANS which, filled with water, are hung on the steam radiators, next to the wall, and are, consequently, invisible. Call and see them in use. EMERSON & FISHER, LTD.

STEEL BUYING CONTINUES TO MAKE STEADY GAINS. Though Individual Orders Are Small, Demand Comes From Nearly All Industries Except the Agricultural Implement Trade. (Special Correspondence of N. Y. Evening Post.) Pittsburgh, February 24.—In the finished steel market as a whole demand has shown some further increase in the past week. By long range comparisons mills may not be satisfied with the present volume of demand, but they are very well satisfied with the pace of increase since the first of the year. No large orders have been reported, unless specifications against rail contracts prepared by the material quoted late in the year. It is possible that some orders of individual importance have been entered without being reported for the state of competition in the past few weeks makes it that the average mill seems disposed to understate rather than overstate the volume of business it is doing. The buying of steel products is markedly widespread. Almost all classes of consumers, as well as practically all distributors, are being heard from more and more, and as prompt shipment is insisted upon mills are unable to arrange their rolling schedules with any particular view to economy of production. The only consuming trade that is really absent from the market is the agricultural implement industry. Demand from the electrical factories has increased sharply in the past fortnight. A feature of the sheet metal shops making material for the building trades, such as eave trough and conductor pipe, metal lathing, ceiling, etc. Prospects in that quarter are considered entirely satisfactory. Steel ingot production in the past fortnight has been equivalent to an average rate of between 26,000,000 and 28,000,000 tons a year, this comparing with a rate under 18,000,000 tons at the end of December and a rate of 23,000,000 tons in October and November, representing last autumn's demand. The height of the spring demand is expected to bring a better operating rate still.

Gettin' Too Fat? Try His-Reduce People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist for Marmola Prescription Tablets and follow directions. One dollar is the price the world over. Get them from your own druggist or send price direct to Marmola Co., 4612 Woodward Ave., Detroit, Mich. By doing this you will be safe from harmful drugs and be able to reduce steadily and easily, without starvation diet or tiresome exercise. You CAN LINE YOUR OWN STOVE WITH FOLEY'S PREPARED FIRE CLAY. FIFTH HUSBAND BUSINESS MAN

Mrs. Walker, a Vivacious Blonde, Only 35, But Has Already Had a Congressman, Artist, Lawyer and German Baron.

Boston, March 2.—A congressman, an artist, a lawyer, a German baron, have been husbands of Mrs. Florence Ethel Walker, and she is on the eve of taking a business man as her mate.

Mrs. Walker, a vivacious blonde, is under license to wed Elwood B. Waugh of Portland, Maine, manager of a photographic enlargement office here.

No. 1, Former Congressman H. E. Still of Hartford, Conn., divorced; No. 2, Oscar M. Shea of Bath, Me., artist, deceased; No. 3, Maurice E. Walker of Newport, Me., an attorney, deceased; No. 4, Baron Alfred Kursa of New York, divorced.

Mrs. Walker has a son, seven years old, by her third husband. She is a native of Newport, Me.

MAY ARREST MOVIE ACTOR

Police Have 10,000 Word Statement from Mrs. Rupp re Taylor Murder.

Los Angeles, March 2.—Officials investigating the Mrs. Desmond Taylor murder planned today still further grilling of sixteen men taken into custody here on Tuesday on information supplied by their housekeepers.

They also had in view, they said, the possible arrest of a motion picture actor whose name was brought into the case by Mrs. Rupp, who made the general allegation that the men were bootleggers and drug peddlers and that two of them had threatened Taylor.

RECENT WEDDINGS

Eadsley-Smith. The wedding of Miss Hazel M. Smith, daughter of Dr. J. M. Smith, of this city, to J. P. Eadsley, an electrical engineer and contractor of Manila, Philippine Islands, last November, was announced in a letter received in the city yesterday.

RECENT DEATHS

Miss Elizabeth McKinley. The death occurred in this city yesterday of Miss Elizabeth McKinley. She had resided for many years in Queen street with her nephews, John and James McKinley. She is survived by two sisters, Mrs. Jane McGarvey and Mrs. Sophia McGarvey, of Biddeford (Me.). The funeral will take place on Friday morning at 8:45 o'clock from 98 Queen street to St. John the Baptist church for requiem high mass.

John Duffy. The death occurred in this city yesterday at the residence of his daughter, Mrs. Lillian Vaughan, 20 Pond street, of John Duffy. He was a resident of Norton but made his home in recent years with his daughter. He is survived by one son, William Duffy, of St. John, and three daughters, Mrs. Lillian Vaughan and Miss Nellie Duffy, of St. John, and Mrs. George McNabb, of Fitchburg (Mass.). Burial will take place in Norton.

Mrs. Jane Maguire. The death of Mrs. Jane Maguire, widow of James H. Maguire, occurred yesterday at her residence, 499 Main street. Her husband, who was a well-known baker of the North End, died several years ago. She leaves two sons, Walter, of Sydney, (N. S.), and Harry J., of this city.

Mrs. D. A. Campbell. The death of Mrs. D. A. Campbell occurred at her home in Bonny River on February 24, after a three weeks' illness

of pneumonia. She was sixty-two years of age. She is survived by her husband, two daughters and four sons. Dr. George Harris. New York, March 2.—Dr. George Harris, seventy-eight, president emeritus of Amherst College, died at his home here yesterday. An agreement was reached yesterday in Montreal between the executive of the New Brunswick and Nova Scotia mine workers and the British Empire Steel Corporation, following a conference of two days. It is said that the agreement will prevent a strike among the miners for the rest of the year. A citizen of Hartland, very prominent in political, church, business and social circles, is said to be implicated through the confession of a young girl, sixteen years of age. The man is sixty. He could not be located yesterday. A radio message received at St. Johns, Nfld, last night from the captain of the Norwegian steamer Sisto, stated that that vessel had been able to escape from her imprisonment in the ice floes off the Newfoundland coast due to the breaking of the ice by a change of wind. Hon. A. B. Copp, M.P., secretary of

Favored New Spring Fabrics Specially Displayed For Home Sewing Week The occasion of Home Sewing Week has created much interest among women who believe in getting the spring wardrobe ready before the onset of the house cleaning season begins. Handsome new fabrics for spring and summer uses are making this event of more than usual interest. Here you will find Cotton Fabrics that almost rival silks in their lustrous sheen and wonderfully lovely colorings. We have told you previously about the smart SPONGE CLOTHS and the striking, STRIPED BARONETTE SKIRTINGS. For tomorrow, another new and equally attractive fabric is featured. It is called COSY SILK and has delicate butterfly designs. It is as dainty as a weave could possibly be. You will find it very adaptable; as suitable for fine lingerie as it is for outer garments of the summery sort. Showing in beautiful soft shades of raffia, honeydew, afterglow, pink, sky and pure white. 36 in. wide \$1.45 Yd Trimmings, Linings, Patterns, Finishings, all conveniently displayed and ready for your approval. (Ground Floor.)

state, was presented in Moncton last night an address and a gold-headed cane as a recognition of his appointment to the cabinet. A. E. McEweney presided, and Mayor Edgett extended a welcome to Mr. Copp. The address was read by Ivan Rand and the cane presented by Leo Doucet. Hon. Mr. Copp expressed his gratitude in a few well-chosen words. The other speakers of the evening were: Arthur Tremblay, W. N. Goodwin, M. C. Lockhart, A. E. Killam, C. B. Keith, A. H. Jones, Adjt. H. A. Hurd, of the Salvation Army, and John Doherty. DOG KEEPS WATCH OVER DEAD MASTER Faithful Spaniel Follows J. McNicoll on Walk Ending in Suicide. Bridgeport, Ont., March 2.—With his faithful cocker spaniel Blucher on guard over his dead master, the body of John McNicoll, aged 46, was found today hanging to a limb of a maple tree on the estate of Daniel Good, on the shores of Lake Erie. McNicoll had disappeared from the home of his brother-in-law, Arthur Burton, about 10:30 Saturday night. Financial troubles are given as the cause of his act. He had been wishing for a way out of his troubles for some days. Blucher, who had been with his master at the time of the hanging, remained 86 hours on guard on the gruesome spot. The body was found by two men cutting wood, and Constable Walsh of the Mounted Police and Provincial Officer Smith supervised its removal. AN APPEAL FOR THE RUSSIAN CHILDREN "Inasmuch as ye did it unto one of these . . . ye did it unto Me." Ten million children in Russia are doomed to perish unless food is speedily sent to them. Already it is too late to save hundreds of thousands of little ones. They will die. But many may yet be saved. The opportunity is before the people of this country to help in the great work of saving human lives. Will you refuse? Can you do so? Those for whom we ask your help are surely the needy and the afflicted. They are helpless little children. Their necessity calls for a great crusade of rescue. We believe the heart of the Canadian people is sound and that their imagination needs only to be guided by the dire plight of the starving ones to ensure a quick response to the urgent need of the children. We do not believe there is one person in Canada who would refuse to feed a starving child if one such should chance to knock at their door. One's heart would instantly be opened to the helpless little one. It would be warmed and cherished with loving care. Ten million Russian children today are knocking pitifully at the hearts of all Christians and crying for food. Will you open the door and let one enter for awhile? It means so much to the little one—life or death. There is nothing so precious as human life. A helpless child is the first charge of humanity. Save the children! Issued by the Canadian Committee, Save the Children Fund, treasurer, Sir George Burn, Elgin Building, Ottawa, Ont.

The insolent alarm clock that went off at the wrong time For a little while it gave the call at 7 a.m., and was useful. When it began calling at midnight and 2 o'clock in the morning, it became a nuisance. When tea or coffee stimulates the nerves at mealtime it seems pleasant, but when it gives the wake-up call at midnight and leaves nerves hungering for sleep at mid-afternoon, the pleasure is gone and serious harm is on the way. This often happens. Thousands of people have found it fully as pleasant and far more safe, to get the comfort of a hot meal-time cup of Postum—and to know that there's not going to be any irritation to nerves afterward. Postum is delicious and satisfying, and it contains no element that can harm nerves or digestion. Postum is a safe and delightful drink for every member of the family, at any meal. Your grocer has both forms of Postum: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes. Postum for Health "There's a Reason" Made by Canadian Postum Cereal Co., Limited, Windsor, Ont.

**SPEECH FROM
THRONE AT THE
HOUSE OPENING**

(Continued from page 1)
Mr. Speaker and Gentlemen of the Legislative Assembly—

It affords me much pleasure to welcome you to the discharge of your legislative duties to the second session of the Province of New Brunswick, and to join with you in an expression of gratitude to Almighty God for the blessings we have enjoyed during the last year, both in material respects, including a fairly abundant harvest, and for progress in the work of reconstruction which has occupied the attention of all the world since the end of the great war.

It seems fitting that in this connection I should refer to an event of momentous world importance which has recently taken place, and which is likely to make for permanent peace among the great nations and go far towards rapidly bringing about a condition of widespread confidence and prosperity. This event is the holding of the disarmament conference at Washington—the first conference of the kind in the history of the world—the deliberations of which have been marked by great frankness and international good will.

Since the last session of this legislature, Canada has been called upon to speed the departure of a highly esteemed governor-general—the Duke of Devonshire—and to extend a hearty welcome to his successor, Baron Byng of Vimy, and also to Lady Byng, and on behalf of the Province of New Brunswick I join in this welcome to a governor-general whose reputation stands so high in Canada as a great soldier and leader of men, and who is so well known to hosts of our young men who followed his leadership in the fields of France and Flanders.

Lumbering and Farming.

Special reference should be made on this occasion to the conditions that have somewhat seriously affected two basic industries of this province, namely, agriculture and lumbering. The prices of farm products have decreased in a much greater degree than the prices of those commodities which every farmer has to purchase, and therefore the prosperity of those engaged in this most important industry has been greatly affected, and in addition the climatic conditions of last summer had a serious result upon many of the most valuable of the crops. The price of lumber also decreased to a remarkable extent, and financial conditions in the old country, as well as in the United States, where our lumber products have been largely sold, were such as gravely to menace the prosperity of an industry which figures so constantly and so largely in the commercial success of this province. I am pleased to inform you that, every possible effort will be made to encourage agriculture, and a bill will be introduced to assist in co-operative selling and marketing of the products of the farm. My government has had the lumber situation before it for consideration and has made certain alterations in the regulations which will affect the stumpage upon the cut of disease infected lumber, and afford a certain measure of relief to this industry. Unfortunately, during the last summer, a drought, the like of which has not been experienced in this province for nearly one hundred years, made the suppression of forest fires very difficult, but I am pleased to state that, through the efforts of the organization and officials of the forest service, the damage was kept within reasonable limits.

During the recess, I am pleased to inform you, a change was made in the trustees of the funds held for the benefit of the Saint John and Quebec Railway and the trusteeship is now located in this province. A bill will be introduced confirming the agreement reached between the government, the Saint John and Quebec Railway Company and the Prudential Trust Company, and also authorizing the incorporation of a trust company in this province to act as trustees.

The Roads.

The improvement of the highways of the province has been carried on energetically during the last year, and substantial progress has been made with regard to completing the highway programme called for by the agreement with the federal highway branch, which construction. The secondary trunk roads being built from the proceeds of bonds specially secured by the automobile funds have had their fair share of attention, but the cost of the upkeep of these improved highways is a matter to which serious consideration must be given.

The teachers of the province having signified their willingness to co-operate with the government in the matter of pensions by an annual contribution on their part and without materially increasing the financial burdens of the province, you will be asked to give attention to legislation along these lines which will provide for a more liberal retiring compensation for those engaged in this pre-eminent public service.

Hydro.

One of the most important of the government public undertakings in many years is the development of the water powers at Musquash and elsewhere, and I am happy to inform you that the work at Musquash has been practically completed and that electric current will be produced and made available for distribution within a very short time. My government will inform you as to what has been done in bringing electric current from the Grand Falls of Nepisiquit to important industries and for lighting purposes in the Town of Newcastle. The extension of the hydro power from St. John toward Moncton has been given careful consideration, and the results of the surveys of the engineers, together with estimates of cost for such extensions, will no doubt be laid before you during the session.

The important question of railway freight rates, to which your attention was called at the last session of the legislature,

has not yet been settled to the satisfaction of the business people of the maritime provinces, but many conferences have been held at which this province has been well represented, and in co-operation with the governments of Nova Scotia and Prince Edward Island, demand for those rights which were a part of the compact of confederation will be vigorously pressed.

The attention of the government at Ottawa has again been called to the arrangements, uncompleted on the part of the federal administration, to take over the wharves in tidal waters, which was proposed by the federal minister of public works in 1918, and agreed to by the legislature as requested by the federal government, as the province's part of the arrangement.

Finances.

The revenues of the province during the year were greater than was estimated and the expenditures exceeded the income by a considerable amount. Large outlays were caused by unexpected emer-

RED ROSE TEA is good tea

Always Pure and Clean and Kept Good in the Sealed Package

gencies such as the fighting of forest fires and the construction of ordinary bridges necessary to the safety of the province. I commend to your careful consideration such proposals as may be submitted to you with a view to improving the financial situation in the province. The matter of the transfer of the natural resources to the western provinces is now receiving consideration by

the Dominion authorities. My government have already taken steps to secure proper recognition of our claims. Vocational and industrial education through day, evening and itinerant schools has made substantial progress during the year, a report of which will in due course be laid before you for your consideration. The needs of public health are daily being made more apparent throughout

the countries of the civilized world—the conservation of health and lives of the people. In this respect New Brunswick, through its department of health, is rendering a service in this regard which has already justified its existence. Amendments to this act will be introduced during this session. Several other important measures will be presented for your attention, including a consolidation of the schools act, and amendments to other important acts which will touch upon the public welfare. The public accounts for the last fiscal year will be laid before you, together with the estimates of revenue and expenditure, which have been prepared with due regard to economy and the efficiency of the public service. I commend the work of the session to your most earnest attention and invoke the Divine blessing upon your deliberations.

The grist mill at Hampton, owned by W. H. Hill, was totally destroyed by fire yesterday afternoon. Mr. Hill was in his office when he smelled smoke. He found the roof burning briskly and assisted by a volunteer fire brigade, tried to put it out. But the blaze had gained too great headway and the mill burned to the

ground in half an hour. The stock on hand was practically all saved by the fire-fighters. The loss, including the building, was \$14,000, about half covered by insurance. The millinery was new and the building was fifteen years old.

PURITY FLOUR

More Bread and Better Bread and BETTER PASTRY TOO

Pure - Clean - New

In these three words is summed up one of the greatest services ever performed for the households of the Dominion. Simmons Mattresses BUILT FOR SLEEP—wholly of pure, clean, NEW cotton. No "renovated" materials. Each Mattress MADE clean. And KEPT clean. Sealed in CARTON ROLL—dust-proof, germ-proof. Delivered to the home sweet and clean.

On the face of it—here is a service that appeals instantly to the instincts of the housewife. And perhaps she cannot comprehend all it means until she knows more about conditions in the Mattress industry. True, the responsible merchant takes all possible precautions, and sells his mattresses in good faith. But there are no Dominion-Wide Pure Bedding Laws. Much still depends on the integrity of the manufacturer. We say this without prejudice to any mattress maker of integrity. We do not for a moment imply that Simmons Limited is the only maker of sanitary mattresses. But it is a fact that many mattresses are still made of "renovated" materials.

Even materials out of old mattresses discarded by hospitals, or by homes where there has been infectious disease. There is nothing to prevent it. Even clean mattresses are still hauled in open trucks through the dust and dirt of the streets. As originators of Simmons Beds, Springs and Mattresses built for sleep—as the largest single factor in the business—Simmons Limited is concerned for the integrity of the industry and the consequent well-being of the people of this country. Simmons Limited makes this unqualified statement to the merchant—

"Cut open any Simmons Mattress that comes into your store. If you do not find it up to specifications or better—ship back every item of Simmons merchandise and never send us another order."

Canada has no Pure Bedding Laws—but Simmons Limited has! Simmons Mattresses are now at your service in five styles—distinguished by Labels of different color—at a popular range of prices—

Purple Label, \$40.00	Green Label, \$16.50
Blue Label, \$25.00	White Label, \$10.50
Red Label, \$21.00	

F. O. B. Factories

Each mattress sealed in carton roll—pure, sweet and clean.

A Service due the Canadian Public
Today Simmons can give the public a complete sleeping unit. Beds, Springs and Mattresses, each built to fit the other—all built for sleep. In this way, you secure a real guarantee of sleep satisfaction.

HORTICULTURAL SOCIETY ELECTS

At the annual meeting of the St. John Horticultural Association, held yesterday afternoon, the officers for the ensuing year were elected: President, Sir J. Douglas Hazen; vice-presidents, Senator W. H. Thorne and Joseph Allison; honorary treasurer, Judge J. Russell Armstrong; honorary secretary, A. B. Dean Gandy; managing committee, Judge Armstrong, H. W. Stetson and A. B. D. Gandy.

The old board of directors was re-elected, and Senator W. H. Thorne and John Jackson added to the board. In discussing the financial statement it was pointed out by Mr. Gandy that the city of Halifax assessment for public gardens was almost \$15,000, while all that St. John granted was \$5,500, and the opinion was expressed that if the same amount was available here the park could be greatly improved.

A building in Fredericton occupied by the Farmers Co-operative Company, W. M. Minto, electrician; W. R. Dunbar, baker; Mrs. T. G. Saunders, hotel, and J. M. Chappel, residence, was badly damaged by fire last night. The flames got on the studding and flooring and gave the

Rich yet Delicate— In every cup of the genuine "SALADA" TEA. BLACK OR GREEN. will be found a flavour so rich that you may instantly recognise the fine quality of the leaf yet so delicate that it refreshes and "comforts" as no other tea will do. Samples on request. SALADA, MONTREAL.

EVANGELISTS IN VICTORIA CHURCH. Rev. Alexander and Mrs. Torrey arrived in the city yesterday, and last night Mr. Torrey commenced a series of evangelistic services in the Victoria street Baptist church. To an audience that filled the auditorium of the church at Victoria street, Mr. Torrey spoke from the text, Mark 14:8, "She hath done what she could." His remarks were chiefly directed to the Christians. He said that all who had accepted Christ as their Saviour had enlisted for ser-

A WONDERFUL PICTURE AT THE QUEEN SQUARE. Merit attaches to the whole production of "Playthings of Destiny," starring Anita Stewart, the Associated First National Pictures attraction which was shown at the Queen square theatre yesterday, and which will be on again this afternoon and evening. Sceldom has such a dramatic story been told so skilfully, and rarely has an author hit upon a series of instances so certain to hold the interest of an audience. Combine these with the excellent talent of the cast, and the splendid settings and effects that have been procured, and "Playthings of Destiny" becomes worthy of classification with the best screen entertainments. Anita Stewart naturally has the stellar honors in the cast, but Herbert Rawlinson and Walter McGrath, as well as little Richard Headrick, do work which entitle them to the highest of praise for the histrionic ability they display. Each of them does a bit of character building which makes their roles as real as if they had spent their whole lives in the environment surrounding the characters. A short sketch of the plot of the story would give an entirely wrong impression of it. To say that a woman is deceived into committing bigamy, despite the fact that her entire love belongs to the first man she has married,

Glaxo "Builds Bonnie Babies" Glaxo is super-milk. Glaxo is pure, uncontaminated milk and cream made safe and suitable and comfortably digestible for Baby by the Glaxo Process.

sounds bizarre, but the circumstances which lead to just this situation in "Playthings of Destiny" are of the sort that no other course is possible for Juliet Laneau, the character portrayed by Miss Stewart, to pursue. WEST END RACES. Two good races were run off on Hilton Belyea's west end rink yesterday afternoon before about two hundred interested citizens. The first was for west end girls, twenty-one and under. Sybil Beattley came first, with Audrey Lord second, and Florence Belyea third. In the boys' event, ten years and under, George Fowler was first, with Richard Lee second and Donald Myles third. Little Sybil Beattley is but ten years old. Prizes were given for each place. W. E. Morris acted as judge, and J. W. Peters, of Bridgetown (N. S.) was starter. John Beattley was clerk of the course.

AFTER EVERY MEAL WRIGLEY'S NIPS. It's a DOUBLE treat—Peppermint Jacket over Peppermint gum. 10 for 5c. Candy jacket just "melts in your mouth" then you get the delectable gum center. And with Wrigley's three old standbys also affording friendly aid to teeth, throat, breath, appetite and digestion. Soothing, thirst-quenching. Making the next cigar taste better. THE FLAVOR LASTS.

The greatest Institution in the World! Housewives—do you Study Food Values? Those wonderful new recipes that you occasionally "try out"—the new kind of cake—the unusual savoury or salad—do you ever think whether they even contain sufficient nourishment to be worth the time and effort you have put into their preparation? Do you realise that Bread contains the three greatest essentials of nourishment, viz.: heat-giving, flesh-forming and bone-making properties? Therefore, the family that regards Bread as its principal article of food is likely to be better nourished. Bake more Bread—bake better Bread—from ROBIN HOOD FLOUR—the Flour that yields the rich, creamy loaves of fine, flaky texture with the high golden crust. Western Canadian Hard Spring Wheat is the finest in the world, and ROBIN HOOD is milled only from the pick of the crop. ROBIN HOOD works much easier in the dough, and due to the rich gluten in the wheat we use, actually yields more and better loaves to the sack than any other—this is the reason why it is guaranteed better.

Robin Hood Flour "Well worth the slight extra cost"

I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Mrs. John Ireland, R.R. No. 2, King, Ont., writes: "I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person."

MOCCASIN DANCE

"Well, we held that much postponed moccasin dance last evening, and I'm mighty glad it is over," said Hilton Belyea last evening.

FAMOUS VAUDEVILLE STAR TAKES IRONIZED YEAST WITH AMAZING RESULTS

I NEVER dreamed that Ironized Yeast could bring such an extraordinary improvement in me. Why, it just seems to have made an entirely new person of me! Such is the amazing statement of Lillian Steele, star of the well known "Lillian Steele Trio," vaudeville headliners, made when interviewed regarding her experience with Ironized Yeast. "My work played havoc with my system in general and before I knew it I was in a badly run-down condition. I seemed to lose all my energy. My appetite deserted me. I kept losing weight, and my color was fast disappearing. The worst of it all was that nothing seemed to bring any noticeable relief. I surely thought that I would have to give up the stage for a while, and rest up. It was then that I heard of Ironized Yeast. "Ironized Yeast seemed to have a magical effect on me. It just seemed to fill me with new life—new energy! My weight and appetite both showed splendid increases, and the improvement in my complexion is just wonderful. I cannot describe the delight I feel because of my improvement, and will always be one of Ironized Yeast's most enthusiastic boosters." Splendid Results Everywhere Miss Steele's statement, remarkable as it may seem is not at all unusual, for from everywhere come equally surprising reports of the results brought by Ironized Yeast. The reason for these results is simply this—Ironized Yeast is not only rich in all three essential vitamins, but in addition contains a type of yeast which is unequalled as a reconstructive agent—a yeast which is cultured expressly for medicinal purposes.

LOCAL NEWS

The 'Prentice Boys' Association held an enjoyable social evening in their hall in Guilford street, west end, last evening with about one hundred present. Dancing was conducted downstairs, while games and a short programme were furnished upstairs. Refreshments were served at the close.

The report of the city electrician, Barry Wilson, for the month of February, shows that during the month eighty-seven permits were issued; \$165.34 was collected in fees; ninety-five inspections were made; seventy-seven permits completed; an average of 1.2 inspections to each permit made and fourteen new services authorized.

Members of the congregation of St. Andrew's church met last night in the church hall to discuss the matter of work for the young people of the congregation.

"WE ARE HERE TO SERVE YOU"

Imported Model Hats Now On Display

Women known for their discrimination in taste, realize the importance of choosing a pattern hat. With an oddly shaped skull jabbed through its brim, or a furry of burnt goose feathers adhering to either side, the new spring pattern nods its piquant greeting. Their charm is in their vivid colorings, their attractiveness in their fine materials. Youthful, stylish, vivacious with the newness and spirit of spring.

LOCAL NEWS

MRS. LESLIE SOMERVILLE. Many friends in the city and elsewhere will learn with regret of the sudden death, from pneumonia, of Ada Beatrice, beloved wife of Leslie Somerville, at her home, Millbrook, Queens County, on Feb. 20. She was a daughter of the late Alfred and Ella M. Brown, and was twenty-four years and four months old. Besides her husband and mother she leaves two sisters and one brother, besides a large number of sorrowing friends to mourn their sad loss.

DUE HERE ON SUNDAY.

The C. P. S. Ltd., liner Montcalm sailed from Liverpool for this port on February 24 and is due Sunday. She has 201 cabin passengers, comprising 197 British subjects and five continental, and 224 third class, comprising 322 British and Scandinavian and two continentals. Among the passengers is Sir Augustus Nanton. The Coricopa is also due on Sunday, from Southampton, Antwerp and Havre, with eighty-two cabin and 269 third class.

RED CROSS RELIEF WORK

A meeting of the executive and relief committees of the Red Cross Society was held this morning. It was reported that they were nearly at the end of the fund for relief work and it was decided to ask the provincial government for a grant to enable them to carry on until the end of March. Reports were read of ninety-six cases which came under the notice of the committee. Thirty-one of these were taken over by the D. S. C. R. and the other sixty-one were investigated. Letters of thanks from some of the people aided were read. A note of thanks was sent to Dr. G. B. Peat for his willingness to help the society in relief cases.

MUCH GRAIN BY C. P. R.

During the month of February the C. P. R. delivered to ocean liners no less than 370,000 bushels of grain, compared with 1,154,000 bushels during the corresponding month in 1921. The movement during the month was exceptionally heavy, and as a result there has been as much handled so far this season as there was up to April 5, last year. The total delivered this season amounts to \$240,000 bushels. In addition to this, there are 1,500,000 bushels on hand and 110 cars en route east of Megantic, with over 500 more en route from the west.

NAVIGATOR IS IN PORT AGAIN

Quite an Experience in Bay of Fundy as Ship was Disabled. Sheathed in ice from bow to stern and from water-line to rail, the Canadian Government Merchant Marine steamer Navigator arrived in port at 11:30 o'clock last night, in tow of the tug Gopher, after lying helpless in the rough waters of the Bay of Fundy for a night and a day. She tied up at McAvity's wharf about noon today, where engineers will make an examination of her engine. The Navigator left here on Tuesday morning for Halifax, under a special permit, to undergo inspection and overhauling in drydock there. She made slow time due to the heavy weather, until about eight o'clock on Tuesday night, when a cylinder head blew out of one of her engines. Captain Gilbert at once let go both forward anchors and found about thirty fathoms of water. He was then a little north of Boar's Head, in Petit Passage, about fifty miles from St. John, and a mile from shore. The wind was blowing strongly and the seas were mountainous and some anxiety was felt as to whether the lines would hold. If one broke the ship was in a fair position to drift ashore, but they held and the ship's wireless soon brought the steamer Bothwell to the scene.

The Bothwell tried to put a line aboard the disabled ship, but nearly went ashore herself in the attempt and was obliged to desist. The Bothwell stayed alongside until yesterday morning when the Gopher arrived from St. John and the Navigator was towed into the harbor. The sea was buffeted about and the ship's officers said this morning that it was one of the roughest nights which they have ever experienced, but that the ship was staunch and well built and withstood the elements in an excellent manner. The heavy sea broke right over the bridge and froze wherever they struck. It is expected that the Navigator will be tied up here until a new cylinder head can be procured from Montreal.

HIGH SCORES BY ROTHESAY BOYS

Best Shooting Yet in Third Competition in C. R. L. Match.

The best shooting of the season at Rothesay Collegiate School has been recorded in the third competition of the Canadian Rifle League match, shot recently by a team from the school. The boys totaled 1,028 out of a possible 1,100, making an average of 92.2 for the team. In the first two competitions the averages were 90.2 and 89.9 respectively, and this latest high score brings the season's average up to 90.4. If the cadets keep up this brand of shooting for the last competition and make their average 94 for the four shoots, there will be a prize awarded to each boy on the team. The fourth shoot will be held on Monday, and the results are awaited with interest.

POLICE COURT

Two men pleaded guilty to charges of being drunk and were remanded. Frank Irvine pleaded guilty to a charge of being drunk, but couldn't remember whether or not he had any liquor in his possession. Sergeant Steele of the C. G. M. M. police force testified that he arrested the defendant about 3:30 o'clock yesterday afternoon and found part of a bottle of gin on him at the time. A fine of \$20 or eight months in jail was imposed. The accused said he found the bottle in the hold of a ship which he was working.

MOTHER SERIOUSLY ILL

Mrs. Herbert Downie received a telegram yesterday afternoon from her sister, Hazel, in East Boston stating that her mother was seriously ill and to go to Boston by first train. Mrs. Downie left by train last evening.

MORE EVIDENCE IN WILL CASE

Interesting Testimony in Connection With Contest Over Document.

The contested will case of Charles Nevins was continued this morning in the Probate Court before His Honor Judge McInerney and some interesting evidence developed. Howard H. McFarlane testified that he was working in the house of G. W. Shanklin in Prince Edward street as an electrician after Mr. Nevins's funeral and he distinctly heard Miss Susie Smith talking about a will and saying that it was in her favor but had not been signed. This evidence was corroborated by Lawrence M. Johnston, also an electrician. Coleman Cosman, postal clerk, gave evidence that he was a neighbor of Mr. Shanklin and after seeing a notice in a newspaper in September, 1916, of a marriage between G. W. Shanklin and Marie Smith, had extended congratulations to Mr. Shanklin as the bridegroom. These felicitations had been accepted and written. He knew that Susie Smith lived at the house of Mr. Shanklin at 312 Prince Edward street; he knew of her mother being there and he had also seen Howard Morait, one of the witnesses to the will, enter the house with a latch key.

This evidence was brought out on examination by D. Mullin, K. C., who sought to show a marriage between Miss Smith and Mr. Shanklin and produced copies of newspapers of Sept. 11, 1916, showing record of a marriage between a Marie Smith and a W. G. Shanklin. The witnesses were cross-examined by C. F. Sanford and J. F. H. Toed, and adjournment was made until this afternoon.

HIGH SCHOOL BOYS ARE CHAMPIONS

A Stirring Basketball Match With the Outlaws.

While the senior game in the City Basketball League last evening between the Trojans and the Y. M. C. A. team attracted considerable attention, one between the High School team and the Outlaws of the Y. M. C. A. was as equally big an attraction. The High School team are conceded to be one of the fastest intercollegiate teams in the provinces and won their section of the league quite handsily. The Outlaws organized this year and won the championship of their section. As a result a series was arranged between these teams to decide the championship of the city and the game last evening decided the issue. The High School boys winning by a considerable margin.

The playing of the champions was of a high calibre and by their combined efforts they aggregated forty points to their opponents' 21. Fraser scored fourteen, Les, ten; Potter, fourteen, and Welch, six, while Wilson gave valuable aid in the combination work. The showing of the Outlaws was also good. They were pitted against an older and faster organization and despite this fought hard until time was called. Maxwell, one of the forwards, scored seven points; Lowe, two; and Johnson, two, while Campbell and Butler strove valiantly against their agile opponents. It was a good sports game. As the numerous supporters on hand and they cheered lustily for their favorites.

TOM DALY WITH LOS ANGELES

"Sporting News" Wonders at Majors Letting Former St. John Man Go.

In a recent issue of "The Sporting News," published in St. Louis, special mention is made of Tom Daly, who was recently turned over to the Los Angeles club by the Chicago Cubs. The article follows: "Only recently President William Veck obtained waivers on Tom Daly, catcher, who has been turned over to Los Angeles, on which club he will be the first string catcher. It was no snap to get Daly out of the league. Personally I wonder how certain magnates had the nerve to pass on a backstop of Tom's ability. He is not a star of Killer's magnitude, but he is superior to many other receivers in the league. The St. Louis Cardinals, Brooklyn Dodgers and Phillies could have taken him and I am surprised that all waived. Daly was one with the Angels and my predictions are he will be the star of the coast league."

3 Day Sale of UNDERWEAR

BIG VALUES TO FINISH SEASON

There will still be many days when the cold wind blows and Knitted Underwear feels good. So this is a great opportunity to get the garments you need to finish the season, at a very low cost.

Home Furnishings of Rare Charm Created to Strengthen Home Ties

The Living Room, as the name implies, is the centre of family life. Here are woven the ties that bind the heart to the home. The more harmonious the surroundings in this important room—the more the furnishings express beauty and charm—the more attractive becomes this soul of the home, and the greater is the wholesome influence it exerts.

At Everett's every piece of furniture, every article of home furnishing for the Living Room, is designed to truly embellish some home, and thus to create a fine and more enduring love for the family circle. And the rare beauty and exclusiveness of these choice furnishings are but added virtues to their homelike comfort and usefulness.

Such a wide selection of distinctive home furnishings for the Living Room is offered here that every type of taste and purse may be gratified.

Comparison of values is urged, that an additional incentive to patronize Everett's may be revealed.
